John Tower To Speak At Tonight's Barbecue

United States Senator John Tower will address the public tonight (Friday) at 7:30 p.m. in Farwell school cafeteria during a barbecue meal sponsored by friends of John Tower. Tickets will be available at the door.

Tower, who is running for reelection, completes his 11th year in the United States Senate on June 15, 1972. During the past 11 years, he has worked his way up the seniority ladder to become the ranking Republican on the Senate Banking, Housing and Urban Affairs Committee and third ranking Republican on the Armed Services Committee.

He also is the ranking Republican on the Military Construc-

tion Authorization Subcommittee of the Armed Services Committee--an extremely important assignment for the State of Texas, which has a large portion of the nation's military establishments.

The former educator came to the Senate on June 15, 1961, when he bested a total cast of 70 candidates in a special election. In 1966, he was re-elected by Texas voters with 56.7 per cent of the popular vote over an opponent who had proved himself to be one of the largest vote-getters in Texas political campaigns.

When first elected at age 35, he was the Senate's youngest member. He now ranks 18th among Republicans in the U. S. Senate, and 49th among the 100 senators, yet only 17 of his colleagues are younger. Tower was the first Republican elected to the Senate from Texas since 1870 and the first since Reconstruction from any Confederate state.

Tower was born in Houston, Tex., Sept. 29, 1925, the son and grandson of Methodist ministers. During his childhood he lived in a number of Texas communities.

At age 17, he enlisted in the U. S. Navy and during World War II saw combat duty as a Seaman aboard a gunboat in Asian wa-

ters. He continues his service in the Navy's standby reserves holding the rank of Boatswain's Mate 2nd Class, the only enlisted reservist in Congress.

He received a bachelor's degree in political science from Southwestern University in Georgetown, Tex., in 1948, and a master's degree, also in political science, from Southern Methodist University, Dallas, in 1953. He did post-graduate work at the University of London in Great Britain, and taught political science for nine years at Midwestern University, Wichita Falls, Tex.

As a U. S. Senator, Tower has made trips to South Vietnam and other Southeast Asian

nations, spending more time with U. S. troops in Vietnam than any other member of Congress.

Tower makes his home in Wichita Falls with his wife and three teenage daughters.

He is a trustee of Southwestern University and of Southern Methodist University, and has honorary doctoral degrees from Southwestern University, Howard Payne College in Brownwood, Tex., and Alfred University in New York. Tower is a 32nd-degree Mason and Shriner, is National President of Kappa Sigma fraternity, and is a member of the American Association of University Professors.

EXPLOSION RIPS MILL -- A dust explosion in the shaker room of the Castor Feed Lot mill injured five persons who were working on welding sheet metal for the purpose of preventing dust explosions. The men, all members of a crew employed by Raymond Jones, millright, were in the room, pictured at center top, when the explosion ripped off the metal siding walls. Three of the men were listed in fair condition Tuesday afternoon in Clovis Memorial Hospital after receiving treatment for second and third degree burns on their faces and arms.

Five Men Injured --

Dust Explosion Rocks Castor Feed Lot Mills

A dust explosion Tuesday morning at the Castor Feed Lot mill sent four men to Clovis Memorial for treatment of second and third degree burns on their faces and arms. Another man, Phil Jones, had his hair singed and face burned, but was not hospitalized.

The men, employed by Raymond Jones, millright, were welding sheet metal siding in a shaker room in the mill for the purpose of preventing dust explosions when the accident happened.

According to Lee Hutchins who was also doing some work at the mill when the accident occurred, the explosion sounded like a plane breaking the sound barrier. Hutchins had just gone into the main office from the mill when the explosion took

place. Several other people were in the mill at the time but were not in the same area with the welding crew.

The crew, Henry Corder, Bobby Redmond and James Thomas were listed in fair condition Tuesday afternoon at the

hospital. Redmond was said to be more serious than the other men. He had second and third degree burns on his face and hands as well as on the rest of his body.

Corder received second degree burns on his face, neck, ears, hands and arms. Thomas also received second degree burns on his face, neck and hands as well as his knees. Ben Byrd, another member of the crew, received blisters on his face and hands. He was treated and released. All four men are from Clovis, but Jones, the other man involved, is from Farwell.

PURELY PERSONAL

By John

Last Saturday evening along about dusk there came such a clatter that I arose from my rocker to see what was the matter. I dashed to the front to see what was amuck; it was only the fireboys with their shiny new truck.

Last Friday a group of the Farwell volunteer fireboys went to Lubbock to attend a regional school on fire fighting techniques and then on Saturday they traveled on to Wichita Falls to take delivery of the city's newest piece of fire fighting equipment.

They returned late Saturday evening and just couldn't resist the temptation to sound the emergency warning system on the truck as they came through town to the fire station. Anybody that cannot hear the new-style emergency warning device needs more than a hearing aid; they also need a transfusion. It does command attention.

Sunday afternoon we noticed that many of the volunteers gathered around the fire hall and put the hoses and other equipment aboard for use in local disasters. We do not know the amount of time that these fellows devoted to the protection of the community just these past few days, but would wager a kopeck that in terms of manhours it was quite a large figure. For this donation of their time for our security, we all owe our local fire laddies a large debt of gratitude.

With the addition of this latest truck to Farwell's department, the Twin Cities can justly boast of having the most modern equipment available for fighting fires and other natural disasters. Fortunately, Texico and Farwell also have a group of dedicated men who can operate this advanced equipment to its fullest potential in times of crisis.

Aren't you glad you live in the Twin Cities where public service is a way of life?

As we noted above, the fireboys as a group are performing a very vital service on behalf of all the citizens in town. Yet in many respects, continued improvements in our community depend upon all the residents working together.

One area that needs the cooperation of a large part of the residents is the matter of dog control. We and also the Farwell City Commission constantly receive complaints about the depredations of our canine companions running loose about the town.

There is a city ordinance calling for a \$10.00 fine for letting a dog run loose. Also there is a \$1.00 board charge levied when a dog is impounded. We understand that this ordinance will be enforced again soon. This isn't pleasant, as hard feelings are usually generated over Fido's fate when he is apprehended by the city employees.

No rights are absolute and the right to own and enjoy a dog's companionship ends when that dog trespasses upon and destroys someone else's property. We love our dog, you love your dog, and by mutual cooperation we can continue to enjoy the love and companionship of our dogs.

It is not within the memory of living man when last Farwell was visited by an incumbent United States Senator. On Friday evening, the 21st of April, we will have Senator John Tower as guest of honor at a barbecue dinner staged in Farwell school cafeteria.

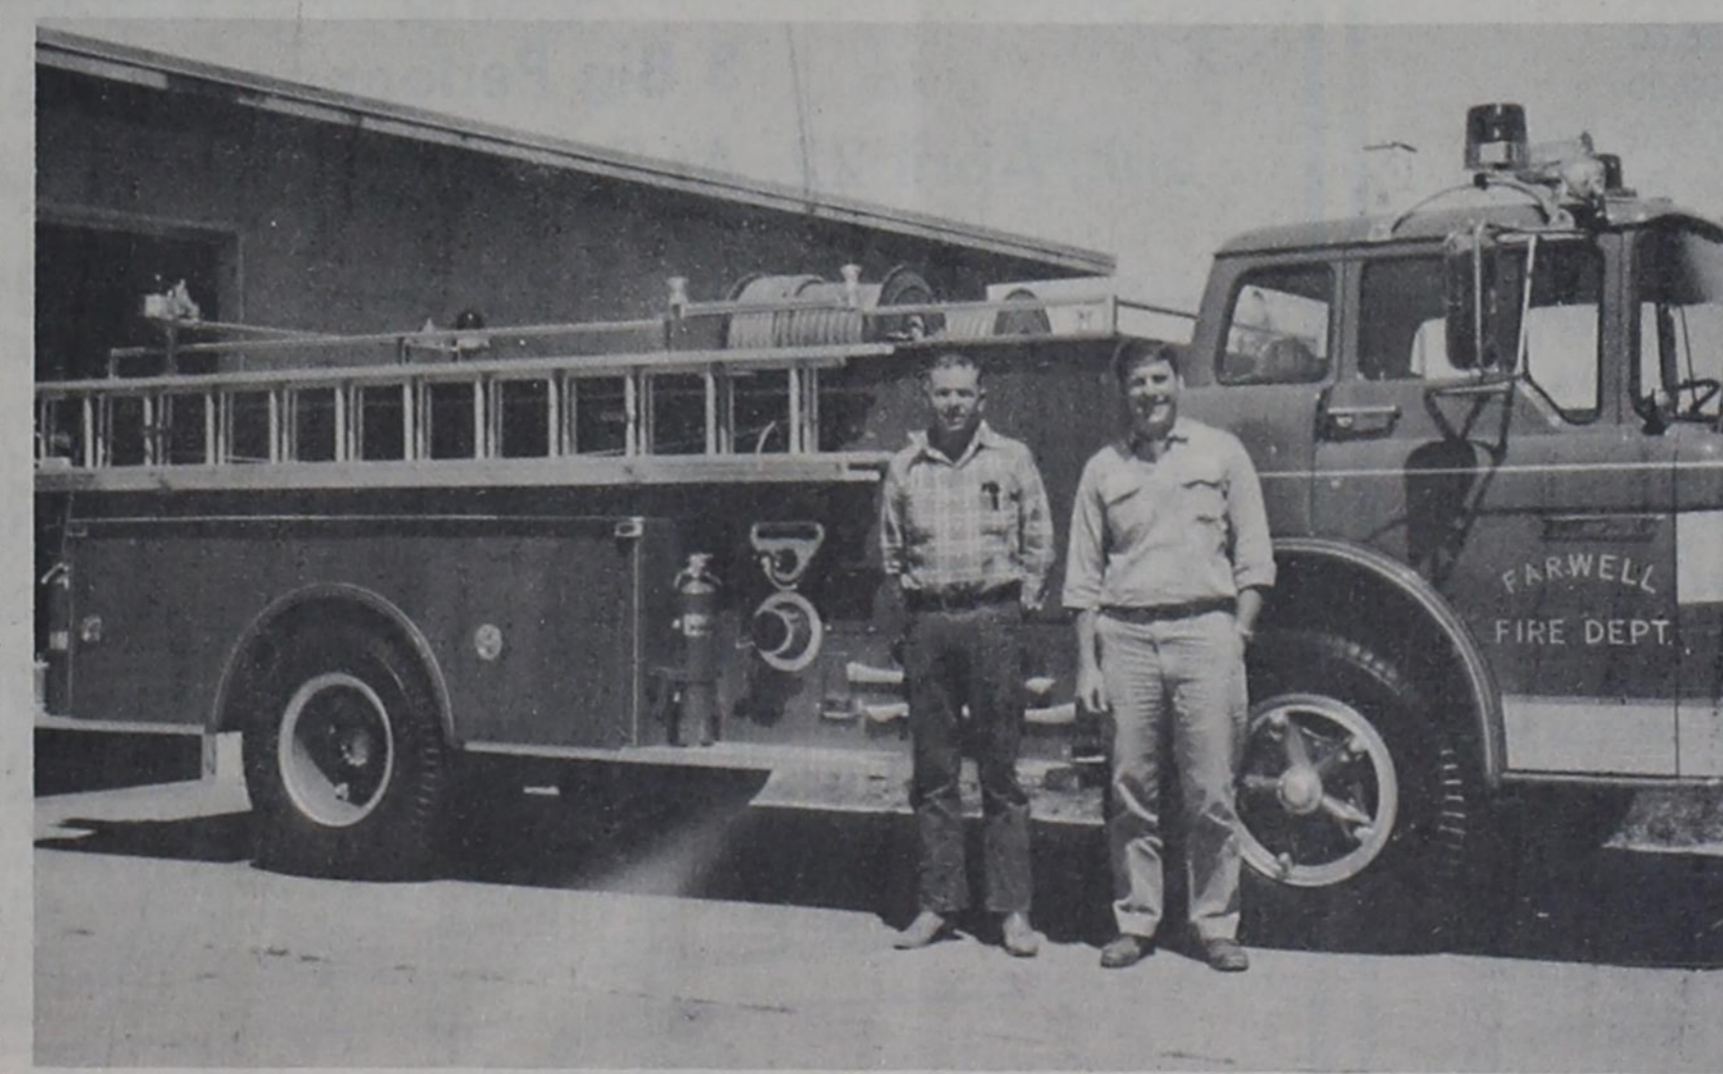

This meeting will be as non-political, partywise, as possible in an election year, and all area residents are urged to attend and meet, eat and talk with our U. S. Senator.

We all "hollar" about the government and this man is part of that "government." Let's all go and make him realize that we are really interested in our government. Good citizenship means participation in government.

Breakfast April 29, 30

The annual Texico - Farwell Lions Club Pancake Breakfast will be held on Saturday and Sunday, April 29 and 30, from 7 a.m. to 11 a.m. each morning.

Pancakes, all you can eat, plus sausage and coffee will be on the menu, says Jim Walker, secretary. The meal will cost \$1.00 for adults and 75 cents for children under 12.

NEW FIRE TRUCK -- Joel White, secretary of Farwell Fire Department, left, and Lee Hutchins, Farwell fire chief, are pictured proudly displaying the new red fire truck which was purchased by the City of Farwell. Firemen Hutchins, James Craig, Buster Gast and E. C. "Red" Prather made the trip to Wichita Falls Saturday to pick up the new truck. The fire truck, purchased at a cost of \$24,900 and the trade-in of the old truck, is fully-equipped with auxiliary power plant, a 750-gallon per minute pumper, and 25 feet of ducts for the smoke ejector as an added feature.

Texico-Farwell Webelos Cub Pack 213 won first place in Cub Activity during the Scout Crafts Fair held last Saturday at the Curry County Fairgrounds.

The Cub Scouts exhibited the winning booth which contained tie racks, turtles, cactus neckerchief slides, decoupage from driftwood, painting and string projects. The projects were made in conjunction with the Artist Activity badge and Craftsman badge earned by the Webelos Cub Scouts.

The Scout Craft Fair was held for all troops, packs and Scouts in Curry County. Half of the proceeds made went to pay for the show and half will go toward the summer camp facilities, Wehinhay, in Lincoln National Forest. The camps take place during June.

Farwell Junior Class To Present Play Soon

Farwell High School Junior Class will present a play entitled "Boys and Ghouls Together" on Friday, May 5, at 8 p.m. in the Farwell High School auditorium.

Admission will be \$1.25 for adults and 75 cents for students. Tickets can be purchased from members of the junior class or at the door.

"Boys and Ghouls Together" is a three-act comedy by David Rogers. It is about a group of young Americans bicycling across Europe who stop for the night in an old castle that has been turned into a hotel because the owners need money.

The owners are a very strange group indeed! They include Letha with her limp black hair and a dead white face; Model S, a man-made "man"; and Dirga, a young lady who enjoys tormenting things, while the father has a weird laboratory. The resulting action is described as a delightful and very funny monster show.

The cast includes Kent Blain as The Count, Caroline Anderson as Letha, Debbie Stancell as Dirga, LaShawn Sheets as Granny, Steven Kaltwasser as Model S, Patty Martin as Fritz Washburn, David Garner as Buddy Ford, Glenda Sublett as Barbara Ames, David Dannheim as Ron Connors, Cheryl Haynie as Isobel Connors, Ty Phillips as Eddie Phelps, Deborah Harding as Evelyn Robinson, Connie Jones as Merry Bean, Gay Rundle as Nancy Brown, Carol White as Frau Hubschmidt, and Jimmy Franse as The Magnificent Marvellini.

Boosters Elect Officers

Farwell Band Boosters met last Wednesday in the Band Hall to elect officers for the coming year. Mrs. Billie Blain was chosen as president.

Other officers elected were Mrs. Anne Norton, vice-president; Mrs. Ginny Blankenship, secretary; and Mrs. Lillis Garner, reporter. Eleven members were present during the meeting.

The recent order sent in by Farwell School Board for 100 new band uniforms was discussed at the meeting. Due to the effect of the purchase will have on the band department budget for the coming year, anyone wishing to purchase a uniform at a cost of \$89 or any part thereof is urged to do so. The Boosters decided to urge donations after one person expressed interest in buying a uniform.

Junior High band students need to bring \$1.00 for their sweaters to be stored this summer, according to a spokesman. Band Boosters cookbooks are still available for those who have not yet purchased one.

At the Wednesday meeting, the group set up rules for twirlers for the 1972-73 season. They are as follows: 1. Jack Williams will pick the judge and date for choosing twirlers to be announced one month ahead of that time; 2. Girls will try out by number and not by name; 3. Girls must try out each year; 4. A head twirler will be chosen by Lynn Burton, after consulting with the girls and another person of his choice; 5. Three twirlers will be chosen and no alternate; 6. All expenses will be borne by the girls.

Commissioners Record New High And Low Land Values In County

As usual, the high was set for a right-of-way easement in Precinct 3, or the Farwell precinct. The new low was set by a right-of-way sale on some land in Precinct 1, or the Friona precinct.

The following information, when first brought to my attention, seemed so far out I hesitated to believe it myself, but after checking deed and court records, I find this information to be true.

I wish I could afford to publish all the recordings of these two deals. I do have copies of these two, and will show them to any interested citizen, or I will give you the volume number and page where this information is recorded at the county courthouse and you can check the thing out for yourself.

(Court minutes)

Motion by Lewellen seconded by Jefferson that the County Clerk be authorized to issue Warrants for damages and right-of-way of proposed road from Highway 84 to Highway 60, such warrants to be issued as follows:

Angela Daniel, et vir	\$1274.20
Patricia Aldridge Breinig, et vir	5400.00
Hurshel Harding	271.80
E.R. Stewart Est.	156.60
Douglas Landrum	1500.00
John Porter	109.20

Above amounts payable from the Right of Way Fund. Motion Carried.

In the above transaction, the commissioners voted to pay \$400 for one tract of land that involved 0.002 of an acre. Put this through your computer and see if it doesn't figure \$200,000 per acre. Of course, this was purchased in the Farwell precinct.

In another transaction, 9.09 acres of land was sold to a Farwell man for \$25.00. This land was in Precinct 1, or the Friona precinct. It was a portion of the old highway that used to run south of the Railroad tracks. This tract of land was later sold to the Friona Industrial Development Corp. and is now part of the property owned by Missouri Beef Packers.

Mention has been made lately of improving Highway 60 through the county. The right-of-way fund is in no shape for such an expensive project, and is not likely to be for several years unless the fund can be handled in a little more conservative manner than in the above purchases.

CORE DRILLING at Catfish Draw just north of Bovina is being done this week by employees of Parmer County Soil Conservation Service for the purpose of determining the soil formation under the damsite at the Running Water Draw Watershed, determining what kind of soil is in the spillway that is to be cut and determining where the best material is for building the earthen dam.

Name SCS Committee Head

The Soil Conservation Service has been working on a state-wide basis on identifying and preserving rare and endangered species, according to Herb Evans, District Conservationist in Friona.

"We are working with rare and endangered species of both plants and animals," he said. This work is carried out in conjunction with the Parmer County SWCD, Leon Grissom, chairman, and the local land owners.

There have been many conflicting ideas about what constitutes rare and endangered species, their habitat requirements, and how they can be preserved, reports SCS officials.

Earlier this month a state-wide conference was called in Austin to try to determine ways to coordinate efforts in this regard.

Twenty-six representatives of state, federal, educational and private organizations attended the conference. A steering committee was selected with the Soil Conservation Service as agency head to function for a year.

The committee will:
1. Prepare a watchlist of the state's rare and endangered species of plants and animals.
2. Determine the type of habitat required by each species and develop a list of measures important to the preservation of each.

3. Develop and initiate a system of monitoring rare and endangered species and their habitat.
4. Develop cooperative measures to protect various species found to be in danger.

There is no talent or bathing suit competition, and no entrance fee. Girls are judged for their scholastic achievements, civic contributions, poise, personality, and appearance. Educators and political civic leaders across the country have recognized the pageant for its worthwhile efforts to recognize teen-agers for their civic mindedness and scholastic abilities.

Each girl is interviewed individually by a panel of judges during the day Saturday, and again by the group at the pageant Saturday evening.

The winner and four runners-up will receive trophies, and a Congeniality and Citizenship award will be given. Also, the winner and first and second runner-up from each state will receive scholarships to an accredited Junior College. Sign of Good Breeding

Pioneer brand grain sorghum varieties have bred-in yield potential to help farmers get the most from their good management even in the face of adverse weather, insects, or plant disease. Also, the genetic inheritance of every Pioneer hybrid is unique. Each variety is bred to bring out the special traits necessary for maximum performance in the area where it is to be grown.

Your Pioneer dealer has many varieties bred to help farmers on the North Plains turn in top yields. Some of these varieties are:

Pioneer Brand 846: excellent drought resistance — high yielder with good growing conditions — MDM resistant — 134-day maturity

Pioneer Brand 820: excellent performer under stress — excellent standability — MDM resistant — 144-day maturity

Pioneer Brand 828: outstanding yielder — stands and threshes well even after freeze or snow — hard grain that holds quality — MDM resistant — 144-day maturity

Pioneer Brand 845: 136-day maturity — competitive with full season varieties under good growing conditions — grows well in cold weather — MDM resistant

Pioneer Brand 883: good yielding late planter — 110-day maturity — strong stalks and good roots make it ideal for post-freezing threshing — MDM resistant

Days to maturity is an averaged figure, which is affected by weather and other variables.

GOOD YEAR OR BAD YEAR, YOU'RE BETTER OFF WITH PIONEER.

BILL WIMBERLEY, Dawn, averaged over 9000 pounds of grain per acre on 400 acres of Pioneer brand 828 grain sorghum hybrid. Mr. Wimberley liked the way 828 responds to water and fertility. As he said, "828 is a good all-round seed," and he plans to plant it again this year.

Portraying Area Homemakers

by Janie Crane

Our area homemaker this week is a longtime resident of the Texico-Farwell area. Mrs. M. H. (Lois) Poteet came with her husband and family to Farwell in 1939 from Ralls, Tex. In 1945 the Poteets moved to Texico. Except for a ten-year period in which Poteet managed a cotton gin in Needmore, the Poteets have resided in Texico since that time.

Poteet retired in 1969 from his job as manager of the Needmore gin. He had been in the ginning business for approximately 45 years. Lois was born in Rogers, Tex., but her family came to Crosby County (Ralls) when she was about five years old. She met her husband in Ralls about 1918 and they were married in 1921.

She says that they had to elope since her parents were against the marriage. The fact that she was the only girl in the family might have had something to do with their protest, she says. "We celebrated our 50th wedding anniversary last year," she added. Our homemaker worked in a cafe which her husband owned in Farwell for several years, but she has spent most of her time as a mother and housewife.

The Poteets reared six children: George H. of Lake Providence, La.; Maj. Bobby Poteet of Mercedes, Calif.; Travis of Cheyenne, Wyo.; Milton H. of Rawling, Wyo.; Jerry of Abilene; and Mrs. C. L. Crume of Turkey. They also have nine grandsons, five granddaughters and three great-grandsons.

Lois loves doing handwork which includes crocheting, embroidery and applique. She applied five quilt tops for her granddaughters last fall. She has also crocheted purses and sweaters for her granddaughters and a bedspread for herself.

Another pastime which held interest for our homemaker until five or six years ago was oil painting. She has done about 20 paintings altogether, many of which are hanging in her home.

"I've got to have something to do instead of sit and fold my hands," she says when discussing her many interests. Included in those interests is a collection of items brought home by various members of her family from overseas. The collection consists of jewelry boxes from Formosa and Pakistan, a cuckoo clock from Spain and a doll from Vietnam.

Lois received special enjoyment out of cooking for her family when they were home, and she still makes an effort to please her brood when they get to come and visit.

"I fill the deep freeze with their favorite foods before they come, so I can enjoy visiting with them. They are especially fond of enchiladas, and I always make a batch of them."

She has consented to share three of her favorite recipes with us which includes her recipe for enchiladas.

ENCHILADAS

- 2 lbs. ground meat
- 1 T. shortening
- 4 T. chili blend
- 2 T. chili powder
- salt to taste
- 2 pkgs. frozen tortillas
- 3/4 c. chopped onions
- 1 c. grated cheese

Cook meat in shortening in skillet until well done, stirring often so it will cook evenly. Add chili blend, chili powder and salt. Cook two minutes longer.

Dip tortillas in hot grease. On each tortilla spread two tablespoons meat mixture, 1 teaspoon finely chopped onions and 1 teaspoon grated cheese.

Sweet-Sour Sauce Accents Flavor

Chinese chefs have a very special way with pork. They cut it into cubes, coat it with corn starch and brown it in hot corn oil. Prepared this way, pork has a crisp batter coated goodness.

In Sweet and Sour Pineapple Pork, the meat is served in a clear, delicately thickened sauce. Pineapple chunks and juice add flavor and the dish is given color accent by the addition of tomato and bits of crisp green pickle.

Sweet and Sour Pineapple Pork

- 1 pound boneless pork, cut into 1-inch cubes
- Corn starch
- 2 tablespoons corn oil
- 1 cup pineapple chunks
- 3/4 cup pineapple juice
- 1/2 cup cut up sweet pickle
- 2 tablespoons soy sauce
- 1/2 teaspoon salt
- 1 tablespoon corn starch
- 1/4 cup vinegar
- 1 medium tomato, cut into chunks

Coat pork with corn starch. Heat corn oil in skillet over medium heat. Add meat; saute until browned and tender, about 15 minutes. Add pineapple, pineapple juice, pickle, soy sauce and salt. Bring to boil. Then, with a spoon, blend 1 tablespoon corn starch with the vinegar. Stir into mixture in skillet. Bring to boil, stirring constantly. Add tomato; heat. Makes 4 servings.

Roll up and put in baking dish. Pour sauce over tortillas, sprinkle grated cheese on top and bake 20 minutes.

SAUCE

- 1 can tomato soup
- 1 can water
- 2 T. chili blend
- juice of 1/2 lemon
- Mix ingredients and pour over all. These freeze well.

SOURDOUGH BISCUITS

- 4 1/2 c. flour
- 1/4 t. soda
- 4 t. baking powder
- 1 t. salt
- 1 yeast cake
- 1/4 c. shortening
- 2 c. buttermilk

Mix dry ingredients, add yeast, melted shortening and milk. Mix well and store or can be used immediately.

Bake in a 450 degree oven until done.

FRUIT SALAD

- 1 large can fruit cocktail, drained
- 1 large bag of tiny marshmallows
- 1 small can crushed pineapple
- 3 large bananas
- 1 c. nut meats
- 1 carton sour cream

Spring reminds us of salad time, and the following recipe is good served at mealtime or on a picnic. **SOUR CREAM POTATOSALAD** 4 to 5 c. cooked potatoes 1/2 c. chopped celery 1/3 c. chopped green pepper 1 small onion, chopped Chopped whites of 3 hard-cooked eggs Parboil potatoes, cool, remove skins, and dice. With a fork, mix lightly with other ingredients.

half full but not more than 2/3 full.

ICING

- 1/2 c. margarine
 - 4 t. cocoa
 - 6 T. milk
 - 1/2 box powdered sugar
- Combine margarine, cocoa, and milk and bring almost to a boil. Add sugar and beat well. Ice cake in pan when cooled and cut in squares to serve. The Sheath Cake is a little unusual and can be mixed in a very few minutes. If you want a shortcut in making an icing, maybe you will want to use this suggestion. As soon as cake is removed from oven, sprinkle a large package of chocolate bits over top of hot cake. You may even set the cake back in the hot oven for about one minute. As soon as chocolate bits are soft, spread over cake with a knife or spatula. For more recipes or information, write "Bobby" in care of this newspaper or call her at 763-4481.

DRESSING

- 1 c. sour cream
 - 3 cooked egg yolks, chopped
 - 1/2 c. mayonnaise
 - 1/4 c. vinegar
 - 1 t. prepared mustard
 - 1 t. salt
 - 1/2 t. black pepper
 - 3/4 t. celery seed
- Combine ingredients for dressing and mix lightly with potatoes. When making salads, do not chop ingredients too finely and mix as little as possible.

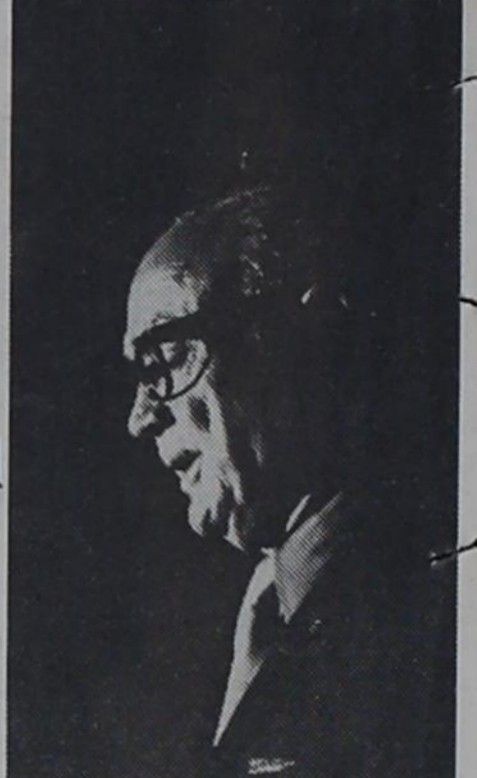

SHEATH CAKE

- 2 c. sugar
- 2 c. sifted cake flour
- 1/2 c. margarine
- 4 t. cocoa
- 1 c. water
- 2 eggs
- 1 t. soda
- 1/2 c. buttermilk
- 1 t. vanilla

In mixer bowl, combine sugar and flour. In a saucepan, combine the margarine, cocoa, and water and bring to a boil. Add this to the sugar and flour. Add eggs, soda, buttermilk and vanilla. Pour batter into 9x13-inch pan that has been greased and lightly floured. Bake in oven at 350 degrees for 35 to 45 minutes or until done. This is a large cake, and baking time depends on the thickness of the cake in the pan in which you are baking it. Most cake pans are filled at least

COCKTAIL FOR TWO

 - Crisp lettuce
 - 1/2 cup chili sauce or tomato catsup
 - 1/3 cup chopped celery

IN DISTRICT MEET -- Farwell High School freshman track team members placing in events last weekend at the district track meet in Springlake-Earth were, left to right, Thad Phillips, Pablo Lucio, Gene Christian, Berry Goldsmith, Lesley Curtis, George Garza and Mike Woods. David Norton, second from right, and Jack Kirkland, far right, are varsity track team members who won the chance to compete in the regional track meet this weekend in Lubbock. Farwell freshman team won second in the district meet with 101 points.

Freshman Team Second --

Kirkland, Norton To Regional

Jack A. Kirkland and David Norton won the right to compete in the Regional Track Meet Friday and Saturday in Lubbock when they placed in individual events at Springlake-Earth last weekend.

Kirkland placed second in the 440-yard dash with a time of 53.2 seconds. Norton placed first in the pole vault event with 11'6".

Farwell freshman track team, coached by Jerry D. Owen and Larry LeFevre, placed second in the track meet with 101 points. They were bested by Springlake-Earth who accumulated 107 points.

The 440-yard relay team won first place with a time of 49.1 seconds. Mike Woods placed first in the 100-yard dash with a time of 10.6 seconds. Thad Phillips won a first in the 220-yard dash with a time of 23.2 seconds.

Gene Charles Christian placed second in the 440-yard dash with a time of 57.3 seconds. Woods won the high jump event with 5'8". George Garza won the 880-yard run with 2:20.8. Kent Gast placed third in the 880-yard run with 2:20.82.

Lesley Curtis placed third in the 120-yard high hurdles. The mile relay team of Garza, Phillips, Christian and Wood won with a time of 4:03. Pablo Lucio placed sixth in the 100-yard dash and seventh in the 200-yard dash.

Others participating in the freshman team were Berry Goldsmith, mile; and Lucio, Curtis, Phillips and Woods, sprint relay.

Varsity track team members placing in the district meet are Robert Sierra, fourth in the mile with a time of 5:12, and Carl Kirkland, fourth in the 220-yard dash with 22 seconds. Kirkland's time was excellent, according to Coach Toby Booth, but it was bested by runners from Kress and Hart. The Kress boy's time of 21 flat was the best in the state in any class and Hart's runner's time of 21.2 was second.

Weldon Embry participated in the 880-yard run. David Norton and Larry Erwin participated in the 100-yard dash and 440-yard relay events. Jack A. Kirkland and Carl Kirkland were also competing in the 440-yard relay.

Kevin Hargrove competed in the 440-yard dash. Kevin Har-

age and Terry Craft participated in the mile relay.

Coach Booth expressed pleasure with the performance of the entire team. They had better times in individual events than they did in the relays, but they all did well, he said.

TWO MINUTES WITH THE BIBLE
BY CORNELIUS R. STAM, PRES. BERIAN BIBLE SOCIETY CHICAGO, ILLINOIS 60633

"GLORIOUS DELIVERANCE"

In I Thessalonians 1:10, The Apostle Paul, by divine inspiration, assures believers that the Lord Jesus Christ has "delivered us from the wrath to come." He refers, of course, to deliverance from the penalty of sin. But in other passages he declares that we are also delivered from the power of sin. In Col. 1:12, 13, for example, he gives thanks to God "who hath delivered us from the power of darkness and hath translated us into the kingdom of His dear Son."

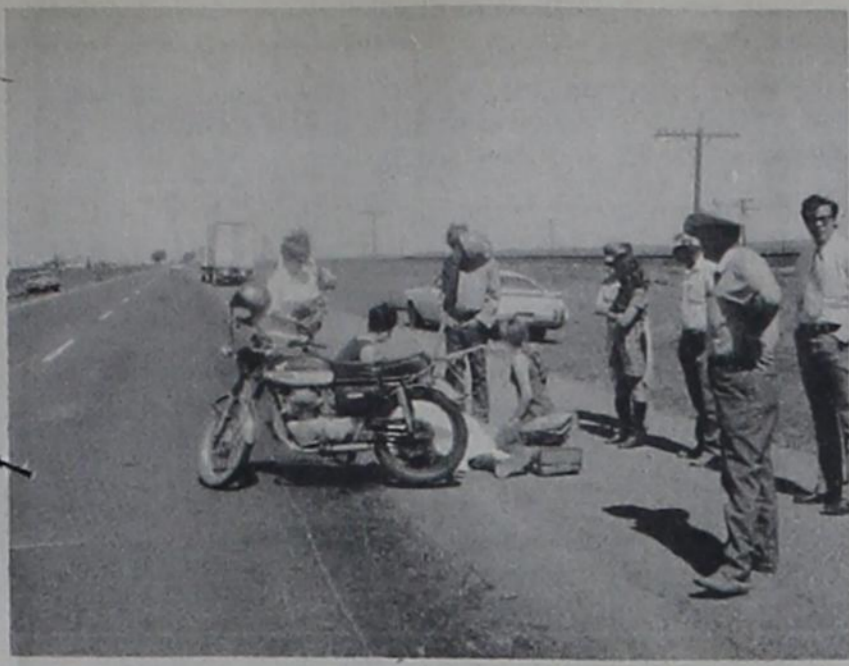

This deliverance, and the glory of our heavenly position and blessings, we may enjoy experientially now, by grace. Rom. 6:14 says: "For sin shall not have dominion over you, for ye are not under law but under grace." This does not mean that it is not possible for the believer in Christ to sin, but rather that it is possible in any situation, not to sin. Thus the same passage in Romans goes on to say that we should not yield ourselves as servants to sin, but to God, who, in grace has broken sin's power over His own.

Finally, the believer in Christ shall be delivered even from the presence of sin, for at our Lord's coming for us "we shall all be changed" (I Cor. 15:51). Believers should long for Christ's coming for them, not merely because these bodies of humiliation will then be glorified, but because from that moment on they shall never again be tempted or defiled by sin. What a change that will be!

The apostle includes all three tenses of the believer's deliverance in II Cor. 1:10, where he tells how God has "delivered us from so great a death, and doth deliver, in whom we trust that He will yet deliver."

This is why he could write to the Philippians about his confidence "that He who hath begun a good work in you will complete it until the day of Jesus Christ" (Phil. 1:6). Some may not feel the need of any deliverance now, but we all need deliverance from sin and its results. Why not place your trust in Christ who died to "deliver us from the wrath to come."

MOTORCYCLIST INJURED -- Ronald Smith, 19, of Sarasota, Fla., received minor injuries last Friday morning when the back tire on his Honda 175 blew out flipping him from his cycle, according to Highway Patrolman Terry Hodges, investigating officer. A crowd gathered quickly, as shown in the picture on the left, to offer assistance. The picture on the right shows Smith

being placed in the Farwell emergency vehicle which had been summoned. The cyclist was taken to West Plains Memorial Hospital in Muleshoe where four stitches were taken in his nose after which he was released. The accident occurred 2.9 miles east of Farwell on the Lubbock highway.

Muleshoe Library Opening Sunday

Muleshoe Library will have dedication service and formal opening of their new building Sunday, April 23, from 2 to 5 p.m. Everyone served by the Library Bookmobile service is invited to attend, according to Lorene Sooter and Ruby Henderson, Bookmobile librarians. The librarians said persons in Farmer, Cochran, Lamb and

Bailey counties have received bookmobile service from the High Plains Bookmobile for the past eight years. April 16, 1964, the Bookmobile began making its 38 scheduled stops every three weeks.

Last year the Bookmobile circulated 52,887 books, but if the patrons continue to check out books in 1972 as they have begun to do, they will break all records, say the librarians. Last month, March, 1972, the Bookmobile librarians circulated 5530 books which exceeds any month since the Bookmobile started its rural service in 1964.

If spring cleaning has left you with a headache over that large pile of unwanted items, a garage sale may be the answer to your problems.

It's possible to sell any type of item in a garage sale when it might be of interest to someone else. This includes toys, books, records, knick-knacks, household and sports equipment, furniture and clothes. Use a garage sale to raise money for the family or a favorite charity.

If your friends and neighbors are in the midst of spring cleaning, join forces to offer a variety of merchandise.

Keep in mind that low prices attract bargain hunters. However, extremely low prices often fail to make the venture financially worthwhile. Check the cost of items at local thrift and second-hand shops for a pricing guide.

Mend and clean clothing before putting it up for sale. Pin the correct size on garments. Tie or pin pairs of shoes together. Clean and repair toys, records, kitchen equipment and books. Steer clear of selling un-repaired or damaged goods.

Remember a trick of the trade, and set up a few tables where everything sells for the same price. Otherwise, group similar items together. Hang all garments on a rack.

Don't forget advertising for

the sale. Neighborhood signs can help. You can also consider placing a small ad in the newspaper.

Remember to check legal aspects that relate to selling goods. Call the comptroller of Public Accounts for information on collecting sales tax. He's listed in the phone book under Texas State Agencies.

Check with the Internal Revenue Service for information on reporting income from a garage sale. Is the money collected to be donated to a recognized charity? Ask about giving tax deduction receipts to donors of merchandise. The Internal Revenue Service is listed in the phone book under United States Government Offices.

With spring here, is the man in your life interested in a new double knit wardrobe-but the price of ready-made fashions scaring you both? Why not sew for him? Come to the Suit Fair sponsored by the County Home Demonstration Agents from Castro, Deaf Smith and Parmer County and clothing specialists from Texas Agricultural Extension Service.

The Suit Fair will be Tuesday, April 25th, from 9:30 a.m. to 3:30 p.m. in the Bull Barn in Hereford. Twenty Tailoring Techniques will be demonstrated by the specialists and home demonstration agents.

Elimination Contest Held In Lazbuddie

The Parmer County 4-H Elimination Contest was held at the Lazbuddie School Auditorium on Saturday night, April 15. This contest was conducted in preparation for the district contest to be held on April 29.

One or a team of youngsters gives a short presentation about a particular subject such as food and nutrition, farm and ranch management, etc. They are limited to a maximum of 12 minutes in most divisions and are scored by two or more judges.

Judges this year were Mrs. Pete Jesko of Lazbuddie and Mr. and Mrs. Spencer Tankley of Muleshoe. Eleven different divisions were entered this year and awards were presented on a blue, red or white ribbon basis.

Following is a list of the divisions, youngsters and awards won:
Senior Poultry Production: Cheryl Gohlke and Billy Roberts, blue ribbon.
Junior Poultry Marketing: Tommy Mesman and William Martin, red ribbon.
Senior Food and Nutrition Educational Activity: Jacquelyn Langford, blue ribbon.
Junior Food and Nutrition Educational Activity: Annette Langford, red ribbon.
Junior Share-the-Fun Contest: Danny Howard, Randy Smith and Greg Moseley, white ribbon.
Senior Housing and Home Furnishings: Deborah Harding, blue ribbon.
Junior Housing and Home Furnishings: Arlene Magness, white ribbon.

Senior Farm and Ranch Management Individual: Audrey Magness, red ribbon.
Junior Farm and Ranch Management: Michael Mimmis and Kent Winders, red ribbon.
Junior Horse Demonstration: Linda Gohlke and Yolanda Martin, blue ribbon.

The next step for these youngsters will be the district contest conducted on the West Texas State University Campus, April 29. The senior teams that place first or second will then go the state 4-H Roundup at College Station in June.

Tenth graders were Lynn Blankenship and Pam Nance. Eleventh graders on the honor roll were Eldon Embry, Gerald Gohlke, Caroline Anderson, Carolyn Herington and Marilyn Winegart.

Twelfth graders were Will Anderson, Brett Hargrove, Jack Kirkland, Eddie Meeks, Jackie Williams, Penny Phillips, Diane Rodriguez and Lannette Stanton.

Three cotton seedlings per foot of row is an ideal stand to shoot for under regular 40-inch row widths and even with double-row patterns, but under more narrow row widths fewer seedlings per foot or row may be in order to obtain optimum yields. This becomes especially important under limited water situations with presently, used stripper varieties. Higher planting rates may be necessary to get a certain seedling stand if seed quality is low.

When dwarf varieties be-ome available for narrow-row production, planting rates should be increased normal narrow-row rates. For example, with our present varieties little difference in yield has been observed between a plant population of 65,000 and 80,000 on double-row patterns. Therefore, the average seedling count could be reduced to 2 1/2 seedlings per foot of row and still expected maximum yields.

Preplant irrigation applications are more often high than low. Since available irrigation water is not critically in demand by growing crops, it is often convenient for irrigation sets to be longer. The tillage layer is normally dry and loose, and the water advances slower initially.

However, where subsoil moisture is good from last year's late summer and fall rainfall, precise water management and distribution procedures can cut the preplant water bill this year. Moisture stored last year is mostly still below the plow depth where land has been bare.

The primary need for the preplant irrigation this year is to wet the tillage layer and provide germination moisture. With normal rainfall and two or three timely summer applications as required, grain sorghum yields averaged only 156 pounds per acre more with a preplant application than without it in a three-year study at Bushland. The average water-use efficiency was 31 pounds per acre-inch.

Therefore, where irrigation water is fair to good, preplant applications on grain sorghum can often be light, especially this year where subsoil

moisture is good. Preseason irrigation is usually 25 to 35 per cent of the irrigation water applied on grain sorghum annually.

The quantity of irrigation water that can be stored in the soil is quite low when subsoil moisture is high. In tests on the Pullman soil at Bushland, only 33 to 54 per cent of the water applied during preplant irrigation was there three to four weeks later. Losses were apparently from evaporation since there was no tailwater runoff. Moisture storage was greater when applications were early in the year while evaporation was low. However, the earlier applications decreased pre-season rainfall storage. The soil will store a certain quantity of water, irrigation or rainfall or a combination of both. Corn yields averaged 15 bushels or 10 per cent per acre more where land was prewatered than where the crop was watered-up in irrigation result demonstrations in Lamb County. In 1970, corn yield was 20 bushels or 12 per cent per acre more; and in 1971, corn yield was 11 bushels or 7.5 per cent more.

Profitable grain sorghum yields depend to a large extent upon good cultural methods. Two important cultural practices in this area are seeding rate and row spacing. Research has shown that under dryland conditions where only stored soil moisture and a limited amount of rainfall is available, low plant populations and conventional (40-inch) row spacings result in highest grain yields. The optimum planting rates under dryland conditions range from 1.5 to 2.0 pounds per acre or about two to three seed per foot of 40-inch row. Higher seeding rates and narrow row spacings may result in yield reduction due to increased utilization of early season moisture for stover production. Subsequently, late season moisture may be insufficient, resulting in poor head exertion, shrunken seed and lodging. Since stored moisture levels are relatively high this year, farmers with sufficient water for one or two irrigations during the boot and bloom stages may increase their grain yields by increasing the planting rate to three to six pounds (four to eight seed per foot of row) on 40-inch rows.

USDA Reports --

Producers Permitted To Revise Coverage

The United States Department of Agriculture announced recently that winter wheat producers will be permitted to revise their Federal Crop Insurance Corporation coverage to exclude land they put into additional set-aside.

This will remove additional set-aside acreage from insurance coverage and reduce premiums to be paid by producers who participate in the additional set-aside, Richard Aslakson, manager of the FCIC said.

Aslakson said the action was taken to encourage producers to participate in the additional voluntary set-aside program. It will provide equitable treatment for those producers who will be disposing of part of their wheat acreage under provisions of the additional set-aside program as operated by USDA's Agricultural Stabilization and Conservation Service.

Producers participating in this program will be required to revise their acreage reports to the FCIC prior to the close of the program sign-up time

established by ASCS and to designate the acreage which will be involved. Producers in spring wheat areas and in areas in which acreage reports have not been filed for winter wheat will be permitted to exclude this acreage from insurance coverage during their normal acreage reporting period. Spot checks of this acreage will begin immediately following revisions in producers' reported acreages.

It's so easy to skip breakfast, yet that meal is probably the most important one of the day. If one reason for not eating a good breakfast is that you don't like the usual breakfast foods like eggs and cereal, how about having a hamburger on a roll with a glass of milk?
