Leon "Tuffy" Dent presented Outstanding Farm Family of the Year awards to the Chuck Smith family at Lazbuddie, the Otis Ray King family at Springlake and the Richard Bills family at Earth. Dent designated them "Great American Farmers" as that song played in the background.

Mary Kate Belew bequeathed the Outstanding Woman of the year title to LaJuana O'Hair for her sincere interest in youth, schools, P-TA work, church work, FFA, 4-H and other community activities including spearheading community drives. "The word 'no' is not in her vocabulary," Mrs. Belew said in making the presentation.

Eddie Bob Belew presented "Cameraman" Harold Britton Outstanding Man of the Year honors. Britton is a 25-year resident of Earth.

"His family grew up here and grad-uated here," Belew said. "He is an active booster in school, track and helped secure our stadium. He was the first one here when Little League baseball was organized. He was coach. umpire... He was the first here when Little Dribblers was organized. He worked with the boys and helped the girls. He has been on the fire department 20 years. He is still active in all community projects even though he could be retired," he said of

Cats to challenge meet records, 17 area schools in relays here

The Wildcat Relays will have 18 teams competing Saturday in the three

The varsity boys are expected to make a run for the title. The varsity girls and the freshmen boys will open their seasons with the meet.

Teams competing in the track carnival will be Amherst, Sudan, Muleshoe, Friona, Dimmitt, Shallowater, Frenship, Bovina, and Olton.

Other teams competing in addition to the hosts will be Morton, Springlake-Earth, Idalou, Hart, Farwell, Plains, Lockney, and Whitharral.

The preliminaries will begin at 9:30 a.m. and the finals will begin at 1:45

Based on the performances of the Wildcats at last week's Cub Relays, Littlefield stands to challenge at least four meet records.

Bill Turner could crack the record in the 440 yard relay. The meet standard is 52.3. Last week Turner ran the quarter in 51.9.

Rick Hopping may set a new record in the discus. The record stands at 150'6". Hopping recorded 147'2" last

Depending on the injury situation, both relay teams could better the meet records. The 1973 Littlefield teams holds the 440 relay record with a 44.8 time. The 'Cats turned in a 45.5 last

The mile relay mark is 3:33.3. The Littlefield team posted a 3:38.3 time

The meet began in 1969 and several marks set that year still stand.

Commissioners tabled decisions on Lamb County joining SPAG and the purchase of a new ambulance for the city of Littlefield when the court met for its regular end-of-month session

Proposed 15 percent increases of salary for elected officials were approved, and advertising for bids for less than a mile a pavement near the denim plant connecting Highway 54 to 84 by-pass were the only orders passed by the court Friday.

In a long and interesting meeting, several matters were taken under consideration by County Judge Ruth Kirby and county commissioners Jack Peel, Hubert Dykes, A. J. Spain and Clarence Kelley.

Several officials from South Plains

City Council meets tonight

The City Council of Littlefield will meet tonight at 7 in the council chamber of city hall for their regular first of the month meeting.

Included on the agenda are five items of business.

Old business matters will be the consideration of an ordinance establishing a water and sewer extension

For new business, councilmen will

consider the waiver of interest on 1960 paving lien on Lot 1, Block 11 of the Original Town.

Councilmen will also consider awarding a bid for refuse containers: will hear Glen Johnson from the Texas Highway Department as he presents an Urban Systems Map prepared by the Highway Department; and will hear representatives from General Telephone Company as they discuss rate negotiations.

Lubbock, and Paul Carmichel, a Littlefield city councilman who is first vice president of SPAG explained the benefits and workings of SPAG. FOUR FROM SPAG

In introducing the guests, Judge Kirby said "Lamb County has said no to SPAG in the past. Did we really mean it? Do we want to change our minds?

Carolyn Jordan explained how joint purchasing works through SPAG. Lubbock has saved over \$100,000 by joining other towns and counties in purchasing various equipment.

Judge Thompson said councils of government are a way of life now and he doesn't think it is going to change. He told how Cockran County got their radio and teletype equipment, gas line, and help on solid waste disposal by working through SPAG.

'If Congress hadn't started this and the various governors taken it up, we might be able to get by without it. But things come up where you need help and usually the first thing that has to be done is clear them through the council of governments. This will continue to be necessary until the federal government packs up and gets

'I feel like we should all be working at the same things together.

WATER LINE THROUGH SPAG

Paul Carmickle told how Mike Lumsden, one of the engineers and members of the SPAG board, located a fund to help provide a water line to the spinning mill. "We got our application in and got \$5,000," Carmickel added. "If we hadn't, we would have had to raise the money through taxes or contributions because we'd promised the water.

"The Littlefield police department and sheriff's office radio and teletype communications are through SPAG. SPAG helps in many ways people aren't aware of. When Littlefield is helped, this helps Lamb County. We should all be in this together.

Truitt Mayes told how SPAG crosses city and county lines without regard in this mobile society. "The federal government is asking local people to have a say in the way federal tax dollars are being spent.

LOCAL PEOPLE HAVE SAY "Through SPAG these funds are spent to the best advantage. The local people are responsible for spending tax dollars without duplication and overlapping. SPAG helps get these

funds where there is a need. Dues are five cents per person in the county. Dues paid in cost less than certifying policemen and deputies as required by state law.

Areas covered include projects to reduce crime, health programs, aging programs... SPAG is being asked to set priorities on \$3.2 billion dollars earmarked for welfare. SPAG programs include housing, water and sewage planning, summer youth programs, Manpower funds, parks, recreation, expanding small industries.

"We don't work on any project elected officials don't think are needed. Dues are spent to get matching funds for various grants like alcohol and drug abuse programs."

NEW AMBULANCE ASKED FOR In the absence of city manager Jim

Blagg, no action was taken toward purchasing a new ambulance and for salaries and wages to man ambulance

Lamb County spent \$19,234 dif-

ference between what the city collected and total cost of operating ambulance service this past year. Over the county, the cost is about \$35,000 or approximately \$2 per person. The city of Littlefield said the present equipment is breaking down and a new ambulance is needed.

ALTERNATIVES SUGGESTED

Commissioners discussed various ways to offset the money necessary to operate ambulance service. Among the alternatives offered was asking families to subscribe to ambulance service and subscribers would not pay if they or a family member needed an ambulance. Non-subscribers would

Another suggestion was asking the city of Littlefield to share in the cost

In other matters, the name of Raiford Daniel Jr. of Earth was drawn to serve on the Salary Grievance Committee. James E. Gallegher's name was drawn recently and he declined to serve.

NEW RADAR APPROVED

Texas Highway Patrolman Ray Cannon asked the court to provide the DPS unit here with a new radar and repair a second radar set. The court agreed to buy a radar unit costing \$2,185, and repair the present unit.

Bill Coleman from the state welfare office asked the court to provide foster care assistance for a family of needy children.

A report was accepted from the High Plains Library Bookmobile. The next regular meeting will be

FINE KETTLE of fish we've got up Washington way! The President's lost in politics, and Congress has lost itself in tryin' to buy prosperity, friendship and votes with deficit spending. *****

ONE OF THE THINGS comin' out of Congress is the revival of the ol' WPA program. Government made jobs to occupy the time of the indigent.

These were inaugurated during the "New Deal" to help welfarees save face. Oddly enough they were needed at that time! Those were some pretty proud people living back there. They didn't want something for nothing.

BUT THEN, ALONG with that came the "plow-up" program, killing of livestock for peanuts, and the NRA. This was the beginning of buyin' prosperity with government funds runds, of course, comin from the taxpayer, and the mint.

This is the only way the government can find-seemingly-to take from the rich and distribute to the poor. That, while piling more paper money into the till. The paper money thing has

HAVE BEEN DOING A BIT of thinking about the past publisher of the Leader-News and the new one who does all the "Square Shooting". If you recall, when Wade came to Littlefield and it seemed to rain for quite a spell, didn't think that we would see another bad day. Well, Wade has left and Jerry came, and if you recall, ole Jerry came in with the wind.

Just haven't had very many pretty and calm days since the guy who shoots from the hip came to town.

As a matter of fact, I can recall a couple of good old fashioned sand storms since he arrived. Sure hope that is not an indication of what the weather will be like.

The first presentation was given Wednesday, March 3, for the Lion's Club, and the next presentation will be for the junior high school March 5. The play will be presented to the public Monday night, March 8 at 7 p.m.

The play is set in the Western town of Langtry, Texas in 1885. Judge Roy Bean, played by Brad Banner, is the judge of Langtry, and wants to hang Orin Powers, played by Mark Roden. Cayo Claiborne, played by Todd Stafford, tries to help Orin by bringing Lily Langtry, played by Pam Parrott, to town.

Other cast members include Michelle Lowrance, Kim Wallace, Darla Nichols, Janice Cowan, Dana West, George Davis, Joy Eddins, John Shipp, Bruce Harlan, Karla McCanlies, Bryan Gregg, Cynthia Williams, Anita Johnson, Teresa Clark, Susie Giles, Mickey Oglesby, Ricky Walbrick, and Randy Hall.

Your attendance will be

appreciated and all proceeds go to help sponsor the Junior-Senior Banquet.

Politicians Rank Low In Survey

The following is the result of a survey conducted among students who were nominated to Who's Who Among American High School Students. 'Who's Who'' is an organization of the nation's outstanding high school teenagers.

The nation's outstanding teens plan to celebrate the Bicentennial by voting most political incumbents out of office next November.

According to a nationwide poll of high school juniors and seniors conducted by "Who's Who Among High School students," students have confidence in American governmental institutions, but not in those running them.

Eighty percent of the 22,300 students polled expressed either a "great deal" or 'some'' confidence in the U.S. Supreme Court, the Presidency, the two Houses of Congress and their state governments.

They will not stop at this, but THESE ARE THE MEN who do the cleaning up for everybody at LHS. They are from left Albert

By STEVE CRUZ

Who cleans the restrooms? Who is in charge of sweeping the rooms? These questions are rarely asked since everyone knows that a custodian does this all the time. However, many people still do not even know just who they are.

In a recent interview with the three custodians many interesting things were discovered.

Albert Williams has worked for L.H.S. for about four

months, and he thinks that L.H.S. is a good school. He thinks the students have a lot of spirit. Mr. Williams is married and

has three children, Pam 10, Rachel 6, and Angela 5. He also has twelve brothers and fourteen sisters. He enjoys as his hobbies,

singing and baseball, but he especially enjoys working. He says, "It keeps me busy. Lupe Aguilar has worked for

L.H.S. two years. He is married, and he likes his job at the school.

His hobbies are wrestling. boxing and doing odd jobs around the house. Mr. Aguilar moved to Littlefield from Plainview.

Ralph (Shorty) Roberts has been with L.H.S. for three and one half years. He is married and has two children, Terry 28 and Gary 23. He thinks L.H.S. is good since his two kids went to school here.

Before coming to Littlefield he was a cobbler, or as he put it, "a shoe overhauler."

His favorite hobby is fishing.

SELF RESPECT - WHAT PRICE?

Self respect cannot be hunted. It cannot be purchased. It is never for sale. It cannot be fabricated out of public relations. It comes to us when we are alone, in quiet moments, in quiet places, when we suddenly realize that knowing the good, we have done it; knowing the beautiful, we have served it; knowing the truth, we have spoken it. -Whitney Griswold

"These are the sorghums I'd ... plant if I farmed in this area."

Drouth, disease, insects, wind storms ... taking everything into account that can plague a crop in this area, these are the sorghums

It's my job to know which are the best varieties for each locale. in the states of Oklahoma, Texas and New Mexico. For the last five years I've had Crop Information Centers, Standard Comparison Tests and Uniform Strip Tests in this immediate area. In these carefully controlled tests. I've evaluated most of the sorghum varieties a farmer might consider planting. I've had the same headaches and frustrations you've had. My plantings have suffered the same weather conditions, epidemics and infestations yours have.

> Based on these tests, there is no doubt in my mind what I'd plant in 1976 if I farmed hereabouts.

8311

8311 is a champion producer of high test weight, yellow endosperm grain. Pioneer introduced this golden bronze hybrid three years ago and it's been setting yield records in this area ever since. One reason is its ability to yield in the face of too wet or too dry weather, insects or disease. Another reason for the high yields is that 8311 tends to adjust its maturity to the growing season in a particular area. Whatever else you plant . . . put in some 8311.

A WORD ABOUT GREENBUGS

Tolerance to both greenbugs and maize dwarf mosaic plus high yield potential give 8311 an economically significant advantage that you'll want to consider for your grain sorghum crop in 1976.

One of the highest yielding sorghums you can plant, 828 responds well to good management on good land with plenty of water. This full-season variety has sturdy stalks and semi-compact heads of dark red grain. It holds its quality and threshes well even after an early freeze or snow. 828 is especially popular on the Plains. Its stalks and leaves provide excellent winter forage after harvest.

THE CORN **HYBRIDS**

FOR THE

SOUTH PLAINS

Everyone knows the top corn hybrid for this area. PIONEERs brand 3369A is the most planted hybrid in Texas, Oklahoma and New Mexico. Not everyone realizes, however, that there are other PIONEER hybrids that do as well as this famous one . . . even beat it in some respects. You should consider them too. They'll help you get exactly the right hybrid mix for whatever mother nature has in store for this

This hybrid is grown on more acres of Texas. Oktahorna and New Mexico corn land than any other variety. It has set yield records year after year. 3369A has excellent seedling vigor, good roots, stalks and ear retention and excellent to erance to blight, plus it dries fast and shells easily.

An exciting new hybrid that has an even greater yield potential than 3369A. The added yield potential comes, in part, from a little later maturity while having the root and stalk strength to stand until harvest. It stays green later. too. This one can add significant profit to your corn crop.

Another new, good yielding hybrid. It's a little earlier than 3369A with exceptionally fast dry down. It has made from \$9 to \$12 more profit per acre than ordinary hybrids because of its fast dry down. It has long stender ears on small. hard cobs . . . really great for combining.

VA benefits tax exempt

Recipients of benefits from the Veterans Administration are reminded that these payments generally are exempt from taxation and need not be reported on federal income tax returns.

Major tax-exempt VA benefits include compensation, pension and educational assistance, including subsistance payments to vocational rehabilitation trainees.

Also exempt are grants to military service-disabled veterans for specially-adapted homes and automobiles and clothing allowances paid to service-disabled veterans whose prosthetic devices result in undue wear and tear on clothing.

Interest accrued on government life insurance dividends left on deposit or credit with the VA is not exempt and must be reported on federal income tax returns, Jack Coker, Director of the Waco Veterans Administration Regional Of-

fice, added.

Dividends and proceeds from government life insurance policies are exempt from federal income tax, but the proceeds are subject to federal estate tax, Coker added.
