# Steers Go After Title Tonight

Farwell's up-and-down Steers can take the District 3-B title tonight in the district tournament at Hale Center, if they beat the hosts. They are planning on doing just that, but fans aren't forgetting that should they lose, they will have one more shot at the crown tomorrow night in a district play-off game with Hale Center.

This situation exists because the Steers have already won half of the conference crown by virtue of having the best record in regular district play. The district tournament counts for the other half. In the event Hale Center wins the tournament, then Farwell and Hale Center would decide the championship in a sudden death playoff game.

Farwell beat Springlake Tuesday night by nine points to win the right to move to the finals against Hale Center tonight, but the game wasn't the breeze that might be presumed if judging from the score.

The Steers were behind 10 points in the third quarter of their Tuesday night fracas, but surged from behind with an outstanding display of offensive power in the latter part of the game to make up the deficit and win by a handy margin, 55-46.

Curiously enough, Farwell took an early lead over their opponents and were ahead 18-9 at the end of the first quarter, but then went cold and saw their lead vanish in a 28-28 deadlock at the intermission.

The Steer scoring efforts continued inept through most of the second half, but suddenly burst to life late in that period. The fourth quarter started with 42-38, Springlake, registered on the scoreboard, and then the Steers really hit their scoring stride.

They poured in 17 points to Springlake's 4 in the fourth quarter, and this in spite of the loss of Leon Lovelace and Jerry Childs via the foul route.

Charles Roberts led the Steers' scoring with 14 points, and Lovelace was hot behind with 13. High scoring honors for the game went, however, to Springlake's Dale Dent who looped in 23 points for the night.

The game tonight starts at 8:30, and a big delegation from Farwell is expected to cheer the Blue and White on, hoping to avoid a playoff.

Should Farwell win tonight or tomorrow night, they will represent District 3-A in the bi-district playoff, a one-game affair. Where that contest might be would be determined in part by who would be the opponent. Fans speculate it might be Idalou, the perennial bi-district opposition for Farwell's regional hopes in both football and basketball.

FIFTY-SECOND YEAR

10 CENTS

Nothing, it appears, is safe from the encroachment of the bureaucracy. From President Kennedy has come an edict to the people that we ought to get out and tone up our physical selves with various and sundry feats of strength and endurance.

Pierre Salinger and Bobby K. took up the cry, and a wave of pushups, hikes, chinings and sprints is running through both the civil and military branches of the federal government that is reminiscent of the sweep of the twist, or, more recently, the bossa nova.

Over the weekend some hardy soul at Amarillo Air Base hiked 50 miles in about 10 1/2 hours, which I consider not just pretty good but downright competitive. I'll bet there aren't five people in this town who could cover the distance in a full day.

All this burst of enthusiasm for physical fitness is fine for the nation, I guess, but it chafes me a little, since I had a little program going all my own. Now that the president has come along and told us to get out and walk or run, this is going to make me look like I am following orders. It isn't true--my program got started first.

The way all this began is like this: Ever since the kids have been going to school, Jeanne and I have steadfastly refused to chauffeur them to their studies. This has branded us as prudish parents, I guess, but we decided that was how it was going to be at an early date, and stuck with it.

Originally, this means a walk to and from school each day, a distance of six blocks. That has now been shortened to four, and we think that it won't hurt the kids to be pushed into eight blocks of walking each day. However, the Grahams are among the very few families in town with such backward outlooks, and at times, especially when the rain was coming down or the snow was blowing, it did seem a little hard-nosed, but out they went.

(I might add that usually they end up catching rides on bad days, so all we are doing here is sticking with a principle; the physical benefits are usually lost.)

Some time ago I realized that I needed the exercise a lot worse than our two school-age children, so I resolved to try a little walking on my own. The three-and-a-half block trek from the house to the office was surprisingly pleasant, and unless I am running late, I actually look forward to walking it.

In this day and age, when you voluntarily undertake to do some walking, you automatically earn the title of some kind of nut. Actually, most of the neighbors give you the benefit of the doubt and figure the car's out of commission or that the wife had to have it for important reasons, leaving you to the sidewalks.

On account of this, it's pretty hard to walk two or three blocks without several offers of a ride. Folks can't imagine anybody walking because they want to. Finally, most people who know me got it figured out that I was walking for the heck of it and just grinned and drove on. It was a relief to finally get past this stage.

Another problem you have to get over is the yapping of neighborhood dogs, who can no more imagine someone voluntarily walking than can their owners. They automatically deduce that if you're on foot you're up to no good, so they bare their fangs and yap at your heels as you pass by.

Ultimately, though, you get to be a regular customer for them, sort of like the milk man, I guess, and they will wag their tails and trot happily alongside for a few steps or just sit on their haunches and stare.

There is not much telling how long this walking kick is going to last in my case. This is not the first time I have come up with a laudable idea, and later cast it aside for less demanding things, but walking has actually been so enjoyable I may go on with it for some time.

It sounds pretty corny, I guess, but it's nice to be outside for a few minutes once in a while, feeling the warmth of the sun, hearing the chirp of the birds, and breathing in really fresh air. If the wind is right, you can usually guess what's cooking in a number of houses, and the work of the

(Continued on Page 2)

## Texico B Team Wins Two Tilts

Texico Wolverines B team crushed two opponents Friday and Saturday nights. They visited Floyd Friday and hosted the Elida team Saturday. Rolling over the Floyd team, they racked up a 51-32 score. Saturday night they pushed past their visitors 58-29.

Bill Campbell paced the Wolverines with 22 points against Floyd and 17 points on the home court Saturday. Mike Spearman tallied 9 points in the Floyd game and Lonnie Curry poured in 9 points against Elida. The team made 42 per cent of their shots against Floyd, statistics revealed.

Coach John Green stated the boys played a good ball game Saturday night here. They jumped to a 24-8 lead the first quarter and coasted the rest of the way.

## Farwell Band Boosters To Meet, Feb. 20

Members of Farwell Band Boosters Club are reminded of the meeting which has been set for February 20, 2:30 p.m. in the band hall at Farwell School. At this time a project will be planned to help finance the trip of the band to Enki, Okla. to attend the Tri-State Music Festival.

All parents of band members, grade school through high school, are urged to be in attendance at this special meeting, says Mrs. Alvin Mace, spokesman for the booster club.

## DWI Charge

Charles Strickel 17, of Plainview until recently employed in Clovis has been arrested and charged with DWI in Parmer County, following a chase by law officers of New Mexico and Texas Saturday afternoon.

Strickel, who was being chased by New Mexico Highway patrolmen, came through the Twin Cities at a speed of 100 miles per hour. Law officers were unable to catch him and he was not apprehended until he overturned his car some four and one half miles east of Farwell.

THE DISTRICT TITLE will be on the line tonight at Hale Center, when Farwell's Steers meet Hale Center in the finals of the District 3-B tournament. Left to right, Coach Bill Mayfield, Douglas Gossett, Johnny Actkinson, Ronny Henson,

Bob Anderson, Allan Busbice, Leon Lovelace, Ronny Reed, Bobby Actkinson, Joe White, Charles Roberts, Danny Lindop, Jerry Childs, and Jimmy Mace.

## Cold Returns- And With Snow

After a tantalizing touch of false spring, winter sent a numbing chill back into the Plains country again this week, including the Texico-Farwell area.

A front moved in from the northeast Sunday night with hardly a mention by the weatherman, and snuffed out the balmy days enjoyed by residents last week.

The temperature dropped to the 10-15 degree range three nights in a row and this community's water pipes and car radiators went back into the deep freeze.

This storm system was different from previous ones this winter in that although it came in with a north wind, the wind was not of blizzard proportions. Also, unlike the other "dry northerners," the storm this week brought a lot of moisture.

The moisture started off with a gentle rain Sunday evening, which quickly turned to sleet, then snow as the temperature moved downhill. About two to three inches of snow lay on the ground Monday, but more was to come, and by Tuesday morning the total was ranging from three to five inches in the area.

Skies cleared Tuesday and the wind laid, putting an end to unpleasant conditions. The "big thaw" got underway Wednesday morning as the sun rose in a cloudless sky and the ice and snow began to recede.

Local schools were dismissed Monday and Tuesday.

The snow was high in moisture content and will benefit dry cropland. It is the first appreciable moisture of the winter season.

## J. J. Spurlin Buried Here

Jerry J. Spurlin, 85, a longtime resident of this area, was buried in Bovina Cemetery Friday.

A resident of Texico, Mr. Spurlin died Wednesday at his home.

He homesteaded land west of Bovina in 1915.

Funeral services were conducted in Clovis Friday by Rev. Robert O. Tomlinson, pastor of Texico-Farwell Methodist Church, and Rev. Hugh Frazier, pastor of Pleasant Hill Baptist Church.

Survivors are his wife, Mattie; one son, Rev. J. J. Spurlin of El Paso; two daughters, Mrs. Jack Chambliss and Mrs. Val Baumgart, both of Clovis; eight grandchildren and eight great-grandchildren.

Serving as pallbearers were Otis Huggins, Perry Winkles, Buck Raulle, Shorty Matlock, Russell Johnson and Troy Lovett.

## Jury List Released; Monday Is Court Day

Names of 48 petit jurors who are to meet Monday at the County Courthouse were released this week by Charley Lovelace, County Sheriff.

They were: Mrs. Dee Brown, Lazbuddie, Mrs. Earl Stevenson, Bovina, U. S. Akens, Friona, Hayden Cason, Friona, Ivan Adkins, Friona, George T. Douglas, Farwell, Mrs. Davis Gulley, Lazbuddie, T. I. Burleson, Jr., Friona, Mrs. R. W. Anderson, Farwell.

Charles Vickers, Bovina, Jim Bob Smart, Farwell, Allen Cumpston, Bovina, Guy Latta, Friona, Monty Barrett, Bovina, Mrs. Martha Bates, Friona, M. C. Nobles, Farwell, Edward Looney, Bovina, George A. Jones, Friona, Spencer Hough, Friona, G. D. Anderson, Jr., Bovina.

Curtis Birchfield, Farwell, D. L. Carmichael, Friona, Don Murphy, Bovina, Lee R. Mason, Oklahoma Lane, Mrs. James H. Clay, Oklahoma Lane, J. D.

Blackburn, Friona, Robert E. Wilson, Bovina, Dwight Sheriff, Farwell, C. A. Felts, Lariat, Cecil Atchley, Lariat, Donald C. Christian, Farwell, Delbert Garner, Farwell, Jack Kessler, S. M. Bailey, Friona, Claude

Mabry, Friona, Mrs. Melba Allen, Friona, A. L. Carlton, Friona, Ray Mattenson, Friona, Bob Hart, Farwell, Don Williams, Farwell, Clyde Fields, Friona.

Bovina, C. A. Watson, Lazbuddie, Franklin Bauer, Friona, Connie O'Brien, Bovina, Mrs. Olen Ivy, Friona, John McFarland, Farwell, John Range, Farwell and Mrs. Robert Kaltwasser, Farwell.

## Band Plans Trip To Enid Festival

Farwell band members are embarking on a busy schedule for the coming months, with plans made for the organization to attend the Tri-State Music Festival in Enid, Okla. May 1-5.

Judges for the events at the festival are outstanding composers, arrangers and directors from over the U.S., says John McGee, local director, and several thousand students will be in competition in three fields, band, orchestra and choral.

In addition to regular band contests, several local students

have been accepted to audition for the Tri-State band, a group of outstanding band members at the Festival: Sherri Austin, flute; Diane Lovelace, Jeannie Blair and Ronnie Smith, clarinet;

Jimmy Armstrong, alto sax; Barry McCuan, baritone sax; Janice Prince, bass clarinet; Beverly Purvis, French horn; Alan Busbice, Patty Tatum cornet; Johnny Schell, Larry Gregory and Leon Lovelace, trombone; Kenny Smith, tuba; and Melody Coffman, Joe Costillo and Peggy Eason, percussion.

Those accepted in the Tri-State band perform in a grand finale concert to close the festival.

McGee expresses optimism and feels that Farwell will be represented in the top group. He adds that the band will do its utmost to represent the community and the school in the finest tradition, and that "the educational value of the event will benefit students greatly."

Expenses to Enid will be raised through a drive by band members, the booster group and a concert, he says.

Also on the calendar for the band will be arrival of suits March 30; contests in Hale Center Feb. 23; regional contests in Canyon April 23-24 and solo and ensemble tryouts in Canyon March 23.

## Father Of Mrs. Jones Dies

Word has been received here of the death of Dan F. Innes, father of Mrs. Melborn Jones of this community. A resident of Selma, Ala., he passed away Tuesday night. Mr. and Mrs. Jones were at his bedside. Mr. Innes had suffered a heart attack about two weeks ago.

Survivors include his wife of the home; two daughters, Mrs. Jones, and Mrs. Betty Cunningham of Birmingham, Ala.; and one son, Dan H. Innes of Selma, also five grandchildren.

Texico-Farwell was turned into a winter wonderland Monday morning, when the sun came out for a few minutes following the snow of Sunday night. Shown are scenes at the Baptist Parsonage in Texico and at the home of Mrs. Albert Thomas in Farwell.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

### The Outfit With Guts

The American Farm Bureau Federation, in annual convention last month, came out with a new "let us alone" farm program, designed to free the farmer from his partnership with Uncle Sam. This is hardly news any more, as the Farm Bureau has been plugging solidly away at less dependence on government by agriculture, but we ought not let their consistency dull our appreciation of their position.

Can you name any other special interest group anywhere in the country that is openly and continually agitating for less help from the government? The writer doubts it.

This year the Farm Bureau is suggesting the Department of Agriculture reduce expenditures for bolstering farm income by one billion dollars, or roughly 20%, by eliminating or reducing price support activities in many fields. In return for this "favor," the Farm Bureau is asking for fewer restrictions on farmers. This is an outright appeal for freedom in trade for security, and is about as near a political antithesis as you can get. This makes the Farm Bureau, be it right or wrong, the outfit with guts.

The FB has turned the spotlight of common sense on the national farm program and come up with these Alice in Wonderland observations:

1. New land is reclaimed under one program, retired under another.
2. Farmers are paid not to plant certain crops, then paid to fertilize crops for greater yield.
3. Farmers are urged to retire acres, then encouraged not to by raising price supports.
4. The government buys crops to boost prices, then sells them to depress prices.
5. The government tries to promote farm exports, then prices them too high to sell.

It is very popular these days to decry government interference, the national debt, and special interest legislation. It is quite something else to discourage or refuse federal handouts. The oil industry has produced some of the most articulate exponents of the principles of free enterprise, yet the coveted 27 1/2% depletion allowance is a political sacred cow which would be defended even in the face of a national budgetary crisis.

It is not at all unusual to see a candidate for a municipal office build his campaign on economy in tax matters, and then see him, after election, seek federal funds to build roads, sewer plants, apartments, and clear the slums.

This hypocrisy in politics, this two-faced, doubledealing standard of conduct, has never been laid at the feet of the Farm Bureau, and America is a little better because of it.

We think the world and the farmer face many problems in a troubled world and it is high time we did some real thinking. Let's brush aside any petty things that might stand in the way. We have a job to do. Let's do it together.

## Judy Tharp And Vic Harrington Named As Basketball Royalty

Miss Judy Tharp, 17 year old daughter of Mr. and Mrs. Ray Tharp and a senior in the Texico High School, was crowned homecoming queen in halftime ceremonies at the Texico-Elkita basketball game Saturday night.

Vic Harrington, son of Mr. and Mrs. Russell Harrington of Rosedale, was crowned king. The two were chosen by popular vote of the student body. Miss Tharp, wearing a floor length dress of white was escorted in the east door of the gym and came to a green backboard inscribed with the words "King and Queen of Homecoming".

Honored by Miss Jackie Hughes, 1962 queen, Miss Tharp was presented with a dozen red roses and crowned with a green and silver crown. Harrington's crown was inscribed with the word "King", in silver.

Other candidates were Misses Kathy White and Latria Harrison. King candidates were Wayne Hudnall and Vernon Thigpen. Miss Edith Zachrel of Oklahoma City, Okla., niece of Miss Tharp and Christy Harrison, a niece of Vic Harrington, were crown bearers, Gary Green, son of Mr. and Mrs. Johnny Green, carried the roses.

Miss Tharp is a cheerleader at Texico school, was a member of the high school band for several years and a member of FBLA at the school. Judy served for approximately four years as head twirler with the band. She is enrolled in office practice and chorus.

Harrington is a senior in the school and is active in all sports playing on the basketball team where he is consistently high point man. He served his school as president of the student body last year and attended New Mexico Boy's State the past summer in Roswell.

JUDY THARP AND VIC HARRINGTON

### Hopper --

(Continued from Page 1)

green thumb artists has already begun and you can note the progress nearly every day.

The distance from the house to the office is a little over a quarter of a mile. One phase of my project which I have been secretly developing is the theory that if I could gradually build up the part of this distance that I could run, in time I might be running a pretty good quarter mile.

If you've never tried one lap around the track at a sprint speed, you don't know what you've missed, so if it ever works out that I can run to work instead of walk I think that would be quite an event.

In following out this theory, I have been running part-way, and am gradually building up the distance run. Right now it is a little more than the last block.

So as not to attract too much derision, I have done my running in the early morning hours, when I doubt that I am noticed as I whiz by. I remember the story of the youth in ancient times who grew to be a strong man because his father had him lift a growing bull calf each day. As the calf grew, so did the boy and his strength, until eventually the boy became a man and could pick up the full-size bull.

This is a wonderful idea, only my running calf seems to be growing too fast and the increase I have marked off is overtaking my development. A half a block sprint didn't hurt a bit, but now that it is up over a block, I arrive at work with my tongue out and suffer heart palpitations for about five minutes. Something else is going to have to be worked out here.

Wilfred Quicquel has called my hand on the quiz we ran in the paper last week. The question asked was what is the name of the second draw north of town. The answer, or the one we printed, anyway, was the Frio draw.

Dutch, who is quite an authority on such things himself, says this 'taint so. The second draw north of town, quoth he, is the Catfish.

This came as rather shocking news to me, inasmuch as I had

posed as somewhat of an expert, but after considering all the facts, I believe that the confusion on the matter is due to a definition of terms.

By "draw", I meant a genuine, sagebrush-filled, stream-carryin', rabbit-huntin' gap. Why, anybody knows that a draw that isn't fit for rabbit huntin' isn't worthy of the name.

Well, I will admit that there is a Catfish Draw. I know about it. It runs into the Running Water just the other side of Bovina. But it's mostly just a little branch of the Running Water, and it peters out a few miles upstream from Bovina.

The Catfish has some swell duch-huntin' holes on it where farmers have dammed up tanks, but it doesn't carry much water and shouldn't be put in the same class as Running Water and Frio (and Blackwater, too) which are much more extensive.

Special to Mrs. John Christian: This week's "newsletter" from Senator Ralph Yarborough includes the following:

"I want to give you a breakdown of some of the public works projects for Texas included in the budget. I am fighting for these items, and I want to tell you what affects you and your home county and town."

Most of the projects he names are not of interest to us, except, possibly, a request for \$23,000,000 for the Canadian River dam northeast of Amarillo. In addition, \$88,000,000 is included this year for Army Corps of Engineers work in Texas.

"Fellow Texans, these are some of the projects I am fighting for as your senator."

### The Editor's Letterbag

The State Line Tribune  
Farwell, Texas

Dear Sir:

You will please change our address to W. W. Couch, Box 66, Clairette, Texas. We don't want to miss a single issue of your nice paper. Thank you very much.

Yours truly,  
W. W. Couch

## CHRISTIANITY

### Is The Bulwark of Our Way of Life

CONQUERED BY LIFE OR CONQUERED OF FILE

Roman 8:31-39

"In all these things (or any others) we are more than conquerors thru Christ." There are many things that can and do happen that might defeat us, but if they are used as opportunities for us to employ our Christian faith, then we may be conquerors instead of the conquered. An old Christian saint said to me as she faced death, "I have conquered so many things thru Christ that I can hardly wait to see Him conquer death." This is victorious living and triumphant dying.

Read the 21st chapter of Luke and you see Christ mentioning the ills of life, that might defeat us. Suffering from choices we make is one of them, for we are free to choose, but not the harvest or results. The law of sowing and reaping is as true in the moral and social as it is in the physical. We suffer from confusion in religion, from wars and conflicts in society.

The innocent suffer more than the guilty, women and children and those of a Christian conscious suffer most of all. There is suffering from physical illness and being a Christian does not make one free from germs and infection. We all suffer from physical calamities as drought, floods, earthquakes, etc. They come to the just and the unjust. There is suffering from economic distresses, unsound investments or a change of economic conditions.

If a man insists on making buggies and not changing to the new age, he will find no market for his product and go broke. There also comes suffering from our fellowman laying hands upon us. A college student dedicated himself to the ministry and a fraternity brother said, "I will knock that out of him." Society demands conformity. If one falls below, it punishes. If one rises above, it persecutes. The Christian is the "Ugly Duckling" in society. We suffer from secular groups. A group leads for reform and then in a few generations uses its freedom to persecute all who would revolt.

There is suffering from home life, incompatibility, our courts call it, but suffering is real in many homes because of a lack of Christ-like understanding and Christian living. And then there is suffering from being associated with Christ, "Hated for My name's sake." This is very real on the mission field where people are really persecuted for their Christian faith.

There is much in this world that would defeat us, but through which we may use our Christian faith to conquer, instead of being conquered. Paul said: "I can do all things thru Christ Jesus who is my strength." "My God shall supply all your needs thru Jesus Christ." Or "His grace is sufficient, not I but Christ in me" and "In all these things God is working with you for good." And Christ said "Lo, I am with you." "The Father and I come and fellowship with you and we be in you." Place the troubled times of Luke 21 against Romans 8:31-39 and see the victory that is yours thru Christ Jesus the Lord.

# Delta Kappa Members Honor Educators

Delta Kappa Gamma members of Farwell were 100 percent in attendance at the Delta XI chapter meeting in Boylston Saturday afternoon at the club house. Attending were Mesdames E. G. Williams, Harry Whitley, Claude Coffey, J. D. Zahn and John Boling.

The business meeting was directed by the president, Miss Della Stagner of Hereford with Miss Bernice Littlepage of Dimmitt as recording secretary.

The scholarship committee directed a "white elephant" auction with items contributed by the 40 members present. Mrs. Grace Thomas of Hereford was auctioneer and \$70 was netted for the state scholarship fund. Any Delta Kappa Gamma member may apply for a scholarship. Other than state, national and international scholarships are also available. "Honoring Women Educators of the Panhandle" was the title of a symposium directed by

Mrs. Eleanor Hudspeth of Hereford. Highlights on the life of Miss Edna Graham, a West Texas State math teacher, were given. Her former students have honored her by creating a special scholarship fund from which an award is made annually to an outstanding math student. She is now retired and active in community work.

Miss Laura V. Hammer was also honored by Miss Hazel Merritt of Dimmitt. Miss Hammer taught and was county superintendent of Potter County Schools. She is well-known for her authorship of several books, as a journalist and radio personality.

Miss Grace Paul of Bovina gave tribute to Miss Darthula Walker, retired geography instructor at West Texas State, who has traveled extensively and written much in her field.

Next meeting time was changed to March 29 at Hart. Miss Minnie Atchley of Clovis was a visitor.

## Young People Honor Adults

Young people of the Texico Baptist Church honored adults with a sweetheart banquet Tuesday night, with table decorated in hues of pink and red emphasizing the Valentine theme. Crepe paper streamers lined the table centers.

Program were stacked hearts in standing designs with silver

glitter and candy inscribed hearts decorating the designs. White tapers completed the table decor. Crepe paper rope strands formed a heart as a background for red cupids and the inscription "My Sweetheart."

Nut cups were red on lace doilies and held candy hearts

and nuts. Master of ceremonies was Dick Johnson, music director; Bud Pearce gave the invocation and Kenny Brown, ENMU student, presented magic tricks. He then discussed "Spiritual Love." Murray White presented the benediction.

Young people assisting with planning were Judy Tharp, Carol White, and Betty Lockhart, cooks; Kathy and Susan White, Marquita Wall, Wayne Hudnall and Billy Wayne McDonald, decorations and serving.

Spaghetti and meat sauce were served with salad, bread, tea, coffee and strawberry ice cream.

Adults present were Mesdames J. O. Ford, J. J. Hudson, John Lockhart and C. H. Webb, Rev. and Mrs. Harvey Hudnall, and the Anson Bowers, the Leon Londons, the Ray Tharps, the Willie Walls, the Bill Bollings, the Luther Pearces, the Murry Whites and the Bud Pearces, and one guest from ENMU.

## Beth Peyton Finalist In Best Dressed Coed Contest

A FINALIST in the "best dressed co-ed" contest at ENMU last week was Beth Ellen Peyton, daughter of Mr. and Mrs. N. W. Peyton of Texico. Miss Peyton, who is a freshman, was in the top seven.

Miss Beth Ellen Peyton, daughter of Mr. and Mrs. N. W. Peyton and a freshman at ENMU appeared Sunday as one of the seven finalist in the "Best Dressed Coed" contest on the campus at ENMU. The field had been narrowed from 16 to seven in previous judging.

Winner of the contest was Miss Jerilyn Burns, Alamo-gordo. Miss Jo Ann Burford was runner-up. Miss Burns will now be in competition with girls from throughout the nation for one of the ten best dressed coeds in the nation. Winners of the national contest will be guests of "Glamour" magazine in New York, in June.

## A Boy For Sam Hukills

Mr. and Mrs. Sam Hukill announce the arrival of their seventh child, a son, Thursday morning, February 7, in Clovis Memorial Hospital.

The little boy weighed 8 lb. 2 oz. at birth and has been named Virgil Ray.

Grandparents are Mr. and Mrs. A. O. Arnold of Texico,

## LUTHERAN NEWS

At the LWML Meeting February 7, Ladies voted to purchase a mimeograph machine for the church. New year books were passed out and the years programs are both busy and interesting. The programs were set up by a committee, whose chairman was Mrs. Gilbert Kaltwasser.

Thursday at 7 p.m. the young people will have a rehearsal for the play they will give at the regular family night February 17. Final dress rehearsal will be Saturday night. After the play the LWML will serve special cake and punch in honor of Mr. and Mrs. W. Kreigel, Bovina, who are observing their 25th wedding anniversary. Sharing honors with them will be Mr. and Mrs. G. O. Meisner and Mr. and Mrs. Otto Lingnau who will also be observing anniversaries.

A reminder that the zone workshop and spring rally will be conducted at Littlefield February 26. Mrs. Gilbert Kaltwasser, christian growth chairman urges everyone to keep this date open and attend the workshop.

Husbands will be guests for a Valentine social when members of Texico Woman's club meet for their February meeting Monday night at 8 p.m. at the club house.

Hostesses will be Mesdames Judge Stone, John Adams and Jim Moss.

Mrs. R. A. Cassidy of the Pleasant Hill Community announces the arrival of a son, Saturday morning, February 9 in Farmer County Community Hospital. Mrs. Cassidy has two other sons and a daughter. The little boy weighed 8 lbs. 8 ozs. and has been named Ray Don.

Grandparents include Mr. and Mrs. C. A. Cassidy of Texico and Mr. and Mrs. Muggs Magness of Mancos, Colorado.

## Women To Serve Mexican Food

Members of the Ladies Auxiliary of the United Pentecostal Church are planning a Mexican meal at the lunch and supper hours Thursday at the Texico Woman's Club building.

Serving will begin about 11 a.m. for the noon meal and at 6 p.m. in the evening. For \$1.25, two enchiladas, one taco and pie with tea or coffee will be served.

## Suprise Party Honors Mrs. P. Winkles

Mrs. Perry Winkles was honored for a surprise birthday party, Friday morning when friends gathered at her home for a coffee.

Hosting the affair were Mesdames C. H. Webb and K. D. Stone. Informal visiting was the order of the morning and hot loaf cake and coffee were served after the honoree had opened her gifts.

Attending were Mesdames C. H. Webb, Elward Combs, F. S. Thigpen, Russell Johnson and Hardy Jones. Sending gifts were Mesdames Jack Watts and Inez Stone.

## Exchange Student To Speak To Study Club

Farwell Study Club members will meet at the Asa Smith home in Lariat, Monday evening February 18, 7:30 p.m.

Guest speaker at the meeting will be Harknutt Weddige, a German Exchange student attending school in Clovis. Harknutt makes his home with the Doc Stewart family.

Mrs. Jack Williams will lead the club collect and Mrs. A. R. Sander will lead the opening prayer.

Hostesses for the Monday meet will be Mesdames A. R. Sander, Asa Smith and Elmer Scott.

## LOCALS

Mrs. Jimmy Henson and children Jay and Terri from Seymour have been visiting in the homes of Mr. and Mrs. Milton Henson and Mr. and Mrs. Paul Crooks in Texico.

Judge Loyde Brewer and several of the Farmer County Commissioners are making plans to attend the conference on the campus at A&M College in College Station, February 17-19.

Mr. and Mrs. Jesse Hicks and daughters Jean and Debbie, were in Shamrock over the weekend visiting in the home of Mrs. Charles Hicks, mother of Jesse Hicks.

Mapping out plans for the sale of cookbooks by Texico FHA are five girls who are working with the project: (seated left to right) Linda Campbell, sales manager; Georgina Lambert, chairman; Monnie Sanford, publicity; and (standing) Cynthia Spence, and Jean Morris.

## "Hospitality At Home" Is Club Topic

Pleasant Hill Extension club met in the home of Mrs. Jack Eshleman, Thursday for an all day meet and social.

Mrs. Daughtery, Curry County Extension Agent gave a talk on "Hospitality at Home." Announcement was made of the next meeting which will be in the home of Mrs. Joe Edwards, 1609 Ross, Clovis. At this time Mesdames Leonard Kimbrough and Mason Neeley will present a program on "Wool Darning."

Announcement was also made, by Mrs. Maurice Clark, of the March 7, 7 p.m. meeting of all Texico and Pleasant Hill community club members, and their families at the Pleasant Hill community center. Two lawyers will be present to discuss the "Transfer of Property With Least Loss and Taxes." Ladies of the two clubs are asked to bring one pie each to the meeting. Coffee will be furnished by club hostesses.

Attending the Thursday meet were Mesdames Orris Eshleman, a guest and members Donald Clark, Frank Meier, Jack Donahay, Leonard Kimbrough, Mason Neeley, Maurice Clark, John Range, Ed Baldrige, T. E. Baldrige, Eual Hart, Pearl Singleterry, E. L. Sutton, Joe Edwards, John Tadlock, Floyd Bocox, H. M. Hopper, C. A. Bournon, Leon Webb and Jack Eshleman.

## California Visitors In Texico Homes

Mr. and Mrs. Lynn Webb and children, Robbie and Lorna, from Chowchilla, Calif. have been visiting in the homes of Mr. and Mrs. Ray Tharp and Mr. and Mrs. T. J. Kittrell and children, in Texico, for the past several days.

They attended homecoming at Texico High School Saturday night.

Mrs. Webb is the former Nadine Thornton and attended school in Texico, graduating in 1955.

## What's Cooking At School

Monday -- cheese and spiced ham sandwiches, pickle slices, potato chips, cinnamon rolls, milk.

Tuesday -- ham shanks with beans, sweet relish, spinach, pears with graham crackers, cornbread with butter, milk.

Wednesday -- cheese meat loaf, buttered peas, tomato and lettuce salad, chocolate drop cookies, hot rolls with butter, milk.

Thursday -- hot dogs with mustard, potato chips, rolled wheat cake, milk.

Friday -- fried steak with gravy, creamed potato, green beans, jelly, hot rolls with butter, milk.

## FHA Girls Plan Cookbook Sales

"Favorite Recipes of Home Economics Teachers" is the title of a cookbook, now on sale by members of Texico Future Homemakers, with the book featuring desserts and party beverages. A 1962 edition on meats is also available.

According to publicity, the cookbook has 2000 recipes from home economics teachers from over the nation, with sections on cakes, cookies, pies and candies. Other phases are cooking tables, charts, helpful pointers, photographs, calorie

charts, a frozen dessert section and spice charts.

All types of desserts are included with low calorie, foreign and convenience recipes also included. An entire section contains punch recipes.

For information on obtaining the book, the home economics instructor at Texico High School may be contacted.

## Group Meets With Mrs. Chandler

County council report was given by the president at a recent session of the Hollene Busy Bee Club held in the home of Mrs. Thurman Chandler. After the short business meeting, a demonstration on "Food for Hospitality" was given by the HD agent, Mrs. Lillie Mae Daughtery.

Refreshments were served to eight members and four guests. Eight members recently attended a showing of two films on venereal disease, shown at Broadview club house by Mrs. Daughtery with commentary by Mildred Barnett.

Next meeting will be at night March 28 at 7 p.m. at Rosedale Community Center. Husbands will be guests and a Clovis lawyer will discuss "Transfer of Property With Least Loss in Texas."

## Mrs. C. H. Webb Feted With Housewarming

Mrs. C. H. Webb was feted with a housewarming Wednesday evening, when friends gathered at her home bearing gifts and bringing refreshments. Hosting the affair were members of the Texico Fireman's Auxiliary.

Assorted cookies and punch or coffee were served to Mesdames F. S. Thigpen, Fred Danforth, Perry Winkles, Russell Johnson, Tena Roth, Otis Huggins, Elmer Teel, Elward Combs, Billie Boling, Joe Camp, Jack Wardlow, Dwight Potts and Willie Hammond, Mesdames John Adams and K. D. Stone sent gifts.

Auxiliary members presented Mrs. Webb with a pole lamp, for her home.

## Busy Session Held By ESA

Members of Theta Rho chapter of ESA met for a business session and Dutch treat meal Monday night and had a light attendance because of bad weather.

Mrs. Mitz Walling, president, and Mrs. Bobby Crume, reported on the recent inter-

city meeting of civic groups in the Twin Cities, and ESA plans to send a representative to coming sessions.

Reports on district meeting held Sunday in Clovis were given, with Theta Rho president, Mrs. Mitz Walling named as one of the top three contestants for the outstanding member title. She will compete in the state contest in April. Mrs. Pike Jordan was named district educational director.

Mrs. John Getz, treasurer, reported that \$260.63 was collected for March of Dimes, by the Mothers March, sponsored by ESA.

Mrs. Joe Helton is committee chairman for registration bags and for gifts for the state convention to be in Clovis in April with Theta Rho members as a committee. Reports were heard from those present, and Mrs. Walling, co-chairman, for the convention, gave reports on plans. Mrs. Jordan has also served on the planning committee for convention.

Members decided to give \$50 to the state philanthropic project, cystic fibrosis.

Next meeting will be with Mrs. John Getz.

## Parents Of Local Man Honored

Mr. and Mrs. E. E. Huggins of Dimmitt, parents of Otis Huggins of this community, will be honored with a reception on their fiftieth wedding anniversary Sunday at the family home three miles north and 1/2 mile east of Dimmitt. Calling hours are from 2-5 p.m.

Hosts and hostesses include the local family and other Huggins children, Mr. and Mrs. Burds Huggins of Dimmitt, Mr. and Mrs. Ben Crawford of Littlefield and Mr. and Mrs. Billy Arend of Lubbock.

Mrs. Donald Callouet has arrived from her California home for a visit in the home of her parents, Mr. and Mrs. John Adams; and in the home of her father-in-law, Louis Callouet.

## Uncle Ray's "Hot Air"

A beaming father brought the news to his six-year-old son that the stork had delivered a lovely baby sister for him.

"Aw," said the lad, "I was hoping for an older brother."

On the job application blank was the question: "Have you ever been arrested?" The applicant put "No."

The next question was "Why" -- meant for those who had been arrested. Not realizing this, the applicant put down, "Never been caught."

# Sunday Services For R. A. Cassady

Funeral services were conducted at 3 p.m. Sunday from the First Baptist Church in Farwell for R. A. Cassady, 33, who passed away in a Dallas Hospital Thursday night, following open heart surgery.

Rev. Hugh Frazier, pastor of Pleasant Hill Baptist Church, officiated at last rites assisted by Rev. C. C. Morgan, pastor of Highland Baptist Church in Clovis. Burial was in Sunset Memorial Terrace Cemetery, Farwell, under direction of Claiborn Funeral Home.

Cassady was born at Earth January 31, 1930 and moved with his parents to the Texico-Farwell area when a small boy. He grew to young manhood here and was graduated from Far-

rell, Gorman Byrd, E. J. Hodges, Tony Johanke, and Robert Armstrong. Honorary pallbearers were Ted Magness, Joe Magness, John Porter, John Armstrong, Charles Phillips, Glen Phillips, Ray Ford, Glen Singleterry, John Burrow, Robert Hale and Thurman Utsman.

## Girls Bow In District Tournament

Farwell girls sextet lost the first round in the District 3-A Tournament when they met Sudan Tuesday night at Hale Center. The neighboring team racked up a 62-49 win.

Coach Bill White stated that the local team had made a lot of improvement and this will pay off next year.

"I think Pat Kaltwasser played her best game of the year," the coach added.

Kaltwasser scored 28 points in the game and Brenda Dale tallied 11. Gatewood looped in 23 for the opponents.

The local team lost to Sudan last Friday night, 58-42, in a regular matched game. Brenda Dale led her team with 19 points and Melody Coffman netted 11 points. Mudgett was high point player on her team with 20 points and was followed closely by Gatewood with 19 points.

## Civic Groups Reminded Of Meeting Monday

Bobby Crume, Rotary club president, who is working with the organization of an intra-city civic council, urges all civic organizations and city groups to send delegates to the second meeting Monday night at 7:30 in the ASC office.

Representatives from Lions, Rotary, ESA, Jaycees, Farwell Chamber of Commerce and Farwell City Commission were present for the first session, which served mostly as a fact-finding and idea meeting.

"We hope to get organized Monday" Crume says. He adds that several ideas were submitted in January for Texico-Farwell community projects, but no definite decisions were made. He adds that the purpose of the group would be to promote projects that are too big for one civic group to handle, for the betterment of Texico and Farwell.

Among ideas discussed were: Little League ball park, a more extensive youth program, and someone even mentioned a youth center. Right now, the group is a sounding board for the needs in the Twin Cities, he adds.

## News From LAZBUDDIE

BY MRS. C. A. WATSON

Birthday greetings to: Maria Selinas, Lydia Silas, George Silas, Gayla Seaton, Glenda Dale, Thomas Ketchum, Jerry Weaver, Esmule Mondragon, Mary Lou Delgado, Sue Windham, Loyd Bradshaw, Donna Smith, Dale Vise, James Flores, Bobbie Paul, Craig Schuman, Pauletta Templeton, Kent Hargrove, Jackie Seaton, Cooper Young, Rosa Ovalla and Allison Precure.

Ray and Mitchell Kelly were in the Lazbuddie community from their home in Earth last

**DIRECTORS** -- Officers and directors for the coming year of Farmer County Grain Sorghum Producers Association, who were elected at a meeting of the group Monday night in Bovina, are, left to right, A. W. (Dub) Anthony, Jr., vice president; Tom Caldwell, president; Elmer Hargrove, secretary-treasurer; Ellis Tatum and Gene Smith, directors.

## At Annual Meeting

# Grain Producers Name New State Of Officers

Tom Caldwell of Bovina is new president of Farmer County Grain Sorghum Producers Association.

He was elected at annual meeting of the organization Tuesday night at Bovina school cafeteria which was attended by some 50 Farmer farmers.

He succeeds A. W. (Dub) Anthony Jr. of Friona, who was named vice chairman of the county group for the coming year.

Tuesday night's program consisted of four speakers including Sam Thomas, agriculture development director of Southwestern Public Service Company of Amarillo; Deryl Coker, county agricultural agent; Prentice Mills, county ASC manager; and Nolan Chandler, agricultural assistant of area grain sorghum producers association.

Thomas spoke on the advantages of cattle feeding to the area. He pointed out that there was a feedlot capacity for 1,000,000 head of cattle in the Golden Spread area. "That can be interpreted to mean that cattle feeding is worth \$1,250,000,000 to the area," he told his listeners.

Thomas also pointed out that one-eighth of the grain sorghum

week, on business.

School was dismissed in Lazbuddie Monday due to the bad weather.

Mrs. Leon Smith accompanied her son, David to Baylor recently where he will attend school. She also visited with the Jim Sybert family, in Denton before returning home. Mrs. Sybert is the former Mona Smith, a daughter of the Leon Smiths.

Mr. and Mrs. Orlie Chandler and children and Benny Watson of El Paso, visited last weekend with their parents, Mr. and Mrs. C. A. Watson.

Medford McCoy of Sweetwater visited with his aunt, Luditia Watson, Friday afternoon.

Science classes at the high school were in charge of the PTA program, Monday night and exhibited many fine and unusual projects.

Funeral services for J. T. Boslic 75, father of Mrs. Raymond Houston were conducted in the West View Baptist Church, in Slaton, Monday afternoon. Mr. Boslic passed away at his home in New Deal Friday. Other area survivors are grandchildren Mrs. Clyde Redwine and Eugene Houston,

which is produced in the area is consumed here. "We could multiply our cattle feeding operations by eight and still not have to import grain," he said.

A point that he stressed was: "We're in the fastest growing cattle feeding area in the nation." He went on to say that the area has many important advantages over other feeding areas.

Mills discussed the 1963 feed grain program. He answered questions from the audience in regard to the program and pointed out that it offers additional benefits to the farmer-cattle feeder. Mills also discussed the 1964 wheat program briefly and distributed information in regard to it.

Chandler discussed projects of the area grain sorghum producers during the past year, emphasizing legislation which was influenced by the association that brought about a nine cent increase in the support price of milo.

"Research, service and market development are the three phases of the association's work," Chandler said.

In pointing out the progress which has been made in selling grain sorghum to foreign countries, he said, "A lot more remains to be done in the field of grain sorghum promotion."

The area association is supported by individual farmers who contribute two pounds of grain sorghum per 1000 to it. Farmer County, with \$12,000 was the leading county in the area in contributions," Chandler told his listeners in way of congratulations.

Anthony, who served as master of ceremonies, explained that the county organization was entitled to two votes on the area board of directors "just

NELL WALLING

for being organized" and one additional vote for each additional \$2500 contributed to the association. Therefore, Anthony explained, Farmer County is entitled to six votes on the area board. He proposed that a director be elected from each commissioner precinct in the county to serve with the organization's four officers.

Directors elected were Gene Smith, Lazbuddie; Elmer Hargrove, Farwell; J. D. Kirkpatrick, Bovina; and Ellis Tatum, Friona.

G. D. Anderson, Jr. was re-

## SATURDAY NIGHT

# Theater Broken Into

Three teen-agers have confessed to the Saturday night break-in at the Elk Drive In theater in Friona, according to Farmer County Sheriff Charlie Lovelace.

The trio was arraigned in Farwell Tuesday, with bond set at \$1,000 each. The main thing that was missed, according to Bill McGlothlin, proprietor, was several cartons of cigarettes, at least nine.

Sheriff's officers recovered six cartons of cigarettes at the time the trio was arrested. Officers said that tracks left by the suspects led to their arrest.

"They tried to wipe out the tracks. They were obliterated for about 100 yards. But there were about a quarter-mile of tracks in all, both footprints and tire tracks -- which gave us plenty to work with," Lovelace said.

In custody are Alberto Flores, 17, who lives near Lazbuddie, Eddie Blanco, 17, who lives a mile east of Friona,

and another youth, who will be tried in juvenile court.

Blanco was arrested in Deaf Smith county Monday. The other two youngsters were arrested Sunday at their homes.

The break-in happened sometime after the drive-in closed Saturday night. The trio gained entrance to the snack bar of

the theater by breaking the glass out of the door to the snack bar.

McGlothlin said it was about the 12th time in the last eight years the drive-in has been burglarized. "I keep a .22 caliber rifle at the theater now. They are lucky they didn't get shot," he said.

# Commissioners Name Project Representative

Farmer County Commissioners Court meeting in regular session Monday appointed Guy Cox to the steering committee of the Running Water Draw commission. The Farmer County Commissioners Court is co-sponsors of the draw project and was entitled to a member on the steering committee.

Tom Lewellen of Friona was

named as alternate for Cox.

Commissioners also set the travel allowance for commissioners at \$75 and for the county judge at \$50 as allowed in article 23500 of Vernon's Statutes. This will be paid out of the road and bridge fund. Two gas line crossing permits were granted also.

The commissioners approved all January bills for payment.

# District ESA Names Nell Walling As Outstanding

Mrs. Mitz Walling, president of Theta Rho chapter of ESA, will compete with members from the state of New Mexico for the title of outstanding member of the state, when convention is held in April in Clovis.

Mrs. Walling was named as one of the top three members of the district at a meeting held Sunday in Clovis. Other district winners are Betty Mahon of Hobbs and Marsha Thomas of Clovis. Each chapter in the state names an outstanding member with entries submitted for the first runoff at

district, then the top three contestants at that meeting compete for the title of state outstanding member.

District winners were presented with gold chain bracelets with tiny heart designs and an inscription signifying the honor.

Mrs. Walling has so far followed a tradition of members of the local chapter who have attained state recognition for work in the local ESA and the community. Last year, Mrs. Pike Jordan won first at district and then won the coveted state title. At the 1960 convention, Mrs. Joe Helton was outstanding member in the state.

Five local members attended the district meeting Sunday Mesdames Helton, Walli Jordan, John Getz and M. Roberts.

Mrs. Jordan was elected as educational director for the district, to serve with officers from Roswell and Artesia.

## Pfc. Smith Takes Part In Exercise

FORT HOOD, -- Army PFC Theodore H. Smith, 23, whose parents, Mr. and Mrs. Dave R. Aylesworth, live in Muleshoe, recently returned to regular duty at Fort Hood, after taking part in the 1st Armored Division's Strategic Army Corps (STRAC) mobility exercise during the Cuban Crisis.

The exercise was held at Fort Stewart, Ga. Smith, a combat demolition specialist in Company B of the division's 16th Engineer Battalion at Fort Hood, entered the Army in November 1961 and received basic training at Fort Carson, Colo.

He is a 1959 graduate of Lazbuddie High School.

## Robbie Foster Receives PHD

Robbie Foster, son of Mrs. Lucille Kirk, San Bernardino, Calif. and the late Tom F. Foster, received his PHD degree in chemistry at the University of Iowa in February. He has accepted a post doctorate award from the University of Arizona, in Tucson, where he will be associated with Dr. C. S. Marvel, world renowned scientist, in research work.

# Who's the hot water champion in Texas?

the modern answer is **gas**

Gas will heat you 40 gallons of water a lot faster than electricity, and for 1/4 the cost! Recovery is so fast with the new gas heaters that the volume of water you have on tap is about twice the capacity of your heater! And some of today's gas heaters "think." When you turn on a hot water faucet full force, the heater automatically increases its temperature. Other gas heaters let you dial 180-degree water for dishes and laundry, or 140-degree water for regular use. Your family will need about 44,000 gallons of hot water this year. Make sure you get the hot water champion. There's only one, and it's gas!

SEE NEWEST GAS WATER HEATERS AT YOUR PLUMBER OR APPLIANCE DEALER

SOUTHERN UNION GAS COMPANY

Your battery may be in fine shape. But it pays to be sure. Drive in regularly for our free battery check-up service. Need water . . . we have it, free. Need recharging . . . we do it. Need a new battery . . . we have one for you.

And when you need quick battery service . . . phone us. We'll be there in a jiffy to get you started.

# Farwell Grads Make Deans List At Southwestern State Texico's Elida Win Ends Play

Mr. and Mrs. Doug Tucker (Mrs. Tucker is the former Pat Aldridge) and Emalee Tucker Lewis, all graduates of Farwell High School, now attending Southwestern State College in Weatherford, Okla. have been named to the Dean's Honor Roll.

Mrs. Tucker is currently taking her apprentice teaching in her professional block. She will graduate in the spring with a degree in English. She will have some work toward her Masters degree when she completes her work this summer.

Doug Tucker is a bio-chemistry and math major and will graduate in the spring. He plans to do advanced work and research in bio-chemistry. He is a member of the American Chemical Society and has been accepted by several bio-chemistry departments to do his graduate work.

Emalee is a junior majoring in elementary education and biology. She plans to complete her college work in three years and start her teaching career in the fall of 1964.

Mrs. Tucker is the daughter of Mr. and Mrs. Sam Aldridge of Farwell, and Doug and Emalee are the children of Mr. and Mrs. R. B. Tucker, Hollis, Oklahoma, former Farwell residents.

Doug Tucker

Mrs. Doug Tucker

Emalee Tucker Lewis

Texico Wolverines thrilled the spectators here for Homecoming Saturday night when they nosed Elida out by one point with a score of 44-43.

The Wolverines gained the lead the first quarter 14-11 but lagged one point behind at half-time, 23-24. At the end of the third quarter they were trailing 29-36. In the final quarter they pushed forth and scored 15 points to their opponents' 7 points to gain the lead and win a ball game for the excited home fans.

Coach Paul Frederick commented that this completed the District play and the Wolverines have a 7-7 record.

Vic Harrington led the local five with 16 points to be high man and Bill Campbell, junior, followed with 9 points. Lieb was high point man for the visitors with 15 points and Rush made 9 points.

The local quintet pushed by the Floyd Broncos there Friday night 64-52. Gaining the lead early the first quarter, the Wolverines held the lead to the end. In the first quarter they gained a seven point lead with a score of 17-10; however the second quarter the teams tied in making 15 points each.

During the third quarter the Wolverines outscored their host team only 3 points and in the final play they made only one point more. The early lead helped the local five gain their victory.

Vic Harrington was high point player with 25 points, Buddy Spence netted 15 points and was followed by Jackie Dyer who had 14 points. McAllister made 21 points for the Broncos and Wood tossed in 13 points.

Coach Frederick remarked that the boys played a pretty good game and were hitting good.

## Local Mans Brother Passes Away, Sunday

Word was received here Sunday of the death of R. M. Cassidy, 65, brother of C. A. Cassidy of Texico.

Mr. Cassidy who lived in Ingleside had been ill for some time previous to his death. He had visited here on numerous occasions.

Burial was in Ingleside Tuesday afternoon.

## Vehicle Owners Reminded Of Inspection Date

Only 23 per cent of the vehicles in Parmer County have been inspected, with the April 1 deadline drawing near, Captain Alan Johnson, Motor Vehicle Inspection Supervisor of the Texas Department of Public Safety, said this week.

Unless the number of inspections is increased appreciably soon, long waiting lines will be forming at inspection stations when the April 15 deadline approaches. "The authorized inspection stations are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline," Johnson said.

"Any driver operating a vehicle registered in Texas, that is required to be inspected, on public roads after April 15 will be operating in violation of the law," he said.

Captain Johnson called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causitive factor in fatal accidents decreased from 13% to 4%.

The purpose of the Motor Vehicle Inspection Program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he pointed out.

The Butantan Institute near Sao Paulo, South America, is a snake farm where snake bite serum is produced.

Mr. and Mrs. Muggs Magness 20-1tc

**CARD OF THANKS**  
We wish to take this means of expressing our heartfelt thanks to our many friends who remembered us so kindly in our hour of bereavement in the death of our baby. Especially do we thank you for the flowers, words of sympathy, and courteous acts.

HUGH AND WILMA MOSELEY 20-1tp

**CARD OF THANKS**  
I wish to extend my thanks and appreciation to my friends and neighbors for letters, cards, calls, visits and flowers during my stay in the hospital at Mountainair and in Clovis, also for the nice food which has been brought and especially for all your prayers.

Sincerely,  
Mrs. Guy Cox 20-1tp

# Setback for Progress on Home Avenue

**B**BUSINESS WAS GOOD... all afternoon the free enterprisers had been piling up business volume...trading with each other. Then Johnny let the ice cream man get off with their nickel.

A competent financial advisor, if consulted in time, could have told Johnny that diverting money from the trade channel upon which his business depends would inevitably depress that business.

Unfortunately, this is an old story. On a far larger scale it's the story of our own community, where out-of-area trading drains off an important amount of our prosperizing lifeblood, slowing down our growth and holding back our progress, endangering our own jobs and businesses, and handing over to the people of other cities and towns the extra benefits we could enjoy by recirculating our money in home trade channels.

# Grain Signups Give Indication Of 1963 Crop

# THE HIGH PLAINS FARM AND HOME

At the start of the week, a total of 196 farms had signed up under the 1963 Feed Grain program, according to Prentice Mills, Farmer County ASCS office manager.

This represented a fraction over 15 per cent of the farms in the county, Mills said. Of those that have signed up, a total of 9,710 acres have been

diverted, and 30,682 acres expected to be planted.

On the basis of what this 15 per cent of the farms have indicated, projecting the percentages for the entire county it would appear that the county would probably wind up with 65,280 acres of feed grain base diverted, and some 206,720 acres planted to grain sorghum.

"This would be in the neighborhood of 15,000 to 18,000 more acres planted than was planted last year," Mills said.

Mills reminded the farmers that if they feel they need a correction or re-consideration of the acreage total printed on the notices they received recently, they have only until Tuesday,

February 19, to file an appeal with the ASCS office.

Advance payments made through the diversion program to date (half of the full diversion payment per farm) totals \$83,221, the ASCS office manager reported.

March 22 is the final date for signing up under the 1963 Feed Grain program.

The details of the 1964 wheat program are due to be announced shortly. The national wheat referendum will be voted on in late May or early June.

"The 1964 program should be very similar to the program we had in 1962," Mills said.

Under this alignment, the farm allotment would be about 10 per cent lower than the

1963 allotment. Diversion payments would be offered for conservation use of acreage not planted in the allotment.

## FOOTSAVING EDUCATION

by James E. Edwards

### How Much Wedge Is Needed To Correct Pigeon Toe?

I would rather guess the thickness of glass to be used to correct an eye muscle defect. I know absolutely nothing about eye correction.

I know the fundamental ideas of foot correction but with every scrap of knowledge that I have acquired there were two, three, four or more warnings, "Beware of Overcorrection." Be sure it is not the knees or hips" etc. etc.

We parents naturally want to do something if our children manifest any abnormality. Too often, shoe clerks are willing to help even though the doctor is opposed to therapy at the time.

A little knowledge is a dangerous thing and foot health is one thing about which everyone seems to have a little knowledge.

Don't guess. Ask your doc-

## WITH THE COUNTY AGENT

DERYL COKER

It's hard to keep from getting the planting fever with the kind of weather we have had, but I have a feeling that something is going to happen, because we are not supposed to have May weather in February.

The 13th Annual Pantech P.R.I. Field Day and sale will be held at Texas Tech College Research Farm, located five miles northeast of the Amarillo Airport on March 14, 1963.

The educational program begins at 10:00 a.m. with the sale beginning at 1:00 p.m.

According to J. P. Smith, the program will be educational, so if you are interested in livestock production, keep this date in mind.

The third Biennial Grain Sorghum Research and Utilization Conference will be held in the Ballroom of the Holiday Vic Mon Inn in Amarillo, on March 12 and 13, 1963.

Some outstanding authorities on grain sorghum from all over the United States have been as-

sembled on the program.

Since grain sorghum is our livelihood I thought you would want to know about this meeting.

From now to planting time a lot of fertilizer will be applied to soils in Farmer county, and it seems to me that not near enough soil samples are being taken.

A soil test recommendations will give the best return per dollar spent. There are many factors about a farmer and his farming operations which a soil testing laboratory can't analyze, but a farmer can put the soil test together with the factors and make a much better decision.

If you are in doubt about how much value the soil test is worth, why don't you take one and try the soil test recommendation against that of your own. If you should do this, I would be very interested in the results.

The owner of a circus was being pestered by a clown to engage him and his pet mongoose.

"My partner is very clever," he said, "he can talk, sing and dance—he is positively human."

"If that's the case," exclaimed the circus owner, "why is he on a leash?" "Because," confessed the clown, "he owes me twenty bucks!"

A WELL-DECORATED feed shock, garbed in its wintry blanket of snow, stands as evidence of the general snowfall in Farmer County this week, the first beneficial moisture since late last fall.

## Linda Rector Is Contest Winner

Linda Rector, granddaughter of Mr. and Mrs. Folster Rector of Route 1, Friona, was judged winner of the Farm Bureau's "Citizenship Seminar" at the regular director's meeting of the Farm Bureau last Monday night.

Linda, sophomore at Friona High School, competed against Janie Bradshaw of Farwell. Each school in Farmer County was requested to nominate contestants. The students spoke briefly on the subject "Why I Am Proud to be an American."

They were judged on scholastic standing, ability to speak to a group of people, initiative and other qualities. Judges were Mrs. Virgil Zeman, Mrs. Pete Jesko and Ed Combs.

By winning, Linda will be entitled to attend a Citizenship seminar next summer. It isn't known at this time whether that seminar will be in Oklahoma City as last year, or whether the Texas Farm Bureau will conduct its own seminar this year. Miss Bradshaw will act as alternate.

Purpose of the seminars is to emphasize the importance of the American way of life to all citizens, and get this idea more firmly implanted in the lives of our youth.

## Deer Status Is Unknown

Whether or not there will be a deer die-off in certain overpopulated sections of South Texas before spring is a question that keeps recurring to biologists working on deer management in this section of Texas. They keep remembering the past. The deer herds built up steadily in this area until the population leveled off in 1955.

A severe drought held the land in its grip that year and ranges were in poor condition. A terrible winter killed off many deer before the warm days of spring brought relief. This was the inevitable work of nature balancing the herds with the available food supply.

Deer populations again have increased steadily in some counties and now they are leveling off at what biologists consider peak populations. Continued cold weather, which retards the sprouting of new grass and leaves, could terminate in an extended wet freezing spell and kill thousands of deer.

The ranges in certain parts of South Texas, especially in Uvalde, Medina and Frio counties, are in a worse condition than they were in 1955 and deer

Newsweek prints a line disgruntled taxpayer wrote to the tax collector: "Now I know what the president meant when he said: 'Ask not what America will do for you—ask what you can do for America.'"

## Magazine Tells Of Rare Prehistoric Life In Texas

"Most people are dinosaur-conscious because of publicity perpetrated by Hollywood movies, oil companies and newspapers and TV comics. Yet, few realize that the dinosaurs represent only one small group of animals that once lived in the rather dim past," writes C. C. Reeves, Jr., in the February issue of TEXAS GAME AND FISH, the official publication of the Game and Fish Commission.

"For instance," explains Reeves, "most people have heard that the great grizzly bear once roamed Southwest Texas, the antelope grazed the Llano Estacado, the black bear beat the East Texas thickets and elk, bighorn sheep and buffalo enjoyed the solitude of various locations. But few people know that great 50-foot 'Crocodiles' once lived in the Trans-Pecos or that 30-foot sea monsters terrorized the seas of southern Texas."

Giant crocodiles, sea monsters, in the Lone Star State? That's right! And Reeves, a professor of geology at Texas Tech., knows his business. According to the geologist, primeval life in the state, in the form of bivalves, first appeared 400-500 million years ago. "But," writes the author, "it was only about 210 million years ago, in what geologists call the Permian Period, that the reptiles and amphibians for which

Texas is best known, suddenly appeared."

There's quite a story in store for the readers of TEXAS GAME AND FISH, about "Far Back Fauna." In fact, the popular magazine has a number of surprise features this month. It has a good one on "Game Guardians," an adventure hunting dinosaur tracks and finding geodes, a very educational article about prairie chickens, hunting snipes with a muzzle loader, a lake story and a very touching poem about a dance in the Brazos brakes. If you're interested in taking the magazine, send \$2.04 to the Commission office in Austin.

# Classing Total Tops Last Year, Final Report Shows

W. K. Palmer, Officer-in-Charge of the Lubbock Cotton Classing Office, reported the classing of current crop to be only a few bales per day, Palmer went on to say that this had been another big year for the South Plains with 2,269,000 samples classed in the three Government Cotton Classing Offices. This is slightly more than the total classed last year. It is expected that a few thousand more samples will be received over the next several weeks.

The Lubbock office has classed 1,799,500 samples to date. This compares with a total of 1,723,305 samples classed last year.

Of the cotton classed in Lubbock this year the white grades accounted for 40 per cent, the Light Spotted grades 55 per cent, and the Spotted grades four per cent.

The average staple length for the Lubbock office this season was 29.9 thirty seconds of an inch. Sixty-three per cent of the

cotton classed was 15/16 of an inch in length.

The Brownfield office finished up the season with total classing at 263,768 samples as compared to 242,676 last year. Of the cotton classed in Brownfield the white grades accounted for 37 per cent, the Light Spotted grades 60 per cent and the Spotted grades two per cent. The average staple length

for the season at Brownfield was 30.3 thirty seconds of an inch. Sixty per cent of the cotton was 15/16 of an inch in length.

The Lamesa office classed 205,728 samples as compared to 302,961 last year. The white grades accounted for 33 per cent of the cotton classed in Lamesa, the Light Spotted grades 61 per cent and the Spotted grades

six per cent.

The average staple length for the Lamesa office this season was 30.4 thirty-seconds of an inch. Fifteen-sixteens of an inch accounted for 54 per cent. The Lamesa office had more cotton that stapled 31/32" or longer percentage wise than the Lubbock or Brownfield office.

Four grades accounted for over eighty per cent of the cotton classed on the South Plains for the season. These grades were Strict Low Middling, Low Middling, Middling Light Spotted, and Strict Low Middling

Light Spotted.

The micronaire readings were good throughout most of the season. Approximately 55 per cent of the cotton classed miked 3.5 or better. The range of 2.7 to 3.4 accounted for 40 per cent. Five per cent of the cotton classed was classed as wasty.

The price quotations have been steady throughout the season. Cotton moving into trade channels on the Lubbock Market has either miked 3.5 or better or has been wasty. Middling

one inch quotation is 33.00, which compares with 33.00 one year ago. For the four grades that made up the majority of the cotton produced on the South Plains the quotations are: Strict Low Middling 29/32" 29.75, Strict Low Middling 15/16" 30.25, Low Middling 15/16" 28.90, Low Middling 15/16" 29.40, Middling Light Spotted 29/32" 29.85, Middling Light Spotted 15/16" 30.25, Strict Low Middling Light Spotted 29/32" 29.05 and Strict Low Middling Light Spotted 15/16" 29.55.

# Cattle Prices Were Lower During Month Of January

A slackening demand resulted in lower prices for fed beef cattle in January. Live prices were down from one to two dollars per hundred weight in some instances and dressed beef showed even sharper declines. Fed calves weighing 635 pounds and down remained in the best demand, according to the latest monthly summary published by the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association. Choice grading cattle were in fair demand, but standard and good cattle over 700 pounds were hard to move.

At Omaha, choice steer beef 600-700 pounds closed January at \$39 to \$39.50, about five dollars below the previous month. Choice steer beef 600-800 pounds was selling in New York a full \$4 lower. Choice heifer beef in Denver sold at the close of January at \$38 to \$40, down from \$43 to \$44 the previous month.

Prices showed more stability on the West Coast and at Los Angeles choice steer beef 500-600 pounds sold at \$43.50 to \$44, down from \$44.50 to \$45. At Houston, choice steer beef 400-700 pounds was quoted at the close of January at \$43 to \$45 compared to \$46 to \$48

the previous month. Calf at the Houston market moved at \$41 to \$43.50 for good weighing 200-375 pound carcasses. This compares with \$44 to \$45.50 the previous month. At the close of January, there was a stronger undertone in the beef trade and indications of improvement were noted.

Extreme cold and dry weather during January contributed to a heavy shipment of small grain pasture cattle to market. Both feeder steers and heifers over 500 pounds were down 25 to 75 cents per hundred. Common and medium calves were lower, but good and choice calves 400 pounds and down sold mostly steady.

Pewter can be cleaned with raw cabbage leaves if rubbed vigorously. Then rinse the container thoroughly after the vegetable massage.

## Farm Facts

Radio-carbon tests of popcorn found in New Mexico's Bate Cave show the corn to be 5,800 years old.

According to researchers, popcorn was used in pagan religious rites. Columbus found the natives in the West Indies wearing popcorn decorations like corsages. The Aztecs wore ceremonial head-dresses with popcorn garlands and decorated the statues of the gods with popcorn.

When French explorers came to the Great Lakes region in 1612, they found the Iroquois Indians popping corn in a pottery vessel with heated sand. One account of the first Thanksgiving also mentions "popped corn" brought to the feast by the Indians.

Popcorn production today is mechanized. It is planted with tractor-drawn equipment and harvested by pickers with special rollers to grab the smaller ears. Then comes a long series of operations—machine shelling, fanning,

Popcorn has been known for 50 centuries.

gravitational separation, polishing, fumigating, and packaging.

In 1961, popcorn production amounted to 400 million pounds of ear corn, second largest crop in history.

ISOLATED CATTLE such as these probably didn't view the snowfall this week with as much optimism as the wheat farmers, who proclaimed that it was a lifesaver to the crop, especially on dryland acreage.

## Turkey Market Expected To Remain Good In 1963

The demand for turkeys is expected to again be good in 1963 but prospects for a crop second only to the record breaker in 1961 could drop prices later in the year, says Marshall Miller, extension poultry marketing specialist.

Despite the 1962 reduction of 15 percent under 1961 production, total supplies of turkeys last year were down only 6 percent due to the record carryover of frozen birds from the year earlier. On the favorable side of the supply picture, Miller says cold storage holdings at the beginning of 1963 were substantially below those of a year ago. Per capita consumption of turkey meat is gaining more year-round acceptance by consumers and this has helped the demand situation, the specialist adds.

Miller says the first indication of a big jump in production for 1963 came in October when a 15-state report of growers' intentions was released.

Too, increases in testing of breeder turkeys for pullorum became especially noticeable during August and September. But, Miller points out that it is still a bit early to forecast definite trends due to the uncertainty of the number of breeder birds to be kept; movement of turkeys out of storage; length of the hatching season; early demand for poult and other seasonal influencing factors.

The specialist believes that prices for the first part of 1963 will average some higher than for the same months in 1962. However, the expected larger crop will cause prices to dip later in the year. Turkey meat, he points out, will continue to be a good meat buy for consumers.

As for the long-time outlook, he says the industry has undergone dynamic changes and these have created strong pressures toward increased production. They have also made output less responsive to price declines. With the advent of large and highly integrated production and marketing combines, with great financial resources, we can expect total turkey production to continue large. The trend towards fewer but larger specialized producers will continue, he says.

**JOHNSON GRASS CONTROL IN COTTON WITH WEEDER GEESSE**

In Tests conducted at University of Tennessee agriculture experiment station for Johnson grass control in cotton. Average yields were highest with geese 737 pounds of lint per A, compare with 697 with the hoe and 668 with the herbicide (dalapon). The soil was somewhat sandy and the herbicide caused some injury to, and delay in maturity of, the cotton.

Net returns were \$143, \$107, and \$106, respectively, for the three treatments. No charge was made for management and care of the geese. The fields weeded by geese and herbicide were essentially free of Johnsongrass at harvest, but not the hoed field. Cotton in the hoed field was hand-picked; it is presumed that yield and grade would have been lower had picking been done mechanically because of reduced efficiency where grass is present.

Call or Write For Further Information ..... **GUTHALS CO.** 1001 E. 1st, Clovis, N. Mex. Phone PO 3-4243

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

There are some bills up before the Texas Legislature that we believe nearly every farmer will want to contact his representative about if he knows about them. One is S. B. 100, by Creighton and Moore, a bill providing that Game Wardens may arrest persons for entering private property without the owner's consent. We believe you will want to support this bill. Farm Bureau supports it.

Companion bill, S. B. 249 by Krueger, is a bill limiting the liability of a landowner for personal injury or property damage suffered by any person while hunting, fishing, etc., on the landowner's property. The House Bill, same wording and intent, is Number 163, by Dungan and Niemeyer. Farm Bureau urges all farmers to write both their senator, (Andy Rogers) and Representative, (Bill Clayton), urging their vigorous support of these two bills. We have heard much discussion about this limiting of liability for landowners under these circumstances among our own people. Now is the time to give your support, while the bills are being considered.

Another bill we believe and hope will receive wide and strong support from the rank and file of Texans is S. B. 338 by Owen, a bill prohibiting the display of the flag of the United Nations on any property owned by the State, County, Cities or any political subdivision. Write Senator Andy Rogers your support on this one, too.

H. B. 338, by Cook, a bill providing for a legal speed of 70 miles per hour on certain highways is scheduled for hearing before the House Committee on Highways and Roads this week. We believe most people will join Farm Bureau in support of this one, too.

Now, some bills all farmers will surely want to oppose by writing their opinions to Representative Bill Clayton; H. B. 461 and H. B. 390, both bills to increase the number of congressmen for specific highly populated counties, such as Dallas, Bexar, Harris, etc. The effect of this type of legislation would be to seriously decrease rural representation in our nation's capitol. Farm Bureau

believes it is limited enough now, with the decrease in the number of farmers in the nation.

If you are opposed to the proposed wheat referendum passage, we don't know of anything that would enhance your chances of preventing it, as well as getting some sensible kind of legislation passed after its defeat, than by joining and supporting your friends in Farmer County Farm Bureau.

CONSIDER THIS: Correction is grievous unto him that forsaketh the way; and he that hateth reproof shall die. Proverbs 15:10.

## THE FLOWER BOX

by Flora Leeds

The Society of American Florists has just published a very colorful and most informative booklet to help you increase your enjoyment of flowers and plants in your everyday living.

Its beautifully illustrated 20-page publication, entitled "Authoritative Handbook on Flowers and Plants... their care and arrangement," provides in concise form a wealth of information helpful to anyone interested in getting the most pleasure from flowers and plants.

The booklet offers excellent care tips on how to "pamper" your flowering and foliage plants so they will thrive, and stay healthy and beautiful. It also gives valuable advice on "do-it-yourself" flower arrangements for everyday living, as well as for special occasions.

Particularly helpful is the booklet's "Minute Master Care Chart." It gives data on the light, moisture and other requirements of specific popular varieties of house plants and flowers.

Copies of the booklet may be obtained by writing to the Society of American Florists, Department PN, Sheraton Park Hotel, Washington 8, D. C. Cost per copy is 25 cents, which includes handling and mailing charges.

In addition to its literature, the non-profit Society has done much to help more Americans enjoy flowers and plants in their everyday living, by disseminating through all consumer media valuable advice on the selection, display and care of flowers.

New Shaping

# Foundation Gives \$50,000 To Screwworm Program

A giant step toward saving the screwworm eradication program in the Southwest was made last Wednesday when the M. G. and Johnnie D. Perry Foundation presented a \$50,000 check to the Southwest Animal Health Research Foundation.

Mrs. Johnnie D. Perry of San Antonio presented the check to Dolph Briscoe, Jr., of Uvalde, SWAHRF trustee, chairman of the screwworm committee, and immediate past president of the

Texas and Southwestern Cattle Raisers Association.

In presenting the check, Mrs. Perry expressed her desire for the SWAHRF to consider the \$50,000 contribution as a memorial to her daughter, Mrs. Johnnie Perry Lloyd. This is the second \$50,000 contribution by the M. G. and Johnnie D. Perry Foundation, Mrs. Lloyd's interest in the screwworm eradication program led to the first \$50,000 contribution by the Perry Foundation on Feb. 6, 1962—exactly one year ago.

In receiving the first check, Briscoe pointed out that the donation was in addition to regular contributions made by Mrs. Perry in those counties in which she had livestock. In accepting the second check for the SWAHRF, Briscoe said the entire livestock industry of the Southwest is indebted to the Perry Foundation for their dedicated efforts toward build-

ing a more prosperous agriculture.

Mrs. Perry and her husband,

the late M. G. Perry, founded the M. G. and Johnnie D. Perry Foundation in 1946 to promote

practical scientific and educational research in South Texas Agriculture.

Located at Robstown, west of Corpus Christi, headquarters of the Foundation include 300 acres of rich, black land. A modernly equipped agricultural laboratory for making analyses of soils, feeds, fertilizers and plants, and a feed mill and feed lots capable of handling 2,000 head of cattle are located here. Livestock experiments include feeding, nutrition, performance, metabolism and marketing studies. Soil and crop experiments, brush eradication, sorghum tests and economic studies round out the Foundation's services.

The Texas Section of the American Society of Range Management will hold its annual meeting in San Angelo, December 7-8, President Don Huss, a professor in the Department of Range and Forestry, Texas A&M College, says that ranchmen and others interested in range management problems have a special invitation to attend the meeting. First session is scheduled for 1:30 p.m. December 7, Townhouse Hotel.

DRIFTS LIKE THIS ONE were common throughout Parmer County after the snow this week which dumped from three to five inches on county farmland.

T. Earle Johnson, professor of speech at the University of Alabama, says: "Keeping a free society free—and vital and strong—is no job for the half-educated and the slovenly. In a society of free men competence is a primary duty. The man who does his job well tones up the whole society and the man who does a sloppy job—whether he is a janitor or a judge, a surgeon or a mechanic—lowers the tone of all society. But excellence implies more than competence. It implies a striving for the highest standards in every form of life. We need individual excellence in . . . political life, in education, in industry—in short, universally. And not the least, we need excellence in standards of individual conduct."

## Farm Facts

While there is controversy concerning the use of agricultural chemicals and general agreement among scientists that more research is needed on their toxicology, there doesn't seem to be any justifiable reason for eliminating their use.

This is the opinion of Dr. V. H. Freed of the Department of Agricultural Chemistry, Oregon State University.

He notes that less than 5% of our land is receiving an appreciable amount of treatment with these materials, that the safety record has been remarkably good, and that there is no acceptable substitute for them.

"The choice that seems to be facing us," says Dr. Freed, "is whether we will continue to accept an insignificant risk in the use of these chemicals or face a disastrous loss in food production—resulting in high prices and the prospect of virulent outbreaks of insect-borne disease.

"The intelligent use of chemicals can avoid this and at the same time offer no substantial hazard to wildlife or man."

## The Old Timer

"One of the hardest secrets for a man to keep is his opinion of himself."

"I have yet to hear of an American business that has endured by shady policies, or by knowingly putting unprincipled men in positions of trust. America just wasn't built that way."—Lammot du Pont.

Farm people now make up about eight percent of the nation's total population but they buy 13 percent of the petroleum produced in this country—more than any other single industry. In 1961 American farmers sold about \$35-billion worth of goods and spent \$25-

PRESENTING AN ATTRACTIVE scene is this field of shocks in Farmer County following the beneficial snowfall this week. Fields which had stubble remaining were able to catch the snow and keep it from drifting as much as in other fields.

### Lazbuddie Youth Honored At Achievement Banquet

Four boys and girls representing the major rural youth organizations in the nation were honored for their outstanding achievements during the Sixteenth Annual Luncheon sponsored by The Cattleman magazine in Fort Worth, Monday, Jan. 28. About 1000 stock show exhibitors and livestock industry representatives were guests at the luncheon.

The honorees were Judy Miller of Gunter, secretary-treasurer of the Texas 4-H Council; Richard Chitwood of Lazbuddie, vice-chairman of the Texas 4-H Council; Diane McKnight of Commerce, Area Six president of the Future Homemakers of America; and Jerry Clark of Buna, president of the Texas Association of the

Future Farmers of America. Each was presented a leather plaque by the Texas and Southwestern Cattle Raisers Association. The plaques were presented by Leo Welder of Victoria, TSCRA president.

In presenting the plaques, Welder paid tribute to the organizations which the young people represented and complimented the recipients on their achievements.

He pointed out that much of the progress in agriculture of the past decade has been due to the training which farmers and ranchers received in their youth as members of the FFA, FHA, and 4-H. This training has not only improved and increased farm production, but has helped to change the image of the farm-

er from a "hayseed" to a businessman.

Welder also emphasized the importance of supporting the screwworm eradication program in its final drive for funds.

The Cattleman magazine is published by the Texas and Southwestern Cattle Raisers Association. Henry Biederman, editor, was master of ceremonies at the luncheon.

Chitwood's parents, Mr. and Mrs. Dee Chitwood of Route 3, Muleshoe, were also guests at the luncheon.

Richard, an honor graduate of Lazbuddie High School, is a freshman at Texas A&M, majoring in Agricultural economics. His 4-H projects have included cotton, grain sorghums and Junior Leadership. He has also been a recipient of the Santa Fe Educational award.
