SCOTT JOHNSON

### Scott Johnson Honored At South Plains Event

Scott Johnson, son of Mr. and Mrs. Billy Johnson of Bovina, was honored for his achievements in 4-H at a November 24 South Plains 4-H Gold Star Awards Banquet held in Lubbock.

Johnson is a recipient of 4-H's highest county level award, the Gold Star, and recognition for this was given to him at the banquet along with 40 other Gold Star winners.

In addition to receiving his star, the Lubbock Christian College student was challenged by State Senator E.L. Short of Tahoka to continue throughout

life and pursue the 4-H club motto, "To make the best better."

Joining the youths at the awards banquet emceed by TV personality Bob Nash were government officials, extension leaders, fellow 4-H'ers and parents.

Johnson was named to receive the Gold Star award at recent Parmer County awards ceremonies. It was at that time that Parmer County Extension Agent Seth Ralston revealed some of Johnson's many accomplishments in 4-H. "He has won the Bovina Stock Show two years in a row and is always willing to see a job through and share his knowledge. Because of his 4-H experience raising breed swine, he is now caring for the swine herd at Lubbock Christian College," said Ralston.

Johnson is a 1980 graduate of Bovina High School and has been involved in showing barrows, livestock judging, raising breed swine, feeding cattle and raising crops since his childhood.

### Amarillo Rites Held For Clark Walling

Graveside services were held at 2 p.m. November 28 for former Farwellite Clark Walling at Mission Garden of Memories in Amarillo. Mr. Walling, 62, died Tuesday, Nov. 25, in Amarillo where he had been residing. He was born in Farwell, April 29, 1918 and graduated from Farwell High School. Mr. Walling attended West Texas State University and served in

World War II. Survivors include his brothers, Mitz Walling of Farwell, Olen Walling of Clovis, Craig Walling of Las Cruces; and two sisters Jimmie Lindsey and Ruth Dorris, both of Kerrville, Tex.; and several nieces and nephews. Pallbearers were Milton L. Walling, Woody Campbell, Jim Walling, Henry Lovelace, John Lovelace and Carl Roberts.

### Final Services Held For Eula Louise Tipton

Funeral services were held Saturday, Nov. 29, for Eula Louise Tipton following her death Tuesday, Nov. 25. Mrs. Tipton died at a nursing home in Abilene, Tex. where she had been residing. Final services were held at Steed-Todd Chapel with Rev. J.J. Terry officiating. Interment was at the Oklahoma Lane cemetery under the direction of Steed-Todd Funeral Home.

Mrs. Tipton was born in Oklahoma but had lived in Farwell most of her life. She resided in Amarillo for 20 years before moving to Abilene after the death of her husband Elmo in 1974.

Mrs. Tipton's survivors include two sons, Eddie Miller of

Abilene and Joe Miller of Germany; two sisters, Jewell Hurst and Ruby Barber, both of Yakima, Wash.; three brothers, Ernest Doshier of Yakima, Wash., Lee Doshier and Elmo Doshier, both of Tipton, Okla.; eight grandchildren and two great-grandchildren. She was preceded in death by a son, Rex Miller, in 1973.

### Pheasant Season . . .

(Continued from Page 1) The stripped corn fields and stalk destruction cause the birds to be more visible, but according to Ralston, "corn fields are hard to hunt because they are so open." The plowed field has also removed all cover and food sources from the birds.

Ralston's advice to all hunters is not to hunt anywhere without first obtaining permission. "Talk to the landowner personally. Do not go by what someone else told you. A lot of people will be patrolling their land for unwanted hunters, so be careful." A good policy for those hunters with a large catch is to give the landowner a bird. "They raised the bird indirectly by providing it food and cover," Ralston pointed out. "It's a hunter's courtesy to present the landowner with one bird."

### Interest Checking . . .

(Continued from Page 1) Jack Williams, manager at the Farwell branch of Tri-County Savings and Loan, says his firm "hasn't made up our mind yet" about beginning NOW accounts, but points out that since they are on a computer "it won't take long to set up if we decide to do it."

Traditionally, Savings and Loans have been chiefly in the business of big loans for housing and real estate. Also the Savings and Loans have been more savings oriented and will probably use the NOW accounts as an available service to their depositors rather than changing their whole way of business.

### Purely Personal . . .

(Continued from Page 1) businessmen dig deep many times to help with countless fund-raising projects. A little town is where many teenagers say there's nothing to do and then are surprised to learn that their big-city peers are saying the same thing. A little town, when all is said and done, is a nice place in which to live.

A little town knows all the news before it's published. They just buy the hometown newspaper to see if the editor gets it right.

### L. M. BOYD

### A test for drinkers

An oldtime bartender long retired says he used to have a placard tacked up above his bar on which were written: "Truly Rural," "Biblical," And "Criticism." When any imbibor appeared to have had too much to drink, he'd ask that party to read the words. Failure to pronounce them clearly was the sign to cut off the liquor.

Sale of scarves is booming in Iran, I'm told. Credit that to the Moslem clergy now in charge. They decreed that the women return to the wearing of veils. Just one merchant reports moving 300 dozen scarves a week. Five dozen a week was typical in the days of the Shah.

Among the keener comments on warfare is Sam Levinson's observation: "About every 20 years the world practices youthanasia."

RATTLESNAKES  
Q. Do rattlesnakes have to be curled to strike?  
A. No, sir, they sometimes strike from a curl but more often from a U or an S position.

Among the members of that high school organization called Future Homemakers of America are 25,000 young men.

Q. Who was the fattest Congressman ever?  
A. Dixon Hall from Alabama. From 1829 to 1944. He weighed 510 pounds.

The Valley City Times-Record in North Dakota reports that Ronald Reagan once acted in a film called, "A Turkey for President". Don't recall that one.

Q. In Marine Corps lingo, what's a "weenie"?  
A. A recruit.

UNFAITHFUL  
Three times during a man's marriage is he most tempted to be unfaithful to his wife. In his late teens, if he marries that young. Between the ages of 30 and 35. Then again from 45 to 50. Such were the findings of the matrimonial researchers years ago, and they've since been confirmed repeatedly. Our Love and War man does not regard such fence-jumping as typical. It may be commonplace, true. But infidelity does not lend itself easily to statistical averages. More often, the instances occur in oddball circumstances that don't come up routinely.

In 1861, a special act of the U. S. Congress granted the female physician, Dr. Mary Edwards Walker, the exclusive legal right to wear men's clothing.

These Pioneer® brand corn hybrids do well in our area. 1980 conditions. 3184 - This hybrid really showed up well under tough, 1980 conditions. And it has proven itself to be a top performer in good years, too. Our farmer customers like 3184 for its dependability. It can wait for water when other hybrids can't. And it adjusts ear size and kernel depth to make the most of growing conditions. 3184 shows good resistance to head smut and MDMV, too. If you could plant only one, it ought to be 3184. But since you don't have to, we recommend it as a companion to Pioneer hybrids 3195, 3183 and 3311.

3311 - Our customers who grew this hybrid in 1980 were so pleased with their results, they can't wait to see what it will produce in a good year! Despite hot, dry conditions that stole yields from most corn hybrids, 3311 came through with some of the highest yields and best overall performance we've ever seen. And it demonstrated its exceptional disease resistance including protection against head smut and MDMV.

We're eager for all of our customers to plant some of this hybrid and see for themselves what all the excitement is about.

Let's get together.

## Tax Hike Qualifies Texico For Monies

During their recent commission meeting, Texico city officials passed a resolution which will hike the sales tax percentage in the city of Texico one quarter of a percent. The hike will raise the sales tax from four to four and a quarter percent, according to Marie Christian, city clerk.

The reason for the sales tax hike is so that Texico will qualify for a Small Cities Assistance Act grant each year, which according to Mrs. Christian will amount to as much as \$3000 a year for the city.

The tax hike will go into effect January 1, 1982.

The council's next meeting is slated for Tuesday, Dec. 9, when representatives from the Farmer's Home Administration, the Environmental Improvement Division in Santa Fe, and the MSM Engineering firm will be on hand to answer questions relating to Texico's water improvement loans and grants. "Everyone who is concerned with our water's improvement is sure welcome to attend," said Mrs. Christian.

The meeting will be held at the Texico City Hall beginning at 6:30 p.m. MST.

## Commissioners Court Has Regular Session

Parmer County Commissioners Court met in regular session on Monday, Nov. 24, at which time members approved the paying of some \$689.95 in various bills.

Included in these bills was the payment of \$92.50 to attorney Richard Collard for his legal services rendered to a juvenile; yearly dues for

membership in the Texas Association of Counties which total \$405.00; and \$192.45 which covers Parmer County's half of the cost of radio crystals for DPS car units.

The radio crystals are to improve car to car communications with the Bailey County unit. Bailey County will pay the second half of the bill.

In other action, the Commissioners Court voted to advertise for bids on an equipment trailer for Precinct One. The bids are to be opened on December 22, 1980 at 11 a.m.

Also during the meeting, Bernard Gowens, certified public accountant, presented his 1979 audit report of County funds. The audit report was unanimously accepted.

Laura Jacobs, County Extension Agent for Home Economics, also gave her report to the Court which included the 4-H Food Show at Lazbuddie, the Christmas Bazaar at Friona, and the annual 4-H Awards Banquet at Farwell. She also reported that she will attend the Gold Star Banquet in Lubbock.

There is no charge or entry fee. All entries will assemble at Hilltop Plaza at 10 a.m. MST the day of the parade.

## Sheriff's Report

Things were relatively quiet around the Parmer County Sheriff's office this week as deputies had only four calls to answer, according to sheriff-elect Bill Morgan.

Mike Camp of Farwell reported a battery stolen from his well motor located four miles west of Lariat. Camp valued the battery at \$40.

Triple S Pump Company of Farwell was the target of two separate vandalism acts. On the night of November 28 Triple S employees reported that two panes of glass had been broken, but nothing had been stolen, and their building had not been entered. Before sheriff's officials had time to finish the investigation, vandals returned, this time on the night of November 30, shooting out 16 more panes of glass with a BB gun.

Dale Widner reported to sheriff's officials the theft of \$150 worth of tools from his pickup located southwest of Friona. The theft allegedly occurred on November 26 and the tools have been recovered.

John Cruzsierra was arrested for that crime and was tried for misdemeanor theft in the court of County Judge Porter Roberts. Cruzsierra plead guilty and was fined \$100 plus court costs.

Melvin Boggs of Route 1, Farwell, was arrested by Parmer deputies on a warrant from Canyon on violation of probation. Boggs, 23, has been released to Canyon officials.

## Roberts Hears Cases

Parmer County Judge Porter Roberts has heard the following cases since the last report. John Cruzsierra, 31, of Friona plead guilty to a charge of misdemeanor theft and was fined \$100 plus court costs.

Sammy Delacerta, 21, of Hereford, charged with DWI and fined \$150 plus court costs and sentenced to three days in county jail with six months probation.

Alvin Earl Rolan, 39, of Amarillo charged with DWI and fined \$200 plus court costs.

# Mary Peyton, Lawson Williams Wed In Double-Ring Ceremony

Mary Aneva Peyton of Texico and Lawson Young Williams of Clovis exchanged their wedding vows Saturday, Nov. 15, at the Texico First Rev. Joel Horne led the couple in the double-ring ceremony as they said their vows in front of the church altar which was centered by a crescent-shaped brass candleabra with 44 white wedding tapers, highlighted by greenery and a large blue bow and blue streamers.

Escorted to the altar by her cousin, Anthony Scioli of Texico, the bride wore a floor-length blue gown accented by a powder blue lace overcoat. Her bouquet was centered by a large white orchid surrounded by blue carnations and babies' breath with long white satin streamers.

For tradition the bride's dress served as something blue and something new and she borrowed a diamond stickpin from her cousin, Mrs. Perry Adams of Colorado City, Tex.

Pennies minted in the years of the couple's birth were in her shoes and for something old she wore a gold watch and chain, worn by the bride's mother at her own wedding.

The family heirloom was also worn by both of Mrs. Williams' daughters at their weddings.

Serving as her mother's matron-of-honor, Mrs. Byron (Sherry) Woodrow of Tucson, Ariz., wore a beige chiffon floor-length gown. Mrs. Anthony Scioli of Texico, the bride's cousin, was the bridesmatron. She wore a floor-length off-white and brown chiffon gown. Both of her attendants carried bouquets of long-stemmed blue carnations accented by babies' breath and blue streamers.

Serving as best man was the bridegroom's brother, Douglas Williams of Las Cruces. His son, Charles Rocky Williams of Hobbs, served as groomsmen. The bridegroom and his attendants wore business suits accented with white carnations in the lapels.

The wedding candles were lit by the bride's granddaughter, Stacy Woodrow of Tucson, Ariz., and by the bride's cousin, Mrs. Tommy Kennett of Clovis.

Ringbearer was six-year-old grandson of the bride, Kelly Woodrow from Tucson. He carried the rings atop a white satin pillow made by Mrs. Martin (Beth) Perciful of Tucson, the bride's oldest daughter.

Ushers were Mike Scioli and Doug Scioli, both of Clovis, Steve Daniel, Kinta, Okla., and Dwight Brown of Texico.

Rev. Dave Miller sang "The Wedding Song" preceding the ceremony and "The Lord's Prayer" at the conclusion of the ceremony. Kim Pearce accompanied him on the piano, and Cheryl Boling played wedding melodies on the organ as the guests were seated, and "The Wedding March" for the bridal processional.

Guests were registered by Mrs. Kendale Burch of Texico

and Mrs. Jack Davis of Roswell, sister of the bridegroom, as they entered the church. The registration table was covered by an ecru cloth and accented by a bouquet of red silk flowers in a silver vase, a gift from Mrs. Jerri Tharp. A crystal stemmed bowl was also at the registration table filled with blue rice bags.

Following the ceremony, guests attended a reception held at the church fellowship hall with Mrs. Raymond Hadley, Mrs. Mike Leighton and Mrs. Burch presiding at the bride's table. The table, covered by a white linen cloth edged with lace, featured crystal appointments and a centerpiece of blue and white carnations, baby mums, and babies' breath and six blue candles in crystal candleholders.

Guests were served from a three-tiered wedding cake topped by love birds, wedding bells, wedding bands and edged in blue scallops made by Mrs. Ima Gene Swinney.

Blue punch, assorted nuts and blue and white wedding mints made by Mrs. Roy Richardson were also served. Blue napkins, imprinted in silver with the couple's names, were also on the serving table.

Mrs. Bill Southard and Mrs. Ima Gene Swinney served chocolate cake shaped like wedding bells from the bridegroom's table. The table was covered with a blue cloth and

# Muleshoe Edges Steerettes In Farwell's Home Opener

A heartbreaking home game loss was suffered by the varsity Farwell Steerettes Tuesday night as they fell to the Muleshoe Mulettes, 58-56.

"The main cause was that Muleshoe shot better from the free throw line than we did," said Farwell coach Vester Joiner following his team's loss. "We both had 25 free throw attempts. They made 16 and we made 12. That hurt us because we had more field goals than they did," the coach said.

Foul trouble was also cited by Joiner as a contributor to their loss, forcing Ginger Ellison to leave the court after fouling out and Joiner having to pull out Sharmy Christian because of foul trouble.

As a team, the girls shot at 48 percent for field goals.

Sharmy Christian and Janene Berry were high scorers. Christian boosted the scoring effort with 19 points and Berry added 16.

More scores were netted by Robin Vinton with 8; Karen

Magnus for 6; Ginger Ellison, 3; and Kay Geuther and Jennifer Williams with 2 each. Christian hooped the highest number of field goals with 8 and top free thrower was Berry with 4.

The first quarter of the game found Farwell in the lead 20-9. The Steerettes carried that lead up until the third quarter but Muleshoe rallied for a strong push and boosted a third quarter score of Farwell 44 - Muleshoe 41 to a final game score of Muleshoe 58, Farwell 56.

# Farwell Jr. Varsity Basketball Results

Farwell's junior varsity girls fell to visiting Muleshoe by a score of 42-33, Tuesday.

Muleshoe grabbed an 8-2 lead in the first quarter and the young Steerettes never got beyond it.

Concerning his team's loss, coach Bill Phillips said, "We just did not shoot well and we rebounded poorly."

Suzahn Inman was her team's high rebounder grabbing back 11 times; Elaine Vaughn rebounded 4; Sharon Kalbas and Kelly Davis 3 each; Leslie Castleberry 2 and Tammy Obenshain, Sandy Coates and Darrisa Ford one each.

Swishing in for scores were Inman for 10 points; Castleberry for 6; Obenshain with 5; Vaughn and Coates 4 each and Kalbas and Davis 2 each.

The girls are scheduled to play next in the Amherst Tournament this weekend against Littlefield.

\*\*\*\*

In their first game of the season Farwell's junior varsity basketball boys fell to Muleshoe 47-43.

After taking a strong first quarter lead 16-6, Farwell's defense was unable to stop the heavy scoring initiated by the young Mules.

"I thought we played very well for our first game," said coach Ted Phillips after the game, "We just need to improve our free throws."

Boosting the score for the Blue and White by 17 points was Dale Sikes, with Claud Gobble netting 14. Brent Green hooped for 6; Darren Darby, 4; and Steve Smith and Roger Hobbs, 1 each.

The young Steers were to play in the Amherst Tournament against Littlefield, at 3 p.m. CST yesterday (Thursday).

# Steers' Cold Shooting Aids Muleshoe

"We just couldn't score," said Steer varsity boys basketball coach Mike Martin following his team's defeat to Muleshoe Tuesday night.

The Steers hosted the Mules in their first home game of the season, but dribbling on their own court didn't seem to help as Farwell lost 53-43.

"Actually we played a good defense to hold them like we did," Martin said. "But we got into foul trouble early, and just couldn't seem to score," he added.

The Steers led after the first quarter 15-13, but fell by more and more points as the game progressed.

"In the fourth quarter we put a good press on them and got within two points," recalled the coach, "But then Muleshoe scored eight straight points and we never scored again."

Martin promises his team "will get better" and says he is still breaking in some inexperienced guards. "And we have got to stay out of foul trouble," he emphasized.

Leading scorer for the Steers was Richard Carpenter with 14 points. Following close behind was Richard May with 12 and David Daniel with 10.

Dwayne Winter hooped for 6 and Boyd White netted 1 point for the Blue and White from the free throw line.

Carpenter was the team's leading rebounder grabbing back 10 for Farwell. May rebounded 9; Winter, 6; Daniel, 4; and White, 3.

Alan Eubanks and Phil Hagler rebounded 3 times each and Waverly Coates once.

# Texico's Roundballers Split Games

Texico's boys basketball season opened Tuesday with the Wolverines traveling to Grady and splitting their games there. The Texico varsity B team lost to Grady's A team 82-53, and the Wolverine freshmen played Grady's B team winning 53-25.

"I feel good about the game, our boys really hustled," said coach Kenneth Shaw following the game. "We did very well for our first season game, and Grady had already played two games this year," he said.

Texico proved to be strong competition in the opening quarter being behind by only two points 16-14, but a second quarter push by Grady pushed Texico behind by 10 points and the gap was widened even further in the third and fourth quarters.

"We got into foul trouble right away," said the coach, "But that always happens in your first few games."

Scoring for Texico were Tye Rains, 14; Herbert Bibbs, 13; Jeff Dunsworth and Brad Steward, 6 each; Kevin West, 5; Doyle Duncan, 3; and Lloyd

Williams, Danny Reid and Paul Salgero, 2 each.

"We were really hurting in the rebound department," Shaw remarked. "That's one area where we have got to improve."

Rains was the top rebounder of the night with 9, followed closely by Dunsworth with 8 and Duncan, 7. Bibbs rebounded 5 times for the Wolverines.

"We got into foul trouble, we didn't block out and rebound, but other than that I'm real proud of the boys. We accomplished what we set out to do," he said, adding, "I know we are going to be a very competitive team."

Texico's freshmen challenged Grady's B team and walked over them 53-25. "We pressed very well," was the reason cited by coach Scott Parker for his team's first season game win.

Texico grabbed the first quarter lead and held Grady for the remainder of the game.

The first quarter ended with the Wolverines leading 12-6 and the halftime buzzer sounded

with Texico leading 19-13. The young Wolverines rallied for 11 more points in the third quarter to boost the tally to 30-18 and then hooped 23 more points in the final quarter. "In the last four minutes we came on strong and really played well," said Parker. Texico allowed only 7 points to be scored against them in the fourth quarter.

Scoring for Texico were Kevin West, 20 points; Brad Steward, 16; Dennis Chavez, 8; Ronnie Dunsworth, 3; Terry Tubbs, 4; and Joe Steward, 2.

Leading rebounder in Tuesday's game was B. Steward with 15. West had 11, and Chavez had 7.

"I thought we really played well," the coach said following the game. Both coaches Shaw and Parker attribute much of the credit for their young team's win to coach Mike Littlejohn. "He has done an incredible job working with the freshmen and preparing them for play," they said.

The two Texico teams will host Bovina tonight (Friday) on the Wolverine court beginning at 6 p.m. MST.

# Cancelled Tourney

The Lazbuddie Invitational Varsity Basketball tournament scheduled for this weekend has been cancelled according to information received from the Lazbuddie school.

Farwell varsity Steers and Steerettes who were to play in that tournament will be playing the Lazbuddie teams on Friday night in games starting at 7 p.m.; however, location of the games had not been decided at press time Wednesday.

# Farwell Jr. High Basketball Results

The junior high basketball boys split their games against Hart last week with the 7th grade winning 15-6 and the 8th grade losing 32-23.

The young 7th grade team left Hart scoreless in the first quarter and kept their lead throughout the game. The Blue and White's strong defense also kept Hart from netting any points in the fourth quarter ending the game 15-6.

Scoring for Farwell were Carlos Nicosos, 7; Steven Jaime, 5; Jesse Anzaldua, 2; and Eric Williams, 1.

Even though 8th grader Roger Robertson hooped 20 points for his team, the eighth grade boys were unable to penetrate the strong Hart defense and lost 32-23. Hart grabbed the first quarter lead and retained it for the remainder of the game.

Also scoring for Farwell were Todd Davis for 2 and Steven Stancell with 1.

Again the two junior high teams split their results against their clashes with Kress. Anzaldua went in for 6; Williams, 4; and Jaime, 2; to obtain a 12-6 win for their 7th grade team over Kress. The boys had a lead of 8-2 in the first quarter, and kept the Kress boys from scoring all the way through the second and third quarters. Hart finally jumped in for four more points but could not get past the already strong lead Farwell possessed.

The 8th grade boys were not so lucky and lost to Kress 35-20. Farwell grabbed only 2 points in the first quarter and were held scoreless in the second quarter with Kress leading 22-2. The team rallied for 10 points in the third quarter and 10 more in the fourth, but Kress was also scooping in points and defeated the Farwell team 35-20.

Scoring for Farwell were Robertson, 12; Stancell, 6; and Davis, 2.

The girls both fell to the mighty force of Kress with the 7th grade losing 20-3 and the 8th grade being defeated 22-11.

The 7th grade team remained scoreless until the fourth quarter when Alma Nicholas, Sherilyn Thigpen and Cheryl Stanton each hooped one free throw shot giving their team its only three points earned. The Kress team began the early lead with 9 points in the first quarter and keeping their lead throughout the game.

The 8th graders were at least able to score against Kress but not enough to net the win.

Kress came out ahead in the first quarter and retained their lead until the final buzzer sounded.

Scoring for Farwell were Cynthia Ancira for 7; and Sheila Smith and Cathey Gobble, 2 each.

# Season Football Stats Show Steers In Front Of Opponents

Farwell may have closed out its football play with a losing record of four and six, but statistically they out-manuevered their opponents in almost every aspect.

Offensively the Steers averaged 260.4 yards rushing per game from 534 ball carries gaining a season total of 2604 yards. Defensively the Steers allowed their opponents 211.1 yards per game.

The Farwell passing game never really got underway until mid-season, and for their season total the Steers threw the ball 96 times, completing only 26 of those for a total of 356 yards. Farwell lost 67 of its passes to opponent interception. The passing game netted the Steers an average of 35.6 yards per game, giving them a total of 296 offense yards per game. Their opponents threw an average of 46.9 yards per game against the Steers.

Farwell beat the opposition in other stats, such as first downs, with the Steers totaling 148 to their opposition's 107. Also, Farwell rushed for 2604 ards as compared to 1642 for the other side.

The fumbling fingers of Farwell opened up the season and never quite lost the "touch," with the team fumbling the ball 41 times as compared to their competition's 27. However, the Blue and White lost only 21 of those fumbled balls, and the opponents lost 20 of theirs.

Penalties came to Farwell 67 times for 746 yards, an average of 11.8 yards per penalty. Those competing on the turf with the Steers were

penalized 51 times for 492 yards, averaging 9.6 yards per penalty.

Individual stats show Emilio Paez and Jack Deaton to be the top yard gainers for the Steers. Paez carried the ball 158 times for 834 yards this season, and Deaton grabbed 859 yards with his 118 ball carries. Paez boosted the Farwell scoring effort by 36 points and Deaton added 48 points to the season tally.

Juan Diaz gained 199 yards for the Steers on 32 carries and scored six points.

Head coach Randy Adrian cites injuries as his team's main problem towards the end of the season. That, coupled with two starters leaving the team, hurt.

"Our biggest injury was with Jack Deaton. He pulled a hamstring and that really set us back. In the six games he played though he had 859 yards, and that's quite a lot."

The turning point for Farwell's football Steers was losing the highly competitive Vega game 21-12. "We really beat each other up that night," said Adrian. "They never quite recovered either. They were picked to win district and ended up finishing three and two in district play." Farwell lost every game following its loss to Vega.

The season is over now but preseason workouts will begin early in the spring. As a final comment to his team's efforts Adrian praised the team's graduating seniors. "They all showed good leadership throughout the year," he noted.

# Lady Wolverines Look For Winning Season

"These girls are used to winning, I hope it sticks with them," remarked Texico's girls basketball coach Roy King about his 1980-81 Wolverine roundballers.

His team of four returning starters and eight returning lettermen boast a record of 25 wins and only four losses for last year alone, and in his two years with the female Wolverines, the coach has worked them to a record of 48 wins and 12 losses, ranking the girls second and third in state competition.

When describing his team and the upcoming season, King uses the words "quickness," "alertness" and "competitive" very often.

Most of his team is 5'7" or taller, which the coach is very pleased about. "We've got tall girls compared to other area teams," he says.

Another advantage cited by the coach was his team's ability to jump. "One thing we've got is really good jump shooters," he boasts. "That'll help us a lot."

King's season game plan includes a lot of running. "We won't make an obsession out of it, but we'll run the ball mostly."

The girls are to play in the Tucumcari Invitational Tournament this weekend, a tournament they won last year. "We'll try to get the ball inside when we're not running it," he

said concerning his tournament plan of action.

For the rest of the season, King sums it up by saying all district games will "be competitive."

Melrose: "To be tough, they have a lot of good young kids."

Floyd: "Just the name means it will be a good game. They have three returning starters."

Elida: "They could be tough also."

Dora: "They have a lot of returning members this year."

Tatum: "They lost starters, could be interesting."

In summing up his team of winners King said, "The girls

have an excellent attitude and have been working very hard for this season. I think we'll be very competitive this year."

### Hurricane Allen proves good test of preparedness

COLLEGE STATION — One bonus provided by Hurricane Allen, which caused hundreds of millions of dollars in damage on the lower Texas coast, was to prepare Texans along the upper coast for major evacuation.

"Hurricane Allen was unique. It provided an excellent trial for evacuation of both vessels and coastal residents," said Dr. Wallace Klussman, state leader of the Marine Advisory Service of Texas A&M University's Sea Grant College Program.

Window shades save energy in the 80's.

While windows provide light, a sense of space and a view of the world, they also waste energy.

One-fourth of the energy used for heating and cooling in the United States -- the astounding equivalent of 1.7 million barrels of oil per day -- is squandered through windows.

Between 40 cents and \$1.40 is added to the fuel and utility bills each year for each square foot of single-pane glass in the home.

For a home with 15 three-by-five-foot windows, this can add up to as much as \$315 each year that is spent on energy.

Window shades are one method of lessening this ener-

gy waste. They form a barrier against heat flow.

Standard, inexpensive opaque window shades can fit snugly within the window frame and barricade the flow of heat.

In the winter, warm air bounces off a louvered shade back into the room.

During the summer, the hot air and sunlight are deflected by a drawn shade and kept out of the room.

Shades can help cut winter heat -- just pull the shades down to the sill during the night and the cold hours of the early morning and evening.

During the day, raise the shades. This will let the sun's warm rays penetrate the glass to help warm the room.

## Food Safety Questioned On Christmas

Food bacteria can quickly ruin your Christmas day if food is unwisely left out to accommodate all-day feasting. Don't let the carefree holiday atmosphere trick you into forgetting food safety precautions, says Mae Martha Johnson, Extension food and nutrition specialist for New Mexico State University.

After you finish your holiday food shopping, rush your food home where you can put it in the refrigerator or freezer. Don't let the groceries sit in a warm car while you run other errands. Remember to keep hot foods hot (above 140 degrees Fahrenheit) and cold foods cold (below 40 degrees F.). This will prevent bacteria growth.

Wash your hands with soap and hot water before handling any foods. After handling raw meat, fish, poultry or eggs, wash hands, utensils and flat surfaces with soap and hot

water before working with other foods. Remove stubborn bacteria from a cutting board by scrubbing it with soap, rinsing it in hot water and then applying chlorine bleach.

Roasting a turkey for Christmas? Cook it completely to an internal temperature of 185 degrees F. Never partially cook a turkey because you plan to finish cooking it later. Bacteria can survive and grow in partially cooked poultry.

Remember to cook the stuffing thoroughly, too. If you plan to stuff the turkey, cook it until a thermometer inserted into the stuffing reaches at least 165 degrees F. Bacteria grow rapidly in lukewarm stuffing.

Cool leftovers quickly and put them in the refrigerator. Don't hold any broth or gravy more than a day or two, unless it is frozen. To serve again, reheat and boil for several

minutes before serving -- then serve it hot!

Refrigerate cream, custard, meringue pies and other foods with custard fillings. Pumpkin pie is really a custard pie, Mrs. Johnson says. It is dangerous to let foods of this kind stand at room temperature.

Freeze foods promptly. Don't let huge quantities of leftovers fill your refrigerator for days. Plan in advance for ways that you can use the foods. Then freeze the rest.

If in doubt about a leftover food, throw it out! Food poisoning does not necessarily have a bad smell or taste.

### Questions Often

#### Ask About Your Eyes

By Steven D. Smith &  
B.W. Armistead  
Optometrists - Littlefield

Q: Is there really a difference in "quality" eyeglasses and the "discount" eyeglasses advertised on T.V. and in the newspaper?

A: YES!!! There are several ways a discount store can cut corners and costs in filling your prescription while still maintaining a high profit margin. These are:

- 1) The prescription may not be filled accurately. Almost all places that sell glasses maintain a supply of ready-made lenses already ground to the most frequently called for specifications. It is quicker and cheaper to provide you with lenses
- 2) The lenses may be of second-best quality. Even if ground to the same specifications, not all lenses are the same. Bargain operators often rely on inferior foreign-made lenses or on rejects and second-quality lenses from American factories. These lenses may have various defects that may seriously affect transmission of light.
- 3) The optical center of the lenses may not be placed correctly. In order to reduce the time required to grind the lenses, this important step is overlooked. Eyestrain results when the optical center is not placed properly in front of the pupil.
- 4) Inferior frames may be used. Cheap, inferior frames lose their shape rapidly. If the glasses slide down your nose, you no longer look through the correct optical center without strain.
- 5) Little service, if any, is

directly out of stock than to grind them especially for you or to do additional grinding on stock lenses.

provided after the glasses are bought. All glasses, no matter what the price, may require adjustment of some kind after they have been worn for a while. The reputable dispenser provides this service at no charge and encourages his patients to use it. Such service is not always available at the bargain stores.

Don't be afraid to ask about the quality, or lack thereof, of any materials and services offered at a "discount." In the long run, a "cheap" pair of glasses may end up costing more, because of more frequent repair or replacement, than the more expensive but better quality pair of glasses. Short-cut eye examinations and cheap glasses advertised at ridiculously low prices can be tempting. But too often we have seen the misfortune that comes from assuming that all glasses and all visual care is alike. One last thought, what's a pair of glasses worth if they do not give clear comfortable vision?

Good visual care doesn't cost ... it pays!

## Farwell FFA Members Compete At Workshop

Members of Farwell's FFA Chapter travelled to Texas Tech November 19 to participate in a one-day District Leadership Contest.

According to club sponsor Richard Montgomery, FFA members participated in a Junior Chapter Conducting Test and a Senior Chapter Conducting Test. "Each were given a page with four parliamentary procedure problems on it and they were graded on their execution of those problems and their knowledge of parliamentary procedure," said Montgomery.

Farwell's Junior Chapter won sixth place with approximately 16 schools competing. Members of the junior team were Steve Schilling, Darren

## SWCD Appoints New Director

Phillip Johnson was recently appointed director for Zone #3 of the Parmer County Soil and Water Conservation District. He will complete the unexpired term of Leroy Johnson. His appointment was a result of Leroy's resignation preceding a move to Shallowater next spring.

Leroy had served on the board of directors of the district since October 1971 and had served as chairman since November 1978.

Phillip is currently serving as secretary-treasurer for the district. He and his wife, Trudy, have two children. They live and farm in the Hub community.

## New Cage For Zoo

For the past year citizens in the Clovis and Texico-Farwell areas have been working towards upgrading the zoo at Clovis Hillcrest Park. A Zoo Awareness Week was held along with an art and crafts show, and various organizations pitched in to help with the project of getting new equipment for the facility. Here members of the Clovis Evening Lions Club assist in the recent unloading of a new cage pur-

chased by club members. From left are District 40X Governor Merle Terry, a member of the Clovis Evening Lions; Art Smith, the club's secretary-treasurer; and Ron Smith, president of the Evening Lions. ## Texas Sesquicentennial Commission Plans Logo Contest

The Texas Sesquicentennial of 1986, Texas' 150th birthday celebration, is on the way, and all Texans are invited to the party. Preparations for the birthday are being kicked off with a statewide contest to devise an official logo -- a simple and readily-identifiable symbol, or trademark, of the Texas Sesquicentennial.

The logo contest is one of the first activities of the Texas Sesquicentennial Commission. Created by the 66th legislature in 1979, the Commission is charged to "coordinate celebrations of the 150th anniversary of Texas' independence as a Republic and progress as a state." These celebrations will highlight the "historic, economic, cultural, environmental and social aspects of Texas."

During the planning stages of the Sesquicentennial, the Commission functions as a clearinghouse of information between state and local levels. The Commission will also work to encourage state, national, and international participation, to develop standards for sanctioning local groups, and to plan for the creation of commemorative products, such as stamps and medallions.

The Commission publishes a special newsletter of the Sesquicentennial, the *Texas National Dispatch*. The *Dispatch* is a revival of a newspaper published in the early days of the Texas Republic at Washington-on-the-Brazos, and will be available free of charge.

The contest to develop a visual symbol, trademark, or logo, of the Sesquicentennial is open to all Texans. Contest rules are as follows: (1) Only one entry per person; (2) All are eligible except Commission members, staff, and their immediate families; (3) De-

signs must be submitted on one side of a plain, white 8 1/2" x 11 paper; (4) Entrants' names, addresses, phone numbers, and school affiliations (if any) are to be printed on the back; (5) All entries must be postmarked no later than San Jacinto Day, April 21, 1981 and the winner and runners-up will be announced on May 5, 1981 in Austin.

For further information about the logo contest, the *Texas National Dispatch*, and the Texas Sesquicentennial in general, Texans may write: Texas Sesquicentennial Commission, P.O. Box 19860, Southeast Station, Austin, Texas 78760.

**Pilgrims Visit Farwell**

Members of Billie Worley's fifth grade class at Farwell Elementary presented a Thanksgiving play to other elementary students Monday. During the play, Father Time, portrayed by Marty Walker, takes the pilgrims from their Thanksgiving Day feast to a

1980 celebration to show them they have not been forgotten. Pictured as pilgrims are, from left, K.C. Eubanks, Laura Wolfe, Joanna Castner and Marty Walker. Kneeling in front are Gary Bailey and Damon George.

## Grain Donations Needed For Boys Ranch Program

Local elevators are now accepting grain donations from area farmers to be given to Cal Farley's Boys Ranch located northwest of Amarillo, according to local farmer Max Eubanks. "Farmers may contact the elevator and designate any amount of their grain to be given to the Boys Ranch for this worthwhile cause," said Eubanks.

Cal Farley's Boys Ranch is a home for about 380 boys on 4100 acres of land located northwest of Amarillo. The main objectives of the agriculture program are to help boys become valuable men by learning the basic requirements for success in any profession, to teach specific skills to those who wish to stay in agriculture and to supply food for Boys Ranch.

The ranch maintains a cow herd of 250 cows including several breeds, mainly Hereford, some Angus, Charolais and Crossbred cows. Cattle are

rounded up every three months, calves are weaned, worked, branded and sprayed. Weaned calves are put on grass and then into our feedlot where they are fed until they weigh around 900 pounds. Each week the largest five head are taken for slaughter.

Each week five head of beef and ten head of hogs are slaughtered for use in the dining hall. All of this is done in the afternoons after school by the boys under the supervision of one adult. Each week the previous week's kill is taken to the meat cutting department of the dining hall where it is cut and served or frozen to be used as needed.

The pork supply comes from the herd of 60 sows. Boys care for and feed about 400 head of swine before school in the mornings and after school in the afternoon. They help with farrowing, breeding, worming, shots and records in addition to routine feeding. The top barrows are sold to FFA members to feed and show as projects.

The dairy herd consists of 28 Holstein cows which supply an average of 100 gallons of milk a day. The milk is taken to the Food Processing Plant where it is pasteurized and cartoned in half pint cartons to be served in the dining hall.

Another part of the program that is important to a lot of boys is the horse program. About 60 head of horses are

kept for recreational riding. This includes nine brood mares, so they learn to raise and train the colts. There is a class for younger boys to learn the proper way of handling and riding a horse. There is also roping practice for the older boys two nights a week.

The ranch operates 125 acres of irrigated farming land which is used mainly for raising hay to feed the animals. Most of the irrigation is done by the sprinkler method and it requires a lot of boys to keep the pipe moved over the fields of alfalfa, bermuda, barley and sudan. The ranch is able to raise only a small portion of the grain it requires to feed the livestock. The boys mix 12 different rations of feed and keep a constant supply of the specific ration in the area where it is to be fed. It requires over 100,000 pounds of grain each month in these rations.

The ranch is in the process of building a house for laying hens so that they can produce their own eggs. Boys are exposed to a wide range of agriculture and ag-related occupations that should help them in choosing a profession. This varied program provides an opportunity for students to learn while doing with their end results being productive.

Contact Max Eubanks for further details.

### Elementary schools could use more men, educator believes

**COLLEGE STATION** — The lack of male teachers in elementary grades may be causing developmental problems for young boys, believes a Texas A&M University educational specialist.

Tom Savage, associate professor of curriculum and instruction, said educational experts are becoming alarmed about the small number of men becoming elementary teachers. Savage worries that boys see teaching, and possibly school, as a female task.

Savage said elementary teaching always has been dominated by women teachers, but the dominance is becoming more pronounced.

In 1975, he said, the national norm of male teachers in elementary education was 12 percent. In Texas, he said, of 71,000 elementary teachers only 6,800 — or less than 10 percent — are men.
