A Bible Thought For Today-

We should plan as diligently to gain possession of our spiritual inheritance. We must extend ourselves and use every strategy, and all courage and faith to possess our spiritual heritage. Indifference will not attain it. "Then ye shall rise up from the ambush and seize upon the city." Joshua 8:7. Job 4:5.

Political Campaign Contributing Some Interesting Word Usage

Both the Webster's New International and Webster's New Collegiate dictionaries ignore "snollygoster" with lordly disdain, even among the footnotes; but we learn from the Washington Bureau of the Christian Science Monitor that the Oxford Dictionary of American English attributes it to Southern origin, circa 1862.

That's the strange word used last week by President Truman, you may recall, in a whistlestop speech in Parkersburg, W. Va., in speaking of the opposition.

The Oxford version gives an example: We am de snollgosters, and lubs Jim (James) Ribber oysters." Somewhere down the years a "y" was inserted. In 1895 this definition of a snollygoster was attributed to a Georgia journalist: "A fellow who wants office regardless of party, platform or principles and who whenever he wins gets there by sheer force of monumental talknophical assumacy."

Secretary of Defense Lovett also entered the new-word contest last week with "reclama" and "embogglement," both peculiar to Pentagon jabberwocky. He used

reclama in describing the autumn season around the Pentagon when the secretary starts trimming down Army, Navy and Air Force budgets. The word was, imported from the Philippines and means "gripe." (Not to be confused, we suppose with the French "reclame," meaning publicity, or love of the same.)

As for "emboggle," the CSM quotes Lovett as saying that the secretary of Defense gets a paper from a general which says that a certain situation is black, for instance. He gets another paper on the same subject from another general which says the situation is white. The secretary then has to study both and determine the situation for himself, "Then you are in a state of embogglement,"

In purist JabSerwocky, as distilled by the old master, Lewis Carroll, it all adds up to this: " Twas brillig, and the slithy toyes did gyre and gimble on the wabe; all mimsy were the borogoves, and the

mome raths outgrabe." A little nonsense now and then

Wisconsin Results May Indicate A Lot More Than Main Election

Candidates have a lot to think about, and one of their most difficult tasks is to avoid saying anything on Monday that by the force of circumstance might furnish ammunition to the opposition on

Young Richard M. Nixon, the GOP vice ential nominee, ran into a situation of that kind in Maine this week. He spent about eight days in the state, campaigning for the national ticket although only state contests were involved (Maine votes for presidential electors on November 4 along with all other states).

Republican campaigners had called for a majority bigger even that the whopping 71 per cent compiled by Senator Margaret Chase Smith in 1948, whose majority was 95,000 votes. On election eve Dick Nixon said anything much less than this would dishearten himself and Gen. Eisenhower.

With only a few votes still out, Gov. Frederick G. Payne, who had defeated Senator Owen Brewster in the primary, had a margin of only 59 per cent in the Senate race.

Against Mrs. Smith in 1948 the Democrats could muster only 28.6 per cent of the total vote. Against her new colleague, the Democrats mustered 41 per

On the basis of the Nixon appeal, the Democrats are entitled to say Eisenhower and Nixon must feel disheartened by the results in Maine. This, however, is not much of a talking point.

Politicians are fond of saying that if Maine Republicans roll up less than 65 per cent of the vote, a Democratic President is apt to be elected. But in 1948 Mrs. Smith got 71.4 per cent, and Truman was elected. And in 1924 the GOP got only 60 per cent and a Republican President was elected just the same.

More symptomatic, perhaps, are the results in Wisconsin where Sen. Joseph McCarthy rolled up an impressive majority in the Republican primary. It might be indicative that for the moment at least that voters are in a mood to see the scythe swung freely on the theory that it is really immaterial if some of the good are cut down if the same stroke slices out some bad. That may be the temper of

Pearson's Crystal Ball Shows Shivers, Dies After Johnson

may be able to write letters to music Payne in the Republican primaries. critics, but he's had great difficulty delivering a letter to the premier of Iran.

In fact, U.S. relations with Premier Mossadegh, always difficult, have become so bad that it's now almost impossible even to hand him a diplomatic note cons. taining a new concession from the British and a loan from us.

Not even the Russians act this rudely, Never yet have they refused to receive a diplomatic note. However, the impasse in Iran probably means that the Russians

will eventually take over. What happened in the Iranian case was that Prime Minister Churchill and President Truman sent personal messages to the premier of Iran last week. In them the British went further than they ever have before, virtually giving up their claims in Iran, and offering to help market Iranian oil if Iran would submit part of its dispute to the World Court President Truman in turn offered a \$10 000 000 loan to help tide Iran over its financial

When U.S. Ambassador Loy Henderson and British Charge D'Affaires George Middleton delivered the notes Premier Mossadegh read them. Then he grumbled: "This is too good. There must be a trap

Abruptly he handed back the notes, proceeded to bawl out the ambassadors. They took back the notes and walked out.

When Henderson reported this to Washington, President Truman hit the ceiling The fact that a foreign official refused even to receive a message from him was unprecedented. So Ambassador Henderson was instructed by cable to go back. redeliver the note to Mossadegh even if he had to ram it down his throat London sent similar instructions.

Two days later the British and American envoys called on the premier again. told him he had to accept their notes. Coldly, Mossadegh told them to put their notes on the table and leave.

Meanwhile, Iran's financial situation is drifting from had to worse, while the Tudeh Communist party is getting stronger and stronger. Its underground army is now well equipped, and with a little Russian support could take over the entire country almost anytime Moscow gives the

NOTE-President Truman has said privately that this is the last time he'll ever write to the premier of Iran. Since the White House staff also want him to lay off letters to music critics and Bernie Baruch, this leaves the President's letterwriting scope somewhat restricted.

Dynamic Dick Nixon, the vice-presidential candidate, did a terrific job of campaigning to bolster the Republican ticket in Maine except in Bangor.

In that city he was paying tribute to Sen, Owen Brewster, Republican, who

WASHINGTON .- President Truman was defeated by GOP Governor Fred

said. "Owen Brewster has been a good sport and has gone up and down the state campaigning for the ticket."

Whereupon a voice piped in the rear. "How can he do that," it said, "when he's in Switzerland?"

Behind the maneuvering of Gov. Allan Shivers in Texas is his rabid desire to run against Sen. Lyndon Johnson two years

That means that Shivers has to please the big-money Texans in Houston who back Eisenhower if he wants to get their anti-Fair Deal financial support and at the same time he doesn't want to alienate the "folks." For though, the "folks" don't have much money, they have a lot

This also means that Lyndon Johnson, an efficient though sometimes timid senator will face two tough opponents.

The other one has been hiding out at Jasper during all the rumpus over putting Eisenhower and Nixon on the Democratic ticket. He is Martin Dies, the ex-congressman who initiated the House Committee on Un-American Activities and who has now become know, as "the dumb oracle of Jasper." Martin has cut off his country telephone and when you try to reach him the operator informs you it's out of order.

REASON: Dies doesn't want to get betwixt and between the vigorous pro-Eisenhowerites, represented by Shivers, and the Loyal Democrats represented by Sam Rayburn and Maury Mayerick. If he can play possum he can keep from making enemies on both sides.

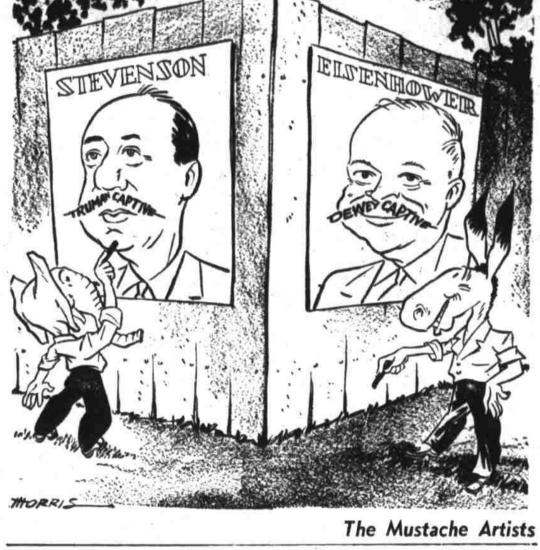

CORRECTION: Last month this column reported tha, Felix Cohen, ex-Interior Department attorney, was a "partner" in a syndicate seeking Indian claims against the government. Testimony to this effect was given before the Senate committee probing Indian attorneys. However, I now learn that Mr Cohen, though a partner in the firm of Riegelman, Strasser, Schwarz and Spiegelberg, which is handling extensive Indian claims, has a partnership agreement specifically providing that he shall have no fees from these In dian claims. Delighted to set the record straight... Secretary of Defense Lovett hesitated just a wee bit about testifying in the McCarthy-Benton suit regarding the patriotism of his old chief, General Marshall. It looked for a moment as if he didn't want to get mixed up in it. However, he's now sent word he will testify... The Rum and Maple Tobacco Co., which puts out "I Like Ike" and "Stevenson for President" cigarettes, is conducting a

poll through cigarette sales. They show

that Ike is leading by about 2.1 per cent.

Eisenhower cigarettes last week sold

867.850 packs with Stevenson 832.150.

World Today – James Marlow

Both Stevenson And Eisenhower Go Along With Truman's Foreign Policy

geration and the views of Gen. come down to this: Both go along effectiveness in the United Nations, behind the Iron Curtain, and didn't with the basic foreign policy of the Truman administration.

Which means: stopping communism from further aggression by building our armed forces; holding, helping and arming allies because they need us and we need them; giving aid to other countries to keep them out of communism.

them, although it may some times get swept around a bend by the flood of words, is this: (a) How well has our foreign policy been carried out and (b) who could handle it better, Eisenhower or Stevenson?

Around The Rim - The Herald Staff

Writer Recalls The Brogans He Used To Wear Years Before

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

Brogans-those boat-bottomed, flare-topped plow shoes that the rural portion of the "depression kids" grew out of - probably have warped more personalities than any other two items.

I'll never forget the few pair I managed to wear out. They set me apart, just like the clod-hoppers the other country boys wore. In our school, you could recognize the

hayseeds as far as you could see 'em or hear 'em clomping. Feet looked like they were engaged in houseboats. And invariably, the overalls legs lacked a couple of inches reaching the tops of the high-Bashfulness, brckwardness and awkwardness were emphasized by those outsized brogans. You could hardly get them

you did your feet made a racket like a horse scuffling around in an empty grain How I envied the "town boys" who didn't have to hoe in the summertime or pick cotton in the fall, and who came to school in low-quarter, soft-sole shoes. Looked like little gentlemen, they did, and us hicks never had a chance with the girls, what

under the fourth grade desks, and when

those brogans. Of course there was a good reason for wearing the king-size casings with their cord soles, hob nail heels and high tops. Living on a farm, then as now, involved

with all the trouble it was to walk, much

less appear the least bit sure-footed in

considerable heav work-hard or shoes. Farm folks were "pore" back in the terrible thirties, and one set of footgear had to last a whole year-from the time school started 'til barefoot time next summer, that is. So you naturally purchased

the heavy-duty brogans. You mail ordered the things from Sears or Wards, along with the overalls, wash shirts and long-handle underwear that was supposed to carry you through the long school year. Probably picked cotton until you earned seven or seight dollars, enough for the "change" of clothes and the foot coffins.

The brogans cost in the neighborhood of \$1.98-about 15 cents a pound. The first few times you wore them, the soles were as straight and inflexible as a piece of railroad track. After a week or two, though, they began to curve and shortly the toes were arched like the front of a barge.

The things made awkward walking, new or used. When straight and stiff, they made you walk from the knees up. When curved (still stiff), it was like standing in a pair of rocking chairs.

But it wasn't the bottoms that made us country boys blush when vieing with the crepe-sole lady for the smile of the girl just across the aisle. It was those bodacious bell-like tops, into which spindly legs projected from too-tight and tooshort overall legs.

Gallup Poll

GOP Shows Big Gain Since 1948 Vote In Mid-West Farm Region

PRINCETON, N. J., Sept. 11-General Eisenhower is running substantially stronger today than Dewey did in the election four years ago in the crucial Mid-West farm states, where a last-minute swing of the farm vote to Truman helped spell defeat nationally for the

G.O.P. in 1948. In the West Central section as a whole, comprising eight states, the Republican ticket is running approximately 10 points stronger this year than in the 1948 election, judging by the latest Institute polling

in that area The eight states are Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin. They have 68 electoral votes. The four largest, Iowa, Minnesota, Missouri and Wisconsin went Democratic last time

To gauge the situation today, interviewers for the Institute went out and questioned a carefully-chosen cross-section of the voters in the 8-state area as follows: "If the presidential election were being held today, which party would you like to

see win - the Republican party or the Democratic party?' Those who indicated a preference or ex-WEST CENTRAL STATES Republican 55%

Undecided

Analysis of the 6 per cent who were un-Jersey, Maryland, Delaware and West decided shows that far more voted Democratic than Republican four years ago. Allocating to the Republican party today those who voted Republican in 1948 and to the Democrats those who voted Demo-

cratic, the figures would be: WEST CENTRAL STATES Republican 55%

If the remaining 4 per cent undecided were to divide in the same way as all the other voters, the figures would be 57 per cent Republican, 43 per cent Democratic. This compares with the actual vote in the section in 1948 of 46.3 per

cent Republican and 53.7 per cent Demo-

cratic (Truman and Wallace). Today's survey results reflect sentiment for the entire West Central region and are therefore not applicable to any one

state within the region. Campaign's Effect on Situation It should be borne in mind that the Institute's balloting in the Mid-West area, conducted during Mid-August, reflects the situation before any intensive campaign-

ing was done in the region by either candi-The pre-campaign shift in the region toward the G.O.P. is interesting not only because the Mid-West farm vote was widely credited with causing Truman's victory four years ago, but also because of the contrast with the latest poll results in the adjoining section, the East Central states, comprising Illinois, Indiana, Ohio

and Michigan. In this home territory of the Democratic standard-bearer, Governor Stevenson of Illinois, the opposing presidential tickets were found running practically neck-and-neck in an earlier Institute report. The

World Always Has Thunderstorms

book.

Thousands of weather stations now dot the earth. They are most common in North America and Europe, but Asia and Africa have many of them, also Australia and South America. Here and there we find a station in a desert or on the tor of a mountain,

It is the duty of men in weather stations to keep records of rainfall, winds, temperatures, air pressures and so on. It is common for them to send out reports by telephone, telegraph or radio, and the outside world learns about conditions in many

To measure rainfall, the weather stations use rain gauges. A crude gauge is a pail or barrel in which rain is caught. The depth of water is measured after each rain. That method works in a rough way. but modern stations have much better rain gauges. Some of them provide a running story of the rainfall, with the lielp of a pen which marks a turning cylinder. The line shows the amount of rainfall during each hour, quarter hour, or even

minute of the day,

Weather men also keep records of thunderstorms. Several years ago, a study of the collected records indicated that more than 45,000 thunderstorms take place on an average day.

At many spots, a person hears thunder less than a dozen times a year, but the thunder records cover the earth in general. All may be quiet in our home town, but thunder is going on elsewhere. It may boom 20 miles away without a sound com-

ng to us. During January and February, in any cold part of the earth, we seldom hear thunder, but plenty of thunderstorms take place in the Torrid Zone during those

Near the southeastern end of Asia is an island which has been nicknamed "thundering Jaya" This thickly-settled place has an average of 18 thunderstorms a month. As you read these words, thunder may be sounding in Java. In any case, you may feel sure that hundreds of thunderstorms are taking place in various parts

Maryland Club Cop the coffee you'd drink if you owned all the coffee in the world!

Longhorns Leave For Breck Odessa Ullers Game At 9 O'clock Friday In Row, 7-6

Season's Debut **Only Hours Away**

Carl Coleman, head footbal coach at Big Spring High School, has named his probable starters for the Breckenridge game, which will be played in Breck Friday

Offensively, Coleman will use Bobby Hayworth at quarterback, Doyle Maynard and J. C. Armistead at halfbacks, and Bills Martin at full, Raymond Gilstrap and Wayne Medlin at ends, Louis Stipp and Carlisle Robison at tackles, Paschal Odom and Jackie Milam at guards and Norman Dudley at

When Breck has the ball, it will be Don Reynolds, Raymond Gil-strap, John Suter, Jimmy Ellison, Jimmy Porter and Dudley up front and Jerry Cook, Don Swin-ney, Carlisle Robison and Buddy Cosby manning the secondary

Gilstrap, Robison and Cosby will serve as line backers and operate as part of Big Spring's aerial de-

Breckenridge is being picked by many to repeat as State AAA

However, the Buckles have changed coaches and lost sev-eral key men, including Donald Robbins, star end; a couple of tackles and four part-time regular backs, including Ronald Dobbins, a 156-pounder, who was very instrumental in Breck's surge to the stae crown in

Back is the great passer, Kenny Ford, brother of HSU's famed John (Model-T) Ford, Ford will mastermind the Buckie attack and try to demoralize the Steer defense with his serial bombs.

Such lads ad Frank Long Robert Angel, Ted Scott, Brick Johnson, Donald Mack Richardson, James Hollis, Nugent Reid, Bill Dorsey, Billy Earley, Charley Fox and Roger Brown are due to see lots of action for Big Spring.

The Steers will leave the local

high school in a special bus at about 9 a. m. Friday. They expect to arrive in Breckenridge about

This is probably the most important opening night game ever first tests are booked against teams considered 'warm-upa' but Coach Coleman and his aides figured the locals, if they ever are to compete successfully against the gridiron giants again, must play them. It's the best way to learn how to play championship football, Coleman

LOOKING 'EM

With Tommy Hart

Coach Carl Coleman figures his Big Spring High School football troops will do all right against Breckenridge if they can stay the Buckle aetial express.

The Steers have performed to satisfaction in practice when they w a pass was to be thrown. Kenny Ford, the Breck call player, intends to see to it, however, that none of the tocals are huddle cailed before each play.

The Steer passers are going to have to try and master the art of spotting more than one downfield receiver, too. That's been the trouble with the Longhorns in the past. The throwers have had difficulty in bringing a target into focus if the receiver hasn't been included in the

Roy Baird and Mack Alexander took the Steer B team over to Coahoma Monday for a scrimmage with the Coahoma Buildogs. The Shorthorns were outscored by a couple of TD's.

Stock of the Snyder Tigers shot skyward last week end when Speedy Moffett's team held San Angelo to a 13-13 tie in a scrimmage and outplayed the AAAA eleven in doing it. The Bengals are being picked to camp in the 1-AAA cellar but ould surprise everyone.

The injury bugaboo is already worrying teams across the schoolboy map.

The Vernon Lions, future opponents of the Big Spring Steers,

have lost Gordie Harvey temporarily. It was first believed the star tailback was suffering from a broken arm but an examination show-ed he had sprained a muscle in his shoulder.

Odessa's Bronchos of District 1-AAAA must do without Carl Schlemeyer, star passer, for from four to six weeks. He fractured his left collarbone in practice.

Jim Lindsay of the Midland paper draws attention to the fact that Texarkana Al Monchak, the Roswell baseball boss, has been beaned no less Big Spring than four times in his career.

Stephenville Al was out for several months with a brain concussion while play-

ing with Baltimore some years back.
FOOTBALL COSTLY TO ANY HIGH SCHOOL

Football is an expensive item, even in high school It is estimated it costs \$110 to outfit each gridder. Including game and practice toggery, each boy uses about 15 pieces of equipment. Actually, it costs more to outfit a lad for practice than it does for a game.

in fact twice as much. The reason is that a lad uses quite a bit of his practice gear in a game. Add to his personal equipment the cost of transportation, meals, insurance and such items as tape, football movies, goal line flags, sideline markers and other miscellaneous supplies. It all adds up.

The Sweetwater paper says Charley Buck, the star center fielder for the Braves, probably has been sold to the Pittsburgh Pirates

Fact is, he might even now be sitting on the Buc bench watching the Buccos go through the motions.

Big Spring and Sweetwater probably set a record for Longhorn League season's play here Monday night when they accounted for five sacrifice hits in the second game of their double bill. Three of the sacrifices were executed by Big Spring.

Ail teams in the Longhorn League usually hit away, working on

Shamrock Van Horn the theory that they must get their runs in clusters. However, the teams were laying down bunts, trying to advance runners, as early as Lamesa the first inning.

LITTLE SPORT

TERPS MAY BE TOPS

Southern's Best Elevens By The Associated Press Highland Park (Dallas) flung a Warning to the other teams in Class This Season Are Exiles

RICHMOND, Va. In-The South great quarterback, around to di-

the favorites in the Dallas district among the best in the nation. Yet, of Class AAAA. Highland Park neither can win the conference hadn't been considered a top con-championship.

Both Maryland and Clemson are There's a scattering of games to- on the conference blacklist. They night in the four classes but the placed there for playing in New big schedule comes Friday night Year's Day bowl games and were with a battle between Odessa and given one-year football suspen-

Virginia, another top-flight area outfit, can't win, either, for the Cavaliers aren't conference mem-

Maryland has its eyes set on becoming the nation's No. 1 team. And the Terps have every reason to believe that's where they'll wind

up.
They thrashed Tennessee, last year's top-ranked team, in the Sugar Bowl Jan. 1. And Coach Jim Tatum flatly admits the Terps will have their greatest running attack in Maryland history and a defensive unit which will compare favorably to the 1951 defense which limited its foes to an average of 75.5 yards per game. Tatum has Jack Scarbath, a

Bearkats Play Knott Friday

KNOTT - Perhaps the area's top six-man game of the week will be played here Friday night be-tween the Knott Hill Billies and the Garden City Bearksts, Kickoff time is 8 o'clock.

The contest counts nothing in conference play, since the sextets are from different districts. However, both schools are coming up with what appears to be fine clubs and each may be a factor in its respective race.

Knott, which has a new coach in Bill Bolling, has eight lettermen back. They are Donnie Chapman, Bobby Gay, Tiny Bayes, Jerry Roman, David Airhart, Doyle Conway, Phillip Stovall and Rich-

ard Parker.

Bayes, a 157-pound senior, will spearhead the Knott attack. Targe Lindsay, the Garden City coach, will also bring a veteran club to the community. Wilburn Bednar, Larry Calverley and Bobby Frizell are among the Garden

whipped Adamson of Dalias; 25-0.
It opened the first big week of schoolboy football in which there were more than 250 games in the four divisions that play to state championships.

Adamson had been rated one of the favorites in the Dallas district.

RICHMOND, Va. IP—The South great quarterback, around to division. He is tricky split-T version. He has an abundance of other speedy backs in Chester Hanulak, Ralph Felton, Ronnie Waller, Frey Layland and Clemson — are expected to have teams which will rank to full rank for the favorites in the Dallas district.

RICHMOND, Va. IP—The South great quarterback, around to division. He threat back in Billy Hair. Heir has an abundance of other speedy backs in Chester Hanulak, Ralph Felton, Ronnie Waller, Frey Layland and Clemson — are expected to have teams which will rank for the favorites in the Dallas district.

Faloney, Charley Boxold and Lynn football savyy and were on last year's squad. year's squad Leading the Maryland line is Duke's Blue Devils have become Dick (Little Mo) Modzelewski, who along with Scarbath is being ference crown with Maryland and boomed for all-America honors. Clemson safely out of the way for Fifteen other lettermen are sprin-

kled among the line candidates. Virtually all of Duke's 1951 team

is back. Their big problem is to develop a defensive backfield.

Wake Forest, William and Mary, North Carolina and possibly South Carolina could cause the Dukes trouble. Wake Forest, particularly, should come up with a hard-to-beat team since many experienced hands are back.

North Carolina has turned to the T-tornation. How well the Tar Heels do will depend on how quickly Cach Carl Snavely can bring them around to their new formation.

REAL ESTATE HOUSES FOR SALE

> BE MY LIFE COMPANION

August Breaks

All Records For

Sustained Heat

If you felt as though August

was unduly warm, you now have

the figures to support your feel-

August broke all records for sus-

tained heat. Mean temperature, ac-

cording to the monthly summary

released by the U. S. Weather

Bureau, stood at 88.1, or 5.6 de-

grees above normal. This is the

highest average any month has

established since record keeping

The 88.1 means eclipses 87.3 for

August 1910 and 86.4 in 1943 and 86.3 in 1907.

Temperature range for the

nonth was from 70 to 105 degrees.

All 31 days had 90 or more tem-

perature, and in fact 96 was the

lowest maximum. Twenty of the

31 days produced readings of 100

or more degrees. Eight days averaged 90 or more degrees.

The month was dry as usual

with precipitation of only ,53 of an

inch. Of this amount 40 occurred

in a localized shower on Aug. 28

and which did not even cover all

This brought to 3.48 the total

precipitation measured by the bureau for the first eight months

of the year. The total was 8.75

August was the 23rd consecutive

month that less than normal rain-fall has been registered here by

the bureau. In comparison with the most severe drouth previously recorded in 1917, this year is still .39 of an inch shy of the eight

months moisture total in 1917.

Appear At Schools

John Regan, who combines a

rope twiring wizardy with a Will Rogers type of humor, will be presented in a pair of school as-

He will appear at 11:15 a.m. at

the senior high auditorium, under sponsorship of the student coun-cil. Admission will be nine cents,

and parents are invited to attend

the program. As a prelude to or-ganization of classes and the stu-

dent council at junior high, Regan

will be presented in a free pro-gram at 9 a. m. in the junior high

His routine includes uncanny rope

twirling, stock whiperacking, boom

erang throwing and a line of pat

ter. Regan is a native of England

who was reared in Australia where

he became a cowboy star.

their contract expires on Leaving the matter open for further discussion, as they did, indicated the Southern owners may be attracted to the Lewis plan, particularly if it is coupled with only a modest pay boost for the

Lewis wants employment more evenly distributed among his 320,-000 union members in the soft coal industry. Some now work as few as two

days a week, others as many as

five. Lewis has suggested penalty pay of time-and-one-half for a fourth day's work, double time for a fifth day's work. With the demand for coal no fairly light, the mines working full time are mostly those known as "captives," whose output goes to

steel companies, utility firms and Most of these "captives" are ir Northern states, so the Southerners feel they might get a bigger share of the coal market under the Lewis plan. That's because the owners of the "captive" mines would have to buy coal from them

o avoid the penalty pay. For that reason, the Northern operators are cool toward the share

the work plan.

Lewis may hold another bargaining session with the Southern operators today. The union had a meeting, too, with the anthracite operators, from whom Lewis wants greater contributions for his union welfare fund.

British Workers Threaten Pinch On Rearmament

LONDON W - Leaders of Britain's three million shipbuilding and engineering workers voted last night to call for a ban on all vertime and piece work in the two vital industries in protest against employers' refusals to consider vage demands.

If actually put into effect, the an could cripple the nation's vital rearmament and export drives. In view of the threat to Britain's haky economy, however, the goverament was expected to intervene with arbitration proposals. The question may be discussed at a neeting of the Cabinet today. The proposed ban was approved

Executive Council of the Confederation of Shipbuilding and Engineering Unions, a group of 38 unions involved in the manufacture of ships, airplanes, automo gineering products.

The council described the ban as a protest against the flat rejection by employers of union demands for a general weekly wage increase of two pounds (\$5.60). This would have been an increase of about 20 per cent for the lowest

scale workers. The council, however, can act only in an advisory capacity. Mem-ber unions now must poll their membership on whether the pro-posed ban should be put into effect. The council meets again today to set a starting date for the

ban, if it is approved.

If ca ried out, the ban could result in a slash of up to one-third in the output of the nation's flourishing engineering and shipbuilding industries. The resulting drop in exports could drive millions of other Britons out of work. .

43,500 People Run **Texas' Government** DALLAS, Sept. 11 M-It takes

43,500 people to run the state government of Texas. And they get paid a total of \$8,946,000. These Census Bureau figures for

April were disclosed yesterday by Dallas officials of the Department of Commerce. Last year at the same time there were 43,000 state employees

and the payroll was \$8,543,000. Work of state employees ranges all the way from policy duty to conserving Texas' natural resources. The largest single group, some 16,783, are employed to teach in state schools and colleges.

By A-2C FERD J. BORSCH

GRADUATION

Graduation exercises for 93 mem- bridge table for members who feel bers of aviation cadet class 52-F they need brushing up on their will be held at Webb Air Force game, will be available. Base Saturday.

This graduation marks the third This graduation marks the third such exercise since the base was drive as the NCO Wives Club field Ea re-activated. Of the class of 93. its monthly business meeting at the there are 27 student officers and NCO Club Monday night. 66 cadets.

Military ceremony, both on the flight line and at the graduation ceremony in the Academic Build-ing auditorium, will highlight the morning program.

Tony LeVier, nationally known test and race pilot and now the chief engineering test pilot for Lockheed, will give the commencement

Following the open post policy of previous graduations, Col. Ernest Wackwitz, base commander, has extended an invitation to all citizens of Big Spring to visit the base during the ceremony and witness the flight line program which will include a pass in review and serial salute.

The program gets under way at

9 a. m. OPERATION BOOTSTRAP Fifty-eight officers and airmen from Webb have signed up for a total of 81 classes which opened at Howard County Junior College

Wednesday night. All of these classes are covered by "Operation Bootstrap," an Air Force educational program which provides for 75 per cent of school

As in the case of the first "Bootstrap" program offered on the base early this summer, math has ed to be the most sought after subject. No less than 18 signed up for the "facts and figures" course while 15 applied for English and 13 for Business Administration

DENTAL CLINIC

Military and dependent dental care is now in the operative stage at Webb. Information released by Maj. V. P. Best, Wing Dental Officer, indicates that the arrival of five dentists brings the total of working units to nine, making possible the scheduling of appointments for operative denistry. SAFETY

Another off-base phase stressed in the "U-SAFe" campaign at Webb is the precaution necessary while driving through school zones. All personnel at the base have been reminded of the 15 miles-per-hour speed limit in school zones. This particular phase of the three-month safety campaign is stressed all the more because of Airport School, located just north of the main gate to the installation.

PROFICIENCY TESTS
An additional 59 men from the administrative, supply, and aircraft and engine maintenance career fields were tested for higher level ratings Monday as the first group of Air Force proficiency tests came to a close. A total of 209 airmen took the tests. Examinations in these three career fields will not be offered again for six months Meanwhile personnel in other fields will be offered the chance to hike their career responsibilities through this program.

FIRING RANGE Webb's firing range opened Monday with members of the 3560th Air Police Squadron holding practice sessions. The range has been under rehabilitation for two months by Air Installations Squadron personnel, who have graded the area, and constructed line and target fixtures. The range has not been sed since abandonment in 1945.

Webb's firemen answered their first structural alarm Saturday since moving to their new station on the flight line. An air conditioner water pump overheated, resulting in a miner blaze in Dormitory 228. The fire crew dashed from its new quarters to the smoke-filled scene. Damage was limited to the pump OFFICERS WIVES

Textile Blend Battle Breaks Out In Clothes

It's not blends of whiskey for lic's whoopee, as you may think, but of natural and synthetic fibers for do not have to pay all their tax

But either could get customers just as befuddled in the months

When they enter a clothing store they may be confronted with a bewildering variety of combinations of fibers; those that come from sheep and plants and those that from oil, coal and lime, natural gas and hydrocarbons, from wood and grain, and from air.

Each blend-or each fabric from fiber in its pure state (whether from sheep or corn)-will offer you different values in wear, price, and special qualities like holding the crease in dry or wet weather washability. Also to be considered is in what state the garment will return from a trip to the cleaners, or whether it will develop static and cling to your body.

Old line textile mills that a few or wool goods are offering new blends this fall.

Don't sell wool and cotton short, however. There'll still be plenty of each, in their pure state, in the stores. Millions will go on buying them. And they are highly prized in the trade for mixtures with the new miracle man-made fibers.

The staid American Woolen Co. vicara. But it stresses that it will those only.

It is expected to top 300 million pounds this year and 400 million pounds this year and 400 million pounds the sires.

If the price of the new synthet ics—now ranging roughly from \$1.40 to \$1.90 a pound—comes down with increased production, man made fiber enthusiasts predict that demand may call for output of 750 million pounds by 1960.

Japanese Plan More Defense About Hokkaido

By VIC TAKAHASHI

TOKYO M — Japan intends to a graduate of Tennessee Agricul-shoulder a greater burden of the defense of Hokkaido, the northern-Her husband is a soldier in Korea. most island separated only by a narrow strait from the glowering ower of Russia on Sakhalin. The veteran U. S. First Cavalry

Division now stands guard on Hokkaido, in whose coastal waters the Russians rattle the sabre by seizing Japanese fishing boats. The Japanese press is full of accounts of plans to put more muscle into the National Police Reserve-American muscle of tanks

and howitzers.
The National Security Board says that a regional corps of 25,000 men will be organized and mechanized and sent to Hokkaido.

Some press reports say that under this plan, the Japanese gradually will replace the U. S. cavalrymen as a defense force on that northern outpost.

The Japanese defense force for Hokkaido will be laid out along the lines of the U.S. Army, which h : been training the National Police Reserry.

The Japanese corps will be equipped with 105-mm aftillery 155-mm tractor howitzers antiaireraft guns and 30-ton Sherman tanks of World War II, all from the U. S. Army.

Press accounts report that some tanks and 105s already have been turned over to Japan and more he vy equipment will be supplied this mouth and in October.

There has been no announced target date for the establishment of the Japanese defense forces or Hokkaido. However, the National Security Boa says it will come some time after the police reserve is changed to the "security forces"

The board hopes to create force strong enough on Hokkaido

while the emphasis seems to be on Hakkaido, the Japanese government hopes to expand the police reserve to 110,000 men. Its present strength is about 55,000.

The Japanese Communists, who oppose any rearmament and de mand that the reserve be disband ed, boast that the recruiting campaign for the reserve is running into rough sledding.

This is conceded. The word

"army" is unpopular in Japan just now. The memory of the war is still 'resh, and politicians on the left insist that Japan's economy

carnot stand rearmament.
The Japanese government, however, has undertaken in its security agreement with the United State to assume graduafly the task of

The plans laid out for Hokkaide appear to be the first stride in

Not All Tax Cases

Big Spring (Texas) Herald, Thurs., Sept. 11, 1952

CURRY SUPPERS ARE POPULAR IN HAWAII

Hawaiian Feast Can Be Served In Yard

paradise of brilliant sunshine, when it is cooked. may seem as remote for the family as the final payment of the

The perfect expression of hospitality in Hawaii is the luau, or celebration feast, which had great religious significance in the ancient days. Although modernized, it today retains the joyous spirit of old and it is as traditional as the fragrant flower lei of Hawaii, which is always bestowed with a kiss.

The foods of Hawaii are delight—

The

The foods of Hawaii are delight- cereal at Hawaiian meals. An ful and distinctive, with hints of ambitious backyard chef might do flavors of many countries, yet unlike the foods of any other peo-ple. There is an abundance of un-even if available, probably wouldn't usual vegetables, salad greens and be appreciated. hush fruit. The blue waters around Caucasian Style ands of fish. Favorite meats of the area are poultry, beef, and pork, and these are frequent ingredients in the flavorful foods of Hawaii.

the ares are poultry, beef, and pork, and these are frequent ingredients in the flavorful foods of Hawaii.

Many Flowers
So if you want to treat the family and friends to a Hawaiian supper, deck the table with flowers—and the guests, too, with leis. Go as sative as you wish, as alaborate as the occasion calls for, or as simple—but do be happy and gay.

For the luau in Hawaii, ferns

include laulaus, chicken luau, baked sweet potatoes, pipikauia, (jerked beef tenderioin), haupia (cocoanut pudding) and fresh pine-apple or pineapple sherbet.

Laulaus are made of pork and fish with chopped taro leaves (similar to spinach). Small pieces of fat fresh pork and salted fish are arranged on large it leaves and tied securely. Com husks or parchment paper would have to substitute here. These are steamed three hours or more, and served

gingers, anthurium, bird of para-dise, Vanda orchids, and a pro-fusion of other tropical blossoms son. Each guest also receives a strained cocoanut milk. Stir and

Traditionally, no eating bowls and trays, Candles stuck Hawaiian feast can be brought to utensils are used at the luau and in halves of cocoanut shells might the backyard almost any late summer evening.

The perfect expression of hos-

diments for the curry are crumbled crisp bacon finely chopped green onion, chopped hard-cooked egg yolk, chutney, pineapple, pickles, grated cocoanut, chopped nuts, golden raisins, sliced lemon, and grated cheese. HAWAIIAN CUPE

2 cups hot milk

2 cloves garlic chopped 2 teaspoons ground ginger 3 green onlons, chopped 1 to 2 tablespoons curry p 2 tablespoons soft butter or mar-

garine
1-3 cup flour
6 tablespoons butter or marga-

rine
14 teaspoon salt
3 cups cooked boned chicken.

gay.

For the luau in Hawaii, ferns and green ti leaves cover the table or ground for a cloth. Fruits and flowers are strewn down the center of the long table. Golden fresh pineapples, bananas, and other tropical fruits add almost as much color as the flowers—the gingers, anthurium, bird of para-

fusion of other tropical biossoms only a native could name.

Rosst Pig

The "piece de resistance" of the traditional luau is the whole roast pig, baked for hours in an inu or underground pit that has been lined with fresh ti leaves and covered over with more leaves, red hot rocks, wet matting and earth. Before the pig goes into the pit, the center cavity is filled for dessert. You will want to serve with hot rocks, and the pig is coffee of course. That's "kope" in strained cocoanut milk, Stir and cook over hot water until the sauce is thick and smooth. Stir in salt and cream. Add chicken and cook quite slowly to prevent curding, about 20 minutes. Serve hot on cooked rice, and if you wish top with chopped, toasted almonds. Whole, sauteed bananas are delicious served with chicken almond curry, but do have an attractive assertment of c urry accompaniments, as well.
