Texico Post Office To Be Dedicated Oct. 7

WINSTON W. CHURCHILL

Speaker for the dedication services for the new Texico Post office building, Oct. 7, 7:30 p.m., will be Winston W. Churchill, Real Estate Officer for the Denver Region of the Post Office Dept.

Churchill was born in Denver in 1922. He holds a BA from Regis College and has done graduate work at the University of Denver. He served four years with the U. S. Coast Guard and two years as an instructor with the U. S. Air Force.

In addition Churchill served as clerk of the Jefferson County Court for a three year period and was licensed as a real estate agent in the state of Colorado. He is active in religious and civic affairs in the city, county and state.

He has been real estate officer for the Denver Region of the Post Office Department since 1951. In this capacity he represents the office in real estate transactions throughout Colorado and Wyoming.

In addition to the main address by Churchill a varied program will be presented with Mayor E. L. (Ed) Garmer as master of ceremonies. The Texico high school band, directed by Gerald Tiffin will present a perlude of music after which Mrs. Lucy O. Brown, Texico Postmaster will introduce the program. Invocation will be given by Rev. Leroy Looper, pastor of the Texico First Baptist Church. Mrs. Brown will introduce guests, which will include several state dignitaries including U. S. Senator Joseph Montoya, who will dedicate the Melrose Post Office earlier in the day, Montoya will have with him a caravan including approximately 100 cars.

Following the main address a flag will be presented to the postmaster, on behalf of the Texico office. The flag will be one which has flown at the White House in Washington, D.C. After the flag has been presented, Boy Scout Troop 201 from Farwell will hold a flag raising ceremony. The band will play the national anthem and Rev. W. C. Strickland, pastor of Hamlin Methodist Church will present the benediction.

Refreshments will be served, courtesy of the Texico Post office employees. Construction of the new home of the post office was begun on July 1. The building is of brick and cinder block construction. It contains 1,700 square feet of floor space in comparison with the 877 square feet in the old building. The building will have a total of 108 square feet of platform space, 7,717 square feet of parking space will be hard surfaced, making for greater ease in the parking of postal vehicles and the moving and handling of mail.

Interior of the building is comfortable and attractive with fluorescent lighting, air conditioning, hot air heating, and open low style counters. Many other features will also be noted, according to Mrs. Brown, which the post office department has designed for efficient and economical handling of mail and improved mail and postal service.

Employees of the Texico post office include Mrs. Lucy O. Brown, postmaster, Mrs. Eunice Crume, regular clerk, Mrs. Katherine Lockhart and Mrs. Louise Engram, career substitute clerks, and carriers of the rural routes, Loren Wilson and Melvin Burns.

Senator Montoya will give a brief address during the dedication service.

Brother Of Local Woman Dies

Funeral services were conducted on Monday in Lyford, Texas for Carl King 75, brother of Mrs. J. T. Hulsey who passed away at his home in Lyford on Saturday following a heart attack.

Services were conducted from the funeral home in Raymondsville and burial was in the Lyford cemetery.

Survivors in addition to the local sister include a daughter, Mrs. Mabel Saul and three grandchildren.

Yearlings Take Win From Clovis

The Farwell Yearlings came out on top of a 20-6 decision Thursday night in Steer Stadium, as they defeated the Marshall Kittens from Clovis. The Yearlings marched 80 yards from the opening kickoff to make the first touchdown of the game, with Ricky Lee carrying, Al Phillips carried over for the extra two points to increase Farwell's lead to 8-0, in the first quarter.

Clovis came back to get in the scoring column after a 75 yard march early in the second quarter. John Anderson made the touchdown.

The half ended with the Yearlings in the lead 8-6. Al Phillips ran 55 yards for a touchdown midway in the third quarter to increase Farwell's lead to 20-6.

The Yearlings threatened to score again in the final quarter when they marched to the 10 yard line and then lost the ball on a fumble.

There were no further scores made and the game ended 20-6 in favor of the local eleven.

Johnson Children Improving

The Russell Johnson's received word early this week that their four year old granddaughter, Ginger, who has been hospitalized in Amarillo with meningitis is slowly improving. She has been transferred to the hospital in Canadian.

The year old daughter of the Johnson's who is also suffering from the same disease was dismissed from the hospital last week. She is in good condition.

Mr. and Mrs. Johnson also received word that another granddaughter, Teresa Ann, daughter of the Bill Johnson's of Alva, Okla. had undergone a tonsilectomy. She has been dismissed from the hospital and is in good condition, according to her grandparents.

Steers To Meet Seagraves In Friday Night Game

Coach Toby Booth listed Seagraves, the foe the Farwell Steers meet Friday night, as "probably the best ball club we'll play all year," as he expressed optimism that the Steers will play them a good ball game.

Game time is 8 p.m. at Seagraves. Coach Booth doesn't plan any changes in the line-up this week, and reports all the boys are in shape and ready to go. Jerry Childs and Butch Ford had been ill in the past weeks, but with an open date last Friday, they

have had time to recuperate and are in good shape.

They are a good heavy ball club, weighing in at an average of 185-190, says Booth and they move good, with fine running and a good passing attack.

Seagraves has a 4-0 record for the season, having topped Frenship, Eunice, Springlake and Jim Ned. Booth lists Seagraves Faulkinberry as probably one of the best backs in

District Attorney Named Officer Of State Assn.

At the recent meeting of Texas District and County Attorneys Association in Austin, Jack Young the district attorney

for this district was named to the office of vice-president of the association.

Mr. Young had previously held the office of secretary-treasurer of the association. In announcing the election of Young to the post Bill Walters, president of the association said, "Your area has been honored by the election of your district attorney as an officer of the state association and his recognition by others in the same field is justly deserved."

Second grade children in the class room of Mrs. Janice Vines, a new teacher in the Farwell School, are enchanted with the weather report displayed each day on the bulletin board in their classroom. Note the change in clouds which were fleecy white ones in the morning to the storm clouds in the afternoon. Wind velocity is noted by a change in the trees.

Wolverines Defeat Elida 8-1 Juniors Lose 3-0

Sharing pitching chores in a two hit game for Texico Wolverines Thursday were Mike Spearman and Roy McDaniel. Wolverines won the game 8-1.

The single run for Elida came in the 7th inning on errors by the Texico fielders, Big "stick"

for the Wolverines was Wesley Raulie who had two runs on one hit for the day. Raulie plays second base. Other boys getting runs were Joe Patterson, Mickey Lofton, Jimmy Webb, Neil Lambert, Mike Spearman and Emmitt Autrey.

Season record now stand at four wins for the Texico group, who have taken two wins from Elida and one each from Logan and House. They will collide with Grady on the local diamond today (Friday) at 2:30 p.m.

"The boys are still working hard," commented Coach Green, adding "Our luck has held thus far and we hope it continues to hold. We are still looking for the long ball hitter," he concluded.

The Wolves will be hampered when they collide with Grady Friday as two of the regulars, Joe Patterson and Jimmy Webb are laid up with illnesses and injuries. Two other boys, Roy McDaniel, who has assisted with pitching duties in each of the games, and Ronnie Richardson, an outfielder are also sick and injured.

Junior high Wolves lost a thrilling game to Elida 3-0 preceding the senior game on Thursday. Glen Corbitt, pitching for Elida had a perfect day allowing no hits. Manuel Martinez, Texico pitcher, allowed only one hit and held Elida scoreless until the sixth inning. In the bottom of the sixth inning after two men were on bases due to errors Creighton hit a homer bringing in the base runners for the only scores in the game.

Junior high team has a season record of one win and two losses (both to Elida). Score in the other Elida game was 9-8. Coach Green said "Our boys

are good on defense but failed to get into the hitting section."

Mrs. Kirk Wins Weekly Prize, Tie For First In Overall Contest

Calling eight games right and only seven points off on the tiebreaker score this week to win first place prize money in the weekly armchair quarterback club football contest was Mrs. A. D. Kirk. She edged out Mrs. Leroy Kitten who took second prize money by a scant seven points on the tiebreaker score. The two ladies were the only ones of the 101 contestants calling as many as eight games right.

Robert Shuman with a total of seven games called right edged out three other persons on the third prize money by being a little closer to the score of the tiebreaker.

In the overall contest Junior Robertson is now in a first place tie with Mrs. R. S. Shuman with 28 games called correctly. In second place with 27 games called correctly are Robert Shuman, Mrs. Kirk and Mrs. Jerry Dee Owen.

Third place contenders are

Routine Meeting

Farwell city commissioners meeting in regular session Friday transacted only routine business, according to city clerk, Janie Bowery. Bills for the previous month were approved and ordered paid.

bert Johnson, Mrs. L. C. Her-John Green, Bernice Norton, Bobbie McFarland, Leroy Kitten, George Magness, Mrs. Al-

ington and Theo Actkinson. They each have called 26 games correctly.

Winner of the contest will

receive two tickets to the Cotton Bowl game and \$50. expense money. Local businessmen sponsor the contest each year.

Mrs. A. D. (Virginia) Kirk receives a check for her first place football contest winnings from Woodrow Lovelace (Texaco Consignee). Mrs. Kirk outcalled a total of 101 contestants to win weekly money and jump into a tie for second in the overall contest. She has called 27 games correctly in the four weeks of the contest.

Appearing in Texico at a coffee at the Village TV and Electronic Shop Tuesday morning on behalf of the candidacy of Joseph M. Montoya for U. S. Senator from New Mexico were his wife Mrs. Joseph Montoya and Mrs. Ken White. Pictured left to right, Mrs. W. J. Matthews, Curry County Democratic Chairwoman, Ray Stone, Curry County Democratic Chairman, Mrs. Montoya and Mrs. White.

Reverse Decision On Building Permit

At the Friday meeting of Texico town fathers a building permit was approved for Henry Selman to move in a house for a residence on Lamar street. The building permit had formerly been rejected and suit had been filed to have Selman remove the house from the property. However, after considering the matter further and in view of the fact that the house is to be remodeled a building permit was approved.

One other building permit was issued, with the permit going to M. C. Hisele to move in a trailerhouse for a dwelling in the downtown area.

The report of police magistrate Sam Lewis in the amount of \$230, collected in fines was approved for the preceding month.

In other action attorney Harry Patton was instructed to file a civil suit against Jo Davis, who operated the swimming pool in Texico the past summer. Davis had allegedly left town without paying any of the bills incurred leaving the town responsible for the debts.

A report of the Erasmo Rodriguez family dumping trash in the alleyways and other forbidden areas was received. The town constable was instructed to warn the family of the penalty

if they continue the practice. Two ordinances 104 and 109 were taken into consideration for amending by town fathers. All other business was routine.

Huggins Receives 20 Year Award

Otis Huggins, Farwell manager for Southwestern Public Service Company, received a 20 year service award Wednesday night in Plainview at the 16th service awards dinner for the electric company's Plains Division employees.

48 employees received awards from A. R. Watson, president and general manager of SWPS Company, for periods of service ranging from 5 to 35 years. Top honors this year, for 35 years, went to Arthur W. Bates of Plainview and Jesse E. McLane of Abernathy.

Throughout SWPS company's 45,000 square miles service area, 245 employees with a combined service of 3525 years will be honored at service awards dinners this year.

FIRST OKLAHOMA LANE BALE--Floyd Coates, superintendent of Oklahoma Lane Gin is shown presenting Melborn Jones, who farms in that community, a premium check for the first bale of 1964 cotton ginned there. Jones delivered the 450 pound bale Wednesday of last week--September 23. It was ginned from 1950 pounds of seed cotton. The cotton was Gregg variety. It was watered twice on every other row. Estimated yield is 1 1/2 bales per acre. The gin purchased the first bale for the premium price of 50 cents per pound.

Board Meeting Change

Superintendent A. D. McDonald, announces a change in the regularly scheduled board meeting. Instead of the first Thursday the Texico School board will meet on Monday night, Oct. 5.

Only routine matters will be transacted according to Supt. McDonald.

Tax Notices Mailed

Tax notices for the city of Farwell and from the Farwell Independent School District tax office have been mailed to local residents. The taxes are payable on October 1, however they are not due until January 1, 1965. All taxes become delinquent on February 1, 1965, according to the tax assessor-collectors, Mrs. Janie Bowery and Mrs. Dorothy Eason.

To Bedside Of Mother

Mrs. W. W. Raulie of Texico was called to Oklahoma City to be at the bedside of her mother, Mrs. J. E. McLaury last week. Mrs. McLaury had suffered a paralytic stroke early in the week.

At latest reports her condition was reported to be fair.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Jr. Varsity Wins Over Clovis Kittens

After two tied games in a row, the local Jr. Varsity managed to come out on top of a 12-6 decision against the Clovis 9th grade team in a nip and tuck battle all the way.

Calvin Wilkinson from Farwell broke loose for a 25 yard run late in the first quarter but was not able to score and the opening quarter ended with both teams remaining scoreless.

The Jr. Varsity came back the second quarter more determined than ever to get in the scoring column and that is exactly what they did when Wilkinson broke loose for a 45 yard touchdown run to put the locals in the lead 6-0. The try for the extra point was no good.

This only served to get the

Clovis team roused up and they marched back from the kickoff 70 yards to even the score at 6 all. Beasley did the carrying.

Wilkinson took the kickoff and ran it back all the way to increase the locals' lead to 12-6.

The half ended with the Farwell Jr. Varsity leading 12-6. Although trying hard, neither team was able to score in the third quarter.

The local eleven came back in force the final quarter and marched down to the two yard line and then lost the ball on downs.

The game ended to give the Jr. Varsity their first win of the season.

Lions To Sponsor Trick Or Treat Sale

October 12 is the date for the Lions Club TRICK OR TREAT Candy sale. A house to house canvass will be made by Lions club members during the evening beginning at approximately 7 p.m., according to James Ussery, Lions Presy.

In each of the bags of TRICKS OR TREATS will be candy and gum appropriate for distribution to small fry when they call at area homes on Halloween. Price of each of the bags will be approximately 50¢.

Funds derived from sale of the treats will go to help defray the indebtedness on the Little League Ball Park, where concession stands have been recently erected. Indebtedness on the park is in the amount of \$2200. Part of the funds will go into the regular sight conservation program, sponsored by the club.

Texico School Officials To Attend Joint Meet

Members of the Texico school board along with administrators, agriculture teacher and home making teacher and other interested personnel will be in Clovis Thursday (tonight) to attend a meeting of school officials and board members from Quay, DeBaca, Roosevelt and Curry Counties.

Dr. A. G. Hunt, director of state vocational training, will meet with the group to discuss parts of the federal bill now pending which deals with training students who do not choose to attend college.

The meeting will begin at 7:30 p.m. (MST) at the high school cafeteria in Clovis.

"One way to make money is to forget who you borrowed it from." — Tom Phillips, Pana (Ill.) News Paladium.

"Nothing is so strongly held to be true as that which is at least understood by fools." — Franklyn Cism, Afton (N.Y.) Enterprise.

Dial Leads Greyhounds

For the second straight week Benjy Dial, graduate of Farwell High School and a junior at ENMU has been named statistical leader of the Greyhound Pack at ENMU.

After two games Dial has completed nine of 14 passes for 181 yards with no interceptions. This gives Dial a completion percentage of .642. In addition to the passing yardage he has rushed for 89 yards to give him a total offense of 270 yards. Dial is the son of Mrs. Clyde Dial, Farwell.

An ironing board cover fits snugly when put on while damp. It stays smooth and clean longer if dipped in a medium solution of starch before being stretched on the board.

MOUNTAIN STATES TELEPHONE

Mike Camp Is District FFA V.P.

Several members of the Farwell FFA Chapter along with advisor, Robert Morton were in Sudan Thursday for the meeting of chapters in the Littlefield district.

Johnny Actkinson outgoing president presided over the business session wherein new officers for this year were elected. Succeeding Actkinson in the president's post is Stanley Black of the Muleshoe chapter.

Mike Camp of the Farwell chapter will serve as vice-president of the district. This is the second time a Farwell boy has been selected to hold a district office. In other business the chapters accepted the district work program.

Games Scheduled For Tonight

The Farwell Jr. Varsity and Yearling teams will do battle with teams from Amherst and Dimmitt tonight (Thursday).

In the Jr. Varsity-Dimmitt game, the Dimmitt team will have somewhat the advantage as they will be playing on their home field.

The Jr. Varsity will enter the game against the Dimmitt team with a record of one win and two tied games.

Although the Jr. Varsity plays away from home, the home fans will not be let down too badly as the Yearlings will face the Jr. High team from Amherst in Steer stadium.

The Yearlings go into their game with a two wins and one loss record.

Teach children the value of money at an early age and it will save many headaches in later life.

HAVE YOU READ?

OUR TEACHER

Teachers and children in the elementary school at Farwell are justly proud of Mrs. Winnie Bradley Cobb, a former teacher in the school who recently had a book of poetry published. The book "The Greening Branch" is prominently displayed in the trophy case along with the words, "Have You Read" - "Our Teacher."

Farwell Band Participates In South Plains Fair Parade

Farwell High School Band was one of 40 bands participating in the annual Area Band Day of the Panhandle - South Plains Fair held in Lubbock. The band marched in the parade in the morning, and the afternoon was spent at the Fair. Each week improvement is shown in our

band. On Wednesday, October 7th, at 2:30 p.m. in the band hall, the Farwell Band Boosters will sponsor a "get-acquainted coke party" for all parents of new band members. This will be held in conjunction with our regular monthly meeting and all band boosters are urged to attend. Compilation has begun of an annual project of the Band Boosters. If you are not contacted by October 15th, and desire a calendar, get in touch with Mrs. Elmer Hargrove, project chairman.

Sentence Revoked

According to word from the office of Parmer County Sheriff Charlie Lovelace the sentence of David Garza, 20, which had been probated in the spring was revoked in the September term of district court. Garza has been transferred to Huntsville to begin serving a five year sentence for burglary of Gaines Hardware in Bovina.

County Reaches 80.7% Of Savings Bond Goal

Mr. Frank Spring, Chairman of the Parmer County Savings Bonds Committee, announced that the county's August Savings Bond sales totaled \$4,376. Sales for the first eight months of this year were \$56,548 which represents 80.7 per cent of the 1964 sales goal. Total sales in Texas for the first eight months of the year were \$100,643,333 or 67 per cent of the state goal. Savings Bond sales have increased approximately \$900,000 compared to the same period in 1963. "In a recent brochure the

Treasury Department stressed the tax advantages of buying E Bonds. While the interest is subject to Federal income tax, the reporting of E Bond interest may be deferred until the bonds are cashed or reach final maturity. This means that the owner of the bonds can choose to cash his bonds in years of lower income. This fact makes the E Bond particularly attractive to the large investor and for those persons either planning retirement or supplementing an existing retirement program," Chairman Spring stated.

Announces Daughter's Marriage: Mr. and Mrs. Prentice Mills announce the marriage of their daughter, Donna to Ronnie Wines, son of Mr. and Mrs. David Wines, Bovina on Saturday, September 26 at 4 p. m. in the study at the First Baptist church in Farwell. Rev. J. L. Bass officiated the ceremony which was attended by parents of the couple and Mrs. Eva Bailey, Plainview, grandmother of the bride. Mr. and Mrs. Wines are making their home in Bovina where he is employed.

H.D. Meeting Announced

All ladies in the Farwell area interested in becoming members of a home demonstration club are invited to a meeting in the office of Cricket Taylor, Parmer County HD Agent, at the courthouse in Farwell on October 8, 9 a.m. - 10:30 a.m.

Anyone desiring further information on plans for the club should contact Mrs. Glen Lesly- phone 825-2190 or call Mrs. Taylor at her office. A need for a local club has been expressed by several ladies and plans are in the making for the organization of such club. Plans will be completed at the Oct. 8 meeting.

Attorney Discusses Wills For Sorority

Hurshel Harding, local attorney, discussed "Wills" in keeping with the program theme, "Knowledge for Women In A Crisis", at the Monday night meeting of Theta Rho chapter of ESA. The meeting was held in the home of Mrs. W. H. Graham.

He described a will as the written disposition of properties, which goes into effect after death, and then not until properly probated. After briefly describing the different types of wills, he explained problems encountered with inadequate will and when persons die leaving no will.

Harding described Texas laws governing disposition of property when there is no will, and the steps in probating a will.

Mrs. Bert Williams introduced the speaker.

In a brief business meeting, Mrs. Joe Tankersley, president, announced the time of the council meeting, slated the weekend of Oct. 11 in Alamo-gordo, N. M.

Reports were heard on the rummage sales, now underway, and on the cystic fibrosis coffee, sponsored by Theta Rho chapter. Members also decided to donate \$10 from chapter funds, for the drive. Cystic fibrosis is the state ESA project.

Cookies and coffee or pop were served to members and a special guest, Mrs. Ed Farmer.

Recent visitors in Farwell and Texico in the homes of relatives were Mr. and Mrs. G. V. Bohannon, Checotah, Okla. They visited in the Bill Moss, D. O. Rolland and Jim Moss homes and in the home of Mr. and Mrs. Ollous Killingsworth in Muleshoe.

FBLA Holds Night Meeting

The Texico F. B. L. A. club met in the Texico High School business room Tuesday night in the first night meeting of the year for the purpose of electing officers.

Officers elected for the year of 1964-65 are as follows: Mike Spearman, president; Mickey Lofton, vice-president; Peggy Hughes, secretary; Sharon Peyton, treasurer; Don Baldrige, historian; Nell Lambert, parliamentarian; and Leonard Hutsell, reporter. Sponsor is Mrs. N. W. Peyton.

The club will hold a program for the Texico P. T. A. meeting Tuesday with Pete Harrison acting as M. C.

Friends Invited To Housewarming

All friends and relatives of Mr. and Mrs. Preston Martin are invited to a housewarming in their honor Sunday night 7:30 p.m. or immediately following the dismissal of church services at the local Church of Christ. This is a come and go social.

Location of the Martin's home is the first house east of the underpass on the Oklahoma Lane Farm to Market road.

Hostesses for the social are Mmes. Glen Lesly, Johnnie St. Clair, Dwayne Nance, Bob Sewell, Bob Hammonds, Virginia Sheets, Bettie Baldrige, B. V. Hughes, C. J. Huffaker and O. C. Harriman.

Variety Club Has Informal Visiting Session

Oklahoma Lane Variety club met in the home of Mrs. W. N. Foster last week with 12 members in attendance. Games were played and the afternoon was spent in informal visiting.

The hostess served a refreshment plate of salads, cup cakes, tea or coffee.

Attending the meet were Mmes. J. R. Caldwell, G. A. Bandy, L. M. Grisson and Lola Jean Grisson all of Bovina; Sam Sides and Lloyd Batty both of Hereford; C. C. Christian, Claude White, George Lindop, Thad Watkins, Cora McGuire, and the hostess all of Farwell.

Next meeting will be in the home of Mrs. McGuire on Oct. 21.

Rainbow Officers Installed Saturday

Martha Coffey was installed Worthy Advisor of Rainbow Girls Saturday evening in installation ceremonies at Masonic Lodge Hall.

Other officers installed were Worthy Associate, Linda Johnston; Charity, Carol Mast; Hope, Brenda Dilger; Faith, Myrna Ritchie; Chaplain, Teresa Page; and Drill Leader, Sheryl Lane. Others installed were Cindy Crump, Denise Clements, Melissa Pruitt, Karen Bell, Doris Corn, Pat Reeves, Camille Hobbs, Cathy Sikes, Kathy Estes, Pamela Grissom, Merideth Anderson and Suzanne Wilson.

Installing officers were Mary Coffey, Donna Dunn, Linda Langston, Peggy Eason, Susan Birdson.

The theme chosen by Miss Coffey for her term is "Strength Through Christ."

Paul Durham of Muleshoe sang "My God and I."

Rev. Harold Morris presented awards to Myrna Ritchie and Doris Corn.

Following installation ceremonies the group was served refreshments down stairs.

The table carried out a color scheme of blue and white and featured a Rainbow cake.

RAINBOW GIRLS -- Rainbow candidates initiated into order Monday evening are Meredith Anderson, left and Suzanne Wilson. Meredith is the daughter of Mr. and Mrs. R. W. (Bob) Anderson of Farwell.

Katrina Harriman Is Two Years Old

Katrina Beth, two year old daughter, of Mr. and Mrs. James O. Harriman was honored for a birthday party on Sept. 23 in the home of her parents.

After gifts had been opened by the honoree, refreshments of birthday cake and punch or coffee was served. The cake was white iced in pink, centered by a ballerina doll, flanked by two pink candles. Centering the serving table was a ballerina doll dressed in pink.

Attending the social were Cidney and Rocky Ford, Dwana Butler, Doug Harriman, Larry McDorman Jr., and Messrs. and Mmes. Curtis Birchfield, O. C. Harriman, Doyle Ford, Larry McDorman, Bob Butler and the honorees parents, Mr. and Mrs. J. O. Harriman.

KATRINA HARRIMAN

Attend THDA Convention

Parmer county ladies who left Amarillo on chartered buses the middle of September for the State THDA meeting in Houston were Mmes. Walter Kaltwasser, Farwell, Gene Welch, Black and James Briggs of the Lazbuddie club.

Theme of the meeting was "American Woman- Her Changing Image." Principal speaker at the three day convention was Mrs. Grace Winn, Houston, who works with NASA. Her job deals with finding homes for the families of the men who are working on the space program. She presented many highlights of the space program for the ladies enjoyment.

The three Parmer County delegates attended two each of six workshops. Mrs. Kaltwasser attended the workshops on 4-H Clubs and on recreation training. One of the highlights of the recreation program was watching a 60 year old woman direct group singing, which she stressed, is a recreation which any group will enjoy and will be able to participate in.

Also stressed was the fact that all recreation is not play, but can indeed be service to others. Other workshops gave tips on health, safety, family life and citizenship. Material on the workshops is available in the office of Parmer County HD Agent Cricket B. Taylor.

Elected THDA Chairman for district I was Mrs. E. A. Hodges of Hereford.

Attend Reunion

Mr. and Mrs. M. T. (Mose) Glasscock were in Seymour over the weekend where they attended a reunion of the Hashknife Ranch crew. Glasscock formerly worked for the ranch. While in Seymour they visited in the home of Mr. and Mrs. Horace James. On the return trip they stopped in Lubbock for a visit in the home of Mr. and Mrs. Orville Cunningham and son, Gene.

Visit In Petree Home

A recent visitor in the home of Mr. and Mrs. O. C. Petree has been Mrs. Dollie Downs, Modesto, Calif. Mrs. Downs is a sister of Mrs. Petree and she along with the Petrees were guests in the home of Mr. and Mrs. Everett Smith in Clovis for a Sunday dinner. Smith is a brother of the ladies.

Other visitors in the Petree home have been Rev. and Mrs. J. Cecil of Shamrock and Mr. and Mrs. R. B. Perrin, Post.

Mrs. Cecil is a niece of Petree and Mrs. Perrin is a cousin of Mrs. Petree.

Okla. Lane WMU Hosts For Installation Service

Ladies of the Oklahoma Lane WMU were hosts to the Farwell, Bovina and West Camp auxiliaries on Tuesday for an officer installation service for the coming year.

Program was opened by the group singing the WMU song of the year "O Worship The King," lead by Mrs. John Vaughn of the Oklahoma Lane Church. Devotional and Prayer calendar were presented by Mrs. Carl Coffey assisted by Mrs. Vernon Symcox.

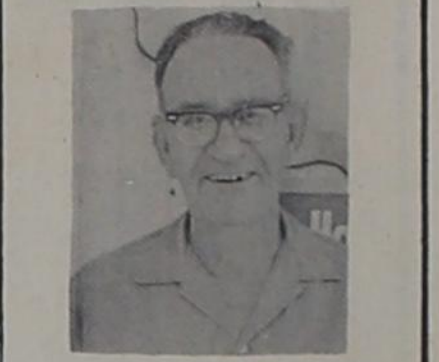

Theme of the meeting was "Volunteers For Christ" presented by Mrs. James Holland, installing officer, Amhurst assisted by Mrs. Betty Duvall. Scripture used by Mrs. Holland was taken from Matthew 21, verse 3.

Following the installation service a social hour was enjoyed. Mrs. Vaughn and Mrs. Ray Verner of Oklahoma Lane presided at the serving table and also presented a skit, Mrs. Roy Lovett, Farwell also presented a skit. The installing officers were presented with individual gifts from each of the WMU organizations.

Serving table was covered with a white lace tablecloth and centered with an arrangement of blue and white mums. Individual cake squares, iced in white and decorated with the WMU symbol in blue, were served with punch. Crystal and silver table appointments were used.

Attending the meeting from Bovina were Mmes. Keith

Uncle Ray's "Hot Air"

An open mind is all very well in its way, but I thought not to be so open that there is no keeping anything in or out of it. It should be capable of shutting its doors sometimes, or it may be found a little drafty.

Birthday Dinner Honors Mrs. Ray Tharp

The home of Mr. and Mrs. Nathan Tharp in Texico was scene for a birthday dinner honoring Mrs. Ray Tharp Thursday evening. Hostesses for the social were Mrs. Ben Zachrel, Mrs. Tharp's daughter and Mrs. Nathan L. Tharp,

a daughter-in-law. Grandchildren of the honoree presented her with a centerpiece for the table, made from button mums and large spider mums in yellow and bronze tones.

Following the dinner family members assisted the honoree with opening gifts. Informal visiting was the order of the day.

Attending the social were the honoree and her husband, Mr. and Mrs. Ray Tharp, Mr. and Mrs. Nathan Tharp, Clint and Rhonda, Mrs. Ben Zachrel, Edith, Ray and Steven, Mrs. Phil Elliot and Leslie, Miss Judy Tharp and Irene Dyer.

**Club Members
Receive Prizes
At State Fair**

Two members of the Texico 4-H club and one member of the Pleasant Hill Pals Club received recognition in several fields at the New Mexico State Fair held in Albuquerque recently.

Janet Wilson of the Texico club received prizes on skirts, overall patches and sportswear in the clothing division. Veda Wilson, sister of Janet and also a member of the Texico club received a prize on four napkins. The Wilson girls are daughters of Mr. and Mrs. Loren Wilson of Pleasant Hill. They attend Texico schools.

Janet Sharp a member of the Pleasant Hill Club received a first place prize on her entomology exhibit. She is a freshman at Stephens College and the daughter of Mr. and Mrs. Vernon Sharp.

**Marriage
Licenses Issued**

Marriage licenses issued from the office of the Farmer County Clerk in recent days went to: Terry Niece and Linda Hudson, Texico; Pedro Dimos and Herlinda Gonzales; Ronnie Dale Wines and Donna Mills and to Jerry Dean Hinkle and Lucy Beth Miller.

Willie Williams, who was recently hospitalized is recovering satisfactorily at his home.

WORTHY ADVISOR -- Martha Coffey was installed Worthy Advisor of Bovina Rainbow girls Saturday evening in installation ceremonies at Masonic Lodge Hall.

**Roll Call Answer
How To
Remove Stains**

Modern Homemakers of Texico met in the home of Mrs. Paul Skaggs recently for a regular meeting and planning session. Roll call was answered by each member giving a hint on how to remove stains from clothing.

During the business meeting Mrs. Joe Camp was elected president to replace Mrs. Willie Hammond, who has accepted employment at a Clovis Bank. Plans were made for the club officers to attend the Chamber of Commerce Luncheon and tour in Amarillo soon.

Mrs. Elward Combs and Mrs. Camp demonstrated "How to Clean Upholstery." Next meeting was set for Oct. 13 in the home of Mrs. John Hill.

In attendance at the meeting were Mmes. C. H. Webb, W. E. Martin, John Hill, Elmer Teel, Paul Skaggs, Roy Rickstrew, T. W. Lowery, guest, and those previously mentioned.

Rummage Sales To Continue

Fall means rummage sales for members of Theta Rho, ESA, and has become closet cleaning time for many area housewives who choose this method of aiding in the work of the civic group. Rummage is donated to ESA and sold during a series of weekend sales.

Mrs. Joel Tankersley, ESA president, notes excellent response to the sales this year -- with a large number

of items donated for sale, and good response to the event from customers.

ESA members voted Monday to continue the events into October, with a sale slated for the fifth straight Saturday. She expresses her thanks to all those who have made the project worthwhile. "ESA has always had excellent response from the community in the work of the sorority and we appreciate this help so much," she adds.

LOCALS

Visitors in the home of Mr. and Mrs. E. G. (Blackie) Williams over the weekend were Mr. and Mrs. Herbert Williams and son, Danny of Lubbock.

Mr. and Mrs. Mitz Walling and children, Edith Ann and Milton Lee were in Clovis Monday night to attend a birthday dinner for Mrs. Walling's father, C. L. Gunn.

PARMERS POISED ON BRINK OF HARVEST

By W. H. Graham
Like a fully-bred race, Parmer County is poised and ready to enter the fields and get the 1964 harvest underway.

The grain sorghum crop is considered "average to good" and farmers are crossing their fingers about the cotton, but all agree it's time for the sun to shine and harvest to get started. Parmer County, like most of the High Plains, has been under a cold, wet blanket for the past two weeks, which has brought some badly-needed and much appreciated moisture to some areas, but which has generally interfered with the maturing processes of both feed grain and cotton.

In the case of the latter, it's a critical issue, since the cotton crop has been trying to catch up all season long. Cool, wet weather just frustrates the plants, which go on blooming and trying to set fruit instead of making cotton as their owners wish they would.

On the whole, barring continued adverse weather, (and an early freeze), farmers feel they will be in pretty good shape this year if the harvest progresses normally.

The biggest blessing of 1964 has been the absence of insects and disease. Also, most areas escaped the ravages of summer hail.

The biggest problem of the 1964 season has been, without a doubt, the extremely dry weather. Irrigation was a life and death matter on almost every farm and the wells were pumped around the clock.

This extremely trying demand on the area's vast underground water reserves has had a telling effect, and it may turn out that 1964 proved to be the first year in the history of the Parmer County area that there was a shortage of water but NOT a shortage of wells.

In every year up until this one, the limiting factor on just how much water was available to insure a good crop was the number of wells available to pump it.

Not so in 1964. Many farmers report that their wells, operated on a week-after-week basis, produced serious draw-downs in the water table, and yields of the wells were reduced.

Eight-inch wells which when installed perhaps ten years ago once delivered 900 to 1000 gallons per minute, now often pump from 600 to 700 gallons, and many produce less than that.

Usually the reduced yield is a result of interference from other hard-pumped wells nearby, and reduced pressure (from a reduced "head") in the bottom of the well which limits how fast the water can enter the well from the producing formation.

Reduced yields certainly do not mean the approach of complete water depletion, but they do signal that there is a limit to the resource.

This is coming home as a sobering realization to some area farmers, Parmer County, since 1953 when an inventory was taken of water reserves on the High Plains, has been the acknowledged leader in ground water resources.

At that time, 13,600,000 acre feet were estimated to underlie the 30 square miles comprising the county. To get an idea of what a prodigious puddle that is, consider that it is about three times the capacity of any of the largest lakes in the state.

Parmer Countians have

watched with a deep appreciation, and maybe some prayer, how their pumping ability has continued unabated for well over a decade, while thousands of High Plains farms to the east and southeast have rationed irrigation water.

Now, for the first time, they are beginning to sense the urgency of conservation and proper utilization of their most precious natural resources.

When a farmer lowers his pump to the "red bed" (impervious triassic formation) and is able to lift only a half pipe of water, he's in trouble. Most Parmer County farmers aren't in this situation yet, but they can see the handwriting on the wall and are determined to make the most of what they have.

County Observes 4-H Club Week

About 240 4-H Club members in Parmer County are observing National 4-H Club Week, September 26 to October 3. The head-heart-hands-health youth are among 2 1/4 million members of 94,700 clubs in areas throughout the 50 States and Puerto Rico. Here in Texas 16,000 adult leaders work with the 84,000 club members.

Parents and school officials continue to give strong support to local community 4-H Club programs because the movement places emphasis on practical experiences for youth in the fundamentals of the American Agri-business system and our democratic constitutional heritage.

A youth invests capital, time and talent, must keep accurate records, competes in contests and often sells a completed project for profit or loss. These experiences are recognized as principles of the successful American business system. We find in 4-H, youth's best opportunity for practical experi-

ence in applying these principles.

4-H Clubs are organized in community areas. Volunteer

adult leaders serve as advisors to the youth in club organization and project activities. Each member may select one or more of 142 projects or activities to engage in during a year.

Boys and girls interested in joining should contact a local 4-H leader, school principal or the County Extension Agents.

Steering Committee Thanks Commissioners

We, the steering committee of the multi-purpose Dam Project on the Running Water Draw watershed in Parmer County meeting in the District Court room in the Parmer County Courthouse in Farwell on Sept. 28, 1964, respectfully submit the following to the Commissioners Court of Parmer County for their consideration.

1. We express our appreciation on the part of the citizens of Parmer County for the actions and interest shown to date, by our Commissioners in this project. We endorse your allocation of funds for the planning group.

2. We recommend the Commissioners Court be the sponsoring agent of the Multi-purpose Dam Project.

3. We recommend the Commissioners Court determine the most feasible method of financing the County's portion of this project. We feel a bond issue to be in order if it becomes necessary, in view of the many values to be derived by the citizens of Parmer County.

4. The under signed representatives of the following communities pledge their support to this project, without respect to the location of the Dam.

A. L. Hartzog, Bovina
J. W. Gammon, Lazbuddie
Melvin Sachs, Rhea

Sixteen Texas counties are participating in a special pilot nutrition education program for young homemakers, according to Foods and Nutrition Specialists at Texas A&M University. The pilot project is part of a nationwide nutrition program aimed at reaching more young families with pre-school children, they explain.

If You're Interested In Buying FARM MACHINERY Call Big Nick Trienen at Machinery Supply Hwy. 60 Bovina Phone 238-4861

THE HIGH PLAINS FARM AND HOME

Badly burned feed is a painfully common sight on Parmer County farms this year. Farmers received practically no help from rain in producing the 1964 crop, and in some cases there just wasn't enough water to go around. In this picture County

Agent Joe VanZandt looks over some fired plants on the lower end of a field in the Lazbuddie area. In this case a steeply sloped field contributed to the watering problem.

ASCS Committeemen Elected To Serve For The Coming Year

Results of the election of ASCS Committeemen who will serve Farmer County for the coming Farm Program Year is as follows:

Elected as County Committeemen: Archie L. Tarter, Chairman; Tom Beauchamp, Vice Chairman; Louis Welch, Member; Raymond McGehee, First Alternate; John McFarland, Second Alternate.

It is to be noted that the three regular county committeemen (Tarter, Beauchamp and Welch) will have collectively served on this committee for a period of 24 years. Mr. Tarter, 9 years, 8 years for Mr. Beauchamp and 7 years for Mr. Welch. Mr. McGehee and Mr. McFarland will each be serving for the 2nd year.

These men are to be commended for sacrificing their own time for the service of the farmers of this county.

Those elected as ASCS Community Committeemen for the coming year are:

Community Committeemen for Community "A" - Curtis Murphree, Chairman; Gene Welch, Vice Chairman; D. L.

Carmichael, Member; W. D. Buske, First Alternate, L. W. Loanman, Second Alternate. Community Committeemen for Community "B" -- John McGehee, Chairman; Henry Ivy, Vice Chairman; John Agee, Member; J. T. Mayfield, First Alternate; Luther

Hall, Second Alternate. Community Committeemen for Community "C" -- Lloyd Gober, Chairman; Robert Calaway, Vice Chairman; Vernon Estes, Member; John McFarland, First Alternate; Lawrence Jamerson, Second Alternate.

Texas Gets Larger School Funds Share

Texas schools will get a larger share than last year of national school lunch funds allotted to the states by the U. S. Department of Agriculture.

The increase amounts to \$214,264, which runs the total state allotment for the current school year to \$6,645,429, according to John J. Slaughter, southwest area, food distribution division, Agricultural Marketing Service, Dallas.

This USDA office works with the school lunch division, Texas Education Agency, in handling

the school lunch program. The increase in the Texas allotment reflects the \$9 million increase in national funds which total nearly \$130 million for the current school year, explains Mr. Slaughter.

Each state receives school lunch funds on the basis of the number of USDA Type A lunches served during the 1963-64 school year and adjusted by the state per capita income. This federal money helps elementary and high school students get wholesome lunches at the lowest possible cost, for it is used to pay the school a certain sum for every Type A lunch served a student.

Rate of payment for each lunch is determined by the state agency, but it usually represents 10 to 20 per cent of the cost of the lunch to the student.

On the national average, federal assistance in cash, plus foods donated by USDA, make up slightly more than 20 per cent of the cost of school lunches. Payments from children account for nearly 60 per cent while state and local sources provide the remainder. Only schools serving Type A lunches under the national school lunch program will share in this \$6,645,429 cash allotment to Texas.

47 Farmers Receive FHA Loans In Co.

Billy R. Bolling, county supervisor of Farmer County, says that 47 young farm families are receiving loans to assist them in the purchase of farms, the construction of essential farm buildings, the acquisition of livestock and machinery, and funds for the further development of their resources this year.

"Over 1,000 young farmers less than 35 years of age have received the financial and technical assistance of the Farmers Home Administration in Texas this year," stated L. J. Cappelman, State Director. Cappelman reported that "One of the major endeavors of the Farmers Home Administration in 1964 is to assist young farmers in accomplishing the difficult task of acquiring the capital and the skill needed to take over the farms of their retiring elders."

Bolling stated that over the past three years, many young farmers who received the assistance of the Farmers Home Administration have been formally recognized as outstanding young farmers in the State by various publications and farm organizations.

The county supervisor advised that this financial assistance is available to young farm families who are unable to obtain adequate credit from private sources, meet all other eligibility requirements, and have the ability and the desire to become successfully established in farming and ranching operations.

When I was 14, my father was so ignorant I could hardly stand to have the old man around. But when I go to be 21, I was astonished at how much the old man had learned in seven years. --Mark Twain

On The Farm In Farmer County

Prospects for a good cotton crop are looking pretty dim after two weeks of cool weather and a low of 40 degrees last Sunday. Let's hope we can have a lot of warm days before frost.

BOLL WEEVILS BEING CONTROLLED

The Boll Weevil Control Program is going as planned--and weevil control to date is excellent. This is the report from Don Rummel, Area Extension Entomologist. Rummel continued by pointing out that field checks show 80-98% mortality on exposed weevils within 24 hours after the chemical is applied.

Counties in the control zone where spray applications are being made include: Garza, Briscoe, Floyd, Crosby, Motley, Dickens, and part of Hall.

Each cotton field in the control zone will be sprayed three or four times in order to assure good kill of diapause (overwintering) weevils.

This control program is being financed by the High Plains Cotton farmers contributing one-half the cost and the federal government the other half. Cotton compresses in the area have signed contracts to collect 50 cents a bale from each producer as a part of the compress receiving charge.

This insurance against weevils at 50 cents per bale is cheap anyway we look at it. However, provisions have been made for refunds to those who desire not to participate in the program. Plains Cotton Growers, Inc. is coordinating this program.

SORGHUM MIDGE
The South Plains Research and Extension Center at Lub-

bock pointed out recently that early planting of sorghum, to produce blooming by the first of August, is the best method of avoiding midge damage.

In their tests overwintered midge emerge from infested heads left on top of the ground as well as buried at various depths. Based on this work it appears that land preparation methods has little effect on midge survival in the field.

We believe farmers should continue the land preparation methods that are best suited for your particular farm, whether it be disking, breaking, suble mulching, etc.

The researchers believe that unfavorable conditions this past June accounted for the light midge population this summer.

LIVESTOCK MEETING

A meeting with the Livestock Committee has been set for October 13, Dixon Hubbard, area Livestock Specialist with the Extension Service, will meet with us on the night of October 13. He will discuss the benefits of a production testing program, economical forage production and other items of interest.

4-H WORK

We have had excellent response at three 4-H orientation meetings held at Farwell, Friona and Lubbudde the past two weeks. A meeting has been set in Bovina for next Monday night, October 5.

The goal of establishing 5 Community 4-H Clubs in the County this fall looks within reach now. The County 4-H Committee set this goal in an August meeting and the Bovina area is the only part of the county where plans of organizing have not been definitely set yet. However, we know of 39 youngsters interested in 4-H around Bovina.

Adult advisory groups have been elected to assist in seeing that the organization of 4-H Clubs in their communities succeed.

In Farwell, Pike Jordan was elected Chairman; Bert Williams, Vice-Chairman; Mrs. Hershel Harding, Secretary; and Directors are Bill Bolling, Mrs. Clarence Meeks, and Mrs. L. C. Herington.

The group for Oklahoma Lane is John Christian, Chairman; Melborn Jones, Vice-Chairman; Mrs. Leon Billingsley, Secretary; and Mrs. Johnny Rundell and Mrs. Webb Gober, Directors.

The Friona group elected were: Gary Brown, Chairman; Bill Lyles, Vice-Chairman; Mrs. John Bingham, Secretary; and Carl Schlenker and Wade Wright, Directors.

Meals can be easy on the pocketbook as well as appetizing when consumers select from seasonally large produce supplies, plenty of beef and poultry, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist. Homemakers who understand and use current food supply information can get more mileage from their food dollars, she adds.

Total meat production under Federal inspection for week ending September 5 was estimated at 476 million pounds, 6 per cent above a week ago and 11 per cent above a year ago. Estimated average weight of cattle slaughtered at 1,000 pounds was lightest since fall of 1962, and about 80 pounds below this year's February-March peaks. However, said the USDA, volume of cattle slaughtered continued liberal.

4-H'ers Campaign for SAFER Use of Drugs, Chemicals

Main emphasis this year of the National 4-H Safety program has been safe use of household chemicals and drugs, reports the National 4-H Safety Development Committee.

Throughout the state, 4-H Club members and leaders have alerted families and communities to the dangers that misuse of common household products can cause.

There are at least 250,000 chemicals and drugs for home use that would be harmful if improperly used, they warn. These include everyday items such as cleaning aids, cosmetics, medicines, paints and insecticides.

They point out that in one year more than 1,300 deaths resulted from accidental home poisoning, of which 30 per cent were children under 5 years of age. Another 200,000 persons suffered disabling illnesses.

This year marks the 20th anniversary of the 4-H safety program sponsored by General Motors in cooperation with the Extension Service and the National 4-H Service Committee. Safety program membership is around one-half million.

During this time hundreds of clubs have been cited for conducting life-saving community projects, and thousands of boys and girls have been individually recognized for doing an excellent job in promoting safety, the committee reports.

Enrollment for the 1965 program begins this fall. Traffic safety will predominate. However, numerous projects will be carried out in the home and on the farm involving other vital areas of safety.

Additional information can be obtained from the county extension office.

AMMO NOTES

By Bill Bennett, Agronomist

Western Ammonia Corporation Soil Test Results Organic Matter

This is the second of the series on soil test results. Last week, Soil Reaction was discussed. This week, let's discuss Organic Matter.

Most soil testing laboratories routinely determine organic matter on soil samples. The value is usually reported on a percentage basis. Our High Plains soils will usually range from 0.2 per cent to over 3%. Most of them will range from 0.5 to 2%.

Organic matter percentages reported are usually not the total present. It is usually that portion which is easily oxidizable or readily decomposable. It is that portion of the soil organic matter that is the best guide to determining nitrogen release.

The organic matter value is used by soil chemists primarily to determine nitrogen need. It can also be used, however, as a guide to physical condition of the soil, organic phosphorus and sulphur release and microbiological activity.

The use of organic matter content as a basis for determining nitrogen needs has been the object of criticism by some. Soil chemists realize the limitations of using organic matter content for this purpose but there has been no better method developed to date. Researchers at the Texas A&M University Experiment Station at Lubbock have found that organic matter content does give a reasonably good prediction of nitrogen needs.

Next week in this column, I will further discuss this organic matter test and attempt to give you the basis on which nitrogen recommendations are made by using the organic matter level together with other information about the field.

4-H Club Leadership Is Rewarding Work For Mrs. Herington

"Our family has always liked to do things together," said Mrs. L. C. Herington as she related the story of taking on a leadership project for local 4-H club girls without previous training in that field.

"When my daughter, Carolyn, decided to join 4-H club," said Mrs. Herington, "and I learned of the need for leaders from the home demonstration agent I immediately volunteered my services."

Mrs. Herington was assistant organizational leader when the Farwell Busy Bee's club was organized approximately one and one half years ago. She worked with Mrs. John Boling on the organizational project.

Duties of the assistant leader are assisting in setting up 4-H

club programs for the year, attending all business meetings of the club and working with the recreational leaders.

In addition to her duties as assistant leader, Mrs. Herington assisted with the clothing project (Unit I) during the past summer. She related with pride the story of how four members of the group she assisted in training, participated in the county dress revue and how they each came home with a blue, red or white ribbon. Girls in this group (9-13) made and modeled gathered skirts and also showed tea towels which they had hemmed. Some of the girls made TV slippers and blouses for home projects.

Mrs. Herington's daughter entered the favorite food show

in May and brought home a blue ribbon for her efforts. She was judged first in unit I and 2nd in Farmer County. Carolyn also brought home a blue ribbon from the county dress revue.

"I have learned much from working with the girls," said Mrs. Herington, adding that she has picked up many pointers on sewing from the HD Agent. She confesses that she has never been a member of a home demonstration club but says "If they ever organize a local club I shall be a charter member." The club programs are varied and Mrs. Herington presented the thought that club work should be helpful in rearing a family and in other areas of home life.

"Reward for me in doing this work is seeing the pride each of the young girls exhibits when she has completed a project; and in showing that the knowledge gained through the club work will make each of the participants a better home maker when the time comes," said Mrs. Herington.

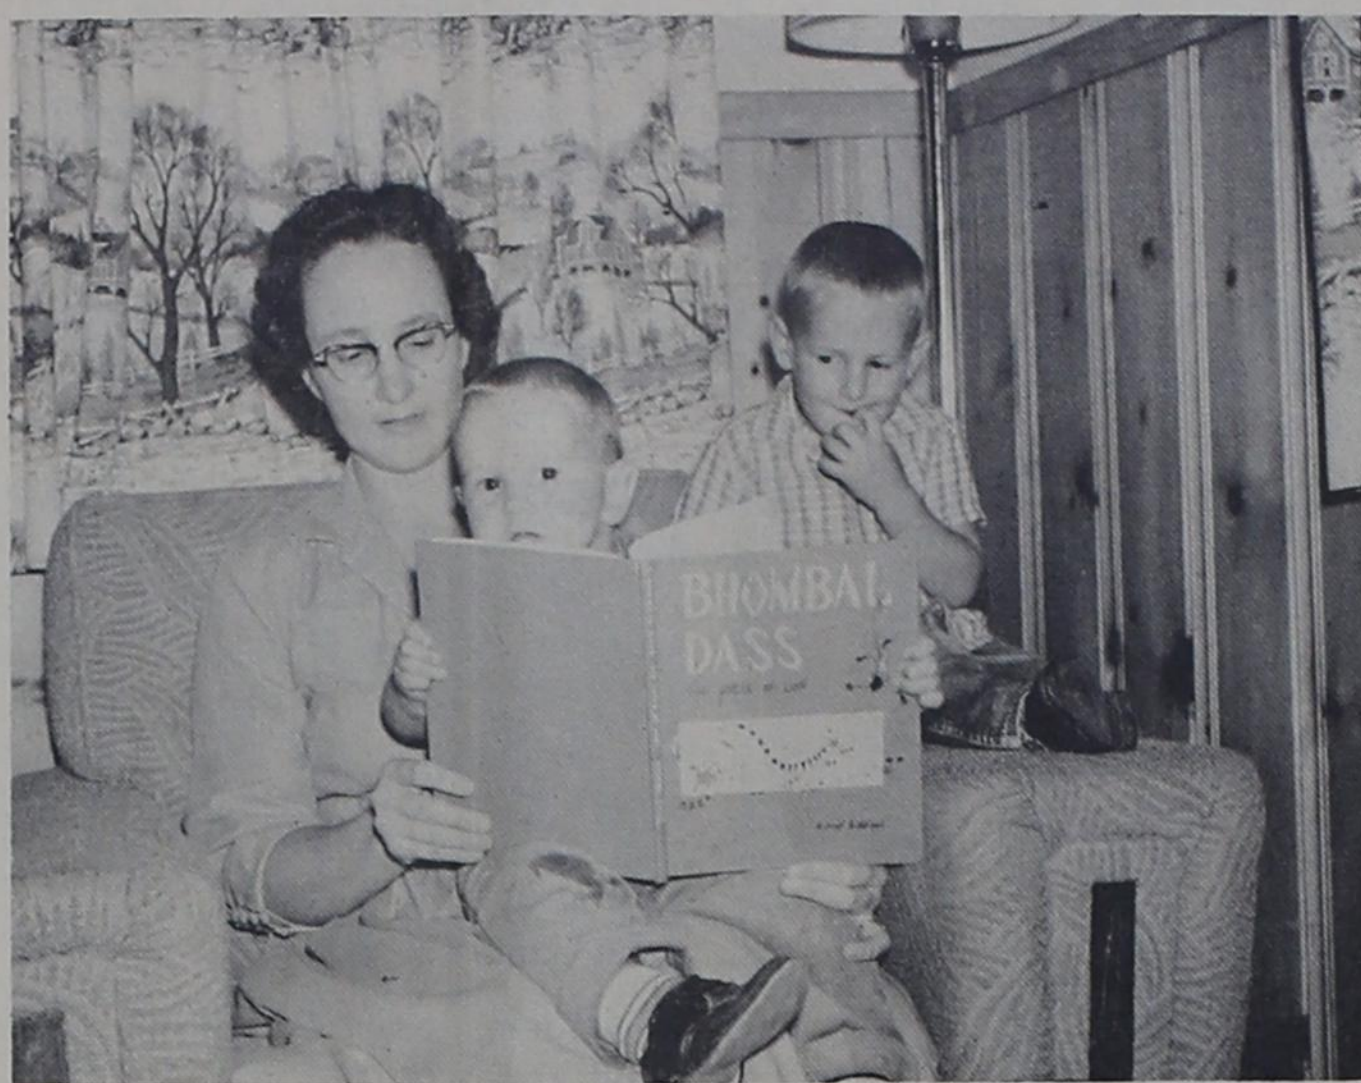

In addition to her work with the 4-H club Mrs. Herington is quick to offer her services to assist with school activities in the room of her daughter and of older son Rodney, eight. She is kept busy with canning food for winter consumption and making items for the home.

Other children in the family are Keith four and Randy one and one half. Favorite past time of the younger sons is that of having "Mommie" read a story at any time during the day.

Mrs. Herington confesses that she and her husband have few hobbies but devote most of their time to the children. "Our one pastime is that of annually entering the football contest," she joked. Last week Mrs. Herington split prize money with Theo Atkinson for having called the greatest number of games right for the week.

Favorite vacation for the family is that of camping out. "We just enjoy being together and doing things together," said Mrs. Herington.

Her husband is a farmer, however the family lives in a modern house on Ave I where Mrs. Herington has added many a touch to make the house a home. Drapes for two of the

Keith four, and Randy one and one half stop Mrs. Herington many times during the course of a busy day to have her read one of their favorite stories. Drapes in the background were made by Mrs. Herington for the den-kitchen combination recently.

bedrooms and the den-kitchen have been completed by Mrs. Herington recently, and she had painted walls in several rooms

during the past summer. When her sons become old enough to participate in club

work she confesses that she will probably be right in there helping with that group also.

Beef Men For Lighter Weights

Directors of the Texas and Southwestern Cattle Raisers Association meeting in Fort Worth, Sept. 19, passed a resolution favoring proposed changes in beef grading standards which would encourage the marketing of fed cattle at lighter weights.

The resolution, introduced jointly by the Cattle Feeders and Beef Grading Committees, pointed out that present beef grading standards tend to encourage over-finishing of cattle and that this contributes to wasteful carcasses and excessive production.

The proposed changes in the grading standards would reduce the marbling requirements approximately one-sixth within the range of each grade at the 18 to 20 month old level of ma-

turity and one-third at the 30 month level of maturity.

Another resolution which dealt with the brush problem on ranges in the Southwest asked that local representatives of landowners have complete control in the administration of any conservation project or programs.

The inauguration of commercial exports of veal calves by air to Italy started in early September. USDA's Foreign Agricultural Service reported

at the time more than 1,300 calves had already made the trip. It is estimated that air shipment of veal calves may amount to a \$2 million market for U. S. livestock farmers.

PROCLAMATION

The development of responsible citizens and leaders for America is a high purpose in 4-H Club work.

The 4-H program stresses the four-fold development of Head, Heart, Hands and Health as well as teaching the latest practices in Agriculture and Home Economics.

Since the 4-H program was inaugurated by the United States government in 1914, the 4-H movement has spread across our nation and built bridges of understanding to more than 76 foreign countries. Members of 4-H Clubs learn by conducting projects and participating in 4-H activities. By putting into action what they learn, club members improve their homes and communities.

More than 16,000 voluntary adult leaders working with club members provide a key to the success of 4-H. Parents and Friends of 4-H give support and encouragement to club members. The Agricultural Extension Service of Texas A&M University, through County Extension agents, directs the 4-H Club program.

The opportunities offered to 4-H Club members to grow in citizenship, leadership and practical skills are especially valuable to them, the State of Texas and the Nation. The 4-H Clubs are a proving ground for the training of future leaders.

THEREFORE, I, as County Judge of Farmer County, Texas do hereby designate the period of September 26-October 3, 1964, as

4-H CLUB WEEK
In Farmer County

In official recognition whereof, I hereby affix my signature this 25 day of September, 1964.

Loyde A. Brewer, County Judge

Research done at Iowa State University shows that concrete feeding floors and an overhead shelter for spring and summer feeding saved an average of \$3.78 per steer over a 2-year period.

High Plains Growers LABOR SAVING? See For Yourself!

Would you ever believe you could get 175-80 pound bags of fertilizer in just one TIDE Tilt-Box? You sure can. Count them. Using Tide's Tilt-Box you don't have to handle a single bag . . . simply open a gate and fill your fertilizer applicator in minutes. Labor saving? I'll say it is!

With "prescription-mix", you buy only the nitrogen, phosphate, and potash your soil test shows you need. High analysis fertilizer cuts material handling costs. No bags to handle (unless you want it bagged) and storage is no problem, as Tide's Tilt-Box, holding 14,000 pounds, provides air-tight delivery and storage at the end of the row.

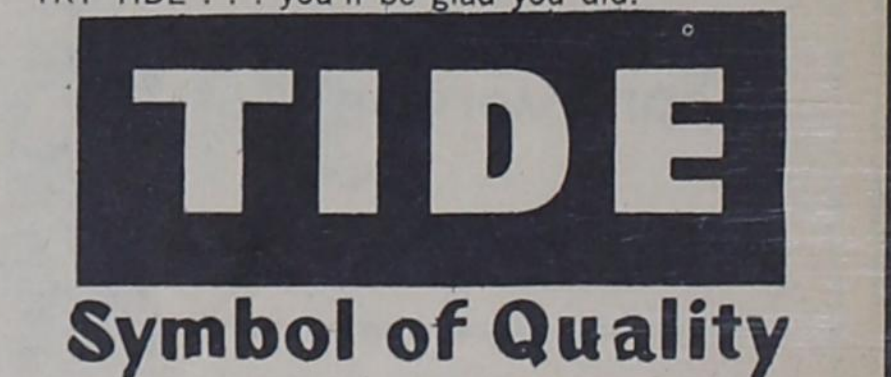

HOW TIDE'S TILT-BOX SERVES YOU:

Tide's TILT-BOX, pictured above, is an air-tight, all weather container. It keeps your fertilizer dry, fresh, and free-flowing. This TILT-BOX puts 14,000 pounds of fertilizer where you want it . . . at the most convenient location to the field and high enough to make loading any type of application equipment easy.

TIDE SERVICES
Tide grower services and products are planned to save time and labor . . . help take the guess-work out of farming. Agricultural Consultants, free soil tests, and Tide's custom-designed, weather-proof, delivery and storage equipment, cut your production costs. TRY TIDE . . . you'll be glad you did.

PRESCRIPTION MIX FERTILIZER

Tide takes soil samples from your land, free of charge to determine exactly what your soil needs. Then your fertilizer is mixed from high analysis raw materials to fit your exact requirements. Because it is made "on order", your fertilizer is fresh, dry, and free-flowing.

ECONOMICAL
Ease of handling fertilizer in Tide equipment reduces cost . . . saves time and labor. One man can fill an applicator or spreader with Tide fertilizer in 2 to 3 minutes simply by opening a gate.

Cotton Talk-- (From p. 5)

are weevils going into the diapause stage during September, most of them will not actually leave cotton fields for hibernation sites until October, which will give the second and even

third sprayings a chance to kill them. So, they reason, if bad weather which causes frequently interrupted sprayings is a necessity, it is better that it comes during the first spraying. Instead of later on. Summing up the program to

date, Russell says that while conditions have been far from ideal, there is no reason to believe that the program will not be successful in reducing the emerging weevil population next Spring by more than 90 per cent.

Marketing Of U.S. Beef In Europe To Be Discussed

Beef producers attending the Fourth Annual Southwestern Cattle Feeding Conference in Amarillo, Nov. 24, will receive a firsthand report on the potential of European markets for U. S. cattle and beef.

The report will be given by James Hartman, chief of the Foreign Marketing Branch of the Livestock and Meat Production Division, USDA. Hartman has been actively engaged in development of foreign markets for U. S. cattle and beef and will outline both advantages and problems involved in the program.

The 1964 Feeding Conference will be held in Amarillo, Texas, Tuesday, November 24. Conference headquarters will

be in the Holiday West Motel. In addition to Hartman, the all-day program will also feature talks by Roy Rockenbach, Chief, Market News Service; Everett B. Harris, President, Chicago Mercantile Exchange; Dr. O. D. Butler, Head, Animal Science Department, Texas A&M University, and Dr. D. R. Mackey, well-known veterinarian from Greeley, Colorado.

The Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association sponsors this annual conference. Lloyd Bergsma, Director of the Division, said that expected attendance at this year's conference will far exceed attendance at any previously held conference.

46 Finalists To Enter State Dress Revue

Forty-six girls will compete in the 1964 State 4-H Dress Revue in Dallas, Oct. 16 and 17 in conjunction with the State Fair of Texas.

The 4-H girls have qualified for the state finals by being judged winners in their respective Extension Service districts of Texas.

Judging will take place Oct. 16. Two public presentations of the dress revue will take place at 10 and 11 a.m. Oct. 17 in the Women's Building of State Fair Park.

Mrs. Jessie Southworth, fashion coordinator for Sanger-Harris, Dallas, will again serve as commentator for the fashion show. Escorts for the contestants will be 4-H Club boys who are this year's State Fair of Texas Honor Award winners.

The state dress revue winner will be awarded an all-expense trip to the National 4-H Congress in Chicago, Nov. 29-Dec. 3, and will model her ensemble in the National 4-H Dress Revue. Donor for the dress revue award program is the Simplicity Pattern Company.

A special award will be made to the 4-H girl with the most outstanding cottoing garment. The Texas Cottonseed Crushers' Association will present a \$50 certificate for the purchase of cotton fabric and accessories to this winner.

Finalists in the state dress revue, determined on a percentage basis, represent approximately 15,790 girls enrolled in clothing work this year. The enrollment figure reflects a slight upward trend in membership over last year, when 46 girls competed in the state revue.

Minimum and maximum acreage diversion for the 1965 feed grain program will be unchanged from 1964. Secretary of Agriculture Orville L. Freeman said the announcement was being made early in order to help all farmers, particularly winter wheat producers in making plans for the 1965 crop. Producers who want to use the wheat-feed grain acreage substitution provision in the 1965 wheat and feed grain programs can plan their plantings now with adequate notice, the Secretary said. Minimum diversion for participation will be 20 per cent of the feed grain base. Any farmer can divert up to 50 per cent of his base, or 25 acres, whichever is larger.

Small Grain Seed Need Protection From Disease

Chemical seed protectants can prevent many disease problems on small grain caused by fungal and bacterial organisms on the seed coat.

With the fall planting season here, Wendell Horne, Extension plant pathologist, advises growers who save their own seed or buy untreated seed to apply such protectants before planting to insure a vigorous and healthy stand. Most commercial seed companies use a seed treatment.

Seed-borne fungi and bacteria destroy the seed in the soil or attack seedlings as they struggle through the soil. Such diseases are referred to as

seedling blights, says Horne, and often result in a significant loss of stand.

Mercury - type seed treatments such as Cerasan and Panogen have been highly effective as protectants for small grain seed. These materials may be applied in a rotary seed treater made from a 50-gallon drum or they may be applied with machinery devised for that purpose.

Some fungi are also borne within the seed and are not affected by chemical treatment. Loose smut of wheat and barley is an example of this type of disease, the pathologist points out. A water-soak method must be used to control this condition.

Most seed-borne diseases of small grain can be inexpensively controlled with chemical seed protectants, says Horne. For more information on seed treatment, Horne suggests a visit with the local country agricultural agent.

Science Symposium At WTSU

West Texas State University, in cooperation with the Southwestern Public Service Company and the Texas Atomic Energy Research Foundation, will hold a one day nuclear science symposium for outstanding area high school science and mathematics students on October 10th.

The symposium will start at 9 o'clock in the morning in the Student Union Building on the university campus at Canyon.

The symposium is a part of the educational program of the Texas Atomic Energy Research Foundation, of which Southwestern Public Service Company is a charter member. Prior to this year, the foundation held a three-day symposium at the University of Texas each Spring, which only a small group of students could attend.

"We have been limited in the number of outstanding science and mathematics students from our area who could attend the three day session at Austin, so we decided, in cooperation with West Texas State University, to bring the same quality of speakers to this area in order that more students could be exposed to the possibilities of research and science as careers following the completion of their education", A. R. Watson, president and general manager of Southwestern Public Service Company, said.

The symposium program will be highlighted by five lectures on the various aspects of nuclear physics and research in nuclear fusion. The Texas Atomic Research Foundation program is the largest privately-financed research effort on nuclear fusion in the world.

The symposium participants will include Dr. H. C. Thomas, Chairman of the Physics Department, Texas Technological College; Ralph Tuckfield, experimental physicist, General Atomic Division, General Dynamics Corporation, with which the Texas Atomic Energy Research Foundation is associated in the nuclear fusion research program; Dr. A. A. Kraus, Jr., Project Director in Physical Sciences, West Texas State University; Dr. R. E. Wainerd, Associate Dean of Engineering, Texas A & M University; and Dr. John Bradford, Dean of Engineering, Texas Technological College.

The students and lecturers participating in the symposium will be the guests of Southwestern Public Service Company for lunch.

Dr. Emmitt Smith of West Texas State University is the coordinator of the symposium program. Cliff Milnar, Panhandle Division Manager for Southwestern Public Service Company, will preside at the sessions and introduce the speakers.

"About the only person who is going easy with the taxpayer's money these days is the taxpayer. He has to."

How's Your Back Today?

We're not doctors. If you have a serious back problem, we won't prescribe. But... if you're one of those many people who have mild or occasional back trouble, maybe you should take a long hard look at your mattress.

Lots of people tell us their back troubles have lessened or been eliminated after they began sleeping on a Beautyrest. We do know this; a Beautyrest doesn't let you sag in the middle; the pocketed coils of a Beautyrest—each acting independently—push up into the small of your back and give firm gentle support in that area.

So if you're back bothers you, come to our store, lie down on a Beautyrest and see what you think. Honest! We won't be miffed if you don't buy one.

BEAUTYREST costs only a penny-a-night more than a "Bargain Mattress"

CHOICE: Quilted or Tufted... Regular or Extra Firm
STANDARD SIZES \$79⁵⁰ SUPER SIZES \$89⁵⁰ UP

Headquarters for Beautyrest made only by Simmons

4-H Activities

A 4-H Club in Friona was organized last week with some 65 parents and members present.

Mr. and Mrs. Carl Schlenker of Friona were very helpful in getting this Club organized. We were very pleased with response from parents to accept responsibility of leadership. About 45 boys and girls are enrolled in 4-H projects as result of the meeting held in the School cafeteria.

Reorganization of the Farwell Busy Bee and Farwell Country Club (Oklahoma Lane) resulted in joint boys and girls 4-H Community Clubs with more than 50 boys and girls enrolled. The Farwell Busy Bees will meet at 4:00 p.m. in the City Hall on October 6 to elect officers and have a program on Parliamentary procedure. The Farwell Country Club plans a meeting soon to elect officers and they will hold their meetings in the Oklahoma Lane Community Center.

Plans are underway to have training meetings for Food leaders in 1st, and 2nd, year group (Units) in order for groups to get started early on their project work.

MOTIVATION FOR EDUCATION

There is much concern over the school drop outs these days and there is real reason for concern.

Parents can help their children develop a desire for education and vocational training, but if they fall then others must help do the job. Do you know that few organizations dealing with rural and urban communities show any real concern which produces action to improve the situation? Programs should be geared to the needs of each local community. Without help from someone, the future looks bleak for many youngsters.

Parent interest in 4-H Club work can help motivate girls and boys for a desire for education.

Call the County Extension office in Farwell for information about 4-H work. The number is Farwell 481-3619.

Clubs in Parmer County plan to make a study of the situation in 1965.

Do you know that about 4 of every 10 farm boys plan to farm, but a possible one or two will be able to do so, due to cost of land and investment.

Many rural youth has limited access to information and they don't believe it useful to them.

This means practically all must find non-farm jobs. Farm reared girls want jobs too, but must find non-farm jobs. These youngsters will be willing to work but have few necessary skills to compete effectively and must work for lower wages.

Spraying in the High Plains Boll Weevil Control Program has been underway for about 10 days now, and in spite of the almost continuous interruptions caused by rain, fog, overcasts, drizzle and wind, progress is being made.

According to D. H. Russell, Head of the Plant Pest Control office in Lubbock, over 125,000 acres had been sprayed as of Thursday, September 24, with 28,000 of those being sprayed on a single day -- the only day when planes even came close to operating at capacity. That was on Thursday, September 17, and the nearest thing to it was on the following Monday when 23,500 acres were covered. No spraying at all was possible on Sunday, September 20, and three other days fell below 10,000 acres. Beginning on September 24, Russell said there will be 12 planes in operation instead of the original 10, and optimum spraying will be increased from around 30,000

acres on a good day to about 36,000 acres. An additional plane is being brought in as a standby and will help to keep the spraying potential at the maximum. Spraying covers acreage in Eriscoe, Floyd, Crosby, Motley, Kent, Hall, Dickens, Garza and Lubbock counties.

James Davis, of the USDA's Entomology Research section, conducted tests in three fields near McAdoo after those fields had been sprayed in the regular manner on September 17. In field number one he found that 98 per cent of the weevils had been killed 24 hours after the chemical was applied and that 100 per cent were killed after 48 hours. Field number two was not quite so impressive, with 74 per cent kill after 24 hours, 89 per cent after 48 hours and 92 per cent after 72 hours. These results could indicate excessive moisture, high winds or other factors which prevent any insecticide from being 100 per cent effective. In the third field the kill was 94 per cent, 99 per cent and 100 per cent after 24, 48 and 72 hours respectively.

These are results from weevils placed in ice-cream-carton cages in the field immediately following the spray plane and of course eliminate the possibility of emerging weevils or migrating weevils.

The adverse weather conditions have no doubt decreased the effectiveness of the spray program to some extent in certain instances, and have helped to give the appearance of a "poor kill" in other cases, but tests indicate that the Technical Malathion being used is still getting a good kill.

In most of the other fields checked, a majority of the weevils found alive were of a greenish color with soft bodies, indicating that they had emerged from the protection of squares or bolls after the insecticide was applied. Some old weevils were found in a few fields, and this is attributed to migration after spraying and to the fact that under certain unfavorable conditions a few weevils do, in fact, escape.

The weather we have been having since the beginning of the program has obviously not been favorable, but entomologists seem to be in accord that "it could be worse." They base this contention on the general consensus that while there
