Steers to Meet Favored Bucks

Farwell's Steers meet White Deer's Bucks on the regional level of state Class A football playoffs tomorrow (Thursday) afternoon at Buffalo Stadium in Canyon.

The highly-rated White Deer team is undefeated, thoughtied, this season. In advancing to the regional playoffs, they have compiled a 10-0-1 record. The tie game was a 6-6 fray with Stinnett in a non-district contest.

Last week the Bucks slammed the Gruver Greyhounds, an undefeated team at that time, 46-6.

Kickoff time Thanksgiving afternoon will be 2:30. Farwell again will be the home team--as it was in the bi-district game with Idalou. Steer fans will occupy the west stands in Buffalo Stadium. This will possibly be the last game played in the stadium as West Texas State College will begin using a new stadium at the start of the 1959 season.

Both Farwell and White Deer have high-scoring aggregations. The Steers have racked up a total of 434 points in 11 games while the Bucks have made 424 points in the same number of games.

White Deer will be given the favorite's nod in the game which promises to be an offensive show because of the team's scoring record.

The champions of District 1A and 2A operate their offense from a winged-T formation and have "speed and power to burn," according to Steer Coach J. D. Atwell. Coaches Atwell and Shelby Jobs were present at the White Deer-Gruver game. "They didn't have to pass against Gruver," Atwell says of the upcoming opponent, "but I'm sure they have a fine passing attack."

Details of the regional game were worked out Friday night as the coaches met with White

Farwell Wins Bi-District, 40-18, from Idalou Friday

Trailing by two touchdowns at the end of the first quarter, Farwell's Steers erupted for 24 points in the second frame and went on to down the Idalou Wildcats, 40-18, in a bi-district playoff game Friday afternoon at Littlefield.

The win gives the Steers, champions of District 3-A, the right to meet White Deer in the regional playoffs Thanksgiving afternoon in Canyon.

Farwell was the favorite in the Friday game, but the Wildcats, champions of District 4-A, didn't seem to be aware of the fact in the first quarter.

The Steers took the opening kickoff. But, after failing to gain they were forced to punt. The Wildcats launched a scoring drive after receiving the punt.

Climax of the drive came on a three-yard pass play with Quarterback Dan Wilbanks throwing to his brother, End Joe Wilbanks.

Try for extra points was stopped and the score stood at 0-6.

Taking the kickoff, the Steers couldn't gain and lost the ball on downs on the Idalou 43. The surprising 'Cats launched another TD drive from that point.

The drive featured a 26-yard run by Fullback Tommy Robertson. The touchdown play, however, was a four-yard pass from Billy Swan to Joe Wilbanks who gathered the ball in the endzone. Again the extra points attempt was halted, but Idalou led, 0-12.

The blue and white was a dif-

ferent team after the signal for the second quarter to begin sounded, Farwell got in the scoring column with a long, 37-yard pass from Quarterback Johnny Lovelace to End Owen Huffaker, who made a spectacular catch as he was being defended by two Idalou men.

Johnny Lovelace carried the ball around left end for the extra points and things on Farwell's side of the field looked brighter as the score stood at 8-12.

Only three minutes elapsed between the Steers' first two touchdowns. For the second one, they got in a scoring position after an Idalou punt carried only 14 yards. It took six plays to score from that point with Johnny Lovelace going the last

eight yards over right tackle on a keeper play. The same play worked through the opposite side of the line for the extra points and the Steers led, 16-12.

For the third scoring play, Johnny Lovelace passed to Phillip Berry from 20 yards out. Berry carried the extra points over to put Farwell in a commanding, 24-12, lead.

The Steers almost added another touchdown before the half ended, but the clock caught them before they could get the ball shoved across.

No scoring occurred in the third period. The Steers' offense was stymied. They had possession of the ball on three occasions, but were unable to pick up a first down.

The Wildcats started a drive that netted six points in the fourth quarter. The drive began after they took a punt on their 34. Featuring three short passes from Quarterback Swan to Chris Debusk, the march was capped by Robertson, who carried over from two yards out. For the third time, extra points attempt failed and the score stood at 24-18.

The ink was hardly dry on the sportswriter's notes about Idalou's TD before the Steers added more points onto their score.

A short kickoff was returned to the 45 in Farwell territory. Berry made seven, Larry McDorman picked up four and a first down. Jerry Lovelace went for one, then Berry for four

more. A 24-yard pass from Johnny Lovelace to Huffaker gave the Steers a first down on Idalou's 15. On the first play from that point, Jerry Lovelace rambled for the double stripe. Johnny carried the extra points across and the score was 32-18.

A fumble on the ensuing kickoff was recovered by Berry on the 21 yard line in Idalou territory. A pass to Huffaker

was incomplete, then Johnny Lovelace, doing fancy steps through the middle went the 26 yards for the touchdown.

A Lovelace to Berry pass was good for the extra points and the scoring was over for the afternoon at 40-18.

Trying hard to get back in the game, the district 4-A champions roared back to Farwell's six-yard line following the kickoff before losing the

ball on downs. The Steers were in possession on their own 33 as the final gun sounded.

A crowd, estimated at 3,000, was on hand for the game, which was played in bright, sunshiny weather. There was a slight breeze blowing, but it had little effect on the play on the field.

Following the game, the bi-district championship trophy was presented to the Steers. Presented by Howard Horne, president of Littlefield Chamber of Commerce, the trophy was accepted by Farwell's tri-captains, Johnny Lovelace, Berry, and McDorman.

LINERS--

serious family dispute, they agreed to call in a neighbor, who had more than his share of common sense, to help settle the matter.

The neighbor studied the situation for a minute and then said that rather than see the family have trouble, he would give them a horse to bring the total to 24 so the division could be made.

That suited everybody fine and they started dividing.

The youngest son got 1/8 -- 3 horses; the middle son got 1/3--8 horses; the oldest got 1/2--12 horses; and the neighbor got on the horse he had given the family and rode home... with everybody happy.

Laurie Cooper, Tribune society editor, just told me we're getting out a lousy Thanksgiving paper... no mention of Thanksgiving. So, in an effort to amend that situation, we'll point out that for a lot of Farwell folks this won't be an ordinary Thanksgiving. Not with the Steers playing White Deer in the regional football playoffs in Canyon that afternoon. As one fellow said, "That turkey we usually have for dinner on Thanksgiving will have to wait until supper this year."

Mention of Thanksgiving and football brings us down to prediction time. Without apologies or excuses, here's ours:

STEERS TO MEET--

Deer officials. Admission charges will be \$1.50 for adults and 75 cents for children. There will be no reserved seats. Proceeds will be divided evenly between the two schools after game expenses are paid.

The teams have no common foes. In posting their near-perfect record, the Bucks, who are coached by Otis Holladay, won over Groom, Spearman, Shamrock, Lefors, Canadian, McLean, Clarendon, Panhandle, and Memphis. The last six games were of the district variety.

Probable starting lineup for the north Panhandle team is Jeff Bearden, 175, left end; Jimmy Powell, 150, left tackle; Robert Anterwald, 145, left guard; Jimmy McKerman, 160, center; Bryan Coday, 195, right guard; Bob McCreary, 170, right tackle; Ronnie Cade, 170, right end; Jackie Burns, 140, quarterback; Herchell Powell, 180, left halfback; Allen Harmon, 170, fullback; and Don Driskell, 150, right half.

Probable starters for Farwell are the same as a week ago: Owen Huffaker, 145, and Morris Reed, 160, ends; Larry Jesko, 170, and Robert Carthel, 180, tackles; Joe Hughes, 150, and James Burleson, 150, guards; Gerald Christian, 140, center; Johnny Lovelace, 190, quarterback; Larry McDorman, 150, left halfback; Jerry Lovelace, 165, fullback; and Phillip Berry, 160, right halfback.

Farwell will be outweighed four pounds per man--164 to 160. The big difference is in the line where the Bucks will have a nine-pound-per-man advantage--166 to 157. In the backfield, the Steers have the advantage, 166-160.

A question mark in the Steers' lineup will be End Morris Reed. He received a hip injury in the bi-district game, but it is hoped

To live happily in the country one must have the soul of a poet, the mind of a philosopher, the simple tastes of a hermit--and a good station wagon.

he'll be ready to play by game-time. If Reed doesn't start, Jimmy Martin, a 130-pounder, will get the starting nod at end position.

Winner of the game will meet the winner of Plains-Ozona regional playoff the following week. Plains and Ozona play Friday night at Big Spring.

This will be the second time in three years for the Steers to advance to the regional playoffs. In 1956, they lost to Stinnett, the eventual state champion, after winning bi-district from Hale Center.

The Bucks were bi-district champions last year and lost to Ralls, 27-26, in the regional playoffs. They are champions of District 2-A.

**Baptists to Sell Bonds
To Finance Auditorium**

Another step was taken last week toward a new auditorium for First Baptist Church in Farwell.

The congregation will vote to issue \$60,000 in First Mortgage Corporate bonds to finance the building program, Rev. Sidney Cox, pastor of the church, announces.

Bonds will go on sale Thursday night, December 4, to members of the church. Purchase of the bonds will not, however, be limited to the church membership. The bonds will be available to anyone desiring a

safe investment for their money, Rev. Cox says.

Six per cent interest will be paid on the bonds. Interest payments will be made semi-annually, on January 1 and July 1 of each year as long as bonds are outstanding.

The bonds will be issued in denominations of \$100, \$250, \$500, and \$1,000. Security State Bank in Farwell will be paying agent for the interest coupons which will be issued and also for the bonds when they reach maturity.

Handling the fund raising pro-

gram will be Rev. T. L. Denton, vice president of Providence Church Plan, Inc., Atlanta, Ga. Sale of the bonds is scheduled to be completed within two weeks.

A sinking fund will be established by the church at the bank. A total of \$126 will be placed in the fund each week. This amount will, the pastor explains, be sufficient to pay interest on all outstanding bonds each six months and to retire part of the bonds each half year. This arrangement is according to the schedule worked out by

Providence Church Plans.

"For the last 23 years, many churches have used this plan of financing their building needs. In all these years, there has never been a default in the payment of the interest or the principal on such bonds," Rev. Cox says.

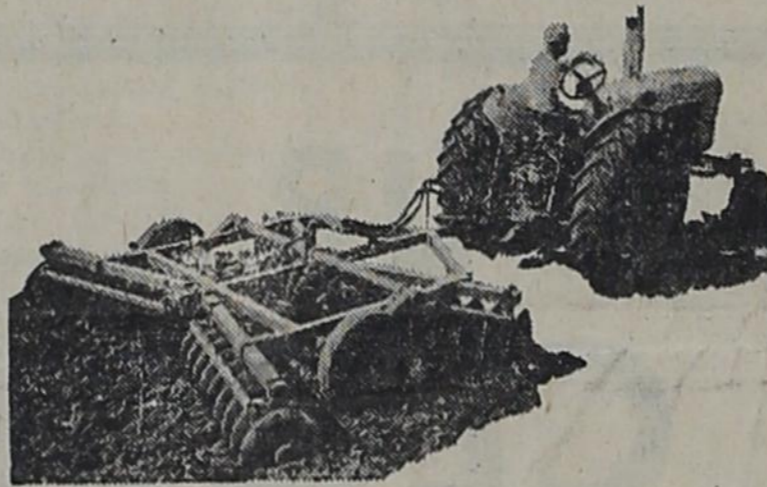

The date construction will begin has not been announced.

A man was justifiably proud of his lawn until one year a heavy crop of dandelions appeared. He tried everything imaginable in an effort to get rid of them, but without much success. Finally in desperation he wrote to an agricultural college, listing the remedies he had tried, and concluded with the appeal, "What shall I do now?"

Several weeks later he received this reply: "We suggest that you learn to love them."

Mrs. J. A. Cox always has a big smile and a friendly "hello," one of the nicest attributes we can think of.

Farwell 40 Idalou 18

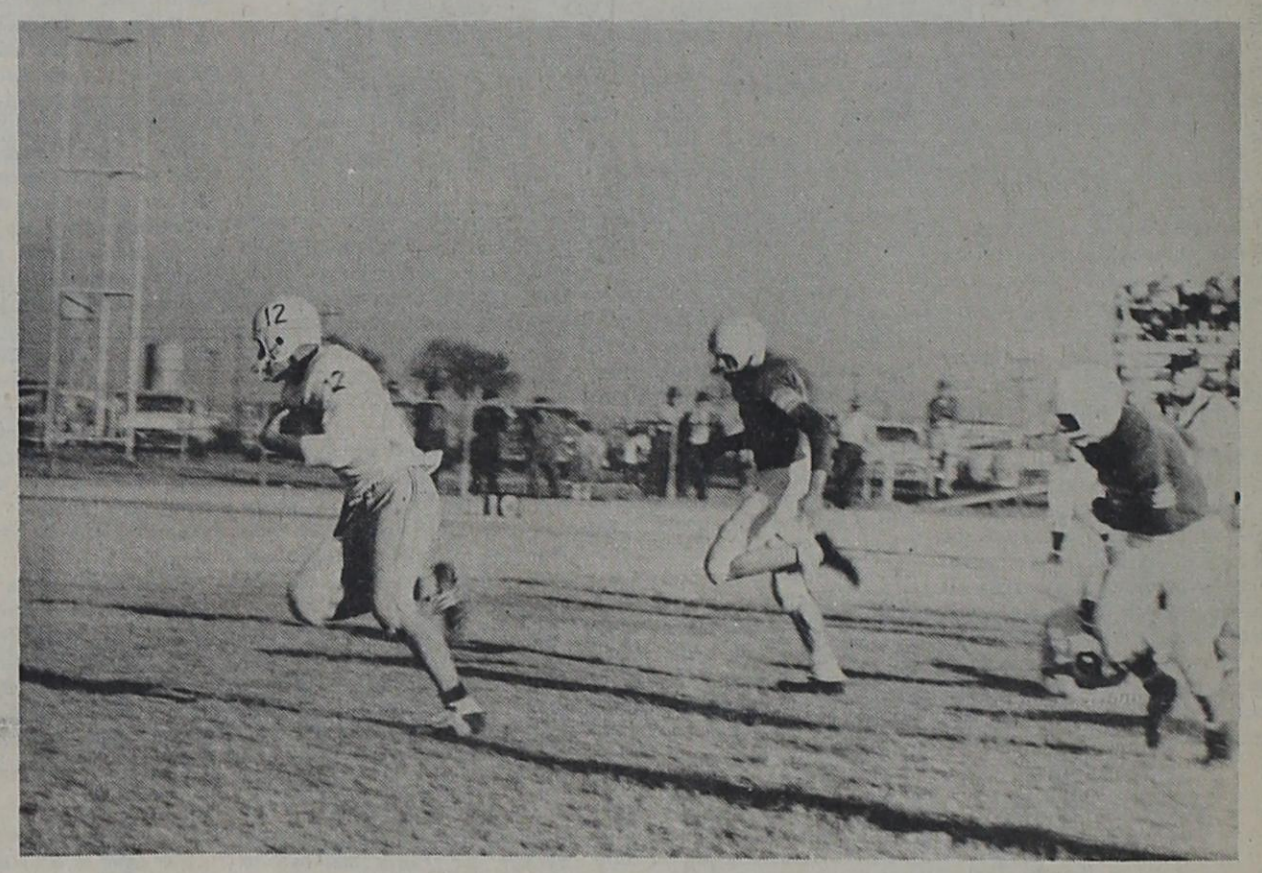

Here's How The Wildcats Were Skinned Friday...

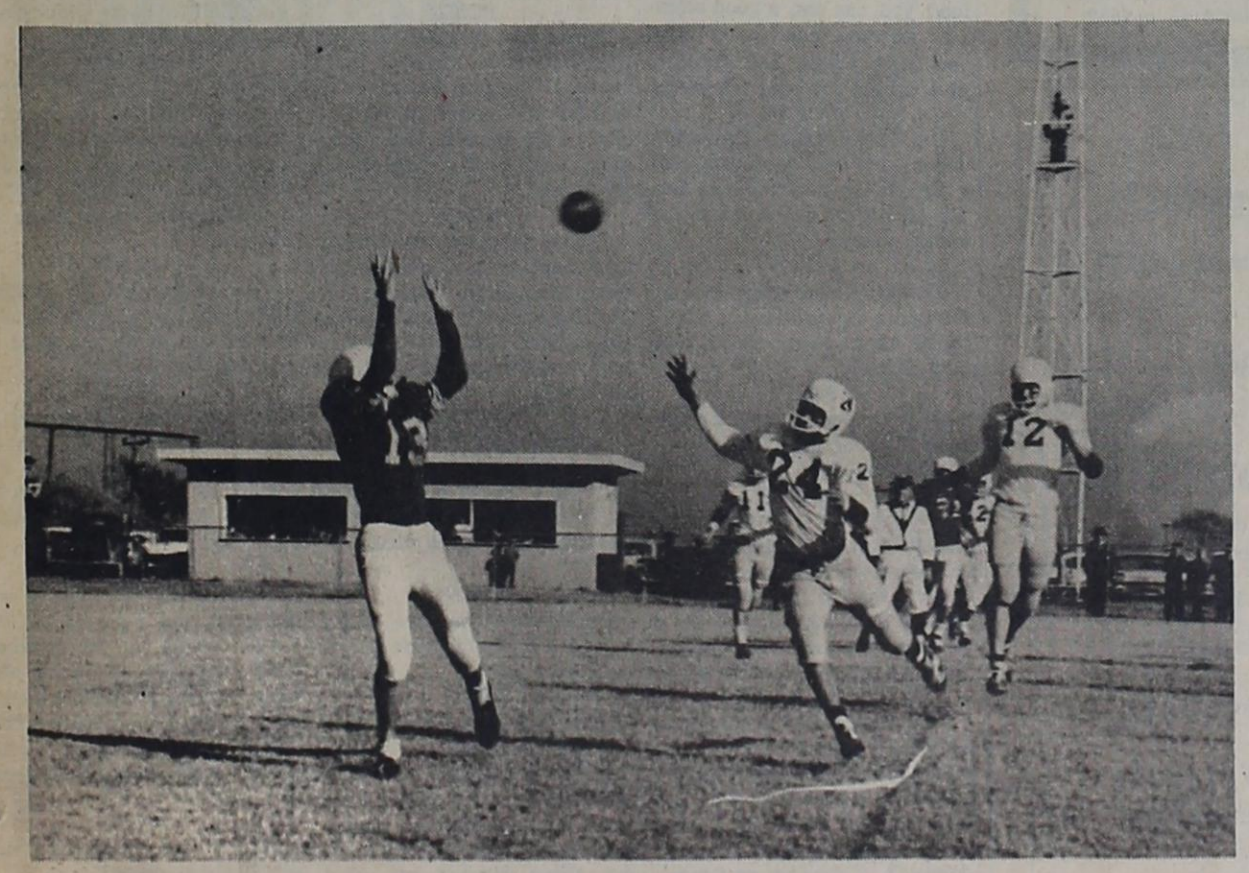

Minutes after the Wildcats had cut Farwell's lead to 24-18 in the fourth quarter, Fullback Jerry Lovelace, No. 31 hit paydirt on a 15-yard run. This TD and the extra points which followed made the score 42-18.

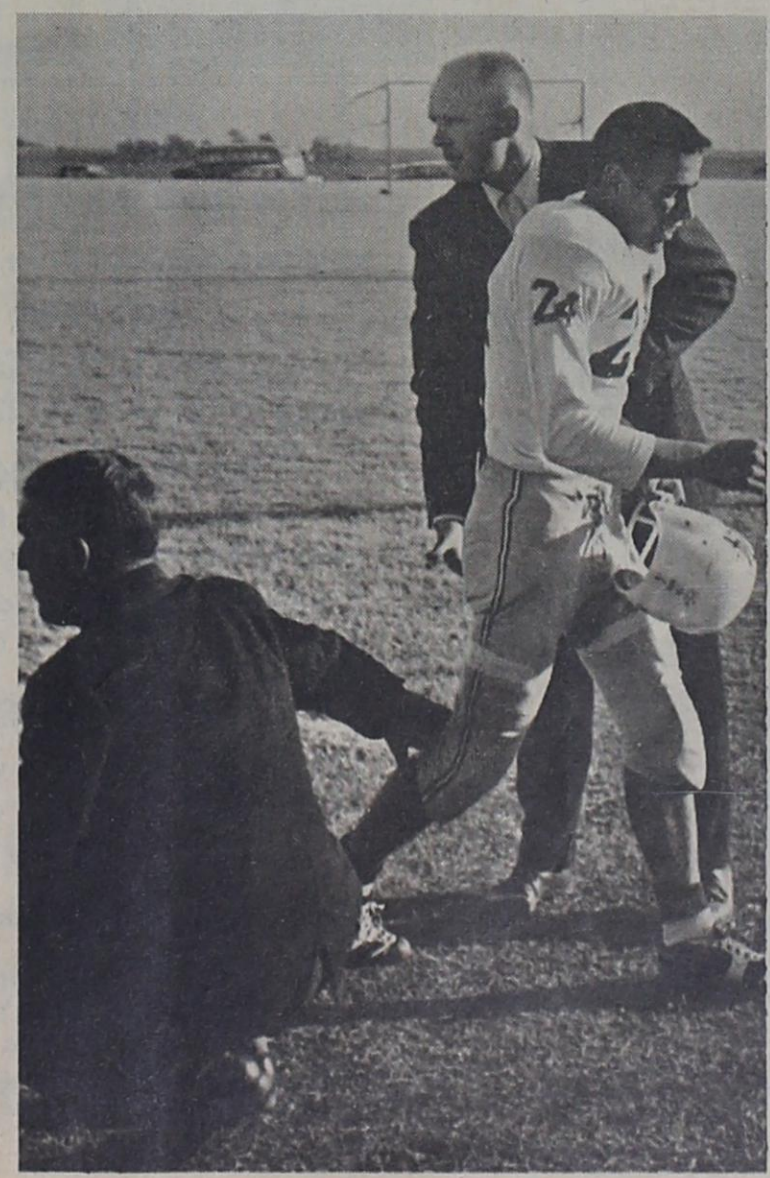

Johnny Lovelace, spark of the Steers' offensive attack ran for a touchdown in the second quarter from eight yards out. Lovelace is No. 12 in the center of the picture. Other white-clad Steers shown are, left to right, Gerald Christian, No. 22; James Burleson, No. 60; Larry Jesko, No. 70, Owen Huffaker, No. 80; and Phillip Berry, No. 20.

This touchdown run by Johnny Lovelace, the final score of the afternoon, was set up when Phillip Berry recovered an Idalou fumble on a kickoff on Idalou's 21. After a five-yard penalty against the Steers and two passes which went for no gain, Lovelace ran down the middle from 26 yards away for the score.

Idalou racked up two touchdowns and a 12-0 lead in the first quarter. Both were scored on short passes to End Joe Wilbanks. Here, Wilbanks gets set to gather in one of the aeriols. Carroll Huggins, No. 24, is the closest defender. Benjy Dial, No. 11, is behind Huggins and Johnny Lovelace, No. 12, is moving over from his defensive middle linebacker position.

Coaches J. D. Atwell and Shelby Jobs, both intent on the game, give Carroll Huggins a "well done" pat as he comes out of the game.

Barthel Ford, No. 32, who played a fine defensive game for the Steers is shown getting instructions from Coach Shelby Jobs before being sent into action.

County Levels Guns On Rat Problem

Join the Fight!

Parmer County area citizens--farmers particularly--are gunning for rats in a big way this fall. Especially since the rats seem to be more numerous and pose more of a threat to health and sanitation standards than in many years.

A meeting was held at Bovina last Tuesday to organize county-wide in a fight to eliminate the rodent pests. County Agent Joe Jones reports interest is very high in the program.

It is the plan of the group to purchase special bait-poison in "one slug" and dispense it to individuals at 25 cents a pound. Here are community chairmen and businesses who are cooperating in the program:

BOVINA -- Henry Minter, chairman. Parmer County Farm Supply, Cicero Smith Lumber Co., Lawlis-Ely Gin, Joe M. Brown Gin.

LAZBUDDIE -- C. C. Graef, chairman. Watkins' Gin.

LARIAT -- Gilbert Kaltwasser, chairman. Sherley Grain Company, Shafer Gin.

HUB -- Bill Wooley, chairman. Fleming & Son Gin, West Hub Gin, Hub Fertilizer.

TEXICO -- J. M. Winegeart, chairman. Golden West Seed Company, Helton Oil Company, Border Service Station.

FARWELL -- Wilfred Quickel, chairman. Nickels' Gin, Sherley - Anderson - Pitman, Lone Star Elevator, Worley Grain Company.

FRIONA -- Albert Field, chairman. Friona State Bank, Farm Bureau, Friona Wheat Growers, Continental Grain Company, Plains Farmers Gin, Chester & Fleming Gin.

BLACK -- Pete Braxton, chairman. Tri-County Grain Company.

OKLAHOMA LANE -- Leon Grissom, chairman. Oklahoma Lane Farm Supply.

RHEA -- Jack Patterson, chairman. Rhea Grain & Fertilizer.

Orders for bait will be taken from individuals through December 5. "Everyone should purchase at least ten pounds and most farmsteads will need 50 pounds or more," says County Agent Jones.

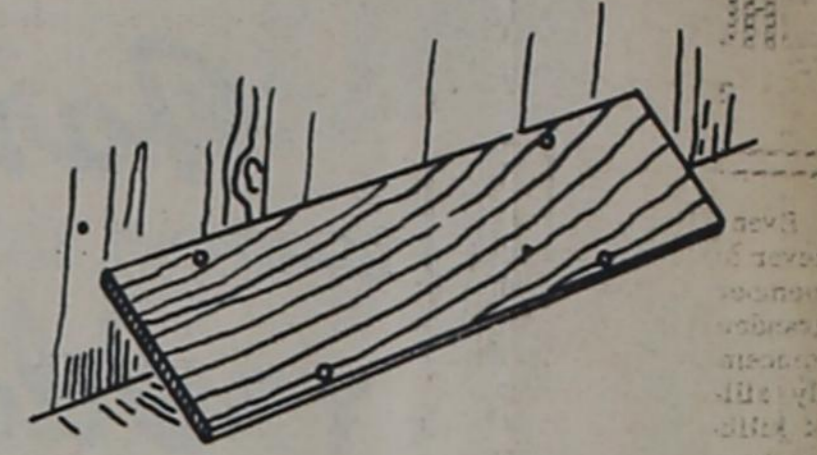

This is an anti-coagulant bait and must be left out for rats and mice for at least 30 days to get desired results. This is a safe bait to use and poses very little danger to humans, livestock, or pets. Bait stations should be located where all rats and mice can feed regularly."

Only one county-wide order will be made. The bait is expected to be delivered about December 21. Then an announcement will be made to encourage all cooperators to set out the bait simultaneously for maximum effectiveness.

"We can make a clean sweep the first time if we all work together," says Jones.

BAIT BOXES

Bait should be placed where only rats and mice can feed on it. The following drawing shows a simple method of protecting bait.

SAFETY PRECAUTIONS

Any animal or human can be harmed by anticoagulant bait if enough is eaten every day or so for several days. In some cases, one feeding may cause death, but the amount would have to be large before this would happen. The larger the animal, the greater the amount it would have to eat.

Take no chances. Place bait where only rats and mice can feed on it. This can be done by keeping pets, livestock and people out of the buildings where the poisoned bait is placed or by making and using a bait box similar to the one illustrated.

culture, a government, trying to be benevolent, provides so much protection that the balance of supply and demand is completely upset.

Farmers complain that prices they receive are low. They are. But the low prices were born years ago when abnormally high prices started the inevitable shift toward greater production. Thus, today's low prices are the result of previous high prices caused by external and artificial means.

Too much control, either by private or public means, seems destined to harrass the best-laid plans of man.

The tire and tube industry in 1957 increased its investment in newspaper advertising by 39 percent over the previous year.

level by internal methods--which are (at least to us) completely legitimate and desirable.

In cases where several manufacturers supply one product to the market, price maintenance is not nearly so easy. farmer can appreciate this because agriculture is made up of thousands of small (relatively speaking, at least) producing units that have no central regulation except through government by the law of the land.

This has been the main theme of those who have advocated

government-imposed control of agricultural production, and the argument certainly has its merits. Orderly marketing of farm products cannot be achieved without some degree of control or protection if you prefer the word, regardless of whether this comes from an internal (in the case of a one-company dominated industry) or external (in the case of agriculture) source.

The difficulty begins to arise when, in industry, one or more companies scheme to maintain prices artificially, or, in agri-

HD Luncheon Well Attended

The countywide Home Demonstration Club luncheon at the Hub Community Center Thursday was well attended. Mrs. Dick Rocky of the Black club was the master of ceremonies. The invocation was given by Mrs. W. T. Magness of the Farwell club.

Following group singing directed by Mrs. Joe White of the Oklahoma Lane club, Mrs. Joe White of Farwell, Mrs. Ralph Taylor of the Friona club, and Mrs. Vernon Symcox of the Oklahoma Lane club presented a skit.

This was followed by an illustrated talk by Edith Lois Wilson, Miss Wilson is the district home demonstration agent. She was introduced by Jimmie Lou Wainscott of Farwell.

Miss Wilson's talk was followed by a skit by Jessie Douglas, Maxine Price, and Thelma Ruth Shelton. Phyllis Sanders of the Friona club gave a report on a recreation school she attended recently.

Members of the Lakeview and Midway clubs decorated the tables using fall leaves, dried flower bouquets, and artificial arrangements. The place cards were decorated with fall leaves.

Those attending were Mrs. W. S. Ingram, Mrs. Lee Campbell, Edith Lois Wilson and

Several times in recent weeks while traveling paved roads at night we have been forced to make very abrupt stops to avoid colliding with the back-end of loaded cotton trailers. It's a wonder we haven't yet managed to smash one.

In each instance of our narrow escape the trailer has had no warning light (not even of the reflector type). When these loaded trailers are pulled at a very slow speed at night without any warning lights on the back they make conditions indeed hazardous for the overtaking driver who is traveling at normal highway speed.

The farmer always seems to have somebody mad at him. While this is often undesired, sometimes he has it coming. Usually, the "has it coming" category is the result of indifference, stupidity or carelessness.

We don't know which of the three should be referred to in the following connection, but we are sure that this is an outstanding example of why the farmer often rouses the ire of the general public.

Several times in recent weeks while traveling paved roads at night we have been forced to make very abrupt stops to avoid colliding with the back-end of loaded cotton trailers. It's a wonder we haven't yet managed to smash one.

In each instance of our narrow escape the trailer has had no warning light (not even of the reflector type). When these loaded trailers are pulled at a very slow speed at night without any warning lights on the back they make conditions indeed hazardous for the overtaking driver who is traveling at normal highway speed.

The danger is intensified when vehicles approach from the opposite direction and obscure the vision of the car coming up behind. In fact, the trailer may not be spotted until only a second or two before the moment of an impending collision.

We recall that one of the points of discussion at the last annual convention of the Farm Bureau was to keep farm trailers exempt from highway licensing. The point is well taken, but when a farmer puts his un-

licensed, loaded trailer on the highway with apparently no regard for the lives of the public and takes no precautions to avoid possible accidents, what sort of a reaction does he get from the public? As Amos used to tell Andy, "It ain't good, man."

Often the drivers of pickups, trucks, or even tractors which pull these lethal wagons are farm laborers whose knowledge of highway safety is limited at best. This certainly does not remove the responsibility of the owner-farmer. In fact, it heightens it.

The laws of economics have sensible application, seemingly, to about every industry but agriculture. The writer has long advocated free commerce and unrestricted trade, in the conviction that the market place will sooner or later, in its inexorable way, solve the matter of price, production and consumption by means fairest to the most people.

However, although we believe that less government interfer-

ence in business affairs is wholesome and tends to stimulate the vigorous economy that is characteristic of American free enterprise, we do recognize that private and perhaps unseen control is necessary to maintain stability in the violent seas of supply and demand. The reason is because supply and demand ebb and flow with such rapidity that only the most flexible of all industries can match their rhythmic gyrations.

The manufacturer is careful to note how rapidly his products are being consumed. If he notices a definite tapering off of demand, he usually is willing to try to stimulate the flow with advertising and promotion, but if consumption declines in spite of it all he wastes little time in cutting his production. He wants to avoid piling up a big inventory of a little-needed product because the obvious result would be a reduction in the price for this product. He seeks to maintain his price

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Even though most of us have never made mincemeat, we remember when our mothers or grandmothers always made mincemeat every time the family killed hogs. The practice of killing hogs is as out of date as homemade mincemeat, but many tasty foods can be prepared with ready mixed mincemeat.

Any of the following recipes can be made with any brand commercial mincemeat and

make very appropriate desserts for Thanksgiving or Christmas. Or for that matter for any day!

MINCEMEAT PIE
 1 9 oz. package mincemeat
 1 1/2 cups water
 1 to 3 tablespoons sugar
 1 recipe pastry

Break mincemeat into small pieces; mix water and sugar. Place over heat and stir until the lumps are thoroughly broken. Boil briskly for one minute. Cool.

Line an 8-inch pie plate with pastry; fill with mincemeat mixture. Moisten the edge of the crust with water, cover with top crust, trim; press edges together. Cut several slits in center of upper crust. Brush top crust with milk. Bake in hot oven 30 minutes or until golden brown.

MINCEMEAT COOKIES
 3 1/4 cups sifted flour
 1/2 teaspoon salt
 1 teaspoon soda
 1 cup shortening
 1 1/2 cups sugar
 3 eggs, well beaten
 1 9 oz. package mincemeat

Sift together flour, salt, and soda. Cream shortening; add sugar gradually; cream together until fluffy. Add eggs, beat until smooth. Add mincemeat broken into small pieces. Add flour and mix well. Drop by teaspoonsful, 2 inches apart, on greased baking sheet. Bake in moderately hot oven about 12 minutes.

MINCEMEAT BROWNIES
 1 9 oz. package mincemeat
 1/4 cup water
 3/4 cup sifted flour
 1/2 teaspoon baking powder
 1/2 teaspoon salt
 1/2 cup shortening
 1 cup sugar
 2 eggs
 2 1 oz. squares unsweetened chocolate, melted
 1 teaspoon vanilla

Break mincemeat into small pieces and place in small sauce pan. Add water. Place over heat and stir until lumps are thoroughly broken. Bring to a

boil and boil briskly for one minute. Cool. Sift together flour, baking powder, and salt. Cream shortening. Gradually add sugar; beat until fluffy. Beat in eggs, one at a time; blend well after each addition. Stir in melted chocolate and vanilla. Add dry ingredients; mix well. Stir in cooled mincemeat until blended.

Pour into well greased 9-inch square pan. Bake in a moderate oven 35 minutes. When cool, cut into 1 x 3 inch bars.

Another dessert that traditionally goes with Thanksgiving or Christmas is pumpkin pie. For a pumpkin pie that is different and very delicious is:

EGGLESS PUMPKIN PIE
 2 cups cooked pumpkin
 1 1/2 cups sugar
 1 cup sweet cream
 3 tablespoons flour
 1 tablespoon lemon extract
 1 teaspoon cinnamon

Mix all ingredients together and bake in two single pie crusts.

When you begin your Christmas shopping, keep in mind that any homemaker will appreciate gifts for her kitchen. There are so many pretty kitchen articles of glass that choosing one to please just about anyone on your list, should present no problem.

Some of the things we have seen in glass that would make nice gifts are mixing bowls, measuring cups, casseroles, oven roasters, saucepans, ice-box dishes, pie and cake plates, coffee makers, butter dishes, ice water bottles, glass tumblers, spice jars, salt and pepper sets, and cruet sets.

Any of these can be easily wrapped in bright papers, tied with gay ribbons, and given with pride.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

The Plains cotton production, class, and stage of completion of harvest are all ahead of last year's schedule, apparently. In a report from the Plains Cotton Cooperative Association, we have gleaned these good looking figures:

So far this year, ginnings of 1,219,087 bales have been reported. Last year at the same date, only 425,000 bales had been ginned and there was snow

on the ground over a large part of the area. Also, to date, 45.9 per cent of the Plains cotton has a staple length of one inch or over, and 94 per cent of it is white. These factors mean a lot to cotton producers on the Plains.

Farm Bureau people are greatly sorrowed at the loss of one of their faithful directors, J. D. White. J. D. had served as a director since his first election in 1956. He was re-elected in our last annual convention. Mr. White was not a man to talk much, but he was fair and firm in his convictions about things of concern to the American farmer. He was always present at meetings of his fellow workers when it was physically possible, and had intended to attend the state convention in Corpus Christi this year. We are happy to know that neighbors of the family and gins are cooperating in getting the cotton crop out.

Directors will meet in the Friona Office Monday night. Remember that you and your neighbors are welcome to attend this and any other meetings.

Roger Fleming, secretary-treasurer of AFBF makes this statement regarding the American FB policy regarding Labor: Farm Bureau definitely is not anti-labor. In fact, Farm Bureau strongly approves the right of workers to organize and bargain collectively. But these rights must be exercised in consideration for the public

interest, the welfare of others, and the preservation of basic individual rights and freedoms.

Farm Bureau opposes recognition picketing, secondary boycotts and compulsory unionism. It favors state jurisdiction in those cases where the NLRB will not accept jurisdiction, and inclusion of labor and all other organizations under the provisions of the anti-trust statutes.

CONSIDER THIS: Whoso walketh uprightly shall be saved; but he that is perverse in his ways shall fall at once. Proverbs 28:18

Parmer County Home Demonstration Clubs had their annual Thanksgiving luncheon at the Hub Community Center Thursday, November 20. Seventy persons were present for the salad luncheon. I do not believe that I have ever seen so many pretty and delicious looking salads in all my life. It was a confusing feeling not to be able to taste of each one.

The program was very interesting and enjoyable. Mrs. Dick Rocky, Black, was mistress of ceremonies. Mrs. Lee Renner, Hi-Point, conducted a get-acquainted game and each one

introduced herself, told her husband's name, how long they had been married, how many children they have and where they live.

Mrs. Joel White, Oklahoma Lane, lead the group in singing and then two skits were presented.

Mrs. Rene Snead, Mrs. Ralph Price and Mrs. D. L. Carmichael gave a report of the State Demonstration Convention in Austin. They gave very good reports of the speakers, workshops and plan of work.

Miss Edith Lois Wilson, district extension agent, gave a report on the Texas Home Demonstration Study.

Farmers Union Report

In the past few years, integration has taken on the meaning of confusion and strife. It is now beginning to mean the same thing when applied to the principles of agriculture. In the past ten years, agricultural knowhow has increased, cost of production has increased as machinery prices have skyrocketed. Government farm programs designed to bring stability to farming have been distorted and have failed. Farm prices and farm income have dwindled. Farmers have responded to these events by increasing production in an effort to maintain income. This increased volume of farm products and the farmer's need for some kind of income stability have allowed off-farm interests to gain complete control of various stages in the production and marketing of some farm commodities. In many cases, the only choice farmers have had is to turn their operations over to "vertical integration."

Vertical integration occurs in agriculture when more than one stage of producing and market-

ing a commodity is controlled by the same individual or firm.

The broiler industry furnishes what can be called a classic example of vertical integration in agriculture today. Similar conditions are arising in the integration of hog production, cattle feeding and vegetable crops.

Broiler producers sign contracts with feed dealers or manufacturers. The feed dealer or manufacturer owns and supplies the feed usually on credit. He owns the hatcheries which produce the baby chicks, or contracts for their production. These are supplied to the producer on credit. The dealer may sell the finished birds to a processing firm, or contract for their slaughter and preparation for market; then sell them direct to a retailer.

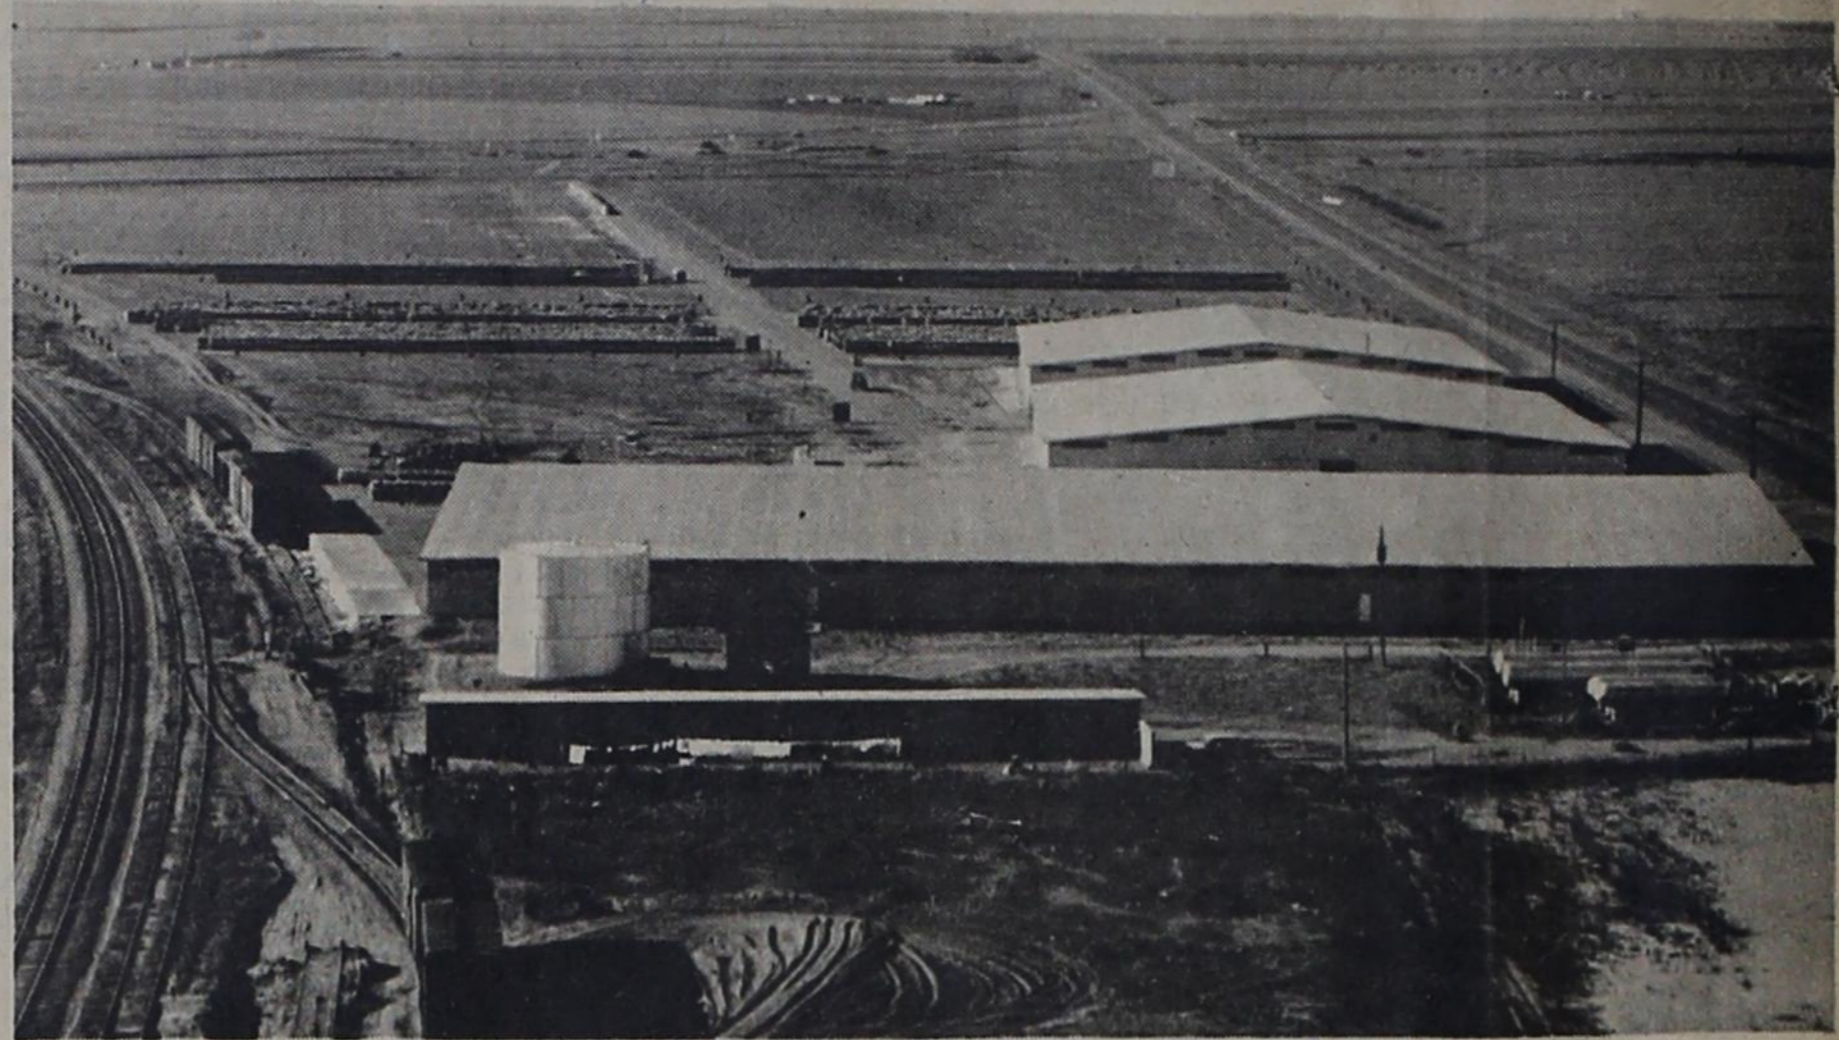

The dealer usually furnishes the fuel, medicines, and supervision also. (The hold that Anderson-Clayton has on most cotton growing areas is familiar to all of us--this compares.)

Broiler producers are paid usually on a piece-rate basis for labor and for the use of buildings and land. The producer has nothing to say about the management of his business. He has traded his independence for the assurance of a stabilized income. The effects of this are over-production and consequently lower prices which force other producers to integrate.

The producer's profit depends on volume, but notice that the dealer makes a profit at every step of the process--on the production of chicks, the feed, the fuel, the services, and on the credit advanced. The dealer takes the risk but it is a calculated risk that does not depend entirely upon the price of broilers. Farmers Union believes that this is the road to an "off-the-farm processor" controlled farm economy.

Things could be worse. Suppose your errors were tabulated and published every day, like those of a ballplayer.

PILING IT UP--Parmer County's 15 cotton gins are running "round the clock, and the baled cotton is beginning to make a sizeable pile. Row after row of ginned cotton is "curing" in the open yard of Western Warehouse Company in Bovina. The firm tripled its capacity this year. It is the county's only cotton storage point, and was built two years ago.

A poll taken among visitors of a recent auto show really surprised auto makers. The most popular exhibit turned out to be a parking space.

Did you hear about the rich Texan who arrived at a plush hotel in Miami Beach, followed by several bellboys carrying skis, sled, toboggan, etc. Following them came several groups of Alaskan Huskies. "Why, sir!" exclaimed the desk clerk, aghast. "This is Florida. There's no snow here!" "I know, I know," boomed the Texan. "It's coming right along with the rest of my luggage."
