## TAKES ED HALEY AROUND WORLD

# Hobby Is Rewarding

By NILAH RODGERS

Ed Haley belongs to that rare breed of individual who is cussed, discussed and jeered at in the same breath by hundreds and thousands of people.

While this Earth man isn't always in the most enviable of positions, he says he wouldn't trade his 40 years of refereeing for anything.

"The people I meet and work with have got to be the greatest," he said, "because they are dealing with our most precious commodity—youth!"

Those who work with Haley feel Haley is the greatest, too, because this infinitely patient, modest, kind-voiced man is the recipient of the highest honors a referee can receive.

Haley is one of only seven persons elected honorary life member of the Southwest Basketball Officials Association (SBOA). That's the highest honor the association can pay one of its members. Twelve hundred coaches from high schools across the state of Texas made the presentation.

Haley referees the big games before crowds of up to 15,000. "The more people

Sudan 4-H'ers captured two out of three grand championship trophies and banners at the annual Littlefield Area Junior Livestock Show in Littlefield Friday, and walked away with part of the top money during the sale Saturday afternoon.

Troy Wayne Moss showed the grand champion lamb and Jim Fields' steer captured the grand championship steer's title.

Ricky Stamps of the Littlefield FFA exhibited the grand champion swine of the show.

The grand champion lamb was a heavyweight Hampshire, weighing 106 pounds, and was raised as a Sudan 4-H project.

A 1,184-pound Angus steer won the grand championship title for Jim Fields, a Sudan 4-H'er.

The grand champion swine of the show was a 200-pound Duroc gilt, and was raised as an FFA project animal.

Reserve grand championship trophies and banners were awarded to Stephanie Carter's 97-pound middleweight Hampshire lamb, Gary Lichte's 207-pound Hampshire gilt, and to Brad Walden's 1,158-pound Hereford-Angus Cross steer.

Miss Carter's lamb was raised under the guidance of the Amherst FHA, and Lichte's gilt and Walden's steer were both Littlefield 4-H project animals.

Youngsters from the Amherst, Spade, Sudan and Littlefield 4-H, FFA and FHA chapters showed their project animals in the show, and sifting was done by the judges in the ring at showtime.

Jerry Stockton of Frenship served as sheep judge, and made critiques on the animals as he placed them.

Judging the swine division was Dr. D. Tribble of Texas Tech University, who sifted, shuffled and made decisions on 114 animals in five breeds and 11 classes.

Jim Jenkins of South Plains College said he was "impressed with the quality of your cattle," and admitted he had a hard time making a decision on the top animal of the steer division. He analyzed each animal for the youngsters and spectators as he placed them.

The sale was underway at presstime Saturday afternoon. Results of that portion of the show will be published Thursday.

## Farmers Get Warning

County Attorney Curtis R. Wilkinson once again has reminded Lamb County farmers to be careful in making cash advances to their employees. He stated there are so many cases where a farmer is contacted by a prospective employee who offers to go to work if he can draw an advance.

Sometimes the advance is needed to pay the ex-employer, or just for moving expenses. Some of these employees never even show up. Others will work for a few days and then take off leaving the farmer holding the bag.

This week a Spade area farmer advanced a new employee some \$300. The employee worked about one week, and left in the night. This same employee obtained credit from a local grocery store on the basis that he was employed by the named farmer.

In 99 per cent of the cases no criminal charges can be filed and the farmer is left holding the bag—a worthless bag—Wilkinson said.

Many times a farmer can check with the sheriff's office or police department in

advance and find out something about a prospective new employee.

The county attorney says he is aware that it is hard to find a good hand and in most cases the farmers require no references before putting a man to work. He added that it sure could pay dividends if the farmer would go to a little trouble before employing a new hand, especially if he is going to advance some money.

Wilkinson further stated that his office has many complaints from farmers who co-sign notes in order for their "new" employee to borrow money from the bank to purchase a car or furniture. The employee suddenly leaves and the farmer winds up having to pay off the note.

"Most employees are honest and will do just what they say they will do," Wilkinson said, "but there are enough rotten apples to be cautious."

## Girl Recuperating From Cycle Mishap

Tina Black, 10-year-old daughter of Mr. and Mrs. J.C. Black of Littlefield, will be moved from the intensive care ward at Lubbock's Methodist Hospital today.

She suffered a broken leg and internal injuries while bicycling Wednesday evening when she was struck by a 1963 Chevrolet driven by David Lee Tinsley of Littlefield.

According to the investigating officer's report, Tinsley stated that the sun was in his eyes while he was driving westward down West Third Street, and didn't see Tina on her bicycle until he hit her.

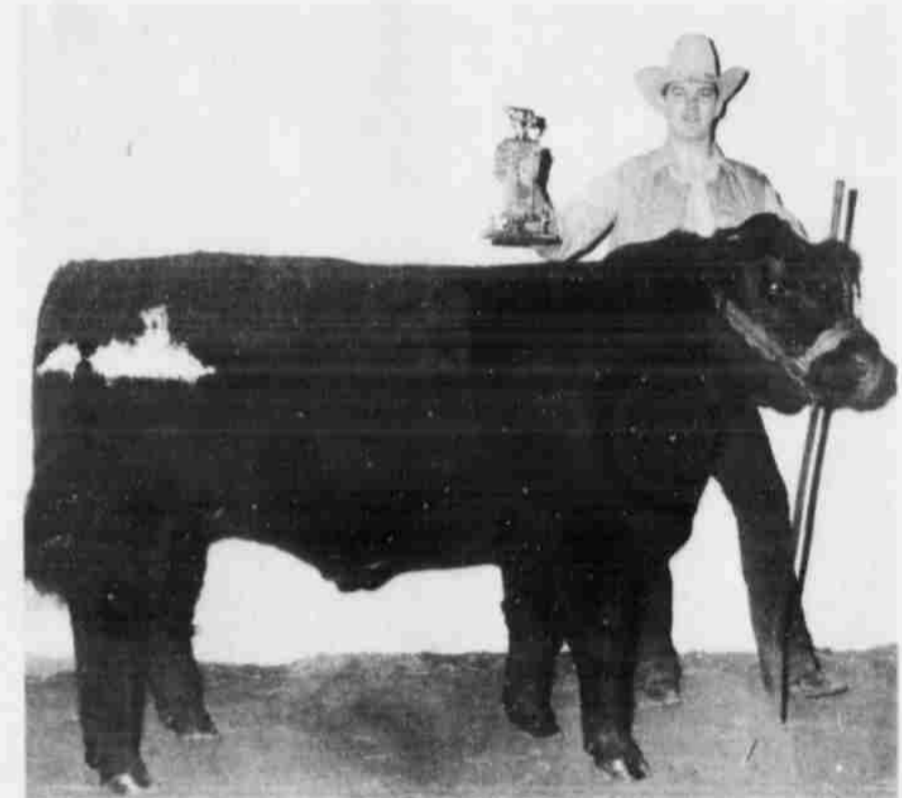

Tina was taken to Littlefield Hospital by Hammons Ambulance, and was later transferred to Lubbock.

## Miss Hopper Bride Of Jerry Reagan

MR. AND MRS. LONNIE GOOLSBY

Before an altar centered with a candelabra, flanked by white mums, tied with deep purple ribbons, Miss Alice Ann Hopper became the bride of Jerry Albert Reagan Jan. 14, at Parkview Baptist Church of Littlefield.

Rev. R. N. Tucker officiated for the reading of the double ring wedding vows.

The bride is the daughter of Mr. and Mrs. Troy A. Hopper, and the groom is the son of Mr. and Mrs. Bruce E. Reagan, all of Littlefield.

Given in marriage by her father, the bride wore a white lace on satin traditional gown, featuring a fitted bodice with a softly gathered skirt, and long fitted petal-point sleeves. Her veil of white illusion tulle was caught to a bow headpiece, and trimmed with white lace. The veil was borrowed from her cousin, Mrs. Linda Davis. She carried a bridal bouquet of white sweetheart roses and stephanotis with an orchid corsage nestled in the center.

For "something old" the bride had a 75 year-old, handmade linen handkerchief, from Switzerland, tucked in her bridal bouquet. "Something new" was her wedding gown; "something borrowed" was her veil; and the traditional blue garter served as "something blue." She had a "birthdate" penny in her shoe.

Musical selections of "True Love," "Twelfth Of Never" and "Whither Thou Goest" were sung by Jodel Halford of Lorenzo, cousin of the bride. Instrumental selections of "Bless This House" and "The Lord's Prayer" were presented by Jean Parkman of Littlefield.

Arlita Stephenson of Lubbock, sister of the groom, attended the bride as matron of honor. She wore an orchid crepe dress, designed with short sleeves, an Empire waist and accented with violet velvet ribbon. Her headpiece was of orchid tulle net, tied with violet ribbon. She carried a white mum.

Mrs. Loma Bear of Lubbock, cousin of the bride, registered the guests.

The candles were lighted by Leslie Bear of Lubbock.

Brent Robison and Mike Hopper, both of Littlefield, seated the guests.

Bob Stephenson of Lubbock served his brother-in-law as best man.

The bride's mother, Mrs. Hopper wore a gray striped silk dress and coat with gray accessories. Mrs. Reagan wore a pale blue double knit dress with winter white accessories. They both wore a white orchid corsage.

A reception followed the ceremony in the fellowship hall of the church. Presiding at the serving table were Miss Brenda Jolley of Tulia, niece of the groom, and Miss Patricia Sanders of Littlefield.

For a wedding trip to Clovis, N. M., the bride wore a baby pink pantsuit with white lace trim, white accessories and the orchid lifted from her bridal bouquet.

The bride attended South Plains College in Levelland, and a member of Sigma Mu Epsilon sorority.

The groom attended Denver Automotive Institute. He served two years in the U.S. Army; one year at Ft. Monroe, Va.; and one year at Heidelberg, Germany. Reagan is presently employed at Armes Chevrolet in Littlefield.

## Bookmobile Has New Books

New books now on the shelves of the Bookmobile Library include:

"Life, Wonderful Life" by Edith Morris. It is an autobiographical novel set in Sweden and it's a celebration of life's joys and sorrows.

Dorothy Gilman is back with another lighthearted tale of espionage. "The Elusive Mrs. Pollifac." You'll like it as well

as you did "The Amazing Mrs. Pollifac" and "The Unexpected Mrs. Pollifac."

In our Gothic romance and suspense, Ane Maybury has a new book "Ride A White Dolphin." Visiting her husband's aunt in her magnificent home in Venice, Leonie Thorburn suddenly becomes the victim of a series of strange accidents. Adding to her horror is the suspicion that her husband has taken up with the glamorous opera singer. Her other books are "Terracotta Palano" and "The Minerva Stone."

You'll love this new non-fiction book by Frank Gilbreth, J. "Time Out For Happiness," is a new story of the Gilbreth family. This is an informal, unretouched portrait of a loving mother who handled the problems of marriage, family, and a career with skill and serenity. From her childhood in Oakland, Calif. to becoming one of the nation's leading authorities on home management and aid to the handicapped, the story of Lillie Gilbreth is a proud and triumphant climax to the Gilbreth saga. Other books about the family are "Cheaper By The Dozen" and "Belles On Their Toes."

"Around Our House" by Janice Holt Giles is a non-fiction story of the Giles' daily lives, covering the years from 1954, when they left the farm described in "40 Acres And No Mule," to 1970. An account of a happy marriage, enriched by a shared love of land and home and friends and family.

"Bury My Heart At Wounded Knee." An Indian history of the American west by Dee Brown. From the moment Columbus dubbed indigenous North American "Indians" the white men's intent has been to turn the red man to our ways. This is the first authoritative history in several years, which underlines the growing interest in Indian culture and survival.

## Janet Dusek Weds Randall Roy Hutson

Miss Janet Marie Dusek became the bride of Randall Roy Hutson Saturday, Feb. 26, with Rev. Clifford Schmidt performing the double ring ceremony at the First English Lutheran Church in Victoria. Clarence Felger played traditional wedding music.

The bride is the daughter of Mr. and Mrs. Melvin Dusek of Victoria, and Hutson is the son of Mr. and Mrs. Roy Allen Hutson of Littlefield.

Given in marriage by her father, the bride wore a gown of ivory satin. The moulded empire bodice veiled with imported lace applied on English net was fashioned with a high fitted neckline forming a narrow V in back accented by a small shaped bow. The long fitted sleeves of lace were edged at the wrist by a narrow flounce of the lace accented by a tiny bow of satin. Tiny seed pearls traced the pattern of the lace.

The slim A-line skirt swept to a wide chapel length wateau train enhanced by motif appliques of the jeweled lace. Her veil of imported ivory silk illusion extended beyond the length of her train from a small shaped coil of matching jeweled lace complimented by a full shoulder length tier. She carried a bouquet of stephanotis, alba orchids, ivy, and pink roses.

Mrs. Craig Scott served as matron of honor. Bridesmaids were Mrs. Audie Long, Miss Rosalind Ramsay of Dallas, Mrs. Don Laux of Houston, and Miss Stormy Borum of New York.

The attendants wore gowns of pink chiffon. The moulded semi-empire bodice accented by ivory lace and burgundy ribbon was fashioned with a high fitted neckline and long full sleeves caught to the wrist by a wide cuff. The softly gathered skirt edged at the hemline by the burgundy ribbon to floor length. They wore matching burgundy bows with floor length pink veils. They carried nosegays of pink roses and hyacinth.

The mother of the bride wore a full length princess lined silk alaskine gown in candlelight pink. The gown was designed with a high neckline, empire bodice and long tapered sleeves completely jewelled.

The mother of the bridegroom wore a formal floor-length dress of miramist mauve saki. The moulded bodice was fashioned with a rolled scoop neckline and three-quarter length sleeves. The princess waist was controlled by a self-corded criss-cross braided frog closure. In the back the A-line skirt featured flowing built-in deep sweep folds attached to a high-rise waist.

Kevin Hutson attended his brother as best man and groomsmen were Jeff Baker and Johnnie Robinson of Austin; Jim Hibbetts of Dallas; and Nevill Manning of Lubbock. Ushers were Milton Dusek Jr., and Thurston Witt of Dallas; Eric Melgren of New York; and Jack Busiek of Houston.

## Memos From A Youth

1. DON'T SPOIL ME. I know quite well that I ought not to have all that I ask for. I'm testing you.
2. DON'T BE AFRAID TO BE FIRM WITH ME. I prefer it: it makes me feel more secure.
3. DON'T LET ME FORM BAD HABITS. I have to rely on you to detect them in the early stages.
4. DON'T MAKE ME FEEL SMALLER THAN I AM. It only makes me behave stupidly "big."
5. DON'T CORRECT ME IN FRONT OF PEOPLE IF YOU CAN HELP IT. I'll take much more notice if you talk quietly with me in private.
6. DON'T MAKE ME FEEL MY MISTAKES ARE SINS. It upsets my sense of values.
7. DON'T PROTECT ME FROM CONSEQUENCES. I need to learn the painful way, sometimes.
8. DON'T BE UPSET WHEN I SAY "I HATE YOU!". It isn't you I hate but your power to thwart me.
9. DON'T TAKE TOO MUCH NOTICE OF MY SMALL AILMENTS. Sometimes they get the attention I need.
10. DON'T NAG. If you do, I shall have to protect myself by appearing deaf.
11. DON'T FORGET THAT I CANNOT EXPLAIN MYSELF AS WELL AS I SHOULD LIKE. This is why I am not always very accurate.
12. DON'T MAKE RASH PROMISES. Remember that I feel badly let down when promises are broken.
13. DON'T TAX MY HONESTY TOO MUCH. I am easily frightened into telling lies.
14. DON'T BE INCONSISTENT. That completely confuses me and makes me lose faith in you.
15. DON'T TELL ME MY FEARS ARE SILLY. They are terribly real and you can do much to reassure me if you try to understand.
16. DON'T PUT ME OFF WHEN I ASK QUESTIONS. If you do, you will find that I stop asking and seek my information elsewhere.
17. DON'T EVER SUGGEST THAT YOU ARE PERFECT OR INFALLIBLE. It gives me too great a shock when I discover that you are neither.
18. DON'T EVER THINK IT IS BENEATH YOUR DIGNITY TO APOLOGIZE TO ME. An honest apology makes me feel surprisingly warm toward you.
19. DON'T FORGET HOW QUICKLY I AM GROWING UP. It must be very difficult to keep pace with me, but please try.
20. DON'T FORGET I LOVE EXPERIMENTING. I couldn't get on without it, so please put up with it.
21. DON'T FORGET THAT I CAN'T THRIVE WITHOUT LOTS OF UNDERSTANDING LOVE, but I don't need to tell you, do I?

## PHILOSOPHER

### Problems Ahead

(Editor's note: The Sandhills Philosopher on his Johnson grass farm examines a small part of the new U.S. China relationship in his letter this week.)

Dear editor:  
As I understand the news from China, although at first all the news we could get was the newspapers over here reporting that the newspapers over there had, on the second day, discovered that President Nixon was there, at any rate, as I understand it, a new cultural relationship now exists between China and the United States.  
Naturally, a cultural relationship is based on one nation's respecting the other's cultural practices, and there's one point that has me worried.  
It's chop sticks.  
I understand President and Mrs. Nixon practices several weeks and—I saw it on

television—managed to handle the sticks fairly successfully. But that was with Chinese food.  
Now you take American food, that's going to be a different story. Show me the man who can eat soup with a set of chop sticks.  
Ice cream? At first, when it's still fairly firm, I suppose an expert could dig in all right, but when it starts to melt, and an experienced ice cream eater knows ice cream tastes even better when it starts to melt a little, then you're going to run into real trouble, although I guess an ingenious person would follow the sticks out and when nobody was looking use them as straws.  
I won't even imagine what'd happen to a man armed only with chop sticks and confronted with a T-bone steak, not to mention poached eggs or cornflakes.  
It seems to me there may be more problems with this cultural exchange than some people anticipated.  
Yours faithfully,  
J.A.

## HONNY GITS

By CORNBALL BLEVINS

WOULD LIKED TO have seen Bob Lilly when he came through Lubbock last week. Let's see, who was that with him? — Was it Barnes?

SEE WHERE Gov. Reagan is unhappy about his high court outlawin' capital punishment in his fair state of California. Don't know what he's so upset about, California has long thrived on the tourist trade and its welfare program. Looks like this would be an added attraction.  
Shux, what better could you ask? — A top welfare program, plus light punishment in case you decide to do away with your mother-in-law. Yup, California has everything!

BEEN READIN' UP a little on that "NO FAULT" insurance. It's supposed to be cheaper. Make your ears itch to hear more?

Seems that if I'm involved in an accident, and it's no fault of my own, then my insurance people don't have to pay. If my car loses a wheel and said wheel goes through your plate glass window, they STILL don't pay! Reason bein', it was unavoidable, and, not MY fault.

OF COURSE, YOU may sue me and cause me to pay the damages, but said insurance company don't pay, 'til yet, because it's not THEIR fault.

Now, if I'm involved in an accident, and DON'T have insurance, that's MY fault. — However, if you just happen to be at the

place, and get in the way while I'm havin' an accident, that's YOUR fault!

NOW, I'M WELL AWARE that insurance companies can't operate like the federal government. They've gotta take in more in premiums, than they pay out in claims. That's about the only way you can run a business, and stay IN business. (However, that ain't OUR fault, besides, it's unamerican!)

Unless, that is, you can sell a bunch of stock to government officials. Then, if they sell at a profit, takin' the cream off the top, that's NOT your fault.

SEEMS TO ME, the more I UNDERSTAND about the deal, the less I like it! It may come to the point that it'd just be best if you weren't in the way when I'm havin' an accident. I might not have the money to pay the damages, and, that's not MY fault. Reason bein' that the IRS is bleedin' the ol' turnip pretty dry. AND, that's THEIR FAULT!  
— YEAH, I KNOW, that ain't YOUR fault. If you want'ta be further enlightened on this matter, just ASK me!

"NEW WALL SCALED BY NIXON", news headline. Is that kinda like bein' "On the Fence"?

HURRAH FOR OUR SIDE! Looks like we stand a chance to have our own lawyers on the school board! — (Good goin', fellows!)

## THE ABUNDANT LIFE

### Our Dividends

By BOB WEAR

LIFE PAYS DIVIDENDS on the right kind of investments. Some are received on short-term investments, and others come as deferred payments, but they are guaranteed.

THE MORE we put into learning to be skillful in self-improvement and self-management, the greater the dividends received from our personal experiences.  
This is probably the biggest pay-off, because it will be a significant factor in all other profitable returns.

THE MOST PRECIOUS of all possessions, is the power over ourselves; power to withstand trial, to bear suffering, to front danger; power over pleasure and pain; power to follow our convictions, however resisted by menace and scorn; the power of calm reliance in scenes of darkness and storms. — Locke.  
These are dividends which are never depleted.

WE RECEIVE RICH returns from the time and efforts invested in making the maximum contributions to a good home life.

These dividends will be increased by compound interest, the blessings of mutual love, concern, comfort and meaningful understanding.

"HOME IS THE RESORT of love, of joy, of peace and plenty, where supporting and supported, polished friends and dearest relatives mingle into bliss." — Thomson.  
What is a true friendship worth? Most of us can have one or two true friends. If we do, we are rich, because the continuing flow of dividends will enrich us.  
Of course, we must be a true friend in order to have true friends. This is the investment we make.

"FRIENDSHIP IMPROVES happiness, and abates misery, by doubling our joy, and dividing our grief." — Addison.  
We are always richer when we have dependable and discreet friends.

WE MUST HAVE WORK to do. This work will always be among our assets. There are so many needs in our lives that nothing but work can fill.

Both the work performed, and that which is produced by the work will be big when we count our dividends. Work is one of our greatest blessings.

ALTHOUGH LIFE IS LIMITED and uncertain, and is filled with difficulties and problems; the dividends in living are many.

The more nearly we can learn and act in accord with the true purpose of life, the greater the dividends.

IF WE SET ourselves against these true purposes of life, we choose the way of loss and disappointment.

Many persons even reach the conclusion that "life is not worth the living", and, as they speak for themselves, they may be right. They, however, do not speak for everybody.

"WE GET OUT of life about what we put into life" is a well-thought-out conclusion, and is generally accepted as true on the basis of common consent.

ONE FACT IS CLEAR, the dividends produced by many lives make living a rich and rewarding experience.  
This is happening all of the time.

OUR DIVIDENDS will be according to our investments.

## Thoughts For Today

(Read James 5:13-20)  
May God be gracious to us and bless us and make his face to shine upon us, that thy way may be known upon earth. — Psalm 67: 1-2

WHEN WE SPEAK of World Day of Prayer, our tendency has been to emphasize the last word in the title to the neglect of the first. It is hard to think of the world, of God's love for it, and our responsibility to it. For this reason prayer is more likely to be an escape into self-concern than a commitment to our brothers around the world.

Many persons, by training and habit, close their eyes when they pray. In our praying we might be more honest and effective if we had our eyes wide open to the pain, the perplexity, the poverty of the world; and our hearts open to God's direction for the healing ministry of the gospel.

Is it not unrealistic and unwise to pray for God's mercy while we do not distress we might relieve? The warning of the prophet is valid: "Woe to those who are at ease, those who feel secure, who are grieved over the ruin of Joseph."

PRAYER: God, as we are fathers, help us not to be satisfied in our comfort. Deliver us from many of Thy children suffer many kinds. For the sake of Christ.

THOUGHT FOR THE DAY  
As we proclaim the fatherhood of God, let us live the brotherhood of man.

## VEE Vaccination Campaign Underway

Horseowners throughout Lamb County are urged to "get the jump" on VEE, Venezuelan equine encephalomyelitis, the deadly sleeping sickness of horses.

All horses that were not vaccinated last year should be vaccinated as soon as possible, but the main campaign to immunize horses in the Lamb County area will begin around April 1.

It was less than a year ago that the disease swept into the state from Mexico, killing hundreds of horses in its path.

The 1972 campaign against VEE calls for vaccination of all equidae (horses, mules and donkeys) not vaccinated last year.

In addition to Texas, the vaccination campaign will include the Gulf Coast states and states adjoining Mexico. All these states have been designated "high risk" states by the U.S. Department of Agriculture.

Four categories of horses should be vaccinated now — (1) unvaccinated horses that have recently moved into the state; (2) foals born since last year's vaccination drive; (3) foals vaccinated under six months of age; (4) horses that were overlooked and never vaccinated.

Officials of the USDA's Animal and Plant Health Service believe that VEE will break out again even though the disease was confined to 25 Texas counties in 1971. So, it's important to vaccinate now before mosquitoes which transmit the disease emerge in the warm months ahead.

This year the vaccination program will be conducted at the horse owner's

expense. Commercial vaccination and must be administered by a veterinarian.

Vaccination will provide immunity more than a year and possibly longer. There is some doubt as to whether horses vaccinated last year, if they vaccinate again.

Texas is still under federal quarantine for VEE. Thus horses must be vaccinated for VEE at least 14 days before being allowed to leave the state's areas.

Horses for interstate shipment must be accompanied by a vaccination certificate with individual animal's identification tattoo or other means.

program. He told them he got out of it, he'd do it even if he didn't pay.

Haley officiated football in the he does basketball, until he was year. But of all the sports he played, basketball is the most demanding taken him the farthest.

He knows all sports inside-out. He boxed in 16 pro fights, but wasn't making any money out of fighting to go to college and get a degree.

Haley finished his B.S. at West Okla. in three years, then did his work in preventative and physical education at University of Oklahoma and Wisconsin and Oklahoma.

At 5'6" he says he was a "big" basketball player, but he played time I could jump and touch the basket. During his youth he spoke the dialect of the Indians he grew up around Oklahoma's Washita Indian name meant "Short Boy."

After graduation, Haley coached Anadarko football team to the championship.

During his four years as an officer he was with the 1st Cavalry command where he instructed in and parachute jumping. He played center field for his service and Hank Greenburg was his base man.

Haley still scouts for the AF of Service Tournament. In addition, it on himself to help place students he comes in contact with work. Last year he placed two at three at South Plains, one at Hammon at Southwestern and Oklahoma University. "Otherwise they could have pursued their education. They are appreciative."

Haley says refereeing is something has to be talked, not written. "Three officials got together and book it would be a best seller."

In one Oklahoma college game, a certain section was yelling that they see. During a break he walked the side and took cotton out of his ear. He said: "Besides not being able to 'blankity-blank' has his ears plugged can't hear!"

"Some of the remarks would tell," he said, "but I never official has to be as thick-skulled as are hard-headed."

## Easter Seal Appeal Beginning Monday

The 1972 Easter Seal Appeal will open in Lamb County Monday, Feb. 28, according to Doyle Patton, Jr. who serves as Easter Seal Representative for the county.

He said that Easter Seal appeal letters would begin arriving at homes in the county about Monday.

As Easter Seal Representative, Patton is the person to contact to request rehabilitation services from the Easter Seal Society for Crippled Children and Adults of Texas. These services include physical and occupational therapy, speech and hearing programs and special information services to help solve the many problems faced by the families of handicapped children and adults.

**Lamb County Veterans  
To Get \$27,000**

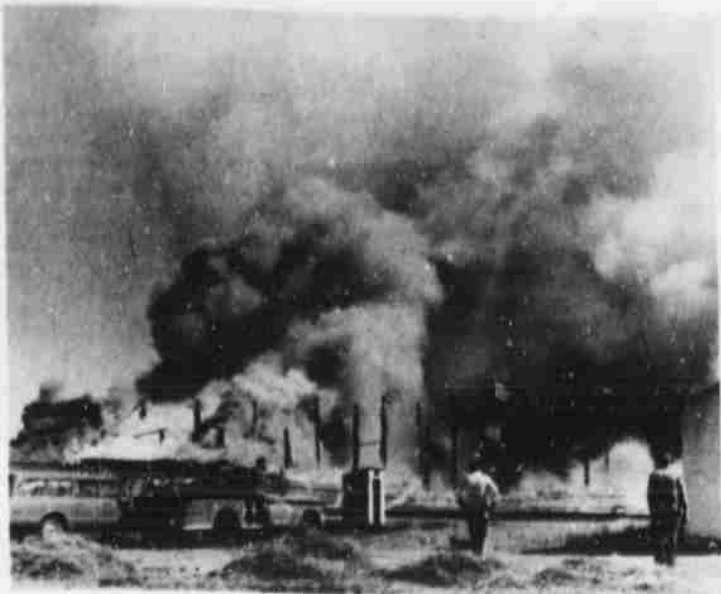

Now and the end of June, a total of 380, approximately, will be paid to some 380 war veterans in Lamb County.

Payment, representing dividends from under their GI insurance is being accelerated by the Veterans Administration. Normally, when such benefits are declared, they are paid on anniversary dates of the policies and last over an entire year.

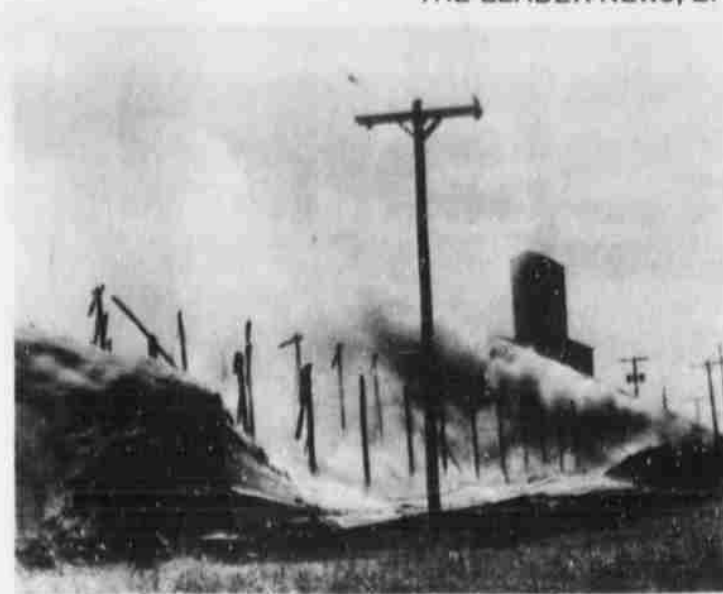

The speedup this year, local holders of such policies will share distribution amounting to \$286 million. It is \$11 million more than was expected.

Some of the recipients are holders of Service Life Insurance, issued to veterans in the second World War. Others who will share are veterans of World War who hold U. S. Government Life Insurance policies.

Some who saw service solely in the World War or in other engagements will

**HAIL FIGHT PLANNED**

**Weather Group  
Raising Funds**

Better Weather, Inc. met twice this week to complete plans for this year's hail suppression and rain stimulation program.

Letters are going out this week to solicit funds to support a third year in the pilot program of seeding clouds with silver iodide to prevent damaging hail during the growing season. In addition to suppressing hail, favorable thunder clouds will be seeded to stimulate rain.

Better Weather officials stated that no tornadoes have developed out of seeded clouds, either.

If Lamb County goes into the program again this year, \$30,000 must be raised by March 20th.

Because the program fell short of funds at the end of the growing season last year, Atmospheric, Inc., the California-based firm which is conducting the experiment, said all money must be paid in advance this year before a contract is signed.

In order to raise the necessary funds, farmers in the county are asked to pay a total of 25 cents for dryland and 50 cents for irrigated farm land. This is divided 12 1/2 cents per acre for landlord and 12 1/2 cents for tenant and 25 cents for owner-operator of dryland. Irrigated producers are asked to pay on a similar schedule of 25

cents for landlord, 25 cents for tenant, or 50 cents for owner-operator.

Payment of the funds is entirely voluntary. Better Weather officers point out that \$20 to \$80 per quarter section is very cheap insurance for keeping yields up. They added that future farm payments will be determined by actual farm yields, and that there has been very little hail in the area where the hail suppression program has been conducted for the past two years.

Three twin-engine planes have been used the past two years, if Lamb County or other areas go in with Hale County this year a fourth plane will be added to give better protection.

Hale County hopes to conduct the program even in the event no other farming areas join them. Hale County farmers will finance the brunt of the cost of the operation. A mail-out campaign is being conducted in that county, also. Hale farmers are paying 32 cents per acre for dryland and 64 cents per acre for irrigated land.

Four area banks are handling Lamb County funds. The Security State Bank in Littlefield, Citizens State Bank in Earth, the Olton State Bank, and Citizens State Bank in Anton are accepting the checks from farmers and holding them until the deadline.

In the event enough money isn't raised here to include Lamb County, the checks will be mailed back to the farmers.

Lamb County Better Weather, Inc. officers for this year are Bobby Short, president; Orville Cleavinger, vice president; Dale Stanley, secretary-treasurer; and Dwight Faver and H. L. Messamore, directors.

**Mrs. Edna Peal  
Is Gunshot Victim**

A 67-year-old Amherst woman remains in serious condition in the intensive care unit of Lubbock's Methodist Hospital following an apparent attempted suicide.

Raymond Cantrell, Amherst city marshal, said he received a phone call from Mrs. Edna Mae Peal about 7:30 p.m. Wednesday. He said he went to Mrs. Peal's house at 603 Washington Street and found her on the floor between the wall and the bed with a 4.10 shotgun at her feet, and a gunshot wound in her left side.

Three notes were found in the house. She was rushed to Lubbock by a Payne ambulance.

**Patrolman Checks Wrecks**

Highway Patrolman Weldon Parson investigated two rural county accidents this week.

Mrs. Tom (Kathy) Sorell was brought to a Littlefield hospital for observation Friday morning after an unusual accident in front of Springlake-Earth school.

Mrs. Sorell parked her car at the curb in front of the high school building about 11:15. She left the car running and got out. The car jumped into gear. Mrs. Sorell tried to stop the car and was knocked down.

The car backed across the highway and hit a parked car at the curb on the south side. The left rear corner of the Sorell car hit the left front of a car owned by Paul H. Wood of Earth. Damages of \$150 was estimated to each vehicle.

Sunday afternoon a minor two-car accident occurred four miles north and one west of Spade on a county road. Roy Wayne Thompson of Spade was driving north and Ernest Craven's car was driving south. The Thompson vehicle, according to Parson, hit the left rear of Craven's car about \$400 and about \$200 to Craven's car.

**Anton Couple Tours Spain**

**NOTE:** Mr. and Mrs. Jim Copeland made a tour of Spain. In account of their trip by Mrs. Jim Copeland.)

**JIM COPELAND**  
Pfizer Fun-Dango name of our group. We left on Feb. 8, and after an eleven hour flight, and after in New York, we left for Malaga, Spain.

Malaga we went by bus to the favorite resort of the Sol-Marbella, which is the Mediterranean. There we checked in for our new home for the next few days. The Atalava Park in Malaga is a Spanish style resort. There are tennis courts, as well as swimming pools. The resorts all along the coast were built in the 1920s as lookouts for

and I wanted to see as much of the country as possible while there, so we arranged for a tour of the country. Our first stop was a countryside tour up to the Nevada Mountains. The village of Coin and Coin is the local

center of orange and lemon production. These Andalusian villages were founded by the Romans or Moors and are still very primitive. For instance there is a center water spout in the middle of the village, to get your water and to do the washing.

Our second and most delightful tour of all was to Granada. I must mention that all touring was by bus and these small buses could get awful tiresome. Especially the Granada trip which was five hours each way. We watched the beautiful scenery on the way up and then we slept all the way back.

Granada itself was indeed worth the trip. The country side was mostly covered with olive trees and grape vineyards. The trees were so lovely, they would cover the hills all around. Olives are the most important product, and they cook everything in olive oil.

In Granada we toured the famous Alhambra Moorish Palace which housed the Sultan and his Harem. Also, the Generalife Gardens which were once the summer residence of these Moorish Kings. We visited

the Place of Charles V and most impressive was the Royal Chapel where Isabella and Fernando are buried. We actually went down into their crypt to see the old mummy-like caskets.

Our next tour was to Ronda, which is an ancient city of Celtic origin and once occupied by the Romans. There we saw the oldest bullring in Spain and a bridge, still in use, which was built in 46 B.B. This city is full of history and we enjoyed it very much.

The most different tour was to Tangiers in Morocco, Africa. We departed Spain by hydrofoil, and while on the water we passed the Rock of Gibraltar. In Tangiers we saw the Kasbah, Arab Quarters, Cape Spartel, and Caves of Hercules. We had an Arab guide and I took my first (and last) camel ride. I told Jim to be sure and get a picture, as Kurt would never believe it.

The part of Spain we visited was very clean and neat. All buildings are white with red tile roofs. Even the villages are white clusters with red tops, nestled up on the mountain side. The people are very friendly

"We've got to leave in exactly eighty cents."

2400 POUNDS per acre of grain sorghum residue was left standing after listing on W. H. Cunningham's farm six miles southwest of Littlefield. Minimum tillage practices reduce farming costs and wind and water erosion.

### Minimum Tillage Booklet Here

Reduced air pollution, better wildlife habitat - these are some of the environmental benefits of a new practice being used by Texas conservation farmers.

The measure, called minimum tillage, also cuts farming costs by reducing tractor trips required to produce a crop.

Stalks, leaves, and stems from the previous crop are left on the surface year-long with minimum tillage. The

protective cover is highly effective in preventing wind erosion and air pollution from blowing dust.

Blevins said the cover is equally effective in preventing water erosion.

Scattered seed and cover left on the soil surface by minimum tillage is also extremely valuable to wildlife. Pheasants in the Texas Panhandle are almost entirely dependent on crop residues for survival during the winter months. Quail, geese, turkey, dove, songbirds, deer, antelope, rabbits, and other wildlife also benefit from the food and cover.

Blevins said SCS has published a new booklet, "Minimum Tillage in Texas" which describes the new farming system in detail. To get a free copy, contact the SCS office at Littlefield, telephone number 385-4044.

A shot put thrown to the east will be shorter than one thrown to the west, because of the earth's rotation.

## HOW DO YOU measure UP?

All through life we are being measured and we wish people would use longer rules. But maybe the amount of quality they find don't justify a longer rule. Ancient men found 613 rules in the Bible to measure by. Moses gave us the Ten Commandments; Jesus provided the Beatitudes; others suggest St. Paul's ideal principle of love, but still others chose ideal persons to measure by: George Washington, Abraham Lincoln or Helen Keller. But someone has well said, "a man measures tallest when he stoops to touch the life of a child." Jesus said we must become as little children. Surely, He is our best example to measure by.

## TAKES ED HALEY AROUND WORLD

# Hobby Is Rewarding

By NILAH RODGERS

Ed Haley belongs to that rare breed of individual who is cussed, discussed and jeered at in the same breath by hundreds and thousands of people.

While this Earth man isn't always in the most enviable of positions, he says he wouldn't trade his 40 years of refereeing for anything.

"The people I meet and work with have got to be the greatest," he said, "because they are dealing with our most precious commodity—youth!"

Those who work with Haley feel Haley is the greatest, too, because this infinitely patient, modest, kind-hearted man is the recipient of the highest honors a referee can receive.

Haley is one of only seven persons elected honorary life member of the Southwest Basketball Officials Association (SBOA). That's the highest honor the association can pay one of its members. Twelve hundred coaches from high schools across the state of Texas made the presentation.

Haley referees the big games before crowds of up to 15,000. "The more people

Sudan 4-H'ers captured two out of three grand championship trophies and banners at the annual Littlefield Area Junior Livestock Show in Littlefield Friday, and walked away with part of the top money during the sale Saturday afternoon.

Troy Wayne Moss showed the grand champion lamb and Jim Fields' steer captured the grand championship steer's title.

Ricky Stamps of the Littlefield FFA exhibited the grand champion swine of the show.

The grand champion lamb was a heavyweight Hampshire, weighing 106 pounds, and was raised as a Sudan 4-H project.

A 1,184-pound Angus steer won the grand championship title for Jim Fields, a Sudan 4-H'er.

The grand champion swine of the show was a 200-pound Duroc gilt, and was raised as an FFA project animal.

Reserve grand championship trophies and banners were awarded to Stephanie Carter's 97-pound middleweight Hampshire lamb, Gary Lichte's 207-pound Hampshire gilt, and to Brad Walden's 1,158-pound Hereford-Angus Cross steer.

Miss Carter's lamb was raised under the guidance of the Amherst FHA, and Lichte's gilt and Walden's steer were both Littlefield 4-H project animals.

Youngsters from the Amherst, Spade, Sudan and Littlefield 4-H, FFA and FHA chapters showed their project animals in the show, and sifting was done by the judges in the ring at showtime.

Jerry Stockton of Frenship served as sheep judge, and made critiques on the animals as he placed them.

Judging the swine division was Dr. D. Tribble of Texas Tech University, who sifted, shuffled and made decisions on 114 animals in five breeds and 11 classes.

Jim Jenkins of South Plains College said he was "impressed with the quality of your cattle," and admitted he had a hard time making a decision on the top animal of the steer division. He analyzed each animal for the youngsters and spectators as he placed them.

The sale was underway at presstime Saturday afternoon. Results of that portion of the show will be published Thursday.

## Farmers Get Warning

County Attorney Curtis R. Wilkinson once again has reminded Lamb County farmers to be careful in making cash advances to their employees. He stated there are so many cases where a farmer is contacted by a prospective employee who offers to go to work if he can draw an advance.

Sometimes the advance is needed to pay the ex-employer, or just for moving expenses. Some of these employees never even show up. Others will work for a few days and then take off leaving the farmer holding the bag.

This week a Spade area farmer advanced a new employee some \$300. The employee worked about one week, and left in the night. This same employee obtained credit from a local grocery store on the basis that he was employed by the named farmer.

In 99 per cent of the cases no criminal charges can be filed and the farmer is left holding the bag — a worthless bag — Wilkinson said.

Many times a farmer can check with the sheriff's office or police department in

advance and find out something about a prospective new employee.

The county attorney says he is aware that it is hard to find a good hand and in most cases the farmers require no references before putting a man to work. He added that it sure could pay dividends if the farmer would go to a little trouble before employing a new hand, especially if he is going to advance some money.

Wilkinson further stated that his office has many complaints from farmers who co-sign notes in order for their "new" employee to borrow money from the bank to purchase a car or furniture. The employee suddenly leaves and the farmer winds up having to pay off the note.

"Most employees are honest and will do just what they say they will do," Wilkinson said, "but there are enough rotten apples to be cautious."

## Girl Recuperating From Cycle Mishap

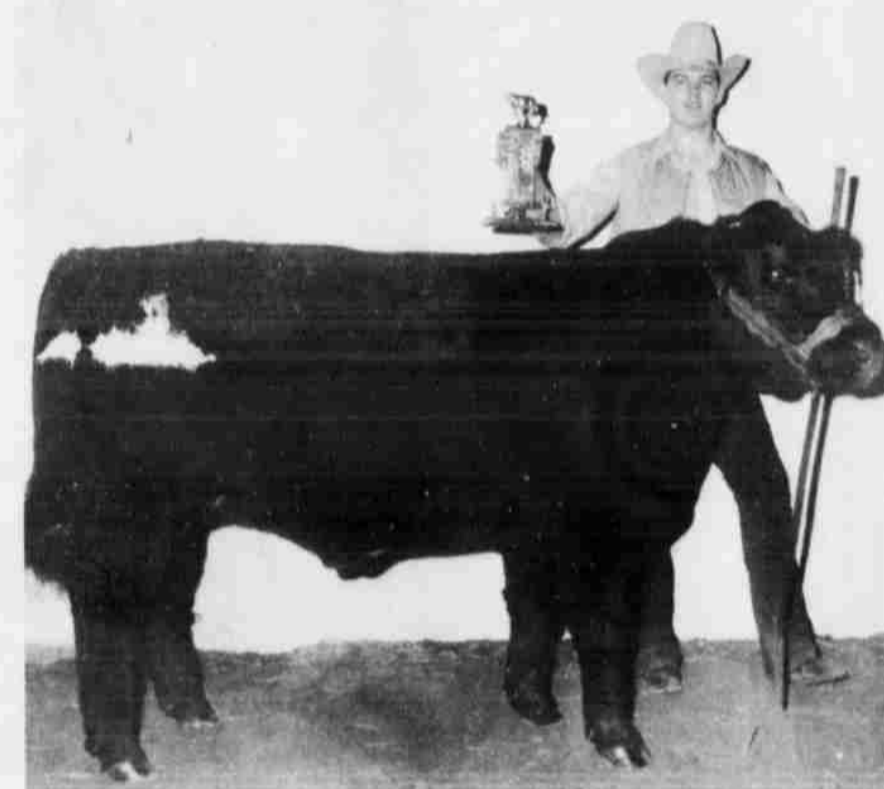

Tina Black, 10-year-old daughter of Mr. and Mrs. J.C. Black of Littlefield, will be moved from the intensive care ward at Lubbock's Methodist Hospital today. She suffered a broken leg and internal injuries while bicycling Wednesday evening when she was struck by a 1963 Chevrolet driven by David Lee Tinsley of Littlefield.

According to the investigating officer's report, Tinsley stated that the sun was in his eyes while he was driving westward down West Third Street, and didn't see Tina on her bicycle until he hit her.

Tina was taken to Littlefield Hospital by Hammons Ambulance, and was later transferred to Lubbock.

GRAND CHAMPION SWINE of the Littlefield Area Junior Livestock Show was this 200-pound Duroc gilt, shown by Ricky Stamps of the Littlefield FFA.

JIM FIELDS' 1,184-pound Angus steer won the grand championship trophy for the steer division of the Littlefield Area Junior Livestock Show Friday night. The steer was raised as a Sudan 4-H project animal.

TROY WAYNE MOSS' 106-pound heavyweight Hampshire lamb copped the grand championship title of the lamb show Friday afternoon during the Littlefield Area Junior Livestock Show. He is a Sudan 4-H'er.

## Miss Ross Weds Michael Montgomery

Miss Denise Annette Ross and Michael Gerald Montgomery pledged double ring wedding vows Saturday afternoon, Feb. 12, in Elms Memorial Chapel of First United Methodist Church of Littlefield.

Officiating for the reading of the vows was Rev. David Hamblin.

Parents of the couple are Mr. and Mrs. Benny Ross of Santa Fe, N. M., formerly of Littlefield, and Mr. and Mrs. Joe Montgomery of Littlefield.

Presented in marriage by her father, the bride wore a formal-length wedding gown of ivory satin brocade featuring a high neckline, and long juliet sleeves. The chapel-length train was attached at the back of her Empire waisted dress. Her veil of ivory imported illusion was caught to a headpiece of matching satin brocade. She carried a nosegay of baby orange roses with ivory ribbons,

atop a Bible, given to the bride by her grandmother.

"Climb Every Mountain" and the "Wedding March" was presented by soloist, Mrs. Grace Findley, and organist, Mrs. Parkman.

Mrs. Charla Rountree of Amarillo attended the bride as matron of honor. She was attired in an emerald green velvet gown fashioned with juliet sleeves and accented at the waistline with ivory ribbon. She carried a nosegay of tinted-orange carnations tied with ivory ribbon.

Serving the groom as best man was Steven Rountree of Amarillo.

The bride's mother, ushered by Craig Ratliff, was fashioned in a mint green askaline dress accented at the cuffs with white fur. She wore accessories to match her ensemble.

A reception followed the ceremony in the parlor of the church.

After a short wedding trip the groom will finish his tour of duty in Vietnam, and the bride will reside in Santa Fe, N. M.

## Miss Hopper Bride Of Jerry Reagan

MR. AND MRS. LONNIE GOOLSBY

Before an altar centered with a candelabra, flanked by white mums, tied with deep purple ribbons, Miss Alice Ann Hopper became the bride of Jerry Albert Reagan Jan. 14, at Parkview Baptist Church of Littlefield.

Rev. R. N. Tucker officiated for the reading of the double ring wedding vows.

The bride is the daughter of Mr. and Mrs. Troy A. Hopper, and the groom is the son of Mr. and Mrs. Bruce E. Reagan, all of Littlefield.

Given in marriage by her father, the bride wore a white lace on satin traditional gown, featuring a fitted bodice with a softly gathered skirt, and long fitted petal-point sleeves. Her veil of white illusion tulle was caught to a bow headpiece, and trimmed with white lace. The veil was borrowed from her cousin, Mrs. Linda Davis. She carried a bridal bouquet of white sweetheart roses and stephanotis with an orchid corsage nestled in the center.

For "something old" the bride had a 75 year-old, handmade linen handkerchief, from Switzerland, tucked in her bridal bouquet. "Something new" was her wedding gown; "something borrowed" was her veil; and the traditional blue garter served as "something blue." She had a "birthdate" penny in her shoe.

Musical selections of "True Love", "Twelfth Of Never" and "Whither Thou Goest" were sung by Jodel Halford of Lorenzo, cousin of the bride. Instrumental selections of "Bless This House" and "The Lord's Prayer" were presented by Jean Parkman of Littlefield.

Arleta Stephenson of Lubbock, sister of the groom, attended the bride as matron of honor. She wore an orchid crepe dress, designed with short sleeves, an Empire waist and accented with violet velvet ribbon. Her headpiece was of orchid tulle net, tied with violet ribbon. She carried a white mum.

Mrs. Loma Bear of Lubbock, cousin of the bride, registered the guests.

The candles were lighted by Leslie Bear of Lubbock. Brent Robison and Mike Hopper, both of Littlefield, seated the guests.

Bob Stephenson of Lubbock served his brother-in-law as best man.

The bride's mother, Mrs. Hopper wore a gray striped silk dress and coat with gray accessories. Mrs. Reagan wore a pale blue double knit dress with winter white accessories. They both wore a white orchid corsage.

A reception followed the ceremony in the fellowship hall of the church. Presiding at the serving table were Miss Brenda Jolley of Tulia, niece of the groom, and Miss Patricia Sanders of Littlefield.

For a wedding trip to Clovis, N. M., the bride wore a baby pink pantsuit with white lace trim, white accessories and the orchid lifted from her bridal bouquet.

The bride attended South Plains College in Levelland, and a member of Sigma Mu Epsilon sorority.

The groom attended Denver Automotive Institute. He served two years in the U.S. Army; one year at Ft. Monroe, Va.; and one year at Heidelberg, Germany. Reagan is presently employed at Armes Chevrolet in Littlefield.

Guests registered from Anton, Tulia, Levelland, Brownfield, Lorenzo and Lubbock.

## Bookmobile Has New Books

New books now on the shelves of the Bookmobile Library include:

"Life, Wonderful Life" by Edith Morris. It is an autobiographical novel set in Sweden and it's a celebration of life's joys and sorrows.

Dorothy Gilman is back with another lighthearted tale of espionage. "The Elusive Mrs. Pollifac." You'll like it as well

as you did "The Amazing Mrs. Pollifac" and "The Unexpected Mrs. Pollifac."

In our Gothic romance and suspense, Ane Maybury has a new book "Ride A White Dolphin." Visiting her husband's aunt in her magnificent home in Venice, Leonie Thorburn suddenly becomes the victim of a series of strange accidents. Adding to her horror is the suspicion that her husband has taken up with the glamorous opera singer. Her other books are "Terraotta Palano" and "The Minerva Stone."

You'll love this new non-fiction book by Frank Gilbreth, Jr. "Time Out For Happiness," is a new story of the Gilbreth family. This is an informal, unretouched portrait of a loving mother who handled the problems of marriage, family, and a career with skill and serenity. From her childhood in Oakland, Calif. to becoming one of the nation's leading authorities on home management and aid to the handicapped, the story of Lillie Gilbreth is a proud and triumphant climax to the Gilbreth saga. Other books about the family are "Cheaper By The Dozen" and "Belles On Their Toes."

"Around Our House" by Janice Holt Giles is a non-fiction story of the Giles' daily lives, covering the years from 1954, when they left the farm described in "40 Acres And No Mule," to 1970. An account of a happy marriage, enriched by a shared love of land and home and friends and family.

"Bury My Heart At Wounded Knee." An Indian history of the American west by Dee Brown. From the moment Columbus dubbed indigenous North American "Indians" the white men's intent has been to turn the red man to our ways. This is the first authoritative history in several years, which underlines the growing interest in Indian culture and survival.

## Youths Arrested Here

Teenagers are among 11 persons charged this week. County Sheriff E.D. McNeese, Homer McLaury, and a Plainview deputy raided a house near Friday afternoon and recovered 10 longplaying albums, a tape deck and cigarettes taken in a burglary of the Pay & Save at Olton.

In connection with the burglary three teen-agers, Victor Vasquez, Vasquez and Tony Riojas, and a 16-year-old from Olton were by the sheriff's office Thursday charged with forgery. They passed Foster Grocery in Hart Camp Week's Grocery in Spade. ## Lamb County Veterans To Get \$27,000

Now and the end of June, a total of \$27,000, approximately, will be distributed to some 380 war veterans in Lamb County.

Payment, representing dividends from their GI insurance, is being accelerated by the VA. Normally, when such dividends are declared, they are paid on staggered dates of the policies and over an entire year.

The speedup this year, local holders of such policies will share a distribution amounting to \$286 million, the veterans Administration says. It is \$11 million more than was distributed last year.

The recipients are holders of Service Life Insurance, issued to veterans in the second World War, and World War I. S. S. Veterans who will share are veterans of World War I who hold U. S. Service Life Insurance policies.

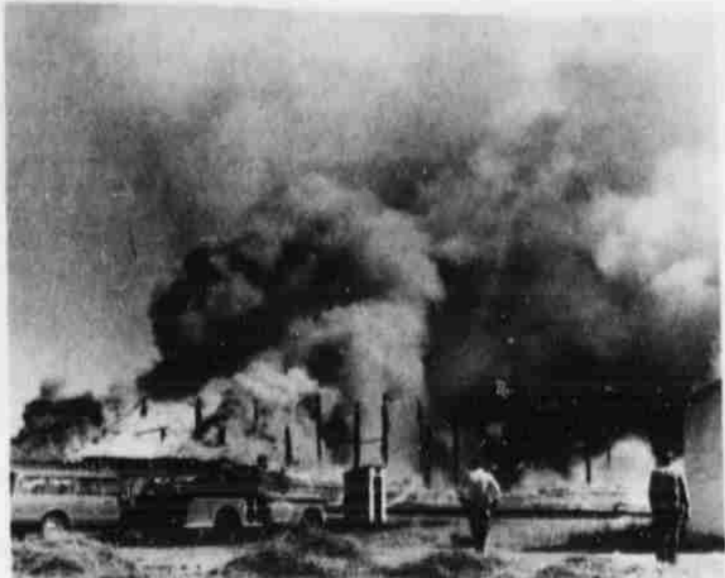

Who saw service solely in the World War or in other engagements will

## Anton Couple Tours Spain

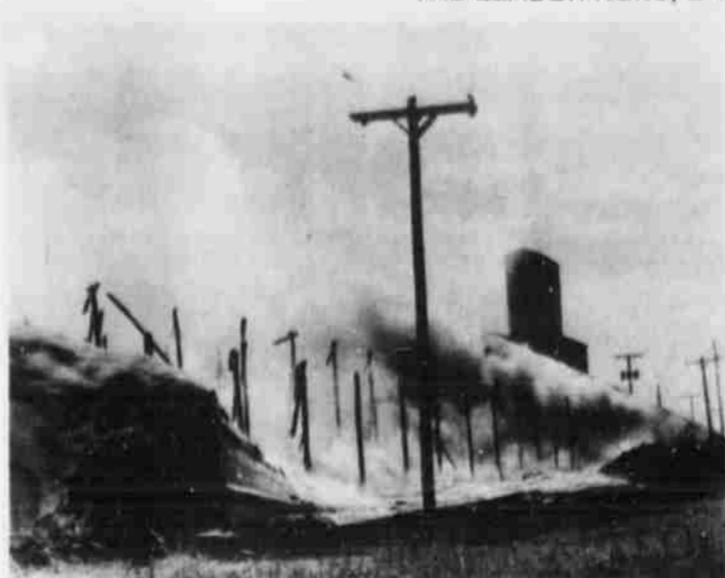

**NOTE:** Mr. and Mrs. Jim Copeland of Anton made a tour of Spain. (An account of their trip by Mrs. Jim Copeland.)

**JIM COPELAND**  
—Pizer Fun-Dango and I went to Spain. We left on Feb. 8, and after a 12-hour flight, we landed in Malaga, Spain. Malaga was our first stop. We went by bus to the Sol-Marbella, which is a favorite resort of the Mediterranean. There we checked into a new home for the next few days. The Atalava Park in Malaga is a beautiful sight. There are many towers, as well as forts all along the coast. These were built in the 16th century as lookouts for the sea.

I wanted to see as much of Spain as possible while there, so we went on a tour except one. Our first stop was a countryside tour up to the Nevada Mountains. The villages of Coin and Coin are the local

THE LITTLEFIELD VOLUNTEER Fire Department answered a call to the Smith Elevator at Bainer Switch shortly after 11 a.m. Thursday. Apparently the elevator was ignited from sparks from weeds that were being burned with a butane burner. About 1:40

p.m. the fire department was called back to the scene as the storage building that adjoins the elevator re-ignited. The blaze, fanned by high west winds, completely destroyed the storage building and later overpowered the firemen's attempt to save the

elevator as it burned down from a fire that started in the top of the structure. About three hours later, the empty elevator and storage building were burned to the ground.

### HAIL FIGHT PLANNED

## Weather Group Raising Funds

Better Weather, Inc. met twice this week to complete plans for this year's hail suppression and rain stimulation program.

Letters are going out this week to solicit funds to support a third year in the pilot program of seeding clouds with silver iodide to prevent damaging hail during the growing season. In addition to suppressing hail, favorable thunder clouds will be seeded to stimulate rain.

Better Weather officials stated that no tornadoes have developed out of seeded clouds, either.

If Lamb County goes into the program again this year, \$30,000 must be raised by March 20th.

Because the program fell short of funds at the end of the growing season last year, Atmospherics, Inc., the California-based firm which is conducting the experiment, said all money must be paid in advance this year before a contract is signed.

In order to raise the necessary funds, farmers in the county are asked to pay a total of 25 cents for dryland and 50 cents for irrigated farm land. This is divided 1 1/2 cents per acre for landlord and 1 1/2 cents for tenant and 25 cents for owner-operator of dryland. Irrigated producers are asked to pay on a similar schedule of 25

cents for landlord, 25 cents for tenant, or 50 cents for owner-operator.

Payment of the funds is entirely voluntary. Better Weather officers point out that \$20 to \$80 per quarter section is very cheap insurance for keeping yields up. They added that future farm payments will be determined by actual farm yields, and that there has been very little hail in the area where the hail suppression program has been conducted for the past two years.

Three twin-engine planes have been used the past two years, if Lamb County or other areas go in with Hale County this year a fourth plane will be added to give better protection.

Hale County hopes to conduct the program even in the event no other farming areas join them. Hale County farmers will finance the brunt of the cost of the operation. A mail-out campaign is being conducted in that county, also. Hale farmers are paying 32 cents per acre for dryland and 64 cents per acre for irrigated land.

Four area banks are handling Lamb County funds. The Security State Bank in Littlefield, Citizens State Bank in Earth, the Olton State Bank, and Citizens State Bank in Anton are accepting the checks from farmers and holding them until the deadline.

In the event enough money isn't raised here to include Lamb County, the checks will be mailed back to the farmers.

Lamb County Better Weather, Inc. officers for this year are Bobby Short, president; Orville Cleavinger, vice president; Dale Stanley, secretary-treasurer; and Dwight Faver and H. L. Messamore, directors.

## Mrs. Edna Peal Is Gunshot Victim

A 67-year-old Amherst woman remains in serious condition in the intensive care unit of Lubbock's Methodist Hospital following an apparent attempted suicide.

Raymond Cantrell, Amherst city marshal, said he received a phone call from Mrs. Edna Mae Peal about 7:30 p.m. Wednesday. He said he went to Mrs. Peal's house at 603 Washington Street and found her on the floor between the wall and the bed with a 4.10 shotgun at her feet, and a gunshot wound in her left side.

Three notes were found in the house. She was rushed to Lubbock by a Payne ambulance.

**VEE CAMPAIGN**

RESERVE GRAND CHAMPION steer of the Littlefield Area Junior Livestock Show Friday night was this 1,158-pound Hereford-Angus Cross steer, shown by Brad Walden of the Littlefield 4-H Club.

### Patrolman Checks Wrecks

Highway Patrolman Weldon Parson investigated two rural county accidents this week.

Mrs. Tom (Kathy) Sorell was brought to a Littlefield hospital for observation Friday morning after an unusual accident in front of Springlake-Earth school.

Mrs. Sorell parked her car at the curb in front of the high school building about 11:15. She left the car running and got out. The car jumped into gear. Mrs. Sorell tried to stop the car and was knocked down.

The car backed across the highway and hit a parked car at the curb on the south side. The left rear corner of the Sorell car

## Security, West Drug Little Girl Winners

The Security State Sling Shots had to rally in the fourth quarter to edge out the Shook Tire Michelennes, 25-20, in the sixth grade division of little girls' basketball.

Security State had a 14-6 lead at the half but the hustling Michelennes climbed up hill in the third quarter and blanked the Bankers. During the same period they bucketed eight points to knot the game 14-14, going into the final stanza. The last quarter score see-sawed until the winners got the edge in the final minutes for the win.

Security State was led by Lota Z oth with 23 points and Menielle Petty hit two. Cindy Jungman and Shauna Clayton were the other forwards.

The Michelennes balanced attack was by Sylvia Cristan and Tommy Shaw who swished the nets with six points each. Elaine Ellerbe and Tonya Tunnell each got four. Other forwards in the passing attack were Christine Cristan and Elizabeth Castro.

The winners' defensive unit consisted of Pam Bailey, Debbie Burks, Angie Franklin, Tonya Kuhler and Stella Moreno.

Guards for Shook Tire were Dana Bassett, Shalyn Grant, Linda Martinez, Karen Whitson and Shawna Barker.

In the fifth grade division of little girls' basketball, the West Drug Pill Rollers won over the Renfro Thriftway Raiders, 14-8.

The Pill Rollers, behind the shooting of Carol Sexton's 10 points, turned a 2-6 first quarter lead into a six point win.

Other scorers for the winners were Gena Westmoreland and DeEnna Blakely with two points each. Other forwards were Tonya Tucker and Rundia Conwright.

The Raiders were paced by Jamie Aaron with four points. Kelly Prentice and Anita Bryant each bucketed two. Other offensive players were Darla Nichols, Janice Cowan and Lisa Fowler.

**Littlefield Man Trustee Officer**

Troy Armes, secretary of the board of directors of the Education Service Center - Region XVII, a state education agency which serves 68 public schools in 20 South Plains counties, met with other trustees in regular session Tuesday, Feb. 22, in Citizens Tower in Lubbock. The board heard reports on a variety of programs and services which are being offered to public schools in the region. These include (1) Programs, including drug education, guidance services, special education, and vocational education; (2) Planning, Evaluation and Research, including an evaluation and accountability program, federal funding, Texas Education Agency review of long range planning, and migrant education; (3) Instructional Media, including media utilization, media presentations (tours and workshops), and film circulation growth; (4) Fiscal and Contract Services, including business affairs and data processing services; and (5) Dissemination, including the publication of a new brochure on ESC programs and services.

2400 POUNDS per acre of grain sorghum residue was left standing after listing on W. H. Cunningham's farm six miles southwest of Littlefield. Minimum tillage practices reduce farming costs and wind and water erosion.

**Minimum Tillage Booklet Here**

Reduced air pollution, better wildlife habitat — these are some of the environmental benefits of a new practice being used by Texas conservation farmers. The measure, called minimum tillage, also cuts farming costs by reducing tractor trips required to produce a crop. "With minimum tillage, farmers plant crops without prior land preparation," Joe Blevins, district conservationist for the Soil Conservation Service at Littlefield, said. Using a coultter and other special equipment, they plant directly into the mulch of residues left undisturbed from the previous crop. Herbicides are used to control weeds, so costly and time consuming cultural operations are reduced or eliminated. Stalks, leaves, and stems from the previous crop are left on the surface year-long with minimum tillage. The protective cover is highly effective in preventing wind erosion and air pollution from blowing dust. Blevins said the cover is equally effective in preventing water erosion. Scattered seed and cover left on the soil surface by minimum tillage is also extremely valuable to wildlife. Pheasants in the Texas Panhandle are almost entirely dependent on crop residues for survival during the winter months. Quail, geese, turkey, dove, songbirds, deer, antelope, rabbits, and other wildlife also benefit from the food and cover. Blevins said SCS has published a new booklet, "Minimum Tillage in Texas" which describes the new farming system in detail. To get a free copy, contact the SCS office at Littlefield, telephone number 385-4044.

"We've got to leave in exactly eighty cents."

## HOW DO YOU measure UP?

All through life we are being measured and we wish people would use longer rules. But maybe the amount of quality they find don't justify a longer rule. Ancient men found 613 rules in the Bible to measure by. Moses gave us the Ten Commandments; Jesus provided the Beatitudes; others suggest St. Paul's ideal principle of love, but still others chose ideal persons to measure by: George Washington, Abraham Lincoln or Helen Keller. But someone has well said, "a man measures tallest when he stoops to touch the life of a child." Jesus said we must become as little children. Surely, He is our best example to measure by.
