## 'Winds Ease By Cats 7-6

By ANDY ROGERS

The Floydada Whirlwinds stormed downfield for a touchdown with their first possession Friday and, aided by numerous Littlefield penalties and a costly fumble, held on for a 7-6 non-district win.

The Winds continued their three-game domination of the Cats and evened out their season record at 2-2. The Cats are 3-2.

Floydada took the opening kickoff on their 32. Three runs moved the ball five yards, then a penalty against Littlefield brought the ball across midfield to the 48. Rance Young swept left on second down to the 34, and on second from the 25, Quarterback John Cagle found Halfback Rex Yeary all alone on the 19. Yeary got down to the two before Safety Bill Turner knocked him out of bounds.

On first from the two, Young headed up the left side, and was met head-on by Linebacker Kenny Owens on the one. Owens was dazed and led off the field, and played no more in the first half. The next play, Young rammed it in for the score, and added the point after with 8:03 left in the first quarter.

On Floydada's kickoff, Pat Henderson took the ball on the 19, was hit on the 30, squirmed free, and was hit again on the 32. He fumbled, and Mike Vickers of Floydada recovered.

The Cat defense stiffened, and on fourth and 10 from the 32, Young made only four on a draw.

The teams exchanged punts twice, and Littlefield set up on Floydada's 45. Fullback Randy Cook carried on a power sweep around the left side to the 38, and on second, Terry Bryson picked up five on a quarterback sneak. Cook swept right for eight more, then the penalties took their toll. Two successive holding infractions put the ball back on the 50, and Turner had to punt on fourth and 21.

Cagle passed for one first down to Mark Smitherman on the 40. Then, on third and 11, Cagle threw a long downfield pass to Danny Quisenberry. Bryson was defending on the play, and as the ball flew over their heads, Quisenberry jumped into Bryson. The referee signaled for pass interference, but he called it against Bryson, giving the Winds the ball on the 32.

On first down, Ricky Richards grabbed Cagle trying to pass and Ricky Hopping and Kenny Trotter doped him for good for a five-yard loss. A third down pass to Lynn Becker resulted in another pass interference call, this time against Floydada, and the ball moved See WILDCATS, Page 13

## Court To Act On Petitions, Salary Hearing Set

By NILAH RODGERS

Lamb County commissioners face at least two emotional issues in their regular meeting tomorrow.

Monday morning a public hearing on elected officials' salaries is on the agenda.

Monday afternoon the commissioners' court will take action on the local option election petitions.

A preview of things to come has already been aired in recent previous commissioners' court meetings.

In the Friday, Sept. 28, meeting, Tax Assessor-Collector Herbert Dunn expressed his feelings at length on a discrepancy of proposed salary regarding his office. In a meeting earlier in September the commissioners' court granted salary raises of \$900 a year to the county judge, county commissioners, county clerk, county treasurer and district clerk, pending Monday's public hearing. Proposed annual increases for the county sheriff is set at \$800 and \$750 for the county attorney.

Dunn's salary increase was set at \$500. Dunn told the court Friday week that he assumed his raise was less than the other officials because the Salary Grievance Committee increased his traveling expenses. The court did not answer nor defend its position at that time.

Last year commissioners raised the salary of Stanley Doss, justice of peace precinct 4, \$100 a month after he filed a salary dispute with the Grievance Committee.

The tax assessor, District Clerk Ray Lynn Britt and County Treasurer Lucy Moreland took their salary disputes before the Grievance Committee early this year. Mrs. Britt's and Mrs. Moreland's requests were denied, but Dunn's traveling expense account was increased \$500.

County Clerk Mary Beth Willey said Thursday that her office had completed checking the local option petitions and of the necessary 743 registered voters to call the election, only 711 of the names were counted. This makes the calling of an election fail by 32 signatures.

A total of 911 names appeared on the petitions. After the first checking for certification, the county clerk's office had certified 710 names.

The court instructed Dunn to update his voters' registration list and Mrs. Willey to continue working on certification, and 17 names were added.

In the September 11 court meeting, Charles Ary said those seeking the election might take the question of the certification of the petitions to court if the clerk's office and the commissioners' court failed to certify and call the election. Those who circulated the petitions say several persons have been denied their civil rights.

In a telephone conversation Friday, Ary said 800 of the names should have certified easily.

This is the third time within a year petitions have been circulated to call local option elections. The first two

CITY POLICEMEN Jay Pruitt and Mason Benton earned 20 hours credit toward their intermediate certificates in a SPAG sponsored course on various phases of drug abuse. Among the topics were drug abuse from common across-the-counter cold and cough syrup compounds. (Staff Photo)

## City Officers Study Abuse Of Patent Drugs

Cold sufferers who take aspirin, cold tablets and cough medicine can achieve the same effect from these over-the-counter medicines as persons who are drug users.

Many wrecks, where the drivers have not had enough to drink to show up intoxicated on breathalyzer machines, can be attributed to drugs which can be bought without prescriptions.

Youths can have "drug parties" and experience the "highs" and "lows" of amphetamines and barbiturates by mixing dosages of liquid cold medicines

and cough syrups and over-the-counter tablets for colds, hay fever and sinus sufferers.

These are some of the things two city of Littlefield patrolmen learned in a controlled substances seminar they attended in Post last week.

Sgt. M.L. Benton and Patrolman Jay Pruitt earned 20 hours credit toward their intermediate certificate and learned a great deal about over-the-counter drug abuse in the SPAG-sponsored school.

SPAG Consultant Carl C. Williams conducted the three-day seminar. He is the commissioner on law enforcement officer standards and education.

The local officers said a person who has been taking patent medicines for a cold and has two to three drinks can show the same effects as a person who has consumed a fifth of hard liquor.

Sgt. Benton has been on the force 18 months, and Pruitt has been a patrolman here for the past year.

## New Voting Law Affects Permanently Disabled

Persons who cannot go to the polls to vote because of a permanent disability no longer have to have a doctor's certificate for each election. A new permanent disability certificate filed once a year allows a person to vote in all elections during that year without additional forms and signatures.

The new election law went into effect Aug. 27. Once this form is signed by a licensed physician or chiropractor, the permanent disability certificate is in effect for a year.

Prior to this legislation, a disabled person who voted in 10 elections a year was required to have 10 doctor's statements.

A certificate of permanent disability which complies with the requirements becomes effective for absentee voting in

all elections held on or after the 31st day after the date on which the registrar (county tax assessor-collector) receives it.

When this certificate of permanent disability is received by the tax office, the tax office shall take the necessary steps to have the notation of permanent disability added on the list of registered voters. This certificate is attached to the voter's application for registration.

If, after filing a certificate of permanent disability, a voter later becomes able to appear at the polling place, it is his duty to notify the registrar at the tax office, and the certificate is cancelled.

The Secretary of State provides forms for the certificate of permanent disability to each registrar.

# more for your money...

Thrifty homeowners do a lot of thinking about the way they spend their dollars to operate their homes. That's why more and more homeowners are taking a good look at electricity. Thousands of our customers are already heating their homes with electricity. They've found, through experience, that they get their money's worth. Drapes and furnishings stay clean longer and repainting doesn't have to be done so often . . . and that's saving dollars.

And, when you consider that you get full value for your electric dollar — 100% use out of every kilowatt-electricity becomes mighty attractive, not only in the home, but for industry, business, and agriculture as well!

Your future is ELECTRIC!

Dear Editor,  
We have a growing problem that I feel is one of the most serious we have. I'm 18 and have never had the problem, and I'm lucky.  
This poem meant a lot to me and it made me stop and think. My main thought was for others and I feel it would mean a lot to them.  
If people don't have the problem, I hope the poem will help them to never have it.  
And for those that do have the problem, I hope the poem will help them get rid of it.

And once I have entered deep down into your veins,  
The craving will nearly drive you insane.  
You'll need lots of money (As you have been told),  
For darling, I'm much more expensive than gold.  
You'll swindle your mother, and just for a buck,  
You'll turn into something vile and corrupt.  
You'll mug and you'll steal for my narcotic charm.

And feel contentment when I'm in your arms.  
The day when you realize the monster you've grown,  
You'll solemnly promise to leave me alone.  
If you think that you've got the mystical knack,  
Then, sweetie, just try getting me off your back.  
The vomit, the cramps, your gut tied in a knot,  
The jangling nerves screaming for just one more shot.  
The hot chills, the cold sweat, the withdrawal pains,  
Can only be saved by my little white grains.  
There's no other way, and there's no need to look,  
For deep down inside, you will know you are hooked.  
You'll desperately run to the pusher and then,  
You'll welcome me back to your arms once again.  
And when you return (just as I foretold!)  
I know that you'll give me your body and soul.  
You'll give up your morals, your conscience, your heart,  
And you will be mine until Death Do Us Part!

Dear Editor:  
We at the Satellite School for our special students would like for the people of Littlefield to know how kind Mr. and Mrs. L. V. Pierce are to our students.  
They always treat us and our special students to snack time, but to my surprise they refused to let my students and me pay for our lunches on our special day out from school, Wednesday.  
It is people like these two who help our jobs be lighter and more pleasant.  
May God Bless them

## A Woman's View

By PEARL BRANDON

**SOME MORNING** when you get up feeling depressed and blue, you might try this for a "picker upper". Take an inventory of all the things you have to be grateful for.

This morning the sun is shining beautifully and there is a smell of autumn in the air.

A whole flock of birds lit on our lawn bathing themselves and pecking around for whatever birds find to eat in the grass. It was a joy to watch them—they seemed so happy.

**YOU MAY BE** a young mother trying to get the children off to school, if so you don't have time to watch birds playing on the lawn.

With everyone rushing around and you trying to help everybody at once and bumping into things in frustration, try to steal off for a minute or two and pray. If you haven't tried this, you will be surprised how it will settle you down.

**PERHAPS YOU** are one of those people who work and have a job that isn't very pleasant, or a boss that is hard to work for.

How about taking a little time to thank God for your job and at the same time saying a prayer for that mean old boss. After all your boss is the one who controls your job, and he has probably worked very hard to get where he is.

**MAYBE YOU** are old and can't go to work anymore. It is hard to sit around the house all day feeling useless.

Don't spend your last days feeling sorry for yourselves.

Be grateful for the house you live in, for food to eat and kindly neighbors that drop in to see you.

Be grateful for a yard to keep and time to watch birds at play.

**ANOTHER THING** we all have to be grateful for this wonderful country we live in—our own United States.

In spite of Watergate, shortages and high prices, our lives have changed very little.

We still have our freedom to work, to gripe if we want to, and to live our lives very much the same.

**WE STILL HAVE** our God above watching over His children. Mankind is still moving upward and upward.

While we are saying our prayers in gratitude, let's say a prayer for those less fortunate than we are, especially for hungry people all over the world.

May the time soon come when there will be no more war or rumors of war, when we will live at peace with all our brothers and there will be no little children hungry anywhere in the world.

**I CAN'T** explain the unseen power of God, but I know He is there and is silently working all the time with those that love Him.

Our God is a gracious, benevolent Father on whom we can lean when the going gets rough.

**I KNOW WE** can turn Him on in our lives with just a sincere prayer, however, we do have to make an effort to contact Him—to be aware of His presence.

He is our Father as close to us as a silent prayer. Let us lift our hearts and our voices in gratitude to Him, our most high God.

## THE ABUNDANT LIFE

# We Make Mistakes

**WE DO MAKE MISTAKES.** All of us know that this is a true statement; but how many of us are willing to admit our mistakes, and, when possible, make correction?

Do we do this, or do we try to justify them; or cover up; or even take the position that we did not make a mistake?

**WHEN YOU MAKE A MISTAKE** don't look back at it long. The reason of the thing into your mind then look forward.

Mistakes are lessons of wisdom. The past cannot be changed, but the future is in your power." —H. White

**THE FEAR OF MAKING A MISTAKE** prevents some of us from trying to do the things that are best for us; sometimes worthwhile things we want to do, and might be able to do if we just try. If we let this fear in our mind, we will never be able to do it.

Certainly, we will make mistakes; but we will also have successes. If we apply ourselves diligently in trying to do the things that need to be done, the mistakes may make will never be as big a mistake of not trying.

**MAKING MISTAKES** is part of being human. If we made no mistakes, we would be a misanthrope. Even so, we must continue our efforts to keep our mistakes to a minimum. We do have great opportunities for learning to think and act with wisdom and skill. We can grow and improve.

**WE WILL NEVER ELIMINATE** mistakes, but we can learn to handle them. Learning how to handle them is essential to satisfactory happy living. This is one skill that can develop, if we continue to try.

**ONE OF THE WORST MISTAKES** we make about our mistakes is in the way we let them haunt us. Of course, a mistake is a mistake; but it must never become one's whole life.

We must see it for what it is, correct it if we can, learn whatever lesson it has for us; and then put it in our graveyard of mistakes. It must never be resurrected.

**JA NOTICE THE SCAT** page in our last edition? Looked pretty neat, don't you think? Probably some future editors in that bunch. (I said EDITORS, not publishers.)

I know some other people that could take lessons from them, now!

**FROM THE TENOR** of events up D. C. way, it looks as though Uncle Nix, isn't going out of his way to defend our Second in Command, Mr. Agnew may have to stew in his own pot.

Anyway, he may not have any tapes.

**ONE COULD** almost imagine that events may be coming to pass in order to pave the way for Mr. Connally to make an (other) entrance. I'm sure "Big Jaw" would have few aversions to being considered for the number-one spot in our nation.

Of course he might decide to shuck both parties and run as a Republicrat or Demoblocan. Either way would make small difference. They say "A new broom sweeps clean".

**HOWEVER, I'VE NOTICED** that you can't use ANY broom very long and dirt begins to show up in the broom.

But then, there's a lot of water through the gate, before '76.

Maybe, even enough to fill paquiddick! Kissinger could be to get the ax—er, I mean provided they can keep him out enough!

**AT ANY RATE,** Mr. Agnew may how to sympathize with Jesus, was being crucified between thieves.

**TR'S PUBLIC** asked me to be out with my question concerning mixing (or, adding together) of oranges, and cherries. The answer, of course, is INTEGRATION. Simple.

**SEEMS WE'VE GONE** from December (weatherwise) in a couple of days.

Wonder if anyone has thought coming up with a pair of "Long" that you can roll up or down kind windowshade?

## Turn Row COMMENTS

By EMIL MACDONALD

**TO ACCOMPLISH** an increased diet for 245 million people in 1985, farmers must increase their farm output 32 percent.

In a breakdown of this increase, cattle will have to be increased 45 percent, hogs 23 percent, chickens 54 percent, turkeys 51 percent, eggs 17 percent and milk 3 percent.

Feed grain must be increased 44 percent, wheat 20 percent, soybeans 88 percent, rice 34 percent, fruit 35 percent and vegetables 23 percent.

How can this be accomplished? Who knows? We must have advance methods of farming, double crops and more abundant yields from available land.

With the shortage of fertilizer, motor fuels and equipment the challenge of the American farmer is almost beyond their ability, but I'd be willing to bet that they will meet the demand if given half a chance.

**MANY OF YOU** noticed the white clouds east of town late Wednesday. Some had commented that it looked like steam clouds and had wondered if there was some hail in the area when the clouds were seen. To some, it was right, as there was a lot of hail although the most damage was near Petersburg and on the way through Cone and Estacado.

The cotton was completely ragged from all leaves and some of the storm proof varieties had the lint to the ground. Soybeans seemed to have taken the worse beating of all. Some milo had been harvested, but was left in the fields sure to be ragged.

**THOUGHT I'D LEAVE** Corn alone for a while, but after reading last column, I decided to throw my punch.

A few weeks ago he said that he would not copy mine, but if you want it was called to my attention that some instances uses my ideas.

Does is change the phrasing, "No P.S. Had another reader say that (Cornball) and I ever came to blows, that may not be a bad idea, as revenue is concerned. It might be "Tennis Battle of the Sexes" shadow.

**TAKING A 20-year** look into the future the Federal Power Commission estimates that by 1990, the nation will be using four times as much electricity as today. The production of electricity is today, The FPC estimates that six year study. The FPC estimates electric industry will have to invest 4400 billion to \$500 billion by 1990 to up with the increase in energy demand.

**MOMENTS FOR MEDITATION**

We know not what the future holds, but we do know who holds the future.

The man who does not view the future with God in sight miscalculates the distances between and the direction of every moving event in his life.

And life does move — not in straight lines or sweeping curves — instead it progresses upward or downward by way of a winding staircase, proceeding imperceptibly from level to level.

The house of God and the people of God are magnetic influences on any life. Little by little we are drawn to His side, like iron filings to the magnet.

And I, if I be lifted up from the earth, will draw all men unto me.

## JET AGE SEWING

MRS. FRANCES JONES

**QUESTION:** I made a tucked yoke on a dress, and although I followed the pattern directions carefully, the yoke ended up too small by 1/2" when I started to join it to the front and back pieces. Do you suppose the pattern could have failed to allow proper seam widths?

Probably the pattern did allow correct seam widths but you made the tucks just a little larger than directed. If you used up only one or two threads extra on each tuck the total was so much that your yoked section ended up too small.

Always cut a tucked section with an inch or so allowance all around, make the tucks, press them, and then replace the pattern and cut the outline true. This will make an accurately shaped section and take care of any little mistake you may have made in stitching the tucks.

You can make your own tucking design. Tucks add a designer touch to plain fabrics which is quite popular now. Make a group of pin tucks and mix with wider ones for variety.

If your machine has a double needle try it on tucks for a more decorative effect. It will pay to practice first on a scrap of cloth. Often a yoke is covered with tucks or there is a strip of tucking on either side of a buttoned front opening.

Other sections of a garment may be tucked such as the pockets, cuffs, or collar. Remember to cut the section to be tucked with regular seam allowances plus a border on the outside and then re-cut by the pattern after the tucking is done.

For the yoke effect as in (1), cut on the dotted line. (2) Do not cut down into the neckline curve until later. Outline the neck and shoulders with chalk so you will know where to start the tucking pattern. Make the center tuck first.

Notice that the center tuck is longest and the others graduated shorter for a neat effect. Vary the spacing and types of tucks as desired. Press well, turning the tucks back from the center. Then replace the original pattern, centered on the center tuck, and cut the front section of the garment.

Probably you do not sew tucks often and would welcome some hints for keeping the tucks straight. They should run true with a thread of the goods in most cases. With a ruler and sharpened chalk or a sliver of soap draw straight lines on the top of the cloth.

Make these lines light since they are on the top side and will show if marked deeply. Basted lines are great if you do not mind making them.

You may pull a thread of the goods in some cases and fold the cloth so the pulled line falls just under the tuck.

On some fabrics the quilting guide, one of the sewing machine attachments on some machines, can be a great help. As you stitch one tuck, the guide marks the line for the next tuck. Use the presserfoot "toes" as a guide in making the tucks the correct width.

For a raised effect try adding a cord inside the fold of the tuck. Embroidery or crochet yarn may be used. Try holding it in the fold and stitch with the zipper or cording attachment.

Some machines have a special foot with a tiny hold

FUMBLES WERE COMMON Friday in Littlefield's game with Floydada as the wet field made the pigskin very slippery. Pat Henderson juggles the ball here, but he retained possession and picked up a first down. Ricky Hopping (75) and Skip Smith (78) are other Wildcats involved in the play. (Staff Photo)

Owens' carries advanced it to the one. Then, Bryson lost the snap from center, and a hoard of jerseys collapsed around the ball. Bryson came up with it, but Floydada was given possession. Bryson argued, was thrown out of the game, and Floydada benefited by taking the ball on the 17 instead of the two.

Floydada punted after making only three yards, and the Cats took over on the 47. On first, Henderson cut up the left side to the 35. Littlefield picked up six more, and on fourth and four Kelly Pratt, who came in for Bryson, slipped on the 35 while trying to pass.

Floydada pushed upfield to the 48. On the first play of the fourth period, a Cagle pass was batted into the air. Linebacker Craig Ratliff intercepted and followed a line of blockers to the 16. Owens carried to the 13, and on second, Henderson tried the left side, pulled out,

and went around left end, sliding just inside the flag for the touchdown. Turner's kick for the extras was low and was knocked down at the line of scrimmage, and Floydada clung to a one-point lead.

Floydada took the kickoff on their 31, and were forced to punt on the 40. The Cats took over on the 24. On third and eight, Pratt threw a screen pass to Cook, who fought his way to a first down on the 35. Henderson carried around the left side to the 46 for another first. Owens carried to the 50, Henderson made it to the 48, and on third and four, Owens broke one tackle and dove to the 44. It was a first down by inches. Henderson carried twice to the 40, and on third and fourth, Owens' passes were batted down. The Whirlwinds made only three yards, and Cagle punted to Henderson on the 39.

Pratt fired a first down bullet to Chris

Pope, good to the Floydada 38. The next pass was incomplete, Cook lost one on a screen, and on third and 11 Pratt threw a hard pass to Turner, who was crossing over the middle. The ball was just out of Turner's reach. On fourth, Pratt tried the same play. The ball hit Turner in the hands on the 25 but he couldn't hold on, and with 49 seconds left, the Cats final chance had slipped away.

Penalties were the main story of the game. Littlefield was flagged 10 times for 126 yards, and Floydada had six for 62. The Cats picked up 12 first downs to seven for the Winds, and outgained them 203 yards to 132. Henderson was the leading Cat rusher with 16 runs for 87 yards.

Littlefield goes to Roosevelt Friday for their final non-district game. The Eagles are state-ranked, and undefeated in four games.

## 'Cat's JV Takes Loss

The Littlefield JV scored on their first possession Thursday to build a quick 7-0 lead over Floydada, but the home team Whirlwinds came right back with the deciding points for an 8-7 win.

Tailback Sammy Schlottman ended a 75 yard drive with a touchdown from the 25 for Littlefield, and Johnny Cruz booted the extra. But Floydada came back with six

of their own on their possession, ran in the extras, and held onto the lead.

"We had two real good scoring threats in the fourth quarter," said Coach Robert Bolton. "We had a fourth and two close to their goal line, made the first but had it called back on a procedure penalty. We missed the first down by about three inches the second time. Then we held them, they punted back, and we drove down to have a first and ten at their 11 with 43 seconds left. We fumbled on first down.

"However, I was real pleased with the way we played. The kids did a real good job. We were hurt twice with penalties and fumbled once at the wrong time, but we did play good.

"We had a poor second quarter, offensively, but our defense did a good job the whole game," Bolton continued. They hurt us passing at first, but we adjusted and shut them off."

Schlottman led all Littlefield rushers with 15 carries for 74 yards. Albert Ayala contributed 48 yards on 14 tries. Quarterback Ronald Parmer hit on two of eight passes for 50 yards.

The JV takes on Roosevelt,

**FIGHT FOR SURVIVAL**

The fight for survival in hostile urban environments has a shattering effect on family stability—and children suffer most. The majority of the world's slum population is below the age of 15. UNICEF, whose work on behalf of the developing world's children has in the past been primarily in rural areas, is now expanding its efforts to help needy urban children.
