"The program is based on helping younger persons become acquainted with the policeman and his work, and offering a hand in public service, with the idea that he might one day enter that field of work," Barber stated.

"Students who are involved in the program volunteer their own time and money, and the city will not be responsible whatsoever. We'll have legal signed documents to this effect," he continued.

City Manager Jim Blagg informed the councilmen that the students would work closely with the city manager and police chief, and would be under their

Councilmen unanimously favored the

program and gave the go-ahead signal to those involved.

In other matters of new business, Charles Duval, manager of Pioneer Natural Gas Co. was present to answer questions concerning the request from the company for a monthly rate adjustment, due to the present energy

Councilmen tabled the matter until a report could be received from the West Texas Utilities Committee, which is to meet Monday in Lubbock to study the facts related to the matter.

The company made application Aug. 22, to all incorporated cities and towns served by its West Texas Transmission System to change the cost-of-gas adjustment provision of the general ser-

During the past three years, the general service rate has been adjusted annually in April to reflect increases in the average cost of gas for the prior year Pioneer's request would allow making the adjustment each month for the current monthly average cost of gas.

Councilmen studied several paragraphs in the lease for the Bull Lake property, and voted unanimously to authorize the mayor to sign the lease

Councilmen also passed a resolution authorizing Mayor Chisholm to sign a contract with Dr. Charles F. Spencer for codification of city ordinances.

Spencer, of Ada, Okla., will codify the permanent and general ordinances for the city and will provide the city with 50 final copies of the code for a total cost of \$3,000.

When final copies are delivered, \$750 of the expense will be paid; and additional \$750 will be paid in June or July of 1975, and the balance of \$1,500 is to be paid in June or July of 1976

The proposed sanitation collection system will be discussed during the next council meeting, Tuesday, Sept. 25, at 7 p.m., when a final decision is to be made. Interested persons are invited to

City Manager Jim Blagg presented the 1973 annual budget for review by the councilmen prior to the public hearing during the next meeting date, Tuesday, Sept. 25.

In his budget message to the mayor and councilmen, the city manager stated: "The sincere effort and cooperation of the department heads has been vital in assisting in the preparation of this proposed budget. With the continued inflation and rising prices of services and supplies purchased by the city, it is difficult to achieve a balanced budget such as this with no increase in taxes or price structure to the citizens of our city.

"It is indeed a pleasure to announce that this budget has been prepared without a tax increase, enabling the city of Littlefield to maintain its tax rate of \$1.29 for the fourth year in a row

"Although this budget is very tight, there are several major accomplishments. Among these accomplishments are provisions for salary and fringe benefit increases, the replacement of several vehicles, relocation of the sanitary landfill. codification of city ordinances and updating of several maps.

"The efforts and cooperation of the mayor and city council are appreciated by the employes of the city of Littlefield with efficient and effective municipal services

'I hereby recommend this proposed budget to you for the fiscal year 1973-

In reviewing the budget, Blagg advised councilmen that anticipated revenues for the year will be \$727,891, and estimated expenses will be approximately \$720,919, leaving a contingency of \$6,972 if needed.

City Manager Blagg presented a planned use report for Revenue Sharing funds for the period of July 1, 1973 through June 30, 1974.

An estimated total of \$107,981 is expected to be received through the funds. and is to be utilized as follows:

Fire equipment, \$481; seal coating, \$15,000; painting the large hangar at the airport, \$1,000; repair the ground storage water tank at the pump station, \$8,000; summer youth recreation program, \$2,000-a total of \$26,481 for operating and maintenance expenditures

For capital expenditures, a total of \$81,500 has been designated including: \$3,250 for automobile for administrative department; \$3,250 for automobile for building inspection department; \$70,000 for the sanitation collection system; \$3,500 for pickup for the sewage collection department; \$500 for fences and gates for new landfill operation; and \$1,000 for picnic tables and play equipment in the parks and at Bull Lake.

All records documenting this report are open for public and news media scrutiny in the office of the city manager during regular office hours.

IN SEASON OPENER

Wildcats Pluck Owls 62-0

By ANDY ROGERS

The Littlefield Wildcats opened up Wildcat Stadium for the '73 season Friday, and before a packed grandstand of enthusiastic fans, ran away from the Silverton Owls 62-0.

It was a dandy debut for the Cats, though their opposition was a little less than overpowering. As a matter of fact, Class A Silverton suited up only 15 players, and by the second period, they were noticeably, and understandably,

It took the Cats exactly two offensive plays to score. After an Owl punt traveled minus two yards, the Cats took possession on Silverton's 25. Quarterback Terry Bryson ran the ball to the 14. Then, after a Bryson touchdown was called back due to clipping, Kenny play. The extra point attempt failed when the snap from center slipped out of Chris Pope's hands, but the Cats were up 6-0 with 8:42 left in the first quarter.

Officers Investigate

From that point on, the going was straight downhill.

Randy Cook crashed up the left side from the 11, broke several tackles and trotted into the end zone to make it 12-0 with 6:03 left, and Sophomore Bill Turner hit on his first of eight straight conversions.

The Look the next Silverton punt on the 44 and whistled up the left sidelines to the 22. Pope took a Bryson pass down to the seven, and Pat Henderson grabbed an easy pass in the left flat of

the end zone to push the score to 20-0. The Cat defense was not to be denied After Silverton took the kickoff to the 21, Ben Farmer charged in from his defensive end spot as Owl Quarterback Ken Wood dropped back to pass. Farmer spun him around, and Ricky slammed him to the g back on the 15. Wood tried a quick pass on the next play, but Linebacker Buddy Jungman batted the ball into the air, brought it down and followed a parade of

blockers into the end zone. That upped the margin to 27, and with 31 seconds left in the first quarter, Head Coach Jerry Blakely put in the second team.

Danny Cushion carried on first down to the 16, then had a touchdown called back after a penalty. From the 21, Stanley Patterson crossed over the middle took a Kelly Pratt pass and carried to the nine. Bennie Williams slammed up the middle to the three, Cushion took it to the two, and Cushion tried once more and got down to the one On fourth down, Pratt rolled right and was dropped on the six. Silverton's goalline stand was one of their best moments of the night, but faced with a fourth and nine from the eight three plays later, it was clear they had just been granted a temporary reprieve. Turner returned the nunt 25 yards to the 13, and Cushion churned up a gaping hole to add six more to the total.

Silverton punted away their possession, and Henderson was waiting on the Littlefield 38. He tore around the right sideline and scampered in for a 62vard touchdown, though he could have trotted half-speed, for the Cat blockers had demolished every Owl in Henderson's path. The half ended as Pratt, trying to score once more before intermission, was dropped from the six back to the 25.

Silverton came back to start the second half, which alone says a lot for their character. On the first play of the second half from the Cat 36, Bryson dropped a short pass to Cook in the right flat. Cook muscled by one tackler, picked up a couple of blocks and raced 64 yards to make it Cats 48, Owls 0.

Cushion recovered an Owl fumble on the 35 to set up Littlefield's next score. Craig Ratliff shot up the left side from the 17, broke through the first line of tacklers and found clear sailing the rest of the way. 55-0.

Cushion then put the finishing touches to an excellent performance with a crashing, twisting run of 33 yards and another touchdown. Turner kicked one more time, and the score read 62-0.

Silverton came back with the only offensive power they were to muster all night. Starting on the 18, they were called offsides But from the 13 dumped a pass over the middle good to the 25. On second, Wood floated a pass to Brad Ziegler, who had slipped behind Ratliff in the Cat secondary. Ziegler was tackled by Ratliff on the 38. It was the Owls only first down of the night, and the only time they crossed mid-field. Following the script perfectly, Pratt intercepted on the next play and returned it to the Silverton 45.

The Cats couldn't move the ball for only the second time that night, and Turner punted to the 10. On third down, Silverton fumbled and Williams gobbled See WILDCATS, Page 10

Thefts And Break-Ins County and city officers have investigated reports of theft and breaking and entering this past week, and several have been jailed on various drunkenness

Wednesday night, L. B. Eady of the Amherst Hog and Cattle Co. reported to sheriff's officials that a lock had been broken from the building and that two saddles had been stolen

Sheriff's officers jailed one person early Friday morning on charges of drunk in car and two others were jailed Monday on the same charge. All have been fined and released.

City policemen received a report from

a citizen that a Sears battery had been stolen sometime between Aug. 28 and Sept. 4. Gibson's reported that a 38 pistol, valued at \$64.27 had been stolen from the store. Officers have the serial number and are making an investigation into the matter.

Another citizen who resides in the 1200 block of West Sixth reported that her residence had been entered through a slit screen, and window on the northeast corner of her house sometime between 3:30 and 5:35 p.m. Monday. All the doors were left open and the front door knobs were missing.

Police officers jailed one adult male Sunday, Sept. 2, and charged him with no drivers license and drunk in public. He was tried, fined and released.

Another adult male was jailed the same day, and was charged with drunk while driving. He was tried, fined and released.

Monday, another adult male was jailed on a charge of drunk in public. He was released on a \$1,000 bond and was to appear before the judge at a later date. Saturday, Sept. 1, automobiles driven

by Mary Sims Phillips of Amherst and

Angel A. Rodriguez of Littlefield were involved in a collision in the 500 block of LFD Drive at 6:25 p.m. On Labor Day morning, Manuel Reyes Cardoza of Arlington and Mary Lewis Williams of Littlefield were involved in a

Pray For POW's

EVERY SOCIETY searches for heroes. They are needed as a symbol of what the society is at its best.

We have been passing through an antihero era in our American society. It has been a time of debunking the stories of the heroes of yesteryear and of glorifying the man who thumbs his nose at the world of today

This attitude has created a vacuum in which there has been a yearning in the American spirit for authentic heroes.

WITH THE RETURN of the POW's from their long ordeal in the prison camps of North Vietnam, America rediscovered some heroes. These were men who had been taken into captivity without the benefit of the Geneva Conference principles on treatment of prisoners of war. They had been through all kinds of torture and difficulty.

Their wives had mounted a campaign for their release which had world-wide impact. The prisoners of war released from the North Vietnamese area, for the most part, were college graduates (85%) and officers.

They had managed to keep a remarkable degree of morale in the midst of their difficult years. They had the authentic stuff of heroes.

OUR SOCIETY welcomed them paraded them, glorified them, and held rallies in their honor. Many of them came back with a sense of mission about our nation and its needs for rediscovery of some basic principles of

America had rediscovered some heroes.

My opportunity to spend a week in a spiritual and religious retreat for POW-MIA Families convinced me that some of these ideas are factual. Some of these men are heroes in the very deepest sense of the word. They are heroes not simply because they have had the courage to suffer pain but because they

Some of them are aware of the responsibility they carry and the symbols they have become but are not overawed by the adulation. They are simply bearing witness to some of the experiences they have known of God in the midst of their ordeal.

ALL OF THEM are human beings with their own sets of problems. Some of them are in deep trouble as they seek to re-enter their marriage and homes. The ones who are in the deepest trouble were in trouble in their relationships before

The enforced absence and the thrusting of responsibility on their wives has simply added to the difficulties of the adjustment. More than 50% are finding themselves in divorce courts.

THOSE WITH A commitment to each other that was deep and real before their imprisonment are experiencing a rediscovery of each other. They are making it because they had the elements of a good marriage already. This does not mean that the adjustments are not painful and difficult.

It does mean that they are determined to find their way through to a happy and wholesome relationship. The delight of a father in discovering that his son whom he has not seen for seven years really likes him is a deeply moving experience.

FOR YEARS Americans wore bracelets with the names of POW's on them as a symbol of their prayer support for the release of these captives. Perhaps it would be a good idea to put the bracelets back on and pray that these men will know fulfillment in life as they return to our nation.

The names of their wives ought to be on the bracelets, too. The prophet Samuel once said, "God forbid that I sin against you by failing to pray for you."

THE ABUNDANT LIFE

A Better View

IF WE PERMIT the daily news, and the general talk we hear to fashion our view of the world, of life and of our individual prospects; we will not have an acceptable view.

Obviously, we must have the best possible personal view. The happy fact is that we can have a better view.

IT IS INEXCUSABLE to let ourselves be victimized by what we just happen to pick up here and there. We are never going to accidently happen to pick up the information that helps us form and maintain a productive and helpful

Even if all of such information is true, our view will be much too limited, and grossly inadequate.

THERE ARE SOME TERRIBLE happenings in our world; the results of the perverseness of human behavior. There are also some very wonderful happenings; the results of the goodness and integrity of human behavior. What is our view?

We do have the privilege to make some choices, and it seems unwise to focus our attention on the terrible happenings. This is especially hurtful if we completely overlook the constructive, and useful, and wonderful events. Of course, we can see all of it but, for our individual view, we must be selective. We must make it a helpful view for better personal living.

THERE IS THE WATERGATE VIEW. Some folk talk as if they see the whole human scene through the fog of watergate. There must surely be a better view of life.

Some think that indifference is the only sensible posture, and it is better than some; however, it is not the fact, it is not the true view.

There is a better view, a more view. Although we may find it to to assume an indifferent attitude some events, we must be sare is attitude does not become our gene

THERE IS THE UNCO economic view, and it seems to makes up the total life view for people. They are worried, ma distracted to the extent that be unable to think about or tak anything else. There must see more to think about and talk ab course, an improvident attitude

We do care about our problems, because they have as place in our thinking; but the never become so big that we arely everything else. This is probable the very worst things that can be

A more helpful view, a better needed; the view which can give balance to living.

TALK ABOUT A paper shortage or waste of paper, boy, Cornball did it in the last edition. Wonder where he copied that last long item he had printed in the paper? Nuff said.

A TIP OF THE hat goes to the Texas Highway Patrol and to all the drivers in the state for making the Labor Day Weekend a rather safe weekend. Another job well done. Speaking of law enforcement, I think

we need to take a look at our Lamb County Sheriff's department and what they mean to our county. Although I have lost a certain amount

of contact with our county officers over the past few months, while driving and having a little time for thinking this past week, I began to take note on what the sheriff's department has done for the county and how many hours over and above the regular work day goes into a county law enforcement officer's day. Of course we as human beings do have

differences, and there is, and always will be, a clash of personalities, but all in all on a county-wide level it is my opinion that we do have excellent police protection even though sometimes I do not agree with a particular officer.

Over the past couple of years, several burglaries were solved by catching the defendants in the act-which is a rare thing to do because of our hand full of men in our sheriff's department and the vast rural area they have to patrol.

I recall a few months back when our officers manned a stakeout that lasted almost 60 hours without any sleep or very little rest. They accomplished their job without any praise.

Now you might say, "well he gets paid for the job he is doing and if he doesn't like it he can quit." This is true. They

really don't want any praise or glory,

and they accept what they do as pe

day's work. The work they do may not be digging ditches or other to certain amount of strain on a dividual and his family. They is and need a certain amount of its that my friends, is what our con-enforcement officers are not a enough of. It is my opinion is deputy sheriffs are not getting pay for the hours they put in a danger that they are exposed in We have been lucky for be

several years to have a good con enforcement department.

I could compare this departs other counties and this handful a would make other department sick. We need more dedication is our police forces and the only say it is to pay a living wage that is parable to other wage scales. done we in this county will enjoy greater peace than we now hat.

Think it over, and the next implement that the search of the s

live in peace and are protect small handfull of underpaid is forcement officers who may at had any sleep in the past 24 hours said.

Solutions To Cotton Diseases Sought By

Scientists at the Texas Agricultural Experiment Station at Lubbock say that research is turning up some answers to preventing heavy cotton losses on the South

Two diseases known as rootknot nematode and fusarium wilt, which often combine to wipe out entire crops on the High Plains, have been found vulnerable to soil fumigation practices using control chemicals, says Dr. Calvin

periment Station, Orr says that field studies conducted from 1965 to 1972 in ten counties on the South Plains reveal that soil fumigation can increase cotton production yields an average of 150 pounds of lint per acre.

"Root-knot nematodes appear as galls or knots on the roots of cotton plants," he explains. "They cause a stunted growth pattern wilt will spread through the entire plant causing it to turn yellow and eventually die," he

According to the researcher, the best results in abating these problem diseases were control practices which used soil fumigation.

"We applied the control chemicals using one chisel per row in soil with adequate above 50 degrees.

tice," he points out, "is pure economics. The total cost is less than four dollars per acre. and that alone should be

enough incentive for saving a promising cotton crop." Turning to fusarium wilt, Orr explains that the disease is much like a side effect of the nematode disease.

"Total crop losses have been known to occur when

both diseases attack the

Research Scientists brought under control.

"Some cotton varieties," continues Orr, "have a tolerance to the nematodes. However, many of these varieties are open-boll types and typically have a weaker fiber strength.'

Rotating to grain sorghum was found to reduce nematode infestation in some cases, he adds. The sorghum is more tolerant to the disease than cotton or vegetable crops.

Morton Over Wolverines, 18-6

The Morton Indians (future district opponents of the Littlefield Wildcats) defeated the Springlake-Earth Wolverines 18-6 in the season opener for both clubs.

All the scoring was confined to the first and fourth quarters as Morton held a 6-0 lead through two scoreless periods.

In the fourth quarter however, Morton scored first to make it 12-0 and then Wolverine Doug Jones put some points on the board to make it 12-6. The extra point attempt was missed and later in the quarter, Morton scored once more to make the final

Punt, Pass, Kick Competition Registration Underway

Registration has begun for the 1973 Punt, Pass and Kick Competition in the showroom of Carlisle-Oldham Ford In making the announcement. Joe Carlisle said: "We're looking forward to a big local

PP&K competition in Littlefield. "We hope all the youngsters 8 through 13 years of age in this area will come in to register and take part." Carlisle pointed out that PP&K-throughout its six

levels of competition-is free of any charge, and that youngsters need only have a parent or guardian accompany them to the

showroom to register. "Our competition here will

have first, second and third place trophies for contestants in each of the six age groups, or 18 trophies in all," Carlisle said. "Increasing each entrant's chances of winning is the fact that youngsters compete only against others in their own age group.

"Of course there is no body contact in PP&K. It's punting, passing and place kicking for distance and points, just as the name says. First place winners in each age group in our competition will go on to the Zone competition. And from there, top winners go on up the ladder through District, Area, Division and National Finals," he said.

"This year, the national finals will be held at the Super Bowl in Houston Jan. 13. Naturally, we hope some of our Littlefield PP&K winners will make it all the way to the Finals.

The Ford dealer further explained that each entrant, upon registering, receives a free PP&K Tips Book. In the 1973 edition, there are competition tips by NFL stars Jerrel Wilson, Norm Snead and Chester Marcol plus allround suggestions from head coaches Don Shula and Dan Devine. The Tips Book also includes complete PP&K rules and helpful conditioning exercises for contestants.

PP&K registrations will close at Carlisle-Oldham Ford

This is the 13th anniversary year for PP&K. From its inception the youth activity has been sponsored by the Ford Dealers of America and the National Football League. In that time more than 9,350,000 youngsters have taken part in PP&K, making it the largest and fastest growing activity of its kind in America.

For the record, Littlefield had 19 first downs to the Owls

one. They amassed 255 yards on the ground and 99 through the air, while Silverton went 37 and 49. Littlefield punted once, Silverton nine times

Cushion rushed for 104 yards on 13 carries and two touchdowns, while Ratliff was next for the Cats with 53 yards and one score.

Anton Over Sundown, 21-6

ANTON-Tailback Donald Wills scored two touchdowns Friday night as the Anton Bulldogs beat the Sundown Roughnecks, 21-6 in a season

Wills drove one yard for an opening period touchdown, capping a 30-yard march, and Halfback Pete Casell skirted end for a two-pointer for the Bulldogs.

Sundown halfback Mike Waygood scampered 10 yards for second-period score, climaxing a 50-yard drive, but a two-point conversion run failed as the Roughnecks trailed 8-6 at halftime.

Anton bounced back in the third period on an eight-yard scoring dash by Wills, but the extra point try by tackle Danny Spradley failed. Linebacker Danny Bishop

iced the game for Anton with a pass interception and 35-yard scoring runback in the fourth period, and Spradley converted.

Anton piled up 187 yards on the ground and 32 in the air, while Sundown amassed 82 yards rushing and 187 yards passing.

board in the second frame with 10:36 left on the clock. Stanley Miller bruised one yard for the TD after the Bulldogs gained possession on recovery of a fumble. Butch Sutton kicked the extra point to make it 7-0, Amherst.

Sudan went ahead in the second quarter with 7:31 on the clock. Danny Williams posted a one-yard TD and Pat Hedges ran for two extras for the margin of 8-7. Amherst picked up a safety

and two tallies for the lead again in the third when a bad snap from center went over a Hornet back's head and out of the end zone. This occurred with 5:51 left in that third quarter.

Amherst put it on ice in the fourth as Sutton scored on a two-yard plunge with 2:02 showing. The extra point try failed

Sudan, got six first downs, 102 yards rushing and zero yardage passing. Amherst ledgered 16 firsts, 262 yards

STANLEY MILLER (20) of Amherst gets a good block and runs for long yardage in the Bulldog's 15-8 win over Sudan Friday. Miller scored Amherst's first touchdown from the one. (Staff Photo)

NEWS FROM ENOCHS

GRANDMA HARDIN, mother of Mrs. Guy Sanders of this community has been ill in the West Plains Hospital in Muleshoe. She is much improved, and has been taken to her room in the Nursing Home. Her children have all been to see her and this has cheered her up.

MR. AND MRS. J. W. Layton visited her sister, Mr. and Mrs. H. H. Snow. Bill Snow from Fresno, Calif. was visiting there also.

JUNIOR MILLS of Muleshoe and Ennis Mills of Los Alamos, N.M. visited Rev. and Mrs. Charlie Shaw. They also attended preaching services at Enochs Baptist Church. The men are cousins of Rev. Shaw.

LINDSEY BATES who had a serious fall several weeks ago and suffered several breaks in his leg, is improving and is able to be up some.

MR. AND MRS. Harrold Nichols and her niece and nephew Missy and Hudd Boyd from Idalou visited their mother, Mrs. L. E. Nichols and son Gary last Sunday night a week ago.

HOMER BRUTON, one of the teachers of Bula, has been hospitalized in Cochran Memorial Hospital and is recovering from a case of pneumonia. He has been able to be back at school this week.

MRS. ALMA ALTMAN was one of many who enjoyed the Pioneer Reunion at Littlefield the 28th of August. Mrs. Altman and her family came here from Langdon, N. Dak. Dec. 19, 1915. Her family was one of the Mennonite congregation that moved here from the northern states. "It was a real joy to see so many oldtimers. The barbecue was delicious, but best of all was the good program and the fellowship," Mrs. Altman said.

MR. AND MRS. Junior Austin and children spent two weeks in the Northeastern States. The highlights of their trip was the Pennsylvania Dutch Country, Niagara Falls, and historic places in Washington, D. C. and New
