

## Local, Area Schools Plan Special Week

### School Board Contested Race

The only contests in upcoming elections are between two incumbent school board members, Buddy Bingham and Flannery Newton, and two hopefuls, Arlen Simpson and Jackie Heffington. Through Friday at closing time, no other candidates had filed for the posts with Sid Hopping, school secretary.

Three county school board members whose terms are expiring remain unopposed, also. Leon Leonard is running for precinct 3 at Spade, Ray Kelley is the incumbent for precinct 2 at Springlake, and Albert Lockwood is trustee at large.

Filing date for both county and local school boards is 5 p.m. March 5.

Terms of Mayor J.E. Chisholm and Councilmen Paul Carmickle and Dr. James Shotwell are up, and all three have filed for re-election and are yet unopposed.

The last day for prospective council members to file is March 5 at 5 p.m. in the city secretary's office at the City Hall.

Election of school board and county board members will be April 3. Absentee voting for school elections begins March 15 and continues through March 30.

Absentee voting for city elections begins March 18 and continues through April 3.

### ★ SPELL DOWN SCHEDULED

A number of Lamb County students are studying "Words of the Champions," hoping to be finalist for the county spelling bee that is set for 1:30 p.m., April 24, in the district courtroom.

Twelve students, or two from each school district in the county, are expected to participate in the county bee. The county winner will go to the district bee in Lubbock the following Saturday.

Mrs. Lenton Smith will be the pronouncer.

Students who are not more than 16 years of age nor past the eighth grade in school may enter the county contest. Ribbons and prizes will be awarded to all participants for their efforts.

### Criminal Cases Set For Tuesday

A panel of 120 prospective jurors is to report to the district courtroom Tuesday morning, March 2, at 9:30.

Five criminal cases are set to be heard this week, including two charges of murder, one charge of burglary, one rape case, and a charge of driving while intoxicated, subsequent offense.

### Back-To-School Slated March 1-5

March first through fifth are the dates for this year's Texas Public Schools Week, and the Littlefield schools as well as all of the nine area schools have planned special activities during the week.

Visitation in the Littlefield schools begins Tuesday, March 2, with parents and interested persons given a special invitation to visit Elementary I any time during the day. At 10 a.m. Tuesday, there will be an assembly in the high school auditorium with Captain Bill Cox of the Lubbock Police Department giving a program on "Drug Use and Abuse." Captain Cox will present the same program at 11 Tuesday morning in the Littlefield Junior High Auditorium.

Wednesday is the day designated as visitation day at Littlefield Primary and Elementary II.

Thursday is visitation day at Littlefield Junior High, and all of the Littlefield schools will dismiss at 3 p.m. Thursday for the monthly teachers' meeting.

Friday is high school visitation day.

ALL OLTON PARENTS are invited to an open house in all of the Olton schools Monday night, March 1, from 7-9 o'clock. All teachers will be on duty in their rooms to talk with visitors. Members of the P-TA will serve refreshments in the cafeteria during the open house.

SPRINGLAKE-EARTH schools are hosting an open house for the people of the community all day Tuesday, March 2. On this date, visitors are welcome to visit in the classes and eat in the lunchroom.

SUDAN SCHOOLS are having back-to-school night Tuesday, March 2, from 6:30-7:30. Classrooms will be open for parents, then after the visitation hour there will be a band concert in the school auditorium.

AMHERST Student Council members will serve breakfast to their teachers during public school week, and parents are extended an invitation to visit classrooms and eat in the school cafeteria any day during the week-long observance.

ANTON SCHOOLS are having an open house Thursday, March 4, from 7-9 p.m. with parents invited to visit their children's rooms. Coffee and cookies will be served in the cafeteria from 8:30-9 p.m.

WHITHARRAL SCHOOLS have already held an open house this year with new and remodeled buildings open to the public after rebuilding from last May's tornado. No special activities have been planned this week, however there will be a

SANDS OF COOKIES are now being sold by Girl Scouts and others in Littlefield, and these two will be among the troops to contest. Mari Louise Bennett of Troop 279 reaches for one of the varieties Deborah Donald of Troop 351 shows her from atop the stack.

### TH-LONG CAMPAIGN

## Red Cross Drive Set In Lamb County

Red Cross Fund Drive will begin in Littlefield, Earth, Hart Camp and Pleasant Valley Monday, with each of the communities conducting their own programs.

Field workers will meet for a coffee in the XIT Room of Security State Bank to receive instructions for the month-long campaign for funds of the county Chapter of American Red Cross.

A total of \$8,584 has been set for the county, and other communities in the county, besides those already mentioned, will begin their drives later in the month.

Judge G. T. Sides proclaimed March as Red Cross Month during a ceremony in his office Tuesday, and has urged residents of the county to give support to the drive.

Mrs. Bonnie Haberer of Pleasant Valley is overall county fund chairman.

Warren Dayton of Littlefield is chairman of the men who are making the business drive; Dean Carpenter is chairman in Amherst; Rev. Glen Smith is the Springlake chairman; Mrs. Ruth Leonard, Hart Camp; Mrs. Bonnie Haberer, Pleasant Valley; Mrs. Lottie Orteg and Rev. Johnnie Williams, co-chairmen of Earth; Mrs. Alma Bowman, Fieldton; Mrs. Ray Smith, Spade; Gene Trotter, Olton; and J. P. Arnold, Sudan.

A house-to-house drive will be conducted in Littlefield the third week of March, and tables will be set up in the banks and post office the fourth week.

Goals for the communities are:

Springlake, \$500; Spade, \$250; Fieldton, \$100; Hart Camp, \$125; Earth, \$800; Sudan, \$700; Pleasant Valley, \$150; Olton, \$1,100; Amherst, \$600; and Littlefield, \$4,275.

OICU2 IS Donald Carr's salutation on his personalized car tags. Connie Ray, a deputy in Tax Assessor-Collector Herbert Dunn's office displays some of the 1971 tags that Lamb County residents have special ordered.

## Phrases, Names, Towns On Individual Tags

Whatever their reasons for ordering personalized license plates, a number of Littlefield and Lamb County residents have done so.

Some of the plates are out and out advertising. Earl Dow of Littlefield who has the Jeep dealership ordered license plates that say "GO JEEP". Citizens State Bank at Earth has plates with those initials, CSB E. And there is "RILCOT" on the Rilcot Seed Co. car.

Clifton Smith, a square dance caller has "CALLER" on his license plates.

The personalized plates cost an additional \$10, and some people seem to stay up nights thinking of an unusual way to tag their vehicles.

Randell Fain chooses the words "HONK IT" for his car. Donald Carr says "OICU2"

since the words "Oh, I see you, too" are over the six letter limit.

Many people who can't remember their car tag numbers simply use their first or last names. A. E. Fowler of Littlefield has AEF. K. Y. Givens at Olton ordered tags saying "Givens" for his car. County Judge G. T. Sides' license plates on the family buggy says "SIDES 5." Jaffar Zakka doesn't have to order his plates before someone else beats him since there aren't too many calls for tags with "J. ZAKKA" on them.

Louise Biesel is known by her tags, "MIZPAH." People around Amherst may not know a 17-year-old senior by her name D'Ruth, but everyone knows "TUTTI" and her car with her nickname on the tags.

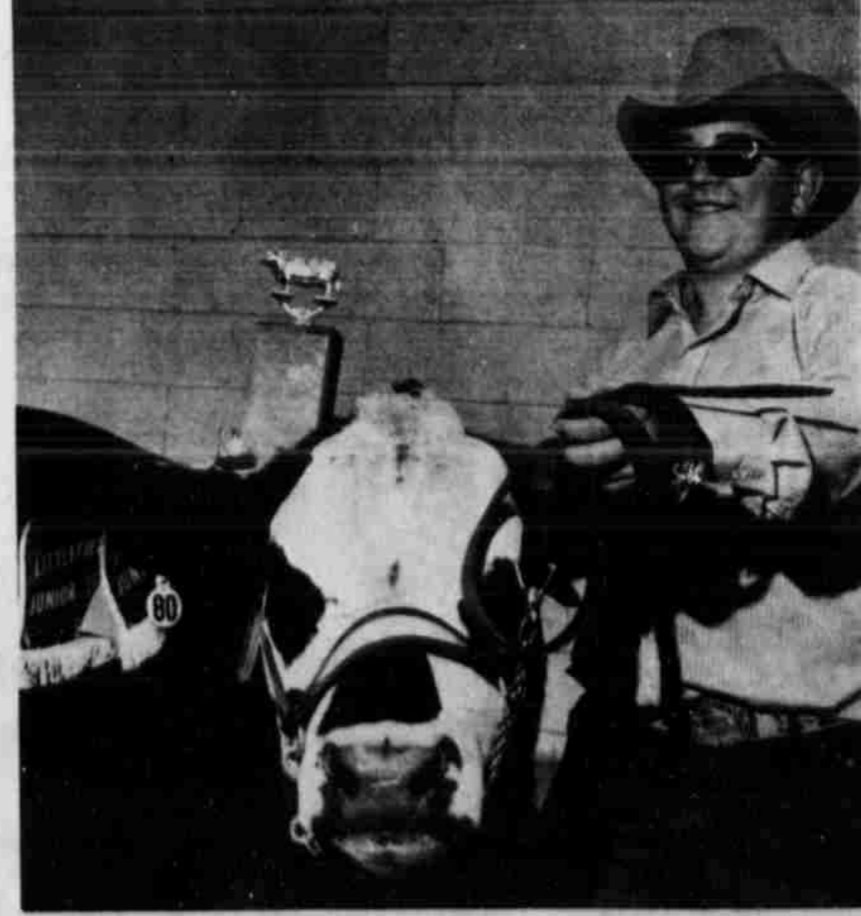

And names of towns like Earth and Olton are personalized tags for two Lamb County residents.

KEY LOGSDON'S 94 pound lightweight Hampshire lamb won the championship title in the lamb division of the Annual Littlefield Junior Livestock Show here Friday night. Rodney is a member of Littlefield 4-H Club. Freddie Maxwell, Sudan FFA member, showed reserve grand champion lamb, a 97 pound middleweight Hampshire.

GRAND CHAMPION BARROW of the Littlefield Area Junior Livestock Show here in the county showbarns Friday night was this 223 pound heavyweight Duroc, shown by Monte Angel of the Littlefield FFA. Reserve grand champion was a 228 pound Hampshire, shown by Sandra Duvall of the Amherst 4-H Club.

KENAN LICHTER'S 1,035 pound Cross steer took the grand championship show honors here Friday night. Kenan is a member of the Littlefield 4-H Club. Jim Fields of the Sudan 4-H Club, showed the reserve grand champion, a 965 pound heavyweight Hereford. The show was completed with a sale Saturday afternoon. Show results are on page 7.

## Patti Stone Named Anton Homemaker

ANTON—Patti Sue Stone has been named 1971 Betty Crocker Homemaker of Tomorrow for Anton High School.

She was chosen on the basis of her score in a December 1 written knowledge and attitude examination for which 650,000 senior girls throughout the country were enrolled. From General Mills, sponsor of the annual education program, she will receive a specially designed award. Additionally, her selection makes her eligible for state and national honors, including one of 102 college scholarships totaling \$110,000.

The 1971 Betty Crocker All-American Homemaker of Tomorrow, national winner, will be awarded a \$5,000 educational grant. She will be selected this spring from 51 senior girls representing each state and the District of Columbia during an expense-paid educational tour by these State Homemakers of Tomorrow, each accompanied by a school adviser of Washington, D. C., and Colonial Williamsburg, Va.

Second, third and fourth place winners nationally will receive \$4,000, \$3,000, and \$2,000 scholarships.

The other state winners will be awarded \$1,500 grants. State judging centers on the performance of school winners in the December 1 test, with personal observation and interviews during the tour and

added factors in national selections.

In addition to the awards for school, state and national homemakers of tomorrow, second ranking girls in each state receive \$500 scholarships, and schools of State Homemakers of Tomorrow are awarded complete sets of Encyclopaedia Britannica, by Encyclopaedia Britannica, Inc.

All judging and selection of winners is done by Science Research Associates of Chicago, which also constructs and grades the written examination.

The only national scholarship program for the American Homemaker of Tomorrow was instituted by General Mills in the 1954-55 school year to emphasize the importance of homemaking as a career. Since its inception, almost seven and three-quarters million girls have been enrolled, and, with this year's grants, scholarship awards will total in excess of \$1 3/4 million.

By GAYLE MILLS  
LEADER NEWS SOCIETY EDITOR

THE GIRL SCOUTS and Brownies now have their cookies for sale—here are the rest of the recipes that I promised all you women.

**MINTED BROWNIE PIE**—14 chocolate mint cookies, 3 egg whites, dash of salt, 3/4 cup sugar, 1/2 tsp. vanilla, 1/2 cup chopped nut meats, sweetened whipped cream (1/2 to 1 cup heavy cream). Chill cookies in refrigerator a few minutes, if they have been stored in warm places and frosting is slightly sticky. Break, cut or roll between fold or waxed paper to even crumbs. Beat egg whites and salt together until soft peaks form. Gradually beat in sugar, beating until stiff peaks form. Beat in vanilla. Fold in crumbs and chopped nut meats. Spread evenly in buttered 9-inch pie plate. Bake in slow oven, 325 degrees f, 35 minutes. Cool thoroughly. Serve with sweetened whipped cream on each wedge; or spread sweetened whipped cream over top, chill 3 to 4 hours and garnish with curls of shaved unsweetened chocolate.

**HEAVENLY COOKIE CREAM**—10 girl scout butter or peanut butter sandwich cookies, plus extra cookies, 1 cup well drained crushed pineapple, 1/2 cup chopped dates or drained maraschino cherries, 1/2 cup chopped nut meats, 1 cup heavy cream or 1 pkg. dessert topping mix, 1 tsp. vanilla, 1/2 tsp. lemon flavoring. Roll the 10 cookies between a fold of waxed paper or even crumbs (cream filling mixes with crumbs). Combine with fruits and nuts. Whip cream or prepare dessert topping mix as directed on package. Fold in flavorings and cream mixture. Chill. Spoon into dessert dishes. Set a vanilla or chocolate sandwich cookie on edge into each serving with insignia and "GS" letters in full view.

**CHOCOLATE CREAM Ice Box Cake**—1 cup heavy cream, 1/4 cup sugar, 1/2 cup instant sweet cocoa mix or 1/4 cup cocoa and 1/4 cup sugar, dash of salt, 1/2 teaspoon vanilla, 12 butter flavored cookies. Whip

Wednesday during worship services will be held at Emmanuel Church in Littlefield, at 7:30 p.m. 40 years after Christ, Christians observed 40 days of fasting from Good Friday to early morning. This period of fasting is intended to include the week before Easter. It is long before the time when the 40 days of fasting were observed for 40 days. This was called "Lent", which means spring. There is an emphasis on some Christians to "self-denial" in this the purpose of the at Emmanuel is to contemplate the suffering, and of Jesus Christ. Persons who desire to be closer to Christ are in-are in these periods of according to Rev. Metz, pastor.

**A WOMAN'S VIEW**

**Thoughts**

By PEARL BRANDON

**IDEAS** are getting hard to come by. I have been writing this column a little more than a year "off the top of my head" you might say, doing very little research or study.

**MOST PEOPLE** who write a column have a staff of writers constantly searching for ideas.

Why couldn't we do that? I receive letters from time to time from people who are interested in writing.

I am sure there are others out there who haven't written. Why not send me your thoughts and your ideas.

**FOR INSTANCE** I received a lovely letter this week from Mrs. Jessie Cantrell who lives at the Amherst Manor Home.

I have never met Mrs. Cantrell, but she must be a very interesting person.

I understand that she is writing a book there in her room at the rest home. She says, "Give my love to your mother. We can be cut off so quickly from those we love." I believe it has been these startling facts that has guided my aim and gave me courage.

**IT HELPS ME** keep an open mind, and listening to those echoing words have prevented a tendency to turn loose of life.

I have always loved people and have cared for the sick. I still want to help.

There are some in this home and in every home that need love.

**THEY ARE** lonely and feel they are not wanted or needed anymore. My heart goes out to them. Some are in and out of the hospital and some never come back.

They all love the Bible and old time songs, "Precious Lord Hold My Hand" and "Where Could I Go But To The Lord," and many others.

I am thankful God gave me my voice to

sing. I love singing His praises. It has become a part of my life.

**ISN'T THIS** a lovely letter? Mrs. Cantrell also sent "One Day at a Time," by an unknown author.

"There are two days in our lives about which we should not worry; two days which should be kept free from fear and apprehension.

One of these is yesterday with its mistakes and cares, and its faults and blunders, its aches and pains. Yesterday is passed forever beyond our control.

If you had all the gold at Fort Knox you could not bring back yesterday. You cannot undo a single act you performed; you cannot erase a word you said. Yesterday is gone.

The other day we should not worry about is tomorrow with its possible adversities, its burdens, its promise and poor performance. Tomorrow is also beyond our immediate control.

Tomorrow's sun will rise, either in splendor or behind a mask of clouds—but it will rise. Until it does, we have no stake in tomorrow, for it is yet unborn.

This leaves only one day—today. Any man can fight the battle of just one day. It is only when we add the burdens of those two eternities—yesterday and tomorrow—that we take on more than our mental or physical bodies can bear.

It is not the experiences of today that drives us mad—it is the remorse or bitterness for something which happened yesterday, or the fear of what tomorrow may bring.

Let us, therefore, make every effort to live but one day at a time."

**I WANT TO THANK** Mrs. Cantrell for this lovely letter and to invite others to send me articles that you love and tell me something about yourselves to be used in this column.

**EDITORIALS**

**Schools Week March 1-5**

How many times have you heard, or how many times have you said, "When I was a kid"—or that other stock phrase of adulthood, "Boy, I wish I were your age again—no worries, no troubles"?

Forget them both. Things are different now, and no amount of effort can turn back the clock. We can only work to make tomorrow better.

That's why your child's education is so important—to you, because you want the best for him; because his future depends on his education.

Part of the encouragement you can give him is to visit him in his classroom during this year's Texas Public Schools Week, March 1 through March 5.

Show your child you care, and let him show what he's done. Let him be proud of his work, and let him know it's important.

Remember: teachers can teach. Only you can show your child that you're proud to be his parents—that you want the best education possible for him.

Visit a public school during Texas Public Schools Week this year!

—PAUL HARVEY—

**Ad Men, Arise!**

**HOLLYWOOD** caricatures the modern Madison Avenue advertising man as a jerk in a gray flannel suit.

I resent that. I helped wet-nurse and nurture this fledgling profession to such economic prominence that most of today's late-comers had only to climb aboard for a free ride.

**THE FREE RIDE** is over. It's time to get up, climb down and push! I grew up with advertising and I believe in it. I believe without advertising we'd still be what Russia still mostly is—a nation of bearded bicyclists with B.O.

But our 15 percent gray train has been running two sections. Ad money's been deductible, ad budgets have doubled every decade. Parkinson's Law has padded agency and media payrolls. We've been spoiled rotten!

**TOO MANY ACCOUNT** executives are spending three-hour lunch periods yessing the client's assistant and calling that "work." Too many copywriters are fraudulently sex-relating utterly unrelated products. Or worse are pasting clichés together with no imagination.

**OR WORSE YET**, with too much imagination they've brought dishonor on an essential profession—parroting and amplifying indefensible claims for breakfast cereals and car tires and vitamins and interest rates and medical nostrums, until federal government has to slap them across the mouth and publicly label the liars liars.

Lazy paste-pot word merchants have been getting by with tricky trademarks, catchy jingles, fancy labels, fuzzy double talk. That's not good enough; it never was.

**ADVERTISING** is indispensable to the progressive increase of our economy. Not one person in a thousand knows a good thing when he sees it.

**"DUE TO LACK OF INTEREST:** Tomorrow has been canceled!"—Or so read the placard in a restaurant that I had patronized. Could be, that we are on the brink of such condition of mind.

We of our nice little city are too prone to close our eyes to the conditions that surround us.

**WE DON'T WANT** to admit that the same things we do decry in our over-all society are taking place right here under our very noses.

"If you really knew the extent of the use of drugs in Littlefield, it would scare you!" so remarks one of our prominent citizens.

We hear rumors of the drug traffic in our town, but, we don't bother to track them down. We hear reports of users, but, we don't dare speak to them about it. Loose talk, perhaps idle gossip, but we don't want to think of it happening here.

**YOUNGSTERS**, especially, being adventurous and daring, are prone to play with such things without proper fear of the consequences.

We know that such is true of alcohol. Seemingly, they (or, some of them) like to brag of their use of the stuff. Else, why do they like to discard their "empties" in prominent places where they are sure to be seen?

**OF COURSE**, for some of them, the empty becomes ammunition good for the breaking of glass, either in cars or storefronts.

My question is, how can any straight thinking person play such dangerous games with the only mind he'll ever have?

But you throw at him enough reckless recommendations which boomerang and he'll stop believing anything you say. Already he's suspicious. Collectively, Americans are sitting on the fattest backlog of savings in history, undecided what to spend it for.

**SO OUR NATION** right now is bedeviled by history's twin plagues: inflation plus recession. That's why the long faces in the market place. And that's as much the ad man's fault as anybody's.

All right, it's a recession muchly of our own making; let's unmake it. There's a hill ahead, let's get back in low gear.

**STEEL WHEELS** anxious about a reduced backlog of unfilled orders are going to have to get up from the telephone and go out and peddle their product again.

The car salesman accustomed to having orders on the books for months in advance will have to get off the golf course and start giving demonstration rides again. Good! It won't kill him!

**EVEN WITH HIGHER** wages, the normal adjustments of a free economy will keep us in balance if we take up any slack with increased output of effort.

Slipstick desk jockeys say business will be off 10 percent this year; work 10 percent harder and make it come out even.

**IT'S JUST HALF** time in this ball game; who says we're losing! But we ad men are going to have to run interference for the ball carriers with ideas that'll inspire and supported by claims we can prove.

You resurrect the ad man's reputation for integrity, you'll revive our nation's economic virility and re-establish our monetary stability—we'll re-zoom the boom in 1971. Then this is not the beginning of the end; this is the time of beginning again. Now let's get selling!

**SOME** may say that it's the lack of Spiritual upbringing. Maybe so, but, it isn't the lack of opportunity for Spiritual betterment. We can brag that we have as many unattended churches, per capita, as any city in the nation!

**I'M OF THE OPINION** the real trouble lies in the community and home environment. We're all so sure that our kids are the exception. They don't need the teaching and the guidance of the average kid. (Or, do they?)

They don't need the examples of self restraint and the character that others need—So? We go about leading our own selfish and errant way of life, and leave the kid to grow up on his own!

**AND, TO BE SURE**—It isn't OUR kid that's playing around with dope and alcohol!

So, we close our eyes and try to keep sweeping our trash under the rug! We don't talk about it, and we surely don't tell the law officials anything! Surely, if we can just keep our heads buried in the sand, the thing will go away! (Or, WILL it?)

**NO, I'M CONVINCED** that we, both young and adult, need more education on the affects of dope and alcohol. Perhaps, if we become acquainted with our enemy, we'll know better how to deal with him!

No one is very knowledgeable about the number of times that the human brain can be scrambled by the use of alcohol and/or dope and return to it's normal function. Perhaps some enlightenment on this subject might be helpful.

**NONETHELESS** the "Escape from reality" by the use of either is purely temporary, and of that we CAN be sure!

**THE ABUNDANT LIFE**

**Keep Growing**

By BOB WEAR

**WE BECOME MATURE** biologically and physiologically just by living a certain number of years, but this is only part of life.

The physical side of life is very important, and is entitled to the very best care we can give it. Nevertheless, we do not keep growing physically.

From this standpoint, the physical part of life is a caretaking responsibility throughout the years we call maturity.

**IN OTHER AREAS**, we must keep growing, and this growth must never stop. Both mental and spiritual growth can continue as long as we are physically alive.

It seems that most of us are inclined to forget that this growth is not automatic. It is also difficult to realize the great potential for growth in these areas.

If we do realize the potential, many of us do not seem to see the needs or the reasons to keep growing.

**THE QUALITY OF LIFE** is determined by one's mental and spiritual growth. This does not make the quantity of life, the number of years we live, any less desirable; but it does help us understand what we must do to make life worth the living.

We do not live well just because we live long. In fact, the passing years can become an increasingly heavy burden if we neglect to keep growing in the ways we should grow.

**"SOME MEN NEVER SEEM** to grow old. Always active in thought, always ready to adopt new ideas, they are never chargeable with foginess.

Satisfied, yet ever dissatisfied; settled, yet ever unsettled, they always enjoy the best of what is, and are the first to find the best of what will be."

**MANY BLESSINGS** are available to all of us, blessings we desire and need.

These blessings are available to us, but they are not obtainable by any of us except as we are willing to keep growing.

We may be able to buy, with money, many material blessings; but we cannot buy any of the mental and spiritual blessings. We must grow to these blessings.

**CONTINUED EFFORT** is the principal part of the growth which increases the quality, the usefulness, and the satisfaction of living.

In fact, it is the difference between a rich, full life and a dreary kind of existence. Wishing will not make it so.

If we just let ourselves drift along, we will live and die disappointed.

**"HE WHO EMBARKS** on the voyage of life will always wish to advance rather than by the impulse of the wind than the strokes of the oar; and many founder in their passage, while they lie waiting for the gale."—Johnson.

**OUR WISDOM INCREASES** if we keep growing, and as we increase in wisdom; we become more and more capable to cope with the living experience. There is no reason why we should deny ourselves this blessing.

Our usefulness will be enlarged in proportion to our personal growth progress.

There are numberless ways in which we can be useful if we continue to prepare ourselves for usefulness by growing.

**PERSONAL STRENGTH** becomes greater as our mental and spiritual growth continue.

The supply of blessings is inexhaustible for all persons to keep growing.

**Census Bureau Tells Final 1970 Bale Count**

Lamb County's gins processed 119,854 bales of 1970-crop cotton, according to the U. S. Census Bureau.

The total was less than was anticipated by local and area cotton authorities before an early cold spell cut the crop yield, but this total is still almost 65,000 bales more than the 55,000 bales ginned in the county in 1969.

The Census Bureau statistics were compiled from ginners' reports through Jan. 15, 1971. The totals were in running bales, with linters not included.

State totals for the year show that Texas produced 3,138,909 bales of cotton in 1970, compared with 2,728,578 bales in 1969.

Nationally, 10,058,125 bales of cotton were ginned in 1970, compared with 9,815,018 bales in 1969, so the Texas increase almost equaled the national increase.

Texas was the biggest cotton state in the U. S. by far. Its closest rivals were Mississippi with 1.6 million (up 300,000 from 1969), California with 1.17 million (down by 16,000 bales), and Arkansas with 1.03 million (110,000 bales less than 1969).

Lubbock County, the state's biggest cotton county with 215,254 bales in 1970, produced more cotton than either New Mexico, Florida, North Carolina,

Oklahoma or South Carolina, as many bales as the state of Mississippi.

Here are comparative ginning and cotton statistics for Lamb and neighboring counties:

Lamb	119,854
Hockley	157,829
Bailey	54,614
Hale	139,820
Castro	37,620

**Phones Increase '73 DDD Total**

The number of telephones in Littlefield reached a grand total of 4,081 according to Gerald Kebo, manager for General Telephone.

That figure shows an increase of 194 phones over the total of 1,994 phones on the line in 1970.

In 1970, there were 2,533 telephones (the initial phone, minus one of the tens in the same home) in Littlefield. The figure of 4,081 phones as of now, includes the extensions at homes.

In 1960, there were 1,680 main-line telephones. Fifty-seven main stations were added during 1970 in Littlefield, with extensions, to net a total of 1,994 installed last year.

One major project was completion of eight-party rural systems in the Littlefield area.

About \$281,000 in construction has been designated for the District for work to be done in 1971. \$57,000 of that figure will be placed in new cables in Littlefield for construction in Amherst.

Construction in Sudan; \$24,000 of that figure will be placed in new cables in Sudan; \$24,000 of that figure will be placed in new cables in Sudan; \$24,000 of that figure will be placed in new cables in Sudan.

Construction in Whittharral in 1971, has been estimated at about \$24,000.

A target date has been set for installation of Direct Distance Dialing (DDD). Officials of the company equipment will be installed by July 1973.

## Representative To Be Here Next Wednesday

Congressman Bob Price has revealed that his District Representative, Charles Lanehart, will be in Lamb County Wednesday, March 3, to assist local residents with any problems they might have with the federal government.

Lanehart will be at the County Commissioners Court Room in Littlefield from 9 a.m. to noon and from 1 p.m. to 5 p.m.

"I find that with each passing year, my legislative work load becomes heavier in Washington and it is becoming more and more difficult for me to be in each of the 28 counties in our district on a regular basis. For this reason, I have made arrangements for Lanehart to be in each county in the 18th District as frequently as possible, hopefully once a month," Price said.

Lanehart will be available to discuss problems of individuals and groups in the county.

## General Telephone Plans Expansion

To accomplish massive expansion and improvement programs and keep pace with customer communications needs, General Telephone of the Southwest has budgeted for 1971 \$96 million for construction and expansion, according to L. Gray Beck, president.

The '71 budget is 24 per cent greater than the actual construction expenditures in 1970 which totaled \$77,413,000.

Accelerated growth and service improvements and greater service offerings are largely responsible for the increased budget, Beck stated.

A net gain of 65,700 telephones is anticipated in 1971 which will bring the total telephones at the end of this year to more than 931,000.

Largest portion of the 1971 budget is earmarked for central office equipment and totals \$37,750,000. Nine central offices are scheduled for replacement with two of the largest being Grapevine and Lewisville near the new Dallas Fort Worth regional airport, and 14 large carrier projects which will enlarge transmission facilities primarily in the Dallas and Houston metropolitan areas.

Twenty-nine smaller carrier projects are scheduled at various other company locations.

Twenty-eight other projects will provide customers with Direct Distance Dialing, Touch Calling (push button) telephones, and Director systems which automatically check electronically the accuracy of dialing signals, thus making service more troublefree.

The local calling scope and facilities will be expanded for customers as a result of 14 other central office projects.

Another major part of the 1971 budget is designated for improving facilities outside the central offices (outside plant) and totals more than \$26,800,000. Outside plant

projects include 118 rural jobs aimed primarily at expanding rural telephone service and making available four party rural telephone service where eight party service is now available.

"With so much emphasis on making America beautiful, we are pleased to announce that 67 per cent of the cable construction in 1971 will be subsurface, bringing the total company subsurface cable to 58 per cent of the total at the end of 1971," Beck stated. Cable is placed underground whenever it is economically feasible and best serves the customer, he added.

Another highlight of the 1971 construction program will be 21 new central office buildings, the largest of which will be located at the new Dallas Fort Worth Regional Airport. A total of \$8,100,000 is budgeted for land and buildings in 1971.

Other items in the land and building budget are several service centers designed to consolidate service functions under one roof. These are planned for Jacksonville, Ark., Broken Arrow, Oklahoma and Garland and Irving, Texas. A San Angelo service center will become functional in the first quarter of 1971 upon the completion of a remodeling job.

Also, further development and refinements in forecasting, utilizing aerial photography and computer programs, are expected to increase accuracy and production in the company's efforts to pinpoint and anticipate growth patterns and customer requirements.

It is anticipated that more than 600 employees will be added in 1971.

General Telephone of the Southwest, with headquarters in San Angelo, serves 435 exchanges in Texas, New Mexico, Oklahoma, Arkansas and Louisiana and is a subsidiary of General Telephone & Electronics Corporation headquartered in New York.

# WORSHIP IN CHURCH

and get a spiritual lift for the whole week

Here is my watch. If it is to be of value to me, it has to be a watch I can count on. When I look at its face, I must know beyond doubt, that it can be trusted. If I have to be forever checking it, it is of little use to me, and certainly it is not fulfilling the purpose for which it was created. Life too, is that way!

If a man is to be of value, he must be the kind of person that can be counted on. His face must radiate dependability. If those who live about you have to be forever checking on you... you are not fulfilling the purpose for which God created you. Now, Paul said, "those things, which ye have both learned, and received, and heard, and seen in me, do; and the God of peace shall be with you."

Help us to attend church worship every week and to draw near to Thee. May we gather in thoughts that stray and control feelings that may be troublesome. For sin give repentance, for sorrow give trust, for strife of passion and care grant rest. Through this timepiece illustration, may we be led to bring our lives to Thee, that we may test and measure them by thine unerring law.

### Notes From ASCS

#### To Area Farmers

The final set-aside percentages have been announced at 20 percent of the cotton base allotment and total feed grain base, also 75 percent of the domestic wheat allotment. This means the payment per bushel will be 29¢ for grain sorghum and 32¢ for corn.

Feed grain and wheat notices were mailed not later than Feb. 25, 1971.

Any part of the set-aside may be devoted to castor beans, crambe, guar, mustard seed, plantago ovata, sesame, safflower and sunflower. A flat payment reduction of \$10.00 will be made for each acre of the set-aside devoted to any of these crops.

Acres planted to soybeans will not be considered planted to cotton, feed grains or wheat in 1971.

The county handbook will be developed in the near future so that the ASC office can accept applications for cost-shares sometime in March.

Farmers are reminded that the sign-up for 1971 Cotton, Feed Grain and Wheat Programs will begin March 1 and end April 9, 1971.

Applications for premeasurement service will be taken through February 26, 1971. Fees for this service are \$16.00 per farm plus 10¢ per acre requested and \$6.00 for each plot over one.

IN 1917, the "Miller House" stands as majestic as ever, unaware of the time. One of the first farm houses built in the Littlefield area, its size of the great expectations early settlers had for the High Plains of Texas. Henry Brandt family moved into the house in 1929, coming here from the Grande Valley, and living in the house until recent years. The house stands the west of Littlefield, and can be seen from the Amherst Highway. (Sketch by Benny Goss.)

## Littlefield Girls Remain Undefeated In Volleyball

The Littlefield varsity girls volleyball team remains unbeaten after their sixth game of the season. Thursday night the varsity defeated the Levelland girls for the second time 15-4 and 15-5. Friday night Littlefield beat the Seagraves girls 15-3 and 15-4.

The "B" team didn't fare as well with the Levelland bunch as did the "A". Levelland beat the "B" 15-11 and 17-15 Thursday. The "B" did recoup and top the Seagraves girls Friday, 15-7, 15-4. The 9th dropped their

first set to Levelland Thursday, 15-12, 16-14. Against Seagraves the 9th won 15-9, 11-15, 15-2.

Sharon Gray led the scoring in both the Levelland and the Seagraves contests with match high scores of 10 against Levelland and 17 against Seagraves. The "A" now has a 6-0 season record.

Bridgett Patterson was the JV high scorer with 13 match points against Levelland 15 against Seagraves. The "B" team holds a 4-2 season record.

Sherril Hemphill had match points to lead scoring against Levelland. Against the Seagraves Pam Turville led with 9th team now has a 4-1 record for the season.

## WHITHARRAL PLACES THREE

### All District Named In 6-B

The All-District selections have been made for the 1970-71 season in loop 6-B. Of the three area teams in that loop Whitharral dominated the first team selections. Bula had the most players on both the first and second teams.

On the girls first team were Senior Kathy Lynn Williams, of Whitharral, and Junior Sheila Medlin, of Bula, as the for-

wards. Guards were Junior Terry Claunch, of Bula and Senior Cynthia Dukatnik of Whitharral.

Second team forwards were Diane Crume, Bula senior, Mickey Demel, Pep sophomore, and Pam Layton, Bula senior. Second team choice for guard was Freda Layton, a Bula junior.

Senior Johnny Graham, Whitharral, and Junior Dave Shannon, Pep, were the only first team selections from the area for the boys team. Pep's Billy Demel, a senior, and Bula's Ron Risinger, junior, were the second team selections.

Bula placed two on the first teams and four on the second teams. Whitharral placed three on the first team list while Pep had two players on the second team list.

### Anton Tangles With Three Way

Anton's Bulldogs, of loop 5-B, and the Three-Way Eagles, of loop 6-B, will square off in the first game of a double header Tuesday night at the Texas Dome in Levelland. The winner of the game will advance to the first round of the Region I Class B basketball tournament. The tournament is scheduled to begin Friday at the Dome. The Anton game will begin at 7:00.

### Olton Places 4 On All District

Four Olton cagers were named to the 3-AA All-District team. Mike Parsons was the only Mustang player to make the boys first team. Representing the girls team for Olton were Connie Hall, Rebecca Hodges, and Dana Daughtrey.

Steve Stockdale and Luis Rey were both nominated to the Honorable Mention list of the loop team. Kay Johnson was the only other Olton girl, she was named to the Honorable Mention list.

# LITTLEFIELD DOLLAR DAY MONDAY

## Liquor Bill Would OK Option In Cities, Precincts

Saloons could be voted in in Littlefield, Olton, Amherst, Springlake, or Earth, or in any of the four precincts or any of the six peace precincts or even the city under a new liquor-by-the-drink option introduced in the Texas last week.

The "local option" feature of a constitutional amendment, that was over-ly defeated locally but passed last fall, was spelled out in a bill in the Senate last week by Joe DeWitt of Corpus Christi.

The amendment lifted the open saloons bill defined the "local option" as mixed drinks can be sold as an option in a city, a justice precinct, a precinct, or a county as a "local option" that are provided for the sale of package stores or beer bars

under present Texas liquor laws.

This means if a majority of voters in Littlefield, Olton, Amherst, Springlake, Sudan or Earth, the six incorporated towns in Lamb County, favor mixed drink bars in a city-wide vote, the law allows them to be voted in.

In the same way, if voters in any of Lamb County's four commissioners' precincts or its six justice of peace precincts elect to have open bars, they can be voted in on the precinct level.

(Of the six justice precincts, only three have acting JPs. There is a difference of opinion among county officials concerning precinct 3, made up of Fieldton, Spade and Hart Camp. Some say precinct 3 has been dissolved, others say it has not. Precinct 6, at Amherst, has not been dissolved, but no longer has a J.P. Neither does precinct 2, at Earth-Springlake, have an acting justice of peace.)

Likewise, Lamb County or any other

Texas county can vote to allow open bars. But the voting-in will take majority voter agreement, and some substantial work to organize an election, if one comes.

And establishing a bar will have a \$5,000 price tag the first year and \$500 each year thereafter, under the Christie bill.

State representatives tend to view the bill as a potentially good law enforcement measure and one that will clear away hypocrisy in the present liquor laws. It also meets most requests by people in the restaurant and saloon business.

Legislators say the new measure would put "teeth" in the Texas liquor laws, also, particularly as they apply to "private clubs" which can operate almost as open saloons under enforcement of present liquor laws.

Christie said the bill is "clean, enforceable" and contains no "arbitrary, unreasonable and indefensible restric-

tions" such as limiting mixed drink sales to establishing selling food.

Hale and Christie estimate a biennial additional tax revenue of \$28 million.

Legislators point out that regulations on private clubs will be tightened. Stricter requirements will apply limiting persons served in private clubs to regular dues-paying members or their identified guests.

The result could be to "dry up" Lamb County more than it is at present, unless one of its areas votes in open bars.

It is the opinion of most Lamb County residents that this county will never pass a liquor-by-the-drink option election. And many feel that the bill will deter the opening of private clubs that operate much as open saloons.

If the \$5,000 charge for an initial bar license and the \$500 yearly renewal are kept in the bill as Christie provided, the economics of this feature may limit bars to areas of sizeable populations, notably in

cities or in popular recreation areas.

It probably would be hard to justify a \$5,000 permit in Springlake, for example, if that incorporated city of 200 persons should vote in open saloons.

The mechanics of calling an election can be costly and detailed. Twelve signatures are needed to get up a petition. Then 25 per cent of the number of qualified voters who cast ballots in the last general election for a Texas governor are necessary on the petition to bring the issue up.

The petition must be presented to the county commissioners' court, which has the responsibility of certifying eligible voters. Also, voters who sign the petitions must include the number of their current voting certificate.

The 25 per cent requirement will require time and money, probably more than a volunteer effort would generate. The option provision of the liquor bill has been viewed closely by church and other anti-

liquor groups, and is expected to be the focal point of any opposition.

The \$5,000 fee may lessen opposition in the non-metropolitan areas, where it will serve to inhibit the opening of bars. The result may be that bars will flourish in cities and that few non-city areas will have them. And it may also tend to make things drier in these non-city areas by toughening the enforcement of present private club regulations.

An added feature, also, is that a last-week upsurge in voter registrations over Texas before the Jan. 31 deadline was prompted in large part by church groups, girding for possible local option elections. The boom in registrations was marked in Lamb County, an indication that any effort has a doubtful outlook, even if the 25 per cent petition quota could be met.

Sometimes all it takes is the right occasional table to turn a humdrum room into one with true style and individuality. Each of these authentic European designs is classic in every detail, lovingly handcrafted with hand-rubbed finish. Use one as a cigarette table; pair them as bunch tables. This is the one accent to add charm and elegance.

## Recruiter To Be Here

A Marine recruiter, Sgt. Jerry Stovall, will be in Littlefield Wednesday, March 3, from 10 a.m. to 12 noon at the sheriff's office in the courthouse, to discuss Marine careers.

The Marine Corp's new enlistment program, called ground guarantee, will be explained.

"What it means, is that the Corps is now guaranteeing your choice of duty in writing, before you enlist in one of four specialized or technical fields," Sgt. Stovall says.

"Administration is only one of the four specialties available.

Build the foundation for a management career and at the same time fulfill your military obligation in America's finest—the United States Marine Corps," he concluded.

**OLD AGENCY**  
The National Easter Seal Society for Crippled Children and Adults, with 2,500 facilities and programs, is the oldest and largest voluntary agency serving the physically handicapped. Contributions to the annual Easter Seal campaign, March 1 - April 11, finance the major share of its work.

## OLTON

MRS. W.B. SMITH JR.

285-2385

THE REV. GLEN GODSEY, pastor of Baptist Spanish Mission in Plainview, and former pastor of Olton Baptist Spanish Mission, has gone to Panama with about forty other Christian workers to preach for one week.

MR. AND MRS. Wayne Moore and children visited Monday night with her father, W. E. Williamson at Medical Arts Hospital in Littlefield. Williamson of Shallowater, was seriously burned Tuesday morning while burning trash in

an alley of that city. Previously spilled gasoline was reported cause of the accident. He is reported to be improving nicely. He is a former water superintendent of this city.

DON KIDD, son of Mr. and Mrs. George Kidd, has returned from Galveston Veterans Hospital and is resting at home.

MRS. CARRIE SMITH strained a cartilage in her knee last week and has her knee in a brace.

MRS. GREER HAMILL returned home Saturday from Hi Plains Hospital in Hale Center, where she received treatment of a broken hip.

AMONG LITTLEFIELD citizens attending the 14th Annual Olton Chamber of Commerce and Agriculture Banquet Tuesday night were Judge and Mrs. G. T. Sides; Editor Bill Turner; Mrs. Alice Willis; Jerry Kehoe, and Mr. C. A. Duval. Other out-of-town guests were from Amarillo, Plainview, Lubbock, Earth and Muleshoe.

MR. AND MRS. Joel Finney, Joel Gus and Jo Ann of Gruver arrived Saturday for a visit in the home of his parents, Mr. and Mrs. W. G. Finney. Because of the snow they were not able to return home until Wednesday morning.

MR. AND MRS. Witt Laceywell are vacationing in the valley.

MR. AND MRS. Don Bryant entered the Littlefield Hospital Monday. He suffered a light stroke and she is being treated for emphysema.

JON RAMSOUR of Plainview has been employed at First Baptist Church as minister of music and youth. Mr. and Mrs. Ramsour have a one-year-old daughter. It is hoped that they will move to Olton. He is a junior student at Wayland.

MR. AND MRS. James Cowart and Melanie also Mark Hodges, visited at Howard Payne College in Brownwood last weekend with their two children, Barbara and Barry. They planned to return home Sunday, but because of traveling conditions they returned home Monday.

MR. AND MRS. Archie Sorley entertained with a birthday dinner Sunday in honor of their daughter Donna on her 17th birthday.

ATTENDING THE dinner were Miss Sunya Sorley, a student at Howard Payne College in Brownwood; Mrs. Pearl Schreier, grandmother of the honoree; Mr. and Mrs. Owen Jones and Janie and Gary Kelley. Mr. and Mrs. Owen Jones are aunt and uncle of the honoree.

MRS. VELMA CURRY visited Saturday at Methodist Hospital in Lubbock with Mrs. Steve Boruk, who is being treated for a broken hip.

SUNDAY DINNER guests in the home of Mr. and Mrs. Homer Curry, Steve Boruk and Mr. and Mrs. Ed Waud of Yuma, Ariz. Mr. and Mrs. Waud came to visit Mrs. Boruk in Methodist Hospital in Lubbock.

THE REV. JOHN E. Lewis attended the pastors and laymens conference at Wayland College Tuesday.

THE REV. AND Mrs. Clarence Howell of Boling visited recently in the home of his brother-in-law, and sister, Mr. and Mrs. Claude Fargason. Mrs. Fargason is remembered here as Miss Bertina Howel.

MR. AND MRS. Robert Dunn, Melanie, Lori and Heather of Fort Worth arrived Thursday for a visit in the home of her parents, Mr. and Mrs. Gene Wilson. Friday they went to Ruidoso to ski.

MR. AND MRS. Gene Wilson returned last Wednesday from a vacation at Lake Falcon.

Monday, March 1: Frito pie, buttered corn, green peas, spring salad, sliced peaches, cookies, rolls and sweet milk.

Tuesday, March 2: Chicken salad sandwich, vegetable beef soup, peanut butter and crackers, 1/2 orange, cinnamon rolls and milk.

Wednesday, March 3: Fish and lemon, baked beans, spinach, potato salad, cherry pie, cornbread and butter, and sweet milk.

Thursday, March 5: Pork sausage, French fries and catsup, blackeyed peas, pineapple salad, banana pudding, rolls and milk.

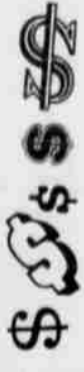

Friday, March 5: Turkey and cornbread dressing, giblet gravy, green beans, cranberry sauce, orange cake, rolls and butter and milk.

MRS. MERLE SHARP visited Saturday, Sunday and Monday in the home of her son and family, Mr. and Mrs. Jimmy Sharp and children in Levelland. She had planned to return home Sunday, but because of the snow she remained another day.

## Agricultural Handbook Available To Farmers

Another year of hard work and effort has gone into the result demonstration program in Lamb County, reports County Agricultural Agent Buddy C. Logsdon. And the "fruit of the labor" is a complete report of these on-the-farm demonstrations that is now available at the County Extension Office. The overall agricultural demonstration program is sponsored by the County Program Building Committee, points out Logsdon. W. T. Hall, Jr. is chairman of this committee. In charge of the overall Crops Committee is Cecil Johnson. A total of 21 demonstrations were conducted in 1970, with 16 producers cooperating, adds Logsdon. All demonstrations were planned with the interests of the county producers in mind. Those which should be of special interest to producers include cotton varieties, grain sorghum varieties, narrow row cotton, and corn varieties.

"The past year was a good year for our result demonstration program," points out Logsdon. "Some of our findings are especially noteworthy since the county received very limited moisture during the year."

The County Agent adds that copies of the handbook are available to all interested producers and agribusinessmen, at the county agent's office in the courthouse.

LLOYD LOWERY and Boyd Lowery from the Springlake area met recently with Hermod Jensen in Wichita Falls to review plans for a three-day convention of Jehovah's Witnesses in Wichita Falls Feb. 26-28. Both Lowerys are officials in the convention organization.

## Soil Moisture Survey Can Aid Irrigations

For the fourth year, farmers in Lamb County can have at their fingertips a valuable guide for planning their irrigation program for the coming season. That guide is the "1970-71 Fall and Winter Soil Moisture Survey" prepared by Oliver H. Newton, agricultural meteorologist, and Dr. Otto C. Wilke, agricultural engineer, both located at the Texas A&M University Agricultural Research and Extension Center at Lubbock. Moisture readings were obtained to a depth of five feet with a neutron measuring device, explains County Agricultural Agent Buddy C. Logsdon. This information was then used to estimate the need for and the amount of preplant irrigation for normal crop production. The map that accompanies the survey is the key item of the report, points out Logsdon. The amount of moisture needed to re-wet the soil down to five feet is indicated for a 14-county area including Lamb County. According to the survey, most of Lamb County will need 4-6 inches of moisture, either by irrigation or rainfall, for normal crop production, explains Logsdon. Although the weather has been extremely dry over the past year, there is still some moisture in the sub-soil, reports Logsdon. This is especially evident where producers ap-

plied numerous or late irrigations last summer. On these particular farms, the soil is still moist below the 18-inch level. So, from two to four inches of moisture will generally be enough to saturate the top layer of soil as well as re-wet the remaining 3 1/2 feet. Another important factor to consider when planning irrigation is the probability of spring rainfall, adds Logsdon. The chance for rain increases rapidly starting the last few days of March and continues well into May. There must be room in the soil to store this water if the farmer expects to take advantage of the rainfall. If the soil is already saturated from irrigations, the valuable moisture from rainfall will be lost. Information on the probability for rainfall this spring is included in the moisture survey. A look at the table showing the percentage probabilities for rainfall may brighten a farmer's hopes, at least to some degree, points out Logsdon. For instance, there's about a 50-50 chance of getting from 3 1/2 to 4 inches of rainfall between March 21 and May 31. This survey can be a valuable guide in planning that preplant irrigation, emphasizes Logsdon. Careful planning can conserve our valuable groundwater supply and stretch our irrigation water. Copies of the soil moisture

survey may be obtained at the Extension Office or at the Texas A&M Center at Lubbock, adds Logsdon.

## Randy Russell Home On Leave

Spec. 4 Randy Russell came Friday to stay a few days with his parents, Mr. and Mrs. Bill Russell of Springlake. Russell received a leg injury Aug. 7, 1970, while on a tour of duty in Vietnam. He was flown to San Diego, Calif. that month after having surgery in Japan. He was hospitalized at Ft. Bliss until two weeks ago when he was given an assignment on the base. Twenty facilities and programs in Texas financed by Easter Seal contributions are giving help where needed by providing medical diagnosis, physical, occupational and speech therapies; special education; recreation; psychological and social services; sheltered employment, and other care and treatment crippled children and adults require to walk, talk, and live like others.

WEATHER CONDITIONS RIGHT

# Tornado Season Nearing

At a tornado? Well, no, meteorologists can tell with some accuracy when conditions are "right" for high-speed, disaster-channels which will come in America's Midwest in spring. Tornadoes can hit anywhere at any time of the year in the Plains states of Kansas, Oklahoma and Texas. They can claim-along with the beauty of their Big Sky-a fair share of tornado weathermen do not use the precise tornado mechanism, three are usually necessary, according to a Texas Tech meteorologist, Dr. Haragan.

Necessary are low level moisture-which in the Plains states usually comes from the Gulf of Mexico-atmospheric instability-indicating sharp temperature changes with height-and "some mechanism for lifting air off the ground," Dr. Haragan explained. Usually noted also is a high level jet stream. A convergence, or collision, of air masses can cause the moist air to be lifted up, he said. Although invisible to the man on the street, this could be compared to a head-on collision of two, fast-moving rivers of water. The rivers colliding would cause a high wave and very rough water. Before a tornado the vertical moisture distribution is usually characterized by a deep layer of dry air over-riding a moist layer. When the winds in the surface layer are moving in opposite, or near opposite, directions they

converge or collide. This is the case during the development of thunderstorms when moist air at the surface is being lifted, and the atmosphere becomes extremely unstable. Couple these conditions with a strong jet stream of dry air aloft and the result can be severe thunderstorms, hail and occasionally tornadoes. When these conditions exist, the National Weather Service announces a "tornado watch." This means what it says-watch for tornadoes and plan activities so that you can take shelter immediately if necessary. Two conditions, or either one of two conditions, can cause National Weather Service meteorologists to issue a "tornado warning" which means the time has come to take cover. One clue-a cloud with a hook at its base-can show up on radar.

The second condition is the actual sighting of a tornado by a peace officer, a pilot or other competent observer. But even for meteorologists, the weather can be deceitful. Haragan cited the May 11, 1970, Lubbock tornado as an example. Nature did a fast switchback in the early night. About 9:30 p.m. the tornado slammed through the city. One of the "puzzlers" which prevented an early forecast of the devastating tornado which killed 26 people, Dr. Haragan said, was the rapid and unorthodox strong return flow of Gulf moisture into the area. A "dry line" had passed through the city during the morning of May 11, leaving Lubbock with a dry air mass at ground level. All meteorological indications were that the city would remain in the dry air. But by late afternoon nature had shifted gears into reverse. Moisture was being fed back into the area at high speed. The moisture content in the Lubbock atmosphere shot up-but this was only in the Lubbock area. Amarillo, 120 miles to the north, was never in this moist air. As a result, tornado conditions were finding just the right combination in the one location, according to Haragan who admits to better hindsight than foresight since at the time he himself was dining in a soon-to-be-battered restaurant. As the moist air came pouring back into the area at ground level, it was lifted, resulting in extreme atmospheric instability and the development of thunderstorms, hail and at least one tornado. Authorities differ on where there were one, two or three tornadoes in Lubbock that night; but whatever the number, about \$135 million was suffered in property loss alone as the storm cut a swath 1.5 miles wide at one point and eight miles long. What does a meteorologist do when a tornado strikes without warning? "Like everybody else," Haragan said, "I huddled in a corner while the ceiling ripped loose." Haragan teaches a senior level seminar in severe storms with the philosophy that for anyone living with a threat of severe storms, an understanding of them leads to preparedness and protection. Term papers in the course, he said, reflect the broad impact of severe storms on every segment of society. Special aspects of the Lubbock storm were recorded and analyzed by students in agriculture, geology, park administration, food technology, art, business administration, geophysics, sociology and history. Interests included such things as food contamination problems, hail suppression methods, insurance, community action, group psychology in a time of severe disaster, forecasting severe storms and historical records of severe storms.

## Israeli Fighter Speaks Here

Rev. Vendyl M. Jones, president of "Institute of Judaic-Christian Research" and director of "Committee of Concerned Christians for Israel" will be in Littlefield today at the Missionary Baptist Church, 801 XIT Drive.

The service will begin at 7 p.m. and the public is invited to hear him speak, according to the pastor, Rev. David Jackson.

The June 16, 1967 issue of "Time" magazine featured Rev. Jones as the only known American who participated in the Six Day War. He served as a forward observer for the Israelis, and his partial color blindness makes camouflage unusually distinguishable.

That handicap enabled him to

locate four anti-personnel bunkers and 66 anti-tank bunkers ahead of the Israeli ground advance in the liberation of the West Bank and Jerusalem.

Rev. Jones completed his theological training and was pastoring Baptist Church in east Tennessee when he decided to begin Jewish studies. He moved to Greenville, S. C. and enrolled in Talmud Torah where he spent three years in

study with Rabbi Henry Bar-neis.

He did linguistic work in the University of Oklahoma, advanced Judaic research in Hebrew University in Jerusalem, Israel; Rabbinic lore in Yesheva Chabad of the Lubavitcher Hasidim; studies in Kabbalah with Chiam Shevilli; and Hebrew language in the American Institute of Holy Land Studies in Jerusalem.

DRY WEATHER

Mr. Farmer :

If you farm in Lamb, Bailey, Hockley or Cochran County, or in the so called buffer zone of last year's Hail Suppression area and you believe the activities of the hail suppression planes in dissipating clouds over your area the past year resulted in a **REDUCTION OF RAINFALL**, then we need your assistance in submitting this petition **NOW!**

P E T I T I O N

TO: THE TEXAS WATER DEVELOPMENT BOARD  
OR: TO WHOM THIS MAY CONCERN

We, the undersigned petitioners, being citizens of Lamb, Bailey, Cochran and Hockley Counties, Texas, desire to go on record as being opposed to cloud seeding operation by Atmospherics Incorporated or any other individual, group, firm or corporation, that attempts to interfere with the natural development of cloud formations. We firmly believe that the attempts to suppress hail in our area interferes with natural rainfall, and therefore, we the undersigned oppose such attempts to interfere with nature.

We further request that the proper officials of this State refuse to issue permits to any individual, group, firm or corporation who attempts, by artificial methods, to suppress the development and formation of atmospheric cloud formations.

It is no concern of the undersigned as to what methods may be used by other counties, so long as the area of our counties is not used as a buffer zone for the hail suppression program.
