

# Sorghum Supports Linked To Corn

FROM THE  
**HOPPER**  
By Hop Jr.

## But Little Benefit Expected in 1956

For the first time in the history of the nation's price support program, non-basic feed grains have been linked to corn as a basis for determining support price levels.

Squeezing in a last-minute amendment in the highly controversial national farm bill, two Southwestern senators this week teamed up to give grain sorghums the first "fighting chance" they have ever had from the Department of Agriculture.

Until this year, one of our most dreaded annual chores has been changing the license plates of our car each March. It really is hard to understand how much rust can accumulate on the plate screws and how hard it is to get the old plates off and the new ones on.

This year, however, we were a little bit more cheerful about this usually menial assignment. While we usually wait until the last moment to make the change, putting off the knuckle-skipping assignment as long as possible, we were anxious to get to work this year.

The reason is because The Tribune's car—or station wagon, more accurately—will now be sporting the lowest number in the county. That big orange numeral "10" makes us feel mighty important as we make the rounds. In fact, we feel almost like an aid to the governor or somebody else who is supposed to be important. This will be the first time in history that we ever have been able to remember our number, too.

Several times we have been asked what the license number of our car is, and we never can seem to give the correct answer. More often than not, we sound off with our telephone number, the number of our safe deposit box at the bank, or some other vital statistic that we have filed away in the back of our mind.

Modern times have changed a lot of things, including memories. Often we have to stop and look down to remember our own telephone number when the operator asks for it when we make a long distance call.

And it wasn't too many years ago that we could recite a modest list of telephone numbers of eligible young ladies, plus the dialing combination of a dozen friends or well-known business places.

Tain't so anymore, as most people seem to agree, and almost everybody relies on a handy file or the standard directory for their telephone numbers—whether they are ones frequently called or not. To illustrate the contrast between folks' memories of the writer's generation and folks of a generation or two ago, we suggest that you talk a little bit with some of the old timers hereabouts.

Just about without exception, they will be able to name you the exact date on which they came to this country, plus other interesting and sundry statistics on how the weather was, how many people lived here then (and their names, too), how much money they had in their pocket, and on and on.

We have managed to establish firmly in our own mind that we were born here in Farwell on a fateful August day in 1930, but we honestly believe that if we had ever moved two or three times we'd have everything all balled up on the dates and circumstances surrounding the changes.

Like somebody so wisely once said, a man can remember anything that he has to—and we have, through severe embarrassment a time or two. Our wedding anniversary is June 6, but somehow at the moment we can't quite recall the wife's birthday.

Maybe it will come to us before it's too late.

Alex Dickie, state Farmer's Union president, makes a point as he addresses a county-wide meeting of Union members at the Friona high school auditorium Monday night.

## Chavez: Corn Is Pet Grain

Editor's Note—the following information is from Senator Dennis Chavez of New Mexico who co-sponsored a grain sorghum amendment with Texas Senator Price Daniel this week. This article was prepared in his office.)

Sen. Dennis Chavez

WASHINGTON—The producers of five million bushels of New Mexico grain sorghums looked forward today to a small price increase and a future securely entwined with corn.

The sorghums won a feed-value equivalent rating in price supports through the Daniel-Chavez amendment to the agriculture bill now before congress. The net and immediate effect of the amendment would raise sorghums by six cents a hundred from the present \$1.80 supported price.

"Corn has long been a pet and favored grain, largely because of the Corn Belt states, and for the first time the grain sorghums will take their place alongside corn," Senator Dennis Chavez said. "Since the two are practically even in feed value to animals, whatever price is pegged for the favored corn will go to sorghum growers."

Senator Price Daniel of Texas

and Senator Chavez teamed up to sponsor the sorghum grain amendments, which were adopted by the Senate. Senators Lyndon Johnson of Texas, Robert S. Kerr of Oklahoma and Hubert Humphrey of Minnesota also joined on the amendments to the big farm bill, which has provoked the most debate of any bill this year.

New Mexico has more than 360,000 acres devoted to sorghum grains, much of it grown under irrigation. It has been the only agriculture commodity at the low 70 percent of parity in the last two years.

## Administration, Big Business Lambasted At Farm Union Meet

The administration's farm program, including "sliding scale" price supports and the soil bank plan, plus the American Farm Bureau, were the chief targets of a lively county Farmer's Union meeting in Friona Monday night.

About 150 farmers listened to delegates from their own ranks, in addition to Alex Dickie, state FU president, lash out in support or defense of various aspects of farm legislation.

"Farmer's Union is the sole voice in the wilderness fighting for farmers," said Dickie, and

emphasized that the organization "is the only one fighting the 'sliding scale' price support plan."

"We fight for 100 percent of parity," said Dickie, although he added that it sometimes is necessary to compromise for the sake of immediate action.

Pointing his finger at industry, Dickie said, "Business profits are up 36 percent since 1942, but farm income is down 31 percent in the same period." He said that defense contracting to industry averages 40 billions per year, and less than 10 percent of that on the basis of the lowest bid.

In reference to a Washington trip from which he and several FU members from this area have recently returned, the state FU head declared, "If the people of this country had any idea of what's going on in the halls of congress, the farmer wouldn't be in the plight he is today."

To illustrate his point, Dickie said that Senator Hubert Humphrey of Minnesota talked four days on the farm problem, "and not one word of it got into the paper." He also noted that most of the time that Humphrey was speaking, the senate seats were vacant or people were milling around causing confusion.

"There's more than 90 percent of parity involved in the farm program," stated the youthful farm leader. "It's whether our country is going to be run by the people or by the privileged few."

In another comment on farm prices, Dickie said, "If our price is going to be legislated, we think it ought to be a fair price instead of three-quarters of a fair price."

### Downing Farm Sale To Be Next Thursday

The farm auction sale of W. H. Downing will be Thursday, March 22, three miles east of Bovina, with Doshier & Francis conducting.

Headed by a 1953 A-C tractor, the sale will begin at 12 noon and will include the auction of 160 acres of irrigated land. Consignments are welcome.

Senators Price Daniel of Texas and Dennis Chavez of New Mexico co-sponsored an amendment that Daniel describes as "The greatest thing we've ever been able to get done in the legislature for grain sorghum."

It will mean that grain sorghum next year (1957) will be supported at a price that will reflect the feeding equivalent ratio of itself compared with corn, the nation's biggest feed grain and one of the five "basic commodities."

History was made this week when grain sorghum was put on a virtual par with corn for price support purposes. The important Daniel-Chavez grain sorghum

amendment contained this all-important phrase, which linked the two commodities closely together for the first time:

"... Price support shall be made available to producers of grain sorghums at the price determined by the secretary to bear the same ratio to the support price of corn in the commercial corn producing areas as the feed value equivalents of such grain sorghums bear to the feed value of corn."

It should be noted that the above amendment applies only to non-commercial areas (for corn) this year, and will not be made applicable to commercial areas until 1957.

## Sprain Your Brain!

Estimating farm prices in this day of legislated economics is always complicated, but more head scratching than usual is sure to result from the special grain sorghum legislation.

Suppose, for instance, that producers want to figure out what their support price likely will be. To begin with, they already have been assured of a support of 70 percent of parity, which in 1956 will be \$1.80 on a nation-wide average basis.

The freight differential for Parmer County makes our effective support 11 cents less, or \$1.69 this year. And from that price must be subtracted the storage charge (usually averaging about 13 cents per cwt.) in addition to a "service charge" of one cent, which for practical purposes means a net of about \$1.55 to the farmer.

Now, the Daniel-Chavez amendment would mean that the support price could be based on entirely different figures. Those figures are arrived at by taking the corn support which is 81 percent of parity (in the commercial areas) of \$1.40 per bushel, and figuring 75 percent of that, which is \$1.05 per bushel—the price support for corn in non-commercial areas.

Converting this figure to hundredweight, \$1.87 is arrived at, and then by multiplying times 95 percent, \$1.78 is obtained, which is the amount of support that sorghums would get if they were 100 percent on par with corn.

But since a factor of only 95 percent feeding value to corn is used, another multiplication times 95 is necessary, and \$1.69 per hundred is the final support

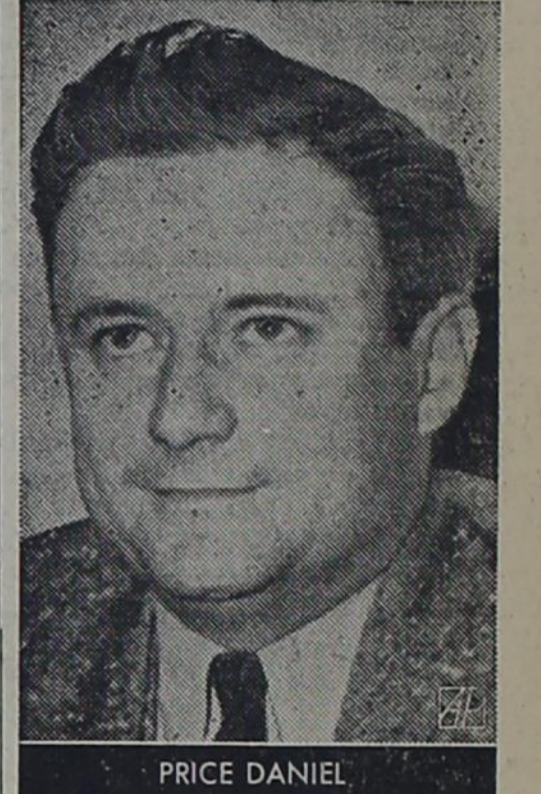

figure.

Obviously, a national average of \$1.69 is less than \$1.80, so the original 70 percent of parity formula no doubt will apply.

Don't forget that all sorts of complications can muddle this picture even further, though, and one of the most likely possibilities in this respect would be a revision of the corn support.

If it will be moved from 81 to 86 percent of parity as is supposed in some quarters, all the foregoing figures would undergo some juggling. The thing to keep in mind, however, are the "commercial" and "non-commercial" designations, which in 1956 at least have caused an outright cut of 25 percent on the price that would have been applicable under the Daniel-Chavez amendment.

Feeding nutritionists have long considered grain sorghum to be 95 percent of the equivalent for corn in feed value, depending on how the grain is used. Observers expect

PRICE DANIEL

the 95 percent figure to be adopted permanently.

Senator Daniel, in a telephone conversation with The Tribune, said Tuesday that the amendment, when adopted, will end the discretionary power that the secretary of agriculture has previously held over this non-basic commodity.

This year, as in several years past, it has been up to the secretary to decide at what percentage of parity non-basic commodities shall be supported. For 1956, Secretary Benson has set 70 percent as the figure—the same as last year.

AFTER THE MEETING—The camera caught these members of Parmer County Farm Bureau together after the Victory Meeting Monday night in Bovina school auditorium. They are, left to right, A. R. McCutchan, director; J. T. Jones, director; Hoyt Gaston, state director from Waxahachie and main speaker for the meeting; Jack Patterson, director; and Hub King, state director of Brownfield.

## Farm Bureau Victory Meeting in Bovina

E. T. Ford, vice-president and membership chairman of the Parmer County Farm Bureau, announced at the Bureau's membership Victory Meeting Monday night that 220 new and renewal members had joined the Bureau during the previous week to make a total of 732 members paid up at present in the organization. The meeting was held in the Bovina school auditorium.

Hoyt Gaston, state FB director from Waxahachie, was the main speaker for the evening. He told the members and their wives that, "If ever there was a political football it is the farm problem in 1956."

"Net farm income has dropped 30 percent since 1947," he went on to tell the group. "Remember when a good, fat calf would bring better than 30 cents a pound?" he asked. "Beef over the counter has gone up since that time but the price paid to the farmer has dropped al-

most half in two."

"I'm beginning to wonder if the federal government will ever do a very good job of selling farm products," he added before he told those present that "we may have to sell it (the products) ourselves."

In talking about price supports for farm products, he said, "I've known some farmers who have gone broke with 90 percent of parity in effect." And on the same subject he said, "I'm going to be awful hungry and ragged before I feed my kids on charity."

Gaston, who farms for a living, concluded his talk by saying, "I've always been prouder of something I accomplished myself than of what somebody gave me."

Hub King, who spoke before Gaston and is a state director from Brownfield, talked briefly on the soil bank idea. King commended the county bureau on a "job well done."

# THE TRIBUNE'S EDITORIAL COMMENT

## Daniel, Grain Sorghums Will Now Be Inseparable

Price Daniel probably didn't realize to what an extent his recent amendment to the farm bill carrying special provisions for grain sorghum support prices will have on his pending hopes for a stay at the governor's mansion in Austin next year.

Even politicians sometimes underestimate their own strength, though one would hardly expect this to be true when reading their press releases. Deliberate timing of the grain sorghum amendment would have not been more effectively arranged than it was when it coincided with Daniel's offer that he is "willing" to enter the race for governor this year.

The announcement itself caused quite a little stir on the High Plains, but the agitation was hardly comparable with the almost electrifying effect of the Daniel-Chavez amendment which tied sorghums directly to corn for price support purposes. It would be understandable that some people would tend to pooh-pooh this vital legislation for the reason that it offers little if any hope for an increase in support prices in 1956.

However, Daniel has been instrumental in removing an abuse of long standing that has been clearly discriminatory, and the change is sure to have beneficial and long-lasting effects for grain sorghum producers. It will, in fact, do more to stabilize the farm economy of this part of the Plains more than any other legislation has ever done, when the full impact of its provisions are felt next year.

We have never been able to justify the difference with which the USDA looked upon grain sorghums when comparing them with corn, especially in the light of the common knowledge that they are roughly equivalent to 95 percent of the feeding value of corn.

Incidentally, this particular matter has nothing to do with whether as an individual you believe in flexible or rigid supports. It involves a principal

This discrimination now has been permanently scuttled, farm observers believe, and there is every reason to expect that Texas grain sorghum producers will reflect their appreciation for this action when election time rolls around later this year.

Like Monitor, the junior senator from Texas is going places and doing things, and for the High Plains at least, he probably is well on his way to a plush chair in the state's capitol.

Farwell's hopes in the mile relay this year are pinned on these three boys, plus David Willard, who was not present when the picture was made. Left-to-right, Truitt Hardage, Gerald Hardage, and James Norton. The quartet reeled off a 3:37.1 Saturday to win second in that event at the Crosbyton Relays. **Farwell Ties 6th Place At Crosbyton Meet**

Competing in a field of 35 schools which were all entered in the same division regardless of their size, Farwell's track team came home last weekend after tying for sixth at the Crosbyton Relays.

Eleven boys made the trip Saturday, and entered all events except the mile run and the high hurdles. Plainview dominated the meet, but the Steers managed to bring home second place in one event—the mile relay.

Their team (see picture) ran the four laps in 3:37.1, only .3 second off the pace of 3:36.8 set by Plainview.

The sprint relay team (440-yards) ran the quarter in 47.2, and Gerald Hardage took fourth place in the low hurdles with 22.2. He ran a 22.0 in the preliminaries.

**FIREWORKS USER GETS IT IN THE END**

Some Farwell boys who were entertaining themselves with fireworks Sunday afternoon observed one of their ranks, Johnnie Armstrong, make a painful illustration of how dangerous such activity can be when not properly carried out.

The teen-age youth managed to get a firecracker under himself while riding in a car, and the explosion caused a painful wound in a rather embarrassing area.

Stitches closed the wound at the Farwell Clinic and he left feeling somewhat better, but did complain about the large hole that had been blown in his brand new Levi's.

Mr. and Mrs. Ansel Doolittle and Debbie were weekend visitors with Mr. and Mrs. George Dean and family at Belen, N. M.

### Sheridan Lee To Be Banquet Speaker

Sheridan H. Lee, who will speak at 7 o'clock, on Tuesday, March 20, at the annual WMU banquet honoring Texico seniors at the Texico Baptist Church, is professor of biology at Wayland College, where he has been teaching since 1949.

Lee became a naturalized citizen of the United States in 1952. He was born in Kaifeng, Honan, China, where his father was a distinguished scholar.

Lee was graduated from the University of Shanghai with the B. S. degree in 1941 and received the M. A. degree with a major in biology from George Peabody College, Nashville, in 1943.

Since going to Wayland College, Lee's adopting of Texas has been so complete that he has been working on a research project on "Horned Toads in Texas." His students even hopefully catch the horned toads for Lee with the thought that it may help them master their zoology courses. Several of his articles on the subject of the toad have been published in national magazines or are in the process of being readied for publication.

Lee has been elected to membership in the American Society of Parasitologists, the Society of American Bacteriologists, Kappa Delta Pi and Gamma Alpha.

Mrs. Lee is a part-time instructor in the Division of Languages and Literature at Wayland College. They have three children.

### NEWS FROM THE FARM BUREAU

By RAYMOND EULER

This has been a busy week for Farm Bureau people in Farmer County. Membership teams have been out seeing the people, and Glenda Rickerd has been keeping pace with their reports in addition to her regular office procedures. Reports received to date have been very good. Ralph Smith, who has worked alone contacting residents of Friona, turned in 22 renewals of 25 members he contacted.

Spencer Hough was unable to help as scheduled because of the death of his father last Sunday. Three other teams had not reported at this writing because of illness, threshing and other detaining factors.

Thursday, March 15, about 20 officers, directors and committee members are expected to attend a school in the Herring Hotel in Amarillo. The training school is primarily for committee members, instructing them as to the responsibilities and methods of carrying out their various activities.

It appears that the grain sorghum program is working into the soil bank program about as nicely as could be expected. Remember the District 2 Farm Bureau proposal last October in which 85% of parity was asked for milo, with a 20% cut in planted acreage? Well, the probable 76% with only 15% in the soil bank is just about the same net result. That is about what it looks like will be written in the program. Anyway, milo men are looking a great deal happier now than they have for the last several months.

Gilbert Kaltwasser asks us to urge you to turn to TV Channel 13 Sunday evening at 6:00 for a Cotton Council program, outlining efforts that are being put forth to stabilize cotton export and domestic markets above the present volume. This program embodies Farm Bureau's 7-point program for increasing cotton consumption at home and abroad. If you are a cotton producer, you will find this program of great interest.

I have found my Eversman Ditcher one of the finest I have ever used. The wide, clean ditch it makes carries plenty of water. I like the feature of having a one-man ditcher. I like the way it transports, no lifting or loading. I get away from a lot of shoveling by being able to back the ditcher into another ditch and pull away. The water follows. By removing the ditcher blades and putting on an Eversman subsoiler I have deep-chiseled 50 acres. This was a lot cheaper than buying a separate sub-soiler chisel. I pulled it at a depth of about 18" with ease with my three-pow tractor. John Bradley Route 1, Box 38-F Roswell, New Mexico. Make or clean ditches yourself with the Eversman. Now available in two sizes. Mechanical or Hydraulic Control for any standard farm tractor. For pan-breaking slip the ditcher wing off the beam and install the Eversman Pan-Breaker. Under favorable conditions your farm tractor will pull the pan-breaker at a depth of from 14" to 20". Come in today to see this money saving, efficient dual-purpose machine.

### Administration, Big Business Lambasted At Farm Union Meet

(Continued From Page 1)

Coming around to the controversy of farm surpluses, he commented, "That abundance of food and fiber could be used to win the peace just as it was used to win the war. We don't think this surplus is anything but a God-given blessing."

Dickie offered a three-phase approach to the problem of over-supply. 1. Expand the domestic markets. 2. Expand the foreign markets. 3. Establish a permanent food and fiber reserve for national defense.

Then, he added, if it is necessary, such projects as the soil bank may have their place.

Slapping Benson, the president said that the secretary has offered to listen to any solution to the farm problem so long as it does not involve prices.

"And the solution is price," said Dickie.

The principal behind the flexible support program has been, stated the leader, that a lower price to the farmer will lower production, and will result in a lower

cost to the consumer, thereby stimulating consumption.

"This hasn't happened," he noted. He then issued a few verbal punches at the soil bank plan of the administration, saying it did not "offer enough incentive" to be practical, and came around to a last-minute poke at the National Cotton Council for its stand on the currently-disputed proposal to alter the staple length determinant for price support purposes.

Prior to Dickie's address, delegates reported on the Washington trip, and after the meeting County FU President W. L. Edelman discussed water problems that are current. Door prizes were awarded, also.

### Two Men File For School Trustee

Two men have filed on the election ballot for school trustees in Farwell. They are L. E. Meeks and A. H. Haseloff.

Terms expiring on the school board this year are those of Dick Gerles and Clarence Christian.

The deadline for filing will be ten days before the election, which is April 7, announces County School Superintendent A. D. Smith.

### SORGHUMS—

(Continued From Page 1)

(Because of a change in the parity formula, however, this figure will mean a small increase—about two cents per hundredweight—in the support for 1956.)

The Daniel-Chevez amendment will establish the support rate to be 95 percent of that given corn in a commercial area, effective in 1957.

A "commercial area" of production is where a commodity is grown as a predominating crop. The High Plains is a commercial wheat-producing area.

The commercial area for corn is the midwestern part of the United States generally thought of as the Cornbelt. Therefore, this part of the nation is considered non-commercial for corn.

There are no acreage allotments on corn in this area, and producers of corn here are entitled only to three-fourths of the support price established for commercial areas.

Obviously, the mood of this article is one of optimism. What are the drawbacks about this important legislation to producers of grain sorghums?

Most important is the fact that only slight—if any—benefit will be felt by growers this year. For 1956, the amendment provides that sorghums will be supported at either the already announced rate (70 percent of parity) or 95 percent of the corn support in non-commercial areas—whichever is the higher figure.

The mathematics of this formula get pretty involved here, because the support price of corn in a non-commercial area such as Parmer and Curry counties is 75 percent of the support price in the commercial areas. And the commercial area support price for 1956 has been designated at 81 percent of

parity this year.

Furthermore, a report is out that Secretary Benson has indicated willingness to set the corn support rate at 86 percent of parity provided the administration's flexible support farm bill is adopted. It amounts to, in other words, a political barter.

What will make 1957 so different under the pending amendment is that next year the price will be based at 95 percent of the value of corn in COMMERCIAL areas—the corn belt.

Asked about this unusual twist in the bill, Senator Daniel replied that it was necessary to so write the amendment in order that it might have a chance to be accepted. If the action had been made applicable to 1956, it would have not been acceptable to many congressmen and would likely have been defeated, believes Daniel.

Although he did not mention this point, specifically, one obvious factor involved here is that the legislation (which is not even yet law at this writing) would come too late to apply to many producers. The lower Rio Grande Valley of Texas, plus the Gulf Coast area, are two areas in which confusion might arise.

It should be kept in mind that this amendment is not legislation unto itself, but in reality is only a small part of a much larger farm law that soon will go into effect for the nation's producers.

That being the case, there are many other coming restrictions and conditions on which this amendment "rides" and will be made subject to. Important in this respect is the much-discussed "soil bank plan" which is still in a rather fluid state, but which is almost certain to become law as this legislation is approved.

And under the provisions of the amendment farmers would agree

to set aside 15 percent of their average grain sorghum acreage (over a three-year period) in order to qualify for the price support.

Then, the remainder of the proposed bank plan, if approved, would apply to the rest of the farm, and volunteer layout of acreage, plus the 15 percent reduction for sorghums, would be eligible for certain benefits as set forth in the proposal.

This may take the effect of payment in commodities for layout land, in addition to ACP payments for conservation practices undertaken on the acres put into the soil bank.

The amendment first advocated by Senator Daniel was the "Plainview Plan" which originated in this area, and provided for layout of acres, but without payment to the producer for the land which he idles.

Indicating again that he considered the proponents of special legislation for sorghum growers "very lucky," Daniel said, "We had been told just to get grain sorghum 'mentioned,' indicating possibly that hope for the measure as now written had been weak several days ago."

"You can tell those folks (grain sorghum producers) back there that we really had a tough fight to get this over," commented the junior senator from Texas.

What is the status of the farm bill now—which includes the Daniel-Chevez amendment on feed grains?

It must be approved by the House of Representatives, and then be passed to the conference committee, which is a compromise board designed to iron out differences between the House and the Senate. Daniel indicated that he feels confident that the amendment will go unscathed through the House, and that it may even be improved to some extent by the conference committee.

"We have some mighty strong friends in that committee," he said. If the bill survives these hazards, it then will be passed to the desk of the president for his signature or veto. Because in all likelihood the bill will largely outline the administration's flexible price program and soil bank proposals, no difficulty is expected from President Eisenhower.

The grain sorghum amendment, although of paramount importance to the High Plains, is in actuality of small significance to the nation as a whole, and likely will be given little notice by the president, predict observers.

Grain sorghum is a dominating crop in Parmer and Curry counties. There were over 300,000 acres of grain sorghum grown under irrigation in Parmer County last year, and the production amounted to about 14,000,000 bushels.

### Dial's Dairy Drive-In To Be Open March 24

Dial's Dairy Drive-In will have its grand opening on Saturday, March 24, according to Mrs. Clytie Dial, owner of the new Farwell business.

The 3-D Drive-In, which is located on the Lubbock Highway just east of the roadside park, will feature three types of service, including a drive-up window, a walk-up window and car hop service.

A 14x18 dining area will be available for customers to dine, but persons will serve themselves inside.

Specialty of the drive-in will be soft ice cream. Mrs. Dial says equipment for the business should be here by this weekend and that "finishing touches" are all she lacks being "ready to go" with the new concern.

Color scheme of the interior is pink, black and white.

### FB LEADER MISTAKEN

Gene Leach, state Farm Bureau legislative director, was mistaken when he was quoted in last week's Tribune as saying that Farm Bureau is the only farm organization maintaining headquarters in Washington. He meant to say, notes Gilbert Kaltwasser, county FB president, Austin instead of Washington.

"Want your clothes to look better? Then you need an **ELECTRIC Clothes Dryer!**"

says Mrs. W. H. Simpson, Jr. 715 W. MISSISSIPPI STREET FLOYDADA, TEXAS

"Yes, clothes that are dried in an electric clothes dryer look much better than line-dried clothes because you eliminate clothespin corners." You do away with outside dirt and dust, too, and your clothes are soft and fluffy instead of being wind-blown or stiff as a board.

"We save a lot of money with our electric clothes dryer. For example, the children used to need several pairs of pajamas, where now two will do nicely." So many clothes can be worn again right after drying, without ironing, in many cases, and tests have shown that clothes will last as much as 50% longer when they are dried electrically.

"I really enjoy my electric washer and dryer, as well as a dependable supply of hot water from the electric water heater." Plan now to build an all-electric home laundry with a washer, clothes dryer, and electric water heater. You'll have better washes, and more time for your family, as Mrs. Simpson does.

## KNOW YOUR FERTILIZERS

What Happens When You Haven't Enough NITROGEN?

These signs will be present:

1. Crops pale and yellow
2. Grow very slowly
3. Be dwarfed in total growth
4. "Fire-up" on crops like corn, and grain sorghum, starting on tips of bottom leaves and then going down the center of the leaf, finally killing whole leaf. Drouth doesn't make plant "fire-up" from the bottom, but makes the leaves roll up.
5. Have a restricted root growth.

The only thing we have heard of recently that has declined in dollars and cents—except a farmer's income, that is—is the dues for members of Friona's Chamber of Commerce and Agriculture. We thought we had not understood Wright Williams right when he said "Dues have been decreased." I felt sure we should have heard decreased rather than decreased.

With wheat fields turning green, irrigation wells being started and the city election coming up the first Tuesday in April, spring should be just about here. The low temperatures Monday and Tuesday seem to indicate that it is still winter. We are hoping for a balmy spring evening for the Easter parade in the auditorium Friday evening.

The days of spelling over the heads of the boys are just about over for the O. J. Beenes. Jay, who is a second grade student, has decided to make notes when words are spelled, then take the notes to school and find out what the words are. Ramey, the youngest member of the Beene family, isn't much concerned about not knowing how to spell. He willingly follows in Jay's footsteps and depends upon Jay to make decisions for both of them. There is a family rule that when the boys visit the drug store, only one item is allowed for each boy. One afternoon last week when they were in the store, Jay said, "May I have a k-r-a-c-k-e-l?" Ramey, without a moment's hesitation piped up "Please, may I have the tame sing."

W. H. Graham Jr., editor of The Tribune, left a camera with us one day last week. Making pictures is another talent which we do not have, but trying is sure a lot of fun. The camera has caused a little confusion in Susan's thinking. She

asked, "Whose camera is that?" Our reply was that it belonged to the State Line Tribune. "Well, is the straight line tribune a man?" In her imaginary telephone conversations, she always says, "I report the news for the Straight Line Tribune."

Our thanks to the Senior Scouts and Nora O'Brian for being kind enough to let us experiment on them. Monday afternoon we took the camera, a roll of film and some flash bulbs and visited their meeting. After several tries, we finally got two good pictures of the group. Every member of the troop was very cooperative with us and also patient with our inexperience. And, in addition to this, they served us birthday cake and pops.

Did you visit school last week? We did and enjoyed it very much. Wednesday at noon we ate at the cafeteria with several other adults and an endless line of students. It amazed us that there was so little confusion when so many were eating. Didn't observe a single milk glass that had been upset, and each student left the table without any clutter. Perhaps we should take some lessons from Mary Mayfield and the other ladies who are employed at the cafeteria.

There are numerous stories of dogs refusing to leave their homes. Here is one that is directly opposite. Several years ago Geneva Williams gave us a beautiful white collie pup. He was very affectionate and was a favorite with every member of the family. Since we live on a farm, there was no necessity for him to learn to stand tied. When he was about two, he disappeared and was gone several weeks. One night he came home and was so glad to see all of us. It was the first time he had ever been away from home and when he returned we learned that he was content to stand tied, so thought he had been kept from coming back. A few months later, he followed the pickup west and didn't return. One of the Weatherly children told us that our dog was at their house, so we went after him. From that

time on, it was impossible for us to keep him at home. Occasionally we would hear a noise at the door and someone would say, "There's Teddy." He generally stayed here several days then went back to Weatherlys. When the Weatherlys moved in January, some of them put him out at home and he stayed about three weeks with us, then started out looking for some of the Weatherly family. When he didn't find them at the place where they had lived, he went to town with Mr. Shirley and decided to make his home with Mrs. C. L. Vestal Sr. He hasn't been back in several months, but seems glad to see any of us when we meet up with him in town. Monday afternoon Frieda saw him in town and said, "When I speak to Teddy, he always wags his tail and acts friendly."

**George Bakers Have Golden Anniversary**

Mr. and Mrs. George M. Baker celebrated their Golden Wedding Anniversary on March 4 with a reception at the First Baptist Church. One hundred and twenty guests and family members registered during the afternoon. Mr. and Mrs. Baker first met at the home of his brother. His brother's wife was ill with pneumonia fever and George went to the "upper end of the county" to help take care of the sick patient. Among the neighbors present was a tall black-eyed girl named Alpha. When George started to give a dose of medicine, Alpha asked if he needed any help. "Then she decided that I would be a good nurse for her," says George.

They waited for George to finish school and in the meantime he had to go to Chicago to have his eyes treated. Thus the time of their courtship extended for so long.

They have lived in Texas since 1918. Their homes have been in Collins County, also in Nocona, Marfa, El Paso, and Lubbock. They have resided at Friona about 20 years. Registering the guests was a granddaughter, Melveta Baker of Portales, N. M. Barbara Browning, granddaughter, of Lubbock, was assisted by Judy and Janet Smith and Helen Hamilton at the piano where they played background music during the afternoon.

Mrs. Elmer Euler, Mrs. C. W. Dixon, Mrs. Charles Turner, and Mrs. Lawrence Dilger, members of the Rebekah Class, alternated at the serving tables where golden punch, nuts, mints, and anniversary cake were served.

The table was laid with crystal and silver on a lace cloth. Golden roses flanked the anniversary cake which was decorated with yellow daffodils. Mrs. Baker and the other family members wore daffodils in remembrance of the spring flowers of their native state of Illinois.

Out of town guests registering were Veda and Correnia Baker of Portales, Neil Boyce, Patsy and Corky Schwening, Mrs. J. W. Boyce, Patsy, Truett, Donald and Cheryle Hannabas, all of Lubbock; Mrs. R. ## FFA Project Show Is Termed Success

The First Annual FFA Project Show, with 34 animals entered, was called a "success" by Roy M. Crawford, vocational agriculture instructor of Bovina High School and advisor to the boys who put on the show.

The show was held Saturday, March 10, at the school-owned "ag lots" in Bovina.

Winners in the shows' six divisions were Ramey Brandon, gilts; George Baca, sows; Don Bandy, sows and litters; Dickie Steelman, beef heifers; Mike Barazza, barrows; and Elmer Snodgrass, steers. See pictures.

Judges for the show were Charles Thomas and Bill Beckel, agriculture teachers of Muleshoe High School.

Cash prizes and ribbons were awarded to each of the first five place winners in the six divisions. The cash prizes, which were donated by businesses and individuals of Bovina, were \$5 for first place, \$3 for second place, \$2 for third place, and \$1 each for fourth and fifth places.

James Stevens, who showed a gilt, a sow, and a beef heifer was named the show's outstanding showman and was awarded a pair of boots.

Crawford said, "Everything seemed to go off better than was expected in spite of the way we were organized." He has also announced that plans are already underway for the Second Annual Project Show which will be held in March of 1957.

On Thursday night preceding the show, the Lions Club voted to help the FFA with the project. The Lions agriculture committee was assigned the task of getting the prize money together. Vernon Estes, Ovid Lawlis, and Arlin Hartzog, members of the committee, solicited the money from local merchants and individuals on Friday.

Enough money was contributed to the show to not only be enough for prize money this year and enough to pay for a lunch for those connected with the show, but Hartzog reported that enough money is left to assure the chapter of having a show with prize money next year.

The lunch, consisting of fried chicken and the trimmings, was held at noon Saturday in the American Legion Hall. Bedford Caldwell, Lions Club president, served as master of ceremonies.

Caldwell told the group, "We (the Lions Club) want to congratulate the chapter on this year's show and we want to congratulate Mr. Crawford on the fine organizational work he has done."

## Fire Department Gets Organized

Members of the Bovina Volunteer Fire Department elected five team captains at a Monday night meeting in the city hall. The captains then chose the members of their teams.

The teams will begin practicing together at a later date so they may learn how to fight fires as a unit.

Bill Burnam was elected assistant chief at the meeting and Herman Estes was named secretary-treasurer or the group with Pat Kunselman as assistant secretary-treasurer.

About 25 interested men were present.

The captains elected are Robert Hopingardner, Danny Pounds, Ed Hutto, Jerry Rogers and Don Garrett.

done. We want to see the show grow and we will be glad to extend any incentive that we can."

Crawford expressed his appreciation for all the work and interest that had been done by the merchants, the Lions Club, and all the people who had a hand in making the show a success.

The prize money was awarded in the form of checks to individual winners and Neil Smith, FFA Chapter president, expressed appreciation, on behalf of the chapter, to all the people who had helped with the show.

Entries and their placings in the barrow division were Mike Barazza, first; Don Bandy, second; Marvin Young, third; Mike O'Hair, fourth; and James Whitesides, fifth.

In the sow division, George Baca was first; Phil Caldwell, second; James Stevens, third; Leon Richards, fourth; Neil Smith, fifth; and Neil Smith, sixth.

Best entry in the gilt division was shown by Ramey Brandon; second by Terry Adams; Ferman Kelso was third; Donald Jones, fourth; Donald Jones, fifth; James Stevens, sixth; James Lawlis, seventh; Dick Horn, eighth; Dick Horn, ninth; Julius Bradshaw, tenth; and Billy Burnam, eleventh.

In the sow and litter division: Don Bandy, first; Kent Glasscock, second; and Ronnie Isham, third.

First place in beef heifers went to Dickie Steelman. James Stevens was second.

In the steer division: Elmer Snodgrass was first; Charles Haney, second; and Junius Williams, third.

A list of the businesses and individuals who contributed the prize money will possibly be ready for publication next week.

## Wilson Food Has Best Sale Ever

Wilson Food Store in Bovina celebrated its ninth anniversary with a three day, store-wide, sale Thursday, Friday and Saturday, March 8, 9, and 10 that was "the best sale we've had in our nine years," according to A. M. Wilson, owner of the store.

Nine—one for each year of business—\$25 baskets of groceries were given away Saturday, the last day of the sale. Also given away to lucky winners were five \$100 groups of Gunn Bros. stamps and a Minute Maid toy truck.

Music from a loud speaker in the store filled Bovina's streets Saturday and gave a "special occasion" atmosphere to the sale. Free coffee and ice cream was served to customers and visitors throughout the day. Balloons were given to children visiting the store.

Darlene Denny, daughter of Mr. and Mrs. Bill Denney, was the winner of the toy truck.

Winners of the baskets of groceries were C. R. Elliott, Leon Sudderth, Ovid Lawlis, Katy Ellison, Harry J. Charles, Don Garrett, E. M. Ware, Troy Fuller, and H. N. Turner.

The winners of the stamps were L. H. Pesch, R. L. Jackson, Besie Lloyd, The Lunas, and Bob Wilson.

Wilson expresses his thanks to the people who helped make the sale a success in an advertisement in this issue.

## 4-H Boys Talk About Contests

The Bovina Boys Junior 4-H Club met February 22 in the high school auditorium. The meeting was called to order by President Joe Weldon Jones.

Secretary Gary Stevenson read

the minutes of last meeting. Joe Jones, county agent, talked about the contests of cotton and grain sorghum production. He said awards would be given. He also said that the entries would be supervised by adult leaders.

One of the adult leaders, J. T. Jones, was present.

Joe Jones discussed record keeping and showed the proper way to keep records and had some record books available for boys to buy. Seven of the Bovina boys bought record books.

## Teams Ready For Donkey Ballgame

The Bovina FFA boys have divided themselves into four teams to play in the FFA-sponsored donkey basketball game Friday night at Williford Gym. The four teams' opponents will include members of the school board, members of the Lions Club, the lady teachers, and a team of FHA girls.

Each of the four games will be eight minutes long and there will be "some added attractions" during the evening, Roy M. Crawford, vocational agriculture instructor has announced.

The donkeys will be furnished by Cliff Dunham's Donkey Ball Shows of Crescent, Okla. Dunham and the FFA Chapter will divide the proceeds from the game 50-50.

Admission charges are 50 cents for adults, 35 cents for high school students, and 25 cents for grade school students. Pre-school age children will be admitted free.

The first team of Future Farmers includes Leon Richards, Neil Smith, Sonny Brito, Marvin Young, Tom Ware, Donny Spring, Phil Caldwell and Tommy Williams.

The second team: Don Bandy, Elmer Snodgrass, Ronnie Isham, Ramey Brandon, Donald Jones, Billy Burnam, James Lawlis, and Ferman Kelso.

Third team: George Baca, Kent Glasscock, Mike Barazza, Duane Rea, James Stevens, Julius Bradshaw, Dickie Steelman and Jerry Burnett.

Fourth team: Charles Haney, James Whitesides, Dick Horn, Terry Adams, Junius Williams, Mike O'Hair, Billy Richards and Lynn Isham.

There is an advertisement in this issue about the games.

## Lions Talk Bulb Sales

Bovina Lions heard Otis Huggins, Lions Club member of Farwell, talk on a recent light bulb sale that the Farwell club had held at a regular meeting Thursday night in the American Legion Hall.

Roy M. Crawford, vocational agriculture instructor of the local high school, talked to the group about the FFA project show that was held Saturday. The Lions voted to give prize money to the boys and Bedford Caldwell, who presided, turned the project over to the members of the agriculture committee—Ovid Lawlis, Vernon Estes, and Arlin Hartzog.

Coach Bob Wills also met with the group and talked little league baseball.

Caldwell announced the W. T. "Dub" Nelson, district governor, will meet with the local club at the next meeting which is March 22.

## Seniors Present Magic Show

The senior class of Bovina High School sponsored the appearance of Tom Tilson, magician from Matador, in assembly Tuesday morning in the school auditorium.

Tilson performed magic tricks of all kinds. He was aided in his performance by the senior sponsors, Mrs. Aubra Ellison, and Mrs. Frank Truitt; and Mike Barazza, Darrell Read, Nell Towry, Mack Glasscock, and Pat Burnam.

## Cumpton Withdraws From Mayor's Race

Allen Cumpton, one of the four men appointed by the Bovina City Commission to run for mayor, took his name off the ballot Monday, March 12, because of business reasons.

Cumpton's resignation leaves three men in the race for the post. These men are Alvin Glasscock, Jay Sherrill, Jr., and J. P. Macon.

In his resignation letter to the City of Bovina, Cumpton said, "I appreciate the confidence and trust you have shown in me by placing my name among your candidates for mayor of Bovina. However, since I am not a personal property owner in Bovina and since I feel that my new business venture will require all of my time, I request that my name be withdrawn as a candidate."

"I remain your friend and a booster for Bovina."

The election will be held Tuesday, April 3.

The election was brought about when the present mayor, O. W. Rhinehart, who was elected last year for a two year term resigned after one year so that the terms of the mayor and commissioners would be staggered and there would always be some experience on the city commission.

## WMU Has Monday Meeting

The WMU of the Baptist Church met Monday afternoon in the church annex for a Royal Service Program. The theme was "Make me a Channel of Blessings" and was led by Mrs. R. N. Williford.

Others giving part of the program were Mrs. Virgil Goodwin, Mrs. J. W. Gooch, Mrs. Alvin Glasscock, Mrs. J. O. Combs and Mrs. Don Murphy.

During the business session, Mrs. Roy Fuller, president, appointed committee chairmen for the Junior-Senior banquet which will be held Thursday night, April 5. Chairmen for decorations, Mrs. Don Murphy; invitations, Mrs. Ovid Lawlis; menu committee, Mrs. P. A. Adams; and program committee, Mrs. Bobby England.

Those present for the meeting were Mrs. Roy Fuller, Mrs. Ovid Lawlis, Mrs. J. S. Williams, Mrs. P. A. Adams, Mrs. R. N. Williford, Mrs. Virgil Goodwin, Mrs. J. W. Gooch, Mrs. Alvin Glasscock, Mrs. Oscar Combs and Mrs. Don Murphy.

Paul Jones and Emmett Tabor, the commissioners who were also elected last April, will serve for another year with the new mayor.

In the past, the two commissioners and the mayor were elected at the same time. Rhinehart said that this made it hard on the commissioners to do a good job since they had to spend some time in becoming accustomed to their duties.

The present city commission met with the recently appointed planning board in the city hall Wednesday night to give members of the new board an idea of what their duties will be.

Members of this board are C. R. Elliott and R. E. Everett, one year members; and E. B. Caldwell, Luther Grissom, and George Trimble, two year members. This group was established so that the city commission will have a better idea of what the people of Bovina want done.

At a Wednesday meeting, members of the planning board decided against electing officers since one member—R. E. Everett—was not present. This organization will probably, however, be done at the next meeting of the group.

The site of the mayor's election has not been set, but Henry Minter, city secretary, says that in all probability it will be held in the city hall.

## Schools Organize Baseball League

The first high school district baseball game will be Friday, April 13 it was decided Wednesday night at a meeting of representatives of the schools that will participate in the district.

The district will be divided into north and south divisions with Bovina, Farwell and Lazbuddie in the southern group and Friona, Vega, and Adrian in the northern group.

The three teams in each division will play each other on a round robin, home and home basis and the winners of the groups will have a playoff to determine the district

winner.

The playoff must be held between May 11 and May 16. The opposing teams will agree on whether the playoff will be a sudden death affair or the best two out of three.

The bi-district game will be played sometime after May 16.

The district games will be played each Friday afternoon, however, there is a good possibility that practice games will be played on other days of the week, W. H. Willoughby, superintendent says.

The Bovina team will begin practice in earnest after April 6, Willoughby says.

## Methodist Class Has Social

The Hammonds Sunday School Class of the Methodist Church met Friday night in the fellowship hall for its regular social.

Games of "progressive 42" were played and refreshments of ice-cream cake, tea and coffee were served by the hosts, Mr. and Mrs. Gene Ezell and Mr. and Mrs. Vernon Estes.

After the refreshments, a short business meeting was held in which Vernon Estes was elected class president and Mrs. Marion Fite was elected secretary-treasurer. The class project for the year, yard work around the church, was also discussed.

The films of the Christmas party were shown by Mr. and Mrs. Bedford Caldwell.

Those attending the party were Mr. and Mrs. Gene Ezell, Mr. and Mrs. Bedford Caldwell, Mr. and Mrs. Bob Wilson, Mr. and Mrs. Marion Fite, Mr. and Mrs. Rouel Barron, Mr. and Mrs. Jimmy Charles, Mr. and Mrs. Billie Sudderth, Mr. and Mrs. Earl Stevenson, Penny Anderson and J. T. Hammonds.

## Seniors Present "Gangway for Ghosts"

GMC brings you the most impressive improvements of all 1956 trucks

Now we can show you these great new GMC's that are further than ever ahead of all others. Their advances not only clinch power supremacy—but reach into fields still unexplored by other truck-makers.

For example, GMC's Road Shock Damper Suspension\*—plus a unique new stabilizer—produces in half-ton models a ride comparable to the finest passenger car.

An optional new fast-ratio cruising axle in light-duty GMC's gives you an overdrive's pace and economy without its cost.

Sharply increased engine displacement in both sixes and V8's gives you a power family unsurpassed in

the light-duty field. Specifically, we offer 14.4% GREATER displacement on 6-cylinder models, 16.2% on V8's than our nearest competitors. And GMC V8's, mind you, match the shortest stroke ratios in the truck industry.

Styling is well into the future—panoramic windshield to sand-tight tail gate. Tubeless tires, of course. And a 12-volt electrical system is standard.

These are some of the strides presented in new 1956 Blue Chip trucks we now have on view. The values are even more notable. Come in and get the facts!

\*Standard on Suburban; optional at slight extra cost on other 1/2-ton models
