## Steers Blank Mustangs, 21-0

After a 34-7 season opener defeat at the hands of the Friona Chieftains two weeks ago (Sept. 4), the Farwell Steers came back to get in the win column this week as they blanked their maroon and white rivals from Bovina by a score of 21-0 last Friday night.

Farwell decidedly had the advantage over the Mustangs as they outweighed their rivals 12 pounds per man.

Although trying hard, neither

team was able to make a touchdown in the first quarter.

Jerry Fields ran a touchdown in the opening minutes of play in the second quarter to get the Steers off to a good start in that quarter. Jerry Childs kicked the extra point to put the Farwell team in the lead, 7-0.

Farwell scored again in the second quarter after a 58 yard march with Jerry Fields carrying the ball most of the way. However, Danny Huffaker was the man who carried the ball over for the touchdown. Jerry Childs kicked the extra point to broaden the Steers' lead to 14-0.

The half ended with the Farwell Steers leading the Bovina Mustangs by a score of 14-0. The third quarter was a repeat of the first quarter with both teams trying hard but making no scores.

Johnny Atkinson made another touchdown for the locals

in the fourth quarter to increase the Steers' lead to 20-0. Jerry Childs made the conversion to bring the total to 21-0 for the Steers.

After a march of approximately 50 yards, the Bovina Mustangs lost the ball to Farwell on the two yard line about midway in the fourth quarter in what was probably their most serious threat of the game.

The Mustangs threatened again with one minute remaining in the game as they marched to the Steers' nine yard line and then lost the ball on downs.

Although the Bovina team tried hard, they could not penetrate Farwell's front wall enough to make any points.

David Anderson, Gene Pruitt, and Scotty Rundell did most of the ball handling and yardage gaining for the Bovina team.

There were 15 penalties in the game, most against the Steers.

## Good Response At Dam Meeting

Parmar County's long-talked Running Water Draw dam project is picking up speed. The county-wide meeting at Farwell Tuesday was attended by about 100 persons, and enthusiasm for the possibility of a multi-purpose dam appears to be running high.

Originally thought of as a dam or dams to retard and control runoff in the only significant drainage system in the county, the Running Water Draw project is taking on new dimensions.

There appears to be widespread public interest in a larger dam than one that would serve simply to control downstream flooding in periods of heavy runoff. A structure which would impound a permanent lake has been declared (tentatively at least) within the realm of possibility.

Comparisons are being made of other similar type projects which have proved successful, including Buffalo Lake near Umbarber. Tierra Blanca creek, which runs through Hereford, is the source of that lake.

Phil Grazier, an SCS technician, spoke to the group Tuesday. Federal grants to aid financing such a dam are available through one or more government agencies.

In addition, the possibility of obtaining a federal (FHA) loan to finance construction is being studied. Repayment of the loan would, presumably, come from receipts if the lake is developed as a recreational facility.

The possibility of providing the local share (which would probably be about half) of the financing through county bonds is being studied. Or, the county could explore issuing warrants, which would bypass the bond election route.

What direction the project will now take is conjecture, but the county commissioners, who will be the pivotal group on an decision, were assured through a resolution coming from the meeting that there is a favorable attitude on the part of the public toward the project.

Mrs. Joel Tankersley, president of ESA and Mrs. John Getz, a member of the philanthropic committee, display some of the material which will be available for persons attending the Cystic Fibrosis coffee at Cathey's party room to examine Tuesday morning. The drive for funds for the Cystic Fibrosis Foundation is an annual project of Theta Rho chapter of ESA.

## Cystic Fibrosis Benefit Coffee Set Tuesday

A benefit coffee for the aid of cystic fibrosis, a child's disease, is planned Tuesday morning at Cathey's party room, from 9-11, with Theta Rho chapter of ESA as sponsor of the fund-raising event.

This is the second year the group has sponsored the drive, with money going for research, equipment and aid to victims of the disease. Cystic fibrosis is the state ESA project.

Members of Theta Rho have also aided in buying special equipment which is kept in an equipment bank for loan to families of cystic fibrosis children. The equipment, which is very expensive, is necessary for care of victims of the fatal disease.

Anyone wishing to contribute to the drive is invited to the coffee. Invitations are also being mailed to area residents.

REV. JACK JETER

## Jack Jeter Is Revival Speaker

Jack Jeter will be evangelist for the Texico Baptist revival which is scheduled to begin Sept. 25 and run through Oct. 4. Services will be held twice daily at 7 a.m. and 8 p.m. Sunday school at night will be featured each evening at 7:30 p.m.

Youngsters will be organized into a Booster Band which will meet each evening at 7:30 p.m. Richard (Dick) Johnson, music director in the local church will be in charge of the music.

Pastor of the church, Rev. Leroy Looper invites the general public to come and hear Rev. Jeter and enjoy the fellowship. Prayer for the special services is based on Psalm 85:6.

## NOTICE

Youth Fellowship of the First Methodist Church at Oklahoma Lane is planning a pancake breakfast for Saturday morning 7-9 a.m.

All persons in the community and the surrounding area are invited to come and eat all the pancakes they wish for the minimum price of \$1.00.

## Condemnation Proceedings Approved By Town Fathers

In a lengthy session Friday evening Texico town fathers adopted a resolution to start condemnation proceedings against Jerry Paul on a building located on main street. They also instigated suit action in district court to obtain injunction requiring H. L. Selman to move a house located at 305 Lamar Street from the city limits of Texico. The house was moved in to the town in violation of the building code as required by ordinance. A \$25 filing fee was also authorized.

Commission members voted to install window frames at the swimming pool to protect the windows. A contract was granted to Humphrey Pest Control for eradication of rats at the city dump ground at a cost of \$13 per month.

Building permits were issued to Gayle Doolittle to erect a residence at a cost of \$7,800 and to B. J. Winegeart to move in a mobile home. A request for a building permit for A. O.

Arnold was rejected until a formal application is filed to insure compliance with the building code.

All other business was routine with all bills ordered paid for the month and minutes of the last meeting approved.

## In Parmar County --

# 25 Indicted By Grand Jury

Twenty-five persons were indicted by the Parmar County Grand Jury on Monday. Counts charged against the persons were burglary, passing worthless checks, forgery and passing, DWI, removal of mortgaged property, and non support of wife and children.

Twenty-one of the persons are in custody or are free on bond.

A complete list of those in custody or released on bond includes: Hugh Davis-theft, Manuel Castillo, Castorina Madrid and Arturo Ramedia Garcia - burglary; Charles Williams, worthless check, Delbert and Larry Vaughn, burglary; Adam Gomez, forgery, Woodie Jesse Short, burglary, Ronald Shackelford, forgery and passing; Bobby Z. Merrell, non-support; J. D. Jones, worthless check and Irene Jackson-forgery and passing.

Also indicted were: Earnest E. Huddleston - forgery and passing, Tolbert Houston Jr., worthless check; Mrs. E. V. Hood-worthless check; Jasper Gaines and Mac Flippin, DWI; Homer Conway two counts of removal of mortgaged property and one count fraud, Frank

## Schedule Revival

Oklahoma Lane Baptist Church has scheduled a series of revival services to begin Sept. 20 through Sept. 27. Services will be held twice daily at 10 a.m. and 8 p.m.

Week of Prayer services will

(Continued on page 2)

Mrs. Georgia Lee Rundell, weekly first place winner in the local football contest receives a check for her winnings from C. G. Davis owner of the Piggly Wiggly store (one of the sponsors of the contest).

## Ladies Win Weekly Prize

## Money, Lead In Overall Contest

The ladies did it again! In the first week of the armchair football contest the ladies out-called the men to win prize money. This week they did a repeat performance when Mrs. Georgia Lee Rundell outcalled a total of 101 entrants to win first place weekly money.

Mrs. Rundell along with Junior Robertson, Dale Camp, Richard Haseloff, A. F. Kirk, Al Phillips, Robert Shuman, Mitz Walling, Lee Hutchins and Maxine Williams called eight games right. However, Mrs. Rundell was only off six points on the tie breaker score, closely followed by Robertson and

Camp, who won second and third place prize money, respectively.

A grand prize of two tickets to the Cotton Bowl and \$50.

expense money will be given to the overall winner in the contest at the end of 11 weeks. Mrs. Ysleta Kitterell with 16 games right is leading the field at the end of two weeks. Six persons have called 15 games right and 18 have called a total of 14 games right.

Sponsors of the contest are Shuman-Haseloff Ins. Agency, Piggly Wiggly, Worley Grain

Co., Oklahoma Lane Gin, Continental Oil Co., Kelly Green Seed, Sherley - Anderson - Pitman, Sherley - Anderson Grain, Security State Bank, Farwell Equipment Co., Lariat Gin, State Line Grain and State

Line Fertilizer, Nickels Gin, Texaco Co., (Woodrow Lovelace - consignee), A. A. Bowl, John Getz, and Oklahoma Lane Farm Supply.

## Boy Scouts Receive Awards Monday Night

Thirteen Boy Scouts received special awards Monday night in ceremonies at the Farwell city hall. Scoutmaster Ray Campbell and Lee Hutchins, assistant, directed the ceremonies.

Questioning boys for the second class achievement were members of a special board: M. A. Snider Jr., Pike Jordan, Mrs. Fred Curtis and Buck Gregory.

Passing the second class requirements were Stephen Birchfield, Ted Glenn, Roger Patrick, Craig Phillips, Terry Travis, Hal Haynie, Bobby Hart, John Snider, Brad Jordan, James Hobbs, Robert Curtis, Ronny Graham and Skippy Magness.

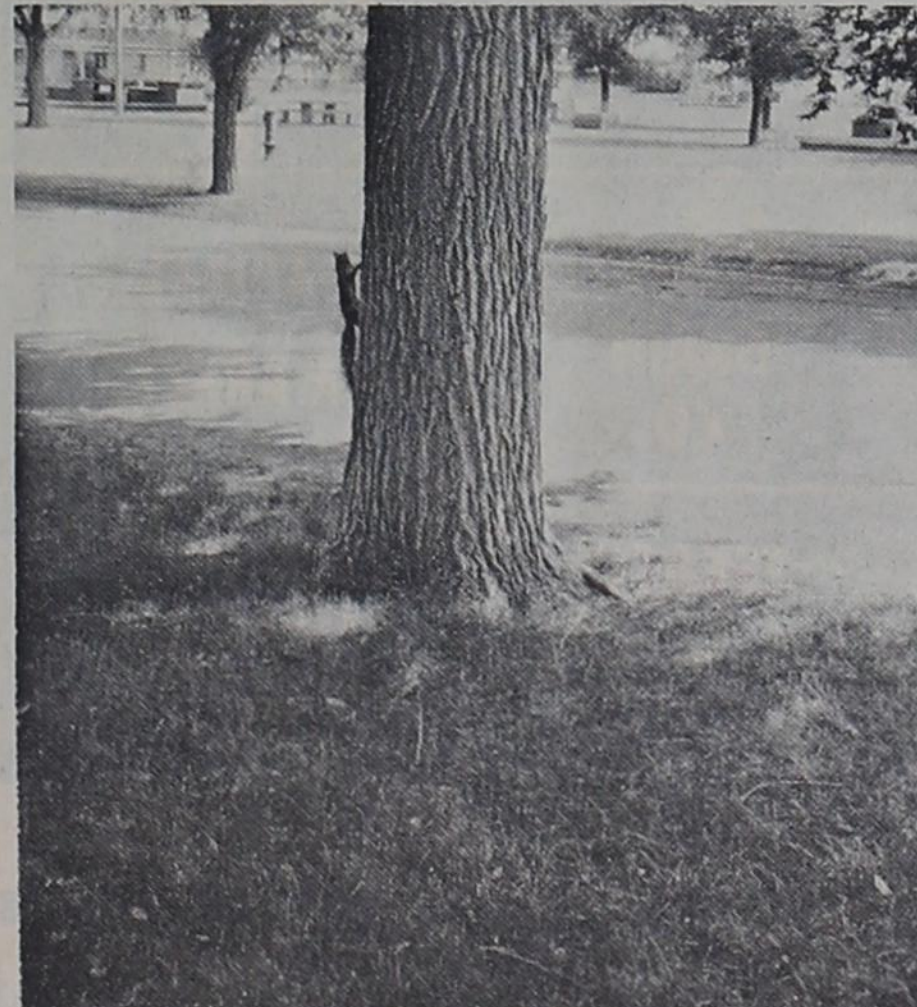

Stephen Birchfield received special recognition for his plumbing and canoeing merit badges.

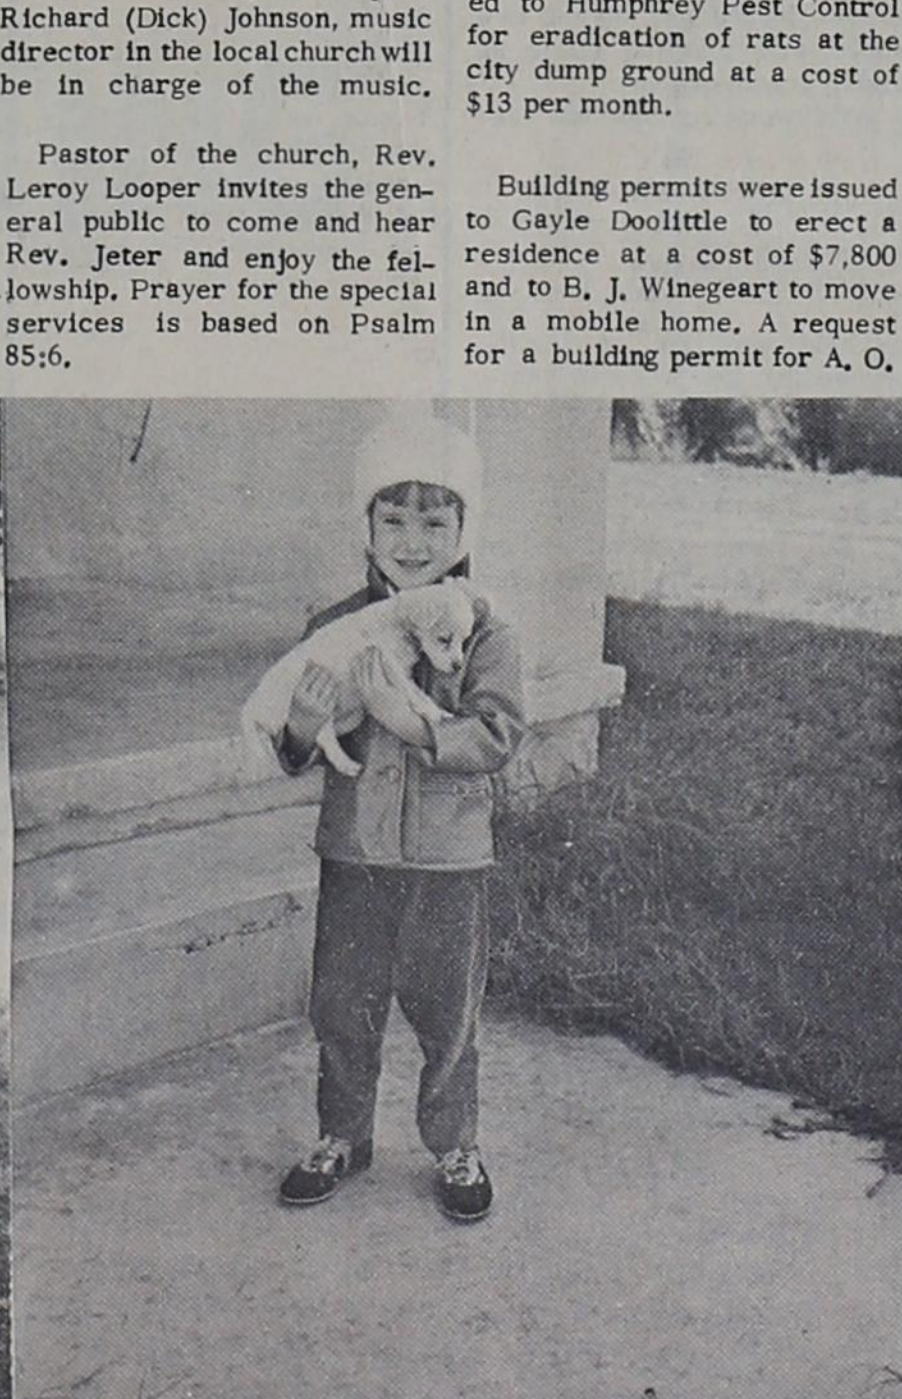

Ray Campbell, owner of Campbell Electric visits with Markum Chadrick one of the many visitors at the formal opening of Campbell Electric the past Friday and Saturday. Favors of bubble gum and suckers were given to the children and coffee and doughnuts were served during the two day affair. Mrs. M. A. Snider Sr. was presented a coffee maker as a door prize.

Lions Club Prexy James Ussery and Lions Woodrow Lovelace and Robert Shuman were busy Saturday morning setting up a stand to display their wares (brooms and mops) next door to Campbell Electric. The club netted approximately \$180. In the event and they announce that they will continue to take orders for the items during the present week. Items ordered will be delivered within the next few weeks. Money derived from the sale of the items will be used in the sight conservation program.

Winter is fast approaching and man and beast are each preparing their own way for the cooler weather which is just around the corner, as evidenced by the coolness of the past few mornings. (picture 1) shows one of the squirrels who live in the course house yard scampering up a tree to hide away a bit of

food in his nest. (picture 2) Jolene Porter, three year old daughter of Mr. and Mrs. Claude Porter models her new fall jacket and cap while holding tightly to her new found playmate Pudge the Pooch.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

**Young Demos**

**Hear Lewis**

Paul Lewis, of Lubbock, was guest speaker at the Parmer County Young Democrat meeting last Tuesday night (Sept. 8) in Muleshoe. Lewis spoke on the success of the Democratic party and the present government.

Members and guests totaling 21 attended the meeting held in the First National Bank community room. Jean Lovelady, Democratic candidate for tax assessor of Bailey County, was a special guest.

Joe Bullock, president discussed voter registration and the fact that those 21 years old on or before November 4 are eligible to vote in the coming election, if registered. Registration deadline is October 4.

Roger Gorrell was elected chairman of the registration committee and "Citizens for Johnson" committee in Parmer and Bailey Counties.

Debbie Bullock resigned as Secretary of the Young Democrats to resume duties as chairman of the "Youth for Johnson"

In this Senatorial District, Ronald Johnson, of Muleshoe, was elected secretary by acclamation.

Next meeting of the Young Democrats will be October 13.

**Hoppers--**

(Continued from page 1)

else to do that interests them. They are ready for life's trials at 20 if they've never met a goal or climbed over an obstacle at 12.

**Last Rites Thursday**

Funeral services for Walter Daniel Monroe of Amarillo were conducted Thursday in Blackburn - Shaw Memorial Chapel with Rev. Woodrow Adcock, minister of the San Jacinto Methodist Church officiating.

Graveside rites were held in Clovis at 3 p.m. Thursday. Mr. Monroe was the grandfather of Mrs. Don Williams of Farwell, Max Ford of Clovis and Don Ford of Ft. Worth.

A resident of Amarillo for 20 years, Mr. Monroe died Tuesday in Lillian's Rest Home. He was a retired wheat farmer and a member of the Methodist Church.

**Second At Fair**

Texico FFA chapter and their sister organization the FHA each took home second place prizes from the Curry County Fair last week.

**Rooftop Singers Appear At ENMU**

A nationally-known recording group, The Rooftop Singers, will appear at Eastern New Mexico University Sept. 25 as a presentation of the Board of Student Activities.

Mike Shannon, a Portales

**Mark Fairmans In Lovington**

Mr. and Mrs. Mark Fairman, former Texico residents, have accepted teaching positions in the Lovington, N. M. Schools, according to the Lovington Leader.

Fairman, who received his M. A. degree in Spanish from Texas Tech this year, will teach Spanish in the senior high school. He holds a B. A. degree from Eastern New Mexico University.

Mrs. Fairman will teach English and Language Arts in junior high. She was an instructor in Texico Schools and has taught four years at Portales.

senior who heads the board, said the trio will appear at 8 p.m. in the ballroom of the Campus Union Building. Admission to the popular and folk song concert will be \$1.50 both for students and for the general public. Tickets will go on sale Monday (Sept. 21) at the Information Desk in the Administration Building.

The Rooftop Singers were organized by Erik Darling, a former custom-furniture builder, to record "Walk Right In," which was nationally popular earlier this year.

The record's success resulted in the full-time musical job for Darling and the other members, Willard Swanoe and Lynne Taylor.

Recent recordings of the group include "Tom Cat" and "Mama Don't Allow."

Judge: "Have you ever been up before me?"

Accused: "I don't know. What time do you get up?"

**New Minister Arrives For Church Of Christ**

New minister of the local Church of Christ is Paul Wilkinson, 41, who has been pastor at the Cross Plains church for the past two years.

Prior to moving to Cross Plains Wilkinson had served congregations in Colorado, Oklahoma, New Mexico, Georgia and South Carolina for the past 11 years.

The new minister first entered the ministry some 11 years ago. Prior to that time he had been as he describes it "A jack of all trades." He has lived in various states in the union, however he calls Hatch, N. M. his home town. He was born in Okla.

Wilkinson says he can not boast of much formal education but has done much extension work and learned through experience. He is married to the former Viola Bates, 39, and they are parents of three children, Danny 19, Carolton 15, and Pamela 13. Danny is a sophomore at Ft. Worth Christian College, Calton and Pamela are students in the Farwell school, where the former is a sophomore and the latter an eighth grade student.

Wilkinson replaces Don Tar-

bet, who left the post in early August to accept the pastorate of a church in Albuquerque. Assisting the new minister with the local congregation will be Clifton Otts, who serves as music director and associate pastor. "We like the community fine and think we shall be happy here," stated the new minister. No changes are planned in the church schedule for the present time.

**MEET MR. WUNSTOP DUZZIT**

Asked why she refused to take tranquilizers prescribed by her doctor, a woman said: "The last time I was taking them, I found myself being friendly to people I wouldn't even speak to otherwise."

# Know Your Teachers

Jack Williams, elementary principal in the Farwell School began his teaching career in the small town of Leedy, Okla. in 1937. He has taught continuously since that time except for a three year period spent farming in the West Camp Community.

"Jack" as he is familiarly known by students and teachers alike, came to the Muleshoe School system in 1938 and taught there until going to the farm. After a three year period he returned to the teaching field, coming to the Farwell school system as high school principal, football and basketball coach. He remained at that post for the next three years. In 1948 he accepted assignment to the post of superintendent of the Farwell School, although he continued to coach for some time.

Jack remained at the post of superintendent for the next 11 years guiding the schools' activities through the years when the school began growing at a rapid pace. He recalls that at the time he began duties at the school only approximately 250 students were enrolled in the entire school. This is less than the number of students enrolled in the first five grades at the present time.

In 1959 "Jack" became seriously ill and for a period of time was unsure whether he could return to the teaching field. For this reason he resigned his post as superintendent. However, with the begin-

JACK WILLIAMS

ning of school in 1959-60 he accepted assignment as elementary principal, the position he still retains.

In addition to his duties as elementary principal he teaches Algebra I in high school. "Working with boys and girls has kept me much younger" said Jack, adding that he loves the teaching profession and for

that reason would not be happy in any other work.

Many are the changes Jack has seen come to the Farwell School. Oklahoma Lane and West Camp Schools have been at the school and in addition many of the present buildings have been erected. The Farwell School was playing six man football at the time of Jack's arrival on the scene, and it was not until the years following World War II that the school was able to return to 11 man football, and field one of the better teams in the area.

Jack who holds a B. A. degree from Southwestern University at Weatherford and an M. A. from Eastern New Mexico University has majors in history, physical education, education and educational administration. Since receiving his master's degree he has attended several workshops at ENMU.

He is a sports enthusiast, but could not single out any sport as a favorite. "I like each of the sports equally well" he related.

Favorite past time for this genial man is working in the yard. "I try to spend a little time each day working around my flowers", he said, adding that the one part of yard work he dislikes is that of mowing the grass.

Jack was married to Ella Ruth Dumbauld in 1938. They are parents of three sons and one daughter. Bert, the oldest son, will begin work with Humble Oil Co. in Houston on

(Continued on page 5)

# Demo Women Slate 2nd Art Exhibition

The second annual state Citation Art Exhibition, sponsored by Democratic Women of Texas has been slated.

The 30th District exhibit for this year will be October 17 in Dimmitt under the sponsorship of Dimmitt League of Democratic Women. Deadline for entries is October 10. Qualified to enter the competition is any artist in Texas within the ages of freshmen through senior in high school, including 1964 graduates.

The scholarship awards will eliminate exhibits within this district shall be the responsibility of the state Democratic committeewomen or appointed committee for the district.

Scholarship entries must be accompanied by pen and ink, charcoal or pencil sketch to show evidence of delineation. These accompaniments need not be related to subject matter entered, but must be matted and framed.

In the state citation exhibition each district may submit as many as three major entries for scholarship awards with be presented by Governor John Connally in the name of the Democratic Women of Texas and will consist of \$500 first prize; \$300 second prize and \$200 third prize.

Media include oils, pastels, tempera, casein, pen and ink drawings, watercolor, mixed media and plastic.

Highlighting the show in Dimmitt will be a merit award of \$50 to be presented to an amateur, one who does not derive more than half his income from sale of art work, accompanying drawings.

The entry must be original, completed within the past year, suitably framed or prepared for display, signature of artist, not exceeding 36 by 41 inches or the equivalent in square inches, properly identified with entry card attached to the drawing and merit painting.

Each card must contain title of the painting, full name and address of entrant, and full name, address and telephone of parent or guardian. It should contain a biographical sketch including any previous training, if any.

Additional information may be obtained by contacting Mrs. Leon Smith Sr. at Lazbuddie, phone 965-3731, or Mrs. Dolph Moten in Bovina.

## School Lunch Schedule

# Yearlings, Jr. Varsity In Tie, Loss To Alton

The Farwell Yearlings and Jr. Varsity teams faced the Olton teams Thursday in season openers with the Yearlings going down in defeat, 30-12, and the Jr. Varsity breaking even on a 12-12 decision.

The games were played on the Olton home field.

In the Yearling game, the Olton team started things off by getting 30 points in the first half to Farwell's six. Al Phillips made the touchdown for the locals.

Farwell came back again the second half to hold Olton scoreless for that half and to gain six more points themselves with Al Phillips again doing the scoring.

Al Phillips, Kyle Sheets and Robert Curtis were outstanding on defense.

In the Jr. Varsity game, Jim Grey, right end, scored on a 50 yard gallop after receiving a 15 yard pass, in the second quarter for the Jr. Varsity's first touchdown of the game.

Larry Suttle made the final touchdown for the Farwell team on a 8 yard drive late in the third quarter to tie the game up at 12-12.

Although trying hard, neither team was able to break the tie and the game ended in a 12-12 tie.

Larry Suttle, Jim Grey, Ricky Lunsford, Ricky Stewart, and Bruce Dollar did the ball carrying for Farwell.

"I thought the Jr. Varsity played pretty good ball and I think the Yearlings did real good as they were outweighed 15 pounds per man. Both teams could do better, but overall they played a pretty good game," said coach Jerry D. Owen.

The Farwell Yearlings and the Jr. Varsity teams will face teams from Bovina and Portales tonight (Thursday) in Steer stadium in the first home games of the season.

The Yearlings will be out to repeat their victory of last year over the Bovina Jr. High boys.

Starting up in front for the Yearlings will be Randy Johnson, E.; Greg Phillips, E.; Robert Curtis, T.; Greg Meeks, T.; Randy Crooks, C.; Kyle Sheets, G.; and Danny Lunford, G. In the backfield slots will be Al Phillips, F.B.; Ricky Lee, H. B.; Danny Prince, H.B.; and Robin McHaney, QB.

The Jr. Varsity team will face Portales instead of Bovina

as previously announced, due to a change in schedule.

Larry Suttle will be in the tailback slot with Warlic Dollar in the wingback position. Lester Grey will be in the fullback position and Louie Bradshaw will be playing quarterback to round out the backfield.

In the line will be Bruce Dollar, E.; Vernon Blend, T.; Jerry McClosky, T.; Ricky Lunsford, G.; James Haseloff, G.; Jim Grey, E.; and Ricky Stewart, E.

The Yearlings and the Bovina boys clash at 6:30. The Jr. Varsity and Portales meets at 7:00.

## Steers Meet Cowboys

Farwell visits Plains Friday night to renew a long-time series with the Cowboys. It could be a good game.

The two teams had a mutual opponent -- Friona, and both bowed to the Chiefs. Last week Friona squeezed by Plains 9-7 in the last minutes of the game. They did it with a 32-yard field goal by Doug Dodd, whom the Steers will remember.

Two weeks ago Friona worked Farwell over 34-7.

CLEANUP TIME -- Ray Stone, owner and operator of Village TV and Radio Shop, and Elbert Thomas were busy early this week cleaning up the piles of rubbish and charred lumber left at the former home of the company which was destroyed by fire recently. Local citizens interviewed in the recent Jaycee survey indicated that a general cleanup campaign in the towns would be of great benefit.

"No shortage of football material here" commented Coach Jerry Dee Owen as he paused during football practice to have a picture made with his "30" eager "Yearlings". Pictured left to right Coach Owen, Milton Lee Walling, Rickey Lee, Craig Phillips, Robert Curtis, Charles Bowery Kyle Sheets, Steven Birchfield, Roger Patrick, Eddie Winegeart, Al Phillips, Jerry Keith, Randy Crooks, Danny Prince, Denny Lunsford, Randy Johnson, Skippy Magness, Wayne Davis, Robert Haseloff, Greg Hargrove, Robin Mahaney, Terry Travis, Lynn Jones, Gary Keith, Mark Williams, James Chadwick, Dennis Ensor, Billie Boulton and Douglas Harriman.

## Texico Takes Easy Victory From Logan

In a game which proved to be a mild surprise for both teams the Texico Wolverines defeated Logan on the Texico softball diamond last Friday 24-13. Earlier in the season Logan had been touted as one of the stronger teams in the conference.

Coach Green said "Our boys are looking better in each game, they are hitting better and field-

ing better, although we are still looking for that long run hitter."

Battery for Texico in the Friday game were Mike Spearman and Roy McDaniel in the pitcher's box and Tom Rickstrew catching. Joe Patterson, Tom Rickstrew and Neil Lambert each had two doubles during the afternoon. Only home run in the game was made by Onesimo Gallegos, Logan pitcher, who hit a homer with the bases loaded.

The junior squad are still playing in various positions with no one in any certain position at this time, according to the coach.

The junior high school team took an easy victory over Logan juniors 13-2. Joe Ketcherside, Manuel Martinez and Junior Ortiz each had three hits for the afternoon.

Rodney Laceywell and Rickey Stanley each had three hits and three runs for a perfect evening.

"The boys are looking better than in the last game," commented Coach Green.

The Tuesday games with House were postponed due to weather, however coaches are trying to arrange make up game for next week. Texico will collide with Elida on the local diamond Thursday.

Next game for the girls is scheduled for Friday. They were idle this week.

## Veda Wilson Is Drum Major

Veda Wilson, daughter of Mr. and Mrs. Loren Wilson has been chosen to serve as drum major for the Texico High School band this year.

Maorettes are Marquitta Wall, Cynthia Armstrong, and Janet Wilson. Marquitta served one year as drum major. Veda has been a member of the band for the past seven years. She plays flute in the concert band.

Miss Wilson recently was selected to attend the national 4-H Congress in Chicago later this fall. She was picked for the trip on the basis of record books kept during her years in 4-H club work. She has won a total of 143 ribbons, 100 of which are blue. In addition she was recently winner of the state 4-H club public speaking event held in Las Cruces.

Topic of her prize winning speech was "Our Birthright to Freedom." She is a junior and an honor student.

## Bookmobile To Visit Farwell Saturday

The High Plains Library Bookmobile which serves Lamb, Parmer, Bailey and Cochran counties is scheduled to be in Farwell at the Holiday Parking lot Saturday, Sept. 19 from 8:45 - 11:45 a.m.

It will be in Farwell again on October 10, therefore all persons having books which should be turned in should visit the bookmobile between those hours.

## What's Cooking At Farwell School

## Face Clovis

Under the guidance of Coaches Mike Nelson and Max Field, the Farwell Little League will face one of the Clovis teams in a season opener in Bell Park Saturday.

The "little men" play the straight "T" on offense.

According to Coach Nelson, the team sticks mostly to groundwork and does not do much passing unless the situation arises where a pass is called for.

The tentative starting lineup is as follows: James Hobbs, 90 lbs., L. T.; Barry Williams, 86 lbs., R. E.; Kirk Martin, 80 lbs., R. T.; Randy Gregory, 84 lbs., L.E.; Eddie Meaks, 83 lbs., C.; Randy Chandler, 96 lbs., L. G.; Jimmy Birchfield, 67 lbs., R. G.; Bobby Hart, 96 lbs., F. B.; Larry Erwin, 80 lbs., H. B.; Gene Sheets, 80 lbs., Q.B.; and Gary Erwin, 76 lbs., H.B.

Texico Post Office - Exterior work on the new home for the Texico post office has just about reached completion and workmen are busy completing work on the interior. Furnishings for the building have been ordered and are arriving daily with moving day scheduled in the near future (possibly sometime next month). The building is of concrete block and is surrounded by a paved parking area for convenience of the postal patrons.

## Classes Select Officers

Classes at the Texico school recently selected officers in meetings held at the school.

Senior officers include: Mike Spearman - president, Sarah Walker - vice-president, secretary-Clarence Ethridge, and treasurer-Kay Bush.

Junior officers are: president-Terry Lovett, vice-president - Gary Meler, secretary-Peggy Hughes, treasurer - Joe Patterson, reporter - Veda Wilson and parliamentarian - Ronnie Spence.

Sophomore officers are: president - Danny Hitson, vice-president - Leslie Harrelson, secretary - treasurer - Pam Roberts, reporter - Kathy Stone and parliamentarian - David Farmer.

## Visit In Illinois

Mr. and Mrs. Bobby Joe Crume and daughters returned Sunday evening from a two weeks vacation spent in visiting with relatives in Pekin, Ill. and with friends, Mr. and Mrs. Bill Berdt in Max, Minn.

In Pekin the Crumes visited with Mrs. Crume's parents, Mr. and Mrs. George Wubben and with her brothers and sisters.

On the return trip they stopped at Lincoln's Tomb at Springfield, Missouri.

## Red Sez

Joe: "Will that cleaning fluid really make things clean?"

Red: "I rubbed some of it on a copy of 'Scandalous Stories' and it turned into 'The Sunday School Advocate.'"

## Cheerful Habit

Long Distance calls to favorite relatives or friends are among life's nicest experiences. Long Distance is the best way to keep in touch when you can't be there yourself. Pick up your phone and go visiting - tonight!

### Members Plan ESA Projects, Receive Award

Mrs. M. C. Roberts, educational director, was hostess for the first meeting of the year for Theta Rho chapter of ESA, Monday evening. A Mexican meal preceded the business meeting.

The chapter was presented the honor roll certificate of ESA, for outstanding achievement in fields of education, philanthropy and chapter growth. A letter was also acknowledged from Doris Stafford, ESA International president. Many of the members met Mrs. Stafford at the New Mexico State convention in Clovis two years ago.

A report was heard on the rummage sales, which have been successful, with the project slated each Saturday in September.

Dr. T. J. Glenn requested that the chapter be responsible for the Farwell PTA program in October. The chapter accepted the assignment.

Annual coffee for cystic fibrosis, state project, is set for Tuesday, September 22, at Cathey's party room from 9-11 a.m.

Next meeting is planned Sept. 28 in the home of Mrs. W. H. Graham, Program on "Wills" is slated.

Mr. and Mrs. R. B. Lindsey, Dimmitt announce the approaching marriage of their daughter, Rita Fay to James Arnold, son of Mr. and Mrs. Ernest Arnold, Texico. The couple will be married in a quiet ceremony at the home of the bride-elect's parents at 8 p. m. Saturday evening. Close friends and relatives are invited to the wedding.

### Woman's Club To Hold Membership Coffee

Texico Woman's Club will have a coffee at the Spur Restaurant Monday night, Sept. 21, 8 p.m., with members of the executive board as hostesses. Ladies who are interested in

becoming members of the organization are being invited to the social. During the program duties of all officers, something about the club activities club projects will be explained

by various members of the club.

Mrs. Melvin Burns is handling arrangements for the affair. A good attendance of members is urged.

## Bovina Couple Honored On Golden Wedding Anniversary

Mr. and Mrs. E. A. Hromas celebrated their Golden Wedding Anniversary recently with a reception and open house at the home of their son and his family, Mr. and Mrs. Arnold Hromas of Bovina.

Hosting the courtesies were their three children and families, Mr. and Mrs. W. E. Lovell, Bill and Judith Ann of Fort Worth; Mr. and Mrs. Clinton Skaggs, Craig and Randal also of Fort Worth; and Mr. and Mrs. Arnold Hromas, Galen and Bradley of Bovina.

Co-hosting the occasion were Mr. and Mrs. Lewis Pesch of Floydada, Mr. and Mrs. C. G. Hromas of Farwell and Mr. and Mrs. Cecil Rundell of Muleshoe.

Mr. and Mrs. Hromas were married in Albany in 1914. They made their home at Moran for four years and at Willpoint for two years. They moved to Farmer County in 1919 and lived in Farwell and the Oklahoma Lane community for many years. They moved to Bovina in 1953 and have made their home here since that time.

Helping receive guests along with the family at the reception were Mr. and Mrs. Wendol Christian.

Mr. and Mrs. Glenn Hromas showed guests the gifts displayed and the younger grandsons, Bradley Hromas, Craig and Randal Skaggs ushered guests through the reception line.

Mrs. Lewis Pesch presided at the guest registry.

The reception table was laid with a white lace cloth over gold and centered with an artificial arrangement of gold and yellow mums intermingled with golden wheat and other flowers, flanked by gold candles in crystal holders. The white cake was decorated with gold, touches of green and bridal wreath. Gold party punch and mixed nuts were served to guests. The table was appointed with crystal and silver.

Presiding at the serving table were Mrs. Frank Pesch, Miss Judy Lovell, Mrs. C. G. Hromas, Miss Sandra Rundell, Mrs. Cecil Rundell. Also assisting them were Mr. and Mrs. Frank Edwards and Cecil Rundell.

Ushering guests to their places were Bill Lovell and Galen Hromas, grandsons to the couple.

During the afternoon entertainment was provided by Mrs. Harold Hawkins, Mrs. J. C. Boone and Mrs. Harold Carpenter. They sang selections and were accompanied by Harold Carpenter on the banjo. Mrs. Hawkins was dressed

in a man's costume of black top hat and tails dating 50 years ago and the women wore traditional dresses dating of the same period. The trio rode a bicycle-built-for-two and sang the song by the same name.

Later in the afternoon the group including the honorees sang songs. Mrs. Hromas complemented her blue dress with a double orchid corsage of gold presented to her by the family and other members of the house-party wore gold boutonnières and orchid corsages.

Photographing the occasion were friends, Charlie Hromas, Clinton Skaggs and Mrs. J. C. Boone.

Out of town guests at the courtesies were Mr. and Mrs. Adolph Ender of Sagerton, sister and brother-in-law to Mrs. Hromas, Mr. and Mrs. H. L. Lovell, Bebe and H. L. of Water Valley, Mr. and Mrs. H. C. Atkins of Clovis, Jack Roach of Oklahoma Lane, Mr. and Mrs. Chuck Caldwell of Midland, Mr. and Mrs. E. A. Berry of Portales; Mrs. Millard Stanley, Mr. and Mrs. W. C. Sparks, Mr. and Mrs. H. L. Tidenberg, James Berry, Mr. and Mrs. J. C. Boone and granddaughter, Jai Freeman, and Mrs. Terry Caprenter all

of Clovis.

Also Mr. and Mrs. C. C. Christian, Mrs. Sterling Billington, John West, Raymond Martin, Ann Smith, W. N. Foster, Mr. and Mrs. Joe McWilliams, Mr. and Mrs. Mike McManigal and Kent and Mr. and Mrs. L. L. Norton all of Farwell.

Others included Mr. and Mrs. D. W. Carpenter, Mr. and Mrs. H. W. Carpenter and Richard, Gwen, LaNelle, Loy and Tammy Christian, Mr. and Mrs. Ponce Billingsley, Mr. and Mrs. J. I. Gober, Mr. and Mrs. Clyde Perkins, all of Oklahoma Lane, Mr. and Mrs. D. H. Carson of Friona, Mr. and Mrs. Joe W. Hromas, Sherri, Larry, Lynetta and Kevin of Levelland and Mr. and Mrs. W. C. Hromas of Hereford.

Approximately 175 guests registered at the courtesies honoring the couple.

Following the reception relatives and members of the house-party were feted with a salad supper at the Arnold Hromas home.

Unable to attend the celebration for her grandparents was Mrs. Jerry Wilburn and family of Madrid, Spain.

ANNOUNCE ENGAGEMENT -- Mr. and Mrs. Leon Conner, Spearman announce the engagement and approaching marriage of their daughter, Barbara Carol to Dale Irby, son of Mr. and Mrs. E. M. Irby, Lubbock. Vows will be exchanged at 3 p. m. October 3 in the home of the bride-elect's brother, Chester Conner. Only close friends and family members will attend.

## The Women's Page

Chris Moss, Society Editor --- Phone 441-3681

### Edith Ann Walling One Of Top Ten

Miss Edith Ann Walling, sponsored by Texico-Farwell Rotary Club, placed in the top ten contestants in the eighth annual Maize Days queen contest in Friona over the weekend. She is the daughter of Mr. and Mrs. Mitz Walling.

Finals for the contest were Thursday night in Friona, when 27 contestants were introduced to a large audience. Judges had interviewed each girl that afternoon. The ten top contestants were then named and each girl presented a talent entry. Miss Walling presented a choral reading.

Miss Sandra Beene was named queen. All contestants other than Miss Walling, were from Friona.

### Federation Milestones To Be Topic For Club

First meeting of the new club year for Farwell Study Club members will be held in the home of Mrs. Claude Coffey on Monday night with Mrs. Albert Smith assisting with hostess duties. A salad supper will be served at 8 p.m.

Program for the evening will be "Federation Milestones" presented by the new president, Mrs. Mabel Reynolds. New officers will assume duties at this meeting.

Mrs. Ray Campbell presents a 30 cup coffee maker to Mrs. M. A. Snider Sr. during the formal opening of Campbell Electric company last week. Coffee and doughnuts were served to the large crowd attending the affair.

### Know Your Teacher-

(Continued from page 5)

October 5. He will be working in the research department. Bert recently received his doctorate in chemical engineering from Princeton University. His wife, Wanda worked for three years at the college in the athletic department as a secretary.

Richard (Dickie) the second son, is now attending Princeton, where he is also majoring in chemical engineering. He spends his summers working for Humble Oil Co.

Tommy, the third son, and his wife, Janice, are students at Texas Tech. Tommy is a senior pre-medical student and Janice is beginning her second semester freshman work.

Sharon, lone girl in the family, is a seventh grade student in the Farwell School. Jack concluded with the thought "If I had my life to live over I would enter the teaching field again, because I believe that teachers are called of God as are preachers."

### Return To College

Hal Ed Helton and Wayne Hudnall students at Tulsa University left Sunday to return to college. They are the sons of Mr. and Mrs. Joe Helton and Rev. and Mrs. Harvey Hudnall, respectively.

The typewriter was first put on the market in 1874.

### Marriage Licenses Issued

One marriage license was issued from the office of county clerk Bonnie Warren last week. It went to Morris Lee Beaty and Betty Fay Jones and was issued on Sept. 8.

## Open House Set At Texas' First Beet Sugar Refinery

Dedication and public tours of the first beet sugar refinery in Texas, the big Holly Sugar Corporation facility at Hereford, have been set for the weekend of Sept. 19 and 20, it was announced today by Holly President Dennis O'Rourke.

Highlight of the weekend will be the principal dedicatory address by Governor John Connally at public ceremonies scheduled to begin at 10:30 a. m., Saturday, Sept. 19, at the refinery.

Immediately following the dedication program, conducted tours of the plant will start and continue through Saturday afternoon and again on Sunday

from 10 a. m. until 4 p. m.

The public will be able to view some of the world's biggest and latest sugar-making equipment, and will see a number of the principal stations along the process route from the start with sugar beet roots to the point at which pure sugar crystals will emerge.

Actual sugar-making operations at Hereford are not scheduled to begin until harvest of the region's promising sugar beet crop begins on Oct. 1, but the public will get a view of the tremendous array of specialized machinery and equipment necessary in the processing of sugar beets and production of finished sugar.

In addition to Governor Connally, many national, state and local officials and dignitaries, including several members of Congress, have indicated they will attend the dedication.

The hour-long dedicatory ceremonies will be presided over by Mr. O'Rourke, Austin Rose, Jr., President of the Texas Sugar Beet Growers' Association, Inc. and President of the Deaf Smith County Chamber of Commerce at Hereford, will speak in behalf of all the sugar beet farmers who will

supply beets for the Hereford refinery and for the business people of Hereford.

Mayor Ray Cowsert, of Hereford, will welcome the visitors.

Music for the program will be furnished by the Whiteface Band of the Hereford Independent School District. Invocation will be by The Reverend Mr. Herschel L. Thurston, Pastor of the First Methodist Church of Hereford, and Benediction by Father Cletus McGorry, Pastor of St. Anthony's Church, Hereford. A color guard will be furnished by the Hereford Post of the American Legion.

Souvenirs of the dedication, including special gift packages of Holly sugar, will be given those attending.

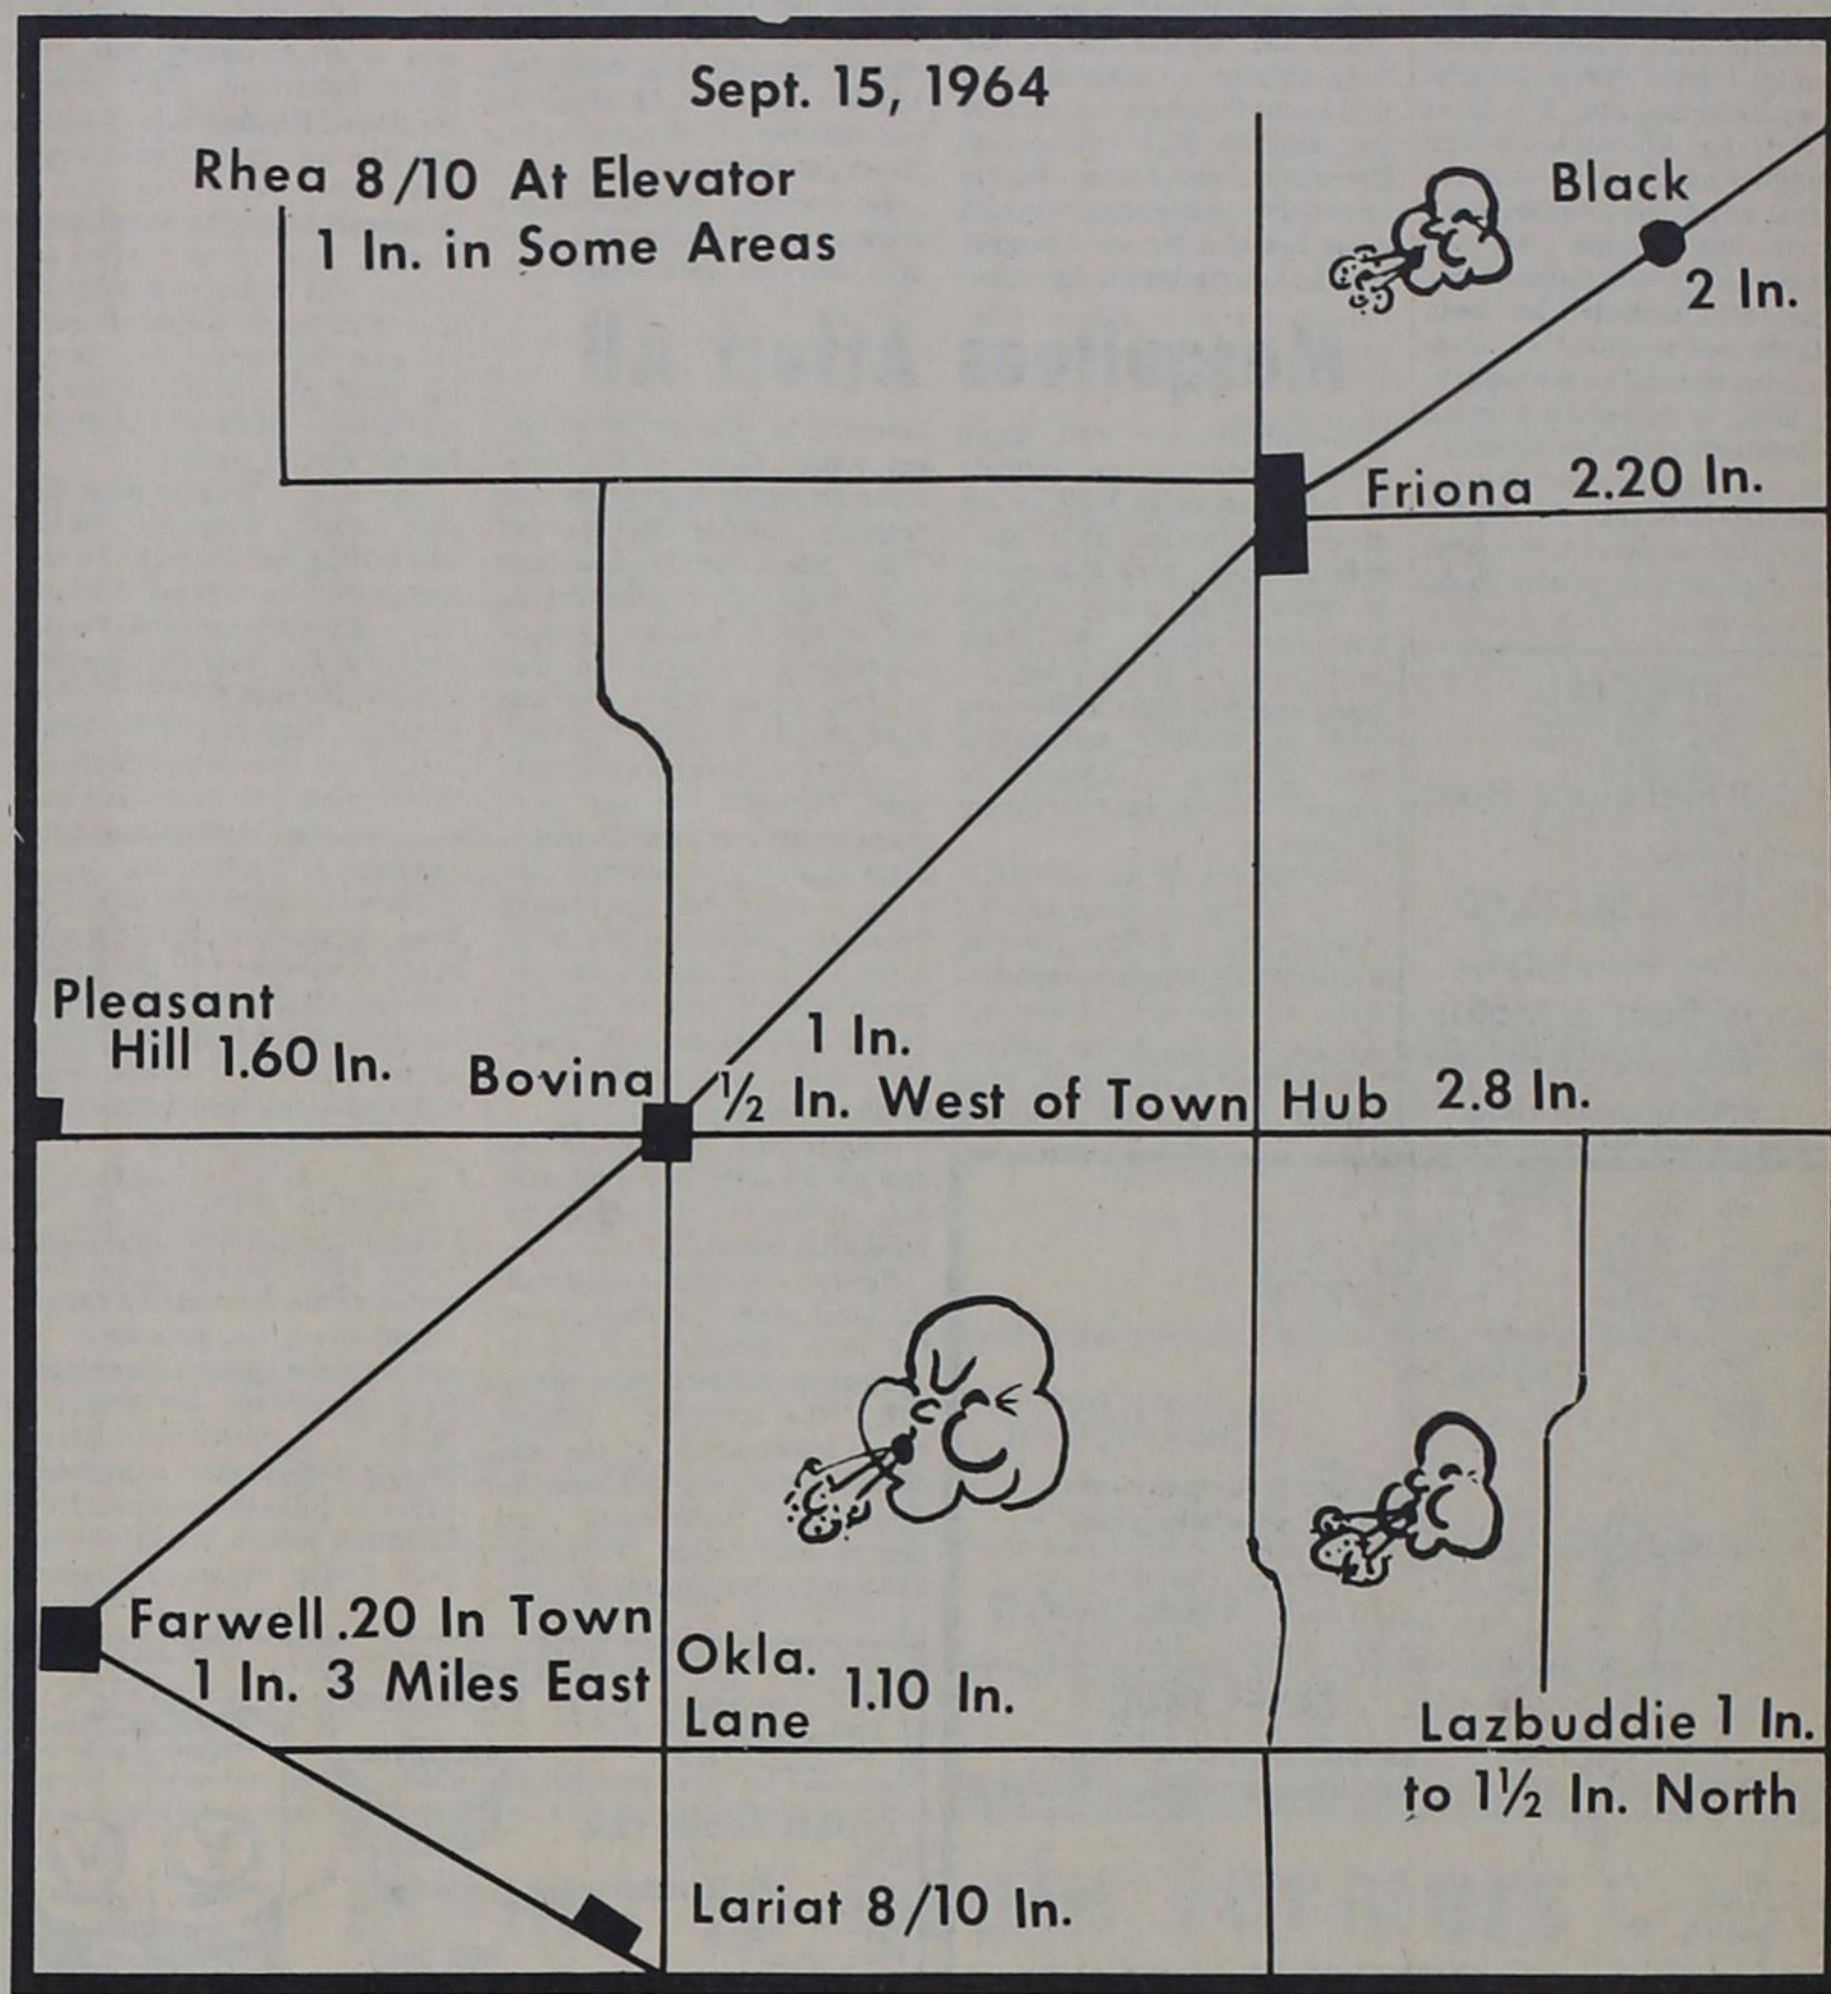

Opening of the imposing plant

complex will mark the culmination of several years of planning and effort to bring this new agricultural-industrial enterprise to Texas. The big plant has been named the Merrill E. Shoup plant in honor of the late Chairman of the Board of Holly Sugar Corporation.

Ladies planning to tour the big new Holly Sugar Corporation refinery here are urged to be prepared with low-heel or flat sole shoes for their trip through the plant.

"There are some open gratings and metal stairways on the tour route," plant officials announced, "and ladies will be much more comfortable in walking shoes than in high heels."

## Parmer County Rainfall

**NOTICE OF SALE**  
The C. H. Fallwell Estate will sell for cash all of Lots 21, 22, 23 and 24 in Block 61, of the Original town of Friona, Parmer County, Texas, on Friday, September 18th, 1964. Sealed bids will be received at the office of Sheehan and Conner, 715 Main Street, P. O. Box 997, Friona, Texas, until 2:30 P.M., September 18th, 1964. The C. H. Fallwell Estate reserves the right to reject any and all bids.

**AMMO NOTES**  
By Bill Bennett, Agronomist

The fertilizer industry has made a lot of progress in improving fertilizers. Dusty, caked fertilizer materials are no longer common. Different types and kinds of fertilizer are becoming available. Further development will be made in 3 types of fertilizers - gases, liquids and solids. One relatively new type of phosphorus fertilizer material has been developed called superphosphoric acid. This material, which contains 76 to 80% P<sub>2</sub>O<sub>5</sub>, is being used to make higher analysis liquid and dry fertilizers. With the advent of this material, tow phosphorus terms will become common. They are orthophosphate and polyphosphate. Orthophosphate has only one phosphorus atom per molecule. Polyphosphates are compounds in which the molecules contain two or more phosphorus atoms in a chain. The orthophosphate is the type of phosphorus present in the phosphorus materials com-

### Wheat Program Signup Is Going Slowly

There have only been a little over 400 wheat farms signed up for the 1965 Wheat Program as of this date. (September 15, 1964). This is approximately one-third of the wheat farms in Parmer County. It is felt that a number of producers are forgetting that the signup period is now open and that it closes on October 2, 1964. They may also be forgetting the flexibility of next year's wheat and Feed Grain Programs. It is felt that many producers will want to signup in this program just for the "insurance provisions" if nothing else. Wheat producers are to be reminded that the intention to participate which they sign by October 2, can be changed next spring during the Feed Grain signup period. But, they will have this option only if they do signup in the wheat program by October 2, 1964.

We would suggest that all wheat producers should visit their ASCS Office, at least for an explanation of the program provisions, prior to the final signup date of October 2.

There's a new kind of cotton rickrack on the market. It's a no-iron variety

**PLANT X OPEN HOUSE**  
1 TO 5 P.M.  
Saturday & Sunday, September 19-20

Be our guest for a tour of Plant X, one of the Nation's largest and most modern generating stations. You'll see how electronic computers, huge turbine-generators and steam boilers as tall as a 14 story building help to meet your needs for electric service, efficiently, economically and dependably both today and in the future.

Plant X is located 4 miles south of Earth and 12 miles north of Amherst on Farm to Market Road 1055.

# Flame Cultivation Works For Hinkle

Flame cultivation as a means of weed control has made the full cycle, from research to the farmer. Harold Hinkle of Plainview, working with his local LPG dealer, has worked toward complete weed control using the research information developed by the High Plains Research Foundation. Now the High Plains Research Foundation has been able to see research go from the experimental to the applied.

Harold has been farming the same quarter section for seven years and reports that he has been able to cut his weed control costs in cotton from \$20.00 per acre to \$8.97 using both flame and hand hoeing. Hinkle states that on his present cotton crop, his cost for weed control is: \$5.71 per acre for hoe labor

and with two flaming, the first of which cost him \$0.36 per acre and the second cost him \$0.90. Harold feels that he must then add a cost of \$1.00 per acre per flaming for the cost of his flame cultivator.

On the other crops that are grown on his farm, the cost breakdown indicates that it cost

\$10.00 to \$12.00 per acre for weed control with conventional tillage tools as compared with a cost of \$1.45 lay-by with his flame cultivator. With grain sorghum, Hinkle, who did not practice any type of weed control stated, "when I did not use flame, all I had was a grown up mess!" Now, using heat as an economical means of weed control in the grain sorghum crop, his cost is: for the first flaming \$0.45 plus \$1.00 for use of the flame cultivator and \$0.81 for the second flaming.

One other full cycle from the High Plains Research Foundation that can be found on the Hinkle farm is the Hinn soybean. The Hinn developed by the Foundation is the first soybean developed for this area of Texas. Hinkle, a supporter of the Foundation, has planted the Hinn bean to complete one more step going from the Foundation and its research to the farmer.

The planting of the Hinn soybean, as an example of the new crop research for the area, combined with other research at the Foundation helps the farmer produce better crops more efficiently and economically.

As of this writing (September 11) we are only a couple of days away from seeing the first spray plane taking the air in the High Plains boll weevil control program. The first plane will be the forerunner of 12 others on hand to spray some 200,000 acres of area cotton from three to four times between now and frost with technical malathion -- a chemical deadly to the boll weevil and offering practically no danger to people, pets or livestock.

The beginning of the actual spray program will bring a great easement to the minds of the hundreds and hundreds of High Plains residents who have toiled so long and so faithfully to lay the plans and gather up the loose ends that, when tied together, would make the program possible. The entire Plains Cotton Growers staff has been so caught up in the feverish activity necessary to thwart a terrible fate for the Plains that it is possible we have failed in our duty to give full credit to the many, many individuals and groups that have given so unstintingly of their time for the program. If so, such failure has been entirely unintentional.

The Texas Agricultural Extension Service, through its County Agents, has certainly done yeoman service in helping tell the general public what the program was all about and why it is so vital to our cotton industry. District Agent W. O. (Bud) Jones, did a fine job of coordinating the County Agents work until his retirement August 31, and was vigorously succeeded by Billy C. Gunter.

Teachers of Vocational Agriculture, often working hand in glove with Young Farmer Organizations, have also been a great help in carrying the boll weevil story to the people. Without a full understanding on the part of the public concerning such phases of the program as the 50 cent compress deduction; the safety of the chemical to be used; the seriousness of the weevil problem to farmer and businessman alike, and the necessity for obtaining spray permits from farmers in the control zone -- without this -- that first plane might never have left the ground. Walter Labay, as Area Supervisor of Vocational Agriculture teachers, has earned our profound respect.

And speaking of the 50 cent compress deduction, the High Plains compress industry, by agreeing to accept this unpleasant but vital chore, has earned the appreciation of all on the Plains who have a stake in cotton's future -- and who on the Plains hasn't such a stake.

The job of actually getting signatures of farmers in the seven-county control zone -- some 3,500 of them -- was assigned to the Texas Department of Agriculture and responsibly carried through under the direction of Commissioner of Agriculture John C. White, his assistant Charlie Chapman, Fred Roy of the Lubbock office, and others.

The very base on which the whole program is founded begins with the research work carried out by Texas A&M and the South Plains Research and Extension Center. Charles Fisher, Superintendent, and W. L. Owen, entomologist at the Center, along with their associates, are the names that stand out here. From A&M the Plains is indebted to Dr. J. C. Gaines, Head of that school's Entomology Department, Dr. Perry L. Adkisson of the same department, and Dr. R. E. Patterson, A&M's Dean of Agriculture.

Helping to determine what research was needed and lending other valuable advice to the program has been Dr. James Brazzel of Mississippi State

College who is the virtual "father" of the diapause method on which the program depends for success; Dr. Johnny Johnston, entomologist for the National Cotton Council; Dr. Ellis Huddleston, Assistant Professor of Entomology at Texas Tech, and Dr. Gerald Thomas, Dean of Agriculture at that school; Joe Ramsey, President of Texas Aerial Applicators and many others who served on Plains Cotton Growers' Technical Advisory Committee.

The Plant Pest Control Division of USDA, headed by Dr. E. D. Burgess has lent invaluable aid in support of our request for Federal matching funds and in addition has assumed the actual operation of the program. In that division of USDA and deeply involved in the details of the program are D. M. McEachern, State Supervisor; D. H. Russell, Lubbock Supervisor, and Dr. Sloan E. Jones, Director of Cotton Insects Research Branch at Beltsville, Maryland. Besides these advisory and supervisory personnel, Plant Pest Control has assigned some 30 men to this area for putting on the program.

Ralph E. Griffiths, Superintendent of the Farmers Home Administration has had a hand in pushing the program forward; Gordon Treadaway, Lubbock Attorney has lent valuable legal assistance; Byron W. Frierson, Farm Manager for the Texas Prison System made his experience with diapause control available; officers, directors and personnel of area ginners associations, oil mills, compresses, Chambers of Commerce, even women's clubs, all have made their contribution to the cause and all are greatly appreciated.

Then there are the various Plains Cotton Growers committees -- Steering, Advisory, County and Community Committees, all serving without pay or even expense money -- that have done such a marvelous job of making crucial decisions, removing obstacles to the program and bolstering the program throughout.

A complete list of the people and the organizations or the agencies and their personnel which have been so necessary to getting that first spray plane up would be almost without end. As examples, in the absence of ready funds for early season sprayings, Lubbock banks offered the short term loan of up to half a million dollars, and the offer was accepted; and news media throughout the entire 23 counties have whole-

# Area Requests Ginning Laboratory

A public cotton ginning research laboratory for the High Plains region, to be operated by the U. S. Department of Agriculture, was the unanimous desire expressed by representatives of the Texas Cotton Ginners Association, the Texas Independent Ginners Association, the Plains Ginners Association, cooperative ginners of the Plains cooperative ginners of the Plains, and Plains Cotton Grower, Inc. at the meeting on September 3.

The meeting was held at the office of Plains Cotton Growers, and it was also agreed that a permanent committee of representatives from all these organizations would be appointed to work closely with the laboratory in development and execution of its program of ginning research. The complete accord was reached by those present after more detailed in-

formation had been received from the USDA concerning the operation of the proposed laboratory.

Funds for drawing up plans and specifications for such a laboratory on the High Plains were recently approved along with other research funds in the 1964-65. Agriculture Appropriations bill, but no funds have yet been appropriated for actual construction. This project is a part of the overall effort to reduce the cost of producing and processing cotton, a stated objective of the new cotton-wheat law passed this year.

## Ammo Notes--

(Continued from page 1)

monly available such as 0-20-0, 0-46-0, 11-48-0, 7-21-0 and 8-24-0. Polyphosphates are present in materials in which superphosphoric acid is used such as 21-53-0 and 11-37-0.

The polyphosphates are usually higher in analysis, generally more soluble and better micronutrient carriers than orthophosphates. The polyphosphates may result in lower cost micronutrients and keep them in a more readily available form.

heartedly lent their facilities, without which the necessary educational programs would have been almost impossible. Any number of such items could be listed which have served to start diapause control -- all pointing up the fact that here is a problem so great and so obvious that, for once, there has been practical unanimity of decision and of action. And the program could not have come about in any other way.

# Mosquitoes Affect All

Mosquitoes are well known pests to both man and animals in rural areas as well as the cities and towns. They spoil man's leisure time at home or in recreational areas and their persistent attack can cause farm animals to lose weight. Some species transmit diseases such as malaria and yellow fever to man, encephalitis to man and horses and heartworm to dogs.

Mosquitoes breed primarily in the spring, summer and fall months, says Weldon Newton, assistant Extension entomologist at Texas A&M University. Newton urges home owners and farmers to take every precaution to prevent mosquito

breeding by eliminating standing water. Some of the more common problem areas include dripping outdoor faucets and leaky pipes, puddles resulting from evaporative cooler drainage or around livestock watering tanks and tin cans and other articles which might trap and hold small amounts of water.

In areas where irrigation is used, farmers are warned to observe proper water management as well as drainage practices in their fields to prevent breeding places for the mosquito. Pools of shallow stagnant water with debris or floating vegetation are extremely favorable areas for mosquitoes and should be eliminated.

Proper use of insecticides around the farm and home also aids in control of the pest, the specialist added.

Newton suggests a visit with the local county Extension agent for more details on mosquito control. Ask for a copy of L-625, "The Mosquito." It contains information of the life cycle of the pest and outlines procedures individuals and groups may follow in fighting outbreaks of mosquitoes.

Research scientists in the College of Veterinary Medicine, Texas A&M University, say that coffee senna, sometimes called styptic-weed, is poisonous to cattle, sheep, goats and rabbits. It is apparently the primary cause of a condition in which muscle degeneration associated with red urine is observed. This condition occurs in cattle in the Gulf Coast region of Texas.

## Plant X Open House This Weekend

Southwestern Public Service Company's Plant X, largest of the electric company's 11 generating stations, will be the scene of an Open House on Saturday and Sunday, September 19th and 20th. Plant X is located in Lamb County, four miles south of Earth on Farm Road 1055.

Visiting hours at the \$43,000,000 plant will be from 1:00 p. m. to 5:00 p. m. each day, and area residents are invited to tour the ultra-modern facility during those hours. Refreshments will be served to visitors.

The largest single generating unit in service on Southwestern Public Service Company's system, a 210,000 kilowatt

machine, has just been put in service at Plant X. The fourth unit at the plant increases the capability of the station to 487,500 kilowatts.

The turbine room at Plant X which houses the four generating units is more than 522 feet long. Plant operators on the early morning shifts insist that the plant is now so large that the sun rises on the east side of the building five minutes earlier than it does on the west.

Plant X features a number of installations of electronic equipment which are used to make possible the most efficient and economical generation of electric power.

The plant has a central in-

formation system which provides the control room with 400 different readings from various equipment every two minutes. This information is constantly studied in order that the most efficient results can be obtained at all times.

An automatic load dispatching system is also used, which takes into account both the cost of producing the electric power and the cost of transporting it to the point of ultimate use, in order that, once again, maximum economics can be obtained.

Three times the distinction of housing what was then the largest single generating unit on Southwestern Public Service Company's system has gone to Plant X.

The original unit at the station, which went into service in 1952, was the first 50,000 kilowatt generator that the electric company installed. However, while it was still in the construction stage itself, work began on a 100,000 kilowatt machine, which went into service in 1953. The 210,000 kilowatt unit which has just gone into service makes the third "largest unit" distinction for Plant X.

Perhaps no statistic more significantly records the growth and progress of an area than the increase in the generating capability of the electric company serving a region. Certainly, only as the area it serves grows can an electric company grow.

Plant X, and Southwestern Public Service Company's 10 other major generating stations, provide dramatic evidence of the growth of the 45,000 square mile area that the electric company serves. Plant X, itself, has a generating capability that is more than four times greater than the entire company had when it took its present form in 1942, while the system capability has increased more than 11 times.

Plant X was designed and engineered and its construction supervised by Southwestern Public Service Company engineering personnel, under the direction of E. W. Robinson of Amarillo, the company's chief engineer, generating station design. All of the construction at the plant has been done by Missouri Valley Constructors of Amarillo.

When painting your home, always follow the sun. Paint the north side early in the morning, the east side late in the morning, the south well after noon, and the west side during the late afternoon, specialists in the Forest Products Laboratory of USDA's Forest Service advise.

## On The Farm In Parmer County

This weather we had last weekend was certainly an abrupt change from our hot, dry summer. It certainly slowed our maturing cotton down, which at this point is getting real important to much late cotton in the county.

The time required from white bloom to open boll averages from 50 to 65 days. The date of our first frost occurs on an average around October 20. This late cotton sure needs plenty of warm days the next month to go ahead and make.

**COTTON DISEASE**  
We have found some cotton fields lightly infested with verticillium wilt the last 10 days. Verticillium Wilt is caused by a soil-borne fungus. The organism is generally distributed throughout the cotton belt and continues to spread into irrigated alkaline soils. Many commonly grown vegetable, ornamental, and field crops are susceptible to the disease so it should be of serious concern to all people who grow plants.

Verticillium Wilt can attack and kill cotton seedlings although the most frequently observed and most serious outbreaks occur in cotton at blossom stage and later. The first symptoms is a yellow mottling of irregular shape on lower leaves. These areas are usually bounded at first by the principal veins of the leaf. The chlorotic areas die and turn brown; newer leaves show the yellowing; lower leaves are shed; upper leaves and young squares are lost; older bolls fall; and finally the stalk dies during the course of disease development. Sometimes the roots live and sprouts emerge from the base of the plant late in the season. A cross-section of a stem reveals a dark discoloration of the vascular tissues. Scattered cotton plants may be affected in a row of healthy plants and in other cases, many plants are killed over a large area.

Control of Verticillium Wilt is difficult in fields where the fungus is established. The first consideration for control should be adoption of strict sanitation measures to prevent spread of the fungus to clean fields on diseased cotton plant material. Crop rotations with dry-fallow-deep-plowing grain sorghum or wheat--cotton will assist in reducing the disease. Certain cultural practices have influenced the severity of Verticillium Wilt. Excessive nitrogen fertilizer or inadequate potassium levels tend to increase the disease. A soil test is the best indicator of the proper fertility program if the grower uses no more nitrogen than recommended. Excessive amounts of irrigation water tend to lower soil temperatures, making the disease more damaging while losses can be reduced by having thick uniform stands of 5-7 plants per foot of row. Avoid heavy manure applications and excessive amounts of unrotted old crop trash.

No stripper type cotton varieties have satisfactory resistance.

There is no practical chemical control for Verticillium Wilt. Chemicals which eradicate the fungus generally cost too much for field scale use. In summary, a cotton producer should use extreme caution to avoid contamination of his soil with the wilt fungus. Having failed in this, losses to the disease can be reduced through crop rotation, wise use of fertilizers, good irrigation practices, and thick planting, 5 to 7 plants per foot of row.

**HARVEST CHEMICALS**  
A meeting to discuss harvest-aid chemicals for cotton and techniques of application will be held Wednesday, September 23, at Muleshoe starting at 2:00 p. m. in the Bailey County Electric Co-Op meeting room. The affect on cotton quality, yields profitable use and preserva-

tion of quality will be discussed by Extension Specialist, 4-H PROGRESS

The County-wide 4-H membership drive and reorganization efforts are making good progress. The survey of all 4-H age youngsters in the county through the cooperation of the

public schools was made last week. These are being tabulated to assist local adult leaders in each community.

The 4-H members must have

adult leaders in their community if they are to have a well organized program you will be proud of. We have many

good leaders now but they keep telling us they need more leaders.

Adults who are interested in giving a little time to helping and working with a small group of boys or girls on a project should call the county Extension office in Farwell, 481-3619.

## Screwworm Danger Increases

Texas farmers and ranchers should take special precautions in handling their livestock during the coming weeks to prevent new attacks by the screwworm fly.

Stepped-up vigilance by livestock producers is important, not only to protect their animals from becoming infested, but also because an impending shortage of funds for the screwworm eradication program may limit emergency control measures that can be taken.

Eradication authorities pointed out that in past years, the livestock pest has always made large, rapid gains during the fall months when wet, cool weather is extremely favorable for insect development, and an increase in livestock management practices produces an abundance of wounds attractive to the insect.

Infestations have been rare this summer, with only two dozen cases reported by livestock producers in Texas. Only one case was detected during August.

Eradication officials warned, however, that the screwworm fly can migrate great distances when conditions are favorable and failure of stockmen to be alert to the danger could result in a sudden explosion of cases. Infestations detected, treated and reported during the early

stages of development can be quickly and easily controlled, officials said.

Eradication activities may have to be reduced because of recent action by Congress in trimming a budget request for \$5 million to carry the program through the current fiscal year. Only \$2.75 million will be made available by the federal government, and \$2.5 million of this cannot be spent unless it is matched by non-federal money.

Practically all of the \$6 million contributed voluntarily by farmers and ranchers and appropriated by the State of Texas will be expended by Dec. 1, campaign authorities said.

The Southwest Animal Health Research Foundation, which spearheaded the producer fund drive, along with industry and government leaders, is studying ways of getting the program out of its financial straits. In the meantime livestockmen--through careful management of their animals--can prevent an

upsurge in screwworm cases that could cause even more difficulties for the eradication project.

Crossbred calves have better preweaning records than straightbreds in first of a 3-phase experiment to evaluate crossbred vigor in beef cattle. Crossbred calves excelled in birth weight, average daily gain, weaning weight at 200 days and weaning conformation score. Scientists of USDA and Nebraska Agricultural Experiment Station are using Angus, Hereford and Shorthorn breeds in these studies.

## Production Credit Executives To Attend Lubbock Conference

Seven executives of the Plainview Production Credit Association will attend a regional group conference of directors and general managers of the agricultural financing institutions, to be held in Lubbock Thursday and Friday, September 17-18.

Representatives of the six PCAs, covering a 51-county area of West Texas and the Panhandle will attend the meeting. It is sponsored by the Federal Intermediate Credit Bank of Houston, discount and supervisory agency for the 36 associations in Texas.

Attending from the Plainview PCA will be President Grady Shepard of Hale Center, Vice President Henry Hayes of Plainview, Directors Don Garrison of Silvertown, Billy W. Carthel of Friona and Loyd

Widener of Lockney, General Manager Noel Woodley and Assistant Manager Fred Conner, both of Plainview.

Farmer and rancher owned and operated, the Plainview Production Credit Association provides more than \$45,000,000 annually in low-cost agricultural credit in Bailey, Briscoe, Castro, Floyd, Hale, Lamb, Parmer and Swisher counties. Offices are operated in Plainview, Muleshoe, Littlefield, Floydada, Friona, Dimmitt, Tulla, Silvertown, and Olton.

W. B. Mansfield of the Engineering Extension Service, Texas A&M University, will lead a discussion on the role of directors in PCAs. Other speakers, who will discuss

operational and organizational procedures and problems, will include President W. N. Stokes Jr., Vice President W. H. Calkins, Secretary Ellis Lanier and Assistant Vice President Alton B. Cook, all with the Intermediate Credit Bank.

Other associations to be represented at the conference include Amarillo, Lubbock, Memphis, Plainview and Stamford. Loan volume for the six Production Credit Associations totalled more than \$95,000,000 to farmers and ranchers in 1963 in their 51-county area.

## ... Memo to Grain Farmers ...

# TIDE EQUIPMENT SAVES YOU MONEY

**HOW TIDE CAN SERVE YOU NOW:**

To get the most out of your fertilizer dollar on your grain sorghum land, use TIDE bulk blend fertilizer and their fine equipment.

**NOW IS THE TIME:**

As soon as possible after combining, shred stalks and apply TIDE'S prescription blend fertilizer to get maximum decomposition of the stubble and bring your soil nutrient level up to its needed point. See your TIDE representative. All nutrients 100% water soluble, easily and economically applied.

**A SPECIFIC FERTILIZER BLENDED FOR A SPECIFIC CROP USE:**

Prescription blended on this basis to meet your soil needs:

1. BY SOIL TEST
2. BY THE AMOUNT OF CROP REMOVAL
3. BY THE AMOUNT OF ORGANIC MATTER LEFT TO DECOMPOSE
4. BY THE ROTATION SYSTEM USED
5. BY THE SOIL TYPE AND ITS CURRENT CONDITION

**TIDE'S TILT BOX SERVICE:**

Only TIDE can give you the convenience of bulk service at the field... with no handling, 4,000 lb. spreaders filled in minutes with high analysis, Prescription blended fertilizer... no time lost in "ROADING" equipment. Fertilizing at its peak of efficiency for efficient growers who desire to reduce operational cost.

**TIDE'S COMPLETE LINE OF FARM CHEMICALS:**

1. All fertilizer 100% water soluble.
2. Bulk or Bag
3. Anhydrous Ammonia
4. Herbicides
5. Insecticides
6. Fungicides
7. Defoliants

LET THE EFFICIENCY OF OUR EQUIPMENT AND EXPERIENCE HELP THE EFFICIENCY OF YOUR FARMING.

No Bags to Burn  
No Bags to Handle  
HIGH ANALYSIS Fertilizer  
By Just Pulling the Handle.

**4-H'ers**

**make  
the  
best...  
BETTER**

More than 8,600 Texas 4-H Club members completing a beef animal project are analyzing records, evaluating the year's work and making plans to show their prize livestock at county fairs and stock shows.

There is a saying in 4-H that "blue ribbon animals make blue ribbon boys and girls." This is especially true in the beef program. Besides cash, the participants derive lasting benefits.

The National 4-H Service Committee in its current bulletin on the beef awards program prepared in conjunction with the Cooperative Extension Service, states:

"Through judging, demonstrations and showmanship events you will sharpen your skills, learn to justify your decisions, develop leadership and attitudes helpful in adult life."

While these are broad objectives of the national beef awards program sponsored by E. I. du Pont de Nemours & Company, there are other distinct realms of learning open to 4-H youth.

The young Lone Star stater are assisted in their work by county agricultural extension agents and local 4-H Club leaders. Frequently local veterinarians, feeders and breeders offer guidance and useful information.

Awards await members whose projects are outstanding. Du Pont provides a trip to the National 4-H Club Congress for the 1964 state winner, and medals for county winners.

The 1964 Texas state winner will be judged along with 47 other state winners for one of six \$500 beef scholarships to

be presented during the congress held in Chicago the week following Thanksgiving.

To be eligible for state or national awards, 4-H members must be over 14 years of age and have completed at least three years of club work. The Extension Service supervises the program and names the winners.

Boys and girls thinking about starting a beef project in 1965 should see the county agricultural agent or a local club leader.

**Give Wood Furniture Proper Care**

Too much wax, oil and polish can actually dim the beauty of wood finishes, says Mrs. Wanda Meyer, Extension Service home management specialist at Texas A&M University.

Furniture manufacturers themselves point this out. The best cleaning care, according to the American Walnut Manufacturers Association, is to wash furniture with suds and water.

Wash it once or twice with a cloth wrung out of warm soap or detergent suds, then wipe all surfaces with a clean damp cloth and rub dry. All wood pieces -- modern or antique -- thrive on this basic cleaning, as the suds remove various types of soil which are not affected by simply applying another coat of oil, polish or wax.

When all surfaces are thoroughly clean, use any preferred type of finishing touch.

Polishes or waxes applied too often tend to build up a film which reduces the beauty of the original finish. Authorities recommend that most furniture be waxed only once or twice a year.

Place cotton denim or canvas sneakers on shoe trees to dry after washing them. This enables the fabric to dry more smoothly and eliminates puckers around the toes.

American cheese production in July, the latest report shows, was 1 per cent below July 1963, but 6 per cent above the 1958-1962 average. Production for the first seven months in 1964, at 732,000 pounds, is 4 per cent above 1963 and 10 per cent above the five-year average. July's estimate was 108,690,000 pounds.

**CLOTHING THOUGHTS**  
Fall is almost here and interest in clothing by the "fair", sex is mounting. One of the secrets of Smart dress, is the way a man or woman wears clothes. Often the well put-together look can do more than money for one's appearance.

We all wear clothes, but it is what we wear and how we wear it that makes the real difference. Grace with which one wears accessories add much to your attractiveness too. Jewelry, for instance can be worn very effectively if various ways are considered. Beautiful,

well chosen jewelry can also lose through the way it is worn. Too much matching jewelry on one costume becomes monotonous and loses its appeal. The big question is when, where and how much?

A pin or other accessory can emphasize good points and moods. Important thing is to have the contrast (or focal point of interest) at or near point you wish to emphasize, such as pretty hair, nice complexion or pretty eyes. This helps create a dominate idea. Use less dominant and related colors to play down less attractive features such as big feet, unattractive hands or a little too large waistline. It's rarely advisable to use intense color on the hands, as the eye is focused

on contrast and the movement of hands can distract from the over-all appearance.

**PLANNING A WARDROBE?**  
When planning a fall wardrobe it is well to think through a few points when selecting new design in garments to be worn. First ask yourself, "what kind of an image do I want to create?"

Do I want to look taller, shorter, wider, or slimmer? There are ways of creating the kind of picture you wish to

be. Of course this may require a little study of lines, designs and color and how to make the application to ones self but it can pay off well in the overall picture that is presented day by day to the seeing public.

If you are interested in information on use of accessories, a bulletin entitled "Accessories Around The Clock" is available for the asking. Come by my office on second floor in the Courthouse in Farwell for a copy.
