## Crude Oil Production Makes Impact in Total Economy Of Lamb County

Production of crude oil and gas in 1974 continued to have a significant impact on the economy of Lamb County, with the estimated value

of the county's production, royalty payments, and state severance taxes reaching new highs. Lamb was one of 197 counties— an

increase of four from 1973— which produced oil and gas valued in excess of \$100,000 in a year which saw the total value of state production jump from just

over \$6.7 billion to almost \$11.4 billion.

The county ranked 143rd in the state in the total value of petroleum produced— \$5.1 million— with \$5 million of that coming from the sale of 721,424 barrels of crude oil; \$72,000 from the sale of 248,473 MCF of natural gas.

This study by the Texas Mid-Continent Oil & Gas Association shows also that the county's petroleum production last year resulted in the payment of \$640,284 to royalty owners.

"These figures, whether considered statewide or individually in almost 80 percent of Texas' 254 counties, emphasize the importance of a healthy petroleum industry in the nation's No. 1 energy state," said Sherman Hunt, a Dallas independent oil man who is president of Texas Mid-Continent.

"In the face of declining production in Texas, it is significant that this increased return to royalty owners and producers came from crude oil and natural gas which is free from restrictive federal price controls. But there are at this time proposals in Congress which would place all of Texas' petroleum production under federal price controls, with predictable disastrous consequences for the industry, as well as the whole economy of the state," Hunt said.

The survey also shows that the State of Texas received \$237,722 in production taxes from county wells, with \$232,299 coming from crude oil output and \$5,423 from natural gas production.

Oil and gas developers and producers spent an estimated \$146,000 drilling two exploratory dry holes in the county last year.

According to the Texas Employment Commission, 88 oil and gas industry employees worked in the county in 1974 and shared a payroll totalling \$683,412.

A processing plant also added to the county's petroleum-related economy: The "Oil and Gas Journal" lists one petrochemical plant.

## Chamber Plans Dallas Cowboy Football Game

It's almost kick-off time for the football season and with this in mind, the Littlefield Chamber of Commerce and Agriculture has scheduled another chartered bus trip to see the Dallas Cowboys play.

It'll be the Cowboys against the St. Louis Cardinals in Texas Stadium, Sunday, Sept. 28, and football fans can get chartered bus transportation roundtrip to Dallas, a night's lodging at the downtown Holiday Inn and a ticket to the game for \$50 per person.

The bus will leave Littlefield Saturday morning, Sept. 28, and return Sunday immediately after the game.

For reservations, contact Sherry Campbell, tour director, at the Chamber office 385-4451.

## 14 Indictments Returned By Grand Jury Members

Grand jury indictments were returned against 14 persons in nine cases which went before the jurors Monday.

Bobby Joe Dillard was indicted on a charge of indecency with a child following an incident with a girl last week. Bond was set at \$2,000.

Three persons were indicted for burglary of the Littlefield Goodyear business about May 20 when seven television sets and a stereo component were taken. Indictments were returned against two men and a woman, Larry Don Thornton, Ricky Don Thorton and Janice Karen Alvord. Bond has been set at \$4,000 each.

Edward Curtis Gregory was indicted on a charge of aggravated assault for intentionally and knowingly causing bodily injury to Ross Trevino, a peace officer in the lawful discharge of official duty June 15. Bond was set at \$2,500.

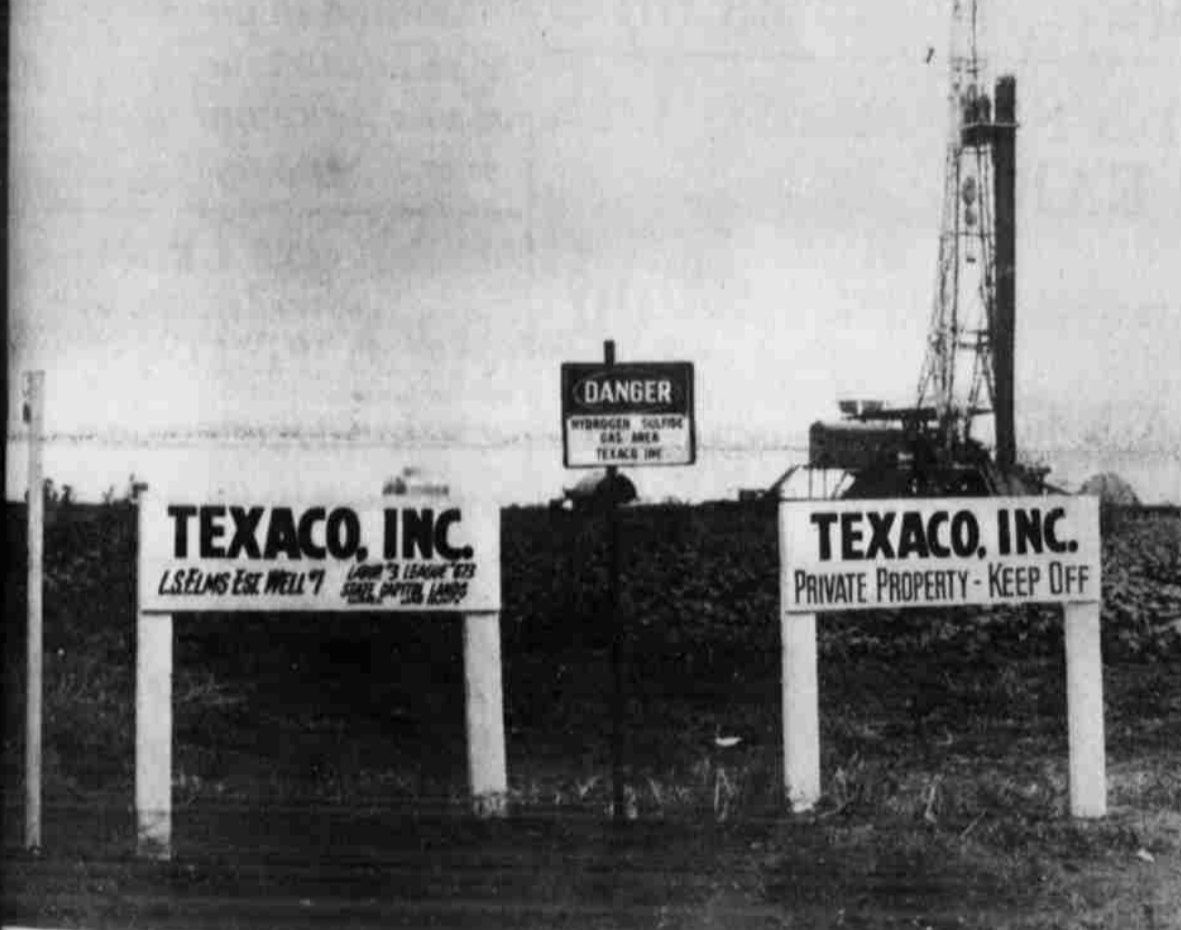

Ular Johnson was indicted on a

## City's Preliminary Budget Discussed, School Zone Limits Are Established

A lengthy session Thursday night, Littlefield's city council discussed the preliminary budget for the fiscal year 1976, discussed passing an ordinance to prohibit drinking in public, established school zone limits, and appointed M. O. Griggs as fire chief.

Councilmen were present with the Mayor of Pat Downs.

While discussing the budget, councilmen learned that anticipated expenditures for the upcoming year will be approximately 21.3 percent increase over last year's budget— or a total increase of \$140,483 over last year.

City Manager Jim Blagg reviewed items of the budget and explained preliminary figures reveal that approximately \$1,001,792 is expected in various incoming revenue funds, and a predicted \$1,153,683 will be needed for expenditures— a difference of \$151,891 too much in expenditures.

Councilmen decided to study the proposed budget, and plan another work session to cut out some of the unnecessary items.

Local businessmen appeared before the council to seek information on whether the city has an ordinance prohibiting public drinking, and City Attorney Ted Sansom informed them that the city does regulate public drinking. He informed them that the city 'could' pass an ordinance in addition to the state laws.

Councilmen then asked that the city manager, police chief and city attorney prepare an ordinance for later consideration.

City Manager Blagg reviewed the proposed school zone sign and traffic signs around the Elementary and High School complex, and with the aid of a city map, explained the reasons in his memorandum he prepared. "Our present approach to the

problem will begin about mid to latter part of July to set new sign posts all around the school area and in the week preceding the opening of school, the signs will be installed. Also, school zone markers will be painted all the way across the streets, as well as double yellow 'no passing' zones and crosswalks.

"Other features to be installed are limited time parking zones in student pick-up areas and lengthening of painted protected pick-up zones in front of Elementary I and II, and Primary buildings.

"There is only one intersection where traffic control signs will be changed, and this is at Griggs Street at Ripley. There presently exists two stop signs on

## Christopher Clark Injured On Farm

Christopher Clark, an 11-year-old Littlefield youth, is still listed in serious condition at Methodist Hospital in Lubbock after being transferred there Monday afternoon from Medical Arts Hospital in Littlefield following a tractor accident.

He is suffering with multiple injuries he received when the tractor ran across his body from the left knee to the right side of his neck.

According to Dr. I. T. Shotwell at Medical Arts Hospital, the youth sustained a possible fractured pubic bone, fractured left hip, contusions of the brain and other possible injuries.

He said members of the family reported that he got off the tractor to pull weeds, attempted to get back on when somehow the clutch disengaged and the tractor knocked him down and ran over him.

Griggs, stopping traffic as it crosses Ripley. As this is the primary ingress-egress route for the school buses, we need to reverse this by installing yield signs on Ripley at Griggs and remove the stop signs on Griggs.

"There are two intersections where stop signs will be installed, and these are at Griggs at Delano and Lake at Delano. Neither of these intersections have any traffic control signs at present," he concluded.

Members of the volunteer fire department conducted their annual election in June, and elected M. O. Dunagin as chief to replace Leon Durham who declined taking the job again. Councilmen unanimously approved the appointment.

In other routine business matters, councilmen approved the minutes of the previous minutes, accepted the financial

## Amherst Group Files Suit To Reinstate Jack Yarbrough

A civil suit was filed against the Lamb County Commissioners' Court in District Judge Pat Boone's 154th court here Thursday.

The suit is brought by T. L. Bennett on behalf of himself, E. L. "Jack" Yarbrough, and "all others similarly situated" as plaintiffs. Defendants named in the petition are the commissioners court, W. T. Vereen and the county.

The plaintiffs' petition was filed after District Attorney Jack Young refused to bring suit in the case.

The civil suit asks that justice of peace precinct lines be redrawn as they

## County Pioneers Planning Reunion

Lamb County Pioneers are making plans for their annual reunion, scheduled for Tuesday, Aug. 26.

This year, the event will be held in the new County Agriculture and Community Center, located on South Hall Avenue (Highway 385).

W. B. Dickinson of Olton, president of the Lamb County Pioneer Association, presided for a planning meeting of the board of directors Monday evening in the XIT Room of Security State Bank.

Committees were appointed for preparations for the event, and the final planning meeting is to be held Monday, Aug. 4, according to V. M. Peterman, secretary of the organization.

Besides a program, a barbecue and all the trimmings will be served to all the pioneers who have lived in the county since before 1935, and their guests.

existed prior to redistricting in February and that Jack Yarbrough be reinstated as justice of peace of precinct 6 as it existed prior to action taken by the Commissioners' Court.

Plaintiffs also demand that any money paid to Tobe Vereen for duties as JP of precinct 6 be returned to the Court, and that action taken by the court on Feb. 10 be null and void when the JP precinct in Amherst was abolished.

Plaintiffs want Yarbrough reinstated and ask for recovery of costs of the suit.

The Court as defendants will have 20 days to file an answer following the date all named have been served.

## Report Shows Cloud Seeding Nil

Texas Water Development Board investigators probing cloud seeding operations report that the practice had "remarkably little effect" on either rain or hail on the High Plains of Texas.

"In the Littlefield-Plainview region the effect of cloud seeding has been so small, based on available data," said Dr. James R. Scoggins, "no effect could be discerned."

Dr. Scoggins headed a team of six Texas A&M University scientists who made a study on "An Evaluation of Weather Modification Activities in the Texas High Plains" for the board.

Cloud seeding to reduce hail began in the region surrounding Littlefield and Plainview in 1970, and has continued each spring, summer and fall.

Two organizations of farmers concerned with the high risk of hail damage to cotton and other crops, Better Weather Inc. of Littlefield and Plains Weather Improvement Association of Plainview, sponsored the operations.

Clouds are "seeded" in these operations by releasing very fine particles of silver iodide into the updraft area at cloud bases, using aircraft equipped with flares that dispense the silver iodide.

Countless small ice crystals then form with the cloud, rather than large hail, cloud seeders and their sponsors hope.

The officials noted that the results in Texas were in sharp contrast with results reported in some states— such as threefold to fivefold increases in rainfall after isolated clouds were seeded in Arizona and south Florida.

Some western states reported a 25 percent increase in snowfall from seeding clouds in mountains.

Scoggins said his team analyzed by computer the available rainfall data provided by several agencies and organizations for the 14-county study.

The team emphasized, however, that the results do not prove any lack of ef-

**If you've been thinking about buying a home, we have one suggestion.**

**Don't put it off.**

And if you want to know why, the fact is that the longer you wait the more that new home is going to cost. It's just that simple. Maybe you've been getting advice to wait. Wait for housing costs to go down. Wait for labor costs to drop. Wait for the price of land to stabilize. Follow the advice, dear friend, and there's a good chance you'll never own a home at all. Because the factors that determine the cost of housing—land, labor, building materials—won't be going down. They haven't for 30 years and there's no reason to believe that they're going to start dropping now.

**How about the cost of money**  
The mortgage market is a little harder to predict. It fluctuates a lot. What the money market is going to be like one year from now or five years from now depends on which economist you talk to.

1. A certain amount of inflation is going to be part of the economic picture. This means the dollars you use to pay off your mortgage will each year be "cheaper" dollars.
  2. During the first several years of your mortgage, more of your payments represent interest. Interest charges are deductible from your Federal Income Tax. And if you don't think that helps at income tax time, talk to somebody who has a mortgage. He knows.
  3. Finally, mortgage rates aren't likely to drop drastically. And even if they do go down some, increases in other areas (land, labor, materials) probably will offset most of the gain.
- So come on in. The market's fine. And remember: There'll never be a better time to buy a home than right now!!

## Bridal Courtesies Fete Miss Debbie Cummings

Miss Debbie Cummings, bride-elect of Don Steen, was recently honored with a white Bible ceremony and kitchen shower in the home of Mrs. Jimmy Cowan, and with a lingerie shower July 14 in the home of Mozelle Tapley.

Mangum, Darla Hedges and Robin Smith. For the lingerie shower in the Tapley home, the bride's choker colors of pink and shocking pink were carried out in the decor. Guests were served ribbon sandwiches, fruit plate and frozen punch from a candle-lit table.

Those attending were Mrs. Mark Brantley, Mrs. Linda Mangum, Mrs. Ronnie Jenkins, Mrs. Lee Neinast, Kathy Kelly, Tina Evans, Stephanie Jarrett, Kristi Jarrett, Robin Smith, D'Aun Garrett, Pam Holland, Mrs. Winston Cummings and Mrs. Mozelle Tapley.

EAR PROTECTION  
Inserting ordinary absorbent cotton into the ear canals does little to protect a person from the possible serious effects of exposure to excessive sound levels. Far greater protection is offered by properly fitted ear plugs made of soft rubber or similar materials.

statement and approved the departmental reports.  
City Manager Blagg presented a report of administrative activities for the month of June.  
"Much of this month's activities surrounded two events. The first was final preparation and presentation of the City of Littlefield's application to the Texas State Department of Health for a permit to operate our sanitary landfill. The public hearing was held June 19, in the council chambers. We felt that the city's application was well received by the examiners and do not anticipate any problems with the approval of the permit. Two individuals brought testimony before the examiners concerning blowing paper at the landfill and requested that steps be taken to alleviate this problem. We have been aware that this problem existed and are continually working to improve that situation.  
"The second activity which has taken much of our time is preparation of the 1975-76 budget. Requests from the departments have been analyzed with regard to anticipated revenues. The staff has put together a preliminary budget which will be reviewed at our next council meeting. Inflation is continuing to take its toll on available revenues and a balanced budget will be

difficult to achieve. However, I am confident that through work sessions with the council our budget problems can be solved.  
"We received word this month from the Farmers Home Administration that the plans and specifications for the water and sewer extensions to the spinning mill site had been approved. We will move forward with advertisements for bids and anticipate that the bid opening date will be in August.  
"The third annual City Employee Appreciation Banquet was held this month with approximately 52 persons in attendance. The banquet was once again held in the Willey Room of the Lamb County Electric Cooperative building. Although the service pins were delayed and were not available for presentation, we feel that the banquet was once again a success," he concluded.

### To The EDITOR

Littlefield, Texas  
July 17, 1975

Mr. Wade Warren  
Lamb County Leader  
Littlefield, Texas

The School Finance Bill has been passed with very little equalization of districts. I now question how far our community will go to bring our facilities to the point our children can have pride in them.

There is an organization called Parents for Better Schools. Is there more than a handful of parents interested in their children? We are not troublemakers, this is our business, we have no desire to split the community, only the desire for better schools. We asked a member of the School Board if he considered this to be none of our business. He stated that if it concerns our children and tax money, it is our business.

As parents we do our best to provide the best of everything for our children at home, church, and in all phases of life. Why should we accept our present school situation?

We realize that improvements have been made in the past year, but when you paint and repair an outdated building you still have an outdated building.

It was once said that if Littlefield was "hungry" for industry we would be successful in getting it for our town—we did just that.

Now with the influx of people related to the spinning mill it is projected that in 1980 our population will be ap-

proximately twice the current figure. That is five years away—we do sit on our backside and wait for a crisis situation in our already inadequate schools, or do we wake up and plan for the future?

You don't wait until your child has polio to immunize him!  
Let's all work together for a common goal. Parents for Better Schools will meet again in August. Show your interest.

Yours for better schools,

s/Rita Richardson

To The Editor,

Two weeks ago we spent one night in your town and we wanted to let you know how much we appreciated the clean and free camping facilities. It was the only night we had this nice experience on our vacation.

The town of Littlefield is indeed friendly. Also very friendly residents! Mr. Bill Camp gave us a very useful souvenir of Littlefield. Hope to visit you again.

## A Woman's View

By PEARL BRANDON

LIFE IS VERY GOOD, but if we don't take the time to see the beauty around us, we can't enjoy it.

We allow little everyday frustrations and worries to blind us to the lovely things around us.

Most of us sleep until we barely have time to dress and beat the clock to work. We rush off to meet the problems of the day without breakfast or taking time to say a prayer.

THE BIRDS may be singing, but we don't hear them, nor do we see the flowers blooming in the early sunlight. If we had risen only 30 minutes or an hour early we would have time for breakfast and a quiet time with the family, also to say a "thank you, God" prayer before we left.

Our mind would be clearer and our bodies more relaxed. We could leave home with a feeling of well-being and appreciation for living.

Is it true that most of life is gone before we learn to appreciate it?

I THINK GOD wants us all to be

happy. He told us to consider the lilies, how they grow beautifully with no effort on their part. He also noted the sparrow on the wing. He cares for them, and we are many times more valuable than they.

He also said, "Let not your heart be troubled, neither let it be afraid."

FAITH IN GOD is the way we can have peace of mind. Even when heartache comes, as it must to all of us, we can feel the quiet assurance that He is near.

The Psalmist says, "We live within the shadow of the Almighty, sheltered by God who is above all gods. This I declare, that He alone is my refuge, and my place of safety, He is my God and I am trusting Him." Psalms 91:1-2-3.

THERE ARE SOME places in the world today where people are being persecuted because of their belief in God, yet this fear and torture does not change their faith in Him.

I read a book this week called "Vanya". It is the true story of a young Russian soldier who was tortured and finally killed because of his belief in God. Before his death he experienced many miraculous things and was the cause of many people becoming "believers" as they are called in Russia.

WE NEED to pray much for those people—and for their leaders. Wouldn't it be wonderful if all the leaders of the world became Christians!

The Psalmist also says, "Shout with joy before the Lord, O earth, obey Him gladly; come before Him singing with joy." Psalm 100.

DOESN'T THAT sound like the Lord wants us to be happy?—And He does include the whole earth—even you and me.

## Sewing Classes Set At Center

Two other sewing classes will be conducted Monday and Wednesday at the Lamb County Community Action Center on north Highway 385.

The classes consist of two two-hour meetings which begin at 2 p.m. each day, and are being presented to help people learn how to sew.

Anyone wishing to attend these classes are invited to bring any sewing projects—crocheting, embroidery, knitting or any other type of sewing.

## OBITUARIES

PFC. RICKY G. HODGE

Funeral services are tentatively set Monday in the Irvin Street First Baptist Church for PFC. Ricky Glenn Hodge, 19, who drowned Saturday, July 12, in Germany while swimming with friends.

He was stationed in Germany with the U.S. Army, and had been serving in that military branch since he joined July 5, 1974.

He attended schools here until he joined the Army.  
McCarty Funeral Home is handling local arrangements, and burial will be in Memorial Park.

Hodge was born Jan. 19, 1956.  
Surviving are his mother, Lois Johnson of Odessa; his father, Doyce Browner of Fort Worth; a son, Ricky Lamont Hodge of Sudan; two sisters, Mary Johnson and Ruthie Johnson, both of Odessa; a brother, Howard Johnson of Odessa; a grandfather, Bera Hodge of Littlefield; a grandmother, Clari

Browner of Paris, Tex.; eight aunts and eight uncles.

EDWARD JAY SEELY  
Edward Jay Seely, 81, of Littlefield died about 9:10 a.m. Wednesday, July 16, in Medical Arts Hospital after a lengthy illness.

Services were conducted Friday afternoon in the First Baptist Church in Littlefield with Rev. A. J. Kennemer, pastor, officiating.

Burial was in Littlefield Memorial Park under direction of Hammons Funeral Home.

Seely was a native of Cleburne and had lived in Littlefield 45 years.

He was a retired lumberman and a member of the First Baptist Church in Littlefield.

Seely was also a member of the Masonic Lodge 1161. He was a longtime supporter of the Littlefield athletic program, and instrumental in obtaining the first football stadium, formerly Seely Stadium, here.  
Survivors include his wife, Edna; a daughter, Mrs. Frances Allison of Littlefield; two brothers, Charley Seely of Chillicothe and Sam Seely of Lewisville; two sisters, Mrs. Jewell Stephens of Oklahoma City, Okla., and Miss Evalena Seely of Chillicothe; three grandchildren and four great-grandchildren.

A MAJOR KILLER  
Breast cancer will kill nearly 27,000 women this year. But this form of cancer can be cured, if it is discovered early. The American Cancer Society urges women to examine their breasts monthly, as the best means of early cancer detection. Ask your doctor to show you the breast self-examination procedure, or call your local American Cancer Society for the pamphlet, BSE.

### THE ABUNDANT LIFE

## Thanks For Work

By BOB

THE GREATEST BLESSING available to us may be work; something to do. Of course, some work may be more interesting and desirable than some other work, but even the less interesting work is better than idleness.  
"Life if a short day, but it is a working day. Activity may lead to evil, but inactivity cannot lead to good." -H. More.

WORK IS A BLESSING, because it is the means by which we produce the things which supply our basic needs of food, shelter and clothing. "There are no free lunches" is a true and significant statement.

Somebody has to work to produce the commodities required to provide the lunch. In fact, many people had to work to produce the food; and many other persons had to work to prepare and serve the lunches.

Without people who work, there would be "no free lunches".

ALL ESSENTIAL SERVICES related to the general well-being of mankind are provided by the workers. So far as this is concerned, we can place the consideration on a more personal basis; and take note of the fact that the individual's needs are served in the same way.

Although we work, there are many ways in which we profit from the work of other people.

We must never forget that, wherever there are services, somebody is working. This is just another fact that should help all of us recognize and appreciate the necessity and the importance of work. Let us, then, "be thankful for work" and "for workers."

EVERYTHING WORTHWHILE in one way or another, related to what we may say, dependent upon personal life, personal growth, development and accomplishment cannot be realities without work.

THE FAMILY; with all of its blessings cannot exist unless the work well. The more skillfully lovingly this work is done, the happier the family.

Education, and successful career life, and business operation everything else of value depends upon work.

THE GREATEST ASSET a nation is the spirit of its people. The greatest danger that can befall a nation is the breakdown of the will to win and the courage to Cortelyou.

WE HAVE CLASSIFIED work as call some of it important, prestigious; and, unfortunately, have downgraded much of the essential work. All of this is a result of the work scene balance. The scene is changing much too slowly.

We may never be able to do exactly the work we think we do but we can learn to like and do the work we have the opportunity to perform.

THERE IS ONE THING worth having to accept work we do and that is accepting idleness. "Thanks For Work", and for

## HOMINY GRITS

By CORNBALL BLEWETT

IF YOU HAVE SEEN last week's US&NR you, no doubt, noticed Solzhenitsyn's transcribed speech made in Washington on June 30th. If you didn't see it, may I suggest you get a copy and check it out.

If it don't curl your hair, your fertilizer must be pooped out! The big trouble about the whole ball of wax being, it's all so true.

HE TELLS US just how we are playing into the hands of the Russian bear, and just how the Ruskies are leading us on. His opening statement is one that the context seems to stick so vividly in my mind. AND, "In your heart you KNOW he's right!"

"Something which is almost incomprehensible to the human mind is the West's fantastic greed for profit and gain, which goes beyond all reason, all limitations, and all conscience," he says.

THE SPEECH is much too long to go into any kind of detail in this space, but he goes ahead to tell us how our greed, coupled with our soft heartedness and soft headedness, leads us into aiding and abetting the Russian cause in so many ways. He tells of the past and present Communist bloodbaths that have taken place, and ARE taking place even in South Vietnam at the present time.

No doubt it'll make you angry,

ashamed and sick at your stomach. I read this article, but nonetheless it would be good if every American mature age had it drilled in their minds. Thanks, Solzhenitsyn. NEEDED that!

I'M AWARE THAT farming Row's forte, but perhaps it would be amiss for me to offer a word some of the things I see taking our area at the present time.

It's refreshing to see that farmers are no longer trusting eggs in one basket, anymore. Siftification is becoming the order of the day, and I'm sure that's good.

OUR WHEAT CROP was a (don't know if we can repeat or whether they make anything from them there sunflowers are real. Hope the effort is rewarding. It's feasible that a combination of might work into a double payday.

There's a lot of corn being ensilage purposes, aimed at feeding the feeders (another promise crop.) And the milo seems to be very well, thank you.

King cotton? Still very much kickin'!

Over all, I'd say the picture pretty good. Let's pray that the Harvest has a likin' for us!

## Turn Row COMMENTS

By EMIL MAC

HERE IS AN item I found on the food stamp fraud, as written by our U.S. Senator for Texas, John Tower in Washington.

WASHINGTON— Scandalously loose federal regulations are taking food from the mouths of the needy and giving it, at taxpayers' expense, to the undeserving. The federal food stamp program has degenerated into a gigantic boondoggle. What began 10 years ago as a modest federal project funded at \$40 million has mushroomed into a fiscal monster that will devour \$5 billion of the taxpayers' money this year.

Use of food stamps has increased from one of every 439 Americans in 1965 to one of every 13 Americans today, and the growth of the program is likely to be even more astronomical in the future. Under present regulations, one of every four Americans is eligible for food stamps, and that could easily grow to one of every three Americans.

Under present regulations:  
—Some able-bodied persons who do not want to work can get food stamps;  
—Owners of jewelry, furs and luxury appliances can get food stamps;  
—Minor children can get food stamps without parental consent or control.  
Enough is enough. It is time to put a halt to the flagrant abuses of the food stamp program.

I have joined with Sen. James Buckley (R-N.Y.) and nearly 70 other members of the Senate and House in sponsoring

the National Food Stamp Reform. Our bill would save taxpayers a billion each year.

The National Food Stamp Reform contains 41 separate provisions to reduce the overall cost of the program by eliminating fraud and abuse and redefining eligibility requirements.

Among the reforms the bill would make are:

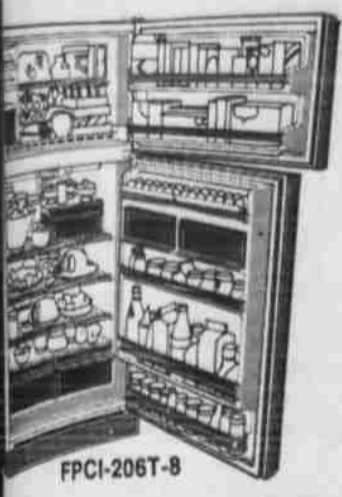

- Use of federal government to set cut-off points for food eligibility;
- Elimination of the present complicated system of income deduction which makes it possible for making as much as \$20,000 a year eligible for food stamps;
- Denial of food stamp eligibility to able-bodied persons without children who are not willing to work;
- Establishment of accurate reviews to determine whether stamp recipient should remain eligible.

At the same time, the National Food Stamp Act would significantly expand nutritional assistance of poor people would benefit. The food stamp allotment recipient would be immediately increased by 25 percent, and those who are least able to defray pocketbooks from the ravages of inflation, would be given special consideration.

## Nurse Exam Is Slated

An aptitude exam for the vocational nursing program at South Plains College will be given on Aug. 4 and Aug. 18. Students planning to enroll in the program are required to take the exam, which will be given at 1 p.m. both days in the guidance and counseling office at SPC. Applicants should be able to finish the test by about 4:30 p.m. There is a \$1 test fee. In addition to the entrance exam, other requirements include two years of high school or equivalent (pass GED test), complete physical examination within six months prior to admission, interview with vocational nursing personnel, references and a definite interest in nursing. Applicants must be between the ages of 18 and 50.

Mrs. Helen Brown is coordinator and Mrs. Barbara Bennett is assistant coordinator of the SPC vocational nursing program. Their offices are located in the Technical Arts Building at SPC. To make an appointment for the aptitude exam, contact the office of Don Melton, director of guidance and counseling at SPC, 894-4921, ext. 278. The exam is given on the first and third Mondays of each month throughout the year. **CANNING SUPPLIES** Supplies of home canning lids are being allocated only to those retail outlets that have normally carried home canning supplies in the past. Lids are being distributed to areas as crops come in.

**DOROTHY McCAIN** was recipient of the "Woman of Woodcraft" award Thursday night during the annual awards night for the members of Woodmen of the World. Presenting the plaque is Bob Kirk, as her husband, Bill McCain observes the procedure. Mrs. McCain is a member of Women's Court 4254. (Personal Photo)

## Two Lamb County 4-H Earn Dress Revue Honors

Two Lamb County 4-H'ers earned honors at the District 24-H Dress Revue Monday, July 14, in Lubbock in the South Park Inn. In the junior division, Petra Lewis of Earth earned a blue award; while in the senior division, Dawn Branscum of Earth earned a red award. Four young ladies who modeled their own creations earned a trip to the State 4-H Dress Revue in Dallas by taking top honors in the revue. The winners are Kayla Gaskins of Howard Co.; Annette Weil, Hale Co.; Becky Hand, Lubbock Co.; and Genna Lee Ellyson, Gaines Co. Named as alternates are Belynda Singleton of Hockley Co., first alternate; and Pearl Perez of Swisher Co., second alternate. These two girls will fill in at Dallas, Oct. 3, in case any of the others can't compete in the finals during the State Fair of Texas. All 19 contestants, who represented a 20-county area of the South Plains, made and modeled their own outfits. Special honors went to Miss Ellyson for showing the best all-cotton outfit. Also awarded during the show was a \$500 Aubrey W. Russell Scholarship. Deana Finck of Swisher County was presented the award by Mrs. Lucille Whitten, district 2 director of the Texas Home Demonstration Association. The award is given each year to a 4-H girl majoring in economics at Texas Tech. In addition to the honors, they'll receive beyond the district level. There are no 1-3-3-3 annual dress revues; contestants are judged on overall appearance, abilities, and their books. A luncheon for the parents, Extension agent special guests kicked off the awards phase of the Herzer, manager of Cooperative Oil Mill sponsored the luncheon. Theme of this year was "Mirror of the Costumes—1776-1976". Stuart, 4-H'er from County, was mistress of ceremonies. Other guests of the program were Bostick of Garza Co., Crow of Gaines Co., Beyer of Lubbock Co., Lynn Bowerman, Extension agent (economics) in Lubbock served as chairman of the district Extension agent (economics), serving as director.

**C. E. WALKER**, right, was recipient of the "Mr. Woodman" award for Camp 3871 during awards night Thursday. Presenting the plaque is Bob Kirk, center, as Walker's son, Herbert Walker, looks on. (Personal Photo)

## CLEP Test Set Aug. 1

The next College Level Examination Program (CLEP) test will be given Aug. 16 at South Plains College in Levelland. Registration for the exam is now underway and will be continued through July 28 in the guidance and counseling offices at SPC. CLEP is a national program of credit-by-examination, sponsored by the College Entrance Examination Board, which offers persons the opportunity to obtain recognition for college-level achievement. The program is based on the concept that individuals should receive college credit for what they know no matter how they learned it. There are two types of tests given: examinations which learn in five basic liberal arts—English, mathematics, sciences, history; and examinations, which achievement in specific undergraduate college. There are 41 subjects which to choose. Fees are \$15 for one exam, \$30 for two or more exams, \$15 for each examination. For further information contact the office of the director of guidance counseling at SPC, 894-

## Bridal Shower Honors Miss Debbie Cummings

The home of Mrs. Joy Latimer was the setting of a bridal shower honoring Miss Debbie Cummings, bride-elect of Don Steen, Wednesday, July 9.

The bride's chosen colors of pinks were carried throughout the entire house.

Guests were greeted by a receiving line of Mrs. Jay Latimer; the bride's mother, Mrs. Winston Cumming; Mrs. Fred Owens; and the groom's mother, Mrs. W. R. Steen of Wilson.

Guests were registered by Connie Cannon and Sharrise Cowan in the bride's book, with the lovely lace and beaded cover designed and made by the bride's mother.

As the guests mingled throughout the rooms displaying the large array of gifts, they were then served from a table laid with a white eyelet tablecloth draped to the floor, trimmed with a scalloped flounce flowing from the edge of the table, accented at points of interest of the flounce with clusters of pink rose buds and white frosted wedding bells and leaves.

The table appointments of crystal and silver contributed to the appetizing hors d'oeuvres and fruit plates.

The table was centered with an arrangement of a candelabra decorated with an assortment of roses and spring flowers of the bride's chosen colors. In continuing the bridal theme the candelabra was accented with singular crystal and silver candle holders accented with dainty clusters of flowers with white doves perched with the symbolic wedding bands.

To complete the table, the pink frosted punch was served from a crystal punch bowl with the base entwined with ivy and roses.

Those serving the guests were Jackie Edwards and Linda Mangum.

Honored guests attending other than the groom's mother, Mrs. W. R. Steen, were Mrs. Nan Wied, and Miss Teri Steen; the bride's paternal grandmother, Mrs. Ice Cummings; the brides aunt, Mrs. Lee Neinst; and cousin of the bride, Mrs. Ronnie Jenkins.

Among the many gifts the bride received was a lamp of Carnival glass with gold hand inlay and crystal prisms.

Those serving as hostesses for the occasion were: Mrs. Paul Butler, Mrs. Harold Bowan, Mrs. Sitter Cannon, Mrs. June Green, Mrs. Dick Hopping, Mrs. Charlene King, Mrs. D. C. Lindley, Mrs. Jim Latimer, Mrs. J. C. Moreland, Mrs. Ray McKinney, Mrs. Vick Reynolds, Miss Gladys Price, Mrs. Bobby Short, Mrs. Mozelle Tapley, Mrs. Fred Owens and Mrs. Stella Useton.

LITTLEFIELD JUNIOR Varsity Cheerleaders have recently returned from a WCC Cheerleading Camp at McMurry College in Abilene. The girls received three superior ribbons and brought home the Pep Pennant. They are, left to right, Kimberly Fisher, Shalyn Grant, Cindy Thrash, DeEnna Blakely, Elaine Ellerbe and bottom center, Sue Pointer. (Personal Photo)

## Carson Featured In Kansas Publication

By MRS. TOM STANSELL  
OLTON—John R. Carson, former resident of the Olton area, is farm manager of Midwest Land and Cattle Company, Kinsley, Kas., recently featured in the publication, "The Kansas City Star."

A quotation from the Star describes the land "The sand hills of the Arkansas River Valley provide excellent growing conditions for all sorts of cactus and more than a few rattlesnakes. But nobody ever thought much of them as potentially lush corn or wheat fields. Rainfall is sparse and what little there is runs off so fast that the row crops don't get benefit. It seems, however, that Hank Walton, Lloyd Hanahan and John Carson didn't get the word. They have about 3,500 acres of corn they think will produce about 150 bushels an acre this year and another 1,200 acres of wheat that should make 50 bushels or better, then much of the wheat land will be double cropped with milo after the wheat is harvested."

Walton is one third partner in the company; Hanahan is with Midwest Management Company which supervises the land and cattle.

Some of the land purchased by the company was previously under irrigation. By leveling the hills, drilling 56 wells and establishing Circle irrigation, the company has since last year developed some 3,200 acres never before planted in row crops.

Twenty-five to 70 tons of manure from adjoining feedlots were applied to each acre of leveled ground.

"To put the bacteria and the humus back in the ground" Carson explained, "Manure is the quickest way. Commercial fertilizer just won't put it back."

Carson stressed the fact that Circle irrigation cannot be used in much of the Southwest because of the massive quantity of water required. Most of the wells operated by Midwest Land and Cattle Company are less than 100 feet in depth. The sandy soil causes the water table to be recharged quickly.

Company has a 6 1/2 million dollar investment in the Kinsley property.

Walton estimated that just planting the crop costs one million dollars.

The Kansas City Star concluded: "Walton admitted that his primary interest in the development is the cattle operations."

"But Carson is the farmer of the group and he retains the farmer's desire to make land produce more and the feeling for the land."

It's an awesome responsibility to stand and look at a piece of land and know that whatever you say will be done" said Carson. "You know the land will never, ever in history be the same again."

Carson is the son of Mr. and Mrs. Raymon Carson of Olton. He and his wife, the former Ruth Stansell of the Olton-Springlake Community, have three children, Cynthia, Clay and Ray.

## Highway Patrol Investigates 10 Rural Wrecks

The Texas Highway Patrol investigated 10 accidents on rural highways in Lamb County during the month of June, 1975, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in two persons killed and four persons injured.

The rural traffic accident summary for this county during the first six months of 1975 shows a total of 55 accidents resulting in three persons killed and 29 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for June, shows a total of 572 accidents resulting in 25 persons killed and 355 persons injured as compared to June, 1974, with 466 accidents resulting in 19 persons killed and 261 persons injured. This was 106 more accidents, six more killed, and 94 more injured in 1975 at the same period of time.

The 25 traffic deaths for the month of June 1975, occurred in the following counties: one each in Clay, Floyd, Garza, Wichita, Young, Armstrong, Childress, Collingsworth, Donley, Hardean, Randall, and Roberts; two each in Carson, Cochran, and Lamb; and seven in Lubbock.

A GOOD SIGN  
People who complain of a constant ringing in their ears may be displaying one sign of a hearing loss, and should have a hearing test.

TOPS Club No. 102 met Tuesday night in the dining room of Medical Arts Hosp.

The meeting opened with the reading of the minutes, and there were 13 members present.

Each member answered roll call by saying gain or loss.

Plans are being made for a salad supper July 29, to honor the 6 months queens with awards.

The weekly queen was Rose Zybura with a 2 lb. loss and runner-up was Phyllis Owen with a 1 lb. loss.

Secret pal gifts and cards were exchanged and the meeting was adjourned with reciting the pledge in unison.

A going-away party was given for Zoy Risinger, a member of TOPS Club. She is going to Knox City to resume her teaching job. She was formerly a teacher at the Bula school.

She was given a robe and gown set by members of the club. Cake and punch were served to the honoree, and the members, who were Mildred Smiley, Rose Zybura, Jenice Pollard, Juanita White, Trudy Bryant, Norman Holtcamp, Romona Kilby, Phyllis Owens, Lola Wasson and Audrey Long.

## Light Into Child Abuse By Extension Agent

It would feel to be abused by an angry person something you didn't understand? Dorothy Powell, County Extension Agent, pointed out every day hundreds of children are abused by guardians who are unaware of the seriousness of the situation.

Of the reported cases of child abuse, 30 percent of children under 3 years of age, who are unable to communicate for themselves, she said. Abuse happens in all levels and cultural backgrounds in our society. Usually the parent passively allows the child to be abused. If a child is abused, he may be again. Battering, scolding, hitting, kicking, biting, and shaking a child are some of the physical abuses that cause serious injury or death, she explained.

Parents can also abuse a child by failing to provide love and affection, or by restricting the child's experiences outside the home. And it's difficult for a parent who has sustained child abuse as a child to become a good parent once he's grown, she noted.

Incidences of abuse often occur during a time of crisis when parents are under a great deal of stress.

If the parent is unable to talk about or deal effectively with his emotions, the child may become the scapegoat. Although the incident is often short lived, the damage is permanent.

Abuse also happens when parents hold unrealistic expectations for the child. Harsh punishment becomes the way they teach the child to behave in a desired manner, even if he is too immature to act as expected. And in some situations, an immature and inexperienced mother may injure the child because he can't provide the affection she seeks, Mrs. Powell said.

### A GRADUAL LOSS

Because most hearing losses appear gradually, the victims frequently are not aware of their problem until it has become acute. This awareness can even continue until the individual is no longer able to function adequately on-the-job or is encountering serious problems in social situations.

## Play It Safe In Water

By DOROTHY POWELL  
County Extension Agent  
Water play is fun and educational for children—but only when they learn to "play it safe."

Adults must closely supervise water play activities. Water that is two-three inches deep is just as dangerous to very young children as water two-three feet deep.

When children congregate in the backyard to swim in washtubs, play with the water hose or swim in the pool, be conscious of water safety.

Wading pools or larger pools should be fenced. Insist that flotation belts or life jackets be used by all children. If a neighbor's child fusses about safety precautions, insist that he get out of the water—tell him it's a rule in the pool.

Families with larger swimming pools need to remember to check underwater lights. Improper installation of lights can shock swimmers. Rules about running on concrete with wet feet should be enforced.

Children learn much from water play—physical coordination of legs and arms, about textures, and liquids, buoyancy,

temperature changes, and concepts of up and down, in and out, forwards and backwards. If a child is gradually introduced to water play, he is less likely to fear water. Being forced may cause fear or withdrawal.

TEXAS CATTLE INDUSTRY LEADER Robert M. Carter (left), cattle feeder Plainview, who was in Chicago to review current Beef Industry Council advertising with Meat Board President David H. Stroud, took the opportunity to present the stallment of the Texas Cattle Feeders Assn.'s 1975 \$250,000 commitment to the Meat Board. This is the third year that TCF has made such an investment and Carter, president, noted that there "has never been a greater need for programs of national promotion and education as conducted by the Meat Board's Beef Industry Council investment expresses our confidence in these programs." **Horse Show Included In Fair**

An open horse show will help launch the 58th annual Panhandle South Plains Fair in Lubbock this fall.

The open horse show, to be judged by Laddie G. Andahazy of Novelty, Ohio, is scheduled for Sept. 20, opening day of the eight-day run.

Fees include \$4 for junior classes, \$5 for adults and open and \$8 for championship classes. Supt. Doyle Warren will be assisted by Alan Fires and Nancy Ewalt. Bobbie Green will be the show secretary.

Special awards will be given each class winner and all winners in places one through six will be awarded rosettes. Classes include:

Hunt Seat equitation (adults), saddle seat equitation (14-17), saddle seat equitation (novice), hunt seat equitation (14-17), open native costume (Arabian, Indian, Mexican or Spanish), stock seat equitation (13 and under), stock seat equitation (14-17), stock seat equitation (adult), open western riding, western pleasure (13 and under), western pleasure (14-17), western pleasure (adult), English pleasure horse (saddle seat open), saddle seat equitation (13 and under), hunt seat equitation (13 and under), open park horse, pleasure pairs, hunter under saddle, half-Arabian pleasure (championship), purebred Arabian English pleasure (championship), English pleasure horse (open Hunt seat), saddle seat equitation (championship), and hunt seat equitation (championship).

A vaulting exhibition by the Midland 4-H vaulting team also is planned during the show. Other classes are novice over fences, pre-green hunter, horsemanship over fences (13 and under), horsemanship over fences (14-17), horsemanship over fences (adult), handy hunter (open), open working hunter, junior jumpers (17 and under), open jumpers and high jump (open).

The open horse show is the first of two horse events slated in the Fair Park Livestock Pavilion this fall.

An all-star lineup is the Fair Park Coliseum Charley Pride kicking activities on Sept. 20. Popular country and singer will be followed by Tillis and Gunilla H. Sept. 22-23; Lester F. Wiseman, Grandpa J. the Stoney Mountain will team up for a "Special" on Sept. 24-25.

Ronnie Milsap, the Music Association's vocalist of the year, will out the stand on Sept. 25.

Shows will be presented 5:30 p.m. and 8:30 p.m. Pride tickets are \$4, \$3, \$4 and \$5. Mail reservations now are being accepted by the fair association, Box 208, Lubbock, 79401.

Several new events, an all-youth rodeo, open bull riding and an open-pony cutting horse have been added to the slate.

**Harvest Vegetables On Time To Provide Best Nutrition**

After putting a lot of hard work into that vegetable garden, it's important to harvest crops at the proper time, points out Jim Kuykendall, assistant county agent with the Texas Agricultural Extension Service.

as they will mature over a period of time, explains Kuykendall. Certain crops such as okra, squash, tomatoes, beans and cucumbers can be harvested every two or three days.

Produce that is picked too soon can be either too tough or too tender and often lacks in flavor or substance. That which is harvested too late may also be tough, fibrous or squasy, depending on the crop. Once produce passes its peak of maturity, its flavor begins to decline.

Many vegetable crops should be harvested on a regular basis as they will mature over a period of time, explains Kuykendall. Certain crops such as okra, squash, tomatoes, beans and cucumbers can be harvested every two or three days.

Most vegetables can be easily picked or snapped off the stalk or vine. However, care should be used not to damage the plants. It may be best to use a knife when harvesting certain crops such as okra and eggplants. Also, use care to avoid stepping on vines or breaking stems when harvesting vegetables.

Kuykendall advises harvesting vegetable crops when

**Irish Potato Harvesting Hints Give**

Gardeners growing Irish potatoes for the first time may be concerned about when to harvest their crop.

According to Jim Kuykendall, assistant county agent for the Texas Agricultural Extension Service, potatoes can be dug any time they are of sufficient size, and the crop can be considered mature once the stalks begin to turn brown and die.

Waiting until the crop is mature assures top yields and increases the storage quality of potatoes, points out Kuykendall. Most potatoes should be ready to dig in 90 to 120 days following planting.

Cutting the stalks several days prior to harvest will help "set" the skin on the potatoes and cause less skinning at harvest. It will also increase the storage life of the tubers.

Freshly-dug potatoes should be kept in a warm, moist place for several days to allow cuts and skinned area to heal. This will improve their storage life. Potatoes should then be stored in a cool, dark location.

Abnormalities in the shapes of potatoes are caused mainly by changes in soil moisture, explains Kuykendall. This is especially apparent in years where rainfall varies considerably. A sudden increase in soil moisture can cause growth cracks, second growth and rough, knobby potatoes.

Heavy rainfall as has been experienced in some local areas this spring causes potatoes to have enlarged lenticels resulting in small warts on the surface. This calls for care to avoid skinning bruising the tubers, Kuykendall.

In most sections of Texas potatoes can be planted as late as the second or third week in May from the spring crop saved for "seed," Kuykendall recommends planting new seed as possible to avoid carrying any disease problems. proper storage of the potatoes over the long summer may be difficult

**Cub Scout Packs Earning Awards**

Cub Scout fun and adventure continue through the summer in most Cub Scout packs in this area, and they will earn the National Summertime Pack Award for their pack trips, picnics, and other outings.

Each Cub Scout pack encourages its family-centered program by planning special summer activities around a monthly theme such as Flags of America, Cub Scout Chefs, and County Fair.

A Cub Scout in a pack that has earned the summertime pack award now also may be recognized with his own distinctive, gold-toned metal pin

**Border Town Tickets Available**

Combination tickets for the 1975 edition of Border Town Days, July 24-25, are available in Farwell and Texico, N.M. from members of civic clubs in both cities.

Tickets will cover admission to three performances of the APRA-sanctioned rodeo barbecue. Prices are adults and \$3.50 for children. Single admission tickets are \$2 for adults and children, and barbecue are \$2 for adults and children.

# Pair Take Tourney

Lou Hardy and Jerry Payne of Lamesa fired a 76 Wednesday to cop top honors in the Littlefield Ladies' Summer Partnership golf tourney.

The Tullia pair were tied with Jo Hickman and Karen Hayden, but were named champions on a sudden-death comparison of first round scores. Alone in third was the team of Bettie Strom' bough and Bea Duke with 79. Zelma Hall and Natalie Un' fred of Abernathy won the first flight. They beat Bobbie Dalluge and Majorie Norcutt, who also carded an 83, by the tie-breaker. Third place went to Sue Ward-Lottie Melton of Tullia with an 89.

Rosie Wallace and Blackie Reynolds collaborated for an 89 to win the second flight. Tina Wicker-Nita Short grabbed second, and Joe Knight-Maxine Blackmore were third.

Winners of the third flight with a 90 were Co Merrifield and Lucy Davidson of Hillcrest in Lubbock. Neva Hickey-Delores Baldrige took runner-up honors, and Frances Chamberlain-Sharon Heard won third with a 96.

Forty teams in all participated in the tourney. Lunch was served by the men at the Country Club and door prizes were contributed by some 40 local stores and businesses.

## Matthews Saves Win For West

Randy Healy held the opposition to just four hits, slugged a single offensively, and score both Littlefield runs. Lynn Timian slashed a double, and Eddie Gregory added a single. In a first round game, Littlefield had drubbed Inter-city 8-0.

**GET PROPER TREATMENT**  
Ear aches and severe headaches, if allowed to continue untreated, may result in hearing loss.

Marvin Matthews, who for four years has been coming through for Spade in tough situations, calmly sank two free throws in the last nine seconds Thursday to insure the West All-stars a 95-94 win over the East. The victory came in an exhibition game in Brownwood played before the annual coaching clinic there.

## 13-year Olds Finish Third

The Littlefield 13-year old Babe Ruth All-stars finished third in the district tournament last week. After winning their first game over Olton, the locals fell to Plainview 13-3 Wednesday and lost against Muleshoe 19-14 Friday.

Ruben Torres pitched against Plainview and Brady Bradley was on the mound against Muleshoe. The tournament was played in Olton.

Plainview broke a 3-3 tie after three innings with five runs in the fourth, then added five more in the fifth for a 13-3 lead. The game was called before the sixth inning because of the 10-run rule.

Muleshoe exploded in the first three innings for 14 runs and Littlefield could never cut the big lead. Six runs in the fifth inning trimmed the score to 14-12, but Muleshoe notched four in the sixth to ice the win.

**HEARING LOSSES**  
Even though hearing loss victims are suffering from a very real physical disability, they seldom are shown the concern extended to individuals with other types of handicaps.

THE TEAM OF Lou Hardy-Jerry Payne (left) won the championship flight of the Littlefield Ladies' Summer Partnership golf tourney Wednesday. Going left, the winners of the first flight were Natalie Unfred and Zelma

Hall; the second flight crown went to Rosie Wallace and Blackie Reynolds; and Lucy Davidson and Co Merrifield won the third flight.

## Babe Ruth Team Falts In Tourney

The Littlefield Babe Ruth All-star squad suffered twin setbacks last week in the district tourney in Dimmitt and were

eliminated from further post-season play. Plainview unleashed an awesome offensive attack

Tuesday night and stunned the locals 17-0. Littlefield managed only four hits in that outing, a double and single by Jimmy Avery and singles by Jeff Birkelbach and Scott Bearden. Plainview sewed up the win with five scores in the second inning and eight more in the third. Greg Jacobs was the winning hurler.

Wednesday, Muleshoe got even for the 11-10 loss given them earlier by Littlefield and won 8-1. A four-run outburst in the second inning lifted them to the victory.

Avery joined Scott Goen in the batting circle with two singles. Junior Sierra took the loss.

Is there any way I can put the accumulated money in my present employer's retirement plan into IRA if I change jobs?  
One of the advantages of IRA is in changing employers you may take the money in your present employer's retirement plan and reinvest it within 60 days in an Individual Retirement Account . . . thus avoiding the tax on the distribution from your former employer. If you do not put in more assets in your IRA, you can later transfer those funds to a future employer's retirement plan tax free. Investment alternatives include plans by insurance companies using retirement income life insurance and deferred annual premium annuities. Banks, savings and loans, stock and brokerage houses also have vehicles which may be used for the individual retirement account.

## Plainview Edges Littlefield

Plainview National picked up the bottom of the fifth Tuesday to win over Littlefield in the Little League district tournament.

The Littlefield All-stars scored their runs in the first and third inning to take a 2-0 lead. But Plainview, the host team, notched one in the third and then won it in the fifth on Murray Burkhardt's double and Greg Blankenship's single.

Randy Healy held the opposition to just four hits, slugged a single offensively, and score both Littlefield runs. Lynn Timian slashed a double, and Eddie Gregory added a single. In a first round game, Littlefield had drubbed Inter-city 8-0.
