Red Carpet Treatment Planned For Pioneers

Plans for the 21st Annual Lamb County Pioneers Reunion were jelled during a meeting of Reunion committees Thursday night.

A huge barbecue, entertaining hour-long program and lots of visitation have been promised all the old-timers of Lamb County when they meet in the Community Center Tuesday, Aug. 25.

The reunion will begin a long week of activities for Littlefield and Lamb County, as citizens finalize plans for Festivities Days, Aug. 28 and 29.

Program co-chairmen, Mr. and Mrs. Buck Ross of Littlefield and Mrs. A. B. Brown of Spade, reported during the final planning session that a one-hour program will feature Zed Robinson of Muleshoe, who will present several vocal numbers; a group of musicians on stringed instruments, led by E. K. Angeloy of Pleasant Valley and Lel-don Phillips of Muleshoe; a quartet, headed by Larry Sanderson; and a square dance exhibition, led by Buck Ross and the Circle 8 Square Dance Club with Clifton Smith serving as caller.

Mayor J. E. Chisholm will welcome the old-timers to Littlefield.

Judge I. B. Holt of Olton will present the invocation and Judge G. T. Sides of Littlefield will read the memorial to pioneers who have died since the last reunion.

Plans are underway to construct a float to be entered in the Festivities Days Parade, Saturday afternoon, Aug. 29.

The kitchen committee, composed of Mr. and Mrs. F. E. Yohner and Mrs. Fred Lichte, presented several ideas on how to improve conditions in the kitchen during the serving period.

V. M. Peterman is chairman of the barbecue committee and he reported that the Sudan Livestock Co. made the selection of a 900-pound beef which was purchased by Security State Bank and donated to the Reunion. Lamb County Locker donated its services in curing and processing the beef.

Registration for the Reunion will begin at 2 p.m. Tuesday.

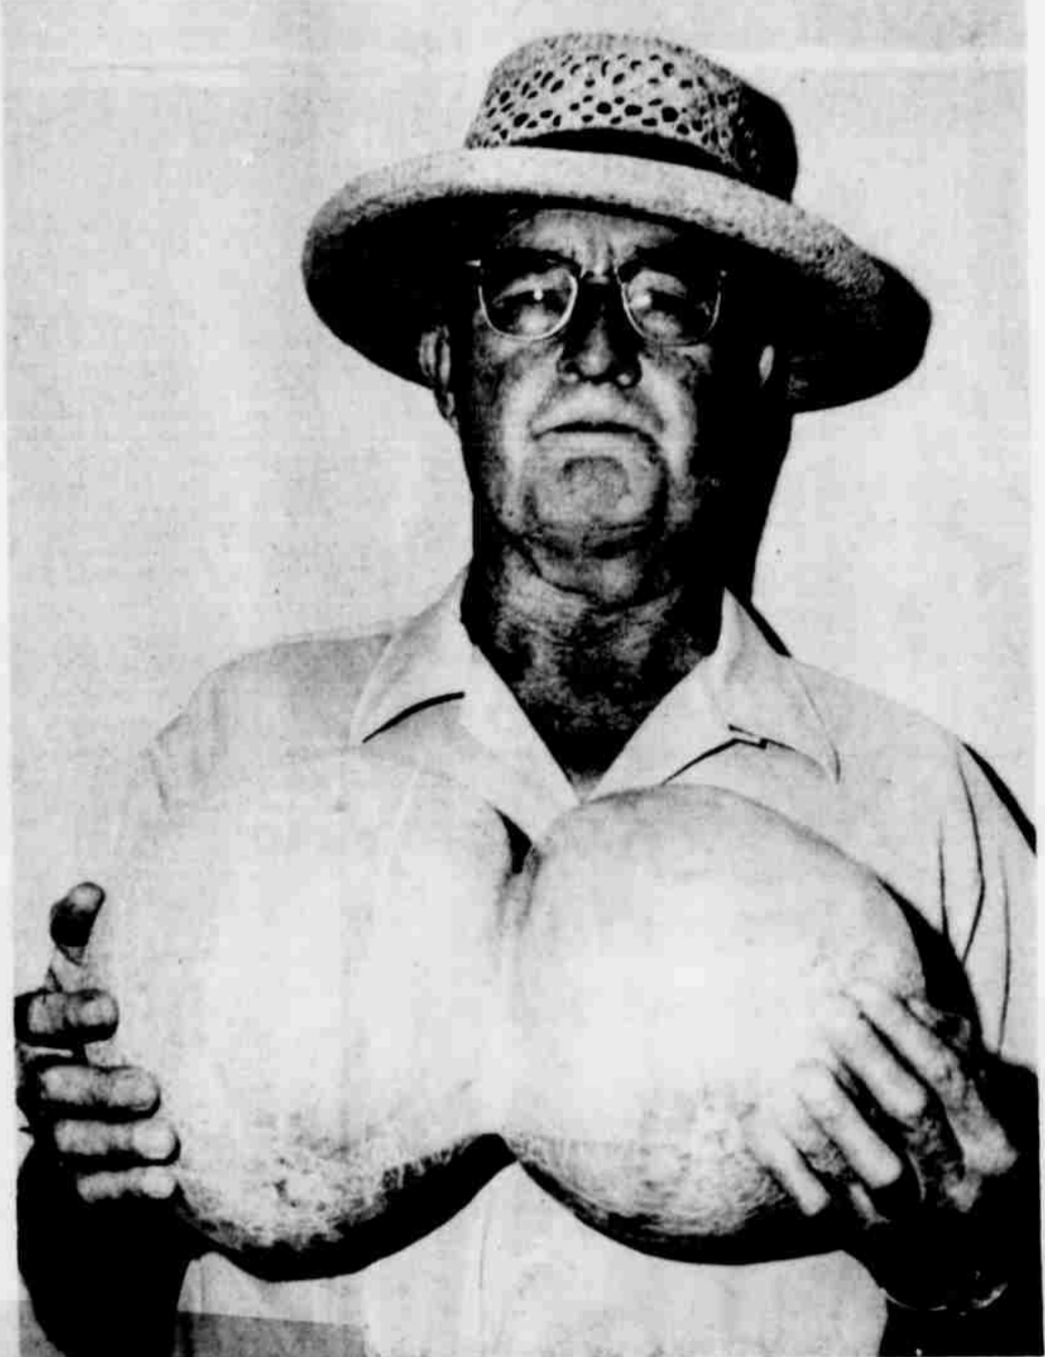

Buck Phillips of Littlefield has been appointed to be in charge of placing the chairs and tables; Roy Wade of Littlefield and Luther Uselton of Amherst are doing the purchasing; and Mrs. Allen Hodges, Mrs. R. E. Scott of Sudan, Mrs. C. S. Silcott of Olton, and J. M. Middleton of Earhara taking care of publicity for the event.

Mrs. Bonnie Haberer, chairman of the hospitality committee, revealed additions to her committee. They are Thurlow Branscum of Pleasant Valley, R. L. Byers Jr. of Springlake, Mrs. Myrtle Clayton of Springlake, Judge I. B. Holt of Olton, V. M. Peterman of Amherst, Mrs. L. E. Slate of Sudan, and Mrs. Ann Rutledge, Mrs. Gladys Joplin and Mrs. Flora Best Boone, all of Littlefield.

Persons coming from out of the county are asked to bring their families without bringing food, because residents in the county will provide the salads and desserts to go with the barbecue.

A nominating committee will be appointed during the reunion.

Persons will be eligible to become a member of the Lamb County Pioneers organization if they came to Lamb County in 1945 or before.

ONE OF NATURE'S ODDITIES grew this summer in V. A. Hinds' garden, six miles north and 1/2 east of Littlefield. The Siamese twin cantaloupe--or cantaloupes--were approximately 6 1/2 inches in diameter each.

The bus will leave from the side of City Hall after 5 p.m. Friday.

BLEMS MINOR, CITIZENS COOPERATING City Manager Reports On Streets

Improvement work now in progress in Littlefield has numerous minor problems, but the work is going well, City Manager Pat Bradley said.

Bradley reported this week that the city is making extensive street repairs, and some eyes regarding the importance of street maintenance.

Streets, in various states of repair, are being renovated following the passage of a \$365,000 bond.

Approximately 20 per cent of the streets are receiving a single seal coating at a cost of 12.6 per square yard. More than half of the streets are requiring double seal coatings at 29.5 per square yard, and around 25 per cent of the streets will be overlaid at the going price of 72 cents per square yard.

In the process, 53 Chinese elm trees were torn out where the roots were disturbing gutter flowlines and where curbs were lifted, and roughly two miles of curbs and gutters were torn out to correct drainage problems.

Removing the trees and curbs were time consuming and unsightly projects. Each tree was a truck load, and old curbs had to be hauled to the county dump -- a 16 mile round trip.

In some instances the new curbs and gutters are leaving driveways either much lower or much higher than the streets, and in these cases, the city will tear out the driveways and rebuild them to the existing grade. Few are of this extreme, Bradley said, and the property owners have been very cooperative, he said, since water had stood for so long, most were glad to see anything done.

Because most of the bad street conditions were due to standing water that had seeped through the seal coating, spots where water can stand are being eliminated everywhere it is possible. "Oh, we'll still have some bird baths left," Bradley said, "but we're correcting the major problems where the water stands bad."

The majority of the low spots remaining are where valve boxes or man holes are located, Bradley explained.

Crews have finished tearing out curbs, seal coating is just about completed, and new curbs and gutters are being put back. Sidewalk replacement will begin next week.

Barring any unforeseen difficulties, work should be completed on or ahead of schedule.

Pioneer Gas Considers Increase

City Manager Pat Bradley at a meeting in Lubbock Friday night to discuss a gas rate increase for Pioneer Natural Gas.

Bradley is reportedly planning to seek an increase in the gas rate--the rate paid individual customer for gas--but has not announced their intentions.

Representatives from 18 cities in the West Texas system to discuss the situation did not take any action.

On the Texas Railroad Commission approved an increase of 4 cents per 1,000 feet in the gas gate rate--a charge paid by Pioneer to gas for distribution--and officials believe the burner increase will come as a result of the gate increase.

Union Compress Burglarized

Police are investigating a breaking and entering case at Union Compress, where approximately \$700 in equipment were taken from the building.

Entry was gained to the main building through a door that had been pried open. A window had been broken on the tool shed to gain entry there.

Taken from the tool shed were: two pair of vise-grip pliers, three pipe wrenches, four Crescent wrenches, three screwdrivers, one tool box with tools, three end wrenches, one Skill saw, one Addo X electric adding machine and \$40 in cash.

Landon Grissom reported to police Monday that someone had broken into his Gulf Station at Highway 54 and the bypass. Taken from the station was money from a money sack.

A. V. Gentry reported to police Monday morning that a crate containing an exhaust fan fell from his truck just west of the by-pass construction site. When he discovered the crate and fan missing, he returned to the site, where he found the broken crate, minus the fan.

Gentry has offered a reward for its return.

Chris Andrews reported that his faded red western Auto five-speed bicycle had been taken Friday from Crescent Swimming pool. A friend of his from Levelland had ridden the bike to the pool and it was gone when he returned to where he had left it.

Ken Phillips of Route 1, Amherst reported that someone took a chrome breather and air filter from his 1968 El Camino while it was parked at Crescent Swimming Pool.

Three men have been jailed this past week by city police.

One was arrested Sunday and charged with drunk in public. He paid his fine and was released.

Another was jailed Monday, charged with affray. He is still in jail serving out his fine, and police are holding him for the Sheriff's office when his fine is served out.

The third man was jailed Friday on a traffic warrant and was still in jail at press-time Saturday.

QB Club Sets Tuesday Meet

Members of the Littlefield Quarterback Club will have their first meeting in the Littlefield High School cafeteria Tuesday at 8 p.m. when members will be treated to a film of the AFL highlights of 1969.

There is no planned program, but coaches will give a rundown on this season's prospects, and refreshments of coffee and doughnuts will be served.

CHISHOLM RECALLS END OF WW II Mayor Remembers V-J

By N'LAH RODGERS
Leader-News Staff Writer

Mayor J. E. Chisholm didn't run up the flags and dance in the street Friday, but neither did the sun sink in the west without his remembering where he was and what he was doing on V-J Day -- 25 years ago.

A captain in the Air Corp, Chisholm was stationed in the Pacific Islands 27 months, just before the war ended, Chisholm and his radar unit were sent to Hawaii on a five-month suicide mission.

The U. S. was losing too many ships to Japanese suicide planes. American Armed Forces were grouped in the Hawaiian Islands readying for the invasion of Japan on Nov. 6. Captain Chisholm and his group had been sent to the Islands to give long range radar protection to American planes to protect them against the Japs diving into the ships in Laiti Bay.

Americans were losing 10 to 15 ships a day from the Japanese "komi kosma" when the Japanese pilots would strap themselves into their planes, take liquor, fly over the mountains and dive into American ships in the bay.

One suicide pilot could knock out a ship and the method was quicker and more destructive than bombing. Something had to be done so Chisholm's radar unit was sent to the island.

By detecting incoming planes on radar before they cleared the mountains, U. S. fighter planes had a chance to get in the air for a dog fight.

On routine suicide missions, chances of survival were one in 10. On this five-month suicide mission, Chisholm and the other 49 men in the assignment were given one chance in 35 of living through it.

"The first radio message we received," Chisholm said, "was to take all precautions -- 800 Japs were nearing our camp. And us with 50 men. The next day two gun boats came in to reclaim our valuables. They thought we were gone."

When word came that the war was over, Chisholm's company had its orders to set up radar platoons on four islands on Nov. 5. The infantry was to precede his company the day before. Everything was already crated and they were to be aboard 30 days.

"The radio operator woke me up at 4 a.m.," Chisholm said, "and said he had just received a message that Japan was making contact for surrender. I woke up the rest of the men, and that's when the celebrating started. . . ."

"They got the troops out very fast after that. First the prisoners of war. . . ."

Chisholm said he would like to go back to the Hawaii and the Pacific Islands, especially a little town called Lorente, where they had a radar unit. "It wasn't any bigger than Amherst," he said, "but 15,000 people lived there, sometimes 15 people in a little grass hut. They deserted their town and lived in the hills four years during the war. Some we got to know very well. There was a lawyer and several school teachers with degrees, but they lived so primitive. Even after

J. E. CHISHOLM inspects a machete with a hand carved handle made and given to him while he served in the South Pacific during WWII. Friday marked the 25th year since Japan surrendered, and Chisholm quietly noted the anniversary and remembered the joyous celebration the news brought 25 years ago.

A WOMAN'S VIEW

Red Sea Place

By PEARL BRANDON

"HAVE YOU COME to the Red Sea place in your life. Where, in spite of all you can do, there is no way out, there is no way back. There is no other way but through?"

AS I START to write this article today my mind is dull and not functioning very well. It hardly seems to be worth the effort. As most of you know tragedy visited our family again last week, when our loved one Carroll Rowe, was killed in a car accident. My heart almost broke as I watched the little wife with her two small children board the plane to go back to Dallas to face life without the help of her fine young husband.

WE HEAR of many people facing the same terrible tragedy every day. We read about it in the newspapers and feel sorry for the people, but we can't begin to understand until we experience the same thing.

Turning through my Bible this morning, there was this scripture: "Why standest thou afar off, O Lord? Why hidest thyself in time of trouble?"

I KNOW HOW the Psalmist felt

when he wrote these words: as if there was nothing out there to pray to.

I know also the Lord is never very far from us. Our hearts are aching so we can't pray and our eyes are so full of tears we can't see His Loving face shining through the dark clouds of trouble.

WE KNOW THAT TIME softens the pain and things will seem better farther on but at the time of tragedy the hours drag by full of agony, as if they will never pass.

Those of us who knew Carroll will be a little better for having known him. He was a kind, good, sincere man and loved his family.

ONCE AGAIN KIND friends came with love and wonderful offerings of food. I don't know what we would have done without them, as there are so many of us.

We express our gratitude to our friends; especially to the members of the Church of Christ and the Methodist Church. May God bless all of you.

THE SAME PSALMIST who wrote the Scripture quoted above also said, "God is our refuge and strength, a very present help in time of trouble. We know this is true and that He works through you, our wonderful friends.

"Hey, Mac, you've got a leak under the hood!"

THE ABUNDANT LIFE
Peaceful Dissent

By BOB WEAR

MUCH IS BEING SAID and done about dissent.

In fact, it seems that the dissenters want everybody to listen to them. This is strange, very strange. If I have the right to dissent you surely have the right to dissent against my dissent.

ALL DISSENT MUST be expressed without violence, loud talking, obscene words and strife. It must be peaceful.

If I assume the immature attitude that you should listen to me, and let me have my way; but I refuse to listen to you, and do whatever I can get by with to oppose you; I prove myself unfit to be heard.

There is, among the self-conceited dissenters, too much of the attitude: freedom of speech for us, but no one is free to speak against us or our views. Pretty narrow-minded, isn't it?

THERE IS TOO MUCH irresponsible talk. If people expect to be heard, the least they can do is establish and maintain a responsible posture. They must do more than criticize, they must know what they are talking about, and they are obligated to be honest enough to accept the obvious truth. People who do not follow these guidelines have no right to speak with the expectation of being taken seriously.

LOOSE TALK is extremely dangerous. In fact, when it is heard; those who hear must expose it for what it is.

Listen to it carefully, and then just as carefully refute it with fact and truth and good sense.

LISTEN TO OTHERS. We must do, but we are not obligated to accept their viewpoint; and they have no right to impose it upon us.

We have the right to ask for supporting evidence, or question it.

any way we please. If those who speak, do so in good faith, profitable dialogue can be conducted in a climate of peace and good will.

WE MUST LEARN to think for ourselves, even while we give others a respectful hearing. We must have confidence in our conclusions, without closing our minds.

We must be willing to listen to the ideas and opinions of each other. This kind of communication is essential to the common good.

OUR OWN DEVELOPMENT is hindered if we ever reach the place that we are so self-important we think we are right at all times, and are never willing to listen to the opinion of others.

We will also become detestable to those with whom we may be associated.

SUCCESSFUL PERSONS, and those who have the respect of their fellowmen are always willing to admit an error; and they do so in a very gracious manner.

These people never try to force their view upon others with violence, terror tactics, or in any other way.

LISTENING TO OTHERS, especially those with whom we are closely associated, does not require us to give up any of our own rights or privileges.

We are still responsible for carefully evaluating what we hear, and for whatever actions we take.

WE IMPROVE our personal status, and our experiences in human relationships by listening when others talk; knowing that we have the right to talk, too.

Peaceful dissent can be constructive, but any other kind is always destructive.

HONNY GRITS

By CORNBALL BLEVINS

MR. NIXON HAS done it again! stepped on the congressional toes, that is he vetoed the big money bill! Of course, we know it won't stick, but, at least, we know where he stands. The big spenders are going to have a ball overriding his veto. Probably led by the fast, fast-fading Mr. Yarborough and company.

SHUX, he's gotta make a showing, and fast!—Pretty soon he'll be just another John Q. Public.— Sudden thought: "Do Ex-Senators have to pay taxes, too?"

Anyway, it's gonna be interesting to see the ballyhoo and drumbeating take place, as they go about the business of showing the president who's who!

All of which leads up to the fact, that you and I, my friends, will be paying more and more taxes!

NOW, TO PAY more taxes, we've just gotta have more money.— Which means that our dollars will be worth less, which means that our tax-money won't buy as much.—Which means that our taxes will hafta be increased.—Which means that the faster a dog chases his tail, the less apt he is to catch it!!!

Any way, to make a case in point, we might just look at the UAW and the auto-manufacturers. (The faster we go, the behinder we get)

GUESS YOU KNOW, that we're on

the verge of another strike by the auto-workers. And, I guess you know, the auto is already as high as a cat's back.—Actually, the UAW is demanding more money so's they can afford to buy new cars.

We'll say that the manufacturers grant all the pay-raises. Are we droll enough to think that the price of the auto won't go up enough to cover the extra costs?

WE'RE ON A not-so-slow moving, merry-go-round, and the operator has just been fired!—So?—Who's to stop the thing?— not the Congress surely!

The guys that have been caught in the middle, are the farmer and un-organized labor. That is to say, the drones that are too proud to go on direct welfare!

ANOTHER POOR fellow that's caught in the whirlpool, is the guy that's worked all his life to accumulate a little nest-egg to help him retire on his Social-Security.

Now, he finds that the hard-earned Social Security pay, is hardly worth mentioning!!

THERE'S AN ACCOUNTING coming up in the next election. I just wonder if the electorate isn't about ready to give the free-wheeling, big-spenders the old Heave-Ho. Or, can we still be sold the old "Something-for-nothing" gimmick!!

THE PHILOSOPHER

New Fashion

(Editor's note: The Sandhills Philosopher on his Johnson grass farm claims he's trying to set a new trend, but there may be other explanations.)

I had just settled down on my front porch yesterday reading a newspaper and had already finished one article reporting Congress was about to set a limit of \$55,000 per farm in government payments next year which I thought was fair. I believe I can just about meet expenses with that amount, it sure beats what I'm getting now, and had wondered to myself, after hurriedly reading that Chet Huntley, on retiring as a television newscaster to open up a tourist attraction in Montana, said he found tourists real exciting — the one that came by this Johnson grass farm the other day asking directions to Amherst didn't seem like he'd be too interesting to know permanently — anyway, to get on with this sentence which is getting out of hand

but take a deep breath and keep going, I was just getting well into the newspaper when a car drove up and a neighbor got out and waded through the grass and sat down on the steps and asked: "When are you going to cut your lawn? It's getting too shaggy to walk through."

"When are you going to come abreast of the times?" I asked him. "Whatta you mean?" he demanded.

"It's the new style in lawn grass," I explained. "Us high fashion people are letting it grow longer this year. Everything is longer this year. Hair is longer. Sideburns are longer. Dresses are longer. Wall Street brokers' faces are longer. Anybody with a crew-cut lawn just ain't with it. This is 1970, man."

"Uh-huh. Well, I guess I'd better be going," he said, and got up and left.

He never did say what he came for.

Yours faithfully,
J.A.

WORSHIP IN CHURCH

and get a spiritual lift for the whole week

Luke 6:31

And as ye would
that men should
do to you, do ye also
to them likewise

What do you really wish that men would do to you... leave you alone? Try it and you will have a lonely world... no home, no neighborhood, no church, no nation. Do you expect your employees to work for you while you forget their welfare. Do you wish others to deal kindly and generously with you? Do you demand that people be honest, truthful, and trustworthy with you? Would you rather others be courteous, and appreciative of you and lend a helping hand when you have a hard task to do? They who keep the Golden Rule will discover that it must work both ways. It is "the rule of God." In every land and in every age it is the basic rule for good living. One cannot improve on it. *If you want Golden Rule treatment from others you must give Golden Rule treatment to them.* It will work in the experiences of every man. It is the Divine Way. The Golden Rule is still very Golden.

How to perk up a summer-weary lawn!

This is the time of year when most lawns in our area need reviving. Best way we know is to feed with SUPER TURF BUILDER, Scotts new fertilizer with plant-available iron. It contains twice the greening power of famous Turf Builder, and it goes right to work building a thicker, greener, sturdier lawn. Super Turf Builder strengthens roots too, so your lawn will "winter" better. It's clean. Lightweight. Easy to handle. How about this week end?
