

Steers Win District Fifth Consecutive Year

FARWELL, TEXAS

FRIDAY, FEBRUARY 19, 1965

NUMBER 21

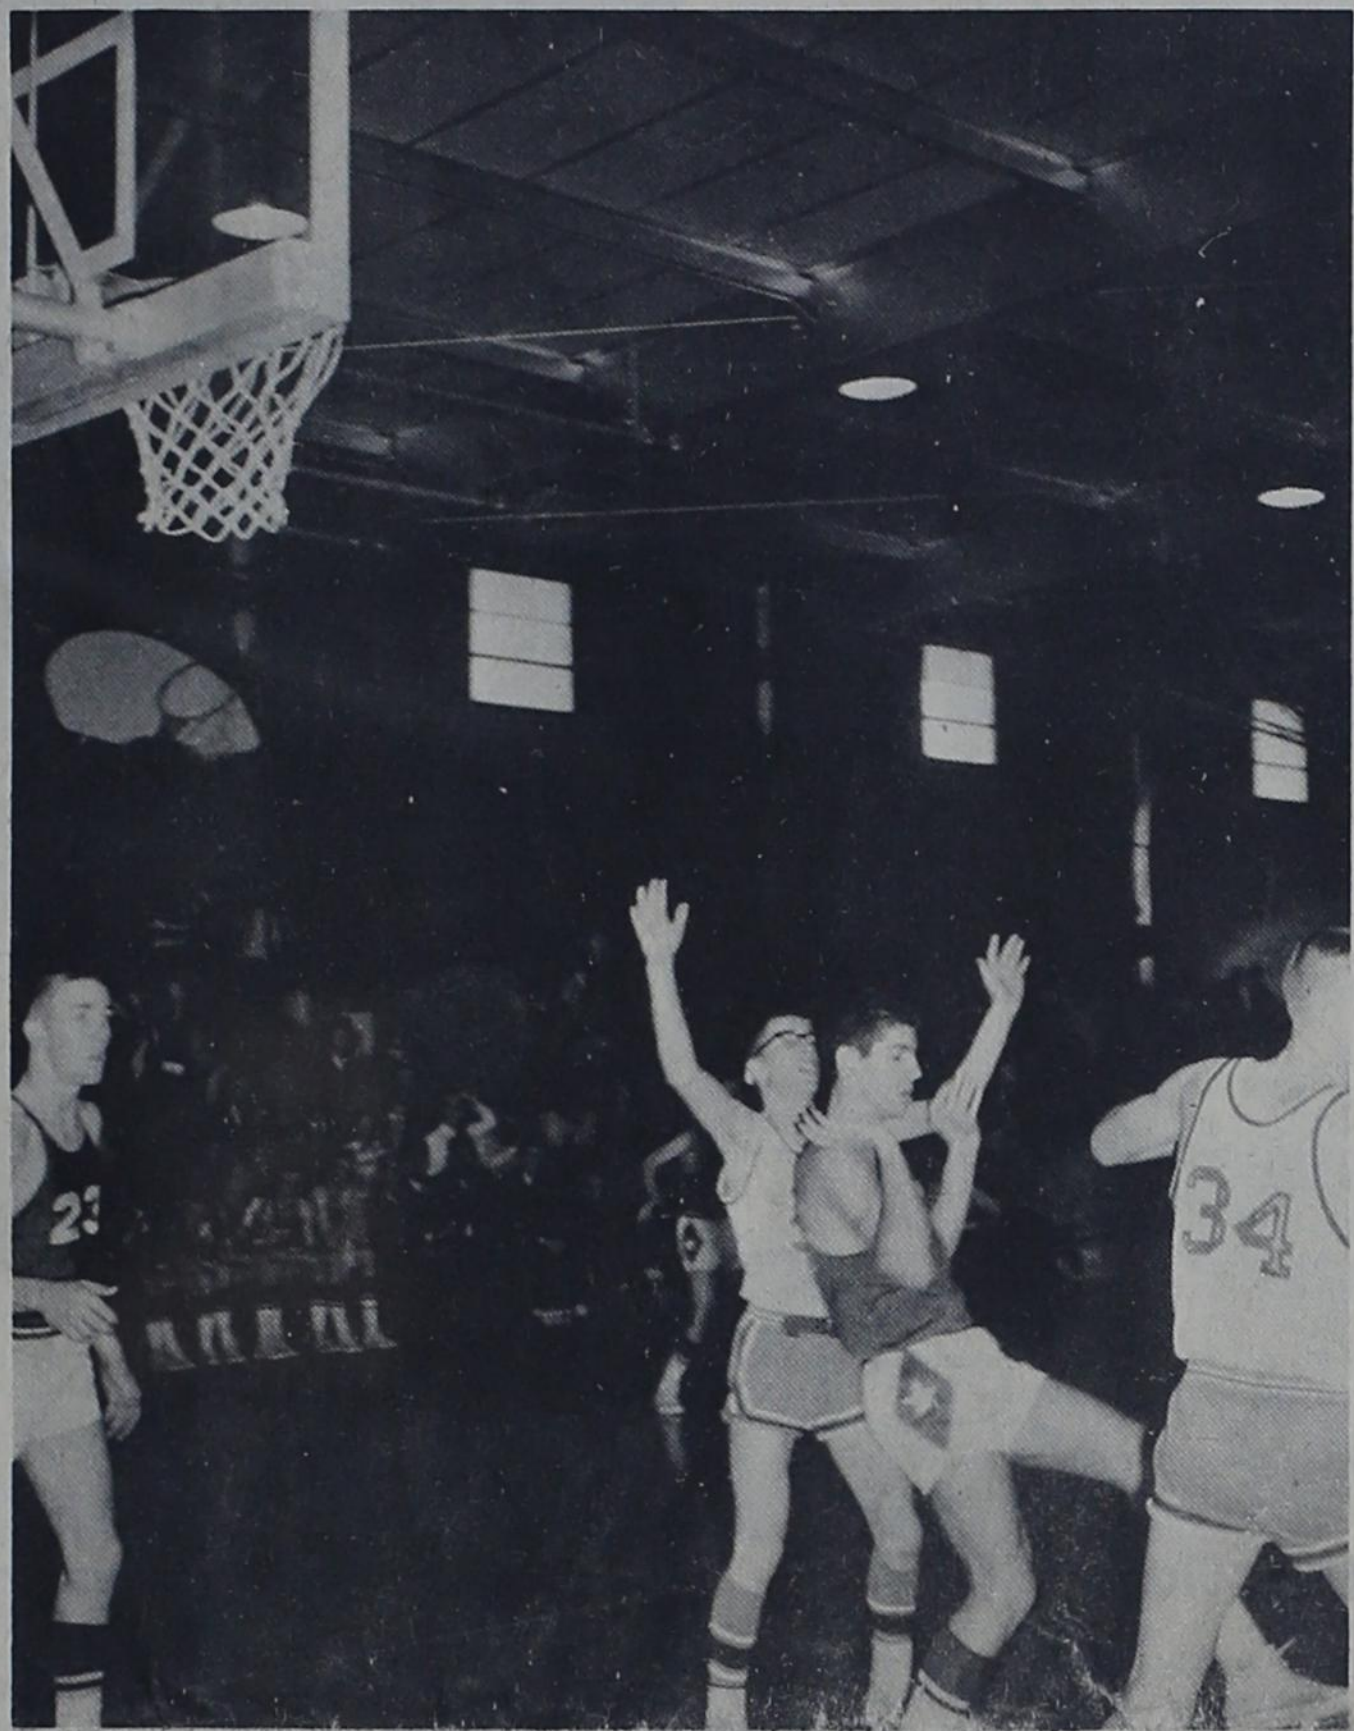

THE STATE LINE TRIBUNE

"OFFICIAL PUBLICATION OF PARMER COUNTY"

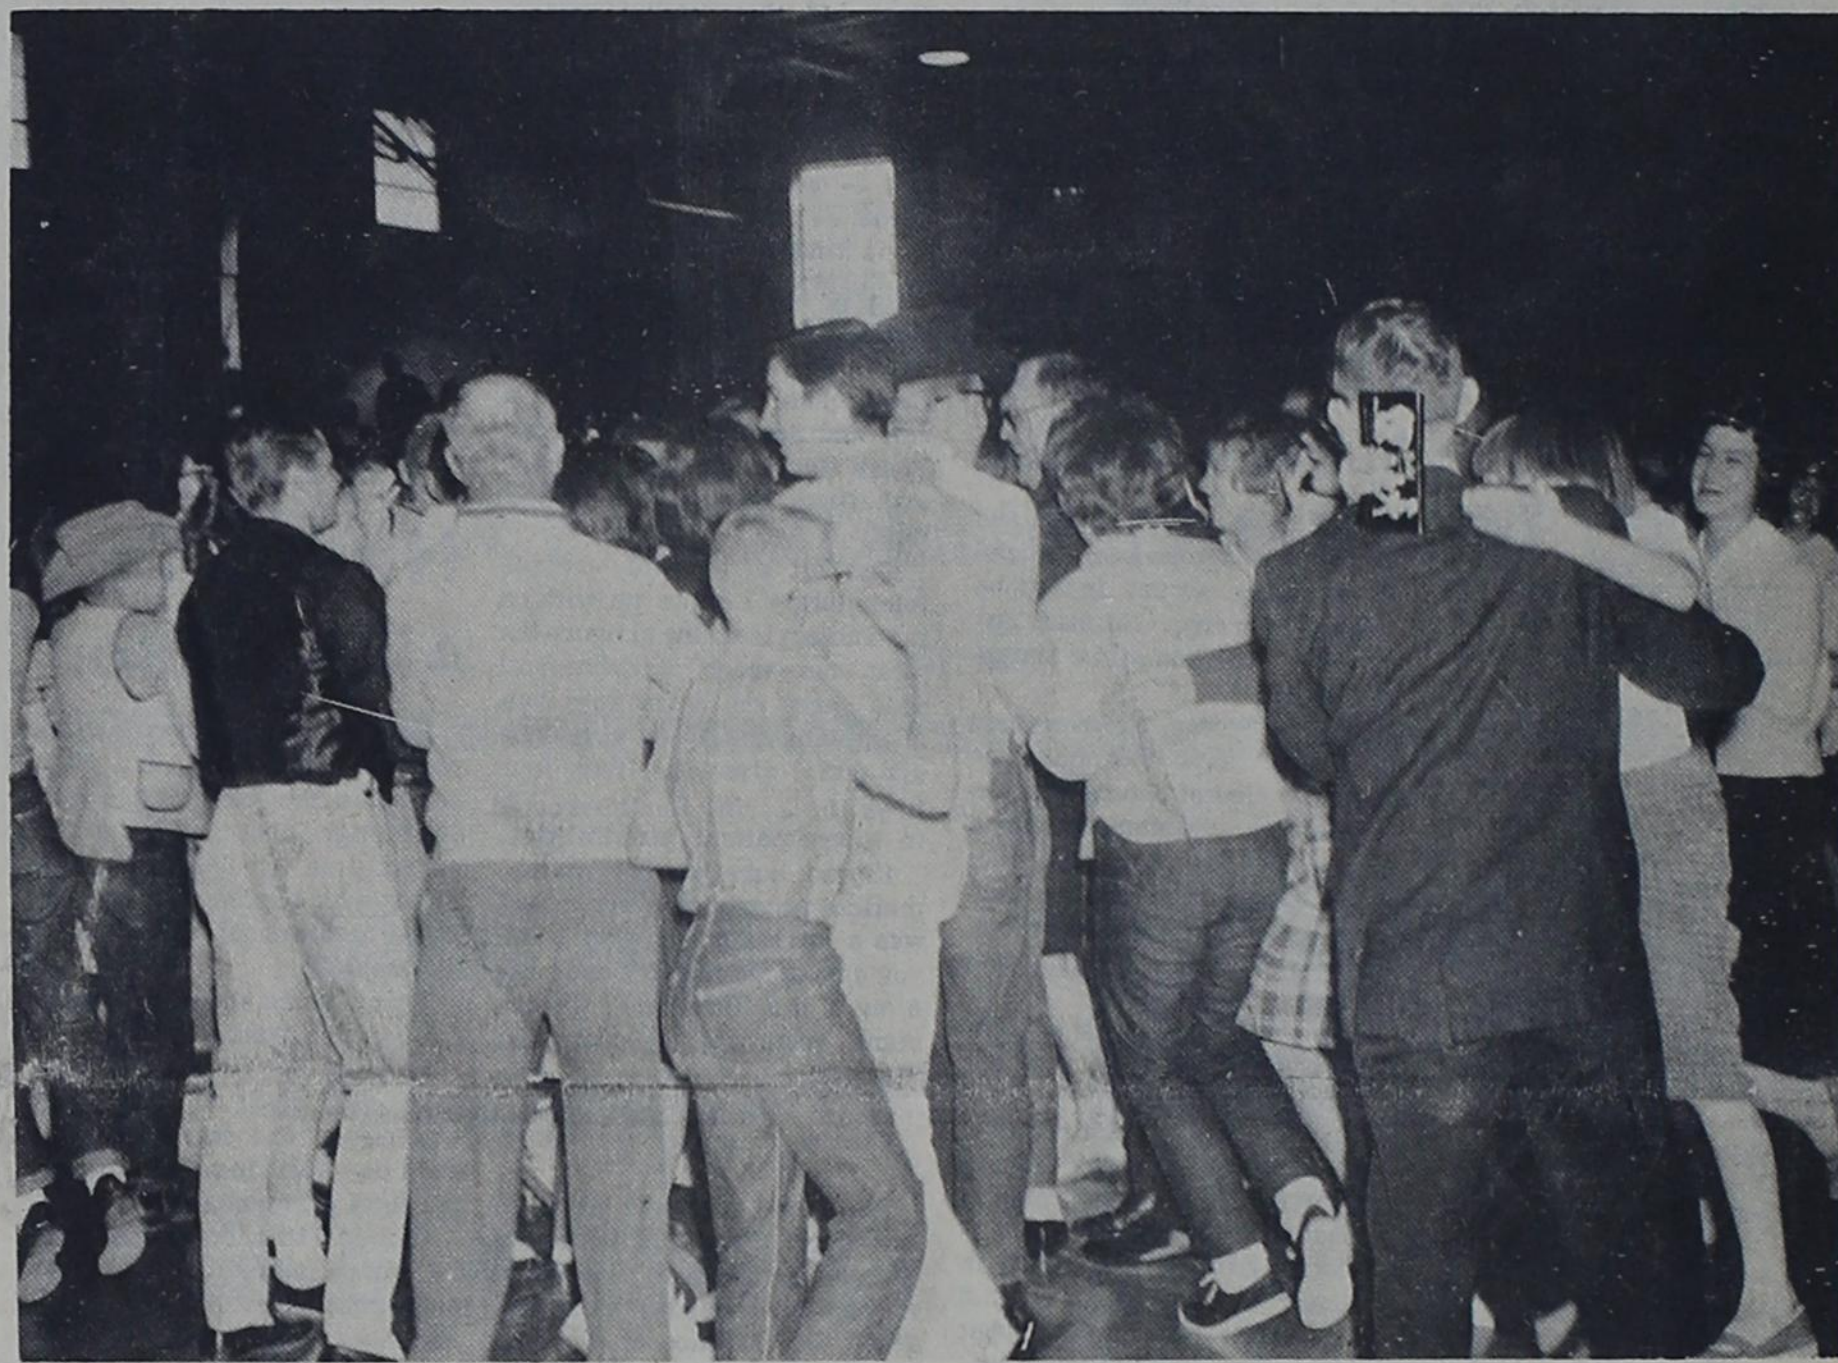

12 PAGES

FIFTY FOURTH YEAR

10 CENTS

"Lawsy -- what a game!" Actually, the Springlake Wolverine had just passed the ball out of Steer territory, in the first of two play-off games between Farwell and Springlake. The Steers gained the title Tuesday night.

A jubilant crowd dwarfed the Farwell Steers Saturday seconds after the team topped Springlake with a last second score, in the first round of a series to decide the district championship. The Steers also won the second game Tuesday to give them the district title.

Beat Petersburg

After the Tuesday night playoff game in Springlake, (which was almost an anti-climax following Saturday's game which ended with the ball in the air) Farwell Steers accept the district trophy. Team members left to right: Jerry Field, Doyle Johnson, Johnny Schell, Bruce Billingsley,

Jerry Childs, Larry Gregory, Johnny Actkinson, Dale Gober, Warren Gossett, Charlie Dannheim, Bobby Field. (Photo by Eldon Trotter.)

Go
Steers
Go

"Those boys (the Steers) have done a swell job all season," exclaimed Coach Vernon Scott displaying the trophy won in the second playoff game with Springlake for the district championship Tuesday evening. Scott added "We won't quit now but will be trying extra hard for the bi-district title in the game with Petersburg scheduled for Monday night in Plainview."

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

Man Found Dead In Friona Sunday

A colored male, A. T. Reed 48 years of age was found dead on Prospect street in Friona Sunday morning. He had apparently died sometime Saturday night.

Dr. Lee Spring, who examined the body says the man apparently died of natural causes (exposure to the elements) as no evidence of foul play was found. The man's next of kin, a sister from Dallas, arrived in Friona early this week to complete funeral arrangements.

Reed had worked as a farm laborer in the Friona area for the past two years.

One man, Jake Martinez, 22, is in custody in Curry County jail for the burglary of the Pioneer Natural Gas Company Offices and White's Grocery in Friona on Feb. 4. Warrants have been issued for the arrest of two other men, believed implicated in the burglaries.

Martinez has refused extradition to Parmer County and at the present time extradition papers are being prepared to return him to Parmer County to face the charges.

Martinez and two companions are believed to have been driving a Friona City Pickup the night of the burglaries. The pickup was later found abandoned south of Friona, in the vicinity of where officers abandoned the chase after a shot had been fired in their direction.

Walter Kaltwasser of the Oklahoma Lane community entered St. Anthony's hospital in Amarillo on Wednesday. He is scheduled to undergo a series of tests for the next several days.

Chamber Banquet Will Feature Dr. F. W. Mattox

Dr. F. W. Mattox, president of Lubbock Christian College will be speaker at the annual Chamber of Commerce banquet, Feb. 25, 8 p.m., at the high school cafeteria in Farwell.

Tickets are on sale for \$2,50 each and may be purchased from any member of the Chamber, announces Joe Jones president of the Chamber.

Dr. Mattox, a native of Texas was born in Grand Falls in 1909. He is the son of the late J. P. Mattox and Mrs. Irene Young Mattox. He received his B.A. degree in 1934 from Central State Teacher's College in Oklahoma and his M. A. degree in 1940 from Oklahoma University. George Peabody College in Nashville conferred the Ph. D degree upon him in 1947. Title of his dissertation at that time was "Teaching Religion in the Public Schools."

Dr. Mattox served as minister of the 12th and Drexel Church of Christ in Oklahoma City 1932-1940. He also served as minister for the Sichel Street Church of Christ in Los Angeles for two years before being appointed to the faculty at Harding College in Searcy, Ark. in 1942.

He worked with Harding College for 14 years and served in the following capacities: instructor in physical education, social science, education, psychology and Bible; Dean of men, Director of Admissions and Student Personnel; Dean of Students, Assistant to the

DR. F. W. MATTOX

President; Participant in National Education Program and Freedom Forum lecturer. He is author of a book, "The Eternal Kingdom, a history of the Church of Christ.

In 1956 he was appointed first president of LCC, a position he holds at the present time. He is director of the LCC American Heritage Program, which received the George Washington Medal of Honor Award from Freedom Foundation in 1960-1961. He is also a member of the LCC Speakers Bureau and is a popular speaker on Americanism and the

Jaycees Elect Slate Of Officers

Due to the interest in the Farwell Steers - Springlake playoff game on Tuesday night the local Jaycees held their meeting at noon on Tuesday at the regular meeting place.

Officers for the coming year were elected. Slate of officers includes Don Gerles, president; Joel Tankersley, first vice-president; James Norton, second vice-president; Fred

Chandler, secretary; Eddie Smith, rural director; James O. Harriman, town director; and Troy Christian, inter club director.

Outgoing president is John Christian. The Jaycees have challenged the Texico-Farwell Lions Club to a basketball game (for the near future). Game time has not been set.

Terry Lovett Named To All-State Band

For the second consecutive year Terry Lovett has been named to the New Mexico All-State High School band. He was recently in Albuquerque competing with 10 tuba players from large high schools in the state for the honor.

Terry rated fourth chair for the concert band. Most of the time at the concert was spent in rehearsals with eight and one half hours each day spent in rehearsals for the final performance.

Gerald Tiffin, band instructor in Texico, made the trip to Albuquerque with Terry and Mr. and Mrs. Roy Lovett, parents of Terry, attended the final concert.

big tightwads

Chevy II With aluminized exhausts that discourage corrosion... Delcotron generators that encourage longer battery life... brakes that adjust themselves... rocker panels that flush themselves free of dirt and salt. Tight? They're downright miserly!

You're looking at the lowest priced sedan and station wagon that Chevrolet makes. They neither look nor act their price. They're roomy. The sedan seats six. The wagon has nine feet from the back of the front seat to the tip of the lowered tailgate.

They're good looking. Clean. Functional. You can get an economical 4-cylinder engine in the sedan or in both cars, a 120-hp Hi-Thrift Six that's quick to do everything but cost you money. As we said earlier, these are our lowest priced cars. Try one out today.

DRIVER WALKS AWAY--

\$7,500 Damage Results From Train Truck Collision

Damage was high but the driver, Edward Garrity of Plainview, walked away from the wreckage with minor cuts and bruises, following the collision of a west bound freight and a tractor-trailer (also headed west) at the railroad crossing in Texico-Farwell Monday afternoon at approximately 5 p.m. Damage estimates run as high as \$7,500.

The crash came only minutes after the east bound passenger train (#76 going to Lubbock) had cleared the crossing. Garrity pulled onto the crossing apparently believing that

the signal lights were still in operation due to the train which had just cleared the crossing. The driver's attention was distracted by a pickup which was pulling into the lane of moving traffic and he did not see the oncoming freight.

The tractor cleared the crossing but the trailer was caught squarely in the middle by the freight, scattering the load of fertilizer (23 tons) in all directions and halting traffic for approximately one hour. The trailer (a 1964 Hobbs semi-) was declared a total loss (\$6,000); damage to the tractor (a 1965 International two and one

half ton) was estimated at \$300; and the load of fertilizer was an almost total loss.

Damage to the train was slight and a signal at the crossing was also damaged; although trains were able to operate on a normal schedule.

Owner of the tractor-trailer was Herman Berman of Plainview, however, the truck was leased by Best Fertilizer Co. Driver of the vehicle was taken to Clovis Memorial Hospital for examination and later released. Investigating officer was R.L. Gibson of the New Mexico State Police Force.

Approximately 15,000 pounds of fertilizer was scattered along the railroad in Texico - Farwell Monday afternoon following the collision of a tractor-trailer and a freight train. Damage was high, but driver of the vehicle, involved with the train,

was able to walk away and had only slight bruises and cuts to show for the entanglement. In the background can be seen the semi which was declared a total loss. Driver of the truck was Ed Garrity of Plainview.

"Hey! your head is completely empty" screams Betty Lou (Susan Blair) looking into the ear of her brother Wilbur (Larry Gregory) to which she is promptly told to "Stop peeking", by Hercules (Charles Kitten) who is looking through the other ear -- in a scene from "It's Great to be Crazy," Junior class play scheduled for tonight (Friday) at the high school auditorium in Farwell. Price of admission is \$1.00 for adults and 50¢ for children. Curtain time is 8 p. m.

Receives First Mail

Mrs. Mason Neeley, postal patron on Route 1, Texico was the first person to receive mail in the new home of the post office, according to Mrs. Lucy O. Brown postmistress.

Mrs. Neeley has received a special delivery package on Thursday which the rural carrier was unable to deliver (she was not at home), therefore he left a note in the mail box informing her of the arrival of the package.

Early Friday morning Mrs. Neeley made the drive into Texico, arriving at the old office building to find it closed. She rushed to the new building and was handed her package by Mrs. Brown shortly after the office was opened.

Texico FFA To Host Judging Meet

The Texico FFA Chapter will host approximately 15 area schools for a judging contest Saturday. First place plaques will be presented to the teams with the greatest number of points in each of the three divisions.

Judging will be in the areas of poultry, livestock, and farm mechanics.

Schools who have indicated that they will be in attendance are Elida, Causey, Springer, Dexter, Roy, Floyd, Melrose, Dora and Clovis. However, several other schools are expected to be present.

The judging school will be of much benefit to teams in learning how to judge correctly, identify tools, and learning to weld (farm mechanics).

"The boys will also have a chance to meet and learn to cooperate with other area chapters," said Eddie West, instructor at the Texico school.

Mr. and Mrs. Ralph Humble who have been in Arizona for the past several weeks for Mrs. Humble's health returned to their Farwell home late last week.

School Lunch Schedule

AT TEXICO

MONDAY: enchiladas, buttered corn, shredded lettuce with French dressing, loaf bread, butter, fruit salad, milk.

LOSE TWO GAMES --

Wolves Lose Chance For First Place Seeding

Texico Wolverines lost their chance for a first place seeding in district 6-B over the weekend by losing games to Floyd (on Friday night) and Elida (on Saturday night). At the same time Floyd took a stronger hold on first place by defeating Grady on Saturday night, in addition to the Texico defeat on Friday. Floyd's season record now stands 11-3 while Texico has an 8-6 record.

Texico still has a chance for a second place seeding (but may end up in fourth) depending on the outcome of games this weekend. Coach Green, says the first five teams are in a close race.

Neil Lambert, Texico's ace shot tossed one through the hoop from the free throw line to tie the game in Friday night's tilt with Floyd (all to no avail as the Wolves lost the game 62-60).

The Texico-Floyd game was a thrilling one from the beginning with Floyd jumping out to a first quarter lead 17-15, only to have Texico take the lead and keep it through most of the second frame. Half time score was 33-27 Texico. Floyd outscored Texico in the third frame to again hold a six point lead at close of the stanza. During the waning minutes of the game Neil Lambert and Mike Spearman, two of Texico's ace men fouled out of the game.

When the final buzzer sounded Texico had gained control of the ball, but did not have time to get it down the court and shoot before the buzzer sounded to end the game. Final score was 62-60 with Floyd on the winning end. Big gun in the scoring department was Charles McAllister from Floyd with 22 points. He was closely followed by Tom Rickstrew of the Wolverine team with 21. Rickstrew pulled down 12 rebounds during the game and McAllister had 11 for Floyd.

Other Wolverines contributing to the scoring effort were Mike Spearman-14; Neil Lambert-13; Joe Patterson-6; Ron-

nie Richardson-4; and Mike Hitson-2.

Texico had 25 field goals for the evening and Floyd had 26 with both teams accounting for 10 free throws.

The B game (evening opener) was won by Texico 63-36 with most of the Texico players getting into the scoring act. All of the players saw action during the evening.

The Saturday game was almost a repetition of the Friday game with Elida defeating Texico 77-71.

Texico took a first stanza five point lead but were behind at half time 42-40. The teams each scored 18 points in the third frame to allow Elida to maintain the same two point lead at end of the frame. In the final stanza Elida racked up 17 points and Texico only hit for 13.

Texico had one more field goal in the game than did Elida, however they were unable to connect from the free throw line.

Tom Rickstrew was top

Band Sweetheart Crowned

Pam Roberts, daughter of Mr. and Mrs. Grayson Roberts and a sophomore in the Texico High School was crowned band sweetheart in half-time ceremonies of the Floyd-Texico basketball game Friday night.

Other candidates for the honor were Kathy White, a senior, and Susan White, a sophomore, both daughters of Mr. and Mrs. Murray White.

Peggy Hughes crowned the sweetheart and Elizabeth Pierce, carried the crown and a bouquet of pink roses which were presented to Miss Roberts.

The band played soft background music during the processional and recessional. Candidates stepped through a large pink heart, bearing the words "Band Sweetheart 1965" and proceeded to the center of the basketball court where the coronation took place.

In addition to being a member of the band Miss Roberts is a cheerleader for the varsity basketball team.

Pam Roberts

Volleyball Tournery Set

All volleyball teams wishing to enter the Outsiders' Tournament being sponsored by the local Lions Club March 1-6 should mail their entries to James Craig, Box 463, Farwell no later than Feb. 22. Brackets will be drawn up on Feb. 25 and mailed to each team.

Entrance fee for each team is \$5.00; admission will be 25¢ per day (players included); no person may play on more than one team; each team shall have eight members; players will play the best two out of three games (one hour limit); and games have been scheduled to start every 30 minutes on the two available courts.

Trophies will be awarded in both the men and the women's brackets. A concession stand will be in operation, with Lions serving candy, popcorn, sandwiches and hot coffee.

Easiest Way Not Always Best

Lazbuddie HD Club members were told that "The Easiest Way is not Always the Best" when cleaning pots and pans at a demonstration given by Mrs. Everett McBroom and Mrs. Clayton Graef when the club met Monday in the home of Mrs. Glenn Lust. Seven members attended the meeting.

Cleaners containing harsh abrasives may cause pits in aluminum and stainless steel, "Josephines" way of cleaning the sink may damage it, was the conclusion reached by club members.

Next meeting was set for Feb. 22.

Game Night Successful

The Game Night sponsored by Farwell Study Club recently has been declared a huge success by committee members. The net take on the affair was \$120.

Proceeds from the Game Night will be contributed to the Little League Ball Park Fund, to help defray indebtedness on the park says Cricket Taylor chairman of the committee.

Pie and coffee were served throughout the evening and games of forty-two and bridge were featured.

What's Cooking At Farwell School

MONDAY: chili, crackers, pinto beans, carrot and lettuce salad, cherry cobbler, milk.

TUESDAY: fried chicken, creamed potatoes, gravy, green beans, lettuce and tomato salad, hot rolls, butter, jello, milk.

WEDNESDAY: hot tamales, chili beans, cabbage slaw, hot rolls, butter, milk, banana pudding.

THURSDAY: hamburgers, tomato and cheese slices, pickles, onion, lettuce, potato chips, brownies, milk.

FRIDAY: corn dogs, macaroni and cheese, salad, sweet potatoes, apple cobbler, milk.

Kathy White Receives Scholarship At ENMU Talent Day

Kathy White, daughter of Mr. and Mrs. Murray White and a senior in the Texico School was named one of the 88 winners of scholarships to Eastern New Mexico University at the school's second annual Talent Day Saturday.

Visiting in the home of Mr. and Mrs. Ted Magness over the weekend were Mrs. Magnesses brother and family, Mr. and Mrs. M.E. Hensley and family from Borger and Brandon Magness from Farwell.

More than 500 students participated in the Talent Day with some 327 entering in the scholarship competition. Scholarship grants are in the amount of \$11,280 (most of which is for \$120 scholarships) except for one \$360 and two \$240 grants. The scholarships will take care of tuition for one year.

Miss White received the scholarship in education. She was the only local student qualifying for a scholarship, although several took the tests.

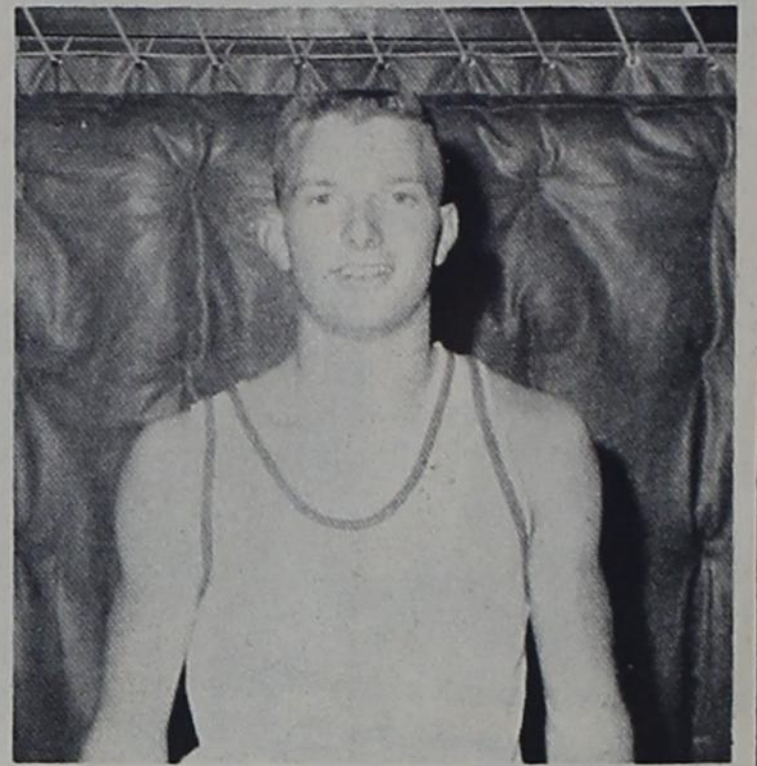

Kathy White

PTA To Sponsor Rummage Sale

Mrs. Lewis Cooper, spokesman for the Texico P-TA announces that the group will be sponsoring a rummage sale at the Woman's Club Building in Texico, March 2, 10 a. m. - 3 p. m.

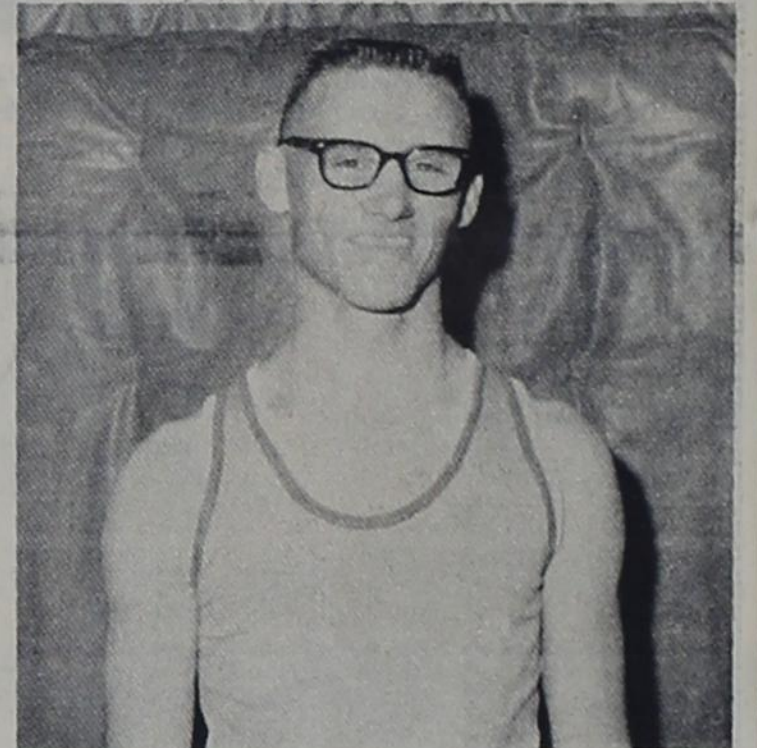

Proceeds from the sale will be used to buy books for the school library. Persons having items to donate for the sale are invited to bring them by the club building on Saturday, Feb. 27 or Monday, March 1. P-TA members will be at the building, all day to receive the articles.

Steers Take Electrifying Wins Over Springlake For Dist. Title

Surging from behind to win by a nose in two playoff games with Springlake, Farwell's fighting Steers thundered across the District 3-A finish line in perfect form this week for the championship.

They will meet Petersburg at Plainview for the bi-district playoffs at 8 p.m., Monday, February 22nd.

The climax in the bitterly contested race came Saturday afternoon in Farwell when the Steers, clinging perilously to a thread-thin hope to beat the Wolverines, electrified the SRO crowd with a two-point, 60-58 victory.

Larry Gregory was the hero who pulled the trigger sending the Steers to victory. He

fired a shot from the floor with the score tied at the virtual end of the game and as the ball arched perfectly through the air the buzzer sounded ending the game. Pandemonium ruled for several minutes as fans poured out onto the floor to congratulate him.

But actually that was not the

moment that the district crown was earned. It merely gave Farwell a one-game edge in a best two out of three playoff series.

The Steers clinched it Tuesday night on enemy grounds when they dropped the Wolverines again, 60-57, to take undisputed title to the crown. Tuesday night's cop amounted

to three in a row over Springlake in late-season play--something Farwell had found impossible earlier in the year.

This week's win put another feather in the cap of the team on winning district championships, making five in a row and six out of the last seven years.

Farwell, which has earned a reputation in Plains football circles over the years, continues to demonstrate it is a better competitor on the hard-boards than on the gridiron.

In the first game of the playoffs, Springlake's Rocky Cain took scoring honors for the game with 20 points. Jerry Sanders was second for the Wolverines with 11.

Larry Gregory had 17 to lead scoring for the Blue and White, while Johnny Actkinson netted 16 for a close second.

It is of some importance that eight of Johnny Actkinson's points were in the last quarter.

The Steers got off to a good start in the second and final game of the series as they gained a 16-14 edge in the first quarter.

The locals could not hold the Wolverines though and

dropped behind 31-26 at the end of the first half.

Farwell came back the second half determined to even the score by the end of the third quarter and that they did as the score going into the final quarter of play was 43-42.

From there on the game was all Farwell's as they kept their narrow margin to go on to a 60-57 win which heralded them districted champs.

Rocky Cain, from Springlake, took home scoring honors for the game as he bucketed 23 points. Tom Gregory was second for the opponents with 17.

Johnny Actkinson led Steer scoring as he chalked up 19 points. Jerry Childs was second with 16. Larry Gregory also hit in the double figures for 10.

The Steers had defeated the Springlake team in an earlier contest by a score of 56-52 in the last district game to be played. This game was also the game which gave them their try at district champs.

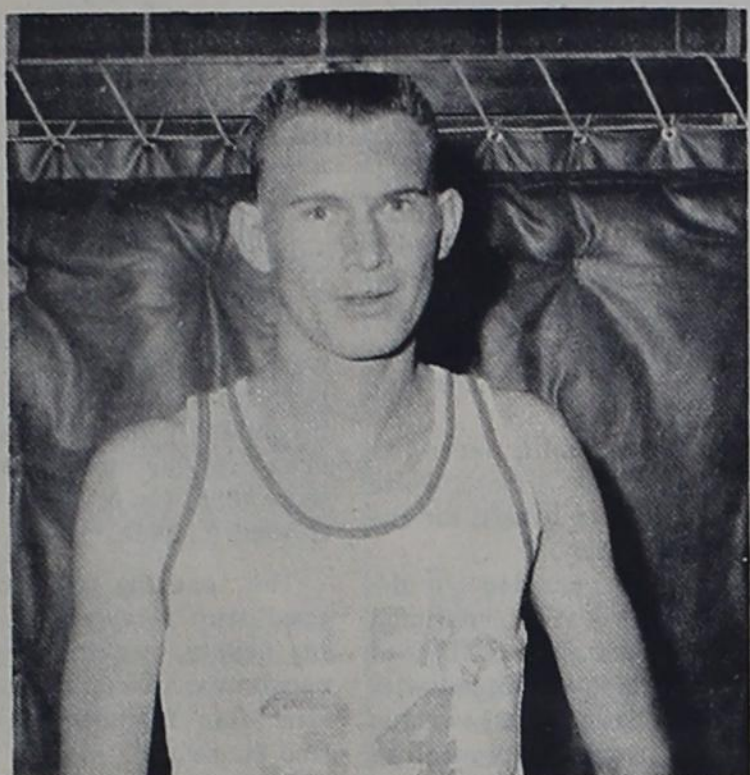

Of the bi-district opponent (Petersburg) Coach Vernon Scott says, "Well, they're quite a bit bigger than us." He listed heights of the starting five Buffaloes: 6-7, 6-5, 6-4, 6-1 and 5-11.

Scott did not discount the Steers' hopes for competing with the Hale County team, however. Farwell has had an amazing capacity for playing well under heavy pressure, and especially for come-from-behind victories.

WILL IT? OR WILL IT NOT? Larry Gregory, Warren Gossett and Dale Gober are all three anxious for the answer to that question and are ready to make an effort to rebound and try again if the ball eludes the basket. Apparently only one Springlake player was on hand to oppose the Steers in this play in the final game of the district playoffs there Saturday.

ROTARY SPEAKER ASKS --

"What Is The Value Of This Shipment"

"What is the Value of this Shipment?" youth asked Rev. Hershel Thurston, Methodist pastor from Hereford in speaking to Texico-Farwell Rotarians and special guests, from Texico-Farwell, Muleshoe and Clovis at the Wednesday meeting of the group at which workers with youth in the area were recognized for their outstanding work.

Rev. Thurston stressed the thought "Service above Self" the Rotary motto, in bringing the message. He commended the persons recognized as having done outstanding work with the youth in Texico-Farwell saying "You have indeed done a fine job in giving of your time, talent, and efforts to assist the youth of your community." "Maybe some where down the road one of these you have helped will pass it on."

Persons presented with Certificates of appreciation for their outstanding work included: Johnny Green, Harold Carpenter, Windsor Lacewell, Melvin Ridgley, Eddie West, Mr. and Mrs. Leon Billingsley, Mrs. Perry Winkles, Mrs. L.C. Herfington, Bert Williams, Pike Jordon, Bill Meeks, Max Fields, Buck Gregory, Clay Henson, Mrs. Johnnie Rundell, J.B. Taylor, James (Pat) Patrick, Walter Haws, Mike Nelson, Jimmy Self, Bob Hart, Preston Martin, Charles Roberts, Bobby Actkinson, Jim Ussery, Vernon Scott, Gene Hardage, Ray Campbell, Lee Hutchins, Harold Travis, M.A. Snider Jr., Mrs. Lee Capps and Mrs. Chris Moss.

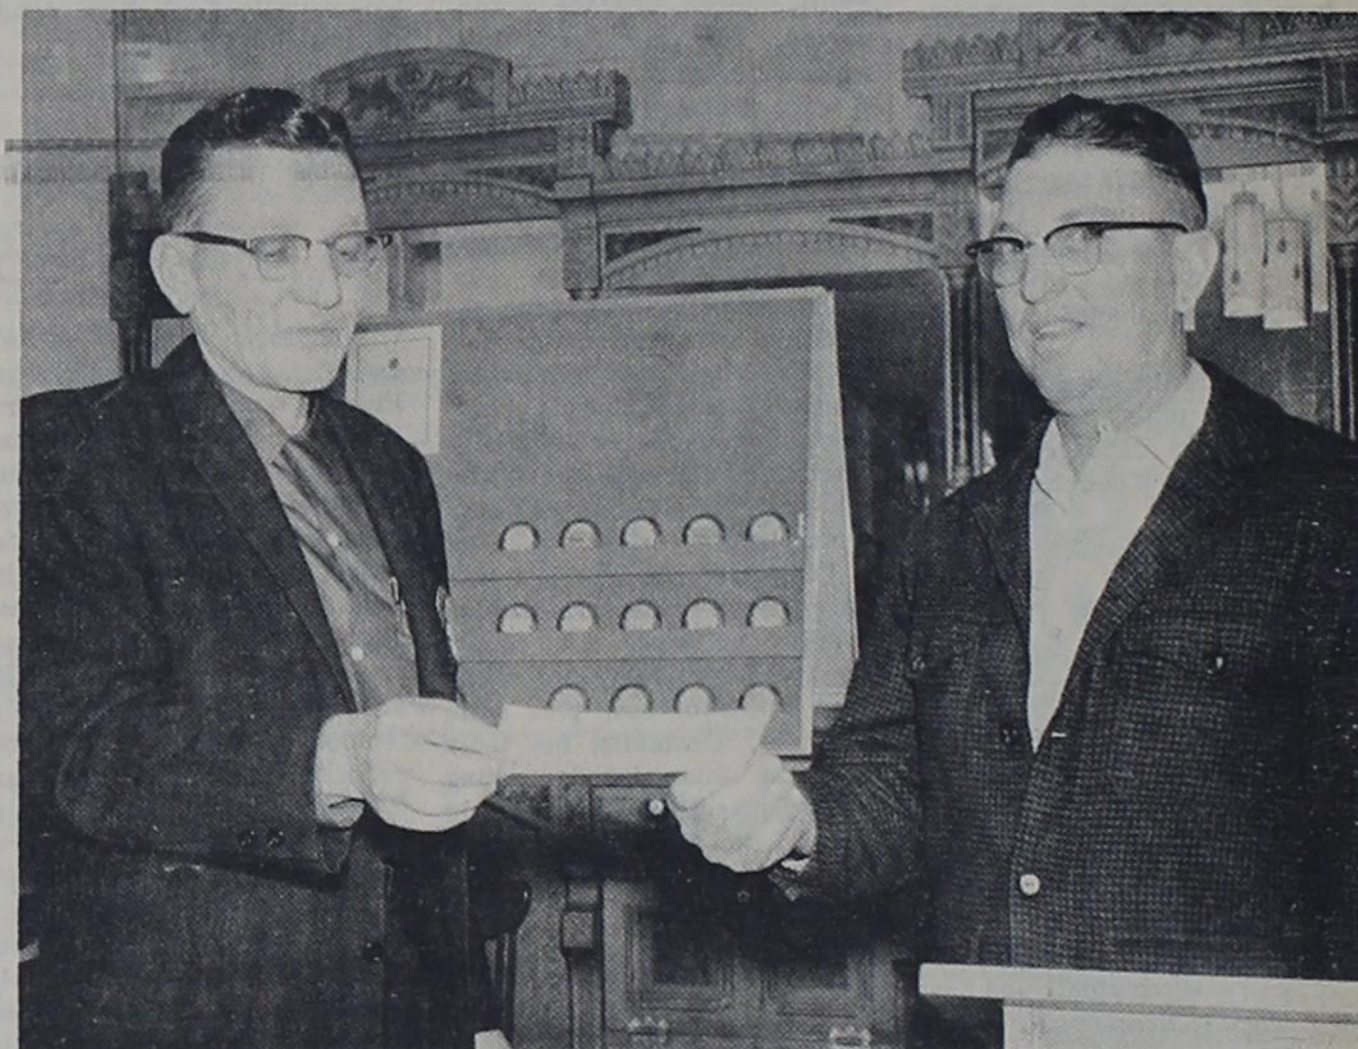

Rotarians serving on the

awards committee were John Lovelace, Joe Jones, and Rev. J.L. Bass.

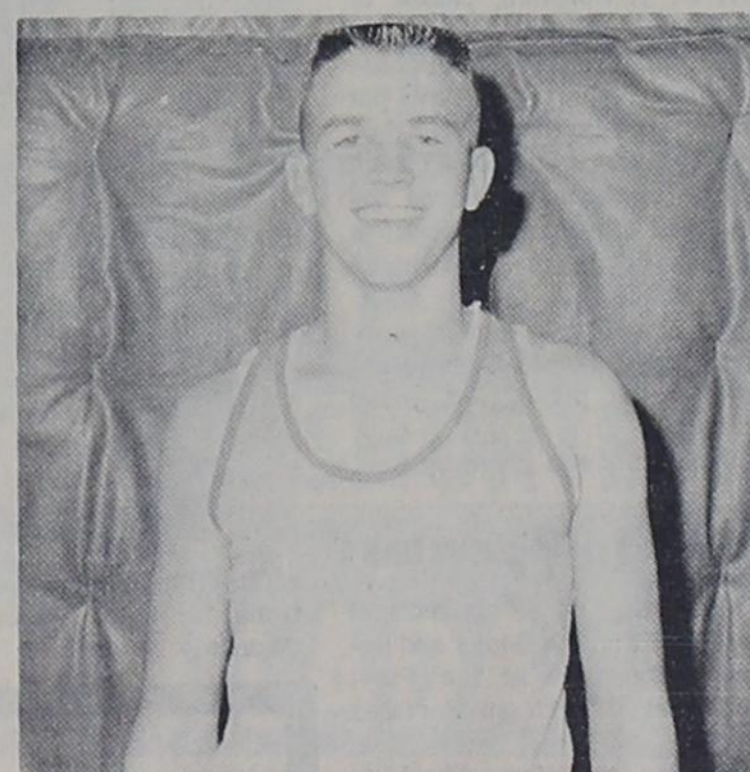

Joe Jones presented the awards with the assistance of Rev. Bass, who also gave the invocation.

At close of the awards presentations a check in the amount of \$300. was presented to Clay Henson of the Youth Commission to help defray the debt on the Little League Ball Park.

54 persons attended the award program.

Clay Henson, president of the Youth Commission accepts a check (\$300) from Rotary president Prentice Mills. The money will be used by the Commission to apply on the Little League Ball Park debt. Henson was also one of the persons to receive a Certificate of appreciation for his work with the youth in the Texico-Farwell area in the past year. Six women and 28 men were honored by Rotarians for their outstanding work with the community youth in the year just concluded.

Valentine Day Ceremony Unites Dorris Donaldson, Robert White

In a ceremony at the Oklahoma Lane Baptist Church at mid-afternoon on Valentine Day, Feb. 14 Dorris Marie Donaldson, daughter of Mr. and Mrs. Sterling Donaldson Route 1, Farwell and Robert Darrell White, son of Mrs. Luella White, Route 3, Muleshoe, and the late Bud White were united in marriage.

The Rev. Jimmy McGuire, Abernathy read the double ring ceremony at the church altar, which was set with a huge basket of white gladioli and stock tied with satin ribbon. Surrounding the floral arrangement was a spiral candelabra holding tall white tapers. The entire setting was placed on a throw of white crushed plush. Palms of jade foliage and woodwardia fern interspersed the entire arrangement.

Organist, Mrs. Mike McManigal played soft nuptial music preceding the ceremony and accompanied Mrs. Troy Christian and Mrs. Melvin Terry as they sang "Walk Hand in Hand" and "The Twelfth of Never."

The bride escorted and presented in marriage by her father, Sterling Donaldson, chose a floor length gown of white bridal satin, styled with a fitted bodice, bell skirt and petal point sleeves. Front of the gown was enhanced with appliques of roses entwined with embroidery and seed pearls. The scalloped neckline was accented by appliques of silk organza roses and seed pearls. The floor length detachable chapel train hung from the back neckline was bordered by two cabbage roses.

Her veil of white silk illusion fell from a tiara crown of encrusted with seed pearls and she carried a cascade bouquet of white hyacinths surrounding a white orchid atop a white lace and satin covered Bible.

Following tradition the bride wore for something old a penny minted in the year of her birth; new was her wedding gown; borrowed was the Bible from Janie Ward of Memphis and blue was a frilly garter, gift from Susan Symcox.

Maid of honor was Jolene Donaldson sister of the bride and bridesmaids were Zelda Donaldson also a sister of the bride and Evelyn Martin, Lubbock. They wore identical dresses of deep pink peau de sole, fashioned with fitted bodices, bell shaped skirts and long sleeves.

The waistslines were outlined with cord piping and accented by a single cabbage rose at center front. Their headpieces

A Daughter For Jim Rickstrews

Mr. and Mrs. Jim Rickstrew welcomed the arrival of their first born, a daughter, Feb. 11 at Clovis Memorial Hospital.

The little girl, who weighed 7 lb. 9 oz., on arrival has been named Diane Kay. Mother and baby are doing nicely and have returned to their home.

The child is also the first grandchild for both sets of grandparents, Mr. and Mrs. Roy Rickstrew, Texico and Mr. and Mrs. Charles Reed, Albuquerque.

Red Sez

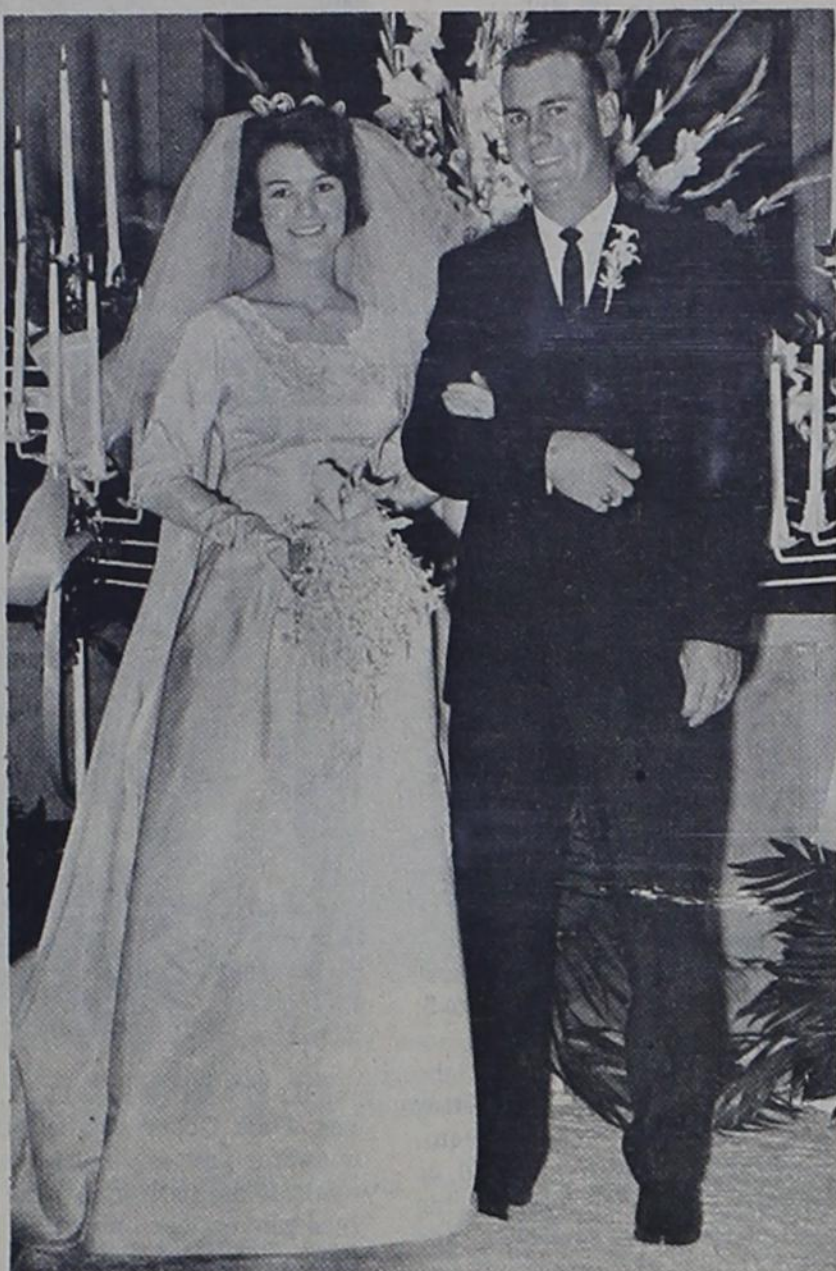

Joe, "I don't want to vote for any of the candidates. I don't know any of them."
Red: "I don't know what to do either. I know all of them."

were circles of deep pink tulle attached to a cabbage rose in matching hue. They each carried a single long stemmed white rose tied with deep pink ribbon.

Candlelighters, Mrs. Dickie Clayton, Bovina and Miss Beverly Vark, Tulla wore dresses styled after those of the bridal attendants. They wore wristlets of white carnations.

David White served his brother as best man and groomsmen were Jerry Engleking, Muleshoe and Mike Nelson, Farwell. Ushers were Larry and Roy Donaldson, brothers of the bride.

For her daughter's wedding Mrs. Donaldson chose a three piece suit of brown wool knit with which she wore brown and multi-colored brocade accessories. Her corsage was of white carnations.

Mrs. White, mother of the groom chose a three piece suit of brown wool knit with beige and light brown alligator accessories. Her corsage was also of white carnations.

Immediately following the wedding a reception was held in the fellowship hall of the church, Miss Barbara Tucker, Plainview and Miss Gwendolyn Christian, Farwell cousins of the bride presided at the serving table.

The serving table was covered with pink satin with an overlay of white net, caught up at intervals by lace trimmed hearts of deep pink satin and net. Centering the table was the four tiered wedding cake flanked by white tapers in crystal holders. The bride's

Robert Dean Hubbell Arrives Feb. 15

Robert Dean is the name given to the new son of Mr. and Mrs. Kerry Hubbell who made his arrival at Clovis Memorial Hospital Feb. 15.

The little boy weighed 7 lb. 2 1/2 oz., on arrival. He is the first child for the Hubbells.

Paternal grandparents are Mr. and Mrs. Oris (Bill) Hubbell and maternal grandparents are Mr. and Mrs. Fred Stelg, all of Clovis. Great-grandparents include Ernest Foster, Clovis Mr. and Mrs. Ray Hubbell, Oklahoma; Mr. and Mrs. W.R. Park and Mrs. Pauline Bloxom, all of Clovis.

Jackie Hughes - Jimmy Vernon Married In Home Ceremony

Jackie Hughes, daughter of Mr. and Mrs. J. L. Hughes, Texico and Jimmy Vernon, son of Mr. and Mrs. Clyde Vernon, Clovis were married in a quiet, but impressive ceremony in the home of the bride's parents on Friday evening.

Dr. Herbert Bergstrom pastor of First Baptist Church in Clovis officiated the double ring ceremony before a setting of tapered candelabras, centered by baskets of snowball chrysanthemums and pink carnations, flanked by palms of jade foliage.

The bride, given in marriage by her father wore a two piece suit of white wool with winter white accessories. Her brief veil of French illusion was secured by a pillbox hat of white satin. Her corsage was a single white orchid, adorned with rhinestone and pearl hearts.

Following tradition, old, new, borrowed and blue, the bride carried in her shoes pennies minted in the year of her birth and that of the groom; new was a diamond pearl pendant, gift from the groom; blue was the traditional garter.

Maid of honor was Peggy Hughes, sister of the bride. She was attired in a mint green wool suit with which she wore champagne accessories. Her corsage was of pink carnations.

Best man was Bob Bogle, longtime friend of the groom. Candles were lighted by Lynn Hughes, brother of the bride, Joe Starling, uncle of the groom sang "The Lord's Prayer."

Mrs. Hughes chose for her daughter's wedding a two piece wool dress of deep pink, with black accessories. Her corsage was of pink carnations.

Mrs. Vernon chose a suit of navy blue with matching accessories. Her corsage was

MR. AND MRS. JIMMY VERNON

also of pink carnations.

A reception was held in the Hughes home immediately following the ceremony. Serving table, presided over by Mrs. Joe Starling, aunt of the groom, and Mrs. Billie Johnson, aunt of the bride, was covered with a linen tablecloth and featured a centerpiece of shaded pink roses, white phlox, and deep pink miniature rosebuds.

After the bride and groom had cut the first slice of the three-tiered wedding cake it was served with floating punch.

Mrs. Vernon is a 1964 graduate of Texico High School and attended Eastern New Mexico University. The groom, a 1962 graduate of Clovis High School, has attended New Mexico State University and Eastern New Mexico University.

The couple will reside in

Clovis.

Attending the ceremony were the bride's family, Mr. and Mrs. H. L. Hughes, Peggy and Lynn, Texico the groom's parents, Mr. and Mrs. Clyde Vernon, Clovis; Mr. and Mrs. Joe Starling, Sidney and Tracy, Mrs. Robbie Hughes, Mrs. Lillian Clark, Mrs. Billie Johnson and Mike, Friona; Mr. and Mrs. Joe Clark, Doug and Wesley, Texico; Mrs. Scott Sizemore, Mrs. Charles Johnson and Tim, Bob Bogle, Eddie Boling and Dave Emmons, Clovis; and Mr. and Mrs. Deward Walker, Amarillo.

Lazbuddie Bridge Club Has Buffet Meal-Social

Members of the Lazbuddie Bridge Club met in the home of Mr. and Mrs. Jimmy Briggs on Friday night. A buffet meal of salads, chips and dips, pie, cake and coffee was served.

Winners of the games and prizes were Mr. and Mrs. Ted Treider, high prize; Mr. and Mrs. Orville Barnett, traveling and low prize and Mrs. Chuck Smith, bingo prize.

Attending the social were Messrs. and Mesdames Wayne Moore, Chuck Smith, Orville Barnett, Dub Winters, Larry Kirk, Joe Moore and Ted Treider.

The condition of Mrs. J.R. Thornton remains much the same. However she is reported to be resting better at this time.

Uncle Ray's "Hot Air"

Some people forget the things learned at mother's knee much quicker than those learned over dad's.

An insurance man was teaching his wife to drive, when the brakes failed going down a hill. "I can't stop it," she cried, "What'll I do?" "Don't panic," her husband replied, "Just hit something cheap."

Don't panic at your grocery bill, go to Uncle Ray's for quick relief.

Delta XI Chapter Studies Changing Political Patterns

Forty-five members of Delta XI Chapter of Delta Kappa Gamma from Farmer, Castro and Deaf Smith Counties were present at the tea hosted by Farwell members in the homemaking cottage at Farwell School recently.

Mrs. Tandy Legg of Hereford, program chairman, presented the program. A panel of Dimmitt teachers, moderated by Mrs. Ted Newman presented the discussion on "Changing Political Patterns in Other Cultures."

Mrs. Joe Cowan gave a study of India followed by a discussion of the political changes in Nigeria by Mrs. W. E. Thornton. Mrs. Nelan Troehner explained the government of Japan and its political achievements. A discussion of the Russian Bloc by Mrs. Ralph Smith (head history teacher in Dimmitt) concluded the program. A question and answer session was held following each of the discussions.

Mrs. Ralph Smith served as auctioneer for the White Elephant Sale (a benefit for the scholarship fund).

Decorations carried out the program theme of international studies. A grouping of flags of many countries combined with character dolls from various countries were displayed as interest centers throughout the entertaining rooms.

Refreshments of pineapple sherbet punch with Chinese fortune cakes, Scandinavian rosettes, cherry cookies, nuts and English mints were served.

Farwell members acting as hostesses were Mesdames Loyd Cain, Harry Whitely, Claude Coffey, and Hatye Boling.

Friends Invited To Housewarming

Friends of Archie and Irene Tartar (nee Irene Dyer) are invited to attend a come and go housewarming in their honor at their home, 611-1st street in Farwell, Monday night, Feb. 22, 7:30 p.m. (CST).

Hostesses for the social are Mesdames Elmore Hendrix, Ray Tharp, John Adams, Avis Patterson, Ruth Reid, Ben Zachrael, Mose Glasscock, John Getz, A.T. Watts, Cotton Robertson, C.G. Davis, Ray Ford, Robert Rundell, Bobby Blair, Walter Williams and W. H. Dollar.

Valentine Social Honors Husbands

Husbands of Texico Woman's Club members were guest for a Valentine social on Monday evening. A covered dish meal was served, with each guest bringing a dish and hostesses furnishing the beverage and bread for the meal. Hostesses were Mrs. David Axel and Mrs. Howard Leavell.

The serving table was covered with a tablecloth featuring hearts, centered by an arrangement of red roses. Napkins also featured the Valentine theme.

Games of Mexican Dominoes were played.

Attending were Messrs. and Mesdames John R. Hadley, Charles Stockton, James Pierce, Elmer Teel, Harvey Hudnall, Leroy Faville, Roy Harvey Snodgrass, Howard Leavell, David Axel and Mrs. Ed Farmer.

Let Me Call You Sweetheart Is Party Theme

The annual Valentine Party at which Farmerette Club members have their husbands as guests was held in the home of Mr. and Mrs. Donald Christian Tuesday evening with Mrs. Delbert Garner and Mrs. Troy Christian as co-hostesses.

A souffe dinner was served after which each member presented her husband with a tie for a Valentine gift as Mrs. Donald Christian played "Let Me Call You Sweetheart" on the organ.

The evening was spent in playing games of forty-two.

Attending the social were Messrs. and Mesdames Harold Carpenter, Jim Charles, L. L. Cooper, Leon Billingsley, James Roach, Delbert Garner, Joe Jones, R. E. Blankenship, Herman Gerles, Wendol Christian, Donald Christian, Troy Christian, Donald Watkins and Rev. and Mrs. Jimmy McGuire from Abernathy.

Mrs. James A. Cox is hospitalized in Friona where she is undergoing treatment for a kidney infection. She also sprained her arm in a fall at her home last week.

If You're Satisfied Tell Your Friends, If Not Tell Red

RED'S '66' RED PRATHER 481-3662--Farwell

Mrs. Mabel Reynolds, president of Farwell Study Club presents Katrina (Tinna) Lehto Finnish exchange student with a gift in thanks for her talk to Study Club members on Monday night.

Exchange Student Speaks To Farwell Study Club

Katrina (Tinna) Lehto, foreign exchange student who is attending school in Clovis this year spoke to members of Farwell Study Club when they met in the home of Mrs. John Aldridge on Monday evening.

Miss Lehto, a Finnish student from Helsinki, lives in the home of Mr. and Mrs. Fred McGinnis in Clovis. Her father is a lawyer and she has two brothers, one a student at University and the other who is presently serving in the Army.

uages and has had some training in the fifth, French, (although she says she has not mastered it at this time). Most schools are for either boys or girls, however, there are a few co-educational schools.

Vacations are of necessity longer in Finland, since students attend school six days each week.

Teenagers begin dating at about 12 or 13 but few marry before they are 20, she said. Most dating is done in groups-but couples do go steady as girls who date more than one boy lose their good reputations.

Tinna especially likes the mild weather in New Mexico as the temperature in her home country is 15 degrees to 30 degrees below zero much of the time for several months each year, with snow on the ground for five months. Summers are short but nice.

"The Communist party gets approximately 20% of all votes-by promising the poorer class everything-few educated persons are Communist", she stated. The 200 man Parliament has 49 Communist members and some eight or nine parties participate in the elections in contrast to the two party system in America.

Touching on religion briefly Tinna stated that 93% of all Finnish people are Lutherans with the other seven per cent mainly Catholic. Attending church is not so important to the Finnish people as it is to the Americans says Tinna, who found it hard at first to attend church each Sunday upon coming to America.

Tinna will leave Clovis in June but will not leave the states until August. She says much as she likes America she prefers her home country, but would like to return to America for a visit at some time in the future.

Hostesses Mesdames John Aldridge, Cricket Taylor and Joe Crume served cherry pie with coffee or hot spiced tea, using Valentine motif.

Attending the meeting were Mesdames Mabel Reynolds, Cricket Taylor, C.C. Christian, Mose Glasscock, T.J. Glenn, Asa Smith, L.R. Vincent, W.C. Strickland, Joe Crume, Guy Austin, Hattie Boling, Claude Coffey, Elmer Scott, L.S. Pool, Clytie Dial, R.S. Shuman, John Aldridge and Miss Maude Hicks. Also one guest Mrs. Chris Moss.

THETA RHO Chapter of Epsilon Sigma Alpha from Farwell won the travel prize at the District I meeting in Hobbs Sunday, Feb. 14. Left to right are Mrs. Joann Getz, Mrs. Sally Tankersley, president; Mrs. Linda Gerles, Mrs. Dardanella Helton and Mrs. Ginger Crume.

FFA Sweetheart Pep Club Beau Named At Farwell

Highlighting the annual banquet for Farwell FFA and FHA Chapters Saturday night was the coronation of Joyce Bass, daughter of Rev. and Mrs. J.L. Bass as "FFA Sweetheart" and Larry Donaldson, son of Mr. and Mrs. Sterling Donaldson as "Pep Club Beau."

The banquet, held in the banquet room at Clara's Spur featured a "Cupids on the Farm" theme. Speaker for the occasion was Alexander Orlosky-German exchange student from West Berlin who is attending school in Bovina this year.

Orlosky used for his subject the "Exchange Program," and told of the differences in the school systems (here and in Germany); economy of the countries; dating practices, cars and also touched on the problems met by East Berliners.

Orlosky told of how the East Berliners are required to pay for a TV set two years in advance, then wait delivery only to have the set become unusable six months later (due to poor workmanship). No parts are then available for the set he related. East Berliners also must pay \$40 for one half pound of coffee he stated and then many times it is unusable.

ROY DONALDSON

JOYCE BASS

that most young people have their own car where transportation is no problem -- and the dating practices. "Dating in the U.S. is the most," he commented.

Featured in the decorations, arranged by the FHA Chapter, were a large red barn and white silo adorned with silver glitter on which cupids and hearts were resting. An arc above the farm buildings bore the words "Cupids on the Farm" in red and silver glitter.

campfire salad bowl (tossed salad); Cowhands Delight, (strawberry shortcake), haystack biscuits and java or tea.

A comedy entitled "Private Lives" will be presented by the School of Speech and Drama at ENMU on Feb. 25-27. Author of the play is Noel Coward, and Ayers McGrew is directing the presentation.

Mrs. Tankersley Wins District Honor

Mrs. Joel Tankersley, president of Theta Rho chapter of ESA, was named as one of the three top ESA members in the district, at a meeting held in Hobbs Sunday, and will compete for the title of outstanding member of the state, at convention in April.

This is the fifth consecutive year that the local chapter has sponsored a district winner -- and two local members have been honored as winners of the state contest.

Five local members attended the district meeting: Mrs. Tankersley, Mrs. Bobby Crume, Mrs. Don Gerles, Mrs. John Getz and Mrs. Joe Helton. The local chapter received the travel award for having the most members traveling the longest distance to attend the meeting.

John Getz and Joe Helton accompanied their wives to Hobbs.

Surprise Shower Fetes Mrs. Tartar

Mrs. Archie Tartar, the former Irene Dyer, was surprised with a lingerie shower, Friday afternoon at the community room of Security State Bank. Friends gathered at the bank, where she is employed, at 4 o'clock in the afternoon.

Hostesses were Mesdames Don Williams, Mitz Walling, Mose Glasscock, Joe Helton and W. H. Graham. A Valentine motif was used. The heart-shaped registration book, was designed with a tiny white cupid accented with iridescent lace.

Serving table was covered with white table mats, decorated with hearts and silver designs, and matching napkins were used. Rolls were served from a silver tray.

Mrs. Tartar was presented with a corsage of red carnations.

PTA To Meet L. W. (Dutch) Quicquel announces that the Farwell PTA will meet on March 2, 8 p.m. in the high school auditorium.

On The Farm In Parmer County

By JOE VAN ZANDT
County Agent

USDA POTATO GUIDES
USDA recommends a 7% reduction during 1965 in the acreage of both fall and late summer crops of potatoes and a 2% reduction in acreage for early summer potatoes. These acreage guides, with normal growing conditions, would provide production 6% greater than last year.

HERBICIDES
If you weren't at Hub Monday of last week, you missed a good program on Chemical Weed Control. We know there is a lot of interest in herbicides this year as there were 160 in attendance at Hub. We have mimeographed sheets that list Dr. Wiese's recommendations for chemical weed control in cotton and grain sorghum. If you don't have a copy, write the County Agent, Box 285, Farwell for your copy. Every farmer using herbicides needs to read what Dr. Wiese has to say. His information is reliable and is based on research done in the Texas Panhandle.

CATTLE SITUATION
Cattle slaughter continues to exceed year earlier figures by wide margins. Continued cattle slaughter over 500,000 head per week would indicate liquidation in overall cattle number in '65. Whether this happens depends

on moisture and grass conditions and optimism of producers.

Prospects are for about the same fed cattle marketings the rest of this winter as a year ago, but as lighter weights. The length of time on feed continues shorter than 1963 and early 1964. This is due to placement on feed at heavier weights and marketing at lighter weights.

The demand for beef appears strong and this should keep prices near present levels.

SORGHUM CONFERENCE

The Fourth Biennial Grain Sorghum Research and Utilization Conference is scheduled for February 25-26 in Amarillo. The purpose of the meetings is to get together those doing production, marketing and utilization research on grain sorghum.

The meeting, conducted in the Holiday Inn West, is open to any and all interested in attending. However, most of the information presented will be of a technical nature. The future of our grain sorghum may certainly be affected by some of the information presented and it is good to know people are working to improve our grain sorghum position.

TESTED YOUR SOIL?

Has every field you farm had a soil test in the last two years? If not, get some soil samples today. You can't afford to pass up this good management practice this year. Our margin of profit is getting too narrow. Come by the County Agents office in Farwell for complete information and materials you will need.

Don't store leather gloves in air-tight plastic containers--for the leather needs to breathe or it will discolor. A&M Extension clothing specialists say. To keep gloves clean, store them covered with tissue paper rather than in the plastic.

Step-shelves in a cupboard add extra space and help the homemaker see what's stored in the back, say home management specialists at Texas A&M University.

Seven Accidents In Parmer County In January

There were seven rural accidents in Parmer County during the month of January, according to Sergeant W. E. Wells, Highway Patrol Supervisor of this area.

From these crashes resulted one death, four persons injured and an estimated property damage loss of \$3930.00

April 15 is the deadline to have your motor vehicle inspected. During the past five and one-half months only 1,800,000 or 40% of the 4,500,000 registered vehicles in Texas have been inspected. This leaves 2,700,000 vehicles to be inspected in approximately two months. If the number of uninspected vehicles were divided evenly among the 5,200 official inspection stations in Texas each would have approximately 520 vehicles to inspect in about 40 working days, or 13 vehicles per day. The stations in heavy populated areas will have many more than this average number to inspect. In areas where there are only a few stations you may have many miles to travel.

The Sergeant urges motorists to have their vehicles inspected without delay to avoid the inconveniences of waiting lines. Remember -- no extension of the Safety Inspection deadline, April 15, 1965.

Keeping clean is big business. Consumers have about 170 soap and detergent products from which to make their selections this year. Americans last year spent more than \$1.8 billion for soap and detergents, according to the latest consumer spending information. This averages out about \$10 a person -- or approximately \$35 to \$40 for the average family. And most families tend to include this \$35 to \$40 in their "food" budgets -- since most of the soaps and detergents are purchased at grocery stores.

150# of ammonia plus 50# P2O5 as 240# 7-21-0 on grain sorghum. In two of his fields, Mr. Atchely left a check strip and harvested each area separately. On his good deep soil which received four waterings, his yield with ammonia alone was 6300# grain per acre with a 57# test weight. With both ammonia and 7-21-0, he harvested 7200# grain per acre with 59# test weight. On a shallow, highly calcareous soil which received only two waterings, he harvested 3200# grain where only ammonia was applied. With both ammonia and 7-21-0, he harvested 4490# grain per acre. This is a real good return for an investment of about \$7.50 per acre. Mr. Atchely applied the ammonia and 7-21-0 as a dual application in the sides of the bed in April.

Phosphorus Responses
This past year has generally been a good year for phosphate response. I would like to list some of the responses that have been obtained by some farmers in the area.
Mr. R. Young, who farms north of Dimmitt in Castro County, applied 140# of ammonia plus 40# P2O5 as 200#

7-21-0 per acre as a dual application on grain sorghum. He left the 7-21-0 off of 16 rows and harvested these rows separately. Without 7-21-0, his yield was 4510# per acre. In the area where 7-21-0 was applied, he harvested 5850# per acre. This was an increase of 1340# grain per acre. At \$1.75 for grain sorghum, this was a return of \$23.45 per acre for an investment of \$6.30.

Another example of phosphate response on two different types of soil comes from Mr. Thurman Atchely who farms northeast of Friona in Parmer County. Mr. Atchely applied

SPRING THOUGHTS
In spite of cold blustery weather, garden lovers thoughts are beginning to turn to spring. Lawns, shrubs, flowers and pruning as well as vegetable gardening are beginning to fill the minds of these people, as they long for the signs of spring.

LAWNS
At this time there are several things that may be done to the lawn to bring about quick growth. First rake it well to loosen up old sodden debris. This will bring up old dead matted grass and leaves left from winter and fall accumulations. This will allow the warm air and sun to start growth when the blizzards are over. Clip the grass very low only once. Set the mower low and go over the lawn. For most grasses a one-half inch cut will do. This will mow off the old discolored foliage and open the sod to the sun which speeds the growth. This can improve appearance of early growth. For regular mowing, after the close clip, the mower is set to cut at least 1 1/2 inches high. The hotter the climate, the higher it should be set.

For further information on lawns, stop by the County Extension office and pick up a copy of these bulletins, Home Lawns and Modern Pruning Methods.
FIRE HAZARDS IN THE HOME:
Many consumers are not aware that items having foam rubber backing or padding are potential fire hazards. Potential threats are the padded knees of children's crawlers and the foam rubber backs of many skid-proof rugs. Its best to air dry these items since the foam may build up heat in the dryer and catch on fire if left at high temperature for a long period of time. If these items are accidentally dried in the dryers, lay them aside to cool away from the rest

Early Pruning Risky

Resist the urge to prune trees and shrubs in the garden until you are relatively sure all danger of severe freeze is past, says Everette Janne, Extension landscape horticulturist at Texas A&M University. Often the impulse is to start pruning rose bushes and other shrubs with the first shirt sleeve weather in January and February. In most areas of Texas there is still danger of freeze damage to tender growth as late as mid-March.

Warm weather in January frequently forces the terminal buds to begin growing. If this growth is removed by early pruning, the lateral buds begin to grow during the next warm spell and a late cold snap may cause serious damage to these buds, says Janne.

The following are the only justifications for pruning plants: to remove dead or diseased wood; to repair storm damage or mechanical injury; to balance the top with the root system when transplanting; to develop and maintain a desired shape or size; to rejuvenate older plants; or to improve or increase flowers and fruit.

Flowering trees and shrubs which bloom early in the spring, such as flowering quince, spiraea, forsythia, lilac, and redbud, should not be pruned until after flowering.

of the laundry. Folding and stacking with other items will hold in the heat and it may continue to build up in the foam until there are flames from spontaneous combustion.

4-H NEWS
Mrs. T. A. Mills, Food group project leader, in Bovina has been doing double time with two food groups, rather than let the girls drop out. Mrs. Harold Snell of Bovina is helping now and that has meant a great deal to Mrs. Mills. Her food groups are about finished with their guide lessons and are now reviewing nutrition and getting ready for the Favorite Food Show on March 6.

Mrs. H. R. Denny of Bovina, reported on their bedroom project January 11, with the 7 girls she has in her group. Their project activity was "Improving drawer space." They meet once each month. Leader reports are always read with interest and does make it possible for the agent to keep up with the progress in each project group. Parent interest and help is welcomed by these leaders who give of their time and talent to teach and encourage interest in homemaking activities for girls who enjoy learning by doing.

LEADERS NEEDED
Due to lack of leaders there will be some 4-H girls who will be unable to take the bedroom improvement project that they wanted. This project provides an opportunity for girls to develop interest and skills in making bedrooms attractive, convenient, comfortable and in keeping them orderly and clean. Improvements planned may be based on need for improvement, interest of the member, the family's ability and willingness to provide guidance, help and materials.

Guides for Leaders are well written lesson plans to follow. This is a wonderful help in giving training in this project. Help and guidance is also given by the Home Demonstration Agent. Any parent who can spare two or three hours a month for 5 or 6 months may find satisfaction and enjoyment in working with a group of their local girls who are eager to learn by doing.

Advantages Of Recirculation Systems For Irrigated Farms

High Plains Water District personnel state that "economic, legal, and moral pressures have caused many high plains farmers to use recirculation systems to control irrigation tailwater."

Recirculation systems consist of a drainage ditch to collect and convey the tailwater, a sump for temporary water storage, a pumping plant to pump the water back onto the farmland and a pipeline to convey the water from the pumping plant to the head ditch.

Don Reddell, engineer of the High Plains Water District, lists the following advantages recirculation systems offer high plains farmers.

- (1) prevents the ponding of water at the lower end of the field which interferes with plant development and causes reduced crop yields.
- (2) prevents the flooding of adjoining neighbors farmland, thereby reducing the threat of legal action.
- (3) prevent the flooding of the public roads and eliminate sources of automobile accidents.
- (4) prevents the flooding of public road drainage ditches and reduces county expense for road maintenance and repairs.
- (5) prevent mosquito breeding by eliminating the shallow, tepid waters necessary for mosquito breeding.
- (6) provides an additional source of irrigation water, in some cases increasing it by as much as 20 to 25 per cent.
- (7) improves the efficiency of water distribution by allowing the farmer to use a larger head of water to get the water to the end of the rows quicker. This provides for a more uniform moisture penetration by eliminating deep moisture penetration in the upper portion of the field, not enough moisture in the middle of the field and deep penetration at the lower portion of the field where ponding occurs.
- (8) reduces the amount of irrigation labor necessary. Many farmers using recirculation systems state that one man can now irrigate as much as two or three men before the recirculation system was installed.
- (9) recovers and reapplies nutrients carried from the farm in tailwater. Water District tests show that about 30 pounds of nitrogen in the form of nitrates were being lost per acre-foot of tailwater. The recirculation system salvages these nutrients as well as the tailwater.
- (10) recovers and reapplies rich topsoil carried from the farm in tailwater. Water District tests show that on the average 9 to 10 tons of soil are carried off the farm in each acre-foot of tailwater. Recirculation systems are reclaiming approximately 50% of this top soil and returning it to the farm.
- (11) improves plant growth rate because tailwater is much warmer than ground water. Cold ground water causes a temporary cooling of the soil and reduces the rate of plant growth for a few days. The warm tailwater does not lower the soil temperature appreciably, and allows the plant to continue its normal growth rate.

LUBBOCK, Friday, February 12, 1965
BUREAU OF CENSUS REPORTS GINNINGS

Preliminary ginning totals, as reported by the U. S. Bureau of Census, show 1,891,868 running bales ginned in the 23 High Plains counties through January 16, 1965. This figure compares with a total of 2,090,740 bales as of the same date last year, a decrease of almost 200,000 bales or about 10 per cent.

While these are only preliminary 1964 production figures they should be fairly close to final production for the year. The report also indicates a drop in State production from 4,375,887 to 4,053,000 bales. Latest USDA estimates place total national production at 15,317,000 bales, up slightly from the 15,289,986 bales grown in 1963 and the largest crop since 1953.

Most observers attribute the drop in High Plains production to drought conditions which prevailed over the area during the growing season. Only seven of the 23 counties -- Castro, Floyd, Hale, Lamb, Deaf Smith, Parmer and Swisher -- were able to show an increase in bales produced. Of these, Castro had the largest increase, percentage-wise, with 28.7 per cent. In the 16 other counties where production went down, Howard with its large dryland acreage had the heaviest percentage loss at 52.9 per cent, followed by Dawson with a 36.8 per cent drop and Lynn with 32.2 per cent.

The 23 High Plains counties represented by Plains Cotton Growers and their ginnings, in 500 pound running bales, appear below along with the comparable figures for the 1963 crop.

COUNTY	1964 Ginnings	1963 Ginnings
Bailey	83,402	111,758

Texas Farm Land More Valuable

Texas farm and ranch land prices reached a record high of \$94 an acre in 1963. This, said Boyd Andrews, Extension resource development specialist at Texas A&M University, was an increase of 10 per cent over the average price in 1960.

He added that a recent study by the resource economics section of A&M's Department of Agricultural Economics and Sociology points out other interesting facts. Due to the vast differences in soil types and locations, sale prices ranged from \$20 to over \$1,000 per acre.

While land prices moved upward, the net farm income was declining. Thus requiring a larger investment for a smaller return. A popular view expressed to the study group was that the low net farm income does not justify the existing high land prices, Andrews said.

But a closer look at the dominant sources of demand for agricultural lands may help explain the situation, the specialist added. First, he said, the average net farm income can be misleading. Many farmers and ranchers receive a far greater return than the average indicates. This group is capable of adjusting rapidly to incorporate technological advances and financially able to bid up the price of land to gain a larger economic sized unit. The strong demand for strictly agricultural land comes almost entirely from this group, Andrews said.

Another important source of demand for agricultural land is from industry and urban developments. In many areas of Texas industry is expanding and using large acreages of agricultural land and pushing prices upward. Urban centers are spreading out and taking up more and more land and highways are also taking their share, the specialist said. These intensive uses of land exert great influence on land prices, the study noted.

A third important source of demand comes from urban dwellers. These buyers are interested in using land for agricultural purposes as well as for homes, weekend farms and for recreation.

These demand sources for land are the dominant forces in the Texas land market and are not expected to change in the near future, Andrews said.

Have you ever stuffed a meat loaf? It's an excellent way to extend an already economical dish. First prepare your own special meat loaf mixture, using 1 1/2 pounds ground meat, and place half the mixture in a greased 4 1/2 x 8 1/2-inch loaf pan. Prepare your favorite stuffing recipe, using about 4 cups crumbled enriched bread, and spread over meat mixture. Cover with remaining meat and bake in preheated 350° oven 1 1/2 hours.

Another important source of demand for agricultural land is from industry and urban developments. In many areas of Texas industry is expanding and using large acreages of agricultural land and pushing prices upward. Urban centers are spreading out and taking up more and more land and highways are also taking their share, the specialist said. These intensive uses of land exert great influence on land prices, the study noted.

These demand sources for land are the dominant forces in the Texas land market and are not expected to change in the near future, Andrews said.

SCIENCE SKETCHES

'STREETCORNER RESEARCH' is a project at Harvard University aimed at having juvenile delinquents talk themselves out of apathy and hostility by talking about themselves into a tape recorder. This unusual therapy has proved a success, researchers say, as arrests and time in prison for one such group were only half those of untreated young criminals from similar circumstances.

RESPIRATORY CRIPPLES are helped by an Intermittent Positive Pressure Breathing apparatus (IPPB) developed by National Cylinder Gas, Chicago. It assists in breathing a medicated mixture of oxygen and air, allowing exhalation by natural lung recoil. The physician-prescribed IPPB can restore breathing regularly to emphysema victims for 10 to 12 hours at a time.

HAILSTONES are being collected in central Illinois in the interests of science. State meteorologists and scientists of the Atomic Energy Commission study them for traces of radioactivity. Gallon samples are requested from residents.

Quality Of Some Produce Affected By Weather

Weather does make a difference in the quality and supplies of some fresh produce arriving at local markets, says Mrs. Gwen Clyatt, A&M Extension consumer marketing specialist.

This is a good time of the year to compare prices on fresh, canned and frozen vegetables to decide on best values.

Headlining choices at the fresh vegetable counter are

cabbage, head lettuce, carrots, celery and hard shell squash. Other quality offerings include cauliflower, broccoli, yellow squash, snap beans and eggplant.

In the citrus fruit line, oranges are the most plentiful, with ample grapefruit offerings still to be had.

Canned fruit will be featured often in the coming weeks. Watch for exceptionally good values in canned citrus juices fruit cocktail, freestone peaches, pears and red tart cherries, says Mrs. Clyatt.

In the meat department, several good cuts are being featured which are just right for pot roasting. Shoulder steaks and ground beef are among other good values. Boston butt

Great Agriculture Yields Industry

"With great agriculture comes great industry," says the chairman of the board of directors of Texas A&M University.

Board Chairman Sterling G. Evans, of Houston, made the statement in a speech before 1,100 people from 13 southern states who met here recently at the annual meeting of the Southern Agricultural Workers Association.

In his speech, "Southern

THE SMASHING IMPACT of a giant meteorite striking earth is simulated at Stanford University where a "b-b" (air-rifle shot) suspended on a thread plinks against a 300-lb., 12 1/2-in. diameter steel ball. Scaled up, the power of this Lilliputian collision equals the crash of a projectile 20-to-40 miles in diameter against the earth, or the blast of a 5 to 10 megaton H-bomb.

INSURANCE SAVE MONEY ON ALL OF IT AT RAYMOND EULER AGENCY

Agriculture in an Urban Society," Evans stressed the need to make the American public aware that "the greatest hope for industry lies in the field of agriculture."

Cheap food, housing, medical care and transportation can come only through great and efficient agricultural workers, Evans said.

The south has sent large numbers of people to the north and west, he continued, but still retains a relatively young population.

More than three million people have gone to other areas from the 13 southern states since 1950, according to Evans, with the heaviest migration from West Virginia, Arkansas and Mississippi.

"This migration will continue unless the economic growth of the south is speeded up substantially," he said.

Even though the south is gaining in education, it still lags behind other areas of the country, stated the well known businessman and cattle breeder. He noted, however, that although income levels of most people in the south fall below those of the north, southerners with four years of college education show slightly higher incomes than the same group in the north and west. "What an opportunity this gives for exploiting the possibilities of a college education for southern universities, he said.

Ship Your Livestock Carefully

Approximately 80 per cent of the bruises which show up on beef, pork and lamb carcasses at the packing plant can be eliminated if the basic rules for handling livestock are observed. Frank Orts, Extension meat specialist at Texas A&M University, says these losses are reflected in lower prices to livestock producers at the time of sale.

And, he adds, most of the bruises occur in the region of the highest priced cuts on the carcass. In the case of hogs, hams are most often bruised. In cattle, it is the loin and usually the area of the short loin. The bruises are due mainly to loading chutes which permit two animals to move up but only one to enter the smaller door on the truck. This trouble spot can be eliminated by reducing the width of the chute or adding adjustable sides to make it the same width as the loading door.

Orts suggests the use of a canvas slapper instead of clubs or canes when loading livestock. Also the elimination of all protruding nails, bolts and broken boards from fences, doorways and trucks; the removal of machinery and junk from the

Cleansing Agent For Household Metals Is Club Topic At Black

Choosing the proper cleansing agent for household metals was topic for discussion when members of Black Home Demonstration club met in the home of Mrs. John Benger recently. Mrs. Roscoe Ivie and Mrs. Ellis Tatum led the discussion and gave a demonstration on the numerous cleansing agents available. The group reached

the conclusion that the cleansing agent that will get the job done and preserve the beauty of the metal is the proper agent to use.

A report was heard that \$79. had been the profit from a recent farm sale at which the club served dinner.

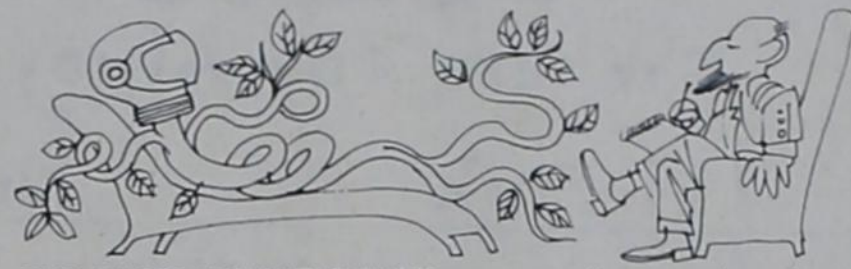

One new member, Mrs. K. E.

Deaton was welcomed.

Present for the meeting were Mesdames Ralph Price, Lloyd Prewett, Pete Braxton, Fern Barnett, Gene Welch, Harry

Lookingbill, Johnny Mars, Travis Stone, Tom Presley, Clyde Hays, Bill Carthel, Helen Fangman, Roscoe Ivie, Ellis Tatum and the hostess.

SCIENCE SKETCHES

PROLONGED WEIGHTLESSNESS may not affect man but plants—potential sources of oxygen and food on long space voyages—"go crazy" without the restraining influence of gravity. Prof. Charles J. Lyons, Dartmouth College botanist working on the problem for the National Aeronautics and Space Administration, reports that plants in a weightless state become twisted. Leaves and branches fold back around the stem, overlap, curl and twist.

Try this recipe for Lebkuchen, a traditional German bar cookie. Bring 1/4 cup honey to boil in a large, heavy saucepan. Cool to lukewarm. Blend in 1/2 cup granulated sugar and 1/4 cup brown sugar. Add 2 eggs and beat well. Sift together 2 1/2 cups sifted enriched flour, 1 1/4 teaspoons cinnamon, 1/4 teaspoon ground cloves and 1/4 teaspoon allspice. Gradually add to egg mixture

beating well after each addition. Stir in 1/2 cup each finely chopped candied citron and lemon peel and 3/4 cup chopped blanched almonds. Spread in well-greased 10 1/2 x 15 1/2-inch jelly roll pan. Bake in preheated 350° oven 20 to 25 minutes or until lightly browned. When cool spread with confectioners sugar icing and cut into bars.

feedlot or barnyard; the dehorning of cattle when young; the use of sand for truck bedding to prevent slipping; the use of partitions to separate cattle, sheep and hogs of different sizes and light feeding of livestock before loading them.

Livestock travel best, he adds, on a light fill and properly shrunk cattle will get a better reception at the market due to a better dressing percentage. And last but not least, he suggests that the drive to market be done carefully and kept free of sudden stops.

During this season, when weather conditions are not always the best, taking care of the little things can add dollars to the selling price of a load of livestock, he says.

OCEAN-GOING tankers frequently carry thousands of gallons of crude black oil on one leg of a trip and edible oil on return. The transformation is made possible by a white powder called Planisol. It is hot water soluble and can emulsify any known oil, according to Northwest Chemical, Detroit.

CHOCOLATE CHERRY LOG

1 package (6 1/2 oz.) fluffy white frosting mix
1/3 cup well-drained chopped maraschino cherries
5 Devil's Delite Mickey cakes
Chocolate wafers

Halved maraschino cherries
1. Prepare frosting according to package directions. With maraschino cherry juice, tint frosting delicate pink. To about 1 cup of the frosting, add chopped cherries.

2. Spread cherry frosting on tops of 4 of the cakes; stand all 5 cakes together on edge to form a loaf held together by frosting.

3. Frost top, sides and ends of "loaf" with remaining frosting. Garnish with chocolate wafers and whole cherries. To serve, slice diagonally. Makes 10-12 servings.

Carrots Have 'Built-In' Convenience Features

The carrot is a wonderful vegetable, which certainly should be rated among "convenience" foods.

So says Mrs. Gwen Ciyatt, Texas A&M University Extension consumer marketing specialist.

The sweet and tender, well-scrubbed carrots which reach produce centers all year round do not actually need paring or scraping. Wash them, brush well with a vegetable brush, and cut off the top and bottom and slice.

Chill the carrots and eat them raw if you want the very last unit of Vitamin A, suggests Mrs. Ciyatt. Or cook them until just crisp and tender in no more boiling water than is needed to keep them from sticking. A scant teaspoon of sugar, along with salt, butter or margarine, enhances the flavor of carrots. Other good flavorings are onions, celery leaves, chives, parsley, green peppers, grated orange peel and spices such as nutmeg, ginger, cloves, sweet basil and white pepper.

Some homemakers may sometimes ask what has happened to the carrots with tops. At one time, the tops distinguished the tender young carrots from the solid and mature

"soup carrots." Not so today. Now, the tenderest of young carrots are sold without tops.

The tops were found to draw off moisture from the root or carrot portion, and thus hasten deterioration. Moreover, the United Fresh Fruit and Vegetable Association explains that leaving the tops on increases the cost of crating, icing and shipping carrots. The newer method of shipping has helped keep carrot prices comparatively low.
