Annual Sugarbeet Banquet Set Saturday In Hereford

The annual Sugarbeet Banquet of the Texas-New Mexico Sugarbeet Growers Association, Inc. will take place Saturday, Jan. 22, at the Bull Barn in Hereford, commencing at 7 p.m. CST.

The main speaker for the banquet is Bill Brown of Lubbock, and music will be furnished by a group from Vega. Awards will be made to the growers who have grown the largest amount of sugar per acre. These growers will be recognized and will receive awards in connection with such recognition.

Reports will be made concerning the sugarbeet industry and visitors from the sugarbeet areas throughout the United States will be present and will be recognized. The officials of Holly Sugar Corporation will also be present and will participate in the program.

The meal will be catered and served by G.D. and Jeanne Caion.

James W. Witherspoon is executive secretary of the association, and Bill Cleavinger of Wildorado is president. The other members of the

Board of Directors are: Dudley Bailey of Clovis, John Gilbreath of Hart, Dave Thompson, vice-president, of Friona, Virgil Marsh, R.D. Friemel and Tony Brorman of Deaf Smith County, and Kenneth Frye and Dean Wiseman of Castro County.

The annual Membership Meeting of the Association was to be today, Friday, at the Hereford Community Center beginning at 10 a.m. and concluding at 4 p.m., with lunch catered and served.

Congressman Kent Hance and Congressman Charles Stenholm were to speak to the membership during the meeting, as well as officials of Holly Sugar Corporation of Colorado Springs, Colo. Bill Cleavinger was to bring to the attention of the growers the present status of the sugarbeet industry.

Expiring terms on the Board of Directors were to be filled by vote of the membership, and other business was to be conducted and voted upon.

SPD Offers Farmers Help On Decisions

LUBBOCK - Information to help crop and livestock producers in Parmer County reduce costs and plan for profit in 1983 will be presented during the annual meeting of the South Plains Development Program, January 25, in Lubbock.

"It's more vital than ever that our farmers have the latest information on economic conditions affecting agriculture," Seth Ralston, County Extension Agent, said. "This day-long program will bring them up to date on the economic outlook, national farm policies and programs, and export prospects, as well as give them specific information to help make production decisions for cotton grains, oilseeds and livestock."

The program will begin at 9:15 a.m. at the KoKo Palace, Avenue Q at 50th Street in Lubbock. A registration fee of \$7.50

will include lunch. Ralston said leading agricultural economists and commodity specialists with the Texas Agricultural Extension Service will present the program.

Dr. Carl G. Anderson, economist and cotton marketing specialist from College Station, will analyze the current economic situation and its implications for South Plains producers. National policies and farm program decisions will be examined by R. Ronald D. Knutson, economist and specialist in marketing and policy, from College Station.

Suggestions to help local producers plan for profits this season will be offered by Dr. Gary Condra, Extension economist and farm management specialist at Lubbock. Texas' exports will be presented by Dr. Mechel (cq) S. Paggi, economist and marketing specialist, College Station.

In two concurrent sessions during the afternoon, commodity specialists will focus on specific questions facing county producers, the county agent said.

Anderson and Johnny R. Feagan, economist and organization specialist from College Station, will discuss cotton and oilseed crops. Grain crops and livestock production will be

discussed by Dr. Edward G. Smith, economist and grain marketing specialist, and Dr. Ernest E. Davis, economist and livestock marketing specialist, both from College Station.

"This program will provide timely information needed not only by farmers, but by agribusiness firms and anyone involved in agriculture," the county agent said. He urged anyone interested in attending to advise his office this week so meal arrangements can be made.

The SPD program is a coordinated regional effort of individuals, associations, businesses and agencies to promote economic development in agriculture and improved family in 21 counties. It is sponsored by the Extension Service, working through county Extension program building committees and special SPC task which identify educational needs and coordinate educational activities.

Tammy Powell, Tobin Tate Named Homecoming Royalty

Texico's basketball homecoming became a night of celebration for the Wolverines and fans as they enjoyed a spaghetti dinner, watched the coronation of homecoming king and queen Tobin Tate and Tammy Powell, and cheered as the basketball teams took three out of three games

against Tatum Friday night, Jan. 14. The festivities began with the junior varsity girls game which was followed by the coronation of the king and queen. The crowning took place on the gym stage which was decorated with green balloons and green and white crepe paper

streamers. In the center of the decorations were the theme words of the homecoming, "Spirit of '83." The queen and king candidates came on stage for the crowning and were introduced to the crowd. Candidates for queen were Ruth Scott, Tammy Powell, Valda Cavallero,

Terry Fenn, and Chary Jesko. Candidates for king were Tobin Tate, Earl Bibbs, Kevin West, Danny Reid, and Scott Elliott.

Following the introductions of the candidates, the crown bearers Corey Horner and Brandy Steward, both first graders, presented the crowns. Crowning the king and queen were Tracy Dobbs, 1982 homecoming queen; and Tony Tubbs, who graduated from Texico High last year.

Also honored during the evening was the class of 1979, the class with the most members present. Wesley Osborn of Squaw Valley, Calif., was honored as the oldest

alumni and the alumni traveling the farthest to attend. Osborn graduated from Texico High School in 1929 and is 72 years old. He and his wife Edith lived in Texico for several years following his graduation. Prior to their marriage, Edith taught home economics at Texico between the years of 1939-41. Osborn owned the mercantile store in Farwell for several years before selling out to Carl Davis and moving to Squaw Valley, Calif. in 1944.

The ball games were followed by a reception in the high school library hosted by the coaches' wives and the cheerleaders. Many of the students attended the dance given by

the junior class parents later that evening.

The coronation and reception were the climax of a week of contests leading up to the eventful night. Winners in the contests are as follows:

DRESS UP DAY: junior high - Leslie Steward and Brette Southard; high school - Cynthia Ortiz and Les Frodin.

CARTOON DAY: junior high - Robin Pierce, Codie Burch, and Renee Curry; high school - ElDonna McCormack.

Elementary Poster Contest: Mrs. Dunsworth's first grade, first; Mrs. Pearce's and Mrs. Lynn's second grades, second; Dale Schwartz's fifth grade, third.

Junior High Poster Contest: sixth grade, first; eighth grade, second; seventh grade, third.

High School Poster Contest: ninth grade, first; and tenth grade, second.

Mini Float Parade: elementary, Mrs. Singleterry's class, "Cream of Coyote Soup," first; junior high, sixth grade, "Shoot the Coyotes," first; eighth grade, "Cripple the Coyotes," second; seventh grade, "Trap the Coyotes," third;

Also, high school, seniors, "Dead Coyotes Aren't Much Fun," first; Bleacher Bums, "Cube the Coyotes," second; Sophomores, "Get the Spirit of '83," third.

Queen And King

Tammy Powell and Tobin Tate were crowned Texico Basketball Homecoming Queen and King at the homecoming ball games Friday night. Tammy is the daughter of Rodney Powell, and Tobin's parents are Phillip and Carolyn Tate.

Tammy is a senior and Tobin is a junior. Texico basketball teams won all three of the homecoming games to wind up a successful week of homecoming activities. [Texico School Photo]

Oldest Alumni

Honored as the oldest alumna present for the 1983 Texico Basketball Homecoming last Friday night was Wesley Osborn, center, of Squaw Valley, Calif. Osborn was also honored as the alumni traveling the farthest to attend the festivities. With him is his

wife, and at left is Jesse Orozco, president of the Texico High School Student Council who presented the plaques to the honorees. Also recognized was the class of 1979 for having the most members present. [Texico School Photo]

Winning Floats

Winning entries in the mini-float parade for Texico Basketball Homecoming last week were these three versions of what the Texico basketball

teams should do to the Tatum Coyotes in the homecoming games. At left is the elementary winner, "Cream of Coyote Soup;" in the center is the high

school winner, "Dead Coyotes Aren't Much Fun;" and the junior high winner, "Shoot The Coyotes." [Texico School Photo]

Save Energy In Kitchen

Money getting tight again? Try cutting back on energy in the kitchen.

"Saving dollars and energy consumption takes some concentrated effort, but it can be done," says JoAnn Less, Extension housing specialist at New Mexico State University. "You'll be proud of your accomplishment."

She offers some kitchen clues for getting the job done:

- On the stove use pans with tight-fitting lids and flat bottoms that fit the burners. A small pan on a large unit wastes heat.
- Keep surface burner pans shiny. They reflect more heat.
- Cook foods at the lowest possible heat and with the least amount of water.
- If you have time, thaw fresh meats in the refrigerator before cooking.
- Switch on the self-cleaning element in your oven only when it is dirty. This is best to do when the oven is already hot or at night when fuel consumption is lower. (These self-

cleaning ovens use 15 percent less energy than regular ovens during cooking.)

-Don't be an "oven peeper."

-Save energy by turning off the oven and the electric or gas burners a few minutes before cooking is completed. by 25 degrees Fahrenheit or 14 degrees Centigrade.

-When baking in aluminum foil, turn the dull side out.

-Locate your refrigerator in the coolest part of the kitchen. Leave enough clearance to allow proper air circulation on all sides.

-Organize the refrigerator so the door will remain open for the shortest time.

-Keep the freezer full.

Parmer Ice Rink

Persons passing by this pond near the Oklahoma Lane community a few weeks back possibly did a double take as they thought they saw someone ice skating out there. A blink of the eyes and another look proves that their first impression was indeed correct. Ice skating in this area except in a rink made especially for that purpose is somewhat of an oddity, but for the first time that many residents could

remember, the pond froze so solid it was safe enough for the skaters. Wayne and Carol Smith of Oklahoma Lane were responsible for teaching Todd and Sharmy Christian the skating tricks. Mrs. Smith lived in Colorado for several years where ice skating is common, and her son Keith seemed almost an "old pro" on the ice himself while the other area kids were just learning. Shown out on the ice in the

picture are Sharmy and Todd. Keith, also on skates, is watching at center right, and the other folks looking on are Troy Christian, Wayne and Carol Smith, and Mr. and Mrs. Frank Sciacca of Tulia. Mrs. Smith says that the next time the area has a freeze strong enough to freeze the pond again, to come on out and "we'll switch the skates around so that everyone can get a chance to skate."

Fat Stock Show Entries Increase

A 20 percent increase in the junior division has been reported for the 87th annual Southwestern Exposition and Fat Stock Show, scheduled for its 12-day run January 26 through February 6 at the Will Rogers Complex in Fort Worth.

Entries in the horse division this year are about 2,000 head, with some entries still being processed. Overall, the Stock Show entry is estimated at 16,000 head, about average with the past several years.

Country Comic of the year, will be special entertainer at each of the 22 rodeo performances. He tells humorous stories that "happened or almost happened" that appeal to the entire family.

W.R. Watt Jr., show president-manager, noted the largest increase is in the junior barrow show where entries gained 623 head to total 1,673. He said junior lamb entries jumped 213 to 1,562 head.

Entries are also being taken for the annual Stock Show All-Western Parade, scheduled to begin at 2 p.m. Friday, Jan. 28, in downtown. The parade, unique in that no motorized vehicles are allowed in the line-up, is open to riding clubs, bands, marching units and horse-drawn vehicles. There is no entry fee for the parade. Applications are available at the Stock Show office.

Rodeo tickets are on sale daily, including Sunday, at the box office in the lobby of Will Rogers Coliseum. Tickets for all nights and weekends are \$8 each, and \$6 for weekdays matinees. Mail orders should include \$1 extra per order for return postage and handling. Mail to Stock Show office, P.O. Box 150, Fort Worth, TX 76101.

He said overall in the cattle, sheep and swine divisions entries total 9,793 head. Exhibitors of poultry, pigeons and rabbits have until Jan. 15 to enter, but Watt estimated that this group will have around 4,200 head.

did you know?

Keeping the customer's fuel adjustment cost down is my primary responsibility. I, along with Karen Roberts, Grafton Clarke, Barry Smith, and others, purchase fuels—coal, natural gas, oil—at the lowest possible prices. We negotiate with fuels suppliers to modify on-going contracts so the total cost to SPS customers for fuel is again minimized. And we plan ways to shift the production load among Southwestern's 27 generating units so that the fuel cost to our customers is made as low as possible.

Morris Rantz, fuel administration manager, Amarillo.

Computerized equipment helps SPS battle the costs of fuel. Every 10 seconds, we run a computer scan of all of our power generating units. The scan checks each unit's efficiency of operation, and calculates each unit's per-kilowatt-hour cost at that given moment. Then—for the sake of economy—we may immediately increase the generation at one unit, and decrease generation at one or more of the others. Our objective: At any instant in time to be producing electricity at the lowest possible fuel cost.

John H. Evans, manager electrical operations, Amarillo.

A new SPS ally is helping you manage electricity costs. Coal-fired Tolk Station, an efficient 561,000-kilowatt power plant near Muleshoe, Texas, began commercial production in August. We predict that the fuel cost adjustment our customers pay will be significantly lower over the life of Tolk Station than it would be if Tolk had never been built. In fact, Tolk Station for the next 35 years should save SPS customers about \$50 million per year.

Roy Thomas, vice-president operations, Amarillo.

For answers to your questions, call or write your SPS manager.
