**Kelley takes
8th contest**

Scores tumbled in last week's Area Merchants Football Contest as upsets prevailed among the contests involved.

But three participants managed to get 10 games picked correctly. By virtue of being closest to the tie breaker (Texico 24, Springer 0), the winner of the first place cash prize of \$10 was Clint Kelley. He was 16 off the tie breaker.

Winning the second place cash prize of \$5 was Jill Boyd, who was 21 off the tie breaker. Also with 10 right was Jori Fiola, who was 34 off the tie breaker.

With 9 right were: John Ausburn, James Chadwick, Alan Hamilton, Erma Hernandez, Rick Ketcherside, Maria Lucio, Robert Montanez, Sheree Montgomery, Domingo Orozco, Jeremy Ortiz, Harrol Redwine, Carolla Smith, Frank Vega and Crystal Castillo.

Results of last week's contest were: Floydada over Muleshoe, Tucumcari over Portales, Lazbuddie over Whitharral, Texas Tech over Baylor, TCU over Houston, Utah over Colorado State, Virginia over North Carolina, New Mexico over New Mexico State, New Orleans over LA Rams, Pittsburgh over NY Giants, Washington over Indianapolis, and Detroit over Chicago.

**Threats
reported
against
mayor**

Alleged threats against Mayor Butch Tharp and animal control officer Dan Walterscheid have been reported to the Curry County District Attorney's office, Tharp announced at Tuesday's City Council meeting.

Some Texico residents haven't been happy with how Walterscheid is carrying on his duties.

Tharp said Texico residents had gone to Walterscheid's home in Farwell - 3 at one time, and 3 again later - to cuss him and make verbal threats, in front of his children. And Tharp said he has been called on the phone and threatened.

"So I contacted the District Attorney's office," said the mayor. "If folks have a problem, they can call me and discuss it in a civil manner."

D.A. Randall Harris told the Tribune Wednesday that he needs a written letter from Tharp before he can proceed with an investigation. So far, Tharp only has contacted him verbally.

Present at the council meeting were assistant Deputy Attorney Tim Hartley and D.A. office investigator Jim Skinner.

Laura Gaddis attended the meeting to complain that she was told Walterscheid had gone into her yard to take her small dog. She said her dog has not caused anyone a nuisance.

Tharp replied that he has instructed Walterscheid that if a dog just stays on private property, he is not to pursue the animal. But if he is in pursuit of a dog, it's okay to go onto private property to get him.

Tharp said Walterscheid has been accused of entering enclosed yards to take dogs but this cannot be verified.

Tharp continued that if the owner of the dog is known, Walterscheid is to contact the owner and tell him the dog is in violation and the owner must control the dog. If that isn't done, a citation is to be issued. And if Walterscheid cannot find the owner, he is to pick up the animal.

"We can't make exemptions about dogs running loose," said Tharp, indicating that small dogs couldn't be favored over bigger dogs.

**Turn your
clocks back**

This is a friendly reminder that Daylight Savings Time ends Saturday at midnight.

Don't forget to set your clocks back one hour at midnight Saturday.

Remember ... spring forward, fall back.

This is one time when I wholeheartedly believe the candidates

Y'know, folks, I've been concentrating on those political ads that have been running on TV and radio lately.

With an election coming near, I want to be an informed voter. Thus, I listen closely to the messages thrown at me.

A lot of the ads have involved the gubernatorial race in Texas and the senatorial and congressional races in New Mexico.

They seem to follow a similar theme: the opponents of those buying the ads are pathetic liars - or worse.

I believe what our leaders are saying in those ads. With all my heart. Their message is simple: the folks who represent us at the highest levels of government are a bunch of liars.

You see, when I've written critical comments about our politicians in the past, a bunch of you readers probably thought I was just voicing my own extremist, weirdo views.

No. I was simply echo-

Border Banter

By Mike Pomper

ing what our governors, congressmen and senators themselves are saying: that folks who run for these offices, whether they are incumbents or not, are a pack of liars.

This is one area where I am in complete agreement with our representatives in Washington, Santa Fe and Austin.

It's too bad these folks don't realize the humor in what they are saying: They're asking us to pick between liars to represent us. That's their words, not mine.

That's why it's important to go to the polls and vote for the liar of your choice.

And how do they get to be liars?

Is it the way they were raised? Did they learn it at school? Or is that how you rise to the top of the political structure in the U.S.

To me, what it shows is that it's not the creme de la creme that rises to the top. Thugs have a better chance at becoming U.S. congressmen than honest folks.

On a more serious note, here's how a lot of the "lies" are derived.

There are lots and lots of votes that politicians have to participate in where they have to vote "no" on. These votes either involve a bill pushed by the opposite political party or a bill which may contain some goodies, but also some stupidities.

Thus, a bill may come up for a vote that calls for more defense spending (okay), more help for senior citizens (okay) and a program to start sex education in pre-kindergarten (dumb).

So the politician votes against this bill because of the dumbness. So what do the political ads scream out in the next election? That the politician voted "against" more defense spending and help for senior citizens.

Clever, isn't it? And don't blame the ad agency for these distortions. They must be approved by the candidate or his representatives.

Well, folks, that tells you about the types of people who rise to the top of the political ladder in today's climate.

And that also tells you why I've been turned off by what I see.

But the ad that I really have enjoyed has been run by an area congressman who points out how government is against the people and folks need to elect him to fight against government.

The problem is he's an

incumbent - he's part of the problem. In other words, he's suggesting that folks vote against him.

I find that amusing.

From Teresa J. Mesman:
A few weeks ago, there was a letter to the editor in the Tribune from the Farwell PTA concerning the condition of the playground area in the Farwell city park.

I read it, but really did not think that it could really have been as bad as what the writer of the letter had described. (I guess I really didn't want to believe that the kinds of things described could really be going on in our community.)

Last Friday, however, I had a wake-up call. Because it was such a beautiful day, I took my 3 year old son over to the park for a few hours. I was shocked, to say the least. Thankfully, my son is not able to spell yet, because if he could, he would have been spelling out the most vile and vulgar words possible. It was disgusting.

I went through several emotions of disbelief that our children are exposed to this kind of thing and why do children think that it's "cool" to

deface public property with their own names. As a young person, I would have never dreamed to write my name in a vulgar phrase, let alone put my whole given name!

Don't these kids ever stop to think that someone they know may be reading these things, possibly even their parents? Do their parents care that their kids are doing this kind of thing?

I called Cynthia Thigpen at Farwell City Hall to ask if any recent actions have been taken to clean the equipment and the tables up. She too is exasperated. She explained how expensive the chemicals are that are used to clean the equipment and how they can clean off the graffiti one day and the very next day it's back.

People, do we have ghosts in the park? Does no one ever see the kids/adults/idiots who sit on and in the playground equipment with black magic markers practicing their vulgar penmanship?

The solutions to this problem are many, but all very simple. Report the hoodlums to the police. Make them pay the fines for the crime. It is a crime.

Perhaps, making them clean

the equipment every week for, oh let's say, a year would make them more conscientious of their actions. It might even get their friends to stop.

We could make it a community event, get the civic clubs involved in a cleanup day. But why should they? Obviously, the offenders view the newly cleaned equipment and tables as a "clean slate" on which they can express themselves again.

Or here's another solution: let's write down (on real paper) the names of the people described in the phrases and track down their address and phone number. Hand it over to the police. Then, the police could find these people, inform them that upon such and such day and time, they will be present to clean up the equipment.

And, if no names are mentioned in the graffiti, maybe a reward could be offered for turning in the culprit who's doing it?

I'm really getting on my soap box about this. As citizens of Farwell, the park is your property. Preserve and protect it. Take a walk over to the park and see it for

Audrey Kittrell complained about the length of time it takes for Walterscheid to get to the school after a call about animals is made.

Tharp and councilwoman

(Continued from Page 1)

Carolyn Burrows replied that being animal control officer is a part-time job and Walterscheid has another job. Mrs. Burrows said in the first three months, Walterscheid had picked up 5 dogs. "And that's made a very little dent, which shows the magnitude of the problem" she added.

After the meeting, Tharp complimented Walterscheid on his work. "He is doing his job and I have encouraged him to stay on it."

In other business, the council:

- Approved mobile home variances for 805 Anderson and 416 Turner by 2-1 votes. Mrs. Burrows votes against all such variances. In favor were Ronnie Warmuth and Rick Qualls. Oran Jay Autrey was absent.
- Revised the animal control ordinance, basically to increase penalties.
- Heard Tharp report that both city water wells went down last Friday morning.

One was up again after a new heater was installed. A new motor, costing \$7,600 was needed for the other well.

- Discussed an old barn in the 700 block of Turner being used as a club house for kids. The area is an "ungodly sight," said Texico Marshal Gil Holguin. The fence around it has been partially pulled down. Holguin was instructed to contact the health inspector to begin the work needed for seeking to have the structure demolished.

Farwell loses to Vega

The Farwell Steers lost to the Vega Longhorns at Vega last Friday, 35-12.

The Steers, 2-1 in district and 3-5 overall, host Claude tonight (Friday) at 7 p.m. at W.M. Roberts Stadium.

It's fair to say that the calls seemed to go against Farwell, especially when the Steers made some big gains. Farwell still outgained Vega in total yardage, 310-186 - but lost by 23 points. Turnovers also hurt Farwell.

Running back Landon Lunsford severely sprained his ankle during the game.

The game started with Vega returning the kickoff 80 yards for a TD. The kick made it 7-0.

Farwell was held and punted to the Vega 31. Michael Phillips recovered a fumble on Vega's first play from scrimmage. Farwell went for it on 4th and 1 at the Vega 20 but was stopped.

On defense, Justin Mahaney had a big tackle. Tacklers also were made by Lunsford and Chase Stephens. Vega punted.

Farwell fumbled the punt and Vega recovered at the Steer 42. Mahaney had a good tackle. Vega was stopped at the 28 when Mahaney tackled the pass receiver.

On offense, Lunsford ran for 10. Then Brock Anderson scampered for a 58-yard TD at 1:03 behind some excellent downfield blocking. The kick missed and Farwell was down, 7-6.

In the second quarter, on defense, Mahaney had a strong tackle. Vega punted to its own 43. Anderson hit Chase Hardage with a 28-yard pass. Nic Ketcherside ran for 8. But Farwell lost a fumble at the Vega 5. On defense, Anderson and Blaze Hardage had good tackles. Blaze Hardage also had good pass coverage. Vega punted to the Farwell 33. Farwell was held and punted to midfield.

Mahaney had another good tackle. Vega was stopped and punted. Farwell lost its third fumble at its 25. A penalty moved the ball to the Farwell 12. Vega scored from the 1 with 14 seconds left in half to take a 13-6 lead.

Farwell opened the third quarter at its 16, was held and punted to midfield. Lunsford had a good tackle. But Vega moved the ball on the ground and scored from the 1 at 6:25 to take a 20-6 lead.

Farwell fought back. Blaze Hardage caught a 31-yard pass from Anderson. Lunsford gained 8, then 19 yards. On 4th down from the 1, Anderson scored. The pass for extra points failed and Farwell was down 20-12 at 3:13.

On defense, Mahaney and Jesse Chilton had good tackles. Vega was held and punted. Lunsford was hurt at the start of the final quarter.

Jason Taylor recovered a fumble at the Steer 34. Farwell was held and punted. Vega connected on a 77-yard pass play

to take a 27-12 lead at 7:51.

Ketcherside had a nifty kickoff return to the Farwell 41. Farwell was held and punted. Michael Treadway had a QB sack. Vega punted. Farwell lost its fourth fumble and the ball was picked up by a Vega player, who ran 65 yards for a TD.

On offense, Anderson ran for 10. Blaze Hardage caught a 24-yard pass. And on the last drive Jason Taylor caught a 17-yard pass. With 22 seconds left, Vega intercepted at its goal line.

Stats were: Anderson ran for 11 yards. He hit 6 of 16 passes for 127 yards. Lunsford ran for 42 yards. Ketcherside gained 34. Chase Hardage caught 3 passes for 57 yards. Blaze Hardage caught 2 passes for 55 yards.

Comments from Farwell coach Stan Stroebel: "We just couldn't get the thing rolling. Every time we tried to pull out of the hole, we got a penalty or a turnover and the momentum just never got back on our side. We've got the next game to look forward to and it's a big one. It's the most important game we'll play because it'll determine our fate. We're still in great position to make the playoffs."

Here's how Texico's Parent Link system works

by Teresa Mesman

The Texico Schools have joined the age of modern technology with the installation of the new Parent Link messaging system.

This system is quite unique and will prove to be very useful to parents and teachers alike. It is a combined voice mail and messaging center that allows itself for many other uses.

Presently, the system is being used for reporting absences, school activities and assignments. The way it works is very simple: The parent can call the number and punch in the box number for the selected teacher and class. The parent then hears a recorded message from the teacher telling about upcoming projects, homework and test dates.

It is also used by the teachers to call parents to report on how their son or daughter is doing in a particular class and for keeping the public informed on upcoming school activities. The Link will actually call a number and repeat a recorded message or will leave a message on an answering machine.

Arthur Salguero, counselor for Texico Schools, explained that the system will efficiently interface with the school computers and printers and enables the school to print out the list of absences and other lists important to the daily business of the school. Each teacher has 10 "boxes" and can put all the information for each of their classes into separate boxes, much like post office boxes.

He feels that the parents will enjoy this system and that it's a good idea for the school to have it. "It's so important for the parents and teachers to communicate, but it's not always possible for them to get together on a regular basis. The Parent Link lets them hear from each other and the students benefit from each side being informed," Salguero said. Another use for the system is for taking surveys for the school. It automatically tabulates the totals and percentages.

Supt. R.L. Richards explained how the Parent Link was brought into the school system. During the 1994 New Mexico Legislative session, Senate Bill 372 was signed by

the Governor and enacted. This bill approved money to be allocated for pilot projects throughout the state. The telephone messaging system was one of these projects. The state department sent out letters to all the schools in the state introducing this system. The Texico Booster Club suggested that the school apply for this grant and get the

system. Rick Stanley and Brandon Schauf wrote the grant and within due time the grant was awarded.

"We were pleased that we didn't have to come to the community to get the funds necessary for the system," said Richards, "and it is such a plus to the community because it will improve student instruction and parent-staff communication. It also doesn't tie up any personnel to take absence and personal messages."

There is a complete directory available to parents and the community. These directories can be picked up in the high school office and will also be sent home with the students.

Wolverines earn state playoff berth

by Greg Bass

The Texico Wolverines have clinched a spot in the state playoffs.

They accomplished this by shutting out Springer at home last Friday, 24-0. Texico is 1-0 in district and 5-4 overall.

Texico is in a district this year with two other teams, Springer and Fort Sumner. Two of the teams go into the state playoffs. Texico finishes the regular season at Fort Sumner tonight (Friday). Next year, Mountaineer will be included in this district.

The shutout of Springer marked 15 straight quarter shutouts against Texico opponents.

The Wolverines won the coin toss to start the game and chose to receive the ball. The offense had some trouble scoring in the first half. However, the defense had a field day with the Red Devil offense, holding them from any scoring.

Pat Chumley, Clyde Jenkins, Hadley Gilbert, Joel Barba, Kip Taylor, Cody Drager, Clint Hamilton and Bill Hutchens lit up Springer's offense with some great teackles in the first two quarters of the game.

Gilbert, Barba and Ruben Escamilla had some great pass coverage that made it difficult for the Red Devils to complete any passes. And Drager recovered a Springer fumble that helped.

On offense, Escamilla, Gilbert, Drager, Hamilton and Tobie Askew played well. Texico's offensive line played a great game, shoving Springer out of the way to make wide open spaces for the Wolverine offense.

After a scoreless first quarter, Texico got on the scoreboard in the second quarter when Luis Trillo connected on a 37-yard field goal ust before intermission. The teams went into halftime with Texico ahead, 3-0.

The Wolverines added a TD in the third period at 7:31 on a 1-yard TD plunge by Gilbert. Trillo's kick made it 10-0.

Then Texico put away the victory by scoring 2 TDs in the final period, on a 64-yard run by Barba, at 10:09, and a 3-yard run by Chumley., at 5:29. Trillo kicked both points after.

Team stats included: first downs - Texico 19, Springer 7; net yards rushing - Texico 255, Springer 15; net yards passing - Texico 54, Springer 82; total yards - Texico 309,

Springer 97; passing - Texico 4 of 8, Springer 9 of 25; passes intercepted by - Texico 1, Springer 2; punting - Texico 3 for 34 yard average, Springer 4 for 29 yard average; penalties - Texico 10 for 85 yards, Springer 3 for 45; fumbles recovered - Texico 5, Springer 2.

Comments from Texico Coach Barry Partain: "We played a real good second half of the game. We were kind of sluggish the first half, especially after Salinas had gotten hurt. It took us a while to get over that."

"The defense played really well and on offense, Barba sparked us in the second half. This win clinched a spot in the playoffs. We play Ft. Sumner this week for first place in District."

Individual stats included: passing - Chumley 4 of 8 for 54 yards; rushing - Barba, 12 rushes for 143 yards; Gilbert, 13 for 77; Chumley, 8 for 5.

Texico running back Johnny Salinas was injured early in the game.

Wolverines of the Week

Wolverines of the Week are from left: Defensive player - Cody Drager, and Offensive player - Joel Barba.

Blackwell appointed

The Parmer County Commissioners Monday appointed Jo Blackwell as the county's representative to the Panhandle Community Services Board, effective Jan. 1.

She will replace June Rhodes. Ms. Blackwell is the administrator at Prairie Acres Nursing Home.

In other business, the commissioners:

- Rescheduled the Nov. 14 meeting to Nov. 10 so they can combine it with a canvass of the general election.

- Discussed the signs that need to be purchased for the 911 network. A state grant will cover the costs.

- Accepted the bid of Leaway Roofing, Hereford, of \$35,043 to repair the county courthouse roof. It was the only bid received.

Leaway also was the lone bidder on roof repairs for the law enforcement facility

connected to the courthouse. The bid was not accepted and the commissioners decided to re-advertise for bids for a metal roof.

Notice of Rate Change Request Relating to Irrigation Interruption Credit And Recovery of Power Costs

Notice is hereby given that Bailey County Electric Cooperative, Inc. (the "Utility") intends to change rates for electric utility service by implementing an irrigation interruption credit applicable to irrigation customers who agree by contract that their service may be interrupted and by revising the Utility's power cost recovery factor ("PCRF"), effective November 15, 1994, or as soon thereafter as may be permitted by law. The proposed changes are not expected to have any effect on the revenues of the Utility. The changes are applicable to all electric utility service, all areas served by the Utility, all customer classes, and all customers.

Copies of the proposed revised tariffs, schedules and supporting testimony and other pertinent data may be inspected in the office of the Utility located at 305 East Avenue B, Muleshoe, Texas 79347, and at the office of the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Austin, Texas 78757. Inquiries should be directed to Mr. Duane Lloyd (806) 272-4504.

The Utility's wholesale power supplier currently allows a credit on the Utility's wholesale power bills in exchange for the ability to interrupt a portion of the Utility's irrigation load. The Utility's existing retail rates, which were established before the wholesale interruption credit became available, apply the interruption credit to all customers of the Utility regardless of whether such customers have agreed that their service may be interrupted. This occurs because the Utility's power cost is reduced by the amount of the irrigation interruption credit from the Utility's wholesale power supplier and the reduced level of power cost is flowed through to all consumers through the PCRF.

The rate revisions are proposed for the purposes of: (1) establishing a tariff authorizing payment of an interruptible credit to irrigators who agree by contract to allow their service to be interrupted, and (2) allocating the irrigation interruption credit received from the Utility's wholesale power supplier to the irrigation customers who have agreed to allow interruption of their load in the event the Utility's wholesale power supplier requires the Utility to shed load. Irrigation customers who agree to have their services interrupted should receive the benefit of the interruptible credit from the Utility's wholesale power supplier. The proposed charges will not increase or decrease the revenues of the Utility, however, the proposed changes are expected to increase the revenues derived from all customer classes other than irrigation.

Persons who wish to intervene in or comment upon these proceedings should notify the Commission as soon as possible, as an intervention deadline will be imposed. A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission's Public Information Office at (512) 458-0256, or (512) 458-0221 for text telephone. The deadline for intervention in the proceeding is 45 days after the date the application was filed with the Commission.

Letter To The Editor

Missing the target

Dear Editor:

The following article appeared in the "Review & Outlook" column of the Wall Street Journal of Oct. 20, 1994:

Crime Bill Returns: Supporters of the crime bill swore it wasn't pork and would target crime-ridden areas. The first \$200 million has been divided up among 392 communities. There are several dubious recipients, but none more interesting than Moffett, Oklahoma (pop. 340) It received \$106,000 to hire policemen. Moffett has no police department and no need other than on weekend nights. Town officials wonder how they can possibly come up with the required 25% in matching funds. The town's annual budget is less than \$10,000.

The above article entitled "Asides" indicates several examples of Federal Legislation that attempts to aid, or help our American public. It clearly misses the target, or severely penalizes the American public by tacking on a required amount of matching funds that may be difficult for such an entity to raise.

This was sent because you seem to appreciate such articles and usually print them under "time and space available basis." Further, this is not to cast aspersions toward any one individual or body of the American public.

Basically, it's to continually remind us all that most of what emanates out from within the "Beltway of WDC" seems to always miss the target of "good intent"? Moffett, Okla., is located just west of the Ft. Smith, Ark., near the state lines of Oklahoma and Arkansas which was "by-passed" after Interstate I-40 was built; however it is not unlike Farwell and Texico geographically.

Miller, Barba recognized

- Texico's Joel Barba was honored for carrying 12 times for 143 yards and 1 TD and intercepting a pass.

Here's how our teams are doing, according to the Lubbock paper:
