**PERSONAL**  
By John

I do not profess to be an actor or drama critic, I only know the things that I enjoy, I do not feel that my brand of enjoyment is shared by any large segment of our population. But in being told what is good entertainment and what is poor entertainment, I feel that my assessments can be classed as somewhere near the average citizen's. I wonder if many folks besides myself went to the Panhandle Heritage Foundation production "Texas" and came away feeling that it was not up to the advance publicity. I suspect that in spite of the superlatives heaped upon the production by the producers, many folks felt in their plebeian hearts, "it wasn't so hot."

This week we received an extremely glowing release concerning the aforesaid musical drama. It stated that the play was so overpowering that the directors decided to rerun it next year. I think they are making a mistake. I think it was definitely a second rate, poorly written, ill-conceived, historically weak passel of pap foisted off on the public in the name of art and drama. A freshman journalism student writing his great American drama could be expected to come up with such transparent tripe. Basically I felt it was weak, sentimental slop to be portraying a struggle of the Old West.

The stage in Palo Duro is of the open variety with the mighty sweep of the canyon walls as a backdrop. Last year's production of "The Thundering Sounds of the West" took this into account and powerfully utilized this tremendous panoramic backdrop as an integral part of the presentation. Let's face it, we are not going to get anybody that is any great shakes as a dramatic actor to put in 55 days a year in West Texas, but we can get, and did have, excellent singing and dancing talent from the University. Last year's presentation with its use of the canyon walls, use of the superlative lighting system, use of the unique acoustical effects of the canyon, use of the singing and dancing talent available was head and shoulders above the, whatever you want to call it, put on this year. I suggest that the foundation directors stop being enamored with a famous name and take a critical look at what was offered against what could have been done with the facilities available. I think they were short changed. What do you think?

Now that I have been put on record about the above production, let me say that we are now several days deep in the greatest week in television history and I only feel nauseated.

The other night I was trapped and watched a smart alec kid carrying a baby pig around. Not only did the piglet not squeal, but apparently did not feel the need for physical relief. That's more than I can say for myself. One of the characters got burned that afternoon and by next morning was growing scar tissue. The only scar tissue must have been on the brains of the producers of such balderdash.

I noticed that Tarzan now has an excellent command of the English language and an eye for rather civilized feminine pulchritude. Shades of Edgar Rice Burroughs and Johnny Weismuller! The next thing we know, Daniel Boone will have a Tommy Gun.

Truth, historical sequence and honesty, physical possibilities, and time-space limitations go out the window when it interferes with TV reality. Well don't they do the same in political speeches or in our new textbook versions of history? We may as well resign ourselves to seeing things not as they were or are, but as the Big Brothers think they should be. I can only be resigned, never happy.

## Under New Management

The help-yourself laundry on Main Street, formerly operated by Mr. and Mrs. D. E. Bush, opened under the management of Mr. and Mrs. Paul Payne, Sept. 1.

The laundry will be open five days per week, Monday through Friday from 9 a.m. until 6 p.m., and from 8 a.m. until 2:30 p.m. on Saturday.

## 184 Enter Football Contest --

# Dodie Actkinson Wins First Prize

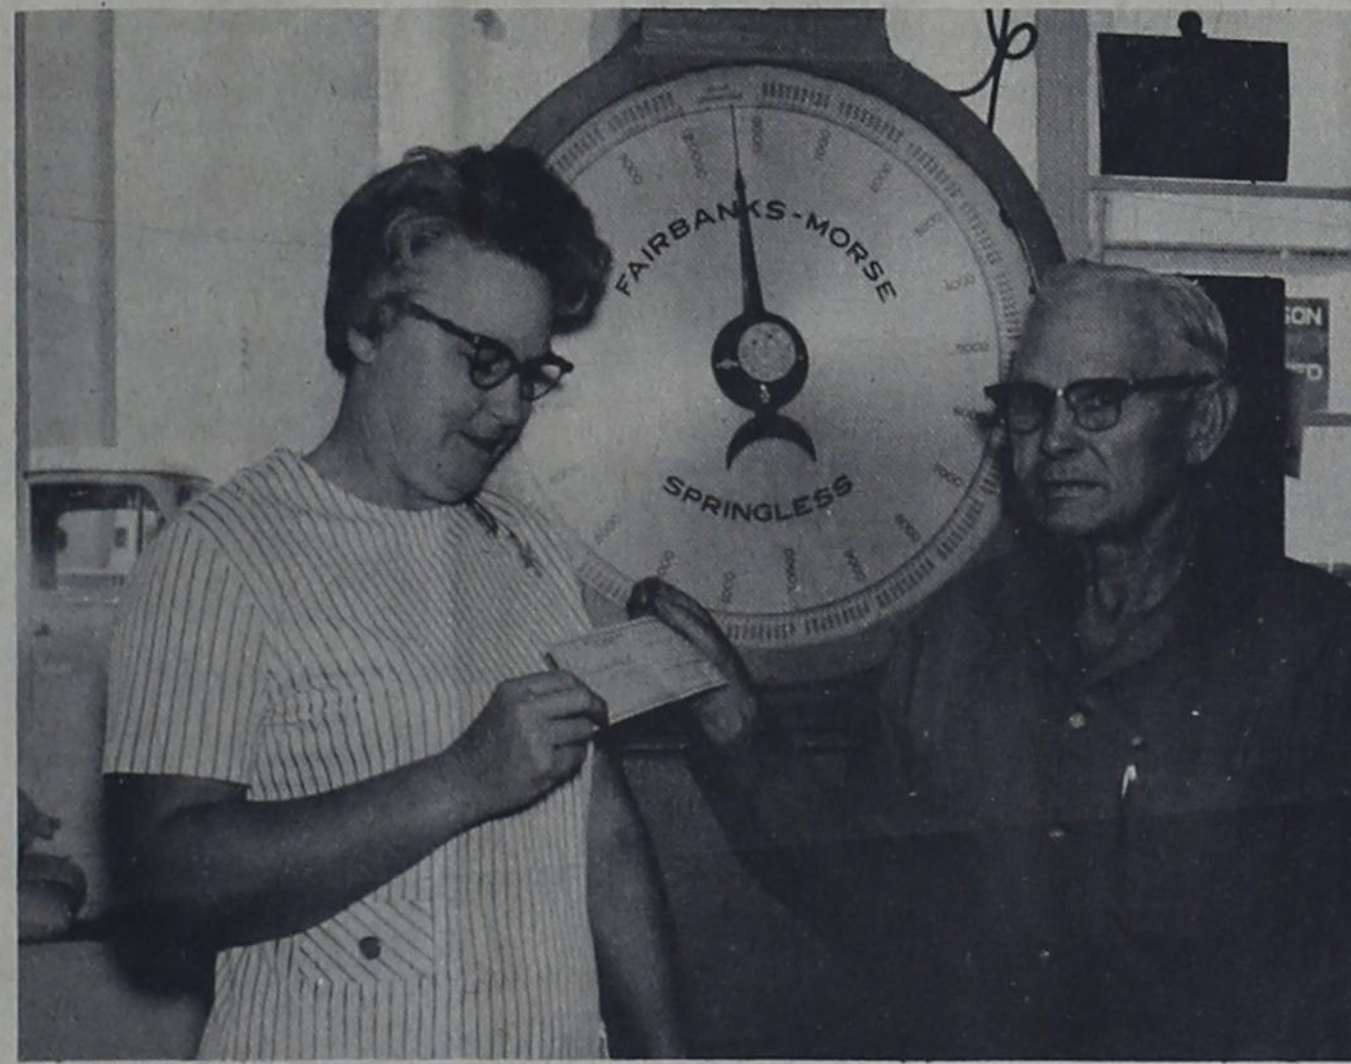

Hip, hip, hooray, football season is here with all the excitement, and armchair football is off to a good start with a record number, 184 persons, entering the annual football contest during the first week. Grand prize for calling the greatest number of games right, she called all of the ten games right and was only eight points off on the tiebreaker game score.

Gene Ezell, Bovina postmaster, also called all games right, but was 15 points off on the tiebreaker score. He was winner of the \$3,000 second place prize. Tying for third place

were Mark Williams and Dee Owen, who each called nine games right and were only one point off on the tiebreaker game score.

In addition to the third place winners, 17 other persons also called nine games right, but were too far off on the game score to get into the winners column.

Now is the TIME to join the fun and get into the contest. There is still time to be the grand prize winner.

OFF TO A GOOD START -- Mrs. Dodie Actkinson, winner of the Cotton Bowl tickets and \$50 expense money grand prize two years ago, is off to a fine start this year, by winning first place in the Tribune's annual football contest this week. She called all ten of the games right and missed the tiebreaker score by only eight points. She accepts a check for her first place prize from Johnie Williams, manager of Sherley-Anderson-Pitman, Inc.

## To Ordinance --

# Response Excellent Says City Clerk

Mrs. Clara Wiehl, city clerk in Texico, said early this week, "We are proud of the way the property owners and town residents have responded to the ordinance governing the removal of weeds and other debris from their property in recent weeks."

A copy of the ordinance was mailed to each householder in Texico along with the monthly water bill, earlier this month. "Weeds which have grown profusely since the recent rains would have created a health hazard, making excellent breeding places for mosquitoes had not the town residents cleaned up their premises," stated Mrs. Wiehl.

The ordinance stipulates that any person (property owner) who does not remove weeds and other debris from his property will be given one warning by the town council. After the passage of five days, if the debris is still in evidence, the city then has authority to clean the weeds or other debris away and bill the property owner. Should the owner refuse to pay for the service he can then be hauled into court and fined no more than \$100 and have a lien attached to his property until such time as the bill is paid.

"Thanks to the cooperation of the residents, nothing like this has occurred," said Mrs. Wiehl.

## Sentenced On Worthless Check Charge

C. D. Abbott was arrested by Parmer County officials on Thursday night in Friona and charged with passing worthless checks.

Abbott was tried in county court and assessed a fine of \$50 plus court cost and six months in jail. He waived a jury trial and was sentenced by the judge. Ruben Briscoe, DWI, was recently assessed a \$75 fine and three days in jail and Florencia Alcarzar, 20, of Lazbuddie was fined \$50 plus court cost and ten days in jail on a charge of stealing a battery.

A warrant has been issued for the arrest of two culprits believed guilty of entering a barn on the Malcomb Carthel place at Lazbuddie and taking \$500 in car parts from the barn and a car on the premises.

## Dimmitt Next --

# Steers Stomp Chiefs

The big story Friday night at Steer Stadium turned out to be the hard brand of football unleashed by the Steers as they outfought a determined band of Friona Chieftains by a score of 20-7. Try as they might, the Chiefs could not keep their vital drives going as the underdog Farwell line outcharged their opponents and forced many fumbles which stifled almost all of the scoring threats that Friona could muster.

Farwell's scores came mostly on superbly executed combinations of running and passing which kept Coach Don Light's defenders off balance and allowed the Steers to push over three big touchdowns, providing margin of difference in the game.

Friona won the pre-game toss and elected to receive. Four plays later, despite an offside penalty against the Steers, the Chiefs found themselves faced with a fourth and three situation and were forced to punt. The ball was killed on the Farwell 33 and from there the Steers set up shop.

A beautiful punt by Al Phillips put Friona in the hole on their own nine yard line. The Chiefs managed to move the ball out to their 15 but could go no farther as the Steer defense toughened, forcing a punt.

Farwell took possession on the 47 yard line of Friona and on the first play from scrimmage, Bobby Field scampered 47 yards for the first Farwell score. Al Phillips kicked the extra point and with 4:07 left in the first quarter, the Steers had a 7-0 advantage.

The Chiefs mounted a serious scoring threat in the second period when Friona's Bobby Jordan picked up 31 yards and set up a first down on the Steer 15 yard line. Superb pass defense by the Steers caused two Friona passes to fall incomplete on the goal line, halting the drive short of a TD.

On the first play from scrimmage, Bobby Field connected

with Johnny Schell for a seven yard gain, bringing up a second and three situation. The versatile Field then elected to run with the ball and picked up Farwell's initial first down in the process. Field then hit Lewey Bradshaw for another Steer first down. Farwell was not destined to score on this series of plays however as Field was thrown for a seven-yard loss on

the next play and two passes in succession fell incomplete.

The remainder of the second period was taken up mostly by miscues and incomplete passes as both teams battled the clock in an effort to push across a score. Three Friona fumbles killed their chances while several Farwell passes fell incomplete nullifying their efforts to score.

With 15 seconds left in the half, Al Phillips attempted a field goal, but it fell short leaving the score 7-0 in favor of Farwell.

Farwell received the second half kickoff and marched for two first downs before incomplete passes forced the Steers to give up the football. Friona took possession and mounted their first successful drive.

Johnny Barker pitched to Ted Renner who scampered for 25 yards before being hauled down on the Steer 45. The next two plays netted a total of two yards setting up a third and eight situation. A razzle-dazzle combination provided Friona's lone score as Barker pitched back to Renner who fired a 43 yard pass to Ray Lynn Murphree who raced in for the touchdown with 6:29 left in the third period. Renner kicked the extra point and the score was tied 7-7.

Friona threatened to score again with 1:40 left but a fumble resulted in a big loss nullifying the drive.

The fourth period got underway with Friona still being plagued by fumbles. Two Friona fumbles killed their chances as the Steers moved in for the go-ahead score.

With 9:19 left in the ball game Farwell began a sustained drive featuring the passing (Continued on Page 6)

Farwell's block says this Friona defender as he upsets Farwell's Lewey Bradshaw seconds after Bradshaw caught a Field pass in the third quarter of the Friona-Farwell game.

From Mud or Monkey?

The surest way to start an argument among a gathering of friends is to bring up the subject of evolution. In recent years, a rather vivacious controversy has raged concerning the origin of man, with our normally disinterested society seemingly split into two opposing factions, each promoting its own extreme view. Interestingly enough, the question has been greatly oversimplified. Among laymen, one side puts forth the man from monkey theory, while the other side sticks with the man from mud idea, with no apparent chance of reconciliation between the two warring groups.

I say the question has been oversimplified for a very good reason. It took Darwin several volumes to put forth his theory on the origin of the species. Many years of hard work and diligent study were to be necessary before his works were ready to be published, so it is not quite correct to restrict argument on the subject to simply whether man came from monkey or otherwise. It's just not that simple.

Somewhere between the two extreme views there has to be a middle ground, a road over which both science and religion may travel without a head-on collision occurring between the two. In essence, Darwin's theory is that there has been a very gradual modification and change in all forms of life, beginning with the simplest one-celled organism that is believed to have been the original life form on this planet, and continuing on through the creation of the higher forms of life. All change is made for one very good reason, adaptability to a changing environment in order to insure survival.

The theologian's argument is that man is a divine creation, not merely a descendant from an ape.

Now it seems to me that there is really no argument here at all, and if there is one, then it is over the method of divine creation, not whether there was divine creation. In my view, there is no question but that man, as well as all other life forms, is a divine creation. However, the method of creation is still open to question. If we assume that all life forms were created as such and no change has occurred in the organisms, then science has made a grievous error.

I prefer to believe however in divinely directed evolution - evolution under the control of the Supreme Creator. There is no doubt in my mind that all life forms have undergone and are undergoing constant change in keeping with the changing environment. They could not survive without adaptability. Early man had not discovered fire. He had very primitive weapons. He needed to be of strong build. He needed a covering of hair to keep warm,

After a long vacation many clubs throughout the county are making plans for club activities to complete this years program plans, and also make plans for 1967.

ARE YOU LOOKING FOR A PROGRAM?

Many agencies have speakers or films available without charge for programs for organized groups. Some of them are: Texas State Health Dept., at Austin - films and materials are available on subjects of health, child care, safety and Family Life Education. Call this office for information on securing these.

Social Security Administration - Speakers available from this area. Call-John Troop-762-2977 in Clovis.

Your County Home Demonstration Agent will also be happy to present programs on the following topics: Foods - Home Management, Clothing and Child Development.

For some who would like to have material for member programs, your County Extension office, 481-3619 in Farwell, has much material available on homemaking subjects. The material is based on research from recognized authoritative sources. All groups and individuals are invited to use this service.

Fall Shopping for Clothing - can be very exciting now, with all the beautiful colorful fabrics available in ready-mades and fabric materials.

This is a good time to do a little wardrobe planning, using a pencil and paper to better organize and coordinate clothing needs for the coming year. An inventory of what you have (on paper) can be a big help and prevent disappointments later. That so often heard phrase "I don't have a thing to wear",

strong and sharp teeth with which to eat raw meat. He no doubt very closely resembled an ape, both in appearance and mentality. As man's mental capabilities improved over a period of many years, so did his physical appearance. Who is to say what man will resemble a million years from now.

Now I know that the Bible specifically states that man was created from clay. Let us not forget however, that the Bible also states that the Lord condemned the reptile to crawl on its belly for tempting Eve. It stands to reason that if the reptile was condemned to crawl on its belly then it must have possessed a previous form of locomotion. Indeed, rudiments of primitive legs have been found on some snakes. Here is a solid example of divinely directed evolution as set forth in the Bible! Are we to say that this process did not continue and is not continuing now?

As I said before, there is still a lot of room for controversy. Many ideas will come and go. Perhaps someday man will learn the truth of his origin, but until then the argument will go on and on. I would hope however, that religion and science can reconcile their views. It would indeed be a step in the right direction.

is most usually true even with a closet full of clothes. Uncoordinated colors, clothes for all occasions are lacking and designs wrong for your individual figure are some of the disappointments experienced from lack of planning.

Knowledge of fabrics is needed if complete satisfaction is to be gained. A small Extension Service booklet titled "Clothing Action", gives information on characteristics, uses, care and trade names of the various fabrics. Some of these are being distributed by local stores and are available free from your Extension Office here in Farwell, at the County Courthouse. Come by the Home Demonstration Agent's office and get a copy or call 481-3619 and a copy will be sent to you.

## Supper-Film Planned

A covered dish supper and special film program is planned for Monday evening, September 19, in Hamlin Memorial Methodist Church of Farwell.

The public is invited to attend the informal pot luck supper at the church, beginning at 7 p.m. The program is planned for 8 o'clock.

Rev. Hardin Atkins, pastor of the church, announced that the program will be under the direction of Rev. and Mrs. G. A. Schulze of San Antonio. They will show colored slides of their 1965 visit to Hong Kong and other areas of Asia. Their collection of slides, says Rev. Atkins, are not just a travelogue, but a real and interesting challenge to all who are interested in christian efforts in the Asian field.

Rev. Schulze is the current association executive secretary of the southwest Texas conference of the Methodist Church. He and his wife collected their material on a trip to Asia for a visit with their younger daughter, Linda, who has been a special short term missionary of the Woman's Division of the Methodist Church for about four years. They are also the parents of the Farwell-Texico pastor's wife.

Rev. Atkins stresses that everyone is invited to the evening's activities. He also announced that a nursery for preschool children will be provided.

of Field and the running of Larry Suttle, Bobby Chadwick and Al Phillips. The march threatened to bog when the Steers found themselves faced with a fourth and one on the Chief 39 but a quarterback sneak by Field picked up the first down and kept the Farwell drive alive.

The Steers moved the ball to the Friona 14 where a rollout by Field provided a first down and goal to go. With the ball on the three yard line, Al Phillips took the handoff from Field and crashed in for the score. Phillips then booted the extra point making it 14-7 in favor of the fighting Steers.

With three minutes and 54 seconds left in the game, Friona started a last desperate attempt to remain in contention but another fumble recovered by Farwell's James Haseloff virtually eliminated their chances.

The Steers weren't satisfied however, and with 16 seconds left in the ball game, Larry Suttle bulled his way through from the one for the final Farwell score. Phillips try for the point was no good but it didn't matter as time ran out. For the second year in a row, the fighting Steers had emerged victorious over their cross-county rivals.

Although the passing and running of Bobby Field was a big factor in the victory, much credit must be given to the rest of the Steer squad for it was truly a team effort that produced a win in the first game of the season.

Coach Toby Booth comment-

ed that the Steers looked good for the first game of the season, with the line turning in an exceptional job blocking and the backs doing a pretty good job running. "Our team showed lots of hustle although they made many mistakes; our hustle overshadowed the mistakes," he concluded. Coach Booth commented that the Steers were fortunate to beat Friona, "for they had a much better ball team than had been indicated by the pre-season scrimmage."

In commenting on the upcoming game with Dimmitt Coach Booth said, "Dimmitt has one of the best AA ball clubs in the area; they are agile, big and have a good defense; they are probably one of the best ball clubs we will meet all year and we are expecting a good game Friday night."

The Steers and Dimmitt will collide on the local field at 8 p.m., tonight (Friday).

The county has been without the services of a county agent since the resignation of Joe VanZandt, early in August. VanZandt is now serving as county agent in Moore County.
