Interest Rises On ElectriCar

Announcement of plans to build the ElectriCar in Littlefield brought immediate inquiries and interest from many points late this week. L. (Cotton) Whatley of Amarillo, president of EMV ElectriCar, told the Leader-News his telephone "rang off the hook" after the announcement. He said people from throughout the county were expressing interest in investing in the project.

In Littlefield, the ElectriCar was the almost constant subject of conversation for the past three days. The Leader-News had many calls for copies of its "extra," published Tuesday. Publisher Bill Turner said the response was anticipated and the paper has a supply of copies on hand. The next four or five months will see building of a second prototype model in Amarillo, but sometime around the end of the year, EMV plans to begin

A bus has been chartered by the Chamber of Commerce for a trip to Palo Alto Canyon and the fourth season of "TEXAS". Persons wishing to board the bus at 5:30 p.m. in front of City Hall Friday, July 25, should make reservations at the C-C office by Monday, July 21. Total cost for adults will be \$10, which includes bus fare, reserved seat, the barbecue meal, and the show.

Lamb County Coin Club Active, Well Attended

The Lamb County Coin Club is one of the most active of its kind in Texas. Thirty-five is the average attendance at its meeting out of 43 dues paying members. "Ours is one of the best attended clubs in the area," president Larry Sanderson said. "Members come from Levelland, Muleshoe, Sudan, Earth, Groesbeck and Clovis, N. M." The Lamb County Coin Club is a member of the American Numismatic Association and the Texas Numismatic Association. One member, D. O. Joplin of Levelland, is a district governor on the national board. Another member, Bob Medler of Groesbeck, is considered "the authority" on Texas currency, and displayed his own currency in one of the largest numismatic shows in New York for a year. In addition, Medler has had a book published on the subject. Senior memberships are included in the Lamb County Coin Club. Members' ages range from 16 to 70, Sanderson said. Members include collectors of token coins, paper money and stamp collectors.

building up to 25 test models at some temporary location in Littlefield. Expected soon is an announcement from Littlefield Industrial Corporation on its plans to raise \$100,000 for initial capital. Long-range plans call for the construction of a manufacturing plant here, on land already under option to the Littlefield corporation.

JOINS CHAMBER OF COMMERCE

Janitor Wants To Do His Share For City

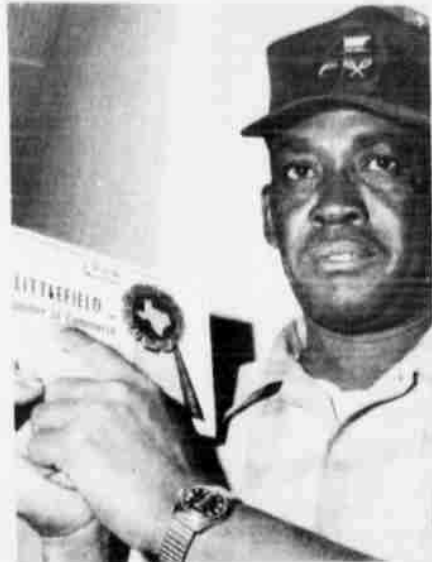

Johnny Behman "just wants to do his part for Littlefield." So he paid his Chamber of Commerce dues this week, and became the first Negro C-C member. "Ernest Connell told me, 'some of those people in the Flats may criticize you,'" Behman said. "But he said for me to just get on in there and do my part. 'They told me to come to the (Chamber) meetings, and that if I had anything to say, they'd listen.'" Johnny smiled a big smile that revealed some lower missing teeth. "I've been thinking about some of those empty buildings," Johnny said, "so I just paid my \$3 for this month. I think it might help."

Johnny has lived in Littlefield 17 years and intends to stay here, he said. "I think that Chamber of Commerce might be a good thing." Behman has held a number of jobs, often at the same time, since coming to Littlefield from Temple in 1952. A typical day finds him doing a number of things. He does janitor work for the ASCS office, A&B Office Supply and Winston Insurance Agency. There have been days when he shined shoes a part of a day, washed display windows somewhere else, swept up and carried out the trash at another business, and finished out the day doing yard work, working at a service station, or

Children under 12 pay only \$7.73 for the same. The bus will be taken if a minimum of 33 make reservations. A maximum of 41 persons may ride the bus. "TEXAS" is the story of the settling of the area beginning back in the 1880's. Using a cast of 68 persons, "TEXAS" is a drama, intertwined with native folk songs and dances going back to the Panhandle country in its early settlement.

More than 400 registered at the spring coin show sponsored by the Lamb County Club. "And a number came in the back door, too, and didn't register," Sanderson said. Twenty exhibits and hourly door prizes drew the large crowd. With such a success behind them, club members are planning their first fall show for Nov. 9. Door prizes are given away at each monthly meeting. Silver dollars and uncirculated mint sets prove a good drawing card. A program illustrated with slides is usually presented. "Plus an auction," Sanderson said. "That way we can buy what we need, or sell or surpluses," the president said.

Officers for the club are Sanderson, president; Charles Barrett, vice president; Hazel Sharp, secretary; and Gayle Mills, treasurer. The club meets every fourth Tuesday, usually in the Public Service Reddy Room. Club members invite everyone interested in any phase of numismatics to meet with them.

JOHNNY BEHMAN

washing dishes "for Mr. Fly or Mrs. Fisher." When asked how many hours a day he works, he shook his head and said, "I can't call it." He doesn't count hours, but just keeps at it until he gets his work done. Then he has fun on weekends. "I like to go out of town," he smiled slyly, "to dances and things like that." Johnny's never been married. He makes his home here in Littlefield with his sister. He has been a member of the Irvin Street Baptist Church for 12 years and serves on the board of ushers.

Lamb 4-H Boy Is State President

John Pitts, 17-year-old son of Mr. and Mrs. Kirk Pitts of Pleasant Valley, took top honors Friday in Houston when he was elected president of the Texas 4-H Club during the State 4-H Council Workshop.

The Lamb County 4-H'er will represent 100,000 4-H Club members in Texas as their president next year—one of the largest enrollments in the U. S.

"John has been active in leadership work during his nine years of 4-H activity," said County Agent Buddy Logsdon. "He is presently serving as president of District II 4-H Council, which includes a 20-county area on the South Plains", Logsdon continued.

Some of the 4-H projects John has completed include swine, beef, electrical and farm and ranch management.

"He recently won a trip to Liberty, Mo., to attend the Farm Land Industries Leadership Camp, and that's where he is right now," Logsdon said.

The leadership camp began Monday and closed Friday.

John will take office Jan. 1, 1970 and a busy agenda is anticipated. Among some of the things he will do, besides attending Texas Tech, will include a lot of traveling and speaking in behalf of Texas 4-H'ers. He will sign a proclamation with Governor Smith declaring the date for National 4-H Week in Texas.

He will attend the State Fair Honor Awards Banquet in October, when the State 4-H Dress Review is held.

John isn't the only one in his family who is recognized as outstanding in 4-H. His father, Kirk Pitts, received honors June 5, at the State 4-H Roundup conducted at Texas A&M, as outstanding leader in District II.

His sister, Lyna, attended the National 4-H Congress in Chicago around Thanksgiving last year, won the state dress review last year, and has won many honors in 4-H.

John is a May graduate of Muleshoe High School.

C-C Yard Of Month Honor To Shotwells

Dr. and Mrs. I. T. Shotwell's yard has been proclaimed Littlefield's very first Chamber of Commerce "Yard of the Month" winner.

Anonymous judges from "We, The Women" chose the block long Shotwell property at 217 E. 12th after looking at landscapes all over town.

Chamber executives Jim and Beth Kelly, Pat Downs and president of "We, The Women," Mrs. Betty Kehoe made the presentation Thursday afternoon.

The four and one-half foot ribbon-shaped white sign with red and blue lettering will adorn the Shotwell yard throughout the month of July.

Mayor J. E. Chisholm sent a white azalea plant and the Chamber manager read the judge's statement.

"We chose this yard for its overall effect of a spacious, well-kept lawn, appropriate foundation planning with well-spaced flower beds, and artistic curving driveway, all framed by beautiful trees in the background."

The 300 feet of landscaping is a city block long and one-half block deep, "and needs some yard work done almost every day."

A bed of white petunias, daisies and white roses outline foundation plantings of pale green euonymus shrubs on the south side of the white painted brick and brown tiled roof of the Shotwell home.

Day lilies, iris and chrysanthemums near the street on the east provides color from early spring through fall.

The alley on the north side is screened with a row of blue spruce with live oak and red oak in the foreground.

400 RELEASED

Homing Pigeon Race Starting Point Here

A Baytown boy realized a life-long dream the other day, and it all started in Littlefield.

Four hundred homing pigeons were released at 7:05 last Saturday morning from a point right here in Littlefield.

This was the starting point of the 500 mile race that won 17-year-old David Hanson of Baytown, fame and acclaim. His Grooter pigeon was the first to fly

500 miles to its home in Baytown in a day.

The bird landed at 423 North Burnett in Baytown, way down on the coast, 12 1/2 hours after it was released in Littlefield. This is an average of 42 miles per hour.

This first place winner was followed one minute later by a pigeon owned and flown by Jim Nelson.

No other Baytown birds finished the 500 miles in a day.

"We have been trying for about 15 years to get a bird home in a day from 500 miles away," said R. R. Zierlein, president of the Baytown club. "David's was the first to do it."

The Grooter pigeon was raised by the 17-year-old Hanson boy. He has been raising and training pigeons about two years. His flock has grown to 40 pigeons which he keeps in two lofts behind his home.

The race from Littlefield is one of nine races the Baytown club will participate in this year. The races range in distances from 100 to 500 miles.

The 400 birds released in Littlefield were brought here in a trailer. The pigeons are owned by pigeon fanciers all along the coast. Thirty-seven of the birds were from Baytown, Houston, Pasadena, LaPorte and Texas City were other coastal towns represented.

G&C Auto Break-In

City police were making their rounds Thursday night and discovered a side door on the G & C Auto building had been pried open.

They went inside and thought they could hear someone on the roof, so a fire truck with a ladder was summoned to the scene.

No one was found on the roof or on the premises, and \$79 had been taken from the cash register.

NEW OFFICERS for the Lamb County Coin Club were installed last Tuesday night. Left to right are Gayle Mills, treasurer, Charles Barrett, vice president, Hazel Sharp, secretary, and Larry Sanderson, president.

C-C APPLIES FOR MARKER

The Chamber of Commerce Board of Directors unanimously approved a motion made that application be sent to the Texas Historical Survey Committee at Austin for a historical marker to be placed on the replica of the "Tallest Windmill in the World," which was erected recently at the north end of XIT Drive near the Santa Fe depot. The \$130 required for the marker, must be sent with the application and the Chamber is now receiving contributions from individuals who wish to help bear cost of the marker.

MEAT-COOKING TIP
Turn meat you are cooking with tongs instead of a fork. A fork punctures the meat, letting juices escape. Tongs make for easier handling and better meat.

KEEP HOSE IN PLACE
Take the wickets from an old croquet set and use them to route the garden hose. This keeps the hose where you want it, preventing it from dragging over flowers and shrubs.

What The Leader-News Thinks

The Pitts Family

Another member of a hard-working Lamb County family is recognized on the front page of today's paper.

John Pitts, 17-year-old son of

Mr. and Mrs. Kirk Pitts of Pleasant Valley, has been elected president of the Texas 4-H.

It's a signal honor for the youngster, and a feather in the cap for Lamb County and the County Extension Service.

John is not the only member of the family to win state honors in 4-H work.

His older sister, Lyna, was winner of the state 4-H Dress Revue last year and represented Texas at the National 4-H Congress held in Chicago.

The Kirk Pitts have been devoting themselves to 4-H work for many years in this county.

Only a few weeks ago, the father was named one of 12 persons from throughout the state to receive recognition for outstanding 4-H leadership work.

All of Lamb County is proud of the Pitts.

Our Best Wishes

If a thing is to be done right, every effort must be bent in that direction.

That truism has been shown this week as members of the First Baptist Church prepared for their Dedication Service and 55th Anniversary observance today.

We were amazed at the zeal shown by everyone connected with the project, and if success is measured by amount of effort, today's observance should be a highly successful one.

A full program planned for the event should result in not only a new dedication to goals of the church, but also in a reunion of many friends and former pastors.

We join with others in wishing the Church, its members and staff the heartiest congratulations.

One man said his wife was a magician because she can turn anything into an argument.

Definition

By LIBBY MUGGETT

NOT TOO LONG ago in this column I asked among several other questions, if anyone could tell me in 50 words or less what a communist was, not really expecting any answers.

But answers I got. All definitions sounded reasonable at first, but upon examination were enough to make the thinking person a capitalist quick.

A VERY NICE lady sent a clipping from a Scottish Rite Bulletin that contained the definition that sounds the most harmless at first and the worst upon reflection.

"From each according to his ability; to each according to his need."

Sort of like a Boy Scout slogan or something, isn't it? You know, "All for one and one for all" and that sort of thing.

NOW I SHOULD be the first to be for that principle for one very important reason: I have no ability, many needs and even more wants. I'm also inept and a big slacker.

So the thing for people of my calibre to do would be to plump for that little principle just quoted, a la the labor unions. The energetic, talented, and trustworthy workman gets no more than the lazy, punk and undependable one.

RIGHT AWAY, though, you can see the fallibility of that, if you happen to be one of the energetic, talented and trustworthy workers.

If the fellow that works side by side with you is among the goldbricks of this world and yet gets the same pay as you do, he is getting by on YOUR ability, with

Student: The dead one.

Recently a woman's car stalled at a bad intersection. She tried the starter again and again but still couldn't start it. The driver in the car behind kept honking and honking his car horn. Finally, disgusted and dejected, she got out and walked back to him. "I can't get my car started," she said. "If you would like to try to start it, I'll stay in your car and honk your horn for you!"

HE WAS A GOOD repairman, never failing to diagnose and operate correctly. If he made a mess, he cleaned it up himself. Furthermore, he guaranteed his work and stuck to the bargain.

Now don't stand there with your teeth in your mouth and tell me that all three of these gentlemen deserved the same pay.

Guess which one of the three now has his own thriving business and can all but name his own price?

Shotwell residence. An enclosed, private patio off the master bedroom is a favorite eating spot of Dr. and Mrs. Shotwell. Deep green English ivy climbs the brick fence, that gives the patio its spacious privacy, then cascades down the other side. A fountain, statue and wrought iron furniture furnishes a picturesque setting for entertaining or relaxing.

A second patio for the children is paved and has a sink and barbecue. A half bath off the tool shed is conveniently located and prevents tracking up the house when the children have guests.

"These are I. T.'s favorite," Mrs. Shotwell said, pointing to the large crepe myrtles on the west side of the house.

Nandinas are the foundation plants on the west side, "to provide color in the winter." These are edged in white roses.

Forsythia, red buds and blue spruce frame the west end of the property; with iris and chrysanthemums bordering the drive.

Police Investigate

Thursday, Billie North reported a transistor radio had been taken from her car Tuesday while it was parked at the Travel Center Cafe. A windbreaker and sunglasses had been taken from her car at the same place a week before.

G. W. Collier reported to police Thursday that someone had broken the radio aerial from his Chevrolet while it was parked.

THE PHILOSOPHER

Traffic Problem

(Editor's note: The Sandhills Philosopher on his Johnson grass farm attacks the traffic problem this week, but we're not sure he wins.)

Dear editor:

Five cars drove past my mail box on the road near this Johnson grass farm yesterday morning in a span of two minutes and I walked down to see what was causing all the heavy traffic and while I didn't find out, any more than I've ever been able to figure out where all the cars are going bumper to bumper seven days a week on a regular highway, I did find a newspaper some passenger had thrown out.

In it I found an article that reported that a big bridge built four years ago to allow traffic to go around Manhattan—which certainly is a good idea, I've never seen a city yet I hadn't rather go around than through—last year handled 29 million cars, trucks and buses. Faced with such a mess of cars, the city decided to solve the problem by adding a second deck.

The second deck will now enable the bridge to carry 48 million cars a year, after which, when that proves inadequate, I don't know what they'll do.

It is hard for me to imagine 48 million cars passing by one spot every year—can you imagine that many going past the Leader-News office?—and the problem is increased when you realize half are going in one direction, half in the other. If they were all going in the same direction, you could maybe hope to see the end of the procession some day, but like it is, they aren't getting anywhere. The thing could go on forever. Every time you add another deck, you invite another 29 million cars.

I have a theory on solving this. What we ought to do is to stop trying to keep a highway or bridge from becoming obsolete. Like it is now, one end of a new highway is obsolete before the other end is finished, and this drives people to widen or double-deck the first

Bug Problem

"There's not too much to be worried about in our immediate area," said Lamb County Agricultural Agent Buddy Logsdon, when approached about the greenbug situation.

He made a survey Friday morning in scattered spots near Fieldton and Hart Camp, where they were relatively untouched by hail in recent storms, and "DID find a few greenbugs showing up on the bottom two leaves of grain sorghum."

School Scheduled For Cheerleaders

A cheerleading school for girls ranging in age 9-16 will be held August 11-16, according to Mrs. Marti Toulimin, advisor.

Instruction will be by Littlefield High School cheerleaders Diane Maner, Dianne Perkins, Jan Christian, Kay Armstead, Cyd McKinnon and Carol Chisholm.

Instruction will include yells, routines, stunts and tumbling, which they themselves will learn this week at the annual Texas Tech school.

Sessions will be held each morning from 8 to 11:30.

There will be competition for awards for all individuals at the end of the school, and also a spirit award for the girl who displays the most spirit during the camp.

An entry fee of \$5 per person will be charged. Registration blanks are available from the instructors and advisor, and must be turned in no later than July 31.

SOME LIBERAL MEMBERS OF CONGRESS HAVE AIDED AND ABETTED THEIR CAUSE.

Some Americans, frustrated by the dead-end war in Vietnam, have been willing to renounce anything military.

With most explanations for our continuing intervention in Vietnam tenuous, to say the least, it has been easy for some Americans to accept the idea that we persist in fighting wars because the Pentagon is in cahoots with rich industrialists who want to produce an endless stream of military hardware for purely mercenary reasons.

IF THIS IS NOT perfectly clear to you, I'll come into Littlefield and explain it further if you'll get somebody to fill up a chughole in the road going by my house. Actually it's too narrow too for safe driving.

Yours faithfully, J. A.

THE ABUNDANT LIFE

The Challenge

By BOB WEAR

THERE ARE MANY CHALLENGES in our world today, but most of them, perhaps all of them, can be put together in the one big challenge to save the structure of the good life.

This must become the daily concern of us all.

FROM THE TIME our "way of life" began, until this day, there have been a sufficient number of concerned people to support and protect it. If this had not been true, the best way ever known to man would not have survived.

We must never lose our deep, sincere feeling of appreciation for the America which has given so much to so many. In all of history, there has never been anything like it. We must do everything we can to help it live on forever.

LONGFELLOW said it very well, "Thou, too, sail on, O Ship of State! Sail on, O Union, strong and great!"

Humanity with all its fears, with all its hopes of future years, is hanging breathless on thy fate!"

THERE HAVE ALWAYS BEEN persons who said that a nation so conceived and so structured could not long survive.

Now, there are many (no one seems to know how many) people who have dedicated themselves to the unbelievable task of destroying this nation.

Of course, there have been some of these people in each generation.

They are generally malcontents and misguided persons, but they must not be ignored.

THE CONCEPT KNOWN AS AMERICA is neither self-sustaining nor self-supporting.

In addition to the persons who have sworn to destroy America, there is the enormous dead weight of the people who accept all of the blessings, but refuse or neglect the attending obligations.

THERE ARE OTHER dangerous

PAUL HARVEY

A Friendly Goblin

AVOWED ENEMIES of our American institutions are always seeking to discredit them with raving or ridicule or by innendo.

Recently they have dug their teeth into the trousers of the so-called "military-industrial complex."

SOME LIBERAL MEMBERS OF CONGRESS HAVE AIDED AND ABETTED THEIR CAUSE.

Some Americans, frustrated by the dead-end war in Vietnam, have been willing to renounce anything military.

With most explanations for our continuing intervention in Vietnam tenuous, to say the least, it has been easy for some Americans to accept the idea that we persist in fighting wars because the Pentagon is in cahoots with rich industrialists who want to produce an endless stream of military hardware for purely mercenary reasons.

THUS THE "COMPLEX" which has thus far protected us from our enemies is itself denounced as an enemy.

Some critics jump to their own defense with: "Eisenhower said it...."

threats to the American "life"; such as for entanglements; over-spreading immorality; increasing lawlessness.

The challenge to speak work for America is becoming and more demanding.

The call for a revival in and service to the ideal principles of our national struggle is loud and clear.

We can meet the challenge we must answer the call.

EMERSON SAID, "America another name for opportunity whole history appears like effort of divine Providence behalf of the human race."

WE MUST OVERCOME INDIFFERENCE, defeatism lethargy. There is an urgent for knowledgeable, sensible and enthusiastic personal effort.

We must not permit insidious, alien forces to divide into hostile groups.

This means that we must let our normal differences overshadow our common interest or our mutual need.

WE MUST MAINTAIN confidence in our elected appointed leaders. This means we must fight against the efforts to make them objects of contempt and ridicule.

There may be a bad one now, but this must not be used as the excuse to condemn every

Most of these people dependable, and will be strong and more effective when encouraged and help them.

THERE IS NO NEED for radical or uniformed action, but there need, urgent need, for a well-informed, continuing active support of preservation of well-known elements of national structure.

THIS IS THE CHALLENGE our time. Let us, at least, be sure do our best to meet it.

Then they quote, out of context a remark by the late President in a farewell address in which he sought to caution Congress not to abandon its watchdog responsibility on military spending.

THE SENATE-HOUSE economy-in-government subcommittee is presently considering the President's request for another \$80 billion "defense."

That sounds like a lot of money when he asks only \$110 billion for all other government programs.

Yet the military share of a total budget is virtually unchanged over the past 10 years.

FURTHER, THE HOUSE Armed Services Committee staff has surveyed voting records during the past fiscal year and finds evidence of any relationship between the way a congressman voted and the defense complex of his district.

So any sinister alliance military and industry to perpetuate military spending is a hobgoblin created by persons either malicious or uninformed.

DEAN ACHESON, secretary of state under President Truman called the present assault on the "military-industrial complex" "witch hunt which could lead to dangerous weakening of our national defense."

"The cliché about military-industrial complex moreover, is invidious to a honorable profession. To portray such individuals, by innuendo, as schemers against the national interest is misleading and unjust, urge abandoning the foolish phrase once and for all."

THERE IS AN unmistakable wave of anti-militarism in the United States. It derives from high casualties, high taxes and low morale. Americans generally are suffering understandably from varying degrees of battle fatigue.

But about that, House Armed Services Committee Chairman Mendel Rivers (D.-S.C.) said this "If the United States is overcommitted in the world, and made a mistake by getting involved in Vietnam, it was because of decisions by civilians, not military men."

End quote and amen.

Journey To The Past

BY EVALYN PARROTT SCOTT

(EDITOR'S NOTE: This is the first part of two in a series on the Ben F. McNeese family, written by Rosemary Hall McNeese.)
By ROSEMARY McNEESE

Sometime in July 1924 Lewis Cass Kemp; his son, Elbert Kemp; grandson, Leonard McNeese and Dan Dye came from Travis County to Lamb County to fence half of a section of new land about five miles southwest of Littlefield. One labor of land was L. C. Kemp's and the other belonged to C. E. Kemp and his brother, Ross Kemp.

The trip took two days for traveling in a Model T Ford car. While here they camped in a barn that was on the Bagwell place, just south of the land they were fencing. Three miles of fence was put up in about one and a half weeks' time.

That fall the families moved to Lamb County, arriving Oct. 11, 1924. C. E. Kemp and family moved from the Dr. Will Weber place near Merrittown, Travis County. Ben F. McNeese from C. E. Kemp place at Duval, up the INGN Railroad from Austin. Harvey Lawson from old Round Rock, Williamson County.

L. C. Kemp came a year or two later to his place, joining his son and daughter. There had been trips to granddad's house back in Central Texas, when they lived 50 miles apart, that took two days. One long-remembered trip was in a covered wagon, out west of Austin, on Bear Creek, where they owned and lived in the old rambling Johnson Institute.

Ben F. McNeese came by train in a migrant car with two carloads of furniture, farm equipment and livestock. C. E. Kemp drove a Model T Ford car with wife, Minnie Townsend Kemp, and children, Rudolph, Ophia and J. B. Leonard McNeese drove a Model T Ford car with his mother, Ethel Bell Kemp McNeese; sister, Annie Pearl and brother, Roy. Harvey Lawson drove a Model T Ford car with wife, Novella McNeese Lawson.

A Mr. Hamilton had bought the half section of land joining the Kemp places on the south. McNeese moved to the west quarter and his son-in-law, Lawson, to the east quarter. Hamilton later traded the west labor to J. R. Jameson of Austin, who moved to Lubbock, owned and operated the Dr. Pepper Bottling Works for many years. The east labor was traded to Stermer.

The families spent their first night in Littlefield under the gin, where the present Byer Feed and Grain Store is located. The next morning, they went out to their land, following the section lines, sometimes cutting across the pasture land.

They camped on the open prairie until the barns were built. Water was hauled from ranch windmills while the well diggers were busy drilling water wells for each family. They lived in the barns while building the houses. Storm cellars were also dug.

Neighbors settling just to the south that same fall were Glen Young and wife, Pauline. To the west of them, Bill Weschke and wife, Lindy moved. The J. T. Roper family moved in west of C. E. Kemp.

The new sod land in 1925 gave great promise of abundant crops, but due to an early freeze, all was lost.

Next year—from the beginning it has always been next year—a good crop yielded a bale or

better to the acre. McNeeses had hand about 80 bales of cotton with about 100 remaining to harvest at Thanksgiving time morning at 9 a.m. the sand hit, blowing and way into the night. After this, the sand was blown off of the stalks and covered sand. A small amount of the cotton was up, using garden rakes, then run through threshing machine. But the sand could not be removed, so they plowed it under and for next year.

1927 was a good crop year and a new grandchild, Richard Lawson was born Dec. 1928, to Harvey and Novella Lawson. The Lawsons moved back to Round Rock, second son, James Milton, was born Apr. 1934. Novella died May 9, 1939, and buried in the Round Rock Cemetery.

Richard married Pauline Saloris in 1933. They have three children: Richard Lawson, born 1933; Barbara Jean Lawson, born 1935; and Rose Marie Lawson, born 1938.

He has made a career of the Armed Forces now living at Kirkland Air Force Base, Albuquerque, N. M.

Milton married Nelda Lester in 1955; they do not have any children. Their home is Pasadena, Texas.

Ben and Leonard McNeese helped put up north and west line fences for Yellowhorn Ranch. They worked poisoning prairie dog the Pep area. One day 30 rattlesnakes were killed and counted around the prairie towns.

New land was grubbed and cleared, mesquite, Leonard broke sod land for a custom breaking company, operating day and night worked from 12 noon until 12 midnight.

The mail was picked up in Littlefield whenever there was a chance to go. You stood in line and waited your turn.

One Sunday in 1925 when several of the neighbor boys were at the Yellowhorn Ranch Headquarters, Kay Kemp and Leonard McNeese started climbing the tall windmill. Kemp tumbled back about two thirds of the way up. McNeese reached the top. This "Granddaddy Long" windmill blew over during a big sandstorm.

Sometimes a herd of about 100 buffalo were at the ranch. Cowboys herded them day and night. When the buffalo decided to return the Roswell Ranch, the cowboys followed, there was no way of stopping nor turning the back.

In those days they hunted in Yellowhorn Ranch for ducks at Goat Dam and on smaller tanks. All of these places were covered with ducks for many years.

When Goat Dam Lake was about to go the game warden, "Happy" Jordan, gave permission to McNeese to remove the fish. He took the bass and McNeese and neighbors catfish and carp. A Model T Ford truck was loaded and brought to stock the big earth at McNeese's. This tank was surrounded willow trees, brought from the Colorado River near Austin. The Willows grew to be taller than the windmill.

First Baptist To Dedicate Remodeled Church At 3 PM

By JOELLA LOVVORN
 News Editor, Leader-News

First Baptist Church has just completed a \$100,000 remodeling project and members will dedicate the project and celebrate its Fifty-Fifth Anniversary in ceremonies today.

"The auditorium, chapel and parlor have all been completely remodeled and an elevator has been installed to service three floors, making all of the building accessible to all of the people," said Rev. R. B. Hall, pastor.

The sanctuary has been painted throughout, new tile has been installed on the main floor, accented with new blue carpet down the aisles to the front and rostrum. Pews will receive new velvet rose cushions, and a new public address system has been installed.

"We have made a beautiful chapel out

of a rectangular assembly room," said Rev. Hall. "A vestibule, bride's room and new classroom were created from the area nearby," he continued.

The chapel has wall to wall carpeting, new lighting which includes two crystal chandeliers, a new rostrum with a pulpit centered in front of a decorative white marble panel, and pews to seat 155 people.

A new Baldwin organ and matching Baldwin piano were donated for the chapel in memory of Roy L. Byers and members of his family.

The new parlor area was created from an assembly room and is highlighted with all new lounge furniture, dining table with credenza, antique gold chandelier, shag carpeting, and draped windows with shutters that will close.

The library and conference room was remodeled throughout. Carpeting, new

lighting, furniture and shelving were installed.

The main offices were completely remodeled, carpeted, painted, and new lighting was installed. The pastor's study and the music-education director's office received new carpeting, paneling and built-in shelving.

Entranceway to the chapel-parlor suite was carpeted.

Another area in the building, which was completely rearranged and remodeled, was the nursery. Rest rooms were moved, carpeting was added, new lighting, ceiling, built-in bookshelves and storage were added along with the new utility and service area which was built to aid the nursery staff in caring for needs of the babies.

"Downstairs, in our fellowship hall, we've completely repainted the building and have added a new stage curtain," said

Rev. Hall. The curtain is a cranberry red velvet-like material.

On the exterior of the building a new sign has been added constructed of cream-colored brick, similar to that of the church building.

Located in front of the building, the new sign has large bronze letters and will be accented with arcadia juniper in a planter box around the sign. Lighting will come from the ground up to the sign.

Other lights in front of the building will be placed on poles which will be stood in planter boxes.

"We are very proud of the accomplishment we have made with our project and we want to invite all former members of First Baptist Church and all our friends in the area to attend this Dedication Day and Fifty-Fifth Anniversary observance with us," Rev. Hall said.

First Baptist Church History

NOTE: The history of the church is written by Nilah ... of the First Baptist ... written by D. C. ... activities have ... important part in the ... Littlefield people since ... was first dedicated on ... 1913 ... denominations were ... by these living in

Littlefield 56 years ago, but for a long time all of these denominations met together in community services.

These first services were held in the little one-room school house, with all groups joining together for union Sunday School. Different ministers representing the different faiths preached sermons.

In 1914, Rev. J. M. Rankin, a Staked Plains Association missionary held services in Littlefield. Rev. Rankin found different faiths represented, among them five were Baptist.

Although few in number, these five saw a need for a church, and they had visions of others coming to join them. Missionary Rankin adds these in organizing.

Charter members were J. T. Hatchet, B. F. Smith, C. Warhurst, Miss Hazel Warhurst and Mrs. W. G. Street.

Rev. Rankin lived at Crosbyton, almost 70 miles from Littlefield, but once each month he traveled by buggy or on horseback to hold services in the newly organized Littlefield church.

All services of the church were held in the one-room

school building until the Presbyterians erected a church in 1917.

After several months Rev. G. I. Britin replaced Rankin as missionary. He preached less regularly, but whenever he could. Rev. Britin secured young ministers from Wayland College at Plainview to preach at different times.

The First Baptist Church continued in this manner until it grew enough to call a regular pastor.

Rev. O. L. Oldham preached in Littlefield in a meeting in July, 1919, but was not called to pastor the church until October, 1920. The church had 18 members when he came and grew to 60 members during the two and one-half years he pastored the church.

Since none of the denominations had many members, all the religious services were held in the Presbyterian Church by invitation until April, 1922, when the Baptists moved their place of worship to the auditorium in the new Littlefield Public School Building.

In the fall of 1922 the church secured a building site from the Littlefield Estate, and in January of 1923 a frame building, purchased from the

Mennonites, was moved to the site.

This building proved inadequate for the growth of the church even before it was destroyed by fire in the spring of 1925.

Following Oldham's resignation, S. L. Smith of Plainview served a few months. In November, 1924, Rev. W. B. Phipps was elected pastor, and membership grew rapidly under his leadership.

The first building was lost by fire in the spring of 1925.

The church immediately launched a building campaign under Rev. Phipps' direction and what is part of the present building was erected at a cost of \$48,000.

Rev. Phipps resigned in 1927 and Rev. Roy Kemp was called to replace him.

The First Baptist Church secured Rev. Joe Grizzle in 1929. Rev. Grizzle served six years during the Depression.

Rev. A. A. Brian served the church eight months following Rev. Grizzle, but resigned to accept mission work in another district.

Rev. Willis J. Ray was the next pastor. He began work to liquidate a debt of \$30,000. During the eight months he was pastor, this debt was reduced to \$8,000.

Rev. Roy Shahan came to the church from Rule after Rev. Ray resigned. Members of the church say they thought the church was ruined when pastor Shahan resigned to move to the Snyder church.

However the church soon found another outstanding leader. Rev. Lee Hemphill

came to Littlefield the first Sunday in February, 1943. Some of the most active years of the church were under Dr. Hemphill's leadership.

Dr. Hemphill left Littlefield in 1959.

Rev. Robert D. Longshore followed Dr. Hemphill and served as pastor from 1959 to 1966.

The present pastor, Rev. R. B. Hall Jr., preached his first sermon as pastor July 9, 1967.

AL JORDAN

Music-Education Minister Busy Man

Minister of music and education at First Baptist Church is Al Jordan, who has been with the church nearly two years.

He and his family came to Littlefield around the first of November, 1967, from Sherman, where Jordan was minister of music and education for East Sherman Baptist Church.

A native of Corsicana, Al is a graduate of Corsicana High

School, Navarro Junior College in Corsicana and East Texas Baptist College at Marshall with a Bachelor of Music degree.

He received his Master of Religious Education from Southwestern Baptist Theological Seminary at Fort Worth.

Al was married to Belinda Boughton while both were attending East Texas Baptist College.

Prior to coming to Littlefield, Jordan served several churches in their music and education programs.

Among them are Cherokee Park Baptist Church in Shreveport, La., as music director two years; Bel Air Baptist Church at Marshall, one year; Emmanuel Baptist Church in Shreveport, two years; Eastern Hills Baptist Church in Garland three years;

and East Sherman Baptist Church in Sherman.

Among the Baptist associational offices he held before coming to Littlefield were Training Union Director of the Grayson Baptist Association, and served on several associational committees as an officer.

Jordan is presently serving as music director for the Llanos Altos Baptist Association, the association in

which the Littlefield church is affiliated; is music advisor for the Littlefield Ministerial Alliance; and has directed several interdenominational programs in the city, such as the summertime hymn sing, the Christmas "Messiah" and the recent presentation by Littlefield youth, "Tell It Like It Is".

Jordan frequently directs music for revivals in the area.

THE PASTOR'S STUDY received extensive remodeling during the project. The office was carpeted, paneled, and bookcases were built into the walls. Rev. R. B. Hall glances up from a busy workday in the office.

Mrs. Molly Davis Is Charter Member Of Sunday School

Mrs. Molly Davis is a charter member of the First Baptist Sunday School organized 47 years ago.

Prior to this, Mrs. Davis and her late husband, Eddie M. Davis, and their children attended Union Sunday School and community services for all faiths conducted in the Presbyterian Church on XIT Drive west of the present Security State Bank.

When the Davis family came to Littlefield in 1921, there were hitching rails on the sod main street, more horses than cars, and very few people.

Businesses were far and few between, too. The post office was on Main in a little chug hole, and Roy Wade's uncle was post master.

Mrs. Davis said she remembers buying dry goods from a Mr. Brazil and at the Street and Street Mercantile. Two hotels and the schoolhouse completed the buildings.

Mrs. Davis, spry, perfectly groomed and gloved, is 91 years young and still attends Sunday School regularly.

"In Littlefield's early years the whole town would get together for ice cream suppers," Mrs. Davis said. "And we had Sunday School and church barbecue chicken picnics out at Phelps White Ranch when there were still buffalo grazing there."

Eddie M. Davis died during the 1923 flu epidemic.

Mrs. Davis' children are Mrs. Winnie Hogan who makes her home with Mrs. Davis; Mrs. Minnie Matthews of Burnett; Mae Porter, Farwell; Bobbie Faye Mitchell, Whitharral; Tommie Paul McCuen, Farwell; Troy Davis, San Angelo; and Roy Davis of Littlefield.

STRENGTHEN YOUR FAITH

Through Regular Church Worship

GOD'S LIGHT

SOURCE OF OUR FREEDOM

NEARLY two centuries ago in the fateful course of human events Liberty was born. With justifiable pride we declared our Independence. Liberty and the rights of all men. The spiritual aspect of the proposition of freedom, equality and justice for all was fundamental in the development of these new ideas. Liberty loving fathers, possessed of unyielding faith and vital religious convictions supplied the genius. Before a government could be founded on the brotherhood of man... there had to be the Fatherhood of God. Then let us preserve this freedom through eternal vigilance, unceasing prayer and unflinching faith. Independence!!! the Fourth of July. Let us ever remember the source of our freedom... The Book. A-Men.

TODAY'S DEVOTIONAL

Blow Your Horn!

REV. PHILIP J. BERRY
St. Martin Lutheran Church

THE OLD SPIRITUAL has it: "All God's chillum got a horn."

Well, if that's true, then it's a lead pipe cinch that not many are blowing it! Yet Christians everywhere have been called to take up their trumpets, and to blow their horns just like old Gabriel, into every open field and dark corner of the world.

But it seems as though the trumpet section of the brass choir of Christendom has packed up its horns and is now rushing home to hide those horns under the bed, just because some of the neighbors are complaining.

NOW OLD PETER and Paul (whose day the Church celebrates today) were a different breed. They blew and blew, till their old cheeks burst!

The rhythms varied, but the melodies were always variations of the same theme: Christ crucified, risen, and living again for the salvation of all creation.

Peter was still blowing God's horn when they hung him head down from a tree in the capitol city. And Paul had this funny little red circle, this funny trumpet mark, on his mouth when they flung his body away like garbage outside the Roman walls.

WHAT WE NEED today are more Peter Pauls; not professional Christian horn-blowers but just simple men who will stand up in the world of ours to blow variations of the melodies God wrote to soothe the ear of the world. We need folks to blow tunes like the Peter blew to the Sanhedrin at Jerusalem. "...there is no one else in all the world, name God has given to men, by whom we can be saved."

AND WE NEED more folks to blow like Paul blew to the audience at Rome. You declare with your lips, 'Jesus is Lord, believe in your heart that God raised him the dead, you will be saved.'

SO CHRISTIAN FRIEND, don't complain if the world seems to you destined to hell.

Just get out your horn...the one God gave you. And just like old Satchmo, blow it! Rejoice! Give thanks! Glorify! Praise! Be comforted and of good cheer! Widen your hearts! Abound! Boast! Sing! Shout!

AND, FOR CHRIST'S SAKE, blow! Blow! Amen.

YOUTH FROM 10 Churches were involved in presenting "Tell It Like It Is" Wednesday evening, June 18 in LHS auditorium. The 32-voice chorus was directed by Al Jordan, and was sponsored by Littlefield Ministerial Alliance. Pianist was Charlotte Hinds; organist was Thaxter Price; lead guitarist, Walt Sanders; bass guitarist, Danny Harrell; trap set player, Steve Maner; and timpani player, Cyd McKinnon.
