

BY HOP JR.

## Texico Girls Win One, Lose One

The Texico girls basketball teams playing pre-tournament games with Causey Thursday night at Texico won both games easily. Junior high girls won 24-5 with the senior girls team winning by a score of 37-5.

Friday, the girls playing in the semi-finals at Melrose, lost their games with the junior high girls losing to Grady 13-7.

Senior girls playing one of the best games of the season were beaten by House 26-23. A good defensive game was turned in by the guards who held the high scoring House team to a minimum of points.

Melrose girls won the EPAC tournament by a narrow margin of one point over the Grady girls.

## Boys On ENMU Track Squad

Carroll Huggins and Benji Dial of Farwell, are working out with Eastern New Mexico's track squad in preparation for a dual meet with Highlands University in Las Vegas Saturday, March 31. Huggins is a sprinter and Dial enters broadjump.

## Grand Opening Set By Wayne's

Free gifts for the children, pop served all day Saturday and special opening prizes are a part of the big grand opening planned by Wayne's Super Market this weekend.

Balloons and candy to be given to the kids, and store visitors will have an opportunity to register for a free electric skillet, dish sets and other items, to be given away at 5 o'clock Friday afternoon.

The business is operated by Wayne Pittman, who purchased Buck's Superette. He invites all area residents to come in and get acquainted. Further information is included in an ad in this issue.

## "Miss And Mr. FBLA" Selected In Texico School

Miss Beverly Cassady, senior, and James Watts, junior, have been selected as "Miss and Mr. FBLA" (Future Business Leaders of America) in the Texico chapter.

Alternates chosen were Donna Osborn and Howard Danforth.

Students were selected by a committee of qualified business women; Mrs. John Getz, business manager of Plains Publishers, and Miss Ette Musil, Parmer County HD Agent, Mrs. Joe Helton made arrangements for the judges and the club wishes to express their appreciation to her and the other judges, says, Sharon Tompkins, FBLA vice-president.

A large per cent of points were based on an actual interview with the judges. In addition, each student gave a mock demonstration as a receptionist and demonstrated proper telephone techniques. Other qualities considered desirable for a business executive such as sound judgment, personality, posture, neatness and poise were judged.

These students will be entered in the "Miss and Mr. FBLA" contest at the state convention to be held on the (Continued on page 5.)

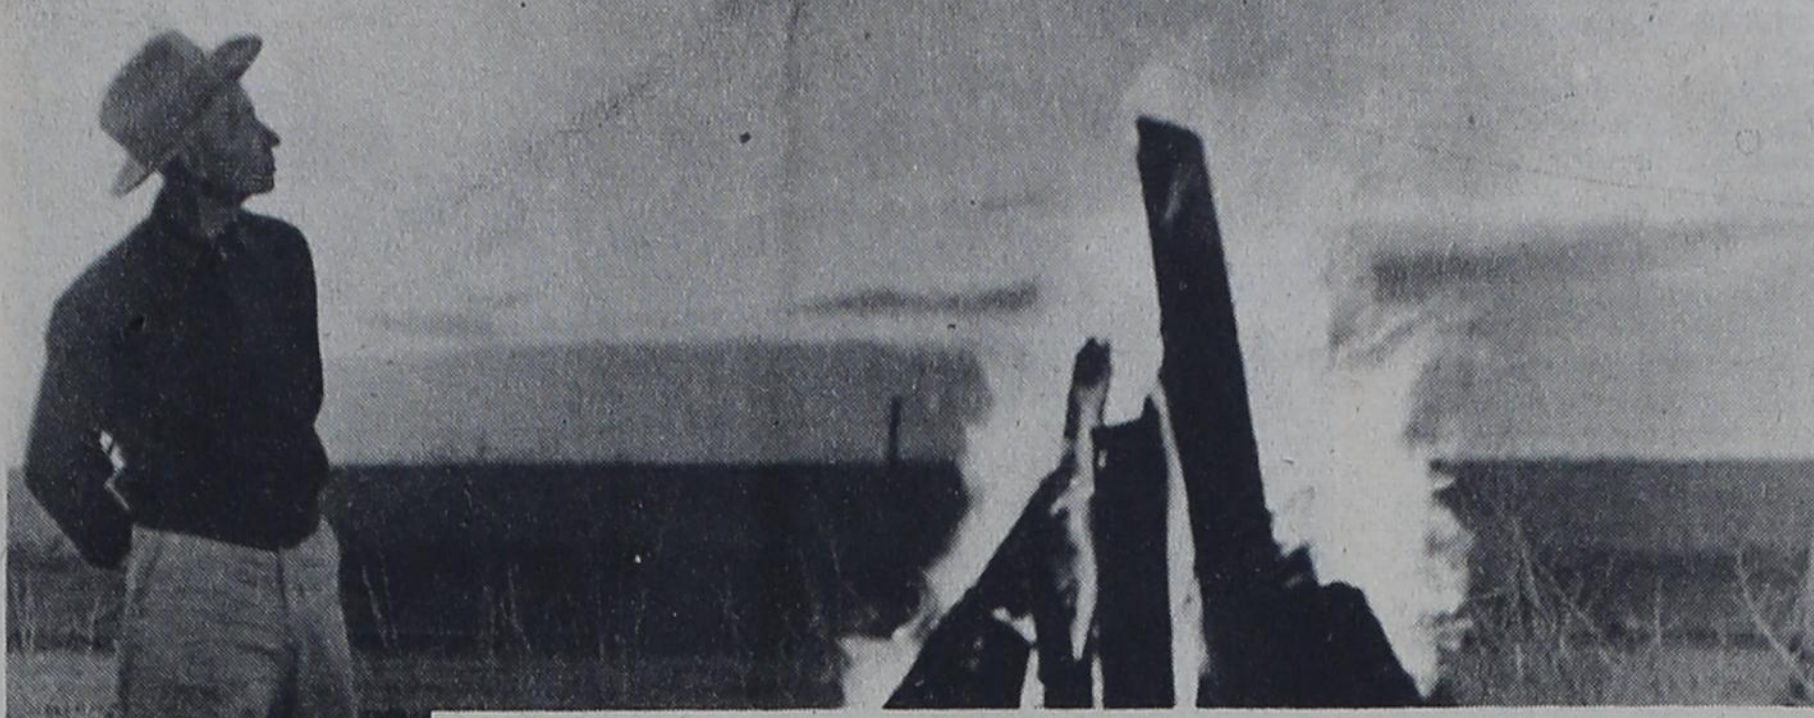

BEVERLY CASSADY AND JAMES WATTS

## Joe Hughes Pledges Frat

Joe Hughes, sophomore history major at WTSTC, was one of 48 men who pledged the four national social fraternities on campus during formal rush week.

Joe, who pledged Alpha Tau Omega, is the son of Mr. and Mrs. B. V. (Shorty) Hughes.

# 'Fair, Just Fair' Crop Season Seen

"Fair, just fair," mumbled the grey-haired Lazbuddie farmer as he squinted at the thin whisp of smoke drifting toward the brightening eastern horizon.

"Come on. Give us the prediction," came an impatient remark from the small crowd of relatives and friends gathered around the sputtering pile of planks and old posts as J. W. Crim studied the wavering smoke and prepared his annual March 22 forecast for area agriculture.

"I guess it will be just fair," Crim responded, glancing over his shoulder into the wind. "It's (the wind) coming from the west and veering a little to the north," he added.

The wind was blowing gently from the west, northwest with undulations which buffeted the smoke from side to side as it

rose into the clear morning sky. A long, thin bank of clouds blocked the view of the 6:56 a.m. sunrise, but Crim gave voice to his prediction at exactly that time.

"Better tell the boys to keep the irrigation motors ready because we will need them this year," he elaborated. "The way it looks, we better go ahead and pre-water. The Spring rains will probably come too late," he added.

Crim said that we would have rains, but maybe two months of dry weather would follow. There might be some hail but it would not be too heavy, and tornadoes would not be a bother this year.

Last year, Crim predicted a "bumper year" and for most area farmers it was. Early freeze and snow hampered the cotton crop but Crim has stated several times that his predictions are good only to "about September or October."

Crim has been forecasting the weather on the basis of the wind conditions at sunrise on April 22 for some 31 years. He picked up the practice said to have originated with the Indians from his father and the event has become the time for a general family reunion. Several friends and neighbors usually come over for the occasion.

According to Crim, wind from the northwest indicates a fair year and there is not much use in waiting for rains; wind from the north also means a fair year but farmers had better go ahead and pre water; wind from the northeast indicates a bumper crop year; wind from the southeast "just means you better pack up and go back to Oklahoma 'cause it's going to be a real bad year."; wind from the southwest means anything may happen--hard, heavy rains but far apart, hail and high winds; Wind from the south is "just not at all good"; wind from the west is "fair, just fair."

Other factors such as the strength of the wind and how rough and gusty it is also enter into the forecast.

Seven youngsters were on hand for the occasion in addition to the adults. Robert and Lesley Curtis, Dayle, La Cinda Greg, Kirk, and Rodney Crim accompanied their parents.

Others in addition to Mr. and Mrs. J. W. Crim were Mr. and Mrs. John N. Crim, Mr. and Mrs. Max Crim, Mr. and Mrs. Weldon Crim, Mr. and Mrs. Fred Curtis, and friends, Mr. and Mrs. Sam Isbell and son of Cordell, Okla., Mrs. Lena Kelso from North Dakota, Stephanie Kelso of Muleshoe, and Luther Ham of Muleshoe.

Daughters, Mrs. Lois Johnson of Garland and Mrs. Earl Monroe of Magdalena, New Mexico, were unable to attend.

SECTION I

## Reminder!

Proposed paving for Farwell will be discussed at a public meeting at the city hall at 5 p.m. Friday, March 23. Local citizens are urged to attend.

## Okla. Lane Community Elects Three Directors

The annual meeting of Oklahoma Lane community was well attended, according to Mrs. Harold Carpenter, spokeswoman for the group.

A covered dish meal was served and a program with several community children participating was enjoyed. Those on the program were Ruth Ann Blankenship, song; Shelia Garner, piano selection; Randy Stewart, song; Zelta Donaldson, piano selections; Debra Garner, reading; and Jan Mason, song. The program concluded with an old-fashioned songfest. Harold Carpenter was Master of ceremonies.

Lee Mason, Sterling Donaldson and Eugene Redwine were elected to serve on the board of directors for the next year. Outgoing members are Edmund Kitten, Windborn Hardage and Mrs. Dee Brown. Holdover members are Vernon Symcox, Donald Christian, Claude Watkins, and Mesdames W. T. Magness, Delbert Garner and Clarence Johnson.

Officers for the board of directors have been selected by the group with those to serve; Vernon Symcox, president; Sterling Donaldson, vice-president; Donald Christian, treasurer; and Mrs. Clarence Johnson, secretary.

## Residents Show Approval Of Flood Control Project

Proposed dam project for Running Water Draw----from Curry County, N. M. to Plainview----was discussed at a meeting Tuesday night at Hub Community Center.

F. F. Calhoun, chairman of board of supervisors of Hale County Soil Conservation District, led the discussion.

He told of a plan whereby federal government will construct "10 to 12" dams on Running Water Draw to be used basically for flood control. The dams may also be used for irrigational and recreational purposes, Calhoun pointed.

A crowd of some 80 people was on hand for the meeting which by called by Parmer County Soil Conservation district to explain to Parmer people details of the proposed project.

Cost estimate is \$2 and 1/2 million dollars or approximately \$250,000 per dam. This cost will be paid by government.

A local government, which will probably be county commissioners court in Parmer's case, will cooperate in the project. County government will be responsible for getting easements and rights of way for the dams and water, administering contracts for dams' construction and operation and maintenance of the dams after their completion.

Those present, in an informal vote following Calhoun's talk, were overwhelmingly in favor of Parmer County participating in the plan.

Calhoun pointed out that one of distinct advantages of the

project was the recharging of underground water supply.

Once the dams are completed, they will be turned over to local people. If property owners grant free use of their land for the dams and lakes, they will have full benefit of the resulting body of water. They may use it for irrigation, recreation or whatever they see fit.

If it is necessary to purchase land for the project, then

lakes will be controlled by the governing body which backs it financially.

Should a city, for instance, desire to have a larger dam than the plan calls for and thus impound more water it can do so by paying additional cost for larger dam. This money is available through a government agency at rate of 2.6 per cent interest, it was pointed out at the meeting.

Calhoun told his listeners that construction could begin on the project here in two or three years if there is enough local interest in the six counties which will be included in the project. Counties in the plan, other than Parmer, Curry, and Hale, Construction will begin in Curry County and continue eastward. Dams will become increasingly larger as they move downstream. According to estimates, each \$1 spent on the project will be worth \$1.25 to the area included.

Calhoun was introduced by A. L. Black, chairman of board of supervisors of Parmer County Soil Conservation District.

Bob Spencer, manager of Clovis Chamber of Commerce, spoke briefly on great amount of interest which Curry County has in the project from a fish and wildlife standpoint.

## Rites In Amarillo For Hugh Womack

Funeral services were held in Amarillo, Wednesday morning for Hugh Womack, who passed away Sunday morning in an Amarillo hospital. Burial was in the Littlefield cemetery.

Womack was a resident of Parmer county for 25 years, moving to Amarillo ten years ago.

Survivors include his wife, Hattie, one daughter, Mrs. E.A. Walker of Farwell, three sons, Mavis of the Armed Forces stationed in Germany, Wayne of Amarillo, and Jimmy of New London, Iowa, also several grandchildren.

FELIX MONROE

## Felix Monroe Dies Friday

Felix Monroe, a resident of this community for 36 years, died unexpectedly Friday afternoon from an acute heart attack. The 57 year old Farwell resident, came here from Bowie in 1926.

Services were held at Steed Chapel Sunday at 2 o'clock in the afternoon, with Rev. Robert Tomlinson, Methodist pastor, officiating, and assisted by Rev. E. L. Barners; pastor of United Pentecostal Church.

Pallbearers were V. C. Venable, John Armstrong, Robert Armstrong, Elbert Landrum, Hardin Reed and Buck Bradshaw. Honorary pallbearers were Elmer Teel, Bob Williams, Paul Wurster, Ed Blain, Bill Moss and Jerry Bradshaw.

Monroe and Justine Hamm were married in 1938. The survivors include his wife; two step-sons, A. J. Hamm of Ft. Smith, Ark. and Archie Dee Hamm of Espanola; two sisters, Mrs. Neva Wilhoit of Chickasha, Mrs. Pauline Stout of Darlington, Wisc.; two brothers, R.T. Monroe of Bowie and Allan Monroe of Port Arthur; and two nephews and one niece.

## Candidates Seek School Board Spots

School board elections are scheduled in April and candidates for the four districts, a county trustee in Precinct 4 and trustee-at-large were released this week by Loyde Brewer, county judge.

Only candidate for county trustee for precinct 4 is Matt Jesko, incumbent. Two men are on the ballot for trustee-at-large, W. M. Sherley, incumbent, and Paul Fortenberry.

A. H. Haseloff and J. H. Curtis are seeking re-election to the board at Farwell for the two vacant positions.

Six men are on the ballot for three places at Bovina, Dean McCallum, T. M. Caldwell, Vernon Estes, J. W. Harris, Johnnie Horn, and Thomas Beauchamp.

At Lazbuddie, two places are open and candidates are J. J. McDonald, W. C. Harlan, Jess Pendergrass, Eugene Redwine, and Mrs. Leon Smith.

In Friona, Walter Mabry is up for re-election and Ellis Tatum is on the ballot. Two vacancies are to be filled.

## Mrs. Winkles Hurt In Accident

Mrs. Jeanie Winkles who was seriously injured in a car accident in Clovis Friday evening, underwent emergency surgery and is reported by relatives to be in fair condition.

Jetona, small daughter of Mrs. Winkles who was with her mother at the time of the accident, suffered minor cuts and bruises.

**Hugh A. Clift  
Receives  
Citizen Award**

Hugh A. Clift, a former school superintendent here and now of Sweetwater, received the outstanding citizen award recently.

Clift was chosen for this honor on the basis of his work with the school where he has served as principal for the past 15 years, his PTA work where he has a life membership, his church work in which he is active in all phases, and his work with Kiwanis of which he has been a member for the past eight years.

He has also given of his time and energy to the Boy Scout organization; is a member of the Nolan County Juvenile Board and is active in helping all who need help. He personally built and paid for a room in the home of a family with a paralyzed son.

Clift was superintendent at Farwell from 1945-47. The Clifts had two children, Nancy Jean, who is married and lives in Abilene, and Roddy, who was killed in a hunting accident a few years ago.

Mrs. Clift teaches in the same school where Mr. Clift is principal. She was presented with a bouquet of roses as the wife of the most outstanding citizen of Sweetwater.

**Letters--**

that every person in your community and throughout the country may know what to look for as signs and symptoms of cancer. It is not the purpose of the Cancer Society to scare anyone. Just the reverse, the entire purpose is to get information out to you the people so that if a symptom of cancer should develop you would recognize it and go to your doctor immediately. As you know, most cancer is cured when the patient gets to the doctor early. These people will not get to their doctors, however, unless they recognize the signs and symptoms suggestive of something being wrong.

In case you have forgotten cancers seven danger signals are as follows: 1. Unusual discharge, 2. A lump or thickening in the breast or elsewhere, 3. A sore that does not heal, 4. Change in bowel or bladder habits, 5. Hoarseness or cough, 6. Indigestion or difficulty in swallowing, 7. A change in a wart or mole. If you have one of these symptoms and it lasts for two weeks you should go to your doctor to learn if it means cancer. Granted most of the time it will mean something much less serious than cancer, but you have no way of knowing this without an examination.

One of the most important things that you as an individual may do in order to find cancer early, and thus cure it or to prevent it, is to to your physician once each year for a complete physical examination. This physical should include examination from head to toe and a chest x-ray, a blood count, and a urinalysis as a minimum of laboratory examination. This small amount that it would cost you to have this examination done may save you many fold dollars in the years to come.

Did you know that cancer can strike anyone at any age? It can affect children as well as adults, but it strikes with increasing frequency with advancing age. One in four persons according to the present rate will develop cancer sooner or later. This would mean approximately 45,000,000 Americans now living will eventually have cancer. It is predicted that approximately 275,000 people will die of this disease in the year of 1962. Of every six deaths from all causes in the United States, one is caused by cancer. Last year more school children died of cancer of some form than any other single disease.

These figures could be fearful, but they need not be this way. Because of the help that you and others have given, 173,000 Americans will be saved from cancer this year. About 87,000 patients will die of cancer because they were not diagnosed early enough and could not receive treatment in time.

Won't you give again this year more of your time and money to fight this dread disease? Help your neighbors and yourself by contacting Mrs. Troy Armstrong, Bovina Crusade Chairman of your local cancer unit. There is a job that you can do.

Sincerely yours,  
Carl F. Page, M.D.,  
Medical Director,  
District 3-South Texas Division,  
American Cancer Society

## Farm Bureau Starts Membership Drive

Farmer County Farm Bureau opened the 1962 membership drive with a banquet at the Friona School Cafeteria Monday night.

Warren Newberry, American Farm Bureau Staff Member, Vernon, Texas, described the organization as the "largest and most effective agriculture organization in the nation." Newberry was the principal speaker for the occasion.

"I believe that Farm Bureau is the most successful organization today--and I am including labor organizations," Newberry stated. "It is effective because of its size and because other people respect it," he added.

Newberry addressed the group following a variety of musical presentations by the Friona Quartet, Frank Claborn, Wayland Ethridge, Forrest Osborn, and Herbert Day, and a barbecue dinner served by Underwood's.

In his short reference to the

relationship between "big government and agriculture," Newberry referred to government as being a "little like dope."

"A little is good to ease the pain, but too much makes an addict," he said.

"I firmly believe that the legislation now proposed by the Secretary of Agriculture would guarantee poverty for the farmer," Newberry stated. "To tell the farmer how many pounds he could sell--based on past production--would be telling him that he could not grow or increase his farming operation," he emphasized.

Following the close of the meeting, representatives from the six county areas mapped out plans for the drive to obtain the additional 66 members to meet the goal of 540 members.

NEWS FROM THE

BY RAYMOND EULER

## Screwworm Program Gets Boost

Jack McCracken, chairman of the Farmer county screwworm eradication program committee says Texas stockmen and others have contributed over one million three hundred and thirty-three thousand dollars to the screwworm eradication program.

"The goal for the State has been set at three million dollars," says McCracken. He urges all of those concerned who have not already contributed to leave their contributions with Joe Jones, Sec-Treas. at Security State Bank or Jack McCracken in Bovina.

The federal government has pledged to match the producer-raised funds in this all important program.

## Jr. Leadership Club Meets

The 4-H Jr. leadership club met Monday night in the Nelson Foster home with 16 members present.

Bobby Tomlinson, president called the meeting to order and the pledge was led by Reba Lesly.

Richard Chitwood gave an informative talk on the points by which members will be judged in the method demonstration contest. The county contest is set for March 31.

Viane and Reba Lesly gave a demonstration on making lemon cheese cake. This is the one they will give at the county contest.

Games were enjoyed and refreshments of pop and cookies served.

the class room? A knowledge of the history of society and government is necessary for the correct understanding of the present and future.

We are, incidentally, of the opinion that text books used in our schools of this county probably are above the average in quality. You parents of school children should make it your business to know, it is as simple as reading the history book of your child. If it is not basically the same as you read as a student, chances are there is something wrong.

A recent letter to a temporarily disabled farmer from the Labor Department gave him a temporary exception to allow Mexican Nationals (2) as tractor drivers for (60) days provided they were paid not less than (\$1.00) per hour.

The exception was made on the "sole basis of the farmer's physical condition to allow him to hire and train domestic workers during the 60 day period" he was expected to be disabled. Does this sound like the United States of America to you, Mr. Farmer?

CONSIDER THIS: He that followeth after righteousness and mercy findeth life, righteousness, and honor. Proverbs 21:21

## Hearing Revised For National Potato Order

Beginning dates for the last four of seven hearing sessions on a proposed National Potato Marketing Agreement and Order have been changed, the U. S. Department of Agriculture announced today.

As previously announced, public hearing sessions will be held at the New Commodore Hotel, 42nd Street and Lexington Avenue, New York, N. Y., beginning March 12, 1962; Secor Hotel, Jefferson and Superior Streets, Toledo, Ohio, beginning March 19; and Radisson Hotel, 45 South 7th Street, Minneapolis, Minn., beginning March 22, 1962.

The remaining sessions of the hearing have been rescheduled as follows: Latter Day Saints Hall, 140 North Garfield Street, Pocatello, Idaho, beginning March 27; American Legion Hall, 1301 17th Street, Bakersfield, Calif., beginning April 5; Auditorium, Public School Administration Building, 910 W. 8th Street, Amarillo, Texas, beginning April 12; and Henry Grady Hotel, 210 Peachtree Street, Atlanta, Ga., beginning April 17.

The first day of the New York session of the hearing will commence at 10 a. m., local time, and the first day of the sessions in the other cities will commence at 9 a. m., local time. Each session will continue as long as necessary and, instead of specific termination dates as previously scheduled, will be terminated as determined by the presiding officer.

4th & Pile, Clovis, N.M. 2nd & Abilene, Clovis, N.M.

Despite adverse weather conditions during cotton harvest season, Farmer County grossed over \$34 million from the three major crops during 1961, according to compiled reports.

Direct income from cotton, grain sorghum and wheat grossed \$31,528,070 for the county. With the inclusion of diverted acres payments on grain sorghum, the total income is raised to \$34,762,604. This diverted acres payment and the higher price received for grain sorghum will account for the increase over the \$30 million average for the past two years.

Cotton production fell 10,000 bales below the 65,000 which was estimated for the county during the growing season. Heavy snow and ice retarded the maturation and reduced the grade of cotton produced.

According to a recent report from the Texas Employment Commission, 55,000 bales were ginned from the county. This amounts to about \$7,700,000 for lint at the average of 28 cents per pound and \$1,064,250 for seed at the average of \$44 per ton for a total of \$8,764,250 income from cotton.

Grain sorghum production equaled an impressive \$15,263,820 for the county when figured at the gross of \$1.80 per hundred pounds. The payments for the 20 per cent lay-out resulted in an additional \$3,234,543 for Farmer County farmers, according to the Agriculture Stabilization Office in

Farwell. Payments for the diverted grain acres far exceeded those for other crops during the year.

Wheat production brought an additional \$7.5 million to county income, according to an adjusted report.

The addition of the \$4.5 million said to have entered the county as a result of livestock production brings the total county income to \$39,262,604.

Income from produce and vegetables produced in the county has not been compiled or made available to date but is expected to be very close to the 1960 figure.

## Scruggs Cited By Cattlemen

The Texas and Southwestern Cattle Raisers Association's Outstanding Service Award was presented to the president of the organization which initiated the screwworm eradication program in the Southwest, Tuesday, March 20, during the 85th annual TSCRA convention at Houston.

C. G. Scruggs of Dallas, president of the Southwest Animal Health Research Foundation received a leather plaque bearing the inscription, "For Outstanding Service To The Beef Cattle Industry." The plaque was presented by Leo Welder of Victoria, chairman of the public relations committee, and TSCRA first vice-president.

BY MISS ETTIE MUSIL

Do teen-agers really care? judgement of what is a need or a want.  
A study was made recently in 3 New York state schools in regard to the interest teen-agers had in the use of money. Of the 339 ninth-grade students surveyed more than 100 boys and girls asked about automobiles and life insurance. Sixty-four were concerned about ways to save for retirement.

A total of ninety per cent of the boys and girls were saving money. Like our local teen-agers they spent their money for school expenses, recreation, snacks, contributions, books and magazines -- in that order. In the study they wanted to provide their share in earning their expenses.

In another study in Massachusetts by the Extension Service Agents, they interviewed 52 girls, their parents, and the management of 52 stores in 9 cities. This study was made whether teenagers should be encouraged to start charge accounts?

They found that only 1 out of 3 girls felt that a charge account would be a valuable experience in learning to handle money. Another third of the girls said that "it depends" on an individual's judgement and on her willingness to accept the responsibility. The rest of the girls interviewed thought parental consent should be necessary. Perhaps they were thinking of who would have to pay the bills.

When the parents were interviewed they were even more cautious in starting charge accounts for their daughters. Their reasons were several. It's hard to decide what she needs and what's a luxury. This involves the ability of good

save before buying. Parents felt that it was their duty to take care of a teenager's needs. They thought it was bad to start the habit of credit too early.

Even the teenagers aren't sure whether it's the right thing to do. In the study some of the store personnel interviewed, approached the early charge accounts with caution. In talking with you mothers

and many of your sons and daughters, I know of your sincere interest in teaching them the value of money. Many of our youth have their own bank accounts and savings accounts for their college education.

You may need some extra help to set up their checking accounts, how to write checks, (Continued on next page.)

# Vote Bill Clayton--Your Voice In State Government

FOR STATE REPRESENTATIVE, 91st DISTRICT

## WITH THE COUNTY AGENT

DERYL COKER

Several farmers have agreed to keep result demonstrations for 1962. This I appreciate very much. Not only are you helping yourself by finding what will pay on your farm, but you are helping your neighbors and community.

We still need more results on crop demonstrations pertaining to phosphate levels, varieties, tillage practices, placements of fertilizer, and different irrigations on levels on cotton.

If you could keep a result demonstration, I would like to work with you on it and obtain the results. These results will be published before the 1962 crop is planted.

Anyone who keeps a result demonstration should have a soil test analysis to see what the soil test calls for. If you do run or plan to run a demonstration I will send in a soil test for you with no charge or cost to you. If you decide to keep a result demonstration come by the office or write me, and we will work it out to where it will require very little extra effort on your part.

Also, if any of you have phosphorus on some of your wheat and some without phosphorus and are side by side I would like to have the results.

There will be a Swine Short Course for anyone interested in Swine Production at Texas A&M College, located at College Station on April 2-3, 1962. "Raising more pigs on less

feed--with more valuable carcasses at slaughter time" is the major objective of the program. Selection and breeding programs with special emphasis on the use of production and carcass information in selecting breeding animals will be one of the major discussion areas. This is truly a well rounded program with presentations in all areas important to successful hog production, including feeding, disease, housing, equipment and marketing.

A hearing on the Proposed National Potato Marketing Order will be held Thursday, April 12. The hearing will be held at the Auditorium, Public School Administration Building at Amarillo, Texas, commencing at 9:00 a. m. and will continue as long as necessary.

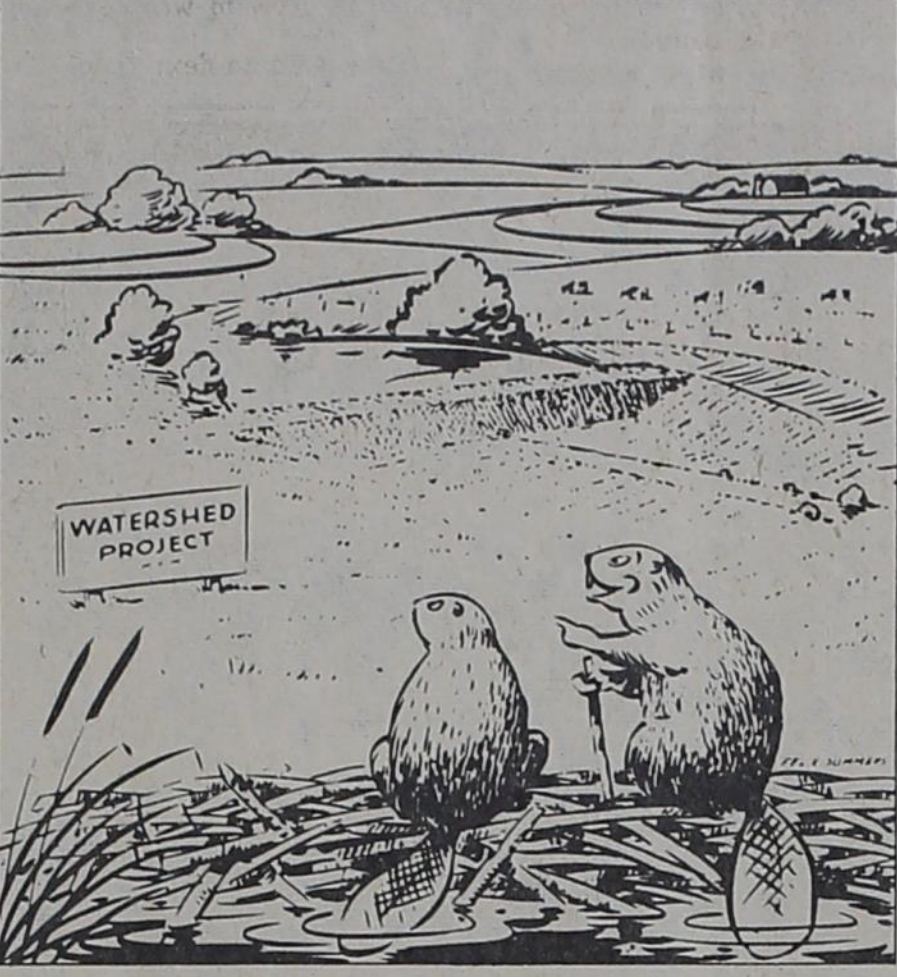

All potato growers should study or make themselves familiar with this marketing order and vote on it as you see fit.

### HD Agent--

and how to check their bank statements. We have a number of publications in the office that are easy to understand. Write, call, or come by for these "aids". Just ask for "How to Use Your Bank", "Where Do You Get Your Money?", "Plan Your Spending", "Invest in Yourself", "Using Credit", or "Personal Money Management Record".

If your son or daughter have a charge account you may want to help them have a better understanding of this business transaction. We have an "eye-opener" bulletin, "Using Consumer Credit - A tool or a trap?" Remember all bulletins are free, but do have much valuable information.

With Spring officially here we'll be spending more time in the garden, yard, and flower

"MAN IS LEARNING!"

## Legislative Proposals Analyzed In Amarillo

Farmers and grain dealers throughout the High Plains area will have an opportunity to hear legislation currently before Congress, analyzed by national leaders, Monday.

The information and education of Wheat Growers and the Grain Sorghum Producers Association. The meeting will be at the Herring Hotel, Amarillo, beginning at 9 a.m. through 12 noon.

Dr. John A. Schnittker, Economic Analyst on Secretary Freeman's Staff, Washington, D.C. will evaluate and discuss the "Food and Agriculture Act of 1962" which is generally referred to as the Administration's bill, calling for continued price supports, acreage adjustment and gradual stock reduction together with reduced Treasury outlay.

The "Cropland Retirement Act of 1962" which is commonly referred to as the "Soil Bank Act," calling for diversion of whole farms from production and a rental payment for voluntary participation will be analyzed by a nationally known speaker now being selected.

The "Projected Economic Outlook and Need for Effective Farm Policy" will be discussed by the head of the Department of Agricultural Economics at Texas Technological College, Dr. J. Wayland Bennett.

The presidents of the two sponsoring organizations, Mr. Frank Moore of Plainview and Mr. Kenneth Kendrick of Stratford, stress that there will be ample time for discussion of comments and questions from the floor. They urge that anyone seeking further information about current farm programs take full advantage of the opportunity to receive first-hand information from these nationally known experts who will be at the meeting.

Directors of the Grain Sorghum Producers Association will hold their regular annual meeting and election of an Executive Committee at 1:30 p.m. also on Monday, at the Herring Hotel.

**Steelworkers' Gains**  
NEW YORK (UPI) — During the period from 1946 through 1961, steelworkers in the nation received 13 increases in basic wage rates, not including six cost-of-living increases. Steel Facts reports.

## Swine Short Course Program Announced

A breeding and selection program for swine producers which will result in more pigs; more pork on less feed and the highest quality carcass at slaughter time will be featured at the 11th annual Swine Short Course.

According to T. D. Tanksley, Jr., extension swine specialist, the meeting will be held on April 2-3 in the Memorial Student Center on the campus of Texas A&M College, and he recommends it without reservation to anyone interested in swine production.

Three out-of-state speakers will be featured. Barnard Collins, Clarion, Iowa, is described by Tanksley as a very practical commercial hog producer and one whose opinions are highly regarded throughout the nation. He is also president of the Iowa State Swine Producers Association.

W. C. Haase is a swine specialist for Swift and Company, Chicago, and is one of the top marketing experts in the industry, according to Tanksley.

The third is one of the nation's best known research

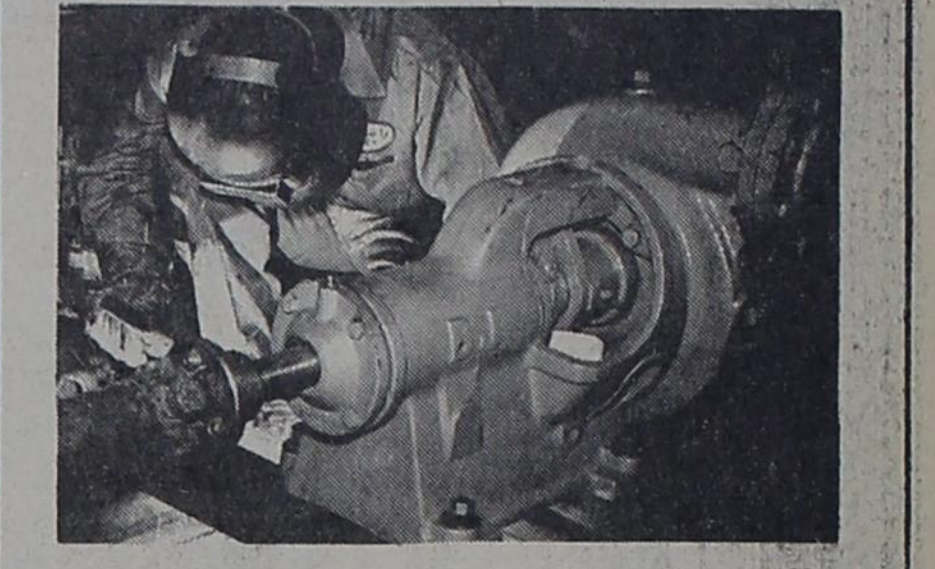

workers on swine breeding, Dr. J. A. Whatley from Oklahoma State University.

Other speakers will include leading swine producers of Texas and members of the College's Animal Husbandry Department, School of Veterinary Medicine and Agricultural Extension Service.

Various aspects of performance testing will be discussed during the first session which gets underway at 9 a.m. Tanksley believes the discussion by Drs. Wayne Moore and Harold Redmond, leading off the afternoon session on April 2, will be worth the trip to College Station. They will report on "Infectious Micro-organisms Found in Contest Pigs on Arrival at A&N and Disease Conditions at Slaughter."

Awards will be presented to the owners of the winning entries in the 1962 Carcass Contest during the evening's program. The second day's discussions and tours will deal with problems and subjects of common interest to all hog producers.

**Name**  
NEW YORK (UPI) — One of the firms recently accused by the government of making false advertising claims is Sincere Paints.

## Lazbuddie Showmen Draw \$5,784.35 In County Show

Lazbuddie FFA and 4-H Club students won four champion spots and grossed \$5,784.35 at the Parmer County Junior Livestock Show in Friona recently.

Theresa Seaton showed a Hampshire hog which was chosen as the grand champion of the show. It was purchased for \$229.20. Steve Foster received \$118.75 for his champion South Down Lamb while Mike and John Ward sold their Fine Wool champion for \$88.74. Steven Young received \$114.50 for his Medium Wool champion.

Lazbuddie animals were purchased by 13 Friona businesses two from Muleshoe, three from Farwell, one from Bovina, six from Lazbuddie and two county-wide organizations.

Marianna Gammon won the showmanship award in the lamb division.

## FOOTSAVING EDUCATION

by James E. Edwards

Can A Parent Do Justice To This In Self-Fitting Her Child?

Can an inexperienced salesperson do justice to it? Of course not. We now see the fallacy of self-service or inexperienced fitting in selling children's shoes. We now begin to appreciate the vital importance of careful fitting, of foot and shoe knowledge, of experienced judgment, of good evaluation.

### Edwards' SHOE STORE

512 Main Clovis, N. Mex.

a fella needs to stop and think now and then...

I'm just thinking how great is electric heat—the floors are so warm—it's fun to play on them. I remember back a bit when mommy and daddy were talking about putting in electric heat—they had some doubts, sure, but those doubts are all gone now. "This is the best heat we've ever had," daddy said to mommy, and mommy agreed—I do, too!
