

# FROM THE HOPPER

BY HOP JR.

For years I have heard of baseball-sized hailstones and never believed there was such a thing, I have seen lots of marble-sized and on up through the golf ball classes, but until Tuesday I never believed a round piece of ice as big as a baseball ever actually fell out of the skies.

But after getting shelled with a half dozen of those monsters this week, I'm converted. Next, I'll be trying to extend my faith to believe in those cocoanut-sized ones they say sometimes come along.

Hal (our nine-year-old) and I were on our way to Amarillo Tuesday afternoon when we were intercepted by a north-bound squall line that crossed the highway along about Canyon.

It was evident that something was in the dark cloud, and we didn't have long to wait to find out what it was. There were a few sharp pops as the first hail marched out to meet us, and then suddenly a loud crash that sounded like a factory tripping hammer. That was when the first blockbuster socked our roof.

Looking out we could see these monsters plummeting down from the grey skies and dashing themselves to pieces on the pavement or bounding off the shoulder. Several more found us as a target and we pulled off in the shelter of a road side tree, hoping none would strike the windshield. Fortunately they didn't.

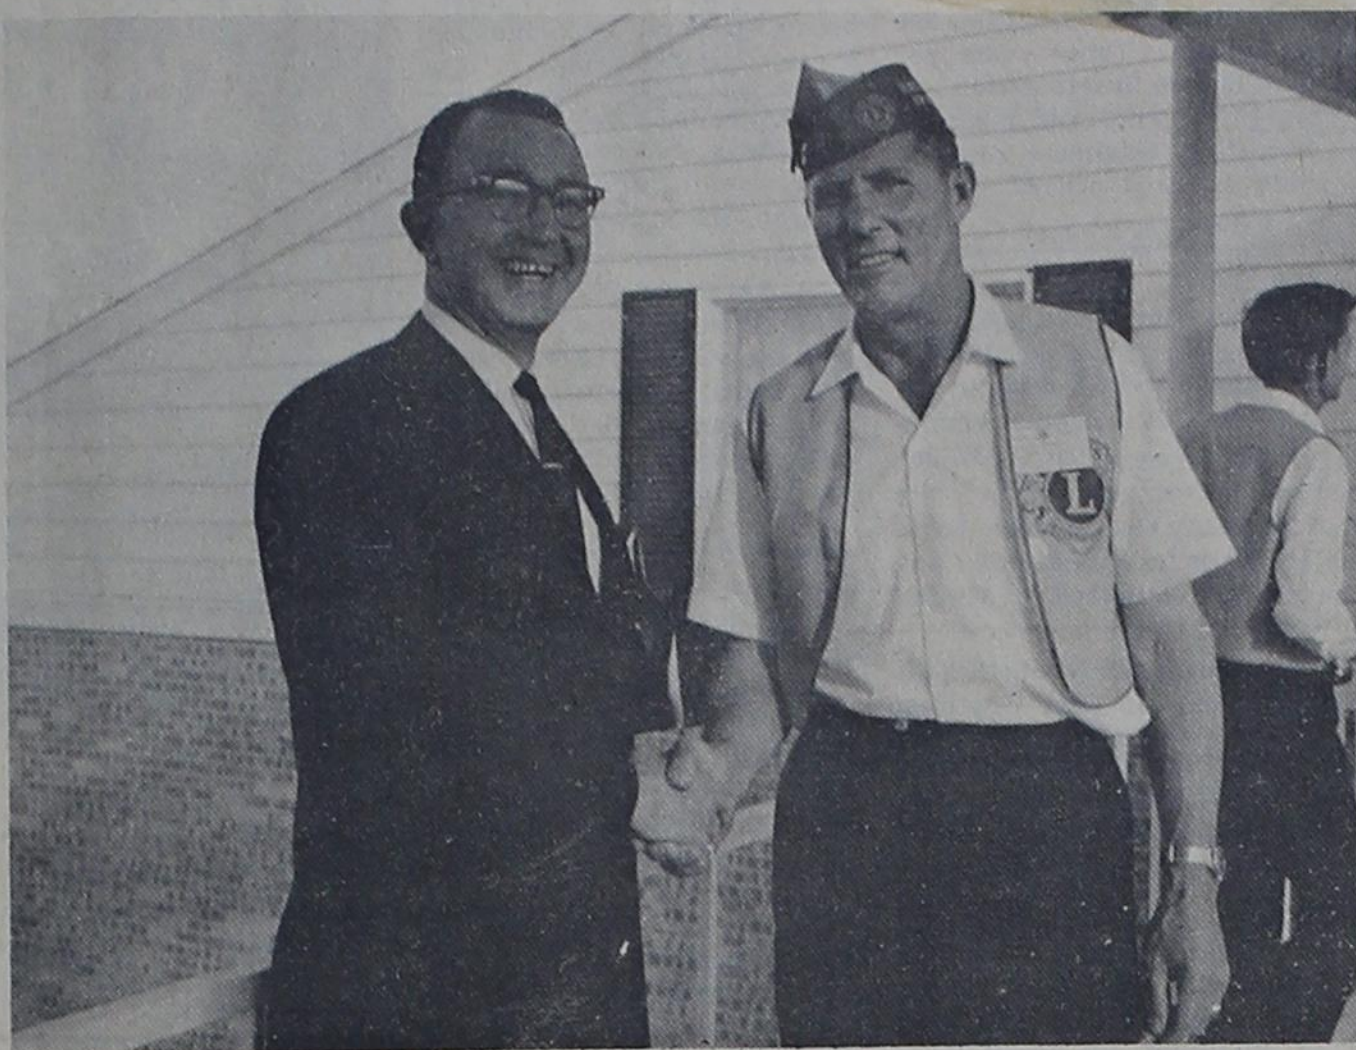

Enterprising Hal had along his small camera he got for Christmas, so if we were lucky we got pictures as evidence of the size of the hailstones.

This is the first time I have ever seen hail big enough to kill somebody, but I am satisfied that if you got out in it you could easily have been knocked cold, seriously hurt, or maybe even fatally injured.

Like I said, now I'm a believer.

Jeanne and I have decided to send the two older boys to summer camp. We think it will be good training for the camp directors.

Mr. and Mrs. J. E. McLaurey of Oklahoma City visited in the home of Mr. and Mrs. W. W. Raulte over the weekend and also attended the wedding of their granddaughter, Barbara Raulte to Kenneth Carel on Sunday.

RECEIVES CONGRATULATIONS -- Joe Helton, newly elected Baby Deputy Governor of District 40x of Lions Club, receives congratulations following his election to the office from Aubrey Green, Immediate Past International President of Lions. Helton was elected to the office at the state convention held in Las Cruces early this week.

IN DIST. 40x--

## Joe Helton Is Named Lions Chief

Joe Helton, owner and operator of Helton Oil Co. and a member of the Clovis Memorial Hospital Board was named Baby Deputy District 40x Governor of Lions International at the state meeting held in Las Cruces this week.

Helton defeated Gerald Dorrough of Clovis who was also seeking the post. Dorrough is district manager of Southwestern Public Service Co. in Clovis.

Helton and other new officers were installed in formal ceremonies on Tuesday, by Aubrey D. Greer, York, Alabama, immediate past president of Lions International.

Five persons from this area were appointed to committees at the convention. Appointed were Jerry Bradshaw, Farwell, the rules committee; C.W. Burkett, Clovis, sergeant of

arms committee; R.L. Borden, Portales, nominations committee; John Kelt, Tucumcari, election committee and Arthur

Snyder, Tucumcari, chairman of the hospitality committee. The 1966 state convention will be held in Albuquerque.

## New Pastor Arrives At Okla. Lane Methodist Church

The Rev. Hardy Cole, new pastor for the Oklahoma Lane Methodist Church arrived on Thursday of last week and filled the pulpit at the church on Sunday. He succeeds the Rev. Douglas Gossett, who was moved to the Hart Methodist Church at the last annual meeting of the North West Texas conference which recently convened in Lubbock.

The new pastor has been in the ministry for the past nine years. He comes to Oklahoma Lane from New Home. Other places where he has served as pastor include Trinity Church in Wellington, Goodlett and Roby. Before becoming a preacher, Rev. Cole says he was a photographer and lived in Hereford. "This is almost like returning home" he stated adding, that his father, the Rev. J.P. Cole, a retired Methodist preacher had served as pastor of the Oklahoma Lane Methodist Church

REV. HARDY COLE

in 1947. His father is law, Rev. Edgar Irvine is manager of the Ceta Canyon summer camp for Methodist youth.

Rev. Cole holds a B.A. degree from McMurry and in 1959 received a B.D. degree from Perkins School of Theology at SMU.

The new pastor and his wife, Jennie, are parents of three children, John, 15, who will be a sophomore in the Farwell School; Mary, 10, a fifth grade student and Earnest, five.

At the present time Rev. Cole does not anticipate any changes in times for the services at the church.

In coming to Oklahoma Lane Rev. Cole says that he is here to serve the church and community to the best of his ability. "We are happy to be here" he said.

## Donald Dale Is Stationed In Louisiana

Donald G. Dale, son of Mr. and Mrs. R.D. Dale is stationed at Fort Polk, La. where he is taking training with the U.S. Army. Pvt. Dale will be in boot camp for another five weeks, according to his mother.

His address for anyone wishing to write is: Pvt. Donald G. Dale, U.S. 54B 52284, Co. D 4th BN, 2nd TNG DBE, Fort Polk, La. 71469.

## Receives Degree

Robert M. Sherley, Lazbuddie, was among the seniors receiving degrees at the spring commencement at TCU on June 2. He completed work for a bachelor of business administration degree.

Approximately 700 bachelor, master and doctoral degrees were conferred by Chancellor M.E. Sadler, marking this as the largest class in TCU's 92 year history.

Speaker for the commencement was Gov. John Connally who was also awarded an honorary LL.D. degree. The honorary degree was also conferred on Dr. Robert Naylor, Fort Worth, president of Southwestern Theological Seminary.

## ENMU Is Popular Choice Of 1965 Texico Grads

The 1965 graduates of Texico High School are making various plans for the future with at least 50% of the class planning to enroll in college classes come September. Eastern New Mexico University seems to be the choice of most of those who plan to attend college, however several are indefinite as to their choice of colleges.

Linda Hadley, daughter of Mr. and Mrs. John Hadley and an honor student at Texico was among the first to reveal that she will be attending classes at ENMU in the fall. Linda has not chosen a major at this time.

Kathy White, daughter of Mr. and Mrs. Murray White is also among those planning to attend ENMU. She will major in elementary education. Kathy was third high honor student at Texico this year and is employed in Clovis for the summer.

Gwinette Lovett, daughter of Mr. and Mrs. Troy Lovett and salutatorian of the Texico 1965 grads will be attending West Texas State come September. She has not announced a choice for a major but said "It will probably be in the education field."

Sarah Beth Walker, valedictorian of the class and daughter of Mr. and Mrs. Marlon Walker, announced that she will be attending college at Baylor University, where she plans to study science preparatory to

going into the medical field. Cynthia Spence another honor student will be married to Vernon Thigpen, also a Texico graduate on June 25. She has no plans to work or attend school in the immediate future. Cynthia is the daughter of Mrs. Woodrow Hagler.

Two members of the class Linda Waller and Vivian Duncan Hudson were married before their senior year in high school and they will devote their time to being "just housewives."

Ellen Caillouet, daughter of Louis Caillouet is planning to work and maybe attend night classes at the ENMU extension courses offered in Clovis each year.

Dorothy Hapke, daughter of Mr. and Mrs. Alfred Hapke is presently working in the office of Dr. Green in Clovis and says she probably will continue working in the fall. In any case does not plan to attend college.

Jerry Thornton, son of Mr. and Mrs. Olen Thornton will get a job and work. He is presently employed on the farm by N. W. Peyton.

Clarence Ethridge son of Mr. and Mrs. Ray Ethridge is making tentative plans to attend ENMU but has not decided on a major.

Also making plans to attend ENMU is Ronnie Richardson son of Jess Richardson. He does

not know if he will begin his studies immediately or if he will stay out of school and work for one semester.

Roy Wall son of Mr. and Mrs. John Wall is not making plans to attend college but will get a job and "Go to Work."

Emmitt Autrey, son of Mr. and Mrs. E. E. Autrey is making plans to enter Eastern New Mexico University in the fall.

Neil Lambert, son of Mr. and Mrs. V. L. Lambert is also making plans to attend ENMU. Neil was an outstanding athlete in high school and will possibly major in physical education.

Leonard Hutsell, son of Rev. and Mrs. Bob Hutsell is making plans to attend college in the future but thinks he will stay out of school for one year and work. He plans to study journalism or go into the ministry.

Earl Cash, grandson of Creed Webb will probably stay on the farm and work with his grandfather, at least for the present.

Sandy Tipton, daughter of Mr. and Mrs. T. J. Tipton is making tentative plans to attend college at New Mexico State University. Sandy says she would like to major in home economics, but if she finds she can not attend college she will seek employment come fall.

Key Bush daughter of Mr. and Mrs. Buck Bush is not making plans to attend college but will seek employment and

work for at least a while. Floyd Morris, son of Mr. and Mrs. J.O. Morris had no definite plans for the future but is presently working at Rip's Western Wear.

Mickey Lofton, son of Mr. and Mrs. Floyd Lofton is making plans to enroll at McMurry College come September. He will announce his major later.

John David Chappell, son of Mr. and Mrs. Johnnie Chappell is making plans to enroll at South Plains Junior College in September. He is undecided on a major.

Mike Spearman, son of Mr. and Mrs. John Spearman is completing plans to enter Colorado State at Fort Collins, where he will study to become a veterinarian.

Tom Rickstrew, son of Mr. and Mrs. Roy Rickstrew is working in the wheat harvest this summer and saving his money to help finance his education at Eastern New Mexico University in the fall.

Marquita Wall, daughter of Mr. and Mrs. Willie O. Wall is making tentative plans to attend Eastern New Mexico University.

Don Baldrige could not be reached to discuss his plans for the future, however friends say he is making plans to attend college in the fall but at the close of school had not chosen a specific college.

## Larry Cooper Receives Medical Degree

Among the 93 University of Texas Southwestern Medical School seniors to receive MD degrees at the June 7 commencement, held at McFarlin Memorial Auditorium on the Campus of Southern Methodist University in Dallas was Larry J. Cooper, son of Mr. and Mrs. Lawrence L. Cooper of Farwell.

Presiding over the commencement service was Dr. M. D. Gill, dean of the medical school. The principal speaker for the service was Dr. Marlon Bruce Thomas, from Trinity University of San Antonio. Degrees were conferred on the graduates by Rabbi Levi A. Olan, a member of the Texas University Board of Regents.

Dr. J. Steward Chapman, head of the post graduate educational department of the medical school administered the physician's oath.

Dr. Larry J. Cooper began attending classes at the Farwell school when he was in the second grade. He was graduated from the same school, with honors (receiving the old loving cup) in 1957. He received a B.A. degree from McMurry College, Abilene in 1961 and

DR. LARRY J. COOPER

since that time has been a student at the Medical School studying at Parkland Hospital in Dallas. He graduated from medical school in the upper one third of his class.

Dr. Cooper is married to the former Mary Ann Wall, also a graduate of Farwell High School. The couple are parents of two sons, Royce, five, and Christopher, seven months.

Dr. Cooper will be practicing medicine at the Bernalillo County Hospital in Albuquerque. His duties will begin this week. His wife, Mary Ann, will enter the University of New Mexico and continue working toward a B.A. degree.

## Opening A Success

The formal opening at the Fina station operated by Mr. and Mrs. Alvin Kreigel, on May 29, was indeed a success according to announcement from the owners this week. The Kreigels, who have been away for the past two years say "It is just great to be back home among our many wonderful friends".

Mrs. Kreigel said, "We realize that a business cannot exist without the cooperation of friends and neighbors and for this reason we are grateful to

all who have helped to make the opening a success and for the support of everyone since the business was opened a few weeks ago."

Winners of door prizes at the formal opening were Ed Blain, George Dannhelm and Mrs. Lora Brown.

## Bookmobile To Visit

The next visit of the Texas State Library High Plains Bookmobile to Farwell will be on June 18, 8:45 - 11:45 a.m. As usual the traveling library will be stopped at the Holiday Store Parking Lot.

The bookmobile will be at the Oklahoma Lane Farm Store on June 17, 9:50 - 10:50 a.m.

## Maj. Porter Receives Oak Leaf Cluster

Army Maj. Edward J. Porter, whose wife, Bunkie, lives in Seaside, Calif., received first through the third Oak Leaf Cluster to the Air Medal while serving in Vietnam.

Major Porter, son of Mr. and Mrs. John Porter, received the award for meritorious achievement while engaged in aerial

support of ground forces of the Republic of Vietnam. An Oak Leaf Cluster is given for each additional award of the medal after the initial presentation.

Major Porter is a graduate of New Mexico Military Institute in Roswell. The 35 year old major entered the Army in 1946.

## Swimming Classes Begin June 21

George Hinch, manager of the Texico Swimming Pool announces that swimming classes will begin at the pool for beginning swimmers on June 21, with David Farmer serving as instructor.

## Crack Down On Unlicensed Drivers In Texico

According to Mayor Ed Farmer of Texico a crackdown on all unlicensed drivers (operators of automobiles or motor scooters) has been started in that city. A routine check will be made of all persons driving vehicles in Texico within the next few days.

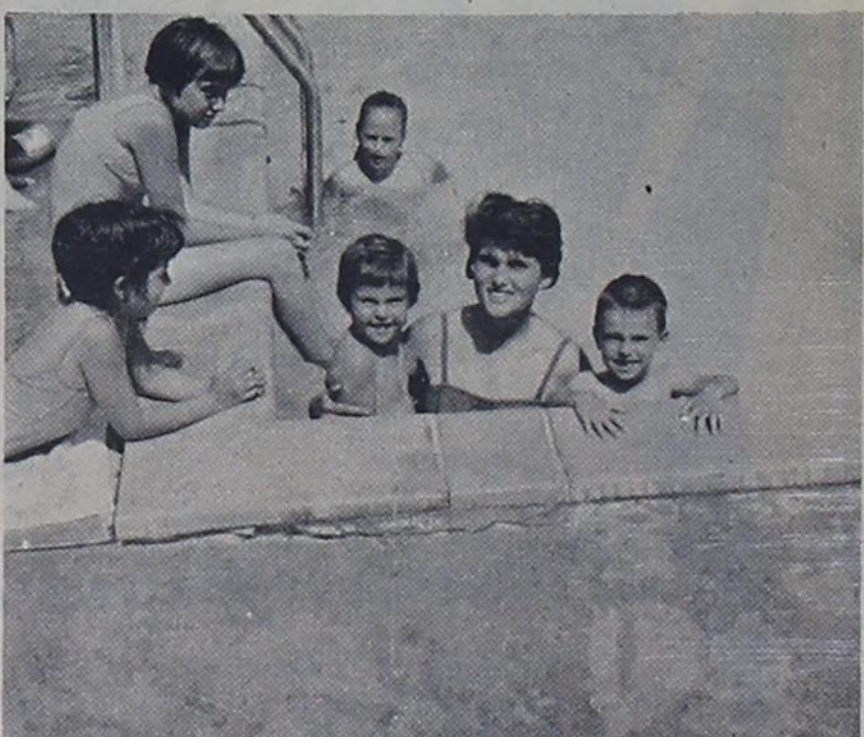

After one warning has been issued, if the persons continue to operate vehicles, without a license they will be issued with citations.

structor, Farmer is a licensed lifeguard and managed the Texico pool two years ago.

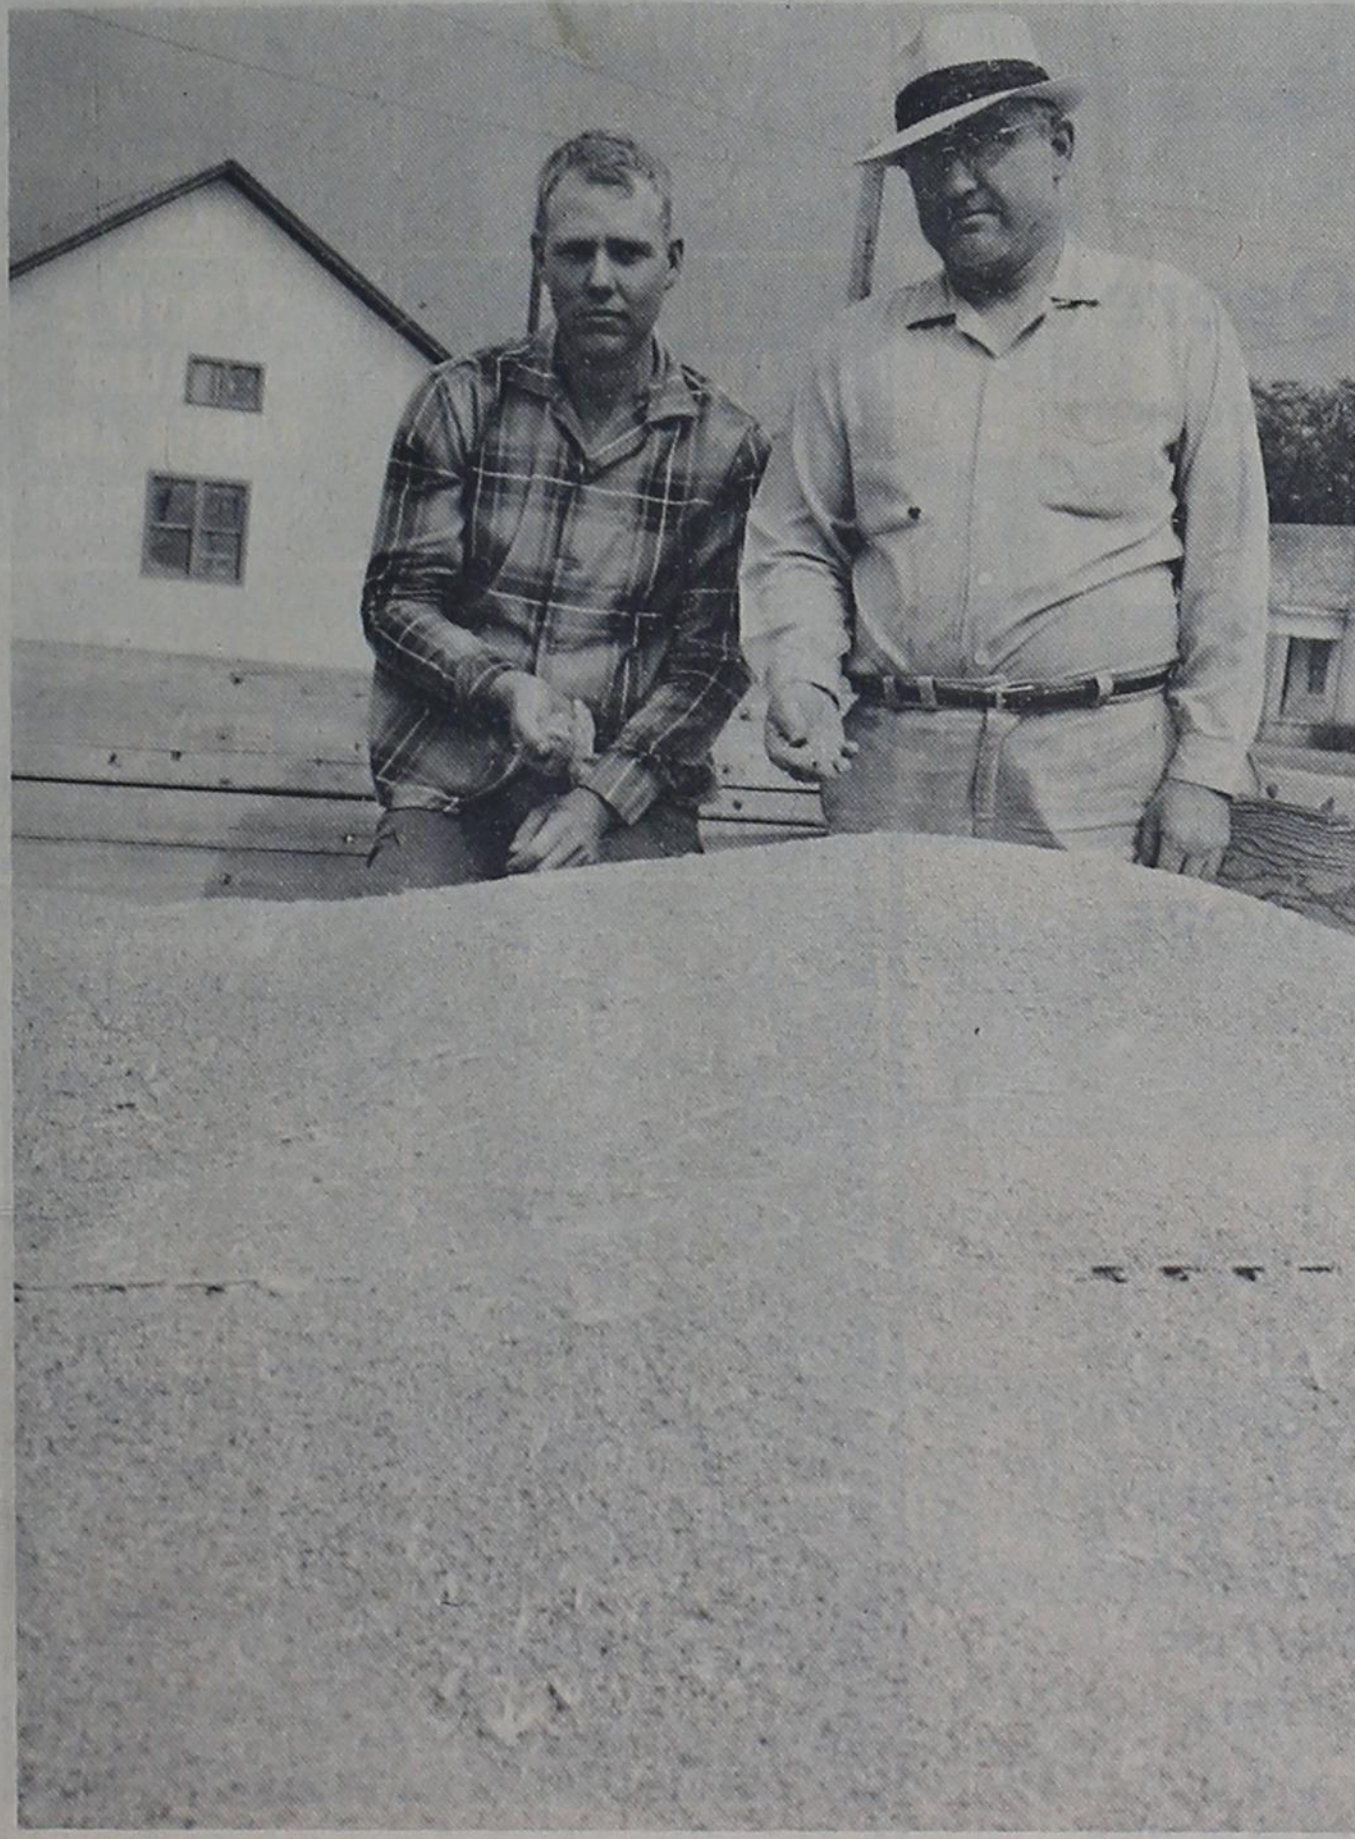

All persons interested in enrolling their children in the classes should call Hinch at the pool (482-9112).

When the beginner class is completed (if enough interest is shown) a class for advanced swimmers will begin on July 5. Persons interested in an adult class should contact Hinch for details. Price of the swimming course is \$15 for two weeks. In addition to the instruction period persons enrolled in the class will have free access to the pool to practice their swimming during the course.

Visiting in the home of Mr. and Mrs. Lee Hutchins on Sunday were Mr. and Mrs. Art Hutchins, parents of the local man.

Swimming is a family affair for the Raymond Hadley family (well almost, three year old son, James says NIX to the whole deal). Pictured in the foreground are Mrs. Hadley and her four year old twin children, Karen and Keith. Also shown are Terri Nation, Brenda Erven and Gail Meeks.

FIRST LOAD OF 1965 WHEAT -- The first load of wheat for this season was brought into State Line Grain Inc., in Farwell (some two weeks earlier than expected) by Otto Lingnau, who farms one and one half miles west of Lariat on Wednesday afternoon. The 17,640 lb. load weighed 61 lbs. per bushel (62 lbs tops) and had a moisture content of 13. The wheat is making approximately 45 bushels per acre, according to Lingnau, who received a \$25 premium on the load. Shown with Lingnau is his son, Delbert.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879, Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

### Highway Commission Approves Additional F.M. Roads

The Texas Highway Commission has recently approved the expenditure of \$1,210,000 for construction of new Farm to Market Road mileage in District Five as part of its 1965 FM Road Program, announces District Engineer Oscar Crain of Lubbock.

The district engineer said 62.1 miles in the district will be involved. Work authorized for this county is part of a 911.2 mile state wide farm to market road building program for 1965 as approved by the Texas Highway Commission. The program will include 207 individual projects in 153 counties to cost an estimated \$23.5 million.

The action brings the total FM system to 37,779 miles of which 35,026 had been built by April 30. Another 773 miles were under construction on that date.

The farm to market road program is an annual road building undertaking of the Texas Highway Department as provided by State Law.

Additional road construction in Parmer County under the project will be in the Black vicinity. The proposed construction will extend from US 60 at Black south to state road 86 and FM 1172, a distance of approximately 12.5 miles, Rhea Bradley Sr., resident engineer at Littlefield will be in charge of the proposed construction.

### City Issues New Policy On Permits

At the Friday meeting of Farwell City commissioners a new policy on issuing building permits was adopted. Each builder or contractor applying for a permit will now be required to pay a deposit of \$100 to the city at time of issue of the permit. \$10 of the amount will go to the sewer tap inspector, with remainder of the

deposit to be refunded to the builder if the building meets specifications when it is completed.

Commissioners in a called meeting on May 13 approved building restrictions for blocks 23, 36, 37. All building in that area to meet the building specifications must be of either brick or masonry and must have at least 1600 square feet of space, garage included.

The council members also discussed buying equipment for the water department, however no action was taken and discussion will be resumed at a later date.

All bills were approved for payment.

### FBLA Attends National Convention

Members of the Texico FBLA (Future Business Leaders of America) accompanied by Mr. and Mrs. N.W. Peyton will leave Friday afternoon via train for Cincinnati, Ohio where they will attend the national Future Business Leaders convention.

The local organization will be entered in all events at the convention, including public speaking, parliamentary procedure, spelling and the "Mr. and Miss FBLA" contests. Mike Spearman will represent the school in the public speaking event; Spearman will also be entered in the Mr. FBLA contest and Marquitta Wall will enter the Miss FBLA event.

Members of the parliamentary procedure team include Mike Spearman, Terry Lovett, Sharon Peyton, Mickey Lofton and Floyd Morris. Lynelle Ingram, Gary Meier and Joe Holland will enter the spelling relay.

Terry Lovett will be the New Mexico state Voting delegate Sharon Peyton and Gary Meier will be the local chapter's voting delegates.

The FBLA group will have headquarters at the Sheraton-Gibson Hotel in Cincinnati. They will return on June 17.

The Texico group capped several honors at the national convention last summer. Their representative in the Mr. FBLA contest was named winner; and the parliamentary procedure team placed seventh. They also won the gold star award and the distinction as star school.

Mrs. Peyton is instructor and sponsor of the local FBLA organization at Texico High School.

This Church Calendar Is Brought To You With The Above Merchants Compliment

Mr. and Mrs. Mose Glasscock accompanied by Mr. and Mrs. T. L. Glasscock of Muleshoe were in Lubbock Sunday to be at the bedside of their brother, Johnnie Glasscock, Portales who underwent spinal surgery on Friday, at the Methodist hospital in Lubbock.

Mr. Glasscock is in satisfactory condition, according to family members.

While in Lubbock Mr. and Mrs. Mose Glasscock also visited with Mr. and Mrs. O.R. Cunningham and son Gene.

TO WED -- Mr. and Mrs. J. T. Lockhart, Texico announce the engagement and approaching marriage of their daughter, Betty Ruth, to Jon William Schroeder, son of Mr. and Mrs. M. W. Schroeder, 609 W. 7th, Plainview. Date for the wedding has been set for 7 p. m. (CST) July 31, at the First Baptist Church in Texico. Friends and relatives are invited to attend the wedding and reception. Miss Lockhart is a student at Wayland College in Plainview and will complete work for a B. A. degree in elementary education this summer. Her fiancé is also a student at Wayland College. He will complete work for a B. S. degree in business administration this summer.

Mrs. D. O. Rolland is visiting in the homes of her brother, W. H. Moss and her sister, Mrs. Stella Bohannon near Checotah, Okla. this week. She will also visit with other friends and relatives in that area before returning home.

Mr. and Mrs. Jerry Darby and children, Lisa and Darin are spending the week in Alabama visiting with his parents, Mr. and Mrs. Harold Darby and his sister and brother-in-law and family, Mr. and Mrs. Bill Garrett.

## Sunday Ceremony Unites Barbara Raulie, Kenneth Carel

First Christian Church in Clovis was scene for the Sunday wedding of Barbara Ann Raulie, daughter of Mr. and Mrs. W.W. Raulie, Texico and Airman Kenneth Edwin Carel, Cannon Air Force Base, Clovis, son of Mr. and Mrs. Charles Carel, Jefferson City, Mo.

The Rev. Henry Wood, Midland, former pastor of the Clovis Church and close friend of the couple performed the double ring service before a setting of spiral and arch candelabras holding tall white tapers, encircling a sunburst arrangement of white gladioli and red carnations set on a fluted pedestal, flanked by palms of jade foliage and emerald greenery.

Organist Marvin Hecht, Clovis, played appropriate nuptial selections preceding the ceremony, the traditional wedding march as the nuptial couple entered, and accompanied soloist, Claude W. Porter, Farwell, when he sang "Because" and "O! Perfect Love."

Candles were lighted by Ronald Watts, Texico, former classmate of the bride and Loyd Fair, Cannon AFB, close friend of the groom. They also served as ushers.

Maid of honor was Beulah McDaniel, Texico, former classmate and close friend of the bride.

Brides matrons were Mrs. Fred Fahsholtz, Clovis and Mrs. Robert Gamble, Amarillo.

All bridal attendants were attired in identical street length dresses of red delustered satin, designed with scalloped necklines, short scalloped sleeves and full skirts. Their shoes were in matching hue and they wore minute halo hats to which red silk illusion veils were attached. They carried cascades arrangements of white carnations.

The bride escorted and given in marriage by her father chose a bridal gown of silk faced faille overlaid with silk organza. The dress was designed with a scalloped neckline accented by appliques of lace, long fitted sleeves, which formed petal points at the hands and a fitted bodice adorned with appliques of lace. The skirt with controlled fullness and cascades of billowing lace terminated in a sanctuary train. Her tiered veil of French illusion was attached to a headpiece of self material and lace. She carried a cascade of white roses and stephanotis atop a white satin and lace covered Bible, borrowed from her maid of honor.

Following tradition the bride carried for something old a handkerchief belonging to her grandmother, Mrs. J.B. Mc-Laurey; new was her wedding gown, borrowed the Bible, and blue the traditional garter, gift from the bridal attendants. For luck, she wore in her shoes pennies minted in the year of her birth and that of the groom.

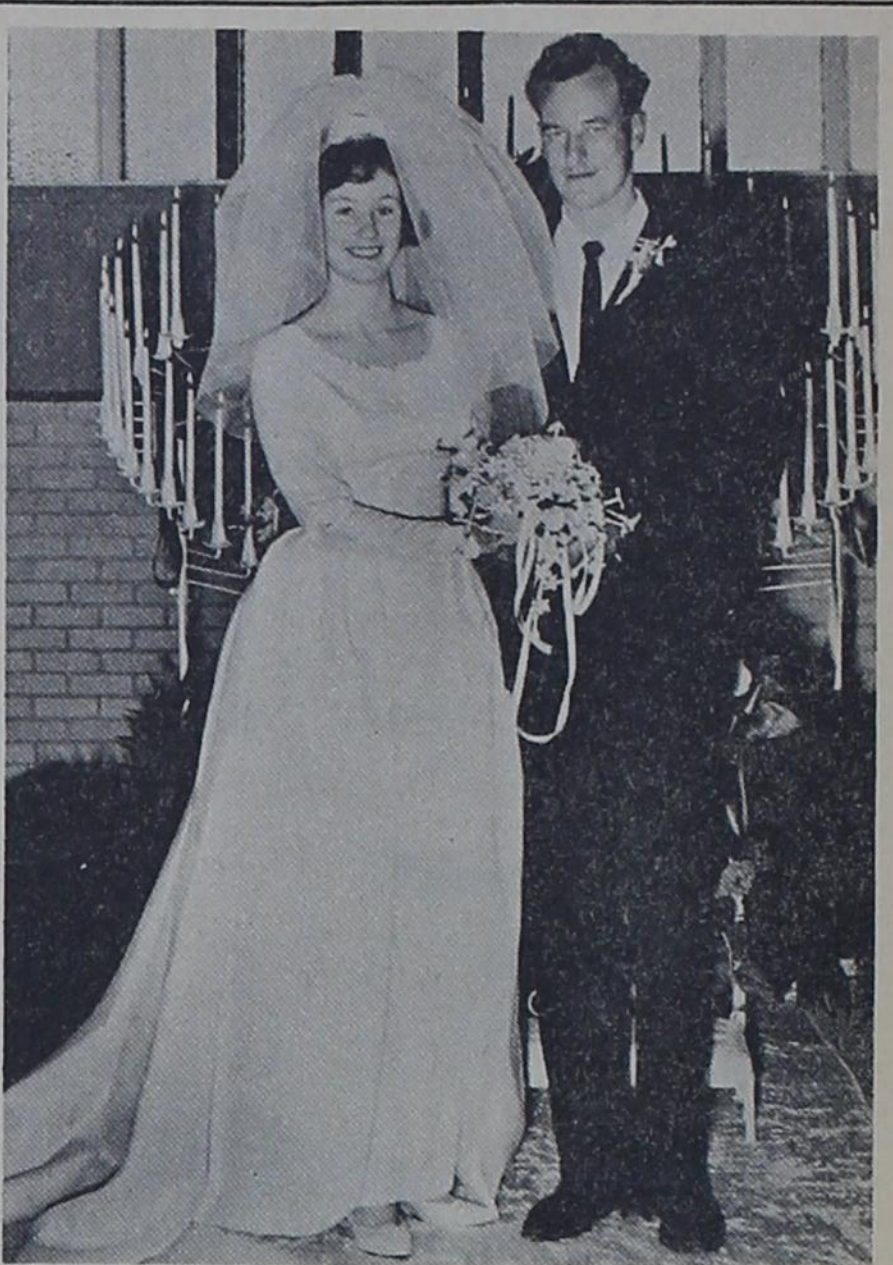

Bestman was Wesley Raulie, Texico, brother of the bride. Groomsman were Ed Goodwin and Jim Deal, both from Cannon Air Force Base.

For her daughter's wedding Mrs. Raulie chose a two piece dress of red shantung with shoes in matching hue. Her hat and gloves were white and she wore a white carnation corsage.

The groom's mother was unable to attend the wedding.

Immediately following the wedding a reception was held in the fellowship hall at the church. Serving table was laid with white organdy over red satin and centered with an arrangement of white snapdragons, and red carnations.

The tiered wedding cake was decorated with white wedding bells edged in red, lovebirds and red roses and topped by a miniature bride and groom figurine. The cake was served with red punch, nuts and mints by Mrs. Leon Kelley, Texico,

AIRMAN AND MRS. KENNETH CAREL (Photo by Sunset Studio)

and Mrs. Noel DeWittie, Clovis. Crystal table appointments and napkins inscribed with the names of the bridal pair and the wedding date, in silver, completed table decor.

## Recent Bride Is Shower Honoree

Honoree for a bridal shower on Friday evening was Mrs. Roger Baughman (Suzette Bourlon), a recent bride. The social was held in the parsonage of Farwell Church of Christ with Mesdames Paul Wilkinson, Harry Sheets, Bill Roberts, Johnnie St Clair, Preston Martin, Lewis Sharp and Bobby Sewell as hostesses.

Guests were registered in the bride's book, by Alicia Bourlon, sister of the honoree. Hostesses alternated at the serving table which was set under an umbrella of pink net, from which garlands of pink roses and white baby's breath were suspended to encircle the punch bowl and cake plate. Garlands also were twined around the candles which flanked the crystal table appointments.

Pink roses and miniature gifts, wrapped in pink and white, chosen colors of the honoree, were suspended from the umbrella.

Further carrying out the honoree's colors was a pink bird cage hanging from the ceiling in which sat two lovebirds, who wore replicas of the faces of the honoree and her husband (Suzette and Roger).

The honoree, her mother, Mrs. Bill Bourlon and her mother-in-law, Mrs. William Baughman, Clovis, were presented with corsages of pink sweetheart carnations. The two mothers assisted the honoree with opening gifts.

Approximately 30 attended the shower and gifts were sent by many who were unable to attend.

## Shower Honors Mrs. M. Hitson

Hostesses for a bridal shower honoring Mrs. Mike Hitson (Karen Land) on Tuesday evening were Mrs. Paul Skaggs, Mrs. Tena Roth and Pat Childers. The social was held in the Skaggs home.

Chosen colors of the honoree, blue and white, were used in room decorations. Serving table was laid with a blue linen cloth and centered with an arrangement of blue flowers, in a milk glass bowl, flanked by blue candles in milk glass holders. Individual cake squares of blue, iced in white with blue trim, were served with punch.

The honoree was assisted in opening gifts by her mother, Mrs. Clara Wiehl.

Approximately 20 persons attended the social and many who were unable to attend sent gifts.

J. W. Crim of Lazbuddie visited in Oklahoma City last week with his son and family, Mr. and Mrs. John E. Crim. Crim reports that it rained some three inches in the week he was visiting in Oklahoma.

### Devotional Topic Is Importance Of Little Things

"The Importance of Little Things" was topic for the devotional given by Mrs. Billy Boling when members of Companion Sunday School class of Texico First Baptist Church met in the home of Mrs. Raymond Hadley on Thursday evening.

During the business meeting the class discussed the forthcoming social, to be held, for the adult department of the Texico Baptist Sunday School. Date for the social has been set for the first part of July. Next meeting for the class will be held in the home of Mrs. James Hudson in July.

Refreshments of fruit salad and cake were served with either tea or coffee. Attending the meeting were Mesdames Truman Kittrell, Billy Boling, Tena Roth, Johnny Hammitt, James Hudson, Leon London, and Raymond Hadley.

### Picking Up The Pieces Is Club Topic

When the Pleasant Hill 4-H club met in the home of Mrs. Jack Eshleman, with Cindy Eshleman as hostess, recently, Arlan Davis gave a discussion on litter entitled "Picking Up the Pieces." Miss Alice Mavis provided tips on finishing garments, particularly the slip-stitch for hems and zippers.

The club voted to sponsor a clean-up day at the community center as a club project. Following the work event a picnic supper will be held.

Club president Carolyn Lang-

ford, presided over the business meeting and minutes of the last meeting were read by Betty Clark, secretary.

Cindy and Mrs. Eshleman served ice cream men on chocolate cup cakes to the following members Betty Clark,

Janine Clark, Sherry Clark, Arlan Davis, Cindy Eshleman and Carolyn Langford; and leaders Mrs. Donald Clark, Mrs. Jack Eshleman, Miss Alice Mavis; and visitors Mrs. Elmer Langford, Mrs. Willard Davis and Carol Eshleman.

R. L. Douglas Jr., Route 2, Farwell announces the engagement of his daughter, June Gay, to Gerard J. Bradford, grandson of Mrs. Loreta Bradford, 117 State St., Clovis. The couple will exchange wedding vows at the First Baptist Church in Farwell, July 11 at 3 p. m. (CST). No invitations are being sent locally but friends and relatives are invited to attend the wedding and reception. Miss Douglas is the granddaughter of Mrs. R. L. Douglas Sr., also of Farwell. The bride-elect is a 1965 graduate of Bovina High School. Her fiance is a 1960 graduate of Portales High School.

### Recent Visitors

Recent visitors in the home of Mr. and Mrs. John R. Hadley were Mrs. Buddy Harrison and son, Jay from Las Cruces. Mrs. Harrison, the former Gale Hadley is employed by the Farm Bureau in the New Mexico City where she edits the woman's section of a farm magazine.

ENGAGEMENT ANNOUNCED -- Mr. and Mrs. R. B. Seaton, Route 1, Muleshoe, announce the engagement and forthcoming marriage of their daughter, Gayla Roxann, to Donald Wayne Roberts, son of Mrs. O. R. Roberts, Lubbock and the late Mr. Roberts. The couple will exchange wedding vows on August 28 at the Muleshoe Assembly of God Church. Friends and relatives are invited to attend. Miss Seaton is a graduate of Lazbuddie High School and is a sophomore student at Texas Tech, where she is majoring in home economics. Her fiance, an Abilene High School graduate, is a senior civil engineer major at Texas Tech.

### Mrs. R. Shuman Spends Vacation Visiting Relatives

Mrs. Robert Shuman has spent the past two weeks visiting the home of her daughter

and family, Mr. and Mrs. George Williams in El Reno, Okla., in Vernon with old friends and in Chillicothe with a sister, Mrs. Joyce Heath.

Mrs. Shuman was joined by her husband for a brief visit before returning home. When they returned home two of their grandchildren, Faralyn and Chris Williams, returned with them for a short visit. The Williams children were joined here on Saturday for a brief visit by their parents. The family then went on to Grand Canyon for a vacation trip. They will return to Farwell to visit in the homes of the Shumans and of the Henry Hase-loffs before returning to Oklahoma.

### Plans Completed For Annual Chicken Fry

Final plans for the annual chicken fry for members of Variety Club and their husbands were made at the last meeting of the organization in the home of Mrs. C. C. Christian.

The social will be held in the home of Mr. and Mrs. W. N. Foster on June 16, 6 p. m. Each member will bring food for the meal, as discussed at the meeting.

The afternoon was spent in visiting. Refreshments of ice cream, cake and coffee were served to Miss Lola Jean Grissom and Mesdames L. M. Grissom, Lloyd Beatty, Sam Sides, E. W. McGuire, W. M. Roberts, C. A. Bandy, G. T. Watkins, W. N. Foster, and George Lindop by the hostesses.

MISS JUDY ROACH

### Plan July Wedding

Mr. and Mrs. James Roach, of Oklahoma Lane, announce the approaching marriage of their daughter, Judy, to Roger Ezell, son of Mr. and Mrs. Gene Ezell of Bovina.

The couple will exchange nuptial vows July 31 at 8 p. m. at Oklahoma Lane Methodist Church.

Formal invitations will not be mailed locally.

Miss Roach is a 1965 graduate of Texas Tech in Lubbock and Ezell will be a summer graduate of Texas Tech.

Both students were on the dean's honor roll and he is a member of Phi Kappa Epsilon Fraternity.

### Bookmobile Sponsors

The High Plains Library Bookmobile is coming your way this summer with a reading program for all youngsters interested in joining the Texas Reading Club.

The reading program will be conducted from June 1, 1965 through August 1, 1965. A reading certificate from the Texas State Library will be awarded to each person who reads at least 12 books of his own choice and reading level.

If YOU are interested, PLEASE ask the Librarian on the Bookmobile for a Texas Reading Club Log to keep a record of the books you have read.

Visitors in the home of Mrs. B. N. Graham include Mr. and Mrs. Raymond Ross and David and Howard Graham.

# Foot-Rot Disease In Wheat

by Joe VanZandt

Foot-Rot has appeared in several Parmer County Wheat fields since May 20. The first indications farmers have noticed is that small spots in their fields are shorter than normal and wheat plants are either dead or dying in these spots before the rest of the field has ripened.

In our West Texas area foot-rot disease is caused by fungi. Although the disease often is not apparent until plants begin to die near maturity, the infection takes place at the time seedlings emerge in the fall. The fungi invades the roots, crown and base of the stalks of the plant. Roots are reduced or destroyed by the fungi.

Early season symptoms of foot-rot include stunting, non-thrifty plants, reduced seedling growth and extreme susceptibility to dry moisture conditions.

Near maturity, one or more tillers or entire plants are killed and appear as "white heads" throughout the field. Affected plants may occur singly, in small circular spots, or in large areas in the field. The base of each stem has a dark, rotted appearance as well as the roots.

Dead plants can be easily

pulled up while normal, healthy plants are hard to pull up. This is due to the fact that the roots have rotted in the foot-rot infected plants. What little grain there is in affected plants will be shriveled and will lower yields and test weight.

Control of foot-rot is difficult. Seed treatments with organic mercury compounds will help, but will not control the disease where foot-rot organisms are living on infected straw. Plow under straw as soon as possible so it will rot quickly. Infected fields should be summer fallowed.

Crop rotation with non-grass or broad leaf crops will be of some benefit. Cotton or soybeans would be good for the next crop to be grown on infected fields. These are recommended because they are a low residue, non-grass crop. Grain sorghum would not be a good crop to follow with but it would be better than planting wheat as the next crop. Only as a resort should wheat follow wheat on infected fields because the producer will certainly be inviting trouble from foot-rot.

There is no chemical or resistant variety or other dramatic practice to control the

Before using any pesticide, be familiar with the directions. If applying pesticides, know what pest needs controlling, find out what material will control it, and apply the correct amount at the right time.

foot-rot disease. Just follow some basic good farming practices of clean tillage and crop rotation as an aid to foot-rot control.

If anyone needs assistance with a foot-rot problem on a wheat field, contact the County Agricultural Agent, Joe VanZandt in Farwell.

Although foot-rot or root-rot in wheat is often not apparent until tillers and plants begin to die near maturity, the infection takes place at the time the seedlings emerge. County agricultural Agent Joe VanZandt examines one of the infected plants on the Grady Herington farm. Not the height of the infected plants which are scarcely knee high to VanZandt who is 5'10".

"This wheat (in right hand) (infected with foot rot) would have looked like this (non-infected)" said County Agricultural Agent Joe VanZandt as he stopped to examine some of the plants on the Grady Herington farm, where the wheat is heavily damaged by the foot-rot fungi this year. The infection in the plants did not become apparent until around May 20, says Agent VanZandt who explains that the disease is more prevalent when a field is seeded to wheat for several consecutive years.

Demonology is the study of evil spirits.

## Selective Insecticide For Use On Cotton Fields

A selective insecticide that distinguishes between good and bad insects will be used extensively this year to clobber fleahoppers and plant bugs when they invade cotton fields. Moreover, it does not harm the beneficial predators and parasites when used according to directions. This leaves the way clear for nature to destroy destructive pests.

Fleahopper and plant bug infestations are most common in the cotton belt when squaring begins. These pests puncture the squares and cause them to fall from the plants.

To protect the crop, growers frequently treat the infestations with a non-selective application. It kills the pests but also destroys the beneficial insects. Then, early and frequent treatments are needed.

By preserving the predators and parasites, the grower enlists nature's aid in fighting destructive pests. The beneficial insects, by feeding on and parasitizing eggs and larvae, delay the need to apply treatments to control the bollworm complex for as long

(Continued on page 3)

### On The Farm In Parmer County

By JOE VANZANDT  
County Agent

During the past week we have noticed several cotton fields that showed thrip damage. To get the most benefit from thrip control measures, insecticides should be applied at the first sign of thrip damage. Thrip damage on newly emerged cotton is characterized by wilted, wrinkled, blackened leaves and terminal growth. Silvering of the lower leaf is also a common sign. Heavy thrip infestations can delay plant maturity from a few days to a few weeks.

Insecticides recommended for thrip and fleahopper control are as follows: 1. Dieldrin DDT, 2. Guthion, 3. Strobane-DDT (2-1 mixture), 4. Sevin, 5. Toxaphene - DDT (2-1 mixture), 6. Heptachlor + DDT, 7. Endrin + DDT and 8. Bidrin. For more information on cotton insect control, come by the County Agent's office.

**WEEDS IN SORGHUM**  
Chemicals recommended for weed control in emerged sorghum are Atrazine and 2,4-D. Atrazine must be applied before weeds are 2 inches tall at the rate of 1 pound per treated acre plus a surfactant.

2,4-D can be used at the rate of 1/2 pound per acre to control broadleaf weeds once the sorghum is 6 inches tall but before flowering. Hybrids containing Wheatland parentage should not be treated with 2,4-D, because serious yield reductions and lodging may occur. Best and most profitable results will be obtained if weeds are treated before they are 6 inches tall.

All 2,4-D formulations may drift from the intended weed target. Movement of spray mist by wind during spray application can cause serious damage to sensitive crops such as cotton. Spray drift is minimized by using high gallonage (10-20 gpa) and low pressure (15-20 psi.). Volatilization is vaporization of 2,4-D from weeds or soil where it was applied. Once 2,4-D has volatilized, it may be blown to sensitive crops. Amine formulations are least volatile, followed by

acid, low volatile ester and high volatile ester formulations. Because of the possibility of drift and volatility, it is not advisable to use 2,4-D near cotton if other methods of weed control are available.

**CLEAN GRAIN STORAGE BINS**  
With Wheat harvest just around the corner, farmers who plan to store part of the crop themselves should get ready by cleaning up. Grain should be stored only in bins that have been cleaned thoroughly. Old grain, trash, feed sacks and other debris that furnish living quarters for insects should be removed. Sometimes it is necessary to "sweep down" the ceiling and walls and clean the floor to remove hidden waste. Cracks should be covered with builders molding or other suitable material to prevent grain from collecting. Grain and other material beneath and near the bins should be destroyed.

After the bin has been cleaned thoroughly, spray the inside surface with either methoxychlor or malathion (premium grade) in a 2 1/2 percent mixture at the rate of about 2 gallons per 1,000 square feet of surface area. Larger volumes of the spray mixture will be needed for spraying external areas.

Methoxychlor is available both as a wettable powder and an emulsifiable concentrate. To obtain a 2 1/2 percent mixture of this material, add 2 pounds of 50 percent wettable powder to 5 gallons of water or 1/2 gallon of 25 percent emulsifiable concentrate to 5 gallons of water. If malathion is used, mix 1.6 pints of 57 percent premium grade malathion emulsifiable concentrate to 5 gallons of water or 1 gallon of the concentrate to 25 gallons of water to obtain a 2 1/2 percent mixture.

Methoxychlor is available both as a wettable powder and an emulsifiable concentrate. To obtain a 2 1/2 percent mixture of this material, add 2 pounds of 50 percent wettable powder to 5 gallons of water or 1/2 gallon of 25 percent emulsifiable concentrate to 5 gallons of water. If malathion is used, mix 1.6 pints of 57 percent premium grade malathion emulsifiable concentrate to 5 gallons of water or 1 gallon of the concentrate to 25 gallons of water to obtain a 2 1/2 percent mixture.

For more information on control of insects in stored grain see your County Agent.

**WHEAT DISEASE**  
We have heard of about 15 farmers who have had some foot-rot show up in their wheat since about May 20.

If you have spots in your field that are stunted or shorter than normal and these places are dead now before the rest of your field is ripe, we suspect you have some foot-rot.

We would like for you to call the County Agent's office in Farwell, 481-3619 so we can determine just how wide spread this disease has hit this year.

On affected fields we recommend you turn your wheat stubble under as soon as possible leave it as lay-out ground for one or more seasons and do not plant wheat on it for 2 or 3 years, if you can plant a crop rotation system to allow this. If you can, plant cotton or soybeans as the next crop on affected fields.

**WHY PLANTS ACCUMULATE NITRATES**  
Most investigators have associated nitrate poisoning with plants that are grown in soils with a high nitrogen content; such as in areas that once were livestock pens, where the soil is rich, or where the soil has been fertilized. High nitrate in the soil will increase the amount of nitrate in growing plants. Also, when nitrogen alone is applied to soil the nitrogen in plants is higher than when nitrogen is applied in conjunction with phosphorus. Trace minerals in the soil may also have an effect on the accumulation of nitrate in plants. There has been no attempt to blame nitrate poisoning on the use of commercial fertilizer. Plants usually accumulate nitrate when there has been some stress on the plant, such as growing in the shade or on certain soil types, suffering from lack of moisture, or suffering from physical damage, such as being trampled or blown down during a storm. Nitrates are used to build proteins in the plant. The enzyme nitrate reductase is important in this building process and requires light to function. This may explain why nitrates accumulate more rapidly in shade or reduced light.

## 4-H Horse Show

The First Parmer County 4-H Horse Show will be held Saturday, June 12 in the Bovina Roping Arena. All entries are due in by 9:45 a. m. and the show is scheduled to start at 10:00 a. m.

"We expect around 40 members to participate in the Show" states Joe VanZandt, County Agricultural Agent. There are presently about 50 members enrolled with a Horse project and nine adult leaders have devoted a lot of time and energy to getting this 4-H Horse Program started.

This County Show will climax five months work by the leaders who have been responsible for this local Horse project. They are Jack Templar in Laz-budde; Pete Meason and Homer Linderman in Friona; Delbert Garner, Pike Jordan and Mitz Walling in Farwell; C. E. Trimble, Robert Read and Wendol Christian in Bovina.

The judge for the show is Herb Howell. Although there are no specific requirements for a 4-H Horse judge, Herb is an AQHA approved judge.

Entries in the 4-H Horse Show are limited to Parmer

**Better Diets Needed For Older People**

Better diets are needed for older citizens. Patsy Reynolds, Texas A&M University specialist in family life education, says that "overweight, inadequate diets and inappropriate use of extra vitamins" are some of the major diet problems of older people. Recent research, conducted by U. S. Department of Agriculture nutritionists in Rochester, N.Y., revealed that slightly less than half of the households interviewed had diets providing enough nutrients and calories to insure good health. Research in Texas indicates a similar situation, Miss Reynolds says. Many people believe that a full table insures good health -- and fail to make wise choices of foods necessary for a balanced diet adequate for their age and activity levels, the specialist adds. Approximately one-third of the persons interviewed -- including more women than men -- were overweight. They obviously consumed too many calories, while possibly neglecting other essential nutrients. Many senior citizen groups in Texas are working on programs to improve health of their members through better eating practices. If you'd like more information on the subject, contact your county home demonstration agent or your local Committee on Aging.

"HOW DOES YOUR GARDEN GROW?" Vicki Kaltwasser, 15, daughter of Mr. and Mrs. Walter Kaltwasser is in charge of the family vegetable garden. She has been raising a garden to supply the family with fresh vegetables for the past three summers. Favorites with the family are corn, English peas, radish, and green beans. Vicki is shown cleaning away bothersome weeds from the English pea vines. This is a fine way to get and keep a good tan, smiles Vicki.

The chicken is the world's most abundant kind of bird and its numbers approximate those of man -- around 3 billion.

**HAVE FUN! TOUR TEXAS THIS YEAR**

**Needed: 15,570 Home Economists Annually**

There's a critical shortage of home economics graduates -- and many jobs seeking them are unclaimed. About 15,570 home economists are needed each year to fill new or vacant positions in the United States, according to a report just issued by the Federal Extension Service of the U. S. Department of Agriculture. Opportunities for employment in home economics fields are tremendous, says Mrs. Florence W. Low, assistant director for home economics with the Agricultural Extension Service at Texas A&M University, who is immediate past president of the American Home Economics Association. She urges all agencies concerned to tell girls of these career opportunities and the challenging work. About 700 new home economists are needed each year to fill Extension positions alone, the report indicates. A total of 10,296 degrees were conferred in home economics in 1964. This represents 1.7 per cent of the total degrees conferred in all fields, the report reveals. Other report facts include: Recent estimates indicate 90,000 persons were employed in home economics occupations in 1962. Approximately 50,000 of these were teachers, 28,000 were dietitians, from 5,000 to 6,000 were with private business firms, and 5,000 in Co-operative Extension work. Beginning salaries for home economists are among the top for women. Only women in fields such as engineering, physics, chemistry, math and biological sciences tend to receive higher starting salaries. Fifth-eight per cent of the home economists in AHEA earn more than \$5,500 annually -- or \$600 more than the median full-time annual salary for women in professional and technical occupations in 1962, the report says.

**At Home In Parmer County**

By CRICKET B. TAYLOR  
County HD Agent

The tornado disaster in Hale Center should be a reminder to all of us of the need for more trained people in every County and community capable of rendering first-aid. A County Committee, headed by Mrs. J.D. Sanders of Friona, has made some contacts with the Doctors in Parmer County and discussed the possibility of teaching classes on self-help medical care. As yet nothing definite has been done. This has to have more support and concern of the people in Parmer County if it materializes. Counties all around us have carried on programs of "self-help and first-aid" in case of disasters. These people have the knowledge and information in case of need. If such a program is provided for people in Parmer County more interest must be shown, and People's willingness to spend some time organizing the program and taking training. When disaster strikes its too late. Mrs. Sanders and their Committee will welcome your help and interest. It has been said that "more people would be successful, if they were not so busy making a living," perhaps that's why interest in "survival in case of a disaster," is lagging behind -- we are too busy making a living.

erals so needed for vim and vitality. Really we may well "take our medicine", the enjoyable way by eating a wide variety of the green and yellow type of vegetables. Some times it may take a "change in attitude toward food in order to add some new foods to our diets that we are not accustomed to eating. In other words we must cultivate the taste for new foods. In early civilizations, celery, for instance was credited with high medicinal value. Some use it as a blood purifier. The Greeks cited celery's sedative effects. Today, celery seed oil is still used in sedatives. But most of us enjoy celery because it's so flavorful, so "eating good." The good supply of celery from Florida is in all markets now and there are so many varieties of uses for this, other than as an appetizer, that you may want to get out of a rut and try new dishes using this vegetable and others too. For Louisiana's famous creole cookery, especially in seafood sauces celery is a natural ingredient.

SCARE CROW --- One of the best ways to keep birds away from a garden is by using a scare crow, explains Mrs. Edmund Kitten as she displays some of the fine vegetables growing in her garden. Vegetables in the Kitten garden (for summer enjoyment and to store for winter use) include beets, lettuce, English peas, beans, radish and many others. Mrs. Kitten is a member of the Oklahoma Lane HD Club.

**Try This Technique For Better Time Management**

Here's a technique for better time management for homemakers. Train your other hand to become a full-fledged helper -- whether you are right-handed or left-handed, suggests Mrs. Wanda Meyer, Texas A&M University Extension Service home management specialist. Time and motion indicate that ambidexterity in some tasks can nearly double efficiency -- that is, it can cut work time almost in half. It takes practice, however, cautions Mrs. Meyer. The "secondary" hand may never become as efficient as the primary one -- but most adults who have any manual dexterity at all are capable of teaching it to help. Efficiency is developed in two ways. The first is in jobs requiring rhythmical motion -- where both hands can be doing the same thing at the same time. The second is in jobs requiring real elbow grease -- where one hand is normally used at a time so that the dominant hand is able to rest while the other takes over for a while. The first category, says Mrs. Meyer, includes such tasks as washing large mirrors or windows. Hold a sponge or cloth in each hand, dip each in thick soap or detergent suds or in a paste of fine scouring powder and water. Use both hands to coat the glass in rhythmical swirls. Then let both hands wield damp rinse cloths and dry polishing cloths until the glass sparkles. The same techniques apply to washing walls or any other large area. Chores which require energetic attention to smaller areas, such as polishing and waxing furniture, also can be adapted to the dual-hand technique. The Texas Forest Service was the first southern state to make extensive use of planes in detecting forest fires.

**Horse Show --**

(Continued from page 1) County 4-H members who have been participating in their local horse project group activities. Ribbons and rosettes will be awarded to the winners. In addition two free stud services will be given to the overall high point winner in the Junior and Senior division by Jess Walling, Bovina Quarter Horse breeder. Also members will be competing for the right to represent their County in the District Horse Show in Dumas on July 9, 10. Contestants in the District Show compete to earn the right to go to the State 4-H Horse Show. 4-H Horse Shows are one phase of an overall educational program to help teach youngsters Horsemanship. Members learn about breeding, feeding, training, management, use and judging horses as well as keeping records. The public is invited out Saturday to the Bovina Arena to see these boys and girls put their best efforts forward in a climax for several months hard work.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

## Hot Weather Hard On Hogs

Hogs, like humans, are affected by high temperatures. With the thermometer climbing toward summer levels, it is time to consider plans for keeping all classes of hogs cool and comfortable, says Donald Osbourn, assistant Extension animal husbandman, Texas A&M University.

The specialist notes there are several acceptable ways to cool different classes of hogs but few are better or more economical than a system which utilizes plastic pipe. He says it works well on hogs in the feedlot or on pasture.

He suggests the use of half-inch plastic pipe strung either on posts or through trees four feet above the ground. After the pipe has been placed, a small hole should be punched in the underside of the pipe with a straight pin at four to five feet intervals. Under pressure, these holes will produce a fine mist and will do a good job of cooling, he says.

Generally, he adds, the small amount of water required will not result in mud holes being formed. However, if mud should become a problem, Osbourn suggests moving the pipe to another location. Moving, he adds, can be done with little trouble.

Cotton Growers and other producer groups aren't buying the story that a direct payments program will keep cotton out of the loan.

According to Johnson, neither the House Agriculture Committee nor the Department of Agriculture is totally committed to the Cooley proposal and both remain open to suggestions. With this in mind, the Cotton Producers Legislative Committee, composed of representatives of producer organizations in seven of the top cotton producing states, are continuing to work with the Department. It is hoped that a proposal can be developed which would be satisfactory to growers and at the same time accomplish the Administration's stated objectives of reducing cost and cotton carry-over.

Johnson has just returned from House Agriculture Subcommittee hearings on H. R. 8149, the new cotton bill introduced by Senator Harold Cooley of North Carolina. The bill would give cotton producers a choice between a non-recourse loan at the current level or the market price plus a direct payment and would cut the minimum national cotton acreage allotment from 16 to 14 million acres. Producer groups are of the opinion that the loan-payments choice is merely a "gimmick" whereby they are being wooed to take the first step toward acceptance of direct payments.

In his further analysis of the producer consensus, Johnson said: "Producers feel that direct payments and reduced acreage would be the beginning of the end for commercial cotton production on a profitable basis, and they are unwavering in their opposition to such features in any cotton bill." Producer groups contend that no law Congress could pass which involved direct payments to farmers would be adequate to prevent severe limitations being placed on the amount of payment any one farmer could receive. This sooner or later would be done from the floor of Congress through the agricultural appropriations bill. Such limitations, they say, would stifle incentive, encourage the inefficient and ruin cotton's chances for lower production costs and greater markets.

"Without a chance to regain markets lost to foreign grown cotton and manmade fibers," Johnson stated, "United States cotton as a textile fiber would be a dead issue."

The philosophy of the Cooley Bill apparently is toward production below consumption. Carried to its logical conclusion this philosophy would snowball cotton down the hill to the bottom of the fiber market. Producer philosophy, on the other hand, calls for a cotton bill designed to increase consumption above production, leading to greater markets and eventually to increased acreage and better profits. "This was what producers had in mind when they supported the Agricultural Act of 1964 which made cotton available to our domestic mills at a more competitive price," Johnson says. And he pointed out that estimates of the increase in domestic cotton consumption during the 1964-65 marketing year range from 900,000 bales to 1.1 million, with the bill only in effect 10 months.

Asked about merchants and their attitude, Johnson quoted Gerald L. Dearing, well known columnist on cotton. "The cotton shippers and the futures brokers have been won into an alliance with the Freeman forces in the hope that such a

Flower Garden -- Not only does Mrs. Kitten grow many fine vegetables for the family table but she also has one of the most beautiful yards in the vicinity. She pauses many times in her busy schedule each day to enjoy the array of beautiful colors displayed by the flowers and to enjoy the fragrance wafted on the breeze from the rose garden.

**Insecticide--**  
(Continued from page 1)

as 35 to 40 days.

Some growers, who used the selective insecticide, Dylox, reported that no bollworm applications were required all season long.

In general, many growers who used Dylox, reported that fewer insecticide applications were needed throughout the season because the predators and parasites were allowed to build-up and help keep the cotton clean.

Entomologists caution that no chemical should be applied until field checks show that treatment is necessary.
