Prayers For Peace And Tolerance Are Voiced By Americans Today

German Jews Remembered At Services

Freedom From Oppression Theme Of U. S. Worship

Many an American family, gathered around its Thanksgiving dinner table, offered a quiet prayer today... for peace... for tolerance... for freedom of all peoples from oppression.

In public religious services throughout the nation there were special prayers and appeals for an end to attack on Jews and Christians in foreign lands.

Rabbi Talks

The residents of Plymouth, Mass.—birthplace of Thanksgiving Day 317 years ago—chose 26-year-old Rabbi Samuel F. Friedman to address a Union church service as "our answer to anti-Semitism."

Contrasting conditions in Nazi and fascist lands and in the United States, Rabbi Friedman said:

"We are blessed in living in a country where law and order abide for the welfare of its inhabitants; where its people enjoy liberty, and the right to pursue happiness."

On Thanksgiving Eve President Roosevelt issued a statement from the "Little White House" at Warm Springs, Ga., expressing hope reports of a prospective increase in refugee migration to Palestine would prove authentic.

The President and Mrs. Roosevelt arranged to attend services today in the chapel at the Warm Springs Infantile Paralysis Foundation. They will entertain at a turkey dinner tonight for the crippled patients and their families. Mr. Roosevelt will give a five-minute radio talk at 7 p. m. (Central Standard Time).

Vice President Garner, at home in Uvalde, Tex., was one high official who didn't have a holiday turkey. He chose wild duck, which he himself shot on a hunting trip Tuesday.

There were 40,000 turkeys, however, for the young men in CCC camps throughout the United States. It took 1,500 bushels of cranberries to accompany the main dish, with vegetables and pumpkin pie in proportion.

Charitable organizations were trying to make certain, too, that the unfortunate in every community had a substantial meal. Missions were filled with men, women and children enjoying regular Thanksgiving dinners.

Snow gave a holiday touch to the day in several northern states, although rain in some sections threatened to spoil football games for thousands of fans. Fog and rain also hampered auto and air traffic for homeward-bound crowds in the east.

Committee Named For Club's Annual Christmas Party

Reports and plans were principal items on the Lions club program Wednesday night when members went into a business session.

B. J. McDaniel, club president, made several committee appointments, including one for handling details for the annual Christmas party the club holds for the Mexican children.

He also reaffirmed other committee appointments and called for regular reports from those units. The president called upon the attendance committee to bolster the percentage attending.

Ludwig Grau, secretary-treasurer, gave a statement of the club's finances and membership, and other matters of club interest were discussed on the floor.

Guests for the day were Harry Hoekendorf and Byron Moore.

LIFE SENTENCES

GALVESTON, Nov. 24 (AP)—Two men faced life sentences and another 50 years imprisonment today for the jailbreak slaying of Ernest E. Goode, a guard.

Roland C. Tyler last night received a life sentence. Previously Edward Francis Sutton had been given a like sentence and Pete Calandra was assessed 50 years.

Americans Can Be Thankful

By The AP Feature Service

IN CASE you're wondering what to be thankful for on Thanksgiving, you might consider that:

In some countries today religion is frowned upon and churches are destroyed; men die or go to jail for expressing opinions; other men speak and write and a nation must listen and read; regulations hinder travel, and citizens have little voice in government. But in America—

We worship as we please

We speak our minds freely...

It takes only a ticket to travel...

We choose our reading matter...

We listen (if it's good)...

We run our government.

FDR ATTENDS SERVICES MARKED BY PRAYERS FOR THE WORLD'S OPPRESSED MINORITIES

Small Crowd At Service

Thanksgiving Sermon Delivered By J. J. Strickland

Eighty-nine, counting the Choral club, thought well enough of Thanksgiving to disregard uncomfortable temperatures Wednesday evening and participate in a union praise service at the First Baptist church.

The crowd which heard a stirring anthem from the choir under direction of Mrs. G. C. Schurman and a message from Rev. J. J. Strickland numbered less than 70 persons.

The Choral club, clad in maroon vestments, sang "Thanks Be To God," and led in other musical portions of the program.

WARM SPRINGS, Ga., Nov. 24 (AP)—President Roosevelt projected himself into the center of international Jewish relief efforts again today as he arranged to attend Thanksgiving religious services marked by nationwide prayers for oppressed minorities.

In an unexpected 51-word formal statement issued last night long after the normal closing time for the White House offices, he expressed the hope that a report he had received that refugee migration to Palestine would be "materially increased" would prove authentic.

Long before his first formal statement of Nov. 15 asserting American public opinion had been "deeply shocked" by anti-Jewish persecutions in Germany, Mr. Roosevelt had sought to halt Jewish plans to limit the flow of Jews to their Palestine homeland during the Arab uprising.

The president planned to attend services today in the little white chapel built here last year for patients of the infantile paralysis foundation. In a Thanksgiving Day proclamation issued last week he had asked the American people to offer prayers on this day for the less fortunate in other lands.

The president planned to make a radio talk for five minutes, beginning at 7 p. m. (CST) on the work of the foundation. Then, after dinner, the patients were to put on a few acts for their hosts.

Mercury Hits A Low Of 12

City Gets Coldest Weather Of Past Two Seasons

The thermometer did a record dip for the past two seasons in registering 12 degree temperature here Thursday.

The U. S. Weather Bureau at the airport reported the low reading at 7 a. m. The temperature at that time was 10 degrees colder than at Cheyenne, Wyoming, the bureau reported.

At 8 a. m. the thermometer rose one degree to 13 and rising temperatures to the north foreshadowed warmer weather.

After experiencing sub-freezing weather most of Wednesday, Big Spring felt the coldest wave of two years when the wind shifted

French Guards Are Called To Oust Strikers

Disorders Flare As Workmen Refuse To Leave Factories

PARIS, Nov. 24 (AP)—Reserves of steel-helmeted mobile guards were rushed from central and southwestern France today to the north, where strikers protesting against the Daladier government's labor program resisted efforts to oust them from occupied factories.

The government called upon the Nord department prefect to enforce an order for the ejection of 26,000 striking metal workers who remained inside their plants.

The first squads of mobile guardsmen who marched into factories this morning found strikers in the Denain and Valenciennes district reluctant to leave.

Reserves were called as disorders broke out in several industrial districts.

The number of strikers rose above 40,000 as the movement spread to the coal mines of northern France.

About 14,000 coal miners occupied their pits this morning in sympathy with 26,000 striking metal workers to protest the government labor policy of increasing work beyond the 40-hour week and of evacuating occupied factories by force.

Another 4,000 railroad men, who transport coal from the mines to canal barges, also joined the movement.

The strikes involved the Anzin mine, greatest coal producer in France, and several other northern pits.

Of 40 metal plants seized by strikers yesterday, only 15 had been evacuated today but police were proceeding methodically in their campaign, under Daladier's orders to end the occupation.

The press, meanwhile, greeted the French-German war with considerable suspicion and little enthusiasm.

Communists and socialists were especially angered by the "peace declaration" with the Nazi state. Most commentators declared that Chancellor Hitler acted quickly, dropping demands for a gag on the French press on foreign matters, in an effort to forestall complete Franco-British military cooperation.

War veterans' organizations, claiming 7,000,000 members, are arrayed against the cabinet, and a large group of labor unions have called national demonstrations for Saturday.

Members of some veterans' and labor groups said they were holding back a full expression of their fury against the cabinet out of courtesy for Premier Chamberlain and the British foreign secretary, Viscount Halifax, who go home tomorrow.

BLACKSHIRT STUDENT MOVEMENT UNDER INVESTIGATION

OKLAHOMA CITY, Nov. 24 (AP)—High school officials pressed an investigation of a blackshirt student movement and its plans for a so-called "bloodless revolution" today but found the members defiant, depending on "the right of assembly and free speech to protect us."

The group, C 7 C (Curiosity Club), advocates among other things, its leaders said, more liberal government and obliteration of class lines. They said there were units in Los Angeles, New York, St. Louis, Chicago and Youngstown, Ohio.

Two of the professed leaders, Milton Walker, 19, combinator, and Sanford Ishamuel, 18, assistant combinator, said the C 7 C violated no laws "but we hope for a bloodless revolution to establish a new economic system."

"We want a new social and economic order which will provide equality for all. This probably would be based on Russian Soviet principle, but not exactly. Voting would be by prerequisites of education. We would eliminate class lines."

WOMAN PREFERS ALIMONY TO TURKEY

CHICAGO, Nov. 24 (AP)—Earl Bushnell relinquished his option on a 15-pound turkey for Thanksgiving.

In court yesterday he said he would if his estranged wife would forget his divorce plans, return to him and promise to cook the bird.

Mrs. Bushnell shook her head, and took temporary alimony instead.

Forest Fires Sweep California Ranges, Taking Heavy Toll

Damage Placed At \$2,000,000 As Thousands Wage Battle To Check Blaze; Many Forced To Flee Homes, One Death

LOS ANGELES, Nov. 24 (AP)—Two disastrous mountain fires in the Santa Monica and San Bernardino ranges were checked by a desperate army of fighters today as property damage exceeded \$2,000,000 and 12,000 acres of watershed lay blackened.

One death was indirectly attributed to the Santa Monica blaze, which scoured Topanga, Santa Ynez, Los Flores and Santa Ynez canyons after it kindled in tender-dry brush yesterday.

Mrs. Louise Silvers, wife of the music director of 20th Century-Fox film studio, was found dead at her home. Nerve-worn by the menacing nearness of flames during the night, she apparently took an overdose of sleeping powder, the coroner reported. An inquest was ordered.

Burning some 8,000 acres, the greatest loss in the history of Los Angeles county, the conflagration destroyed 350 homes and cabins as it swept from mountain crests to the Pacific strand across watersheds untouched by fire for a quarter-century.

Families fled on foot. Roads were jammed. Capricious, the flames spared Actor Richard Dix's \$25,000 estate and the 150-acre home community of Fernwood while encircling them in a fierce advance.

JEWISH SUICIDES INCREASE IN FACE OF GERMAN CAMPAIGN

BERLIN, Nov. 24 (AP)—Suicides among Jews were reported increasing today before the mounting intensity of the Nazi anti-semitic drive.

There were no figures but those who told of the suicides said they included husbands who chose death as the best way to guard against further hardships for non-Jewish wives.

Drives from social life in Germany and ordered to get out of industry, Jews yesterday suffered a further blow in an assessment of one-fifth of their fortunes above \$2,000.

The money must be paid by Aug. 15, 1939. For the some 60,000 Jews in concentration camps there was almost insurmountable difficulty in trying to arrange for the payments.

Few Jews have sufficient cash on hand to pay the fine, and their source of income is being curtailed rapidly by the taking over of Jewish stores by non-Jewish owners.

Nazis said today that the process of organizing business at present was confined to the retail field, that it was proceeding "exceptionally fast" and that wholesale and export and shipping firms would be next.

The propaganda campaign continued, with the Deutsche Bergwerks-Zeitung, important industrial publication of Dusseldorf, editorializing that the anti-semitic drive was justified because of the wealth of Jews.

YULE SEALS, AMMUNITION FOR TUBERCULOSIS WAR, IN MAIL

Some 1,500 letters bearing an appeal to purchase enclosed Christmas seals went out in the mails this morning, and Postmaster Nat Shick was the first to receive and purchase those sent to him.

With the seals went an appeal from the Howard county Tuberculosis association for those receiving them to buy seals if at all possible, and thus join in the fight against the white plague tuberculosis.

Backing its urgent request, the association had a splendid record of achievement, plus the support of

public officials from the president to the mayor.

President Roosevelt said that support of the seal campaign "becomes a patriotic duty... that the attack on tuberculosis is a year around campaign made possible through proceeds of Christmas seals... In the true spirit of Christmas, let us as a nation give generous support to this campaign to protect health of every man, woman and child within our borders."

Larger Plane Output Only One Phase of Program

WASHINGTON, Nov. 24 (AP)—Three days of secret conferences between war department and aircraft officials have given sharper outline to the administration's defense proposals.

The newest objective, informed persons disclosed, is the production of 1,000 planes a month by the American aircraft industry.

This, however, is only one part of a comprehensive program being developed by President

Battle Nears Hong Kong

Japs Open Drive To Wipe Out Defenders Of South China

HONGKONG, Nov. 24 (AP)—Warfare in South China surged within 20 miles of this British crown colony today as Japanese opened a pincer drive to wipe out Chinese southeast of Canton.

Throng of Chinese refugees and a scattering of wounded Chinese soldiers crossed into British territory this morning.

The Japanese landed 2,000 soldiers yesterday on the east bank of the Pearl river. They advanced inland toward the Canton-Kowloon railway along which Chinese irregulars and Kwangtung provincial militiamen had remained since the October 26 capitulation of Canton.

Meanwhile, other Japanese troops pushed southward along the railway from Shekling, about 40 miles east of Canton and a similar distance north of Hongkong.

The number of Chinese troops still in the 26-mile strip of delta land between the railway and the river mouth was believed to be several thousand.

This fighting was the closest to Hongkong of any land operation in the Chinese-Japanese conflict.

A dispatch from Chungking, provisional capital of the Chinese since the October 26 fall of Nanking, said the Japanese drive southward along the Canton-Hankow railway had been deadlocked, permitting the Chinese to start counter-offensives against Yochow and Yingcheng.

Barcelona Bombed, Many Are Killed

BARCELONA, Nov. 24 (AP)—Nine swift insurgent bombers dumped new death into Barcelona's streets this morning in the eighth raid in 22 hours.

The number of dead was not established at once. The toll for the previous seven raids yesterday and during the night was 48 dead and 148 wounded.

Coming from the north in two squadrons at 9:45 a. m., the bombers weaved widely across the city against heavy anti-aircraft fire. After bombing several sections, they wheeled away toward the Mediterranean.

Government pursuit ships had patrolled the stormy, moonless Barcelona skies all night long and twice fought with invading bombers.

One bomber was reported shot down.

RACING RESUMED

AGUA CALIENTE, Mex., Nov. 24 (AP)—Racing is scheduled to be resumed at the Agua Caliente track today under auspices of the Lower California Turf club after a layoff of several months.

THE SPORTS PARADE

by HANK HART

Big Spring school officials could have gotten either of two opponents for games here during the past ten days but decided to let the record book alone due to the many attractive games being played in this vicinity. So for the first time in many seasons, the local school will not be represented on a gridiron this late in the season.

San Saba is the team that sports the redoubtable Dean Bagley, a mighty mite who trifled no less than 256 points to lead the nation's scorers last year, who gained nationwide fame by that very thing, and who has bounded back almost as strong this fall. San Saba officials wanted a game for last weekend.

Then Ballinger, a good but not a great Class B power declared they were open to any and all propositions for a Turkey day clash, but none seems to have drifted their way. Ballinger was beaten only by Brady this fall.

Sonny Chapman, a regular wing, and R-yford Gilliland, reserve back, of the Garner six-man football team, both have four years of high school eligibility remaining, says their mentor, Floyd Burnett, who coached the Hillies to the F.S.A.A. championship recently. Billies may play the eleven-man game next fall if Lloyd Dev's plans for a Class C grid league materialize. The experience they received this year will be good for those youngsters.

Abilene's football leaders, who decided to join District 5 instead

lected with a degree of accuracy but it seems impossible to choose the 11 best men playing on American gridirons today. It's usually the fellow that draws the most publicity in his sector, is the "darling" of the sports writing clan, that is so honored.

For instance, here is NEA's stab at the best of the gridirers: Wysocki, Villanova, and Young, Oklahoma, ends; Wolff, South Carolina, and Belnor, Notre Dame, tackles; Bock, Iowa State, and Heickinen, Michigan, guards; Hill, Duke, center; O'Brien, TCU, Cafego, Tennessee, MacLeod, Dartmouth, and Goldberg, Pitt, backs.

Fans of the Southwest tear down their composition books because they think I. B. Hale is a better tackle than either of those honored; that Ki Aldrich is head and shoulders above Hill as a center; and that there are three or four better backs in the Southwest conference than O'Brien. That's the way it goes. Benor played with an undefended team and someone of the 11th had to be nominated. Wysocki was prominent this fall because of his presence a year ago when Villanova had a great year. Hill probably rates because Duke hasn't been scored on this season. Goldberg is a holdover who hasn't enjoyed as good a year this time as last. MacLeod was a marked man before the season began and he came through. All the others are on teams that really stand out in their

WTCC To Sponsor Series Of Farm Topic Broadcasts; Local Man To Talk On Dec. 7 Program

Station KBST, Big Spring, will participate in a West Texas hook-up to present the West Texas Farm and Ranch Hour, a series of daily radio programs to be broadcast by the West Texas chamber of commerce from November 30 through December 9.

Other stations in the hookup are KGKI, San Angelo; KBRC, Abilene; KFYO, Lubbock, and KGNC, Amarillo. All the programs will be heard at 8 p. m. except the one on Sunday, December 4, which will be broadcast at 9 p. m.

Designed especially to interest farmers with discussions of current farm problems such as soil conservation, the domestic allotment plan which the regional organization endorses, acreage control, discriminatory freight rates,

PILGRIMS of 1938

The still chill of a November morning, 317 years ago, gave no indication of man's feelings. Silent men, with flintlocks shouldered, and pale women, their cowls drawn close, slipped silently through early winter's snow. And there were smiles on their faces—smiles of thankfulness for a haven that responded to their diligent toil so munificently.

Perhaps we of the streamlined twentieth century come by our comforts too easily; perhaps we fail, at times, to evaluate our ease of self-provision. But the "pilgrims" of 1938 are likened to those of 1621—all consummately appreciative of past blessings—all surpassingly confident of their hopes in the future.

Mrs. White and children and Mrs. Parks are to leave Friday for a visit in Dallas with Mrs. Parks' daughter, Mrs. Claude Houser played a piano number.

Blankenship Is Main Speaker At PTA Meeting

Representatives To Council Are Elected By Unit

W. C. Blankenship, superintendent of schools, spoke on American schools and self-reliance at a meeting of the College Heights P.T.A. this week. He stressed the importance of using leisure time carefully.

Mrs. Raymond Winn, program chairman, led the entire group in the P.T.A. song and Leitha Amerson's sixth grade pupils gave an interesting convention of book characters.

In the business session presided over by the president, Mrs. Wayne Pearce, it was announced that the school is to sell lunches every Wednesday to the children for a six-week period. The unit will not meet in December and the next meeting will be in January.

Mrs. D. B. Smith, Mrs. A. T. Smith and Mrs. Joy Stripling were elected council representatives.

Miss Amerson's room won the prize for having the most mothers present.

Present were Mrs. M. H. Bennett, Neal Cummings, Mrs. O. L. Williams, Mrs. Hack Wright, Mrs. O. R. Phillips, Mrs. Dillon B. Smith, Mrs. Otis N. Key, Mrs. Phillips, Mrs. M. C. Stulting, Mrs. J. D. Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Oil Activities Slacken With Cold Weather

Industry Pictures Self On Fairly Firm Basis

TULSA, Okla., Nov. 24 (AP) — Winter's slack-time having brought a lessening of activity in all lines of the oil industry, leaders in the business concerned themselves chiefly today with holding things just as they are.

If they reasoned, the present status can be maintained for a couple of months, a good foundation for 1939 business will have been laid.

Reports at hand were of comparatively reassuring nature, reflecting steadiness in stocks and prices of both crude oil and refined products.

Executives trooping back from the American Petroleum Institute convention at Chicago agreed readily they saw prospects of a fairly comfortable business future.

Crude oil troubles replaced gasoline difficulties as a topic of conversation hereabouts, probably because many oil men who previously had not seen it, returned from Chicago through the new central Ill.

noils basin play and gave it a thoroughgoing once over.

Some guesses were that current daily production in that area would run closer 140,000 barrels daily than the generally accepted estimate of 100,000.

It wouldn't require an oil expert, it was pointed out, to figure how that much production, close to manufacturing centers, would play hob with the demand for Kansas, Oklahoma or even North Texas crude.

There were continued expressions of the need for further holding down of crude production to offset the influence of newly-developed sources of supply.

Nippy weather was having its effect on the market for burning oils. Marketers reported those products were in better demand at firming prices.

In general, petroleum products in the mid-continent seemed to be moving into a better position.

That combination of nitrogen and hydrogen known as ammonia at one time was obtained by destructive distillation of the horns and hoofs of animals. The resulting solution of the gas was known therefore as spirit of hartshorn.

THE MANIFEST COURSE OF world events is eventually and always controlled by moderate men—stolid, humdrum, every-day men whose single claim on the world is their own moderation. For every tyrant or clown, reformer or criminal — there are millions of those whose single-minded purpose makes possible all that is good in progress, morality and ultimate happiness.

Want Plane Output Of 1,000 A Month

WASHINGTON, Nov. 24 (AP)—Army officials, consulting with the aviation industry today, were reported to have set an airplane production goal of 1,000 a month to match Germany.

The army officers themselves were silent on their plans to speed the output of military aircraft but informed persons said the national government hoped to realize the 1,000-plane goal in two years or less.

Working at top speed to fill domestic and foreign military orders, American aircraft factories have been able to turn out only 320 planes a month thus far this year.

Davis Slated To Start For Biblemen

Coch Promises Action In Effort To Protect Jinx

By FELIX R. MCKNIGHT

AUSTIN, Nov. 24 (AP)—Jinxes and traditions had their chins out today, and the Texas Aggies were in town to take a punch at a 16-year-old combination that has kept them from defeating, or even scoring a touchdown, on a University of Texas team in Memorial stadium since 1922.

Only a rabid few of the some 40,000 gathered for the forty-fifth renewal of the ancient rivalry between the state institutions believed that a Texas team defeated in its eight starts this year, had the ghost of a chance to hold the Aggies.

Cold, clear weather made it a football day. The largest throng since 1928 streamed into the stands—season records notwithstanding.

The potentially great Aggie team with its big batch of reserves, a team that didn't actually hit the stride expected of it until its game against Rice two weeks ago, was favored by two touchdowns.

Texas, with its smallest squad—less than three full teams—lacked the speed to become a dangerous offensive unit but retained unusually high spirits despite a victory-less season.

Upsets Many

Upsets have marked the forty-fifth year rivalry of the schools, upsets that could almost approach a possible Texas victory today. Comparative scores, season records and dole have meant little in the past, but today the Aggies held an unusual balance in manpower expected to beat down Texas.

The tipoff that Coach D. X. Bible will resort to magic in an effort to pull out one game of Texas worst season came in the announcement that Gilly Davis, tiny 145-pounder with the hinged hips, would be in the starting backfield. A dangerous ball carrier when on the loose, Davis will be there for a possible breakaway on sweeps or laterals.

On the other side of the line, however, will be one of the acknowledged masters of the broken field art, Dandy Dick Todd. The Crowell cyclone, who has given Southwest conference coaches more anxious moments in the past three years than they care to pack into a lifetime of coaching, will be playing his final game. He is rather sudden death on kickoff and punt returns.

Switch To Power

The Aggies have switched to power in their recent games, giving emphasis to tackle and guard jobs engineered by John Kimbrough and Jim Thomson, a pair of sophomore fullbacks. Bob Hall, former Lamar junior college star, also aids in the powerhouse running game.

Conference statistics gave the Cadets a clear-cut advantage in practically every important department—but the jinx was still there.

Hurricanes Haven't Won A Game Since 1933; Hurt III

TULSA, Okla., Nov. 24 (AP)—The Arkansas university Razorback and the Tulsa university Hurricane squared off on a cold gridiron today with each determined to sew up the ragged end of an overlong losing streak at the expense of the Thanksgiving Day rival.

Coach Fred Thomsen's Hogs were favored to win the 15th meeting of the series which hasn't seen the Hurricane gain anything better than a tie since 1933. With Coach Vic Hurt III, assistant coach-

es Chat Benefiel and George Vik had the Hurricane in tow.

The probable starting lineups (kickoff time 2 p. m.):
Arkansas—Britt, le; Stout, lt; Thorpe, lg; Woodell (captain) c; Simington, rg; Mays, rt; Hickey, re; Lyon, qb; Martin, lb; Scalet, rbb; Cole, fb.

Tulsa—R. Gregory, le; Thomas (co-captain), lt; Blankenship, lg; Adams, c; F. Gregory (co-captain) rg; Turner, rt; McKibben, re; Thompson, qb; Lewellen, lb; Farmer, rbb; Smith, fb.

Bell Pessimistic Over Game; Bears Are Ready

By The Associated Press

Forty thousand fans jammed into Memorial stadium at Austin today for the traditional Texas A. & M.-University of Texas football battle but the real fireworks were being brewed on the hilltop at Southern Methodist university and at Texas Christian university.

Coach Matty Bell at S. M. U. worked his squad out during the morning and let them off the rest of the day after declaring he didn't see how anybody was going to stop the Horned Frogs in the crucial Southwest conference struggle at Dallas Saturday.

Coach Dutch Meyer did the same thing with the Horned Frogs but he didn't have words of lament as did Bell.

Up at Tulsa the Arkansas Razorbacks attempted to partially salvage a dismal season with a victory over Tulsa university.

The Baylor Bears, with only one player on the ailing list, and the Rice Owls, still recovering against the injury and illness jinx, went through their paces in preparation for their conference game at Houston Saturday.

Odds Swing To Armstrong In Welter Fight

NEW YORK, Nov. 24 (AP)—All along Cauldwell Alley there is a revival of the "Armstrong is the greatest fighter ever" cult and the odds swing back in favor of the little brown man from St. Louis who fights Ceferino Garcia, the doughty Filipino, Friday night.

When the warlords knocked off heavy training yesterday Henry was the favorite. If you wish to bet on the welterweight champion around this town you must put up \$8 to win \$5. If you think Henry can knock out the challenger, one will bring you two.

All this is surprising. Henry looked far from formidable training a month ago and the price was 5 to 5 and take your choice when November 1, a day before the fight, he had a horrible accident and had to ask for a postponement. Now Henry is back buffeting his sparring mates and appears to be in top shape.

Some \$90,000 will trickle into Mike Jacobs coffers from about 20,000 fans, capacity house at the Garden tomorrow night. Uncle Mike is around mumbing delightedly and if the house hits \$100,000 he will not care if they are both knocked out.

THANKSGIVING

It's been just 317 years since that first Pilgrim Thanksgiving, 317 years of increasing wealth and happiness in this land. We have even more to be thankful for than those intrepid Pilgrims, so let's all be thankful... for our homes, our friends, our great nation that gives peace and liberty to all. Let's be thankful for past favors... and face the future with hope.

A REASON FOR THANKSGIVING

The Pilgrim Fathers, who kept the Thanksgiving Day of 1621, were among the first refugees to find haven in North America. In their festival they gave thanks for dangers past and blessings to come.

Standing on the edge of a vast wilderness, with unknown perils on every hand, having a meagre faith in God's providence, they prepared to face their second winter in the New World.

These were refugees of the seventeenth century, and all Americans are proud of their devotion to their religion, proud of their steadfast courage in the face of tremendous obstacles.

It is on such a world that many will look this Thanksgiving Day. None of us can be untouched by present world conditions, yet this blessing we share with the Pilgrims: the one God who was their standby is present to help everyone who seeks His help.

To know that wherever duty leads one is the God-protected place for him, and that no other place in the world can afford a more certain sense of safety—is that not cause for rejoicing?

Today And Tomorrow

By Walter Lippmann (Mr. Lippmann's column is published as an informational and news feature. His views are personal and are not to be construed as necessarily reflecting the editorial opinion of The Herald—Editor's Note).

THE DEFENSE OF THE HEMISPHERE

The idea that the United States must be defended by defending the Western Hemisphere is not in the least a new notion invented by President Roosevelt in the past few weeks.

The idea is much older than Munich. It is much older than the pact between Japan and Germany. It has been the cardinal principle of American foreign policy for more than a hundred years.

LIPPMAN saying nothing that has not been said by all his predecessors. The policy of defending the United States by defending the two American continents was first announced by President Monroe in December, 1823.

In that declaration he did more than to announce that the United States would not permit more European colonies in this hemisphere. He went further and said that we should regard it as a manifestation of an unfriendly disposition toward the United States if European powers did anything for the purpose of oppressing the American republics.

The most serious attempt to challenge this policy occurred in Mexico, and it occurred, let us note, when the United States was peculiarly weak—that is to say, during the Civil War.

This episode, the most serious challenge ever offered to the Monroe Doctrine, is well worth studying today. For it contains all the essential elements of the American problem of defense.

Though the answer is obvious, it may be asked by some what difference it makes to the American people whether there is a government under European control in one or more of the Latin-American republics.

The vital difference is this: as long as the Latin-American countries are independent, no European or Asiatic power can invade or even attack the United States except by crossing at least 3,000 miles of open ocean.

Elizabeth's concerned eyes viewed me from head to foot. She swept a stack of paper napkins from a high stool and set them on the floor.

I had even Annie's full attention. Horror, disbelief, then a kind of despair registered on Elizabeth's face.

Congressional Aid May Be Asked For An Air 'Reserve'

NEW YORK, Nov. 24 (AP)—Congress may be asked to lend financial aid to a plan for creating a large army of civilian fliers to bolster any air rearmament program advanced by President Roosevelt. Organized efforts to build up such a flier reserve, like those in Germany and Italy and to a lesser extent in Great Britain, to insure an adequate number of pilots in a national emergency, have been given impetus by the president's hint November 15 that the air forces might be expanded.

The army air corps has surveyed the possibility of increasing its pilot-power by instituting aeronautical courses at land grant colleges.

The civil aeronautics authority, which supplanted the old bureau of air commerce last August, apparently is developing its own plan to encourage private flying.

"We have no mandate to militarize civil aviation," Edward J. Edwards, director of the authority, said in a recent address. "Turning the aim of the airplane from economic to military use is a matter for military experts. But we can at least give them the material to be expert with."

He advocated such an increase in private flying that the nation would have 250,000 civilian airplanes in daily use. Currently it has about 10,000.

THE GOVERNOR GETS SOME REQUESTS

AUSTIN, Nov. 24 (AP)—Gov. James V. Allred received numerous requests asking him to do a wide variety of unusual things but two in today's mail were so good he could not resist divulging them at his press conference.

One was from a South Texan asking the governor to investigate his wife's falling from a tree on a ranch and breaking her arm and the second from an East Texan asking him to assay some ore to find out whether it contained gold or silver.

Newspapermen suggested he turn the ore over to the University of Texas for an assay. They were unable to advise him on the other matter.

LEGAL NOTICE

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS
Notice is hereby given, in whom concerned, that the City of Big Spring, Texas, the postoffice address of which is Big Spring, Texas, did on the 2nd day of November, 1938, file its application in the office of the board of water engineers for the state of Texas, in which it applies for a permit to appropriate the unappropriated waters of the state of Texas, from the Moss Creek, a tributary of the Colorado river, in Howard County, Texas, not to exceed six hundred (600) acre-feet of water per annum, said water to be impounded in a reservoir created by the construction of a dam, said dam to be located at a point which bears north 22 degrees, 20 minutes east (22 degrees, 20 minutes declination) 5,450 feet from the S. W. corner of Sec. 15, 23E-2S, 12G-2E, Hy. Co. Survey, on the North bank of the Moss Creek, in Howard County, Texas, situate in an easterly direction from the East City Limit of Big Spring, Texas, about 3 1/2 miles.

You are hereby further notified that the said City of Big Spring, Texas, proposes to construct a dam, to be of wetted and rolled earth, forty seven (47) feet in height, fourteen hundred (1400) feet in length, having a bottom width of two hundred fifty-three (253) feet, and a top width of twenty (20) feet, thus creating a reservoir having an average width of seven hundred (700) acre-feet of water per annum or eight thousand (8,000) feet, an average depth of stored water 17.25 feet, and having a storage capacity of two hundred and forty-seven (247) acre-feet, and to impound in said reservoir, and divert therefrom by means of pumping means not to exceed six hundred (600) acre-feet of water per annum for a municipal water supply purpose.

A hearing on the application of the said City of Big Spring, Texas, will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, December 19, 1938, beginning at ten o'clock A. M., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of said Board at Austin, Texas, this 2nd day of November, A. D. 1938.

The PILGRIMS Gave THANKS for much less

Our forefathers fought for their freedom, and had enough for only their meagre needs, yet they gave thanks for their simple life. We today have much, freedom in the symbol of our daily life, and the ideal of our nation: surely we can sincerely give thanks on Thanksgiving Day. We extend greetings to our friends on this significant day.
