

SUCCESSFUL HUNTING TRIP----- Dennis Ensor, 13, son of Mr. and Mrs. James Ensor, Farwell, Route 1 proudly displays the deer he shot while hunting with his dad and N. D. Kelso on the Henry Wilbanks Ranch in the Davis Mountains, approximately 20 mile south of Valentine. Ensor and Kelso also brought back deer.

Yearlings Win Own Tournament, Girls Lose

by Leonard Hutsall
The Yearlings defeated teams from Three Way, Lazbuddie, and Sudan by scores of 38-37, 33-27, and 23-13 to win their own tournament in the Jr. High tournament held in Farwell last Saturday.

The Jr. High girls also competed in the Jr. High girls tournament and defeated Three Way by a score of 41-12 but were downed in their second game of play by Lazbuddie to the tune of 28-12. The Silverton Jr. High girls won the tournament.

In the boys game, the Yearlings were behind 10 points at the half, behind 14 points at the third quarter, but came from behind to win the game by one point in the last 19 seconds.

Robin Mahaney led in scoring for the locals with 11 points. Al Phillips was second with 10 points. Other boys getting in on scoring were Kyle Sheets, six; Rickey Lee, six; Greg Hargrove, four; and Danny Prince, two.

In the second game of tournament play, which the locals won 33-27, against Lazbuddie, Al Phillips was high point man with 12 points. Robin Mahaney was right on his heels with 10 points for second highest, Kyle Sheets had six, and Rickey Lee had five.

In the final game of the series, the locals also came out on top 23-13. The points were evenly divided among the team members as Rickey Lee and Greg Hargrove tied for scoring honors with six points each, Robin Mahaney and Kyle Sheets tied for second place honors with five. Al Phillips had three.

In the girls tournament, Herrington split the net for 15 points to lead the locals to a 41-12 victory over the Three Way team, Chandler was a close second with 14 points. Reeves had six and Cheryl Boling had four.

Scoring for Three Way was J. Heard, five; J. Boyce, five; and J. McLead, one.

After triumphantly whipping the Three Way team, the local Jr. High girls entered their second game against Lazbuddie with high spirits but emerged somewhat saddened and wiser in the ways of the world team as they were forced to bow 28-12.

Chandler led scoring with nine points, Bryant had two and Reeves one. Robinson had 10 and Broyles 10 for Lazbuddie. Foster scored the other eight points for the opponents.

The Yearlings next game will be against Hart tonight (Thursday).

Slated for the starting line-up are Kyle Sheets, Greg Hargrove, Al Phillips, Robin Mahaney, and Rickey Lee.

The Yearlings face Sudan next Thursday (December 17).

Play In Littlefield Tonight

The Farwell Steers will travel to Littlefield Friday night to test their talents against the Littlefield teams.

In the starting lineup will be Johnny Atkinson, forward; Jerry Childs, forward; Larry Gregory, guard; Warren Gossett, guard; and either Doyle Johnson or Johnny Schell at the center.

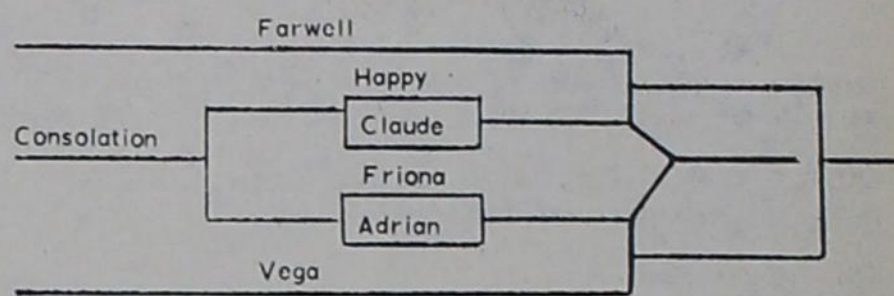

Next Thursday, the Steers and Steerettes will go to Tulla to compete in the Tulla Tournament.

The Brackets are as follows:

Tournament Bracket

The Steerettes will travel to Happy today to compete in the Happy Tournament. The tournament will last today (Thursday), through Saturday.

The Bracket is as follows:

Steers Take Win From Muleshoe

In a game on Tuesday night the Farwell Steers took a win from the Muleshoe quintet 68-38; while their sister team lost a game by a lopsided score 54-31.

Single out for a bit of praise by teammates and the coach was Jerry Childs, who rebounded for 17. Each member of the Farwell team accounted for at least one point in the course of the evening and Johnny Atkinson took scoring honors, hitting for 18.

High point man for Muleshoe was Charles Murray with 13. Joann Rhodes, Farwell with 20 points took scoring honors in the girls game. She was followed by Jeanie King and Carolyn Embry, both of Muleshoe, who had 15 each.

Muleshoe was off to a good start toward victory in the first

quarter when they racked up 12 points to Farwell's five. They continued to outscore the Farwell lasses all the way with halftime score standing 27-11.

Junior Girls Lose Two Games

The Texico Jr. High girls went down in defeat to Grady Monday by a score of 28-16.

Alma Stewart was high pointer with eight points. Brenda Sims was second with seven. Cynthia Armstrong had one.

The Little Whirlwinds also were defeated by Fort Sumner recently by a 21-13 score.

Alma Stewart had seven and Zadene Burris had six in the Fort Sumner game.

Third quarter score was 41-23. Next game for the locals will be played in Littlefield Friday night. Only the boys are scheduled to play. The girls will be playing in the Happy tournament.

Completes Studies

Linda Kay Woltman, daughter of Mr. and Mrs. Bernard Nelson is among the 170 prospective members of the December graduating class at Oklahoma State Tech, Okmulgee. She is completing four months of study in key punch.

Commencement for the 49th graduating class will be held in Covelle Hall at 8 p.m. on Dec. 16. This class brings the total number of graduates since the technical-vocational school opened in Oct. 1946 to 6,3000.

Steers Defeated In Plainview Tourney

The Farwell Steers went down in defeat in both games that they played in the Plainview Tournament held last weekend, at Plainview, against Big Springs and Adrian by scores of 49-44 and 72-58.

Larry Gregory was high point man for the locals in the first game with 21 points. Jerry Childs was second with 14. Third in line was Johnny Atkinson with nine points. Charlie Dannheim and Johnny Schell each had one point.

Simon Terrazas had 15 points for Big Springs. Butch Foster was second with 10 points. Don White was a close third with eight. Joe Joure and Paul Thomas tied for fourth with six each. Van Whatley had two points and Bobby Giffon had one point.

The local five were also humbled 72-58 in the second game of tournament play by the Adrian net-scorchers.

Larry Gregory led scoring with 23 points. Johnny Atkinson was second with 18. Jerry Childs and Warren Gossett had seven each. Johnny Schell had three.

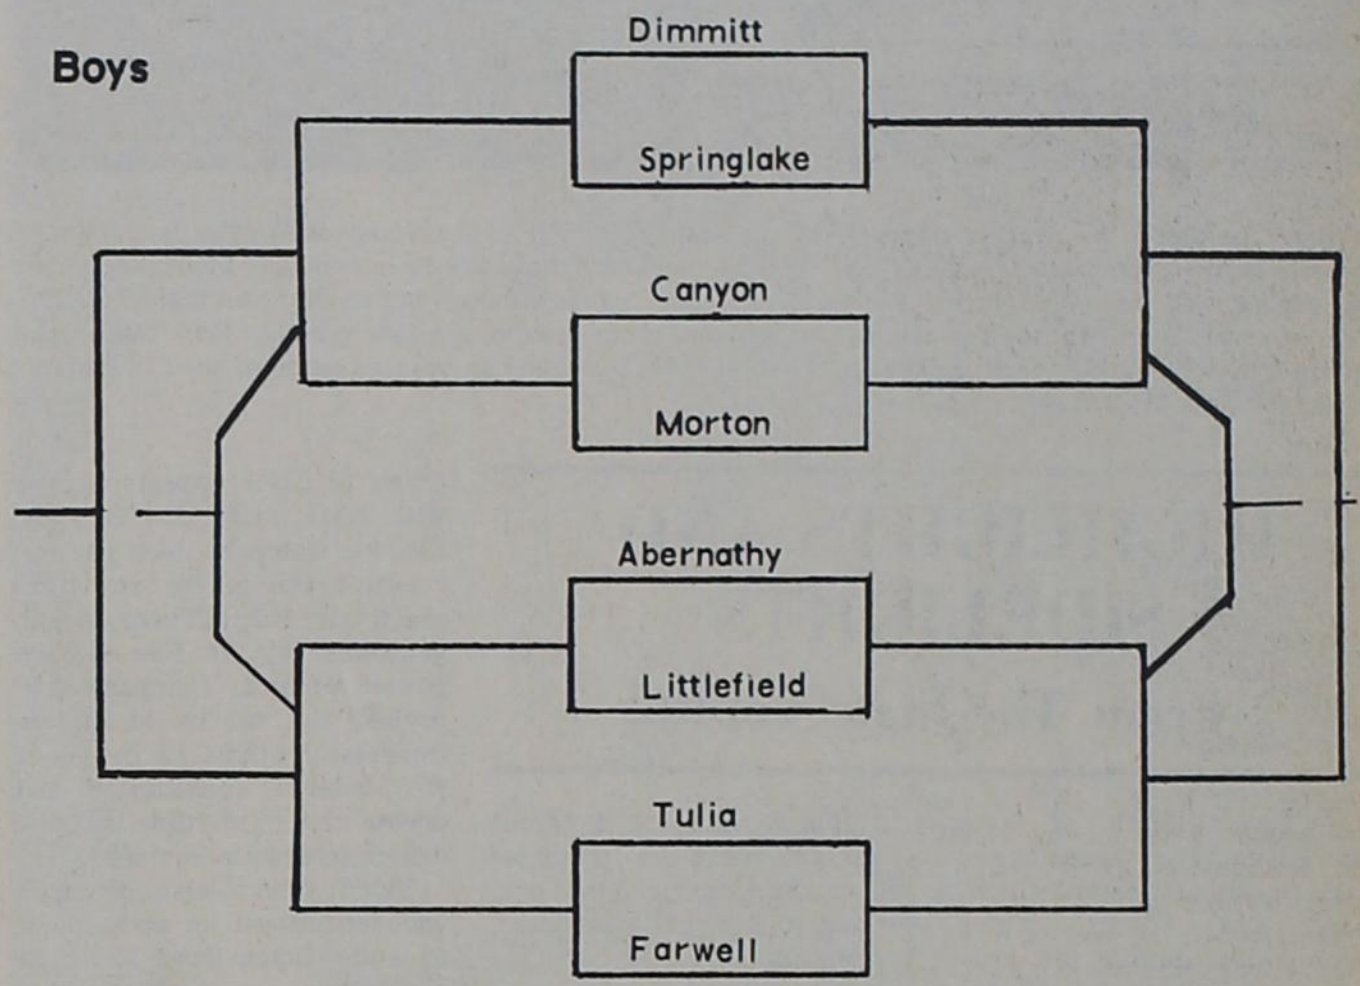

Scoring for the opponents were David Whitten and Mike Horton with 17 each. Mack Fortenberry and Clinton Brown had 12 each. Rick Roblkey was next with eight. James Whaley, Bill Peary, and Steve Foster had two each.

'65 FARM OUTLOOK REMAINS GENERALLY UNCHANGED

The overall agricultural outlook for 1965 takes on a complexion pointing to an increase in demand as well as an increase in supply of farm products. Farm prices and incomes, however, are expected to remain relatively stable.

Markets for farm products on the home front will continue to expand due to economic growth, rising consumer incomes and population growth, reports John McHaney, Extension economist, Texas A&M University.

Looking to the foreign market, agricultural exports in fiscal 1964-65 are anticipated to continue at a high level, though somewhat below the record-setting total of \$6.1 billion last year. This total was 20 per cent above the previous two years.

Producers of agricultural commodities, however, will still be confronted with large supplies of farm and ranch products, says the economist. Both livestock and crop production are expected to increase slightly, while carryover stocks remain large, particularly for grains and cotton.

With the large supply of farm products, little hope prevails for an increase in average prices received by farmers.

While little change is foreseen in livestock product prices, crop prices will probably be slightly lower in 1965.

McHaney estimates the total gross income realized by all farmers and ranchers will maintain the level of the past two years. This income includes cash receipts, government payments and non-money income. Furthermore, only small increases in production expenses are in prospect as compared with increases in recent years.

Farm assets during 1964 are anticipated to increase more than three per cent, due mainly to rising land values. Farmers' debts, though continue to rise, says McHaney, and there will be a greater need for farm credit for acquiring land and capital goods in the coming year.

For the U. S. as a whole, farmers' liabilities are likely to increase to about 16.4 cents per dollar of total assets on January 1. This compares with a rate of 15.7 cents a year earlier and 9.5 cents in 1950.

Polls Named For Cotton Referendum

The polls will open at 8:00 a. m. and close at 6:00 p. m. on December 15, 1964. All cotton producers for 1964 and their wives are eligible to vote.

The following places in Parmer County are designated as polling places:

- McBride Gin
- North Lazbuddie Gin
- Fleming and Son Gin
- Bovina Gin
- Clay's Corner Gin

THE HIGH PLAINS FARM AND HOME

Sugarbeet Hearings In San Antonio

At San Antonio, December 16, in the Gunter Hotel, hearings on sugarbeet wages and price will be held for Texas growers.

The purpose of these hearings is to receive evidence for the Secretary of Agriculture in determining, (1), whether the wage rates established for sugarbeet fieldworkers in the

wage determination which became effective April 3, 1964, continue to be fair, or whether such determination should be amended, and (2) fair and reasonable prices for the 1965 crop of sugarbeets to be paid, under purchase or toll agreements, by producers who process sugarbeets grown by other producers and who apply for payments under the Act.

To obtain the best possible information, the USDA requests all interested parties appear at the hearings to express their views and to present appropriate data with respect to wages and prices.

All written submissions made pursuant to this notice will be made available for public inspection.

Impulse buying can wreck your food budget. It's best to shop from a list and watch food advertisements for good buys, Marie Tribble, Extension nutritionist, says.

PCG FARM LABOR TESTIMONY GIVEN

Mechanization has substantially reduced the number of farm workers required to produce and harvest High Plains crops during the past few years, but the need for a certain number of foreign workers to supplement available domestic labor is just as compelling as ever.

That, generally, was the tenor of testimony presented before the U. S. Department of Labor hearing in Dallas on December 4 by Plains Cotton Growers Labor Relations Representative Ed Dean. The Dallas hearing was one of four set up by the Secretary of Labor to permit interested parties to express their views on the question of criteria for the certification of foreign supplemental workers for employment in U. S. agriculture under Public Law 414 (Immigration Law.)

The previous law under which workers were imported from Mexico, Public Law 78, expires on December 31 and present users of these workers have been instructed to return them to Mexico on or before January 5. That date in all likelihood will fall before the completion of

the High Plains cotton harvest, and Dean's testimony urged that the Secretary of Labor either make workers available under P. L. 414 quickly or make some arrangement whereby workers presently employed can stay on the job for the interim period between January 5 and the time when P. L. 414 workers can be brought in. He emphasized that most of the foreign workers employed in harvest operations cannot be replaced by domestic workers.

Statements made before the hearing examiner, in addition to treating the need for supplemental labor, will deal with conditions of employment such as wages, housing, insurance, transportation, recruitment and others. Dean's testimony, along with that of many High Plains labor associations and individual growers, followed basically the same policy line as that set forth by the National Council of Agricultural Employers -- that the prerequisites imposed for contracting and employment of foreign labor under P. L. 414 should at most be no more severe than similar criteria established under P. L. 78.

The National Council of Agricultural Employers is a chartered organization with members from 36 states who are interested in agricultural labor problems, and the NCAE presented the hearing examiner with extensive testimony.

In his plea for reasonable requirements relative to the contracting and use of foreign labor, Dean presented statistics from the Department of Labor's own publications proving that rigid rules for the use of foreign labor do not necessarily im-

prove either working conditions or job opportunities for members of the domestic labor force. In 1962 the Department of Labor imposed substantially more restrictive regulations for the use of Mexican National workers in agriculture and at the same time increased the wage guarantee for such workers by a minimum of 40 per cent and up to 100 per cent, expressly for the purpose of preventing an adverse effect on the number of jobs available to domestic workers and their conditions of employment. Dean pointed out that in spite of this action by the Secretary of Labor the peak employment of domestic farm workers in 1963 was 14 per cent below that of 1962 and the average annual employment was reduced by 11 per cent.

No decision on either conditions of employment or the availability of foreign workers is expected to come from the Dallas hearing. All of the testimony given at all four hearings will be certified by the hearing examiner to Secretary of Labor Willard Wirtz, who has said he will make the decisions after a thorough study of all views presented. To date there is no indication as to when that study may be completed.

100 Per cent PCG Sign-up in Two Counties
Two of the 23 High Plains counties -- Gaines and Castro -- have reached the happy goal of achieving 100 per cent participation in Plains Cotton Growers. Every one of the 14 gins in Castro County and the 15 gins in Gaines County has signed an agreement pledging support of PCG for the 1964-65 crop year. This represents a new high for PCG support in individual counties, and these counties can be justifiably proud. We congratulate them and pledge ourselves to the task of justifying their confidence.

First pictorial representation of a wheeled cart dates from 3500 B. C. It was found in a Mesopotamian temple.

Tree Selection, Planting, Calls For Careful Planning

By A. F. DeWeth
Professor of Floriculture
Texas A&M University
Outdoor space must be organized and developed to suit the needs of modern living. Trees are not only an integral part of such space organization but are the most important structural elements in solving landscape planting problems. Selection of which tree to use and where to place it is, therefore, a great responsibility.

Trees have distinctive growth habits which always make them accent points. Their proper placement is the most permanent operation performed in any landscape development.

In addition to specific individual and distinctive characteristics, each tree has a definite size, form, texture, color and an ever-changing aesthetic effect from season to season and from youth to maturity in each of these features.

Landscape trees exert a sphere of influence in a certain volume of space beyond the tree limits and the location in which it is placed. They should be located so their sphere of influence does not overlap.

Volume and space requirements of trees limit their use on small properties for modern living since individual resident-

ial properties and subdivided areas are smaller and houses are lower. Scale and space must be carefully considered so selected trees will continue to perform their landscape functions satisfactorily, especially when reaching maturity.

Landscape functions that trees may perform are many and varied. These include shade, climate control, noise abatement, framing, background, enclosure and many others. Form and growth habits must be carefully considered when selecting a tree to perform a certain function in the landscaped area.

Small trees have replaced shrubs for many landscape purposes and the aesthetic effects of texture, color, form, flowering and fruiting habits have assumed greater proportions than in the past.

Proper spacing of trees on small properties is important in developing specimens, clumps, hedges, fenestration and other landscape effects. The right tree must be selected for the proper purpose, but how and where it is located is also extremely important.

To properly choose a tree to perform certain landscape functions and to locate it properly in any given landscape

development, the following suggestions should be carefully considered.

Choose a tree that will be in scale with the site to be developed when it reaches maturity.

Practice restraint in the number of trees used since each tree produces an accent in the landscape picture.

Locate all trees so one tree does not encroach on another's sphere of influence.

Select trees adapted to climatic conditions prevailing in the area.

Check the "nuisance factor" of each tree carefully. Avoid using those that produce excessive litter, especially if it is to be placed in close proximity to walks, drives, terraces or patios.

When trees with rapid growth are needed, avoid those with excessively brittle branches, especially when they are to be used in exposed locations.

Do not select lawn trees that have heavy surface roots or that are excessive feeders since

they will adversely affect the growth of grass and may heave paved areas.

Of special interest to teen-men this summer is the resurgence of ankle-high and higher boots embellished with high Spanish heels. The Beatles get the credit for putting the boot to teen-man fashions.
