

Bank expanding facilities

First National Bank of Littlefield has begun its first major expansion and remodeling project since it was chartered in 1925, and the expansion will be expanding into the adjoining building which was begun Monday, Oct.

11, on the project, and is to be completed in two phases— 1. the new addition, which is to be finished within 90 days, when the business will be moved over and continued in that part, 2. and a completely-remodeled present building, which is due to be

complete by April, 1977.

General contractor is the Scharz Company of Dallas, and the architect is Shepherd and Boyd of Dallas. Phil Shepherd is the son-in-law of Mr. and Mrs. Frank Rogers of Littlefield.

The new portion of the building

is to include the main banking office, teller's line, and bookkeeping and accounting departments.

The ground floor of the building will be entered through a new doorway located about 10 feet south of the present entrance. The front portion of the present building will be converted into a new customers' vault.

To the right, into the new portion of the building, the tellers' line will face the front.

According to Bank President James T. Lee, "Eventually, we'll be completing a community room on the third floor, and remodeled offices on the second floor." He emphasized this would probably be done within a year or so.

Access to the second and third floors will be by elevator, which will be in the inner foyer.

The outside of the building will be of stucco and bronze smoked glass. The large columns will be 18 inches from the building, "to give Littlefield's tallest building that vertical look," Lee stated.

"We'll also have a rear entrance from XIT to our new drive-in banking facility along the alley across the street to the west," Lee stated. Entrance to the drive-in facility will begin immediately near XIT and Fourth Streets, and exit back onto the XIT. The parking lot near the drive-in will offer a limited parking area of about 10 spaces.

Banking from the drive-in will be operated through pneumatic tubing connections.

According to Lee, the bank has been under the same management since 1945, and the management will remain the same.

Besides Lee as president, Robert Bridges is vice president and cashier.

First National Bank's proposed new look

Big voter turnout expected, polls named

A record number of absentee votes indicates a big voter turnout for Lamb County this Tuesday.

At 4 p.m. Friday, absentee voters were still coming in by droves to vote in the final day of absentee balloting.

Lamb County Clerk Mary Beth Willey said at that time 434 persons had already voted absentee and about an hour remained before the office closed. In addition, she said there were about 50 ballots out in the mail, making this the heaviest absentee balloting ever in this county by a large percentage.

There is a sample ballot inside this issue for voters to study before going to the polls.

Because of recent election laws, there is a little confusion about voting split tickets. In the general election you can vote for any candidate for any office, regardless of whether Democrat, Republican or independent. If you don't like any of the choices, there is a place provided for write-in votes.

Here is a list of the polling places in Lamb County by election precinct numbers. Go to the polls

and exercise your right to vote.

Election Precinct No. 1- Olton Grade School Gym.

Election Precinct No. 2- Earth Community Building.

Election Precinct No. 3- Spade School House

Election Precinct No. 4- Lumsden Gin.

Election Precinct No. 5- Sudan Community Building.

Election Precinct No. 6- Pleasant Valley Community Building

Election Precinct No. 7- Co-Op Office, Sudan.

Election Precinct No. 8- Amherst City Hall.

Election Precinct No. 9- First Baptist Church of Fieldton.

Election Precinct No. 10- Lamb County Courthouse, Littlefield.

Election Precinct No. 11- Beck Gin office.

Election Precinct No. 12- Hart Camp Baptist Church.

Election Precinct No. 13- Springlake Community Center.

Election Precinct No. 14- Littlefield Junior High School.

Election Precinct No. 15- Springlake City Hall.

Election Precinct No. 16- David Friday residence, North Fieldton.

Halsell Foundation Okays ambulance purchase for county

The Ewing Halsell Foundation has notified the Lamb County Commissioners' Court that it has approved a \$7,500 matching grant for the purchase of a new ambulance to be used in the south half of Lamb County.

The county pays net operating expenses, and the City of Littlefield offers personnel training, supervision and operation management.

The city recently asked for a new ambulance to replace the old 1968 ambulance which Hammons Funeral Home donated when they discontinued ambulance service in 1974 after finding the ambulance portion of business unprofitable.

Since that time Lamb County and the City of Littlefield have cooperated to provide ambulance service for the south half of the county.

The \$7,500 is only half of the purchase price of a new, safe and dependable vehicle for emergency transportation. In making the request the court asked for an \$18,000 grant, noting that the purchase of an \$18,000 vehicle from anticipated tax revenues seemed impossible, without curtailing required county services.

The application pointed out that the Commissioners' Court is not increasing the ad valorem tax levy for the upcoming year, largely because of a disastrous drought over a major part of the southern half of the county.

Parsons Funeral Home in Olton has a contract with the County to provide ambulance service for the north half of the county.

A WINTER WONDERLAND bears the tale of a heavy snowfall Thursday and Friday on East 12th. The snow stood as high as four

inches on branches, fences, poles, bicycles, cars, etc. showing the lack of wind during the fall. [Staff Photo]

"MR. SNOWMAN" was born on East 13th Friday following Thursday and Friday's snow. He was created in the front yard of the Herschell Chisholm home by their

son and daughter, Ted and Elaine Chisholm, and their neighbor, Michael Lackey, son of Mr. and Mrs. J. B. Lackey.

Wildcats tie Mustangs

By JERRY TIDWELL

A six-inch snow covering at Mustang Stadium was too much for Littlefield or Olton to overcome Friday night as the two cross-county rivals battled to a 6-6 deadlock.

After Friday night's game, the standings in District 3-AA are muddled to say the least. Friona is atop the league with a 3-0 mark. Dimmitt is next with 1-0-2. Morton and Littlefield are 1-1-1. Olton

stands at 0-1-2 and Muleshoe is 0-3.

Despite the confusion, Littlefield's path to a possible district title is clear. The Wildcats must win their next two games and Friona must lose their remaining two games. That combination would put the Wildcats into the playoffs.

The game was remarkably free of turnovers and penalties on a field that was better suited to ice hockey than football. The two teams were forced to play conservative football by the inclement weather and the Maroon passing machine could never get untracked. Olton stuck to the ground behind the driving runs of tackle-turned-fullback Mark Williamson and controlled the ball and game.

FIRST QUARTER

Olton returned the opening kickoff to midfield and marched to the Littlefield 21 before giving up the ball on downs. The Wildcat punted, then the Mustangs, and then the Cats again punted before Olton began to march again.

SECOND QUARTER

The Mustangs moved 77 yards in 15 plays for their only score. The big play was a 30-yard scamper by Buster Lloyd. Mark Williamson bulled over on the fourth down from the one for the touchdown. On the extra-point try, Steve

Value of one vote

As an American citizen, you are casting your vote to continue every one of those freedoms for which so many people you never knew have given their blood, sweat, tears and their lives to preserve for you.

How important is one vote?

Well, in 1645, one vote gave Oliver Cromwell control over England.

In 1649, one vote caused Charles I of England to be executed.

In 1776, one vote gave America the English language instead of German.

In 1839, one vote elected Marcus Morton Governor of Massachusetts.

In 1845, one vote brought Texas into the Union.

In 1868, one vote saved President Andrew Johnson from im-

peachment.

In 1876, one vote changed France from a Monarchy to a Republic.

In 1876, one vote gave Rutherford B. Hayes the Presidency of the United States.

In 1923, one vote gave Adolph Hitler leadership of the Nazi Party.

And in 1941, one vote saved Selective Service— just 12 weeks before Pearl Harbor!

A wise man once said, "Liberty means responsibility— this is why men dread it."

Do you dread it? Or do you consider Liberty your responsibility— to be preserved where it counts most; in the ballot box?

Is one vote all that important? You bet your free life it is!

OBITUARIES

J. V. BURNETT

Services for James V. Burnett, 77, of Lubbock were conducted Saturday morning in the Central Baptist Church, with Rev. James Schoenrock, pastor, officiating.

Burial was in Resthaven Memorial Park under the direction of Rix Funeral Directors.

Burnett died at 2:41 p.m. Wednesday, Oct. 27, in University Hospital.

He had lived in Lubbock County 50 years, moving there from Sudan. He was a member of the Central Baptist Church.

Survivors include his wife, Cordie; two sons, James Jr. of Lubbock and Kenneth of Lubbock; two daughters, Mrs. Charles Shipman of Lubbock and Mrs. Claire Ichtertz of Shallowater; two brothers, Thomas of Seminole and Patrick of Fayetteville, Ark.; one sister, Mrs. John H. White of Fayetteville, Ark.; 12 grandchildren and 10 great-grandchildren.

NEALY STOVALL

Services for Nealy F. Stovall, 71, of Littlefield and formerly of Muleshoe, were conducted Saturday morning in the First Assembly of God Church of Muleshoe with Rev. H. D. Nunter, pastor, officiating.

Burial was in Bailey County Memorial Park Cemetery under the direction of Singleton-Ellis Funeral Home in Muleshoe.

Stovall died about 1:15 a.m. Thursday in Littlefield Hospital.

A native of Van Zandt County, Stovall moved to Littlefield about 18 months ago. He lived in Muleshoe from 1950 to 1973. He was a retired farmer and a member of the First Assembly of God Church here.

Survivors include his wife, Lela; nine sons, Willis E. of Providence, R. I., Raymond L. and Bobby, both of Casa Grande, Ariz., Gene of Dallas, Bill of Muleshoe, N. F. Jr. of Rosenberg, Jesse of Nashville, Tenn., and Jacky and Andy, both of Littlefield; two daughters, Mrs. Virginia Russell of Fort Worth and Francis Jackson of Sonora; two brothers, Clarence of McKinney and Worley of Arlington; 40 grandchildren and 11 great-grandchildren.

A. J. TAYLOR

Services for Alvis Jimmie (A. J.) Taylor, 65, of Littlefield were

conducted Saturday afternoon at the Missionary Baptist Church, with Rev. Danny Brock, pastor, officiating.

Burial was in Littlefield Cemetery under the direction of Hammons Funeral Home.

Taylor died at 11:30 p.m. Wednesday, Oct. 27, in Medical Arts Hospital in Littlefield.

He was a Littlefield resident 38 years and a native of Goldthwaite. He was a retired trucker, a member of the Missionary Baptist Church, and a member of Woodmen of the World.

Survivors include his wife, Daphne; two daughters, Mrs. Pauline Davis of Bloomfield, N.M. and Mrs. Dessie North of Andrews; two sisters, Mrs. Velma Steele of Dublin and Mrs. Minnie Russell of Denver City; and six grandchildren.

Jaycee meet set Thursday

All young men who are interested in organizing a Junior Chamber of Commerce organization in Littlefield are invited to a meeting Thursday night, Nov. 4, at 7 p.m. in the XIT Room of Security State Bank.

Jaycees is for men 18 through 35, and a first meeting was held last Tuesday night.

Further plans for the organization will be discussed in Thursday night's meeting.

'We, Women' slate luncheon for newcomers

'We, The Women', a branch of the Littlefield Chamber of Commerce, have scheduled a Newcomer Luncheon at 12 noon Tuesday, Nov. 2, at K-Bob's Steak House.

All members are urged to attend and bring a guest, and anyone interested in the organization is invited.

Those wishing to attend are asked to call 385-3169 for reservations.

Chalk talk to feature program topic

The Lamb County Alcohol and Drug Abuse Committee is sponsoring an open meeting Thursday night, Nov. 4, at 7:30 in the Lamb County Ag and Community Center.

A "chalk talk" program, dealing with alcoholic abuse and treatment, will be presented, and personnel from the South Plains Hospital will speak about drug abuse and alcoholism.

The meeting is open to the public.

THE ABUNDANT LIFE

Life continuity

IN A SENSE, the uninterrupted succession of our years is "life continuity"; but, by careful thought, we soon realize that life on earth is meant to be more than just putting in the time. From the standpoint of what makes life rich and full and meaningful, we know that there must be more than the passing of time.

Therefore, when we think of "life continuity"; we are thinking of the things which can make these passing years useful, and pleasant, and interesting, and truly worthwhile.

Real life is not in our years, but in us; in our attitudes, our diligence, our industry, our knowledge, and our wisdom.

STAGNATION OF LIFE is probably the most hurtful hindrance to "life continuity". This is what happens to all persons who do not deliberately act to prevent it.

If such action is not taken, the individual is soon just existing, going through the daily routine with decreasing interest and a dwindling sense of meaning; weary and unhappy.

We can prevent all of this, if we cheerfully accept the challenges; face up to the responsibilities; and diligently use the opportunities.

FROM STUDIES MADE, it has been discovered that we human beings can continue to learn and apply what we learn over a long period of time. So far as mental ability is concerned, we reach our peak between the ages of fifty and sixty.

There is usually a slight decline, but at age eighty we are as capable as we were at age thirty. During

our years, therefore, we have the capacity for meaningful learning "life continuity".

Many of us may not live to eighty, but we can live, and learn, during our years as they pass.

WE CAN CONTINUE to learn and this is the key to "life continuity"; so far as the best earth life is concerned, it is "our learning aims" which are chosen with the greatest wisdom.

Let them be "self-education"; "improved personal performance"; and "increased usefulness" in our association with others.

"LEARNING RIGHTLY" makes a young man attentive, industrious, and wary; and an old man and useful. It is an ornament of prosperity, a refuge in adversity, an entertainment at all times, a source of wisdom and moderation in wisdom circumstances." —Palmer

THIS IS LEARNING that we can do, unless we are lazy; or have neglected our mind or unless the mind has been organically impaired.

To some extent, however, we can overcome both mental laziness and neglect. It is a slow process, but the compensation for doing so will more than justify diligent efforts.

"KEEP LEARNING" and maintain "life continuity". We learn all there is to learn enough for the best of living.

Continued from Page 1

—shootin'—

plus 16 civil lawsuits.

We don't need him on the Texas Supreme Court.

Tom Loran and Sam Houston are both conducting write-in campaigns for the place on the Court.

Vote for either Loran or Houston, but don't vote for Yarbrough. If you can't remember the write-in candidates names at the polls, just don't cast a vote for Yarbrough.

Texans also will vote on two constitutional amendments and both deal with water. Amendment One would authorize an additional \$400 million in Texas water development bonds. Failure to approve this additional funding could easily result in inadequate water in the future.

Amendment Two deals with water quality and would add \$10 million to the water enhancement fund for the purposes of grants and loans to cities to improve their sewage treatment facilities. Federal standards and meet federal standards and for matching federal funds.

We think a vote for amendments would be in the future economic growth of West Texas.

Well, that's how we see the important thing is to Tuesday as you see it.

Cancer Society to meet

The Lamb County Unit of the American Cancer Society, Texas Division, Inc., will hold a meeting

Tuesday night, Nov. 2, at 7:30 p.m., in the XIT Room of Security State Bank in Littlefield.

THERE'LL BE NO PICNIC here—or at least until the sun comes out again. These chairs and sprinkler saved the grass beneath from a

cold coat of snow in the back of the Rafe Rodgers home. (Staff Photo)

To The EDITOR

October 20, 1976

Dear Editor:

It is my belief that unless Texans give solid support to the Water Amendments in the Nov. 2 vote, we may have to revive the aged poem, "The Ancient Mariner," as our state song.

The arguments being advanced by opponents are pointless when they say, "There must be a specific plan before we vote to tackle the water problem."

You do not sit down and draw up a 25-year water plan for the southwest as you would for a 10-story building.

Before any master plan can be considered, we must have studies and conferences with various states, with dozens of federal agencies, and even international bodies.

These studies cannot be even started until monies are made available by citizens of the southwest who have everything at stake and absolutely no lead time to spare.

The irony of it all is that when time runs out in the 1990's, and we have done nothing, the entire southwest will go down like the Titanic because of lack of vision and wisdom on the part of the us now enjoying all the bountiful blessings of the present day.

From Houston to high lonesome New Mexico, this is by far the biggest question facing the southwest today. Think it over.

Itinerant vendors should have permits

Ordinance Number 213 of the City of Littlefield requires door to door salesmen to obtain a permit and to carry a card issued by the city secretary's office.

"In the past few months, there has been a great increase in the number of itinerant vendors and peddlers who are operating in the city of Littlefield," said Greg Ingham, city secretary and acting city manager.

"Many of these individuals are not obtaining permits to solicit on a door to door basis. It is not

possible for the city to enforce the Itinerant Vendor's Ordinance and thereby protect the citizens of Littlefield without the assistance of the citizenry.

"If there is some doubt as to whether a door to door salesman has been licensed by the City, ask to see the card authorizing that individual to solicit in Littlefield or call the Littlefield Police Department.

"The City needs your cooperation in order to insure the integrity of the salesmen who may knock on your door," Ingham concluded.

Jim Reese to visit Littlefield Monday

Jim Reese, conservative candidate for the 19th Congressional District, will conduct a tour through the district Monday, Nov. 1st.

He will be visiting the 17 county-wide district by airplane.

The plane will arrive in Littlefield at 2:40 p.m. for an airport rally.

County designated for emergency loans

Congressman George Mahon, 19th district representative, announced Thursday that the U. S. Department of Agriculture has

designated Lamb County to be eligible for Farmers Home Administration emergency loans.

The emergency designation was made because of the drought conditions experienced in the county from January to August of this year, and also because of this year's hail storm which struck the county on July 29th and Aug. 2.

Mahon pointed out that applications for emergency loans can be made at the FmHA office in Littlefield. Loan applications for production losses which resulted from damaging weather may be submitted until July 13, 1977.

Loan applications for physical losses may be made until Dec. 14 of this year.

LITTLEFIELD NEWS

MR. AND MRS. Otis Turner and his mother of Sundown were guests of Rev. and Mrs. Norman Patton and family Sunday.

He is an active layman for the Sundown Methodist Church and delivered the sermon at the morning service here.

MRS. LUTHER Uselton is a patient in Littlefield Hospital.

Miss Eddins summarized that a college education, therefore, "will help prepare me for the kind of life I want to have."

EARTH NEWS

THE HOME of Mr. and Mrs. Terrel Pauls was the scene of a Welch family reunion Sunday. There were several out-of-town guests. Those from Earth were Mrs. Adria Welch and Mr. and Mrs. Pody Welch.

Eddins, WTSU freshman receives scholarship

Eddins, West Texas University freshman Littlefield, has been recipient of an \$800 Service scholarship—the 1976-77 college

best about campus life is that everybody's real friendly. I like the size of the school, especially," added Miss Eddins. "It's not too big, but not too small, either; there's lots of variety."

The psychology major declares she has not had any trouble at all adjusting to college life. "Things are really pretty good," she admits.

Graduating with the highest grade point average from Littlefield High School, Miss Eddins was vice-president of the National Honor Society, a cheerleader for four years, secretary of the Latin Club and the French Club, as well as a member of the Science Club, Pep Club and Future Homemakers of America.

To be eligible to receive a scholarship from Campus Services, one must have leadership abilities, an outgoing personality, a B average and above in high school, participation in extracurricular activities and a score of 21 on the American College Testing (ACT) exam.

In the long-term future, the freshman recipient says, "I'm really not sure about what I want to do."

The main reason for wishing to attend college, however, Miss Eddins said, is because "I hope to obtain enough knowledge that when I graduate, I'll be able to get a good job. I feel that one needs a good education in order to get ahead in today's world."

"There are also a lot of fringe benefits in attending college," she continued. "One of these is being able to meet so many people. I enjoy being with people, and I feel that I learn a lot from them."

College offers an opportunity to meet people from different areas, Miss Eddins believes, "I'm sure I'll be able to benefit from this greatly. Also college will give me many new experiences and much responsi-

Dear Friend:

It is a miracle to me that the voters retain any confidence in America in an election year when so many candidates are shouting, "We are in gravest danger," and that all our public institutions are not working . . . not the Presidency, the Congress, the courts, nor the schools.

Actually, it is far more dangerous for us to believe that our country is declining. I certainly do not think it is. Of course we have problems, but we have made tremendous progress in the past and we have every reason to face the future with confidence.

Today we are overcoming inflation, reducing unemployment, facing energy problems, farm problems. Next session, we can make more progress. A new farm bill will be written, oil and energy will face new legislation, efforts will continue to keep federal spending down, taxes down.

Let me assure you our system of government is working, not perfectly, but better than any other government in the world. And I want to continue to participate, to do the best I can to fairly and honestly represent you and the other people of West Texas in the Congress. If you have hope for America, that we can work together to make it better, you should participate, too, by voting and encouraging others to vote in the General Election, November 2.

Thanks, and best wishes.

Sincerely,

George Mahon

Texas Tau Chi Chapter has cultural program

Monday evening, Oct. 25, the Texas Tau Chi Chapter of Beta Sigma Phi met for an evening of literary review in the Reddy Room.

Hostesses Bonnie Stephens and Janice Graves gave a short review of points in reading and judging literature prose. Each member was asked to write a short poem on the topic of their choice, with Pat Stubbs winning the door prize for her literary works.

After the cultural program, a short business meeting was held.

The meeting was called to order by all repeating the Opening Ritual. Roll was called and the minutes of the last meeting were read and approved.

The treasurer, Gerry Thomas, reported that the bank balance was brought up to date and all discre-

pancies were taken care of. With all the bills paid, the chapter is financially good standing.

Final arrangements for the booth at the Halloween Carnival Saturday night, Oct. 30, were made.

The Texas Tau Chi Chapter sponsored a Halloween Fun House.

There was a discussion of a gift for the Nu Phi Mu Degree Chapter that has just been organized in town. Everyone was asked to bring suggestions for the gift to the next meeting.

After the meeting was closed by all standing to repeat the Closing Ritual and the Mizpah, the hostesses served refreshments of hot cider, poppy seed and pumpkin bread muffins from a Halloween decorated table to members Freddie Duke, Cynthia Roberts, Pat Stubbs, Gerry Thomas, and Bobbie Wagley.

TWIN SISTERS, Mr. and Mrs. Virgil Thompson of Oklahoma City and Mr. and Mrs. Estell Walser of Chillicothe, who were married 50 years ago, celebrated their anniversary in the First Baptist Church, Saturday, Oct. 23, where the wedding ceremony was held. Among the 200 who registered were Mr. and Mrs. Arlis Humphreys, Mrs. Buford Thompson, U. E. Thompson, Mrs. Zela Connell. They were joined by Mr. and Mrs. Hack Stewart of Logan, N.M.

MR. AND MRS. Jackie Howell and Mickey Brantley were Albuquerque visitors last Sunday.

Hallowe'en party fetes Amherst Senior Citizens

The Amherst Senior Citizens met Tuesday night, Oct. 26, for a Hallowe'en party.

Highlights of the evening were: A "Trick or Treat" skit by Kathy Mills, Donna Allensworth, Pam Humphreys, Kyla Howell, Darlene Maxfield, Shirley Edwards and Linda Mangum. Following that, Carolyn Harmon dressed as a Hallowe'en Witch, made her appearance, leading her

MRS. THOMAS STEPHENS

Conservation directors attend meeting

District directors of the Lamb County Soil and Water Conservation District who attended the state meeting in McAllen were Raymond Lewis of Olton, W. B. Jones of Spade, Marvin Bowling of Sudan, T. C. Faver of Littlefield, and Ed Dawson of Springlake.

The district directors from Texas' 196 districts elected Kenneth Kuykendall of Cherokee as president and Charles Wood of Lubbock as vice president of the Association of Texas Soil and Water Conservation Districts at this 36th annual meeting. Approximately 800 persons attended.

Foley-Stephens vows read in San Angelo

Double-ring wedding vows were exchanged in a small family ceremony in the chapel of Johnson Street Church of Christ in San Angelo Saturday night, Oct. 23, between Patti Foley of Littlefield and Thomas Stephens of San Angelo.

Parents of the couple of Mr. and Mrs. Don Foley of Littlefield and Retired Col. and Mrs. Grant Stephens of San Angelo.

The small chapel was decorated with candles, lemon leaf foliage, white flower and babies breath. Officiating for the read-

ing of the vows was Robert Gauer, pastor.

As Don Foley presented his daughter for marriage, she wore a white formal-length gown of tiffany knit. The keyhole neckline was re-embroidered with Brussels lace as was the fitted waist and long sleeves with lace cuffs. Her full skirt ended in a chapel-length train, and her silk illusion waltz length mantilla veil was scattered with Brussel lace motifs and a scalloped pearl edge.

She carried a cascade bouquet of white phalaena-

opsis orchids, and babies breath. Jana Gilbert of San Angelo was best man. Miss Gilbert wore length empire-style of pink and burgundy. She carried a cascade rose.

Terry Foley of Littlefield brother of the bride as usher.

Registering the bride's book was nette Porter of Childress.

For her daughter, Mrs. Foley formal-length gown knit, matching corsage and a red rose corsage.

Mrs. Stephens grey formal gown matching accessories and red rose corsage.

Following the wedding reception was served Los Brisas Party serving table was a white lace cloth appointments of silver crystal.

The tiered white cake was decorated with fresh flowers of small babies breath, and by Rachael Petty, Fry and their Aunt.

The bride is a graduate of Littlefield School and attended Plains College.

The groom is a graduate of San Angelo Central High School and attended Angelo State University.

They are making home in San Angelo.

Earth UMW meets to install officers

EARTH—The United Methodist Women met Sunday evening after church for installation of officers and pledge service.

Mrs. Bessie Cearley presided over a short business session.

Pledge service was led by Beulah Newton, assisted by Norma Dawson and Betty Sulser.

Installation of officers was done by Rev. Bill Watson, local pastor of United Methodist Church.

Those installed were, president, Mrs. Lillian Holland; vice president, Mrs. Betty Sulser; secretary, Mrs. Carolyn Coner; treasurer, Mrs. Gladys Parish; program resources, Beulah Newton; mission co-ordinator, Norma Dawson; Christian Personhood, Mattie Axtell; social involvement,

Beedie Welch; Christian Global Concerns, Lena Grace Griffin; supportive community, Gladys Parish.

Refreshments of cheese ball, cheese slices, crackers, brownies, coffee and spiced tea were served by the hostesses, Betty Sulser and Boots Watson to members: Mmes. Bessie Cearley, Otelia Wisian, Rev. Bill Watson, Boots Watson, Lillian Holland, Norma Dawson, Adria Welch, Beedie Welch, Naomi Burgess, Mattie Axtell, Gladys Parish, Carolyn Coker, Beulah Newton, Mary Kate Belew and Melodie Roper, who presented special music.

of the total civilian
ce.

Billye was born with a mild case of brain damage affecting her central nervous system which caused waves of unbearable tension giving her a feeling of disquiet and a tendency to worry why she felt she was different than other people.

That handicap did not stop her from attending Public Schools and graduating from High in Littlefield. In March 1967, she entered the program of Vocational Rehabilitation. She was evaluated and placed in IBM training at Rutherford-Metropolitan School of Business in Dallas. Shortly after completing her training course as a qualified Card-Punch Operator and Typist, she was employed by the Trinity Universal Insurance Company in Dallas as a Key-Punch Operator. In February 1968, Billye accepted a Career-Conditional Appointment with the Internal Revenue Service in Austin, as a Card-Punch Operator. So she could be closer to home in Littlefield, she transferred to Reese AFB in December 1968 into her current position.

She has been employed in this branch continuously since that time with the exception of approximately 1 months' service in the Reports and Analysis Section of Transportation. In 1972, she received a Sustained Superior Performance Award for her superior performance as a Card-Punch Operator in the Item Accounting Branch. In addition to her continuing exemplary work performance, she has completed 22 semester hours at South Plains College in Basic

Accounting, Algebra, and Basic COBOL Programming; and is also very active in church work in that she has been the Plainview District membership Chairman of the United Methodist Church for the past four years.

Fritz Wisdom, Supervisory Supply Technician, states, "Billye has proven herself to be exceptionally well qualified in all aspects of her current assignment. She is an outstanding Card-Punch Operator. Her proficiency with the IBM 26 Card-Punch machine is made evident in that the unit operates continuously without a backlog. Since working in the Punch Card Account (PCAM) Unit, Mrs. Jones learned to operate the IBM 082 Card Sorter and IBM 548 Interpreter and also the Decolator. She also gives on-the-job training to newly assigned card-punch operators. I believe her handicap has not deterred her in any way in the performance of her duties and she is seldom absent due to sickness. In fact her 'can do' attitude and cheerful outlook are an inspiration to everyone that comes in contact with her."

Mrs. Jones said, "I hope other handicapped employees will see what I have done and apply themselves to go after whatever type of work they desire." She also mentioned that Chapter 7 "School of Solitude" in the book entitled "Help is Only a Prayer Away" by Etta Lynch tells how she overcame her handicap.

Billye was married to Richard Jones on Oct. 2, 1976. Richard is also handi-

BILLYE SMILEY JONES, data transcriber in the item accounting branch, 64th Supply Squadron of Reese Air Force Base at Lubbock, has been selected as the 1976 Reese Handicapped Employee of the Year. [Air Force Photo]

Phi Eta Omega Chapter receives certificate

Members of the Phi Eta Omega Chapter of Beta Sigma Phi Sorority met Tuesday night, Oct. 26, in the home of Beth Ann Durham, who was the hostess for the evening.

Before the meeting, members received their program booklets "In Your Own Time" and their Beta Sigma Phi booklets from the International office of Beta Sigma Phi.

The meeting was opened with the opening ritual, and after the roll call, the minutes of the last meeting

were read and approved.

Brenda Denton, the member advisor for the chapter, showed the members a Certificate of Organization which the Alpha Lambda Zeta Chapter had received from the International office announcing the name of the new Chapter Phi Eta Omega.

Each officer also received a letter of congratulations from the International office explaining to them their duties in their respective offices. The president, Cindy Ratliff, and vice-pre-

sident, Terri Peel received guidelines by which to conduct the meetings and other activities.

Loretta Benton, treasurer, gave her report. Nancy Allen, chairman of the Ways and Means Committee gave a report on the Hallowe'en Carnival Booth and final decisions were made about the booth.

There was no further business so the meeting was adjourned and the members repeated the Closing Ritual and Mizpah.

After the meeting the hostess, Beth Ann Durham, served applesauce meatballs, green sea salad, relishes of pickles, pickled okra, and peppers, and brownies to a guest Kathy Moore, and members Nancy Allen, Gina Beth Bartley, Lisa Batson, Loretta Benton, Christy Donathan, Cecilia McCamish, Lisa Matthews, Janice Muller, Terri Peel, Cindy Ratliff, and member advisor Brenda Denton.

A Banker's Viewpoint...

National opinion surveys continue to show that the majority of the American people have become cynical about the sincerity of their government, the honesty of business, and their hopes for a worthwhile future.

Although most people profess a belief in the free enterprise system, there's indication that far too many Americans lack a clear understanding of how the system works.

A recently published Harris Survey reports that, although ten years ago 55 per cent of American adults had "great confidence" in big companies, only 16 per cent express such confidence today. Other major segments of the economy - the executive branch of the federal government, Congress, and organized labor - score even worse in public judgement.

This erosion of public faith in the American system has taken place in spite of the fact that the average American knows the system has provided us with the highest standard of living ever enjoyed by any people anywhere, now or in the past.

So what is the reason for this paradox of thinking? You can name many things. For one, the study of economics no longer is given proper attention by schools and colleges. Many young adults have no foundation upon which to judge our system or compare it with others.

There have been many exposures of wrongdoing in government and business. But there's always been a measure of wrongdoing among human beings. That shouldn't sour people on the whole system.

We believe the basic problem is that we have become a nation of poorly informed nit-pickers. We let the columnist and the television opinion makers do our thinking for us. Unfortunately, too many of these are more interested in creating a sensation than in delivering solid facts.

We overlook the everyday good that goes on all around us.

It is healthy to criticize specific faults in our economy and look for ways to correct them. But losing faith in our system entirely can lead to a national suicide that certainly all of us in this still-free country are anxious to avoid.

Amherst dominates Whiteface, 28-0

By RICHARD ROGERS
A tenacious Amherst defense completely dominated the Whiteface Antelopes and paved the way for the offense to post an

impressive 28-0 victory. The Bulldog defense—sparked by the play of Gary McDaniel, Webster Johnson, Ricky Yantis, and James Ivery—scraped the visiting Antelopes to their hides, holding them to only 118 total yards. In fact, Whiteface was never allowed to penetrate the Bulldog 30.

The freezing weather halted the passing game of both teams, so Amherst turned their offensive chores over to running backs Johnny Rosemond and Webster Johnson. Rosemond, a 145-pound junior, slashed through the Whiteface defense 18 times for 171 yards, while Johnson toted the ball 19 times, for 101.

After an exchange of punts, Amherst had a first down on the Whiteface 40-yard line. Quarterback Ronnie Bearden went left and gave the ball to Rosemond who shot past the line and ripped 40 yards untouched for the first score of the game. McDaniel booted the extra point and with 6:05 left in the first quarter, Amherst led 7-0.

The Bulldog defense set up the next touchdown when a high snap on a punt was recovered by Ivery on the Whiteface two. Rosemond took the ball over on the next play behind the excellent blocking of the Bulldog line.

McDaniel's extra point attempt sailed wide to the right leaving the score at the half 13-0. For the greater part of the 3rd quarter, Amherst's defense punished Whiteface time and time again until the offense could overcome the cold to "ring up" their next tally. Following a bad punt, Webster bulled his way through the right side of the trenches, then sprung free and galloped 30 yards for the TD. Rosemond took the pigskin across the goaline for the two-point conversion that put Amherst ahead 21-0. Icing on the cake came as a

result of a 40-yard drive climaxed by a 10-yard run by Rosemond in which he first fumbled the pitch before outrunning the Antelopes around the left end to pay dirt. McDaniel chipped in the extra point and with 5:40 left to play, Amherst held a decisive 28-0 lead.

The victory was a welcomed relief for the Bulldogs because they had dropped four out of the last five games on small, but costly errors. "Our defense really played no better tonight than they have the last four weeks," stated head Coach Dwayne Gray. "It's just a matter of getting the necessary breaks that will either make you or break you."

When asked about the effective running of Rosemond, assistant coach (and brother of the head coach) Jerry Gray said, "No one can seem to get a solid shot at him. He will appear to be tackled when he slips loose for three or four extra yards that can really help you through a tough situation."

ce Beach visit ovah's Witnesses

Quansy, president of the Littlefield congregation of Witnesses, announced the semi-annual circuit supervisor, each, during the Nov. 9-14. The congregation anti-week of increased and spiritual benefits, the Mr. Beach's visit, stated. In addition to the benefits, the is designed to enhance Bible discussion people of all faiths community. Sunday through Sunday will be devoted to

the "field service". Beach will join members of the local congregation in making calls on residents of the community.

Highlight of the week comes Sunday when Beach gives the public talk entitled "What Kind of Name Are You Making With God?"

All activity is scheduled for the local Kingdom Hall.

Danny Lara to record for Mercury records

Danny Lara, son of Mr. and Mrs. Charlie Lara of Littlefield, has been approached to record an album in Nashville, Tenn. He received a call Wednesday to come to Nashville to be presented before Nashville stars, including Johnny Rodriguez, Tom T. Hall, Merle Haggard and Barbi Benton. He will leave Friday,

Contemporary furniture influencing decoration

Contemporary furniture influences fabrics for home decorating this fall, Mrs. Dorothy Powell, county extension agent, says.

Clean, smooth lines of metals, plastics and glass, along with the openness of wicker and rattan provide excellent complements to the colorful fabrics.

"Toned down" characterizes the many new fabrics to be used for upholstered goods, draperies, linens and wall coverings. Florals, stripes, ethnic

looks, textured designs, geometrics and abstracts are being produced in increasing numbers this season, with the trend being to mix complementing versions of these fabrics when decorating. Consumers will find costs for such prints a bit higher this season. These price increases depend on the amount of cotton on each cloth. Buyers report 100 per cent cotton fabrics will cost from 25-40 cents more per yards. The price of blends has not increased that much, the agent added.

Oriental or East Asian designs will be as popular as last year, while batiks seem to be declining, she said.

Ethnic prints are simpler than the solid look of the past. Florals look fresher, lighter and neater.

Color used in all designs are softer. Look for more beige and white, less brown and neutrals.

The use of deeper colors placed next to each other is also evident, she said.

the automatic savings account.

It works even if you don't want to save every month.

So you're worried about those months when you'd rather not make your regular automatic savings deposit. There's no need to be. If you'd prefer to skip a deposit now and then, all you have to do is call First Federal a day or two before your chosen deposit date and tell us not to make the transfer that month. That's all there is to it. And there's never a withdrawal penalty. Because Check-Mate interest is paid from date of deposit to date of withdrawal.

After all, it's still Your money. All we want to do is help it grow.

Check-Mate is A Transmatic Service

— Wildcats —

Continued from Page 1

Johnson tried a keeper around right end and was met only inches short of the goal line by Wildcat David Jones and the try failed. Olton led 6-0 with 3:58 to go in the half.

Littlefield took the kick-off and promptly fumbled back to the Mustangs. Leslie Gary broke away for a 20-yard gain on the first play and the Mustangs were knocking on the door at the Cats' 27 with just under three minutes to go in the half.

Gary carried for a first down to the 16, four plays later with 1:04

left. Johnson netted six yards on two carries and Gary carried to the 4-yard line on third down. With only one second remaining in the half, Olton called a time out.

Lloyd tried a field goal but the attempt was short and the half ended with the Mustangs ahead, 6-0.

THIRD QUARTER

Littlefield used a few breaks to score their points in the game. Olton shunned a punt on fourth down from the Littlefield 40 and Jack Speck's hard rush resulted in a three-yard loss. The Mustangs were also hit with a 15-yard

personal foul penalty and the Cats took over on the Olton 43.

The Wildcats picked up a first down and then on third down Rudy Ayala pinpointed a pass to Rudolph Smith at the 20. Smith slipped a tackle and hustled into the end zone for the tying points.

The snap on the extra point was bad and the point after failed and the score stood at 6-6 with 1:02 left in the third period.

The contest was far from over though.

FOURTH QUARTER

A fourth down and one pass play by the Wildcats went incomplete and the Mustangs took over at mid-field. Williamson was the workhorse on the drive for the Mustangs. He carried seven consecutive times for 23 yards down to the Cats' 11-yard line.

Olton was penalized five yards back to the 16. The Johnson kept for one yard with 29 second left in the game. Johnson passed to Offield for a 7-yard gain to the 8-yard line. On third down, Johnson's pass was incomplete.

On the fourth-down try, the Mustangs elected to try the field goal again. The snap was bad and Rudy Ayala and Ronnie Milligan combined for the tackle at the five-yard line.

The Cats took over and ran the clock out.

SCORING FIRST QUARTER No Score

AS THE SNOW FLIES, Olton's Mark Williamson, 78, is stopped inches short of a touchdown in second quarter action Friday night. The Mustangs fullback

scored the only Olton touchdown on the next play as the two rivals battled to a 6-6 tie in the snow. Wildcat Ralph Mendez, 82, makes the tackle and is assisted by Layne

McKinnon, 72; David Ronnie Milligan, 51; Smith, 33; and Rudy

[Photo by Dary]

Hart spooks Springlake-Earth, 42

By JULIAN SAENZ
The Hart Longhorns took the lead in district 3-A as they easily rolled over Springlake-Earth in a 42-0 victory.
Hart started their scoring attack in the first quarter when Kerry George sneaked in from 2 yards out. The extra point was good to give the Horns a 7-0 lead.
The Longhorns' second first quarter TD came on a 5-yard run by George. The extra point was good again.
In the second quarter, Glen Black added to the

Horns' tally as he went in for the six points from 2 yards out. The extra-point attempt was no good. The Horns took a 20-0 lead into the dressing room at the half.
The Horns came out in the second half scoring. Hazzar Castillo started the scoring in the third quarter when he stepped into the six-point area from five yards out. The extra point was again no good.
Hart's biggest tally came in the fourth quarter as the offense exploded for 16 points, while the defense

held the Wolverines scoreless throughout the game.
Black scored his second TD of the night for the Horns on a 5-yard run. The extra point was again no good.
An unidentified Longhorn booted a 35-yard field goal in the opening minutes of the fourth quarter to give the Horns a 35-0 lead.
The final tally of the night for the Horns came on a 23-yard scamper by Lester Aven. The extra point kick was good and the Horns handed the Wolverines their first loss in loop

play by a 42-0 decision. Singled out as outstanding on defense for the Wolverines were Kirk and William Flores standing offensive for the Wolverines Ben Johnson and Geissler.

Anton Bulldogs ground Eagles

By EMIL MACHA

The greatest show on ice occurred Friday night as the Anton Bulldogs batted down the Ropes Eagles aerial catch-up attack, 19-13, Friday night at Anton.

The sidelines laden with about two or three feet of snow scraped from the field failed to chill the Bulldogs as they heated up the gridiron to ice the win in the final minute of the game.

It was a 13-13 ball game with 24 seconds left in the game as Ray Stone made his scoring debut on the completion of a pass from Zane Butler for a 32-yard pass play and the winning touchdown.

The first scoring drive was set up when Ropes recovered a Bulldog fumble on the 17 and Ropes' Bart Bradshaw scored for an Eagle six pointer with 7:21 left in the game. The extra points by the way of a pass was incomplete.

Anton's Steve Green took

the kick-off on the Bulldog five and returned it to the 31. Four downs later Anton had to punt as they failed to get the necessary yardage for a first down. On the punt, Randy Melton fumbled the ball and Green recovered on the 14. Rex Jones received a good block on the line as he broke through the right side and scampered 14 yards to tie the game, 6-6, with 4:55 left in the initial period.

Matt Grace jumped on a Ropes fumble on the 39 to set the stage on Anton's next scoring drive. Eight plays later that netted three first downs Butler passed to Sammy Peacock for the Bulldogs go ahead score with 28 seconds left in the first quarter.

The point after attempt was about a foot short.

In the second quarter, Anton had to punt the ball on the fourth down. Steven Sims brought it back to the 45. From this point Ropes ground out yardage to the 26 before Bradshaw ran the distance to tie the ball again with 8:36 left in the first half. PAT was to the left.

The remainder of the half was ball swap as Anton had to punt on the fourth down only to get the ball back when Richard Alvarado pounced on an Eagle fumble. Again the Bulldogs gave the ball up, this time on downs.

Lonnie Timms intercepted a Ropes pass on the 49. Doug Willis got it back the next play by intercepting a Bulldog pass. The ball changed hands again before the half.

At intermission the score was tied 13-13.

The third quarter was scoreless as "fumble-itis" took its course as the temperature continued to drop.

Anton lost the first fumble to Ropes on their second play when Willis recovered the ball on the 40. Mike Sea retaliated about a fourth of the way in the quarter by jumping on an Eagle fumble on the 34. Anton fumbled again about four downs later and Gary Means recovered for Ropes. Robert Nichols got the ball back for Anton by jumping on the loose ball at the 47.

Neither team scored in the third period although Anton did get within the Eagle 20-yard line twice.

In the fourth quarter the two teams seasawed up and down the field with the big play being a 32-yard pass play from Butler to Stone with 24 seconds in the game to give Anton the win.

Ropes went to the air in the final seconds to play catch up ball. The first down pass fell incomplete, Richard Alvarado deflected the second down pass and Green knocked down the third down aerial as time ran out.

Timms took offensive honors by rushing for 123 yards to give him a total of 1,029 yards gained in 165 carries in the eight games that he played in this year.

Steven Simms was a standout for Ropes with 114 yards rushing for the night.

Bill Hodnett ran for five touchdowns and three extra points to pace the Three Way Eagles to a 68-47 win over the Grady Wildcats Friday night at Grady.

The Wildcats had a 26-28 halftime lead before the steamrolling Eagles chalked up an impressive second half to take the win.

Grady scored first from the three after recovering a Three Way fumble. The extra point kick was good. Three Way came back as Hodnett scored his first TD on a 65-yard run. The points after failed and the Eagles trailed by two.

Donnie Young scored from 38 yards out to give the visiting team the edge and Hodnett got his first of three extra points.

Louie Key went into the

scoring act for Three Way on a 41-yard scamper, the extras were no good. Three Way led, 19-8.

Grady was the last to score in the first quarter on a seven-yard pass and booted their extra points for a 19-16 edge.

The host team took the lead in the opening minutes of the second quarter on a 20-yard run, extras failed. The score stood, 22-19.

Key retaliated for the Eagles on a 21-yard run and his second score of the night. Hodnett ran the extras. Three Way led 26-22.

The Wildcats went ahead again on a 17-yard pass play and the extras failed.

At halftime the scoreboard read, Grady, 28, Three Way, 26.

It was a new ballgame in

the second half as Three Way got two TDs in a row with Key running for 34 yards to get the first one and Young scoring from 79 yards out after intercepting a Wildcat pass. Hodnett capped the Young TD.

Grady came back in the quarter for a score on a 12-yard pass play. They passed for the extra point.

At the end of the quarter, Three Way led, 39-35.

It was Three Way all the way in the final stanza with Hodnett scoring from 43, 18 and four yards out. Young booted the extras.

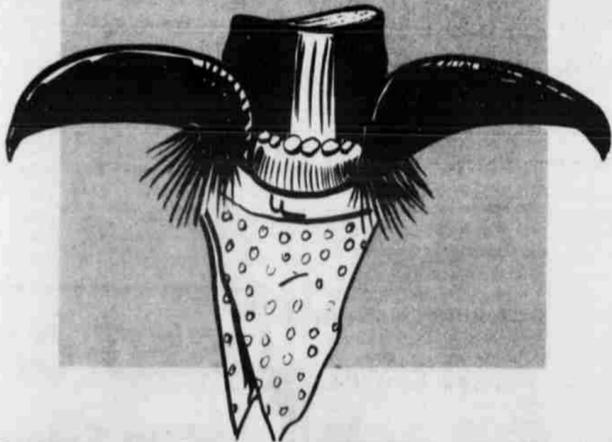

Grady was unable to catch up in the quarter as they were held to two fourth-period TDs.

Hodnett and Key led the Eagles offense with each having a combined total of 410 yards rushing. Hodnett got 250 yards in his 18 carries and Key 160 in 12 times with the ball.

Rural rental housing project under study

A 20-unit rural rental housing development for Littlefield, Amherst, Olton and Earth is in the process of being approved for locations.

The Rural Rental Housing program is under the jurisdiction of the FmHA.

In Littlefield a non-profit corporation called Littlefield Homes, Inc. has been

formed and a suitable site for construction of 20 units is being considered. The 25 local people involved have several sites in mind, according to Robert Hicks with the FmHA in Littlefield. He and the district FmHA will soon be looking at these locations.

At Amherst, applications are coming in for 10 units to

be constructed there. Olton and Earth residents have started work in similar projects. Appraisals have been done, and these communities are looking for good sites to build.

The main purpose of these rental housing projects is for low income families and older persons.

Persons renting will pay according to their income. In some cases there will be possibilities of reduced rental payments.

After a location is decided upon, Hicks said it would be a month or two before notice would be given on whether such sites were approved. He said it would probably be spring before building programs could be started.

GAYLY-COLORED FLOWERS bowed their heads Thursday and Friday with the weight of snow. This picture was taken Thursday morning, and a heavier snowfall fell Friday morning. [Staff Photo]

4th graders good politicians

By NILAH RODGERS

"If I were president, I would stop inflation, stop welfare from people who are lazy and don't want to work. I would stop busing kids that live close to school to a school about five miles from their house. Also, I would get people to work only five days a week so they could have some time with their family and go to church on Sunday."

Were those words spoken by Jimmy Carter or President Ford? And were they in interviews or in rounds one, two or three of the debates on television? This is not a multiple choice test, and these are not the answers. These words came from Littlefield fourth grader Danna McDole who was asked to complete a sentence saying "If I were elected president I would . . ."

Several of the fourth graders showed plenty of political awareness. Netalie Nelson, Dianne Hobrathsch and Kay Lynn Young would be all things to all people, but you can bet they know what is going on.

Barbara in Erma Dean Water's class ignored the question of what she would do if elected and stated, "I am going for Jimmy Carter. I think he is a good man."

If the kids could vote, Douglas Craig's platform would have clout. He wrote that if he were elected president, children would get to see all Walt Disney shows free in a theatre for kids. He added that they would "respect" the flag no matter what. Perhaps he has considered bouncing movie goers who aren't respectful.

Similar ideas appeared on inflation, pollution, education and busing, but readers might be surprised at the number of ways some of these words could be and were spelled.

Shelly Archer would make "prizes" of clothes go down but the values will go up two percent. If she is elected president, men won't have to work at night. She will let them work in the daytime so they can be with their family at night.

Martin Reyes should probably consider the office of secretary of agriculture with his double talk. He wrote, "For the people that lose crops, I would tell the farmer that owns the farm to pay taxes and everything and then I would help him to grow the crops."

Gun control pros and cons entered into some of the remarks. Gary Lee Simmons would save the bald eagle from "extinction," and he'd save the whale, too.

Timothy Richards would make no more wars for the world. Not only that, but he will help real old people go to the old folks home.

A garden of misinformation flourished in many of the statements. Maybe what they meant was perfectly clear to them, but Elaine Chisholm would "stop people from preventing pollution."

Debra Dawn Sims would

I'd let all kids see Walt Disney shows free.

But they must "respect" the flag no matter what.

let busing in the state and stop inflation in.

Douglas Gilbert would lower taxes down so that no one would have to pay taxes on anything that costs over 10 cents.

LaTrecia McCarty would get more oil and "make the 'taxis' lower."

Miguel Romero is going to have to brush up on his spelling a little before he becomes "precedent." Several other presidential hopefuls will need a speech writer, like Sam Wilson who plans to "stop the waist of heat and energy."

Greg White is very concerned about stopping "plushune," and he wants to make a law against people dumping trash in "likes" and rivers.

George Davis is going to build more oil wells and build an "infermashan" place. Can't you just see it now. Instead of a regular memorial library, we'll have the George Davis Infermashan Place shaped like an oil derrek.

Christine Smith "would pay a tenchen to the law."

Paul Galloway stated flatly that he would make a law against "aborshon."

And Sandra Garcia served notice against the overweight. Among other things, she would help children who do not have a mother and father, she would help people be nice and clean, and she would not let fat people eat.

Connell Johnson belongs to the old school that says you can catch more flies with honey than vinegar. If he is elected president, he

promises to take all children of Littlefield White House and "Hawia," and in the der.

Rudy Espinoza Jr. gets down to business concern Rudy. If president he will have fun, see a bunch of tries and beg cities, and live in a grass house." Tag Price capitalist. He would "raze" and buy a airplane.

Kirby Cantrell made the presidential election confused with the national water among bonds. At any rate, men will like his making more lakes putting more fish in the water.

Likewise, Jeffrey M. lor would probably vote to those who oppose the mile speed limit, but he "would run up speed." He also plans to clean out the river, smokers take note, going to stop making "rets."

Tammy Boomer is to help the American eagle, prevent crime, up towns and cities, vent wars and try to vent forest fires.

Becky Cary approached things positively, would give more jobs. Not only that, but those who have had she will try to give better ones.

If any election was overlooked, M

Stueart tried to correct including "seeing there is a policeman every school crossing United States."

PFC Chavez in Germany

Army Private First Class Alfredo Chavez of Anton, recently departed for Germany for six months of temporary duty, where he will train with other members of his unit under the "Brigade '75" program.

The "Brigade '75" program involves the rotating of 2nd Armored Division units to Europe to increase Army combat capability while maintaining a scheduled level of troop strength.

PFC Chavez, son of Mr. and Mrs. Pablo Chavez, is regularly assigned as a cook with the 2nd Armored Division at Ft. Hood, Tex.

Mareo Martinez receives medal

Army Sergeant Mareo M. Martinez, son of Mr. and Mrs. Louis Martinez of Anton, recently was presented the Good Conduct Medal at Ft. Hood, Tex.

The medal, established in 1941, is awarded on a selective basis for those who distinguish themselves from among their fellow military personnel through exemplary conduct, efficiency and fidelity during their active military service.

Sgt. Martinez received the award while assigned as a rifleman with the 1st Cavalry Division at Ft. Hood.

The Promises of God

By CARL F. KASTEN

By CARL F. KASTEN

"If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land." 2 Chronicles 7:14.

This conditional promise has perhaps been quoted more frequently than any other passage during this Bicentennial year to remind our people of our spiritual heritage as well as our dependence upon God for the economic well being of our nation. However, with election two days away and the indication by many that they will not vote, prompts me to share this promise for a devotional.

Are we looking to our national leaders to cure all our economic ills, to be our Saviour, to give us everything we want without much effort on our part, to bail us out of every trouble we have?

Many of our problems are of our own making, caused by selfishness, greed and disregard to moral principles.

Man's responsibility is found in four words of this promise and they are, HUMBLE, PRAY, SEEK, and TURN FROM, while God's part is HEAR, FORGIVE and HEAL.

The purpose of national leaders is outlined in Romans Chp. 13 and I quote in part. "The powers that be are ordained of God,— For rulers are not a terror to good works, but to the evil.— For he is a minister of God to thee for good."

Refusing to vote is rebellion against God and neglecting a God-given privilege and responsibility.

Saying in effect, "I don't care what happens to my country, all I want is a good time and a full dinner pail. I won't accept any responsibility for the future of my country and my children."

Thought: "For my people have committed two evils; they have forsaken me the fountain of living waters, and hewed them out cisterns, broken cisterns, that can hold no water." Jer. 2:13.

Ex Olton athletes inducted into Ho

CIRCLE— Four former Olton High School athletes were inducted into Olton Athletic Hall of Fame in ceremonies at the recent Homecoming Pep Rally held in the high school gymnasium. These are Luis Hair, Carl Hooper, Vernon Nixon, all of Olton, and Thurman Lewis of Carlsbad, N.M.

Mrs. Marilyn Miller narrated the accomplishment of the four who were each named on a small individual brass plate mounted on a plaque which will be in the lobby of the gymnasium.

Hair played football in Olton High School from 1926-1932 as quarterback, punter, kicker and defensive half-back. He was captain of the basketball team which he served as guard and forward. In track he entered pole vault and shot put.

In tennis, Hair was county singles champion and second in Regional at Lubbock competing against all class schools. In 1933 he played halfback and punter on Texas Tech team.

Hair coached Olton High School football teams in 1942 and 1943 and was football and basketball of-

ficial fifteen years. He

championship golfer. Carl Hooper was standing athlete in '29 and '30 when all state against each other. He was high point on track in County history last Meet and won state finals in high hurdles.

In 1929 he won high hurdles and second low hurdles in state. Hooper won the championship in hurdles, tying Kellen Columbus, Ohio, for best time in our nation.

In 1930 Hooper was leading at state when he fell on the last hurdle represented Olton Texas at National in Chicago, Ill. where he made it to the finals.

Hooper played as a three years on the team of Olton High School.

Thurman Lewis was outstanding athlete in 1925, '26, '27, and '28. He played fullback and backer on the football and was guard and center of the basketball which was champion of county.

Three years Lewis the 100 and 220-yard in the county meet. In 440-yard he won the in 1927 and completed the state level.

Lewis was on the winning team and was valedictorian of his class in 1927.

Vernon Nixon was captain of the 1935 Mustang Football team. He played basketball in 1936 and again in 1936.

He lettered in track 1934-1935 and 1936. In 1936 he competed on state level in the 100-yard dash and the 220-yard hurdle.

Nixon was on the staff and a member of Glee Club.

Cystic Fibrosis Drive nets \$850.61

SPRINGLAKE— Under the direction of Mrs. Harlon Watson of Springlake and Mrs. Ricky Byers of Sunnyside, contributions to the Cystic Fibrosis 1978 Drive totaled \$850.61 in the two communities.

Mrs. Bill Morris, chairman for the Earth campaign, reported \$536.11 collected in that area.

Mrs. Morris said contributions may continue to be left at Citizens State Bank. Memorials may be mailed throughout the year to Lone Star Cystic Fibrosis Foundation at 4414 Centerview

Drive, Suite 295, San Antonio.

FCC ignores public interest' in adopting telephone policy

Federal Communications Commission has abandoned the philosophy of "universal service" set forth by Congress in the Communications Act of 1934 — the philosophy of assuring the widest possible availability of basic telephone service at the lowest practicable cost to the customer.

The Consumer Communications Reform Act of 1976, which has gained nearly 200 congressional sponsors, has been introduced in Congress to reaffirm the "universal service" principle.

"The FCC, without the blessing of Congress, has issued a series of decisions structured to lower rates for certain large business customers, without regard to the impact on the cost and quality of service available to the remaining majority of the population," the GTE chairman testified at the opening session of three days of exploratory hearings by the House Subcommittee on the telephone industry.

Brophy told the subcommittee in the provision of intercity private-line telephone service over selected routes carrying extremely heavy traffic which is highly profitable.

"It is clear that the opportunity for this pseudo-competition would not exist if the telephone companies were permitted to compete on the basis of their own cost of providing specific services," the GTE chairman stated. "Recognizing this the FCC, while on the one hand encouraging so-called competition by the new entrants, has found it necessary, on the other hand, to prohibit competition by the existing telephone companies — a cartelization of markets."

Brophy cited a summary released late last week by the FCC of its initial report on a broad inquiry into the economic impact of competition, noting that only under congressional pressure did the commission even agree to consider the subject.

Not surprisingly, the report finds "no basis for the industry claims that private-line and terminal equipment competition either have had or are soon likely to have any significant adverse impact..." he said.

Only 26% of Americans have regular health checkups. Fewer people would die of cancer if more people had regular examinations. Get smart, says the American Cancer Society, have a checkup every year.

firm the "universal service" principle.

"The FCC, without the blessing of Congress, has issued a series of decisions structured to lower rates for certain large business customers, without regard to the impact on the cost and quality of service available to the remaining majority of the population," the GTE chairman testified at the opening session of three days of exploratory hearings by the House Subcommittee on the telephone industry.

Brophy told the subcommittee in the provision of intercity private-line telephone service over selected routes carrying extremely heavy traffic which is highly profitable.

"It is clear that the opportunity for this pseudo-competition would not exist if the telephone companies were permitted to compete on the basis of their own cost of providing specific services," the GTE chairman stated. Ways to restore finish on furniture by cleaning

One easy way to restore the finish on some used furniture only involves cleaning — but cleaning with a reconditioner cleanser, according to Dorothy Powell, Lamb County Extension Agent.

"Before stripping and refinishing, try a cleanser conditioner to restore natural grain and color of wood, conceal scratches and retard crazing or checking."

"It will also remove cloudiness caused by smoke, grease and dust, and will recondition wood dried from overheated rooms," she advised.

Turning to specific directions for making the cleanser conditioner, the agent said to mix in a bottle one part gum turpentine with three parts of boiled linseed oil.

"Cover the mixture tightly and shake well — it will keep indefinitely."

To apply, pour enough cleanser conditioner into a dish of hot water to cover the surface. Do not stir.

Dip a cloth into the floating oil mixture — the hot water makes the oil easier to use. Apply to a small area at a time and avoid getting too much moisture in joints or glued areas.

Rub the surface with the oil mixture. If there is a build up of dirt, dip grade 3/0 steel wool into the mixture and rub lightly.

Wring out a clean cloth with clear warm water and wipe the furniture surface. Discard the mixture when the water cools. Do not reheat because the mixture is flammable and becomes gummy.

"If you use the cleanser conditioner on shellac finishes, use it sparingly

Reception to honor two artists

A reception Sunday afternoon, Oct. 31st, for artists Cecile Foster and Mickey Stephenson, will kick off their month-long art show in November at South Plains College, hosted by SPC Faculty Women's Club.

The reception will be from 2 to 5 in the SPC Fine Arts Building, and is open to the public.

The exhibit marks Mrs. Stephenson's first show at SPC.

A Sudan resident for 25 years, Mrs. Stephenson has studied with Charles Reid of Connecticut, Robert Wood of California, Milford Zornes of Utah, and Walter Hook of Albuquerque, N.M. Mrs. Stephen took up water colors two years ago, and has worked in sculpture 20 years.

Mrs. Foster, vice-president of Texas Water Color Association, teaches private art lessons in her Levelland studio. The Fosters moved to Levelland nine years ago from Sudan,

TRAINS
 One of mankind's fondest memories is that of the passenger train, or as was known to many, as the Express, was man's most

luxurious, safest, and fastest way of travel.

Literally billions of dollars of finance was invested in these trains, and the super track that was necessary for the speed and comfort they provided. The progress of the nation was depending on this, man's fastest way of travel. Towns that did not have passenger train service had a slow way of progress, and in many instances were abandoned.

From the middle 19th century until about 1970, they helped America grow. Constantly improving their services and luxury way for man to travel.

Luxurious, fast trains from coast to coast were a daily occurrence. Pullman, with the finest of comfort, were available at a slight extra charge. Diners, observation cars, lounges, were enjoyed by all.

When the Santa Fe train first came to Lamb County, it carried a mixed train of some coaches and some freight cars. But, this train service soon became known as a main line. It provided direct service from the Gulf Coast to California, and had direct connections at Clovis, N.M. with the Santa Fe Chief and San Francisco Chief.

These trains came daily from Chicago to San Francisco, and were said to be the fastest and most dependable trains from east to west.

This main line branch from Clovis to Waco had its special pullman service and diner service, which became a part of the Big

Chiefs at Clovis, N.M.

Two trains each way was a daily occurrence through Lamb County, and their express facilities was man's fastest way for supplies to all parts of the country.

These were a pride and joy to everyone. In the early

days, most of the town people went down to see the train come in. To see someone go, and others arrive, was enjoyed by the lively set, and often, a school teacher's greatest treat to the pupils was to take them on a ride to

Clovis, or Lubbock, and then catch the next train back home.

But, the days of these express are over, and passenger service on a train is not to be had. The modern airplane, with its giant jets, has taken over man's tra-

vel, and a lot of the wealth is being lost. In this year of children of today know the beauty and so much to their and grandparent.

Agriculture exempt from OSHA for year

Something has happened in our nation's capitol which will be of interest to all agricultural producers as well as other businesses, notes Dr. Gary S. Nelson, safety engineer with the Texas Agricultural Extension Service.

As of Oct. 1, farms, ranches and other enterprises defined as "agricultural operations" who have 10 or fewer employees at any one time, are exempt from all requirements under the Occupational Safety and Health Act (OSHA) for one year.

"Annual attempts to amend OSHA during Congressional floor debate on an appropriations bill succeeded this year," points out Nelson. "Certain amendments have been attached to the appropriations bill for the Departments of Labor and Health, Education and Welfare. All OSHA operating funds for fiscal 1977 are in that bill."

The bill stipulates that no civil penalties would be proposed on first-instance OSHA violations (other than serious, willful or repeated violations) unless

10 or more violations are found, explains Nelson. The bill also exempts from OSHA coverage farms with 10 or fewer employees.

President Ford first vetoed the \$56.6 billion appropriations bill for the Departments of Labor and Health, Education and Welfare, including \$130.3 million for OSHA, on Sept. 29, on the grounds that it exceeded by \$4 billion the sum he requested for fiscal 1977. However, Congress overrode the veto the following day. The bill will provide \$130.3 million over-all funding for OSHA, including appropriations for the preparation of inflationary impact statements, education, research and consultation activities, and an increase of the compliance staff.

"Someone has said that it is differences in opinion which make horse races, and that is certainly the case here," contends Nelson. OSHA restrictions were designed to give some relief to small farms and small farms. OSHA estimates indicate 87.5 per cent of all farms in the

United States have 10 or fewer employees. However, some Congressmen

hold that "exemptions, regardless of the number of employees, regardless of

the type of industry, create a second-class group of American workers.

1976 cotton crop prospects

bright despite early freeze

Despite an unusually early freeze that brought an end to cotton growth in the northern half of the Texas High Plains all indications point to a better than expected crop, says a Texas Agricultural Experiment Station cotton physiologist.

Dr. Jack Gipson who has been testing cotton samples from all over the South Plains area, says better than average boll maturity may push total yields up from October estimates by the Lubbock Cotton Exchange.

In the areas hard-hit by the Oct. 8 freeze in the Littlefield-Sprinklake area, values averaged 2.7 to 4.3, depending on the degree of maturity at the time of the frost.

"With approximately

2,507,500 standing acres in the 25-county High Plains area, the projected yield was pegged at 1,786 million bales by the Oct. 11 estimate," Gipson says. "It now appears this estimate may be low, due to better than average boll maturity at the time of the unseasonably early freeze of Oct. 8."

Gipson says that micronaire values will be considerably above average this season. He bases his statement on the results of samples he has taken throughout the High Plains region since the killing frost of Oct. 8. Of 58 fields sampled, the average micronaire value has been slightly over 3.7. This compares with a long-time average value of 3.4.

"Of the various fiber quality measurements used in the cotton industry, micronaire is of most concern to area producers since it is invariably the limiting quality character for this area," Gipson says. "Micronaire provides a measure of the maturity of cotton fibers. Although it is not a measure of fiber thickness per se, it is closely correlated with fineness that it serves the cotton industry as a reliable indication of fiber maturity."

Fineness, in turn, is closely associated with yield since a coarse fiber will contain more cellulose than a fine fiber, Gipson explains.

At the time of the Oct. 11 estimate, most officials were expecting micronaire values in the range of 3.2-3.3, due to the early freeze that partially desiccated or killed a large part of the High Plains crop. Based on Gipson's samples, however, it now appears this value was "much too low, so yield should be better than anticipated at the time of the freeze."

In addition to increased yields because of higher micronaire values, marketing discounts will be less than expected, he adds. Cotton with micronaire values of 3.5-4.9 are not discounted, but at 3.4 and below it is discounted by ranges, such as 3.3-3.4; 3.0-3.2; 2.7-2.9; and 2.6 or less.

On the lower micronaire ranges, a bale may be discounted by as much as \$25 to \$30. On the long-time average, about 60 percent of the crop for the 25-county area falls in the penalty range of 2.4-3.4. Thus, a shift upward in micronaire values up to 3.5

means more dollars per bale.

Of the 58 fields sampled by Gipson, 19 fell in the 2.4-3.4 range. This would put 67 percent of the crop at 3.5 or above.

His samples showed a wide variation in micronaire values, he reports. Fields south of Lubbock in the Tahoka area which were replanted late after spring hails, and fields which were hard hit by September hails averaged from 2.4-3.6. Earlier planted cotton in the area and on south to Lamasa and west to Seminole averaged 4.1 to 4.8.

Within a 15-mile radius of Lubbock, values ranged from 2.4 to 5.4 with an over-all average of 3.7. In the region from Lubbock to Plainview, over-all averages were again 3.7.

Since producers are increasingly concerned about micronaire values, Gipson says, they are shifting to varieties that have high micronaire potential.

This accounts in part for the higher ranges measured in his samples, he says. However, the high micronaire is primarily due to favorable temperatures during August and September.

Social Security maximum to increase to \$16,500

Beginning Jan. 1, 1977, the maximum amount of earnings in a year that count for social security will automatically increase to \$16,500, up from this year's maximum of \$15,300 according to James B. Cardwell, Commissioner of Social Security.

Also in 1977, the maximum amount that a beneficiary can earn and still get all his social security checks will increase to \$3,000 in a year under the same automatic increase provisions of the law, Commissioner Cardwell said. The 1976 figure is \$2,760.

People who earn more than \$3,000 in 1977 may still get some social security benefits, but every two dollars they earn above \$3,000 may cause a reduction of one dollar in their social security benefits for the year.

No matter how much they earn in 1977, they can get their full benefit for any month in which they do not earn more than \$250 in wages (up from \$230 in

EARTH NEWS

FALL IS definitely here. The corn and small grain harvest is almost finished and the cotton harvest has begun, but not in full swing yet.

WELCOME to Mr. and Mrs. Long who have bought the Herchel Martin home and also the Texico Station.

MRS. MYRA Dill Metcalf has bought the Howell's Fashions and the building that housed the Howell's Floral. Mrs. Metcalf will increase her stock and add Toddlers and Teens.

MYRA DELL Metcalf, her mother, Mrs. Wells, of Hart Camp, Mrs. Dene Wendborne and Mrs. Sawney Branscomb left for Dallas Sunday morning to attend the market.

MR. AND MRS. Leon Foster spent from Thursday to Saturday with their son and daughter-in-law, Mr. and Mrs. David Foster of Clairmont.

MRS. LENA GRACE Griffin of Earth and her sister, Mrs. Lanau Schaffer of Olton attended homecoming at a small community near Paris over the weekend. They also had a sister from Ft. Worth and two brothers from Freeport to meet them there.

SPRINGLAKE- EARTH band director, some of the parents and most of the students, have picked up corn the last two Saturdays. They netted a profit of approximately \$2,000 to

help pay for the band trip. These kids are working for it and will make it.

BALD ISN'T BEAUTIFUL

Cotton research, promotion being urged by Council

The vital need for cotton producers to maintain and build momentum for their fiber in the market place through increased research and promotion was stressed

FmHA emergency loans available

Emergency Loans for farmers, ranchers, and operators are available through county offices of Farmers Home Administration (FmHA), Robert M. Hicks, FmHA County Supervisor, said Thursday.

Robert M. Hicks asked that those in Lamb County who need farm credit as a result of drought or hailstorms make their needs known at the Farmers Home Administration office located at 118 West 4th Street in Littlefield.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home Administration until December 14, 1976, for physical losses and until July 14, 1977, for production losses.

FmHA loans covering actual physical and production losses may be used to replace installation, equipment, or buildings lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses can be made for annual operating expenses or to make major adjustment in farming or ranching operation. "Funds can be used for essential operating and living costs," Hicks said.

Loans covering actual losses are made at an in-

terest rate of five percent and are scheduled for repayment as rapidly as feasible, consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon the purpose of the loan.

The interest rate for short-term loans for farm operating purposes is 5 percent. Long-term loans are being made at an interstate rate of 8 3/4 percent.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from other sources. Emergency loans can be used to help the farmer restore damaged operations.

Hicks stated that his office day is Wednesday of each week from 8 a.m. to 5 p.m. The office is located at 118 West 4th Street, Littlefield.

at a meeting in Lubbock Oct. 13.

Presiding was Lloyd Cline, Lamesa producer. He explained the meeting was one of a series being arranged by the national Cotton Council to discuss cotton's research and promotion needs and opportunities and a proposal to meet those needs.

Details of the proposal were explained by Producers L. C. Unfred, Tahoka, and Donnell Echols, Lamesa.

"Under the proposal, producer assessment for research and promotion would be increased by four-tenths of one per cent of the gross sales price of each bale of cotton, beginning with the 1977 crop," Echols stated. "This would be in addition to the current \$1 per bale."

He added that after 1977 the supplemental assessment could be increased in increments up to one per cent on the recommendation of the Cotton Board and the Secretary of Agriculture.

"The Cotton Board has made it very plain, however, that this would be done only after an in-depth study showed conclusively

that the program was being conducted with maximum effectiveness, that its effectiveness could be increased only with additional financing, and that producers themselves indicated an overwhelming sentiment for an increase," Echols stated.

He further explained that all other aspects of the program remain virtually unchanged, including the right for any producer to obtain a refund.

The speaker stated that testimony at recent U.S. Department of Agriculture hearings across the Belt indicated strong producer support for the proposal.

He added that the enabling legislation calls for a referendum in which producers would vote on increasing the assessment.

He explained that in 1975 producers of synthetic fibers spent \$230 million in fiber research compared with \$5.4 million by growers through Cotton Incorporated (CI). The odds in fiber advertising ran \$60 million versus \$3.4 million for cotton.

Pointing out that inflation has hurt cotton's research and promotion effort, he said the \$1 per bale ap-

proved by growers in the 1966 referendum will buy only 60 cents worth of these tools today. In addition, supplemental government funds now have been eliminated.

Cited as areas where "we can expect to get more for our money" were the following:

1. Increased textile research in durable press, fire retardance, and knits;

2. Agricultural research in specific problem areas, such as byssinosis and pest management;

3. Stepped-up fabric development and fashion support to keep mills thinking about cotton and higher cotton blends;

4. Much heavier merchandising and advertising support to increase consumer demand; and

5. More work in the international field to increase exports.

It was emphasized that in most areas additional funds will go directly into programs since CI already has an efficient and professional staff in place.

A film depicting how the CI staff is conducting the current program from its New York and Raleigh offices was shown.

This corduroy top and bottom won't cost you an arm and a leg.

At \$17, the price of this great fitting Body Work pant looks as good as the trim, contemporary styling, the scooped front pockets and back pocket hidden in the yoke.

And with fine detailing like scoop pockets set in the front panel, the \$25 price tag on the jacket is pretty attractive, too. In a blend of 50% Trevira

polyester and 50% cotton for easy care. And comfort.

And if you think this Body Work outfit looks good on paper, wait'll you see how good it looks on you.

Body Work by Haggard. The price looks as good as the styling. **Pants \$17 Top \$25**

SHOP EARLY FOR CHRISTMAS

Childbirth Without Pain classes set

The Childbirth Without Pain Education League will be holding a new series of class teaching the Lamaze method of childbirth.

The classes will begin the second week of November in the Library of South Plains Hospital and Clinic in Amherst.

Through knowledge, training and work, childbirth can be a participating experience for a man and a woman. The Childbirth Without Pain Education League (CWPEL) originated through the efforts of a group of women who were striving to have an easier and more rewarding birth experience.

Classes consist of a series of seven weekly meetings, held informally with a limited number of students and taught in the eighth and ninth months of pregnancy. Most women choose to have a coach attend classes, usually the husband or a friend.

The Lamaze method allows the mother and coach to work together with the doctor, preparing for a normal participating labor and birth. The goal of CWPEL is to have the healthiest, safest, happiest birth experience for mother, father and baby.

For information about these classes, contact Pat Behnke, 385-6043 in Littlefield.

Presenting

Wildcat Band 1976-77

Littlefield Bands To Participate In U.I.L. Contests

The Littlefield Wildcat Marching Band will participate in the UIL Marching Contest, Wednesday, Nov. 3, at Jones Stadium on the Texas Tech Campus. The Wildcat Band will march at 11:20 a.m.

Judges for the contest are Bill Dean, Odessa; Jeff Doughten, Pampa; and Richard Crain, Belton.

According to high school band director, Tom SoRelle, the Wildcat Band will enter from the north end zone and play the march "Macarena". Next the band will do a series of block drills while playing the march "Entry of the Gladiators." As a change of pace the band will then march their slow stride to the march "Strategic Air Command." A series of step two drills will follow while playing "British Eighth" and then the band will exit the field in long company fronts playing "Grandioso."

Judges will rate each band I, II, III, IV, or V.

The Wildcat Marching band is composed of 92 marchers; 30 players, eight flags, two twirlers, and two drum majors.

The Littlefield Junior High Band will be competing November 2 at 9:10 a.m. in the UIL Marching Contest at Jones Stadium, according to director Richard Hayden.

They will be performing a six and a half minute routine before a panel of three judges. They will be entering the field from the south end zone in six long company fronts. Their first pass down the field will be to the march "Snappy Snares".

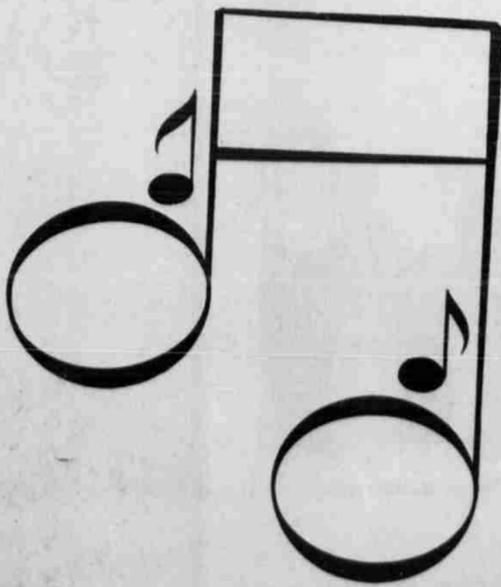

Next, the band will execute a series of step two drills, resulting in long diagonals across the field while playing "The New Colonial March". Then the band will perform two block buster drills during the march "Military Escort." Following a series of coun-

ter marches, the band will exit the field playing "Yellow Jacket March."

The band will be marching 96 bandmen, two twirlers, and two drum majors, for a total of 100. Drum majors are David Jones and Charla Pace, and twirlers are Venesha Schroeder and Holly Stubbs.

The youngest of the bands is the Beginner Band, which is composed of all sixth grade band students from Elementary II. These bandmen are an important part of our program, because some day they will be traveling and competing, representing the Littlefield Schools.

The 100 members of the band have been playing since the first of September, and have made excellent progress thus far. They are aggressive and anxious to learn in order to become the best players they can possibly be.

Best Wishes To The Littlefield High School Band During U.I.L. Competition
