FIFTY-THIRD YEAR

10 CENTS

Texico, Faculty Complete School To Begin August 24

Faculty for the Texico school was completed early this week with the hiring of a science teacher. Five new teachers will begin duties with the school when it convenes on August 24, and Mrs. Jean Green will return to the faculty after a two year absence.

Teaching here for the first time will be Melvin Rigley who holds both a B. A. and an M. A. degree from Eastern New Mexico University. He will be teaching science and driver's training. Rigley has had 10 years experience, all in New Mexico. He has taught four years in Roswell, three years at Dora, two years at Grady and one year at Elida. He is married and the father of three children, seven, nine and 10 years of age. They will be students in the Texico school.

Mrs. Lillian Jones who has three years experience will teach Spanish and English. She has taught two years at Floyd and one year at Dimmitt. Mrs. Jones, whose husband is in the U. S. Air Force stationed at Cannon Air Force Base has a B. A. degree from ENMU. She has one child, three years of age.

Gerald Tiffin will replace Gary Stelling as band director. He will be on his first teaching assignment, although he holds both a B. A. and an M. A. in music from ENMU. Last year he was a graduate assistant in the music department at the college. He was recently married to Sue Tindle of Melrose and she will attend ENMU this year.

Mrs. Wanda Turnbough will teach in the elementary school

division. She received a B. A. degree from ENMU this past spring. She will be on her first teaching assignment. She is the mother of two boys, 11 and seven years of age. Her husband is a butcher and is employed by a grocery store in Portales. The family is moving to Texico this week.

Mrs. Katherine Martin will also be teaching in the elementary school for the first time. She received her B. A. degree from the University of Texas and is doing graduate work at Eastern New Mexico University. She has four years experience, having taught in Colorado three years and in New Mexico one year.

Her husband is associated with the Discount Builders Mart in Clovis. Mrs. Martin is the mother of three children, eight,

10 and 13 years of age, respectively. They will attend the Texico school.

Returning high school teachers include: A. D. McDonald-superintendent; James (Jim) Pierce - high school principal, Mrs. Lillian Allman, C. B. Stockton, Paul Frederick, Mrs. Jean Lacey, Eddie West, Billy Bratton, Johnny Green, and Mrs. Mary Peyton.

Teachers returning to the elementary school faculty include: Mrs. Zelfa Younger, principal, Mrs. Leroy Faville, Mrs. Hazel Stewart, Mrs. Lela Stockton, Mrs. Avis Patterson, Mrs. Mattie Mae Looper, Windsor Lacey, and Mrs. Jean Green.

Colleen Axe will return as school secretary and Mrs. Margie Dixon Taylor retains the position as school nurse.

Mrs. A. B. Bell will again head the lunchroom staff. She will be assisted by Mmes. Nora Day, Paul Huber and Sam Hukill. Custodians will be Ernest Cain and A. B. Bell. They will be assisted by two part time custodians, Walter Curd and Mrs. Zona Crooks.

Supt. McDonald announces that busses will run on schedule on August 24 and pick school children up to bring them to school. They will be returned home after noon. Lunch will be served in the cafeteria on the opening day of school, he stresses.

Summer Band Program Underway

Summer band rehearsals for the Farwell school bands began Tuesday morning and are to continue through the rest of the summer with rehearsals scheduled daily Monday through Friday.

Following is the schedule of rehearsals announced by Tommy Mayfield, band instructor. MONDAY THROUGH FRIDAY: 8 a. m. - Beginner Band; 9 a. m. Intermediate band; 10:00 a. m. 7th and 8th grade marching band; 10:45 a. m. 9 through 12 grade marching band;

EVENING REHEARSALS: Monday; 6:30 high school brass sectional; 7:30 high school All-regional try-out people; Tuesday; 6:30 high school woodwinds; 7:30 high school full band; Wednesday; 6 high school percussion sectional; Thursday; 6:30 high school combined marching rehearsal; 7:30 high school playing rehearsal.

Mayfield is encouraging all of the band students to attend as many of the rehearsals as they can-all if at all possible. The band hall is air conditioned and it should not be too uncomfortable, he says.

Supplies For Beginners

Children who will be beginning school for the first time this year in the Texico school (first grade) should bring with them on registration day their birth certificate, all immunization records (including polio, small pox and diphtheria).

In addition they will need (\$2) two dollars for supplementary textbooks, a big pencil, crayons (eight in box), tablet (wide line), white paste (not liquid) and a small box of facial tissue. They should also bring a cigar box in which to keep the supplies.

Children who will be six years of age by January 1, 1965 should attend school this year.

Tribune Named Tops In Towns Under 3000

The State Line Tribune was named the top newspaper in its class at the annual West Texas Press Association convention in Midland over the weekend, winning the general excellence award for the third time in the past 10 years.

The award was presented to W. H. Graham, publisher, at the annual breakfast Saturday morning. The plaque reads "For outstanding achievement in the field of journalism -- First Place." The Tribune competed with West Texas newspapers published in towns under 3000 population. The

award was presented by Southwestern Bell Telephone Co.

The Tribune first won the coveted general excellence spot in 1955 and again received the recognition in 1959.

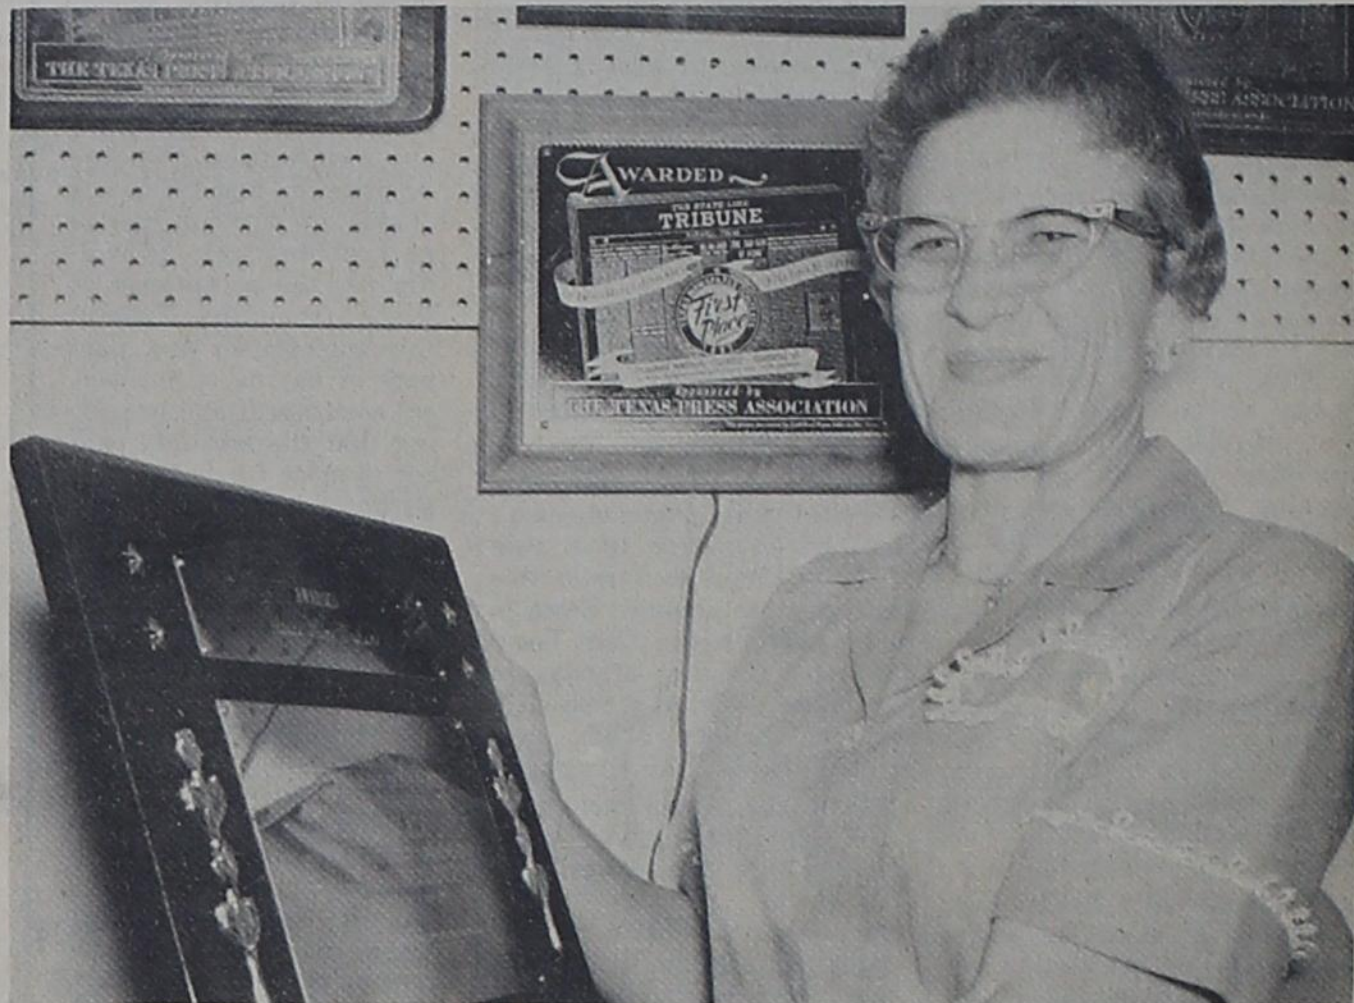

Graham expressed his appreciation to Mrs. Jim Moss, who directs the news writing for the paper, and to John Getz, who is advertising director, for their work in achieving the award.

Special thanks also go to our advertisers and those who are so helpful in keeping us informed on the news - for without you there would be no Tribune.

Judges consider news writing, society reporting, advertising, pictures, columns and the general make-up of the paper, in deciding the winner of the general excellence trophy.

Mr. and Mrs. Graham attended the convention Friday and Saturday. Graham was named to the scholarship committee for a two year period. The

Association awards journalism scholarships to worthy students each year and the committee directs this activity.

TOPS IN GENERAL EXCELLENCE in towns of less than 3,000 people was the award made to The Tribune at the meeting of the West Texas Press Association last week. Mr. and Mrs. W. H. Graham were there to accept the plaque, but Chris Moss of the staff, above, did the work, and so she gets to show it off.

Call Comes-John McCuan Leaves For Okinawa

John Gordon McCuan, who has been anxiously awaiting a port call since the first part of July left Sunday on the first leg of a journey which will take him to Okinawa where he will be teaching school for the next year.

McCuan was taken to Albuquerque by his parents Mr. and Mrs. Dale McCuan, where he boarded a plane for Las Vegas, Nevada and San Francisco. First port call for John was cancelled early in July (possibly due to an error in the starting date of school on the part of government officials).

McCuan was to have his final briefing at Travis Air Force Base on Monday and leave immediately for Okinawa. Several teachers who will be assigned to schools in the Orient were to be on the same flight with McCuan. "This is my first time to fly and I am truly hoping that I won't be air sick," said McCuan before boarding the plane.

Johnny (as he is familiarly known by local residents) began his school days in 1945 at the Farwell school under the guiding hand of Mrs. Mary Whitley. For the next twelve years he was a student in the school graduating in 1957. He immediately entered college at Eastern New Mexico University and began training to teach. He received a bachelor's degree in elementary education in 1961.

For the next three years he taught in the Ranchvale School system (north of Cannon Air Force Base). It was while teaching the dependent children of air force personnel that Johnny became interested in teaching in the government schools overseas. In November Johnny made application to the Department of Defense-Department of Schools, for a teaching assignment giving the Orient as his first choice. "The only place I did not want to teach was Cuba," said Johnny, adding that Cuba was taken off the list of eligible places soon after he had made application.

In March Johnny received the assignment and was told that Okinawa was to be his home for the next year. Since that time he has been busy making arrangements for the necessary materials and clothing for a year's stay.

He received a master's degree from Eastern New Mexico University in June of this year.

Male members of the faculty on Okinawa will be housed in Bachelor Officer Quarters and will be granted the same privileges as army officers. Many of the quarters house 59 men while others are built for only four men. Johnny said "I am of course hoping for lodging in one of the smaller quarters but will be happy anywhere I am assigned."

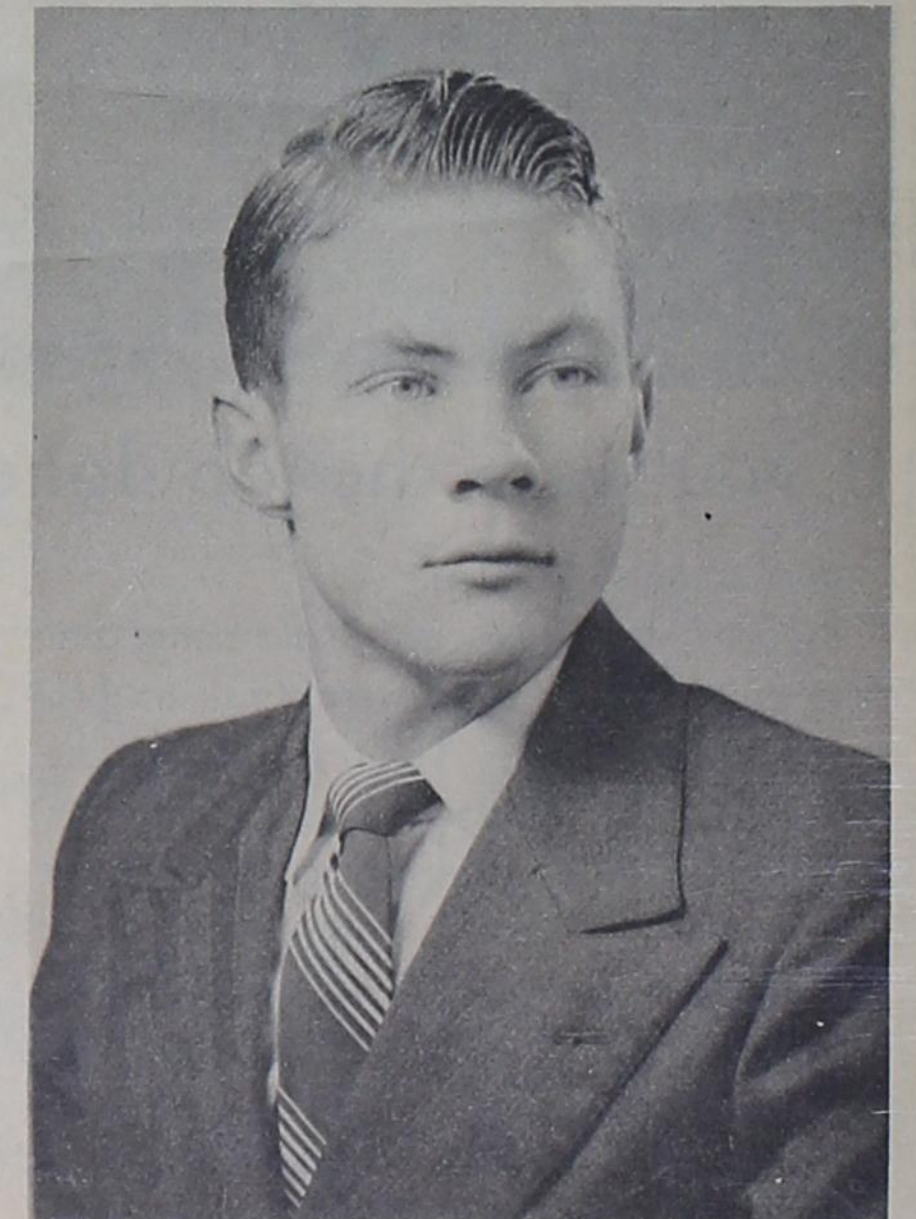

He was allowed to take only 66 pounds of clothing and other necessities with him on the flight. An additional 350 pounds of hold luggage is acceptable for teachers and they are also given permission to take 500 pounds of educational materials. "In all I only took about 350 pounds of supplies, clothing, and other materials," said Johnny.

Johnny is looking forward to teaching on Okinawa as a somewhat different experience to teaching in the states. Some 10,300 children of servicemen are in schools on the small island (which is no more than 68 miles in length and 18 miles across at the widest part). He will not be teaching any of the natives - but hopes to learn much from them.

He is planning to do as much traveling as time and money will allow. Places he expects to visit include--of course--Hong Kong, Korea, Japan, the Philippines and Thailand--(with the situation there--he is unsure of that trip but if possible will go there). Travel for Johnny prior to this time has been somewhat limited--with only short trips taken to areas in the states--mainly in the southwest.

Johnny plans to teach in Okinawa one and possibly two years--and is making plans at this time to apply for an additional assignment to some other overseas base.

Knowledge and experience gained from teaching in the overseas area are reasons given by McCuan for accepting the assignment on Okinawa--where he will be receiving a much lower salary than in the United States. "I believe I shall be a better teacher for having had this experience," said Johnny going on to say "A person can teach something he knows about first hand much better than he can something he has only read about in books."

JOHN GORDON MCCUAN

Two Vacancies Remain On Farwell Faculty

Two vacancies remain on the Farwell faculty according to Supt. W. M. Roberts. The vacancies to be filled are: a second grade teacher, a girls basketball coach. School will begin officially at Farwell on August 31, with students in the high school division to begin registration on Thursday, August 27. All elementary students will register on the first day of school.

New teachers in the high school division are Miss Laura Wyman, English and Spanish; Mrs. Mary Ellison, English and speech; Roe Davenport, chemist, physics and math; Toby Booth, football coach, history; Martin Lewis, science and math.

Teachers returning on the high school faculty are: Robert Morton, agriculture; Mrs. Marjorie Balestri, home economics; Mrs. Peggy Woodard, commercial subjects, Tommy Mayfield, band; Mrs. Lenora Tatum, junior high school Eng-

lish; Jerry Dee Owen, junior high football coach; Vernon Scott, boys basketball coach and junior high history, Miss Maude Hicks, sixth grade, Mrs. Larje Hill, high school math.

In the elementary school new teachers include: Mrs. Joe Springer, 4th grade; Mrs. Beth Miller, 2nd grade, Mrs. Averil Cochran, 1st grade. Other teachers in this division are: Mrs. Margaret Kennedy, 5th grade; Mrs. Hattie Bolling, 5th grade, Mrs. Hattie Coffey, 4th grade; Mrs. Julia Heblson, 3rd grade; Mrs. Isla Rhea Huffaker 3rd grade; Mrs. Lauretta Pool, 2nd grade; Mrs. Elsie Cain, 1st grade and Mrs. Mary Whitley, 1st grade, Johnny Willson, 6th grade.

Superintendent is W. M. Roberts and principals of the various divisions are: high school--Amos Tatum; junior high school--James Craig; elementary school--Jack Williams.

Mrs. Gerogia Lee Rundell is school secretary, and Mrs.

Dorothy Eason is tax collector and assessor. Mrs. Katherine Lockhart will return as school nurse and Mrs. Frances Clarke will again be school counselor.

Transportation foreman will again be H. R. (Mutt) Crook. His corps of bus drivers will include: Jerry Owen, Bob Scott Anderson, Gilbert Dale, Johnny Atkinson, Butch Ford and Bruce Billingsley. Substitute drivers are: David Blair, Jim Morton, and Gary Blain.

Heading the lunchroom personnel will be Mrs. Harold Haynie as supervisor. Her assistants will include: Mrs. Freddie Harriman, Mildred Sharum, Wanda Walker, Mildred Erwin and Lillie Hughes.

President of the school board is Buck Gregory and secretary is James (Pat) Patrick. Other members of the board include: A. H. Haseloff, J. T. Ford, J. H. Curtis, Donald Christian and W. D. Prince.

Parents Invited To Discuss Enrollment

Jack Williams, elementary principal at the Farwell school announces that he will be in his office on Thursday, August 20 from 1 p.m. until 4 p.m., for the purpose of visiting with parents in regard to student enrollment.

Elementary students will enroll the first day of school--August 31--during the regular school hours. It would be advisable for parents to wait until after the first day of school

to purchase school supplies, says Williams.

He announces the following charges: Lunch room fee--pre-

ferably a week in advance--daily -- 35¢; weekly -- \$1.75; monthly--\$7.00; enrollment fee; payable on date of enrollment--

\$3.00. Insurance - optional--accident-24 hour protection-12 months -- \$12.00 -- at school protection-nine months--\$6.00.

Shooting Ends Argument

The condition of Antonio Andrea 45, who was shot by his brother-in-law, Saltero Madina Sr. 37, Saturday following a family argument and drinking spree was described early this week by sheriff's officials as satisfactory.

"He will apparently recover barring complications," said Sheriff Charlie Lovelace.

Madina, who surrendered to sheriff's officers shortly after the shooting on Saturday was arraigned on Monday morning and had his bond set at \$2,500. He made bond and is at liberty to await grand jury action. He was accompanied to the sheriff's office on Saturday by his employer, Markum Chadwick. The injured man is employed on the Clarence Johnson farm. Madina was charged with aggravated assault with intent to kill.

The victim was shot four times, twice in the stomach and twice in the chest. He was allegedly shot as the men were riding in a pickup on a country road about six miles from Farwell. Madina apparently became frightened of the victim when he learned the man had a rifle in the vehicle in which they were riding.

Practice To Begin

All boys who will be playing football in Farwell this year should pick up eligibility blanks from Coach Toby Booth, at the field house any afternoon this week between the hours of 4 p.m. and 6 p.m.

Monday morning 9 a.m., all players should report to the fieldhouse to have their equipment issued. Practice will begin Monday evening at 7 p.m. and will continue daily at the same hour until the beginning of school on August 31.

Coach Booth says, at the present time prospects for the year look good with 16 lettermen returning from last year's squad. Season record last year was eight wins and three losses. The Steers are the defending district champions.

First game for the Steer squad will be on September 4, when they will meet the Friona Chiefs on the local field.

Vernon Scott will again be assisting with coaching duties.

You might be interested in knowing that in the catching-up - with - the - Joneses department the Grahams have taken a giant step forward and hooked onto the community TV cable.

Besides bringing a great variety of programs plus a dependable picture to the Graham household for the first time, this new domestic acquisition has generated a lot of heat over the question of what channel is going to be turned on and when.

In other words, the battle between Mom and Dad and the kids over what we want versus what we ought to have has been brought in from the store right to our own living room. Well, I think we can handle this all right, but wouldn't you know it that the young'uns have already set up a howl for a COLOR TV set, of all things. We thought they'd be so pleased with the cable, that would settle their wants for a while, but nothing doing.

Especially in the case of Ronny and Hal, who are now big enough to get around a little and are moving in some circles where it is obvious that some households are better provided for than their own, we've been receiving some candid remarks.

The other night, just as a program was beginning, the announcement was made that the following Walt Disney program would be in "living color." Ronny remarked, to no one in particular but loud enough for all to hear, "Yeah, Walt Disney in living black and white."

If credit were to be acknowledged where credit is due, we would have to hand it all to Chris Moss, our faithful Gal Friday, for bringing home the bacon at the West Texas Press Association contest last week.

Due to her unremitting efforts, The Tribune came home with a swell looking plaque for the best paper in towns of less than 3,000 population in West Texas.

Snake Bite Victim In Good Condition

Ronny Ussery 17, son of Mr. and Mrs. James Ussery was described as in good condition at press time by family members.

Ussery was bitten by a rattlesnake while on a hunting expedition with Donnie Powell, seven miles south of town Tuesday morning. When the snake struck

him he automatically shot the snake. He and his companion are unable to say how large the snake was.

Ussery was taken to a doctor by his companion and later rushed to the hospital by state police who had been alerted.

He will remain at Clovis Memorial Hospital receiving treatment for the next several days.

Fire completely destroyed the trailerhome home of Mr. and Mrs. Wiley Stacey on Stateline Rd. and Wheeler Ave. in Texico Tuesday afternoon. The fire was believed by firemen to have started around the air conditioning unit. Total damage was estimated at around \$10,000 by the owner. All clothing and household articles not burned were severely damaged from water and smoke. Firemen, shown battling the blaze arrived soon after the fire was discovered but were unable to save the home.

College Friends Visit

Visiting with Shirlene Martin Sunday were Jean Proctor, and

Mike Earl, Seagraves, Pat Kaltwasser, Oklahoma Lane, Don Madison, Lamesa and Bobby Atkinson, Farwell.

Misses Proctor, Kaltwasser and Martin were suite mates last year at South Plains College in Levelland.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 3, 1964.

SENATE JOINT RESOLUTION NO. 10 proposing an Amendment to Section 51a of Article III of the Constitution of the State of Texas by adding a new Subsection to be known as 51a-2; giving the Legislature the power to provide, under such limitations and restrictions as may be deemed by the Legislature expedient, for direct or vendor payments for medical care on behalf of individuals sixty-five (65) years of age or over who are not recipients of Old Age Assistance and who are unable to pay for needed medical services; providing for the acceptance of financial aid from the Government of the United States for such medical payments; providing that the amounts paid out of state funds shall never exceed the amount that is matchable out of Federal funds for such purposes; providing that certain means relating to the correction or remedying of abnormalities of vision shall be included within such medical care service or assistance; providing for the necessary election, form of ballot, proclamation, and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended by adding thereto a new Subsection to be known as Subsection 51a-2, which shall read as follows:

"Subsection 51a-2. The Legislature shall have the power to provide by General Laws and to make payment for same, under such limitations and restrictions as may be deemed by the Legislature expedient, for direct or vendor payments for medical care on behalf of needy individuals sixty-five (65) years of age or over who are not recipients of Old Age Assistance, and who are unable to pay for

needed medical services. The payments for such medical assistance on behalf of such needy individuals shall be in such amounts as provided by the Legislature; provided, however, that the amounts paid out of state funds for such purposes shall never exceed the amount that is matchable out of Federal funds for such purposes; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision.

"The Legislature shall have the authority to accept from the Government of the United States, such financial aid in the form of medical assistance on behalf of the needy individuals sixty-five (65) years of age or over who are not recipients of Old Age Assistance, and who are unable to pay for needed medical services; providing for the acceptance of financial aid from the Government for the purpose of paying such medical assistance; and providing that the amounts paid out of state funds for such purposes shall never exceed the amount that is matchable out of Federal funds; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, 1964, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to the Constitution giving the Legislature the power to authorize vendor payments for medical care on behalf of needy individuals sixty-five (65) years of age and over who are not recipients of Old Age Assistance, and who are unable to pay for needed medical services; providing for the acceptance of funds from the Federal Government for the purpose of paying such medical assistance; and providing for the acceptance of financial aid from the Government of the United States for such medical payments; provided that the amounts paid out of state funds shall never exceed the amount that is matchable out of Federal funds; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision."

viding that the amounts paid out of state funds for such purposes shall never exceed the amount that is matchable out of Federal funds; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision."

"AGAINST the Amendment to the Constitution giving the Legislature the power to authorize vendor payments for medical care on behalf of needy individuals sixty-five (65) years of age and over who are not recipients of Old Age Assistance, and who are unable to pay for needed medical services; providing for the acceptance of funds from the Federal Government for the purpose of paying such medical assistance; and providing that the amounts paid out of state funds for such purposes shall never exceed the amount that is matchable out of Federal funds; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have the same published and held as required by the Constitution and the laws of the State of Texas.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Fresh-air central heating? Ask almost anybody:

If you want the job done right... do it with gas.

We sell warm fresh air. Together with some good local heating contractors, we sell far more warm fresh air than anybody else in town. The reason is that the new gas central heating systems perform with such absolute and lasting efficiency. There are four reasons:

1. New gas systems circulate fresh air evenly to every corner of your house. There is no stale air, no stale odors.
2. New gas systems filter the air sky-blue clean.
3. New gas systems are so efficient they

work for 1/4 the cost of electric systems. 4. And, of course, gas central heating systems are dependable: gas gets through when other fuels cannot. Gas lines are down under the ground where high winds and heavy icing can't get at them.

It adds up to this: *if you want the job done right, do it with gas!*

For a free estimate on central heating for your home, call Southern Union. Easy payments on your gas bill, if you like. Call today. No obligation, ever.

Sunday Ceremony Unites Latitia Harrison, Leon Kelley

Latitia Harrison, daughter of Mr. and Mrs. Virgle Harrison, Texico became the bride of David Leon Kelley, son of Mr. and Mrs. Barney Kelley, also of Texico in an impressive mid-afternoon ceremony at Texico First Baptist church Sunday.

The single ring ceremony was read by Rev. B. B. Harrison, Clovis, grandfather of the bride, before an arch arrangement of candelabras holding 28 white tapers, flanked by pedestal stands holding fluted baskets of white gladiol and stock. Flanking the floral arrangements were seven branched candelabras entwined with greenery. Background for the entire arrangement were plaques of woodwardia fern and palms.

Organist, Kathy White played appropriate nuptial selections and the traditional wedding marches. She also accompanied soloist, Mrs. Phillip Elliot as she sang "Hill", and "Always" preceding the ceremony and "Whither Thou Goest" as a benediction.

Candles were lighted by Diane Kelley, cousin of the groom and Doug Harrison, cousin of the bride. Ushers were Ken Harrison, Friona, brother of the bride and Ray Kelley, Midland cousin of the groom. Groomsmen were Allen and J. C. Kelley, brothers of the groom. Serving as best man was Paul Edward Horney, Ft. Sumner, close friend and former roommate of the groom. Master Randy Harrison Friona, nephew of the bride was ringbearer.

Linda Griffith, Muleshoe, cousin of the bride was maid of honor. Bridesmaids were Judy Tharp and Carol White, close friends and former classmates of the bride. All of the bridal attendants wore identical dresses of frosted silk organza over taffeta. The dresses were styled with scoop necklines, cap sleeves, and fitted bodices. The unpressed bell skirts were made with an overlap to the left which was secured by a rose of self-material at the waistline. Their headpieces were short tulle veils attached to roses of frosted green silk organza.

Each attendant carried a colonol bouquet of white carnations centered by a single frosted green carnation.

MR. AND MRS. LEON KELLY (Photo by Yarberr's Studio)

Flowergirls, Kim and Karen Harrison, Friona, nieces of the bride were attired in dresses similar to those of the other bridal attendants. They carried white wicker baskets filled with miniature frosted green carnations.

The bride escorted to the nuptial area and presented in marriage by her father, Virgle Harrison, wore a formal floor length wedding gown of white peau de soie styled with a sabrina neckline which dipped to a V in center back. The neckline was outlined with minute angel skin lace. The gabriel styled dress was silhouetted by an hour glass waist line, the long fitted sleeves tapered to points over the hands and the softly flaring skirt terminated in a short chapel train.

Her full length veil of white silk illusion was attached to a minute crown of white pearls and she carried atop her YWA Bible, a gift from the Texico Baptist YWA, a cascade arrangement of white carnations and stephanotis.

Following tradition she wore for something old the wedding ring of her grandmother new was her wedding dress, borrowed was a ring, and blue was the traditional garter, a gift from the maid of honor. For luck she carried in her shoes pennies minted in the year of her birth and that of the groom.

Mrs. Harrison wore for her daughter's wedding a two piece dress of silk shantung in shades of pink. Her accessories were in matching hue and she wore a shoulder corsage of pink carnations.

Mrs. Kelley chose a two piece jersey dress of green with which she wore beige accessories. Her corsage was of white carnations.

Immediately following the wedding a reception was held in the fellowship hall at the church. The serving table covered with a satin floor length cloth was set between columns at the center of the reception area.

The columns entwined with greenery and roses linked on white chain draped from the columns encircled the table. Centering the table was a footed silver epergne filled with frosted green carnations, flanked by five branched candelabras holding white wedding tapers.

Placed at one side of the floral arrangement was the three tiered wedding cake, decorated with frosted green roses and silver leaves. The cake was set on white columns and topped by a miniature bride and groom figurine. A crystal punch service and wedding napkins embossed with the names "Latitia and Leon-August 9, 1964" completed table decor.

Mrs. Phyllis Wooten, Portales, sister of the groom, Mrs. Ken Harrison, sister in law of the bride, Miss Jackie Hughes and Mrs. Darrell Campbell alternated at the serving table. Decorations for the reception were arranged by Mrs. Bobbie Mitchell, close friend of the bride.

When Mr. and Mrs. Kelley left for a wedding trip to Taos and Red River the bride was attired in a two piece suit of loden green accented by red accessories. Her corsage was the center from her bridal bouquet. After August 16 the young couple will be at home at 2025 Sheldon, Clovis.

The bride is a 1963 graduate of Texico High School and attended Eastern New Mexico University the past year. While in high school she was crowned band sweetheart and was active in the FBLA Chapter. She was also a member of several other student organizations.

The groom is a 1962 graduate of Texico High School and attended Eastern New Mexico University the past year. While in high school she was crowned band sweetheart and was active in the FBLA Chapter. She was also a member of several other student organizations.

Announce Engagement

Mr. and Mrs. W. L. Thomas Jr., Lockney are announcing the engagement and approaching marriage of their daughter, Judith Ann, to Dennis Conrad Nelson, Ulysses, Kan., son of Mr. and Mrs. Conrad Nelson, Farwell. Wedding vows will be exchanged by the couple 7 p.m., Sept. 19 at the Lockney Methodist Church with the Rev. James T. Carter officiating.

Miss Thomas, an honor graduate from Lockney High School, is a junior at Texas Tech where she is a member of Alpha Lambda Delta, Sigma Tau Delta and was named to the dean's honor roll for four semesters. She also served as freshman dorm representative, West Hall Legislator and treasurer. In addition she is a Wesley Foundation Council member and a council member for St. John Methodist church. She is employed this summer as youth director at First Methodist church, Olton.

Nelson was graduated from Lazbuddie High School and is a spring graduate of Texas Tech, where he received a degree in agronomy. He is employed in Ulysses, Kan., by DeKalb.

ANNOUNCE DAUGHTER'S ENGAGEMENT: Mr. and Mrs. Jack Smith, Lazbuddie announce the engagement of their daughter Beverly Jean to Billy Earl Adkins, son of Mr. and Mrs. W. M. Adkins, Fairfax, Okla. Friends and relatives are invited to attend the September 5, 7 p. m. wedding at Lazbuddie Methodist Church, Miss Smith will graduate from Texas Christian University this month. Her fiance is employed by Indian Electric Company. (Photo by Hempel Fine Portraits).

Weekend Visitors In McKinney Home

Weekend visitors in the home of Mr. and Mrs. J. B. McKinney were their daughter and son-in-law, Mr. and Mrs. E. E. Richardson and daughter, and a grandson and his family, Mr. and Mrs. Olin Richardson and son all from Estelline.

They returned home on Monday.

Darissa Gaye Ford Arrives August 6

Mr. and Mrs. Barthel Ford announce the arrival of their second child, a daughter, on August 6. The little girl, weighing 7 lb. 2 oz. on arrival has been named Darissa Gaye.

The Ford's other child is two year old, Kerry Don. Maternal grandparents are Mr. and Mrs. Tom Lindop and paternal grandparents are Mr. and Mrs. Uvon Ford, all of Farwell.

Great-grandparents include Mrs. G. W. Atchley and Mr. and Mrs. George Lindop, all of Farwell. Also Mrs. John McCowan, Norton and Mrs. Laveta Ford, Bronte.

Levissee Family Visits Local Relatives

Mr. and Mrs. A. F. Levissee and son, Walter, Melvern, Ark. have been visiting in the home of Mrs. Levissee's parents, Mr. and Mrs. William Dannheim and other local relatives for the past two weeks.

Mrs. Levissee left for Arkansas on August 2, but will return to this area enroute to California where she will join her husband in the near future. Her husband went to California from Farwell to begin work on a new job on August 1.

"If only you can make someone else as happy next year as you have made me today I shall be forever grateful" said Mrs. Anne Overstreet as friends gathered to surprise her with a party on her 91st birthday Monday. The bouquet was a gift from Earl Roberts.

Carol White Is Shower Honoree

Carol White bride-elect of Dwight Turner was honoree for a miscellaneous shower in the home of Mrs. Joe Helton on Tuesday evening. Assisting with hostess duties were Mmes. Bud Pearce, Jack Donahay, Jack Eshleman, Barney Kelley, D. Smith Day, Ray Tharp, and James (Pat) Patrick.

Refreshment table was laid with a white linen cloth and centered by an arrangement of red flowers in a milk glass epergne. A crystal punch bowl filled with red punch, wedding cookies on a crystal plate and

napkins embossed with silver wedding bells completed table decor. The floral arrangement was made by Mrs. Jack Eshleman, Mrs. Eshleman and Mrs. Jack Donahay presided over the serving table.

Guests were registered by Kim Pearce, Misses Kim and Jo Pearce, twin daughters of Mrs. Bud Pearce sang several nuptial selections. They were accompanied at the piano by Susan Patrick.

The honoree, her mother, Mrs. Murray White and mother of her fiance, Mrs. J. T. Turner were presented with corsages, made from minute flowers, tiny kitchen utensils and red ribbon. The corsages were made by Mrs. Eshleman. Mrs. White and Mrs. Turner assisted in opening gifts and Miss Kathy White, sister of the honoree registered gifts in the bride's book.

Hostess gift was an electric toaster and a pyrex percolator.

Attending and sending gifts were: Mmes. Glenn Singlettery, D. J. Brown, Eric Pierce, Les Aldrich, Leroy Faville, John Hightower, John Hill, Harvey Hudnall, Ruth Reid, Leroy Looper, Clarence Smith, Al-len Kelley, John Adams, Avis Patterson, Olan Schlueter, Nora Day, R. E. Crooks and Tena Roth.

Also Mmes. John Lockhart, F. S. Thigpen, Roy Rickstrew, Grayson Roberts, Callaly and Pamela, Jim Moss, Jack Watts, J. C. Kelley, Melvin Burns, Elmer Teel, Anson Bowers, S. G. Jones, Leroy Hunton, John Hadley and Linda, Eddie B. Smith, Irene Dyer, L. A. Pearce, John White, C. C. Curry, Oris Eshelman, and Wanda, Jack White, J. T. Turner, J. R. Hadley, Murry White, C. B. Stockton, James Pierce, Zelfa Younger, Johnny Green and Golden Circle Sunday School Class.

Several other friends stopped for brief visits and to add their congratulations.

Courtesies Extended To Recent Bride

A recent bride, Mrs. Leon Kelley (Latitia Harrison) was honored with several courtesies in the days immediately preceding her marriage.

She was presented with a white Bible by the Texico First Baptist Church YWA in a ceremony held at the church recently with Mrs. Anson Bowers, WMU President making the presentation. The impressive service was presided over by YWA members.

In a separate courtesy she was tendered a kitchen shower at the home of Mrs. Loyd A. Cain in Farwell with Miss Jackie Hughes as assistant hostess.

She was also honored with bridal showers in the home of Mrs. June Fleming and at the Pleasant Hill Community center.

Hillcrest Park Scene Of Smith-Sanders Reunion

A reunion of the descendants of the late Mr. and Mrs. C. L. Smith was held in Hillcrest Park in Clovis, Sunday with some 50 family members present.

Informal visiting and games of forty-two were enjoyed by the adults while younger family members enjoyed swimming. Pictures were made of the children of the late Mr. and Mrs. Smith to be put into the reunion scrapbook, kept by Mrs. L. R. Vincent.

At the noon hour a picnic lunch consisting of baked ham, fried chicken, meat loaf, baked beans, Irish green beans, vegetable and fruit salads, cake, pie, cookies, tea, coffee and punch was served.

Children of the late Mr. and Mrs. Smith attending the re-

union were: Mmes L. R. Vincent, R. B. Summers, Lee Rothwell and Leonard and Ernest Smith. Two sisters, Mrs. Paul Havens, Childress and Mrs. Bill Anderson, Ontario, Calif., were unable to be present for the joyous occasion.

Mrs. Vincent reports that all of the nieces and nephews are looking forward to the reunion next year and are all making plans to be present.

Attending the Sunday get-together were: Mr. and Mrs. Matt Burns and Tawny Jennings, Mr. and Mrs. R. B. Summers, Charlie Summers, Mr. and Mrs. L. D. Rothwell and sons, Larry and Danny, Mr. and Mrs. Leonard Smith, Mr. and Mrs. Rodney Burns, Mr. and Mrs. Don Thompkins and Mr. and Mrs. Terry Horton, Art and Kevin, all of Clovis.

Also Mr. and Mrs. L. R. Vincent, Mr. and Mrs. Edie Smith, Mrs. and Mrs. Albert Smith and Maurice, Mr. and Mrs. Eddie B. Smith and Steven, Mr. and Mrs. Arlin Smith and Timmy, and Mr. and Mrs. Freddie Magness and Brandon, all of Farwell, Mr. and Mrs. Clarence Summers, Judy and Peggy, and Roddy Allred, Hereford, Mr. and Mrs. Cal Witherspoon, and Mr. and Mrs. Joe Witherspoon, Lovington, Mrs.

Party Marks 25 Years Of Marriage

Mr. and Mrs. Raymond Martin almost felt like royalty when they were taken out for supper on the evening of their 25th wedding anniversary by Mr. and Mrs. Theo Atkinson. When they returned home they found several other friends waiting to surprise them with an anniversary party.

Hostesses for the party were the couple's daughters Mrs. Tommy (Kathy) Phillips, Shirlene Martin and Peggy Martin.

The hostesses alternated at the serving table which was covered with a white lace tablecloth over pink. Centering the table was a tiered anniversary cake, decorated with pink roses, white wedding bells and silver leaves. The cake was served with coffee or pops and spudnuts.

Attending the party were

Rehearsal Supper Honors Bridal Pair

A rehearsal supper was hosted by Mr. and Mrs. Cliff Griffiths, Muleshoe, uncle and aunt of Lattia Harrison, bride-elect of Leon Kelley on the evening before the wedding, last Saturday.

The candlelight affair was held at Cathey Restaurant. Serving tables were arranged in a U shape, and were centered with floral arrangements of frosted green and white carnations. Thirty seven persons attended the affair.

Miss Harrison and her fiancé, Leon Kelley presented their attendants with gifts.

MR. AND MRS. RAYMOND MARTIN

Messrs. and Mmes. Bill Moss, Tommy Paine, Donald Watkins and children, Sterling Billing-Bradshaw, Bernard Nelson, D. lace, Turner Paine, V. L. Mar-

tin, Carl Deaton, Theo Atkinson, Clarence Johnson, Joe Williams, Dick Gerles, Stafford C. Halle, Mrs. Lora Brown,

Mrs. Clytie Dial, Tommy Phillips, Bobby Atkinson, and a granddaughter, Tressa Phillips.

Sending gifts were Mrs. John Adams, Mr. and Mrs. W. M. Roberts and Mr. and Mrs. Joe Reed.

1965 Wheat And Feed Grain Programs To Be Explained

The local County ASC office expects to receive detailed information relating to next year's farm programs late this week.

A meeting will be held in the Bovina School Auditorium at 8 p. m. this coming Tuesday, August 18 with the Bovina Chamber of Commerce and Agricul-

ture as sponsors to explain the programs.

The 1965 voluntary wheat program, like the 1964 program includes diversion payments, price-support payments, and marketing certificates. It is again designed to maintain wheat income, reduce the surplus, and keep program costs down.

While operation of the program generally will about be the same as for 1964, some provisions have been modified.

One of the important new provisions to farmers in this area is - Substitution of wheat for

feed grains or feed grains for wheat by growers who take part in both programs.

It is anticipated the sign-up period under the 1965 Wheat program will begin on August 24.

Personnel at the local ASC office are urging all farmers (and other interested persons) to attend the meeting this Tuesday evening. They hope to be in

a position to answer all questions concerning the programs at that time.

County 4-H Bake Show

The county 4-H bake show will be held Wednesday, August 19, 1 p. m. at the Hub Community Center.

All products and record books must be checked in at 12:30 to 1 p. m. and judging is due to start at 1 p. m., according to Cricket B. Taylor, Parmer County HD Agent.

Only those 4-H members who took food project work in 1964 will be eligible to participate in the county bake show. Products to be entered this year are: one loaf of quick bread and eight bar cookies (without fruit).

County winners of the bake show will be eligible to participate and compete for the \$100 bond in the district bake show to be held at the Tri-State Fair in Amarillo in September, says Mrs. Taylor.

FARM AND HOME

Branding System Eases Production Testing

A system of identification is a necessity when production testing cattle and may become a real problem in a large herd. Freestone County Ranchman Joe Richards believes his system has merit.

Richards operates a 2,000-acre, 300-cow spread with the help of his sons, Jerry and Burt.

He uses brands rather than tags or neck chains in his identification system. The reason, of course, is because brands will never be pulled off by brush or fences.

On the Richards' ranch, they can mark the owner of the cow (both boys own cows in the herd) and give her age and number with only 11 different brand-

ing irons. The system was suggested by Freestone County Agent J. H. Pritchard.

They identify the cow's owner with one brand used three different ways. "It's a diamond with a tail on it," says Richards. "The direction the tail points tells who owns the cow."

To tell age and number of the cow, they use three-number combinations. The first number tells the year the cow was born. The other two numbers set her apart from other cows born the same year. The three number system can be used with up to 99 replacement heifers each year. Every cow has a number like 309 or 471.

"Another advantage is that

you can tell the boys to check old 512 and they'll know the cow to find," he said. "It works

better than telling them to check the old roan with a white spot on her left hind leg."

AMMO NOTES

By Bill Benner, Agronomist

Fertilizer Research Plots Experiment stations and research workers provide an excellent service to farmers in this area. Their results have both immediate and long-range benefits. These researchers not only carry out research at the stations but also carry on some outlying field research in farmers' fields. These plots are of immediate value to farmers in the surrounding area.

Experiment stations serving this area are the South Plains Research and Extension Center at Lubbock; the High Plains Research Foundation at Halfway; and the Southwestern Great Plains Field Station at Bushland.

Some of the tests conducted in this area by the Lubbock station are as follows: A sugar beet test on N, P and K rates is located on the R. Young farm north of Dimmitt. Two potash rate tests on cotton are located in Lamb County. These are on the Roy Hutson farm and the Feldton farm. A multivalent test including minor elements

on cotton is located on the T. R. Johnson farm in Lamb County. These tests are under the supervision of Harvey J. Walker.

The High Plains Research Station has plots in the Hale-Lamb-Bailey County area. These are under the direction of Dr. Arthur Golhke.

The station at Bushland has several field plots in the area. One milo trial is located on the Charles Heck, Jr., farm south of Nazareth in Castro County. This is a study of nitrogen and phosphorus rates. A similar milo trial is located on the Gerald McCasland farm in Deaf Smith County which is about 2 miles west of Hereford. A potassium rate study is located on the George Sides farm near Dimmitt in Castro County. These tests are being conducted by Wendell Robertson.

Watch these experiments through the season and check the results. After they are harvested and yield results are available, I hope to discuss them in future columns.

PRETTIEST SIGHT IN THE WORLD are the heading fields of grain sorghum and the blooming cotton across the irrigated High Plains. This picture of the No. 1 and No. 2 cash crops of the area was taken between Bovina and Oklahoma Lane Tuesday. The feed was already turning.

Only The Best Is Fit To Be TIDE

If your family is looking for foods to take along on a camping trip, there's a variety of freeze-dried products especially tailored for the camper. They're lighter than canned foods and don't need any refrigeration.

More than 57 million yards--or more than three times the 1963 production--is estimated for this year's production of 100 per cent cotton woven stretch fabrics. Industry spokesmen have announced. Most of this is made by slack mercerization of fabric.

Answering the question, "What will the price of High Plains cotton be this Fall?" is a pretty tough assignment. Market prices are always uncertain, and even calculating the coming crop's loan value poses a problem so long as the all-important element of quality remains an unknown factor. And, the price picture is further complicated this year by the new micronaire premiums and discounts incorporated into loan values.

Since it is impossible to know in advance what this Fall's cotton quality will be, about the best that can be done is to apply 1964 loan prices to the qualities produced in a previous year, say 1963. An estimate reached

In this way could only be grossly inaccurate if the area experienced a wide difference in cotton quality for the two years, which is not very likely.

The 15 most predominant qualities in the 1963 crop made up 81.1 per cent of the total, and since these qualities fell more or less in the middle range of all bales, we can consider them fairly representative. By figuring the weighted average price, using 1963 qualities and 1964 loan values, we came up with an "average" loan price of 26.9 cents per pound. Again, this assumes that the 1964 crop will fall approximately into the same quality ranges as 1963 cotton. It also ignores the effect of micronaire discounts which will be applied to the load for the first time this year. Both these facts will need to be taken into consideration by any producer setting out to guess the price he might receive for his own crop.

The most common qualities of 1963, the percentage of the crop which each quality represented (used to figure the weighted

average), and the 1963 and 1964 yarns. While it provides no immediate prospect for price relief

Norman Sloan, market news supervisor for the Lubbock cotton classing office, says that it is now the consensus in the trade that marketable cotton qualities from this area will sell at from 50 to 100 points over the loan this fall.

Bob Poteet, executive secretary of the Lubbock Cotton Exchange, has observed that; "While not much information on market values applicable to High Plains cotton is yet available, we are gradually seeing some indication that more of the 1964 crop will move into the market than in the past two years." He also reports that to date he has heard of no "contracting," and that there have been few if any forward sales for future delivery of Plains cotton chiefly because of uncertainty about future government cotton policy regarding surplus stocks and PIK certificates.

Poteet went on to point out that the area's short staple will still be an adverse factor in the sale of our cotton, but that our light spots are normally in greater demand than the same type cotton from some other areas. In a slight over-simplification, and in what almost amounts to a tongue-twister, he explained that "our light spots have lighter spots than the spots on light spots grown in most other areas," which merely means that light spotted cotton from the High Plains usually spins into more acceptable

to farmers, there is good reason to believe that more of the area's "low mike" cotton may be sold on the market this year, and this fact should in the long run prove helpful. Mills have for years discounted the price of some bales with micronaire readings between 2.7 (below which was classed wasty) and 3.5, the "tenderable" limit. And, since the loan made no allowance for this until this year, some of this cotton was automatically forced into the loan. It remains to be seen whether the micronaire discounts assigned by the loan actually reflect the reduced value of the cotton, or whether the trade will buy above the loan discount.

The price received by the farmer, then, will be about 2.5 cents per pound less than the 1963 price for the qualities he produces, minus whatever discount his cotton suffers from low micronaire readings, plus any premium that mills may be willing to pay over the loan value.

On the other hand, mills will be buying cotton at a much lower level. The price to mills will be the amount paid to the farmer, less the 6.5 cent PIK, or about 9 cents per pound less than in 1963 on cotton not discounted for micronaire. This will provide the supreme test for the theory that price is the answer to all of the cotton industry's ills. And, looking at the long range picture, if this reduced price to the farmer will bring cotton firmly back into the competitive fiber market and enable it to show gains, it should be worth it.

TEXAS CALF CROP UP--The Texas calf crop is expected to total 4,638,000 head in 1964, an increase of 3 per cent over the 1963 crop, reports the Texas Crop and Livestock Reporting Service. This will be the highest crop of record. Nationally, the calf crop is expected to be 2 per cent above the figure for 1963 or 42,633,000 head.

TEXAS LAMB CROP DOWN--The 1964 Texas lamb crop totals 2,673,000 head, down 7 per cent from 1963, according to the Texas Livestock Crop and Livestock Reporting Service. For the nation, the lamb crop is down 6 per cent from 1963. The reporting service estimates the state's wool production will be down by 10 per cent to 42,652,000 pounds (grease basis).

CLOVIS BOAT & MOTOR 3106 N. Prince V. "Dink" Lovett, Owner

Liquids From Canned Vegetables Contain Minerals And Vitamins

Pouring the liquid off of canned vegetables is somewhat like removing the desirable additives from your automobile's gas tank. For both, points out Mrs. Gwen Clyatt, Extension consumer marketing specialist, contain elements needed by the human machine and automobile engine for proper functioning. In the case of the liquids from canned vegetables, about

a third of the minerals and vitamins in the can are lost. In order to get the full nutritive and money value from canned products, Mrs. Clyatt emphasizes the importance of using the liquid.

She suggests adding it to gravy, soup or using it in a cream-sauce or stew. Here is why. After vegetables are canned, their water-soluble nutrients distribute themselves evenly throughout the solids and liquids. The drained solids, which usually make up about two-thirds of the can's total contents, contain about two-thirds of the soluble nutrients. The other third is in the liquid.

Keep in mind, she says, that canned vegetables have already been cooked. To serve them with the most flavor and food value, drain off the liquid and boil down to one-third of its original

volume, then heat the vegetable in this concentrated liquid. Minerals and vitamins are saved and you get the full benefits expected from your purchase, says Mrs. Clyatt.

For this week's best buys in fresh fruits and vegetables, the specialist suggests lemons, plums, grapes, nectarines, cherries, pineapples, cantaloupes, watermelons, cabbage, sweet corn, eggplant, lettuce, celery, tomatoes, squash, cucumbers, green peppers, dry yellow onions and okra.

And don't forget, reminds Mrs. Clyatt, that outdoor cooks can find many meat bargains at the retail meat counters. Give the family a variety of supermarket offerings, she says.

On The Farm In Parmer County

BY JOE VAN ZANDT
County Agent

WHEAT VARIETIES
As wheat planting time approaches many farmers are thinking about what variety of wheat they should plant. The following varieties are recommended for this area: Tascosa, Biscon, Kaw, Aztec and Ponca. A new variety, Caddo, has been added to the recommended list this year.

The varieties on the acceptable list are: Crockett, Comanche, Concho, Improved Triumph, Warrior, Scout and Lancer. The last three varieties were developed in Nebraska and show no advantage over present varieties, but may be grown here.

Back to the new variety, Caddo. It has an excellent yield record, second only to Tascosa at most stations. The test weight has been excellent in 19 Texas trials, averaging 61.9 pounds per bushel. This was greater than Tascosa and Crockett. Caddo is resistant to leaf rust and some races of stem rust.

Additional information on these and other varieties of small grains is available at the County Agents office. Rotation of crops including fallow, legume crops or other non-cereal crops will aid in controlling diseases and insects. Rotation and destruction of volunteer plants plus late seeding of the crop will aid in control of fall infection of the rusts, control of wheatstraw mosaic, control of greenbugs and other aphids and in control of brown wheat, winter grain mites and the wheat curl mite which carries the wheat streak mosaic.

SORGHUM BLASTING

Several inquiries lately have been concerning the "blasting" in some fields of sorghum. This condition is first noticed when the head emerges from the boot and areas turn dark where grain is not formed on the heads. This condition can be detected in maize still in the boot. Apparently high temperatures when the grain sorghum is about a month old are partly responsible for this blasted condition. Research workers have been able to produce the same effect in the laboratory by subjecting the plants to high temperatures when they are about a month old.

Other factors are probably involved since it will vary within a field. However, the high temperature angle is the only cause research has been able to prove.

CUT-OFF COTTON WATER
Based on research findings, application of irrigation water late in the season has several bad effects. One of these is lowering of quality--that results in a decrease in net returns per acre. Though total yield per acre may be increased in some years with late irrigation, the resultant lowering of cotton quality usually means decreased net returns, plus added is recommended for this area.

A cut-off date of August 20 is recommended for this area. In normal years, watering after August 20 will delay maturity. Late watering increases boll set which normally haven't matured by frost and thus cause a lower cotton quality. With the pricing program partially based on micronaire readings, plus the need for increasing the staple length, producers should be more conscious of the water cut-off date than ever before.

Food donated by the United States government to various groups within this nation during the period of July 1963-March 1964 totaled 1.5 billion pounds. Schools received 464 million pounds, 6 per cent above the same period a year earlier. This is above the supplementary foods purchased for use in the school lunch program. Institutions serving needy persons received 128.5 million pounds, up 7.5 per cent from a year earlier. Slightly more than 853 million pounds of food went to needy people in family units, a drop of 11 per cent from a year earlier.

Marketing studies indicate that West Coast residents are more concerned with buying special dietary foods than are persons living in other areas of the nation.

High Equipment Prices Prompt Users To Lease

Leasing machines is one way to avoid paying the purchase costs, but leasing has drawbacks, according to Kenneth Wolf, Extension agribusiness economist at Texas A&M University.

To help agribusinessmen realize the drawbacks and advantages, Wolf has a few guidelines he suggests they use before making the lease-or-buy decision. The guidelines also apply for other equipment users.

There are two types of leases, according to Wolf. A true lease under which the lessee never intends to own the equipment and a lease with an option to purchase the equipment.

Lease costs under a true lease are usually deductible as operating expenses for tax purposes, Wolf says, but costs under a lease with a purchase option are questionable tax deductions.

Before they sign a lease arrangement, Wolf advises agribusinessmen to ask themselves, "Do we want to buy all future uses of an asset or buy just periods of use, one at a time?"

After answering this question, he suggests they realistically compare costs with the other advantages and disadvantages of leasing.

Here are the advantages of leasing:
Permits use of modern equipment without depleting funds.
Releases funds for other uses.
Provides protection against technological obsolescence.
Eliminates the need for disposing of obsolete machinery that remains idle.
Ends maintenance problems if the agreement includes this feature.
Fills temporary equipment needs.

Here are the disadvantages of leasing:
Costs are high because the owner must be compensated for his risk.
Desired equipment may not be available for lease when needed.
Limitations on the use of rented equipment.
Business firm does not enjoy pride of ownership.

For further information on leasing, Wolf says to get copies of the Small Business Administration technical aid, "Rented Tools Can Improve Efficiency," March-April 1962. (Small Business Administration is a federal agency with field offices in Dallas, Houston, Lubbock and San Antonio.)

Another source is Studies in Marketing No. 6, "Marketing Aspects of Capital Equipment Leasing," Bureau of Business Research, The University of Texas, Austin, 1961.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

CARPET PROBLEMS?
Almost every home these days either has wall to wall carpeting or at least one or more rugs. With growing families, and much traffic through the house, problems are bound to occur for Mrs. Homemaker sooner or later.

"Do-it-yourself" rug cleaning has been very popular among homemakers but it may represent false economy for the homemaker, for four recurring problems are apt to develop.

This information comes from Stanley Reichlin, President of the Carpet Technical Service. Here is what he said to the National Institute of Rug Cleaners recently: "A large portion of the claims his institute is called upon to investigate originate in problems caused by do-it-yourself rug shampoo devices."

Problems most prevalent among do-it-yourself rug cleaners are:
1. Heavily soiled areas are "gone over" several times, resulting in streaks and blotchiness.
2. Excessive amounts of liquid are applied causing overwetting which often results in brown stains and/or rapid re-soiling due to soapy deposits

in the carpet. The resoling precipitates another shampooing and the felony is compounded.
3. After the do-it-yourself cleaning, many spots and stains remain. If something stronger than shampoo is used, such as a bleaching agent, the result usually is disaster.
4. Because the homemaker does not have a "pile-lifter", used by professional cleaners to loosen embedded soil when cleaning wall to wall carpeting, the soil in the carpet is merely redistributed and mask-

ed with brighteners in the shampoo solution.

The homemaker, started at the poor and often disastrous results of her endeavor, complains that the carpet is defective, faded, streaked, stained and worn out. She is right, Mr. Reichlin says, but she did it herself.

RICE CONSUMPTION UP IN U. S. -- Domestic market for rice has expanded as sales have not only kept pace with population growth in the last 5 years but new markets have been gained, reports the U. S. Department of Agriculture. Industry promotions are given the credit for the increased consumption.

Sour Cream Is Versatile

The piquant flavor of sour cream gives a magic lift to a variety of foods, says Mrs. Gwen Clayatt, Extension Service consumer marketing specialist.

The name sour cream is almost a misnomer, for the commercially prepared sour cream available on today's market is not "soured," but is "cultured." Lactic acid is the magic ingredient for making sour cream. It is added to pasteurized and homogenized light sweet cream, and results in specially controlled, really tasty sour cream.

An excellent way to use sour cream is an accent to new-crop vegetables. Dairy sour cream may be made a bit smoother and stiffer by whipping slightly. Don't overwhip or you may make butter. You may want to stir sour cream into sauces and gravies at the end of cooking, adding only a tablespoon at a time.

Heat sour cream gently, but do not boil, reminds the specialist. Cook sour cream hollandaise - type mixtures over warm, not boiling water, rather than direct heat. These mixtures are good as sauces with cooked vegetables such as broccoli and asparagus, and for garnishing fruit or vegetable salads.

Floor Care Can Be Easy

Research studies indicate that many homemakers dislike house cleaning, and floor care seems to be the most dreaded job, says Mrs. Eula J. Newman, Extension Service home management specialist.

Modern cleaning equipment used regularly and correctly gets rid of dust and soil the easy way, she adds. Increasing in popularity is the floor polisher. Sales for this time-and-energy saver increased about 28 per cent in April, 1964 over the same period a year ago.

Saving the floor also saves money, besides conserving time and energy. Floor coverings and wood floors last longer when proper care is given.

Versatile cleaning equipment is designed to scrub, wax and polish floors. There may be two sets of brushes, one for scrubbing and waxing and another for polishing. Felt or lamb's wool pads put on a fine finish and also help prevent slipping.

Keeping clothing immaculately clean actually extends its life, Extension Service clothing specialists emphasize. They remind that the National Institute of Drycleaning says it is unwise to specify "press only" for clothing which has been soiled with body oils. Pressing just sets these damaging soils into the fabric so they are harder to remove.

To give potato salad a new look and convenience for picnics, dissolve a package of unflavored gelatin according to package directions and add it to the regular salad ingredients. Put the potato salad in a loaf-shaped pan, lightly oiled and lined with slices of tomatoes. When the salad is unmolded, the sliced tomatoes are on top.

Control Rats And Mice With Anticoagulants

If rats and mice are a nuisance on your farm and are robbing you of those precious dollars that you have invested in grain and other stored materials, then these pests should be controlled as soon as possible.

Anticoagulants have proved quite effective as a method of control, says J. E. Poore, assistant district agent for predator and rodent control, Texas

Agricultural Extension Service. Anticoagulants prevent blood from clotting and cause death from internal hemorrhages, Poore points out. Rats and mice must eat some of the bait every day for five or six days or every other day for 10 days or more before the hemorrhages are fatal.

Apparently no pain or warning of danger is connected with this action, says Poore, and the pests will return again and again to feed if the bait is attractive. Anticoagulants are available in concentrate or ready-to-use form. The concentrate is usually blended with a dry cereal bait, a common formula being one part concentrate to 19 parts bait. Cornmeal or rolled oats serve well as bait but are often not well accepted by the rodents, says the agent.

To make the formula more attractive, use a cup of salad oil and a cup of sugar along with eight cups of rolled oats and 12 cups of yellow cornmeal. These ingredients should be well mixed along with one cup of anticoagulant, making about six pounds of bait.

Large quantities of ready-mixed bait are quite inexpensive and can be purchased through commercial concerns.

You can kill wasps by applying an insecticide spray or dust to their nests. U. S. Department of Agriculture entomologists suggest chlordane, dieldrin or DDT.

FARM PRODUCTS FOR JAPANESE--Japan is one of the world's largest importers of farm products and approximately 30 per cent of her im-

ports are supplied by U. S. farmers with payment in dollars, Indications, reports the

USDA, are that Japan will increase food and fiber imports in the years ahead.

NOW IT'S 31 -- Latest figures show that the average American farmer is now producing enough food, fiber and other products for 31 people, with five of them living in other countries. Back in 1820, says the USDA, he was producing enough for only 4 people.

THE WEST TEXAS DIVISION OF TIDE PRODUCTS, INC.
Proudly Announces That Dick Bell, Formerly Of Muleshoe, Will Represent Our Organization In The Parmer, Curry And Bailey County Area.

Only TIDE can offer you "Prescription Blend" Fertilizer on your turn row via the 16,000 lb. capacity Tide tilt box shown above. No bags to handle, no spreader to haul; and ammonia tanks and applicators also.

We are offering a COMPLETE FARM CHEMICAL SERVICE to the growers of this area--Fertilizers, Insecticides, Herbicides and Fungicides--one single operation gives you every phase of farm chemical needs PLUS free soil testing and tissue analysis.

TIDE PRODUCTS, being new to this area, but being recognized nationally, desires to make itself, as a company, and its products, and integral part of your farming efficiency. In order to do so, Tide, like other National concerns, requires that a credit application be submitted for approval. Attached below is a credit application for your personal use. If you will avail yourself of the opportunity to fill this out and return it to us in person or by mail, we have reserved a Free Gift for you. This will increase our efficiency in serving you and your efficiency in being served by us.
