Services In Levelland For Local Man's Uncle

Funeral services were held Tuesday, July 5, for Dock B. Camp of Levelland, uncle of Mike Camp of Farwell. He was a brother of Joe Camp of Clovis, formerly of Farwell.

Yarnell September 29, 1931, in Ballinger, Tex. Survivors include one son, Buddie Camp of Levelland; two daughters, Gail Porter of Levelland and Dorothy Morgan of Clovis; two brothers, Burnis Camp of Clovis; three sisters, Mrs. Loyd Hollis of Amherst, Rosemary Seymore of Sudan, and Estelle Drake of Littlefield; nine grandchildren and one great-granddaughter. He was preceded in death by his wife, December 30, 1981.

Funeral Here Sunday For Arlington Resident

Funeral services were conducted Sunday, July 3, for Nellie Margaret Donelson of Arlington, Tex., formerly of the Texico-Farwell area. She moved from the local area with her family approximately 25 years prior to her death on June 25.

son of Snyder and Morris Donelson of Dallas; and two sisters, Oleta Boone and Belle Ford, both of Clovis. Her grandsons served as pallbearers.

Services were held at the Farwell Church of Christ with Cecil Bunch, minister of the 21st Street Church of Christ in Clovis, officiating.

Interment services were conducted at the family plot in the Texico Cemetery. Mrs. Donelson was born November 17, 1904, in Nocona, Tex. She is survived by her husband, Walter, of the home in Arlington; two sons, Mal Donelson of Snyder and Morris Donelson of Dallas; and two sisters, Oleta Boone and Belle Ford, both of Clovis.

HPJRA Rodeo . . .

(Continued from Page 1) promptly. "Remember, the contestants must be a student in good standing or have graduated, but must not be over 19 years old as of January 1. No high school dropout will be allowed to enter, the secretary said. She also advised that there will be a \$25 fine for bad checks given for entry fees.

MONDAY, JULY 11 Parmer County Commissioners Court will convene in the county courtroom Monday morning. Farwell Country Club Ladies Association will meet at 7:30 p.m. at the country club. Farwell School Board will conduct its regular meeting at 8 p.m. in the superintendent's office. TUESDAY, JULY 12 Twin Cities Ministerial Alliance will meet at 7:30 a.m. CDT at Luce's. Texico Chamber of Commerce will meet at 6:30 p.m. MDT in the Citizens Bank. Texico City Council will convene at 6:30 p.m. MDT in the city hall.

FHA Office Has Trainee For County Supervisor

The Farwell office of the Farmers Home Administration now has a county supervisor trainee, Lestie Glover.

Miss Glover is a 1982 graduate of Melrose High School and is currently a sophomore at New Mexico State University in Las Cruces. She is in training for the position which she hopes to fill upon her graduation from college. As part of her training, Miss Glover is learning the procedures of the office as well as how to make loans, which is a necessary part of the position. While in training during the summer months, she lives with her parents, Mr. and Mrs.

Frank Glover, in Melrose, commuting each day.

She will probably be placed in a different office each summer until her graduation from college, with each summer bringing a higher pay scale and more responsibility, according to Bill Boling, County Supervisor of the FHA office in Farwell.

"I really enjoy the work and would probably like to stay in the Southwest after I graduate," says Miss Glover. Boling says he is very glad to see her train for the county supervisor position because there are so few women supervisors in the FHA Administration.

New Trainee

Farmers Home Administration trainee, Lestie Glover, will be spending this summer training for the position of county supervisor under the direction of Bill Boling, County Supervisor of the FHA office in Farwell. Miss Glover is a sophomore at New Mexico State University in Las Cruces. Her training program includes learning the office procedures and how to make loans. She will be training each summer, accepting more responsibility with each summer's experience.

Cotton Crop Growth Behind Schedule

LAS CRUCES - The New Mexico cotton crop is behind schedule in growth, according to Alto Bailey, farm and ranch demonstration specialist with the New Mexico State University Cooperative Extension Service. "Land preparation was delayed due to late winter rains and snow. Soil temperatures remained too cold for normal planting time, consequently, planting was delayed," Bailey said.

irrigation on the crop's progress by late August, and long range weather forecasts. It may be best on heavy soils to make the last irrigation no later than August 25," Bailey said.

"Along with these problems, unseasonably cool temperatures have prevailed as of mid-June. This is the second straight year that cotton has suffered a late start in New Mexico."

Because of the slow progress of this year's crop, growers should plan irrigation schedules and fertilizer use so as not to delay maturity of the cotton, Bailey said.

"Fertilizer should be applied no later than early July, and the last irrigation should be made no later than September 1," the specialist advised. "Individual cotton growers can base the timing of the last

FIRE CALLS

Texico Volunteer Fire Department received two calls since the last report, including an ambulance call Wednesday, June 29, to the site of a car wreck in front of the Playorama in Texico. The firemen transported an accident victim to Clovis High Plains Hospital. They received a fire call Thursday, June 30, 1 1/2 miles west of Texico to extinguish a grass fire on the railroad right-of-way.

Farwell Volunteer Fire Department received three calls, including a fire call to the potato shed at Lariat on June 30. Also on Thursday, the ambulance was called to a residence on Avenue A to transport a patient to Clovis High Plains Hospital.

The fire trucks were called to a residence on 5th Street Friday, July 1, to extinguish a smoldering furnace.

TELL OUR ADVERTISERS YOU SAW IT IN THE TRIBUNE!

Funeral Wednesday For Bobby Goforth

Funeral services were conducted Wednesday, July 6, for Bobby Goforth of Austin, son of Mr. and Mrs. C.E. Goforth of Texico, at the Farwell Church of Christ, with Ralph Gates, church minister, officiating.

Cook of San Antonio, and Susan Tipton of Tahoka; and his grandmother, Bessie Moore of Farwell.

He is also survived by five aunts, Nannie Goforth, Margaret Goforth, Mary Jones, and Rosie Jones, all of Texico, and Catherine Cote of Clovis; and an uncle, Joe Goforth of Texico.

Mr. Goforth, 26, died Sunday, July 3, as the result of an automobile accident near Temple, Tex. He was born January 2, 1957, in Clovis and was reared in Texico, attending schools and graduating there. His residence had been Austin for the past eight years where he was employed at an elevator manufacturing company. Surviving are his father and stepmother, Mr. and Mrs. C.E. Goforth (Woody and Ruby) of Texico, and his mother, Marie Denson of Denton, Tex. He is also survived by three brothers, Roland Goforth and Steve Chancy, both of Texico, and Eddie Ray Denson of Denton; three sisters, including his twin, Dorothy Jane Goforth of Georgetown, Tex., Carol Ann

He was preceded in death by a brother, Joe Edd Goforth, August 23, 1975. Pallbearers at the services were Oran Jay Autrey, Roy Hagler, Ernest Woods, Ricky Hendrix, Terry Reid, and Larry Albright. Steed-Todd Funeral Home of Clovis was in charge of arrangements for the funeral services and interment.

Acres Down

Wheat Harvest Nears End, Record Yields Reported

Area farmers are expected to be finished with the current wheat harvest by the end of this week, according to reports from local and area elevator operators.

This year's area winter wheat production has run the gamut from almost record yields for irrigated wheat that had no hail damage to almost record low yields on the other end of the scale for the hail ravaged acres.

Martin Chandler, Executive Director of the Parmer County ASCS office in Farwell said of the current harvest, "It's rolling along really smooth. They

are more than halfway through." He reports that he has heard of yields ranging from "real poor" to possibly a record on the high end.

A spokesman at Worley Mills in Farwell said that wheat was coming in there "one customer at a time."

"We haven't had as much wheat come in this year as we did at this time last year," the Worley spokesman said.

Lonnie McFarland of Sherley-Anderson Elevator in Lariat reports that harvest in that area is about 85 to 90 percent over. He said he expects most wheat

growers to be finished with harvest by the end of the week at the latest. He says that the yields are ranging from 105-110 bushels per acre on the top end to considerably lower on the bottom of the scale. He has estimated the overall average in yields to be between 75-80 bushels per acre, with the average for irrigated wheat that did not receive hail damage, to be approximately 80 bushels per acre.

"It's exceptionally dry wheat. It's the driest I've seen in years," he said.

The elevator at Lariat has taken in an approximate 250,000 bushels of wheat since harvest began, and the final total is expected to be somewhat higher.

"The harvest is short this year compared to last year because of the hail damage and the PIK program. PIK has almost cut the wheat growing in

half," says McFarland.

Sherley-Anderson-Pitman in Farwell reports that their harvest was about 75 percent over with approximately 200,000 bushels having been received at that point last week.

"It's been some of the best yields I've ever seen, with the irrigated wheat yielding up to 95 bushels per acre and the rest ranging from 60 bushels up," says Fred Chandler of Sherley-Anderson-Pitman.

He reports, as do the other elevator spokesmen, that the quality of this year's harvest is very good.

Golden West Seeds in Texico reports harvest in their area almost over with the number of loads being considerably fewer than at this time last year due to weather and the PIK program.

David Williams of the Farmers Cooperative Elevator in Clovis also reports harvest in the Clovis area almost over. "They should be finished by the end of the week if there are no complications," says Williams.

He also reports the yields on the dryland wheat averaging between five and 40 bushels per acre, with the irrigated crops ranging from 25-82 bushels per acre.

Gets New Look

Southwestern Public Service Company is helping the city of Farwell with its beautification project by putting up a six-foot spruce fence around the front and sides of its substation on

Main Street which supplies electricity to Farwell and Texico. The back side of the station will not be enclosed in fencing, allowing air to circulate around the transformers to keep them

from over heating, according to Jim Milsap, spokesman for Southwestern Public Service. Work on the fence was done by Crowder Construction from Clovis.

In 1780, the population of the U.S. was 2,781,000.

NEWS OF HEALTH

It's estimated that five million Americans have diabetes and don't know it, and even those who are aware that they have the disease often do not know how to manage it. Diabetes, a disorder in which the body does not produce or effectively use its hormone insulin to control the level of sugar in the blood, can have complications that affect various parts of the body, such as the eyes, heart, kidney or brain. Fortunately, diabetes can be controlled, and more and more people with the condition are learning all they can about it so that they can take greater control over their lives.

Diabetes patients are learning how to monitor their blood glucose levels at home through the use of the latest technology.

adjust usage according to changing needs and daily activities.

It's a learning experience that medical experts say can greatly enhance the treatment the patient gets from his or her personal physician. Patients who complete the program have more confidence and a greater understanding of their individual treatment program, and the result is a better working relationship, in many cases, between the patient and physician as well as a patient who will be taking better care of his health.

A new five-day program is helping diabetic patients learn how to manage the disease on a day-to-day basis. At the Diabetes Self-Care Program in Dallas, a trained staff headed by two highly respected endocrinologists, registered nurses and dietitians, and an exercise physiologist, teach patients how to monitor blood glucose levels at home through the use of the latest technology, how to use exercise and diet to control blood glucose levels, and, for those patients on insulin, how to

For free brochures, write to the Diabetes Self-Care Program, 1330 River Bend Drive, Ste. 700, Dallas, TX 75247, or call (214) 630-4456.

Cutting Horse Classic Slated For Amarillo

More than 200 of the nation's top five-year-old cutting horses and their riders will be in Amarillo July 13-16 for the National Cutting Horse Association (NCHA) Five-Year-Old Classic.

At stake will be more than \$151,000 in prize money. The event is being sponsored by The Outfit Club, a group of area businessmen and ranchers dedicated to preserving the western heritage of the Texas Panhandle. In addition to providing manpower, the Outfit will add \$10,000 in cash to the purse, according to Club president Rusty Tinnin. The NCHA is adding \$25,000 to the purse also.

Action gets underway on Wednesday with the first go-round of competition which continues on Thursday. The top 150 horses from open and non-pro divisions (for riders who do not ride or train cutting horses for pay, other than premium money) will advance to the second go-round on Friday. From Friday's competition, the top 30

head will advance to Saturday's Classic Finals, to begin at 7:30 p.m.

Five judges will judge each horse, with the highest and lowest scores thrown out of the total. Judging is from 60 to 80 points with 70 denoting an average performance. After the high and low scores are eliminated, top runs should approach 75 points, for a total score of 225.

The Classic marks the return of top cutting horse competition to Amarillo. Since 1974, the NCHA World Championship Finals were held here, but were moved to Houston in 1982, after outgrowing the facilities at the Fairgrounds.

Tickets for the event are \$4 per day for adults with children under 12 admitted free. Tickets for Saturday evening's Classic Finals performance will be \$5 for adults. The Amarillo Board of Convention and Visitors Activities is furnishing the Tri-State Fairgrounds facilities for the event.

The explosive TNT is Trinitrotoluene.

For 4-H'ers - -

Swine Project Benefits Explained By Specialist

[Editors Note: Dr. William B. Thomas, Extension Swine Specialist, wrote the following article explaining the benefits of a swine project to the 4-H Club members who take on such projects. Many county and area youth have been involved in a special part of their swine projects, that of taking them to stock shows and exhibits.]

4-H programs help develop winners and the experience of participating in 4-H program projects can be used for self expansion of the 4-H member.

Just as a baseball can be used as a tool to help a youngster become a professional athlete, a pig is a tool parents and 4-H leaders can use to help a youth attain goals and develop as a person.

A considerable amount of thought and planning should take place prior to initiating a pig project to assure success. What is the objective of the project? What learning experience is desired? How will this "tool" aid in the development of the youth? Parents and leaders must also determine their commitment to the project. Poor or undesired results usually are caused by a lack of

a plan with a definite goal. Mere participation will not produce winners.

Three kinds of swine projects currently are being conducted by 4-H'ers in Texas: 1) Feeding market swine for show, 2) The sow and pig or breeding project, 3) Feeding pigs for market. Each has its own merit and the desired results will determine the activity, provided facilities to adequately conduct the project are not a limiting factor.

FEEDING MARKET SWINE FOR SHOW

This project, commonly referred to as the show barrow project, exposes the 4-H'er to competition. However, competition in a barrow show is rewarding only when there is a desire of the exhibitor to win, to excel, to be successful, to do the best job possible. The major reason for involving youth in this activity is to develop winning attitudes. Sportsmanship and pride of ownership should result from participation. It also provides an opportunity to be involved in an activity together, provided moms and dads support the project. Parental participation through encouragement, yes,

even physically caring for the project at times when the 4-H'er is involved in other activities, contributes to the success of the project and the possibility of attaining the goal. Aside from the fact that 4-H'ers learn about swine selection and the responsibility of caring for a live animal, little "swine husbandry" is learned. Show barrow projects are practical only if goals pertain to the development of attitudes of youth. Contrary to popular belief, the 4-H'er will make no money from this type project unless it is a winner. The cost of the pig, feed, transportation to 4-H meetings, four days at a livestock show, etc., should theoretically be charged to the project. Keep the goal in mind. If it is to make money, then chances are that a job packing groceries or driving the farm tractor will be more successful, especially when all costs are considered.

THE BREEDING PROJECT

Breeding projects expose 4-H'ers to problems and rewards faced by commercial pork producers and could establish the youth's interest in pork production as a vocation. Many of the leaders within the Texas

pork industry started with a swine breeding project.

As in commercial production 4-H swine breeding projects require facilities to adequately and efficiently produce pigs and adequate time (2 to 5 years, depending on the market) to pay for modest yet efficient facilities. Though this is a long term project, the rewards can be great. Youth or participants are involved in record-keeping and daily management activities. Swine selection, breeding, feeding, health and sanitation, facilities and equipment, and marketing are areas of management that provide a learning experience for the club member.

There is some degree of flexibility in the project since pigs can be sold as feeder pigs at weaning, developed and shown in breeding or marketing swine shows or finished to slaughter hog weights.

FEEDING PIGS FOR MARKET

Feeding pigs for weaning to slaughter weights, whether produced from a breeding project or purchased as feeder pigs, requires less time than breeding projects and management is less intense. Approx-

mately 3.5 to 4 months will be required for the project. Purchasing quality feeder pigs, feeding balanced rations for efficient production and marketing for maximum returns are learning experiences for club members involved in this project. This project does not lend itself to urban areas because of odor and it requires a larger amount of operating capital for the feed needed. Added to the breeding project, however, it does give the 4-H'er a complete pork production experience.

Other 4-H activities supportive of swine projects are livestock and meats judging, veterinary science projects and involvement in pork demonstration and public speaking activities.

Success with any project is a result of total commitment on the part of 4-H members, parents and leaders. Having commitments and goals in a swine project can help prepare winners for life.

Irrigation Field Day Set July 14 At Hub

A Field Day will be held Thursday, July 14, at 9 a.m. at Hub on Phil Johnson's farm (southwest corner of intersection of Highway 86 and FM Road 214).

The new technology of furrow irrigating with "Surge" irrigation equipment will be shown. The advantages and disadvantages of the use of such equipment will be discussed by Jerry Walker, Agricultural Engineer on the Soil Conservation Service Irrigation Team at Amarillo.

Also, an irrigation well will be evaluated for pumping plant efficiency. Leon New, Agricultural Engineer with the Agricultural Extension Service, will be available to answer any questions on pumping plant evaluations.

The use of gypsum blocks for determining when to apply

irrigation water to crops will be discussed along with the SCS-ARS Co-op Study being conducted on the farm.

Everyone interested in the techniques of improving irrigation efficiency are invited to attend this field day sponsored by the Parmer County Extension Service, Parmer County Soil and Water Conservation District, and the Soil Conservation Service at Friona.

To State Horse Show

Robin Houlette of the Friona 4-H Club was one of 20 4-H Club members who qualified for the State 4-H Horse Show after the South Plains District competition held in Lubbock. Also

representing Parmer County in the state event in Waco July 26-30 will be Kara Camp of the Oklahoma Lane 4-H Club who will participate in the two-year-old Futurity Class, an invi-

tational event. Robin placed second in barrels, second in stake race, fifth in pole bending, and fifth in Western Horsemanship to qualify for the state competition.

Parmer 4-H'ers Qualify For State Horse Show

Lubbock - Twenty top riders advanced to the State 4-H Horse Show after a day of close competition in the annual South Plains District 4-H Horse Show. Eighty-eight young horse enthusiasts from the 20-county district participated at the South Plains Fairgrounds here.

Parmer County 4-H'ers who qualified for the state show in Waco on July 26-30 were Robin Houlette of the Friona 4-H Club and Kara Camp of the Oklahoma Lane 4-H Club. Kara will participate in the two-year-old Futurity Class which is an Invitational Event.

Winning honors from Parmer County were Robin Houlette, Friona 4-H, fifth in Western Horsemanship, fifth in Pole Bending, second in Barrel Race, second in Stake Race; Kelley Cash, Friona 4-H, first place grade gelding (all ages); J'Mai Cash, Friona 4-H, fifth, Western Horsemanship, tenth, Western Riding;

Also, Lacye Osborn, Friona 4-H, eighth, registered mare (under 5); Shay Shirley, Friona 4-H, ninth, registered gelding (5 and over); Tiffany Osborn, Friona 4-H, ninth, Stake Race; and Kara Camp, Oklahoma Lane 4-H, tenth, Barrel Race.

Other 4-H'ers from Parmer County in the competition were Beth Johnson, Dustee Gee, Ashlee Gee and Karla Wright from Friona 4-H Club, and Randy Davis from the Oklahoma Lane

Tod Bradley of Castro County.

Qualifying for the state show were Shea and Toby Floyd of Gaines County; Tod Bradley, Kim Howell, Kennen Howell, Jill Smith, and Joel Nelson of Castro County; Kristi Hancock of Terry County, Stephanie Weaver of Scurry County; J. Brett Foster of Swisher County;

Also, Robin Houlette of Parmer County; Therese Conover, Cindy Greaves, Dusty Greaves, Chris Caddel, and Anna Bartos of Lubbock County; Shawndi Geissler, Sharman Stephens, and Jeri Bean of Lamb County; and Kristi Spies of Bailey County.

Alternates, in order of placement, are Debra Wilson, Scurry County; Stephen Cooper, Lubbock; David Trimmier, Hale County; and J'Mai Cash, Parmer County.

FOR DECADES, THE SPIT-SHINE POLISH ON A SOLDIER'S COMBAT BOOTS WAS A MATTER OF PRIDE!

SOON, THE ARMY WILL SWITCH TO EARTH-BROWN, ROUGH-LEATHER FOOTWEAR THAT RESEMBLES A HIKING BOOT. UNLIKE ITS SHINY PREDECESSOR, THE DULL SURFACE CAN'T BE DETECTED BY ELECTRONIC SURVEILLANCE GEAR-- AND IT NEVER NEEDS SHINING!

Public Notice

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's

Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR SOUTHWESTERN BELL MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.
