Attendance Good At Sunday Singing

Officers of the Curry-Parmer County singing group which met Sunday afternoon in Texico Baptist Church are well-pleased with the response. Attendance had doubled over the last session and a large number of visitors was noted. Latter part of the program has been devoted to requests and special numbers and officers stress that any book may be used. Sunday, September 28, will be the date of the next session and everyone interested in "good old-time gospel singing" is invited to attend.

Substitute Teachers Needed at Farwell

Farwell Schools need substitute teachers. Jack Williams, superintendent, made that announcement this week.

Qualifications for instructors to "pinch hit" for regular teachers are not hard and fast, Williams says. "We like for substitutes to have a college degree, but it's not necessary. But we do want them to have some college training," he points out.

Individuals interested in serving in this capacity should contact Mrs. Delores Felts, school secretary, phone IVanhoe 6-3682.

Substitute teacher pay is \$8 a day. As of mid-week, no arrangements had been made with anyone to do substitute teaching.

Thanks

I wish to thank the voters who supported me for County Judge in the recent election. Parmer County has been good to me. When the present term expires, I shall have been County Judge, lacking only four months of being 14 years. I have been economical in the administration of the office and have tried to be fair with everybody and with all parts of the county in all things. And again to everybody I say "thanks." Now it is my desire to serve people as a lawyer and as a good citizen.

Sincerely yours,
A. D. Smith

Callens Move Here

Mr. and Mrs. L. C. Callen and family have moved here from Erick, Okla., to make their home. They have two sons, Cornell, 10, and Terry, five months. Callen is employed at Farwell Electric.

General theme for the year is "Education is life in the making as we live with ourselves, our neighbors, and our vocations." Monthly programs are planned to cover various phases of education and its responsibilities. Guest speakers have been invited for several meetings and panel discussions will take the spotlight at others.

Grade classes, school music programs, and other school organizations will also contribute to programs.

Meeting date is the second Tuesday of each month during September, October, and November, and the second Thursday of each month thereafter.

Equalization Board Has No Callers

City of Farwell's 1958 tax equalization board had an easy job.

At its meeting Monday night, not one citizen was present to discuss his taxes with the board. The no-business session began at 7:30 in city hall auditorium. At 9, members of the board decided they would have no callers and closed the meeting.

"Serving on the board were Clyde Magness, chairman; Joe Blair and Woodrow Lovelace. Wilfred Quikkel, city clerk, also was present. Quikkel says this was the first time since he has been clerk that no one showed up at an equalization board meeting.

A NEW KIND OF BOES

He's the hardest guy in the world to please. If you don't do a good job, he'll get someone else. He'll always let you know what he wants. He'll decide what kind—and how much—work you do.

He'll decide how much you get paid—but he's willing to pay you what you're worth to him.

You do a good job and he'll back you to the limit.

He doesn't give a hoot what you did yesterday; it's what you do today that counts.

You can't rest on your laurels with this guy.

He's always looking for new talents and new things—but he's loyal to old standbys, too.

He never has any trouble getting people to work for him, tough as he is—and you've got to admit that he makes jobs for an awful lot of people.

Your future is pretty much in his hands, and as the real boss of everybody from the office boy to president, he certainly expects a lot from us, and he gets it. And the beauty of the whole deal is that every one of us fits into this fellow's shoes as well as he does.

The fellow we have in mind is the Customer.

Brake Shoe News

APPRECIATION DAY has brought to mind how much we really depend upon our customers and the above seemed to hit the nail pretty squarely on the head. The idea of having one day for the merchants to show their appreciation is just fine. But we think that every day should be appreciation day! Merchants should make an effort to show each customer that his patronage is truly appreciated. We are sure that this attitude would certainly make for better trade relations in our town.

MUCH INDUSTRY and business enterprise talk in town. Looks as if this next year might be the one that tells the tale. We're keeping our fingers crossed that some of the plans that are in the mill come through and produce results. We believe that the desire for growth is present. We need a little more organization and then a lot of work. Am marking today on our calendar. Will do a little checking up in one year and see how far we have come.

ONE OUT of every 17 Americans is disabled by accident every year—about 9 million are injured and nearly 100,000 are killed! When your time comes, you, too, will enjoy the benefits of an Accident and Sickness policy that pays **INCOME BENEFITS** to keep money coming in for the essentials of living while your income is shut off. Also **EXPENSE BENEFITS**—to pay the extra expenses that are required when an accident or illness strikes. This is an essential phase of your financial protection that needs to be considered today. Football Starts

After the first few practice sessions this week, Coach J. D. Atwell said about his 1958 Farwell Steers, "They have good spirit and lots of hustle."

Shelby Jobs, assistant coach, also had an optimistic comment. "I've been well pleased with workouts up to now," he said. Atwell works with backs while Jobs instructs linemen.

Equipment was issued to 45 candidates for the team early Monday morning. Of that number, 16 were returning lettermen. Workouts are twice daily--at 7:30 a.m. and 6 p. m. Workouts will drop to one a day when school starts

next week. Steers scrimmaged Muleshoe there Wednesday night. Saturday afternoon, they will have a scrimmage session with Dimmitt there. It will begin at 4. Time of that session had been scheduled for night, but it was moved up because the lights on Dimmitt's field are being moved, Atwell says.

Possibly the biggest news to come out of the Steer camp so far is that Johnny Lovelace, regular quarterback for the past two seasons, has been moved to fullback. Moving up to replace Lovelace in the field general's post is sophomore Benjy Dial. Dial was Lovelace's understudy last season and earned a letter.

Atwell points out that nothing is definite yet and that a lot of changes could be made before the first game--with Bovina here September 12. "We're not even out of the 'being sore' stage yet," he says.

All lettermen reported for practice except tackle Larry Jesko. He is expected to be out when school begins if not before.

Seniors on the squad and their weights are Phillip Berry, 160; Gerald Christian, 135; Jimmy Martin, 128; Dickie Williams, 140; Owen Huffaker, 145; Morris Reed, 160; Lovelace, 210; Cyrus Dale, 155; and Mike McManigal, 171. Juniors: Doug Roberts, 147; Loyd Cain, 148; Larry McDorman, 149; Barthel Ford, 138; James Ussery, 138; Joe Hughes, 153; James Burleson, 147; and Don Hendrickson, 100.

Sophomores include Robert Carthel, 183; Tommy Williams, 126; Carroll Huggins, 145; Dial, 145; and Bill Owen, 136.

Freshmen are Mike Getz, 146; Johnny Sprowls, 131; Don Dale, 129; David Watkins, 127; Jimmy Walker, 148; David Lindop, 126; Michael Nelson, 113; Dickie Gerles, 130; Scotty Turner, 163; Jerry Lovelace, 166; William Dannheim, 127; Jimmy Clements, 123; and Jackie Williams, 148.

Lettermen are Berry, Christian, Dickie Williams, Reed, Lovelace, Dale, McManigal, Jesko, McDorman, Ford, Burleson, Hughes, Carthel, Tommy Williams, Huggins and Dial.

In addition to the Saturday scrimmage with Dimmitt, the Steers are scheduled to play the Exes Thursday night, September 4. This game is not definite, however, and may be called off.

Bushland, Tex., Man Reports--

"Made \$15 an acre grazing wheat--cut a 40-bu. crop"

Bill D. Wood, who farms 640 acres, says: "My records show the dollar profit in applying Phillips 66 Agricultural Ammonia pre-plant to wheat land. On my irrigated wheat, I paid for my seed and fertilizer and made \$15 net an acre grazing it, when I used Phillips 66 Ammonia. The next year, I cut a 40-bushel wheat crop."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer--a full 82%.

On the average, a person is killed in a traffic accident every 13 minutes and someone is injured every 23 seconds.

Texas ranks second only to California in number of traffic fatalities.

Daniel's goal is to have 254 fewer deaths on highways this year than last. Maybe the goal can be reached. We hope so.

If there were a contest on the Plains to determine which school had the prettiest football placards for advertising purposes, Farwell, we dare say, would win hands down. The posters may already be out by the time you're reading this. And if you've seen one, we think you'll agree. Designed by Athletic Director Calvin Murray and Head Coach J. D. Atwell, the posters are larger than usual, have an abundance of blue ink on them, and will attract a lot of attention to dates of Steer games.

Incidentally, they are sponsored by Kemp Lumber Co.

If you think fall of the year isn't here, feel the nip in the night air, hear sharp sounds of popping leather, coming from the football field, and see how much earlier the sun goes down.

Patrons Asked To Sort Mail

Attention of Farwell post office patrons is called to labels on letter slots in use since remodeling the office interior.

Postmaster John Zahn points out that they are labeled local, outgoing, air mail, and bundled mail. Local includes both city and rural route delivery and outgoing means mail for Texico as well as more distant points. The third slot is for air mail only.

Bundled mail is that too large to go through other slots or several pieces tied together and going to the same destination.

Several persons, says the postmaster, have been dropping all their mail into the large slot without any sorting at all. This means more work for the postal employees and slows down service for all patrons.

"If everyone would take the extra minute or two required to sort his mail and drop it in the proper slot, it would facilitate working of both incoming and outgoing mail,"

he says.

Offices or individuals having several pieces going to the same town can further expedite mail handling by sorting and tying them, adds Zahn.

Carpenters this week are completing the trim and touching up the paint job to complete the remodeling which included addition of 72 new boxes.

Christian Boy Injured

Gene Charles Christian, 21-month-old son of Mr. and Mrs. Charlie Christian, was seriously injured Wednesday evening when he fell from a pickup driven by his father.

The accident occurred on the Farm-to-Market road north of Texico.

After emergency treatment in Farwell, the child was taken to Parmer County Community Hospital in Friona. Though no bones were broken, he suffered severe lacerations. His condition was considered satisfactory Wednesday night.

Friona has had (or will have) 600 acres of potatoes, 500 acres of carrots, 80 acres of onions and 50 acres of miscellaneous.

In the Farwell-Lariat country there were about 110 acres of onions, and 300 acres of potatoes.

These figures are rounded off, but are fairly accurate. The "miscellaneous" notations would probably catch the farmer here and there who grows a few acres of vegetables without any fanfare, and who will take them out of the area to be processed and sold.

So, a figure of 3,000 acres will likely catch all vegetable acreage in the Parmer County area deals this year. That is a big jump from about 1,100 that were planted last year, and, like we said, is about 1,000 acres more than was expected, even though we knew an increase was coming.

What do these figures portend?

Maybe a whole lot; maybe not much. It's pretty difficult to say.

Back in the early 1950's, when irrigated cotton was getting its big start on this part

of the Plains, the trend to that crop was pretty well unmistakable. Parmer County went from practically nothing in 1950 to over 100,000 acres in 1953--the most sensational cropping change that has ever come to this part of the country.

The reasons were not hard to pin down. Cotton was both a basic commodity with assured price supports, and a crop that was, at that time, in short supply and good demand.

In spite of the fact that grain sorghum still enjoyed a relatively good price, farmers found they could make more money with irrigated cotton than grain, and so the change was rapid.

Today, cotton is under severe acreage restrictions. If all controls were removed, it would be a good guess that 200,000 acres of cotton would go in Parmer County next year if farmers were still assured a fair price.

Prices of grain sorghums, on the other hand, are low, and the immediate prospects for a marked improvement are not bright. Farmers are not able to plant more than about 46,000 acres of cotton because of controls, and they are not able to grow their tremendous grain sorghum acreages at a reasonable profit.

For the irrigated farmer, then, it is not surprising that he looks to truck farming with a wistful eye, hoping that he might improve his profit picture by growing

Mary Ann Stacy New F B Queen

Wearing the crown of queen-ship for the Parmer County Farm Bureau this week is Mary Ann Stacy, daughter of Mr. and Mrs. M. J. Stacy of the Hub Community. Miss Stacy was crowned at the annual Farm Bureau queen contest held in Friona Friday night.

She won over 10 other candidates from all over the county, and replaces Wilma Notton of Farwell for the coveted title. Mary Ann Stacy will represent the county at the Farm Bureau district contest in Lubbock next month. She received \$100 for her feat in Parmer County.

Runner-up is Celia Berry, daughter of Mr. and Mrs. C. E. Berry of Bovina.

Master of ceremonies for the contest was Joe Ed Sullivan, Farm Bureau service agent from Brownfield. Furnishing music was Arnold Schueler, who played the piano, and The Shouettes, Farwell vocal group.

Judges for the contest were Mrs. Argen Draper, Deaf Smith County HD Agent, Mrs. A. E. Hodges, Hereford; Leo Forrest, Deaf Smith REA manager; Gil Lamb of KMUL, Muleshoe; and Nobel Howard,

Parmer County May Again Lead in Yield

Almost ideal cotton growing conditions since planting time on the Texas High Plains have led agricultural authorities to estimate production off the 1958 cotton crop will be the largest in history in this area.

The August 1 crop estimate officially was made at approximately 1,900,000 bales by the Lubbock Cotton Exchange and the Plains Cotton Growers, Inc.

This is by far the largest production ever forecast on the High Plains and it is being forecast on much less acreage than has been planted in previous years, one official pointed out.

The 1,900,000 total was reached after officials talked to county agents, ginners, farmers and others in each county. Individual county estimates were gathered from each of the 23 counties and totaled for the over-all figure of 1,900,000 bales.

President of the Castro County Farm Bureau. About 300 persons attended the contest.

Representatives of both the PCG and the Exchange said these figures were based on conditions as of August 1 and they added the crop conditions at that time were just about the best in history.

Parmer County is again expected to be an outstanding producer of irrigated cotton. This county has a per-acre irrigated cotton yield that surpasses all other counties on the High Plains.

Notice in the accompanying table that production is expected to be 60,000 bales from 45,000 acres. That would equal Swisher's hoped-for yield of 60,000 bales, but Swisher farmers have 5,000 more acres of cotton than to Parmer's.

Castro County growers are expected to get 55,000 bales from 52,000 acres. Castro is Parmer's "twin sister," but agriculture officials expect Parmer County farmers to get more cotton from considerably fewer acres than our neighbors to the east.

Vegetable acreage on Parmer County farms this year almost tripled the previous year's acreage, and exceeded by almost 1,000 acres what we thought would probably be planted before any preparations actually got underway.

In the Bovina area there have been (or will be) 620 acres of cantaloupes, 400 acres of lettuce, 300 acres of tomatoes, and about 50 acres of miscellaneous crops such as bell peppers, cabbage, and what-not.

"We got Miss Meade" said our second grader;
"Geel but she's pretty! Us guys wouldn't trade her for all the others." How soon they begin
To exercise their masculine
Discrimination--I thought--amused--
With deeper merits ignored--refused.

I met Miss Meade; her face was one
Of the plainest I'd ever looked upon,
And a bit severe. But when she smiled
I saw with the gaze of a trusting child;
There was nothing stern, nothing commanding.
But only the love and understanding
For little lost children she might have had
Oh, the x-ray eyes of a tiny lad.

ing vegetables.

Many factors keep the irrigated Plains from becoming a huge vegetable growing area overnight. The two biggest ones are: (1) large capital outlay required for specialized farming, and (2) risk of losing all or part of the investment.

Vegetables are not this way, of course. Two years ago, nearly every vegetable crop on the Plains "hit" and farmers made a lot of money. Last year, only carrots paid off for most growers.

This year, profit prospects are dim for all but one or two vegetable crops. For these reasons, it is remarkable indeed that the acreage has managed to triple in just one year.

...These two factors are present, admittedly, in the case of any irrigated crop, but not to the extent that they affect vegetables. In 1957, about everything happened to the grain sorghum crop that could possibly happen.

The season started late, the weeds were terrible, the insects were around in the usual numbers, and the fall ripening and harvesting weather was simply disastrous.

So, a farmer who plants grain sorghum has a very good expectation of getting SOMETHING for his efforts, even though his profit may be considerably less than he deserves.

ONE YEAR, TWO CROPS--A farm laborer cultivates some nice-looking grain sorghum on the Bernard Kimbell farm northeast of Bovina. If you think this isn't unusual, notice that the feed hasn't started to head out yet. It's milo following wheat. The 130 acres was planted to Martin's after the stubbled was removed by burning.

NEWS FROM THE FARM BUREAU
By RAYMOND EULER

We are very proud of our new Farm Bureau queen, Mary Ann Stacy, who was selected last Friday night. We are hopeful that she will win the district contest in Lubbock in September, so that PCFB will be represented by her in the state contest.

We are likewise proud of Celia Berry, who placed second, and will represent Parmer County in the event of illness or any other thing that might prevent Mary Ann's appearance at any event she should attend. According to the score sheets marked by the judges, there was less difference in scores of the various candidates than any we have ever had. They were all

wonderful, and Farm Bureau is proud of every one of them.

You remember a week or so ago, seeing in the news that Speaker Sam Rayburn had stated that so far as he was concerned there would be no farm legislation this year, because, he said, "I have been up and down this hill as many times as I care to go."

Well, farmers and ranchers were not satisfied to let the only chance they had for survival be stymied by pure politics, so they again went into action. Over 20 telegrams were sent to congressmen from Parmer County Farm Bureau leaders, and the Friona Chamber of Commerce and Agriculture. Many hundreds of telegrams were sent from Texas, urging reconsideration of the senate bill in the house, and it brought results; the house revised and passed the bill, and the senate approved it as amended.

Cotton farmers will have reasonable acreages, as a result of the bill. The bill is not exactly what Farm Bureau asked, but it is basically a great improvement in that it gives the farmer more freedom of choice in his operations, and to some extent leaves the government out of the marketing and storage business on some commodities. Farm Bureau's worst objection to the bill as passed, is that it gives too much authority to the secretary of agriculture in deciding acreages and supports allowable.

The temporary secretary in the office these days is Mrs. Raymond Euler. We regret the loss of Joyce Osborn who served us and you well for 11 months.
