Two More File for Judge

Brewer Announces Office Candidacy

TO THE PEOPLE OF PARMER COUNTY
I wish to take this means of announcing that I am a candidate for election to the office of County Judge and Ex-officio County Superintendent of Parmer County, subject to the action of the Democratic Primary in July.
I feel that I am no stranger to you, since I served you as County and District Clerk for four terms from 1947 through 1954. I am very grateful for the confidence you have given me in the past, and I solicit your support and vote for the office I now seek.

If elected, I will devote my full time to the office, which is a full time job. I feel that any person serving in such an important office is obligated to serve all the people of the county fairly and honestly.
I have been a resident of Parmer County since 1928, am a veteran of World War II, and am 43 years of age. My family consists of my wife and two sons, ages 7 and 9 years. I believe that I am well acquainted with the problems of Parmer County and the duties of the office I seek.
As County Clerk, I served as clerk of the Commissioner's Court, Probate Court, and County Court, as well as of the District Court. I feel that I am well acquainted with the pro-

cedures of these courts.
I will sincerely appreciate every consideration shown my candidacy for this office, and I will make a determined effort to contact every voter in Parmer County before the date of the Primary Election.
Loyde A. Brewer

Wesley Hardesty Announces For County Judge

Wesley Hardesty of Friona has announced his intention of entering the race for the position of county judge of Parmer County and ex-officio member of the county school trustee board,

subject to the action of the Democratic primaries.
Hardesty is a barber in the Lewis Barber Shop in Friona and has lived in this area since 1944.
He is a graduate of Wayland College and has attended Texas Tech where he majored in business, government, economics and law.
He is the father of three daughters. One is still a senior in Friona High School and the other two are married.
Hardesty has been active in politics for many years and took an active hand in the political circles in Hale County where he resided prior to moving to Friona.
"I will work as a full-time county judge if elected and feel that my education and background qualify me for this position."
"I will run the office in an honest and sincere manner in the best interest of the people of Parmer County."
Wesley Hardesty

THE LITTLE BEAR'S EARS WON'T STAND UP—That's the problem being discussed by part of the cast of "Goldilocks' Adventure" which will be presented tonight at 7:30 in the Texico auditorium. Trying on their costumes in this rehearsal scene are back row, left to right, Sharon Kay Peyton, Jackie Billingsley, Jerry Wayne Martin, Ardell Autrey, and Beverly Winkles who are little brown bears, and front row, left to right, Gary Burris and Roy McDaniel, light bearers; Linda Dunn, a bluebell; and Jill Billington, Goldilocks. Each child in Mrs. Curtis Miller's third grade has a part in the operetta. Parents and friends are invited to the performance. No admission will be charged.

'Goldilocks' Goes On Stage

Parents and friends are invited to attend an operetta to be staged by the third grade at Texico School auditorium tonight (Thursday) at 7:30 (CST). No admission will be charged.
"Goldilocks' Adventure" is the name of the production which will feature about 10 solo performances. Mrs. Curtis Miller is director and Mrs. Mark Fairman will accompany at the piano.
The story is an enlargement on the "Goldilocks and the Three Bears" fairy tale and the cast includes the entire third grade class taught by Mrs. Miller.
Jill Billington is Goldilocks. Cast as her playmates are Guyla Cohee, Tula Ortiz, Susan White, Pamela Roberts, John Burford, Manuel Trujillo, and Gary Burris. The three bears are played by Sharon Peyton, Dean Campbell, and Jackie Billingsley. Baby Bear's playmates are Jerry Wayne Martin, Ardell Autrey, and Beverly Winkles.
Keith Crooks is Pan, the wood god, who brings to life the flowers in a bouquet the heroine picks in the woods. Daisies are Sharon Peyton, Sabina Gonzales, Myrle Arnold, and Tula Ortiz. Bluebells are Susan White, Linda Dunn, and Pamela Roberts; pansies are Frankie Lambert, Guyla Cohee, and Esther Payne.
Light bearers are Dickie Doshier, John Burford, Jimmie Webb, Gary Burris, Roy McDaniel, and Lynn Hughes. David Turner plays a neighbor of Goldilocks.
Costumes for the show have been made by Mrs. Miller and the parents of the students. A second performance for the grade school is planned for Friday morning.

Texico Slates City Election

Texico's town council met in regular session Saturday, March 1. At that time, the group acted on a suggestion by Attorney Earl Hartley and declared an emergency for the purpose of cleaning the main sewer line.
Payment of a bill for cleaning prior to the meeting was incurred by the same method. Tom Finley requested permission of the council to use the alley adjoining his station and the post office for a turn around for cars and trucks stopping at his station.
Permission was granted on conditions that the alley be open at all times, and that fire trucks would always have access to the alley.
Trustee J. E. Stone made a motion to issue a proclamation of city elections to be April 1, 1958, for the purpose of electing a mayor for a two-year-term (Continued on last page)

City Shows Where Tax Money Goes

A budget balance and financial report marked the regular monthly meeting of Farwell's city commission last Friday night at 5:30.
Wilfred Quickel, city secretary and tax collector for the school district, submitted reports which showed that the city is doing well; in the city tills are \$8,252.78, the city collected \$5,622 in taxes, \$1,624.63 in sewer fees, \$459.97 in franchises, and \$49 in hall rentals, during the month of February, 1958.
Total taxes collected during the 1957 roll to date is \$17,924.58 with current collections being \$16,255.11 and delinquent collections being \$1,699.47.
Total bills for the past month were \$803.38; leaving a balance of \$8,252.78.
Costliest item on the budget thus far has been \$4,240 spent on sewer bonds. Sewer extension bonds have cost \$2,451.25, but in both cases the only remaining debt to be incurred is a small interest payment later on in the year.
Completion of the Farwell fire station has thus far cost \$1,608.43, and the building is almost ready for occupancy.
Smallest item on the budget is \$16.46, spent to maintain the fire department.
In a move to more closely control expenditures, the commission voted to restrict future city purchases. No further purchases may be made in the name of the city without expressed consent of the city commission, with exception taken in the purchase of incidental items necessary to the carrying on of business functions of city offices, (such as office supplies, etc.)
All obligations of the city presented for payment were approved, and the meeting was adjourned until the first Friday in April.

Alternate Route Constructed Soon?

Engineers were busy last week surveying and staking out the proposed route of the "loop," a farm-to-market alternate route designed to lift the load of heavy traffic from Main Street during harvest seasons.
The lanes of stakes follow a line joining Highways 70-84 to the farm road south of town. When finished, the cut-off will be about 1.7 miles long. It will replace Ninth Street to a point about three blocks south of Farwell High School before curving west to the state line road.

Enrollment Meet Success

"We are very well pleased with the turnout and accomplishments," was the comment of Mrs. R. B. Tucker, school counselor, regarding the pre-school enrollment conference conducted at the Farwell school last Thursday.
Despite unfavorable weather conditions 50 percent of the parents of children who will enroll in the first grade next fall attended the meeting to learn how to help ready their children for school and what teachers expect.
The second annual conference of its kind, the clinic featured small discussion groups and general meetings with teachers, school officials, the counselor, and the school nurse.
The system is a pioneer in the field of pre-enrollment clinics in Texas and last year's meeting was commended by Mrs. Ruby Richardson, state school nurse consultant, in a newsletter published for school nurses. The Farwell program was described in detail and many of the consultant's recommendations to parents closely paralleled those made at the local conference.
The program is followed up with a visitation day for the pre-schoolers themselves. They were guests this morning (Thursday) in the first grade classrooms.

State employees have been surveying the area, but since two sets of stakes were set, observers cannot determine the exact route of the proposed loop.
The state will contract to have the roadbuilding done. Largest expense to the city will be paying for relocation of highline poles in the area. Southwestern Public Service Company has agreed to do the job for \$600.
Exact date of the construction is unknown at present, but since the state will have a number of heavy machines in this area soon (to work on a larger scale project north of Texico-Farwell), prospects are good that the road will be open this fall.
Stored grain should be checked frequently to make sure that proper temperature and moisture levels are being maintained to prevent spoilage and insect infestations, advises C. F. Garner, extension entomologist.

Doug Roberts, prospective pole vaulter, lugs in a heap of equipment from the Farwell practice field. He's carrying a "starting block" in his left hand and balances a discus and baton in the other while supporting his favorite vaulting stick under his right arm. Doug will go against top competition in the district track meet March 29 in Friona.

Texico J.P. Files For Sixth Term

Sam N. Lewis, Texico justice of the peace, announces his candidacy for office for the sixth consecutive term. Having held this office for 12 years, Lewis offers his availability and qualifications for the office:
"I have heard 1,750 criminal cases, not counting cases filed and later withdrawn or dismissed or warrants issued where the sheriff's office was unable to locate the defendant. I have collected and deposited with the Curry County Treasurer to be credited to the general school fund the sum of \$32,547 in fines.
I have had a few cases appealed to district court, never a verdict reversed, but some (Continued on last page)

GOC To Show Movies, Recruit

Sgt. Doyle, area superintendent for the Ground Observer's Corps, will be in Farwell Monday, March 17, to enlist members in a local Ground Observer's Group and to show a movie about the work and objects of GOC.
The meeting will be at 7:30 p. m. at the city hall.
Recently revamped, the group meets regularly and studies such items as aircraft identification, methods of transmitting information, and disaster procedure.
The meeting and movie are to be free, and the public is invited.

Student Councilmen To State Meeting

Planning to attend the state convention of the state association of student councils in Abilene March 20-22 are four members of the Farwell High School student council. They are Juanita Range, Gerald Christian, Janice Routon, and Joan Hubbell.

Local Men Place In Roswell Show

Entries of two local people placed in the annual Roswell Auto Show sponsored by the Walker Air Force Base Auto Club March 2.
A street hot rod built by Orie Jones placed second in its class and Gerald Hardage's semi-customized '56 Ford pickup took a third place in a special class.
Jones' car, a '31 Model-A Ford body powered by an Oldsmobile motor, is white with rolled and pleated red and white leather upholstery. The car is really a family project as Mrs. Jones did the upholstery work.
Also white, Hardage's pickup has black and white rolled and pleated upholstery and a black and white tarp.
Approximately 20 local people attended the show which featured new cars as well.

DISPLAYING HIS HARDWARE—Gerald Hardage added another trophy to his collection at the annual Roswell Auto Show March 2. His semi-customized '56 Ford pickup placed third in a special class in the show sponsored by the Walker Air Force Base Auto Club at the base. The other trophies have been won at both auto shows and drag races.

A FAMILY AFFAIR—Both Mr. and Mrs. Orie Jones had a hand in building their street hot rod which took second place in that division of the annual Roswell Auto Show sponsored by the Walker Air Force Base Auto Club at the base March 2. He built the car and she did the upholstery work.

Your Opinions, Please

(Number one of a series)
This is the first of a series of questions asked the citizens of Texas in the Hale-Aikin state-wide study of the Texas public schools. If you cannot attend the county committee meetings in person, you are invited to write your own answers and send them to the Tribune.
(1) What subjects should be added or what courses should be strengthened in Texas Public Schools? What should be dropped or given less emphasis?
(2) Does an examination of the elementary school programs in your county show that the following areas are taught adequately?
Reading, writing, geography, physical education, spelling, arithmetic, history, music, speaking, science, health, arts and crafts.
(3) What should be done in your county to insure that every child has adequate educational opportunities?

NEWS FROM LAZBUDDIE

By MRS. CLYDE MONK

Mrs. J. O. Webb returned to her home in Waco Saturday after spending the past six weeks in the homes of Mr. and Mrs. George Crain and Mr. and Mrs. James Robinson, helping care for her youngest grandchild, Jimmy Robinson. The women are her daughters.

Mr. and Mrs. Bill Lancaster and Linda visited in Olton Sunday with Mr. and Mrs. A. D. Adams.

Mr. and Mrs. Alton Morris and Mr. and Mrs. Valton Morris and their families visited in Portales Sunday with their parents, Mr. and Mrs. J. W. Morris.

Nancy Carol Huddnall from Dimmitt visited Sunday with her grandparents, Mr. and Mrs. Claude Heath. Other visitors in the Heath home Sunday were Mr. and Mrs. Charlie Meyers from Friona.

Mr. and Mrs. Pete Mimms were in Hobbs, N.M., on Monday to visit with George Duncan who is confined to the hospital suffering from a severe heart attack.

The C. A. Watson family visited a son-in-law and daughter and family, Mr. and Mrs. Preston Cargile, in Dimmitt on Sunday.

Mr. and Mrs. Rufus Carter visited in Lubbock Sunday with some old friends, Mr. and Mrs. J. J. Lawler.

Sunday visitors in the C. M. Splawn home were Mr. and Mrs. Howard Splawn and Mr. and Mrs. Red Glascock, all from Muleshoe and Mr. and Mrs. Lucy Hardage.

Mr. and Mrs. Lowell Savage and Freddie attended the funeral services in Chickasha, Okla., last Thursday for a nephew. The Savages visited there over the weekend returning Sunday afternoon.

Mr. and Mrs. J. R. Carter, Peggy and David, from Needmore visited in the Clyde Monk home Thursday.

Mr. and Mrs. Barney Floyd visited last Thursday in Floydada with Mr. and Mrs. Ham Smith. Mrs. Smith is Floyd's sister.

Mrs. R. B. Seaton and girls attended a church singing in Earth Sunday afternoon.

Mr. and Mrs. Demp Foster, Timmie and Steve, accompanied by Shan Foster, spent the weekend in Lamesa with the W. R. Fosters.

Mrs. Perry Barnes visited her sister, Mrs. Lawson Edwards in Bovina Sunday.

Wayne Hardage and L. O. Norwood from the Y. L. community were in Eagle Pass on business the first part of the week.

Mr. and Mrs. Joe Cox and children from Farwell visited Saturday night in the home of her parents, the Juel Treiders.

Mr. and Mrs. V. H. Bewley visited some former neighbors and friends, Mr. and Mrs. Ray Jackson in Hobbs, N. M., on Sunday. They stopped over in Morton and visited with Mrs. W. H. Harris who has been ill.

Mrs. Thomas Carrell's father, A. T. Kirby of Dimmitt, had surgery on his knee Tuesday morning. He had surgery on the same knee some two weeks ago.

Mr. and Mrs. John Vaughan and small daughter, Janet Lynn, moved last week to the R. L. Kimbrough place where they will make their home and help Kimbrough with his farming operations.

Mr. and Mrs. Owen Broyles visited the J. D. Tylers in Hereford Sunday.

Mrs. Mae Mahon spent the weekend in Lubbock with Mr. and Mrs. Chilli Jordan. Mrs. Jordan is her daughter.

Mrs. Billy Ray McGee and daughter, Cathy, who recently moved to Grants, N. M., spent the weekend with her parents, Mr. and Mrs. Juel Treider.

W. W. Bates from Davidson,

Okla., visited Sunday night in the home of his son-in-law and daughter, Mr. and Mrs. Hoyt Eubanks and family.

Lee Kimbrough had major surgery Saturday morning in the West Plains Hospital and is in good condition.

Mr. and Mrs. Dick Mathis from Spur visited last Monday in the home of their son-in-law and daughter, Mr. and Mrs. Boots Reed and son Doyle.

Mr. and Mrs. Gene Smith, Timmie and Jerry, attended the drag races in Roswell on Sunday.

Mr. and Mrs. Paul Templeton and family visited Sunday in Amherst with Mr. and Mrs. John Norwood.

Mr. and Mrs. Wesley Barnes and family visited Sunday in Bovina with Mr. and Mrs. Tony Ivy. They all attended a band concert in Bovina in the afternoon.

Mr. and Mrs. Dan Cargile and Mr. and Mrs. Don McDonald and children spent a long weekend in Corpus Christi visiting with Mr. and Mrs. Dwain Menefee.

Mr. and Mrs. Clyde Monk visited Wednesday at Halfway in the W. H. Dean home.

Mrs. Leonard Duncan and son, Eddie, from Hale Center came over Sunday and accompanied her grandparents, Mr. and Mrs. O. M. Jennings to Clovis where they met Mrs. Duncan's parents, Mr. and Mrs. Ed Carthel, and a brother-in-law and sister, Mr. and Mrs. Robert Joiner from Ft. Wingate. They all enjoyed several hours visit and returned in the afternoon.

The Paul Zahns visited Mr. and Mrs. R. M. Dunn in Amarillo Sunday. Mrs. Dunn is the daughter of the local couple.

Mr. and Mrs. Charles Stafford from Amarillo visited Sunday night in the home of her parents, the Glen Scotts. They left Sunday morning for a visit in Del Rio with his parents.

Public Schools Week in the Lazbuddie school was termed a success. A large number of parents visited in the school rooms every day with the parents invited to eat in the lunch room in a group on Friday. Around 200 participated in the feast and sat in on classes afterwards.

The junior 4-H group enjoyed a party in the Hub community building Saturday evening.

Those attending from here were Ara Ann Mitchell, Candy Burreson, Pat Chitwood, Linda Lesly, Charlotte Seaton, Linda Monk, Judy Billingsley, Hoppy Jennings, Gary Mack Brown, Cooper Young, Steve Young, Jimmie Dale Seaton, and Dickie Chitwood. Also Mr. and Mrs. J. B. Young, Mr. and Mrs. Dee Chitwood, Mr. and Mrs. Jimmie Seaton, Theresa and Ricky, Mr. and Mrs. Aaron Mitchell, Mr. and Mrs. T. O. Lesly and Hazel Gay, and Mrs. Clyde Monk.

LUNCH MENU, MARCH 17

Monday, weiners, sauerkraut, creamed potatoes, black eyed peas, bread, milk, strawberry cake.

Tuesday, pinto beans, okra, buttered cabbage, sliced beets, hot rolls, butter, milk, plums.

Wednesday, meat loaf, sweet potatoes, buttered rice, spinach, milk, bread, pear halves.

Thursday, chicken and dumpings, green beans, tomatoes, carrots, and celery strips, milk, bread, fruit Jello.

Friday, tuna salad, buttered corn, potatoes, dried apricots, hot rolls, butter, milk, ice cream.

Mr. and Mrs. Freddie Lesly and Thomas from Ralls visited the first part of the week in the home of his brother, Mr. and Mrs. T. O. Lesly.

Mr. and Mrs. Bob Kimbrough and Mr. and Mrs. Johnny Crowe from Muleshoe were in Santa Fe, N. M., doing some skiing the first part of the week.

Joe and Ronnie Briggs accompanied by Grandmother Jowers spent the week in Temple visiting Mrs. H. H. Briggs in the hospital there. Mrs. Briggs is improving and is expected home this week.

Mrs. Calvin Embry's mother, Mrs. Melvin Wilterding of Muleshoe, was to undergo surgery in the West Plains Hospital Tuesday morning.

Mr. and Mrs. Dewey Clark and family from Brownfield spent the weekend in the home of her parents, Mr. and Mrs. D. A. Tartar.

Mr. and Mrs. Bill Lancaster and Linda attended funeral services in Ropesville last Wednesday for Walt Fraley.

Luther Hall spent the weekend in Fort Worth visiting with the James Hall family. Mrs. Hall, who had been there caring for a new grandson, returned home with him on Monday.

Mrs. Frank Hunt spent the weekend in Lubbock visiting with her sons-in-law and daughters, Mr. and Mrs. Gene Briggs and Mrs. and Mrs. Bill Hollers.

Mr. and Mrs. John Altum and sons, Robert and Aubrey, from Abilene spent the weekend in the home of Mr. and Mrs. Ted Treider. Mrs. Treider and Brad returned with her parents for a visit.

Mr. and Mrs. J. W. Scott from Lubbock visited Sunday in the home of Mrs. N. M. McCurdy.

Marsella Mayfield and Charlotte Seaton visited Sunday with Marianna Gammon and enjoyed helping her celebrate her 11th birthday.

Mr. and Mrs. Perry Barnes and family from Clovis visited Thursday in the home of his mother, Mrs. Perry Barnes Sr.

The Sam Longs from Hereford visited Friday evening in the W. S. Menefee home.

Mrs. E. A. Parham spent the weekend in Anson with her parents, the Y. B. Mayfields.

It's a Boy For James Nortons

Mr. and Mrs. James Norton are the proud parents of their first child, a boy born Friday, March 7. The young man weighed 6 pounds and has been named James Jr.

Grandparents are Mr. and Mrs. Garvin Thorn, Lazbuddie, and Mr. and Mrs. L. L. Norton of Farwell.

Mrs. Rundell Still In Hospital

Mrs. Pete Rundell, who was injured in a one-car accident last Thursday, is still a patient in Clovis Memorial Hospital. Relatives report that she is doing well and perhaps would be able to return to her home this weekend.

The accident occurred when she was driving across the railroad one block south of the Pleasant Hill road intersection. Apparently the rough crossing caused the car to bounce and the bumper caught on the rail.

Mrs. Rundell was thrown against the steering wheel and suffered bruises and internal injuries.

Her five-year-old daughter, Gwendolyn, who was also in the car, was not seriously injured and was dismissed from the hospital after 24 hours.

Dickerson To Have Surgery Today

Leon Dickerson, husband of the former Oneita Autrey, was scheduled to undergo surgery in St. Joseph's Hospital in Albuquerque Thursday morning, for the third time since he suffered serious burns in an accident February 21.

A telephone lineman, he was at Santa Rosa removing a transmitter when he fell from the pole and on to a live wire. After receiving first aid treatment at the Santa Rosa Hospital, he was taken to Albuquerque. Surgeons will try to determine whether enough nerves are still alive to permit them to save his leg in the operation today. In the previous two, he lost the thumb and first two fingers of his right hand.

Loren Howards Parents of Son

Mrs. Loren Howard from Odessa is visiting this week with her parents, the J. D. Carpenters. A 3½ pound baby boy was born to the Howards on February 22. He has been named Danny Wayne. Due to the fact that he is considered a "light weight" it will be some time before the parents will be able to take him home. Other grandparents are Mr. and Mrs. O. T. Howard of Muleshoe.

The Alfred Steinbocks were dinner guests Sunday in the home of their son-in-law and daughter, Mr. and Mrs. David White.

birthday far away?

join the party by long distance

Remember, rates are lowest after 6 P.M. and all day Sunday—always lower when you call station-to-station.

WMU Circles Meet

The Pauline Cammack Circle of the WMU met Monday afternoon in the home of Mrs. W. S. Menefee for a social and study. Mrs. Menefee served coffee and pecan macaroons to the following:

Mesdames Wesley Barnes, W. R. Broadhurst, Bert Gordon, Raymond Houston, Earl Peterson, E. A. Redwine, Carrie Withrow, Allen Grusendorf, and John Vaughan.

The Letha Saunders Circle of the WMU met Monday afternoon in the home of Mrs. Jimmie Ivy for mission study. Their study was "The Long Bridge." Present were Mesdames Edgar Vanlandingham, Thomas Carrell, Ira Wimberley, Claude Heath, and Alton Morris.

Mrs. Rundell Still In Hospital

Mrs. Pete Rundell, who was injured in a one-car accident last Thursday, is still a patient in Clovis Memorial Hospital. Relatives report that she is doing well and perhaps would be able to return to her home this weekend.

The accident occurred when she was driving across the railroad one block south of the Pleasant Hill road intersection. Apparently the rough crossing caused the car to bounce and the bumper caught on the rail.

Mrs. Rundell was thrown against the steering wheel and suffered bruises and internal injuries.

Her five-year-old daughter, Gwendolyn, who was also in the car, was not seriously injured and was dismissed from the hospital after 24 hours.

Dickerson To Have Surgery Today

Leon Dickerson, husband of the former Oneita Autrey, was scheduled to undergo surgery in St. Joseph's Hospital in Albuquerque Thursday morning, for the third time since he suffered serious burns in an accident February 21.

A telephone lineman, he was at Santa Rosa removing a transmitter when he fell from the pole and on to a live wire. After receiving first aid treatment at the Santa Rosa Hospital, he was taken to Albuquerque. Surgeons will try to determine whether enough nerves are still alive to permit them to save his leg in the operation today. In the previous two, he lost the thumb and first two fingers of his right hand.

At a recent conference, the mayors of 82 percent of our big cities said that parking is the most urgent municipal problem. It's common for four or more cars to compete for each space on the streets.

Sports Scoreboard bob clendennen

For those many people who have expressed interest in the spring activities of Texico High School, we unfortunately have comparatively little to report. The Texico track team has not been able to work out every day this week, because of bad weather.

Coach Frederick was out of town when we tried to contact him about spring sports. That the school has outstanding talent in the way of track and baseball players, we are aware. Young Leslie Dyer has rewritten several records in the junior high circles already, and area fans will likely look for him to really come through in this, his final year of competition in that classification.

Dyer runs the dashes and the hurdles. He's big enough and strong enough to do most anything. Big things are ahead of this young man.

We wanted a fresh picture of the talented Texico boy, but bad weather and indoor work out hampered this idea, too.

With the big push of district track meets staring every coach in the face, it's only natural that harrassed expressions should invade their faces. They look up at cloudy skies and beam on their fate. They see March winds blow up and howl that their luck should be so bad. A boy comes up with a cold and another black day dawns for poor coaches. Then . . . the day for the meet comes up and they go out and win!

Farwell "went out" to Friona, to test out tactics. There, they met up with Muleshoe at the same time and found themselves in a cozy three-way meet.

Here are the Farwell results: Larry Pike took first place in the 100-yard dash with a time of 10.45 seconds. The 10.7 effort by Johnny Gulley was good for a fourth in the same event. In the 440-yard dash, Gerald Christian's 54.3 effort wrapped up first; Derrell Garner gained second with 55.4 sec., and Johnny Lovelace tied for third with a time of 56 flat.

A team speed of 46.7 seconds for a quarter mile was only good enough for third. Running on the 440 relay were Gulley, Lovelace, Garner, and Pike.

Pike was a busy lad that day. After winning the 100-yard dash and running on the 440 relay, he took a third medal for his 23.6 dash for 220 yards, and still another first place in the 180-yard low hurdles. In this last event, Morris Reed gained a fourth place with a time of 23.9.

Coming as no surprise is this next note about the meet. In the race where conditioning counts (the mile relay), Steers came in number one. The squad of Gulley, Lovelace, Garner, and Christian turned in a respectable time of 3:41.5. (Maybe the fact that Friona was right behind them all the way, taking second with 3:43.5, had something to do with the speed.)

In the weights division, Johnny Gulley came through with a heave of the shot putt. He putted the shot 40'7" to tie down first place.

Coach J. D. Atwell sees the district 3-A race as another nip-and-tuck squabble all the way. (In last year's race, only a point or two separated the first three teams.) He looks to Morton as a tough team, and said that Sudan always

comes up with something. The Farwell squad knows what Friona can do, and in spite of the handicaps of a sandwiched practice and not the best weather for practice, he won't count out his own team.

Because of the number of tracksters out, Atwell is able to enter the maximum number of entries in every event. The Steers may not win all the first places, but enough seconds and thirds will add up quickly.

The host church will serve lunch.

You'll hate yourself if you let your sub run out!

jottin's from Jeanne

Our desk calendar is one of the most important items in the house. Without it, we would never get anywhere at the right time; the cleaning would never get home from the cleaners; we might even forget that Wednesday is the day we work at The Tribune.

With the month of March well on its way, leaving only 9 2/3 months of 1958, we sit at our typewriter, wondering about a subject to write about. Our calendar lists all the important birthdays of famous men, and anniversaries of special events.

It quotes a Bible verse for each day. There is a place to list telephone numbers and notes of special events. By writing dates of area events in the little book, we can keep tab on what is happening right here.

Already scheduled for this month is the annual county spelling bee, and the youngster that represents the county at Amarillo is always admired by us.

Another event of interest to most everyone in the area is the annual weather forecast and crop predictions made by J. W. Crim, our friend in Lubbock. On the day he heads the Indian signs and predicts prospects for the next year, the phone at The Tribune begins ringing early, as interested subscribers request information on the forecast.

Politics are in full swing in March. It is an interesting month to watch your calendar.

From curiosity, we began counting the names that appeared in The Tribune last week. We didn't get past the front page, but we thought it interesting to note that there were names of 109 "local" people that appeared on that one page. The percentage would probably be much higher on the society page.

If names make news, and we believe they do, there are quite a few names going into the paper every week. There is only one drawback. We don't have as many as we'd like. So if we haven't had a story on your family news, let us know. The more names in our news, the better we like it!

TWO YOUNG WOMEN were chatting when one noticed something odd and said to the other, "You're wearing your wedding ring on the wrong finger." "Yes, I know," said the second woman. "I married the

wrong man." After an active morning of play outdoors, a little boy came in and asked his mother, "Who am I?" "Tarzen?" she guessed. "That lady down the street was right!" exclaimed the lad. "She said I was so dirty even my own mother wouldn't know me."

If you'd like to try a variation on a fruit pie, you might like a recipe we tried over the weekend. It has a rather tart flavor, and is good by itself or topped with ice cream.

CHERRY PINEAPPLE PIE 1 No. 2 can (2 1/2 cups) pitted sour red cherries

1 cup sugar 3 tablespoons cornstarch 3/4 cup cherry liquid 1 9-oz. can (1 cup) crushed pineapple 2 tablespoons honey 1 tablespoon butter or margarine

1 recipe plain pastry Drain cherries, reserving liquid. Combine sugar and cornstarch in saucepan. Blend in cherry liquid. Add crushed pineapple and cook 'til thick and clear, stirring constantly. Remove from heat, add honey, butter. Add cherries; pour into 9-inch unbaked pie shell. Cover with top crust. Crimp edge. Bake in hot oven (400) 35 to 40 minutes.

Farwell Graduates On Band Tour

Three graduates of Farwell High School are included in the personnel of the Eastern New Mexico University concert band which began its annual spring tour Sunday.

They are Carolyn Cantrell, John McCuan, and Sam Pool. The band will present 14 concerts in New Mexico and West Texas. Director of the tour is G. Walter Scott, dean of admissions, and band director is Floren Thompson. On the program are classical and standard numbers, marches, modern and popular selections, and solos and ensembles.

FFA To Enter Hogs In Lubbock Show

Some members of Farwell FFA chapter will enter hogs in the South Plains Fat Stock Show March 17, 18, and 19 in Lubbock.

Members who will make the trip will leave here Saturday morning, as the entries will have to be registered by that date.

Actual judging begins Monday and lasts through Wednesday. This stock show has the reputation of being one of the toughest in the country, and a few wins by the Farwell group could go a long way in bringing some welcome FFA publicity.

News from PLEASANT HILL

Donna Kay Osborne Party Honoree

Honoree at a party on her 14th birthday March 4 was Donna Kay Osborne.

Miss Darlene Boatwright visited overnight recently with Miss Diana Swanski.

Miss Anna Gaines spent Tuesday night with Miss Valeria Meier.

Leroy Crocker visited overnight recently with Wesley Rawlie.

Mr. and Mrs. Weldon Dane, Margie, Jackie, Mary, and John, attended a ball game in Sudan Thursday night.

Myrtice Shockley, daughter of Mr. and Mrs. Amos Shockley, played in a band concert at Bovina Sunday afternoon.

4-H Members Attend Judging Practice

Pleasant Hill 4-H Club juniors attended a judging session at the Curry County courthouse recently.

The purpose of the meeting was to learn how to judge biscuits, table settings, towels, and sewing baskets.

Mr. and Mrs. Dewey Pierce made a business trip to Dillgreen, Colo., last week.

Mr. and Mrs. E. C. Kirby attended church services here Sunday and were dinner guests of Mr. and Mrs. J. J. Armstrong.

Visiting Sunday in the home of Mr. and Mrs. Dewey Pierce were her parents, Mr. and Mrs. Forest Lee of Clovis.

Mr. and Mrs. Alvis Clark, Bettie and Janice, were Sunday dinner guests of Mr. and Mrs. Edwin Fahsholtz and children.

Mr. and Mrs. Larry Winkles visited in Claude Monday with her brother-in-law and sister, Mr. and Mrs. C. L. Bonobarger.

Weekend visitors in the home of Mr. and Mrs. Robert Servatius were Mr. and Mrs. Royce Hargrove and Gary Dale of Lubbock.

Miss Georgina Lambert attended a birthday and slumber party honoring Miss Judy Tharp on her 13th birthday recently.

Frank Brown of Pagosa Springs, Colo., is spending a week with his brothers, Mike and Clarence Brown.

Mr. and Mrs. Amos Shockley and Myrtice left Wednesday for Corpus Christi where they will visit his brother and family.

Mr. and Mrs. Joe Burford spent Sunday in Clovis visiting her parents, Mr. and Mrs. John Donahay.

Mr. and Mrs. Eric Pierce visited Sunday in the Field community with Mr. and Mrs. Paul Burns.

Sunday night supper guests in the home of Mr. and Mrs. Pearl Singletery were her brother and sister-in-law, Mr. and Mrs. Edgar Sowell.

Miss Judy Lovett attended a party honoring Beth Ellen Peyton on her birthday recently.

Mrs. Weldon Dane and children were in Clovis Monday night.

Mr. and Mrs. Buck Taylor visited in Friona Saturday with their son-in-law and daughter, Mr. and Mrs. Cecil Osborne and girls.

Mr. and Mrs. Elmer Langford and family spent Sunday visiting their son and family, Mr. and Mrs. Leon Langford at Milnesand.

RELATIVES VISIT

Sunday dinner guests in the home of Mr. and Mrs. Mike Brown were Mr. and Mrs. Jim Brown of Tucumcari, Mr. and Mrs. A. V. Hegler of Albuquerque, Mr. and Mrs. Riley Burnham and William Bell, Mr. and Mrs. Earl Scott, Mrs. Anna Scott, Mr. and Mrs. Wayne Hegler, Mr. and Mrs. Harold House and family, and Mr. and Mrs. W. W. Hegler and family, all of Clovis;

Also Mr. and Mrs. Clarence Brown and family, Frank Brown of Pagosa Springs, Colo., and Miss Virginia Hegler of Amarillo. The guests were all relatives of the Browns and pictures were made during the afternoon.

Eight Receive County 4-H Awards

Eight members of the Pleasant Hill 4-H club were among those honored at the annual Curry County Recognition Night in Clovis last Thursday night.

Those receiving awards and the area in which they earned recognition were Donna Pierce, gardening; Veda Wilson, home economics; Gale Pierce, poultry; Lynell Lovett, dress review; Darlene Boatwright, tractor maintenance; Wayne Fahsholtz, home beautification; and Elaine Pierce, canning and home beautification.

L. S. Kurtz, assistant director of New Mexico A&M College, Las Cruces, presented the awards.

Mrs. Lillie Mae Daughtrey, county extension agent, presented a four-year leader's pin to the Pleasant Hill adult leader, Mrs. Dewey Pierce.

Entertainment was by Lynell and Judy Lovett who sang two duets, accompanied at the piano by Donna Pierce.

Parents attending from the community were Mr. and Mrs. Loren Wilson, Mr. and Mrs. Troy Lovett, Mr. and Mrs. Eric Pierce, and Mr. and Mrs. Lowry Winkles.

Court Cases Finished

Criminal cases included the following: C. L. McWhorter, charged with forgery and passing bad checks, pleaded guilty and was given two years in the state penitentiary.

The Altman case, brought to indictment in February, 1957, ended last week with the defendant pleading guilty and receiving a five year suspended sentence. No jury was present.

Billy Beeson, charged with three counts of armed robbery and one count of burglary, received 12 years for his part in the burglary and 45 years on each of the three armed robbery counts. He was sentenced to a total of 147 years in the state penitentiary.

Frank Sena was given 40 years on each of two counts of armed robbery, and 10 years for his part in the Thompson burglary.

Celestino Guana was sentenced to 20 years on a single count of armed robbery.

Defino Lopez remains in the county jail awaiting trial by jury in an armed robbery indictment. He was arrested and charged with the rest, who chose to be tried by the judge alone.

His trial is set for March 24. In a case involving the theft of sheep, Manuel Zapata and Antonio De la Carda were charged and sentenced to three years each. However, probation was granted in both cases.

Both civil and criminal cases were held during the past week, and grand and petit juries found themselves busy. Law enforcement officers and county officials had their busiest official week then.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

"To grow bluegills big, raise your pond's fertility quickly, as soon as winter cold begins to wane," say biologists of the Soil Conservation Service.

This is a most significant fact that fish culturists have learned by experience in recent years. Pond fertilization was first begun in America about 1938. For a time technicians recommended delay in applying fertilizer "until the spring rains are over."

Bluegills begin to spawn in May or June. Within two or three weeks after the eggs hatch, the thousands of little bluegills are eating all the spare food. When that happens their parents cannot get food enough to grow even with full water fertility, yet they continue to spawn all summer and until the first chilly nights in the fall—usually October.

When bluegill stop spawning in the fall, the bass continue their heavy consumption of bluegill fingerlings. As the bass reduce the number of fingerlings bluegills, the adult bluegills began to grow—slowly at first, then more rapidly.

spring fertilization, the watershed is too big and in many instances the owner can divert the water around the pond. In most cases, however, the loss of fertile water from the pond is not as serious as was thought. A fishpond in any case may have to lose a little fertilized water to get his bluegills to grow to a profitable size.

"To get the first three to five applications in quickly, fertilize every week or 10 days as you begin the year's program of water culture," are the SCS instructions.

"Fertilize until a white object cannot be seen 12 to 14 inches deep." Another tip for good fishpond management—don't just fish bass. There is a lot of fun and good eating in the fat bluegills in a pond and it keeps the pond in good condition to fish for them.

THE PARMER FARMER

by W. H. Graham Jr.

How long has it been since you saw the Texas Blacklands? Perhaps you never have. But most everybody who is interested in farming has at least heard of them at some time.

Soon after white colonization of Texas began around 1820 under the leadership of Stephen Austin, farmers began growing cotton. The crop took hold of the new Texas soil, and soon the cotton growing area spread in all directions.

However, it was in the waxy Texas soil best called the Blacklands that cotton growing reached its peak. The Blacklands range from the Red River in North Texas southward through Sherman, east of Dallas, by Austin, and southward and westward toward San Antonio where it plays out.

Blacklands cotton growing really got up a full head of steam after the reconstruction period following the Civil War, and at the turn of the century, this area was one of the most famous in the world as for its crop growing abilities.

But, have you seen the Blacklands lately? They are not what they once were. Not hardly. The cities that sprang from them either turned to other things to support their economies or withered and died.

Last week we went from College Station northward and sliced through a big part of the famous Blackland area. Most of the small towns are mere shells of their once proud selves. Deterioration and decay is everywhere.

The appearance of the Blacklands today is deceiving. The heavy, waxy soil looks and feels tremendously fertile. But its potency has been taken away by years of continuous cropping to one crop, and by water erosion, to which it has been very susceptible.

Today, many of the old Blacklands' plowed fields have been returned to grasses. The wounds of more than a century of misuse are slowly healing. There has been much rain and the grass is green and tall. That makes the rolling land a pretty sight. But this too is deceiving. The cattle that one sees from time to time are standing belly-deep in this grass—and starving to death.

This country was once "Texas." Today much of it is "no man's land." This country is so worn-out that it won't even pay to fertilize it and nurse it along to increased productivity. So, for the most part, it lies idle.

Here on the High Plains, where most land has been in cultivation less than a half century, it sometimes seems hard to realize that such a thing could ever happen. The most tremendous natural fertility of our native soils is seemingly limitless.

But, it is not. Cropping systems and farming practices that conserve or improve soil fertility are as necessary here as they were in the Texas Blacklands. While our land is not subject to water erosion as is the Blacklands area that usually receives about 35 inches of rainfall a year, we do have our erosion

problems. Our land is susceptible to damage by the wind. How our land will be producing 50 years from now remains to be seen.

Surely we will be anxious to take every precaution necessary to avoid a duplication of the fate that befell the great Texas Blacklands in a century of farming.

MSTC Uses Private Power For Phones

Have you ever noticed that when your lights go out because of a power failure, that you can still use your telephone to report that failure?

The answer was amazingly simple, and gave us a great deal of assurance when we thought about the possibility of the destruction of our commercial power plant by any means whatsoever.

Telephone companies get power to transmit from batteries, not the commercial power used to light your home, run your furnace, etc. Since most commercial power, he said, fluctuates in voltage, it would cause

a voice to alternate strong, then weak, making it unpleasant for the person at the other end of the line to listen. Batteries give an even stream of power at all times. The voltage will drop gradually as they become weaker, but the listener just has to listen more closely when the power is lower.

Another reason batteries are used, said Forester, is because of the possibility of electric power interruption from lightning, burnt-out transformers, or broken lines. He said each time the power would fail for any cause, telephone communication would be impossible.

Forester said that commercial power is used to recharge the batteries. When commercial power goes off, a stand-by power unit kept in the telephone central office is started up, and generates enough electricity to keep the batteries going.

In the largest cities, there are two stand-by power units

in the telephone buildings which together, could do a pretty good job of lighting a small city. The reason there are two, is because of the possibility of one failing at a critical time. This is unlikely because they are started up every few days, and kept in top condition just in case of an emergency.

"It's known that one of the first targets of enemy bombers is the commercial power plant serving a city," Forester said. "If this should ever happen here or in any other American city, the telephone would still work, and there would be local as well as long distance communication because of the stand-by power units, and the use of batteries. We believe that in case of attack on this country, thousands of lives would be saved because dropping a bomb in any spot in this country would not knock out telephone communications."

Bank's Official Statement of Financial Condition of the Security State Bank

at Farwell, Texas, at the close of business on the 4th day of March, 1958, pursuant to call made by the Banking Commissioner of Texas in accordance with the Banking Laws of this State.

Texico Slates City Elections

(Continued from Page One)

and two members to the board of trustees for four-year periods. Judges selected for this election are Rip Shodgrass, H. P. Winkles, and Walter Freeman. Alternates are Grayson Roberts and M. H. Poteet. Clerks will be Gladys Johnson and Larline McLeod, with Mrs. M. H. Poteet to act as alternate.

Trustee Olan Schlueter seconded this motion and all members present voted in favor of issuing the proclamation. The proclamation was signed, sealed, and posted in five public places in the town on March 1, 1958.

Leader, Members Receive 4-H Awards

Mrs. Fred Danforth, leader of the Texico Girls 4-H Club, and several members of the Texico and Pleasant Hill clubs received awards at the annual Curry County Recognition Night in Clovis last Thursday.

Mrs. Danforth, one of three county leaders selected to receive an award presented by the F. W. Woolworth Co., was commended for her interest in 4-H clubwork and in boys and girls. Phil Crystal, county agent, made the presentation in the absence of C. D. Kelley, Woolworth manager.

Members receiving awards were D' Rene Danforth, recreation; Dianne Baldridge, district junior demonstration; Darlene Boatwright and Lynell Lovett in dress review; and Dwayne Winkles, tractor. Presented awards in absentia were Robert Curtis and Charles Stockton.

Refreshments of Cokes and Spudnuts were served through the courtesy of Curry County Farm and Livestock Bureau.

Farwell 4-H Girls See Demonstration

Members of Farwell junior girls 4-H club saw a demonstration on standard baking powder biscuits by Miss Jimmie Lou Waincoat, county home demonstration agent, at a recent meeting at the school.

After the demonstration and business session the girls played games. The next meeting will be the last Thursday in March.

Schedule of Services

Sunday School 9:45 a.m.
Morning Worship 11 a.m.
Junior MYF 5 p.m.
Senior MYF 6 p.m.
Evening Worship 7 p.m.

Solicitors for the building campaign will have their first report meeting Friday at 7 p.m. Dr. Earl Nowlin of Clovis, director of the campaign, will be present. All solicitors are asked to attend and to finish their visitation as soon as possible.

The Senior MYF group plans to attend a sub-district meeting in Clovis Sunday afternoon.

Businessmen Get Broadhurst Back

W. A. (Bill) Broadhurst will return to the Texico-Farwell area, this time equipped with the maps and charts to illustrate the story of High Plains underground water. He will speak March 20, 7:30 p. m. at Farwell High School cafeteria.

This public meeting should be of special interest to everyone concerned with irrigated farming, and everyone is invited. Broadhurst, the only man in America who has successfully

Texico J. P. Files For Sixth Term

other cases disposed of in other ways.

I have heard a total of 51 civil cases which went to final judgment, also have had a number filed but later settled out of court (which is best).

If you, as voters of this precinct, want me to continue this service, I am asking for your support on May 13, 1958. But vote; this is your obligation as a citizen.

I was born and reared a Republican, but saw the errors of my ways in 1920. I became a Democrat, so I believe in democracy; equal right to all and special privilege to none.

Thank you, Sam N. Lewis

Teachers To Attend District Meeting

Classes in Farwell Schools will be dismissed Friday in order that faculty members may attend the District Teachers' meeting in Amarillo.

Calvin Murray, voting delegate from Farwell school district, will also attend a dinner in Amarillo Friday night. Officials expect 100 percent attendance of local teachers.

Red Cross Drive Needs Volunteers

Mrs. John Aldridge, community chairman for the annual Red Cross drive, is appealing for volunteer workers.

The drive is scheduled for the week beginning Tuesday, March 18, and will involve a door-to-door solicitation of the business and residential areas.

Mrs. Aldridge asks that volunteers and anyone who has a contribution ready call her. She will be happy to pick up contributions.

announce for a local elected office come up with a statement something like this: "I will do the duties of my office to the best of my ability. I solicit and will appreciate your vote."

That's nice, and probably if we ever got into politics, which we won't, we'd use something on the same order. But, truthfully, such a statement says nothing.

We Texans should take some lessons from New Mexico when it comes to making politics interesting. Last week Les Means announced for the Texico JP post. He had some things to say that made good reading and will stimulate interest in the election.

Well, Sam Lewis, who holds the office now, fired back with an announcement this week that he will seek re-election. Sam is no slouch in writing a politician's statement, either. Just read it.

Best Lion To Be Honored

Members of the Texico-Farwell Lions Club will honor one of its members at the next regular meeting of the group, March 24. The meeting has been designated as Ladies' Night and in addition to naming the outstanding member for the past year, the members will honor their wives.

The outstanding Lion was voted on at a recent meeting and the recipient of the plaque will not be revealed until that night. Carl Rodolph, an international director of the worldwide Lions organization, will be on hand to present the award and he will also be the featured speaker for the evening. Rodolph is from Clovis.

Final plans for the event were formulated by the local club at its regular meeting Monday. The Lion-of-the-year award will be the first such presentation since the Texico-Farwell Club was organized and present plans are to make it

an annual event. In addition to the activities planned for the next meeting, the Lions Club also has numerous other events scheduled in the future, reports Lion president Prof. Morton. Plans for each were discussed by the group Monday.

The group formally voted to sponsor a Boy Scout organization for Farwell, Texico already has such an organization, so the new unit will function on the Texas side and give Farwell Boy Scouts for the first time in several years.

Several Lions, along with other interested individuals, met with Scout representatives in Clovis recently to map out preliminary steps. Several organizational meetings are planned in the near future for interested boys and their parents. The dates for the meetings will be worked out by a Scout committee, which has been appointed.

Also on the agenda for the Lions club in the immediate future are its annual breakfasts to raise money for the summer youth program, and a clean-up campaign for the Twin Cities.

Committees were appointed Monday night to make preparations for the pancake breakfasts, which will be scheduled in April and May.

Also, a committee was appointed to meet with the city commissions of both Texico and Farwell, along with other civic organizations, to get the clean-up campaign under way. The purpose of the campaign will be to clean up all vacant lots and alleys. Complete plans and a date are to be worked out with the other organizations.

It is the belief of the Lions Club that such a campaign would be beneficial in helping to control the mosquito situation

«The High Plains Farm and Home»

Prospects Best Ever For Wheat Crop

In the memory of many farmers of the Parmer County area, prospects for winter wheat are better at the present time than ever before in history. At this point, they are better than 1949—the last year a "good" wheat crop was produced on the western High Plains, then nearly altogether unirrigated.

It's been so long since wheat looked good that farmers admit that their memory may be playing tricks on them, but most maintain that they can't recall a time when prospects for a bumper crop seemed better.

This may be premature optimism, because the wheat is not even heading out yet and many things could happen before harvest time next summer. However, moisture has been sufficient from the time of planting until now, and enough water is stored in the soil already to almost assure some grain production even if the "finishing" rains do not come.

Dryland fields are hard to distinguish from irrigated ones, except for the rows or borders that are used to direct the water on the irrigated fields. The wheat is a rich, healthy green that so far shows no signs of molestation from insects.

It is growing off so fast, in fact, that many farmers are registering concern about what a sudden cold snap in the spring could do to too much plant. Grazing usually controls this problem with little difficulty, but this year it's different.

There is so much wheat doing so well—both dryland and irrigated—that the limited number of grazing stock can't make a dent in the tremendous growth of wheat pasture. Consequently, quite a bit of wheat is pushing along toward maturity faster than its owners would prefer.

The Parmer County wheat allotment this year is 109,905 acres. That is a slight increase from the previous year. Of this, about 7,000 is set aside for "new growers."

But, officials at the county ASC office estimate that only about 80 percent of the allotment has been sowed. That has been characteristic of county farmers in the past five or six years. They have failed to plant their full allotments.

There are 9,060 potential acres of wheat taken from production by the acreage reserve phase of the soil bank. However, this still means that Parmer County farmers could plant another 19,000 acres of wheat if they just wanted to.

Some farmers have planted their full allotment, and would plant more if they could. Others have not used their allotment,

Lush is the word for the Parmer County area wheat this year. This is a closeup of a clump pulled from a dryland field and held up for inspection by the camera. Prospects for wheat are probably the best in history.

and, in failing to reallocate this amount back to the county to be issued to other farmers (even though they could still claim the acres on their farm's history), the total planting for the county has been held down.

Last year improved weather conditions plus a better understanding on the part of farmers about irrigation and fertilizing teamed up for the best wheat crop since 1949. Wheat traditionally has not responded to irrigation as well as grain sorghums, cotton, and other crops.

But intelligent application of fertilizers and better methods of watering have resulted in increased yields for many farmers, and the wheat allotment is coming to be more "thought of" than it was three or four years ago.

Just how much wheat is raised under irrigation is open to debate. It probably is around 40,000 acres—or, about half of the total planted acreage. Many

farmers irrigate wheat in the fall and winter months when they have no other use for their wells, and so the figure is difficult to estimate.

WHO EATS WHAT?

The supply and provisioning of the United Nations Suez force has been a crucial problem from the beginning, due to the emergency nature of the operation and the international character of the Force.

A 60-day reserve of pack and dry rations is maintained in the area, with another 30-day reserve in Naples, Italy.

The nature of the ration poses a challenging problem, due to the different national tastes. A comprehensive ration scale, based on Canadian, British and Indian scales, and supplemented to meet particular dietary demands, seems to cater adequately in the supply of national dishes.

Sesame Producers Schedule Meeting

Farmers contemplating sesame acreage this year are urged to attend a special meeting at the American Legion Hall in Friona Tuesday night, March 18. Robert L. Parker, executive vice-president of the Texas Sesame Growers, Paris, will be the featured speaker. The meeting starts at 7:30.

Indications are that sesame will continue to grow in importance in the Parmer County area. Farmers are seeking more profitable cash crops, since drastic acreage restrictions have curtailed cotton production and price supports for grain sorghums are at a low ebb.

This week, Parker confirmed in a telephone conversation with Farm and Home that Parmer County led the nation in sesame production last year. More than two million of the seven million pound crop in Texas was produced here, and under adverse conditions, at that. Sesame occupied about 2,500 acres in the county last year.

Parker is traditionally conservative in making any predictions about sesame's outlook. However, optimism creeps through his cautiousness, and he states, "There is room for an increase in the Parmer County production."

For five straight years, sesame prices have met or beaten Association predictions. Last

year the price was \$10.41 per hundred—highest on record. "The outstanding performance of sesame in 1957, despite bad weather, and low prices of other crops, has resulted in more farmer interest this year than at any other time," says Parker.

"High Plains farmers averaged \$80 per acre gross for their crop, and some grossed as much as \$120 per acre," he says. "Many Plains farmers cleared more money on sesame last year than on cotton."

Improved machinery and harvest methods developed by farmers have greatly reduced labor costs, and further simplifying the crop, much of the High Plains sesame last year was harvested by custom operators.

Tonnage of sesame produced in Texas jumped to seven million pounds in 1957, more than double the 1956 production, and 17 times bigger than the first commercial crop grown in 1953. The High Plains produced six and one-half million of the total.

A documentary color film showing how the crop is produced, harvested, and marketed will be shown at the meeting. Also to be on hand will be Clyde Black, manager of the High Plains sesame headquarters in Muleshoe.

pictured a woman who needed a size 40 or larger viewing a pattern which pictured a dress in her size about like a trim 16 or so. She said, "Well, I just cut and sew as nearly as possible according to the instructions, but my dresses never look like the pictures."

Let's make a lemon meringue pie. It seems that there is no kind of dessert that pleases the man of the house as much as a soft pie topped with meringue. You might like to try this recipe.

Lemon Meringue Pie

- 1 1/2 cups sugar
 - 7 tablespoons cornstarch
 - 1 1/2 cups water
 - 3 tablespoons butter
 - 6 tablespoons fresh lemon juice
 - 2 tablespoons grated lemon peel
 - 3 egg yolks, beaten
- Mix together sugar, cornstarch, and water and boil six minutes, stirring constantly. Remove from heat, stir in egg yolks, return and cook over low heat for six minutes, stirring constantly. Then add butter, lemon juice, and grated peel.

Stir only until well blended. Pour into baked nine inch pie shell. Top with meringue.

For the meringue beat 3 egg whites and 1/4 teaspoon cream of tartar until stiff. Add six tablespoons sugar gradually, then add 1/2 teaspoon vanilla and beat until meringue is glossy and stands in firm peaks. Spread on pie and bake at 400 degrees F ten to twelve minutes.

If you like raised coffee cakes that are simple to make, the following recipe is one you will sure want to try.

Some farmers are still putting ammonia-type fertilizer on their grain sorghum stubble. Tractor-mounted rigs such as this one are very popular. Many farmers put on their own fertilizer in this manner, renting the rigs and purchasing the fertilizer from dealers.

- 2 tablespoons dark brown sugar
- 1/3 cup shredded coconut
- 1/3 cup pineapple tidbits
- 1/3 cup water
- 1/3 cup sugar
- 3/4 teaspoons salt
- 1/4 cup shortening
- 1/4 cup lukewarm water
- 1 package yeast or 1 yeast cake
- 1 egg, beaten
- 1/2 teaspoon vanilla
- 2 cups flour

Melt butter or margarine in bottom of 8"x8"x2" pan. Spread evenly with brown sugar and coconut; arrange pineapple over this. Scald milk, and stir in sugar, salt, and shortening. Cool to lukewarm. Sprinkle or crumble yeast into water and stir until dissolved. Stir in lukewarm milk mixture. Add egg, vanilla and flour.

Beat until well blended. Turn batter into prepared pan. Let rise in warm place, free from draft, until doubled in bulk, about 1 1/2 hours. Bake at 375 degrees F about 35 minutes. Turn out of pan immediately. Serve warm.

Next week we have one of our favorite holidays and regret that it falls on Monday this year. Think it would be nice if all of us could just take off St. Patrick's Day and listen to the radio. Since we will not be able to spend the day listening to Irish music, maybe we can observe the tradition by serving Irish Stew.

A new recipe that came to our desk from the Texas Beef

MELTON STUDIO

Council is being printed below. Of course, it should be made with Texas beef.

Irish Stew

Cut into 1 1/2 inch cubes 2 pounds beef round and brown in 3 tablespoons fat. Remove beef from pot and brown 1/4 cup sliced onions. Return the beef and cover it with 4 cups boiling water. Add these spices and seasonings to the water: 2 bay leaves, broken into pieces; 4 whole cloves; 1/8 teaspoon ground black pepper; 2 teaspoons salt; 1 tablespoon Worcestershire sauce; 6 drops Tabasco sauce and 1/8 teaspoon dry mustard.

Cover the pot closely, reduce the heat and simmer for 1 1/2 to 2 hours. Parboil 12 small, whole new potatoes and 8 to 10 whole small round onions; drain and add them to the stew. Quarter and slice lengthwise 4 medium carrots and add to stew. Simmer for 20 to 25 minutes.

Rather than thickening the

stew with a flour gravy, the potatoes are to be mashed after the stew is cooked. Leave the other vegetables in their original form for texture and appearance.

REALLY HOME

As the troopship, laden with battle-scarred veterans of Korea, pulled into the West Coast harbor the happy-sergeant said to Private Smith, "Well, farmer boy, are you glad you are going to hear the roosters crow and the old donkey bray again, eh?"

"It'll be mighty nice to hear the old donkey bray," replied the private. He added, "And not give orders."

Don't neglect a severe sore throat. Your doctor might find it is a "strep" throat. "Strep" infections can lead to rheumatic fever which sometimes is a forerunner of rheumatic heart disease, says the American Heart Association.

ALEX DICKIE

Dickie Plugs Corn, Sorghum Link

Alex Dickie, state president of the Texas Farmers Union talked to members and guests of the local union in Farwell High School Tuesday night. The business of the evening included a "Pat and Mike" type report from Washington, music and songs by Charlie Phillips and his Sugartimers, and Dickie's speech and appeal for membership.

The Union president presented his talk in three phases: the basis for Farmers Union, the problems it faces, and the solutions to those problems.

Dickie said that the Union stood alone in 1956, being the only representatives of farmers who were against the "Ike-Benson flexible farm price supports."

From the views and interviews made by Dickie and the local members of the Union who went to Washington, it seems that no one today is happy with the way Benson's farm bill worked. Dickie says that "the Farm Bill is the hottest subject on Capitol Hill."

"Corn-grain sorghum tie-up is the key to a workable farm program," says Dickie. He sees a good possibility of getting a workable and suitable farm bill through our law-making bodies this year.

The speaker noted that farmers are the only major industry not practicing price control through product control today.

He sees the principal problem of farmers today as not having

any bargaining power in the world's markets.

Using the steel industry as an example, Dickie pointed out that steel plants all over the country are not working at full production capacity, because they prefer to produce only the amount for which they can set their own price.

A basic law of economics is that the supply of a product determines its demand. If a market is glutted, if a surplus is piled up, then the producer cannot set his price; he must take what is offered.

In the case of farmers, this has been true when surpluses did not exist, says the president.

Dickie and the Farmers Union believe that the best chance for farmers to make a living wage is, if necessary, to produce less. In any case the farmer needs more control over the price he receives for his product.

The price of raw materials coming from the farm has a relatively small effect on the price of the finished product. Dickie told the audience that only about 25 cents worth of cotton

any bargaining power in the world's markets.

investment, all they seek is equality in a decent price for their goods, which reflects a living wage.

"Farmers don't want a parity price," he said. "They really want a parity of income."

In closing, Dickie outlined the methods, the legislation, and the way a national farm board could be set up and put into action.

He will return to this area to speak in Bovina March 27. Farmers in that area are forming a local Farmers Union.

These projects are being threatened by some powers that try to get their ways in legislation.

Farm Bureau, which according to Governor Daniel, is the most influential organization in Texas, intends to protect and strengthen these services and properties acquired after many hard legislative battles.

We attended another regular meeting of the Rhea Farm Bureau local last Friday night. We found that the vitality of this community has not wavered. They had a good attendance, even though the roads were muddy and covered with a couple of inches of hail. They voted to serve a supper at their next meeting, Friday night, April 11.

Proceeds from the meal will go into the fund they have been raising for benefit of the Farmer County Community Hospital. They are expecting a bunch of Friona and Bovina people to eat with them that night. Mark it on your calendar. Walter Schueler is local chairman.

The Farm Bureau weed and legislative committees met Monday night in the Friona office. The weed committee reorganized and mapped plans for the season's work. The legisla-

ive committee studied the "New Look Farm Bureau Farm Program" proposals.

We would like to suggest that if you do not file for tax exemption on fuels you purchase, you tell your dealer, and he will not fill out exemption invoices. Also, if you think it has been some time since you filed for refund, you should ask about it if your invoices are filed here. There is always the chance that through error you might not be notified. You can file as often as you wish, but should file at least every six months.

Consider this: A righteous man falling down before the wicked is as a troubled fountain, and a corrupt spring. Proverbs 25:26

Over the New Year holiday, traffic fatalities in this county established a postwar record, and the total of 160 was well above predictions. An outstanding exception to the general rule was provided by Connecticut, where there was no traffic death. The state has been waging a tough war against speeders. Licenses are suspended for 30 days on the first conviction, 60 days on the second, and indefinitely on the third.

NEWS FROM THE FARM BUREAU
By RAYMOND EULER

Six hundred, fifty-nine was the Parmer County Farm Bureau membership following this year's drive. This includes a few more than 60 new members. By some statistical figures, this represents about 90 percent of the farmers in this county. We think the most correct figures would indicate about 75 percent, though.

Anyway, your president and vice-president, Gilbert Kaltwasser and Jack Patterson, respectively, are well pleased with the response received by the 50 or so workers in the field. They feel that a greater membership will strengthen the future of rural roads and rural electrification and telephones.

Irrigation May Be Different in 1958

Big scale irrigation came to the western part of the High Plains in 1953 and 1954. Those were the years of the drouth of the 1950's. In the years from 1949 through 1956, it was "normal" for fields to be bone-dry at planting time. It is understandable, then, that pre-planting irrigation got to be such a routine matter. The farmer and his new well grew up with it. However, things are considerably different this year. Moisture conditions are much improved, and the supply of water in the soil meets or exceeds what is usually the case for the spring work.

County Agent Joe Jones observes, "With good subsoil moisture available, the big question confronting most all farmers is whether or not to pre-irrigate cottonland, and when watering of wheat should be done."

Jones has some suggestions to make in helping arrive at decisions on this problem. Cotton can take water from great depths. But, applying water now will cool the soil. If pre-irrigation is decided on, it should be done well in advance of planting in order to allow the soil to warm up again.

"It is a waste of water to underirrigate, just as it is to overirrigate," says the agent.

"With the weather as a variable factor, it will just be up to farmers to use their judgement as to which way to go."

With cotton's deep rooting system, Jones emphasizes that a field watered to capacity at planting time usually means that the first watering can come later than if the field is not at capacity at planting time. Usually, the first watering is called for when cotton begins to bloom.

"Wheat is looking the best in many years and appears to have plenty of moisture," says Jones. "But, this may not necessarily be the case where early planting and a warm winter gives a bush-top growth. It is a good idea to do some digging and plan your farming so you will be able to put water on wheat before it hurts in the least."

The agent adds that plant food and water should be near an ideal level this time of the year because of head formation and filling. "It is not too late for fertilizer applications, but it soon will be," he warns. "In all cases, fertilizers should be applied before head formation for maximum benefits."

Some things that apply in a

general way to irrigating for all crops include:

Over-watering dissolves plant food and leaches it below the root zone. The length of runs and water amounts applied should be designed to put the proper amount of water in the land with a minimum of leaching.

Water-holding capacity of different textured soils must be taken into account. Sandy or course soils will hold from one-half to one inch of available water per foot. Sandy or light loams will hold from one to one and one-half.

Silt and clay loams (medium soil) will hold from one and one-half to two, and heavy clays from two to two and one-half. Most of the soil types in the Parmer County area range from sandy loams to heavy clays. The medium silt and clay loam is the biggest part of these.

Soil moisture can be estimated by the "feel test." In it, a farmer takes a small amount of soil and squeezes it in his hand. By its feel and by its look, he knows how much water the soil contains.

Ideal conditions can be noted when the soil will ball in the hand, but no free water appears on the soil. A wet outline is left in the palm of the hand.

Other conditions including dry, low, fair, excellent, and too wet can be determined, but their measurement is determined in different degrees by soil types.

A chart outlining these can be obtained from the county agent's office.

It's always dangerous to operate a machine that knows more than the operator.

Nature is grand so long as men and women leave her alone.

LET'S MAKE OUR OWN. Jimmie Lou Wainscott, center, demonstrates lamp shade making to home demonstration club women. Others in the picture are Lavon Renner, Mary Roberts, Betty Rector, Jane Stacy, and Nat Martensen.

Club Members Learn Lamp Shade Making

In an all day workshop at the Friona American Legion Hall recently, representatives from each home demonstration club in the county made a lamp shade under the direction of Miss Jimmie Lou Wainscott, county home demonstration agent.

Each representative chose her own design and will give a demonstration to her club at a meeting in the near future. Clubs represented were Bovina, Oklahoma Lane, Midway, Hub, Hi-Point, Northside, Friona, Black, Lakeview, and Rhea.

Appliance Danger Signals

Save yourself personal injuries, fires and damage by learning to recognize signals household appliances give when they're not performing as they should. Extension home management specialists point out some warning signals:

1. Dimming of house lights or slowing of heating appliances when motors start may mean that the circuits are overloaded. This could cause a fire.
2. When a fuse blows the circuit may be overloaded or there may be a short in the appliance. Chances are too many appliances are on the circuit at one time. Be sure the fuse is the right one for size of wiring. If the fuse will let more power through than the wiring can safely carry, it is not a safety device. Overheated wires, damaged motors and fires can result if the wrong fuse is used.
3. "On-off" blinking periods usually mean there's a loose connection somewhere in the appliance. May not be serious, but it should be repaired before a more serious problem develops.
4. "Tingle" or slight shock when handling an appliance or switch is a sign that trouble's brewing. Inspect for loose wires or damaged insulation.
5. Crumbling of rubber insulation on lamp or appliance cords can eventually expose electric wires. This can cause a short-circuit, or make metal lamp bases a serious shock hazard. Replace worn cords with new ones.

Keep these danger signals in mind and act when they occur.

Seniors Lead Games At Junior 4-H Party

Recreation for the junior 4-H members who attended a county-wide party at the Hub Community Center Saturday night was directed by senior 4-H members.

Approximately 30 juniors and 30 adults were present for the party which also featured "42" for the adults. Refreshments of sandwiches, cookies, cold drinks and coffee were served.

Directing games were Cooper Young, Richard Chitwood, Judy Billingsley, Pat Chitwood, and Jimmy Terrell.

Good advice: Losers should never bet.

Most golfers talk a better game than they play.

Assessor-Collector

Parmer County

Attention, Parmer

County Farmers

If you are considering the planting of sesame this year, you will want to

attend a very important meeting

Tuesday, March 18

At the American Legion Hall

In Friona

This meeting, which will begin at 7:30, will be to discuss the 1958 sesame seed program. A documentary film on production, harvesting and marketing will be shown. Robert L. Parker of the Texas Sesame Growers Association at Paris will be present. Refreshments will be served.

High Plains farmers have found that sesame offers a real opportunity for increasing net profits on the farm. Come to this meeting and learn of the possibilities of this crop on your farm.

Parmer County Implement Company
FRIONA

Pig losses, due to crushing and chilling, can be greatly reduced by the use of pig brooders, suggests E. M. Regenbrecht, extension swine husbandman. The most critical time in a pig's life is the first few hours after birth when chilling and crushing take about 25 percent on all losses. County agents can supply detailed information on pig brooders and how they should be used, says the specialist.
