# Coronation Of Susan White, David Duncan Highlights Show

DAVID DUNCAN      SUSAN WHITE

Highlighting the annual Wolverine Variety Show at the Texico school on Thursday evening was the coronation of Susan White, daughter of Mr. and Mrs. Murray White as "Most Beautiful Girl" and David Duncan, son of Mr. and Mrs. P.M. Duncan as "Most Handsome Boy" in the high school.

The two were chosen by an impartial judge on the basis of pictures submitted to the judges. First runnersup in the contest were Joy Chumley and Jim Hill and second runnersup were Cynthia Spence and Joe Patterson.

At close of the variety show

the school annual "Wolverine" was presented. The annual featured a western theme with division pages marked with pictures of individuals in the school and western quotations.

The annual was dedicated to the memory of Larry Dale Martin, a student in the Junior class at time of his death last summer. Mrs. Zelfa Younger, elementary principal and Jim Pierce, high school principal are honored by having the book dedicated to them for their assistance to all students in the school. "I meet 230 challenges each day - they all look to me for leadership and they deserve the best I can give them" said Mrs. Younger.

Pierce said "The greatest challenge that I have as a principal is to see that each student learns to his capacity, and is educated in such a way that he or she may become a worthy citizen of our country.

Personalities pictured on the pages are: Homecoming royalty Joy Chumley and Mike Spearman; Miss Blabbermouth-Kathy Stone and Mr. Ugly-Joe Holland; best all around students-David Duncan and Joe Patterson; most popular-Mike Spearman, Joy Chumley, Peggy Hughes and Kathy White. Band sweetheart-Pam Roberts.

Best sport - Neil Lambert; Who's Who - Joe Patterson, physics, mathematics and English; Lynelle Ingram and Mike Spearman - typing; Leslie Harrelson and Susan White-biology; David Duncan - agriculture, and mathematics, Susan White, mathematics, English; Cynthia Spence, bookkeeping and shorthand; Gwinette Lovett-English and speech; Kathy White, chorus and home economics; Sarah Walker - home economics and English; Jill Billington-social science, Peggy Hughes and Veda Wilson-journalism.

Miss Walker was named as DAR Pilgrim and also as Betty Crocker Homemaker - she is also valedictorian of the senior class.

Class favorites listed are: Seniors: Cynthia Spence and Mike Spearman; juniors - Peggy Hughes and Gary Meier; sophomores - Kathy Stone and Donnie Morris; freshmen - Coy Ethridge and Debra Sims, also Linda Rundell and Rickey Stanley.

Eighth grade favorites are Roxie Laceywell and George Rickstrew; seventh grade - Jan Chumley and Ray Ethridge; sixth grade - Link Laceywell and Patricia Smith; fifth grade - Judy Martin and Johnny Ethridge; fourth grade - Kim Pearce and Dub Hayes; third grade - Regina Kelley, Craig Chumley, Kent Armstrong and

Diane Luce; second grade - David Turnbough, Elizabeth Pierce, Gary Green, Rickey Hendrix, Sherry Hammond and Max Winkles. Listed as first grade favorites were Debra Hendrix, Spencer Turner, Valeria Fitz and Gary Barnes.

Also pictured in the annual were FHA Prince Charming-Jimmy Hill and FFA Sweetheart - Susan White; Best personality - Mickey Lofton and Cynthia Spence and Boy and Girl state delegates - Kathy White, Sarah Walker, Mickey Lofton and Mike Spearman.

In looking through the pages of the annual students are able to say with a real meaning; Out where the handclasp's a little stronger

Out where the smile lasts a little longer, That's where the west begins. Out where the sun shines a little brighter, Where the bonds of home are a wee bit tighter, That's where the west begins.

The annual was edited by Dorothy Hapke and David Chapell under sponsorship of Mrs. Jimmie Allman, journalism teacher.

Ernest Kube, Former Resident Dies Suddenly

Ernest C. Kube, 52, former resident of the Farwell-Lariat area for 45 years died suddenly in Springfield, Missouri hospital on Thursday evening. Final rites were conducted from the Immanuel Lutheran Church in Clovis on Sunday afternoon, with Rev. Henry L. Schaefer, pastor officiating. Burial was in Mission Garden of Memories under direction of Steed Funeral Home.

Mr. Kube moved to Carthage, Mo. in February. He was stricken ill while visiting in the home of a nephew, Fred Ramm, near Carthage on April 23. At that time he spent one night in the McCune - Brooks hospital and one week later he entered the Springfield hospital for tests and brain surgery. Later he was taken to St. Louis for further tests and observation.

However, his condition was apparently satisfactory and he had been returned to Springfield on Thursday. He died that night from an apparent heart attack.

Born March 21, 1913 in Texas Mr. Kube had spent most his entire life in that state until moving to Carthage. He was a farmer and cattleman, and re-

## SCHEDULE RELEASED--

# 129 Boys Out For Little League Ball

One hundred and twenty nine boys are out for the eight Little League ball teams which are scheduled to begin play on May 24 at 7 p.m., at which time a game is scheduled between Farwell J.C.'s and Gifford Hill to be followed by a game between Aldridge Lions and Worley Red Tops.

The four Pee Wee teams are being sponsored by Gifford-Hill, Farwell Jaycees, Piggly Wiggly and Citizen's Bank (Texico). Teams in the Intermediate bracket are being sponsored by Shirley Anderson Pitman, Kelly Green Seed, Aldridge Insurance and Worley Grain.

Rules for play have been set and players and coaches must abide by the set of rules which follow:

TEXICO - FARWELL  
LITTLE LEAGUE RULES  
Age: Pee Wee 7-10-Intermediate 11-13 (league birthday Aug. 1)  
Game Time: Pee Wee games will start at 7:00 p.m. with no inning starting after 7:50 p.m. (exception tie game)

Intermediate games will start 15 min. after completion of

Pee Wee game, giving each team 7 min. for infield practice. Intermediate games will not start a top half of inning after 1 hour and 15 min. of playing time (except tie games)

Pitchers - Each pitcher will be allowed to pitch six (6) innings per week in regular season games.

Once a pitcher is removed from the mound he cannot return to the mound for any reason. All other players may leave the game and re-enter once.

Runner cannot leave base until ball reaches batter, if so runner will be called out.

Runner cannot steal home from base or score on passed ball.

No player shall wear metal cleats.

All team members present must play. Penalties forfeit of game.

No player shall be traded once player is assigned to a team. Each team will furnish a game ball.

The dropping of a player shall be decided upon by all coaches.

Any extra players after season starts will go to the team with the smallest number of players. If teams are equal in number the player will be drawn for.

Relatives will stay together. All base runners and the batter shall wear head guards.

All players are encouraged to be in full uniform including caps.

Little league regulation bats will be used.

No arguing on playing field. If protest occurs, active umpires will get together with coaches and settle protest before game proceeds.

Teams must start game with full number of players.

If either team is not ready to play 5 min. after starting time game will be forfeited, unless due reason.

The pitcher cannot balk.

No coach may occupy the coaching boxes.

Boys must be in dugout. No ten run rule.

34d base dugout in home side. (other than the above regular rules will apply)

All games are scheduled for Monday and Tuesday nights and Thursday and Friday nights.

Members of the Farwell J.C.'s team and their coaches are: Fred Chandler and Vernon Scott - coaches; Michael Goetsch, Randy Stovall, Sammy West, Billy Payton, Tommy Galvin, Monty Jones, Curtiss Lindley, David Danheim, Albert Galvin, Ronald Steele, David Garza, Leslie Breeding, Kelly Norrod, L. D. Hender-

son, Clifton Henderson, Paul Thornton, Gary Doyle Green and Dwight Green.

June 15 - Piggly Wiggly and Citizen's Bank 7 p.m. Kelly Green Comets and Sherley - Anderson - Pitman Jets

June 17 - Citizen's Bank and Farwell J.C.'s 7 p.m. Sherley - Anderson - Pitman Jets and Aldridge Lions

June 18 - Gifford Hill and Piggly Wiggly 7 p.m. Worley Red Tops and Kelly Green Comets

June 31 - Farwell J.C.'s and Piggly Wiggly 7 p.m. Aldridge Lions and Kelly Green Comets

June 22 - Gifford Hill and Citizen's Bank 7 p.m. Worley Red Tops and Sherley Anderson - Pitman Jets.

## Gladys Johnson Services Held Wednesday

Funeral services were conducted for Mrs. Russell (Gladys) Johnson 58, from the Farwell Church of Christ on Wednesday afternoon at 3 p.m. Paul Wilkinson, minister of the local church officiated, assisted by Rev. C.C. Morgan, pastor of Forrest Heights Baptist Church in Clovis and close family friend. Interment was in Texico Cemetery under direction of Steed Funeral Home.

MRS. RUSSELL JOHNSON

Mrs. Johnson, who was born June 17, 1906 lived in the Texico community all of her life. She was the daughter of T.J. Randol and his late wife, Ellen. Mrs. Johnson attended school at Locust Grove and Texico. She was married to Russell Johnson on July 27, 1924.

Mrs. Johnson was a member of the Farwell Church of Christ. She was also active in civic clubs for many years and prior to her illness was serving as president of the Texico Firemen's Auxiliary. She became ill in December and had been hospitalized much of the time since January. She passed away on Monday, May 17.

Survivors include her husband, Russell, three sons, Billie Joe, Texico, Jerry, Canadian; Charles Don, Stillwater, Okla.; two daughters, Mrs. Delphine Dykes, Amarillo and Mrs. Gloria Hesser, Stillwater, Okla., her father, T.J. Randol, Texico, two brothers, EbbRandol, Farwell and Sam Randol, Clovis. Also 11 grandchildren and numerous nieces and nephews and a host of friends.

Serving as active pallbearers were V.C. Venable, Stan-ton Thigpen, Otis Huggins, W. T. Meeks, Raymond Jesko and John Wesley Engram. Honorary pallbearers were John Adams, Claude Curry, Truman Doolittle, Olan Schlueter, LeRoy Faville and Claude Rose.

## New Baptist Pastor Arrives At Okla. Lane

The Rev. Wayne W. Baldwin arrived at Oklahoma Lane recently to assume duties as pastor of the Oklahoma Lane Baptist church. A native of Brady, Rev. Baldwin moved here from Eola, where he had served as pastor of the Baptist church.

The Rev. Baldwin has been preaching since 1951 but it was not until 1957 that he held his first full time charge. Before moving to Eola he pastored churches at Salt Gap in McCullough county, at DeLeon in Comanche county and also at Hamby in Taylor county. He is a graduate of Howard Payne College.

Rev. Baldwin will be assisted in the work at Oklahoma Lane by his wife, the former Norma Ann Booher. She also attended Howard Payne College. The Baldwins are parents of three daughters, Gwina seven, a first grade student at Farwell; Janet five, who will begin school in the fall, and Sandra six months.

The Oklahoma Lane church had been without the services of a pastor since October when Rev. Carl Coffey resigned.

REV. WAYNE BALDWIN

## Methodist Set VBS Dates

Vacation Church school at the Hamlin Memorial Methodist Church will begin on May 24 and continue for a week. Classes will be held each day from 9 - 11:30 a.m. for all groups kindergarten through sixth grade.

Superintendent of the school will be Mrs. Glenn Phillips. Assisting in the school as teachers are Mrs. Ted Magness, Mrs. W.C. Strickland, Mrs. A.D. Kirk, Mrs. Joel White, Mrs. W.T. Magness, Mrs. Bill Whitesides, Mrs. Ted Horner and Mrs. Elmer Teel.

Children of all churches are invited to attend the classes.

## Graveside Rites For Moseley Infant

Graveside rites were held for the infant daughter of Mr. and Mrs. Hugh Moseley on Friday at Sunset Memorial Terrace Cemetery with the Rev. J. L. Bass pastor of Farwell Methodist Church officiating. Claborn Funeral Home was in charge of arrangements.

Besides the parents other survivors are the grandparents Mr. and Mrs. David Moseley, Friona, and Mr. and Mrs. M. A. Snider Sr., Farwell.

Arlon Lovelace of Santa Fe, brother of Sheriff Charlie Lovelace, Woodrow Lovelace and John Lovelace, who suffered a heart attack on Friday night is showing some improvement at this time. He was listed as critical for several days.

SCHOLARSHIP AWARD WINNERS -- back row Cynthia Spence, Ronnie Richardson, Tom Rickstrew and Kathy White. Front row: Gwinette Lovett and Sarah Walker. Misses Spence, White, Walker and Lovett each received scholarships to Lubbock Christian College and Miss White also received a scholarship to ENMU for one year. Rickstrew is recipient of the tuition scholarship from the Texico Woman's Club and Richardson received the award from the Honor Society. Recipient of the honor society award goes annually to the person who even though not a member of the society maintains high scholastic averages and shows qualities of leadership.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

The award was presented for her outstanding work in band. Tommy Mayfield, band instructor presented the award at the band concert on Tuesday evening.

## Letter To The Editor

Dear Sir:  
 I am trying to locate an aunt of mine who was reported living in your area several years ago. It has been many years since I last saw her. At that time we were living in Oklahoma and I was only a child and she was a widow.

Her maiden name was Allifair Johnson, her first husband was Jim McGee. She had several grown children and three were still at home. These were Bill, Wayne, and Lionel.

Aunt Allie remarried several years ago and moved to your area. However, I don't know her married name. If you could have this printed in your paper, or could help me in any other way I would be grateful.

Sincerely,  
 Mrs. Charlotte Green  
 605 Kaye Ave  
 Borger, Texas

## Kube Rites--

(Continued from page 1)

ained his property in Farmer county upon moving to Missouri. He was a member of the Faith Lutheran Church in Carthage. Prior to moving to Carthage he was an active member of the Immanuel Lutheran Church in Clovis.

Surviving Mr. Kube are his wife, Eleanor, two daughters, Mrs. Don Jones, Carthage, Bobby Kaye Kube, Stephens College, Columbia, Mo., his mother, Mrs. Mary Kube, Farwell, two sisters, Mrs. Ed Ramm, Farwell and Mrs. Wilbert Zoch, Clovis, five brothers, Ben Kube and Rudolph Kube, both of Farwell, Ludwig Kube, Borger, Walter Kube, Copper's Cove and Albert Kube, Muleshoe; and a grandson, Marty Javon Jones.

Palbearers were nephews Don Gerles, Herman Gerles, Martin Kube, Clarence Kube, Ernest Ramm and James Cleveland. Honorary palbearers were G.D. Anderson, John Guthals, Adolph Guthals, James Griffin, W.B. LeVeque, Gilbert Kaltwasser, Boone Allison and Fred Townsend.

## Important Decisions Discussed By Baccalaureate Speaker

Members of the Texico senior class were told by Dr. Stanley Letcher Jr., baccalaureate speaker on Sunday night that the second most important decision you will ever make is, "What will I do with my life?" The most important decision he emphasized is to make the decision to let Christ be the center of one's life.

Susan White played both the processional and recessional and graduate escorts, from the junior class, were Darlene and Marlene Bell. Ushers, also from the junior class, were Jim Hill and David Duncan. The high school chorus under direction of Gerald Tiffin, music director, presented two numbers "Let Every Tongue Adore Thee" and "Love of God". Invocation was said by Rev. Leroy Looper and Rev. Robert Hutsell pronounced the benediction.

Speaker for the Commencement will be Dr. W. E. Baldwin, ENMU professor in psychology.

## Lazbuddie Awards Assembly

Numerous awards were presented to students in the Lazbuddie High School on May 14, in a special awards assembly. Recognized as Mr. and Miss School Spirit were Charlotte Seaton and Lewis Seaton; Best all around - Johnnie Beth Ivy and Hoppy Jennings; Dramatics award - Donna Precure; social science - Marsha Aduddell and Jan Nowell; and Biology - Sherry Robinson.

## State FFA Prexy Visits Farwell Chapter

The Texas State FFA president, Calvin Brints, Crosbyton, visited the Farwell FFA Chapter on Tuesday. He spoke to members of the chapter and members of the FHA chapter on "The Responsibilities of High School Students." Brints, a high school graduate, is trying to visit each of the FFA Chapters in Texas before his tenure in office is over, at time of the 1965 state convention. His expenses are paid by dues paid by FFA members to the local chapter.

## Vacation Begins In Texico Farwell Schools

Shouts of joy were heard this week as students in both the Texico and Farwell schools began their summer vacations. School will reconvene in both of the schools late in August.

According to Superintendent W. M. Roberts, Farwell elementary students received their grade cards on Wednesday. dents will have their cards mailed to them within the next few days, Roberts stated.

Most of the last day of school in Farwell was taken up with special assembly programs at which awards were made to students in various areas of study, as well as athletic letters and attendance awards passed out. Texico students will be dismissed today (Thursday) at 2:30 p. m., according to Supt. A. D. McDonald. The seniors in the school completed work on Monday. Tests will be completed by all other students by the Thursday dismissal date. Cards will be mailed to all junior high and high school students within the next few days, according to the school secretary, Mrs. Coleen Aze.

## Teacher Resignation Accepted

At the last meeting of the Texico Board of Education the resignation of Mrs. Lillian Jones was accepted. Mrs. Jones has been teaching Spanish, English and American History. Previously resignations had been accepted from Gerald Tiffin, band director and Billy Bratton, math instructor.

Other personnel for the school, including the lunchroom staff, Mrs. A. D. Bell, Mrs. Mabel Huber, Mrs. Nora Day, Mrs. Sam Hukill; custodians A. B. Bell, Ernest Cain, Walter Curd and Mrs. R. E. Crooks had their contracts renewed. Also hired at the meeting were bus drivers.

## 26 Receive Athletic Letters At Texico

Numerous awards were presented at the Texico Awards Assembly on Wednesday, among which were 26 athletic letters, five scholastic letters and three music letters. In addition five seniors received scholarship awards and one senior received a gift from the Honor society for his high standards (morally and in scholastic ability). Recipients of the scholastic letters were Susan White, Kathy White, Cynthia Spence, Joe Patterson and Sarah Walker. Recipients of the scholastic letters must have maintained a grade average of 92 for the entire year.

Recipients of the music letters were Kathy White, Susan White and Terry Lovett. Susan White received not only the scholastic letter and the music letter but also a letter in athletics. Recipients of two letters were Joe Patterson, who received in addition to the scholastic letter one in athletics and Kathy White. Recipients of the scholarship awards were Cynthia Spence, Sarah Walker, Tom Rickstrew, Kathy White and Gwinette Lovett. Ronnie Richardson was recipient of the honor society award.

### Leon Jamison Receives BBA Degree From WTSU

Leon Jameson, son of Mr. and Mrs. Vernon Jameson of Lariat will graduate from West Texas State University with a BBA degree, with a major in Marketing at the May 23, Commencement exercises.

While attending college Jamison served as president of Alpha Kappa Psi, national business fraternity, and as a member of Isota Epsilon, a business club. Jamison graduated from Farwell High School in 1958, following which he served three years with the United States Army, entering WTSU after being discharged.

After graduation, Jamison and his wife, the former Wilma Norton and their two and one half year old son, Jason, will be at home in Plainview, where Jamison will be employed by the Paymaster Seed Company.

### Former Resident To Graduate

William Henry Hardwick is a member of the graduating class at Fort Stockton High School, and will participate in commencement there May 28.

### Local People Win Flower Show Awards

Mrs. John Tadlock and Mrs. Orris Eshleman, local members of the Redbud Garden Club of Clovis were award winners at the Clovis Council of Garden Clubs Flower show, held in Clovis on Friday. The show was held at the Clovis Youth center. Mrs. Tadlock was winner of the Sweepstakes in the horticulture division and Mrs. Eshleman won the coveted (top award) Award of Distinction and the Tri-color arrangement. Other winners were Mrs. Jimmy Alexander in the artistic division and Mrs. Guy Hocken-hull award of merit. Mrs. Alexander is a member of the Century Garden Club at the Air Base. Mrs. Hocken-hull is also a member of the Redbud club. Five clubs participated in the flower show.

FHA OFFICERS -- (left to right) Kathryn Gober, reporter; Alicia Bourlon, historian; Brenda Cathey, parliamentarian; Sherry Bass, treasurer; Judy McGill, vice-president; Janis Billingsley, president; Lana Mahaney, secretary; Joyce Bass, song leader; Diane Lovelace, pianist.

### FHA Installs Officers For 1965-66

Mikala Austin, outgoing president of the Farwell chapter of Future Homemakers Association (FHA) installed incoming officers in a formal installation service on Monday night at the Homemaking Cottage.

Members of the FHA and their instructor, Mrs. Margie Balestri were in attendance. New officers for the year include Janis Billingsley, president, Judy McGill, vice-president, Sherry Bass-treasurer, Brenda Cathey, parliamentarian, Lana Mahaney, secretary, Joyce Bass, song leader, Diane Lovelace, pianist, Alicia Bourlon, historian, and Kathryn Gober, reporter.

Named as Girl of the Year by the FHA Chapter is Judy McGill. Mikala Austin is Outstanding Girl in Home Economics for the year. Miss McGill was selected on the point system (points based on work accomplished) and Miss Austin was selected on basis of her grade average.

The chapter will meet during the summer (dates to be announced late).

MIKALA AUSTIN, OUTSTANDING GIRL

JUDY MEGILL, GIRL OF THE YEAR

### Works With Invincibles

Mary Coffey, daughter of Mr. and Mrs. Claude Coffey who is graduating from high school this week will spend the summer (10 weeks) working with the Invincibles of the Llanos Alto Baptist Association. She will work in Vacation

Church schools in the Southern Baptist Association. On June 8-10 she will be in Ft. Worth to attend a training school for workers in the group. Working with Miss Coffey will be Linda Grusendorf from Enochs.

### Mrs. Crume Presented At Founders Day Tea

Special guests at a Founder's Day Tea for ESA in the home of Mrs. Joe Helton on Sunday afternoon were mothers, mothers in law and grandmothers of members.

Mrs. Joel Tankersley president, welcomed the guests and told something of the work of the organization during the past year. Mrs. W.H. Graham was master of ceremonies for a program "Reflections on ESA through the Years 1929-1965."

Appearing on the program were Mrs. Mitz Walling, Mrs. Don Williams, Mrs. Bobby Joe Crume, Dena Williams and Hal Graham. Mrs. Rosa Roberts presented the Outstanding Girl Award to Mrs. Bobby Joe Crume for her fine work and her unselfishness in giving assistance where needed.

Mrs. Crume will be 1965-66 president of the organization. Mrs. Roberts also presented a gift to Mrs. Tankersley, outgoing president. Mrs. Joe Helton presented a gift to Mrs. Roberts Educational Director of the organization.

Each member introduced her guests and small remembrances were presented to each. Table decorations featured the ESA flower, the Jonquill and the color, gold, with blue accents. Angel slices and straw-erry punch were served with mints and nuts, by Mrs. Tankersley and Mrs. Troy Christian.

### Gas Users Plan New Supply Source

Plainview -- At the regular meeting of the board of directors of Plains Irrigation Gas Users Association, W. T. Miller, Bailey County farmer, was elected president for the 1965 term. Clayton Enger of Lubbock County became the new vice-president and Tom Robinson of Deaf Smith County, the secretary-treasurer.

W. L. Edelman, president of the Plains Gas Farmers Cooperative, was present at the meeting and reported to the Board that the Cooperative south of Black in Farmer County, would begin purchasing irrigation gas in June from a new source of supply, Transwestern Pipeline Company, for about eighty-five irrigation wells under a permit from the Federal Power Commission. The gas will be purchased at a flat rate of 26 1/2 cents per Mcf, which, according to Edelman, should save most farmers in excess of one-third in the cost of irrigation gas.

A report was made by E. K. Angeley and others of a conference with officials of El Paso Natural Gas Company in El Paso on May 5, looking into the possibility of buying irrigation gas from El Paso Natural Gas Company. It was reported that El Paso advised that if gas were bought directly from them by a qualified group of farmers, the price for such gas would be 23.1 cents per Mcf.

The group of farmers on the Lamb-Bailey County line could purchase the gas directly from El Paso without laying any additional line because the farmers' line now ties directly into the El Paso main. This will permit farmers to buy gas for not much in excess of one-half of the present cost.

### Barry McCuan In Dominican Republic

Word was received in Farwell late last week that Army Pvt. Barry McCuan, son of Mr. and Mrs. Dale McCuan is among the paratroopers from the 82nd Airborne Division who have been dispatched to the Dominican Republic to aid in protecting lives of Americans and other foreign nationals.

McCuan, who is regularly stationed at Fort Bragg, N.C. as a radio operator, landed at San Isidro Base, near Santo Domingo, to assist with reinforcing other American military personnel already in the country. The 19 year old soldier entered the Army in July 1964. He is a 1963 graduate of Farwell High School and attended Texas Tech.

### Burglars Successful In Second Attempt

The would be burglars who had tried on previous occasions to break into the Holiday Store in Farwell were finally successful on Friday night when they gained entrance by breaking open the front door. Only thing taken in the burglary was a \$5,00 bill, which belonged to the daughter of the store owner. The door was damaged to some extent.

A previous attempt had been made to gain entry on Wednesday night. The thieves tried at that time to gain entry by going through the roof of the building. The attempt was not made known until the Thursday rains, when the roof began to leak. No one has been apprehended at this time. However, officers are checking out clues.

### Carriers To Distribute Survey Cards

Postmaster Jim R. Smart of the Farwell post office reminds rural patrons to be on the lookout for June Livestock Survey cards. Beginning, next week carriers will leave survey cards in a sample of boxes along their routes.

USDA bases livestock and poultry estimates on replies to this survey, Smart explains. "It is important for everyone along the route who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carrier assisting with the survey is Lee E. Meeks on Route 1. Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician, Austin. After adding and analyzing these cards, USDA is able to estimate the milk production, calf crops, lamb and wool and the number of hens.

Information from this will guide livestock and producers in making important business decisions, Smart concludes.

### Apprehended In Break In

Three young airmen from Cannon Air Force Base were apprehended early this week and charged with the April 25 break in and entry of Magness Real Estate and Barber Shop. The trio were apprehended when a typewriter, bearing the serial number of one taken in the burglary was located at Ace Pawn Shop in Clovis. Several other articles taken at time of the break in were also located. A Curry County burglary was also solved with the arrest of the young airmen.

In custody of Parmer county officers are Timothy Butcher, 18, Dennis Ferguson, 18 and William Trunnell, 21. An RCA record player missing from Cannon Air Force Base was located in a field near Bovina on Tuesday afternoon. Officers are looking for a colored male who was seen near the scene where the record player was found.

### Notice of the Names of Persons Appearing as the Owners of Unclaimed Amounts Held By:

## Farewell Tea Honors Mrs. Loyd (Elsie) Cain

Mrs. Loyd (Elsie) Cain, a teacher in the Farwell school system for 21 years was honored for a farewell tea on Sunday afternoon. The social was held in the banquet room at Cathey's Restaurant from 4-6 p. m.

Some 90 persons called during the receiving hours, to wish "God Speed" to Mrs. Cain who is leaving at the end of the present school term to join her husband in Borger, where he is Santa Fe Agent. She was presented with a Grand Baroque Silver tray bearing the inscription "21 Years of Service". Hostesses presented Mrs. Cain with a corsage of blue and white flowers. Receiving guests with Mrs. Cain were her husband, Loyd, and her son and daughter-in-law, Mr. and Mrs. Loyd A. Cain Jr., Clovis.

Hostesses alternated at the serving table and the guest register. Cake was served with coffee or punch, mints and nuts from a table laid with white, centered by an arrangement of blue and white spring flowers, to which a streamer bearing the inscription 21 years service was attached.

Hostesses for the social were Mesdames Darrell Norton, Glenn Phillips, Billy Watts, Elmer Hargrove, M. A. Snider Jr., Jack Williams, Johnnie Rundell, Claude Coffey, John Lovelace, R. W. Anderson, Dale McCuan, Don Williams, Alvin Mace, Len-ton Pool, Bobby Hart, Joel White and Bunk Phillips.

21 YEARS OF FAITHFUL SERVICE -- Mrs. Loyd A. Cain first grade teacher was presented with a silver Baroque tray bearing the inscription "21 years of Faithful Service" at the tea in her honor on Sunday afternoon. She is leaving at the close of the present school term to make her home in Borger, where her husband is Santa Fe Agent.

Also Mesdames Harry Sheets, Donald Watkins, John McFarland, Bert Williams, Gene Hardage, James Norton, Willie Williams, A. D. Kirk, Mitz Walling, Lee Meeks, Lester Norton, W. T. Magness

and Margaret Kennedy and C. C. Christian.

Many of the hostesses had attended school in Mrs. Cain's classes or had children begin their schooling in her first grade room.

## Visit In Ima And House

Rev. and Mrs. Harvey Hudnall were in Ima on Sunday where Rev. Hudnall brought the morning message at the Baptist church. During the afternoon they visited with several persons in the area including Mrs. W. H. Wharten, Mrs. Martha Raper, Mr. and Mrs. Emmitt Morrow and family.

They were supper guests in the home of Mr. and Mrs. Russell Harmon at House. The Rev. Hudnall was guest speaker at the House Baccalaureate services on Sunday evening.

## Senior Girls Honored At Coffee

Seven girls from the Farwell senior class were honored with a coffee in the home of Mrs. Joel Tankersley on Saturday morning. Guests for the social were mothers of the honorees.

The girls heard a short devotional by Mrs. Roy Lovett, president WMU after which they spent the morning in informal visiting.

Punch or coffee was served with cake from a beautifully appointed table. Centering the table was a small arrangement of spring flowers. Milk glass and silver table appointments were used.

Attending the social were Peggy Eason, Peggy Martin, Mary Coffey, Linda Langston and Donna Dunn, honorees. Mesdames Claude Coffey, R. T. Langston, Otis Huggins, Raymond Martin, Ralph Franse, Roy Lovett, J. L. Bass, Jim Moss, Bert Williams, and Miss Joyce Bass.

APPROACHING MARRIAGE -- Mrs. W. W. Hagler, Texico announces the approaching marriage of her daughter, Cynthia Spence to Vernon Thigpen, son of Mr. and Mrs. F. S. Thigpen also of Texico. The wedding will take place at the Texico First Baptist Church at 7 p. m. (CST) on June 25. Friends and relatives are invited to the wedding and reception.

## Children Host End Of School Party

Carolyn and Rodney Herington, children of Mr. and Mrs. L. C. Herington were host and hostess to 25 of their friends on Friday evening for an "End of School Party."

Games were played after which guests were treated to wiener roast. Hot dogs, soft drinks and picnic foods were enjoyed.

ENGAGEMENT ANNOUNCED -- Mr. and Mrs. L. L. Childs, Muleshoe, announce the engagement and approaching marriage of their daughter, Charlotte to Roy Donaldson, son of Mr. and Mrs. Sterling Donaldson of the Oklahoma Lane Community. Friends and relatives are invited to the 7 p. m., June 12 wedding at the First Baptist Church in Muleshoe. Miss Childs is a 1964 graduate of Muleshoe High School and is employed by the Soil Conservation Office in Muleshoe. Her fiance is a 1964 graduate of Farwell High School. He is attending Wayland College.

## Officers Elected By Modern Homemakers

Officers for the Modern Homemakers Club of Texico were elected at the Tuesday morning meeting of the club in the home of Mrs. John Hill. Roll call was answered with each member relating her plans for the summer.

Officers for the coming year are president; Mrs. Roy Rickstrew; vice - president - Mrs. Elmer Teel, secretary - Mrs. Perry Winkles, treasurer - Mrs. Paul Skaggs, 4-H club committee - Mrs. Elward Combs, historian - Mrs. Loren Wilson. Officers will be installed at the next meeting. Mrs. Jim Hughes received the hostess gift. During the social hour an anniversary party was held with secret pals revealed. Names were drawn for the coming year.

Attending were Mesdames Hill, C.H. Webb, Joe Camp, W. E. Martin, Elward Combs, Edie West, Roy Rickstrew, Elmer Teel and Jim Hughes.

## FTA Banquet Features Dropout Theme

Approximately 35 persons were in attendance at the FTA (Future Teachers of America) banquet on Thursday evening. A "Dropout" theme was chosen for the decorative motif, with decorations featuring footprints leading up the wall to the word "SUCCESS" and down the wall to the word "FAILURE." Place mats were made from burlap bags and attendants were seated on pillows on the floor for the program.

The room was lighted by candles in tin can holders. Featured on the menu were chopped gopher gizzards (steak), watercress salad (tossed salad), splattered potatoes (French fries), liquid quicksand (tea) and raspberry longcake (strawberry shortcake).

The boys quintet (Jerry Field, Bobby Field, Johnny Schell, Warren Gossett, Larry Donaldson) accompanied by Zelda Donaldson provided musical enter-

tainment. FTA members Diane Lovelace, Teresa Quicquel, Becky Strain, Jackie Gast, Patty Tatum and Lana Mahaney presented a skit featuring the "Dropout" theme.

Special guests were elementary teachers, Mesdames Lauretta Pool, Hattie Boling, Margaret Kennedy, Janice Vines, Mary Whitley and Miller, Mrs. A. C. Clarke is sponsor of the group.

## Linda Phillips Is Honoree At Dinner

Linda Phillips was honoree at a dinner party in the home of her aunt, Mrs. Glenn Phillips on Saturday. Several members of the senior class were guests. Decorations featured the graduation theme. Centering the buffet was "The Wise Old Owl" wearing a graduation cap. Centering the individual tables arrangements of blue and white daisies, (school colors). Nut cups were inverted graduation caps of white with blue tassels. The honoree was presented with a corsage of white stephanotis and blue daisies. Featured on the menu were smoked turkey, potato salad, congealed salad, asparagus au gratin, hot rolls, butter, minted tea and cherry tarts.

Guests attending the social were Mikala Austin, Phyllis Christian, Sherry Billingsley, Carolyn Lindop, Donna Rundell, Peggy Martin, Gilda Cathey and the honoree Linda Phillips.

Mrs. C. A. (Edith) White is hospitalized in Clovis Memorial Hospital where she is receiving treatment. She recently broke her arm in a fall.

## Child's Need For Love And Security Discussed

The home of Mrs. T. J. Tipton was scene for the recent meeting of Golden Circle Sunday School Class of Texico First Baptist Church. Mrs. Willie Wall presided over the short business session. Mrs. Nora Day gave a report on the Piggy Bank fund and also on the curtain fund. She asked that absent members be notified of the drapery fund.

Also discussed during the business session were the Young People's Retreat and a social to be held in the near future.

Mrs. Ray Stone presented a devotional using Matthew 7: verse 9 as basis for her discussion on the child's need for love and security. Plans were also made to send card to several sick persons. Opening prayer was led by Mrs. Day and Mrs. Wall gave the benediction. Party sandwiches, cookies and coffee or tea were served to members and guests.

## Adventure Week Set

Young people of junior high school age are invited to participate in a week of Christian Adventure at the local Methodist Church beginning on May 24. Study groups will convene at 8 p.m. each evening through the week, with Mrs. M.A. Snider Jr. as instructor.

## Red Sez

Pictured left to right: Jackie Gast-reporter; Patty Tatum-secretary; Teresa Quicquel-vice-president; treasurer-Becky Strain and president-Diane Lovelace.

## Lanell Lovett To Make European Tour

Lanell Lovett, daughter of Mr. and Mrs. Troy Lovett will be among the 26 persons participating in the comparative education course tour of Europe which will be offered by Eastern New Mexico University this summer.

The class will begin June 14 with a two week seminar on the Eastern Campus, followed by a six week tour of Europe where the participants will visit and observe schools from the nursery level through college.

Instructor of the course is Dr. Carol Parker, head of the

elementary education at ENMU. He is familiar with the European education system, as he was superintendent of schools in Nurnberg at one time.

This is the first time the course has been offered at ENM and is one the graduate level with participants receiving seven hours credit toward the master's degree or five hours toward the education specialist degree.

The nine countries to be visited include Holland, Denmark, Belgium, France, Germany, Austria, Switzerland, Italy and England.

Dick Gerles, who was hospitalized for a few days has returned home. He did not suffer a heart attack as was reported.

## Douglas Gossett Speaks To Farwell Seniors

The Rev. Douglas Gosset, pastor of the Oklahoma Lane Methodist Church and father of senior, Warren Gosset was speaker for the Farwell baccalaureate services on Sunday evening.

Special music was provided by girls from the senior class. Susan Patrick and Patty Tatum played both the processional and the recessional. Rev. D. Casey Perry said the invocation and Paul Wilkinson, minister of the Farwell Church of Christ spoke the benediction.

Speaker for the Commencement on Friday evening will be Rev. J.L. Bass, pastor of the Farwell First Baptist Church. The Rev. W.C. Strickland will give the invocation and Rev. Herbert F. Peiman will speak the benediction. Processional and recessional will again be played by Patty Tatum and Susan Patrick.

Mary Coffey will speak the salutatory "The Time is Now," and Jerry Field, will give the valedictory address "Strike-outs and Home Runs."

The Misses Phyllis Christian and Mikala Austin will read the class history.

Principal Amls Tatum will present awards to the graduating seniors and diplomas will be

presented by A.H. Haseloff, father of graduate Richard Haseloff. The senior girls will again provide special musical selections.

Honor guards will be Maudie Stancell, Diane Lovelace, Delton Wilhite, and Doyle Johnson. Ushers will be Teresa Quickel, Becky Strain, Larry Gregory, Jeannie Blair, Mike Camp and Sherry Bass. Honor guards are selected from the top students in the junior class.

## Texico FFA Elects Officers

The Texico FFA Chapter elected officers at their May 3 meeting for the 1965-66 school term.

Guiding the chapter during the next year will be president Johnny Burford, son of Mr. and Mrs. Joe Burford. Other officers are Leslie Harrelson-vice-president, secretary - Dean Campbell, treasurer, Harvie Winkles and reporter - Allan Breitenbach, Lynn Hughes will serve as parliamentarian, Roddy Pearce as chaplain and Larry Combs as historian.

Chapter advisor is Eddie West.

"Mark it well - this is a big task you will be facing as president of the Texico Woman's Club for 1965-66", emphasized Mrs. James Turner (left) installing officer as she installed Mrs. Howard Leavell, center, as president of the Texico Woman's Club. Mrs. Ed Farmer, outgoing president accepts a scroll bearing the first 17 verses of Matthew 5 from Mrs. Leavell who had just been handed a similar scroll by Mrs. Turner.

## Officers Installed In Impressive Service

Officers of Texico Woman's Club were installed in an impressive service on Monday evening at Cathey's Restaurant when 19 members and invited guests attended a Dutch Treat meal.

Mrs. James Turner, Portales, Past president of the New

Mexico Federation of Woman's Clubs was installing officer. She used the first 17 verses of Matthew 5 as basis for her discussion. "Let your light shine through continued service in the community and adult education" she said. "Happy is the one who guards well the duties of his respective

officer" she concluded. As each of the officers were installed they were presented with a scroll, bearing the verses from Matthew used in the installation service.

Officers installed are president, Mrs. Howard Leavell, 1st vice-president - Mrs. James Pierce, 2nd vice-president - Mrs. Roy Harvey Snodgrass, secretary - Mrs. David Axe and treasurer, Mrs. Elmer Teel. In the absence of Mrs. Teel, Mrs. Truman Kittrell outgoing treasurer accepted the duties of that office for Mrs. Teel.

Mrs. Harvey Hudnall said the invocation and Mrs. James Pierce introduced the speaker and other invited guests, Mrs. Hancock, Portales and Mrs. Raymond Hadley. The president's pin was presented to Mrs. Leavell by Mrs. Ed Farmer, outgoing president. Gifts of appreciation were presented to Mrs. Farmer and Mrs. Turner.

Members in attendance were Mesdames Ed Farmer, James Pierce, Howard Leavell, Truman Kittrell, Milton Autrey, T. A. Autrey, W.C. Williams, Roy Harvey Snodgrass, Rip Snodgrass, LeRoy Faville, Wesley Ingram, David Axe, John Green, Charles Stockton, Harvey Hudnall and Herman Patterson.

NEW OFFICERS -- The new officers of Texico Woman's Club began making plans for a busy year after installation on Monday night. Pictured are: Mrs. Howard Leavell, president, and Mrs. David Axe, secretary (seated); Mrs. James Pierce, 1st vice-president and Mrs. Roy Harvey Snodgrass, 2nd vice-president.

THE COMMONERS -- A vocal quintet, Jerry Field, Johnny Schell, Larry Donaldson, Bobby Field and Warren Gossett accompanied by Zelda Donaldson provided entertainment for the Farwell Study Club on Monday evening.

piano duets and vocal numbers were presented by the quintet "The Commoners" - composed of Jerry Field, Bobby Field, Larry Donaldson, Johnny Schell, and Warren Gosset accompanied by Zelda Donaldson

at the piano. Members showed their appreciation of the numbers by encoring the "Commoners" a number of times. Some of the favorite numbers were "Gypsy Rover" and "I'll Do A Golden

Deed." Both popular music and hymns were used.

Named as "Outstanding Club Woman of the Year" was Mrs. Mabel Reynolds. She was cited for her fine work in guiding the club through a successful club year. She was presented a gift of appreciation.

## Man Taken To Hospital

Elmer Pinner was brought into the office of Dr. T.J. Glenn on Wednesday around noon. He was taken by Gold Star Ambulance to Clovis Memorial Hospital for treatment.

## MEET MR. WUNSTOP DUZZIT

A tourist stopped where a farmer was erecting a building. "What are you building?" he asked. "Wal," answered the farmer, "if I can rent it, it's a rustic cottage. If I can't, it's a cow shed."

Pam Blair, 11, learns one of the first lessons in how to sew properly as she makes an apron in the 4-H Clothing project Unit I. Instructor for the group is Mrs. Hurshel Harding of Farwell.

Not only do girls learn how to sew in Unit I of the clothing project, but they also learn how to buy socks and how to properly wash them. "Always apply warm soapy water to especially dirty spots on the sock and rub gently with a brush to loosen the dirt," said Debra Harding, 9.

Brush the hair at least 100 strokes each day to have nice, healthy hair, emphasized Linda Howard, 10, who says that hair must be shampooed at least once each week to keep it clean and sweet. This is only one of the lessons learned in Clothing, Unit I of 4-H club work.

## Bureau Criticizes Skip-Row Change

Changes proposed by USDA in skip-row planting rules for cotton "violate basic principles" and counteract gains from years of research by the Department of Agriculture, farmers, and others "to achieve the most efficient production of crops," the head of the state's largest farm organization has charged.

C.H. DeVaney, president of the 92,552 - member Texas Farm Bureau, said the change will be "a step backward" and that the general citizenship of the nation will pay for the resulting loss of much of "the efficiency built into the American agricultural system."

DeVaney also declared that the new regulations will be difficult and costly to enforce, will cause confusion and delay in certifying compliance, and in many areas will call for expensive adaptations of machinery.

The Department of Agriculture announced last month that it is proposing the change in the rules for measuring cotton when planted in a skip-row pattern for compliance with acreage allotments. Under the new regulations -- applicable to the 1966 cotton crop if adopted -- a part of the idle land (rows

skipped) will be considered cotton acreage for allotment purposes. Thus, the allotment acreage cannot be enlarged proportionately to take into account the full amount left idle by the planting pattern.

DeVaney said a two-planted-rows-and-one-vacant-row (40' rows) pattern under the new proposal will require a deduction of about 13.33 per cent of the total area, compared to 33.33 per cent under the present regulations, or an increase of 30 per cent in the amount of land charged to cotton.

"These changes will force the producer to change his pattern of planting in order to have a workable program", he declared.

The TFB president contended that such practices as planting patterns, row width, irrigation methods, the use of fertilizer, cultivation techniques, etc., "must be left to the judgment of the producer, guided by the best research information available to him." The proposed change would upset a technique widely used in Texas for more than 30 years, he noted.

"In the Department's release of April 23 concerning these proposed changes, it was indicated the purpose was to reduce production per allotted acre," DeVaney explained. "This can only result in inefficiency in cotton production. For over 30 years Texas cotton farmers have been using the skip-row pattern of planting. Rules that penalize farmers for using sound and proven cultural practices, or limits use of water, fertilizers, insecticides and other agricultural chemicals, can only result in a loss efficient and more costly operation. All of these practices are the result of research by farmers and the USDA to achieve the most efficient production of crops. Any move to counteract these established procedures will be a step backward."

DeVaney's comments were contained in a letter addressed to the Director of the Farmer Program Division, Agriculture Stabilization and Conservation Service of the U.S. Department of Agriculture in Washington. The proposed rule was published in the Federal Register of April 22. USDA said growers can submit data, views and recommendations in writing to the official named above. To be considered, comments must be postmarked not later than 30 days after the April 22 Federal Register publication date.

Werner's visit to Mississippi was a multi-purpose trip. On the way, he stopped at Greenville, and talked with Dr. Hartwig, one of the world's foremost soybean breeders, concerning methods of handling experimental soybean material and various aspects of plant breeding. In addition to attending the school, Werner visited with various machinery manufacturers and people interested in seeds of all types, in an effort to bring back information on damage by machines or any current useful knowledge he could obtain.

The basic purpose of the short course, was to acquaint the attendants with machinery and operations in seed processing. "How and Why Does a Seed Die?" is part of the present research being carried on by the Seed Technology Lab of Mississippi State.

Werner heard talks and saw demonstrations on the fundamentals of seed processing, testing of seed for germination, along with methods of sorting seed, from air and screen cleaners, to magnetic cleaning. One of the most interesting portions of the course was the tetrazolium test, which is a method of testing germination with chemical stains.

DeVaney also declared that the new regulations will be difficult and costly to enforce, will cause confusion and delay in certifying compliance, and in many areas will call for expensive adaptations of machinery.

## Technician At Meeting

Mississippi State University was the site of a Seedmen's Short Course which was attended by Jack Werner, associate agronomist at the High Plains Research Foundation, recently.

Werner's visit to Mississippi was a multi-purpose trip. On the way, he stopped at Greenville, and talked with Dr. Hartwig, one of the world's foremost soybean breeders, concerning methods of handling experimental soybean material and various aspects of plant breeding. In addition to attending the school, Werner visited with various machinery manufacturers and people interested in seeds of all types, in an effort to bring back information on damage by machines or any current useful knowledge he could obtain.

# Girls Learn By Doing In Sewing Projects

When Mrs. Hurshel Harding chose Clothing (Unit I) as the 4-H project she would assist with as a leader she did not realize that she would be teaching the girls more than how to sew a straight seam. However, it was not long after enrolling in the leadership training school, under guidance of the Parmer County HD Agent that she learned that she would not only be teaching girls how to sew, but also good grooming and even how to correctly select socks and which clothing was proper for all occasions.

Mrs. Harding, who had taken 4-H work as a young girl (Gold Star Award Winner) said "I had probably been taught all of these things but had forgotten with the passing of years just what goes into the clothing program.

Girls in Unit I are first taught how to assemble a sewing box with the proper equipment. In-

to the sewing box must go needles (size 7 or 8), thimble, tailor chalk, adjustable gage, pin cushions, dressmaker pins, shears (bent handle preferred) and a pencil.

After the sewing box is assembled the girls are then ready for the first sewing lesson with a machine, including how to sew a straight seam, how to run the machine smoothly and how to properly turn a corner. Now says Mrs. Harding we are ready to sew. First on the agenda is a tea towel.

In making the tea towel a seam gage must be used, the hem pinned in and then pressed before it is finally ready to be sewn on the machine. After completion of the towel each girl is asked to make, as a home project, either a pair of TV slippers or an apron, using the steps she has learned in making the towel.

Next project is that of making a simple gathered skirt, using either a pattern with a waistband or a pattern with elastic at the waist. If the elastic waistband is used, three rows of one half inch elastic is used at the waist (giving a shirred effect). Girls in Units II and III of the sewing project are taught how to assemble dresses and

how to make other garments including suits, etc.

First lesson in personal grooming is how to properly wash the hands. One might have always believed that washing the hands is no problem, but here the girls are taught that improperly dried hands cause chapping, and that half dry hands will pick up dirt swiftly and become dirty in a few minutes. Always use a good lotion after washing the hands and if the hands are especially dry (most young girls hands are) be sure to use a little oily cream at night upon retiring. Manicure the nails at least once each week, paying special attention to the length of the nails (long nails are unattractive and in poor taste) and to split and broken nails.

Emphasis is placed on hair grooming. Shampoo at least once each week and brush hair daily. Always brush the hair from the underside as well as from the top side to give it an added sheen.

When buying socks make sure that you know the proper size and if not ask the saleslady to assist by showing you a chart. Width of the foot plays an important part in the proper fit of socks. "Bobby socks are to be worn with school clothing and not with dressy clothing" emphasized Mrs. Harding "always wear light weight socks with dressy clothing" she added. In caring for the socks do not roll a pair together as this tends to stretch the elastic at the tops and causes the socks to fit im-

properly or wear out swiftly. Be neat, not only with the sewing unit, but with personal supplies. Always provide a proper place for storing clothing, with separate compartments in the drawers for socks, underwear, handkerchiefs and other feminine needs. Also girls should always make sure that their sewing area is in a neat and orderly condition by using a wastepaper basket or a paper bag for loose threads, and other sewing refuse.

Yes! much goes into the teaching of sewing but it is a worthwhile project, says Mrs. Harding who has three girls in

the group she is teaching this year. Girls in her group are Pam Blair, Linda Howard and her daughter, Debra Harding. No more than four girls may be taught in any one group -- as overcrowding a class tends to create confusion and children do not learn as they should.

There are five clubs in Parmer County and each club has one or more groups enrolled in the Clothing Unit I project as well as in Clothing II, Clothing III, Foods and Home Beautification. Some of the members also take project work in gardening and other outside activities.

## On The Farm In Parmer County

By JOE VAN ZANDT  
County Agent

Parmer County remains as the top Grain Sorghum producing county in Texas. The Texas Crop and Livestock Reporting Service estimates our 1964 sor-

ghum production amounted to 16,287,000 bushels. They estimated the county averaged 89 bushels per acre on 183,000 acres. We also had the highest per acre production in the state on the largest number of acres. Hale County was second in production, but trailed Parmer County by 3,411,000 bushels.

The Crop Reporting Service also published their wheat production report which listed Parmer County in second place on wheat production with 3,530,000 bushels produced on 92,900 acres with an average yield of 38 bushels per acre. Deaf Smith County beat us in total production by 226,000 bushels and Hale County topped Parmer County in yield per acre by .2 bushels so we weren't far behind in either category.

This is further proof that Parmer County is one of the very best farming areas to be found anywhere, thanks to good farm operators, good land, good water and good agri-businessmen.

### SORGHUM YIELD REPORT

We finally received a copy of last year's 1964 grain sorghum performance tests on the High Plains that were supervised by the Lubbock Agricultural Experiment Station. The comparable yield average is based on production from 3 to 5 irrigated tests in the following locations: Lubbock, Plainview, Aiken and Tulla. There were other varieties that were tested but yield data was not obtained on 3 or more tests, therefore we don't have a comparable yield average. The days to 50% bloom is a comparable average between varieties. I also want to

# Rogers Opposes Change In Skip-Row Treatment

By Cong. Walter Rogers

Thousands of American cotton farmers will suffer a severe, and in some cases disastrous, economic blow if the Department of Agriculture places in effect its proposed rules change affecting cotton planted in skip-row patterns. The rule not only would result in reduced net income to cotton farmers but would bring the end to proven, sound conservation practices followed by a generation of Texas Panhandle and South Plains cotton farmers, as well as growers in many other areas of the nation.

In addition, the new rule would disrupt current farming practices followed by grain sorghum producers in our Panhandle-Plains region, would serve to offset Government efforts to keep grain stocks in check, and would destroy the faith our farmers have in the wisdom of current farm policy objectives.

We are told that one of the objectives of current Agriculture Department policy is to provide opportunity for efficient family farmers to earn parity of income, that the Department seeks parity of income for all rural people. Including new opportunity for small farmers. I find it impossible to reconcile these announced goals with the Department's proposed rule change affecting cotton when planted in skip-row patterns.

We are told that USDA officials feel that increased yields due to skip-row plantings have, in the words of a Department press release, "contributed substantially to the increase in cotton production." The Department does not state the obvious truth that other modern-day farming practices -- including irrigation, improved fertilizers, and insecticides -- also contribute to the increased productivity of the American cotton grower. But only skip-row planting practices are the target of the rule-making authority the Department of Agriculture seeks to exercise.

What is proposed in the rule is a fundamental change in farming practices followed by thousands of farmers. For more than 30 years, since long before the Government first established a cotton program, planting cotton by skipped rows has been an established practice in the Texas Panhandle and South Plains, as well as other areas.

Skip-row planting has been a good and common practice in our part of the country because it is a practice that makes the best use of available moisture. The roots of the cotton plants are able to reach out to benefit from the moisture in adjacent skipped rows. It is a good and common farming practice because it permits sunlight to reach the sides of the plants, cutting down on boll rot and improving the quality of the fiber.

It is a good and common practice because it enables our farmers to prevent damaging wind erosion, which threatens in late winter and early spring. Farmers are able to plant rows of grain sorghum in the skipped rows and thus check the wind by rows of standing sorghum stalks. This is a practice strongly endorsed by the soil conservation service.

It is a good and common practice because it permits so-called "interplanting," by which a farmer on irrigated land may plant alternate four-row strips of cotton and grain sorghum to the benefit of the quality of both crops. Estimates are that this practice adds from \$6 to \$12 per bale in the quality of cotton lint and seed. The sor-

ghum strips, by holding the heat, permit the cotton to mature earlier at higher grade.

It has also been tied closely to the Government grain sorghum program, enabling the farmer to count as diverted acres under the grain sorghum program the fallow four-row strips between four cotton rows. The effect of the proposed new rule, with its system of measurement, would force present four-four skip-row patterns into an impossible pattern of four rows of cotton and five of fallow -- in order for the fallow to count as diverted grain sorghum land. Present four-row and eight-row farm equipment is obviously not built to accommodate such a scheme. Grain people are convinced that the effect of the skip-row proposal would be to encourage increased production of grain sorghum by farmers who now work that crop in conjunction with cotton.

The Department must give extremely careful consideration to this potential consequence.

The skip-row rule constitutes another damaging blow to an already depressed segment of American agriculture. Cotton supports have declined in three years to bring a reduction, in effect, of 30 to 40 per cent of cotton farmers' net income after production expenses. The so-called cost-price squeeze has a very real meaning for the American cotton farmer, who now must face one more threat to his survival. The new rules are also causing considerable consternation, as they should, in local communities whose economies are dependent upon the fate of cotton farmers. The Commissioners Court of Childress County, Texas, for example, estimates that the imposition of the proposed rules would result in a \$1 million drop in income within the county.

By proposing rules such as this one, the Agriculture Department is seeking to attain the goal of a workable balance between supply and demand at the expense of thousands upon thousands of bankrupt cotton farmers and depressed economies in the communities which have served them. The full impact of trying to attain this balance is being visited upon that segment least able to absorb it.

In formulating the new rules, the Department of Agriculture is following a practice I find altogether too common in the departments and agencies of our Government. Instead of seeking a correction of what are viewed as problems by coming to the Congress to ask for new legislation, the department seeks first -- in too many instances -- to exercise their authority to make rules and regulations. They, in effect, are legislating, and by doing so are invading the ground grated to Congress by the Constitution. When rules are imposed, citizens by the millions are affected by regulations which their duly elected representatives had absolutely no part in formulating. In our system of government, rule-making authority should not be used to circumvent the expressed will of the Congress or to avoid the more time-consuming process of enacting legislation. When rule-making authority is abused, the people can justifiably complain of rule by fiat, of power improperly exercised by unfeeling bureaucratic administrators. But action by the Congress, through legislation enacted into law, has the great strength of having been supported by majorities of representatives elected by the people.

In seeking the objective

claimed for the proposed skip-row change, the Department has the alternative of coming to Congress for new cotton program legislation. The Department has as yet offered no proposals to the Congress affecting cotton, but when it does so it could very well incorporate into its request or provisions that would make unnecessary any change in the skip-row planting rules.

The Department could, for example, make a strong case before the Congress for increasing the per-pound support payment on the domestic allotment for each farm, now placed at 4.35 cents per pound, to further encourage the voluntary cut-back of cotton production. I am convinced that an increase of a cent a pound or more in this phase of the cotton program would result in a substantially higher degree of grower participation. This would have the effect of lowering Government cotton stocks, thereby cutting the cost of the cotton program.

I am convinced also that progress can be made, under re-

newed and more aggressive effort by the Department, to improve the cotton export picture.

All aspects of the matter deserve thorough and careful review, not only in the Department but also in the Congress. In this connection, I have joined with the distinguished chairman of the House Appropriations Committee, the Honorable George H. Mahon of Texas, to ask that the House Committee on Agriculture hold a public hearing to permit cotton growers to appear and protest the proposed action of the Department of Agriculture. With Congressman Mahon, I would join growers in appearing before the committee.

If the Department should follow through with the skip-row proposal and place the rule in effect, Congress must act to correct the situation. The proposed rule is punitive, defies sound agricultural practices, would destroy morale and confidence among farmers and rural people generally, and would threaten economic ruin for thousands and thousands of our farm families.

## 4-H Members Take Over Home Improvement Jobs

Remodeling a home is usually considered to be an adult undertaking. However, in 4-H families the younger members devote much time to beautifying and improving their homes.

They are the 201,000 boys and girls throughout the nation enrolled in the 4-H Home Improvement program supervised by the Cooperative Extension Service.

The youngest 4-H'ers usually experiment with paints, paper materials, pictures and furniture care. Members between 12 and 14 years of age learn to sew curtains, frame pictures and redecorate their rooms.

Older members learn how to upholster and refinish furniture, build tables, improve lighting, make lamps, judge home furnishings, add storage space, arrange and remodel rooms.

Many become experts at refitting furniture. Recently a Colorado 4-H girl was asked to refinish a 100-year-old candlestick table for a museum.

Various methods of teaching are employed by the club leaders. Among them are tours of fabric shops, furniture and department stores, hardware stores, art galleries, museums and places featuring weaving, woodworking and related handicraft.

Each year the best home improvement project completed in a state brings the club member one of the most sought after awards 4-H has to offer: a trip to the National 4-H Club Congress at Chicago, and a chance for one of six \$500 educational scholarships. But before the boys or girls reach the state

## 4-H Scholarships Offered To Agriculture College Students

Young people are encouraged to seek college degrees in agricultural sciences and forestry through 4-H scholarships. There is a shortage of such graduates to fill existing positions in the vast field of agribusiness and forestry, says the Cooperative Extension Service.

The two firms offering a helping hand are the California Chemical Company, Ortho Division, San Francisco, Calif., and an East Coast manufacturer -- Homelite, a Division of Textron Inc., Port Chester, N.Y.

The California Chemical Company annually provides two \$800 scholarships to college sophomores or juniors majoring in the areas of crop protection and production. Students are advised to study agronomy, entomology, plant pathology, horticulture and related courses.

Experts point out that the farm operator who succeeds today needs knowledge of land and

water use, conservation, chemistry, genetics and business management. Non-farm positions in the multi-billion dollar agricultural industry also demand college education and technical know-how.

Another specialized field related to agriculture is forestry, and trained people are needed here. The U. S. Department of Agriculture advises that the timber supply in the year 2,000 will depend largely on action taken in the next few years.

To help fulfill this need, Homelite provides four \$1,600 scholarships to college freshmen planning to major or minor in forestry.

Applicants for these scholarships must be 4-H members or former members. Special 4-H scholarship application forms may be obtained from the County Extension office or the State 4-H Club office.

## USDA Honor Award Winner

L. J. Cappleman, Texas State Director of the Farmers Home Administration, today (May 18) received the United States Department of Agriculture's coveted Superior Service Award which was presented by Secretary of Agriculture Orville L. Freeman during special ceremonies on the Washington Monument Grounds in Washington, D.C.

Mr. Cappleman has been State Director for 12 years and a USDA employee for 30 years. His current residence is 2015 West Adams Avenue, Temple, Texas.

Mr. Cappleman was cited "for exceptional effectiveness in program administration, agricultural leadership and institutional of a farm management program to improve the living standards of Texas farm families."

Besides the citation certificate, Cappleman received a silver medal.

Howard Bertsch, Washington, D.C., the agency's administrator congratulated Cappleman and said that "this outstanding Farmers Home Administration State Director and his hard-working staff served some 127,000 Texas farmers and other rural residents during the fiscal year of 1964 alone, when they extended supervised credit totaling close to \$74.5 million."

Administrator Bertsch emphasized that the importance of this rural credit program to Texas is clearly defined. "If each of the 74.5 million dollars loaned by the agency throughout the state last year passed through only five hands as they were spent and repaid, these loans would have had a cumulative economic impact of \$372.1 million."

"He has made a major contribution to the strengthening of family farms and rural communities and the alleviation of poverty in rural Texas," Bertsch said.

A statement of achievement accompanying Cappleman's nomination for the award explains that while serving as state director for the past four years "he has exhibited remarkable leadership qualities in administering a program that has effectively carried out Farmers Home Administration objectives by formulating realistic programs designed to best serve eligible Texas farm families."

Following are a few of the agency's achievements under Award Winner Cappleman's leadership:

1. An estimated 106,000 Texas farm and rural residents are or soon will be enjoying an adequate safe water supply for the first time because Cappleman placed special emphasis on the agency's community water system loan program. The agency extended \$21,427,390 in supervised credit for the construction or expansion of 189 Texas community water systems during the period fiscal 1961 through fiscal 1965 up to March 31. This is the largest number financed by the agency in any of the 50 states or the Commonwealth of Puerto Rico.

2. In 1964, under Cappleman's direction, the incomes of 7,200 family farmers throughout Texas were strengthened by Farmers Home Administration loans totaling \$44,000,000 made during this period to operate, develop and buy family farms, and to refinance debts.

3. Cappleman also received credit for assistance given farm families in times of disasters brought about by hurricanes, freezing weather and drought.

In recent months the Farmers Home Administration has made 3,845 emergency loans totaling \$23,708,035 in 208 designated Texas counties. Farmers getting needed operating finances were unable to obtain it from other sources.

Under Mr. Cappleman's leadership, not only is the family farmer receiving opportunity to increase his income, but many rural communities are experiencing new growth through the construction of new dwellings and, in many cases, the establishment of new businesses.

Projects in 4-H develop leadership, skills and confidence through demonstrations, exhibits, contests and tours.

A green four-leaf clover with a white H in each leaf is the national emblem of 4-H Clubs. The H stands for Head, Heart, Hands, Health.

## Outdoor Project Combines Skill and Science

Planning and planting a garden is a perennial task of 4-H Club members. Last year nearly 212,000 gardens flourished under the green thumb of 4-H boys and girls.

With spring well along and summer just ahead, the 1965 national 4-H Garden program is off to a good start. Some gardens will be beautiful, and some will nourish. But whatever the garden—large or small—the main goal is to produce a fine harvest of boys and girls with new skills and scientific know-how.

There is a great deal of work between planting the seeds and harvesting the crops. Controlling weeds and insects, keeping records, creating exhibits and giving demonstrations are a few of the jobs that must be done. The most successful projects will be judged for awards.

Recognition will be provided for the 20th year by Allis-Chalmers Manufacturing Company, Farm Equipment Division, sponsor of the national 4-H Garden program.

During the National 4-H Club Congress at Chicago next fall, company officials will personally present eight \$500 educational scholarships to the highest ranking 4-H gardeners in the nation. The Congress trip will go to the boy or girl having the

## how does YOUR 4-H garden grow?

best project in the entire state. Medals will be given to a blue award group in each county. All winners will be selected by the Cooperative Extension Service which supervises 4-H.

The young gardeners agree that getting close to nature is most gratifying, and tending a garden provides healthful outdoor exercise as well. A flare for landscaping or a scientific curiosity also can be satisfied.

Gardening fits in with other projects such as food preservation and home improvement. For many, a garden has become a business venture. Roadside stands dot the countryside.

Any boy or girl between 9 and 19 years of age can become a 4-H member. Those interested in starting a garden can obtain information from a local 4-H leader or from the county extension office.

## Per Capita Meat Consumption Expected To Increase

Approximately four more pounds of meat per person will be consumed in the United States this year than last.

This will bring the per capita consumption of red meat to 173 pounds -- a record high, says Mrs. Gwen Clyatt, Texas A&M Extension consumer marketing specialist.

Virtually all of the nationwide increase will be in beef and veal, which have been in especially good supply and at reasonable prices, U. S. Department of Agriculture researchers have indicated. The availability of supply is expected to continue throughout 1965.

Homemakers who are looking for tasty, economical ways of using beef will do well to consider the round, says Mrs. Clyatt. Round steaks have gone modern and have taken on a new look.

Many markets offer for sale, in addition to whole round steaks, portions of the round. There are some advantages to these cuts. Some of the misunderstanding or abuse in preparation may be eliminated, since the shopper can now purchase that part of the round for a specific use.

The whole round steak is full of flavor. However, it is not ten-

der enough to broil, and should be cooked in a covered skillet at low heat.

The top muscle in the cut of round is the most tender. It can be broiled, braised, chicken fried or roasted. The bottom round, an outside cut, usually has a lower price tag than the top round. The bottom round makes pot roasts when cut in thick slices and may be carved across the grain. There are two other muscles in a cut of round steak. A visit to the meat counter will reveal the method of cutting round used by the store where you trade.

## Ceremonies Signal Designation Of Local Committees On Aging

Ceremonies in several Texas counties within the past few days officially designated local units of the Governor's Committee on Aging and ushered in local observances of May as "Senior Citizens Month in Texas."

Milam County -- a longtime leader in Extension Service educational efforts -- had the distinction of being the first in Texas to organize its local committee under terms of the recently-signed agreement between the Texas A&M University Agricultural Extension Service and the Governor's Committee.

Marvin L. Taylor of Waco, a member of the Governor's Committee on Aging, awarded

the official certificate to Milam County's local committee. The certificate was accepted by Mrs. J. B. Sapp, chairman of the local committee. Other members participating in the ceremony were Mrs. Lloyd Lemere, Mrs. Hinton Pruitt, Mrs. William Watkins, Mrs. W. R. Newton and Porter Young.

Don Humble, Milam County judge, read a proclamation he had issued calling for a number of special programs for older citizens of the county this month.

Mrs. Eloise Johnson of Bryan, a member of the State Steering Committee on Aging and college home economics instructor and former Extension Service family life specialist, reviewed

highlights of organizational work of the Milam County committee. Mrs. Johnson, whose mother was the first county home demonstration agent in Texas a half century ago in Milam County, presented "outstanding senior citizen certificates" to 20 older residents of the county. Recipients were recognized for their contributions to community efforts and educational work.

Milam County has a total population of 22,263 persons, with 14.9 per cent of them 65 or older. This places the county 48th in Texas from the standpoint of highest number of senior citizens, says Anna Marie Ramke, county home demonstration agent at Cameron.

Some 17 other counties have organized local committees on aging.

Dairy farmers participate in the American Dairy Association by paying a set-aside of 2 cents per hundredweight of milk. These funds are used to tell consumers of the goodness and values of milk and dairy foods.

Dairy farmers and all people in agriculture have a smaller voice in politics as more people move to the city. Yet, city dwellers are more dependent on farmers and agriculture than ever before.

Many leaders in government and business who have a metropolitan background of experience are not aware of the tremendous importance of agriculture to the welfare and progress of our nation and its people.

Ground beef and chuck and rib roasts and a variety of steaks are among the special values at the meat counter this week. There's greater variety of improved offerings at the vegetable counter. A few home-produced items are appearing on the scene.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

### PLAINS GROWERS ADOPT LEGISLATIVE POSITION

Support for a cotton program which "maintains the traditional concept of producer income protection through a non-recourse loan at or near the U. S. producer income level of 75 per cent of parity" was voted by Directors of Plains Cotton Growers, Inc. at a meeting in Lubbock on May 13. This was point number one in a nine-point policy adopted by a vote of 17 to 6 with one abstention.

W. L. Edelman, of Friona, chairman of the PCG Legislative Committee which recommended the nine points to the board, emphasized that they were to serve as guidelines under which PCG would work toward cotton legislation in the best interests of High Plains cotton farmers.

On this point PCG Executive Vice President Donald Johnson said: "PCG is not now attempting to write a cotton law, but to formulate legislative principles to express the wants and needs of the area." He assured those present that PCG could not and would not support any legislative proposal which violated these principles, and that any specific cotton bill that is introduced would be further discussed with the Board.

The full policy states that PCG will give full support to a cotton program which:

1. Maintains the traditional concept of producer income protection through a non-recourse loan at or near the U. S. producer income level of 75 per cent of parity.
2. Maintains the 16 million acre base national allotment.
3. Makes cotton competitive in domestic and foreign markets through a trade-incentive payment in the channels of trade to other than the producer.
4. Establishes a definite export goal of at least 7 million bales annually and provides for the attainment of this goal through a more aggressive and flexible policy stressing the movement of current crop cotton through the normal channels of trade.
5. Provides acreage choices to individual producers in such manner as to avoid varying loan levels to producers. This could be done through a program which allows for the sale and transfer of allotments to CCC.
6. Prohibits the release of government stocks by CCC in such a way as to compete with current crop cotton. Cotton must move through the normal channels of trade and not cycle through the loan. The loan was intended to serve as a marketing tool to assist the producer in the orderly marketing of his crop and should not serve as a source of supply in competition with current crop cotton.
7. Establishes a security reserve for use in case of national emergency.
8. Imposes no limitation on participation in trade incentive or loan.
9. Insists on the full implementation of the authorized cost cutting research program. The full use by farmers of information already developed should be encouraged.

mentation of the authorized cost cutting research program. The full use by farmers of information already developed should be encouraged.

### PCG HOSTS AMERICAN COTTON CONGRESS MAY 23

"Reducing the Cost of Cotton Production" is the theme selected for the 26th annual session of the American Cotton Congress which opens at 9:30 a. m. Friday, May 28 in the Koko Palace, Lubbock. Hosting the one-day affair is Plains Cotton Growers, Inc., cotton producer organization which represents 23 High Plains countries surrounding Lubbock, and PCG is urging all area farmers to attend.

First topic for the morning session will be titled "Textile Mill Views on Need for Cutting Cotton Costs," given by E. W. Webb, Director of Cotton Service Corporation, a Dallas based division of Hanes Corporation. He will be followed on the program by Claude Welch, Division of Production and Marketing, National Cotton Council, who will speak on "National Research for Cotton with Emphasis on Cost Reduction." Jasper E. Jernigan, Agronomist with the Federal Extension Service, will speak on "Specialized Extension Education Program with Emphasis on Cost Reduction," followed by a question and answer period.

Chairman of the morning meeting will be Dr. Gerald Thomas, Dean of Agriculture at Texas Technological College; welcome address will be given by Donald A. Johnson, Executive Vice President of Plains Cotton Growers, and Burris Jackson, Chairman of the American Cotton Congress, will deliver the keynote address.

A free lunch will be served at noon, joint courtesy of Plains Cotton Growers and the Lubbock Chamber of Commerce, with Frank Lowenstein, noted USDA Economist as the luncheon speaker. Lowenstein will be introduced by Dusty Rhodes, President of the New York Cotton Exchange.

The afternoon session, with State Agricultural Agent V. G. Young as chairman, will open with a report on "Needed Support for Cotton Research in Texas" by Charlie Scruggs, Editor of Progressive Farmer Magazine. Those in attendance will then hear an outline of "Plans for Cotton Cost Reduction in Texas" by Billy Gunter, District Agent, Lubbock. And closing out the annual event will be a panel discussion of "Farmer Views on Cotton Cost Reduction," with John Seibert, Area Farm Management Specialist of Lubbock serving as moderator. Three area farmers will be included on the panel.

According to Johnson, "Current conditions in the cotton industry make it imperative that every known means of cutting the cost of producing cotton be utilized, and producers in attendance should come away with some good ideas."

PCG OPPOSES SKIP-ROW CHANGES  
The Board of Directors of Plains Cotton Growers, Inc., in session May 13, voted unanimously to voice the producer

organization's opposition to the USDA's proposed changes in rules for measuring cotton planted to skip-row patterns. The resolution passed by the Board stated in part that under the proposed changes: "The entire economy of the cotton belt would be seriously hurt through reduced production and income from existing cotton allotments," and added that: "Dry-land farmers and producers with limited irrigation water -- the very ones who can least afford income losses -- would be the most seriously affected because of their greater need for water conservation."

The proposed change would reduce by 15 to 30 per cent the number of acres that skip-row cotton could cover without exceeding a given allotment, and the main objection stems from the fact that this would discourage a valuable tool for production efficiency and soil and water conservation.

PCG opposition joins that of the Grain Sorghum Producers, Farm Bureau, Farmers Union, Rolling Plains Cotton Growers, Texas Cotton Ginners and other groups. The groups named have scheduled a conference in Washington Wednesday, May 19 in an attempt to convince the USDA that their proposal should be withdrawn.

A new smut resistant grain sorghum hybrid that is a good yield is available this spring from seed dealers. The new hybrid is RS 671 and was developed by the Texas Agricultural Experiment Station.

It can be harvested at least a week earlier than later maturing hybrids and should be able to get by with one less irrigation. It should be planted by about May 20. RS 671 has shown less lodging than most of the commonly grown hybrids.

MOSQUITO CONTROL  
With all of this wet weather the past week or two mosquitoes will soon be out in full force. In fact last week, I stopped at a farm and literally got covered up and nearly carried off.

The following measures are recommended to help control the pesky mosquito which is a carrier of malaria and encephalitis. Eliminate as much standing water as possible. In water troughs and fish ponds, treat water surface with unleaded gasoline,

## Drilling Statistics For February & March

During the months of February and March 435 new wells were drilled within the High Plains Water District; 23 replacement wells were drilled; and 28 wells were drilled that were either dry or nonproductive for some other reason. The County Committees issued 714 new drilling permits.

Listed below by counties are permits issued and wells completed for February and March.

## WATER IS YOUR FUTURE CONSERVE IT

2 to 4 oz. per 100 sq. feet. Use caution to prevent creating a fire hazard.

Treat stock tanks with kerosene; other bodies of water with diesel oil or fuel oil. In lakes with vegetation, apply 30 gallons of oil per acre. With no vegetation, apply 7 to 14 gallons of oil per acre.

Where fish and livestock do not present a problem, treat stagnant water with 1% emulsion or oil solution of DDT, chlordane, toxaphene, TDE or methoxychlor at rate of 10 quarts per acre of water surface. Or you can use 0.5% solution of gamma GHC, dieldrin or heptachlor at same rate.

Repeat your treatment as needed when you notice mosquito wrigglers in the water. This may be as often as every week.

### CHEMICAL WEED CONTROL

This rain lately should serve to activate a lot of weed control chemicals. If you are wanting to use chemicals on your sorghum and didn't have Propazine applied pre-emergence ahead of the rain, then you may want to consider Atrazine. Atrazine can be used to control broad-leaf weeds less than 2 inches tall in emerged sorghum. Atrazine should be applied at the rate of 1 pound per treated acre plus surfactant. Propazine rates per treated acre vary from 1 pound on sandy soils to 2 pounds on silty clay loam soils. Sorghum forage with either of the above chemicals should not be grazed and only corn, sorghum or wheat should be planted the following year.

In cotton, Dacthal and Treflan must be thoroughly incorporated 2 to 4 inches for best results. Herbac can be used pre-emergence and sorghum can be planted this year if cotton fails. Karmax can be applied pre-emergence where light incorporation will be beneficial. Caparol can be applied pre-emergence and soil incorporation is not advised with it.

On post-emergence chemicals the herbicides should be directed at the lower two inches of cotton on weeds that are less than two inches tall. Karmax or Caparol can be used post-emergence after cotton is 6 inches tall. Herbicidal oil can be used until the bark cracks on the cotton stem applied below cotton leaves. DSMA and MSMA can be used once cotton is 3 inches tall and must be stopped at flowering. These are good for control of annual grasses and Johnson grass but do not spray over the top of cotton.

If you have questions about the use of any of these herbicides, please give the County Agent a call we will do our best to answer it.

There has been some confusion from Washington about the clearance for Propazine and Atrazine for use on sorghums. We were advised on May 12 that as of that date it had been cleared for pre-emergence and early post emergence use on both grain and forage sorghums at a rate of application not to exceed three (3) pounds per acre actual material.

The rates of application for Propazine here in Farmer County vary from 1 to 2 pounds per treated acre. The 1 pound rate is recommended on sandy soils and up to 2 pounds are needed on silty clay loam soils.

Atrazine is recommended at rate of 1 pound per treated acre plus surfactant on emerged sorghum and weeds less than 2 inches tall.

## Control Of Cotton Insects Listed In New Guide

"The Texas Guide for Controlling Cotton Insects," L-218, has been revised to include the results of continuing research conducted throughout the state by the Texas Agricultural Experiment Station and the Entomology Research Division of the U.S. Department of Agriculture, reports County Agent Joe Vanzandt.

He added that copies are now available from his office and urges all Farmer County cotton producers to pick up a copy at their convenience.

The development of resistance to insecticides, deposit of harmful residues in the soil or on neighboring crops and destruction of beneficial insect parasites and predators dictate the judicious use of insecticides, explains the county agent. If possible, he says, their use should be restricted to actual need based on inspections.

The guide, in addition to listing the recommended control measures, points out many other important factors involved in the

overall problems of controlling cotton insects and the safe use of insecticides.

All insecticides are poisonous and the county agent emphasizes the need for using them in strict accordance with the manufacturer's labeled instructions.

As early as 1856, Horace Greeley sponsored a corn-growing contest New York boys, a forerunner of 4-H Club contests. Rural school superintendents and colleges experiment stations promoted contests in crop production and soil testing in the early 1900's.

## New Grain Sorghum Hybrid Available

A new grain sorghum hybrid that is smut resistant and outstanding in yield for a medium-late maturity type is available this spring through commercial seed dealers.

Called RS 671, the new hybrid was developed by the Texas Agricultural Experiment Station. RS 671 produces high yields, yet blooms several days sooner than late-maturing types, according to Darrell Rosenow, an agronomist at the South Plains Research and Extension Center here.

"This hybrid has produced within 100 or 200 pounds of later-maturing types," Rosenow said.

He says it can be harvested at least one week earlier than later-maturing hybrids and it should be able to get by with one less irrigation.

The new hybrid is recommended for use under irrigation and in areas with more than 30 inches rainfall. It should be planted before about May 20th in the South Plains.

RS 671 has shown less lodging than most of the commonly grown hybrids.

ing than most of the commonly grown hybrids.

It was developed through a continuation of work to find head smut resistant types. In 1963, Texas A&M University researchers released two head smut resistant hybrids.

When the experiment station releases a new hybrid or variety, breeding material is made available to seed producers. Material is not released until it is proven to offer substantial improvement over established types.

Farm Prices Fall, Food Prices Rise . . . of the average dollar spent by consumers for a representative market basket of food in 1950, 47¢ went to the farmer and 53¢ went for processing. By 1962, this same market basket of food cost the consumer \$1.16; 45 cents went to the farmer and 71 cents went for processing and distribution. Thus, food prices in retail stores rose 16% although farm prices of food actually declines.

## At Home In Parmer County

By CRICKET B. TAYLOR  
County HD Agent

The rain has put a big smile on everyone's face and it is with a great deal of pride that we show visiting friends and people what beautiful crops can be produced in Parmer County.

There are many activities now, here at the close of school. Adult leaders in 4-H are already busy with activities involving 4-H members.

Four leaders attended the Clothing training meeting in Friona Thursday in preparation for the group project work they will be doing with members. How to select, care for clothing, grooming and clothing construction were the lessons discussed.

Mrs. C. M. Phipps, Mrs. G. A. Collier, Mrs. Franklin Bauer and Mrs. Walter Schueler will be working with the girls in that Club.

Mrs. Adrian Weir, Lazbuddie and Mrs. Edmund Kitten of Oklahoma Lane will be working with the older 4-H girls in their local Clubs.

Mrs. Adrian Weir, Lazbuddie and Mrs. Edmund Kitten of Oklahoma Lane will be working with the older 4-H girls in their local Clubs.

Mrs. Bill Dollar of Farwell is a new volunteer leader. She will be working with Mrs. L. C. Herington as Clothing leader.

### HOMEMAKING IS A TEACHING OPPORTUNITY

Do you know that most women tend to "play down" their role as a homemaker? How many times have we heard the answer when asked what they did, "I am just a homemaker."

Really homemaking is and can be a very creative and challenging job. It is more than housework, cooking and running a taxi for children. The homemaker has the challenging job of trying to bring out the best in people - her family - and this calls for:

### THINKING AHEAD

Regular planning helps, and most people find written plans a boon when things are attempted. A time plan can help provide leisure for family activities by pointing to time and energy saving ways.

### A PLACE FOR PLANNING

This may be a desk or table with a calendar, records, lists, cookbooks, papers, pencils and telephone.

Here weekly menus and shopping lists are made. A bulletin board is helpful for assignments for family members-even a large calendar can be used.

### A TIME FOR EVERYTHING

Jobs to be done at a special time alternate different kinds of

work -- heavy and light -- and leave time for family and friends. Plan what will be done, who will do it, and when it is to be done. The time spent in planning can really "pay off" in the running of a household.

Management can be creative and a teaching opportunity and this is a very important job for the homemaker.

In my recent newsletter to Home Demonstration Council members the following recipe was given. Mrs. Estis Bass, Northside Club reported such favorable acceptance of this a time saver, as well as being good, that it was requested that it be put in this column.

### REFRIGERATED MUFFINS

- 1 cup plus 2 tablespoons shortening
- 2 cups sugar
- 4 eggs
- 4 cups buttermilk
- 4 cups rolled wheat or oatmeal
- 1 Tablespoon salt
- 5 cups flour
- 1 cup raisins

Cream shortening and add sugar and eggs. Beat well. Mix together dry ingredients and raisins. Add alternately with buttermilk. When mixed, this batter may be stored in refrigerator as long as six weeks. Spoon out as much as needed when you wish to bake them and put the rest back in refrigerator. Bake 15 minutes in 400 degree oven.

## Economist Says Price Outlook For Hogs Good

Texas pork producers can look forward to good hog prices for the remaining months of 1965. That is the forecast of Extension Economist John G. McHaney and he cites several factors to back up the optimistic outlook.

The number of hogs on the nation's farms on January 1, 1965 was down by 9 per cent from a year earlier. The drop in Texas was 24 per cent, and the largest for any state in the nation, said the Texas A&M University economist. He noted that hog numbers were down in each of the regions but was smallest in the Corn Belt, 8 per cent. Numbers were down 10 per cent in the North Atlantic and South Atlantic regions, 12 per cent in the West and 13 per cent in the South Central, which includes Texas. On January 1, 79 per cent of the nation's hogs were in the Corn Belt region, he said.

Another important factor in

## Revised Beef Grades In Effect June 1

Revised U. S. Department of Agriculture beef grading standards will go into effect June 1.

The new standards will leave the Prime, Choice, Good and Standard classifications unchanged, but will reduce marbling requirements for beef in those grades, depending on grade and degree of maturity. The marbling reduction angle will not materially affect the requirement for young cattle.

Frank Orts, Texas Agricultural Extension Service meats specialist at A&M University, says research has shown that too great an increase in marbling has been required to offset increased maturity in cattle 18-30 months of age.

Under the revised standards, marbling requirements have been reduced almost one full degree from "Moderate" to "Modest" for carcasses from animals about 28-30 months old. Progressively smaller reductions have been made for carcasses from younger cattle.

"The revised standards will also reduce the number of maturity groups from three to two in the above-mentioned grades and eliminate the consideration of the two degrees of marbling in excess of abundant," the specialist said.

He added that the revision also requires that all beef carcasses offered for grading be "ribbed" to expose the ribeye muscle for marbling determination. A carcass is ribbed by separating the fore and hind-quarter between the 12th and 13th rib.

The new cutability standards, which are included in the re-

vised standards, are available on an optional basis for the first time. Packers are not compelled to use the system.

"This innovation will reduce the amount of fat deposited on the carcass and increase the size of ribeye, which should entice producers to produce cattle with a more desirable carcass from a merchandising standpoint," Orts said.

Degree of finish on fat covering has the greatest influence on estimated yield of these carcasses, he said. Amount of fat which must be trimmed varies widely within the same weight and grade of beef carcasses. The difference can mean as much as \$8 to \$10 per hundredweight, or a 600-pound carcass, \$48 to \$60 per carcass.

"These cutability standards, if employed on a wide scale in the industry, can contribute significantly to improving meatiness of beef cattle and provide

the retail outlet with the type of beef consumers prefer," Orts emphasized.

Cutability standards establish five classifications ranging from 1 to 5. They are based on fat thickness over the ribeye, size of ribeye, quantity of internal carcass fat, and carcass weight.

The cutability Grade 1 classification will identify carcasses yielding the highest percentage of boneless, closely trimmed steak and roast, and Number 5 will identify those having the lowest percentage.

Carcasses falling into cutability Grade 1 are estimated to yield 53-55 per cent of their weight in boneless, closely trimmed steak and roasts; cutability Grade 2, 50.8-53 per cent; Grade 3, 48.5-50.7 per cent; Grade 4, 46.2-48.4 per cent; and Grade 5, 46 per cent and under.

The USDA reports accuracy

## Water Needed For Animals After Attack

The first need for farm animals surviving a nuclear attack would be for water. Nothing is more important to living plants and animals than water, explains civil defense specialist at Texas A&M University.

An animal, he adds, can live a long time without food, but will soon die if water is not provided. An animal's blood is 80 per cent water and a loss of one-tenth of its body water will cause death, he says. Too, water is closely linked with all of an animal's internal body reactions.

of their graders' estimation and the actual cutout to be about 80 per cent. But tests at Texas A&M have shown an accuracy of about 60 per cent.

"This is probably due to internal fat estimation," Orts said. "Even though the accuracy of this estimation is not 100 per cent, it's still a good indication of the actual cutout of the carcass."

In the past, grading standards have not considered the amount of waste fat on carcass beef, Orts added.

Most livestock which normally remains in buildings, such as laying hens, broilers, fattening hogs, and some dairy cows and sows, depend upon water piped to them under pressure from a well. When the source is properly protected from bacterial contamination, says the specialist, the water should be safe for livestock use.

Hollmig feels there is a good chance that electricity would be available in most rural areas following a nuclear attack. This would permit pumps to continue to function. But in case of power failure, an auxiliary power source or a substitute supply of water would be needed. Since farm ponds and streams would in all probability be contaminated with radioactive fallout, water from these sources would offer little relief. Runoff from rain following the fallout would make the situation even more serious, he says.

If water from a farm pond were the only available source, he believes it could be used after a couple of days. By then most of the fallout would have settled to the bottom of the

pond. If the water were taken from the deep end of the pond and about a foot below the surface, radioactive material would be at a minimum, says Hollmig. A plastic pipe with a floating intake could be used to carry the water, either by gravity or pump, to a trough. The pond should be fenced.

It is impossible to do these things following a nuclear attack says the specialist, so make plans in advance.

Texas pork producers can look forward to good hog prices for the remaining months of 1965, says Extension Economist John G. McHaney. Hog numbers in the U. S. were down 9 per cent on January 1, 1965

from a year ago. In Texas, they were down 24 per cent, he said. The more favorable prices and improved outlook for the months ahead could encourage an expansion in farrowings

but, if this happens, he added, prices and slaughter supplies probably would not be affected until late this year or early 1966.

### Financing A College Education

The problem of financing the college education of one or more children is a concern of a large number of families this year.

How will these funds be raised to finance the college careers? Perhaps it will help to know how many families manage, says Mrs. Wanda Meyer, Texas A&M University Extension home management specialist.

Research studies reveal that:

1. Families and relatives are responsible for two-fifths of the student's income.
2. Another fifth comes from long-term savings -- probably contributed largely by parents and grandparents.
3. Students themselves finance over a quarter of their income during the school year and summer.
4. Scholarships account for about one-twentieth of the students' income and were received by about 21 per cent of the students.
