

BY HOP JR.

"How did the election come out?"

The draw on the other end of the telephone line belonged to Ray Ford. He was calling me at home, right in the middle of supper, and there was sort of an embarrassed silence on my part.

Stalling for time, I hedged: "Which election was that?" (suggesting there was more than ONE and I wondered which he was speaking of.)

Meanwhile, my mind raced. Election. Election. What election? Suddenly: "Oh yeah, I know. You mean the water district election."

This remembrance came just in the nick of time to keep him from having to tell me the answer. Probably he had already figured out I was having trouble remembering, however.

The conversation moved on naturally. This was Tuesday evening and Ray said he had heard there were only six votes in our precinct. He wanted to know if that was right.

Then I went ahead and confessed that not only did I not know whether that was right or not, I had plain forgotten all about the election and had not voted myself.

Ray asked me how much it cost to hold the election. He thought it would be interesting to figure out how much the taxpayers paid to have each ballot cast. It turns out that three persons clerked the election this week, and were paid \$11.00 each for the day.

That expense of \$33.00 for labor, plus the expense of printing and distributing the ballots, probably put the cost of each ballot somewhere in the vicinity of \$8.00 each. That is just a guess, however.

Ray comments -- and I will have to agree -- that this is a sorry commentary on the way we pay attention to what is going on around us. We had a story on the election in the paper last week, but I didn't remember it any better than anybody else, apparently.

It's hard to say that the farmers ought to be censured for not getting out to vote in an election such as this, because actually, everybody has the same stake in the results. However, I would think that the farmers would be more immediately concerned than non-farm folks.

In the Water District, which we voted ourselves into in 1951, we pay a five-cent assessment to support the administration of these "regional" regulatory activities.

I personally think it is worth it and the only sensible alternative to state or even federal control of our resources -- which would possibly have become a reality by now had it not been for the initiation of the District as it is several years ago.

If you want to see the difference state control and local control of water makes, cross the line between Texas and New Mexico at Broncho, between Hobbs and Denver City, or between Lovington and Plains. The contrast is startling.

However, the pitiful vote this week on a vital election is proof positive that control over local affairs are often lost by default of responsibility. This is something for all of us who grumble about state and federal intervention should study well.

## School Census Now In Progress

The school census for the 1965-66 school year is now in progress for the Farwell school reports Supt. W. M. Roberts. Parents of children who are in school are being sent blanks, which they should complete and return to the school immediately.

Persons who do not have children in school, but who have children who should be on the census should contact Supt. Roberts, or one of the principals at the school. "If you have children who will be starting to school next year be sure they are included on the census," said Supt. Roberts.

All children born after Sept. 1, 1947 and before Sept. 1, 1959 must be included on the census.

**READY FOR USE** -- The post office building in Texico which has been under construction since the middle of July is all ready for use (complete with zip code on the front of the structure) -- except that the fixtures have not all arrived. Postal Clerk Eunice Crume says, that their office is not sure when the needed articles will make their arrival, however, she is quick to say that when the furnishings are installed, "we here at the office will be all ready for the move, can't be too soon for us," she concluded.

## Meeting Date Changed For Texico PTA

The meeting of the Texico PTA, originally scheduled for Tuesday night has been re-set for tonight (Thursday) 8 p.m. in the high school gymnasium in order that several state dignitaries and school officials, who had previous engagements for Tuesday could attend the meeting.

Most pressing problem for discussion will be the proposed re-organization of the New Mexico school system (where in all smaller schools would be re-organized into larger schools in the same general area -- Tex-

ico, Grady, Melrose etc. to Clovis). School officials and state dignitaries attending the meeting will assist the local PTA in forming plans to try and stop this re-organization.

One of the members of the state advisory committee on the proposed plan told a similar gathering last week, "You still have the right to fight and that is the only way this plan can be stopped." The Texico PTA will go on record as opposed to the plan, along with smaller school organizations and school

patrons from over the state. Expected here for the Thursday meeting are Senator Bill Duckworth, Representatives Hoyt Pattison, David Norvell, and Frank Foster. Also Mrs. Forrest Sackett, New Mexico president of the PTA organization, Melrose PTA president, Willard O'Rear, Embury Wall, Elida, A. L. Grau, Grady, Alva Parker, Floyd and Chick Taylor, Clovis.

Mrs. Gladys Kaltwasser, Farwell will be guest speaker. She will discuss the schools in America and those in England.

### NOTICE

Lions Club will sponsor a pancake breakfast at the Farwell high school cafeteria, Sunday, Jan. 31, 7-9 a.m. Price of the meal is 50¢ for children and \$1.00 for adults.

## Needy Families Helped Through ESA And Friends

In the spirit of Christmas, ESA for the 13th consecutive year designated December for philanthropic projects, and was aided by various citizens of good will in the community through donations of food and toys for distribution by ESA.

Through donations of food by Boy Scouts, jelly by Earl Roberts, flour by Golden West Seeds, candy by Farwell Fire-boys, and funds of ESA, four needy families received food

baskets averaging \$25 each, with Ray Mears assisting ESA in buying, and also allowing a discount on purchases.

Four other families received food for a complete Christmas dinner and special fruitbaskets were planned for four persons as a Christmas remembrance.

Continuing a project which they have carried on for a number of years, 36 needy children were remembered with toys and gifts through ESA, with many local persons donating toys and time on the project. Clothing was also provided for some of the older children.

Friends of ESA were remembered with visits and boxes of candy, pajamas were a gift to a bedfast child. Twenty-one children in Texico Schools were given cards entitling them to free milk for a month, a project begun by ESA last year to help in providing for the needs of children who could not purchase the milk.

All members of the sorority aided in phases of the work, and ESA sponsored Santa's trip to the Twin Cities and distributed candy canes to children.

Funds for the work of ESA are derived from various money-making projects during the year. "We have always had excellent support from the community in our efforts to provide funds for our work," says Mrs. Joel Tankersley, president, "and it is only through the interest and efforts of the community and other organizations that we have been able to answer this need in Texico-Farwell."

Emphasizing that it would be impossible to name all those who have aided in the ESA good will projects, Mrs. Tankersley expresses the appreciation of the group to everyone who has become an ESA helper, in donating time, money, toys, food or talent.

## Fire Damages Home

The home of Mr. and Mrs. Ray Vandiver on 7th St. was severely damaged by fire, water and smoke on Thursday night at approximately 8:30 p.m., but was saved from being demolished by the prompt arrival of the Farwell Fire Department.

The blaze started in the kitchen of the Vandiver home, when an electrical outlet near an electric range showed. The kitchen of the home was almost completely burned and smoke and water damage was severe throughout the home. Insurance adjusters estimate the damage at approximately \$3,000.

The Vandiver family were attending a wedding in the Calvary Baptist church at the time the fire was discovered by Joyce Kay Watts.

Mrs. Vandiver, who operates a beauty shop in one room of the home opened the shop for business on Tuesday as that area of the house was not damaged severely. For the present time the family are making their home in a trailerhouse in Farwell.

**WORK COMPLETED** -- Work on paving the area south of the school cafeteria and the street leading to the parking area at the Farwell school was completed late last week by Jake Dell, Muleshoe contractor. The contract for the work was approved at the December meeting of the Farwell school board. Delivery trucks will have easier access to the cafeteria with the new paving in place.

## Homecoming Set In Texico

Homecoming in the Texico school has been set for Saturday night, Jan. 16 when the Texico Wolverines play hosts to the Causey Coyotes in basketball games. Game time has been set for 7:30 p.m. with the two schools B teams to play in the opening game.

Beginning homecoming festivities was a huge bonfire and pep rally which was held at the school on Wednesday night. On Thursday (tonight) the Texico Whirlwinds will collide with Melrose and on Friday the boys teams will travel to Dora for games.

Preceding the basketball games on Saturday night the student council is sponsoring a barbecue meal in the high school cafeteria with serving to begin

at 5:30 p.m.

Festivities at the homecoming will include the crowning of a homecoming king and queen, recognition of the oldest graduate of the Texico, Pleasant Hill and Fairfield schools, recognition of the class with the largest number of its membership in attendance and other dignitaries attending. Mickey Lofton vice president of the student council will be master of ceremonies for the activities.

Queen candidates include Kathy Stone, Veda Wilson and Joy Chunley. King candidates are Tom Rickstrew, Mike Spearman and Joe Patterson. The royalty will be crowned by Bill Campbell and Peggy Hughes "1964 Homecoming Royalty."

## Willie Roberts Has Contract Renewed

The contract of school superintendent W. M. (Willie) Roberts was renewed for a one year term at the Monday night meeting of the Farwell school board. Roberts was also granted a salary raise of some \$300 plus. Total salary will now be \$12,000.

With the beginning of the new school term, in September, Roberts will be beginning his seventh year as superintendent of the school. Previous to that

time Roberts had been in the Oklahoma Lane and Farwell school for an eight year period, serving the schools as principal. He will be beginning his 34th year in the teaching profession in the fall.

Board members approved the teaching of driver's training as a summer course, on a tuition basis. Jack Williams will be instructor for the course.

In other business a committee was appointed, from the school board to select names of men to file for positions on the school board. Date for the board election is April 3. Jim Curtis and A. H. Haseloff are the two board members whose terms will expire. Two men will be selected to fill three year terms.

Other members of the board are Buck Gregory, president, J. T. Ford, vice-president, Pat Patrick, secretary, Bill Prince and Donald Christian.

## Steers Take District Win From Sudan

Farwell Steers defeated the Sudan Hornets in their (Farwell's) first district game on Friday evening when the two teams met on the Sudan court. Final score was 82-54.

Corley Baker, Sudan, took scoring honors hitting the basket for 30 points while Larry Gregory, Farwell poured 21 points through the hoop.

Jerry Childs, Farwell counted for 17 other points while Johnny Actkinson and Dale Gopher each had eight. Johnny Schell contributed seven, Doyle Johnson, six; Charlie Dannheim, five; Warren Gossett, four; Bobby Field, three; Jerry Field, two and Bruce Billingsley, one.

Danny Mastern bucketed 10 points for Sudan with teammates Mike Smith, Mike Belter, Larry Morgan and Danny Martin, hitting for seven, three, two and one respectively.

## Child Has Meningitis

April Dawn Coffman, four year old daughter of Mr. and Mrs. E.R. Coffman is hospitalized in Clivis Memorial hospital where her illness has been diagnosed as spinal meningitis by the attending physician.

The little girl was kept in isolation for several days, however, on Sunday she was described as in good condition and she may now have visitors.

## Alumni Invited

All alumni of the Texico, Pleasant Hill and Fairfield schools are invited to meet in the old gymnasium at the Texico school, immediately following the Texico-Causey ball game Saturday night, Jan. 16.

This date is the regular homecoming at the Texico school, and all alumni are urged to attend the homecoming activities and the get together in the gymnasium. Refreshments will be served.

## Twin Cities Council To Meet, Tuesday

Twin Cities council will meet in the dining room at Clara's Spur Restaurant, Tuesday evening, Jan. 19, 7 p.m. for a regular monthly meeting, according to Mrs. Wesley Engram, secretary of the group.

The council is made up of representatives of each of the civic organizations, and town council members from Texico and Farwell.

Bob Crume is president of the organization.

## Rummage Sales Continue

Farwell juniors will continue their rummage sales this Saturday, Jan. 16, 2-4 p.m. (CST) in the old ASC building in downtown Farwell.

Class members announce that they have much additional rummage for sale and also that if anyone has rummage to donate to the class he should call one of the following persons, Jim Mace, Edith Ann Walling or Mike Camp and the rummage will be picked up at once.

## Brother Dies

Funeral services were held in Coalgate, Okla. on Friday afternoon for Dennis Leister, brother of Mrs. C. J. Huffaker, who passed away on Wednesday afternoon following a long illness.

Local relatives were unable to attend the services.

## Princes Attend Funeral Services

Mr. and Mrs. Bill Prince attended funeral services last week for his brother-in-law, C. M. Abbott, 44, who passed away after a lengthy illness. Abbott has been ill for several years, but his condition became critical about two months ago. He died in Baylor Hospital in Dallas. He had undergone surgery four months ago.

He is survived by his wife and three sons, and other relatives and friends.

Guy Cox, who underwent eye surgery on Tuesday was in satisfactory condition at press time, according to hospital reports.

## Texico Defeats Elida

By defeating Elida on Friday night Texico Wolverines strengthened their hold on second place in district 6B, a place for which they are tied with

Floyd. Each of the teams (Floyd) and Texico have lost two games during the season. Season record for Texico is 6 wins-two losses. Final score was 67-53.

Coach Johnny Green in commenting on Friday's game said, "What I liked was the balanced scoring of the Wolves with four of the players hitting in the double figures."

High point man for Texico was Tom Rickstrew with 20 points. Others hitting in the double figures were Mike Spearman - 15; Neil Lambert-10; and Joe Patterson-14. Ronnie Richardson and Donnie Morris contributed six and two, respectively.

The game was Texico's all the way with the Wolves jumping to a 19-8 lead in the first quarter and maintaining the same lead, 33-22 at half time.

Elida came back with a roar in the third frame to narrow the margin to eight points, outscoring Texico 18-15 in that period, but Texico came back to pull away in the final stanza for a 14 point margin.

The game was one of the better ones of the season, commented Coach Green. Texico hit

55% of its tries for field goals and 62% of its free throws while Elida only hit 33% of its field goals and 60% of the free throws.

In the first game of the evening Texico B hung on for a win, in a come from behind game to defeat Elida by a three point margin, 34-31.

"Contrary to the varsity game the B team was not playing good ball and were lucky to win," commented the coach.

Donnie Morris with 11 points was high man for Texico while Smith of Elida was high for the game with 13. Contributing to the Texico scoring were Jim Hill-5; Jimmy Webb, Ardell Autrey, and David Duncan, four each; Wesley Raulan - three; Keith Crooks - two and Gary Meier-one.

Texico outscored Elida 12-6 in the final stanza to take the game. Season record is now six wins and two losses for the B team.

Both teams will play Dora tonight (Friday) in Dora and will collide with Causey in the homecoming game in Texico Saturday night.

Coach Green commented that both of the weekend foes are contenders for the district title and he is expecting two of the hardest games of the season this weekend.

## Guest Speaker For West Camp Church

D. Casey Perry, pastor of the West Camp Baptist Church announces that the church will have as its guest speaker on Sunday Jan. 17 at the 11 a.m. worship service, and the regular evening service at 7 p.m. Edwin Wilson, pastor of the Daytona Heights Baptist Church (SBC) in Chattanooga, Tenn.

The Rev. Wilson is also Executive Secretary of the Southern Hebrew mission. He will be conducting a series of prophetic conferences at the Hotel Clovis, Jan. 18-22.

## Taxes Due Now

All school, city, state and county taxes are due during the month of January and must be paid by Feb. 1 to avoid a penalty being added, according to word from the local tax offices at the school, in the city hall and in the county courthouse.

School patrons should pay their school tax in the office of Mrs. Dorothy Eason, school collector; their city tax at the city hall in Farwell to Mrs. Jane Bauery, city clerk, and their county and state tax in the tax-assessor-collector's office in the county courthouse.

Beginning with the Feb. 1, deadline a penalty of one and one half per cent will be added to the unpaid portion of the tax, with an additional penalty added for each additional month until the taxes are paid.

## Spaghetti Supper Set For Jan. 22

The Women's Athletic Club at Springlake will be sponsoring a spaghetti - salad supper at the high school cafeteria in that city, Jan. 22, 5:30 - 6:30 p. m. (prior to the Farwell - Springlake basketball game).

Price of the meal, which will include spaghetti, salads, beverage and dessert is \$1.00 for adults and high school students, and 75¢ for all others.

Mrs. Gail Jones, finance chairman of the Women's Athletic Club in Springlake, extends a cordial invitation to all Farwell residents to come early for the game and eat with their organization.

April Coffman, who has been confined to Clovis Memorial hospital since last week with spinal meningitis is in satisfactory condition, report family members.

**Challenge Of The Cross To Be Presented Sunday**

The Young People and Intermediate Departments of the Texico First Baptist church Training Union will present a play, "The Challenge of the Cross," Sunday evening, Jan. 17 at 7:30 p.m. at the church. The general public is invited to attend the play at no charge. Mr. and Mrs. Gerald Tiffin are sponsors of the Intermediate department and Mr. and Mrs. Buddy Pearce are sponsors of the Young People.

**Petitions Available For School Board Positions**

All patrons in the Texico school district, desiring to have their name appear on the ballot for a position on the school board, should pick up a petition from the office of Supt. A. D. McDonald.

The petitions must be returned to the superintendents office no later than Jan. 22, for filing, and must have at least 10 signatures of qualified voters in the district.

Three positions (one for two years, another for four years and the third for six years) are open. At the present time a few of the petitions are being circulated in the district and one has been returned to the superintendents office. The election is set for Feb. 2.

**Band Mothers Hear Reports**

Reports on fruit cake sales and distribution of band calendars were heard when Farwell Band Mothers met Wednesday of last week. Band calendars were distributed the past few days by members.

The group voted to pay for lodging and the entry fee for the traveling band when the group attends contest in Lamesa.

**Defeat Bovina**

The Farwell Yearlings defeated the Bovina Junior high team Friday 45-16 on the home court.

Kyle Sheets took scoring honors for the Yearlings with nine points. Scoring by other Yearlings was evenly divided with Randy Crooks, Dean Stovall, Greg Hargrove and Danny Prince each contributing four; Al Phillips three; Rickey Lee, Robin Mahaney, Charles Bowery and Robert Curtis each getting two.

Taylor also with nine points took scoring honors for Bovina. Also getting into the scoring act for Bovina were Murphy, four; Horn and Stone - one each.

Farwell junior high girls defeated the Bovina sextette 30-6. Debbie Chandler, Marion Busbice and Arnetta Bryant each had six points to tie for scoring honors, while Ellen Herrington had four, Regina Rundell and Tina Rundell had two each.

**Study Club Topic**

Enlarging on its theme for the year -- "Hands of Service," the Farwell Study club at the Monday, Jan. 18, 7:30 p.m. meeting will have as speaker Judge Loyde E. Brewer, who will discuss the topic "Hands of Service for Civil Defense," stressing the community responsibility.

Hostesses for the meeting will be Mesdames M. T. Glasscock, Amos Tatum and A. C. Clarke.

**EARL ROBERTS HOST FOR DINNER PARTY**

Dinner guests in the home of Earl Roberts Sunday evening were Irene Dyer, Leslie Wimper, Mr. and Mrs. Clay Henson, Mr. and Mrs. Clarence Johnson and son, Mr. and Mrs. Joe McWilliams, Rev. and Mrs. J. L. Bass, Mr. and Mrs. Mose Glasscock, and Mr. and Mrs. Clyde Magness.

Open House Planned For Jan. 24

Open house is being planned at the new Methodist parsonage for Sunday afternoon, Jan. 24, 2:30-4:30 p.m., with members of the WSCS assisting the parsonage family, Rev. and Mrs. W. C. Strickland with hostess duties.

The parsonage is located at 904-5th Street in Farwell.

Frank Joseph Jesko Arrives Sunday

Mr. and Mrs. Pete Jesko announce the arrival of their first born, a son, Sunday night Jan. 10 at 11:08 p. m. in Clovis Memorial Hospital.

The little boy, who was 22 inches long and weighed 9 lb. 10 oz. at birth has been named Frank Joseph.

Paternal grandparents are Mr. and Mrs. Joe Jesko of Friona and maternal grandparents are Mr. and Mrs. Frank Musil, Stamford.

Mrs. Jesko, is the former Ettie Musil, Home Demonstration agent in Parmer county for a number of years.

Mother and baby are doing fine and expect to return to their home later this week.

MARRIAGE ANNOUNCED--Announcement has been made of the marriage of Linda McPherson, daughter of W.W. McPherson, Lubbock, and Danny Wayne Huffaker, Farwell, son of Mr. and Mrs. C. J. Huffaker. The couple was married in a quiet ceremony in the home of Manzy Simms in Clovis, January 3 with only members of the immediate families in attendance.

Time Change For Mothers Day Out

Time for the "Mother's Day Out," at the local Methodist church has been changed from 9:30 a.m. until 1:30 p.m. each Wednesday. Young mothers are invited to bring their small children and leave them at the church nursery, free of charge, while they shop or simply rest. Two mothers will be on duty in the nursery at all times.

WSCS members are planning a chili and pie supper for January 26-5 p.m.-7 p.m. at the church. Cost of the meal will be \$1.00 for adults and 75¢ for children. Plans were also begun for the openhouse to be held at the new parsonage, Sunday, Jan. 24, 2:30-4:30 p.m.

Program leader at the Wednesday meeting was Mrs. Joe Helton. Subject for discussion was "We would See Jesus," Grace Circle will meet at the church on Tuesday evening 7:30 p.m.

Hostess for the Wednesday meeting was Mrs. Joe White. Attending were: Mesdames C.C. Christian, J.H. McDonald, John Tadlock, Joe White, W.T. Magness, B.N. Graham, Joe Helton, Bill Foster, Elmer Teel, and W.C. Strickland.

APPROACHING MARRIAGE -- Mr. and Mrs. Orris Eshleman of Texico announce the approaching marriage of their daughter, Wanda Carolyn to Richard Lee Kelley, son of Mr. and Mrs. Richard P. Kelley of Clovis. Vows will be exchanged on Valentine Day (Feb. 14), 2 p. m. at Forrest Heights Baptist Church. No invitations are being sent, but all friends and relatives are invited to attend the ceremony and reception.

Clubs Represented At Council Meeting

Fifteen members of the Parmer County Home Demonstration Council met in Farwell on January 4, for the first meeting of 1965. The 15 members represented six of the clubs in the county.

Reports were heard from each committee, with the committees giving recommendations for the coming year. Each club is to bring the name of its delegate to the district meeting, to be held in April to the next meeting of the county council and each club is also to have names ready for nomination for

Post Nuptial Shower Honors Mrs. Joe Hughes

Mrs. Joe Hughes of Borger was honoree for a post-nuptial shower at the community room of Security State Bank Saturday evening. Hostesses for the shower were Mesdames Preston Martin, Grady Herington, Curtis Birchfield, James Harriman, O.C. Harriman, Bob Hammond, C.J. Huffaker, V.C. Venable, Winston Waggoner, E.A. Walker, John Sharum and Claude Coffey.

Red and white, chosen colors of the honoree, were used in room decorations. Serving table was laid with white net over red linen, and centered with a large white wedding bell filled with red roses. Flanking the floral arrangement were red tapers in white milk glass

holders. Presiding at the table were Mrs. Curtis Birchfield and Miss Martha Coffey.

Guests were registered, in the bride's book, by Mrs. E.A. Walker at a small table covered in white, centered by a small white wedding bell surrounded by red roses. Flanking the wedding bell was a single red candle in a milk glass holder. Red punch, nuts, and mints were served with individual cake squares of white decorated with minute red candy wedding bells.

The honoree, her mother Mrs. Goldie Roberts of Muleshoe, and mother of the bridegroom, Mrs. B.V. Hughes, were presented with corsages made from miniature kitchen utensils tied with red and white ribbon bows. Mesdames Roberts and Hughes assisted the honoree with opening gifts and Mrs. Bob Hammond registered the gifts in the bride's book.

Approximately 50 persons attended the social and sent gifts.

Elmer Langford who was hospitalized in Clovis following complications from the flu was released to return home Saturday. He is showing a gradual improvement.

Mrs. J. R. Thornton who is confined to the Parmer County Community hospital in Friona is showing a little improvement according to word from members of her family.

Uncle Ray's 'Hot Air'

Success is not so much measured by one's position in life, but by the obstacles overcome in reaching that position.

The courts don't often base a conviction on circumstantial evidence - but neighbors always do.

The verdict will be in favor of your pocketbook when you trade at Uncle Ray's. The Home Of Better Foods.

*Discover the difference in the '65 Chevrolets (As different from other cars as they are from each other)*

**CHEVROLET - As roomy a car as Chevrolet's ever built.** Chevrolet Impala Sport Coupe

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car--except bigger monthly payments?

**CORVAIR - The only rear engine American car made.** Corvair Corsa Sport Coupe

You should read what the automotive magazines say about the '65 Corvair. They're wild about its ride. They think there's nothing else this side of the Atlantic that can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaarged! you just don't know what you're missing.

Drive something really new--discover the difference at your Chevrolet dealer's

### On The Farm In Parmer County

By JOE VAN ZANDT  
County Agent

We are in the process of computing our Parmer County totals on crop production for 1964 and the value of these crops produced to give us a value of our Agricultural economy to Parmer County for 1964.

We have sent questionnaires to the elevators and gins in the county as well as to the sugar beet company and the vegetable packing sheds in Bovina and Friona. You can help us out if your produced crops in 1964 and did not market them through one of the above firms. If you would please notify the County Agent's office of the kind, amount and approximate value of these crops we would appreciate it.

We are interested in having a fairly accurate picture of the value of our county total crop production. Since we are one of the top producing counties in the state, every little bit more we get soon adds up. We are particularly interested in hearing about certified seed and vegetables grown that weren't processed through county firms.

#### SUGAR BEETS

The ASCS office in Farwell now has applications that everyone wanting to grow Sugar Beets in 1965 must complete by January 29. Prentice Mills said that all 1964 beet growers as well as anyone else wanting to grow beets in 1965 must complete one of these applications.

#### HEREFORD STOCK SHOW

A total of eight Parmer County 4-H members are exhibiting some of their 4-H livestock projects in the Hereford Junior Livestock Show this week.

There will be six members showing barrows starting at 4:00 p.m. Thursday. These

members are Pamela Hawkins, Loy Dale Clark, Billy and Larry Eubanks and Theresa and Rickie Seaton.

On Friday at 7:00 p.m., Gary Phipps and John Hoover will be showing their Hereford steers. Then on Saturday at 1:00 p.m., the auction sale of the top animals in the show will take place.

#### CHEMICAL WOOD CONTROL

We have scheduled Dr. Allen Wiese to present a program on Chemical Weed Control. The date is March 18, so mark your calendar, and he will cover weed control on the major crops grown in Parmer County. This will be the best opportunity I know of to get the latest, reliable information on chemical weed control from an expert.

Pork production in the 44 major producing counties in '65 may rise three to five per cent above this year but may not reach the '63 record of 44 billion pounds. This year production dropped five per cent mainly because of decreased output in the U.S., USSR, Belgium, France and a few other countries. A general increase in world slaughter is anticipated.

Cricket

### At Home In Parmer County

By CRICKET B. TAYLOR  
County HD Agent

Home Demonstration Clubs in the County are organized for the purpose of studying and learning about Homemaking problems that will help them do a good job of managing their home and family.

Programs are planned to meet their needs whether it is Nutrition, Family Living, Home Management, Clothing or other home problems.

There is a great deal of interest in Family Living which

includes many and varied subjects in human relations.

This month a program on "Practicing Democracy in the Home", is being given in all Home Demonstration Clubs. All the Clubs in the county welcome you to their meetings, if you are interested. Just tell one of the members you are interested and they will see that you attend.

#### Set Goals For Each Stage In Life

Making decisions are easier if goals are set for each stage of life. Each homemaker must decide which things come first at each stage in her life. Setting priorities may help keep one from taking on too many projects.

First- list the things your

## New Construction This Year Over \$24,000,000!

That's right! Reddy Kilowatt will invest \$24,607,000.00 this year, in the service area of Southwestern Public Service Company, as evidence of the faith we all share in a growing land that 100 years ago promised less but has delivered more than perhaps any other area in our nation. We'll be completing another large steam electric generating unit, adding new transmission and distribution lines with one view in mind — to give you better service at the lowest possible cost. You'll have, at the touch of your finger, all the power you'll need for a powerful area.

Picture shows an example of modern construction methods. The aerial, truck-mounted bucket lift is being used by two linemen in a safe and efficient manner to construct a new 230,000 volt transmission line.

930.5

## Tech, Western Ammonia Sponsor Soils Course

Harold Taylor and Lester Dean, Friona; A.C. Holland, Bill Shaw, Clovis; and Delbert Morris, Bovina, recently received certificates of award for successful completion of a soils course "Sub-soil Chemistry and Clay Mineralogy" sponsored by Texas Tech and Western Ammonia Corporation.

After a specially prepared dinner in Dimmitt, the group enjoyed a brief talk by Dean Gerald W. Thomas of the Tech Agricultural Department. Dr. Thomas presented each man who successfully completed the course a certificate of award.

The 12-week soils course is jointly approved and recognized by Texas Tech College Extension Division as equivalent to 3 semester hours in College Agronomy.

## 4-H Council Meets

The Parmer County 4-H Council met in the Hub Community Center on January 9. The main item of business concerned reorganization of the Council. Standing rules for the Council were adopted and officers were elected.

The officers elected for the 1965 4-H Council were: Chairman, Kathryn Gober; vice-chairman, Dale Blackstone; Meredith Anderson; secretary, Lisa Charles and treasurer, Cary Lyles. District 4-H Council delegates elected were Kathryn Gober and Dale Blackstone.

Council membership consists of the president and council

delegates from each of the five 4-H Clubs in Parmer County.

Those in attendance at the meeting were: Danny Carthel, Cary Lyles and Mrs. Carl Schlenker from Friona; Christy Mast, Michael Beauchamp and Mrs. Earl Hise from Bovina; Dale Blackstone and Mrs. Harvey Blackstone from Lubbock; Kathryn Gober and Janis Billingsley from Oklahoma Lane; Meredith Anderson and Cheryl Boling from Farwell along with the County Extension Agents.

The date for the next County 4-H Council meeting was set for April 10 at 10:00 a.m. at Hub Community Center.

family wants most from you. Analyze the list, and with the help of family members, decide how many of them are really important to you and the happiness and welfare of the entire family.

-Let the family help establish the goals.

-Keep in mind the various stages of your life.

You can only train and enjoy your children when they are small and at home. Programs that help you do a better job of training them might be worth the time spent at this stage.

Another value of planning with the entire family, you are teaching them to make decisions and organize their lives, which can result in harmonious family living.

Frustration, loss of time and energy comes from lack of planning and decision making.

We see homemakers that seem never to finish a job yet rush about all day long. The "faster they go, the behinder they get". Planning and decision making can eliminate most of their frustration and get important jobs done.

Young homemaker groups might be interested in having programs on family living. If they would like programs on this subject they may contact the County Home Demonstration Agent's office in the Courthouse at Farwell.

# THE HIGH PLAINS FARM AND HOME

## Drilling Statistics For November 1964

During the month of November permits were closed on 134 wells within the High Plains Underground Water District; five replacement wells were drilled and nine wells were drilled that were either dry or non-productive for some other reason. The County Committees issued 179 drilling permits.

County	New Permits		Wells	
	Permits	Drilled	Wells	Dry Holes
Armstrong	0	0	0	0
Bailey	9	16	0	0
Castro	13	24	0	3

Randall	8	8	0	0
<b>TOTAL</b>	<b>179</b>	<b>134</b>	<b>5</b>	<b>9</b>

## Tailwater Lowers Costs

Records of the High Plains Underground Water District reveal that farmers can save approximately one third of the fuel cost required to pump an acre foot of water from an irrigation well if they utilize available tail water.

Cost records from farms conducting this study revealed that it required approximately \$3,20 worth of natural gas to pump an acre foot of water from an irrigation well. The average cost of fuel (butane or electricity) of tailwater return

systems was approximately \$1.90 per acre foot of water recovered.

Wayne Wyatt, field representative of the Water District, states that, "An acre foot of tailwater recovered eliminates the need of pumping an acre foot of water from an irrigation well." He further states that, "By using the tailwater there has been a saving on fuel cost of \$1.30 per acre foot of water by eliminating the need of pumping water from the irrigation well."

AUSTIN, Dec. 10. -- The increase in Texas hunting pressure continued during the 1964 fall harvest season, according to W.J. Cuthbert Jr., of the Parks and Wildlife Department staff.

The assistant administrator said a partial report for the first two months of the state fiscal season beginning September 1 showed an increase of \$504,740.40 in hunting license receipts for 1963 to \$578,330.75 for 1964.

Phosphorus, a mineral especially deficient in late summer, fall and winter in all areas of Texas, can be supplied to range cattle in drinking water or in mineral feeders. Supplementing phosphorus can mean heavier cows heavier calves at weaning age and an increased calf crop by as much as 30 per cent. Cows may also conceive earlier after calving.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

**Mill Tour Set**  
Excluding temporary outside influences, the ultimate financial fate of any business—including the business of producing cotton—must largely depend on the businessman's ability to understand and satisfy the needs of his customers. And it is toward a greater understanding of the textile industry's needs and wants that the upcoming PCG textile mill tour for High Plains cotton producers and allied interests is directed.

The tour, sponsored by Plains Cotton Growers, Inc. with the American Textile Manufacturers Institute serving as host, leaves Lubbock for Spartanburg, South Carolina at 9:00 a. m. on February 16 and will leave Spartanburg at 1:30 p. m. February 18 for the return trip. Travel will be by chartered plane and the cost will be divided equally between those making the trip. Reservations must be made by February 1 in

**ABSTRACTS**  
See **JOHNSON ABSTRACT COMPANY** in Farwell, Fast, Accurate  
Ph. 481-3878 Box 88

the annual meeting to one grower and one producer.

The most recent PCG mill tour was made in 1962 to mills in the Winston-Salem, North Carolina area and participants returned with high praise for the trip. Leroy Durham, Plainview farmer, said at the time that "This has been one of the most enlightening tours anybody who deals in cotton could make," and added that "any cotton grower who takes advantage of such an opportunity to learn more about what happens to cotton on its way to the consumer will never be sorry."

Those interested in making this year's tour may get additional details and make reservations by contacting Plains Cotton Growers, Inc., 1720 Avenue M, Lubbock.

**Labor Problems Aired**  
Some 300 labor association managers and farmers crowded into the South Plains Electric Auditorium Thursday, January 7 to hear dismal predictions of what to expect on the farm labor front for 1965. Henry LeBlanc, Chief of Farm Placement for the Texas Employment Commission in Austin, told the group that "even if you had already complied with all of the prerequisites now set forth by the Department of Labor for importing Mexican National workers, there's not a person in the United States who could tell you where to go to get a Mexican National." He elaborated by saying that there are still many problems to be solved and questions to be answered before a foreign labor program can be put into effect.

The prerequisites which he referred call for the prior offering to domestic workers all of the benefits included in Mexican National contracts under Public Law 78, which expired December 31, 1964, plus a wage of 90 cents an hour between now and March 31 and \$1.15 an hour after that time -- or the prevailing wage, whichever is higher at the time of employment.

Both LeBlanc and PCG Labor Relations Representative Ed Dean emphasized, however, that compliance with these criteria is only necessary for the employer who places an order with the Texas Employment Commission in the hopes of qualifying himself for importing a Mexican National (Bracero). "Unless the employer is trying to get certification for foreign labor," LeBlanc said, "neither the Department of Labor nor the TEC has anything to do with either the wages or other benefits offered by the employer and farmers are free to make whatever 'deal' they can get prospective domestic workers to agree to."

While no area-wide policies were established at the meeting, those present were in general agreement that to place orders for workers with TEC at the present time as a means to qualifying for a Bracero under the recently issued criteria would constitute an acceptance of those criteria without any assurance that a Bracero could be contracted even after the employer had proved himself qualified.

Dean explained that while the authority for importing temporary foreign workers exists in the Immigration and Nationalization Act (P. L. 414), there still have been no arrangements made with Mexico and that until this is done we actually have no foreign labor program. "Mexico is pushing for a 'government to government' agreement and discussions are now in progress

## NCC Meeting Set For Lubbock

Progress and problems in producing cotton more efficiently on the Texas High Plains and in western areas will be highlighted at a conference in Lubbock March 2-3, the National Cotton Council has announced.

General chairman will be Roy Forkner of Lubbock, president of the Plains Cotton Growers Association, which will be local host for the conference.

The conference program will include 21 agricultural authorities who will discuss various aspects of growing higher quality cotton at a lower cost. Practical techniques will be emphasized.

Attendance of growers, research and education workers, and representatives of commercial companies is expected to total 500.

This will mark the first time for the conference to be held in the High Plains area, in

prior years, it has been scheduled in Fresno and Bakersfield, Calif., Phoenix, Ariz., and El Paso, Texas.

Pointing out the program is designed to provide growers with practical and useful information, Forkner has urged all cotton producers in the area to make plans to attend the meeting. No registration fees are involved.

Co-sponsors are the Council and the Southwest Five-State Cotton Growers Association. Cooperating in the meeting will be the agricultural chemicals industry, U. S. Department of agriculture, Arizona Cotton Growers Association, El Paso Valley Cotton Association, Western Cotton Growers Association, Land-grant colleges, vocational agriculture, and farm organizations.

W. L. Edelman of Friona has recently been named to the National Cotton Council.

## How Can You Fight Birth Defects? March of Dimes Has Good Advice

What would you do if a defective child were born in your family or to friends or neighbors? Would you know where to turn?

To answer these questions, marching mothers, more than a million strong, will distribute a new leaflet with sound advice for every family in the nation during January for support of the March of Dimes fight against birth defects.

More than a quarter of a million babies are born each year in the U.S. with serious birth defects.

The leaflet being distributed by Mothers' March volunteers is called "THINGS TO DO IF..."

**IF You Are About To Be Married,**

- Select a family physician;
- Each partner should have a complete medical examination, providing the doctor with complete medical histories;
- Learn your blood groups and Rh factors (+ or -);
- Consult your physician together for advice important to your marriage, particularly if either family has a history of birth defects or if there is Rh incompatibility.

**IF You Are Expecting a Baby,**

- See a physician as early as possible to confirm pregnancy;
- Keep in close touch with him, reporting any unusual discomfort or bleeding;
- Follow the diet prescribed by your doctor;
- Do not take any drugs or medicines unless he tells you;
- Do not knowingly expose yourself to infectious diseases—particularly German measles;
- Tell any doctor you consult that you are pregnant so he may avoid prescribing harmful X rays or medication.

**IF A Birth Defect Occurs in Your Family,**

- Seek the best medical advice and treatment. Modern skills can often prevent or correct serious disability;
- Don't feel ashamed of yourself or the child born defective. No one is to blame so long as the stricken child is

JANE WYATT, National Mothers' March Chairman, reads to Tina Tidwell, 4, who was born with an open spine and is a patient at a March of Dimes Birth Defects Center in Los Angeles, Calif.

helped to make the most of his precious gift of life;

- Do not despair. Professional help from physicians, clergy and others experienced in dealing with these problems can lead to a wholesome adjustment;
- Remember that there are many persons and organizations such as The National Foundation-March of Dimes that stand ready to help. Seek them out.

**IF You Have Friends With a Defective Child,**

- Treat them as you would any other friends. They do not desire pity, but the sympathetic understanding of true friendship is always welcome;
- Avoid giving advice. Let them make their own decisions with the aid of competent professional consultation.

The National Foundation-March of Dimes is using the experience gained in the fight against polio, which led to the

development of both the Salk and Sabin vaccines, to back its attack on birth defects. March of Dimes funds now support:

- more than 50 March of Dimes Birth Defects Centers across the U.S. which make the most advanced medical care and treatment for birth defects available to young victims and their families;
- a national research program which finances the work of scientists studying the causes of birth defects and seeking ways to prevent or correct them;
- a professional education program to train medical professionals in diagnosis and detection, and in practical application of scientific advances to treatment techniques;
- a public education program, of which the marching mothers' leaflet is a part, to alert the people to the magnitude of the birth defects problem and to let them know how much can be done to help defective children.

## Treasurer's Report

# GUTS!

That's The BIG STORY Behind The BIG NEW CASE ROW CROP 930 And 830!

Head the new Case 930 and 830 Row Crop Comfort King down the furrow... sock six big bottoms down deep... pour it on... and man you've got something great going for you.

CALL IT POWER... CALL IT LUGGING ABILITY... CALL IT GUTS... Whatever the name, it all begins with the massive 6-cylinder tractor engine with its special breed of power... Case high-torque power that gives you the capacity to handle bigger implements and multiple hitches faster and with less down-shifting.

There's a lot more to the 930 and 830. Such as the dual-range, eight-speed transmission with five job-mated speeds in heavy tillage range. Rear-mounted 48-gallon fuel tank. Hydrostatic power steering. Draft-o-matic implement control. Simple, foolproof hydraulics. And a "command post" that has nine square feet of uncluttered platform space, clear visibility and unbeatable "armchair comfort."

True these are all big features... but the really outstanding advantage is Case high-torque power -- Guts. That's the one that gives you muscle to do jobs faster and more profitably. Stop by soon. Make us prove it!

## Park Improvements Ahead Of Plan

AUSTIN, Dec. 10 -- Authorized state park improvement are well ahead of schedule, according to J. Weldon Watson, executive director of the Parks and Wildlife Department. He said indications point to 1965 as the greatest park year in history.

The executive director said during the year substantial new facilities were completed at Bastrop State Park, Goose Island State Park, Tyler State Park, Buescher State Park and Port Lavaca Causeway State Park.

But the major emphasis, said Watson, was in creating a new park at Dam "B" near Woodville, and the development at Lake Whitney and Falcon State Parks.

A late season development marked creation of a "The LBJ State Park" near Johnson City, in honor of Texas' own, President Lyndon B. Johnson.

In addition, said Watson, the park field staff was busy serving an increase of more than a half million guests during the year. The 1964 attendance was 7,900,000, compared with 7,200,000 in 1963.

"We consider the attendance noteworthy," said Watson, "because the near record heat of the early summer curtailed visitations. Then there were prolonged drought spells in some areas that definitely curbed patronage."

Watson said the 1.2 million dollar development program has advanced so well that it is anticipated every contract will be encumbered, as of December 29. The last deal was for a new concession building at Falcon State Park.

Falcon State Park has been open for partial use with screened shelters, a large boat ramp and the airplane landing strip completed since early fall.

Subject to weather conditions and other undetermined phases, Watson said the other two parks, also on large reservoirs already noted for their fishing, will be ready for the summer season.

### U. S. Marine Corps Mountain Warfare Training

Throughout the year, Marine units regularly journey to the Marine Corps' Mountain Warfare Training Center at Pickel Meadows in the Sierra Nevada Mountains of California. Here they learn how to fight and survive at altitudes ranging from 6,500 to 11,000 feet and exist in below-zero temperatures during the winter months.

Parka - and - snowshoe - equipped Marines are taught to provide shelter and heat for themselves, to take care of clothing and equipment, and to recognize and care for injuries and illnesses peculiar to cold weather and high altitudes.

During the tactical training exercises every effort is made to make the training as realistic as possible. "Aggressor" forces constantly harass the Marines as they meet the varied requirements of the exercise. The men live in two-man tents, sleep in sleeping bags on the snow, and eat combat rations heated over outdoor fires. The actual firing of weapons is done using special blank ammunition.

The Marine Corps' cold weather training program was established in 1951 after the hard-learned lessons of the Chosin Reservoir in Korea where Marines were plagued almost as much by the bitter cold weather as by the fanatical and numerically superior enemy.

Knowledge and confidence gained from the extensive training at this center could, someday, spell the difference between life and death for many a marine.

Rope bridges provide Marines with safe passage over streams and gulleys. These men are trained to improvise whenever ready made or natural facilities are not available.

### P&WD Gains Via Merger Are Listed

Austin, Dec.—Wildlife meat in every pot; a fish in every skillet; a shaded, waterfront camping site for every outdoor conscious person!

The year just ending might not have provided that cherished budget, but J. Weldon Watson, executive director of the Parks and Wildlife Department, said that Sportsmen's Utopia definitely is the target for the Department.

Watson made his year-end statement as departmental authorities summarized the 1964 progress all along the outdoor recreational front which showed:

New gains in experimental wildlife and fish life restoration efforts; Embracing new areas under regulatory authority methods; Successful controlled public hunts on wildlife management areas;

Liberalized waterfowl regulations marking the best duck hunting season in recent years; largest fishing pier at Port Lavaca;

Application of new techniques to fill industry's needs for oyster shell without harming

natural facilities; Readying three major state parks, including two new ones, for the next summer season; Accommodating a record number of park visitors despite climatic extremes;

Release of hatchery raised red-legged partridges and release of hybrid pheasants;

Holding second annual open season onoudad sheep in Panhandle;

Preparing state fish hatcheries to restock water areas devastated by drought;

Coordinating headquarters and field staffs in conformity with new merger plan.

### PRIVATE INDUSTRY SCORES AGAIN

The myth that only the federal government can create huge electric power projects has again been punctured.

This time it is a private investment group, known as the Western Energy Supply and Transmission Associates, that is proving that a massive project—one that eventually will dwarf the TVA, the Aswan Dam and other giant power producers—can be constructed without the use of a single penny of taxpayers' funds.

Work has been started by Western on a vast electric power complex that will cost over \$10 billion and will provide energy to consumers in nine western states—New Mexico, Colorado, Arizona, Utah, Nevada, California, Wyoming, Idaho and Texas.

An enormous new network of transmission lines will supply local utility companies with cheap and abundant power, Western says, and the consumers will benefit from lower rates.

Actually, the benefits will extend far beyond the consumers in the affected areas to all the nation's taxpayers. That's because the utility companies involved will not only supply private funds for the massive project but they will continue to pay taxes, as usual; something the government-financed power-plants do not do.

It was a dark alley in one of the worst parts of town. Three men were waiting. One of them pulled a slouch hat down over his eyes and said, "D'ya see him?"

Another took a quick peek around the corner. "Yes, here he comes," he hissed!

The man in the slouch hat picked up a short thick section of pipe. Another took a heavy wrench, and the third grabbed a smaller wrench that was none the less effective in close quarters. "All right, fellers, let's go," one whispered.

And thus, when the boss got around the corner, he found his three plumbers at work.

## Farm Management Courses Offered

Texas A&M University will offer an off-campus Farm Management course for professional agricultural workers in the Panhandle during the 1965 spring semester. The course will be taught at the Southwestern Great Plains Research Center at Bushland.

The course will review the basic economic principles used in farm management, consider the use of these principles in farm business planning, and discuss some of the more common management problems confronting Texas farmers. It will include management problems based on actual farms and ranches in the Panhandle.

Enrollment in the course is open to any professional agricultural worker who has a Bachelors Degree from an accredited college or university. This includes farmers and men employed by commercial firms as well as those who are employed by schools and other governmental agencies. Students may earn 3 semester

hours credit which may be applied toward an M.S. Degree at Texas A&M. Registration for the course will be at the first class meeting on Monday, February 8. Students wishing to apply the credit toward an advanced degree must be enrolled as graduate students prior to registering in the course. Those who wish to enroll as graduate students should contact Dr. James S. Wehrly at the Research Center, or correspond directly with the departments at A&M in which they wish to earn their degrees.

The course will include 11 four-hour classroom sessions, from 4 p.m. to 6 p.m., and 7 p.m. to 9 p.m., on Monday evenings plus one all-day Saturday field trip.

Additional information about the course may be obtained from Wehrly or from the county agricultural agent, Joe VanZandt.

Water is a vital nutrient in the human diet. It comprises two-thirds of the adult body weight, and is necessary for building, dissolving, transporting and regulating. Dr. Eugenia Whitehead, chairman, Department of Home Economics, University of Iowa, said during the recent Human Nutrition workshop at Texas A&M University.

## AMMO NOTES

By Bill Bennett, Agronomist

Fertilization of sugar beet land is just around the corner. From observations of this past year's crop and experiences with the crop, certain trends are developing in regard to sugar beet fertilization.

Rates used this past year seemed to be about right. The 100# N rate should continue to be used where beets follow summer-till land. If the land has a history of low nitrogen use on the previous wheat crop or if beets should follow maize, rate of nitrogen should be higher. Some observations indicate that phosphorus rates may need to be 125 to 150# P205 per acre as compared to 100# P205. This would be true in fields which have not had any phosphate used in the past.

In regard to source or grade of fertilizer to use, observations have been that ammonia has been a very satisfactory source of nitrogen. Indications on phosphate show that ammonium phosphates, such as 11-37-0 or 18-46-0, will give better results than the same amount of actual phosphate from the calcium phosphates, such as 0-20-0 or 0-46-0. This is particularly true on fields which have had little or no phosphate in the past. Some relatively high yields were grown with 600 to 700# 0-20-0 per acre but in nearly every case, these fields have been phosphated for several years in a row. How-

ever, the ammonium phosphates have generally been superior.

Source of fertilizer is closely related to method of application in that the calcium phosphates are generally broadcast, whereas, the ammonium phosphates, particularly liquids, are generally banded. Banding in the bed or in the sides of the bed has proven to be better in most cases than an equivalent quantity of phosphate as a broadcast application. If a dual application of ammonia and phosphorus is used, it should be placed in the sides of the bed rather than directly under the seed in the middle of the bed.

In summary, general observations this past year would indicate that rates of 100# N and 100# P205 per acre should be about right this next crop season with the possible exception of extra phosphorus where none has been used in the past. Source should generally be an ammonium phosphate - either liquid or dry - and it should be banded for best results. All nitrogen and phosphorus should be applied preplant.

Glass canning jars may be used for freezing most fruits and vegetables, except those packed in water, say food specialists in the U. S. Department of Agriculture. Glass jars made especially for freezing also are available.

## SCIENCE SKETCHES

**CRYOBIOLOGY** is a new field in which scientists are looking for ways to use cold for man's benefit. It's a combination of cryogenics (extreme-low-temperature physics) and biology. Already achieved is the freezing of cells to preserve them alive and unchanged indefinitely. Some day it may be possible to freeze a man solid, put him in cold storage and take him out hundreds of years later to start living again in exactly the same condition as when he entered the deep freeze.

**CRYOGENIC LIQUIDS** so cold they make most metals brittle can be handled safely with special lightweight "Tube-Turn" welding fittings made of high-strength aluminum alloy. The fittings carry liquid helium, at 452 degrees below zero F. the coldest substance known, in research laboratories.

**A WITCHWEED HUNT** is on in the Carolinas. The parasite, discovered in 1956, attacks corn, sugar cane, sorghum, grasses, sedges and some broadleaved plants, advises the U.S. Dept. of Agriculture. Herbicides have been sprayed on 450,000 acres.

## Hunters Get 13 Sheep

SAN ANGELO, Dec. -- Thirteen aoudad sheep were killed by trophy-conscious hunters during the December 11, 12, and 13 season in the rugged Palo Duro Canyon southeast of Amarillo, Texas, the Parks and Wildlife Department reports.

Wildlife workers reported two of the 13 barbary sheep harvested were in the 270 pound class.

The three-day hunt was the second ever held in Texas. In the late '50's, the Texas Parks and Wildlife Department purchased 44 barbary sheep from a rancher in New Mexico and released them in the Palo Duro Canyon. Until last year these sheep were permitted to reproduce and become firmly established in their new surroundings.

Forty-two hunting permits were distributed in 1963 among Palo Duro Canyon landowners and nine sheep were harvested. This year 50 permits were distributed with six males and seven females bagged.

Current estimate of the total number of the rare sheep now present in the Palo Duro Canyon is between 400 and 600 head.

NEW HAVEN, MO., LEADER: "The final victory for the Communists in many lands was made possible by internal subversion and by the artificial and cold-blooded creation of intolerable economic conditions within the borders of those unfortunate lands. How did the Communist agents create these intolerable economic conditions? By creating inflation. A typical example can be found in Hungary. . . There the Soviets unleashed the wildest currency inflation on record. That wild inflation was aimed at certain classes of Hungarians as deliberately as guns are aimed in battle."
