Parmer County commissioners met in called session Tuesday to hear discussion of the proposed multi-county bookmobile. They will announce a decision on the matter after their Monday meeting. Shown left to right: G. W. Crain, Tom Lewellen, County Judge Loyde Brewer, Charlie Jefferson and Guy Cox.

Representatives from all communities in the county were at Parmer County courthouse Tuesday afternoon to meet with the commissioners and to hear Charles Gholz, field consultant of Texas State Library, outline a proposed plan for a multi-county bookmobile. County commissioners decided to announce their decision on acceptance or rejection of the plan at the regular meeting of the group Monday.

Commissioners felt that it would be best to delay the decision for a few days to give them an opportunity to hear views of county residents. Several organizations endorsed the plan through representatives at the meeting, including Friona Chamber of Commerce, Friona Modern Study Club, Parmer County Home Demonstration Clubs, Farwell Study Club, Bovina Woman's Study Club and Parmer County Farmers Union. Gholz told attendants that one of the missions of Texas State Library is to improve libraries over the state. The demonstration, as the program is called, is paid for by tax money. If the county accepts the proposal, the Texas State Library foots the bill the first two years; the third year, the counties assume the purchase of a bookmobile, books and materials and gas and oil for the vehicle and the state agency handles salaries, supplies and processing of books.

The fourth year, the program is assumed by the counties, with the state supplying the consultant service if needed. Also, for every dollar spent on books, the state will match it, says the representative. According to Gholz, five counties are asked to consider the plan along with Parmer. Bailey County has already voted "yes" to the proposal and has offered to provide a suitable headquarters building with shelving for books, and to pay

utilities and janitor service. This is a responsibility for the counties. The bookmobile carries books, and stops are set up in participating counties according to the number of people who use a stop.

Briefly, for the first two years, the cooperating counties provide the headquarters facilities. The Texas State Library provides the bookmobile and all expenses for operation of the vehicle, a well-balanced stock of 8,000 to 10,000 books, the bookmobile librarian and salary and driver and salary and consultative services. If enough money is available, a clerk and salary is sometimes included. All the books aren't shipped at once -- about 100 a month are added, giving the library new books all the time. Books average about \$5 each, says Gholz.

(Continued on Page 2)

Filing Dates Set For Board

Deadline for filing for a position on the Farwell School Board is March 5, Willie Roberts, superintendent, announced this week.

Any person who desires to get his name on the ballot this year must request in writing to the board secretary, Jess Landrum, his desire, the superintendent points out.

Arthur (Shorty) Milstead Rites Thursday

Last rites for Arthur (Shorty) Milstead 75, were conducted at Hamlin Memorial Methodist church in Farwell Thursday with Rev. Robert O. Tomlinson, church pastor assisted by Rev. J. L. Bass, pastor of First Baptist church officiating. Interment was in Bailey County Memorial cemetery, beside his wife, under direction of Steed Funeral Home.

Mr. Milstead passed away in a Clovis Hospital Wednesday night from complications resulting from surgery. He had undergone surgery last week and had recovered sufficiently for Dr.'s to try a second operation on Wednesday. He passed away following the second operation.

Mr. Milstead had been a resident of this area since the late 1930's when he settled on a farm in the Oklahoma Lane Community. In 1951 he and his wife, Oma, moved into Farwell and went into the cafe business. They retired a few years ago; however he had continued to assist his sons with their businesses in recent months.

Mrs. Milstead preceded her husband in death by some eight months. Survivors include his sons, Alton A. and James Floyd, both of Farwell, one daughter, Mrs. Raymond White, Friona, six grandchildren, Stanley and Debbie Milstead, Phillip, Barbara and Aubrey White and Joann Rierson.

Serving as active pallbearers were: Clyde C. White, Cecil Winegart, La Von Jones, Wayne Foster, Charlie Christian, and Roy Snodgrass. Honorary pallbearers listed were: Otis Huggins, Bill Foster, Sam Billingsley, Sam White, John Aldridge, C. C. Christian and Mose Glasscock.

Texico Seeded Third In District; Splits Pair Of Games Over Weekend

By winning a district game from Floyd, Friday night Texico Wolverines clinched a third place seeding in the district; however they lost their last regular season district game to Elida Tigers Saturday night. By taking the win from Texico Elida came in for second place seeding. Dora was seeded first by virtue of its win and loss record.

District tournament play will get underway in Portales at the high school gym Wednesday, Feb. 26 and will continue through the weekend. Brackets for the tourney will not be drawn until Sunday when coaches of the district will meet; however Texico will go into play on either Wednesday or Thursday.

Wolverines took a win from Floyd Bronchos Friday night on the home court 52-51. The game was close all the way with the Bronchos leading until after the half time. At end of the third frame Texico had pulled in front of their opponents by four points and as the fourth stanza drew to a close the margin was narrowed to one point.

Bill Campbell, who has consistently been top scorer for

Texico all season was again high point man hitting for 15. Mike Spearman contributed 14 and Joe Patterson hit for 12. High for Floyd were the McAllister brothers, Charlie and Tom. Charlie had 17 and Tom hit for 15.

The Elida game was a different story with Texico unable to find the basket for a long period of time and by then it was too late. The score was run up by Elida in the last quarter when Texico coach, Paul Frederick, put in all of the substitutes to give them a chance to get the feel of the game. "It was too late to win the game, said Frederick, and the boys need the practice."

For the second time this season Bill Campbell was not top scorer however he did contribute 13 points to the team scoring. High point man was Mike Spearman with 14. Tom Rickstrew also hit in the double figures counting for 10.

Top scorers for Elida were Creighton 19, Rush 15, Burr 15, and Chandler with 14.

Texico will play a non-conference game with House on Friday here and will journey to San Jon to play another non-conference tilt on Saturday

night. Texico B team took a couple of wins on Friday and Saturday defeating Floyd 69-57 and tak-

Local Mans Mother Dies

Funeral services were conducted at the Forrest Gymnasium Tuesday for Mrs. Elizabeth Stockton, 76, mother of Charles Stockton, Texico, L. L. Jennings officiated at lastrites. Mrs. Stockton, who had been in ill health for a long period of time passed away in a Clovis Hospital Sunday. Burial was in Beavers Cemetery under direction of Steed Funeral Home.

Survivors are her husband, G. B. (Bennett), four sons, Charles, Texico; Bill, Las Cruces; George, St. Vrain; John, El Paso, two daughters, Kathryn Buttram, Alamogordo, Mrs. Margaret Guiderly, Anchorage, Alaska; one sister, 13 grandchildren and five great-grandchildren.

In the Floyd game Ronnie Curry with 25 points was top storer for Texico followed by Nell Lambert with 16. On Saturday night Lambert hit for 22 and teammate, Mike Hitson hit for 15.

B team will also play games with House and San Jon this weekend to end season play.

LINDA CAMPBELL

SHERRI AUSTIN

Texico-Farwell Schools Name Betty Crocker Homemakers

Announcement from the Texico and Farwell schools early this week reveals that Linda Campbell, Texico, and Sherrri Austin, Farwell, have been named Betty Crocker Homemakers of Tomorrow by their respective schools.

The girls were chosen for the honor on the basis of hav-

ing made the highest average on tests given to all senior girls in the schools. The tests are prepared by General Mills, Inc., and are given to some 484,000 girls each year in 14,000 schools throughout the United States. The test is a 50 minute written examination in home-making knowledge and attitudes. Each of the girls will now have her paper entered in competi-

tion with other girls from New Mexico and Texas for the honor of being named State Homemaker of Tomorrow. The state winner will be presented with a \$1,500 scholarship and second place winner in each state will be presented with a \$500 scholarship. The state winner will also be in competition with other girls from over the nation for the National Homemaker title.

Linda, is the 17 year old daughter, of Mr. and Mrs. Edgar Campbell and is an active student in the Texico school. She is enrolled in office practice, speech, English IV, American History and Home Ec III. She plans to attend college at ENMU following her graduation from high school and will major in either Home Economics or elementary education. She was presented with her homemakers pin in a recent assembly at the school.

Sherrri, is the 17 year old daughter of Mr. and Mrs. Partin Austin. She is enrolled in band, Spanish, English, civics and homemaking. She is a cheerleader, a member of the honor society, student council, FHA, and FTA. Her future plans include being married this summer. Sherrri was presented with a homemakers pin in a special assembly Tuesday.

Farwell Band Mothers Meet

Farwell band mothers met Wednesday afternoon to discuss plans on the agenda for the coming weeks, and to hear a report from Tommy Mayfield, director, on possible appearances between now and May.

A possible trip of the high school band to the Lamesa band festival March 6 was discussed, with all information on the festival not available this early.

Mayfield also reported on band contests to be in Canyon in April, and discussed taking the fifth grade band to an elementary band contest in Canyon April 25.

Honor Roll Released By Farwell School

Twenty two students in the Farwell high school have been named to the honor roll with seven seniors, five juniors, four sophomores and six freshmen named by Principal Amos Tatum to the list. In order to make the coveted list a student must maintain an A- or a 90 average for the semester.

Seniors listed include: Vicki Moss, Sherrri Austin, Janice Prince, Jane Hubbell, Jane Ann Bradshaw, Janice Meeks and Roy Donaldson. Juniors include: Donna Dunn, Jerry Field, Johnny Actkinson, Mary Coffey and Ronnie Smith.

Sophomores are: Doyle Johnson, Diane Lovelace, Teresa Quickel and Maudie Stancel.

Freshmen include: Janis Billingsley, Sherrri Roberts, Susan Patrick, Alicia Bourlon, Kathryn Goyer and Johnnie Schell.

"How do you think a body can sleep with all the noise going on?" cries Aunt Mat Worth (Judy Gast) as she arrives to find the house of her brother in an uproar. Shown with Aunt Mat are Rev. Teasle (Johnny Actkinson), Mr. Martin (Jerry Field), Mrs. Martin (Peggy Eason), Elizabeth Martin (Mary Coffey) and Johnny (Jerry Childs). Don't fail to see "The Whole Truth," Sat., Feb. 22, 8 p.m. at the high school auditorium in Farwell. Price of admission is 75¢ for adults; 50¢ for children eighth grade and under.

Texico FFA Chapter Reports On Projects

Texico FFA Chapter reports a total of 15 steers, 35 acres of row crops, 30 swine, 10 heifers for breeding purposes, and 10 sheep as projects of chapter members for the year.

They also report that the chapter has finished in shop three tandem trailers, four hay feeders, one hog house, several tack boxes and numerous wood work projects, in addition to which the chapter has been setting up machinery for farmers in the area, as a financial project.

The chapter has received a rating of superior for the entire program for the past three years and has placed second in the state in poultry judging. They also won first place and \$10 at the Curry County Fair in September in addition to which they received a fourth place on their exhibit at the New Mexico State Fair in the fall. The state fair booth netted the chapter \$50.

Four delegates from the chapter were in attendance at the state convention the past summer and two delegates attended the national convention in Kansas City in October.

For a money raising project the chapter has sponsored a calendar for the past few years to assist merchants with advertising.

At present time the chapter is planning to sponsor a judging meeting on March 7, with some 20 schools from over eastern New Mexico to be in competition on livestock, farm mechanics and poultry judging. Plaques will be presented to first and second place winners at the meet.

During the past week, FFA members have presented a radio program on Station KZOL, Farwell, in commemoration of national FFA Week. They have had posters displayed in local businesses, reports Mickey Lofton, FFA reporter.

This stock trailer is one of the projects recently completed by members of Texico FFA. The trailer was built by the chapter for Joe Burford, Texico farmer.

Clyde Shanks Dies, Burial In Bovina

Funeral services were conducted Tuesday afternoon from First Baptist Church in Texico for Clyde Shanks, 56, who passed away in Clovis Memorial Hospital Sunday morning following a brief illness.

Rev. C. C. Morgan, former pastor of the Texico church assisted by Rev. Leroy Looper officiated at last rites. Burial was in the Bovina Cemetery under direction of Steed Funeral Home.

Mr. Shanks came to this area in 1945 with his parents, with whom he had made his home for a number of years. They settled on a farm north of Texico where they made their home for the next several years. Nine years ago Mr. Shanks moved with his parents into Texico following his semi-retirement due to a heart condition. His death was a result of pneumonia coupled with the heart condition.

Survivors are his father, R. R. Shanks, one daughter, Mrs. Johnnie Ruth Pierce, Brownwood, one son, Clarence A., Amarillo, four sisters, Mrs. Elsie Tarr, Farwell, Mrs. Ethel Dunsworth, Brownwood, Mrs. Eva Hancock, Goldthwaite, Mrs. Lela Gatlin, Muleshoe, six brothers, Clayton, Pampa, R. A. and J. C. both of Muleshoe, Judge, Ft. Sill, Okla.; W. H. Fargo, North Dakota, Bert, Lubbock, six grandchildren and a host of nieces and nephews. His mother preceded him in death several years ago.

Serving as pallbearers were Olen Schlueter, Murray White, Buddy Pearce, Jack Watts, Willie Wall and Barney Kelley.

Study Club Sets Date For Style Show

"Styles Galore for '64 Fashion Revue," sponsored by Farwell Study club is scheduled for Friday, Feb. 28, 8 p.m. at the Farwell auditorium.

Fashions for 1964 will be modeled from, "Queens 'N Teens," "The Fashion Shop," "Williams Children Shop," and "Holiday Fashions." All clothing will be modeled by local persons, says Mrs. Joe Crume, chairman of arrangements for the show.

Tickets are available from any member of the Study Club or may be purchased at the door. Price for adults is \$1 and children's tickets are 50¢ each.

Bi-District Game To Be Played In Olton

At a meeting held in Olton Thursday morning time for the bi-district basketball championship game to be played between Farwell Steers District 3A and Petersburg District 4A was set for Tuesday, Feb. 25, 8 p. m. in the Olton gym. Steers were defeated by Petersburg in the championship game last year and they will be out to avenge the defeat. Should they be victors of the bi-district game they will be playing in regional, scheduled for next weekend in Lubbock.

Steers Take District 3-A Title; Meet Petersburg In Bi-Dist.

It was sweet revenge for the Farwell Steers when they defeated the Springlake Wolverines for the fourth time this year Tuesday night to take the district crown, in a game played in Olton.

Ten days ago the Steers had almost given up hope of win-

ning the district title when they were defeated by Springlake in a game played there, 58-50; however the two teams met in the district tourney in Farwell last week and the Steers were able to outlast the Wolverines to win that game 43-42. In the Tuesday game the pres-

sure was on and neither team was able to find the basket for long periods of time; scoring in the first quarter was six for Farwell and five for their opponents.

At one point in the second quarter Springlake took the lead from the Steers and held it

momentarily; however by end of the quarter the score was 16-16. Shortly after half time the scoring began to change as Steers poured in several shots to pull away from the Wolverines and take the lead by eight points.

End of the third frame saw

the score at 20-24 and in the fourth quarter Springlake was never able to overcome the deficit, although each team had chance after chance to add to their score by the free throw route as foul after foul was committed. Neither team could seem to find the basket.

Top scorers for Farwell were Warren Gossett, Johnny Actkinson and Joe White with eight points each.

Coach Vernon Scott had only words of praise for his team saying, "They are a fine bunch of ball players and have put up a good fight, the co-captains,

Leon Lovelace and Joe White, have done much toward the success of the team this year."

By defeating the Springlake Wolverines the Steers have earned the right to meet Petersburg in the bi-district tilt to be played early next week.

Should the Steers be victorious over Petersburg they would then earn the right to play in the regional playoffs scheduled for next weekend in Lubbock.

Time and place for the bi-district tilt will be set today in a meeting at Olton.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

New Business: George Taylor, Friona Building contractor oversees the new restaurant building going up on Ave. A and 9th St., in Farwell. The building of concrete block, with steel deck and truss roof will be carpeted, and have central heating and air conditioning. It will be the new home of Mr. J. W. Catheys' new restaurant and will be completed within 40 days, weather permitting, says Taylor.

Art Exhibit At Farwell Elementary School During Public School Week, March 2-6

Jack Williams, principal of Farwell Elementary school announces that during Texas Public School week, March 2 through March 6, Colonial Art company of Oklahoma City, will have "Great Masters For Our School on Exhibition," in the elementary building. The art display will include some 150 art masterpieces, which are reproductions of works of French, Dutch, American, Italian, English and Spanish masters. All school patrons and the general public are invited and urged to come to school and see the display during the week. Price for viewing the exhibit is 35¢ adults, 25¢ for high school students and 15¢ for students in grade and junior high school. Purpose of the display is to try and raise enough money to buy some of the works of

art for use in the elementary school rooms. Classes in the elementary school will be vieing with each other to see who can raise the

most money with which to secure pictures. All students in the elementary building are selling tickets to the exhibit and tickets may also be bought

at the door. Persons who buy tickets at the door should be sure to specify to which room credit for their ticket should go. Any room selling \$80 or more will receive a \$10 bonus toward the purchase of the pictures and rooms selling \$200 or more will receive a \$20 bonus.

Rooms failing to make enough money to purchase a picture will pool their resources with another room on the same grade level and they will jointly buy a picture to be used by each. The exhibit will be open during school hours during the whole week, March 2-6, says Williams; however it will not be open in the evenings.

Outsiders Volleyball Tourney At Lazbuddie Feb 28-29

All outsider volleyball teams in this area (men and women) are invited to participate in a tournament at Lazbuddie high school gymnasium, Feb. 28-29. The tourney is under sponsorship of the Lazbuddie PTA

and FHA and each team entered is to pay an entry fee of \$5.00. All entries should be turned in to the coaches at the Lazbuddie school no later than Feb. 21.

The PTA and FHA officers are hoping for a good number of entries from the Texico-Farwell area.

Local Students Named To ENMU Dean's List

Eight local people have been named to the dean's honor list at ENMU for the fall semester, according to a release from the office of Dr. Gall Shannon, dean of academic affairs at the college.

Five of the students are graduates of the Texico school. They are Richard (Dickie) Adams, Valeria Meier, Patricia Patterson, Glendon Moss, and Gary Singleterry. In addition Kathy Stelling, wife of band director Gary Stelling in Texico, Lucille Franse, Farwell and N. D. Kelso were named.

Both Mrs. Stelling and N. D. Kelso have a 4.0 or straight A average for the grade period. They are among the 47 students with a perfect grade average.

To be eligible to make the list a student must maintain a 3.0 average or above and must be enrolled in a minimum of 12 semester hours. Thus all students named to the list have above a B average.

Patricia Patterson Receives Scholarship

Patricia Patterson, daughter of Mrs. Avis Patterson, Texico, is one of the coeds at ENMU to receive scholarships for the spring semester. The tuition scholarships were presented by the Clovis chapter of Business clubs, Recipient of the other scholarship is Agatha Sartin, Clovis.

The scholarships were presented at a Friday luncheon at which Dr. John R. Cochran, director, Speech and Hearing Clinic, was presented with an honorary membership to the chapter.

Recipients of the scholarships may continue to receive the award each semester for two years providing they maintain their eligibility.

Bovina Seniors Announce Volleyball Tourney Plans

Kathy Jones, president of the Bovina High School senior class, announce that the class is sponsoring a volleyball tourney for outsiders at the Bovina gym, March 5-7. All entries should be turned in to a Bo-

vina senior no later than March 3.

Entry fee is \$6 for each team and the following rules have been listed for participants. 1. No player is eligible to play on more than one team. 2. Each team shall have only eight members. 3. Each player for a team must be listed at time the entry is made.

Trophies will be presented to first, second and consolation winners in the men and women's divisions. Each person attending must pay a gate fee of 25¢ regardless of age, and the senior class will also have a concession stand in operation at all games. Money made from the affair will be used to defray expenses of the annual class trip, at close of school. Brackets for the tourney will be set as soon as entries are in and captains of teams will be notified of game time.

SUGAR BEET PLANTING NEARS

Sugar beets as a major money making crop on the High Plains will be tried for the first time this year with Farmer County farmers allotted 4,800 acres, or approximately one fifth of the beets to be grown in a five county Texas area including, Lubbock, Castro, Deaf Smith, Hale and Farmer Counties. An allotment has also been set aside for Curry County, New Mexico.

Prior to this year only about 90 acres of the 1,800 acres of beets grown in the five counties has been raised in Farmer County.

All acreage to be grown in the county has been contracted to sugar companies with most of the acreage to be grown for Holly Sugar Company, which is in the process of building a \$21-million plant in Hereford. The company will also construct receiving dumps at Bovina and Friona. In addition a dump will be in operation in the Summerfield area in the eastern part of the county.

Planting of the beet crop is due to begin in the next few days with planting to be completed by March 15 or shortly thereafter, says Dave Edington, field man for Holly who has offices in Friona. Edington says his company is shooting for a 20 ton per acre average on fields in this area.

Varieties to be planted in Farmer county will be determined by the grower and the sugar company with whom he has a contract; however most of the beets raised on the High Plains in former years have been of the U.S. 35 variety. Holly Sugar officials think the U. S. 35 variety may be replaced by monogerm varieties that have good curly top resistance and more seedling cold tolerance. The newer varieties also have a good yield potential.

Growing of sugar beets may be of much benefit to farmers in the area in many ways, says County agent Deryl Coker.

"The crop can only be raised on the same land one time in a five year period and for this reason rotation of crops will be necessary and will prove beneficial to the soil."

The best tops can be used in the feeding of cattle with the food value compared to that of alfalfa. The beets may be grazed prior to harvest or they may be topped and the tops put up as ensilage to feed stocker cattle through the winter.

Cost of raising the beet crop is compared to that of cotton and the returns are approximately the same with price of the crop determined by the quality of beets, sugar content and the retail price of sugar at time of harvest.

Harvest usually starts in October and should be completed by early December, depending on weather conditions.

Kenneth Neill, who has been the lone raiser of sugar beets in Farmer county for the past 15 years, says he has realized good profits from the crop and has averaged some 18 tons per acre each year.

Neill, who is manager of Friona Growers and Shippers, says some 400 acres of potatoes and 250 acres of carrots will be grown in the area this year; however he adds that few onions will be grown in Farmer county. A few acres of additional produce crops will also be grown in Farmer County, says Neill.

Lumpy jaw, a serious problem in cattle, is now believed to be affected by heredity, according to research at the Ohio Agricultural Experiment Station. The work shows that heredity has much to do with the animals' ability to resist the organism causing the disease.

The pitch fork is still as important as insecticides in controlling flies. The two tasks of cleaning-up manure piles and spraying around the farm are both essential to rid the farm of these pests.

Though scientists don't know why as yet, research at the University of Arizona shows that adding common aspirin to poultry rations causes hens to lay six per cent more eggs.

Weed Control Meeting Set For Area Farmers At Hub, Feb. 25

A meeting will be held at Hub Community center, Tuesday, Feb. 25, 1:30 p.m. to discuss the use of Propazine, Karmer, DMSA, and other chemicals that

can be used in controlling weeds in grain sorghum and cotton. Weed control has been one of our most severe problems, says Deryl Coker, county agent, and

it is hoped that all of us can learn to use them, and make them work for us.

With the employment situation like it is, "We should certainly make it a point to learn how to cut labor costs, increase yields and take advantage of everything possible, to better ourselves," said Coker. In addition to the above mentioned subjects, Prentice Mills of the ASCS Office will present a short discussion of eligible skip-row plantings.

At Home In Farmer County

By CRICKET B. TAYLOR
County HD Agent

By Cricket B. Taylor

A total of 75 homemakers in the four county precincts are registered in clothing workshops that are now in progress. I was sorry that some were not able to participate due to the deadline for registration. Classes will be held at Black Community Center, Hub Community Center and Farwell Homemaking Cottage throughout the month of March.

The program on Use of Equipment and Carpet Care was attended by 91 homemakers in the county. The program included information on "Buying Carpet," by Mrs. Muriel Bridges, Director of Home Service of the Southwestern Public Service Co., who did a fine job. This was especially interesting to those planning to replace and buy carpet. The "Spot Removal" demonstration seemed from survey, to be needed and useful to all. Many women did not know that there is an electric floor mop until this demonstration. This really

seemed to create a great deal of interest. After all, what woman likes to squeeze and ring out mops and mop floors? The "floor mopper," really created interest as well as the electric "home shampooer."

Those that missed this program are truly the "losers," because as many said after the meeting, "it was a wonderful lot of information and all of it usable."

Some booklets are still available so come by my office, in the court house and get a copy.

Nearly 500 million tons of agricultural products are harvested annually in the United States. Since each of these products is handled an average of four to six times, effective processing and distribution depends on the use of modern techniques and methods.

Mesquite, which is becoming a problem in parts of Texas where it was previously unknown, is sometimes spread by animals. Animals transported from infested areas carry the mesquite beans in their digestive systems. Confinement of animals to a drylot for three to five days after they arrive in a new area will allow mesquite seed to be eliminated from their systems.

SCD Meetings Set Next Week

Two meetings of interest to 235 Soil Conservation District Supervisors in the Panhandle area are scheduled for next week. On February 18 at the Holiday Inn West in Amarillo, and on February 20 at the Plains Coop Oil Mill in Lubbock.

The purpose of the meetings is to have a class of instruction on duties, responsibilities and obligations of District Supervisors. The activities and responsibilities of the State Soil Conservation Board and the Association of Texas Soil Conservation Districts will be discussed. Soil Conservation District and Soil Conservation Service working operations will be brought out in the program.

Frank Gray of Lubbock, State Soil Conservation Board Member for the Panhandle area; and J. Earl Laney, of Hale Center, President of the Association of Texas Soil Conservation Districts, will assist in holding

the classes of instruction.

Also attending the meeting and taking part in the program will be Aubrey Dalrymple, Lubbock, Field Engineer, and Harvey D. Davis, Temple, Executive Director of the State Soil Conservation Board; A. L. Black, Friona, Vice President, and A. L. Bading, Temple, Executive Director of the Association of Texas Soil Conservation Districts; and H. N. Smith, Temple, State Conservationist of the Soil Conservation Service.

The meetings will begin at 10:00 A.M. on the above dates, and will end at approximately 3:00 P.M. All Soil Conservation Districts are urged to have at least one member present but sponsors of the two meetings are hopeful that each Board will be represented by 100 per cent attendance.

Supervisors that have served for many years on Boards, as well as those elected last October will have the opportunity of learning more about District operations and responsibilities.

Value Of Soil Tests

More and more farmers and ranchers throughout Texas are recognizing the importance of adequate fertilization of crops and improved pastures, says Charles D. Welch, Extension soil chemist at Texas A&M University. This is reflected in numerous reports which show that proper fertilization and liming means more profit. For example, Elmo Cook, Travis County, agricultural agent, recently reported that an investment of \$5.40 gave Milford Olson of Elroy a net return of \$14.97 per acre on grain sorghum in 1963. The fertilizer increased the yield 784 lbs., valued at \$1.91 per bushel.

Welch points out that proper fertilization has been shown to increase the capacity of a crop to use soil moisture. Some of the highest returns from fertilization have been realized under conditions of below normal rainfall.

A soil test can provide valuable information about the lime status and fertility level of your soil and serve as a guide for adequate fertilization and liming. Your county agricultural agent can provide additional information about soil testing.

Twenty outstanding Texas 4-H Club members -- along with Future Farmers and Future Homemakers -- will be recognized during the annual Youth Honor Banquet the evening of February 7 in conjunction with the opening of the San Antonio Livestock Exposition. Banquet speakers will include Alan Dale Dreesen of Jefferson, chairman of the state 4-H Council, and Ann Falkenberg of New Braunfels, vice chairman. The 4-H members also will be guests of honor during Youth Day activities at the exposition, February 8.

FOOTSAVING EDUCATION

by James E. Edwards

Desegregate Health Education?
The steady increase of automation in industry makes it quite obvious that recreation, on a huge scale, is going to be essential for the safety of our country. The energy of youth cannot be suppressed. It will find release in wholesome sports or, as we now see in other countries, in various forms of mob violence.

In spite of criticism from many sources our schools have been and are doing wonderful work in teaching recreational activities that our youth can enjoy most of their lives. If you don't believe that this teaching is effective you haven't tried to get on a public golf course or tennis court. They are jammed.

To a shoeman there is still one sad note -- the absolute refusal of health educators to admit foot health education to their curricula.

This is not a criticism of modern education because, for hundreds of years, now, we have been plausibly reciting "sound minds in strong bodies" and neglecting to add "on needlessly deformed foundations". Good foot -- health is important in recreation even if it is just walking. Wouldn't it be a good time to desegregate -- feet are socially acceptable. It is the deformities we hate.

Eight Accidents During January

The Texas Highway Patrol investigated eight accidents on rural highways in Farmer County during the month of January, according to Sergeant W. E. Wells, Highway Patrol supervisor of this area.

These wrecks accounted for three persons injured and an estimated property damage of \$10,870.

The sergeant reminded motorists that Texas along with every other state in the nation many years ago enacted a safety responsibility law to meet the problems created by irresponsible operators of vehicles on our streets and highways.

This law is intended to encourage all motorists to become financially responsible and to promote highway safety by identifying those drivers and owners of motor vehicles who will not assume their moral and legal obligations to society and therefore should be removed from the highways.

"More stringent provisions of this law--requiring drivers and owners to be able to pay for damage to others in traffic accidents -- became effective January 1, 1964," the Sergeant said. "In any accident in which damage amounts to at least \$25.00 or more, the operator of every motor vehicle is required to report the accident in writing to the Texas Department of Public Safety. If the accident involved death, injury or damage to one person's property of at least \$100, the accident then comes under the Safety Responsibility Act and its requirements must be met," he explained.

"The Department of Public Safety is required by the new law to suspend the driver licenses and all motor vehicle registration plates of both the operator and owner of vehicles involved in accidents coming under the Safety Responsibility Law unless the owner and operator meet one or more of the following requirements."

IT'S A LIVING -- by Al Johns

"PETER! THE MAN DOESN'T WANT IT PLUGGED IN."

NOTICE

The dumping of refuse such as garbage, rubbish, beer containers, junk, dead animals, and all other decayable or non-decayable waste upon or along the public roads, streets, or highways is a violation of Texas Penal Code, Articles 696-696A, and punishable by a fine up to \$200.00. There is much evidence of widespread violation of this law in Farmer County, and steps are being taken to assure enforcement. The Farmer County Commissioners' Court asks your cooperation in this matter.

TO BETTER SERVE YOU Pictured above is the new home of O.K. Tire Store which is owned and operated by Jake, Arthur and Bob Snipes. Construction will begin immediately and will be located at Seventh and Jones. General contractors will be B & C Builders, Inc. of Clovis and Muleshoe.

O. K. Tire Store, formerly known as O. K. Rubber Welders, was first formed in 1937 by two brothers, Jake and Ivan Snipes, with the former still associated with the business. In recent years, Arthur and Bob Snipes, sons of Jake, have joined the firm and have formed a corporation known as Jake Snipes and Sons, Inc.

Nothing has been spared to offer our customers the most complete tire store in Eastern New Mexico and West Texas. Along with the present tire and battery facilities, we are adding a front-end alignment and brake department.

All office and sales areas will be cooled with refrigerated air. A snack bar will be included in the main sales room. Large amount of glass will be used in the interior to allow constant observation while your car is being serviced.

Recapping facilities will be enlarged with the addition of two new molds to give our customers a more complete selection of modern designs and sizes. Our expanded recap facilities will offer a capacity of approximately 50 tires per day. One of the new molds will be capable of retreading all commercial size tires with the very latest tread designs.

Ten service bays will allow quick serving of all tires and vehicles. Five hydraulic lifts will be installed to gear our operation with this better and quicker services because time is valuable, time is money, and it is our desire to save you money through service.

We say THANKS to our customers for their past patronage, we are grateful for and appreciate the congenial relationships we have established. We extend a cordial invitation to everyone needing our product or service to give us an opportunity to better serve you. The skill and knowledge obtained from 132 years of combined experience of our employees is, at our customers disposal. PLEASE LET US SERVE YOU. LOOK TO OK FOR MORE IN SIXTY-FOUR.

Farmers Discover Increased Need For Phosphorus

One of the significant changes in fertilizer use in the Northern High Plains of Texas is the increased need and use of phosphorus fertilizers this past year. This trend in fertilizer use will continue to increase at an accelerated pace.

This increased use of phosphorus has resulted from the depletion of our native soil phosphorus. Our rates of nitrogen over the past four to six years has resulted in high yields of milo, wheat and cotton with a resulting depletion of phosphorus levels in the soil.

A common comment by farmers is that "My nitrogen fertilizer is not doing the job that it used to do." In many cases, this has been due simply to the depletion of soil phosphorus to a critical level. The addition of a phosphorus fertilizer will usually result in better use of the nitrogen which is applied. Proper nutrient balance continues to be one of the most important aspects of fertilizer use.

Many sources of phosphorus are available and several different methods of application are currently being used. Ammonium phosphates, either liquid or dry, such as 7-21-0 or 11-48-0, are excellent sources of phosphorus.

Their main advantages are the high degree of water solubility and the fact that they contain a small amount of nitrogen to go with the phosphorus which is applied. The super-phosphates, 0-20-0 and 0-46-0, are adapted to broadcast applications of phosphorus. Various other mixed fertilizers containing phosphorus are

available. Method of application can often be important in phosphorus utilization by plants. A banded application placed approximately four to six inches below the seed and one to four inches to the side would be considered an ideal method of phosphorus fertilizer placement for most efficient use.

A common method of application in this area would be the dual application of liquid 7-21-0 plus anhydrous ammonia on 20 inch centers. Dual application of dry 11-48-0 plus anhydrous ammonia is also a good method of fertilizer appli-

cation. Broadcast phosphorus normally will require about 50% more phosphorus to be equivalent to a banded phosphorus application. Where 40# of P2O5 would normally be supplied for a milo crop in a banded appli-

available for plant use during the growing season. Phosphorus usually should be applied pre-plant so that the young plant will have early access to the fertilizer phosphorus.

Determining whether phosphorus is needed is important from the standpoint of profits from fertilizer use. A soil test to determine level of soil phosphorus is the best way to determine need. If applied nitrogen is not doing the job it should, the odds are that phosphorus is needed.

Trade And Farm Policy Conference Set

A Southwest Agricultural Trade and Farm Policy Conference, involving delegates from Arkansas, Louisiana, Oklahoma and Texas, will be held in Texas A&M University's Memorial Student Center, February 26-27. Conference theme will be "Farm Policy, Foreign Trade and You."

Because of space limitations, attendance will be limited to 200 invited participants, said J. E. Kirby, economist-marketing and policy for the Texas Agricultural Extension Service and chairman for the conference.

The delegates, Kirby said, will represent every phase of agribusiness from producers to retailers. They will participate as individuals and not as representatives of organizations, agencies, businesses nor firms, he added.

Speakers will include the top talent in the nation. They include Drs. Arthur Mauch and L. W. Witt, Michigan State University; Dr. J. A. Schmitter, U. S. Department of Agriculture; E. N. Holmgreen, (ret.) Food and Agri. Office, Foreign Aid Program.

Also Drs. Don Paarberg and J. Carroll Bottom, Purdue University; Dr. M. K. Horner, Nat'l Cotton Council; Dr. Everette Peterson, University of Ne-

braska; Drs. H. J. Meenen, University of Arkansas; J. S. Plaxico, Oklahoma State University and C. E. Bishop, Agricultural Policy Institute and North Carolina State College.

Discussion leaders include Dr. Wayland Bennett, Texas Tech College; Dr. R. J. Hildreth, Farm Foundation; Kirby and Drs. Tom Aaron and M. L. Fowler, Texas A&M and Dr. G. S. Abshier, Oklahoma State University.

President J. Earl Rudder will welcome the group to A&M and Dr. T. R. Timm, head, A&M's Department of Agricultural Economics and Sociology will follow with his "Setting the State" discussion. Presiding officers for the four sessions include Texas Extension Service Director John E. Hutchison, and three well known Texas farm magazine editors; Sam Whitlow, Farmer Stockman; C. G. Scruggs, Progressive Farmer; and Charles E. Ball, Farm Journal.

The conference is sponsored by the Texas Extension Service, Agricultural Policy Institute, North Carolina State College and Department of Agricultural Economics and Sociology, Texas A&M University.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It has not been decided whether or not there will be a regular membership drive for Farmer County Farm Bureau as yet. Some consideration is being given to dispensing with it on an experimental basis to save the expense involved, and possibly having a banquet some other time during the year in which more people than just the workers would be interested.

Some people are not impressed with the figures listed by a conservative group showing the Quotient Liberal vote of congressmen. Here, however, is one from the Americans for Democratic Action (ADA), which is the Fabian Socialist Organization of America, according to Joe Ealy, who spoke to the Texas Farm Bureau Institute last year.

In the ADA World Publication of January, 1964, appear the following "Quotient Liberal" scores for Texas Congressmen: Beckworth - 67; Brooks - 92; Burleson - 17; Casey - 20; Dowdy - 17; Fisher - 0; Gonzales - 100; Kilgore - 17; Mahon - 25; Patman - 73; Poage - 42; Pool - 8; Purcell - 55; Roberts - 33; Rogers - 42; Teague - 42; Thomas - 91; Thompson - 73; Thornberry - 83; Wright - 67; Young - 92; Alger - 8; and Foreman - 0. Senators were rated as follows: Yarborough - 76 and Tower - 0. The higher score gives the support of the ADA a boost, as you can see. We thought you would like to know these scores regardless of your preference.

President Johnson vetoed a bill passed by the Congress that would have required the labeling of imported items with the country of their origin. President Eisenhower vetoed a similar bill in 1961. We are glad to know that Congress wants such a bill and sorry to know that presidents of both parties don't. The effect of the vetoes is to permit Communist countries and others to send goods into

(Continued on Next Page)

Food Stores Offer Variety, Abundance

Food stores offer more variety and abundance for their customers than ever before. A recent survey in one food market showed that 85 different cuts of meat or poultry were offered, and this did not include cold cuts or seafood, says Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist.

Many large food stores offered more than 70 different varieties of canned vegetables and the choice in one store was from as many as 100 varieties. There were nine different va-

rieties of canned green beans, not to mention fresh and frozen green beans. One store in the survey offered 262 different combinations of can sizes, brands and varieties of vegetables alone.

Variety isn't the only service consumers enjoy from modern food stores, the specialist says. Convenience is another.

"Consumers have come to expect convenience in the form of late hours and seven-day service, and convenience in the form and package of the food," Mrs. Clyatt says.

Tansy Mustard Can Cut Wheat Yields

Recent studies at the Southwestern Great Plains Field Station indicate that a single tansy mustard plant per square foot in dryland wheat fields reduced yields by about 10 percent.

Agronomist A. F. Wiese and Assistant Economist J. S. Wehrly of the Texas Agricultural Experiment Station staff conducted the studies and developed a guide farmers can use to determine whether control of tansy mustard will be profitable. Tansy mustard is the most common weed over much of the Texas dryland wheat producing area.

It has been known for some time that the weed did not compete with wheat for moisture when controlled with 2,4-D ester. The recent studies thus pinpointed the damage caused by the weed in dryland wheat.

The scientists suggest that farmers watch their wheat fields in February or March, count the weeds--on a square foot basis--and make an estimate of potential wheat yield. Then by taking the 10 percent damage for a single weed per square foot and varying it up or down depending on weeds

counted and using an assumed value of \$1.75 per bushel for the potential yield and figuring the cost of applying a half-pound of chemical per acre at \$1.50 (custom rate), farmers can determine whether control of the weed would be profitable, Wiese and Wehrly explain.

The half-pound of 2,4-D ester should be applied after the wheat is fully tilled but before vigorous spring growth begins usually between February 15 and April 1, the scientists emphasize.

With one weed per square foot and a potential yield of only 5 bushels of wheat an acre, control would not pay. But if the yield were 20 bushels, the profit would be \$2.00 an acre. On fields with a potential yield of 20 bushels an acre and a weed population of 4 per square foot, control would increase profit by \$12.50 an acre. The scientists conclude that if a farmer does his own spraying, the cost could be considerably less than \$1.50. It also would be profitable to treat fields with lower potential yields or weed numbers than when higher spray costs are required.

BEAUTIFUL PRACTICAL SET OF SIX THERMO SERV GLASSES
YOU CAN GET THEM FREE!

Any residential home-owner customer of Southwestern Public Service Company can get this beautiful Sea Mist green and white set of Thermo Serv insulated glasses just for listening. That's right! Just for listening as our electric heating representative unfolds the comforting story of electric heating and how it can be applied to your home. Call your Public Service Company this week to arrange appointment.

Electric Comfort Heating ...for the comfort of your life!

Pine oil, liquid chlorine bleach and quaternary and phenolic compounds are effective laundry disinfectants for use against disease-causing bacteria which survive usual home laundering. Extension Service home management specialists point out. All four of these disinfectants have been laboratory tested by bacteriologists of USDA's Agricultural Research Service and in household laundering by cooperating homemakers.

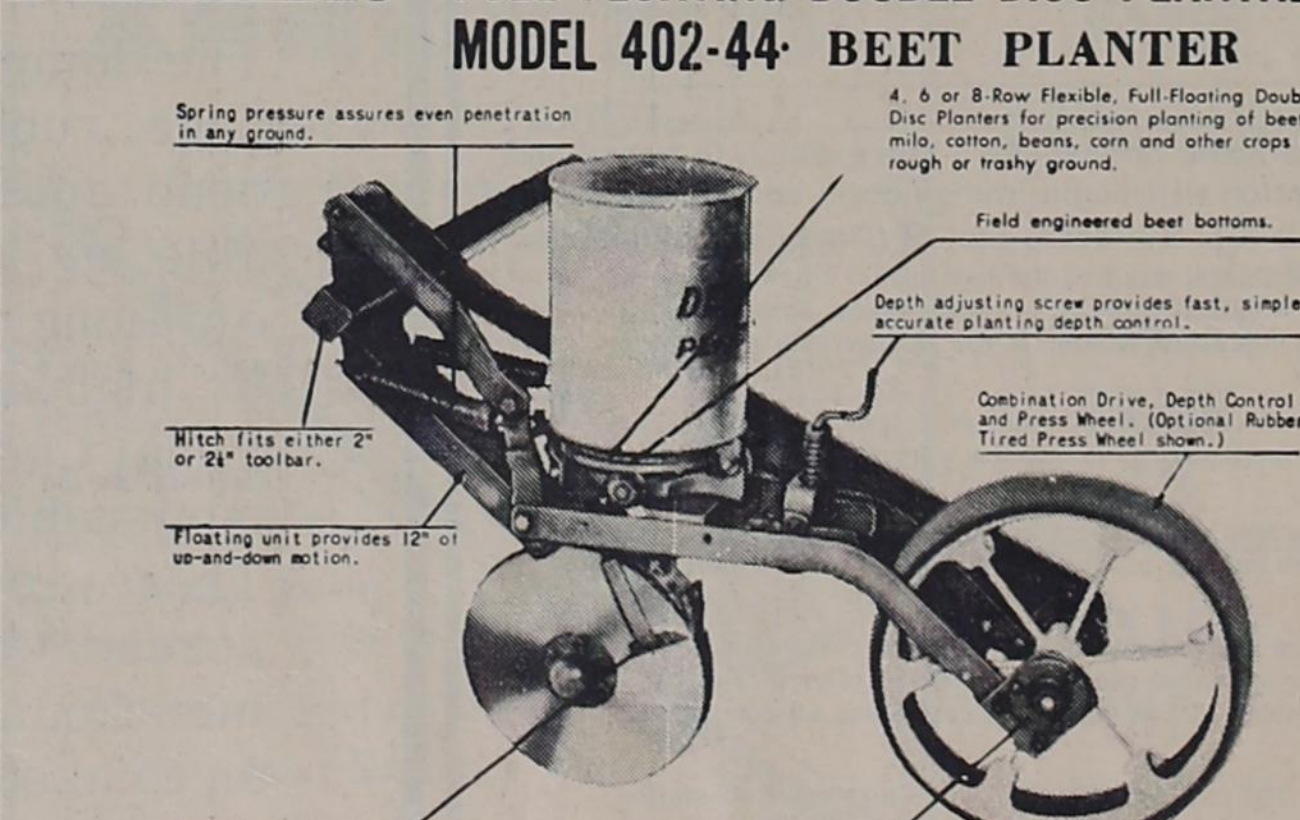

Now being considered for commercial production is a new evaporated milk tasty enough to drink. It was developed by the USDA and can be made at a concentration of either two or three times that of whole milk and dilutes to a high-quality beverage resembling fresh milk in flavor and color. Agricultural Research Service chemists are working to further improve the product, especially to prolong its fresh-milk flavor and to prevent the slight sediment that sometimes forms after a few weeks of storage.

Beef And Pork In Good Supply

Liberal supplies of both beef and pork offer continued good buys at meat counters this week, says Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist.

tured at many stores, and ham is a good choice. Prices of smoked ham do not fluctuate as much as prices of fresh pork cuts, so compare before buying, the specialist says.

Hams offered in most re-

Egg Cookery In The Spotlight

Texas' annual egg cooking and recipe contest is scheduled February 15-April 1 for non-professional cooks.

This word comes from T. A. Hensarling of Stephenville, executive secretary for the Texas Egg Council, a sponsor for the event in cooperation with the Poultry and Egg National Board of Chicago.

Homemakers may enter recipes for their favorite egg dishes. Entry forms and rules may be obtained by writing Hensarling at P. O. Box 251, Stephenville, or by contacting Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist, 401 Caroline, Room 501, Houston.

State judging will be in Houston in May. A senior division winner will be selected to represent Texas in the National Egg Cooking Contest in

Chicago, September 14-15. In order to qualify for the senior division, a person must be 18 years of age or older by February 15.

"An important thing to remember is that the entry form must be attached to each recipe and mailed to the Poultry and Egg National Board before the deadline," Mrs. Clyatt says. The Texas winner will receive an expense-paid trip to Chicago to compete in the national cook-off. Top award for the best national senior division cook will be a \$1,000 Series E United States Savings Bond.

Judging at the national finals will be conducted by a panel of food experts. Winning recipes and entries will be selected for originality, flavor and appearance, completeness of steps, simplicity and awareness of basic principles of egg cookery.

Farm Bureau--

the United States without the consumer knowing where merchandise he buys is manufactured. It seems that the consumer should be given the choice.

According to the Shreveport, La. Journal, it costs industry approximately \$20,000 to provide a job. The Federal Government must spend about \$45,000 to create a job through increased spendings.

CONSIDER THIS: An hypocrite with his mouth destroyeth his neighbor; but through knowledge shall the just be delivered, Proverbs 11:9

Plentiful vegetable choices this week also include carrots, cauliflower, celery, acorn squash, sweet potatoes, and red potatoes. Supplies of canned corn remain at record levels, and canned tomato products also are plentiful. It's a good time to stock the pantry shelves with these two items.

Quality varies on a decreased but adequate supply of bananas, apples and medium size oranges. Fresh dates are available, and pecans continue plentiful. Avocados are featured in some stores.

Three additional research projects designed to help answer questions about the role-- if any -- of diet in cardiovascular diseases will be sponsored by the Special Dairy Industry Board during 1964. Representatives of the 10 United States and one Canadian dairy organization financing the board's work approved the new projects and also extended several other projects at a recent meeting in Washington, D.C.

Protection From Radioactive Fallout

Third In A Series on Civil Defense
By T. G. Hollmig and Bobye Riney

A nuclear bomb is a fearful and devastating weapon. However, should our nation be attacked with this weapon, the greatest danger and our greatest need for protection, would be from radioactive fallout.

Protection from nuclear fallout entails three general principles. They are distance, time, and shielding. The principle of distance is simply that the greater the distance from the source of radiation, the greater the protection. When this distance is doubled the intensity of the radiation is reduced to 1/4 and with three times the distance it is reduced to 1/9th.

Time is another important principle in protection from fallout. Radioactivity from a nuclear weapon begins to lose its energy soon after the explosion through the process known as radioactive decay. A formula, important in determining decay, is that with a seven-fold increase in time there is a ten-fold decrease in dose rate. For example, if one hour after a blast the radiation intensity measures 1,000 roentgens per hour, it will decay to 100 roentgens per hour in seven hours. In 49 hours it will decrease to 10 roentgens per hour, and in 343 hours, or about two weeks, it will decay to 1 roentgen. Thus it would be safe to leave shelter after two weeks.

Shielding is really the only effective method of protection from radiation, and everyone should have some type of fallout shelter. These shelters will be discussed in future articles on civil defense.

Three feet of earth, 24 inches of concrete, 2 inches of lead, and 90 inches of wood, give excellent protection.

Shielding is really the only effective method of protection from radiation, and everyone should have some type of fallout shelter. These shelters will be discussed in future articles on civil defense.

MEN WANTED to meet the growing need for CLAIMS ADJUSTORS Earn \$450 to \$1,000 a month

We train you at home in your spare time for a job that can pay you a big income, provide your car, pay your expenses and give you lifetime security. Opportunities in the field of investigating auto accident claims for insurance companies or from your own office are wide open for men who want extra income or a full time, fascinating career. What They Wore... by PHYLLIS JOYCE

WHEN GEORGE WASHINGTON WAS PRESIDENT THE FRENCH INFLUENCE WAS APPARENT IN LADIES' DRESS. TYPICAL WAS A GOWN OF FLOWERED SILK DRAPED OVER FRAMEWORKS CALLED PANIERS WITH AN UNDERSKIRT OF PLAIN COLOR TRIMMED WITH BOX PLEATING

OUT OF DOORS A LADY WOULD OFTEN WEAR A LONG OUTER GARMENT CALLED A PELISSE (SHOWN AT RIGHT) MADE OF SILK WITH A QUILTED BORDER AND A DRAWSTRING JUST UNDER THE BOSOM

CHILDREN'S CLOTHES, SUCH AS THIS SHEER MUSLIN GOWN TRIMMED WITH APPLIQUE EMBROIDERY WERE ELEGANTLY MADE AND COPIED FROM THE GARMENTS OF THEIR PARENTS.

TODAY WHEN BUYING WOMEN'S AND GIRLS' APPAREL LOOK FOR THIS LABEL... THE SYMBOL OF DECENCY, FAIR LABOR STANDARDS AND THE AMERICAN WAY OF LIFE

A proposal to amend the Federal Meat Inspection Regulations to permit use of smoke flavoring in curing additional meat products has been made by the U. S. Department of Agriculture. The amendment would permit addition of smoke flavoring and artificial smoke flavorings to a greater variety of meat products than present regulations allow. Identification of both types of flavorings will be required on the labels of products to which they are

added, industry spokesmen report.

All consumers benefited in many ways during the past year from services provided by the U. S. Department of Agriculture. These services helped householders in virtually every phase of daily living and were in addition to USDA's work to help increase efficiency of production and marketing of farm commodities.

SIDE BY SIDE

Heavy Duty Laundromat® Washer LTF700

- 2 Automatic Washing Cycles for regular and delicate fabrics.
- 3-Position Water Saver adjusts water input to size of load.
- Automatic Self-Cleaning Lint Ejector with no filters to clean.
- Two Deep Rinses -- an exclusive Westinghouse feature.
- Giant Capacity washes 12-lb. load or more.

Heavy Duty Electric Dryer DTF700

- Automatic Time Control dries clothes perfectly, then shuts off.
- 2 Temperature Selector for regular or low heat.
- Large Capacity Lint Collector is easy to reach, easy to clean.
- New Balanced Air Flow Drying eliminates possibility of hot spots.

UNDER THE COUNTER

Heavy Duty Laundromat® Washer LTF100 and Electric Dryer DTU100

- Undercounter Installation for built-in convenience and appearance.
- Giant Capacity washes and dries 24 or more pounds of clothes at the same time.

Feed Grain Program Gets Underway In Parmer County

Farmers started on Monday, February 10, signing up in the feed grain program for the coming crop and the ASCS office has been a rather busy place since that time. But, not as busy as the early days of the sign-up period have been in past years since the inception of the program.

There were 210 farms signed up during the first four days of the sign-up period. The record to-date would indicate that there will be a larger participation in the program on the average farm acreage-wise than there was in the past year. At the closing of business on Thursday, February 13, there had been 210 farms signed-up to participate in the program.

There is a total of 42,220 acres of feed grain base acreage on these farms. The producers on these farms have indicated that they will divert (lay out) 14,307 acres for an average of approximately thirty four per cent of their acreage.

This is a higher percentage of diversion indicated at this point than that of a year ago. The average feed grain diversion under the 1963 program in this county was approximately twenty four per cent. If the present trend continues, there will be approximately ten per cent fewer acres of feed grain in the county this year than there were last year.

Total advance payments made to producers as of Thursday,

February 13, amounted to \$547,133.00. An average per farm payment of \$2,605.00.

"We would like to urge those feed grain producers, who have not already done so, to come

on in now in order to avoid the last minute rush in signing up," says Prentice Mills. The final date for signing an intention to participate in the 1964 program is March 27, 1964.

U. S. Exports of Sorghums Are Best in History As Foreign Buyers Recognize Its Value as Feed

Washington, D.C., Jan. 13, 1964 — In 1963, U.S. exports of grain sorghums were at a record high of over 3 million metric tons. These large shipments helped reduce stocks for the second successive year. They also seem to point to a fairly good future for this important U.S. crop which has been in surplus for the last 8 years. Abroad, as well as at home, buyers are becoming more familiar with the feed value of sorghums. Also, the world demand for livestock feed is mounting rapidly.

As early as 1955, over a third of the U.S. sorghums crop was being sold to CCC. Production, which in the prewar period had been under 100,000 bushels annually and which by 1956 only slightly exceeded 200,000, had tripled to over 600,000 only 2 years later. This was largely the result of research, which had increased yields from less than 22 bushels per acre in 1956, to 36.7 bushels, or almost double that figure, by 1958. Over a much longer time, acreage had also increased to a high of 19 million, before production was curtailed by the Feed Grain Program.

Both in the United States and abroad new markets were needed for this relatively unknown product. (Of the small prewar U.S. production, only negligible amounts — a few thousand bushels per year — had been exported.) To move sorghums into new areas and increase its attractiveness in others, a 7- to 10-per cent differential in price with the familiar feed, corn, has been maintained. At home, the possibility of raising large quantities of the product in the cattle-ranching areas of the Southwest, thus reducing freight costs, proved a selling point.

The first great growth in the overseas sorghums market came in Western Europe. War-devastated Europe had faced the postwar period with feed shortages at the same time that recovery and rising consumer incomes encouraged the growth of livestock industries. The climate was favorable for exports of U.S. sorghums, and by fiscal 1960 Europe was taking over 2 million metric tons out of total U.S. world exports of about 2.5 million.

Since 1960, imports of U.S. sorghums have fluctuated from year to year. They have continued to rise in the Netherlands, an important dairying and trading country — from nearly 574,000 metric tons in 1960 to 701,000 tons last year. They have been well maintained also in Belgium-Luxembourg — where they are still at 450,000 metric tons compared with a high of about 529,000; but in West Germany sorghums imports have dropped to 172,500 tons from 224,000.

In the Far East, Japan has become an important market. Last year the country took 566,000 metric tons, double the former year's purchases of 294,000 tons, and it is anticipated that next year's imports may go as high as 800,000 to 1 million tons. This rapid rise, in a country with growing livestock and poultry industries and too little land for raising feed, is being effected by U.S. market development efforts plus Japan's setting aside of funds for purchase of sorghums.

A North American market showing considerable promise is Mexico. From around 7,100 metric tons 2 years ago, imports of U.S. sorghums rose to nearly 41,000 in 1961, and 173,000 this past year. In Mexico, corn is reserved for human use, and does not compete with sorghums as a feed. In addition, Mexico usually does not import corn. As the country's livestock and poultry populations grow, U.S. sorghums sales may be expected to increase.

In Eastern Europe, Poland took nearly 378,000 metric tons of U.S. sorghums during the past year, after receiving none the year before. This transaction depended on negotiated sales, which may not be repeated. However, the Soviet Bloc's great potential for the raising of feed grains suggests that in the long run it may become self-sufficient in these products.

For 1964, a record-high world corn crop just achieved in 1963 will offer greater competition with sorghums as a feed, but forecasts are for another good export year.

Grain Price-Support Activity Through December 1963

Washington, Jan. 17, 1964: The U. S. Department of Agriculture today reported that farmers had put 156,327,657 bushels of 1963-crop corn under price-support loans and purchase agreements through December. The report also includes support activity on other grains through the month.

Of the 156.3 million bushels of 1963-crop corn put under support, 145,380,117 bushels were farm-stored, 10,576,999 bushels warehouse-stored, and 370,541 bushels under purchase agreements. This total compares to the 135,348,861 bushels of 1962-crop corn put under support through December 1962 and to the 82,855,069 bushels of 1961-crop corn put under support through December 1961.

The quantity of corn put under support from the 1963 crop increased 115,298,831 bushels in December. This compares to the increase in December 1962 of 106,777,086 bushels from the 1962 crop and in December 1961 of 71,194,018 bushels from the 1961 crop.

Through December, farmers had put 146,909,294 bushels of 1963-crop wheat under support. This compares to the 215,713,098 bushels of 1962-crop wheat put under support through December 1962 and to 247,441,589 bushels of 1961-crop wheat put under support through December 1961. The quantity of 1963-crop wheat put under support increased by 2,230,070 bushels in December. This compares to the 5,740,789 bushels put under in November 1963 and to the 10,154,659 bushels of 1962-crop wheat put under in December a year earlier.

Tables showing the 1963-crop corn and wheat put under support by States follows in this release.

	Warehouse- Stored Loans	Farm- Stored Loans	Purchase Agreements	Total Put Under Support through Dec. 31, 1963	Total Put Under Support through Dec. 31, 1962
Barley, bu.	2,846,931	15,930,796	450,648	19,228,375	24,888,322
Corn, bu.	10,576,999	145,380,117	370,541	156,327,657	135,348,861
Flaxseed, bu.	8,131,233	2,173,675	128,313	10,433,221	3,802,230
Oats, bu.	2,098,748	25,980,648	346,501	28,425,897	24,239,200
Rye, bu.	787,205	684,303	23,463	1,494,971	5,026,001
Soybeans, bu.	23,540,193	26,546,953	215,139	50,302,285	48,633,159
Wheat, bu.	87,434,524	57,846,646	1,628,124	146,909,294	215,713,098
Dry beans, cwt.	2,252,442	64,994	3,808	2,321,244	2,004,327
Gr. Sorghum, cwt.	49,317,672	4,460,101	87,868	53,865,641	78,833,380
Rice, cwt.	3,222,382	2,117,989	53,147	5,393,518	4,973,489

Following are quantities of 1963 crops put under support through December and November 1963, compared to 1962 crops put under during December 1962:

	December 1963	November 1963	December 1962
Barley, bu.	948,045	2,470,815	3,109,014
Corn, bu.	115,298,831	38,798,097	106,777,086
Flaxseed, bu.	371,492	1,566,542	605,526
Oats, bu.	2,053,013	4,600,917	1,938,768
Rye, bu.	30,996	47,788	449,410
Soybeans, bu.	14,299,763	21,044,628	16,426,765
Wheat, bu.	2,230,070	5,740,789	10,154,659
Dry beans, cwt.	276,826	539,806	144,833
Grain Sorghum, cwt.	10,878,534	20,160,879	20,757,664
Rice, cwt.	878,209	2,282,395	1,089,661

Insect Experiment Near Snafus Mark

Texas and federal insect experts stood by and watched with scientific detachment recently, while clouds of Mexican fruit flies swarmed over Rio Grande Valley citrus groves.

Usually a matter of grave concern to citrus growers, the fruit fly invaders were products of a Mexico City laboratory where they had been sterilized for safety and color-dyed for easy identification.

"These flies are the latest word in 'migratory workers' from South of the Border," explained Agriculture Commissioner John White. "By comparing the color-coded flies

later caught in traps with their original release points, we can learn a great deal about their traveling habits. The information will be useful in establishing new insect control measures to protect our citrus crops."

The artificial infestation is being tried initially on 80 acres of citrus trees in Hidalgo County, with releases varying from 10 to 100 flies per acre. Commissioner White assured growers that sterilization had made the flies incapable of laying eggs which would normally develop into the destructive larvae.

The program got off to a slow start when the laboratory technician transporting the flies from Mexico City was delayed at the border by U. S. Customs officials. He had left some necessary papers in his lab and was not permitted to enter Texas until identified by TDA District Supervisor J. C. Walling of Pharr.

"We had one bad moment when a border guard wanted to open the box of flies for inspection," said Walling.

PEGGY HUGHES

Peggy Hughes Crowned Texico Band Sweetheart

Peggy Hughes, 15, daughter of Mr. and Mrs. H. L. Hughes and a sophomore in Texico High School was crowned high school band sweetheart in ceremonies at the B team basketball game Friday night.

The band formed a large heart and played "Venus" while Miss Hughes was escorted to the center of the heart by Joe Patterson, band president, and Wanda Eshleman, 1963 band sweetheart. When they had reached the center of the heart, the 1964 sweetheart was crowned by Miss Eshleman and presented with a bouquet of red sweetheart roses by Patterson.

The crown was of white satin adorned with large red hearts. She wore a formal gown of white satin styled with a round neckline and a sleeveless bodice. Bodice of the satin gown was enhanced with an overlay of self-embroidered white eyelet organza. She wore elbow length mitts of white to complete her attire.

Flowergirl was Elizabeth Pierce, daughter of Mr. and Mrs. Jim Pierce and crown-bearer was Gary Green, son of Mr. and Mrs. Johnny Green. After the sweetheart had been crowned she was escorted by Patterson to the top of the heart where she stood while a fire baton exhibition was presented for her entertainment and that of the audience, by Brenda Cathey, twirler. Miss Cathey did the baton exhibition to the strains of "Washington Post March."

When the exhibition had been completed Miss Hughes was escorted from the floor by Patterson to a special section in the gym where she watched the Floyd-Texico basketball game. Miss Hughes, was crowned "homecoming queen 1964" in ceremonies at the school some two weeks ago. She has been a member of the band for the past five years, (playing flute), is a member of the chorus, (singing second soprano), has been elected class favorite, serves as a B team cheerleader and is a candidate for most beautiful.

She was selected band sweetheart by popular vote of the band members in secret balloting some six weeks ago.

Visit In Lovington

Mr. and Mrs. L. R. Vincent, Farwell, Mr. and Mrs. R. B. Summers, Clovis and Mrs. Lee Rothwell, Childress visited in Lovington, Sunday in the home of their aunt and uncle, Mr. and Mrs. Cal Witherspoon.

Mmes. Vincent, Summers and Rothwell are sisters.

Farwell 4-H Country Club Reports On MOD Drive

When members of Farwell 4-H Country Club met at the Oklahoma Lane community center Tuesday a report was heard that \$60.50 had been collected

for the March of Dimes in a drive by club members.

A program was presented by Joe Harlin from Muleshoe on electrical appliances. He led a question and answer session following the demonstration.

Janis Billingsley read minutes of the last meeting and called roll with Debra Garner leading the 4-H pledge. Kathryn Gober presided over the business session.

Refreshments of valentine cookies and punch were served at the close of the meeting by Cheryl Kaltwasser and Tina Rundell to: Bobby Foster, Neil Christian, Kevin Kaltwasser, Alan Gober, Buddy Foster,

Steven Kaltwasser, Janis Billingsley, Kathryn Gober, Gay Rundell, Debra Garner, Jean Kirk, and Sheree Rundell, members, Deryl Coker, Joe Harlin, Mrs. Walter Kaltwasser, and Mrs. Johnnie Rundell.

Recreation and a valentine exchange closed the meeting.

Farwell Party Honors Mr. and Mrs. Joe Reed

Honorees for a farewell party Monday night, in the home of Mr. and Mrs. Bruce Blair were Mr. and Mrs. Joe Reed, who are leaving later this week to make their home in Harrison, Ark., where they have bought ranching interests.

Assisting with hosts and hostess duties were Messrs. and Mmes. Bill Moss, Asa Smith, Elmer Scott, D.C. Halle and Raymond Martin.

The honorees were showered with farewell gifts, with the gift of Mr. and Mrs. Clay Henson, an axe, causing much comment. After gifts had been opened by the honorees visiting was enjoyed until a late hour. Refreshments of cake and coffee were served.

Attending were: Messrs. and Mmes. Asa Smith, Charlie Hromas, Bill Moss, Pat Patrick, Nell Stewart, Clay Henson, E.G. Williams, Elmer Scott, Dick Gerles, Clyde Magness, Willie Hardage, Otis Huggins, J. L. Bass, Raymond Martin, Donald Watkins, Clarence Johnson, Mrs. Clytie Dial, Mrs. O.C. Petree, Mrs. Mike McManigal and Kent, and E.A. Walker.

Party Honors Mrs. J. Morgan

Mrs. Joe Morgan was honored with a surprise party marking her 79th birthday, which she will celebrate this month when members of Ruth Sunday School class, Texico Baptist Church met in the home of Mrs. Harvey Hudnall, Monday night.

Mrs. S. G. Jones brought a devotional on "Love" using as her text Cor: 13. She stressed the fact that it is through love that we can become courageous and overcome temptations. "God gave us so much in love let us do what we can in return," said Mrs. Jones.

Plans were completed by class members for the menu which will be served to Texico seniors at their banquet later this month.

At close of the evening Mrs. Hudnall served a refreshment plate of fruit salad and whipped cream topped with a cherry, cake and coffee to Mmes. D. J. Brown, C. C. Curry, S. G. Jones, Henry Selman, John Lockhart, Monty Parsons, Alie Burris, J. O. Ford, Anson Bowers, Max Neely and daughter, Jana, and the special guest, Mrs. Morgan.

Second Son For Dick Lockharts

Mr. and Mrs. Dick Lockhart, Albuquerque, announce the arrival of their second son, Monday, Feb. 17.

The little boy weighed 6 lb. on arrival and had not been named at press time. The Lockharts other son is one and one half year old Rickey.

Paternal grandparents are Mr. and Mrs. John Lockhart, Texico and maternal grandparents are Mr. and Mrs. George Hilpert, Albuquerque.

ESA Has District Winner, Officer

Four members of Theta Rho chapter of ESA were in Carlsbad to attend the district meeting of the organization Sunday. Mrs. W. H. Graham was named as one of the three outstanding members in the district and will compete for the state honor at convention in April. Mrs. Joe Helton was named educational director of the district for the coming year.

Susan Ross of Roswell, chairman of the district, directed the meeting, and Mildred Burke, state president of Carlsbad, discussed state matters. Mrs. Pike Jordan, Farwell is outgoing educational director of the district. Mrs. John Getz, corresponding secretary of the local chapter, attended the meeting.

A luncheon was held preceding the business session, and outstanding members of the district were presented with charm bracelets inscribed with "ESA" by Mrs. Burke. The local chapter also received the travel award of \$5 for having the most members traveling the greatest distance to the meeting. About 100 women were present.

John Getz and Joe Helton accompanied their wives to Carlsbad.

In a business meeting Monday night of Theta Rho chapter of ESA at the home of Mrs. Jordan, reports were heard on the district meeting, and next local meeting was announced for February 24 by the social committee.

Dates for the state convention were announced for April 24-25 in Albuquerque, and members voted to continue summer projects as a money-making feature. Each member earns \$10 each summer with funds going into the treasury. Members also voted to contribute \$10 to the heart fund.

A Daughter For Tom Lovelaces

Mr. and Mrs. Tom Lovelace announce the arrival of their first child, a daughter, Feb. 15 at 3:55 p.m. in Clovis Memorial Hospital.

The little girl, who weighed 8 lb. 3 1/2 oz. on arrival has been named Tammi Ann. She is 21 inches tall.

Maternal grandparents are Mr. and Mrs. Virgil Schell, and paternal grandparents are the late Gene Lovelace and Mrs. Francelle Lovelace. Great-grandparents include: Mrs. Willie Lovelace, and Lewis Pierce, Farwell, Mrs. Stella Schell, Texhoma, Okla. and Mrs. Dorothy Coke, Malvern, Ark.

Significance Of Women In Church Discussed By WMA

WMA of Calvary Missionary Baptist Church met in the home of Mrs. Fred Cantrell, Tuesday night for a monthly business meeting and social.

The program, "The Significance of Woman in the Church," was presented by Mrs. Roy Vandiver. During the business meeting a project to supply Beginners and Primary Sunday School rooms with chairs was accepted for the year.

Plans were made for a fellowship supper Friday night, March 6, 7:30 p. m. in the basement of the church. The meal will be preceded by a song service in the church auditorium.

Next business session was

Ceremony Unites Couple Valentine's Day

Miss Anna Gaines, daughter of Mr. and Mrs. A. E. Gaines, and O. W. Adams, son of Mr. and Mrs. Pierceson Adams, exchanged nuptial vows in an afternoon ceremony Friday, February 14, in the home of the bride's sister, Mrs. Don Sudderth.

Rev. B. L. Barnes of Texico read the double ring ceremony. The couple exchanged vows before an archway entwined with emerald greenery and white pom poms. White wedding bells tied with red satin bows accented the archway.

Mrs. Don Sudderth, sister of the bride, sang "I Love You Truly." She was accompanied at the organ by Mrs. B. L. Barnes who also played traditional wedding selections.

Given in marriage by her father, the bride wore a formal gown of chantilly lace over tulle. The fitted bodice featured long tapering sleeves. The three tiered bouffant skirt of lace and net was caught with lace rosettes forming a colonial skirt. Her veil of silk illusion fell from a forehead spray of miniature pearlized flowers. She carried a cascade arrangement of feathered carnations surrounding a white orchid atop a white satin Bible with satin streamers.

Miss Martha Adams, sister of the groom, attended as maid of honor. She wore a red street length dress which featured a bouffant skirt. She wore a white circlet headpiece and matching white gloves. She carried a colonial arrangement of carnations.

Sharon Ann Sudderth, niece of the bride, served as flower girl. Don Sudderth attended as best man and Butch McCain served as ring bearer.

For her daughter's wedding, Mrs. Gaines chose a turquoise dress with white accessories. She wore a corsage of pink carnations.

Immediately following the ceremony a reception was held in the dining area.

The bride's table carried out the red and white theme. The table was laid with white lace over red and centered with an arrangement of red roses. Traditional tiered wedding cake, punch, mixed nuts and mints were served to guests. Silver and crystal appointments completed the table. Misses Jacqueline and Freda Jean Gaines presided at the table.

The bride is a graduate of Texico High School and the groom was graduated from Bovina High School.

Parties honoring the bride were a shower at the home of Mrs. Jim Bob Smart in Texico and a shower at First Baptist Church in Bovina last week. The groom's parents hosted a dinner party for members of the wedding party and a few friends Thursday evening at First Baptist Church Fellowship Hall.

The buffet table carried out a Valentine theme. The centerpiece featured a wishing well, white hearts, red sweetheart roses and cupid. The table was laid with a white crocheted cloth over red. Individual tables were decorated with red hearts and cupid on white cloths with red runners.

Assisting the hostess were Mrs. Bobby Englant, Mrs. Leslie McCain, Mrs. Ed Hutto, Mrs. J. D. Stevens, Mrs. Bernard Nelson and Mrs. Ovid Lawlis. Following a short wedding trip the couple will be at home at Macon Apartments in Bovina.

Announcement has been made of the marriage of Mrs. Mae Means and J. E. (Judge) Stone. They were married at the Stone home Saturday afternoon by Carrol Jackson, minister of the Lariat Church of Christ. Only attendants at the wedding were Mr. and Mrs. Jim Curtis and son, Jimmie. The couple will make their home at 305 State St. in Texico.

Members of Farwell First Baptist WMU met Monday for a Royal Service Program with Mrs. Bernard Nelson, program chairman, in charge of the mission study.

A round table discussion was held on the subject, "As a Christian Citizen I Must Be Informed." Members of the panel were Mmes. Bernard Nelson, Sterlyn Billington, M. G. Williams, J. L. Bass, and Neil Stewart. Others in attendance were Mrs. Bill Moss, Mrs. Roy Lovett and Mrs. W. W. Johnson.

Mrs. Otis Huggins taught a class of girls from the colored mission Auxillary and Mrs. Calvin Blain and Mrs. Fred Curtis were in charge of Sunbeams. Next meeting was set for Feb. 25 with all circles to have a joint program.

Uncle Ray's "Hot Air" was the theme of the new and nervous pastor was delivering a rousing sermon on the evils of gossip. "If there's anything I hate," he bellowed, "it is a tongue-bearing, tale-wagging woman."

There are two times in a man's life when he shouldn't speculate; when he can't afford it, and when he can. Don't speculate, trade at Uncle Ray's and be sure!

Wolverine basketball varsity squad will begin district tournament play Feb. 26. District record for the squad stands at 10 wins, four losses. Shown back row left to right: Joe Patterson, Bill Campbell, Neil Lambert, Mike Hitson, Tom Rickstrew; middle row left to right: Roy Wall-manager, Mike Spearman, Ronnie Richardson, Allan Hill, coach-Paul Frederick; front row left to right: Wayne Hudnall, Lonnie Curry, Gary Skaggs, Ronnie Curry.

Texico Girls Defeat Dora, Lose Game To House

Texico girls playing in Dora Tuesday afternoon took two wins with both seniors and juniors defeating the Dora lasses.

Final score of the senior game was Texico 15-Dora 13. Millie Autrey, Texico, was high for the afternoon with nine points. Meler of Dora had eight.

Texico juniors piled up a trip score to defeat the Dora quintet 21-7. High for Texico and the afternoon was Susan White with 10 points. Hart and Ratcliff with three each were high for Dora.

Texico girls lost a game to House Thursday night 36-29. House outscored the Texico lasses in each of the quarters except the second when it look-

ed momentarily as if Texico would come through as they hit for 11 and held their opponents to 10.

Third quarter saw House add 13 while Texico was only able to garner five and fourth quarter was much the same with House hitting for 11 and Texico adding another five.

Season record for the Texico team is 3 wins, 4 losses. They will meet Grady on the home court Feb. 25, 4:30 p.m.

LUTHERAN NEWS

Sunday worship services at 8:30 a.m. with Sunday School and Bible classes at 9:30 a.m. Wednesday 6:30 p.m. Lenten services.

Saturday 10 a.m. children's instruction classes will meet at the Clovis Lutheran Church. Family night was cancelled this month due to illness and the Lenten season.

LWML met at the church Thursday with a prayer service conducted by Mrs. Walter Kaltwasser and Mrs. Gilbert Kaltwasser. Various committees reported and projects were discussed with plans made to make draperies for the parsonage.

Refreshments of valentine cookies, candies, and hot punch were served to Mmes. Ed Ramm, Ernest Ramm, Ben Kube, D. Trimble, Clarence Kube, Rev. Bergmann, Mrs. Adolph Haseloff, Mrs. Gilbert Kaltwasser and Mrs. Walter Kaltwasser.

Congratulations to Margaret Haseloff, who this Friday will be capped at the Lutheran School of Nursing in St. Louis. Margaret's parents, Mr. and Mrs. Adolph Haseloff will fly to St. Louis to be with her on this occasion.

Billy D. Smith Promoted To Airman First Class

Billy D. Smith of Farwell, Tex., has been promoted to airman first class in the United States Air Force.

Airman Smith, a communications equipment maintenance instructor, is assigned to the 3760th School Squadron here.

The airman, son of Mr. and Mrs. Odom Smith of Farwell, is a graduate of Farwell High School.

His wife, Brenda, is the daughter of Mr. and Mrs. Herman Estes of Bovina, Tex.

Silver Stylus Initiates Three New Members

Veda Wilson, David Duncan and Gary Farmer were initiated into the Silver Stylus chapter of Texico Honor Society in ceremonies held at the school recently.

A student must maintain an A minus average to become a member of the society and must be at least a second semester sophomore.

Local Boy Scouts Participate In Oasis Park Camporee

Nine members of Boy Scout troop 201 accompanied by five adults attended the district camporee at Oasis State Park Saturday, along with some 200

other scouts and leaders from eastern New Mexico.

After arriving at the camp late Saturday afternoon the boys were participants in a scout ceremony and heard a talk on scouting, its history and aims, by Terry Edwards, scout executive from Clovis.

Harold Travis, Junior Snider, Pat Patrick, Roger Patrick, Craig Phillips, Steven Birchfield, Terry Travis, Brad Jordan, John Snider, Patrick Norrod, and Donnie Campbell.

Illustrated Talk On Soil Testing For Gardeners

Red Bud Garden Club members met in the home of Mrs. Maurice Clark, north of Clovis in the Pleasant Hill Community, for their February meeting with Mrs. Elmer Langford assisting Mrs. Clark with hostess duties.

Mrs. Orris Eshleman gave an illustrated talk on soil testing with emphasis on the proper type of soil for raising sweet peas. She gave instructions on proper methods of planting, growing and cultivating the sweetpea, telling club members that the proper time for planting of the delicate flower is Feb. 22.

Boys participated in games and snowball fights after which they joined the adults in consuming 40 gallons of mulligan stew. Chief cooks were Raymond Tell, Portales and Edwards.

The boys returned to their homes Saturday night and on Sunday morning attended Sunday School at the church of their choice. All Boy Scouts and cub scouts assembled with their leaders at the Farwell Church of Christ for Sunday services with Don Tarbet, minister of the local church, delivering a special message to the scouts marking their 54th anniversary.

Efforts Of ESA Net Funds For March Of Dimes

Despite postponements because of weather conditions and other difficulties, members of Theta Rho chapter of ESA completed the Mothers March of March of Dimes, with excellent results, says Mrs. Joe Helton, president.

A total of \$331.31 was turned in by local residents. A house to house canvass was made. Mrs. Helton reveals that donations exceeded contributions from last year, when \$260 was collected.

"Are you sure these are servants?" asks Mundorf (Bob Scott Anderson) of Mr. Martins sister (Sherry Billingsley) in a scene from the Farwell junior play "The Whole Truth" to be presented Saturday, Feb. 22, 8 p.m. at the high school auditorium. Others in the picture are Tom DeNorth (Butch Ford), Lucille Armitage (Donna Dunn), Johnson-the butler (Danny Huffaker), and Harriet-the maid (Linda Phillips).

Blue And Gold Banquet Set

Cub Scout blue and gold banquet is scheduled Friday night, Feb. 21 at Farwell School cafeteria, with Cubmaster Webb Gober to serve as master of ceremonies.

Special guests will be Terry Edwards, district Scout executive, and Alex Wilkins, Scout worker, from Clovis, and their wives. Also invited are Mr. and Mrs. W. M. Roberts and Mr.

and Mrs. Gene Dew, Roberts is superintendent of schools and Dew is president of PTA, sponsoring organization of Cub Scouts. Each den also invited a minister as guest.

In observance of the 54th anniversary of scouting, local Cubs displayed handwork at Farwell school and Southern Union Gas Co.

Boys wore uniforms to school Thursday of last week, and participated in the special Scout service at Farwell Church of Christ Scout Sunday.

Hospital Notes

The condition of Charlie Evans, who suffered a heart attack the past Saturday is improved, according to reports received from Clovis Memorial Hospital.

H. R. (Mutt) Crook, who suffered a heart attack Wednesday night is in fair condition according to family members. He has been in serious condition since the attack.

Mrs. A. D. Smith, who is confined to the hospital was reported to be improved on Wednesday.

Drapery Making Explained To Homemakers

The home of Mrs. Elmer Teel in Texico was scene for the Tuesday meeting of Modern Homemakers. Mrs. Virgle Harrison and Mrs. Paul Harrison presented a demonstration on "Drapery Making" explaining all phases of the delicate work, types of material for different rooms and how to properly pleat drapes.

Cheerful Habit

Long Distance calls to favorite relatives or friends are among life's nicest experiences. Long Distance is the best way to keep in touch when you can't be there yourself. Pick up your phone and go visiting — tonight!

Marriage Licenses Issued

Four marriage licenses have been issued from the office of County Clerk, Bonnie Warren, in recent days. The licenses were issued to: Albert Leo Beckwith and Ginger Delois Polk; Gary Don Ratliff and Billie Jo Gillis; Ardith Dale Rolan, and Dorothy Laree Vaughn, all of Friona and to Conley Howard Woltman, Bovina and Linda Kay Nelson, Farwell.

DRIVING IN FOR A LAYUP in the finals of the District 3-A tournament at Kress is Benjy Dial (No. 11). The Steers had little trouble setting down the Hornets; 58-37, to win the crown. (See story elsewhere in paper.)

BEAT PETERSBURG

BIG LEON LOVELACE could count on having at least two hands stuck up in front of his face every time he tried to get away a shot near the goal against Petersburg Tuesday night. This demonstrates the two-on-one tactics employed by Petersburg, and the respect they hold for his scoring ability. Still, he managed to get 20 that night.

MOVING IN WITH THE BALL is left Danny Lindop, who displayed his ability to dribble in tight quarters against the Hale Center Owls.

BI-DISTRICT RESUME

1961

STEERS 65

IDALOU 51

In 1961 the Steers clipped Idalou 65-51 to take the bi-district title from a scrappy team.

1962
