Gleaners Meet In Smith Home

Mrs. Lois Smith of Lariat was hostess for the Gleaners Sunday School class of First Baptist Church Oct. 6. Alma Buchtel presided and the meeting was opened with prayer by Mrs. J. L. Bass.

Mrs. True Bell presented an inspiring devotional on "What We Do With Our Time," followed by Bible study led by Mrs. Amos Tatum.

After a short business session, country apple pie, punch and coffee were served to Mesdames Bruce Blair, Partin Austin, Otis Huggins, Lucille Smaltz and those named above. Mrs. Blair led the closing prayer.

Mr. and Mrs. Ray Tharp of Texico announce the approaching marriage of their daughter, Judith Arline, to Michael John Getz, son of Mr. and Mrs. John Getz of Farwell. Vows will be read December 20 at 3 p.m. (CST) at the First Baptist Church, Texico. No invitations will be mailed locally, all friends and relatives are invited to the wedding and reception. Miss Tharp is employed by Plains Publishers, Farwell, and her fiance is a student at West Texas State University in Canyon.

Mrs. Ronnie Wines Feted With Showers

Mrs. Ronnie Wines, nee Donna Mills, was honored for post-nuptial wedding courtesies Saturday afternoon in the home of Mrs. Mitz Walling, in Farwell.

School friends feted Mrs. Wines with a lingerie shower in early afternoon, with Misses Edith Ann Walling, Judy Gast, Sherri McBrayer, Peggy Martin, Donna Dunn and Peggy Eason as hostesses.

Pop and cookies were served to the guests.

At mid-afternoon, Mesdames Walling, Alvin Mace and John McFarland were hostesses for a miscellaneous shower.

The serving table was covered with lace and centered with an orchid and white floral arrangement in an antique white compote. Pewter and silver appointments were used with milk glass, and white cake squares iced in orchid were served. Wedding napkins completed the decor.

The honoree; Mrs. Prentice Mills, her mother; and Mrs. David Wines, of Bovina, her mother-in-law; were presented unique corsages designed of kitchen utensils and tied with orchid bows.

Attending and sending gifts to the lingerie shower were Misses Linda Phillips, Linda Langston, Mikala Austin, Sherry Billingsley, Martha and Mary Coffey, Becky Strain, Sherry Bass, Phyllis Christian and Donna Rundell, and the hostesses.

Attending and sending gifts to the later courtesies were: Mesdames Walter Kaltwasser, Bernice Norton, W. T. Meeks, Joe Helton, Lee Meeks, Don Williams, Bob Anderson, Ira S. Levins, Patsy Hadley, Janice Williams, Raymond Martin and daughters, Myron Hillock, Otis Huggins and Donna, Eddie Traxson, Herbert Potts; Mesdames Bunk Phillips, Bill

Mortons Announce Arrival Of Son
Mr. and Mrs. Robert "Prof" Morton are parents of a son born Thursday at the hospital in Clovis. The young man weighed 8 lb., 11 oz. and has been named Timothy Dwayne. The new arrival has two sisters and four brothers.

Prince, Jack Williams, Buster Gast, Tommy Lovelace, Irene Dyer, Ruby Strain, Irvin Martin, R. D. Dale, C. C. Christian, John Aldridge and Elmer Kennedy, Farwell; Evelyn Jarnagin and Mrs. Jerry Jarnagin of Kress, Mrs. Verlin Towe of Silverton; and Mrs. Golda Mitchell and Mrs. Eva Bailey of Plainview.

Child Feted With Party

Elizabeth Kay Morgan, daughter of Mr. and Mrs. Bob Morgan, who was 3-years-old Sunday, celebrated her birthday Friday afternoon with a party at the family home.

A Halloween motif was used and children were presented favors of candy-filled horns and masks. Birthday cupcakes were decorated with pumpkin faces.

Attending were Bobby Morgan, Blake, Neal and Alan Halle, Clark Ward, Toby and Loretta Curtis, Rhonda and Craig Walls of Clovis, Susan Meeks, Gayle Goldsmith, Mike and Mitch Clark, Sherl Balazs, Mrs. Mitchell Walls, Mrs. Gerald Curtis, Mrs. Don Clark, Mrs. Clarence Meeks, Mrs. Donald Halle, Mrs. Emory Ward, Mrs. Noble Goldsmith and Mrs. Claudine Balazs.

Floyd Dudley of Littlefield and Hobbs, was a brief caller in the home of his niece, Mrs. W. H. Graham, Saturday afternoon.

Miss Mary Coffey was installed as new president of YWA of Farwell Baptist Church Wednesday. Mrs. Roy Lovett (left) was installing officer, and Miss Peggy Martin (center) is outgoing president.

Miss Coffey Installed YWA President

Installation ceremony highlighted the meeting of YWA of First Baptist Church, Farwell, Wednesday evening in the home of Mrs. Bruce Blair.

Installed were Misses Mary Coffey, president; Donna Dunn, vice-president; Peggy Martin, program chairman; Susan Blair, prayer chairman; Sherri Bass, community missions; Martha Coffey, secretary; and Peggy Eason, mission study. Using "Candles" as her theme, Mrs. Roy Lovett challenged the group of young ladies to be "lights" for Christ in their places of service. Following the charge to officers, Miss

Blair sang a hymn, accompanied by Miss Martin. Mrs. Lovett led the prayer of dedication.

Following the installation, Miss Mary Coffey and Miss Martin presided at the serving table, which featured an orange motif. Orange snapdragons provided the centerpiece and milk glass appointments were used. Punch was served with brownies.

Others attending the service were Miss Linda Langston, Mrs. Ralph Franske, YWA director and the hostess Mrs. Blair, who is counselor.

Mrs. Bell In Hospital

Mrs. Jerry Don Bell is in Methodist Hospital in Lubbock this week, where she is receiving treatment for a pinched nerve in her neck.

She was placed in traction, according to her mother, Mrs. W. N. Foster. The Bell children are visiting in the Foster home this week while their mother is hospitalized.

Mrs. Jim B. Jones of Gatesville arrived last week for a visit in the home of her son and family, Mr. and Mrs. Joe Jones, Brad and Russell.

Friday -- roast, creamed potatoes and gravy, buttered peas, lettuce and tomato salad, jello and fruit and hot rolls and butter with milk.

HOLIDAY "The Family Store" SOCIAL Calendar

Berrys Adopt Little Girl

Mr. and Mrs. Phillip Berry of Colorado Springs announce the addition of a new little girl to their family. The young lady, Tracy Lashaun, who was adopted recently, is five months old. Berry is a former resident of this community.

Texico Teachers To State Meet, School To Dismiss

Texico students will have a holiday Oct. 22-23 while teachers attend the annual state teachers meeting in Albuquerque, says A. D. McDonald, superintendent. School will be dismissed Wednesday afternoon by 2:30. Most teachers are planning to attend the sessions.

The local Educational Association meeting is planned Monday night with representatives of the Curry County United Fund to show a film. The group will also discuss plans for the state meeting. Eddie West, president, and Johnny Green, vice president, of the local group, will be delegates to the state sessions, and Supt. McDonald will also be there for the council meeting.

The Editor's Letterbag

The Tribune encourages its readers to express themselves through the columns of this newspaper. All letters must be signed. We cannot be responsible for returning manuscripts. We reserve the right to judge whether a letter is suitable for printing.

Dear Editor:
I am sure there were many people who were puzzled when they read the newspaper reports on the FBI's investigation to determine if there was any particular subversive organizational inspiration behind the riots in several American cities.

USA* does not appear to have officially inspired the riots", said the newspaper reports I read. However, I have now found that the report went on to say, "It's (Comm. Party) members were observed taking part in some and its former members are leaders of PLM (Progressive Labor Movement) and the Labor Vanguard and other such groups". (These groups are Communist organizations which figured in the rioting).

I will quote more of the report, which I have never seen in any of the regular newspaper reports. "For example, two individuals with histories of Communist affiliation were instigators and leaders of the riots in at least two of the cities in New Jersey. . . In another city, one agitator with a radical background was found 11 separate times haranguing crowds in a riot area, shouting falsehoods about abuse of the people in the neighborhood and inciting further and more violent riot action."

"A Negro who formerly was organizer of the Harlem region of the Communist Party, USA, achieved widespread publicity earlier this year through leadership of rent strikes. Three days after the shooting of July 16, this individual issued a public call for 'a hundred skilled black revolutionaries who are ready to die' to correct what he called police brutality." Anyway, I was much relieved to find that J. Edgar Hoover and the FBI had not completely reversed themselves in this report, but had actually reaffirmed the fact that subversives, and not ordinary Americans incited the riots there referred to.

Sincerely,
Raymond Euler

A new car to be used for driver education training at Farwell Schools, has been made available by Wagner Motors Inc. of Clovis, says W. M. Roberts, superintendent. The vehicle is furnished to the school without cost to the Farwell School district.

Dear Editor,
Read what Gus Hall, National Secretary of the Communist Party U. S. A. has to say and quotations from others:

"I dream of the hour when the last Congressman is strangled to death on the guts of the last preacher - and since Christians seem to love to sing about the blood, why not give them a little of it? Silt the throats of their children and drag them over the mourners' bench and the pulpit, and allow them to drown in their own blood; and see whether they enjoy singing these hymns." Given in 1961 at the funeral of Eugene Dennis, National Chairman of the Communist Party U. S. A.

"We now have one policy, one line and one direction - and that is under Moscow." Norman Thomas six time Presidential candidate on the Socialist ticket, Feb. 19th, 1964 speech at the University of Minnesota. "The danger from the 'right wing' is that they MAY make Goldwater 'respectable', and if he would ever be elected, he would stop the advance of the socialist and collectivist movement."

Gus Hall: "We are not going to put out a slate of candidates as we can do our best work within the framework of the Democratic Party."

Disarmament: "The struggle for disarmament is an active struggle against World Capitalism for restricting its military

potentialities," Nikita Khrushchev.

Peace: "So we shall begin by launching the most spectacular peace movement on record -- As soon as their guard is down, we shall smash them with our clenched fist." Manliuski.

Treaties and Agreements: "The history of war shows as clearly as clear can be that the signing of a treaty after a defeat is a means of gaining strength," Lenin.

("During the last 25 years, the United States had had 3,400 meetings with the Communists including Teheran, Yalta, Potsdam, Panmunjom, and Geneva. The negotiators spoke 106 million words (700 volumes). All this talk led to 52 major agreements, and Soviet Russia has broken 50 of them.) (American Bar Ass'n Report.) And these are the people that the Democratic Presidential candidate says we are to trust and co-exist.

Khrushchev: "Peaceful co-existence helps to develop the forces of progress, the forces struggling for Socialism, and in capitalist countries it facilitates the activities of communist parties."

Promises: "Promises are like pie crusts made to be broken." Lenin.

J. Edgar Hoover in his speech before the National Convention of the American Legion states: "We have but to look at the

Dunn Services Held In Marlow

Word was received here this week of the death of Mrs. Glenn Dunn, 56, and services were slated Wednesday in Marlow, Okla. Mr. and Mrs. Otis Huggins and family attended the funeral rites.

Mrs. Dunn, operator of a Muleshoe motel and a former Lazbuddie school teacher, died early Sunday in a Wichita Falls hospital from injuries received in an automobile accident Saturday at Hollis, Okla.

She had taught school at Lazbuddie for 17 years and had operated the Muleshoe motel since 1951. She was active in the Baptist Church and the Eastern Star.

Survivors include among other relatives, two grandchildren, Donna and Roy Dunn of Farwell.

Yearlings Meet Kress Tonight

The Farwell Yearlings and Junior Varsity teams will lock horns with Kress tonight (Thursday) on Kress's home field.

The locals will be playing without the services of Al Phillips, their ace backfield man, who was injured in a home accident. Phillips was kicker, punter.

Coach Jerry D. Owen says "Except for the loss of Al Phillips, I think that we will be just as strong as we have been. We had to change our offense quite a bit, but I think we'll do okay. Team morale has never been higher than it is this week. I am confident that we will defeat Kress."

In the starting line-up will be Randy Crooks, center; Craig Phillips, guard; Jerry Keith, guard; Charles Bowery, tackle; Robert Curtis, tackle; James Ensor, end; and Denny Lunsford, end. In the backfield will be Robin Mahaney, quarterback; Danny Prince, fullback; Kyle Sheets, halfback; and Ricky Lee in the other halfback slot.

Starting for the junior varsity will be Bruce Dollar, center; Ricky Lunsford, guard; James Haseloff, guard; Vernon Bland, tackle; Jerry McCleskey, tackle; Ricky Stewart, end; Jim Gray Perry, end; Lewey Bradshaw, quarterback; Larry Suttle, fullback; Lester Gray Perry, fullback; and Warlick Dollar, halfback.

Paul Crume Writes Of Hassell Case

Old-timers in Parmer County recall one of the most famous murder cases in the area, known as the Hassell case, which has been recounted by The Tribune and in various feature stories through the years.

By PAUL CRUME

Next morning I found out that a MAN WAS suggested that I the officers of the law had been ought to do a piece poking around Hassell's farm. In fun at a teen-age habit of my gen- a suddenly filled-in storm cellar, eration of wearing high laced they had found the bodies of his boots instead of shoes. It isn't wife and seven children. He had any funnier to me than a Charles killed them with a hammer.

Addams cartoon, and for the As a fledgling newspaperman, I had to help write about all this. Not even the New London school high laced boots to school. You explosion or the Texas City dis- aster were ever to be like this. boot pants, which flared at the I was 14. I wasn't only sickened; thighs and were laced tight along I was scared.

About 35 years ago, I did wear Not even the New London school high laced boots to school. You explosion or the Texas City dis- aster were ever to be like this. boot pants, which flared at the I was 14. I wasn't only sickened; thighs and were laced tight along I was scared.

For weeks, I couldn't sleep, and I kept dreaming of the heavy iron poker beside the pobbellied stove where George Hassell had warmed himself while waiting for me to do his sale bills.

AS TIME went on, it turned out that Hassell had murdered and buried a similar family in California, but at the time, the over-burdening feeling was the sense of evil that had come unexpectedly to our small and cheerful town.

The bodies of the murdered family were laid out in an abandoned warehouse. The doors were opened to the blizzards. Nobody sat at their wake, but they were there. It was Christmas time, but it was not a Christmas that year. If you traveled three blocks across the prairie in bright moonlight, you ran. Children were frightened, but there was worse. They knew that adults were, too. Hassell eventually died in the electric chair for this, but one thing hasn't changed for me.

This is the reason I say to heck with high-laced boots.

Emalee Lewis Talks To Tri-County Group

Mrs. Emalee Tucker Lewis, daughter of Mr. and Mrs. R. B. Tucker of Hollis, Okla., and formerly of Farwell, was guest speaker at a tri-county meeting of Delta Kappa Gamma, educational sorority, in Frederick, Okla., recently.

She spoke on "Space Concepts Through Aesthmetry" and presented several projects demonstrating this new way of teaching the artistic side of geometry.

Mrs. Lewis teaches at Hereford.

Lazbuddie Boosters Name Officers

The Lazbuddie Booster club met Tuesday night to make plans for a new membership drive.

New officers were named: Raymond McGehee, president; Demp Foster, vice-president; and Calvin Embry, secretary-treasurer.

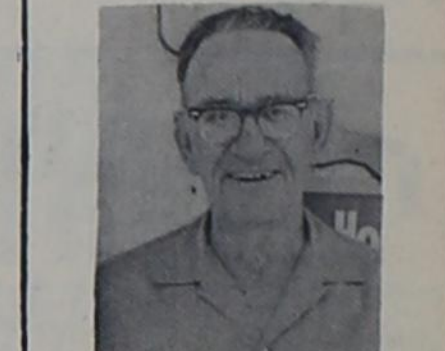

Funds from the club are used to take films of the football games. All Lazbuddie resident's cooperation will be appreciated, club members say.

Is This a Trend Toward Totalitarianism?

- A group of influential ultra-liberal Democrats in Congress announces that they are going to "purge" any Democrat Congressman who fails to support LBJ.
- Employees of big corporations are reportedly getting letters urging their support of LBJ because the company has — and wants to keep — big government contracts.
- Various departments of the federal government are being used to effect the re-election of LBJ. The Postmaster General has been making vicious anti-Goldwater speeches on tours at tax-payer's expense. Is the hatch act dead?
- The leaders of Big Labor, who have received promises of a 35 hour week at 40 hours pay from LBJ . . . something they could never get from President John F. Kennedy, are pouring millions of dollars from compulsory union dues into the LBJ and other liberal campaigns.
- The Johnson-Humphrey ticket has pledged itself to proposals, including medicare, which will run your social security tax to 10.4% of all your income up to \$9,600.
- LBJ, who immediately tried to point up his conservatism as compared to President John F. Kennedy by such gimmicks as turning off the White House lights, is already spending \$2,000,000.00 per day more than President Kennedy, with dozens of big spending programs still before Congress.
- LBJ's sole choice for Vice-President nominee is a man who in 1950 advocated that the U. S. turn over its nuclear arsenal to the United Nations.
- Most important, do YOU have confidence in what LBJ says, in view of the fact that he ran on two opposite platforms in 1960 (State and National one very liberal — one very conservative. These platforms stated OPPOSITE views on many issues)

It is the view of the Republican Party of Parmer County that it is necessary and good in our country for there to be both liberal and conservative viewpoints from which solutions to the problems of our day can be reached. But intimidation of business, coercion of Congress, the destruction of our checks and balances by pressure from the Executive branch, managed news, the right of our government to lie to the people for their own good — these things should be a subject of YOUR concern. If you say "Oh well, they haven't bothered me yet!" you may find that it is too late when it does happen. That is why we are asking all Democrats who believe in freedom to help in this campaign.

VOTE REPUBLICAN | **VOTE GOLDWATER**

Farwell CC Talks Of Draw Project

Members of the Farwell Chamber of Commerce discussed the Running Water Draw project when the group met in last regular session, and members present expressed interest in and support of the project, says Joe Jones, president.

Other routine business was on the agenda. Next meeting is slated Oct. 27 at 5 p.m. in the coffee room at the bank.

There's no free gate to anything worthwhile. Not to skill nor health, nor to success nor friendship, nor even to the lasting love and respect of those who are nearest and dearest to us. These are the items that make up the best income that any human being can have, and the sum of that income will be measured by the sum to what we are willing to pay to get it.

A man once said: Three meals a day, a roof over my head, two cars, a boat, a power mower and a contented wife -- why shouldn't I be in debt?

Will Rogers when asked "What's wrong with the world?" scratched his head and replied: "I reckon it must be the people."

LETTERS TO EDITOR (continued from page 5)

Party's speech program which has seen communist functionaries appear before student groups at college and universities from New York, to California. On one campus alone, a crowd of nearly 12,000 turned out to hear the Party's General Secretary, EX-CONVICT GUS HALL, declare that the Communist Party, USA, is a legitimate political organization on the American scene and deny its subservience to Moscow, from which it has been established that it actually receives orders and financial support.

WE ARE AT WAR: "In the past 44 years, the communist have taken control of more than 1/3 of the population and 1/4 the land area of the world."

J. Edgar Hoover
"I am only one,
But still I am one,
I cannot do everything,
But still I can do something;
And because I cannot do everything,
I will not refuse to do something that I can do." Edward Everett Hale 1822-1909.

"My only regret is, that I have but one life to give for my country." Nathan Hale 1755-1776.

"We sit by and watch the Barbarian, we tolerate him; in the long stretches of peace we are not afraid."

Group Hears Clovis Speech

Representatives of Hamlin Memorial Methodist Church were in Clovis Thursday night to participate in a banquet and rally for the Methodist sponsored Landsun Home of Carlsbad.

Highlight of the evening was the address by Bishop Angle Smith of Oklahoma City.

Attending were Mr. and Mrs. W. N. Foster, Mr. and Mrs. Elmer Teel, Rev. and Mrs. W. C. Strickland, Mr. and Mrs. Joe Helton and Mr. and Mrs. John Getz.

Highway Patrol Lists 13 Wrecks

The Highway Patrol investigated 13 rural traffic accidents in Parmer County during the month of September, according to Sergeant W. E. Wells, Highway Patrol Supervisor of this area.

These wrecks accounted for one death, nine persons injured and an estimated property damage of \$5,012.

The rural traffic accident summary for Parmer County from January through September shows a total of 92 crashes resulting in nine persons killed, 47 persons injured, and an estimated property damage of \$78,073.

"Accidents go up when the sun goes down" is not just a mere slogan but the truth. Why? Because darkness hides danger. That is the reason traffic accidents increase during October's shorter days and longer nights. The Sergeant stated, "Sixty percent of all Texas rural traffic deaths occurred during the hours of darkness last year."

The driver who boasts that he can see as well in the dark or even better than he can during the sunlight just doesn't exist. The hospitals and morgues will attest to this fact. We have news for the driver who still says he has "cat eyes" because science has now proved that even "Tabby" does not see as well after dark as she does in the daylight.

Couple Injured In Accident

An Arkansas couple was injured in a car-pickup accident Thursday, nine miles east of Farwell. Mr. and Mrs. L. G. Chaney were treated at a Muleshoe hospital. The pickup was driven by Bernard Nelson, Rt. 1, Farwell.

Junior Varsity Bows To Hereford

The Farwell Junior Varsity met their "waterloo" Thursday night as they went down in defeat against the Hereford Whitefaces to the tune of 50-0. The Junior Varsity entered the game against Hereford undefeated. Farwell was originally scheduled to play Dimmitt, but that game was called. Both teams went scoreless the first quarter. Hereford finally put some score on the scoreboard in the closing minutes of the second quarter with Gary Victor doing the honors. The extra points were run and the Whitefaces led. The half ended with Farwell trailing 8-0. The Whitefaces second touchdown came early in the third quarter when Gary Tucker drove over to increase Hereford's lead to 14-0. The try for extra point was no good. Farwell then took the kickoff, but got in trouble and lost eight yards. The locals decided to pass, but the ball was intercepted and run back for a touchdown by Bill Watts of Hereford, to add six more points to the Whitefaces side of the scoreboard. The Hereford team then gave an exhibition of what they could do in the air as they passed over for the extra points to bring the score to 22-0. The locals got in the hole again early in the final quarter of play and had to punt. The Whitefaces ran back for the touchdown with Mike Davis carrying the pigskin. The extra points were made and the score stood at 30-0 with Hereford on the fat end. The Junior Varsity again took to the air with two minutes and 52 seconds left in the game but the toss was once again intercepted and run back for a touchdown by Gary Tucker to bring the total to 36-0. The try for extra point was no good. With less than one minute left to play, Hereford scored two more successive touchdowns with Mike Davis doing the honors on the first one and Bill Watts scoring the final one to bring the score to 48-0. Bill Watts made the extra points for the final touchdown to end the game at a somewhat lopsided score 50-0, to hand the local team their first defeat of the season.

Newly elected officers of the Lettermen's club at South Plains College are: left to right, Maurice Smith, Farwell, president; Leo Proctor, Midland, vice president; and Tommy Zachry, Lamesa, secretary-treasurer. This club is composed entirely of lettermen in all athletics including track, basketball, baseball and tennis. Maurice Smith is the son of Mr. and Mrs. Albert Smith of Farwell. He graduated from Farwell High School and lettered four years in high school baseball.

Marriage Licenses Issued

One marriage license was issued at the county clerk's office in Farwell the past week. The license went to Barbara Ann Bradford of Amarillo and Jesse Ray Cross of Farwell Oct. 9.

When the going seems easy, check to make sure you are not going downhill.

PTA To Sponsor Card Project; Begins Program

Annual PTA project was approved, membership drive was reviewed and the first of a series of programs on basic human motivations was presented Tuesday evening during the first meeting for members of Farwell Parent Teachers Association.

Wilfred Quickel, president, conducted the business session. Mrs. Evelyn Curtis, membership chairman, named classroom winners in the PTA membership contest in the elementary grades. Awards were based on the class with the highest percentage of parents with membership in PTA. Recognized were classes of Mrs. Lenton Pool, Mrs. Isla Rhea Huffaker and Mrs. Elsie Cain. Mrs. Janie Stakeley introduced the recommendation of officers that PTA once again sponsor Project Christmas Card to raise money to buy books for the school libraries, with money to be divided equally among the three school divisions. Deadline for completing calls was set for the first week in December. Workers volunteered for the project. Mrs. Stakeley will direct the planning.

Attendance prize for the Tuesday night meeting was awarded to the sixth grade, with Johnny Willson as instructor.

Dr. T. J. Glenn introduced the program for the evening, with a prelude of music provided by Farwell band. Dr. Glenn briefly explained the plan for the series of four programs during the year, which will be based on human motivations.

The ministerial alliance presented a panel discussion on religion, with Rev. W. C. Strickland, Hamlin Memorial Methodist Church, as moderator.

Participating in the discussion were Rev. J. L. Bass, Farwell Baptist Church; Rev. Johnny Willson, Calvary Baptist Church; Rev. Douglas Gossett, Oklahoma Lane Methodist; Rev. Casey Perry, West Camp Baptist; and Rev. Herbert F. Peiman, St. John's Lutheran Church.

Panel defined the roll of the church, ways the church can serve, fallings and needs in their discussions.

The skit on "Love" was planned by members of ESA.

Mr. and Mrs. Don Gerles played the roll of teen-agers, the young married couple was acted by Mr. and Mrs. Pete Rundell. A family conference included members of the Preston Martin family and Mr. and Mrs. Claude Coffey gave their interpretation of the mature years. Concluding the skit were Mr. and Mrs. C. C. Christian acting the golden years.

Webb Gober, Cubmaster, expressed appreciation to the PTA for sponsorship of Cub Scouts, and reported briefly on reorganization of the Cubs now in progress.

Lucky Clover 4-H Club Begins

Meredith Anderson has been elected president of the newly organized Lucky Clover 4-H Club in Farwell. The group met Oct. 6 at the Farwell City Hall.

Other officers include: Cheryl Boling, vice-president; Brad Jordan, secretary-treasurer; and Polly Dollar, reporter. The club is a successor to the Busy Bee club.

County Agent Joe Van Zandt presented the program on parliamentary procedure, and Mrs. Joel White directed games.

Circle Meets In Mrs. Boling Home

Lydia Circle of WMS of the First Baptist Church met Oct. 12 in the home of Mrs. Hattie Boling.

Following the business meeting, a mission program entitled "Worship and the Missionary Task" was presented with Mrs. Boling in charge.

Coffee, punch and assorted cookies and crackers were served to True Bell, Lucille Franse, Betty Stewart, Clytie Dial, Alma Buchtel, Glen Lovett and the hostess.

Jim, son of Mr. and Mrs. Robert "Prof" Morton, was released from the hospital Monday, after a treatment for a severe throat infection. He was doing fine this week, according to his dad.

Dial Receives Award Twice

Back and lineman of the week honors at Eastern New Mexico University last week went to a junior quarterback and a junior guard.

For quarterback Benjy Dial, it is the second time this year he has received the award. The Farwell, Tex., youth also received the designation in the Greyhounds' season opener.

Dial turned in one of the most outstanding performances in recent years by an Eastern back as he passed for four touchdowns and scored the fifth himself.

His passing performance was good for two school records. The four TD passes bettered the old record of three in one game

and he completed 85 per cent of his tosses to top the old mark of 80 per cent in a single game. Dial completed 11 of 13 aerials for 195 yards. The TD strikes were on tosses of 12, 26, 39, and 11 yards. For the season he has completed .740 per cent of his passes with no interceptions.

He gained 30 yards rushing, including a 5-yard touchdown run, to give him a total offense for the game of 225 yards.

Dick Morris of Artesia was also honored.

It has been said: Criticism is something you can avoid by saying nothing, doing nothing, and being nothing.

Thin wire-like fingers on this pickup attachment gently gather the pinto bean vines that have been severed at the base and they are transported directly into the mouth of the moving

combine. Dub Howard, grower, says this is much more efficient than windrowing the vines with a hay rake.

Plain Old Pintos Do Well For Howard

Most everybody in the Southwest is fond of pinto beans. Eating them, that is.

On the other hand, not many farmers are too fond of growing them, but one High Plains farmer who's downright enthusiastic about his bean crop this year is W. D. "Dub" Howard

who farms north of Texco-Farwell. Dub has about 70 acres of pintos this year and he's in the last stages of harvest. Unless his pencil has slipped—and he's been doing a lot of figuring lately—his lowly frijoles are going to pay off better than either his grain sorghum or cotton; and he's a successful producer of both.

This isn't the first time Howard has put some beans on his place. Last year he had 80 acres, although the results were anything but spectacular. This season, thanks to a new rust and blight resistant variety called Luna, there has been a phenomenal difference in production.

No clean beans have been across the scale as yet so yield is only an estimate, but Howard is convinced that he's making between 2,000 and 2,500 pounds of clean beans. At the market price of \$7.00 or slightly higher, he feels that is a good return.

Some of the problems associated with pinto beans growing this area (aside from disease which apparently has been licked by the new variety) are shattering and keeping dirt out of the vines.

The conventional means of mechanized harvesting of beans is to cut the vines with sweeps, then using a hay rake to windrow them into a large pile every fourth row. Then the combine comes along and gobbles up the crop.

Howard harvested about half of his beans this way, but in recent days has idled the rake in favor of having the combine pick up the vines directly from the ground where they were severed. A special pickup attachment facilitates this operation.

A lot of dirt is carried into the combine, but so far it has been kept within tolerable amounts by carefully modifying and adjusting the machine. Howard used two planting dates this year. The first beans went in May 5 and the late beans were planted June 25. Surprisingly, the yields of the late crop are up to the early one.

Fertilizer included 32 pounds of nitrogen and 40 pounds of phosphate, and the crop received only one pre-irrigation and two waterings during growth. "I've got a lot less in this crop than in my maize this year," says Dub, who irrigated his excellent milo five times.

Besides the gross from the sale of the beans, the Parmer County farmer figures on grossing about \$30 an acre from the baled hay. That is estimated from the one-ton yield, which will sell for about three-fourths what alfalfa hay will.

THE HIGH PLAINS FARM AND HOME

On The Farm In Parmer County

BY JOE VAN ZANDT
County Agent

4-H NEWS

Last week we were real pleased with the progress made by a group of Bovina parents towards getting a 4-H Club organized. From what I can gather it has been some time since that community has had a 4-H club. There were about 65 in attendance at the meeting and they made definite plans to get 4-H work going there.

There adult advisory group, Travis Dyer, chairman; Durward Bell, vice-chairman; Mrs. Earl Dean Boyd, secretary; and Directors Joe Pinner and Mrs. Earl Hise, met earlier this week to select an organizational leader and worked out other problems facing the organization of a club in Bovina.

This now gives each community in Parmer County a 4-H Club. The work is yet to be done; but at least the par-

COTTON HARVEST

At last we are seeing a few fields of cotton opening up. This is sure a welcome sight and just hope our warm weather holds with us and prevents a frost for another few weeks.

If you farmers with this early cotton are thinking about using a desiccant or defoliant, at least 60% and preferably 80% of your cotton should be open. You will

Wheat Program Goes Over Big

According to Prentice Mills, manager of the Parmer County ASC Office the government-controlled wheat program will go over in a big way with 1182 (or 96%) farms of the 1232 in the county signing up for the program.

Total acres allotted to wheat was 96,240 of which 95,178 (or 99%) will be growing wheat and the other 12,161 being diverted to lay out land for the year, according to Mills.

Farmers in the area flocked to the ASC office on Friday to sign up for the program.

Final checks on the wheat stabilization, feed grain and domestic cotton programs for 1964 were being handed out to farmers in the area this week with the remainder of the checks to be ready for distribution by the beginning of next week.

SCREW WORMS

The fall build-up in screw-worms is very likely now. Five cases of screwworms have been identified in the last week in Texas. These cases were all in the South Texas Area, but we could very easily have a case of worms here in Parmer County.

All producers should check their livestock as best they can for worm cases. Get a good sample of worms should you have an infestation and please get in touch with the County Agent's office.

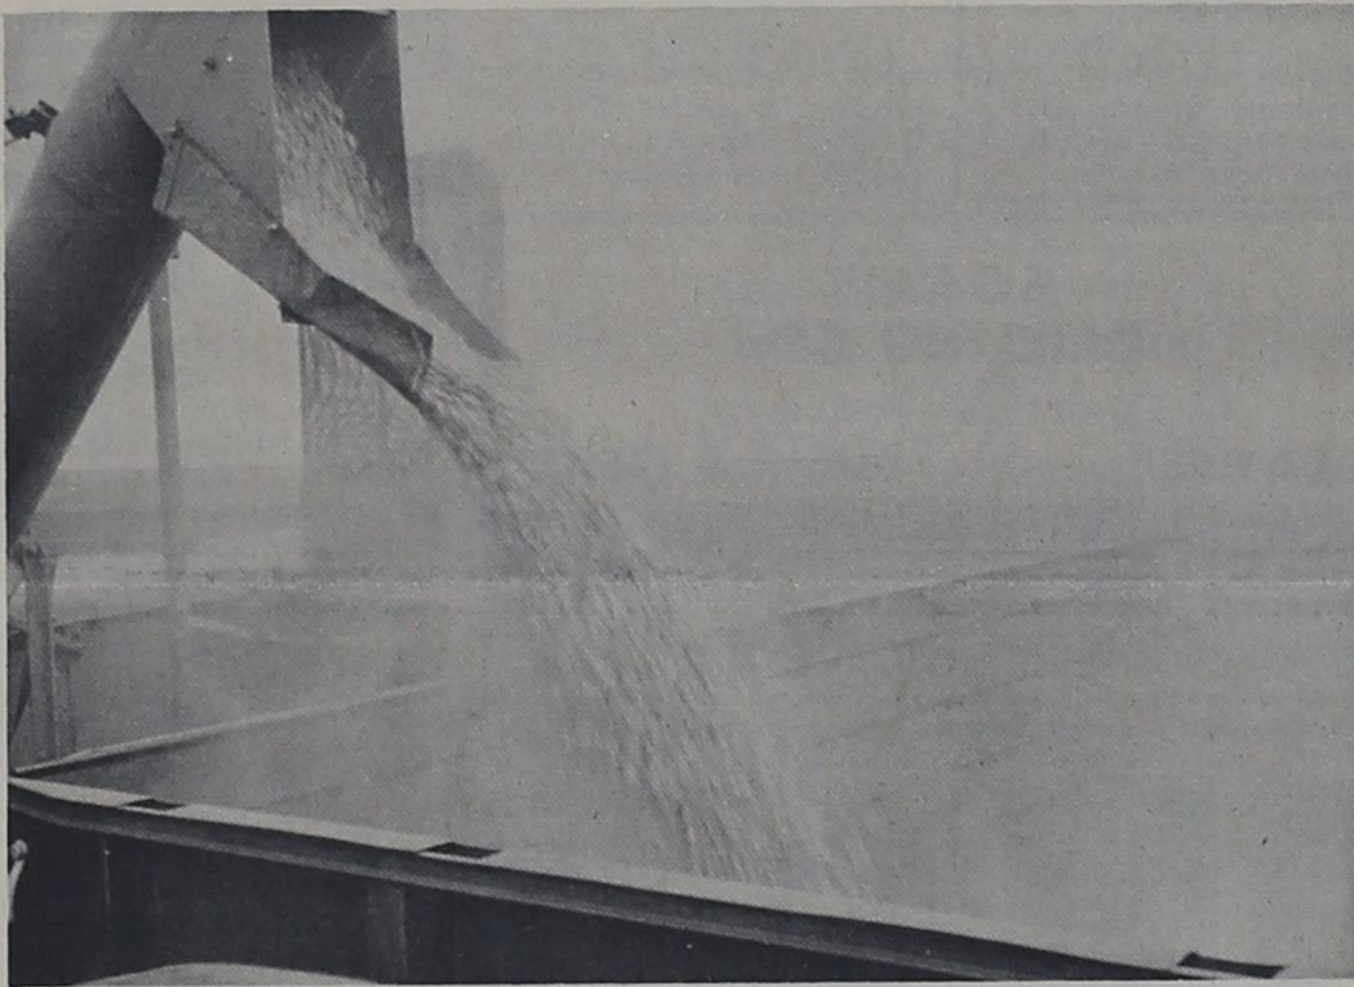

SUGAR BEETS

All beet producers recently received some information that pointed out the value and uses of their beet tops. Beet tops are comparable in cattle feed value to alfalfa hay.

We have additional copies of this material. If any livestock producers would like a copy, let the office know and we will send you a copy.

4-H is a national program for farm and city boys and girls.

4-H Club work is administered by the Cooperative Extension Service and supervised locally by the county extension agents.

There's a lot of dirt, plus other foreign matter, in these combined pintos, but after they are cleaned and sacked they'll be ready for market. Cleaning costs 50 cents a hundred.

Those bales aren't alfalfa, although they look it. They are pinto bean vines and leaves, the "remains" after a combine has been through the field. This hay will rank close to alfalfa in protein.

Worsted Wool Double Knit ... Smoothly Backed

Proportioned to fit our Jeanne Durrell Petite customers perfectly, this wonderful worsted wool jersey dress has a smooth silky acetate backing. Delightful to wear. Designed with a most interesting jewel neckline, and flattering diagonal stitched seams. Black, camel, Skipper blue, red, or olive. Petite Sizes 8 to 18.

THE STATE OF TEXAS
COUNTY OF PARMER

Before me, the undersigned authority, on this day personally appeared Mabel Reynolds, County Treasurer of Parmer County, who being by me duly sworn, upon oath, says that the within and foregoing report is true and correct.

Mabel Reynolds, County Treasurer.

Sworn to and Subscribed before me, this 9 day of Oct., 1964.

Bonnie Warren Clerk,
County Court Parmer County, Texas.
(SEAL) By Jane Stovall Deputy.

Buying Guides For Consumers

These food buying tips by Mrs. Gwen Clyatt, Extension consumer marketing specialist, may save consumers some money during the next several days.

The cooler weather may bring out the "soup kettle," so look for best beef values on ground beef, short ribs and arm and blade pot roasts, the specialist says. Shoulder and round steaks are the most economical.

Pork values include smoked hams and picnic, shoulder roasts and pork liver. Fryers remain an excellent bargain in retail meat departments, and Grade A large size eggs con-

tinue as the economy quality egg buy.

Fresh fruit and vegetable items in ample supply at reasonable prices include Jonathan and golden and red delicious apples, bananas, prune plums, toky grapes, Bartlett pears, sweet potatoes, lettuce, cabbage, tomatoes, green peppers, squash, carrots, dry onions, radishes, and mustard and turnip greens. High quality green beans, broccoli and eggplant are moderately priced.

4-H Club members become leaders as they learn to help others

Mrs. Joel White of Oklahoma Lane Home Demonstration Club has been elected president of the HD county council for 1965. The group met Oct. 5 in Friona.

Mrs. Joel White To Head County H.D. Clubs

Mrs. Joel White of Oklahoma Lane Home Demonstration club was elected president of the county council when the group met Oct. 5 in Friona, for the annual council.

Other officers to serve with her include Mrs. Lora Brown, Midway Club, vice-president; Mrs. Travis Stone, Black, secretary; Mrs. Floyd Brookfield, Northside, treasurer; Mrs. Cordie Potts, Rhea, parliamentarian; and Mrs. Roy Miller, Lazbuddie, reporter.

Plans were discussed for the annual luncheon of the county clubs slated Nov. 19 at Okla-

homa Lane community building, beginning at 11:30 a.m.

Reports were given from the delegates who attended the Texas convention in Houston Sept. 16. Delegates were Mrs. Gene Welch of Black, Mrs. Jimmy Briggs of Lazbuddie and Mrs. Walter Kaltwasser of Oklahoma Lane, county THDA chairman. Each of the delegate gave an interesting and thorough report, according to Cricket Taylor, agent. They made recommendations for 1965 programs of county clubs.

Yearly reports were heard from the council officers and the president of each club.

NEW CLUBS

Farwell now has a Home Demonstration Club with 11 members. Mrs. Glen Lesley has been the one taking the lead in its organization. A meeting of the group was held in the home demonstration agent's office and officers were elected. Mrs. Glen Lesley, president; Mrs. Joe Schilling, vice-president; Mrs. Leroy Kitten, secretary; and Mrs. Dwain Nance is reporter.

We are real glad to have this Club. Their meeting dates will be the 2nd and 4th Tuesdays at 2:00 p.m. The next meeting will be held on October 27, in the Security State Bank Community Room in Farwell.

Bovina now has plans for a new 4-H Club. The Advisory Adult group was elected from a group of some 65 present for the meeting last week. On this advisory committee are - Travis Dyer, Durward Bell, Mrs. Dean Boyd, Mrs. Earl Hise and Mr. Joe Pinner. To help with the girls projects as leaders are Mesdames: Izetta Billington, T. A. Mills, A. M. Wilson, John Gamble, A. B. Kent, Jimmie Charles, Earl Dean Boyd, and Wilfred Sikes. Others indicated their willingness to work as leaders.

4-H Leaders are now in progress of organizing subject-matter groups in order to get started on the food projects. With 27 eager 4-H girls in Farwell and more than 15 of these in the second year of food projects, about 3 more adult leaders are needed, Mrs. L. R. Capps is organization leader, Mrs. L. C. Herington

Meat Shoppers Should Consider Three Guides

Three safety guides should be considered by the consumer when buying meat. They are the inspection stamp, grade stamp and appearance of the meat itself, says Frank Orts, Extension meats specialist, Texas A&M University.

There should be no confusion between the inspection stamp and the grade stamp. Inspection should be associated with health, and grade, with quality, the specialist points out.

Federal inspection, established under the Meat Inspection Act of 1906, is supervised by the Meat Inspection Division of the Bureau of Animal Industry, USDA. Its primary purpose is to protect the consumer by guaranteeing that all meat so inspected and passed is from healthy animals, slaughtered, processed and packaged under sanitary conditions; that it is entirely suitable for consumption when leaving the processing establishment; and that no labels carry misleading statements.

All meat packing plants which slaughter or otherwise process meats or meat products intended for out-of-state shipment must operate under federal inspection, Orts points out. Meat establishments whose products do not enter into interstate commerce must meet applicable state and/or city inspection regulations where they are in effect. Such meat may carry a state or city inspection stamp.

All meat shipped interstate must also be inspected and bear the proper stamp, says the specialist. Grading is optional with packing plants doing the processing, although most inspected meat is graded as well.

When meat from inspected plants is passed as wholesome food, all wholesale carcass cuts

are marked with a round purple stamp indicating the meat has been inspected and passed. The code number on the stamp identifies the packing house. According to Orts, the harmless vegetable dye used for stamping need not be trimmed from the meat.

All labels used on canned, processed or packaged meats must be approved. Labels are required to give a name that adequately describes the product, a list of ingredients in decreasing order of predominance, net weight, and name and address of manufacturer or distributor.

Hamburgers or watermelon for breakfast may seem "way out" to you, but it's not so much which foods children eat so long as the foods supply needed nutrition, according to nutritionists with the U. S. Department of Agriculture. Since many children eat no breakfast, an off-beat breakfast may tempt them to the table. For example, best source of Vitamin C is citrus fruit or juice. But watermelon and cabbage also contain Vitamin C. And some teenagers who balk at breakfast might go for watermelon or cole slaw with a hamburger.

No Conservation Payments To Farmers Who Burn Wheat Stubble

A number of people in agriculture have long been concerned with the fact that organic material is not being maintained in the soil on our farms; and, farmers have been encouraged to retain and utilize all available crop residue on their farms.

In order to encourage the utilization of crop residue on

farms, the Texas ASC State Committee has determined that farmers who deliberately burn crop residue, other than flax, are violating reasonable conservation principles and will not be eligible to earn cost-share payments under the Agricultural Conservation Program.

Science Plays Major Role In Modern Agriculture

Science in agriculture has contributed most to our nation's ability to produce an abundance of food. Thus we have become a generally well-fed nation of people who enjoy a variety of foods costing only one-fifth of our disposable income.

Yet many Americans fail to understand the important role that science plays in modern farming, says Reagan Brown, Extension sociologist, Texas A&M University. They also indicate a lack of knowledge about modern farming and reflect an awareness of the dependence of urban and industrial growth upon a highly productive agriculture.

Even more spectacular has been the reduction in time required to produce a three-pound broiler--from 13 to nine weeks, and on half the feed. Similar advances in crop production have occurred. Brown points out. Within the last decade, crop yields increased at a rate of 2.8 percent annually.

If the American farmer had disregarded recent scientific achievements and produced the 1957 agricultural production by methods available to him in 1939, the cost to the nation would have increased by 7.5 billion dollars.

Scientific research and the farmers' ability to adopt its results have released 29 out of 30 people to build cars, television sets and other material goods. We should be justly proud of this achievement, says the sociologist, and we need to become more aware of the importance of science in the accomplishment.

Furthermore, so long as food production is limited by utilization of seven to 10 per cent of the earth's surface, conversion by the animal of only 10 to 25 per cent of its feed to human food, and fixation by the plant of no more than five per cent of the radiant heat it receives, there will be a need for science in agricultural production, says Brown.

LUBBOCK, Friday, October 9--At least the first if not the biggest beneficiaries of the current battle to keep boll weevils from overrunning the High Plains will be those in the weevil infested control zone, or those "on the front line," and here's what some of them have to say about the program.

S. J. Braselton, farmer and merchant of Roaring Springs--one of the boll weevil "hot spots" -- is enthusiastically supporting the diapause control program. And he has good reason. As a farmer, he has been fighting a losing battle with the weevil. And as a merchant, he says, "If we don't do something about the boll weevil, at least 80 per cent of my customers will soon be out of the cotton business."

course anyone familiar with insects knows you don't get rid of all of them the first time."

Polk M. Cooper, who farms 175 acres of cotton in the Roaring Springs area, expresses cautious optimism about the diapause program when he says: "We're hopeful it will help." Cooper's fields were first hit by the boll weevil four years ago and he says, "I wouldn't have had a crop for the past three years if I hadn't poisoned." One year he treated his fields 18 times for the boll weevil. Yet, each year he loses about one-third of his crop to this ravenous insect.

As for the effectiveness so far, Cooper says it's too soon to tell. He explains, "I had just dusted the day before my fields were sprayed the first time." However, he did note that the malathion continued to kill the boll weevils for several days after it was applied.

Braselton, who farms 40 acres of cotton, says that boll weevils began to trickle into the Roaring Springs area in 1961. A year later there was a serious problem, and in 1963 they hit with full force. He spent more than \$20 an acre trying to control the weevils. But they still took one-third of his crop.

As a businessman, Braselton is a "great believer in the private enterprise system." Yet, he doubts that it would have been possible to carry out a diapause control program without the cooperation of government agencies. He was also especially complimentary of Plains Cotton Growers, Inc. for its leadership in the program.

What do the farmers think of the program so far? "I haven't heard one unfavorable comment," says Braselton. He adds, "At 50 cents a bale, we consider the program almost a gift. We couldn't do this kind of job for \$5 a bale." Commenting that even the first treatment looks very good, he says, "Of

H. C. Smith, Roaring Springs ginmer and farmer, says, "We're all real hopeful and most of us are confident that the diapause control program will work. We all realize that weather conditions have been very bad for the control program but we're 100 per cent behind the program."

In talking to other farmers, Smith found that "despite the bad weather, the kill was real fine. Almost everyone I heard talk is well pleased."

However, Smith said that "entirely too many farmers" wanted to quit their own dusting and depend on the diapause program to take care of this year's boll weevil problem.

As a ginmer, Smith has an especially big stake in the boll weevil program. He built a new \$350,000 cotton gin just before the boll weevils decided to move in, and says he won't be able to continue operating that gin in that area if the war against the weevil is lost. It's easy to see why. His gin normally gins around 5,500 bales a year. Last year, the weevils cut this to 2,900 bales. He doesn't expect the total to be that high this year.

In one final comment addressed to Plains growers, Smith said: "I hope we stop the boll weevils before they go any further. Heaven help those fellows West of here if the weevils take over that expensive Plains land."

Feeding Conference Set For November

The Fourth Annual Southwestern Cattle Feeding Conference will be held in Amarillo, Texas, Nov. 24.

Lloyd Bergsma, director of the Cattle Feeders' Division of the Texas and Southwestern Cattle Raisers Association, sponsor of the event, said conference headquarters will be the Holiday Inn West Motel.

A special conference committee consisting of feeders and businessmen from the Texas Panhandle area have planned an outstanding program designed to be of interest to the entire cattle industry.

Bergsma said nationally known speakers will present information on topics of current interest and that attendance is expected to reach a record high for conference participation.

Registration at previous conferences has been running between 400 and 500.

New knowledge on why wheat gluten can stretch and hold together, as it does in bread dough, was reported by USDA chemists. These studies of gluten, which contains most of the protein in flour, add to basic knowledge for the baking industry and for effort in USDA to find new uses for wheat and other farm products. Wheat gluten's unique elasticity and cohesion, required in bread dough, might be put to work in industrial and food products.

Leadership Responsibilities Cited

Women today have inescapable leadership responsibilities, according to a Texas educator who gave the keynote address at the recent annual meeting of the Texas Home Demonstration Association in Houston.

Director John E. Hutchison of Texas A&M University's Extension Service told approximately 800 homemakers attending the meeting that "capable, informed leadership is essential at all levels of operation."

"There is a new emphasis on adult education in America. Society now has as great a stake in the continued learning of adults as it has had in the education of children. The kind of education being discussed is to a large degree the kind of training and education experiences which home demonstration clubs and leaders can provide for a significant segment of the population. Many of you already are providing this leadership," Director Hutchison said.

Research studies indicate that many young homemakers with small children cannot take time to participate in many club activities, yet they have a great need for specific training in certain subject-matter areas. Home demonstration clubs can sponsor workshops for them, the educator suggested.

"The Agricultural Extension Service can provide some of the

specialists and assistance needed, and you can enlist other resource people to help," he told THDA members.

Workshops in health and safety, citizenship, civil defense, 4-H work, family life and recreation were among highlights of the annual meeting.

New officers, elected for two-

year terms beginning January 1, are Mrs. C. R. Berkley, Odessa, president; Mrs. Maynard Gaines, Coleman, vice president; Mrs. L. P. Chapman, Paris, secretary; Mrs. Sam Spelt, Manchaca, treasurer; and Mrs. George Hackney, Jr., Greenville, advisor.

Use Cotton Harvest-Aid Chemicals Wisely

Defoliants and desiccants have a place on the High Plains. But unless they are used properly--and when cotton is ready for their application -- they can do much more harm than good.

Older, more mature cotton frequently can be prepared for machine harvest before frost, says Shelby Newman, Agronomist at the South Plains Research and Extension Center, Lubbock. Experience shows that

proper use of harvest-aid chemicals, permits earlier harvesting of mature cotton before exposure to weather damage reduces the grade or actual field losses occur due to bad weather. Research shows that open cotton left in the field generally deteriorates one grade and around 1/32 inch in staple per month of weathering.

"When" is the key word in using harvest-aid chemicals. For example, if a desiccant or defoliant is applied before cotton is fully mature--more than 60% of bolls open and preferably 80%--not only yield decreases but also detrimental effects to seed and lint quality are possible. The more immature the cotton, the greater the losses. In any event, harvest-aid chemicals should be used only when at least 60% of the bolls are fully open, indicates research at the Center.

Proper timing of harvest-aid chemical use has been easier to obtain on cotton grown under non-irrigated and light-irrigated conditions than under heavy irrigation. This is because dryland or light-irrigated cotton generally matures 30-40 days before frost.

Economics is the biggest consideration when debating between harvest-aid chemicals or letting frost do the job. According to John Selbert, Extension Area Farm Management Specialist, it is up to each producer to determine, under his conditions, whether or not use of harvest-aid chemicals is profitable. From all indications, concludes Selbert, it is often hard to economically justify their use. Where such things as earliness of harvest for debt retirement and risk of adverse climatic conditions are of primary consideration, then economics -- or more net income -- is secondary.

County Agent Jo VanZandt can supply you with additional information on harvest-aid chemicals--their use and value.

Demand For Farm Products Up But Prices Lower

An increased demand for farm products, increased farm production and stocks, increased production expenses, and lower prices for farmers make up today's general agricultural situation, reports John C. McHaney, Extension economist, Texas A&M University.

Increasing personal income and an expanding population point to continued gains in consumer demand for farm products through the remainder of 1964. McHaney contributes income gains to increasing employment, rising wages, larger dividends, surge in corporate profits, and reduction in income tax rates.

Output of farm products continues to increase and will likely total above last year's level, says McHaney, and stocks of

most crops were larger at the beginning of the present marketing year. Crop indications as of July 1 were brighter than those a year earlier, and the uptrend in yields is expected to continue.

Production of livestock and livestock products in January-June, 1964, period was four or five per cent above last year and is expected to total a little above 1963 during July-December of this year.

Production expenses have been rising steadily in recent years, the economist points out. During the first half of 1964, the index of prices paid by farmers for production items was slightly higher than a year earlier and will remain high during the rest of the year.

Prices received by farmers in the first half of 1964 averaged two per cent below last year. For the year as a whole, they are expected to average about three per cent below 1963.

Although realized net farm income has remained relatively steady for the past decade, averaging about \$12 billion annually, the number of farmers and ranchers has declined steadily from 4.8 million in 1954 to 3.5 million at the present.

Thus the average income per farm is rising this year to about \$3,500 compared with about \$2,500 in 1954.

Farmers who have been able to stay in agriculture may continue to have a higher income on the average, says McHaney. However, he points out that their income is higher since many had to drop out of agriculture because they were unable to compete in a very competitive business.

Guard Against Winter Fires

As outside temperatures drop, indoor fire dangers rise. National Fire Protection Association records show that cold weather always brings an increase in destructive fires, according to County Agent Joe VanZandt.

Heating systems are mainly to blame. When they're pushed hard in the cold weather, any weakness in the equipment or installation may show up -- sometimes with disastrous results. And any faulty practices in using and fueling heaters, especially portable kerosene units mean trouble.

To reduce fire hazards as well as fuel bills, all furnaces and heaters need a periodic cleaning and check-up. Likewise flue pipes should be kept clean, free of holes and weak spots, well-supported and away from combustibles. Make sure they are spaced far enough from nearby surfaces to prevent

overheating. Check chimneys for cracks and loose bricks, and if used for coal or wood fires, a yearly cleaning is a must.

Refueling portable oil heaters calls for care. Never fill while they are burning or still hot, and avoid overfilling. If cold oil is used watch for possible burner flooding and flare-up.

Keep portable heaters out of halls and away from doors or stairs where they might block escaped. See that they are not placed too near curtains, clothes racks and other combustibles. Don't buy or keep tippy heaters.

If your heating equipment -- and your handling practices -- aren't already checked and ready for the winter, get busy now during Fire Prevention Week, urges County Agent Joe VanZandt. Your family and farm will be safer from fire.

Rear View Mirror On Tractor Can Save Lives

A rear view mirror on your tractor can save lives on highways and will help you do more work in the field.

Beverly Reeves, cotton ginning and mechanization specialist with the Texas Agricultural Extension Service, believes every tractor should be equipped with a rear view mirror.

He cites a recent highway mishap to indicate how a mirror can prevent accidents. A tractor on the right side of the road had just passed the crest of a hill. A car approached -- meeting the tractor. Another topped the hill behind the tractor at 50 to 60 miles an hour. A quick look by this driver and he could see two ways to go -- both poor choices. He could try to pass the tractor on the left and take a chance on getting around him. Or, he could hit the dirt on the right of the tractor.

Well, the driver decided to try to gamble on passing the tractor. He made it around the tractor -- scaring the approaching driver out of his wits -- but he couldn't straighten up after getting around. After completely rolling over, the car came to rest right-side-up in the shallow road ditch. All

four occupants could have been killed instead of receiving serious injuries.

With a rear view mirror, the tractor driver could have seen the approaching situation, says Reeves. A quick move, then, to the right shoulder would have removed all danger to everyone.

A rear view mirror also aids in viewing the operation of a trailing machine in the field. It makes your work much easier and keeps your eyes looking ahead where they should be, allowing for greater safety as well as a better job.

A rear view mirror on your tractor will let you work more efficiently, and it could save a life -- perhaps your own.

Prefried Canned Bacon To Hit Market

Canned bacon, sliced and prefried, will soon go into commercial production.

This new product is table ready after a minute's heating. It is vacuum packed under a process worked out by the U. S. Department of Agriculture 15 years ago, reports Frank Orts, meats specialist for the Texas Agricultural Extension Service.

This process is based on USDA research, showing that bacon can be successfully canned by keeping the moisture-salt ratio low, which is achieved by partial dehydration before canning.

Pork packers in Denmark have been using this process for the last five years with much success, says Orts. Their product has been available in food markets as an import. Three of the large meat pack-

ers are anticipating producing this new product with an added convenience -- prefried. It needs only to be heated and served.

Canned bacon was used during World War II but was not well received, says the specialist, because the amount of curing needed to prevent spoilage made it excessively salty. A mildly cured, vacuum-packed bacon with acceptable taste could be produced, but it soured in storage and considerable swelling of the can occurred.

Further research found that the organisms in these cans produced carbon dioxide which

caused the can swelling. Tests have shown that growth of these gas-producing organisms could be prevented by keeping moisture-salt ratio in canned bacon below 5-1.

Good Food Buys Of The Week

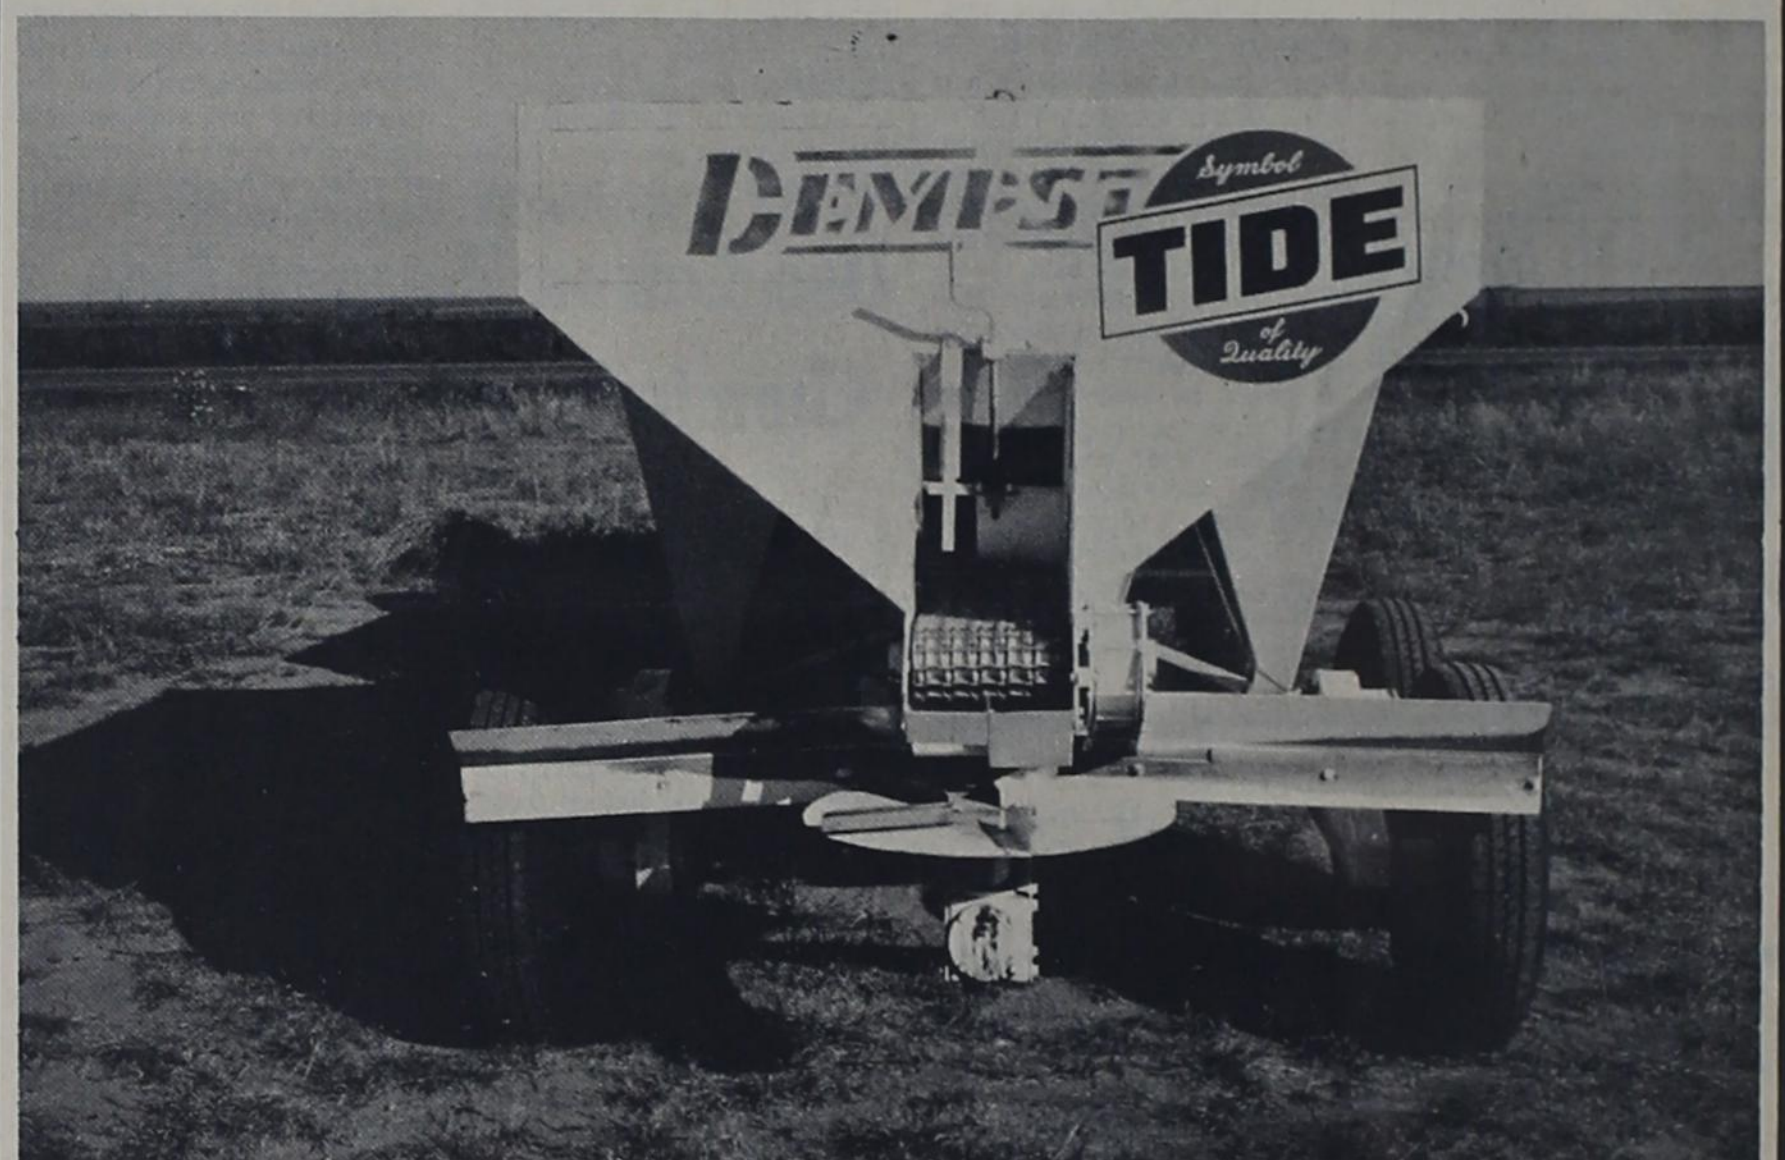

Family food shoppers can look for good meat buys this week, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist.

Best beef values during the next several days will be found on short ribs, ground beef, round steak, and arm and blade pot roasts and steaks. A canned ham in the refrigerator is handy to have in case unexpected guests drop by. Pork shoulder roasts and steaks and cured sausage products are good choices now.

Fryers remain the bargain in most meat departments, and frozen young turkeys are available at economical prices. In the egg category, Grade A large eggs offer the most quality for the price.

Fresh fruit and vegetables in ample supply at moderate prices include new crop apples, bananas, cantaloupes, watermelons, plums, prunes, nectarines, peaches, grapes, celery, potatoes, tomatoes, okra, green peppers, & squash.

... Memo to Grain Farmers ...

Tide's Plow Down Program SAVES YOU MONEY

NOW IS THE TIME:

As soon as possible after combining, shred stalks and apply TIDE'S prescription blend fertilizer to get maximum decomposition of the stubble and bring your soil nutrient level up to its needed point. See your TIDE representative. All nutrients 100% water soluble, easily and economically applied.

To take advantage of the soil conditioning effect brought on by the decomposition of your grain stubble -- use TIDE Bulk Fertilizer NOW. Put down part of your Nitrogen, all of your Phosphate and Potash now and have all of the needed nutrients available to your seedling plants in the Spring by using the proven PLOW-DOWN fertilizer program. See your nearest TIDE representative.

A SPECIFIC FERTILIZER BLENDED FOR A SPECIFIC CROP USE:

Prescription blended on this basis to meet your soil needs:

1. BY SOIL TEST
2. BY THE AMOUNT OF CROP REMOVAL
3. BY THE AMOUNT OF ORGANIC MATTER LEFT TO DECOMPOSE
4. BY THE ROTATION SYSTEM USED
5. BY THE SOIL TYPE AND ITS CURRENT CONDITION

TIDE'S TILT BOX SERVICE:

Only TIDE can give you the convenience of bulk service at the field... with no handling, 4,000 lb. spreaders filled in minutes with high analysis. Prescription blended fertilizer... no time lost in "LOADING" equipment. Fertilizing at its peak of efficiency for efficient growers who desire to reduce operational cost.

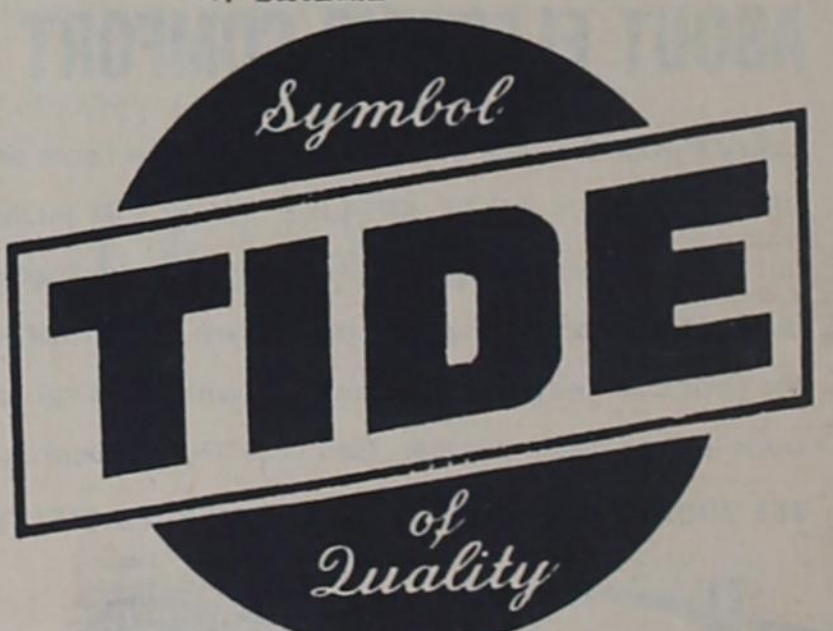

TIDE OF LITTLEFIELD 385-5735
TIDE OF FARWELL 481-3346
TIDE OF HART 938-3595

Don't pack your soils -- use standard size spreaders furnished by TIDE Products. By using small spreaders and our "on-YOUR-farm" bulk storage you can reduce this soil compaction problem. Efficiency at its peak in the fertilizer field -- spreaders filled in minutes on your own turn row from TIDE'S Bulk storage no wasted time "LOADING" spreaders to and from the field. See your nearest TIDE representative.

LET THE EFFICIENCY OF OUR EQUIPMENT AND EXPERIENCE HELP THE EFFICIENCY OF YOUR FARMING.

TIDE'S COMPLETE LINE OF FARM CHEMICALS:

1. All fertilizer 100% water soluble.
2. Bulk or Bag
3. Anhydrous Ammonia
4. Herbicides
5. Insecticides
6. Fungicides
7. Defoliants
