Rains Stop Harvest

Wheat harvest operations came to a virtual standstill on Wednesday following a heavy downpour of rain in the area on Tuesday night.

Wheat harvest operations were still hovering in the area at press time, giving promise of more moisture.

While farmers are of the opinion that the rain will bring much help to row crops they are also hoping that the rains will cease until wheat harvest operations are completed.

Most farmers and elevator operators indicate that, if the rains cease and dry sunny weather returns harvest will almost be completed by end of next week. (July 4).

The Tuesday rain brought the measurable rainfall in Texico-Farwell to around one and one-half inches for the past three days. First of the rains came on Saturday night when a gentle rainfall brought moisture amounting to around one half inch.

Areas surrounding Texico-Farwell report varying amounts of rainfall, with the area north of town reporting approximately one and one-half inches.

However, the area south of town reported only .90 of moisture.

East of town in the Oklahoma Lane area only light sprinkles of rain were reported on Tuesday. Clovis reported rainfall in varying amounts from 1.35 inches in town to 1.5 south of town. Heavy clouds

A FAMILIAR SIGHT -- Wheat harvest is in full gear in the Texico-Farwell area this week and most farmers and elevator operators agree that barring bad weather the harvest will all be over by July 4th or shortly thereafter. Most wheat in the area has been making 60-70 bushels per acre, with dryland wheat averaging around 20 bushels per acre. Price of wheat is variable with local elevators paying around \$1.25.

DISCUSS WATER NEEDS -- Directors of the Parmer County Unit of Water, Inc., met in called session at Friona last Friday morning. The group discussed the need for obtaining more members in the Association, the participation of the present membership, and the future water needs of the county and means by which it can be obtained. On hand for the discussion were A. L. Black, left, who is a board director; W. L. Edelman, center, president of the Association; and Joe Jones, secretary-treasurer of the group.

Warns County Agent --

Watch For Greenbugs

Parmer County Agricultural Agent Mack Heald stated early this week that Parmer County farmers should be on the lookout for greenbug infestations in their row crops.

At that time, farmers began a spraying program to assist in wiping out the greenbug infestations. However, again in 1969 the bugs made heavy inroads into the grain sorghum crops and in corn crops in some areas.

While Heald does not believe that the bugs are in as large numbers as in the past, he does warn farmers to be on the lookout for the insects. Heald attributes the lighter infestation of the bugs to the spraying program which has been used for the past few years.

According to Heald, the bugs are showing up over the county in large numbers; however they are not infesting as heavily as in the two previous years. In 1968 the bugs caused heavy damage not only to crops in the Panhandle of Texas but also to crops in South and North Dakota, Kansas, Nebraska, Oklahoma, and New Mexico.

Heald describes the grain sorghum greenbug as an aphid, light green in color with a distinct darker green stripe down its back. The aphids are usually found on the underside of the plants.

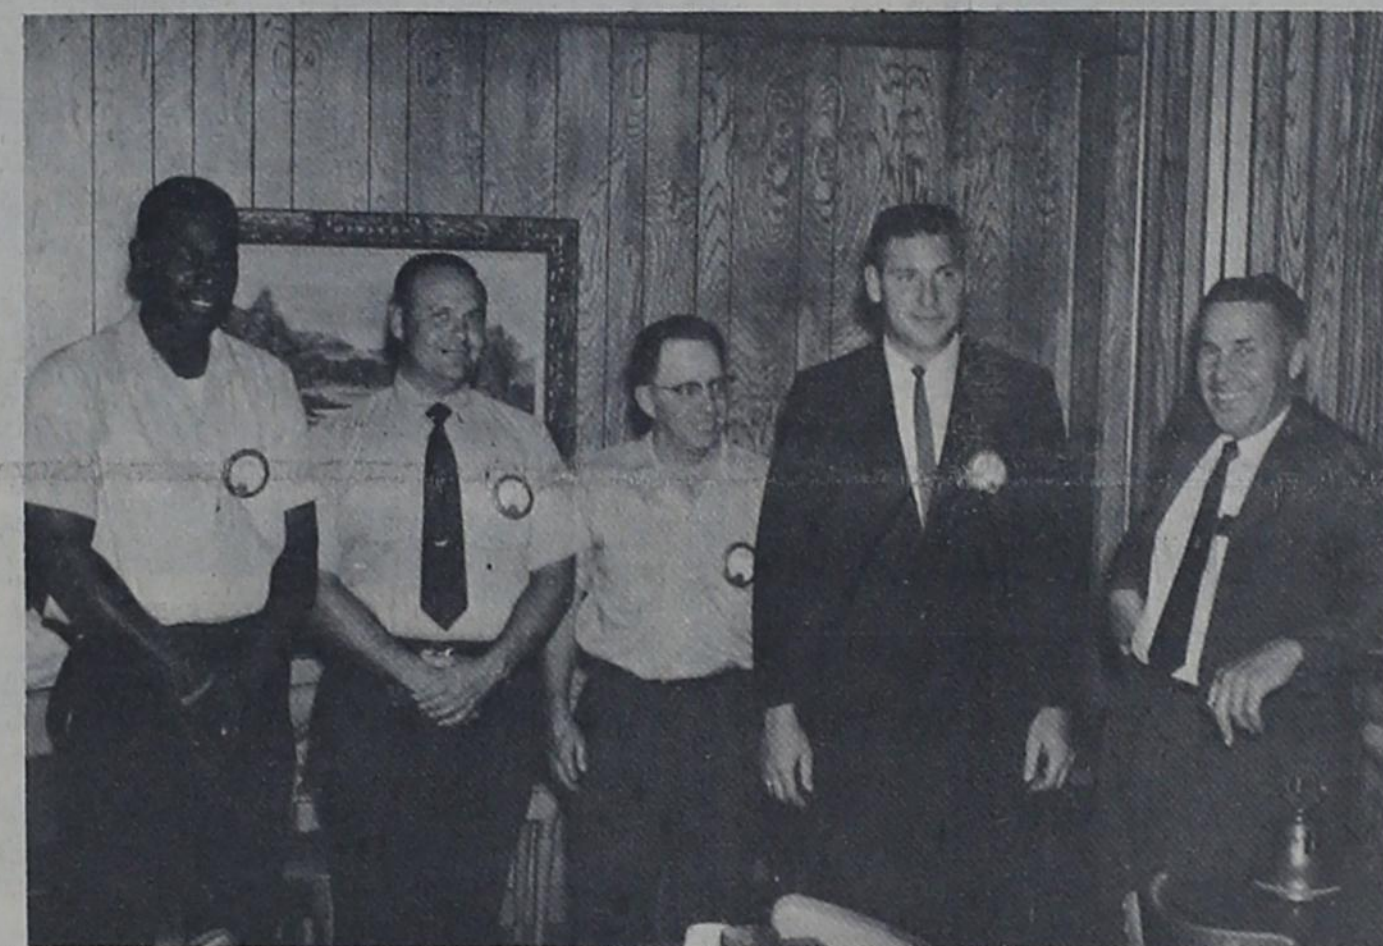

Corn aphids "greenbugs" are a dark dull green in color and are usually found in the whirl of the plant. Not only do the greenbugs attack row crops but they may also be found on weeds and other vegetation in the area. Most wheat is past the stage of infestation by greenbugs.

New Mexico Girls State 1970

by Patricia Smith

"I am a tired American, Tired of seeing my country rioted, and killed upon, but I am never too tired to say I am proud to be an American," said Governor Marie Amerman in the 1970 Inaugural address.

One week at Girls State gave me more pride and concern for my country, than I have accomplished in my life.

New Mexico Girls State was held at Highlands University, Las Vegas, N.M., June 7-14. That Sunday morning I did not realize the great change that was to take place in my life.

At New Mexico Girls State I was a member of Sage City, Lincoln County, and the Nationalist Party.

City elections begin Monday, and a hard week of elections followed. Monday night at city

meetings two ordinances were passed. The first, that you could not take the name of Sage City in vain; second, that you would not be allowed to take more than two steps at a time on the stairs.

On Tuesday primary elections began. I won the primary and was running for Representative of Lincoln County for the Nationalist Party. Also on Tuesday the Talent Show was held at which I performed a pom-pom routine.

Wednesday, party rallies were held. Each party presented its platform. The platform for the Nationalist party was to discourage news media from college campuses; better teachers salaries; to provide clinics for drug rehabilitation; better control of air pollution; and to

involve yourself in the affairs of your country.

The Federalists platform was to provide sex education in the schools; to provide bilingual courses in the schools; each girl at Girls State would go back to her school and promote patriotism; to develop stricter driving tests; to control air pollution; to have more years in prison on the second degree felony charge; public kindergartens be available at each grade school; and more technical training courses in the schools.

For the first time at New Mexico Girls State there were 18 Nationalists and 18 Federalists in the House. It was extremely unusual when the Senate came out with ten Nationalists and ten Federalists. The majority party was decided on by the party of the governor.

The Inaugural Ceremonies were held Thursday night. The Oath of Offices were administered by Chief Justice J. C. Compton. When you take this oath you realize the importance of Girls State and what it stands for.

Friday was the big day in Santa Fe. It feels pretty good to see your name on a desk in the House. There we passed bills of the House and Senate.

Governor David Cargo addressed the joint session of the House and Senate. After the

address, sessions were adjourned for lunch on the old capital buildings lawn.

Saturday was a sad day for all. The friends we had made; we would be leaving. It was hard to say 'so long.' For we realized that our test was coming now. The test to keep our patriotism when we went home, where we were not surrounded by people with the same understanding of our country as we had. And the test to see if we could spread the understanding of our country to other people, in our home city. For Girls State is to help the state

have a better understanding of the government, not just one person.

I would like to thank all the people that made it possible for me to attend Girls State. And special thanks to my sponsor, Texico Women's Club, and to the American Legion Auxiliary, for having just great counselors, and inspiring programs.

If I can instill in just one person the feeling of pride for my country that I have, my week at Girls State will have been successful. I hope that my city will profit from my experiences at Girls State.

Texas Boys State

by Gene Sheets

The past week I had the privilege to attend the 1970 Texas American Legion Boys State. It has to be the most thrilling and rewarding experience that I've ever had. I just hope that I never lose all of the many wonderful things that were taught to each of us during our stay in Austin, Tex.

I would like to express my appreciation to the American Legion and to the many organizations that had a part in sponsoring Boys State and for allowing me to have the great opportunity. I just wish every boy in Texas could attend Boys State and be benefitted as I know I have been.

Boys State is a mythical 51st state with its own constitution, statutes and ordinances that everyone must abide by. Following registration, the 787 citizens started to set up a form of government based on that of the government of Texas. Our motto was, "Learn to do by Doing," and this is exactly what we did. We actually performed the exact functions as real state officials in the everyday world.

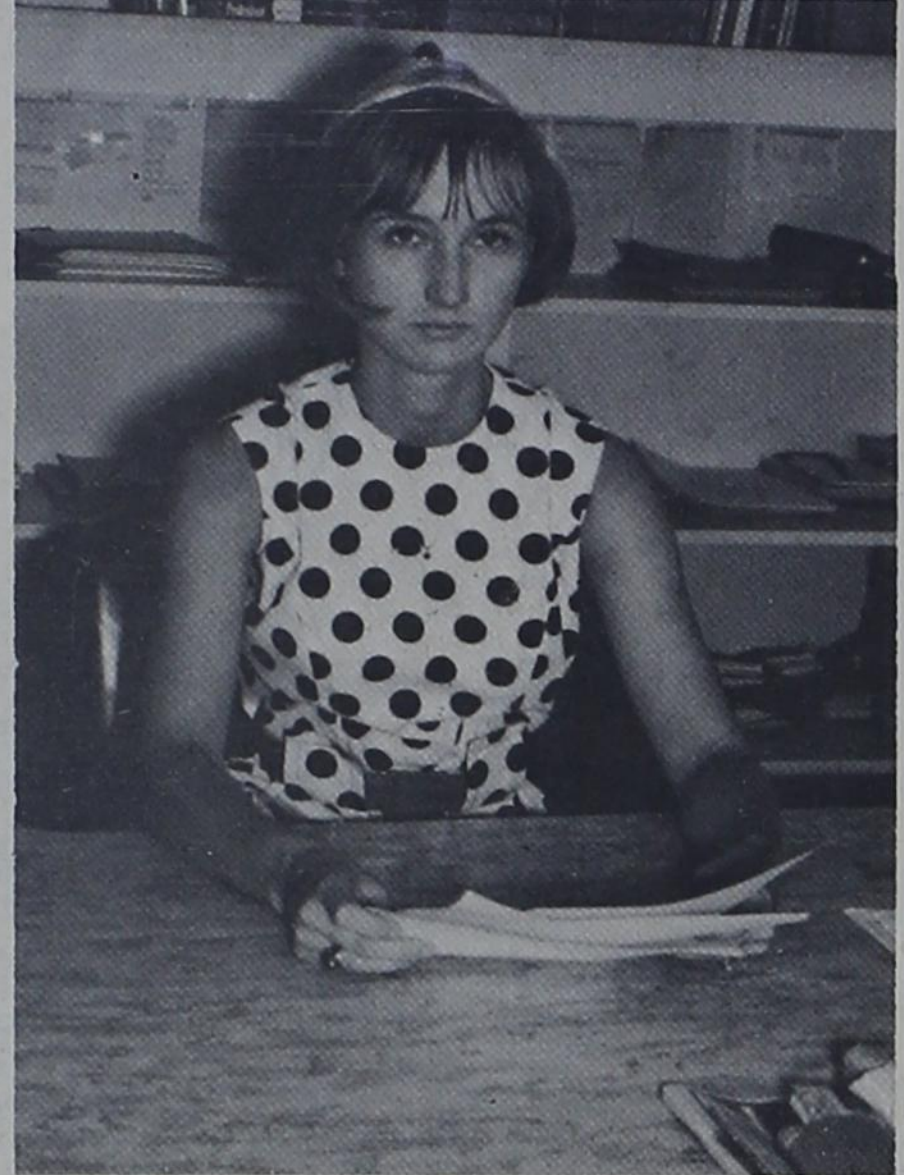

The 787 boys were divided into cities with each city having about 50 boys. We organized our own city, county, and state governments, and chose our officials according to regular election procedures. In-

cluding primary and runoff elections.

The purpose of Boys State is to teach the youth of today constructive attitudes toward the American form of government. Boys State gives each citizen opportunity to learn for himself that his government is just what he makes it. We learned that in order to enjoy the rights and privileges of citizenship, one must be willing to accept the duties and responsibilities that are involved in citizenship.

The other people in the world enjoy all the freedoms that we have today; and these freedoms are now being endangered by a few minority groups who cry out against our proven system of self-government and all the rights we now enjoy while using the very laws they are condemning. I cannot realize how any individual living in this great country could possibly want to do away with our present form of government.

I gained more knowledge about our system of government in one week than some people learn in a lifetime. I hope that I will be able to use this knowledge and in some way help make this a greater country in which to live as a result of my experience at Boys State.

Patricia Smith, who represented Texico School at New Mexico Girls' State, looks over the article she has written for the newspaper to see if she had included all of the inspiring things which happened during the week. Patricia, daughter of Mr. and Mrs. Clarence Smith, says, "This week has made me realize more than ever that we as Americans need to wake up to the dangers facing us from within our own country."

BOYS STATE DELEGATE Gene Sheets, son of Mr. and Mrs. Harry Sheets, who represented Farwell Schools at the sessions, turns through a Texas Almanac to a large map of Texas as he tells about some of the experiences at Boys State. "The most inspiring week ever spent in my life," is the way Gene expresses his feeling about the meeting from which he recently returned.

ROBERT ARMSTRONG

The romantic young suitor drew his girl's little brother aside. "How'd you like to make a quarter, Tommy?" "Sure," replied Tommy. "What should I do?" "Could you get me a lock of your sister's hair?" asked the young man. "It's a cinch," declared Tommy. "For a buck I'll get the whole wig."

FREEDOM

A THOUGHT FOR TODAY

Many a boy has discovered that real freedom is not gained by breaking legitimate laws. "Obedience to Law is Liberty" is the appropriate inscription over the massive entrance of a great courthouse in Cleveland, and it is wonderfully true.

There is no liberty in any other course. Just doing what you please, and following that impulse, is not true freedom. Obeying a sudden impulse to follow the primrose path usually starts or strengthens some bad habit which forges shackles on our characters and destroys by just so much our freedom.

A lawless person is never free. He is a victim of his own unaccountable impulses and soon a slave to his bad habits.

Named To Dean's List

Teresa Quicquel of Farwell has been named to the Dean's list at McMurry College for the spring semester of 1970.

The announcement was made by Dr. Porter Crow, dean of the college. He notes that a student must have at least a 3.5 grade average and be in the top 10 per cent of the class to qualify.

Teresa received a bachelor of science degree from the college this spring with a major in elementary education and a minor in history. She is the daughter of Mr. and Mrs. I. W. Quicquel of Farwell and is a graduate of Farwell High School.

Brownie Scouts. Alice has been an assistant leader of the troop since it was first organized. She finds the work exciting, interesting and rewarding. "It is such fun to teach little girls the wonders of nature and how to discover the world around them," she said as she explained some of the work done in Brownie Scouting.

Alice is the daughter of J. D. Kirkland of Hereford and Mrs. Della Kirkland of Amarillo and a sister of Jack Kirkland of Farwell. She has lived in Farwell for the past eight years, coming to Farwell from Hereford.

She was married to Bob Vinton at Hereford in 1958 and since that time has spent her time in making a home for him and their three daughters, Teresa Carol, 11 years of age, Vicki Denyce, nine years of age, and Robin, who is seven years old.

Alice explains that she finds little time to work away from home since "it takes all my time just being a wife and mother." She is a member of St. Ann Catholic Church in Bovina and has taught a Sunday School class; however, at the present time she is not teaching a class. Alice is also a member of the local ESA Sorority and this year has been appointed to serve on the telephone committee and also on the social committee.

For the past several years Alice has been assisting Mrs. Rubie Craft in the kindergarten classes by playing the piano. She also plays the piano for all of the kindergarten programs. Alice stated that playing the piano is "good therapy" for her as she can ignore all else when she is seated at the piano and concentrating on her playing.

In addition to playing the piano, other hobbies include sewing, she makes all of her own clothing and most of the clothing for her three daughters, and cooking. Questioned as to what she would rather sew, Alice said, "I like to make pant suits, especially as it is easier to make the suits than to buy a suit and have to make it over to fit, since I am so small."

She confided that husband Bob does not like for her to experiment with new recipes so she cooks the things he likes and then experiments with recipes for desserts which sound inviting. The entire family is fond of tacos, especially husband Bob. Therefore, Alice is sharing the family taco recipe with our readers along with a recipe for fudge cake borrowed from a sister-in-law, and another for sugar cookies.

Youth Meeting Slated At Calvary Baptist Church

The Cavern Baptist Youth Association is slated to meet tonight (Friday) June 26 at 8 p.m. at the Farwell Calvary Baptist Church. Young people from ten area churches will be in attendance at the meeting according to Rev. John Payne, pastor.

Speaker for the evening is Brother Mackie Adams, a medical-evangelist missionary to Brazil. Brother Adams has spent the past four years in a mission at Minas, Gerias Brazil and will return to that area following his furlough in the United States. He will be showing slides, and artifacts from Brazil.

While this is a youth meeting Rev. Payne invites the public to come and hear this missionary tell about the work in Brazil and see the slides and artifacts.

Has Lung Surgery

Walter Dean Crume underwent surgery to inflate a collapsed lung at Clovis Memorial Hospital last week. According to family members he is in satisfactory condition.

Mrs. Joe Crume of Denver, Colo., has spent the past several days visiting with her son, Dean, and with the Bobby Crume family.

Report From The Sheriff's Office

Sheriff Charlie Lovelace reports that on Thursday and Friday nights vandalism occurred at the REA sub-station near Oklahoma Lane. On both nights, power was discontinued in the area due to the vandalism which included damage to the transformer by rocks and wire.

BEETS RECEIVE NECESSARY WATER -- Although wheat harvest is in full gear in Parmer County and the surrounding areas, farmers are not neglecting the other crops, including sugar beets. Here a field of sugar beets north of Texico receives the necessary water to insure a good crop. Rainfall in the area has been light this year and without the irrigation wells farmers in the area would have little chance of reaping any kind of harvest.

What's right about America?

Today, the surest means of a book becoming a best seller is for the author to highlight and denounce bitterly the faults of this country. The same can be said of television and the movies, which prefer in these modern days to depict the seamy side of life in America.

But there's hope. As I have moved across this state, I have sensed that our people are growing weary of gloom. It's becoming easier to strike up a conversation on what's right about America.

I always suggest that there are a lot more level heads in this country than we are sometimes led to believe. There are a lot more decent, law-abiding citizens than there are criminals and cheats and sharks. There are a lot more young people in the "now" generation who want to improve America than the handful of radicals who want to burn it to ashes and start all over.

I can understand why the "majority" has broken its "silence." There's a growing impatience with agitation and controversy. But I feel we should continue to approach our nation's problems with a cool head and an open mind. I've listened to the voices of dissent. I think I know what they're asking of their government.

One thing they want is confidence. They want the assurance that their public officials have the courage to meet the issues of the 1970's with imagination and integrity, and not with some form of "old politics" that thrashes around with problems but never quite locates the workable solutions.

It was my desire to answer this urgent need that prompted me in January to seek the office of United States Senator.

Dad's steady influence is needed for...

LIFE'S OBSTACLES

We can easily see physical obstacles such as logs, boulders, and many other things that may be too difficult for our children to handle, but things that are not physical are not always so obvious. A young child needs help from his parents in spiritual matters too. The church can be an influence on children's lives, but when you, a parent, are taking part in church worship, you can be an even greater influence. Give your children, the leaders of the future, a hand now when they need it most. Take them to church regularly... and you too, will have a fuller and better life.

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Mary Guyer Marks 91st Birthday

Friends and neighbors of Mrs. Mary Guyer and Sheriff and Mrs. Charlie Lovelace prepared and served a meal to the family of Mrs. Guyer last Friday marking Mrs. Guyer's 91st birthday.

All of the children, grandchildren and great-grandchildren of Mrs. Guyer were in attendance at the noon gathering of family members. Also present were a sister and several nieces of Mrs. Guyer.

Children of Mrs. Guyer present for the social with their husbands and/or wives were Messrs. and Mmes. Reeve Guyer, Pasco, Wash., William Guyer, Sunnyside, Wash., Myron Bayless, Richland, Wash., and Sheriff and Mrs. Charlie Lovelace. Others present for the event were Mrs. Malinda Schlenker, Friona, a sister of Mrs. Guyer, Mrs. Sarah Dean, Miss Mary Reeve, Mrs. Ruth Hume and daughter, Diana, Mr. and Mrs. Mike McKeown, Andy Bayless, Mr. and Mrs. Johnny Lovelace, John Charles, and LuAlice, Jerry Lovelace, and Leon Lovelace.

Later in the day a reception was held for family members and close friends. Birthday cake, iced in white and decorated with pink roses and green leaves and inscribed with the words "Happy 91st Birthday" was served with punch, nuts, and mints.

Mrs. Guyer attributes her

long life to keeping busy, having something to live for and keeping an interest in the future. "As long as one is busy she doesn't have time to grow old," she said.

Mary Guyer the former Mary Reeve came to Parmer County from Marion County, Ind. in 1918 with her husband the late J. A. Guyer and their three young children. They settled on a farm near Friona and lived there for the next several years. However, in 1923 the Guyers moved into Friona when Guyer was appointed postmaster in that city.

While her husband was employed at the post office Mrs. Guyer kept busy with her growing family, to which another child had been added, and as switchboard operator for the Friona telephone exchange. She worked as switchboard operator for ten years in Friona and then resumed her duties as homemaker, when her husband opened a feed mill in that city.

Mrs. Guyer, who has always been an active woman, was kept busy with community affairs and as a member of the Congregational Church. She was active in PTA (as long as her children were in school), was a member of the Friona Study Club, and is a member of the Ladies Aid of the Congregational Church. She served in most of the offices of the various organizations and was never too busy to lend a helping hand to friend or neighbor.

In 1950 following the retire-

ment of her late husband, the Guyers moved to Farwell settling on First Street, near their daughter and son-in-law, Sheriff and Mrs. Charlie Lovelace.

Since moving to Farwell Mrs. Guyer has kept busy as a member of the Stitch and Chatter Club, and also with church activities, and as a homemaker assisting with homemaking duties in the Lovelace home. On Sunday following her 91st birthday Mrs. Guyer attended family night activities at the Congregational Church in Friona.

Although Mrs. Guyer spends much of her time with Sheriff and Mrs. Lovelace she still maintains her home. "It's our guest house," she quips.

No, she wouldn't like to go back to the old days but they are good in retrospect. She can see much good in many of the changes which have come about in recent years, however, she states that she can also see some bad in a few of the changes. "There is more opportunity for young people now than when I was a girl," states this charming lady, "but then on the other hand seems like many of the boys and girls just won't take advantage of the opportunities they have."

Mrs. Guyer says that she feels that her long life is due in part to keeping an interest in current events, in keeping busy, feeling needed and in always looking toward the future. She says "Now that I've reached 91 I'm looking toward 92 and who knows, if my health stays good I'd even like to live to make the century mark."

HELP CELEBRATE BIRTHDAY -- All of the children of Mrs. Mary Guyer, center front, were in attendance at birthday celebrations in her honor on Friday. A dinner marking the event of her 91st birthday was held in the home of Mr. and Mrs. Charlie Lovelace for family members at the noon hour and later in the day she was honored with a reception. Her children include Mrs. Alice Lovelace and Mrs. Virginia Bayless, seated; and William Guyer and Reeve Guyer.

An ice ring holding blue flowers floated in

the punch. Blue napkins and crystal appointments completed table decor. Hostesses alternated at the serving table.

White carnation corsages tied with blue ribbon bows were presented to the honoree, her mother, Mrs. Wesley Engram, and her mother-in-law, Mrs. Earl W. Brown of Adrian, Mrs. Engram and Mrs. Brown assisted the honoree in opening gifts.

Approximately 30 persons attended the shower and many who were unable to attend sent gifts.

On The Farm In Parmer County

By R. MACK HEALD
County Arent

In driving over the county it appears that the wheat harvest is about half through. The rain over the weekend slowed everyone down for at least one day, but if the weather cooperates throughout the week most of the harvest will be completed by June 27.

Greenbugs and corn leaf aphids are still present in grain sorghum. They are spotted throughout the county and should be watched, so as to prevent a wide scale outbreak. Most of the milo is really coming out of the cold days it experienced the first week of June.

The cotton that survived the sand should make it until another "disaster" hits. Some fields have poor looking stands, but with the continued hot weather we had last week I'm hoping this situation will improve. It seems that everything has hit the cotton this year, from seedling disease and cold shock to thrip and sand blasting. It is a wonder that the cotton looks this good!

When white blemishes or rings occur on furniture because a hot object was placed on the surface, the mark can usually be removed with camphorated oil. Pour a little of the oil onto a soft, clean cloth and wipe over the blemish with moderate pressure. Then rub vigorously with a second piece of clean, dry cloth, and finish off with a light application of furniture wax or polish.

Post Office Discontinues Saturday Window Service

Changes in window service hours at the Farwell post office are announced by Farwell Postmaster Jim Bob Smart. Saturday window service will be discontinued at the facility effective Saturday, June 27. At the present time, windows are open on Saturday morning until 12 noon.

The postmaster said the new service policy would meet the public's needs and help achieve greater efficiency and economy in all local post operations. There will be no change in delivery of mail by the rural carrier or post office boxes on Saturdays, but in order for out

of town mail to be dispatched, mail should be in the post office by no later than 9:45 a.m. on Saturday morning. Mail received after this time should be placed in the drop box in front of the post office, and this mail will be picked up in the afternoon by the star route mail carrier to be dispatched. This same dispatch of mail will be made on all Sundays and holidays.

At Home In Parmer County

By Janice Miller
County HD Agent

The "Dirty Dozen" of household equipment have been singled out by the Public Health Service.

These are classified as such because of the frequent home accidents they cause. The Public Health Service has released figures in approximate numbers for each that cause injuries during the year.

Leading the list is home machinery, such as power saws, electric drills and the like. These are responsible for 125,000 injuries a year. Heating devices such as furnace grates and space heaters are also responsible for approximately 125,000 injuries.

Power mowers, cooking stoves and clothes wringers are each responsible for 80,000 injuries.

Others in the "Dirty Dozen" list include incinerators, 50,000 injuries; glass doors, 40,000 injuries; appliance cords, 35,000; sockets and extensions, 30,000; gas burners, 10,000 and sun lamps causing another 10,000 injuries a year.

Try this sauce over peas, carrots, green beans or meat loaf.
