

CHIEF James Cox checks the cash register at Littlefield Super after a breaking and entering there Thursday night. Several cartons of cigarettes and about \$100 in change was taken. Entry was gained by cutting through a roof air conditioner and going through the storage room. A breaking and entering occurred the same night at Whitharral when a grocery store lost change, also. Tuesday night there was a breaking and entering at Littlefield's Tasty Cream with about \$100 taken from the cash register machine and about \$40 in property damage. (Staff Photo)

LITTLEFIELD CITY policeman, Cris Hern, dusts for fingerprints at Pay & Save Supermarket on Delano following a breaking and entering Thursday night. In the office, money bags and papers were scattered, but the money bag containing change taken from the cash registers was left by the exit after the thief apparently was frightened. Entry was gained through the air conditioner opening on the roof, but there was trouble getting out. The lock assembly and pad lock on the door had to be broken. (Staff Photo)

Employment Commission Accepts Benefit Claims

The Texas Employment Commission will begin taking claims for extended unemployment benefits Feb. 3, according to Roy Wilson office manager of the Littlefield TEC.

Unemployed persons who have filed initial claims for benefits within one year prior to Jan. 26, 1975, and who have exhausted those benefits, are eligible to file a claim.

Payments will be made at the same rate as for regular unemployment insurance, but the total extended benefits will equal only 50 per cent of regular benefits. However, a new federal program may pay extended benefits in the same amount as regular extended state benefits.

Persons claiming unemployment insurance benefits as ex-servicemen or ex-Federal employees are also eligible for these extended benefits.

Extended benefits are available only so long as the rate of unemployment remains at levels specified by law.

Claimants who file for extended benefits on or before February 19 may file claims backdated to include January 26, 1975, if they meet the usual requirements for drawing unemployment insurance.

Claims for extended benefits may be filed at the nearest Texas Employment Commission office.

Assault, Check Violations Filed

County officers jailed six this week. Ignacio Rendon was charged with aggravated assault and bond was set at \$7,500 after the Littlefield man shot his ex wife Saturday.

In other arrests, a Littlefield woman was charged with check law violation and fined \$125. A Littlefield man was charged with check law violation and fined \$25 plus court cost.

A Muleshoe man was picked up on a warrant and fined \$138.

Two juveniles were picked up and jailed on burglary charges filed earlier. They are charged with three counts each.

First To Receive Road Signals

Texas Highway Commission has a program to provide signals and protective devices at 60 grade crossings throughout the state, including one at Amherst. Crossings are on federal aid and state highways. Estimated cost of the program is \$1,560,000. The financing would be from funds made available in the Federal Aid Highway Act and from the railroad com-

Factory Rebates On Cars Help Some, Hurt Others

By NILAH RODGERS

Have the cash rebates from car manufacturers helped new car sales in Littlefield?

Depends on the dealership, evidently.

"You bet! Oh gosh yes!" said B. D. Garland. "It's just fabulous. I've never seen anything like it. We've never sold this many cars in the month of January in the history of the company," was this Dodge, Chrysler, Plymouth dealer's answer.

"No way," is the answer Joe Carlisle gave at the Ford dealership. "The rebates haven't helped our sales any, since the cash refunds only apply to the very small cars. And we just don't sell many sub compacts."

J. L. Marcum said the rebates on the small cars he sells through his Oldsmobile, Cadillac, Pontiac dealership have hurt his sales.

"If anything, these rebates have hurt our sales," Marcum said. "We sell very few Astro, Omega, Ventura and Starfire

models. And right now, those are the only ones where the rebate applies."

"The rebates have helped a little," said Troy Armes at Armes Chevrolet. "But General Motors is only rebating on Nova, Vega and Monza.

"What would really help would be if GM would rebate on all models. Then things would really pick up," Armes added.

In this part of the country, most people still prefer to drive a medium sized to a large, luxury car, and for most purposes the rebates just haven't helped all that much with the exception of the offers made by the Chrysler Corporation.

Even at Garland Motors, the majority of the new cars sales have been on the heavier, more luxurious cars including five Chrysler New Yorkers, a Charger, van and club cab pickup.

Marcum said he feels like people thinking that GM may start rebating on all their models is one reason their sales haven't picked up. Many who are contemplating buying a car are sitting back and waiting for GM to offer rebates on all models.

There is one bright note along this line. If cash bonuses or rebates are offered on all the GM models, this offer

is retroactive and anyone buying a car between Jan. 12 and Feb. 28 will be reimbursed.

So far, GM is holding out, saying they don't intend to make this offer on all models or across the board.

In metropolitan areas and large towns with colleges, the rebates on the small cars have helped car sales.

"But most people around here want bigger cars," Carlisle said. "I've had people tell me they prefer to drive just half as much and drive a bigger car."

2 Area Savings & Loan Firms Seeking Branch Offices Here

Two savings and loan branch offices have made application for offices in Littlefield.

Lubbock Savings and Loan headquartered in Lubbock and Tri-County Savings and Loans in Muleshoe have applied for offices.

The applications for approval have been made to the Savings and Loan Commissioner of Texas.

"We haven't been allowed to offer rebates long enough to really tell, yet," Armes said. "But rebates on the three cars we can offer won't help us like it may some other dealers."

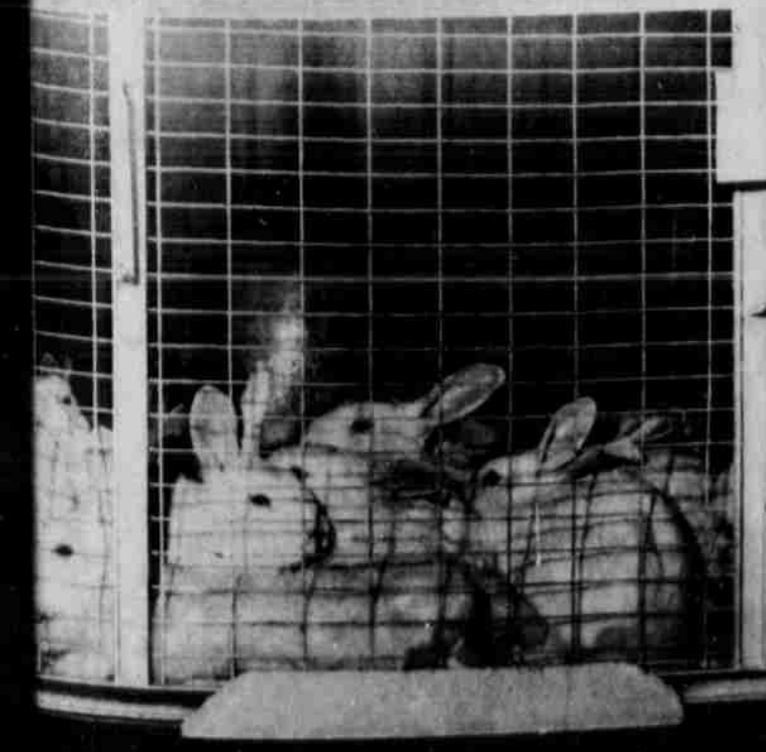

"Overall Chrysler sales are up 89 percent," Garland said. "And we have a fabulous inventory— 37 new cars and 27 used ones. It's even helping used car sales."

That's the way sales are in Littlefield. Just depends on what the dealers are allowed to do.

The Muleshoe office has asked for a location at 5th and Phelps.

The Lubbock office has asked to establish a branch at 6th and Phelps.

A consolidated hearing on the applications has been scheduled for March 20 at 9:30 a.m. in the office of the Savings and Loan Department of Texas in Austin.

INVITATIONS to attend the Rabbit Industries, Inc. open house went out to customers and the news media in a 300 to 400-mile radius of Anton. The processing plant began operations this month and is a \$300,000 investment. The plant is on Anton's Main Street and was built on a lumber yard. The rabbits are being distributed through J&M which has 21 units across the southern portion of the United States. (Staff Photo)

The specially designed pressure cooker fries the rabbit to perfection in nine minutes. Doug is the owner of Doug's Food Market in Anton and displays a large sign, RABBIT FOR SALE, in his meat market. He is contemplating putting in one of these cookers and adding fried rabbit as a delicatessen item. (Staff Photo)

ANTON IS NOW "Rabbit City USA" since operations have begun at the new processing plant. At the present time the plant processes 3,000 to 3,800 rabbits a week, but at top production can process up to 20,000 a week. Three Lubbock doctors and a former Littlefield man own the plant, Drs. Ivan Barber, Royce Lewis and Kenneth Scholz, and Randy Aduddell. Gilbert Lemmons is plant manager and Bill Casey is general manager. (Staff Photo)

Football Star To Speak Here

Special services are being scheduled this week at Littlefield's First Baptist Church.

David Stockwell, former three-year football letterman at Rice University, will be the special speaker beginning today and continuing through Feb. 6. The services are being geared especially to the youth, but all age groups are invited to attend.

The services will be conducted at 7:30 p.m. nightly. "As a 1972 graduate of Rice University, one of America's most revolutionary campuses, David is on the 'in' of what's happening with students," stated the church's pastor, Rev. A. J. Kennemer.

"Literally thousands of students have heard David 'tell it like it is' at high school assemblies, free speech rallies at the University of Texas, University of Houston, at crusades and countless other gatherings," he continued. "Come and hear him tell how his life was revolutionized by a Friend he met. The stand he takes is drastic, but America needs a change to stay alive. The revolution he speaks of is of love and peace—through the Prince of Peace, the greatest Revolutionary who ever lived."

Highway Construction To Include County Work

Highway construction contracts let in January by the Texas Highway Commission include work in Lamb County.

The work, supervised by District Engineer George C. Wall, Jr., will be in Bailey, Castro, Crosby, Garza, Hockley, Lamb and Yoakum Counties.

A contract was awarded to W. D. Turner Construction Company and High Plains Pavers, Inc. of Lubbock. Low bid was \$998,464.35.

The project, which will require an estimated 75 working days, will be under

High Department Engineer William M. Pope of Lubbock.

The contract is for seal coating 112.3 miles, including:

Bailey County, US 84, 3.291 miles from East 6th Street in Muleshoe to Lamb County Line.

Lamb County, US 84, 14.088 miles from Bailey County Line to FM Road 37.

Lamb County, US 84, 4.610 miles from FM Road 37 to West City Limits of Littlefield.

February Proclaimed American Heart Month

County Judge Bill J. Angel has issued a proclamation urging all residents of Lamb County to support the 1975 Heart Fund campaign, to be conducted here and throughout the nation during February—American Heart Month.

The proclamation, issued from the Lamb County Court House, declares that heart and blood vessel diseases afflict 28 million Americans and claim more lives than all other causes of death combined.

Lamb County residents were urged by the Judge to contribute to the Heart Fund campaign in order to assure the continuation of advances which have already helped save thousands of lives.

During American Heart Month, local volunteers will distribute literature on heart disease and collect funds for research and educational and community programs.

The text of the Judge's proclamation reads:

"WHEREAS, heart and blood vessel diseases each year kill more than one

million Americans, a total which exceeds all other causes of death combined, and,

"WHEREAS, more than four out of every five of these victims die of heart attack or stroke, and,

"WHEREAS, heart and blood vessel diseases cost the nation \$20 billion a year in lost wages and medical expense, and,

"WHEREAS, the Heart Association's relentless battle against this American epidemic has helped reduce the death rate from these diseases through advances in research, prevention, treatment and rehabilitation,

"NOW THEREFORE I Bill J. Angel, County Judge, proclaim the month of February as American Heart Month and urge all our citizens to support the Heart Fund Campaign for the Lamb County Heart Association through gifts and voluntary services which will speed greater advances in the conquest of this scourge, our nation's leading killer and disabler."

COUNTY JUDGE Bill Angel signs a proclamation designating February as American Heart Month in Lamb County, and urging residents of the county to support the 1975 Heart Fund Campaign. Observing the signing is Evone Oliver, publicity chairman. (Staff Photo)

A Woman's View

By PEARL BRANDON

I AM LYING here in a hospital bed trying to think of something cheerful to say, which isn't easy when you don't feel so well yourself.

But then I thought of David writing his psalms. They were not always cheerful. In Psalm 5 we have this, "Be merciful unto me, O God, be merciful unto me: for my soul trusteth in thee: yea, in the shadow of thy wings will I make my refuge, until these calamities be over past.

I will cry unto God most high: unto God that performest all things for me."

WHAT DO WE really have to fear when we are trusting Him for protection. Hasn't He promised to be always with us regardless of what happens? Trusting in his wings.

We feel like we are a very small dot in this vast universe but we have the promise that He is concerned about us,

even as He cares for the sparrow which is indeed a very small, common bird.

I CAME into the hospital Monday and my husband went home Wednesday. Looks like one of us has to represent the Brandon family down here.

I'm cutting this short this week and hoping you don't get the flu. A lot of people have it.

JUST SO YOU won't think I am too down and out, I'll close with this Psalm, "Praise ye the Lord for it is good to sing praises unto our God; for it is pleasant; and praise is comely."

I guess it is better to sing a sad song than to sing none at all.

I HOPE to be home before this time next week—our family will all be home again and that will be good. So long, until then.

OBITUARIES

LEONA BLALACK

Services for Mrs. Leona Fay Blalack, 59, of Earth, were conducted Wednesday afternoon in Muleshoe Church of Christ with Ebb Randol, Farwell Church of Christ minister, officiating.

THE ABUNDANT LIFE

Basic Strength

WHEN PEOPLE ARE STRONG, in the best way of being strong; they have a much better chance to take care of, support and protect themselves and everything they hold dear.

This strength of spirit, strength of character; which is always the "basic strength" upon which all other strength must ultimately depend for support. In fact, physical; economic; political; and other such strength cannot long endure without the basic human "strength of spirit".

"TO LIVE PROFITABLY and comfortably, a man must have both material success and spiritual fiber." - A.A.M.

THERE IS GREAT NEED for such strength, and this need is individual and collective. We can be strong, and we can help each other to be strong. With a consciousness of the need, the realization that this need can be filled, and the willingness to try; and continue trying; it can be done.

How great is our desire to do it? We do have such potential, and we have a reasonably good chance to realize our potential. This will have to be the very best quality of human behavior.

THIS "BASIC STRENGTH" is not as elusive as our general actions make it appear to be; it is not out of our reach. With the adoption of a strong sense of values; renewed respect for the generally well-known traits of good character, such as honesty, decency, morality, industriousness, frugality, and wise stewardship; we can become strong.

We can become strong, dependable and enduring as mankind.

WE CAN HELP EACH OTHER development and maintenance "basic strength". In fact, we can help each other; if we ever realize our potential, and challenge of the day.

This can be done, and we can and talk, and act with the courage it can be done. The doing will justify the great efforts.

"IT IS MUCH BETTER to have strength and courage, than to have the best help is not to bear the burden of others for them, but to bear your own burdens for themselves, and with the difficulties of life help others is no easy matter. It requires a clear head and judgment, as well as a warm heart. Lubbock.

SELF-INDULGENCE is not the way to become strong, but is the quickest and surest way to become weak. This does not mean that it does mean that there must be a harsh and severe with our management. It also means that there must be unwavering devotion to the principles of human conduct.

OUR OUTER PHYSICAL material strength must be supported by our well-developed inner strength "basic strength".

HONNY GRITS

By CORNBALL BLEND

I'M TRYIN' to work out a system where I can pay my income tax with my tax rebate.—I'll let you know if it works.

SEE WHERE THIS minister down Dallas was engaging Madam O'Hare in a debate. God vs. Atheism. Don't believe I'd afford her the dignity of public notice.

If she chooses not to believe in God, that's HER business. What really hacks me off, is her trying to make her atheism MY business!

AND WHILE I'M at it, I'd as well let you know that I have little patience with those who pay any attention to her—especially our law-makers. While we slept at the switch and were busy turning the other cheek, she persuaded some of our spineless law makers to take away some of our religious rights.

If she has no God, other than self and her own abilities, I can only feel sorry for her.

HOWEVER, I STRONGLY oppose giving dignity to her ideals and suggest,

just as strongly, that we don't give free and unopposed hand to anything pertaining to the laws of our land this time on. Certainly not to anything pertaining to our religious freedom.

We have only to note the immoral conditions of our own and peoples to understand that Godlessness can do to us. With there are no morals, and we are mere animals. And there are animals that can become as Godless man.

CAN I PROVE that God is here? I have to. The very works of His universe prove His existence. I know that He is here, in my mind, and in my daily life. His Word has never failed me, nor become obsolete.

Let the weak and timid stay silent about time God's people let their heads be heard!—And (to borrow a phrase) YOUR GOD IS DEAD, TRY ME! It is big enough to be shared by all. I work many wondrous works through people.

Turn Row COMMENTS

By EMIL MACK

CARPING CRITICS of the FBI and our law enforcement agencies are so intent upon their attacks that they refuse to acknowledge the dangerous realities of present day extremism and violence.

Indeed, some would seem to extoll violence by making "folk heroes" of the terrorists.

IN THE FBI'S "Law Enforcement Bulletin," Director Clarence M. Kelley points out that in recent years "there has been in the United States a proliferation of groups with sinister and militant-sounding names that have adopted foreign-bred terrorist tactics as their creed.... Thus far this year, for example, individuals affiliated with these groups have been linked with the killing and wounding of police officers, kidnappings, racist murders, bombings, jailbreak attempts, prison riots, bank robberies, urban guerrilla warfare and even the posting of public notices threatening death to any who oppose them."

"Surely," continues Director Kelley, "there are no rational philosophies, programs or grievances that need communication by such methods... despite its faults and shortcomings, this Nation offers more peaceable remedies for grievances, real or imagined, than any on earth.... This is the strength of

democracy; its capacity to accommodate a wide range of divided opinions. Reasonable, advancing reasonable arguments never resort to violence."

TOWARD THE END of the growth of terrorism and violence, FBI Academy has held many seminars and several hundred conferences have been held throughout the nation with local and other law enforcement agencies and more sessions are contemplated. Little wonder, then, that the cynics espousing the Marxist violence should mount their attacks against the FBI.

It is the Marxist controlled democracy must be destroyed by violence.

It is the FBI's controlled democracy can be preserved by violence.

We'll stick with the Bureau, you.

County Residents Attend Workshop

Members of the Lamb County American Cancer Society attended the Crusade Workshop at Lubbock Jan. 26. Mrs. Lady Clare county crusade Ernestine Lichte, county chairman; and Mrs. J. W. Worn, unit president. Mrs. Worn also presided at the public information session.

Anderson, district chairman, who has authority for the 23 counties in the district, presided at the session prior to group sessions. A brief explanation of the meeting, the division into the four sessions: independent residential, special crusade, and public information.

The sessions were training workers in the four phases of the crusade in seeking funds for research. The sessions were held in the Brownfield and the crusade on, and how each solicited funds. Mrs. Worn stated, "The modern, sophisticated

research weapons have been mobilized for the war against cancer, and we want to keep the public informed about how their dollars are spent when donated to the American Cancer Society."

"Virtually every branch of medical and biological science is involved. The war against this dreaded disease is being fought in every direction—for prevention, detection, treatment, and rehabilitation, and we hope to come up with an answer in the near future," she continued.

"Today there are more than 1,500,000 Americans alive who

have been cured of cancer. Countless additional thousands are being saved from cancer through preventive action, and if we can educate every individual on the seven danger signals and the action he should take when he feels he has a signal, then our efforts are not in vain," she emphasized.

"There is a rather startling statistic that one in every four of us living today will have cancer, and it brings us to realize that we must all work together to help bring this dreaded disease to a halt—just as polio was in the early 1950's," she concluded.

Resuscitation Class Planned

Cardiopulmonary resuscitation will be offered at Amarillo College beginning Feb. 4 as a part of the short-term health course offerings this spring.

The four-week class sessions will meet from 7 to 10 p.m. each Tuesday in Room 415 of the Business Occupations Building on the Washington Street campus.

Tom Leon will instruct students in the areas of anatomy

and patho-physiology of circulation and respiration as they pertain to resuscitation and airway management.

"There will be an introduction of drugs used in the treatment of the patient with cardiac arrest," said Mrs. A. L. Crawford, supervisor of the program.

Cost of the course is \$6 and students may enroll at the registrar's office in the Washington Street Administration Building.

Tex Watson talks about

The Cost of Natural Gas

It's logical that Pioneer customers should ask why they are paying more for the energy they use in their homes. We are eager to have them understand why.

There is a lot of natural gas in West Texas, but we still must buy the gas in competition with other gas users across the country. To assure the people of West Texas that they will have the gas they need, now and in the future, we must pay the going price for new gas. Not only gas for our homes is involved, but most people's jobs depend on gas to run business and industry.

The gas is available, but we must pay the going price to get it. That price is reflected on your gas bill as a "cost of gas adjustment." I'm sure you don't like it. Neither do I. But I'm sure you agree that we must have the gas to run the homes and businesses of West Texas.

All energy will cost more in the future, but be assured that the Natural Energy Home will still be the way to go.

Premium Quality all the way. Full 13/32" tread depth. Carved tread composed of long mileage Polybutadiene compounds. Premium nylon cord. You can go a long, strong way on this one. No matter what you paid for your car, pay less than you might expect for its tires — yet get the Quality you deserve with Duralon.

*Premium is our designation — No industry-wide standard exists for premium tires.

LIFETIME GUARANTEE
Our passenger car tires are covered by an UNCONDITIONAL ROAD HAZARD GUARANTEE for the life of the original tread. This guarantee covers failures due to cuts, bruises or other injuries but does not cover ordinary punctures or running the tire flat. You will be charged only for the amount of tread you have used, plus tax, based on OUR REGULAR LOW SELLING PRICE. Truck, tractor and implement tires are guaranteed by the factory against any defects due to workmanship or material.
