

**FROM THE
HOPPER**

BY HOP JR.

Rep. Bill Clayton has been helpful enough to send us some detailed information on junior colleges in the state. As the interest in a college education continues to grow by leaps and bounds, the part the junior college plays is surprising.

For example, I had no idea there are 32 state supported junior colleges in Texas with about 40,000 enrollment, but there are. Junior colleges of interest that serve our general area include those at Amarillo -- one of the oldest and largest in the state -- and at Levelland -- one of the newest and smallest.

West Texas State and Texas Tech at Canyon and Lubbock are of course state-supported full four-year colleges (excuse me, UNIVERSITIES) now, and Lubbock Christian College and Wayland are privately supported by church groups.

The theory behind the junior college boom is that there are some students who cannot financially tackle a four-year course in higher education. Also, in most cases the junior college enrollments come from "home folks" who go to school direct from their places of residence and do not actually move on campus (Amarillo has no dormitories).

There is a stirring in Muleshoe for a new junior college to be located there. Some feelers have been sent out into the hinterland to see what the neighbors think. As one neighbor of the friendly mule town, I would like to say have at it and good luck; but don't send me a bill for it.

The reason I say this is not totally selfish; I am trying to be practical. If I lived in or near a town supporting a junior college I would be very happy to pay a share of the taxes for its sustenance. But I don't see much justice in getting a tax bill from a school 20 or more miles away if there's a very small chance that mine or my neighbor's children will have any need for the college.

If the college-age youth of this area wish to commute to classes they can do that now by going to Portales (28 miles), Lubbock, Canyon, or Plainview. If they are "serious" about college and plan to move on campus, the chances are very large that they will want to move quite a ways.

If a joint county junior college district should be proposed which would include Farmer County, it would be necessary for 10% of the qualified voters to sign a petition to call an election to determine if a college district would be set up.

Once this election is called, a simple majority of the voters casting a ballot in the entire district could make it a reality. Thus we see the distinct possibility that a group of hard workers who favor the district (because they are in or near the community which would have the college) could cancel out and overcome a negative vote of those opposing it on the fringes.

With a pencil and a little imagination, you can see how Farmer County could vote four-to-one against such a measure and still be voted in by offsetting positive votes elsewhere.

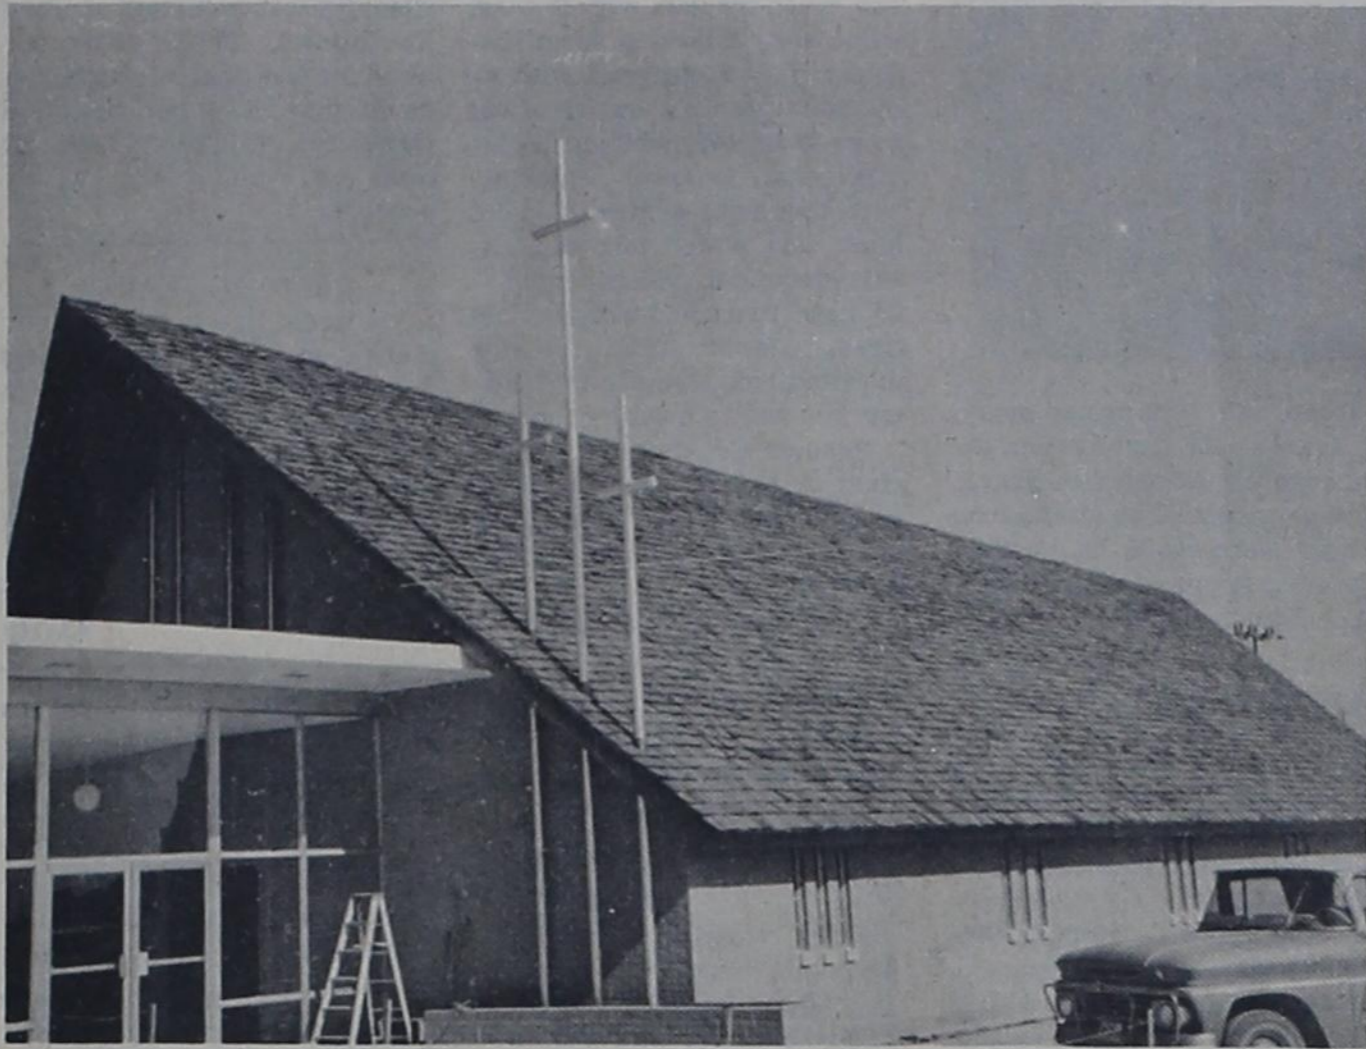

Residents of this area should therefore exercise a little caution before getting on a petition for an election. A simple signature could have far-reaching effects.

**Hootenanny
At Farwell
Baptist Church**

All young people in the Texico-Farwell area and the surrounding communities are invited to attend a "Hootenanny" of fun and fellowship at the Farwell Baptist Church, in the parking lot, Saturday, August 7, 8 p. m. No admission will be charged.

Any young person who wishes to participate in the special program, which is being planned, should contact Ronnie Henson or Terry Lovett or any member of the young people's division of the church by August 5.

For further details of the program call Mrs. Bill Craft, one of the young people's sponsors.

HAMLIN MEMORIAL METHODIST CHURCH

FOR TWO LOCAL CHURCHES--

Enthusiasm High, Moving Day Near

Enthusiasm is running high in Texico-Farwell church circles as members of two congregations, The Texico Baptists and the Texico-Farwell Methodists, make plans to begin holding services in their new buildings within the next few weeks.

The Texico Baptist are still making plans to move into their new home on August 1, although Mrs. Leroy Looper, wife of the pastor says "We are afraid that

the installation of electrical equipment may hold us up an additional week." Even if the congregation does move into its building on August 1, the dedication service will not be held until around the middle of August.

Members of the Methodist congregation will move into their new sanctuary on August 1, with the official opening and consecration service to be held at the 10:55 a. m. worship serv-

ice. Dr. Ralph Seller, district superintendent, will be presiding minister at the official opening.

An open house will be held at the church on August 1, from 2-6 p. m., with all residents of the area and the surrounding towns invited to come and be a part of these special services. Evening worship will be held at the regular time of 6:15 p. m., according to the pastor, W. C. Strickland.

TEXICO FIRST BAPTIST CHURCH

**Elderly Farwell Resident
Attends District Assembly**

Among the elderly delegates attending the district assembly of Jehovah's Witnesses in Albuquerque recently was Mrs. Rosa Barlow of Farwell. Mrs. Barlow was enabled to attend the convention through the assistance of Mrs. Belle Clifton of Texico. In 35 years association with Jehovah's Witnesses, Mrs. Barlow has missed only one such gathering.

Rosa Barlow was 90 on July 13, two days before the assembly started. She has lived 34 years of her life at Farwell, having moved to Farwell with her late husband from Coltry, Okla. in 1924. She was born near Plainfield, Ill., in 1875.

She spent several years in Sumner County, 21 miles from Wellington, where, from the age of two, she was reared with six brothers and five sisters, only two of whom are still living. Her father homesteaded in

Oklahoma when the "strip" was opened. Mrs. Barlow said she learned to cook for such a large family under the direction of a Chinese cook. She and her husband farmed 600 acres at Farwell until his death 18 years ago.

Mrs. Barlow recalls many happy days spent as a farmer's wife, and in visiting with neighbors in the ministry of her Christian faith. She is no longer able to do much visiting due to failing health.

NOTICE

Taxpayers in the Farwell school district are reminded of the school board of tax equalization meeting which is scheduled for July 26, 9 a. m. until 5 p. m. in the office of Supt. W.M. Roberts. Any person wishing to discuss tax problems with the board is asked to be present at this time.

PVT. DONALD DALE

**Spends Leave
With Parents**

Pvt. Donald G. Dale, who is spending a two week leave with his parents, Mr. and Mrs. R.D. Dale in the Oklahoma Lane Community will report to Fort Jackson, South Carolina on July 31, as a vehicle operator. He recently entered the army and received basic training at Fort Polk, La.

**Clerk Withdraws Resignation
Garbage Fee Hiked**

At a lengthy meeting of Texico town fathers attended by a number of interested spectators on Tuesday evening, several matters of interest to the town residents were discussed.

First matter brought to the attention of the board was the

resignation of Mrs. Clara Wiehl, town clerk. The resignation had been tendered at the last regular meeting of the of-

ficial body. In answer to a question from a spectator "Why did Mrs. Wiehl resign?" Mayor Ed Farmer replied "I

have a note from Mrs. Wiehl asking that we disregard the resignation and which also states that she wishes to remain in her present position, as town clerk."

One of the spectators commented that Mrs. Wiehl was indeed one of the most efficient and cooperative clerks the town has had to which the mayor replied "There has been no question of her efficiency." The only explanation given by Mrs. Wiehl for the resignation and its withdrawal was, "It was a personal matter."

After some discussion councilmen voted to retain Mrs. Wiehl as town clerk. Councilman Bob Lebow refused to vote on the matter.

Applications accepted for the clerk's position during the past weeks were filed for future reference should the need arise for a town clerk.

Next on the agenda was a complaint from a town resident of unnecessary noise, and children playing in the street in front of her residence and in the yards of rental property (owned by the resident) in the same vicinity. She explained that the noise and numerous children (colored and Spanish) in and around her property keeps many prospective renters from stopping to look at the rental property.

When asked what steps she thought the town fathers should take to stop the annoyance she said "I believe that if the constable would patrol the street more often much of the trouble would be solved." Mayor Farmer explained that the councilmen have no authority to ask the constable to patrol one area of the town more than another, but agreed to instruct Constable Clifton to patrol all town streets more often while on duty.

In a discussion of the present garbage disposal fee (which councilmen agreed is inadequate to keep capable workers on the job) councilmen agreed to instruct town attorney, Harry Patton, to draw up an ordinance, whereby the town could raise the present garbage fee of 50¢ on residences to \$1.00 and the business garbage dis-

posal fee by \$1.00, on all businesses. The motion was made by councilman Winkles and seconded by Councilman Doolittle. All voted Aye.

The Jones Brothers, present operators of the garbage disposal service, agreed to remain on the job for an additional month, in order that councilmen might have time to look into the possibility of buying a truck and hiring an employee to dispose of the garbage. If such an individual is hired he would also serve as an assistant to the water superintendent, in weed control and spraying the town for mosquito control.

Applications of the two men applying for the garbage disposal jobs were not considered.

All bills for the month were approved and the town clerk instructed to pay some.

**Services
Held For
Elmer Osborne**

Funeral services were held at the Rosedale Baptist Church on Monday for Oscar Elmer Osborne, of Route 1, Texico. Burial was in the Hollens Cemetery under direction of Claborn Funeral Home of Friona.

Mr. Osborne, who came to this area from Okolona, Ark. 46 years ago had lived in the Hollens Community, north of Texico, since that time. He passed away at Farmer County Community Hospital on Friday afternoon following a heart attack. He was 59 years of age. The Rev. B.B. Harrison, a close family friend and retired Baptist minister officiated at last rites.

Survivors in addition to his wife, Blanche, are: a son, Wendell, Clovis; a daughter, Donna Kay, student at Eastern New Mexico University; a brother, V.N., Pampa; three sisters, Mrs. Mamie Thompkins, Mrs. Ollie Harrington and Mrs. Jessie Sageley, all of Clovis; one grandson, Mack Osborne, Clovis, and many friends.

IN KANSAS--

**Former Resident Head
Of Technical Institute**

Henry M. (Buster) Neely, a 1942 graduate of Pleasant Hill High School and son of Mr. and Mrs. Mason Neely of Route 1, Texico has been named president of the newly created Schilling Institute at Salina, Kansas. He was appointed to the post by the Kansas State Education Authority. His salary of \$17,000 was approved by the Kansas Finance Council.

Neely, 39, holds bachelors and masters degrees in mechanical engineering from Kansas University and has been a faculty member at KSU since 1958. He spent three years in the United States Navy immediately following graduation from High School.

For the past year, Neely has been assistant dean at KSU, serving as assistant to Dean Paul Russell, a member of the three man board which will govern the Schilling Institute. The Institute was created by the 1965 session of Kansas Legislature to provide training in engineering technology.

First students on the Schilling campus, -- a 90 acre abandoned Air Force base valued at over \$7 million--are expected in September 1966, but the new president said some evening classes may be offered before that time.

In speaking of the assignment, Neely said the new jobs is a challenge. The first job, he said is hiring "some key people." "I need a secretary, then we must have a business manager, a curriculum director and a physical plant supervisor." "We'll also have to start work on the budget and work on it continually" he added. "All the facilities we have are

in excellent condition, however, there will be need for some renovation to fit them for educational purposes and we'll have to move in equipment, but this should not be a large problem."

The Institute is expected to attract 2,000 to 2,500 students eventually. This, Neely said, could require a faculty and operating staff of 150-200 persons. Present plans call for engineering technology courses in six basic areas: aeronautics technology, civic technology, design and detailing (drafting), electric technology, and mechanical technology.

Neely is a licensed professional engineer in Kansas. He holds memberships in the National Society of Professional Engineers and is currently president of the Tri-Valley chapter of the Kansas Engineering society. He is also a mem-

ICE CREAM SOCIAL --

ESA Cystic Fibrosis Benefit Set Saturday

The annual cystic fibrosis benefit sponsored by the local ESA organization, is planned for this Saturday, July 24, 7-9 p. m. at the Farwell High School cafeteria. Ice cream and cake will be served, with adult tickets selling for \$1.00 and children's tickets 50¢. Donations will be accepted from anyone who wishes to be a part of the drive, according to Mrs. Bert Williams and Mrs. Pete Rundell, members of the philanthropic committee, who are in charge of the drive.

Cystic fibrosis is the state project for ESA and this is the third year the local chapter has aided in the project, with money going to research and patient aid. The local chapter has been particularly interested in this field. The CF drive is held each year in Texico-Farwell, and additional ESA funds have been donated to the equipment fund through Theta Rho.

In February the Cystic Fibrosis Research Center, located in Bataan Memorial Methodist Hospital Rehabilitation Center in Albuquerque was opened. The clinic is open to serve as a

treatment center for persons in this geographical region afflicted with CF. The disease is extremely expensive, and the

state ESA has in the past, maintained an equipment bank, where families with CF children could borrow lung machines and

other needed items free of charge. Donations to the CF fund can be made to any ESA member.

CYSTIC FIBROSIS BENEFIT -- Help ESA fight cystic fibrosis by attending the ice cream social, Saturday night, 7-9 p. m. at the Farwell High School cafeteria. Advance ticket sales are in progress, with adult tickets selling for \$1.00 each and children's tickets 50¢. Home made ice cream and cake will be served. ESA members will also accept donations from anyone who wishes to be a part of the drive. Mrs. Pete Rundell, left, and Mrs. Bert Williams, members of the philanthropic committee, are in charge.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Driver Training Class Completes Course, Due To Take Driver's Test

The driver training class held each year in Farwell under the auspices of the Farwell High School, as a summer tuition course began classes on Monday, May 24 immediately following the close of the regular school term. Jack Williams is instructor of the class.

For the first three weeks students were given class room instruction following the driving handbook and on June 11 were given a written test to complete the first portion of instruction. June 14 the class began five

weeks of intensive training in the actual operation of an automobile. Each student drove an average of 70 miles, most of which was on the streets of Farwell. Students completed work in the second phase of the course on Friday.

Climax of the course will come this week when the 32 students take a driver test to fulfill requirements for a driver's license.

"The class is ready to take the test" said Jack Williams on Monday morning.

Little League Sponsors Honored By Chicken Fry

Honored by a chicken fry at the Oklahoma Lane Community center on July 10, were sponsors and coaches of the Oklahoma Lane Pee Wee and Little League baseball teams. 112 persons attended the event.

Special guests for the social were Messrs. and Mmes. C. C. Christian, Wendol Christian, Troy Christian and Harold Carpenter, sponsors; and Ray Wood, Jeeter Garner, Melborn Jones and Floyd Coates, coaches. Harold Carpenter also coached one of the Little League teams.

Following the meal Harold Carpenter presented trophies to three Little League players, Lonnie McFarland, most improved player; Cecil Bowery, best hustler; Larry Jones, most valuable player.

Members of the Little League and Pee Wee teams wish to thank each person who assisted in any way to make this such a successful season for their teams.

PRESENTED AWARDS -- Larry Jones, left, was named most valuable player and Cecil Bowery, listed as the best hustler of the Oklahoma Lane Little League baseball teams this year. Lonnie McFarland, not pictured, was presented an award for most improved player. Presentations were made by Harold Carpenter, coach and sponsor of one of the teams at the chicken fry honoring sponsors and coaches on Saturday night.

Attend Camp At Arrowhead

Juniors from Hamlin Memorial Methodist Church attending camp at Arrowhead this week include Joyce and Lynne White, Jayme and Robyn Craig, Penny Phillips, Kim Snider, Bessie and Andy Bowery, Mike Travis,

Randy Gregory, Hal Graham and Monty Jones. Adult sponsor for the group and assisting with teaching duties at the camp is Glendon Moss.

The group will return to Farwell Friday.

Return From RA Camp

Six boys from the Texico First Baptist Church returned recently from the Royal Ambassador Camp at Cloudcroft, New Mexico.

Attending from the Texico Church were Roddy Pearce, Danny Pearce, Lathan Peyton, Jimmy Peyton, Martin White and Johnny Boling.

Five of the boys completed requirements for their Hiker patch while at camp. Marty White and Lathan Peyton earned their Range finder badges during the week.

Roddy Pearce and Lathan Peyton were presented with "Honor Camper" awards. The best camper from each chapter was selected for the award. 180 boys attended the camp.

STUDENT NURSE -- Reba Lesly, daughter of Mr. and Mrs. U. L. Lesly, Lordsburg, former Farwell residents has recently earned the right to wear her nurse's cap. She is attending classes at Arizona State in Flagstaff this summer but will be working in a hospital in Phoenix this fall. Miss Lesly attended Farwell school for a number of years where she was an honor student.

Council Meeting

The Parmer County HD Council met at the Friona State Bank on July 12, with 10 members and one visitor, Mrs. C.C. Graef in attendance.

Delegates were elected to attend the state convention. They are Mrs. Edmund Kitten, Oklahoma Lane, Mrs. Bessie Boatman, Friona, and Mrs. C.C. Graef, Lazbuddie. In other business the year book committee were asked to turn in all suggestions for programs for the coming year as soon as possible.

Announcement was made that the training program on "Care of Porcelain and Tile" to be given by HD Agent Mrs. Cricket B. Taylor, has been moved to Friday, July 30 at the Friona State Bank.

Date set for the fall luncheon of HD Clubs was Nov. 4.

Meeting dates for the council in September was changed from Sept. 6 to Sept. 13 due to the Labor Day weekend.

LEGAL NOTICE

NOTICE TO BIDDERS
Notice is hereby given that Parmer County will accept bids until 10 o'clock A.M. on July 26, 1965 for the purchase of one standard clearance, standard tread tractor, with mower, with the following specifications: To be equipped with 4-cylinder gasoline engine of not more than 145 cubic-inch displacement, manual steering, with hydraulic system, 3-point hitch and power take-off, 12-volt electrical system, with 11-28 rear tires and 600x16 front tires. Mower shall be side mounted type with six-foot cutter bar and hydraulic controls. Parmer County reserves the right to reject any or all bids, or to accept the bid deemed the most advantageous to Parmer County.

CHECK THE SAFETY OF YOUR FARM THIS WEEK

ONE THING A FARMER DOES NOT WANT TO CULTIVATE IS AN ACCIDENT

- MACHINERY and equipment should always be kept in good repair, and used with guards and safety devices in position.
- CLOTHING that is loose-fitting or torn should never be worn around moving machinery.
- GUNS should always be stored unloaded, and put where children can't get at them.
- WATER HOLES on your property are a potential danger to children . . . they should be fenced off to prevent mishaps.
- BUILDINGS and your home should be kept in good repair at all times, with all safety hazards carefully eliminated.
- FIRE HAZARDS are everywhere. . . be careful with matches . . . don't smoke around the barn!
- ANIMALS may bolt if startled; warn them of your presence by speaking before approaching.
- INSURANCE keeps your family and farm safe from the hazard of financial disaster. Be sure you're fully covered.

Parmer County Vegetable Harvest Is Underway

Vegetable harvest in Parmer County got underway on July 8 when some potatoes and onions in the Friona area were dug. The harvest is expected to continue for the next several weeks, but is due for completion by the last of August.

Producers of potatoes and onions in the Hereford area began harvest a little earlier than did farmers in the Parmer county area say vegetable growers.

The number of acres of spuds and onions in Parmer county this year is about the same as in 1964, despite the fact that several potato producers of previous years, in adjoining counties, did not plant potatoes this year.

John O'Haughey, salesman for Friona Growers and Shippers, who has come to Parmer county for the past 12 years to assist with harvest operations (handling sales for his company) says his company has 350 acres of spuds and 50 acres of onions.

In addition the company is producing 50 acres of cabbage, several acres of cucumbers and also some carrots. Cabbage and cucumber harvest will begin in the near future, although carrot harvest will not begin until October.

Due to the shortage of acres planted to spuds in other areas of the United States and unfavorable weather conditions in some potato producing areas, potato prices locally are GOOD—with number 1 spuds bringing \$7.00 to \$9.50 per hundred in Parmer and Deaf Smith Counties. Number 2 spuds are slightly less. Potato producers will realize some \$1,000 per acre from this year's crop if the market holds.

Another reason advanced by O'Haughey for the high price of potatoes is the demand for frozen and dehydrated spuds, which have been on the market only a few years. Also given as a reason for the high market price of spuds by O'Haughey is the fact that French Fried potatoes are a must with many foods served by restaurant owners and those who cater to the teenage crowd at Drive-Inn eating places.

Onion prices are also good this year with a 50 lb. bag selling for no less than \$2.75.

Friona Growers and Shippers is one of the largest vegetable producers in Parmer county. They employ some 30 persons in the packing shed during the busy season and an additional 75 in the field.

It has been a little harder to get adequate help this year ac-

ording to O'Haughey, since the elimination of the bracero labor law. Most of the persons employed by his company are migrant Spanish-Americans who follow the vegetable harvest from one locale to another.

The only harvest activity in the Friona area on Friday was in the onion fields where some 50 persons were clipping onions. The average wage paid for clipping onions is 15¢ per basket. Carlos, foreman of the field crew explained that a good worker can clip as many as 120

baskets in a day. Other wages paid the harvest workers compare favorably with those in similar jobs, with a minimum wage set for the persons employed.

Farmers producing vegetables for Friona Growers and Shippers are A. L. Black, John Renner, J. B. Sneed, H. J. Wells and Kenneth Neill.

Most of the potatoes grown in this area are shipped to the southeastern states, said O'Haughey who says his company grows mostly red potatoes.

No trouble to fill a basket here said Richard Martinez, 14, who is an experienced onion clipper. "Oh! I can fill approximately 100 baskets in a day," said this lad who has migrated to Parmer county from New Mexico for the potato and onion harvest.

Carlos, (in the foreground) foreman of the field crew, encourages lagging workers by gathering up a handful of onions to demonstrate how easy it is to clip five or six onions at the same time.

On The Farm In Parmer County

By JOE VANZANDT
County Agent

COTTON INSECTS

During the past week we inspected several cotton fields in the Bovina area and found some bollworms, lygus bugs and fleahoppers in just about every field. Two fields had 20% square damage, which is high for this early in the summer.

We have seen and heard of other bollworm, lygus and fleahopper infestations over the county. Therefore, we believe every cotton producer needs to check his cotton fields for bollworms, lygus bugs and fleahoppers. All three of these insects can and very likely will cause some damage to our cotton.

Insecticides recommended for bollworms control follow with the pounds per acre of actual insecticide in parentheses: A. Strobane-DDT, 2-1 mixture, (3.0 to 4.5), B. Endrin + DDT (.3 to .5-1.0 to 1.5) C. Toxaphene-DDT, 2-1 mixture, (3.0 to 4.5) D. Sevin, (2.0 to 3.0) TDE may be substituted for DDT in any of the above mixtures. Add .5 to 1.0 pound of methyl parathion to one of the above recommendations where tobacco bollworms, beet armyworms or resistant bollworms are encountered.

HOW TO CHECK FOR BOLLWORMS
Examine the terminal buds (upper 3-4 inch of plant) of 100

cotton plants and 100 consecutive squares and bolls at each of several points in the field. Begin treatment when bollworm eggs and four or five young worms are found per 100 terminals or 5% of the small squares and bolls have been injured by small bollworms. Make additional applications as needed. Check fields closely two or three days after each application to be sure of effective control. If needed, repeat application immediately using one recommended material plus methyl parathion.

COTTON IRRIGATION
A lot of cotton is blooming now and should be receiving a good irrigation. Generally irrigation should be timed as closely as possible to appearance of the first white blooms.

Highest water requirement of cotton plants occurs at peak bloom stage. At this stage, cotton will use one-fourth to four-tenths inches per day. This compares to less than one-tenth inch per day for cotton plants from emergence to squaring stages. From white bloom to peak blooming stage, cotton plants will utilize one-tenth to one-fourth acre-inches water daily.

Several years research at South Plains Research Extension Center, Lubbock, has shown a six-inch preplant irrigation plus two four-inch postplants gives maximum yields with top net returns in normal growing seasons. Observation of a water cut-off date is very important. In Parmer County water should be cut-off by August 20.

BAGWORMS IN EVERGREENS

Now is the time to check your evergreens, (Junipers, cedars, Blue Spruce and etc.) for bagworms. The bagworm larva feed on foliage after hatching in late spring or early summer. The young worm spins silken sac and attaches bits of leaves as it feeds. The worm carries bag wherever it goes. Full-grown worm has bag 1 1/2 to 2 1/2 inches long. Wingless female crawls out and dies after laying eggs inside bag.

Insecticides recommended are Lead Arsenate, Malathion, Sevin or Toxaphene.

Apply insecticides early while worms are small. Chemical controls are ineffective when worms are full grown. Hand pick and burn bags, because the winter is passed in egg stage within bag.

BOYS 4-H CAMP
Last Friday night we made

THE HIGH PLAINS FARM AND HOME

Farm Safety Week July 25-31

Whether you live on a farm or not, National Farm Safety Week, July 25-31, should serve as a reminder to you to promote safety in your home community and on the highways.

Accidents in the home and on the farm take a terrific toll each year, says the Texas Farm and Ranch Safety Council and most could be prevented. They cite a breakdown of the latest figures as evidence of the ter-

rible toll. Last year, nationally, over 8,000 farm residents died from accidents and nearly 800,000 were injured. The cost of these accidents has been placed at \$1.5 billion.

President Johnson in proclaiming the special week said, "This tragic and needless waste of human and economic resources is detrimental to the well-being of the Nation. I therefore view farm safety as a matter of vital concern."

"I urge all farm families, and all people and organizations allied with agriculture, to engage in a united effort to reduce accidents at work, in homes, at recreation, and on our Nation's highways and roads."

Co-sponsors of the 22nd annual National Farm Safety Week are the National Safety Council and the U. S. Department of

Agriculture. Special emphasis is being given this year to preventing accidents involving slow-moving vehicles, chemicals, electricity and in recreation.

Accidents can be prevented believes the Texas Council. It emphasizes that no benefits occur from accidents, but that all benefit when good accident prevention programs are established to attack the problem.

Non-farm individuals and related organizations are encouraged, by the Council, to participate in this special emphasis week promotion for the prevention of accidents everywhere. Adopt safety practices in your work, recreation and everyday living and encourage others to do the same, advises the Council.

plans to have our annual Boys 4-H Camp, August 2-5 in Holy Ghost Canyon, New Mexico. The Camp fee is \$8 and any 4-H member wanting to go must get his money to the County Agent's office immediately.

Also, we need some more men to go and furnish some transportation. At the present time we do not have enough pick-ups going to carry all of the boys. If you can go contact the County Agent, Carl Schlenker or Roy M. Miller.

CROP DEMONSTRATIONS

Every year many farmers do a little experimenting on their own. A lot of interesting things show up on some of these trials from time to time. However, all too often very few people know about these trials.

We are interested in hearing about some of these trials you have had on your farm this year. Whether it is fertilizer, herbicides, pesticides, irrigation, land preparation or whatever. We would like to know about these trials now during the growing season, and also the results after harvest. It doesn't matter whether they show up good or bad because we can benefit by learning what not to do as well as what to do. Call or come by the County Agent's office in the Courthouse if you have something interesting to report.

Beef Supplies, Prices Level Off

Beef supplies and prices are leveling off somewhat this week. They are expected to remain at the same level for a time, says Mrs. Gwen Clyatt, Texas A&M University Extension consumer marketing specialist.

Features in beef cuts will vary, however, from store to store.

Smoked meats, such as ham, picnics and bacon, have been moving upward for the past several weeks. Pork liver and lard have shown the smallest increases. The supply of pork this summer is considerably lower than last year. An increase in supply is not expected this summer or early fall.

Frying chicken has been increasing in supply, and there are some features in this easy-to-cook meat. The fryers are running heavier in size, thus giving more meat in proportion to the bone. Large-size eggs continue to be a good value.

Some locally-grown produce continues to come to market. Most fresh vegetables are of good quality.

Blackeye, cream and purple hull peas are plentiful. Tomatoes, eggplant, radishes, green onions, celery and carrots are good vegetable choices.

There's plenty of sweet corn for boiling or roasting. Lettuce heads are running small, but the quality is improved. Snapbeans are nice in quality, but prices are relatively high. Squash and cucumbers are in limited supply.

Dairy departments hold a variety of choices for refreshing drinks, snacks and desserts. Featured items -- found at slightly lower prices -- are ice milk, sliced cheeses, orange juice, and some brands of ice cream.

Peaches and seedless grapes are reflecting a downward price trend as supplies increase. Apricots, nectarines, Santa Rosa plus, Bing cherries, pineapples and blueberries are on the market at various price levels. And cantaloupes and watermelons are still plentiful.

Kathryn Gober, Ann Blackstone, Winners In County Dress Revue

Representing Parmer County, in the Senior District 4-H Dress Revue July 20th in Amarillo will be Kathryn Gober of Oklahoma Lane 4-H Club, Ann Blackstone, Lazbuddie 4-H Club, will model her garment in the 4-H Junior Division in the same event, according to Co. Home Dem. Agent, Cricket B. Taylor.

Kathryn, daughter of Mr. and Mrs. Webb Gober of Oklahoma Lane and Ann, daughter of Mr. and Mrs. Harvey Blackstone of Lazbuddie were chosen from 41 girls participating in the recent Parmer County 4-H Dress Revue in Friona.

Those participating were: Jeannie Morris, blue ribbon; Terina Whalen, red ribbon; Lynn Widmer, white ribbon; Linda Howard, red ribbon; Deborah Harding, blue ribbon; Lupe Hernandez, red ribbon; Rebecca Hernandez, blue ribbon; Jan Jamison, red ribbon; Carlene Schlenker, blue ribbon; Pamela

Jarecki, red ribbon; Mary Cole, blue ribbon; Rhonda Bauer, blue ribbon; Carol Morgan, red ribbon; Karene Hart, red ribbon; Patsy McVey, red ribbon; Linda McVey, red ribbon; Vickie Schuler, blue ribbon; Pamela Nance, red ribbon; Kittle Warren, red ribbon; Linda Hart, white ribbon; Gay Rundell, red ribbon; Maxine Broyles, blue ribbon; Marilyn Fred, blue ribbon; Carolyn Herington, blue ribbon; Cheryl Boling, blue ribbon; Joyce White, blue ribbon; Polly Dollar, blue ribbon; Bessie Bowery, blue ribbon; Irene Bowery, red ribbon; Gwen Rundell, blue ribbon; Lynne White, blue ribbon; Sheree Rundell, blue ribbon; Cheryl Kaltwasser, red ribbon; Ann Blackstone, blue ribbon; Charlotte Davis, red ribbon; Patcine Broyles, red ribbon; Kathy Coker, red ribbon; Kathryn Gober, blue ribbon; and Janis Billingsley, blue ribbon.

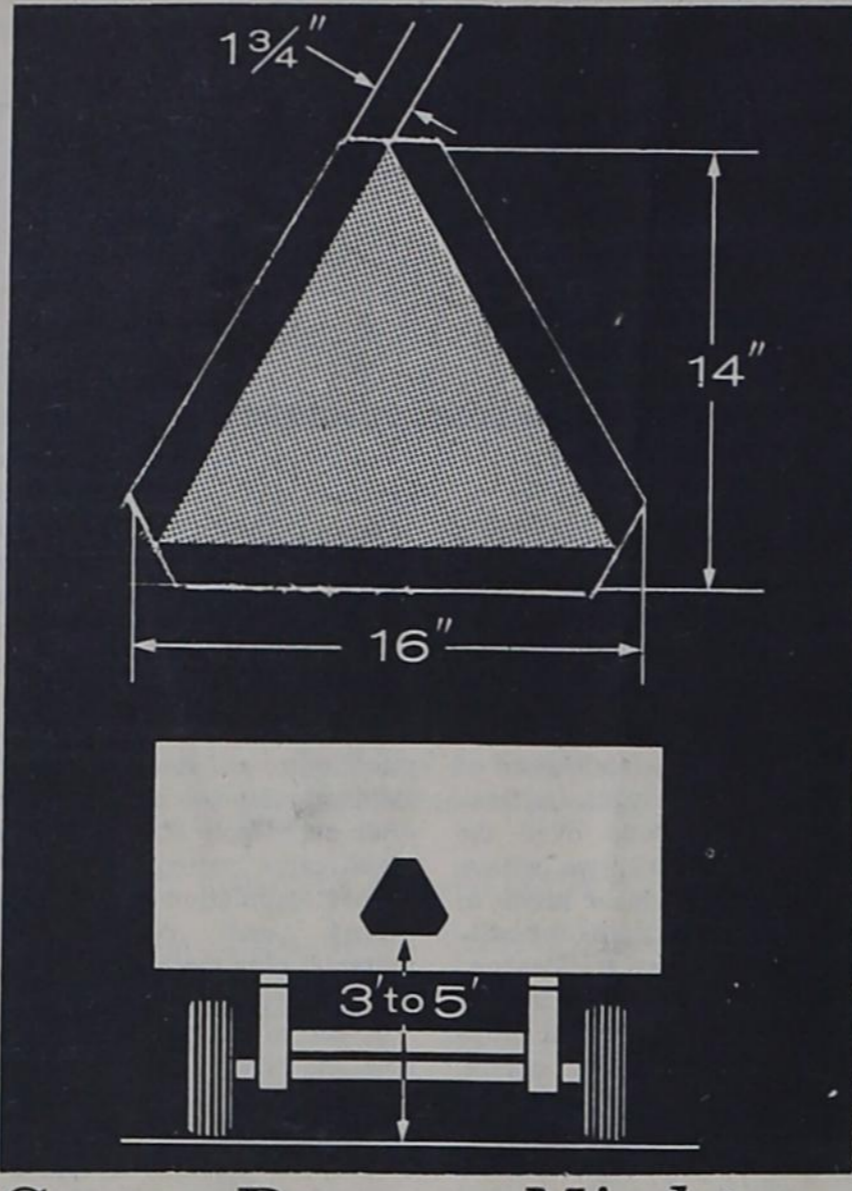

Others assisting with the

Dress Revue were: Narrator, Mrs. Beryl Fish, Friona, Kevin Katwasser, Steven Kaltwasser, Larry Jones and Allen Gober of the Oklahoma Lane 4-H Club. Also Leslie Jarecki, Friona 4-H Club, who served as ushers and helpers during the dress Revue.

The Northside Home Demonstration Club decorated and furnished the music for the event.

Sandra Bean of Friona and Cynthia Hanna of Hereford gave training to the 4-H girls in modeling.

Judges were: Mrs. Arlyn Draper, Home Demonstration Agent, Deaf Smith County, Cynthia Hanna, Senior 4-H, Deaf Smith, Miss Rebecca Gaddis, Home Demonstration Agent, Castro County, Miss Laura Hickey, Home Economist, Southwestern Public Service, Clovis, Miss Eva Dean Ivy, Friona, College Home Economist Graduate, Mrs. Jimmy Briggs, Lazbuddie, and Katie Blackstone, Senior 4-H Junior Leader.

Pesticide Lab Set For Texas

For the past several years, Texans have become increasingly sensitive to dangers of mishandled and misused pesticides, chemicals harmful to insects can cause equal mischief among human and animal life without proper precautions.

It will be a relief to many people to learn that the Texas Department of Agriculture is doing something about the problem. A new pesticide residue testing laboratory has been included in plans announced this week by Agriculture Commissioner John C. White.

The mobile lab will travel throughout the state gathering samples of good crops, drinking and stock water. Extensive test will be made to make certain no pesticide is present in quantities harmful to either stocks or humans.

Pesticides are an everyday part of modern farming and are a great boon when properly controlled. Yet, some mistakes are inevitable and the lab is being constructed for the purpose of providing greater protection for the consuming public.

Commissioner White said the lab is expected to be in operation within six months. It will be moved to various locations in the state according to the harvest season of edible crops. Samples will also be taken from parts of the state on a regular basis and sent to the lab for tests.

"Much of this type of work has already been done by the Food and Drug Administration in Texas," Commissioner White pointed out. "However, the volume of crops is so great that this additional equipment and work by the Texas Department of Agriculture is badly needed. We expect to conduct spot tests on several thousand food products and water samples in the initial phase of the operation."

White pointed out that serious cases of pesticide poisoning are actually quite rare. "But even one case is too many and we are taking all precautions to avoid such accidents."

More than 40,000 persons die of snakebite throughout the world annually, mostly in Asia and Africa, with only about 25 in the United States.

WHY IT'S IMPORTANT

Low speeds are dangerous! They cause more, worse, and more costly accidents than average speeds. In one-third of all highway accidents studied recently, one driver was going at least 30 miles an hour slower than the other. Very slow speeds has the greatest effect on the number of accidents.

You are least likely to have an accident if you drive at the average speed of vehicles on the highway you're traveling. During the day, a driver traveling at a speed of 20 miles per hour on main rural highways is about 100 times more likely to become involved in an accident than a driver traveling at a speed of 65 miles an hour.

Nearly half of all accidents were either rear-end collisions or same-direction side-swipes. About 46 per cent of day and 40 per cent of night accidents were of this type.

As expected, rear-end and angle collisions tended to increase as the number of intersections per mile increased. Since most farm tractors and machinery rarely travel long distances on highways, the more intersections and driveways there are the more likely slow-moving vehicles are to be on a given road.

to Identify Slow Moving Vehicles ONLY.

* Is the best emblem shape of 20 tested.

* Can be seen and identified at 500 feet or more under practically all driving conditions -- day, dusk, and night.

* Is made of fluorescent yellow-orange, the most visible color in daylight, and reflective red material that is highly visible in headlight beams at night.

* Is easily mounted on most farm, highway maintenance, and construction equipment.

* Require no electricity.

* Is always the same size, shape, color, and pattern for all slow-moving vehicles.

* Is used in addition to present warning lights and devices required by law.

* Is inexpensive, durable, available, and movable.

* Does not interfere with operator, operator vision, or machine function.

You can get information on where to buy an SMV Emblem from your county agent or the Farm Department of the National Safety Council, 425 North Michigan Avenue, Chicago, Illinois, 60611.

SPECIFICATIONS

Whether you are an operator of a slow-moving vehicle on the highway, or a motorist who may encounter a slow-moving vehicle, this emblem has been developed to help protect YOU.

If you are operator of a slow-moving vehicle your SMV Emblem should meet these specifications and be displayed as shown.

Size -- 16" wide and 14" high.

Shape -- Equilateral triangle, one point up, points cut off, edges smooth, and corners slightly rounded.

Border -- 1 3/4" dark red, highly reflective, beaded material.

Center -- 12 1/4" triangle of yellow-orange fluorescent material.

Backing -- .040" aluminum sheet or 22 gauge mill-galvanized or primed sheet steel to which the reflecting and fluorescent materials will stick permanently.

Location -- Rear of vehicle, center of mass, and 3 to 5 feet above ground.

Use -- ONLY on vehicles designed to travel 25 MPH or less on highway. Does NOT replace other lights or devices required by law.

Mounting -- Portable emblem may be mounted on a "key-stone" bracket either directly on tractor or implement, or on a staff designed for it. The reflecting and fluorescent materials may also be permanently mounted directly on a large, flat, properly prepared, vertical metal surface.

House Agriculture Committee members gave final approval July 15 to H. R. 9811, a four-year omnibus farm bill complete with provisions for cotton. Committee Chairman Harold Cooley expects to get the bill through Rules Committee and to the House floor by about July 27.

H. R. 9715, without substantial change, is included in the omnibus measure under Title IV. However, since the last report in this space, four additions have been made to the cotton section. Cooley describes them as "refinements." They are:

1. Under the new authority for the Secretary of Agriculture to make direct payments to farmers, the producer would receive 50 per cent of his payment at the time he signed up in the program. He would receive the remainder only when he sold the cotton or when the government took title to it at the end of the marketing year, July 31.

2. Producers are authorized to assign direct payment checks under the program to private lending agencies for purposes of securing production loans.

3. Under the bill's authority for sale and transfer of allotments, a farmer who sold his allotment would not be permitted to plant cotton on his farm for five years. A farmer who leased his allotment could not plant cotton within the period of the lease. Thus, farmers who sold or leased their allotment would not be able to go into unlimited production under the "open end" section of the bill.

4. Under the cropland adjustment program, the Secretary can not buy up cotton allotments permanently at a rate more than 25 per cent above the rate he is paying for "renting" these acres under the payments program.

Supporters of the measure claim it will accomplish four major objectives, all highly commendable. The question is: Will it in fact do all its proponents say it will do? And if so, for how long?

FIRST, supporters of the measure assert it will protect producer income. And it can be conceded for 1966, and perhaps even for the life of the bill, that producer net would not suffer appreciably. But under this bill the producer would be dependent on a government check for from 40 to almost 70 per cent of his income. If government stocks of cotton and the corresponding costs are reduced as expected, how long will Congressmen and Senators stand still for this? Inevitably the cry will go up that the government's cost is too high, and the only logical place to cut

will be at the throat of the cotton producer -- either through reduced payments per pound or limitations on payments to an individual.

To further enhance their estimates of producer income under Cooley's proposal, its backers say cotton will sell at a price above the loan level. But in order for any commodity to sell at increased prices, there must first be a short supply. With provisions in the bill for sale of CCC stocks at market prices to make up for any "shortfall" between production and combined domestic and export needs, just how will a short supply develop?

It should be noted as well that producer income protection is only on the domestic part of his production -- 65 per cent. With such a drastic cut in acreage, per unit cost of production can not help but go higher, bringing on the necessity for an ever-increasing payment from the treasury if producer income is not to suffer. As the needed payment goes up, so will the clamor for cutting government costs go up, with the cotton producer in the middle.

These are inescapable developments. And as they take shape, the cotton producer will find his promised income protection no stronger than the languishing cotton industry that can be expected under this bill.

SECOND, it is said that cotton exports would increase under H. R. 9715. In fact, the bill leaves completely on his own any cotton grower who would produce for foreign markets. How many U. S. farmers, with government protected prices on every production input, can compete in a free world market? The bill would again make the proven mistake of holding a price umbrella over foreign cotton producers.

Only this time the umbrella would be lowered to 21 cents from the current 23 1/2 cents. Would not foreign producers simply sell at just below our 21 cent cotton leaving us once more as the residual supplier?

It has been established that our fair share of the world cotton market is about 7 million bales annually. And one of the Department of Agriculture's own economist, Frank Lowenstein, says the price for U. S. cotton would have to drop to about 16.5 cents per pound in order to reach that level. How much increase in exports, then, can we expect with a fixed export price floor of 21 cents?

Further, support for this bill makes it appear the Department has no interest whatsoever in seeing cotton exports grow. On the one hand Cooley's proposal offers the opportunity to produce without restriction for

either export or domestic consumption. On the other it offers to pay producers not to produce. Followers of the Cooley concept may argue that the unlimited production would be at no cost to the government and therefore not a government concern. But is this true? Can these unlimited producers fall to have an effect on the markets of those who cooperate with government restrictions on production? Certainly not.

By its economic pressuring of farmers to produce only for the domestic market, the Cooley bill will not increase exports, but will eventually eliminate them. Whether or not this is the deliberate intent of the bill and the administration is open to question, but the devastating effect on the cotton industry would be the same.

THIRD, the administration and other Cooley bill pushers maintain that cotton would move into the channels of trade instead of into the government loan. Less cotton would, indeed, go into the loan, simply because less cotton would be produced, not because more cotton would be moving to the trade as they infer. A substantial part of each year's crop has gone into the loan because of administrative policy which encouraged a "take it in the front-sell it out the back" situation. Nothing in the proposed bill would prevent the same policy from being followed in the future.

It is also argued that the market price would be above the loan level, causing cotton to sell. But as was pointed out before, this is a slim possibility so long as supply exceeds demand.

In the long run, Mr. Cooley's cotton program points the United States toward the production of less and less cotton on smaller and smaller acreages at higher and higher per-unit costs. Obviously this is no way to build an industry or to protect those who depend on it.

In contrast, the Cotton Producers Legislative Committee proposal, which Plains Cotton Growers, Inc. had a substantial hand in developing, would take us in the opposite direction. Flexible support payments to anyone guarantee consumption, with the amount of the payment determined by market prices, would keep U. S. cotton in world markets and provide competitive price to both foreign and domestic mills. Producer income would be preserved, effectively, by retaining the loan at current levels. Voluntary acreage diversion would cut production until such time as the level of surplus stocks and market demand justified production increases.

4-H ACTIVITIES

The county 4-H Dress Revue is over and it was a most colorful and lovely sight to see. The 41 girls modeling their garments lived up to the theme of show which was "A Pretty Girl is Like a Melody."

The Revue was the largest to be held in Parmer County. Some 150 people attending this revue expressed their appreciation for the event and highly praised the work of these 4-H girls.

Kathryn Gober was high score winner of the Senior Division with her very lovely green two piece garment. Janis Billingsley a red one piece garment. Ann Blackstone of Lazbuddie 4-H Club took top honors with her print one piece garment and Maxine Broyles was second, also from Lazbuddie Club.

There were 22 blue ribbons awarded. The construction and appearance of the garments on the girls reflected their skill in choosing fabric as well as the construction.

The boys assisting the girls off the stage, Leslie Jarecki and Larry Jones proves beyond a doubt that chivalry is not dead. Allen Gober, Kevin and Steve Kaltwasser looked very

Impressive Ceremony Unites June G. Douglas, Gerard Bradford

June Gay Douglas, daughter of R.L. Douglas Jr. and granddaughter of Mrs. R.L. Douglas Sr., was married to Gerard J. Bradford, grandson of Mrs. Loreta Bradford, Clovis in an impressive ceremony at mid-afternoon July 11, in the Farwell Baptist Church. The Rev. J.L. Bass officiated at the double ring service.

Vows were exchanged in front of a setting of 15, nine, and seven branched candelabras holding blue tapers centered by a huge arrangement of white gladioli and majestic daisies on a fluted stand. White daisies, gladioli and blue ribbon bows adorned the candelabras. Interspersing the entire setting were palms of emerald greenery and pots of jade fern foliage. Focal point of the altar setting was a kneeling bench, adorned by clusters of white daisies and gladioli tied with blue ribbon bows.

Family pews were marked by nosegays of majestic daisies and blue ribbon bows.

Organist Nelda Ellis, Friona, cousin of the bride, played appropriate nuptial selections preceding the ceremony and accompanied soloist, J.B. Douglas, also of Friona, a cousin of the bride, when he sang "Together", "Whither Thou Goest", and "Wedding Prayer."

Candlelighters, Billy Jay Charles and Jimmy Redden, both of Bovina doubled as ushers. Flower girl was Laura Beth Doshier, Farwell, daughter of Mr. and Mrs. Junior Doshier. She carried a basket of stephanotis tied with blue ribbon bows.

Ringbearer Kevin Hardage, son of Mr. and Mrs. Gene Hardage, Farwell carried the rings on a white satin heart shaped pillow, enhanced by lace and blue ribbon streamers. The rings were held inside a pocket of lace and satin ribbon attached to the pillow.

Best man was George Judah, Clovis, cousin of the groom. Serving as groomsmen were Bill Minter, Larry Webb and Al Shamblin all of Bovina.

The bride, escorted and given in marriage by Henry Minter, close family friend of Bovina, chose a formal wedding gown of white nylon over

MR. AND MRS. GERARD BRADFORD

Peau de sole, designed with long fitted sleeves and a scoop neckline outlined with appliques of white lace daisies centered by seed pearls. Back of the fitted bodice was accented at the waistline with a large self bow.

The long flowing skirt with controlled fullness swept into a chapel train. The skirt front was adorned by appliques of white rosebuds. Seed pearls enhanced the train.

Her fingertip veil of white silk illusion was held in place by a crown of pearls. She carried a cascade arrangement of white stephanotis atop a white satin and lace covered Bible.

Following tradition, the bride wore for something old a 76 year old gold heirloom bracelet belonging to Mrs. Henry Minter. New was her wedding gown, borrowed the veil from Mrs. Glendon Suderth and blue the traditional

garter, given to her by the maid of honor, Tonya Ivy.

Maid of honor was Tonya Ivy. Bridesmaids were Sandra Patterson, Lynn Looney and Dorothy Bowman, all of Bovina. The attendants wore identical street length dresses of blue taffeta, designed with semi-circular skirts, three quarter length sleeves and sweetheart necklines. Their hats were blue to match their dresses and they wore long gloves of white. Each attendant carried an arm bouquet of roses and fern with cascading streamers of blue satin ribbon.

Grandmother of the bride, Mrs. R.L. Douglas Sr., was attired in a pink two piece suit of lace with black accessories. She wore a large pink picture hat. Her corsage was of white carnations.

Grandmother of the groom, Mrs. Loreta Bradford, chose a two piece lace suit of blue

Miscellaneous Shower Honors Recent Bride

Mrs. Carrol Huggins, the former Alice Ramm, was honoree for a miscellaneous bridal shower on Saturday, July 10 in the fellowship hall of St. John's Lutheran Church at Lariat.

The come and go affair was held from 3-5 p. m.

Hostesses for the courtesy were Mesdames Tom Lovelace, David Lindop, Gilbert Kaltwasser, Walter Kaltwasser, C. L. Saylor, Virgil Schell, Jesse Mullins, Gerald Clancy, John McFarland, Henry Haseloff, Herbert Potts and Bill D. Fullerton.

Chosen colors of the honoree, blue and white, were used in table decorations. Serving table was laid with white lace over blue and centered by a spiral arrangement of blue and white summer flowers. The layered cake was white decorated with blue confection wedding bells. The cake was served with blue punch, mints and nuts.

The gift table was decorated with a large white wedding bell.

The honoree, Miss Ramm, her mother, Mrs. Eddie Ramm, and mother of the groom-elect, Mrs. Otis Huggins were presented corsages made from miniature kitchen utensils and white roses tied with blue and white ribbon bows. The mothers assisted the honoree with opening gifts.

Approximately 50 persons signed the guest register and many sent gifts who could not attend.

with black accessories. Her corsage was also of white carnations.

Linda Estes, Bovina, presided at the guest register.

A reception was held in the fellowship hall at the church immediately following the ceremony. The serving table presided over by Misses Judy Strawn and Patsy Webb, both of Bovina, was covered with a white lace tablecloth over blue.

Centering the table was a blue and white floral arrangement flanked by blue candles in crystal holders. The wedding cake decorated in blue and white graced one end of the table and a crystal punch service was placed at the other end. After the bride and groom, had cut the cake it was served with punch, nuts and mints.

When the newlyweds left for a short trip to points of interest in Colorado the bride was wearing, for travel, a two piece linen suit of blue with a white picture hat. Her other accessories were of white and she wore a corsage of roses and stephanotis. Before leaving for the trip, the bride and groom, paid a short visit to the bride's father who was hospitalized in Clovis following an accident.

The bride is a graduate of Bovina High School. The groom is a 1961 graduate of Portales High School.

New home of the couple is Swenford's Traller Court, in Clovis.

Mrs. Woodard Feted With Shower Friday

Mrs. Roy Woodard of Portales and formerly of Farwell, was honored with a stork shower by members of her ESA sorority Friday morning.

Coffee and rolls were served to those attending. Traditional gifts from the sorority was presented the honoree -- a silver feeding spoon bearing the ESA crest. She was also honored with individual gifts.

Attending were Mesdames Bobby Joe Crume, Don Gerles, John Getz, W.H. Graham, Joe Helton, Duane Herington, Mitzy Walling, Ed Farmer, Troy Christian and the honoree. Those who could not attend, sent gifts.

TO WED -- Mr. and Mrs. Turner Paine, announce the engagement and approaching marriage of their daughter, Nina Christine, to Nathan B. Moore, son of Mr. and Mrs. Otis B. Moore of Whiteface, Texas. Miss Paine is a graduate of Farwell High School and South Plains College. She is presently employed by Allied Concord Financial Corp in Lubbock. Her fiancé is a graduate of Whiteface High School and South Plains College and has also attended Texas Tech. He is currently attending OCS at Fort Sill, but is employed by Pioneer Natural Gas Co. in Lubbock. A September wedding is planned.

Bride-Elect Is Shower Honoree

Iris Goldsmith bride-elect of Ron Beard was honoree for a miscellaneous shower in the community room at Security State Bank Monday night. Hostesses for the social were Mesdames W.T. Meeks, Virginia Sheets, Joe Crume, Bobby Joe Crume, Preston Martin, W.E. Martin, C.J. Huffaker, Bob Hammonds, Ethel Howard, B. V. Hughes, Grady Herington, and Floyd Embry.

Hostesses alternated at the serving table which was covered with a blue tablecloth and centered by a bride and groom seated on a green styrofoam base under a miniature blue umbrella. Flanking the central arrangement were white candles in blue crystal holders.

Attending or sending gifts were Mesdames Dee Nutt, Martha Gaines, Gene Ussrey, R.S. Shuman, Jack Glenn, Bill Bourlon and Alicia, Roger Baughman, Lewis Sharp, Curtis Birchfield, D.E. Bush, Paul Wilkinson, Lee Meeks, and Janice, Lucile Brittain, J.H. Stone, C.G. Davis, Paul Winegeart and Paula, Tommy Lovelace, W.W. Hall, John McFarland, Johnnie St. Clair, Bill Roberts, Bill Meeks, Harry Sheets, Gaylon Selman and Ebb Randol.

Also Mesdames F.E. Aubrey, V.C. Vanable, Kenneth Martin, Myron Hillock, R.D. Dale, Charlie Hromas, Ernest Balazs, J.W. Herrington, E.E. Routon, Sam Hukill, L.C. Paul, Doyle Goldsmith, O.C. Harrison, Oliver Sikes, Chris Moss, Hugh Moseley, Herb Halsell, C.M. Meeks, John Curtis, C.L. Mahaney, Cricket Taylor, Clark Billingsley, and Sherry, Cyrus Dale, J.T. Ford, Clifton Otts, Dwain Nance, Leon Meeks, Turner Paine and Christine, Cora Lunsford, Charlie Boyd, Jim Young and Clytie Dial.

Also Mrs. Grayson Roberts and daughters, Mrs. Beulah Hobbs, Mrs. Margaret Wright, Jack Goldsmith and Misses Jo-lyne Donaldson, Vicki, Jo and Gayla Goldsmith, Pamela Wilkerson, Paula Martin, Joyce Curtis, Estelle Embry and Dan Goldsmith.

Shower To Honor Carolyn Lindop

Friends and relatives are invited to attend a shower honoring Carolyn Lindop, bride-elect of Joe Davis at the home of Mrs. C. C. Christian, Saturday, July 24, 3-5 p.m.

No invitations are being sent, but all friends wishing to participate in the shower are asked to consider this as a personal invitation by the hostesses Mrs. C. C. Christian and Phyllis, Mrs. Clark Billingsley and Sherry, Mrs. Robert Rundell and Donna and Mrs. Guy Austin and Mikala.

Jane Hamlin Barclay Born July 20

Dr. and Mrs. David Barclay announce the arrival of a daughter, Jane Hamlin, on July 20 in a New Orleans Hospital. The little girl weighed 5 lb. at birth. Mrs. Barclay is the former Jane Claire Overstreet.

What is there about traveling salesmen?

Well, one thing about a traveling salesman is that he gives his car hard usage. Business calls require a lot of start and stop driving. And that's when corrosive engine wear can cause serious damage.

Actually, start and stop driving is the kind of driving most of us do most of the time. So, to protect your motor under these severe conditions, your Phillips 66 Dealer recommends Trop-Artic All-Season Motor Oil. Trop-Artic starts protecting at low temperatures, and keeps on protecting at high operating temperatures. It's a light oil, a medium oil and a heavy oil, all in one!

To keep your car running better longer, get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

ANNOUNCE ENGAGEMENT — Mr. and Mrs. Earl Disheroon, Route 1, Alpena, Ark. announce the engagement and approaching marriage of their daughter, Ginger, to Joe Tom Reed, son of Mr. and Mrs. Joe Reed also of Alpena, formerly residents of Farwell. The couple are planning an August 27 wedding. Miss Disheroon is a 1964 graduate of Alpena High School and presently is a student at the University of Arkansas, Fayetteville. Her fiance is a 1965 graduate of Alpena High School and is presently employed by Ivy Motor Co. in Fayetteville.

APPROACHING MARRIAGE — Mr. and Mrs. A. O. (Buster) Gast announce the approaching marriage of their daughter, Judy Gay, to John F. Abernathy, Clovis, son of Mr. and Mrs. Hez Abernathy. Friends and relatives are invited to attend the August 28, 5 p. m. (MST) wedding at the Immanuel Lutheran Church in Clovis. No invitations are being sent.

Couple Honored At Sunday Tea

A tea honoring Mr. and Mrs. John Gordon (Johnny) McCuan (recently married in Okinawa) was held in the fellowship hall at the Farwell Baptist church Sunday afternoon from 2:30-4:30 p. m. Hostesses for the social were Mesdames Sam Aldridge, Lenton Pool, Elmer Langford, Harry Whitley, John Porter, Chris Moss, and Grady Herington.

G. McCuan, Mr. and Mrs. Dale McCuan and Mrs. John Porter. Presiding at the serving table were Ann Whittington and Mrs. Sam Pool. The serving table was covered with an ecru lace tablecloth and centered with a triangular arrangement of roses in an antique crystal footed bowl.

Arrangements of roses in various shades were placed throughout the receiving rooms. Individual white cake squares iced in pink were served with assorted mints and pink punch. Napkins bearing the names "Winnie and John" completed table decor.

During the afternoon colored slides of scenes in Okinawa were shown by the honorees, who had taught there last year.

Singing the guest register were Rev. and Mrs. J. L. Bass, Mr. and Mrs. E. G. Williams, Mesdames Minnie Matthews, Hattie Bolling, Glen Phillips, Bob Hart, Kate Phillips, R. L. Douglas, Fairy Stovall, Chris Moss, Elmer Langford and Carolyn, Lenton Pool, Sam Aldridge, Harry Whitley, Mabel Reynolds, Mr. and Mrs. Sam Pool, Miss Ann Whittington, Mr. and Mrs. Marsh Whittington, Mary Alice Cochran, Mmes. J. T. Ford, M. A. Snider Sr., Hugh Moseley, Clyde Magness, Duane Herington, John Lockhart, Dick Gerles, Herman Gerles and Tina, Jackie Williams, Buck Bradshaw, W. M. Roberts, Lucille Jones and Ann Smith.

Sending gifts were Mmes. Clytie Dial, John Adams, LeRoy Faville, T. J. Glenn, W. R. Meeks, Carl Davis, Leroy Berggren, Virgil Martin, E. M. Davis, Messrs. and Mmes. David Mitchell, Joe Wade, Glen Turner and Bob Grant.

Mr. and Mrs. McCuan are scheduled to leave today (Friday) for Washington, D. C. and a visit in the home of Mrs. McCuan's parents in West Va. They will leave the states in August for Tripoli where they will return next year.

Shanna Kaye Blain Arrives July 17

Mr. and Mrs. Calvin Blain announce the arrival of their fifth child, a girl on Saturday, July 10, 6:15 p.m. The little girl who weighed 8 lb. at birth has been named Shanna Kaye. Other children in the family are Garry, Kent, Vickie and Karyn.

Maternal grandparents of the new arrival are Mr. and Mrs. L. T. Utsman. Paternal grandparents are Mr. and Mrs. Ed Blain. All of the grandparents reside locally.

Correction

In the story in last week's issue of the Tribune announcing the arrival of a daughter in the Harlin Obenshain home it was erroneously stated that the other child in the family was also a girl.

The correct story should have read "The little girl, the second child for the couple, has been named Tammela Joy. The other child in the family is a son, five year old Dwayne."

Our apologies to the parents for the error.

Celebrates Fourth Birthday

Stephanie Ann, daughter of Mr. and Mrs. Clarence Kube celebrated her fourth birthday with a party in the home of her parents on July 15. An ice cream social was held in her honor with several family members in attendance.

Attending the function were her brother, Weldon, her sisters, Jacqueline and Sonia. Grandparents, Mr. and Mrs. V. E. Snelgrove, Lubbock, and Mr. and Mrs. B. H. Kube, Farwell. Also Mr. and Mrs. Martin Kube, Bryan, Wayne and David and the honorees great-grandmother Mrs. Mary Kube and Rudolph Kube of Oklahoma Lane.

Recent Visitors In Vincent Home

Johnnie Landis of Crane, Texas, returned to her home after a 10 day visit in the home

of Mr. and Mrs. L. R. Vincent last week. Miss Landis is a grand-niece of Mrs. Vincent.

Arriving for a visit in the Vincent home last Sunday were Mr. and Mrs. Weldon Cross of Dallas. Mrs. Cross is a sister of Vincent.

On Monday evening Mr. and Mrs. Vincent honored their guests with a fish fry. Attending the social were Messrs. and Mmes. Cross, Dallas, R. B. Summers and Leonard Smith all of Clovis.

Mr. and Mrs. Cross returned to their home on Sunday.

Antique Club Meets In Hardage Home

Members of the Friona Antique club met in the home of Mr. and Mrs. Windborn Hardage in Farwell Monday night.

Mrs. Hardage served a salad supper with party pie as dessert after which Hardage entertained members by playing many of the old favorites on a player piano. Also on display were many antiques which have been collected by the Hardages.

Next meeting of the group has been set for August 16 in the home of Mrs. O. C. Jones in Friona.

Attendees at the meeting were Mrs. O. C. Jones and Messrs. and Mmes. Dick Habenga, Howard Ford and Chloe Ann, Leo Bales and Kenny, Bill Flippin, Raymond Adams and the host and hostess.

Bridal Shower Honors Judy Roach

Judy Roach, Okla. Lane, bride-elect of Roger Ezell of Bovina was honored with a bridal shower in the fellowship hall at the Oklahoma Lane Methodist Church Thursday afternoon. Some 40 persons were in attendance and many others unable to attend sent gifts.

Chosen colors of the honoree pink and white, were used in room decorations and refreshments. Serving table was covered with white net over pink. Centering the table was an arrangement of variegated pink summer flowers. Pink punch was served with lemon thin cookies, mints and nuts, Milk-glass and crystal table appointments were used.

In addition to the honoree, special guests were her mother, Mrs. James Roach, her grandmother, Mrs. Jack Roach, both of Oklahoma Lane and mother of the groom-elect Mrs. Gene Ezell of Bovina.

Hostesses for the courtesy were Mmes. R. E. Blankenship, Sam Billingsley, Leon Billingsley, Melborn Jones, Gene Snodgrass, Zula Rundell, Grace Jones, Lawrence Cooper, Johnnie Rundell and Harold Carpenter.

MEET MR. WUNSTOP DUZZIT

A little old lady was going through customs at San Francisco. An inspector asked her what she had inside a bottle in her valise. "Holy water", she replied in a thick Irish brogue. The inspector uncorked the bottle and took a swig. "For Pete's sake," he exclaimed, "This is Irish whiskey."

"Saints be praised!" exclaimed the old lady. "It's a miracle!"
