MANILA, Sept. 9 (AP)—An urgent radio appeal was broadcast tonight to all ships within call to remove the remaining 15,000 population from volcanic ravaged Camiguin Island as a shower of deadly ash spewed from Mt. Hibokhibok.

The volcano has been erupting since Sept. 1, and 36,000 of the little island's population already had been removed.

Subsequently the eruption quieted but a new, acute emergency developed today.

The radio appeal was broadcast by Arturo Alcazar, Philippines Weather Bureau volcanologist, from aboard a Philippines navy patrol boat off the island. It was heard here by Globe Wireless.

Truman Plans Campaign Trip To West Coast

By the Associated Press

President Truman disclosed plans today for a two-week stump campaign all the way to the West Coast this month with addresses in at least four western states.

The itinerary of the democratic standard-bearer is expected to parallel generally the big drive to be launched by Gov. Thomas E. Dewey, the Republican nominee.

The western swings of the two candidates will begin with speeches in Iowa two days apart. Mr. Truman will open with a speech at Dexter, Sept. 15, at a farm rally. Dewey will begin Sept. 20 with an address at Des Moines.

Republicans have indicated Dewey will continue to the West Coast before returning to Albany. Mr. Truman said today his western tour will include speeches in Denver and three other Colorado cities, in Salt Lake City, San Francisco and Los Angeles.

Dewey came up with his first endorsement from a major labor organization, the executive board of the AFL building Service Employees International Union, representing a claimed 175,000 members pledged its support to the GOP nominee.

William Green, AFL president, and a committee representing several AFL international unions are working for Mr. Truman's election. The democratic nominee also has won endorsement of the CIO executive board and of the CIO-political action committee.

School Trustee Board To Convene

Regular meeting of the board of trustees for the Big Spring Independent School district will be held at 8 p. m. today.

Board members are to receive reports from W. C. Blankenship on the status on enrollment and problems posed by increases in many of the elementary grades. Elementary schools, plus Lakeview (colored) school, showed a first day gain of about 150 over last year. A recapitulation on high school and the eighth grade was due this afternoon and is expected to be about normal. Estimates were that some 50 new students have enrolled in the high school, but there have been some withdrawals since last spring.

The board will also be furnished names of recommended teachers to fill vacancies which had not been supplied at the last meeting.

De Gaullists Ask Changed Constitution

Want Election For France's Lower Chamber

PARIS, Sept. 9 (AP)—De Gaullists demanded today a revision of the French constitution as their price for support of a cabinet conservative Henri Queuille hopes to form.

The followers of Gen. Charles de Gaulle, the wartime free French leader and first provisional president after the Germans were chased out, are rightists. Paul Giacobbi, head of the De Gaullists in the national assembly, said he insisted on elections next month to the Council of the Republic, the second French chamber.

He and other De Gaullists talked with Queuille last night. He gave no detail of the exact changes De Gaullists want in the charter, but the general has said often the chief executive must have more power. Queuille is trying to form the 14th French Cabinet since the war. Robert Schuman's government resigned Tuesday after 64 hours in office.

Queuille immediately ran into Socialist opposition when he informed them of De Gaullist demands. He has said he cannot form a cabinet without Socialist support. He scheduled another meeting with Socialists later in the day and probably will tell President Vincent Auriol afterwards whether he thinks he can form a stable government, excluding Communists.

The French public, anxious to see a cabinet formed to replace that of Robert Schuman, was uncertain whether Queuille could succeed—and if he does—of how long it might last.

Queuille, a 64-year-old doctor from Brittany, was a senator before the war. A Radical Socialist, he has held several cabinet posts since the war and most moister of public works and transport in the government which fell Tuesday night.

HCJC Board Will Discuss Opening Of Fall Session

Last minute preparations for opening of the third annual session of the Howard County Junior college will be discussed at a meeting of the trustees in the college library today.

Among problems to be considered by the board is that of the Howard County Vocational School, which has functioned as an adjunct of HCJC.

A general faculty meeting has been called for Saturday at 2 p. m. by E. C. Dodd, president. Registration is set for Tuesday and Wednesday with classes due to start one week from today. Advance enrollment has been gratifying, said Dodd.

Among new faculty members who have reported are J. O. Jolley, formerly of Munday, who will head up the distributive education course in the vocational division; Howard Hanson, Huntsville, a vocational agriculture teacher; Mary Louise Hendricks, Bartlesville, Okla., who will head the music department; Margaret Cowan, Wichita Falls, librarian; Maryon Shields, Thornton, accountant and commercial department.

Enraged Berliners Fired On By Reds

CANDIDATE, IN BIG SPRING ADDRESS

Thurmond Appeals For States Rights

Gov. J. Strom Thurmond of South Carolina, presidential candidate on the States Rights Democratic ticket, came to Big Spring Thursday, spoke for some 40 minutes before a luncheon crowd at the Settles hotel, and drove home the beliefs of his party—that of state legislative power free of domination of the federal government.

Gov. Thurmond, who only the day before saw establishment of a State Right Party in Texas which will get his name on the Texas ticket in the November election, flew here from the States Rights rally at Dallas, and was headed for Lubbock for another major address tonight. He also was to make a brief stop in Midland this afternoon.

Although his visit here was arranged chiefly on a civic basis and most of those who welcomed him made it plain they were doing it in a non-partisan spirit, Thurmond let loose both barrels of the states rights platform in his talk, which was before an audience of about 175, and which was broadcast over KBST.

He hit principally at (1) the proposed federal anti-lynching law; (2) federal repeal of the poll tax statutes; (3) a federal anti-segregation law and (4) the proposed FEPC (fair employment practices commission). All, he contended, were in direct violation of the Southern Democrat's concept of individual liberty and the rights of states to legislate their own affairs.

The welcome for the South Carolina governor had all the aspects of a civic courtesy. Municipal, chamber of commerce, service club and veterans officials met his plane at the airport at 11:15 a. m. and Gov. Thurmond was presented with a western-style hat as a gift from the chamber of commerce.

He was accompanied by Mrs. Thurmond, a secretary, George McNabb, and Walker Inman, owner of the Lockheed Lodestar in which he was traveling. The attractive, 22-year-old Mrs. Thurmond was greeted by a group of Big Spring women and entertained briefly in the home of Dr. and Mrs. R. B. G. Cowper, former South Carolinian.

Among visitors here to greet Gov. Thurmond, and to escort him on to Lubbock tonight, was Sen. Joe Hill of Austin, executive vice president of the States Rights committee in Texas.

The luncheon session, arranged by W. D. Berry, a committeeman in the Texas States Rights movement, was made up of joint meetings of three service clubs, and Walter Reed, of the "host" Kiwanis club, opened the program. J. R. Stanley, as program chairman, turned the microphone over to Rupert Ricker, attorney and oil man who introduced Gov. Thurmond as an attorney, judge, combat veteran Thurmond was decorated several times during his combat action in World War II and state administrator of distinction.

When the trim, 46-year-old South Carolinian took over, the political phase gathered steam. In a Southern accent as broad as a full moon Gov. Thurmond flayed three opponents—Truman, Dewey and Wallace—all as contributing to programs designed to usurp the powers, rights and dignity to the states.

It was on the proposed FEPC bill that Gov. Thurmond trained his heaviest weapons. It is, he declared, "the most damnable piece of legislation ever conceived in the mind of man" and is patterning after Stalin's "All Races" law in Russia. Under it, said Thurmond, the rights of Americans as individuals would be taken away, and those who advocate it—be named Truman, Dewey, and Wallace—are

Big Four To Study Italian Colony Fight

PARIS, Sept. 9 (AP)—Russia proposed today that the Big Four foreign ministers meet here tomorrow to discuss the future of former Italian colonies.

The United States, Britain, and France have accepted the call for the meeting, and French officials said it actually may start tomorrow. The exact starting time has not been set, however.

British Foreign Secretary Ernest Bevin and Russian Foreign Minister V. M. Molotov both could reach Paris by air in time. Secretary of State Marshall could hardly get here in time, but he might deputize Ambassador Jefferson Caffery, or Ambassador Lewis W. Douglas of London to act until he arrives.

Though France is without a government, Robert Schuman still is acting foreign minister and could sit for this country.

The U. S. State Department first declared the Russian proposal a propaganda maneuver to capitalize on reported splits among the Western Powers themselves over the colonies. But the U. S. acceptance came yesterday, nevertheless.

The former colonies are Libya, Eritrea and Somaliland, all in Africa. Britain conquered them during the war and still occupies them. A United Nations investigation showed the inhabitants disagree among themselves on their future.

The issue was discussed heatedly by the foreign ministers council here two years ago without result. Russia bid for a trusteeship in Libya and Eritrea but got little consideration. The foreign ministers decided to allow a year for a decision after the Italian peace treaty was signed. The deadline expires Sept. 15.

Deputies of the foreign ministers have met in London for a year without resolving the question.

A Berlin dispatch said the foreign ministers may get around to discussing the Berlin blockade and related German problems, now that talks of the four military governors in Berlin are in recess and apparently bogged down.

The Italian colonies have large desert areas and few resources, but are valuable for military purposes.

States' Rights Party Formed At Dallas Meet

DALLAS, Sept. 9 (AP)—Texans can carry their States Rights yearnings to the polls in November.

The States Rights Democrats, anti-Truman offshoot of the regular Democratic Party, made certain of this yesterday. At a statewide convention here the rebels, formally took Texas into their southern fold. Party machinery was perfected. Gov. J. Strom Thurmond of South Carolina was named the presidential candidate and Gov. Fielding L. Wright of Mississippi was chosen his running mate.

Thurmond, here to accept the nomination, lambasted the proposed civil rights program and Presidential Candidates Truman, Dewey and Wallace in a rousing speech last night before 600 persons.

In other southern states, the party is known as the States Rights Democrats. On the general election ballot in Texas in November however, it will be the States Right Party. In 1944 a Texas court decision held that only the Democratic Party was entitled to use the word Democratic on the ballot.

Claims Yugos Invade Greece

ATHENS, Sept. 9 (AP)—War Minister Georgios Stratos said tonight Yugoslav troops invaded Greece yesterday and that Greek troops killed nine of the Yugoslavs.

The minister appealed to the western allies and the United Nations to intervene before Greek soldiers lost their tempers over what he described as provocations by Albania, Yugoslavia and Bulgaria, and set off a general conflagration.

Stratos said Greece will consider accepting an international military force to seal off 500 miles of borders of the neighboring countries, which he accused of continuing to aid the communist guerrillas of Markos Vafiadis.

Stratos said Yugoslav soldiers and rebels had entered Greece in the Kaimatchan area and took a peak from the Greek army. The Greeks counterattacked and recaptured the mountain.

The retreating forces left eight Yugoslav soldiers and an officer dead in Greece, Stratos declared.

Stratos said the Greeks also captured three Yugoslav soldiers.

Replies To Film Protest By Rabbis

PARIS, Sept. 9 (AP)—Eric Johnston, president of the U. S. Motion Picture Producers' association of America, sent a cable today to the New York board of rabbis in reply to their protest against the British film "Oliver Twist," one of his assistants said.

Crowd Stones A Jeep-Load Of Russians

Anti-Communist Demonstration Precedes Fight

BERLIN, Sept. 9 (AP)—Russians and Communist-controlled German police fired on Berlin anti-Communist demonstrators tonight after the crowd stoned a jeep-load of Russian soldiers just inside the Soviet sector.

Part of the crowd of 200,000 Germans who took part in a massive anti-Communist demonstration just inside the British sector surged toward the Soviet area as the mass meeting ended.

At the Brandenburg gate, inside Soviet territory, the crowd attacked a jeep bearing five Russian soldiers and stoned and beat its occupants.

British sector police attempted to keep the crowd from entering the Soviet zone, fearing incidents might provoke shooting.

At least one German anti-Communist was seen to have been hit by the fire of the Russian sector German police.

Associated Press photographers on the scene said they believed Russian military police who rushed up aimed their fire high in order to disperse the demonstrators.

The Soviet commandant earlier in the tense day rejected American and French protests against the arrest and kidnappings of 38 western zone police from city hall. The Russian, Maj. Gen. Alexander Kotikov, told the Americans to mind their own business.

Talmadge Landslide Recorded In Georgia

By the Associated Press

Georgia Democrats dusted off the governor's chair today for Herman Talmadge, who occupied it for 67 hectic days last year.

The 35-year-old son of the late red-galloused Gov. Eugent Talmadge held a widening vote margin over M. E. Thompson, his 1947 successor, in yesterday's primary election.

Talmadge's claim that "victory is ours" went unchallenged by Thompson, now the acting governor. With the returns showing a three to one margin against him, Thompson said "apparently Herman Talmadge has won."

Young Talmadge had campaigned under his father's banner of "white supremacy" and there were scattered reports of efforts to hold down the Negro vote in the primary, which is equivalent to election in Georgia.

All three incumbents in contested congressional races—Reps. Eugene Cox, W. M. Wheeler, and James Davis—apparently won a return ticket by Washington.

Staking his campaign on a fight against President Truman's civil rights program, Talmadge led today with an indicated county unit vote of 514 to 92 for Thompson. Only 206 units are needed to win under Georgia's unusual county-unit system, similar to the national electoral college. The system keeps political power in rural areas.

But unlike his father, who trailed in popular votes in 1946, young Talmadge also held the upper hand in the total count—268,025 to 237,682.

Editor Claims No Irregularities In Duval Voting

FREER, Sept. 9 (AP)—Investigators will not be able to find irregularities in Duval County's second primary vote, Editor E. H. Shomette declared.

Shomette, an opponent of Political Leader George Parr, said any attempt to find more than 40 persons in the county who voted for Coke Stevenson in the second primary would fail. Lyndon Johnson received 6,622 votes to Stevenson's 40.

The editor of the Freer Enterprise said yesterday he voted for Johnson but that he "didn't go with George Parr."

He said several Austin and San Antonio political leaders visited him during the week. "They were going to get affidavits from about 70 people in Freer that they had voted for Stevenson."

"They might as well save their time and effort," Shomette said. "If you open the ballot boxes you'll find a ballot for every vote cast. The ballots will be correctly marked and the count will be just as reported."

"I told them I'd buy them a Stetson hat if they could find 40 people in Freer that had voted for Stevenson. Furthermore, I told them that they couldn't find 40 people in the whole county that voted for Stevenson—at least they wouldn't admit it after the election came out like it did."

Amarillo Blaze Destroys Hanger

AMARILLO, Sept. 9 (AP)—Fire early today destroyed a large hanger and its contents—including two twin-engine airplanes and 11 new automobiles—at Amarillo Field.

The loss was unofficially estimated at \$250,000. Besides the two planes and the new cars, the loss included three used automobiles, a used truck, shop equipment and furniture.

Small Walkout Idles 50,000 Car Workers

By the Associated Press

A strike involving only 170 independent union workers made idle some 50,000 auto workers in Detroit today and threatened to force others from their jobs in the motor industry.

The 50,000 laid off in auto plants boosted to more than 115,000 the number of workers made idle in the nation's major strikes. Some 64,000 workers are involved in strikes in the West Coast oil and shipping industries and in the New York-Northern New Jersey trucking business.

A walkout of 170 plant guards at the Briggs Manufacturing Co., in Detroit was followed by a shutdown of eight plants and a layoff of 25,000 workers. The plants closed after CIO United Auto Workers refused to cross picket lines.

The strike by the members of Local 114, United Plant Guard Workers of America, was called in support of demands for 15 minutes paid preparatory time.

There was no indication of an early settlement in the trucking strike involving some 15,000 workers or in the work stoppage by 28,000 CIO longshoremen.

In the West Coast refinery strike, however, there was a cautious note of optimism after negotiation sessions with one of the six major struck companies and the CIO Oil Workers Union.

A state conciliation supervisor said after a meeting of union and Shell Oil representatives "the possibilities for a settlement this week are more favorable than at any time since the strike started (Sept. 4)."

The other companies have agreed to reopen negotiations.

There was one strike settlement. The CIO United Electrical Workers withdrew picket lines from the Bucyrus-Erie plant in Evansville, Ind., strikebound since July 30 in a dispute over a new contract. The company normally employs about 1,800 workers.

HERMAN TALMADGE "victory is ours" GOV. M. E. THOMPSON "won't challenge claim"

Spy Probers Shift To Work In Atomic Field

WASHINGTON, Sept. 9 (AP)—The congressional spy investigation shifted today to the "field of atomic espionage."

Four witnesses were summoned before the House Un-American Activities Committee, now operating behind locked doors. Chairman J. Parnell Thomas R-(N.J.) declined to give out the names ahead of time.

But he told reporters: "We are now getting into the field of atomic espionage."

The committee claims it has discovered evidence that Russia obtained some wartime shipments of uranium compounds and 25 pounds of refined metal from this country. It says it also has had testimony from a former Air Intelligence officer that some atomic scientists leaked information to Soviet representatives.

The house group is planning to resume public hearings next Wednesday when it may air some of the details. Rep. McDowell (R-Pa.) says a major witness will be Maj. Gen. Leslie R. Groves, who headed the wartime atomic bomb project.

The hearing schedule may be upset by a postponement in the questioning of Steve Nelson, chairman of the Communist committee for Western Pennsylvania. Nelson has been subpoenaed for an appearance this afternoon, but the committee agreed to hear him next Tuesday after he reported his wife was ill.

Farm Bureau Heads Discuss Problems At Settles Meet

County presidents of the Texas Farm Bureau, Federation units in this area were discussing joint problems and policy proposals at a meeting here in the Settles hotel this morning.

County officials from all organized units in District No. 6 were attending. Counties in this district which are organized include Coke, Nolan, Scurry, Fisher, Dawson, Tom Green, Mitchell and Howard.

C. H. DeVany, district director, presided at the session, while Austin Crowmover, state field representative, was representing the state organization. Among items up for discussion were resolutions which will be prepared by the various county units to be submitted at the next state convention.

BOAT BELIEVED OVERLOADED

Hurricane-Swept Caribbean Swallows Tiny Circus Ship

HAVANA, Cuba, Sept. 9 (AP)—A tiny circus ship was swallowed by the hurricane-swept Caribbean in the dark morning of Sept. 1 and 44 of the persons aboard and 59 trained animals are missing and feared lost.

The Norwegian Motor Vessel Caribe radioed yesterday that she had picked up 12 survivors in a lifeboat 770 miles south of Miami. The naval commander of the Caribbean Sea frontier in Panama ordered an immediate search for others of the "F" believed aboard.

The Caribe report said: "Fate of remainder of passengers and crew unknown but fear the worst."

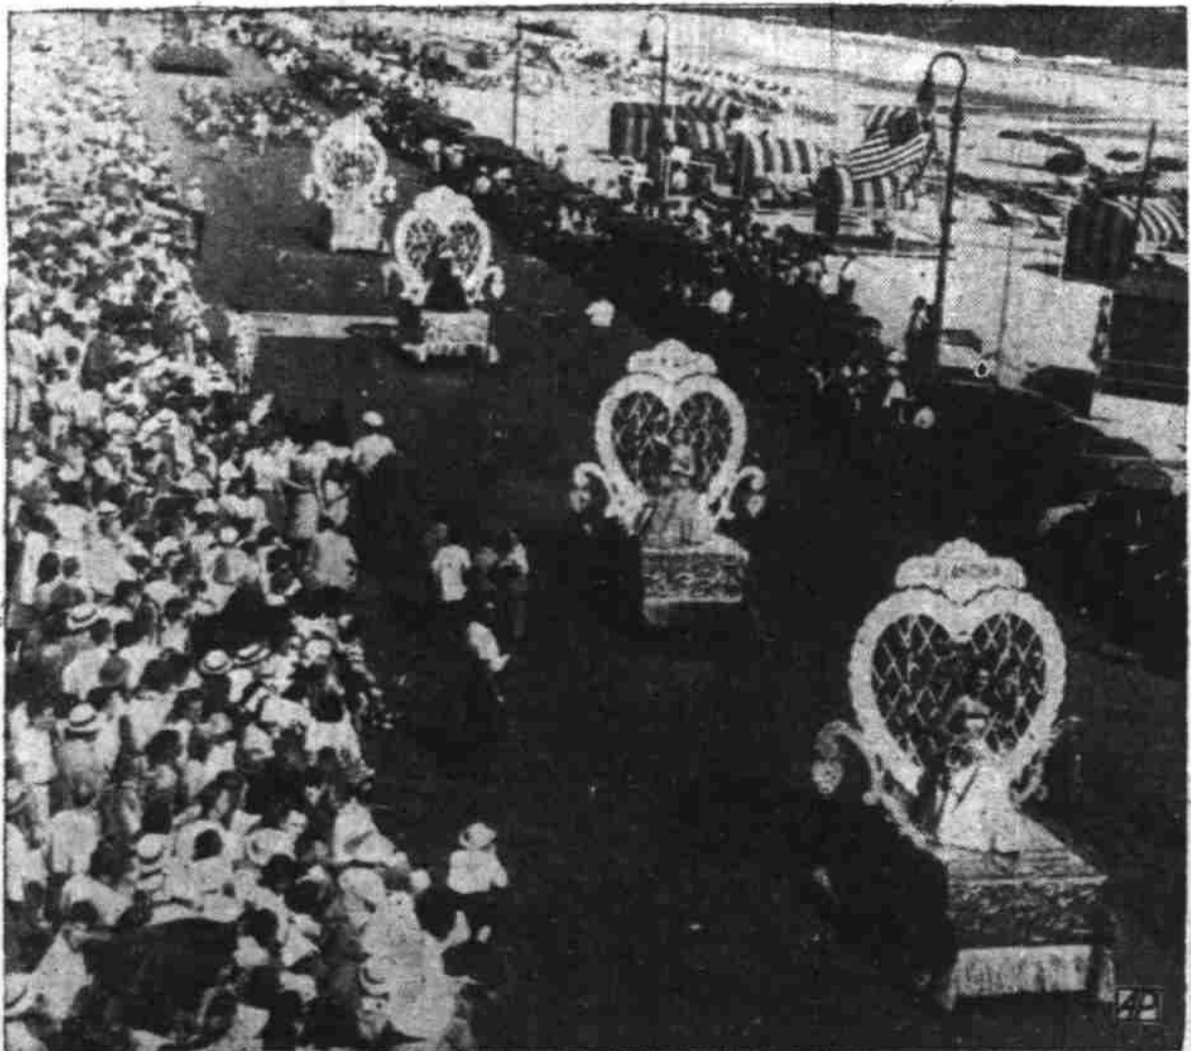

The reports placed the scene of the sinking 130 miles off the Colombia coast 200 miles from Panama and 700 miles from Miami, about 30 hours from port. The ship, the Honduras, Euzkera was carrying the Razzore Circus from Cuba to Cartagena, Columbia. She was three days out.

Those rescued, the Caribe reported, included three crewmen and nine passengers.

One naval expert here, after a study of the messages from the Caribe, pieced together this story: "The circumstances indicate very strongly the ship was overloaded. The reports say a great wave crashed over the bow, and the ship capsized and sank. That strengthens the theory of overloading, which is supported also by data here on the cargo.

"It all happened so quickly there was no time to launch the three lifeboats on the raft aboard. People and everything aboard were pitched into the ocean. Survivors tell of people clinging to lumber and other bits of wreckage, indicating many had been awakened by the storm and were on deck.

"In the darkness and rough seas, people became separated, and those without some wreckage clinging to obviously were drowned."

CASE INVOLVES OVER \$1 MILLION IN SHIPMENTS

Senate Investigators Ready To Name Man Who Forged Many Export Licenses

WASHINGTON, Sept. 9. (AP)—Senate investigators declared today they are ready to identify a man said to have supplied "forged export licenses" for more than \$1 million worth of lard and flour shipped to Latin America.

A name—"James McGuire"—already has been mentioned in Senate hearings. Further identification may be made today or tomorrow, it was learned.

Meanwhile, youthful John A. Quinn, president and manager of the Keystone Soap and Chemical Co., was back in Jersey City today conferring with his attorney about whether to answer questions concerning export licenses senators say were forged.

"On advice of my attorney, I refuse to answer on the grounds that

I might incriminate myself," Quinn said late yesterday when Senators asked him about 15 export licenses he allegedly sold to a New York exporter.

Chairman Ferguson (R-Mich.) of the Senate investigating subcommittee assured Quinn that he was not the main target of the inquiry.

"Primarily we want to ascertain how goods could be shipped on forged licenses and this not be discovered," Ferguson said.

William Rogers, committee counsel and chief investigator, reminded Quinn that previously he had

told the Senate Small Business Committee he obtained the export licenses from "James McGuire."

Earlier, Harry H. Levey, New York exporter, testified that he paid Quinn \$25,255 for the 15 licenses which Senate investigators say were forged.

Under the licenses, Levey shipped about 1 1/2 million pounds of flour and more than 2 million pounds of lard. A committee tabulation showed his export sales on the 15 licenses amounted to \$1,051,298.

"Jack Quinn told me he had influence with Mayor Hague, a sena-

tor from New Jersey and a Mr. Hanson of the Department of Commerce of New York," Levey said.

Ferguson said the committee has been unable to verify any of this. Rogers and other Senate investigators testified that all 15 of the licenses used by Levey and provided by Quinn were forgeries. They said a false perforating machine was used to "validate" them and that a check against bona fide export license serial numbers showed them all to be forgeries.

Blomshield Resigns Post With Scouts

C. S. Blomshield, veteran Scoutmaster of Big Spring, has resigned as camping and activities chairman for the Buffalo Trail Council, Boy Scouts of America, it was announced today.

Blomshield has served as a member of the council's executive board and as chairman of the camping and activities committee for several years.

He will be succeeded by Dr. P. T. Quast, Sweetwater, who has been appointed by H. Lyman Wren, Snyder, Council president.

Dr. Quast is a member of the executive board, and on a previous occasion held the position by now assuming with the council. He also is a member of the Buffalo Trail Scout Ranch development committee.

Singing Convention Will Celebrate Its Second Anniversary

Second anniversary of the founding of the Eight County Singing Convention will be observed Saturday at Snyder with an all-night singing at the North Side Baptist church.

J. Lawrence Deavers, chairman, and James Patrick, vice-chairman, will preside over the convention which stemmed from the Four County convention two years ago. Quartets and other group units from West and Southwest Texas will appear on the program. Counties embraced in the organization are Scurry, Mitchell, Dawson, Nolan, Howard, Martin, Coke and Midland.

Although it has never been officially designated, the Road Runner, commonly called the Chaparral Bird, is generally regarded as the State Bird of New Mexico.

TROUBLE BREWS IN INDIA STATE

Americans Being Evacuated From Hyderabad By Aircraft

NEW DELHI, Sept. 9. (AP)—The United States embassy announced today that aerial evacuation of American and British nationals from Hyderabad will begin in a few days.

The announcement said the step was being taken "in view of the latest developments regarding Hyderabad." This could be a hint that trouble is coming in the dispute between India and the huge independent south central state.

The Moslem Nizam of Hyderabad rejected as "out of the question" earlier this week a suggestion by the Dominion of India that Indian troops be garrisoned in his state, which is predominantly Hindu.

The Nizam has resisted previous demands that his state become a part of the dominion and has appealed to the United Nations for help.

India contends Indian troops should be in Hyderabad to protect life and property. The Nizam says his troops can do it. Prime Minister Jawaharlal Nehru of India sent a "last demand" Tuesday for re-entry of the Indian troops and disbanding of the Raakzars, a volunteer Moslem armed group. Hyderabad's deputy premier said yesterday the demand had not been received.

The embassy here estimated there are about 40 Americans, 300 Britons in Hyderabad. They will be taken by plane to Madras after being concentrated near Hyderabad City under the direction of a member of the United Kingdom high commissioner's staff.

Nationals living near the borders

and unable to get to the rendezvous, have been advised to cross into Indian territory. The embassy said the Indian and Hyderabad

governments have been advised of the evacuation plan. Nearly all the Americans in Hyderabad are missionaries.

M. D. Lepard Funeral Held

Funeral for Melton D. Lepard, 23, one of three victims of a head-on highway crash Tuesday near Midland, was held at 3 p. m. today at Nalley chapel.

Lepard died early Wednesday morning of injuries sustained in the collision which also claimed the lives of D. B. Snider, 69, Midland, and a young man identified as Havner Tucker, Big Spring.

Tucker's brother, R. H. Tucker of Manchester, was in town Thursday morning seeking to locate his place of abode and gather his personal effects. Havner Tucker had been working for George J. Collins, drilling contractor, said Sheriff R. L. Wolf. Identification by his brother resulted from a registered letter receipt on his person. The body probably will be returned to Manchester.

The Rev. A. C. Hodges, pastor of the State Street Baptist church, was to officiate over rites for Lepard, a former serviceman. Burial was to be in the city cemetery with John Wolf, Jr., Leo Eggleston, Charles Wolf, Charles Ray, Clyde Wolf, W. D. Ellison, Dick Holloman and Chester Brown as pallbearers.

According to legend the stimulating effect of coffee was accidentally discovered by an Ethiopian priest who noted that a flock of goats ate some of the berries and then neglected their proper sleep.

Stanley Features Coleman Furnace

The Coleman automatic floor furnace, the modern miracle in modern home heating, has been made available to Big Spring families through the Stanley Hardware company, 203 Runnels street. Houses of any size will find the Coleman furnace, which can be installed by any plumber, a welcome heating unit that heats impartially and equally any part of the house. It sets below the floor with only the register at floor level. No basement is needed and the owner need install no air ducts. Freshly warmed air is circulated throughout the residence three to five times every hour. Its healthful heat helps protect against winter's ills. The Coleman furnace costs less than the average basement type furnace. In addition, the fuel cost is low. Operation is simple. In the fall the user simply lights the pilot light of the furnace and it functions until it is turned off. Rooms are evenly heated from floor to ceiling. No smoke, soot, dirt or ashes accumulates if the Coleman furnace is added to your home. Curtains, walls, draperies and furniture will not suffer because of dust or grime thrown off by the old heating systems. The furnace boasts balanced dual radiators, removable double inner walls, chimney draft diverter, U-type gas control valve, "hand-a-blu" burner, a new type heat trap and is of heavy gauge metal construction. See it on display at the Stanley hardware company today.

CLAY'S NO-D-LAY SHOP REOPENS AFTER SUMMER REPAIR PROGRAM
Following a general remodeling and reconditioning program, Clay's No-D-Lay Cleaners has re-opened for business at 207 1/2 Main street, H. E. Clay, owner, has announced. The establishment was closed for several weeks during the summer while workmen were making extensive repairs to the building and equipment. The firm now is in a position to offer its patrons the quality service they always have received at Clay's, and the improvements to facilities will enable the staff to handle a large volume during the fall. The remodeling program included construction of a new front for the building, which improved general appearance of the plant. complete repainting of the interior and multiple improvements to equipment and machinery. All equipment is in excellent condition, which will insure prompt and efficient service for all customers. Since re-opening the firm is specializing in all services that were offered heretofore. These include complete cleaning and pressing service, hat cleaning and reblocking, and alterations. All of the services are performed under direct supervision of the owner, who has personally operated the firm since it was established. All regular customers are invited to resume their calls at Clay's and new patrons will be welcome.

Packards Parts Available

H. M. Rowe, Big Spring's new Packard dealer, has announced the opening of a complete parts department at his present location, 214 East Second street. Although space is limited in the quarters currently occupied by Rowe, a full line of genuine Packard parts is being made available at the local outlet. The department will carry all items required for a Packard dealer installation. Included on the list are all types of parts for Packard models dating back to 1937 and 1938, and many will be available for older models. Rowe, who was appointed Packard dealer here several weeks ago is in the process of arranging for larger quarters, but in the meantime he will continue to operate his establishment at the present address. He is handling sales of new Packards in this area as they become available, and at the same time maintains a complete repair shop for all makes of automobiles. Although he has had many years of experience in the automobile repair business, the Packard agency is the first dealership for Rowe, and he already has become an enthusiastic booster of the new Packards. At present he is anxiously awaiting release of a new advertising series which the company is sponsoring but which does not mention the name of the automobile.

The series, which will appear in some of the most widely circulated magazines in the country, will refer to the Packard merely as "America's most powerful, most luxurious car" and other descriptive phrases. Packard's reputation assures that the public will recognize its product without mention by name, Rowe explained.

Kitchen-Kraft Units Are Available Here
Kitchen-Kraft kitchens, which can be purchased as a unit or by separate sections, are on sale at Stanley Hardware company, 203 Runnels street. Users can begin with the units they need most and add the other parts as their budgets will allow. Combinations can be made to fit every kitchen.

EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drug-gate and ask for 4 ounces of liquid Barocretin. Pour this into a pint bottle and add enough grape-fruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose belly fat and help regain slenderness, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chin, arms, bust, abdomen, hips, thighs and ankles, just return the empty bottle for your money back.

Lost 47 Pounds

"When I commenced to take Barocretin, I weighed 211 pounds. I now weigh 164. I lost 28 pounds on the first two bottles. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barocretin."—Mrs. George Gross, Chalmers Courts 4, Apt. 1, Austin, Texas.

Lost 20 Pounds

"I lost 20 pounds taking four bottles of Barocretin and I feel fine."—H. K. Gans, 111 1/2th Street, Corpus Christi, Texas.

LOOKING 'EM OVER

With TOMMY HART

Members of the Big Spring country club did a commendable job in making the 18th annual Big Spring Invitational Golf tournament the best of them all.

One of the funniest incidents to happen in the tournament occurred while J. R. Farmer was lining up his sights for a putt in his championship consolation match with Bob Craig of Colorado City.

Gene Gregston, the former Odessa scribe now rotating for the Abilene paper, suggests that Sweetwater may step out of professional baseball soon.

The Organized game has laid its law down to Sweetwater: Build a new park or resign. Five persons control the Sweetwater club but a municipal park was used. According to reports, the men do not feel building a new athletic plant would be a sure investment in these days and the city simply cannot see the point in laying the money on the line for a stadium.

Six stitches were required to close the wound. The incident was never reported to Harney Webb, the big chief of the Indian reservation, who no doubt would have done his best to find the individual on the throwing end of the bottle.

Gerry Rodriguez, the former Big Spring Bronc hurler is now pitching semi-pro baseball for the San Angelo Greyhounds. He recently tamed a Dallas nine in an exhibition bout.

The Steeds pulled fewer double plays this year than any team in the league, with the exception of Del Rio.

Rodriguez May Twirl Tonight

Freddy Rodriguez, who has enjoyed modest luck against Vernon this season, will probably take the pitching rubber tonight for Big Spring as the Broncs try to get back on even terms in their Longhorn league playoff set with the Dusters in Vernon.

The ace righthander is due to be opposed on the pitching rubber by rubber arm Eddie J. a c o m e, whose won-lost record for the year was 22-10.

The Vernon scratch hit safely to drive home Morris Cowser from third base. The play came with two away.

Vernon also scored in the following inning when Harry Scherting went all the way to second on a misplay by Justo Aspiazu at first and Cotton McCaskey hit safely.

The Hoses had three chances to score but muffed them. Ortilio Boech doubled as the leadoff man in the first and perished on third.

Cowser and Fahr each got two hits for the home club.

S'WEST GAMES AGAIN ON AIR

Southwest Conference football games this all will be broadcast for the 14th consecutive season and televised for the first time under arrangements concluded between the Conference and Humble Oil and Refining Company.

Bufs Expected To Break Mark

It looks like Houston will be the first team in Texas League history to draw 400,000 in one season.

The Buffs boosted their home attendance to 392,822 last night when 2,626 fans turned out to watch them beat Shreveport, 5-3.

Houston has four more days to reach the 400,000 mark in attendance and may crack the figure by tomorrow night.

Dallas finally managed to beat Tulsa, downing the Oilers, 5-4, last night while Oklahoma City nosed out pennant winner Fort Worth, 6-5.

San Antonio and Beaumont were rained out. Solly Hemus' double in two runs in the seventh inning to give Houston its second straight victory over Shreveport and Hank Wyse.

The Buffs' three-run lead melted in the sixth inning when Shreveport splurged for three. Wyse came into the game in the seventh with Joe Niedson and Eddie Knoblauch on base. Niedson homered for the Buffs in the fourth.

Bob Brady led Dallas to its narrow decision. He drove in three of four runs in the second inning with a home run. Milan Vucelich's long fly scored Marty Errante in the winning Rebel run in the seventh.

Schoolboy football teams in the City Conference and Class AA open the 1948 campaign tonight.

Brackenridge of San Antonio, last year's state champion, and Austin tangle in the top game tonight while tomorrow and Saturday 71 teams from these two divisions go into action in 42 games.

Three champions will be decided this year in the Intercollegiate League's program.

The City Conference matches schools from San Antonio, Dallas, Houston and Fort Worth.

Class AA has 84 schools playing in fourteen districts. Class A, composed of schools with less than 500 enrollment but more than 200, will play to a division title for the first time.

Most of the City Conference and AA games this week are inter-district affairs.

Eight of last year's 16 district champions see action the first week.

Lufkin and Longview, two East Texas powers who won district championships in the 1947 race, tangle in one of the feature games tomorrow. Longview advanced to the semi-finals of the state race last year, when both AA and city school competed in the same division.

Tonight—Austin at Brackenridge (San Antonio), Roswell, N. M., at El Paso High.

Friday—North Dallas at Pampa, Paschal (Fort Worth) at Ennis, North Side (Fort Worth) at Tyler, Austin (Houston) at Herlingen, Kerrville at Thomas Jefferson (San Antonio), San Antonio Tech at Port Arthur, Kingsville at Harlandale (San Antonio), Alamo Heights. (San Antonio) at New Braunfels, Poly (Fort Worth) at Plainview, Odessa at Lubbock, Quanah at Memphis, Denton at Graham, Electra at Paris, Sweetwater at Vernon, Ysleta at Midland, Abilene at Breckenridge, Big Spring at Brownwood, Denison at San Angelo, Galena Park at Gainesville, Sulphur Springs at Texarkana, Hillsboro at Mineral Wells, Cleco at Cleburne, Ballinger at Stephenville, Weatherford at Gladewater, Jacksonville at Henderson, Fair Park (Shreveport) at Marshall, Kilgore at Port Neches, Longview at Lufkin, Conroe at Temple, Waxahachie at Corpus Christi, Palestine at Athens, Texas City at South Park (Beaumont), Pasadena at St. Thomas (Houston), Laredo at Alice, Victoria at Bowie, Campo, Robstown at Sinton, Edinburg at Pharr-San Juan, Alamo, Mission at McAllen.

Saturday—Cameron at Burkan (San Antonio) Central (San Antonio) vs. Lanier (San Antonio), Austin (El Paso) vs. Cathedral (El Paso).

Weights Will Be About Same

Like the Big Spring Steers, the Brownwood high school football Lions have only four lettermen back this season but the Friday night opponents of the Bovines obviously can call on more experience than the locals.

Hold-over monogram winners of the Lions are Roland Elledge, a 190-pound end; Capt. Ralph Wallace, a 185-pound tackle; the 172-pound Louis Holt, an end; and Buddy Fair, 172, right half.

Coach John A. Houston will send a team averaging slightly more than 161 pounds into the fray which takes place in Brownwood. The backfield will average only 151 pounds while the line's average is up to 168. The overall average compares favorably with that of the Steers.

Two heaviest men in the Brownwood forward wall are Elledge and Ravanna Coppic, a 189-pound tackle. After that, the tonnage trails off sharply.

Other starters include Vernon Pester, center, 185; and Harold Moore, right guard, 149.

Opening with Fair in the Lion secondary will be Eddie Burt, 150. Don Lew, 156; and Billy Bish op, 153.

Brownwood is fairly deep in reserves and that may tell the tale in the game with the Big Springers. After Coach Hule Stockton of the Big Springers gets past his starting string, the ability and the experience factors.

The Steers are in fair trim for the outing. Billy Van Pelt is still favoring an injured finger but will man a guard post. Arlis Davis, at the present writing the Steers' best back, also has a busted digit but will play.

Midland-Odessa Game Postponed

Showers and cold weather caused a postponement of the Midland-Odessa Longhorn baseball league playoff opener, which was booked to be played last night in Odessa.

The two teams will try to get in the series under way this evening but will lay off Friday, regardless of the weather.

Chicago White Sox farm directors are making big plans for Dick Strans, young hurler for the Hot Spring Bathers of the Class C Cotton States League, since Strans notched a perfect game against Pine Bluff recently, in not permitting a man to reach first base. Strans struck out seven batters.

Boston Sockers Take 2 1-2 Game Lead By Thrashing Yanks, 10-6

The outlook appeared gloomy for the rest of the American League today as Joe McCarthy's battering Boston Red Sox boasted their largest lead of the season.

Coming from behind in typical Red Sox clubbing fashion, the murderous hitting Hubmen overcame their arch rivals, the New York Yankees, 10-6, last night, to increase their margin over the runner-up New Yorkers to two and a half games. Their previous best advantage was a game and a half.

In drawing first blood in their all-important three-game series with the Yankees, the Red Sox kept two streaks alive. They extended their latest winning streak to eight straight, and now own six consecutive triumphs against the Yankees. They have copped 22 of their last 28.

The Sox gained their latest triumph the hard way. Five singles off starter Joe Dobson gave the Yankees Undaunted, the Red Sox bounced back with six hits off Frank Shea in their half of the same inning to take a 5-4 lead.

Birdie Tebbets' two-out triple off the center field wall drove in Wally Moses and Billy Goodman with the tying runs. Billy Hitchcock followed with a single to score Tebbets.

After the Red Sox moved in front, 6-4, the Yankees led it up with single runs in the sixth and seventh innings. Yogi Berra's 14th home run furnished the fifth run and Hitchcock's fumble, Tommy Henrich's single and Hank Bauer's long fly produced the other.

The Sox quickly untied the score in their half of the seventh. With Lefty Joe Page, third Yankee hurler, on the mound, they put together three hits and three walks to four runs across and put the game out of the Yankees' reach. Lefty Earl Johnson, who had replaced Dobson in the seventh, was credited with his eighth victory against two defeats.

The third place Cleveland Indians scored an unearned run in the last half of the 11th inning, to tie the Detroit Tigers, 6-7, and remain four and a half games behind Boston. Larry Doby, who rapped out four singles to extend his consecutive hitting streak through 19 games, scored the winning run when second baseman Connie Berry threw wild to the plate on Wally Judnich's bounce.

The Tigers had overcome a 7-3 defeat to force the game into extra innings. Bob Lemon, trying for

Those Who Mess With Fire Are Liable To Get Burned

The other day when Robert Mitchum, who acts before movie cameras for a living, was picked up and booked on a charge of possessing marijuana, a curious reaction was expressed.

His estranged wife said he was being singled out and persecuted just because his name would make news. His studio issued a statement in which they said he was being made the goat by authorities, because he wasn't the only one smoking reefer. His attorney chimed in and asked if the defendant had not been spotted by officials just because of his position and wealth.

Patrons Need To Exercise Patience Over Congestion

It is too easy yet to ascertain the level of enrollment for Big Spring schools. Initial figures indicate a substantial gain, possible more than five per cent. This may prove that the increase will be sharper than indicated.

It will take about a week to see which course develops but in the meantime it is certain that the congested situation of last year will not be any less.

That poses a challenge for the patrons of the district. Additional buildings are out of the question just now, and even if they were available a full year would be required for completion.

In other words, things are going to be pretty messed up for a while. The patience, understanding and cooperation of the public will go a long way towards meeting the problem.

Here's ABC Of Situation Now Existing In Berlin

WASHINGTON, SEPT. 8. — THIS IS AN ABC on the mix-up in Berlin. There's been one crisis after another in Berlin for months.

ALL BUT 34 OR 35 OF THE ASSEMBLYMEN were scared so badly that they fled from the city hall and the Russian sector into the American-British-French sectors.

The latest arose Monday when German Communists, backed by Russian troops, burst into the city hall.

The 24 or 35 assemblymen who didn't flee are talking of carrying on the assembly's work in the Russian sector. They're members of the Socialist Unity party, made up of Socialists and Communists controlled by the Russians.

Each nation is sole boss in its own zone and its own sector. This was agreed on when Germany fell and relations between Russia and the three western nations were pretty good.

So we may yet see two separate assemblies, each claiming to be the only lawful one, trying to work in Berlin. That would add to the confusion.

The job of Communizing Germany would be duck-soup for the Russians if, short of war, they could get the Americans, British and French out of Berlin and out of Germany altogether.

The confusion started some time ago among the four military governors in Germany. The top representative of each of the four occupying powers is called a military governor.

ALTHOUGH THE FOUR NATIONS have not been able to agree on setting up a new German government for Germany as a whole, in 1946 they agreed to get the people of Berlin have a city government.

THEY HAD MET MORE OR LESS steadily since the war's end to work out plans for getting Germany on its feet. Their relations grew steadily worse.

So they let the Germans in all four sectors of the city elect an assembly of about 130 members, a kind of legislature, which laid down laws and rules and appointed city officials to carry them out.

He did more. He said the Americans, British and French no longer, by train or truck, could send supplies from their zones of Germany into their sectors of Berlin.

This assembly, of course, remained under the thumb of the four nations which occupied Berlin.

At first it seemed it might work since Berlin is entirely within the Russian zone and is surrounded by Russian troops.

Three times recently the assembly tried to meet but couldn't because German Communists raised such a rumpus at city hall. That city hall, by the way, is in the Russian sector of Berlin, and Berlin is in the Russian zone of Germany.

But the Americans got around the land blockade by sending in supplies by plane, an expensive job. They're still doing it.

On Monday the assembly tried to meet again. German Communists, backed by Russian troops who patrolled the streets outside, stormed the city hall.

The city hall raid was just one more Russian effort to make life in Germany unhappy for Russia's wartime allies.

Far Eastern Affairs Discussed By M'Arthur, Aide To Chiang

By ROBERT S. ALLEN For DREW PEARSON WASHINGTON. — Gen. MacArthur is holding quiet conferences in Tokyo with a special emissary of Generalissimo Chiang Kai-Shek that may have far-reaching reverberations in Far Eastern Affairs.

The emissary is Gen. Chan Chun, former Chinese premier and a long-time Chiang intimate. Chan Chun stands high in Secretary of State Marshall's esteem. They worked together when Marshall was in China trying to establish a stable government.

While the MacArthur-Chan Chun conversations are cloaked in considerable secrecy, it can be authoritatively reported that three chief items are under discussion. 1. A visit by Chiang to Tokyo for a personal parley with MacArthur.

The mysterious sudden death of Col. Gen. Andrei Zhdanov has given new impetus to a long-brewing question in foreign chancelleries—what, will happen in Russia when Joseph Stalin dies? Now 68, he has been in poor health for several years.

Prospects of Chiang going to Japan are uncertain. His home situation is very precarious. Chinese economy is in a desperate plight, and the Nationalist military position is little better.

President Truman has it figured out how he's going after the GOP on the tax issue. He will charge that the Republican income-tax reduction was part of a secret scheme to fight a sales tax on the country.

A group of college educators, holding war-earned reserve commissions, reported for a two-week tour of duty. All were making a personal sacrifice to do this.

As a result of the GOP bill, there is a strong possibility of a federal deficit next year. To balance the budget, the Republicans, according to the president, are planning to lam through a "soak-the-poor" sales tax.

But now returned home, they are saying a lot—and it's doing the Navy no good. PENOLOGIST Boston's irrepressible Mayor Jim Curley is turning his recent prison experience to a novel purpose.

Kids In Our Block Aren't Fettered By Real World

Sometimes I think the high cost of living and the daily grind would put me in bed if it weren't for the kids in our block. Every time the cause of living seems hopeless after a hard day's work, I like to go out on the front porch and look in on their imaginary world where there is no limit to what a person can become or what he can do—all in the flick of an eyelash.

side of his big red wagon. "Calling all cars, calling all cars. This is Robin Hood. Report to the corner at once. Band of thieves attacking."

The be-shorted, brown adventurers of our block aren't bound by the conventions of time and history.

Now I wonder what ever happened to that mean sheriff. Must have had an election and given Robin the law's big stick.

For instance, take the case of Robin Hood. The Hollywood chiefs had recently issued their annual dish on the legendary righteous robber called "Prince of Thieves," and most of the local youth contingent had just eaten with relish at a downtown theatre. So, Robin was the order of the day for play.

The other day, Bill, our little next-door neighbor came up on the front porch to converse with Margaret, my wife.

Ah, but he wasn't confined to Sherwood forest, medieval damsels beset by danger or a corrupt officialdom of long ago. Bows and arrows may have been necessary props to filmsters who have to satisfy convention-bound adults, not our doughty band however.

Poor old Bill had been having a rough time. The way he tells it, he has a mechanical man that is dissatisfied with his lot in life. The other day, the little fellow escaped and made his way to the Big Spring municipal airport.

What Happens When Man Tackles A Woman's Job

NEW YORK. — TELLIS MAE PEEBLE, like any other housewife, often complained that "woman's work is never done."

Immediately upon reaching the ground, the mechanical man jumped into a car which he had with him. Ah! But as he was speeding away, Bill took out his bow and arrow and shot out a tire, thus curtailing his runaway toy.

And—like any other husband—Wilbur Peeble could never understand why. After all, didn't he get his work done at the office? Sure. And why? Efficiency, organization.

It was Wilbur's contention that any woman could cut in half the time she spent doing housework if she only organized her tasks.

Sometimes he got a little weary of hearing his wife complain she had more business to clean out than Congress, more floors to sweep than a street cleaner on roller skates.

"WHEN THE WIFE'S ANKLE GOT well," continued Tellis Mae, "they divided up the housework. The man says they run their house like a ship now—every member of the family has certain duties. He says it's lots of fun."

With enthusiastic Federal Power Commission support, New York and Ontario worked out an agreement on the construction of a power dam at Ontario worked out an agreement on the construction of a power dam at International Rapids. This has long been a major stumbling block. The accord was sent to the State Department for what was assumed would be routine transmittal to the International Joint Commission, which has the last word. Instead, state has pigeonholed the agreement.

"You know I don't like warmed-over food," grumbled Wilbur.

MONKEY WRENCH Behind-the-scenes, the State Department has just tossed a ripping monkey wrench into one of the President's favorite projects—the St. Lawrence Waterway.

"We could do that—let's try it," said Tellis Mae brightly. "You could scrub the bathroom twice a week, do the beds, and wash the windows. We could save enough time to do all the things we don't find time for now."

WILBUR READ A FEW PARAGRAPHS recounting this man's victory over women's age-old problem of housecleaning, and how easy he had found it by discovering time-saving shortcuts. With a yelp of joy Wilbur tossed the paper over to his wife.

Wilbur made a strangled sound.

Monarchies Hold Trend Toward Middle-Of-Road

THIS OLD WORLD OF OURS IS THE melting-pot for a weird mixture of humanity.

global political trend is towards a middle-of-the-road set-up in which all hands will get a fair break.

Everywhere forces of the "left" and of the "right" are at each other's throats, while unhappy "centrists" battle to keep the pendulum from swinging too far in either direction.

It Happened Back In—

WELL NOW, HOW DOES A CONSTITUTIONAL monarchy fit into the picture of our changing world? We can't forget, of course, that unrest is seething in Holland's rich East Indies, some of which want complete severance from the mother country.

FIVE YEARS AGO—Launching third war bond drive is program of maneuvers by 15 bombers over city, patriotic parade including review of cadet squadron and courthouse by the Rev. P. D. O'Brien as emcee; Worth Peeler, stationed at local AAFBS, is promoted to sergeant.

If the Dutch themselves want (as they do) a constitutional monarchy with a parliamentary system, there is no clash with Democracy in that. Parliament rules. However, the time is rapidly passing when a nation can impose its rule on people of another race. Empires are on their way out—and fast. Thus Queen Juliana comes to her throne at a moment when her empire is breaking up.

FIFTEEN YEARS AGO—Ralph Cathery leaves for California where he will enter Pasadena Junior college; Senator G. H. Nelson of Lubbock is speaker here; Murph Thorp, Jr., and Cecilia Westerman present musical program for AB-Club.

OF COURSE ROYALTY AND THE EXTREME political left don't mix. We saw what happened to young King Mihai of Romania. However, both the Netherlands and Britain at the moment are politically close to the middle-of-the-road, and they find no inconsistency in maintaining royal houses.

FIFTEEN YEARS AGO—All-city tennis tourney opens; two clubs organized for purposes of studying in detail the Culbertson bridge system.

This trend among the constitutional monarchies naturally can't be taken as conclusive of what the future will produce. The one thing we do know is that the world is in the midst of a social upheaval which is going places. However, we might not be far out in concluding that the

This is the Most Important Sign Any Street

This is the time of the year when the sign, "School - 20 M.P.H. Zone" becomes the most important traffic sign on the street.

For the next nine months - five days a week and as often as four times a day - school children will place their fates in the hands of motor vehicle drivers on our streets and highways.

Teachers do everything in their power to instill safety habits in our boys and girls, but sometimes, in the excitement of play, little folks forget the dangers of heavy traffic.

These teachers need the cooperation of every driver. Let's all help bring our children safely to and from school. Let's all remember that every street crossing is a place where some child may forget to stop, look and listen.

Texas Electric Service Company drivers carefully observe all "School - 20 M.P.H. Zone" signs.

Stasey Takes Batting Title With .389 Mark

Closing out his regular season play by punishing the ball at the same clip that kept him in the thick of the fight all season, Pat Stasey, the "unflinching" Irishman who has piloted the Big Spring Bronchos to their second full-season championship, became the Longhorn league's 1948 batting champion Monday night.

PAT STASEY
Batting King ---

Based on unofficial averages through Monday night's games compiled by the Herald, Stasey finished with a .389 mark. Although Labor Day performances of his two nearest challengers, Stu Williams of Ballinger and George Calota of Del Rio, had not been learned this morning, the Cayuse straw boss apparently had outdistanced the field by at least some 10 or 15 points.

In gaining the honor, Stasey appeared in the lineup for 111 games, made 404 official trips to the plate and rapped off 157 safe blows. His doubles, five triples and nine home runs, accounting for 247 total bases. In addition he drove in 102 runs and scored an even 100 himself.

DEMO DISPUTE Political Eyes Of Texas Are On Fort Worth

By the Associated Press
Today the eyes of Texas politicians are centering on Fort Worth. And politicians have drawn red circles around Sept. 13 and 14 on their calendars.

On those two days in Cowtown, two major questions are expected to be settled:
1. The winner of the U. S. Senate race.
2. Whether Texas' democratic electors will vote for the "regular" Truman-Barkley ticket or the Thurmond and Wright.

The state party executive committee and the convention are due to certify the winner of the Senate race. At the last unofficial count by the Texas Election Bureau, vote reporting agency, Lyndon Johnson led Coke Stevenson 162 votes.

Robert Calvert, chairman of the executive committee, said "yesterday for the umpteenth time that the executive committee did not plan to rule on disputes concerning the votes."
Johnson in a broadcast from Austin last night, said there might be an "attempt to thwart the will of the people" at the Fort Worth convention. He urged his friends to attend the convention "to see there is fair play" when the official tabulation is made.

From where I sit... by Joe Marsh

One Great American Trait

I always think it does a newspaper editor good to get out from behind his desk and see how folks in other parts of America look, and think, and act.

And that's what I've been doing these past weeks, touring the country from Michigan to Texas, California to Maine. It's a mighty encouraging experience. Not only because of the different points of view you run into—but because of the tolerance which reconciles those different points of view.

I mean the tolerance of a Pennsylvania farmer for the habits of his city cousin; the tolerance of folks who vote one way towards those who vote another; the tolerance of those who prefer spring water towards those who enjoy a moderate beverage like beer.

From where I sit, it's that great American trait of tolerance—respect for individual tastes and liberties—that makes this country strong. Let's never lose it!

Joe Marsh
