

Faculty Complete School Begins, August 23

Faculty for the Texico school was completed at the last meeting of the board, August 6, New faculty members hired at the meeting were Russell Wallis, a veteran teacher with 16 years experience. He comes to Texico from Nara Visa, where he has taught for the past seven years. Wallis who will teach fifth grade has a masters degree from Highland University. His wife is also a teacher, but will not be teaching this year.

Tony McGowan who received a B.A. degree in music from West Texas State University at summer commencement this year has been hired to fill the vacancy in the music department. He is single and will be

on his first teaching assignment. He will also be director of the high school band. His home town is Borger.

James E. Martin, also a graduate of WTSU will teach high school English and Spanish. He will also be on his first teaching assignment.

Mrs. Helen Fay Towel, a graduate of Eastern New Mexico University and who was hired at an earlier meeting of the board will fill the vacancy in the math and science department.

Returning teachers in the elementary school include Mrs. Leroy Faville, Mrs. C.B. Stockton, Mrs. Johnny Green, Mrs. Hazel Stewart, Mrs. Leroy Loofer, Mrs. Avis Patterson,

Mrs. Wanda Turnbough, Mrs. Melvin Ridgley and Windsor Laceywell.

High school teachers returning to the school are Mrs. Jimmie Allman, Paul Frederick, Johnny Green, C.B. Stockton, Mrs. Windsor Laceywell, Mrs. N.W. Peyton, Melvin Ridgley, C.B. Stockton, and Eddie West.

Elementary principal is Mrs. Zelfa Younger and high school principal is James Pierce. A. D. McDonald is superintendent of schools.

Other school personnel include: custodians - A.B. Bell, Ernest Cain, Mrs. R.E. Crooks, and Walter Curd; school secretary Mrs. David Axe; school nurse - Mrs. Margie Taylor;

lunch room staff - Mrs. A.B. Bell-head cook, Mrs. Sam Hukill, Mrs. Paul Huber and Mrs. Nora Day.

Texico students will return to classes on August 23, 9 a.m. Students will register on the first day of school and will meet all classes for short periods (for issuing books and assignments). Students will be dismissed early. However, lunch will be served in the school lunchroom on the first day of school.

First general faculty meeting will be held in the high school building at 9 a.m., on August 20. All faculty members should be in attendance at this meeting, advises Supt. McDonald.

Services Held Monday For B. F. Freeman

Funeral services were held at the Prince Street Baptist Church Monday for Benjamin Franklin Freeman, 98, father of Walter Freeman of Texico. Burial was in the Texico Cemetery under direction of Steed Funeral Home.

Mr. Freeman passed away in Clovis Memorial Hospital Saturday morning after a lengthy illness. He had been an area resident for the past 20 years. He was a retired farmer.

The Rev. Earl Landroop assisted by Rev. B.B. Harrison officiated at last rites. Serving as pallbearers were Tom Burnett, L.E. Singleterry, Michael Brown, Louis Singleterry, Lewie Paul and Larry Berry.

Survivors include his wife, Mrs. Sarah Lee Freeman, one son, Walter, Texico; two daughters, Mrs. Esthes Moore, Albuquerque, and Mrs. Geneva Berry, Canyon, 17 grandchildren and numerous great-grandchildren.

BUILDING PROGRESS -- The floor has been run, and the walls are in the process of being erected on the additional classrooms at the Texico elementary school. Plumbers have also been busy at the building site and much progress has been made in the past week on the building project, which will give much needed additional space for students in the school. For the first time this year the school will have two classes each of first, second, third and fourth grade students.

SCHEDULE RELEASED--

Football Practice Begins Monday

Coach Toby Booth announces that Steer football practice will get underway at 8:30 a.m. Monday, August 16. Evening practice will be at 6:30 p.m. Practice sessions will be held daily until the beginning of school on August 30.

A complete schedule of varsity games for the coming season follows: All varsity games are set for Friday.

Coach Jerry Dee Owen, who is in charge of junior high school football is out of town this week and a schedule of the junior high games will be carried later.

Rotary Official Visits Local Chapter

Melvin A. Hill of Las Vegas, N. M., Governor of Rotary District 552, addressed the Texico-Farwell Rotary Club at its noon meeting on Wednesday, during his official visit to this area. The Texico-Farwell club is one of the 51 clubs in District 552. The balance of the clubs are located throughout New Mexico and West Texas.

Speaking of the global growth of Rotary, Hill said "Rotary is the pioneer of the service clubs and today numbers more than 12,000 clubs with a combined membership of 576,000 business and professional men; spread throughout 128 countries in all parts of the world. Rotary clubs meet every day of the week and conduct activities to improve their communities, aid youth, elevate business standards, and further international friendships and understanding."

The district governor also conferred with James W. Patrick, local Rotary club president, and Herman C. Chandler, club secretary, on matters of club administration and plans for future service activities.

Referring to the program of C. P. H. Teenstra of the Netherlands, president of Rotary International for 1965-66, Hill said, "Rotary Clubs are urged to have programs of action." All phases of Rotary are to receive attention. President Teenstra asks that we give special attention to our international service. All clubs are asked to contribute to the Rotary Foundation which provides international scholarships of several kinds.

We will again use the matched district program as a means of encouraging Rotary clubs and individual Rotarians to understand one another better by working together on mutually helpful projects.

The Texico-Farwell Rotary club is matched with a club in District 250 in Kapunda, South Australia and with a club in District 380 in Bangued, Philippines.

Mr. and Mrs. George Lindop, who have spent the past 10 days on a fishing trip to Eagle Nest Lake and Red River returned home on Saturday evening.

A BEAUTIFUL SIGHT --- One of the most beautiful and colorful spots in Texico-Farwell are the yards of Frank and Silas Jones (twin brothers) in Texico where a profusion of petunias in all shades are blooming. Each year many persons drive down the street by the Twin Houses to see the flowers. Background for the multi-colored petunias are large sunflowers.

FIFTY FOURTH YEAR

10 CENTS

IN FARWELL--

Students To Enroll August 26-27

Students in the Farwell school will begin classes on August 30. Pre-enrollment will be held for all junior high school and high school students on August 26 and August 27.

Seniors will begin registering at 10 a. m., on August 26 with juniors to register at 1:30 p. m., on the same day. Sophomores will register at 9 a. m., on Friday, August 27, and freshmen will register at 1:30 p. m., on the same day.

All junior high school students will register on Aug. 26. Seventh grade students will register at 9 a. m., on Thursday, August 26 and eighth grade students will register at 1:30 p. m., on the same day.

All elementary students will register on the first day of school, according to W. M. Roberts, superintendent. Buses will not run on the (Thursday and Friday) registration days, however, buses will run at the regular times on August 30. School hours are 8:30 a. m., until 3:30 p. m.

First faculty meeting of the year will be held in the high school cafeteria at 10 a. m., on August 25. All faculty members must be in attendance at this meeting.

Administrators for the Farwell school for the coming year are: W. M. Roberts, superintendent; Amos Tatum - high school principal; James Craig-herman, Mrs. Lillie Hughes, Mrs. Floyd Embry, Mrs. Herman Chaldler, and Mrs. Lesta Hanna.

Elementary faculty members are: first grade, Mrs. Averil Cochran, Mrs. Linda Thompson, Mrs. Eleanor DeVilbiss; second grade, Mrs. Lauretta Pool, Mrs. Beth Miller and Mrs. Joyce Gates; third grade, Mrs. Odus Walser and Mrs. Isla Rhea Huffaker; fourth

grade, Mrs. Jo Springer and Mrs. Hattie Coffey; fifth grade, Mrs. Hattie Boling and Mrs. Margaret Kennedy; sixth grade, Johnny Willson and Mrs. Frances Boling.

Junior high and high school faculty members are: Odus Walser, Mrs. Lenora Tatum, and Gene Tomlinson, English; Mrs. Sophie Davis, Spanish and English; Fred Goff, high school math; Hoyt Scott, junior high math; Jerry Mathis, vocational agriculture; Mrs. Marjorie Balestri, Home Economics; Miss Donna Clapp, commercial subjects; Jarvis Brown, science; Charles Turner, band; Vernon Scott, boys and girls basketball coach, assistant football coach, history, Toby Booth, athletic director, head football coach, history and math; Jerry Owen, junior high coach, biology; Billy Adams, junior high coach, history; Mrs. Katherine Lockhart, school nurse and Mrs. Frances Clarke, counselor.

A snack bar will be operated for the first time this year in connection with the lunchroom, hamburgers, sandwiches, malts and soft drinks will be served. At the present time no one has been employed to operate the snack bar, according to the superintendent.

Mrs. Velma McDorman will head the lunch room crew this year as supervisor. Assisting her will be Mrs. Freddie Harman, Mrs. Lillie Hughes, Mrs. Floyd Embry, Mrs. Herman Chaldler, and Mrs. Lesta Hanna.

Custodians are the same as in the past with Percy Tipton, Ernest Black and Charlie Rockey returning to their posts. Bus drivers are H. R. (Mutt) Crook, Hoyt Scott, Jimmie Mace, Mike Camp, Jack Walker, Charles Kitten and Delton Wilhite.

NOTICE

Jack Williams, elementary principal in the Farwell school announces that he will be in his office (at the school) from 10 a. m., until 12 noon on Thursday, August 19 for the convenience of parents who wish to discuss enrollment problems with him.

Time Changed For Little League Game

Time for the Little League All Star baseball game today (Thursday) has been changed from 7 p. m. to 5:30 p. m., at the local Little League ball park. The local team will collide with the Muleshoe All Stars, whom they defeated on Tuesday 3-1.

Coach of the local team is Larry Gregory and coach of the Muleshoe team is Buck Gregory.

Broom Sale Set For Saturday

The annual Lions Club sale of household needs is scheduled for Saturday, August 14. Items will be sold from a truck parked on the Holiday Parking Lot in Farwell.

Brooms, mops and other household needs will be featured in the sale. The items are made by "Lighthouse for the Blind" in Dallas. All funds derived from sale of the items will be used for purchasing glasses for school children and for other sight conservation projects.

A canvas of all business houses in Farwell will be conducted on Friday afternoon, says Jackie Williams chairman of the sale committee.

60 To Report For Petit Jury Duty

Names of 60 Farmer County residents have been selected for petit jury duty. The jurors are to report to the Farmer County courthouse on Monday, August 16, 1:30 p.m.

Jurors selected are: Lavon Jones, Mrs. E.L. Cochran, Mrs. C.P. Fairchild, Alton Morris, Eddie C. Steelman, Alfred Hicks, T.L. Greeson, Hoyt Smith, Jimmie Cockerham, Sterling Donaldson, Ted Treider, K. Morris, Norman Taylor and Roy Dodson.

Also Clarence Mason, Arthur Mast, Mrs. J.B. Barrett, Joe Jesko, Bruce Blair, C.C. Christian, James C. Russell, H.H. Kelso, Hershel Johnson, W.F. Denny, Willis Hester, Vernon Leon Billingsley, James Robinson, Hoyt Eubanks, Monty Barrett, Jimmy Briggs, Jim Johnson, Ralph Smith, L.T. Graves, and Louis Welch.

Also Amos Tatum, James Hamilton, Volley Hodges, Robert Morton, Aubrey Rhodes, E.H. Childs, Mack Ragsdale, Carl Schlenker, T.L. Kent, S. A. Barbee, Franklin Bauer, Charley Felts, James Patrick, Mrs. Delbert Garner, Tom Pruett, Mrs. Johnnie Rundell, Melvin Terry, Dale McCuan, John C. Range, Herb Potts, Mrs. Clarence Johnson, Gerald Savage, Raymond McGee, Wayne Hardage, Glenn Lust and Eugene Ellis.

On the docket for the August term of court are several civil cases in addition to several criminal cases.

Garbage Fee Hiked In Texico

At the regular Tuesday night meeting of Texico town council town fathers approved a raise in the garbage fee and instructed Town Attorney Harry Patton to draw up an ordinance making the change in the rates effective on September 1. The new fee will not go into effect on customer bills until October 1.

With the new rate on garbage disposal the fee for dwellings will change from 50¢ to \$1.00 on all businesses and multiply family residences the fee will be upped by \$1.00.

The Jones Brothers, who have been in charge of the garbage disposal for a number of years, have agreed to remain on the job.

Street bonds Number 21-34 will be called in on Sept. 1. A building permit was issued to Y.C. McDermon for construction of a garbage at 510 Leftwich St.

The police magistrates report in the amount of \$125 was approved and all bills for the previous month were approved and ordered paid.

More Rummage Needed By ESA

The second in a series of rummage sales, sponsored by Theta Rho chapter of ESA, is planned Saturday from 3 until 5 in the afternoon, in the old ASC building in downtown Farwell, says Mrs. Don Gerles, financial chairman.

The first sale, slated last Saturday, was very successful says Mrs. Gerles. More rummage is needed however, especially children's and men's clothing and ladies dresses in larger sizes. We are also in need of bedding, curtains and household items, she adds. Money derived from the sales is used for work in the community.

In charge of the sale this week are: Mrs. John Getz, Mrs. Ed Farmer, Mrs. Duane Herington and Mrs. Rosa Roberts. Anyone wishing to donate rummage is asked to call one of these women or any other ESA members.

Children Must Have Immunizations Before Entering School

With the opening of school only a matter of days away in Texico the health department is urging all parents to make sure that their children's immunizations are up to date.

Parents of children who will be beginning school for the first time are particularly urged to make sure that their children have the necessary immunizations before the opening day of school. Health regulations in New Mexico require that all school children be vaccinated

against diphtheria, tetanus (lockjaw), polio and smallpox.

While it is not at this time a requirement, local health officials strongly recommend measles vaccination. Measles is always a severe illness, with high risk of complications and usually results in at least two weeks absence from school. The vaccination is quite effective in preventing the disease.

On the first day of school each child must take with him to school a record of his immunizations.

Change In Meeting Date

At the last meeting of the Texico school board, members voted to amend the policy on meeting time of the board from the first Thursday in each month to the first Tuesday following the first Thursday in each month.

The change in meeting date will become effective immediately. Next meeting date will be Sept. 7.

SCHOOL STARTING DRIVE CAREFULLY

A GOOD BUY -- E.C. (Red) Prather, local Lions Club member gets the annual Lions Club Broom and Mop Sale, off to a good start on Thursday by selling a broom to Mrs. Kenneth Carel, a young housewife who is employed by Plains Publishers in Farwell. The general sale will be conducted from the Holiday Store Parking Lot, Saturday, August 14. Business houses will be canvassed by Lions Club members on Friday afternoon. Proceeds from the sale are used in the "Sight Conservation" program.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879, Published every Thursday.

130 Attend Hootenanny

Terry Lovett, son of Mr. and Mrs. Roy Lovett was master of ceremonies for the Hootenanny which was held on the parking lot at the Farwell Baptist Church Saturday night. Approximately 130 persons attended the evening of fun and fellowship.

To open the program Terry Lovett led the group in singing "The Yellow Rose of Texas" after which he introduced a musical group known as the Albino Aborigines (Charles Norton, Warlick Dollar, James Caloway, and Bobby Chadwick). The group presented two numbers "Green Back Dollar" and "Yellow Polka Dot Bikini" before leading the entire group in singing several numbers. The "Accents" - Joyce Bass and Ginger Hughes presented "Puff", "Shanadoah" and "Our Day Will Come."

Diane Lovelace and Susan Blair presented "Don't Let the

Rain Come Down" accompanying themselves on the Ukulele. They also sang an original number "They've Gone Away." Susan had written the words for the song and Diane had written the music. Peggy Martin sang "Cruel

Sublett Children Make Home With Bill Mosses

Recently arriving to make their home with Mr. and Mrs. Bill Moss are their nephews and nieces, Gary, David, Glenda and LaJuana Sublett. The children will be enrolled in the Farwell school in the elementary, junior high and high school classes.

Gary, oldest of the quartet, will be a junior and will be playing football with the Steer squad. LaJuana will be in the third grade. The children formerly lived in Florida.

Receives Promotion

Walter D. (Dean) Crume, son of Mr. and Mrs. Joe Crume, received an early promotion to Army pay grade private E-2 following successful completion of basic combat training at Fort Polk, La. Crume, who enlisted under the Reserve Enlistment program and completed basic training on July 31.

Crume was awarded the promotion two months earlier than is customary because of his proficiency in firing the M-14 rifle, his high score on the physical combat proficiency test and his military bearing and leadership capabilities.

The early promotion program is the result of a new department of the Army police to recognize and provide incentive to outstanding trainees.

Crume is a 1963 graduate of Farwell High School and was associated with his father in Crume Lumber and Supply Co. before entering the Army.

Parents Reminded

Parents of children who will be starting school in Farwell this year are reminded that their children should have all their immunization shots (tetanus, diphtheria, smallpox) before the beginning of school. While the polio vaccine is not a requirement it is recommended by Mrs. Katherine Lockhart, school nurse in the Farwell School.

Approve Oil And Gas Lease

Parmer County commissioners approved the oil and gas lease bid of Ben Harwit of Midland in the amount of \$2500 (cash bonus) plus \$1,000 per year per acre rental, on the 146 acres of Parmer County School land located in Gaines and Andrews counties at their regular meeting on Monday.

All other business was of a routine nature with minutes of the last meeting approved as read and bills of the preceding month approved and ordered paid.

War" accompanied on the mandolin by Jerry Field. She also sang "Tell Me Why" with Jerry Field as accompanist.

Terry Lovett teamed up with Rev. Hugh Frazier of the Pleasant Hill Baptist Church to sing "500 Miles" and "Gone Away".

Rev. Frazier accompanied on the guitar. After leading several numbers with guitar accompaniment by Rev. Frazier they again teamed up to present "Mary Ann".

Susan Blair wrote and sang a song "Rubie". The song was

dedicated to the sponsor of the Youth Group-Rubie Craft.

Ronnie Henson led the entire audience in singing "He's Got the Whole World in His Hand".

Peggy Martin gave her Christian testimony after which she sang "It's Bound to Be the

Lord." Terry Lovett presented "Cum Bi Ya" after which Rev. J.L. Bass led in the closing prayer.

At the close of the evening cookies and ice cream were served.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER FIVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 27 proposing an Amendment to the Constitution of the State of Texas, amending Article III of the Constitution of the State of Texas by adding a new Section 48b, so as to create as an agency of the State of Texas the Teacher Retirement System of Texas, vesting the general administration and responsibility of the proper operation of said system in a state board of trustees to be known as the State Board of Trustees of the Teacher Retirement System of Texas, authorizing said Board to invest assets of said system in various obligations and subjects of investment, subject to certain restrictions stated therein and such other restrictions as may hereafter be provided by law; providing that such Amendment shall be self-enacting and shall not alter, amend or repeal Section 48a of Article III of the Constitution of Texas or any legislation passed pursuant thereto except insofar as such legislation may limit or restrict the provisions of this Amendment; providing for the necessary election, form of ballot, proclamation, and publication. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas be amended by adding Section 48b thereto which shall read as follows: "Section 48b. There is hereby created as an agency of the State of Texas the Teacher Retirement System of Texas, the rights of membership in which shall be open to all persons who are citizens of this State, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Teacher Retirement System including land,

equipment, and office building; or in such corporation bonds, notes, other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any of the states of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments said Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as probable safety of their capital; and further provided, that a sufficient sum shall be kept on hand to meet payments as they become due each year under such retirement plan, as may now or hereafter be provided by law. Unless investments authorized herein are hereafter further restricted by an Act of the Legislature, no more than one per cent (1%) of the book value of the total assets of the Teacher Retirement System shall be invested in the stock of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that so long as less than \$500,000,000 of said Fund is invested in the government and municipal securities enumerated above, not more than thirty-three and one-third per cent (33 1/3%) of the Fund shall be invested at any given time in common stocks. This Amendment shall be self-enacting and shall become effective immediately upon its adoption without any

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 81 proposing an Amendment to the Constitution of the State of Texas, amending Section 51-a and Subsections 51a-1 and 51a-2 of Article III so that the same shall consist of one section to be known as Section 51-a; providing that the Legislature shall enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy aged persons over the age of sixty-five (65) who are citizens of the United States or non-citizens who shall have resided within the boundaries of the United States for at least 25 years, needy persons under the age of sixty-five (65) who are totally and permanently disabled and who are citizens of the United States, needy blind persons over the age of eighteen (18) who are citizens of the United States, and needy children under the age of twenty-one (21) years who are citizens of the United States and to the caretakers of such children; providing rehabilitation and any other services included in the Federal legislation providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance to and/or medical care for, and for rehabilitation and other services for: (1) Needy aged persons who are citizens of the United States or non-citizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years and are over the age of sixty-five (65) years; (2) Needy individuals who are citizens of the United States who shall have passed their eighteenth (18th) birthday but have not passed their sixty-fifth (65th) birthday and who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps; (3) Needy blind persons who are citizens of the United States and who are over the age of eighteen (18) years; (4) Needy children who are citizens of the United States and who are under the age of twenty-one (21) years, and to the caretakers of such children. "The Legislature may define the residence requirements, if any, for participation in these programs. "The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, and in providing rehabilitation and any other services

included in the Federal legislation providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States which they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any individual recipient shall not exceed the amount that is matchable out of Federal funds; provided that the total amount of such assistance payments and/or medical assistance payments out of State funds on behalf of such recipients shall not exceed the amount that is matchable out of Federal funds; provided that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate Federal statutes as they now are or as they may be amended, to the extent that Federal matching money is not available to the State for these purposes, then and in that event the Legislature is specifically authorized to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such Federal matching money will be available for assistance and/or medical care for or on behalf of needy persons; and provided further that the total amount of money to be expended per fiscal year out of State funds for assistance payments only to recipients of Old Age Assistance, Aid to the Permanently and Totally Disabled, Aid to the Blind, and Aid to Families with Dependent Children shall never exceed Sixty Million Dollars (\$60,000,000). "Nothing in this Section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the Laws of this State."

thereon the following: "FOR the Constitutional Amendment providing for assistance to and/or medical care for the: (1) needy aged; (2) needy individuals who are permanently and totally disabled; (3) needy blind; and (4) needy children and the caretakers of such children; authorizing the Legislature to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of such needy persons, and in providing rehabilitation and any other services included in the Federal legislation providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and to accept and expend funds from the Government of the United States for such purposes, and to make appropriations out of State funds for the purpose of providing assistance to and/or medical care and rehabilitation and any other services included in the Federal legislation providing matching funds on behalf of such needy persons; providing that the amounts expended out of State funds to and/or on behalf of individuals shall not exceed the amounts that are matchable out of Federal funds; providing that the total amount of such assistance payments and/or medical assistance payments out of State funds on behalf of such recipients shall not exceed the amount that is matchable out of Federal funds; provided that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate Federal statutes as they now are or as they may be amended, to the extent that Federal matching money is not available to the State for these purposes, then and in that event the Legislature is specifically authorized to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such Federal matching money will be available for assistance and/or medical care for or on behalf of needy persons; and providing further that the total amount of money to be expended per fiscal year out of State funds for assistance payments only to recipients of Old Age Assistance, Aid to the Permanently and Totally Disabled, Aid to the Blind, and Aid to Families with Dependent Children shall never exceed Sixty Million Dollars (\$60,000,000). "Nothing in this Section shall be construed to amend, modify, or repeal Section 31 of Article XVI of the Constitution. "AGAINST the Constitutional Amendment providing for assistance to and/or

medical care for the: (1) needy aged; (2) needy individuals who are permanently and totally disabled; (3) needy blind; and (4) needy children and the caretakers of such children; authorizing the Legislature to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of such needy persons, and in providing rehabilitation and any other services included in the Federal legislation providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and to accept and expend funds from the Government of the United States for such purposes, and to make appropriations out of State funds for the purpose of providing assistance to and/or medical care and rehabilitation and any other services included in the Federal legislation providing matching funds on behalf of such needy persons; providing that the amounts expended out of State funds to and/or on behalf of individuals shall not exceed the amounts that are matchable out of Federal funds; providing that the total amount of such assistance payments and/or medical assistance payments out of State funds on behalf of such recipients shall not exceed the amount that is matchable out of Federal funds; provided that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate Federal statutes as they now are or as they may be amended, to the extent that Federal matching money is not available to the State for these purposes, then and in that event the Legislature is specifically authorized to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such Federal matching money will be available for assistance and/or medical care for or on behalf of needy persons; and providing further that the total amount of money to be expended per fiscal year out of State funds for assistance payments only to recipients of Old Age Assistance, Aid to the Permanently and Totally Disabled, Aid to the Blind, and Aid to Families with Dependent Children shall never exceed Sixty Million Dollars (\$60,000,000). Providing that nothing in the Amendment shall be construed to amend, modify, or repeal Section 31 of Article XVI of the Constitution. Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have the same published, and held as required by the Constitution and the Laws of the State of Texas.

Historical Survey Committee To Attend Workshop In Tulia

The Parmer County Historical Survey Committee has been invited to attend and participate in a regional workshop of the County Historical Survey Committees in Tulia Saturday, according to John Armstrong, county committee chairman.

Parmer is one of 15 counties invited for the afternoon workshop scheduled to begin with a luncheon at Wayne's Restaurant in Tulia at 12. The group will then adjourn to the Swisher county Electric Coop Building to continue their meeting.

Mrs. L. E. Dudley of Abilene is the committee member in charge of Region 18 of which Parmer county is a member.

According to Mrs. Dudley, this meeting has been planned to give the local county committees an opportunity to tell of their work to preserve Texas history, to learn of the statewide work of the TSHSC, and to discuss ways and means to save and see the history of Texas in our particular areas.

Robert Goss, Swisher county committee chairman will speak

on "What Can We Accomplish Through Regional Organization."

State Headquarters will be represented by the newly appointed Executive director of the TSHSC, Truett Latimer, who will report on statewide activities.

Parmer county members of TSHSC are Mr. and Mrs. Ray Landrum, Mr. and Mrs. Robert Wilson, Mr. and Mrs. Joe Jesko, Mr. and Mrs. Harold Carpenter, Mr. and Mrs. C. W. Dixon, Mrs. Malinda Schlenker, Mr. and Mrs. Frank Hastings, Mr. and Mrs. John Aldridge, H. Y. Overstreet, Frank A. Spring, Mrs. Mabel Reynolds, Mr. and Mrs. Windburn Hardage, John Armstrong and Judge Loyde Brewer.

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Emphysema - a word you scarcely heard 50 years or so ago - is a word you hear more and more frequently today.

One reason is, whereas few people had the disease then, many are being diagnosed with it today. Just in the last ten years, deaths from this disease have increased six times over. More than 10,000 die from it every year.

Emphysema - pronounced em-fih-SEE-ma - is a serious disease causing the lungs to become greatly enlarged. Actually, it is derived from a Greek word meaning "inflation."

Simply speaking, this is what happens when a person has emphysema. His lungs, which normally contract and expand - inhaling and exhaling air - begin to lose their elasticity. When this happens, air cannot be completely expelled and some of it remains in the lungs.

Emphysema may begin with only a slight morning and evening inconvenience in breathing. Next, a short walk may be enough to bring on an attack of breathlessness. As the disease progresses, the person works harder to inhale air.

The lungs may become over-stretched, at the same time becoming less efficient in exchanging oxygen for carbon dioxide. Unless promptly treated, the

lungs may be permanently damaged. A day-in, day-out struggle to keep the lungs working can develop, every breath requiring a major effort. The ultimate hazard of emphysema, however, is the extra load it puts on the heart, which is required to pump harder and harder.

Is emphysema a "catching" disease? The cause of this disease is not fully understood, but many different things are believed to contribute to its slow development. These include chronic bronchitis, severe whooping cough early in life, allergic asthma, repeated pneumonia, air pollution and smoking.

At the present time, emphysema is the most common chronic disease of the lungs. The best way to fight the disease is to prevent it by early diagnosis, by avoiding the causes of the disease is to prevent it by early diagnosis, by avoiding the causes of the disease wherever possible, and by proper care of other respiratory conditions when they occur.

Emphysema is a serious disease. It damages your lungs and it can damage your heart. If you have respiratory infections or troubles, see your doctor promptly.

Band Director Arrives Plans Made For Practice

Charles Turner, director of the school bands arrived in Farwell on Tuesday and immediately began plans for the band program for the coming year. At the present time Turner says he definitely plans to have several practice sessions before the beginning of school.

"I will contact each student before time for the first practice session," he said.

Administrators Attend Meet

Supt. A. D. McDonald, Mrs. Zelfa Younger and James Pierce, administrators of the Texico School will be in Santa Fe this weekend attending a meeting of New Mexico school administrators.

Problems of the school administrators will be discussed at the meeting.

Bimetallism is a monetary system wherein both gold and silver are used as standards of value.

BANK VAULT CONSTRUCTION -- Work on First State Bank's new building is progressing. Work on the vault for the new building is shown here. The vault will have 12 inches of concrete, steel-reinforced, around it. Left to right, are Jerry Webb, Willie Alcala and John Adlong.

Glass Broken Bank Building

For an undetermined reason, a rear window was broken out of the building occupied by First State Bank of Bovina on Main Street sometime Friday night.

Entrance to the building was not made and nothing was missing, according to Bob Estes, bank president.

The window which was broken was in the rear door of the building. It is covered by heavy screen making entry to the building difficult even though the glass was broken out.

The bank is using its present location as temporary quarters while its new home is under construction on Third Street.

"No money is kept overnight in the building we're in now," Estes pointed out. The money is stored in the vault located in the former bank building which is now occupied by S and S Dry Goods.

Interest in the broken bank window was probably increased because of the recent robbery of the bank in Texico.

New Examinations Announced

The U. S. Civil Service Commission has announced two new examinations this week, for Technician and Social Worker.

The Engineering and Scientific Technician examination covers a wide range of positions principally in the Washington, D.C. area. These technicians act as non-professional assistants to engineers, mathematicians, and other scientists such as chemists, physicists, astronomers, geologists, me-

tellurgists, electronic scientists, and the like. The salary ranges from \$4,480 to \$10,250 a year. Varying amounts of non-professional technician experience are required, increasing with the grade of position. Study in college or technical institutes can be substituted for some experience.

The new Social Worker examination covers professional social worker positions and related positions known as Social Work Associate and Social Service Representative for work in Washington, D.C. and throughout the country. Salaries range from \$6,050 to \$16,460 for Social Worker and \$6,630 to \$10,250 for the other positions. Professional Social Workers are required to have completed graduate study in Social Work with professional experience in addition for the higher grades. The Associate and Representative positions require experience in welfare activities although appropriate education may be substituted for some of the required experience.

Neither examination requires a written test. See Announcement 364-B (Technician) and 365-B (Social Worker) for detailed information and instructions about the proper place to apply for the position titles shown.

Announcements and appropriate application forms may be obtained from most post office located throughout the country or from the U. S. Civil Service Commission, Washington, D.C. 20415.

Catgut is obtained from numerous animals, particularly sheep, but never from cats.

Kindergarten Classes To Begin Sept. 1

For the second consecutive year Mrs. Bill (Ruble) Craft will be operating a kindergarten in Farwell. Parents desiring to send their children to the pre-school are asked to contact Mrs. Craft in the near future. Classes are due to begin on Sept. 1.

Mrs. Brock's Father Dies

Funeral services for Andrew Jackson Harp, 92, of Clarendon, who died at Adair Hospital there Thursday, were held Friday in Thursty Memorial Chapel. He was the father of Mrs. Aubrey Brock of Bovina.

Rev. W. R. Lawrence, pastor of the First Baptist Church, officiated at the services. Burial was in the Citizens Cemetery. Mr. Harp, a resident of Clarendon for 30 years, was a retired farmer. He was born in Mississippi.

Survivors include five daughters, Mrs. Brock, Mrs. Kinch Leathers of Clarendon, Mrs. Bettye Walling of Lubbock, Mrs. J. B. McDowell of Memphis and Mrs. Clyde Phillips of Gainesville; a sister, Mrs. A. L. Hutchins of Wichita Falls; a brother, M. B. Harp of Gainesville; 15 grandchildren, 22 great grandchildren and one great-great-grandchild.

Time-Savers

Cut cookies in strips, squares or diamond shapes, and save rolling time that way.

Line pie pans with aluminum foil to take pie away from home.

Break egg into cup before measuring shortening.

Cook when in the humor to cook - with a freezer this is possible.

A good freezer slogan - Keep it full and keep food moving.

Be a careful and a good planner - you will be pleased by the work and time you can save!

5 reasons why almost anybody will tell you this about central heating:

If you want the job done right... do it with gas.

Almost all the centrally-heated homes in this area (98%) use gas. There are 5 main reasons why:

1. Fresh. New gas central heating systems bring fresh air in from outside, heat it, and distribute it through your home.
2. Even. New gas systems circulate fresh air evenly to every corner of your home. No hot spots, no cold spots, no stale air, no odors.
3. Clean. New gas systems filter the air sky-blue clean.
4. Economical. New gas systems heat for 1/3 the cost of electric systems.

5. Dependable. Gas is famous for its dependability. Gas gets through when other fuels cannot. Gas lines are down under the ground where high winds and heavy icing can't get at them.

It adds up to this:
If you want the job done right... do it with gas.

For a free estimate on central heating for your home, call Southern Union. Easy payments on your gas bill if you like. No obligation ever. Call today.

SOUTHERN UNION GAS COMPANY

Drive right up, roll your window down, and your check is cashed; your deposit accepted and all in a matter of minutes. Join the countless other time-conscious homemakers by banking right from your car... and that's banking with us.

MRS. JACK WALTERS (photo by Sass).

Mr. And Mrs. Jack Walters Honeymoon In Mexico

Mr. and Mrs. Jack Walters who were married in an impressive double ring ceremony at the Texico Baptist Church Saturday night are honeymooning in Mexico City.

The bride, the former Christina Bowers, is the daughter of Mr. and Mrs. Anson Bowers, Route 3, Clovis, and the groom is the son of Rev. and Mrs. C. J. Walters of Westville, Okla.

The Rev. Leroy Looper, pastor of the Texico Baptist Church officiated the double ring ceremony in front of a setting of pyramiding candelabras flanked on either side by tree candelabras holding green tapers. A bouquet of white gladioli centered the altar setting and bouquets of white gladioli and English Ivy was entwined in the tree candelabras.

Nosegays of white gladioli and satin bows marked family pews.

Organist, Kathy White, cousin of the bride, provided appropriate nuptial selections preceding the ceremony and played the wedding march as the bridal couple entered the church.

Maid of honor was Bobbie Sullivan, close friend and former roommate of the bride. She was attired in a street length Empire dress of green with matching accessories. Her headpiece was a large cabbage rose of green satin with a minute veil in matching hue. She carried a cascading bouquet of white rosebuds entwined with ivy.

The bride, given in marriage by her father, chose a formal wedding gown of white taffeta overlaid with white silk organza. The dress was designed along Empire lines and featured a round neckline and long sleeves. Her fingertip veil of white silk illusion was held in place by a cabbage rose of white satin. She carried an arm bouquet of white rosebuds entwined with English Ivy.

Following tradition she wore

Friends Invited To Shower For Judy Gast

Friends are invited to attend a shower for Judy Gast, bride-elect of John Abernathy on Tuesday, August 17, 7-9 p.m. (CST) in the dining room at Clara's Spur Restaurant.

Hostesses for the courtesies are Mesdames Prentice Mills, Carlis Woods, Lee Meeks, Sam Aldridge, Clark Billingsley and Adolph Guthals.

Bride-elect Is Shower Honoree

Jolene Donaldson, bride-elect of Rodney Decker of Seminole was honored with a bridal shower Thursday afternoon at the Oklahoma Lane Community Center.

Chosen colors of the honoree gold and white, were carried out in table arrangements and refreshments. Gold colored punch, white mints and cookies made in the shape of wedding rings were served in milk glass party dishes.

The bride-elect, her mother, Mrs. Sterling Donaldson and mother of the groom-elect, Mrs. Clifton Decker, were presented with corsages made from kitchen utensils tied with gold ribbon bows.

Hostesses for the courtesies were Mesdames Dee Brown, Lora Brown, Claude Watkins, Jack Roach, Kenneth Johnson, Leon Billingsley, Vernon Symcox, Jeter Garner, Walter Verner and J.B. Sudderth.

Out-of-community guests attending the social were Mrs. Decker, Seminole; Mrs. D.L. White and Peggy, House, Mrs. Roy Donaldson, Plainview; Mrs. Troy Sexton, Brownfield; Mrs. Charles Hargrove, Mrs. Bill Griggs, Mrs. Clyde Sparks, Mrs. Laurence Riggins, and children, Mrs. James Bussell and Lynne, all from Clovis.

JOTTIN'S By Jeanne

When we start the ESA rummage sales and find suitable toys that can be mended and saved for needy children at Christmas, we send them to Ruby Dixon who has so graciously served as volunteer doll surgeon and clothes designer for the past three years. I have no idea how many wounded dolls she has rehabilitated for little girls.

Anyway, we found a beauty this week, a three-foot nurse doll, and I planned to send it to Ruby by Hal, the 10-year-old. But I had to take it myself. We didn't have a paper sack big enough to transport the doll, and Hal absolutely refused to carry that toy to Ruby unless it was camouflaged.

Reading through some of the thoughts I have read and pulled for future reference is this quotation from Margaret Chase Smith, the senator from Maine, who commented in one of her talks last year "The word square was one of the most honored words in our vocabulary. The square deal was an honest deal. A square meal was a full and good meal. It was the square shooter rather than the sharpshooter who was admired. "What is a square today? He's the fellow who never learned to get away with it, who gets choked up when the flag unfurls. There has never been so much glorification of the angle players, the corner cutters and the goof-offs. One of America's greatest needs is for more people who are square."

Mrs. Nathan Harding and daughter Shere' BeAnn from Odessa have been visiting in the home of Mrs. Harding's parents Mr. and Mrs. D. O. Rolland.

Chris Moss, Society Editor --- Phone 481-3681

Iris Goldsmith-Ron Beard Exchange Wedding Vows

Wedding vows were exchanged by Iris Mae Goldsmith, daughter of Mr. and Mrs. Noble H. Goldsmith, Farwell, and Ronald Grant (Ron) Beard, son of Mr. and Mrs. Fred Beard Grapevine, Tex., at the Farwell Church of Christ at 2:30 p.m. on July 24.

Clifton Otts, friend of the couple, read the double ring service before an archway entwined with lemon leaves and white columbine tied with white satin bows. Large white wedding bells tied with blue satin bows were attached to the top of the archway. Flanking the arch were three branched candelabras holding white tapers. Focal point of the setting was a large bouquet of white gladioli, marjestic daisies and mulberry leaves set on a fluted column.

Music was provided by recordings of the Harding Christian College A Capella Chorus. Songs used were "Faithful and True," "I'll Walk Beside You," "Walk Hand in Hand," and "Wedding March."

Maid of honor was Paula Moses, Los Fresnos, Tex., close friend of the bride from Abilene Christian College. She was attired in a blue silk shantung two piece suit with white leather accessories. Her short white veil of silk tulle was held in place by a crown of seed pearls and iridescent sequins. She carried a bouquet of white carnations tied with rainbow pastel ribbon with cascading streamers.

The bride, given in marriage by her father, chose a white lace two piece suit with white accessories for her wedding. Her shoulder length veil of white silk illusion was attached to a white velvet crown encrusted with seed pearls and iridescent sequins. Her bridal bouquet was white carnations encircled with a garland of stephanotis tied with white satin ribbon with cascading streamers.

Following tradition the bride carried something old and borrowed an 1880 penny, from her mother's coin collection. New was the wedding ensemble and blue the traditional garter.

Serving as bestman was Vern Ulrich Saskatchewan, Alaska. Ushers were Sammy Strange, Atlanta, Ga., and Cecil Parker, Seminole, Tex. The bestman and ushers were friends of the bride and groom from Abilene Christian College.

Mrs. Goldsmith, mother of the bride, chose for her daughter's wedding a beige crepe dress with mocha accessories. Her corsage was of pink carnations.

Mrs. Beard, mother of the groom was attired in a two piece suit of aqua lace with accessories in matching hue. Her corsage was also of pink carnations.

Guests were registered by Mrs. W.T. Meeks.

A reception was held in the fellowship hall at the Church of Christ immediately following the wedding. Sisters and sisters in law of the bride, Vicki Goldsmith, Mrs. Doyle Goldsmith, and Mrs. Leon Meeks, alternated at the serving table. Serving table was covered with white lace over blue and centered by the tiered wedding

MR. AND MRS. RON BEARD

cake flanked by white candles in blue crystal candleholders. Flowers on the table were the bride's bouquet and that of the maid of honor placed in a nest of blue net. Nut and mint dishes were of blue crystal.

Other table appointments were crystal and silver. Napkins bearing the names and dates "Iris and Ron - July 24, 1965" completed table decor. The wedding cake was served with blue punch, mints and nuts.

When the newlyweds left for their new home in Lewisville, Texas the bride wore for travel her wedding suit with a corsage lifted from her bridal bouquet.

The bride, a 1962 graduate of Farwell High School is a senator at Abilene Christian College, where she has served as president of the Women's Rec-

reation Association for two years. She is also a member of the Mission Study club, Italian Club, Student Education Association, and is majoring in biology and physical education.

The groom is a graduate of Grapevine High School and is a junior at ACC. He is also a member of the Mission Study Club and the Italian Club. He is majoring in Bible Speech. He is presently employed in Grapevine.

Out of town guests attending the wedding were Messrs. and Mmes. W.J. Goldsmith, Sunray, Doyle Goldsmith, Channing; B.J. Goldsmith and family, Bovina, Fred Beard, Martha and Gary, Grapevine, and Larry Driskill, Bedford.

Also Jack Goldsmith, Clovis; Mrs. Billy Kelley and Paula Kay, Sunray; Mrs. E.D. Goldsmith, Dimmitt, and John Victor, Lawton, Okla.

Cheryl Brownlow Is Bride Of Bill Quickel

Cheryl Marie Brownlow, daughter of Mr. and Mrs. W.B. Brownlow, Clovis, became the bride of Isaac William (Bill) Quickel, son of Mr. and Mrs. I.W. (Dutch) Quickel at 7:30 a.m. Sunday morning in a single ring ceremony read by Rev. W.C. Strickland at Hamlin Memorial Methodist Church. Teresa Quickel, sister of the groom played nuptial music on the organ.

The bride, given in marriage by her father chose a street length sheath dress of off white designed with a beige duster. Her accessories were beige and she wore a white orchid corsage. Her short veil of white silk illusion was held in place by a large beige bow.

Following tradition the bride wore for something old and borrowed pearls belonging to her Grandmother Dowell; new was her wedding dress and blue the traditional garter.

Attendants for the couple were Sue Brownlow, sister of the bride and Jerry Wilkins, El Paso, former roommate of the groom at Texas Western College.

Miss Brownlow was attired in a blue dress with which she wore matching accessories and a white corsage.

Mother of the bride chose for

her daughter's wedding a pink lace dress with pink and white accessories.

Mrs. Quickel, mother of the groom, wore blue and white suit with navy and white accessories.

Immediately following the wedding a breakfast was held at Cathey's Restaurant for family members.

When Mr. and Mrs. Quickel left for their new home in El Paso, Mrs. Quickel wore for travel her wedding dress. Their new residence is 1828 Arizona, Apt. 2 in El Paso.

The bride has attended Clovis High School and plans to continue her schooling in El Paso. The groom is a graduate of Farwell High School and has attended Texas Western College. He is presently employed by Presto-Lite Co., in El Paso and will continue his college education in the fall.

Guests at the wedding and wedding breakfast were Messrs. and Mmes. W.B. Brownlow and Sue, Clovis; L. W. Quickel and Teresa, Farwell; Jerry Wilkins, El Paso; W.E. Thornton, Irene and Susan, Dimmitt; R.S. Price and Evelyn, Amarillo; I.W. Quickel Sr., Bovina; Jake Winkles, Linda, Jane and Billy Don, Clovis; B. Brownlow, and Gary Brownlow, all from Carlisbad. Also J. R. Thornton, Farwell; Mike Thornton, Elizabeth, Colo.; Linda Reeves and Page Buzzard, both of Clovis.

Rusty Dewayne Cain Arrives August 2

Mr. and Mrs. Terry Cain of Albuquerque announce the arrival of their third child, a son, on August 2 in an Albuquerque Hospital.

The little boy, who weighed 9 lb. on arrival, has been named Rusty Dewayne. Other children in the family are Gary, four, and Linda, two.

Grandparents of the new arrival are Mr. and Mrs. Vernon Symcox, Farwell, and Mrs. Cecil Cain, Clovis.

Arrive For Visit With Local Relatives

Mr. and Mrs. Robert Widener and children, David, Connie, Linda and Charles from Holtville, Calif. arrived Sunday for a visit in the home of Mrs. Fred Barker and several other local relatives.

Mrs. Widener is a daughter of Mrs. Barker.

Visit In Stockton, Calif.

Mr. and Mrs. Ed Blain accompanied by Mr. and Mrs. Magness Mace of Mountainview, Okla. have recently returned from a visit in Stockton, Calif. The group also visited other points of interest in California before returning home. They were guests in the home of Mr. and Mrs. Vernon Shockley while in California.

Mrs. Mace and Mrs. Blain are sisters of the California man.

Up the creek...

Being without the proverbial paddle aptly describes having your battery go dead at a critical moment. Batteries always die at the wrong time.

Best way to avoid this embarrassing situation is to let your Phillips 66 Dealer check your battery frequently. He'll put in water, inspect the terminals, give it loving care.

If your battery is showing signs of weakness, let us install a powerful new Phillips 66 Trop-Artic* Battery.

Drive in and see us soon. You'll like our service...and our products!

PUBLIC NOTICE
Proposed CONSTITUTIONAL AMENDMENT
NUMBER TEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
SENATE JOINT RESOLUTION NO. 47 proposing an Amendment to Section 4, Article III, Constitution of the State of Texas, to provide for four-year terms of office for State Representatives.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 4, Article III, Constitution of the State of Texas be amended to read as follows:
"Section 4. The members of the House of Representatives shall be chosen by the qualified electors for the term of four years; but a new House of Representatives shall be chosen after every apportionment, and the members elected after each apportionment shall be divided by lot into two classes. The seats of the members of Class A shall be vacated at the expiration of the first two years, and those of Class B, at the expiration of four years, so that one-half of the members of the House of Representatives shall be chosen biennially thereafter. Representatives shall take office following their election, on the day set by law for the convening of the Regular Session of the Legislature, and shall serve thereafter for the full term of years to which elected and until their successors shall have been elected and qualified. Except in case of an election to fill a vacancy, and except in the first election following each re-apportionment, a person who has been elected to the House of Representatives shall not be eligible to be a candidate again for membership in the Legislature until the term for

Smith Family Holds Fourth Annual Reunion

The fourth annual reunion of the family of the late Mr. and Mrs. C.L. Smith was held at Hillcrest Park in Clovis Sunday August 8, with 64 members in attendance.
A basket lunch was served at the noon hour and soft drinks coffee or tea was served with pie, cake and cookies during the afternoon.
The adults enjoyed informal visiting while younger family members played games of miniature golf and baseball. Pictures were made of the children of Mr. and Mrs. Smith and also of the entire group. The pictures will be kept in a scrapbook by Mrs. L.R. Vincent, one of the Smith's daughters.
A special guest attending the celebration this year was an aunt, Mrs. Roxie Saunders and her daughter, Mrs. Rachel Hibler, a cousin, both from Mountainair, N.M. The aunt and cousin had not seen Mrs. Vincent in the past 47 years.
Children of the late Mr. and Mrs. Smith attending the reunion were Mrs. L.R. Vincent, Mrs. R.B. Summers, Mrs. Lee Rothwell, and Leonard Smith. Unable to attend were Mrs. Paul Havens, Earnest Smith and Mrs. Bill Anderson.
The reunion will be held at the same time and the same place next year and all family members are looking forward to a bigger and better reunion next year and are already making plans to attend.
Signing the guest register were Shella Landis, Johnnie Landis, Marguerite Landis, John Q. Landis, Mr. and Mrs. R.B. Summers, Mr. and Mrs. J.C. Witherspoon, Rachel Sanders Hibler and Noel, Enid, Dwydy and Dee Witherspoon, Dewie, Colene, Pricilla and Cary Rothwell, Neva Rothwell, Bill and Helen Rothwell, Maurice Smith, Mrs. L.D. Saunders, Mr. and Mrs. L.R. Vincent, Mrs. Bill Tribble, Mrs. Rodney Burns, Mr. and Mrs. Matt Burns and Tawny Michele.
Also Nell and Don Thompkins, Mr. and Mrs. Jerry Summers, Patricia and Dee Ann, Mr. and Mrs. Don Summers and Kristi, Leonard and Fay Nell Smith, Mr. and Mrs. Albert Smith, Mrs. Dora Smith, Mr. and Mrs. Eddie B. Smith, Mr. and Mrs. Terry Horton, Art and Kevin, Mr. and Mrs. Terry Summers, Laurie and Robyn, Cary, Don Summers, Marty Summers, L.D., Ramla Lee, Larry and Danny Rothwell, Judy Summers, Peggy Summers and Mrs. Judy Smith and baby.

Attend YWA Camp At Glorietta

Several members of the Farwell Baptist YWA and three sponsors were among the 1316 persons in attendance at the Glorietta Baptist Assembly last week. Attendees came from over the United States.
Principal speaker for the assembly was Dr. C. A. Roberts, pastor of the Baptist church in Tallahassee, Fla. Other speakers were missionaries from 20 foreign countries. Attendees also attended classes (onchoosing a vocation) and had recreation (sightseeing and hiking).
Peggy Martin, Farwell was elected recreation director of the Texas group (500 girls).
Many of the 416 staff members are college students who work at the camp during the summer months.
Attendees from Farwell were Peggy Martin, Donna Dunn, Peggy Eason, Susan Blair, Joice Bass, Sherri Bass, Melissa Prultt, Diana Mathis, Mrs. Roy Lovett, Mrs. Ralph Franse and Mrs. Bruce Blair.

Visit In Harding Home

Visitors in the home of Mr. and Mrs. N.R. Harding recently have been their son and family, Mr. and Mrs. Warren G. Harding and children, Paula, Bob, Ann and Kay from Hitchcock.
The Warren Harding family accompanied by Mr. and Mrs. N. R. Harding spent several days at Tres Ritos and visiting other points of interest in New Mexico.
Warren Harding is Dean of the Medical school at Galveston. Weekend visitors in the N.R. Harding home were another son and his wife, Mr. and Mrs. J. D. Harding from Levelland. They were accompanied to Farwell by Mrs. J. D. Harding's father, J. R. Sheriff.
Visitors in Texico-Farwell last week were Mr. and Mrs. Joe Camp and sons, Mike and Dale of Gering, Neb. Mike Camp remained in Farwell and will attend school here this year. The Camp's are former residents of Texico-Farwell.

Visits Relatives

Mrs. Millard Murray and children Jeffery and Harold, from Reedsville, W. Va. arrived for a visit in the home of her parents, Mr. and Mrs. Vernon Symcox on Monday. They are also visiting with Mr. and Mrs. Lee Hutchins in Farwell and with Mr. and Mrs. Terry Cain in Albuquerque.

Bridal Shower Honors Cheryl Brownlow

Cheryl Brownlow, bride-elect of Bill Quicquel was honored in a miscellaneous shower in the Community Room at Security State Bank Saturday afternoon from 3-5 p.m. Hostesses for the come and go social were Mesdames A. V. Warren, Bill Meeks, W. H. Graham and Chris Moss.
Chosen colors of the honoree, pink and mint green, were used in room decorations and refreshments. Serving table was laid with a pink linen cloth with an overlay of white organdy. Centering the table were minute gifts wrapped in pink and green paper flanked by pink candles in milkglass holders. Suspended from the ceiling above the table directly over the gifts was a pink net umbrella, from which minute packages wrapped in pink and green were hung.
Milk glass table appointments were used. Green and pink mints, and sand tart cookies were served with pink punch. Sue Brownlow, sister of the honoree presided at the serving table.
Teresa Quicquel, sister of the groom-elect, presided at the guest book which was placed on a table laid with white organdy, centered by a bouquet of pink roses in a white hobnail bowl. Unique corsages made from measuring cups, and miniature artificial fruit tied with ribbon bows were presented to the honoree, Cheryl Brownlow, her mother, Mrs. W. B. Brownlow, mother of the groom-elect, Mrs. Wilfred Quicquel, Sue Brownlow, Teresa Quicquel and Mrs. L. W. Quicquel.
Attending the social and sending gifts were Mesdames Lee Meeks, Hugh Moseley, M. A. Snider, Wydett Fourmentin, C. C. Christian, Mabel Reynolds, W. N. Foster, John Getz, Buck Ellison, Archie Tarter, Am Smith, Kenny and Turcel, C. G. Davis and Carl Glen, Wilbur Charles, J. H. McDonald, C. M. Meeks, Guy Cox, Bill Meeks, Chris Moss, A. V. Warren, W. H. Graham, Mitz Walling, Don Williams, Jo Jones, Woodrow Lovelace, Albert Johnson, Jake Winkles, Susie Darrell.
Also Lewie and Josie Flowers, John Reno, Linda Reeves, Kandy Greg, Gall and Jol Meeks, Kittle and Alan Warren, Teresa Quicquel, Edith Ann Walling, Sue Brownlow, J. R. Thornton, the honoree, Cheryl Brownlow, Mrs. W. B. Brownlow and Mrs. Wilfred Quicquel.

Return From Vacation

Mr. and Mrs. Elmer Langford returned home late last week from Glen Rose, Waco and Cleburne where they had visited with relatives and also transacted business. They attended a reunion of the Brown family at Glen Rose on Sunday.

PUBLIC NOTICE
Proposed CONSTITUTIONAL AMENDMENT
NUMBER SIX ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
HOUSE JOINT RESOLUTION NO. 11 proposing an Amendment to Article III of the Constitution of the State of Texas authorizing loans to students at institutions of higher education; creating the Texas Opportunity Plan Fund and making provisions relating thereto.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Article III of the Constitution of the State of Texas be amended by adding a new Section to read as follows:
"Section 50b. STUDENT LOANS. (a) The Legislature may provide that the Coordinating Board, Texas College and University System, or its successor or successors, shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Eighty-five Million Dollars (\$85,000,000). The bonds authorized herein shall be called 'Texas College Student Loan Bonds,' shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purposes of this Section.
(b) All moneys received from the sale of such bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Opportunity Plan Fund to be administered by the Coordinating Board, Texas College and University System, or its successor or successors, to make loans to students who have been admitted to attend any institution of higher education within the State of Texas, public or private, including Junior Colleges, which are recognized or accredited under terms and conditions prescribed by the Legislature, and to pay interest and principal on such bonds and provide a sinking fund therefor under such conditions as the Legislature may prescribe.
(c) While any of the bonds, or interest on said bonds, authorized by this Section is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.
(d) The Legislature may provide for the investment of moneys available in the Texas Opportunity Plan Fund, and the interest and sinking funds established for the payment of bonds issued by the Coordinating Board, Texas College and University System, or its successor or successors. Income from such investment shall be used for the purposes prescribed by the Legislature.
(e) All bonds issued hereunder shall, after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under this Constitution.
(f) Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such acts shall not be void because of their anticipatory nature."
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed on them the following:
"FOR the Constitutional Amendment authorizing the Legislature to provide for loans to students at institutions of higher education to be known as the Texas Opportunity Plan."
"AGAINST the Constitutional Amendment authorizing the Legislature to provide for loans to students at institutions of higher education to be known as the Texas Opportunity Plan."
Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

PUBLIC NOTICE
Proposed CONSTITUTIONAL AMENDMENT
NUMBER TWO ON THE BALLOT

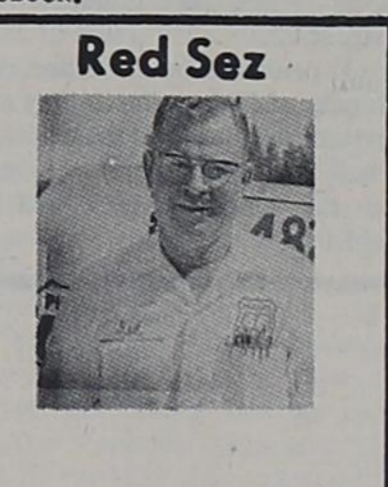

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000), providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund, and providing for an election and the issuance of a proclamation therefor.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:
"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Board and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.
The Commissioner of the General Land Board shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.
The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.
"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall likewise be deposited to the credit of the General Revenue Fund.
"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.
"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.
"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

Vincent's Entertain Visitors

Recent visitors in the home of Mr. and Mrs. L.R. Vincent have been Mr. and Mrs. J.O. Landis, Johnnie and Shella from Crane, Mrs. Landis (the former Marguerite Smith) is a niece of Mrs. Vincent.
The Landis family left on Monday for Fort Worth and Waco. They will also visit Six Flags.
Other visitors in the Vincent home last week were Mr. and Mrs. Don Summers, Kary Don, Marty and Kristen, Beaumont, Calif. Mrs. R.B. Summers, Clovis, Mrs. Lee Rothwell, Childress. Also recent visitors in the Vincent home have been Mr. and Mrs. Dewie Rothwell, Pricilla and Gary, Lubbock.

PUBLIC NOTICE
Proposed CONSTITUTIONAL AMENDMENT
NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
SENATE JOINT RESOLUTION NO. 7 proposing an Amendment to the Constitution of the State of Texas providing for the exemption from local ad valorem taxes of the property of certain charitable organizations, provided such organizations meet certain conditions and requirements and expend at least One and One-half Million Dollars (\$1,500,000.00) annually on free medical and hospital care for the indigent within the State of Texas; providing for the necessary election, form of ballot, proclamation and publications.
PREAMBLE
WHEREAS, The Legislature finds and declares that there is a need for the operation of hospitals by private charitable enterprises which will furnish free medical and/or hospital care for the indigent in Texas; and
WHEREAS, The operation of such hospitals and the furnishing of such free medical care and hospitalization for the indigent in Texas will add to the welfare and well-being of the State of Texas and its residents and citizens; and
WHEREAS, The need for the operation of such hospitals and the furnishing of such free medical care and hospitalization for the indigent is especially great in counties having a population in excess of one million two hundred forty thousand (1,240,000); and
WHEREAS, It is found and declared to be the Public Policy of the State to foster and encourage such operation of hospitals as aforesaid; now, therefore,
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. The Constitution of the State of Texas is amended hereby, by the addition of a new Section to Article VIII thereof, to be numbered Section 2-A, and reading as follows:
"2-A. The properties of any charitable trust or organization, if such trust or organization is dedicated to, and operates a hospital furnishing free hospital and/or medical care for the indigent within the State of Texas, shall be exempt from all ad valorem taxes levied by any taxing entity, except by the State of Texas itself, provided:
(1) such trust or organization has expended for free hospital and/or medical care within the State of Texas, during the calendar year next preceding, a sum of not less than One and One-half Million Dollars (\$1,500,000.00); and further provided,
(2) after such exemption has been in force and effect for one full calendar year, the amount expended for free hospital and/or medical care, within the State of Texas, amounts to not less than One Million Eight Hundred Thousand Dollars (\$1,800,000.00) for the calendar year next preceding; and, further provided,
(3) such trust or organization is exempt from United States income taxes;
(4) such charitable trust or organization maintains its domicile and operates a hospital in a county having a population of more than one million two hundred forty thousand (1,240,000) according to the last preceding Federal Census, and such exemption shall apply only to the properties of such charitable trust or organization located within the county of its domicile.
"Proof of compliance with all applicable conditions stated above, shall constitute a complete defense to any suit for ad valorem taxes levied or attempted to be levied by any taxing entity other than the State of Texas itself.
"This Amendment shall be self-enacting."
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:
"FOR the Amendment exempting the property of certain charitable organizations from local ad valorem taxes provided any such organization meets certain conditions, and expends at least One and One-half Million Dollars (\$1,500,000.00) annually for free hospital and medical care for the indigent within the State of Texas."
Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and Laws of this State.

ALMOST READY — Johnny Watford and Billy Watts pause for a moment in their busy day to discuss the building progress on the new facilities at Watts Oil Co. (Enco) in east Farwell. The new facilities when completed will house a grease room and two

wash rooms. This is the first step in a series of building projects in which the facilities at the station will be remodeled and enlarged.

• While driving in residential areas, keep an especially sharp eye out for children. Often youngsters run across the street blindly without looking to see what's coming.

Floyd Jennings Speaks To WSCS At General Meeting

General meeting of the Methodist WSCS was held in the church parlor at 9 a. m. on Wednesday morning with 14 members and four guests in attendance.

Guest speaker was Floyd Jennings, pastor and director of the Wesley Foundation and Chapel at Eastern New Mexico University. He discussed the work of the Foundation on the college campus and told how the local church, the Wesley Foundation and the college work as one unit to assist the college student in spiritual growth.

Members of the WSCS made plans to hold a series of Cottage Prayer meetings preceding the revival which is scheduled for the week of Sept. 12-16. During the weeks preceding the meeting all members of the WSCS are asked to pause each morning at 9 a. m. to offer a special prayer for the revival.

Announcement was made that the Grace Circle of WSCS will meet on August 17 at the church parlor. Mrs. Joe VanZandt will be in charge of the program and will also be hostess for the day.

Mrs. Donnell Rolland was in charge of the nursery during the meeting on Wednesday. Hostesses for the meeting were Mrs. Willie Williams and Mrs. W. N. Foster.

Other members in attendance were Mesdames C. C. Christian, John Tadlock, B. N. Graham, Ted Magness, W. T. Magness, J. B. Benderman, Joe Helton, Elmer Teel, Johnny Mc-

Donald, Robert Morton, Ted Horner, and Joel White. Guests were Lynne and Joyce White and Bessie and Irene Bowery.

Automobile Costs Vary Widely

Automobile costs and maintenance expenses vary with each car and owner, says Mrs. Wanda Meyer, Texas A&M University Extension home management specialist.

Gasoline and oil costs for the same make and model may vary as much as 50 percent. This variation is caused by factors such as how a car is driven, the type of driving such as city, flat country, or mountain driving, the loads carried, the general condition of the vehicle and tire pressure. Oil consumption is equally variable.

Maintenance costs vary even more than gas and oil costs. The owner of a new car may have no more expense than a five or six lubrication jobs and a gallon of anti-freeze.

The type of driving and driver are both factors in determining tire costs. High speeds, warm climates, hard cornering, rapid acceleration and quick stops all contribute to fast tire wear. The motorist who must replace a set of tires every year may spend from \$60 to \$200 depending on the size and type of tires he chooses.

Most motorists carry insurance on their cars. Insurance premiums are listed under fixed costs because they do not fluctuate with the number of miles driven. To determine insurance costs, add the premiums of all policies you carry that are directly related to car operation.

License and registration fees should be treated in the same way as taxes. Determine what you spend for license and registration fees and add the total to your fixed costs.

Uncle Sut says that sometimes a cold in the head causes less suffering than an idea. Dale Holdridge, The Langford (S. Dak.) Bugle.

Times change. When grandma used to tell how many pints or quarts she put away, you knew she meant jellies. N. D. Wilcox, The Elysian (Minn.) Enterprise.

Cucumber harvest has been made easier by the arrival of a cucumber harvester in Parmer county. While the machine does not do away with all hand labor it does make the harvesting chore much simpler. Workmen on the Wendol Christian farm

are picking cucumbers for the second time this year. The 15 acre patch of cukes are producing a yield of 500 bushels per acre and selling for \$3.50 per bushel.

Range Fires A Seasonal Hazard

Motorists beware -- range fire season is just around the corner as dry weather conditions persist over most areas of Texas.

Thousands of Texas' 100 million grassland acres go up in smoke every year because of carelessness, says G. O. Hoffman, Extension range specialist, Texas A&M University.

The grass you see when traveling along the highway is

Abuses and advantages of land annexation by Texas cities are evaluated in a new University of Texas Institute of Public Affairs publication, "Municipal Annexation in Texas." Astronauts circle the earth in less time than it takes many a woman to get ready to go somewhere. Robert D. Burgess, The Opp, (Ala.) News.

Even though most rumors haven't a leg to stand on they have a way of getting around. Harold S. May, The Florence (Ala.) Herald.

the rancher's winter hay crop, like money in the bank to him. The stockman has worked hard to produce this grass, so help him keep it by preventing grass fires from a carelessly flipped burning match or cigarette.

Grass is more than just "cowfeed." Besides producing tasty steaks and lamb chops, grass produces food and cover for deer and quail, prevents muddy water from running into lakes and streams and killing fish and making water recreation unpleasant.

Not only is grass important to the rancher, but you also have a stake in it. Take a look at what it has to offer you. When hunting season rolls around, you want a fat buck to hunt or a large convey of quail for the dog to point. Without grass and cover these will not exist.

The ol' fishing hole offers some pleasant hours of fun to you -- unless a careless passerby caused a fire that filled the lake or stream with silt from an unprotected range area. Your favorite picnic spot can be turned into a charred wasteland by careless smokers or campers.

Keep these things in mind when you start to throw that next cigarette or match out of the car window. Help the rancher and help yourself. He put those fire precautions there to protect his most valuable natural resource -- grass.

By JOE VANZANDT County Agent

On The Farm In Parmer County

COTTON IRRIGATION
It is time to start planning on cutting off cotton irrigation water.

A cut-off date of August 20 is recommended for this area. Based on research results, application of irrigation water after August 20 has several bad effects. One of these is lowering of quality -- that results in a decrease in net returns per acre. In some years total yield per acre may be increased with late irrigation. However, the resultant lowering of cotton quality usually means decreased net returns, plus added cost of the late irrigation.

Late watering increases boll set which normally haven't matured by frost. This is likely to be a case where the highest yield does not necessarily make the most net profit. Over the years, we believe farmers will be ahead to settle for the crop they can make by cutting off water August 20 and get more dollars per bale on possibly a little less cotton.

SORGHUM MIDGE
So far this season Parmer County has had very few midges. However, if your sorghum has not headed out yet, we recommend you keep a close watch on it. You should check for midge as soon as heads start to emerge. The adult midge is an orange-colored fly about 1/12 inch long. Adults are more noticeable in the early morning crawling over spiklets of developing grain heads.

Insecticides recommended are: Sevin, Toxaphene, Endrin, Ethion, Parathion, Triflithion, and Diazinon. Insecticides must be applied soon after head emergence. A second application, 3 to 5 days after the first spraying is good insurance during prolonged periods of adult activity.

ABNORMAL TREE GROWTHS
Galls or abnormal growths are often found on ornamentals and shade trees.

Certain species of insects and mites cause the distinctive deformity which develops on the leaves, twigs or stems of the plant. Immature stages of pests can often be found within developing galls.

Mites, midges, plant lice, Cynipids (tiny wasps) and jumping plant lice are some of the more important gall-forming insects. Control of the abnormality cannot be accomplished after it has formed since it contains and protects the pest from insecticidal contact.

Applications of DDT plus malathion, beginning with the new growth and continuing at weekly intervals until the leaves are fully developed will help prevent formation of galls.

4-H NEWS
Milton Lee Walling and his family left Wednesday for the State 4-H Horse Show to be held in Dallas at the State Fair Park Coliseum. 311 contestants are expected. We know the competition will be rough, but feel like Milton will be there giving the best lots of competition. The County Agent and his family are also attending the show which lasts thru Friday.

There were 27 boys and six men who returned last Thursday from the 15th Annual Boys 4-H Camp in Holy Ghost Canyon, New Mexico.

Those attending the camp were: David Sides, Mike Fred, Kevin Kaltwasser, Derek and Dexter Garner, Mike Doshier, Steven Kaltwasser, Roy Don Coker, Danny and Loy Dale Clark. Others present were: Niel Christian, Mark Ramage, Randy Barrett, Raymond and Manuel Quintana, James and Floyd Schlenker, Danny Carthel, Larry Cox, Nick Collier, Rusty Lindeman, Gary Phipps, Joe Mark Milloy, Tony and Kenny Keeth, Benny Kent and Glen Cannon.

THE HIGH PLAINS FARM AND HOME

Farming Becoming Hazardous Work

Farming as an occupation is getting more hazardous each year. Although the Texas farm population is declining, farm accidents are on the rise.

Increased mechanization is a big factor. Machines allow the farmer to do much more work than previously, but they also increase his work load. And as fatigue sets in, the accident potential rises.

The number of Texas farmers decreased some 45 per cent in the last 15 years. But accidents have jumped an alarming 66 per cent.

On the national average, death rates from farm accidents varied by age groups. Increasing rapidly after age 49, the rate was more than double the U. S. average for those farmers who were still active at 75. Highest farm accident death rate for any group under 50 is among those 15 to 24 years of age.

The leading cause of accidents on farms is machinery, followed by drowning, then firearms, falls, blows, burns, electricity and poison. Machinery accounted for 37.6 per cent of the more than 9,000 fatal accidents on U. S. farms in the last three year period. This makes farming more dangerous than work in mines, quarries and industrial factories combined.

February through July is the most hazardous part of the farming year. Machinery accidents are highest during planting and harvesting season. Firearm fatalities increase throughout the summer and fall, then decline steadily from January through May.

Texas Agriculture Commissioner John C. White recently joined the National Safety Council in urging greater safety factors to be built into farm machinery.

"Automobiles are claiming a lot of attention among safety-minded engineers," White pointed out. "We'd like the same attention to be directed towards farm equipment."

A new publication of The University of Texas Bureau of Economic Geology suggests creation of a council of state administrators directly concerned with conservation of the state's natural resources. "Texas Mineral Resources: Problems and Predictions" by Dr. Peter T. Flawn, bureau director, is among the first in a new series of geological circulars issued by the bureau. Copies are available at 50 cents (plus state sales tax) from the Bureau of Economic Geology, University of Texas, Austin, Texas 78712.

has gone and supervised the camp cooking. Everyone who has made one of these 4-H Camps will agree that the food is superior. James lives at Lazbuddie and it would be nice if you boys wrote Mr. Mabry a "Thank You" note.

Other men attending were: Roy Miller, Dan Smith, Delbert Garner, Gilbert Kaltwasser and myself.

In the horseshoe pitching contest, James Schlenker and Danny Carthel won first place, second place went to Loy Dale Clark and Rusty Lindeman; third place winners were Mike Doshier and Raymond Quintana; fourth place was Mike Fred and Tony Keeth.

The washer pitching champion was Manuel Quintana. Other winners were: Randy Barrett, second; David Sides, third place.

Other activities that the 4-H'ers enjoyed were: hiking, mountain climbing, horseback riding and tours through the National Fish Hatchery and the ancient Pueblo Indian ruins near Pecos, New Mexico.

Don't Turn A Weapon On Yourself

Pesticides are weapons against a farmer's natural enemies but, like all weapons, they must be used with caution, Agriculture Commissioner John C. White warned recently.

The summer months are times of heavy pesticide use -- and time of danger when chemicals are not properly handled.

"Read the directions on the label," Commissioner White urged. "Private and government researchers spend millions of dollars determining proper use of chemicals but no power on earth can keep the user from accidents unless he follows instructions.

Full and explicit directions for maximum safety and effectiveness are required by the Texas Department of Agriculture to be printed on the container. Much time and many dollars are also spent by state and federal authorities in checking to see that these products react and can safely be handled according to the printed directions.

"Pesticides are an indispensable tool of modern farming," White said. "Not only can the farmer no longer afford to give room and board to pests, but the number of pests has increased. Modern rapid transportation has introduced many new insects and pests unheard of in this country 50 years ago. Also, modern intensive cultivation practices invite insect infestations.

"But farmers must remember that pesticides are a weapon against his natural enemies and should be 'pointed' only at those enemies -- never at himself or users of his production," said White. "Residues from pesticides improperly applied to crops can result in those crops being taken off the market."

WHY FUSS WITH WOOD?

NEW Panlframe GIVES YOU MORE FOR YOUR MONEY

If you're in the market for a low-cost, "do-it-yourself" farm building structure...

You can draw up some plans, go down to the lumber yard, fiddle around with siding, rafters, poles -- round up a crew -- and then pound, cut, trim, hammer and paint until you're blue in the face. And still wind up with just an ordinary wooden building.

Or you can buy a factory-made Butler Panl-Frame from us. An all-metal building that goes up fast and easy, because all the components are pre-cut and pre-punched to exact dimension. For about the same total cost.

Panl-Frame is a brand new kind of metal building, with only a bare minimum of inside supports. How

NO BULKY FRAMES NO TRUSSES
The Panel is the Building

come? Because the panel is the building -- big, strong wall and roof panels that function as both cover and frame. Panl-Frame suits almost any farm need. And you get a fire-safe, weathersafe, practically maintenance-free building to boot -- one that won't sag or rot.

If you can put a nut on a bolt, you can build a Panl-Frame. We can build it for you, at a low turn-key price. Or we can do it together. Why not come in for some free Panl-Frame building plans now? Low-cost financing available.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

According to Donald A. Johnson, executive vice president of Plains Cotton Growers and other PCG officials, there are too many farmers who view the "Cooley" cotton proposal as the only possibility for new cotton legislation.

"Statements by the Secretary of Agriculture notwithstanding," Johnson says, "this just ain't necessarily so."

It is widely held among cotton industry leaders that the administration has "ordered" passage of new cotton legislation. If this be true, defeat of the cotton program which now has the Secretary's blessing might well lead to his acceptance of a new plan.

This is the thinking behind the steadfast opposition to Cooley's proposal by cotton producer organizations from 14 states and their efforts to defeat it on the House floor. They call attention to the fact that the Senate Agriculture Committee has yet to take action on a cotton bill. Most think the Senate Committee will make recommendations considerably different from those in the House and much more acceptable to producers. And, given defeat of the House draft, the Senate's version would have a much better chance of being finally enacted.

An outline of such a program has already been proffered by producer groups and has met with some favor. Briefly, the producer plan would (1) effectively maintain the 16 million acre minimum allotment, without a mandatory cutback, and temporarily reduce production through a truly voluntary acreage diversion process, and (2) retain the loan level at 29 cents and provide for flexible equalization payments (the amount to be determined by market fluctuations) both in domestic and export markets.

The equalization payment, made to allow American cotton to meet world prices on a continuing basis, would to anyone

who assumed the obligation of consumption or export during the life of the program. Flexibility would be incorporated into the price of American cotton by settling the amount of payments as the average difference between the U. S. and the world price at the end of the marketing year. Advance disbursements would be made on an interim basis pending final determination of the difference between these average prices.

In this way, cotton would move into the market because the market price would at all times be above the loan price. An effective merchandising system and a market for all cotton produced would be guaranteed. Exports could be increased and foreign production expansion stemmed by not giving advance notice of the price at which U. S. cotton would sell. Producer income would not be dependent on a direct appropriation from Congress each year. And, to cap it all, statisticians estimate the cost to the taxpayer would be below the cost of the current proposal.

Cotton Producers Legislative Committee, representing a huge majority of cotton producers, believes this program will satisfy all segments of the industry and the Administration, if given a chance.

And the best guess is that it will get a chance only if and when Mr. Cooley's proposal is beaten in the House.

Cotton producers across the belt have been so embroiled in the controversy over cotton legislation there is danger almost equally important legislation dealing with farm labor and workers in allied industries may be overlooked. This is the opinion of Ed Dean, Field Service and Labor Relations Representative for Plains Cotton Growers, Inc.

A prime example of the legislation Dean referred to was reported from a House labor subcommittee August 3 and is expected on the floor of the House by the end of the month. The bill H. R. 10275, would raise the minimum wage a whopping 40 per cent from \$1.25 to \$1.75 and would extend minimum wage coverage for the

A workman on the Vernon Willard farm, in the Oklahoma Lane area displays the size of the cabbage which are being harvested at this time. Willard has 110 acres of cabbage in various stages (slips to harvesting size). The cabbage now being harvested

are producing 30 tons per acre and are selling for \$30 per ton (good price according to Charlie Flynn, one of the largest producers of vegetables in Parmer county).

first time in history to farm labor.

For farm workers, the minimum would start at \$1.15 per hour and go to \$1.25 in two years. All migratory workers, tenant farmers, sharecroppers and the hired hands on farms employing five or more workers would be covered. According to Representative James Roosevelt (D-Cal.), chairman of the labor subcommittee, about 40 per cent of farm employment falls in these classes.

Dean said Plains Cotton Growers, Inc. is vigorously protesting this bill along with others in both the Senate and House. The "others" have not yet been reported from committees, but are firm proposals soon to be considered. They would remove agriculture's restrictions under the Fair Labor Standards Act with regard to minimum wages and overtime; extend collective bargaining coverage to farm workers by amending the Labor-Management Relations Act, and give the Secretary of Labor authority to set up a recruiting system patterned after the bracero program. Under the recruitment plan, the Secretary, at farmer

Wildlife Unharmful In Control

In a pitched battle to halt the spread of the boll weevil into the rise South Plains cotton fields last year, some authorities feared extensive damage to wildlife and fish. Recent studies have revealed, however, that proper applications of the insecticide malathion caused no injuries.

The spraying program involved treatment of some 300,000 acres of cottonland in the vicinity of Lubbock. A 90 per cent kill of the overwintering population of boll weevils was achieved.

In addition to the absence of any adverse effects on fish and wildlife, the study also revealed that although the late-season treatments depressed populations of beneficial insects in cotton fields, the effect was not considered significant.

Cotton land was treated 4 to 6 times with undiluted malathion

expense, would furnish recruits with physical examinations, emergency medical care, transportation to and from areas of employment, food and housing during such transportation and while they await transportation.

In the Senate, these proposals are contained in bills sponsored by Senator Harrison Williams (D-N. J.) and numbered consecutively from S-1864 through S-1869. On the House side in addition to H. R. 10275, there is H. R. 8109 by Congressman Roosevelt, which is an omnibus type farm labor bill covering minimum wage, child labor, unionization, recruitment and a few minor matters, and H. R. 8259.

Over and above the implications for farm workers, these bills seek to eliminate all minimum wage exemptions and narrow all maximum hour exemptions granted to gins, compresses, warehouses and crushing mills. And, over a four year period, would increase the overtime rate for all non-exempt work over 45 hours per week from time-and-a-half to double-time.

Testimony presented in opposition to these proposals by the National Cotton Council, PCG and others points out they would add about two cents per pound to the farmer's cost of ginning and marketing his crop. And, extending the minimum wage to farm workers at \$1.25 per hour would make the cost of hand chopping and hand harvesting in some sections of the cotton belt prohibitive.

Letters to Congressmen, Senators and Committees from Plains Cotton Growers emphasize that such legislation would deprive older workers and other sub-par efficiency workers of the opportunity for farm employment. Many of these are the industrially unem-

plied at rates of 12 to 16 ounces per acre. The chemical was applied by aircraft using the new low-volume method approved by research scientists. Agriculture Commissioner John C. White pointed out that malathion is the only pesticide presently registered for undiluted use in low volume spraying. No other pesticide should be applied in this manner because of potential hazards in-

involved, White warned. The Texas Department of Agriculture cooperated with the U.S.D.A., Plains Cotton Growers, Inc. and Texas A&M University in the insect control program. The boll weevil has only in recent years been able to overwinter in the Plains region. The extensive spraying operation was put into effect to hold the line of the pest below the caprock.

WORTH TALKING ABOUT

"Profit is the measure of your effectiveness in managing resources so as to produce more than you consume. A good profit indicates that a business is successfully meeting the wants and needs of customers at prices they are willing to pay. Sound marketing recognizes there is no long-term advantage to anyone in profitless volume."

J. Stanford Smith
Vice President
General Electric Co.

"We need the experts, all right, no question about that. But we cannot turn them loose to determine how the business shall perform. Along with them, and just as much, we need the participation of managers in all departments. We need the hard-headed down-to-earth men of the line who know the traditional score, so that we will have a mixed team and a give and take, a creative dialogue, that develops in all members of the team a better understanding of the goals we want to reach and of the means for getting there..."

Frederick R. Kappel
Chairman of the Board
American Telephone and Telegraph Company

hibernation last year. As was the case last year, the Plant Pest Control Division of USDA will be paying half the cost of the program and producers on the Plains will pay the other half, with the exception of Texas Department of Agriculture funds which were \$42,000 in 1964.

Donald Johnson, Executive Vice President of PCG said: "We now know much more about what must be done and how to go about doing it, and there is no reason to suspect that the job cannot be completed within the original three-year schedule."

Uses Of Soil Surveys Conducted By The Soil Conservation Service

Soil maps are a basic tool for selecting a system of soil management. The maps show the kinds of soil in a field, a farm, or in a city or town. Currently, about one-half of the land in the Texas Panhandle has been surveyed. In the local Parmer County Soil Conservation District, about 25 per cent has been completed-to-date and it will be completed as manpower becomes available. The ultimate goal of the United States Department of Agriculture is to have a soil survey or map of every acre of land in the Nation.

What then does a soil map predict about a piece of land? In the Nationwide system now in use the soils are classified and named, just as plants and animals are. For example, plants are identified and named by such features as the structure and the shape of the leaf. Likewise, soils are identified and named by their main characteristics which are its texture (proportions of clay, silt, sand), color, depth, kinds and sequences of layers or horizons, and any other feature that is important to its use and management.

These soil traits or features can be determined in the field by the Soil Scientist making the map. The names of the soils are taken from towns or localities near the place where the soil was first defined. Examples of soil names from this area are the Amarillo series, Pullman series, Dalhart series and Randall series. After the features or characteristics of a soil have been studied and determined, predictions can then be made about how it will respond to various kinds of management or use.

Some of the questions that a soil survey and its interpretations can answer are: Is this land suited to cultivation? What kind of crops can be grown? How much erosion has occurred on it? What practices will be needed to maintain or increase the soil's fertility? Is the soil suited to irrigation and what kind of system will I need? What kind of native grasses will it grow? Does the soil swell and shrink, creating a hazard to structural

foundations? Does it flood often, and many others.

The principal users of soil surveys are those involved in producing agricultural products - farmers, ranchers, dairymen, etc. Special interpretations have been made by Soil Conservation Service Technicians to assist agriculturalists in the use of the surveys. This is the land capability classification system. Soils are placed in eight classes, all of which do not normally exist on any single farm or ranch. Class I through IV are suited to cultivated crops. Class V through VII are suited only to grazing and wildlife. Class VIII land is suited only to wildlife.

Through the soil survey, this land capability system provides the basic facts with which the Soil Conservation Service Technicians and the landowner or operator develop the conservation plan for the cultivated land on his farm. For rangeland, the soils are grouped into range sites. Each site is composed of a group of soils that respond similarly to kinds of grazing and that grow the same kind of grasses.

Soil maps are made by experienced Soil Scientists who are graduates of Agricultural Colleges and Universities, where they were trained in the soil sciences, crop sciences and related subjects. Ordinarily the Soil Scientists use aerial photographs as a base for plotting the soil boundaries. He goes over the land with a spade, auger or power sampler and digs as often as necessary to determine the kinds of soil and to mark their locations.

Soil maps may have other uses. They are of use to prospective landowners, land appraisers, students of natural sciences, road builders, pipeline companies and others. In some urban areas, corrosion of underground pipe is a problem, thus soil maps are used as a guide for rerouting their pipelines around these salty areas, thereby saving these cities much expense. Soil surveys are also being used more and more by counties and school districts as a basis for re-evaluation of their tax structures.

The Active Life by Dan Eams

SURFING
THE EXHILIRATING SPORT OF SURFING WAS POPULARIZED BY THE LEGENDARY HAWAIIAN SURFER, DUKE KAHANAMOKU. THIS MASTER OF THE ANCIENT POLYNESIAN PASTIME, WAS THE FIRST TO DEMONSTRATE SURFING IN CALIFORNIA WATERS WHERE THIS FAST-MOVING SPORT ORIGINATED IN THE U.S.

THE CRY OF "SURF'S UP" IS BRINGING GROWING NUMBERS OF NEWCOMERS WHO WANT TO GET IN ON THE FUN. SKILLED SURFERS CONTINUE TO LIVE THE SURFING LIFE - COMPLETE WITH CUT-OFF-AT-THE-KNEES BLUE JEANS, THEIR OWN LINGO AND THE SPECIAL SURF-BEAT MUSIC.

NOT ALL SAVINGS AND LOAN ASSOCIATIONS PROTECT THEIR CUSTOMERS' SAVINGS BY INSURING THEIR ACCOUNTS WITH THE FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION (FSLIC)

The above emblem is displayed by the association who is a member of the F.S.L.I.C., a Government Agency established by Congress and administered by the Federal Home Loan Bank Board, Washington, D.C.

This emblem of Safety is your assurance that your savings are insured up to \$10,000.00 by the F.S.L.I.C. in each Savings and Loan Association which displays this emblem.

Quick Rainy Day Party

When a rainy day keeps your pre-schooler from going out to play—and he doesn't know what to do—why not ask a few of his friends over for a quick party?

A tempting and hearty beverage can be made in a matter of minutes if some cans of baby's strained fruit juice are on hand. For something to chew on, pass a plate of Animal Shaped Cookies with enriched icing.

Fruit Juice Creme

- 1 small scoop vanilla ice cream
- 1 can Gerber Orange-Apple-Banana Juice*

For each serving, place small scoop of ice cream in sturdy low glass or mug. Fill each glass with fruit juice. Serve with straws.

Fruit Nog

- 2 eggs
- 2 cups cold milk
- 2 cans Gerber Orange-Apple-Banana Juice*
- 1 tablespoon sugar

Beat eggs lightly, add other ingredients and blend thoroughly with rotary beater. Serve the drink in small punch cups so the youngsters will have the fun of calling for seconds. Serves four.

*Try other Gerber juices and let the children pick their favorite flavors.

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Summer offers its own brand of fun—outdoor recreation, cook-outs, get-togethers and the like.

But summer enjoyments, like others, have their hazards or pitfalls.

Take sunning for example. It's practically an all-American sport. For those who participate, a beautiful tan is a status symbol well worth basking for. Too much roasting, however, results in a burn.

Everyone reacts differently to the sun. But, no matter how easily you tan, follow the rules for even basking.

First, take it easy. Ten minutes on a side is enough for the first day. Increase the time by about five minutes on each successive day. And, don't be fooled by a cloudy or hazy sky. You can burn on cloudy days, too.

Be choosy about where you sun. If you are near reflections from aluminum, water or sand, the sun's rays are intensified.

Keep your defenses up while you sun. Suntan creams and lotions contain chemical sunscreens which help prevent sunburn by absorbing ultraviolet rays. One coat of lotion is not enough for a day at the beach. Apply it as directed after each swim and whenever it seems to have rubbed off. Since eyes and hair need protection too, wear sunglasses and don a hat.

And, don't forget that continual exposure ages skin prematurely. Year-round exposure or excessive summer tanning can cause a permanent leathery look. The correlation between continual exposure and skin cancer indicates additional danger.

The back yard barbecue is another traditional part of summer fun. But barbecuers would do well to restrict all cooking over charcoal to the outdoors. Bringing a grill full of coals into the garage, basement, back porch, or kitchen—in case a sudden rain comes up—can be deadly. Charcoal briquets can produce the deadly, odorless carbon monoxide as long as they are giving off heat.

Campers have been asphyxiated by trying to heat cabins, tents and even cars with charcoal briquets. Carbon monoxide is especially treacherous since its presence cannot be detected by the senses.

Early this fall more than 240,000 young Texans will be

entering public schools for the first time.

Even though the opening of school is still some weeks away, parents are busy making preparations to insure their child makes a smooth adjustment to his new environment.

The child's adjustment will be more rapid and satisfactory if he starts his school life in good, sound health.

Have your family physician or local clinic give your child a complete physical examination including an eye check. His teeth should also be checked by the family dentist. If these examinations show there are ailments or defects that can and should be looked after, then follow the doctor's and dentist's advice and have them corrected, if possible before you enroll him in school.

It's likely that your child has already been immunized against certain of the childhood diseases such as diphtheria, whooping cough and smallpox. If not, have it done immediately either by your doctor or by the local health clinic. If all immunizations have been done previously, make sure your child gets the necessary booster dose.

Insist on your child's getting regular and sufficient hours of sleep to help him enjoy school. He needs ten to twelve hours of sleep in a quiet, darkened room with an open window to build up his energy and offset his tiredness.

Proper nutrition is very important. When school starts, allow enough time for a wholesome breakfast. A good breakfast includes citrus fruit or juice, milk, whole grain cereal or bread, eggs or bacon or both. Lunch and dinner should be a leisurely meal. The new adventure of school is a pretty fast pace, but mealtime offers an opportunity for the family to pause and relax together.

Also nearly every school district in Texas requires proof-of-age for first year students in the form of a certificate of birth.

You may obtain a copy by sending a dollar and a half plus the name of the child, the date of birth, the place of birth, and both the father's and mother's names to the Records and Statistics Section, Texas State Department of Health, 410 East 5th St. Austin, Texas. (A weekly feature from Health Education Division, Texas State Department of Health).

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

4-H Information:

A total of 48 girls turned in record books for judging last month. This means that each one who turned in a record book will receive a year pin for 1965 at the county 4-H achievement banquet. Those girls who entered the various awards events in the county and scored in the upper 10% will be eligible for other awards provided by donors of 4-H awards.

A total of 74 girls started working in the clothing project groups. Out of this number 41 completed and participated in the county dress revue. Some girls fell by the wayside, others completed their work, modeled in the community groups, but failed to turn in their record books. This was true also of those in food projects. We hope this does not happen next year. We want each one to enter in county events and gain the experience of competing in project events. A record is evidence of the girls' project work and gives a chance for county awards and recognition.

CAMP AND VACATION TIME:

4-H camps and picnics have been the main activities in 4-H clubs this month. It will soon be time to start a new year in 4-H. We will be needing project leaders to train these girls and boys. Do you know that in Parmer county only three out of 10 youth under 18 are enrolled in or participate in any volunteer youth development programs for training citizenship, leadership and skills? Our modern day conveniences have taken away many opportunities for youth to learn responsibility. What better way can parents spend their time than

helping to preserve human resources than working in programs to train youth? We appreciate the adult leaders in the 4-H program. They spend much time and effort working with 4-H members, but there is need for more leaders.

FREEZING IRISH POTATOES:

There have been numerous requests for directions for freezing Irish Potatoes.

Preparation for freezing new potatoes:
Select potatoes the size of walnuts. Scrub well in cold water to remove skins, or wash and scrape. Preheat in boiling water five to eight minutes, depending on size.

COOLING: cool in cold running water five to eight minutes. Pack: pack dry with water in air-tight containers.

Preparation of French Fried Potatoes for Freezing: Use mature potatoes suitable for French frying. -- Wash, peel and cut in sticks, 1/4" square. -- pre-heat sticks in boiling water for two minutes. -- Cooling: Cool in cold running water three minutes. -- pack dry, without water.

Another method for French fries:

Select potatoes suitable for French frying-- Fry in deep fat to a light golden brown. Drain thoroughly on absorbent paper, cool to room temperature. -- Pack in moisture - vapor-proof frozen food containers.

Thawing and heating: Remove from package, place on baking sheet, reheat in hot oven (400 degrees) for five minutes.

This is potato digging time in the area. Many will want to preserve and use the small imperfect ones that are not suitable for marketing.

Lots of good eating in this 80 acre field of cantaloupes on the Wendol Christian farm. However, it seems that brother Troy Christian, who searches diligently for just one of the melons ripe enough to eat is destined to wait the allotted two weeks

for harvest before sampling the fruit. Estimates indicate that the field will produce a yield of 200 crates per acre, which is good or more than average yield.

Storage Space Use Can Date Your Home

The use of your storage space within the home can tell others how the building is, says Mrs. Elsie Short, Texas A&M University Extension home management specialist.

Shelves that can be adjusted make the best possible use of available space, emphasize housing specialists at the U.S. Department of Agriculture. As a family's needs change members can simply change the shelf arrangement.

Besides adjustable shelves, step-shelves and other storage devices can make storage space more usable. Some of these devices can be found in hardware, variety or department stores.

Study your storage needs, then shop for the resources to up-date your storage, suggests Mrs. Short. There are sliding shelves of different widths on nylon rollers, which may be stacked; pull-out lid or pan storage; lazy susan shelves of various sizes which may be used separately or stacked depending on the space and needs. These devices make the storage in the corners and at the back of the cabinets more usable.

When planning for storage, these principles will assist you with decision-making: Store heavy equipment where it will be used. Store items used most often in easy-to-reach places. Let use determine storage placing of other equipment.

ment stores.

When planning for storage, these principles will assist you with decision-making: Store heavy equipment where it will be used. Store items used most often in easy-to-reach places. Let use determine storage placing of other equipment.

The Cooperative Extension Service and the U.S. Department of Agriculture direct 4-H Club work throughout the 50 states and Puerto Rico.

Health And Safety Tips

Is your family planning a summer automobile vacation trip soon? If so, it's time to make certain you have ready in the car first aid supplies and the necessary equipment for safety measures in case of an emergency, says Today's Health, the magazine of the American Medical Association.

Small commercial first aid kits are all right for minor scratches, bruises and sunburn. Additional supplies are needed to care for more serious injuries.

Here are some suggestions from Today's Health for supplies for your auto trip --

- * Keep in your car a first aid guidebook, such as the AMA Manual.
- * Be well supplied with wood splints, several 4x30 inches and several 3x14 inches, for use in fractures.
- * Pack at least six triangular bandages, and a supply of large and small sterile dress-

sings for use in emergency treatment of wounds.

* A blanket is useful as a covering to keep an injured person warm, or in fashioning an improvised stretcher.

* Have a supply of note pads and pencils. Reports to the police and insurance companies must be made following an accident.

* File with the first aid supplies directions on what to do and specific information to be recorded in a traffic accident.

* Keep in your car a flashlight with new batteries, and warning flares or signals for use of car is stalled on the highway.

Self-Help Clothing Builds Child's Confidence

Self-help clothing for nursery-schoolers can do much to build a child's confidence, says Lynn Parks, Texas A&M University Extension consumer education specialist.

Proper clothes for tiny pupils need not be expensive or even "fashionable." They are clothes that a child can handle himself without having to ask

the teacher for help. Easy-care, washable fabrics are important for the small fry. When little garments can be put through the washer and dryer quickly, mother needs to buy fewer of them, points out the specialist.

Self-help features that mothers might look for when clothes shopping or buying patterns to make garments for a child are elastic banding instead of buttons or buckles wherever logical, a few larger buttons and buttonholes instead of a dozen very tiny ones, and no complicated sashes on little girls' dresses which teach has to tie.

The self-help features will encourage the tiny pupils to take care of themselves, and will save considerable effort on the part of teachers and busy parents.

Women IN THE KNOW

By Jean Kinkead, Women's Consultant, The Travelers Insurance Companies

Home Vacations

One of the keys to leading a healthy—and a long—life is a real, annual vacation. What is a vacation? Depending upon your point of view, it might be a family fishing trip to the wilds of Canada, or a lush second honeymoon in Paris.

Still, when finances or unavoidable conditions make a vacation away from home impossible, women in the know can arrange an altogether delightful vacation right at home!

There are two basic musts for home vacations: a complete change of routine and a temporary respite from responsibility.

There are all sorts of ways to change your routine. First, vary your eating habits. Have a late brunch and an early gourmet supper. Or, enjoy a meal a day at a restaurant and have fun discovering a different place each day.

Take up something entirely new during your vacation. Learn how to play tennis or golf or begin studying French. And, you'll have all the time in the world for that nearby summer theater, outdoor concerts and sporting events that you ordinarily just read about in the newspaper.

To lighten your responsibilities, hire temporary help to cook, clean, baby-sit and cut the grass. Export the small-fry to kind grandparents or make reciprocal agreements with good friends. If you're really brave, you won't even answer the telephone!

A backyard vacation will make you feel so refreshed and healthy that you'll want to keep up the system on all the lovely summer and Indian summer weekends to follow.

Have their hope set . . . on God, Who giveth us richly all things to enjoy. —(1 Tim. 6:17)

His will for us is abundant supply of all that we need to make life happy, secure and complete. God's supply is not limited to time or place. We need to know that God's law of increase is constantly active in our life and affairs, and we are richly and bountifully prospered.

The average American eats 44% more beef, 65% more chicken, 33% more cheese, and 23% more canned fruit than he did 15 years ago. He's cut down on wheat products 15%, fresh fruits 40%, eggs 18%, veal 49%, and pork 5%.

fresh from the home of quality!

Recreation

When did you first hear the ancient cliché "All work and no play makes Jack a dull boy?"

Setting aside time for recreation is becoming increasingly important in leading a healthful and productive life.

For most people, the national result of modern conveniences and increased automation is a sedentary existence.

The National Recreation Association annually sponsors National Recreation Month each June to alert Americans to the need for wise use of leisure time. Special events of interest to all age groups are planned by recreation departments, civic groups, citizens' organizations and other recreation-minded agencies across the country.

Modern society has become what someone has called "flip-flopped." The executive now works long hours instead of the laborer. Yet, like everyone else, physicians, executives, and other professional people need the refreshment that enjoyable recreation offers.

Leisure time can be used to regain a healthy balance of suitable physical activity and relaxation. Whether through a trip to the opera or an hour or two of quiet fishing, the ability to "lose oneself" in recreation provides personal fulfillment and relief from life's tensions.

Recreation is personal; to be satisfying, the hobbies and other activities chosen should be meaningful to the individual. What may be enjoyable to one person may be boring to another. Fortunately, a wide variety of opportunities is available and every person should be able to find some that bring satisfaction. Interesting family activities, another important but often missing part of modern life, can evolve from personal recreation interests.

Whatever a person may choose as hobbies, some physical recreation should be included daily. The health benefits from regular suitable physical activity, such as weight control, relief from stress, and a sense of well-being, are now well established. On the other hand, the potential ill-effects of prolonged inactivity, such as obesity, metabolic disorders, loss of movement capacity, cannot be considered helpful for enjoyable living.

The broad benefits attributed to recreation are not automatic outcomes. Every activity carries some risk, whether from the nature of the activity itself or from the demands on the participant. One national survey showed 18,000 disabling golf injuries in 1962. Most of these were sustained by persons struck by golf balls. However, heat prostration accounted for 10 per cent and over-exertion another 7 per cent of the total. These statistics should not cause a rush to the golf cart, which produced 7 per cent of the casualties. Rather, golfers, should respect the safeguards that judgment and conditioning will offer.

To capitalize on recreational opportunities:

- (1) Learn your capabilities and limitations through periodic medical examinations, and plan your activities accordingly.
- (2) Practice habits of healthful living faithfully in order to have the ability to do effectively the things you must and want to do.
- (3) Understand the risks involved in your activities of choice and the preventive measures to be followed.

DID YOU KNOW THAT:

The Texas Forest Service conducts an active program in the field of wood utilization. Through its Forest Products Laboratory, both research and education are conducted, aimed at increasing the effectiveness of use of wood.

Mulching retains moisture in the soil.

BRAHMAN NOT COWED BY POPCORN

READY FOR SALTY STATE FAIR — At last year's State Fair of Texas, this Brahman found something better than a saltlick; a hole with some salt, but the salt was on popcorn. Undaunted and un-cowed, the Brahman won — everybody knows that eating popcorn is part of "going to the fair." The 1965 State Fair of Texas will run October 9 through 24 in Dallas, with the internationally significant Pan-American Livestock Exposition the major attraction of the first nine days. The Pan-American will feature the Premier Angus Show of the Americas, along with excellent shows of Hereford, Brahman, Brangus, Charolais, Santa Gertrudis and Shorthorn cattle. During the exposition, a superior dairy show also will be presented, with the Regional Holstein Show, State Jersey Show, and shows for Ayrshire, Brown Swiss and Guernsey cattle. In addition, there will be shows for purebred swine, sheep and goats.

Plums For Everyone

Plum upside-down cake for dessert — halves of plums stuffed with cream cheese for appetizers — plums for out-of-hand snacks. Plums can easily fill these and many other uses in the coming weeks.

- They're in abundant supply
- They come in a variety of colors, flavors, shapes, and sizes.
- They're convenient to use.
- They're an apt candidate for specials in coming weeks.

Plum production has been expanding — more trees and more varieties — in recent years. The 1965 crop is the third in a row in which the harvest has been abundant — more than a third above average. Plums are marketed fresh mainly — only about 10% go to the processors. They move large-v from tree to market. Plums have a relatively short storage life.

Plum varieties change almost weekly at the market place:

• **Santa Rosas**, often referred to as the "Queen of Plums," come to market early and stay late due to early, regular, and late strains, and locations of orchards. More than one third of California's plum production is Santa Rosa. The conical shaped fruits have a purplish crimson skin. The flesh is yellow to dark red near the skin. A rich, pleasing tart flavor and juicy texture make the Santa Rosa a favorite for serving and for jellies and jams.

• **Nubianas**, one of the newer varieties in local markets, have colorful black-red skins, light amber, and firm flesh, and good flavor. They're excellent shippers.

• **Larodas**, also a new variety are large plums of attractive medium red over yellow skins, yellow flesh, and good flavor.

• **Mariposas** are in light production. Red-fleshed, nearly round in shape, they have a red skin with a heavy cover of gray bloom which becomes a dark red-purple as the fruit ripens.

• **Tragedys** are medium in size, oval shaped, have a dark blue-purple skin and yellow-green, firm flesh. They are sweet and well-flavored.

• **Elephant Hearts**, large, red-fleshed, freestone plums, excellent for dessert or snacks. Limited in supply.

• **Queen Anns** will come to market later in July. These have a deep mahogany skin and light amber flesh that, when fully ripe, is rich and honey-like in flavor. They are good shippers, store longer than most.

• **Kelseys**, good shippers, Kelsey plums are often called "green" though they ripen to a yellow splashed with red. An excellent dessert plum.

• **Presidents**, these dark purple plums are very colorful in salads and on a fruit plate. Large, firm-fleshed, and good flavored, they are good shippers.

• Standards help close the plum season, starting to market in mid-August. Dark blue skins, yellow fleshed, medium-sized, they are excellent for fresh eating, cooking, and canning.

Select plums that are well formed, clean, well-colored for the variety, free of decay, broken skins, growth cracks, and hail damage. A ripe plum yields to gentle pressure when given by the palms of the hands. Plum puree is an excellent topping for ice cream, puddings, cake, waffles, and pancakes.

Plum Puree
Select fully ripe fruit. Wash, cut from the pits. Add 1 cup water for each 4 pounds of

fruit. Bring to a boil, cook for 2 minutes; cool and press through a sieve or food mill. Depending on the tartness of the fruit, add 1/2 to 1 cup of sugar for each quart of puree. Store, covered, in the refrigerator until ready to use. To freeze: Turn into containers, leaving 1/2 inch head-space. Cover tightly, label, and freeze.

Plum Ambrosia

Oranges
Plums
Honey
Flaked coconut
Sour Cream

Peel and slice oranges. Wash plums, cut in quarters and remove pits. In your best clear glass bowl arrange alternate layers of orange slices and plum quarters, topping the plums with a drizzle of honey and a sprinkle of coconut. Serve chilled with a dollop of sour cream on each serving.

Hot Plum Cake

Put a layer of fresh plum quarters in a well-greased baking dish. Add yellow cake batter. Baking according to cake instructions. Then serve cake warm with a whipped cream accent.

Nearsightedness

The nearsighted or myopic eye is usually longer than the average normal eyeball. Rays of light from a distant object focus in front of the retina, or seeing coat inside the eye, instead of on it. Vision for near objects is clear but distant objects are blurred.

There is no cure for nearsightedness usually increases during the most active growing period because the eyes also grow larger. After full growth is attained there is usually further reduction in vision for distance.

Today's Health, the magazine of the American Medical Association, says that activities that are good for the normally sighted child are good for the healthy myopic child — plenty of fresh air, routine play and exercise to the point of normal fatigue working in well-lighted rooms and eating a sound diet.

Some cases of myopia are seriously progressive and may be associated with disease. Fortunately, seriously progressive nearsightedness is now rare in the United States. Myopia is corrected with concave lenses. These glasses are thin in the center and thick at the edges, causing the rays of light which focus in front of the retina to diverge and stroke the retina, thus making the image clear. In middle or old age nearsightedness may improve slightly because the eye usually becomes a little more farsighted. Rarely does this change make a nearsighted eye normal.

A frequent change of prescription for glasses usually is necessary for nearsighted persons until about the age of 25. It is important for nearsighted individuals to have annual eye examinations.

With the approach of another school term in the fall, eye examinations for the family are important. Many children are nearsighted without realizing it. Sometimes the defect is first discovered by a teacher who finds that the pupil cannot read the blackboard.

See your eye doctor (ophthalmologist) or if you do not know an eye specialist, ask your family doctor for a recommendation.

Questions And Answers On Rural Civil Defense

Q. What areas of Texas are safe from atomic fallout?

A. None. Fallout from a nuclear explosion, accidental or enemy, could be dangerous in any area of Texas from El Paso to the Louisiana border and from the Panhandle to the Rio Grande Valley.

Q. What determines the fallout area?

A. There is no simple answer to this question because of the many variables such as size of weapon, materials used, wind and weather conditions, height of explosion, terrain, etc.

Q. How does size of bomb affect fallout area?

A. It is believed that the height of the explosion, wind and weather conditions, and other factors may have more effect on the size of the fallout area than the size of the weapon. However, size certainly is an important variable.

Q. What are the effects of a nuclear explosion?

A. They are heat, blast, and fallout. Fallout contains the radiation that we need to protect ourselves from. Planning and preparation will give us the tools to do the job.

Q. What does fallout look like?

A. Larger fallout particles near the blast might look like sand or ashes. Further downwind it would be like pepper or just dust.

Q. How can I tell if dust is radioactive?

A. You can't see, feel, hear,

taste or smell radiation. Geiger counters or other monitoring devices are necessary to detect and measure radiation.

Seems to me there's been an unusual amount of discussion recently about college educations. Not only the rising costs, but the lack of facilities to meet the needs of increasing numbers of youngsters who want to go.

Some time ago the Treasury Department printed a leaflet on how to save for a college education through regular purchase of United States Savings Bonds. A main point was that the Federal income tax due on the interest that accumulates can be reduced — or even wiped out entirely in most cases — by having the bonds issued in the child's name. Then a special income tax return is filed for the child, reporting the first year's interest as income. Since the interest will be well under \$900 in most cases, the tax liability will be satisfied without paying anything.

Now another question has come up. Can the parent's old bonds be transferred to the child, and accomplish the same thing? The answer is "Yes", it can be done, BUT the parent must pay tax on accumulated interest up to that point; and the child is responsible from then on.

And, remember, SAVE ALL TAX RETURNS as proof of intention.

"Step on the gas—or I'll be late for my sewing club."
