Bean Burgs Land In Jail Friday 13th

Three Latin American men from Clovis, N. M., were jailed here Friday the 13th charged with the theft of 3,900 pounds of pinto beans.
Thirty-nine 100-pound sacks of dried pintos were taken from Brown's Warehouse in Sudan. The beans, valued at \$362,70, were later recovered at a boot shop in Clovis.
The three charged in the burglary are Adan Lucerno, 30, Facundo G. Baco, 34, and Joe Giellerrey, 17. Bonds of \$3,000 were set on the two older men and \$2,000 for the 17-year-old.

Two cases of vandalism and theft of a motor were also reported to county authorities this week.

The Farmers Co-op Gin on the Spade Highway was entered late Thursday or early Friday through a window broken out on the west side of the office. Desk drawers were ransacked and the key to the gas pump taken. The subjects then took 22 gallons of fuel from the gas pump.

Wednesday, J. C. Smith, 1005 W. 10th, reported the theft of a small Sears brand motor.
Don Muller of the Fieldton area said three or more subjects knocked out 18 windows in his abandoned farm house, shop and a car parked by the shop.

TALKING BOOKS that are helping a Sudan boy have a normal school career are demonstrated by Mrs. Jack Hicks, Lamb County librarian. The talking books are opening a world of learning for an intelligent area boy who has trouble with written material because of dyslexia, a mind process that scrambles letters and words.

Hailed-Out Farmers Are Hardest Hit

Projected cotton yields for Lamb County this year will have to be refigured--2,130 farms in this county have had their yield cut.
Word of the cotton cut reached the Lamb County ASCS Office late Wednesday.
Are the farmers mad? "You bet they are," ASCS office manager Lamar Aten said. "I'm so mad I could stomp the ground," Aten said. "I couldn't sleep last night!"
Multiply this times the 2,130 farm contracts in Lamb County for a sample of the uproar this is causing.
It amounts to three months of work in the Lamb County office. "It took three months to do all this work," Aten said. "Now we've got to do it all over again. And with the sign-up deadline March 20, that means we'll have to do what it took three months to do in a little over a week."

Aten said everything in his office is hooked up to yields. This makes the cotton transfers all wrong, the assignments from the bank all wrong--every thing. Of the 2,180 farms participating in the cotton program, all but 150 will have to be factored, or figured, down. The exempt 150 are farmers who proved their yields up. These with higher yields aren't affected.
This all goes back to a statement Aten made earlier, those that have been hardest hit with hail are the ones who are getting their yields cut.
The only way farmers can raise their yields on a three-year crop basis, and by appealing again.
"A son-of-a-gun year like '69 can knock two good ones in the head," Aten said. "And when you get three bad ones in a row, all you can do is sit there and take what you have to take."
The move doesn't really come as a surprise to many farmers, since they were given a warning, if only through rumors.
The ultimatum, in effect, rules out adequate adjustments for hail losses during the 1966-67-68 crop year. The average yield for those three years will be a farmer's projected yield for 1970.
A farmer who was hailed out for three consecutive years and made an average of 200 pounds per acre will have that for his projected yield, even though he may be capable of producing three times that much in a normal year.
A farmer in such a position can appeal it, but chances of getting anything done about it appears to be zero.
Lamb County is one of at least eight counties on the High Plains that will be hurt by this factoring down.
Yields sent out last November are no longer in effect. As soon as the county ASCS offices receive instructions, lower yields will be sent out. These will be mailed as soon as possible since the sign-up deadline is just about one month away.
"I believe that this is leading to actually going on a yield basis," Aten said. "They tried to get this done last year, in some cases, going on a yield basis is worse than getting factored down."

ALTHOUGH HE ISN'T BLIND

'Talking Books' Aid Youth

By NILAH RODGERS
Leader-News Staff Writer
Talking books for the blind have given a Sudan boy who sees well an entire world of learning material.
Although this boy has good vision, he has another problem. He is dyslexic.
Dyslexia is a medical term for a person who is intelligent but has trouble with the written word although he has nothing physically wrong with his eyes.
Most dyslexic children have an above normal intelligence, and they are aware that something is wrong with them. Until their disorder is diagnosed, teachers think they are lazy, daydreamers or not trying. A dyslexic child tends to think of himself as stupid.
What is really happening is that they seldom see the same page exactly alike twice. Letters turn backward, upside down, jump each other. His eyes see one thing, but his mind comprehends something else. Habitually writing his letters backward was the first clue this boy's parents had that there was anything wrong. The boy had trouble with his letters in the first grade. He was held over another year in the second.
Much heartache and worry could have been prevented if the dilemma had been spotted earlier.
In addition to his regular school work, a private teacher has been working with him several years. "His teachers have been wonderful," the mother said. "So understanding and helpful."
Teachers often take time to give him oral tests. Recently

when a written book report was assigned, the boy's parents read the book to him and his teacher allowed her student to record his report on his tape recorder at home. The teacher listened to the report and gave him an A.
A pleasant personality endears the boy to teachers and classmates alike. The slim, reddish-blond haired boy with the ready smile is well liked.
"And they are always trying to figure out ways to help him without his knowing," the boy's mother said. "The other day my son and one of his friends bought an assortment of penny candy. 'You're just a whiz at math,' the friend said. 'Why don't you figure up how much I owe?'
A world of education opened when the record player and talking books became possible through the state library. The library furnishes both the machine and books without charge. A catalogue lists hundreds of selections which include fiction, biography, and all academic subjects.
Television is a boon to him, too. For his mind readily grasps what he sees, other than the printed page.

This Sudan boy retains everything he sees and hears, he just has problems putting things down on paper and understanding written words.
What is really happening is that he seldom sees the same.

WORSHIP IN CHURCH

and get a spiritual lift for the whole week

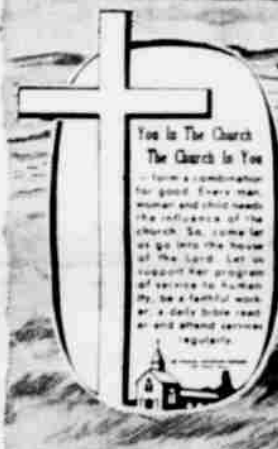

"I Shall Keep This Lent"

"LENT" means springtime. It is an old Latin word which means a forty day fasting period next before Easter. It begins with Ash Wednesday and continues till Easter, exclusive of Sundays. It is a time for the conditioning of our soil... a time for our souls to become penitent. It simply means that it is spading up time, the season for planting seeds and for setting blooming trees.

In the realm of the spirit it is a call to get ready for the season of beauty and goodness.

Who amongst us is satisfied with what he is or what he has been? Then let us qualify for the Lenten Season. Let us clear away the rubbish of last year's crop, cut under the old stalks. May we learn from our Lord to give ourselves to good conditioning during Lent. The miracle of Lent is genuine repentance which leads to Newness of Life. A Sainly Keeper of Lent said it well when he spoke the words, "I shall keep this Lent, and hope to refresh my soul." Amen

Tree to the Church
The Church is the tree to which we belong. It is the only place where we can find the life of God. Let us plant our feet in the soil of the Church. Let us be a faithful worker in the vineyard of the Lord. Let us be a faithful worker in the vineyard of the Lord.

Why Lent?

Louis M. Wetzel, Pastor, Emmanuel Lutheran Church

LAST WEDNESDAY was Ash Wednesday, the beginning of Lent. For hundreds of years the Christian Church has set aside the six weeks before Easter as the "Lenten season".

The purpose of this period is to afford Christians a special opportunity for meditation on the tremendous price paid for their redemption, which was the suffering and death of Jesus Christ in behalf of the whole sinful world.

IN RECENT YEARS the Lenten season has been broadened in its scope. Many Christian churches are using this season to bring the central truth of the Christian faith, which is the death of the Son of God for the sins of the world, to the attention of the unchurched residents of their community.

The message of Lent is to Christianity what a spring is to a watch, or a motor is to a car. Take the message of the substitutionary death of Christ out of the Christian religion and all that is left is a worthless shell.

THE MESSAGE of Lent is still the message which Paul wrote by inspiration: "Christ died for our sins according to the Scriptures" (1 Cor. 15:3). "Christ hath redeemed us from the curse of the law being made a curse for us" (Gal. 3:13). It is what the inspired apostle Peter wrote: "Christ his own self bare our sins in his own body on the tree" (1 Pet. 2:24). During these weeks thousands of churches

throughout the nation are bringing this vital Bible fact into sharp focus, not only for the benefit of those who are already in the faith, but also for those who have not yet taken to a personal faith in their Redeemer, Christ.

THE LENTEN MESSAGE is the oldest known to man, which can bring his conscience through cleansing from sin. It dates back nearly two thousand years to the time when John the Baptist pointed to Jesus and exclaimed: "Behold, the Lamb of God, which taketh away the sin of the world!"

THESE ARE THE DAYS when we give serious thought to the death of Christ and its meaning for each individual. Christ, the only-begotten Son of God, not a martyr, but as an example, the founder of a new religion, but as the Saviour and Savior for all mankind.

This truth the Old Testament taught. Lord hath laid on him the iniquity of us all (Isa. 53:6), and this truth the New Testament teaches: "Christ died for all" (2 Cor. 5:14).

These words are the heart and soul of the Lenten message.

HAVE YOU FOUND the forgiveness and eternal life in the death of Jesus? If you have, or if you have not, the story of the suffering and death of Jesus during the season of Lent in our churches. You are more than welcome.

TCU Launches New Campaign

Launching into a new decade with the announcement of a \$100 million campaign goal to be reached by 1980, Texas Christian University at Fort Worth faces its most immediate challenge in the area of student admissions.

This assessment by Dr. J. M. Moody, now in his fifth year as chancellor of the 97-year-old church-related institution was emphasized by his saying: "In the next two or three years we will increasingly face a problem that we have not faced since shortly after World War II--whether and how to accommodate the large number of students who want to come to TCU."

"Goals set by TCU's Future Planning Commission for the 1973 centennial year and for 1980 call for total enrollments of 8,200 and 9,250, respectively," he continued, "These limits already are under pressure to be raised."

Admission applications for the 1970-71 academic year are more than half again the total of last year, when the entering freshman class showed an increase of some 20 per cent over the freshman class of 1968, according to a report by Mrs. Anna B. Wallace, associate dean of admissions.

As of Jan. 14, applications were up 57.9 per cent for freshmen and 17.7 per cent for transfer students as compared with 12 months ago.

Installing Gas Air Conditioning in the Winter is for the

and the Joneses and the Smiths...

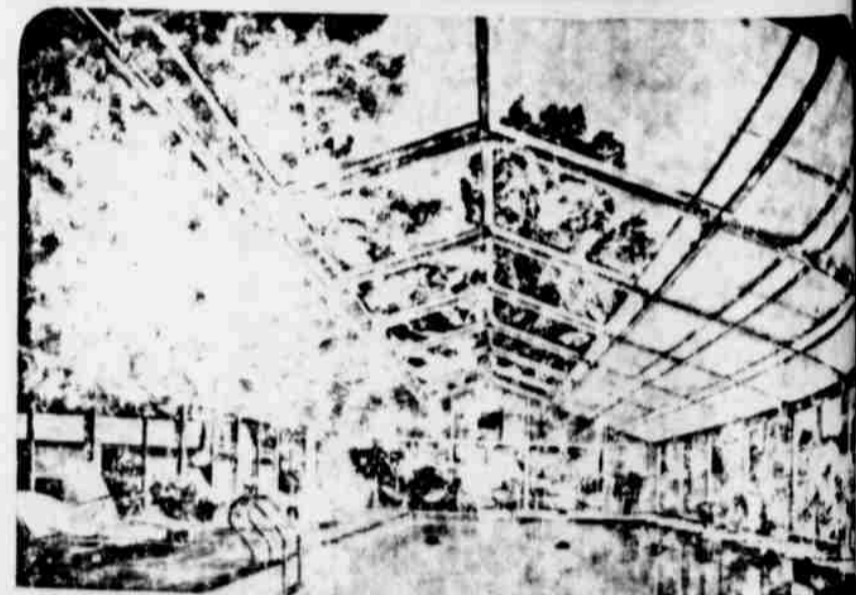

and just about everybody who loves comfort and knows a wise move when they see one. Installing gas air conditioning now will allow you to beat the spring rush that always comes with that first hot or dusty day. So, while others are waiting for the overworked installers, you'll be cool, calm and collected... already enjoying the benefits of your winter air conditioning buy. Gas quietly cools your whole house for what you may have been paying to cool two or three rooms before. And, you'll save on repairs, too, because gas air conditioning has no compressor to break down or wear out, and a com-

pressor is a usual source of failure in other air conditioning systems.

So, join the smart ones. Call Pioneer today and tell them you'd like to find out more about installing gas air conditioning in winter. A representative will come tell you just what it will take to convert your present forced air heating system to gas air conditioning. It costs you nothing to get a complete cooling survey of your home or business.

PIONEER NATURAL GAS COMPANY

How many days have you used your pool this year?

With a SUN/FUN Pool Enclosure you can swim every day!

With a Sun/Fun you can swim when you FEEL like it—not just when the weather is good.

A Sun/Fun Pool Enclosure is like a "convertible." The motorized opening roof system and removable side panels let you have all the fresh air and sunshine you want in fair weather.

Closed, and equipped with its own heating system, the Sun/Fun is a semi-transparent

"space capsule" in which you are securely sealed away from rain, snow, and insects—but not shut in.

And you're spared the constant chore of cleaning your pool, because falling leaves and airborne debris can't get into your pool.

A Sun/Fun makes your pool a sort of backyard "country club." And it's so good-looking you'll want to show it off!

LHS Whips Hereford Fems

In an action packed series of games Thursday night, the girls' volleyball team of LHS came out on top over the Hereford Whitefaces.

Again Junnie Gray's spikes kept the team going to a win of 15-10 and 15-4. Hereford nearly really got into the game before the fem Cats took over.

In junior varsity action, the girls lost a heart breaker by two points.

The B team girls lost their first game 9-15 to come back and win the second one 15-6.

In a fast-moving game with points tying all night, Hereford came out on top in the third game 15-13. The B team stayed in there all the way and it was a tough one to lose.

Iris Oberlechner scored the most points making 12 for the night.

Carol Chisholm came in second scoring seven.

The freshmen, playing Hereford's C team, won their first game 15-11 and lost the last two 11-15, and 9-15. They played Hereford a close game to the end. Pat Glazener was high point for the freshmen with 11 and Pam McNeese came in second with eight for the night.

Tuesday, the fems play Level-land in the Wildcat Gym at 5 p. m.

Thursday, they travel to meet Brownfield again. "Come out and support these girls on their way to the district crown," Coach Marti Toulmin said.

IN FINAL CAGE TILT

Cubs Swat Cats, 80-52

Littlefield's Wildcats closed out the 1969-70 basketball season here Tuesday night, falling to Brownfield's Cubs, 80-52.

The loss left Coach Jim Jefferies' record at 6-19 in his first season here, still quite an improvement from the 1-23 mark in 1968-69.

Biggest cheers from Littlefield fans during the night came before the game and during half-time of the varsity contest.

Linda Horn, daughter of Mr. and Mrs. N. C. Horn, was crowned basketball queen just before the contest. Other contestants were Lisa Volpe, daughter of Mr. and Mrs. Sam Volpe, and Carolyn Lumsden, daughter of Mr. and Mrs. Ross Lumsden.

And just before half-time, the Wildcats put on a fine rally. Trailing 20-11 at the end of the first period, the Cubs outscored the Cubs 20-13 in the second quarter and brought the half-time deficit to 33-31.

But any chance the Wildcats had of contending with the Cubs fell apart in the third quarter, when Brownfield ran up a 28-3 margin and the score went to Brownfield 61, Littlefield 34.

The Wildcats made it close in the fourth quarter, when the scoring was 19-17, but the damage had been done.

For the night, Littlefield shot at 36 per cent from the field and 48 per cent from the foul line.

Charles Carter's 22 points led the Cat scoring, and Charlie Holt added 12.

Gary Nace and Max Hutchins hit for six each and Steve Owens had four in his first game since before district play. Owens went out with a broken leg in pre-conference action.

John Brown led Brownfield with 33 points, while Mike Richardson and Mike Robertson chipped in with 15 each.

The game left Littlefield's district record at 1-9 and tied the Cubs with Slaton in the cellar of North Zone action. Brownfield finished at 6-4 in the district.

WILDCAT CHARLES Carter takes a shot, but is batted away by a Brownfield player during night's 80-52 loss to the Cubs. In the background Steve Owens in his first game since breaking pre-conference play.

Larry Schovajsa Runs Astro Track

Texas Techsan Larry Schovajsa may have set a world track record this week.

Schovajsa, an LHS graduate, ran the 880 and was on Coach Vernon Hilliard's mile relay this weekend in the Astrodome in Houston.

Schovajsa was on the relay team that finished fourth in the Will Rogers Indoor Games at Fort Worth last week.

More than 50 schools were represented in the university division of the Astrodome-Federation national indoor championships. The two-day meet's five divisions had over 2,000

competitors representing 260 institutions.

It was the first indoor competition for most of the Texas Tech members entered in the meet.

Six world records were exceeded in last year's first test of the Astrodome plywood facilities that cost \$80,000.

The Astrodome is believed to be the fastest track in the world. There is no wind. The curves are banked allowing full speed into them without veering. The one-fifth mile track also provides longer straightaways that enable runners to maintain maximum speeds longer.

JACK LAWRENCE MILLIGAN

Services for Jack Lawrence Milligan, 29, who was found shot to death in his motel room in Lubbock Thursday morning, are scheduled for 2:30 today at Parkview Baptist Church.

Rev. R. N. Tucker, pastor of Parkview Baptist Church, will officiate and burial will be in Littlefield Memorial Park with Hammons Funeral Home in charge of arrangements.

Milligan was born March 21, 1940, in Cleburne, attended school at Pettit, and had worked for the REA in Littlefield until January when he went to Lubbock.

Peace Justice Wayne LeCroy of Lubbock has ruled that death was by self-inflicted gunshot wound. He had been shot once in the right side of the head, and was found lying on a bed in a motel room.

A .22 caliber pistol, which had been purchased at a discount store in Lubbock the day before according to a receipt, was found on the man's leg.

According to Lubbock police, the motel manager found the body when he went to check on the man at the request of a relative.

Surviving are his wife, Julie; one son, Jeff Milligan of the home; one daughter, Janna Milligan, of the home; three brothers, Earl Milligan of Littlefield, John Milligan of Denver City, and Joe Milligan of Washington; four sisters, Mrs. J. W. Baggett of Snyder, Mrs. James Stephens of Oklahoma City, Okla., Mrs. Johnny Bankston of Littlefield and Mrs. Billy Still of Woodland, Calif.; and his parents, Mr. and Mrs. Ray Milligan of Littlefield.

MICHELIN X RADIAL

INSIDE STORY

economy

You'll get up to 10% gas savings because MICHELIN X Steel-Cord RADIAL tires roll easier. Your car will use less energy and go further on a gallon of gas. Unmatched traction on wet roads makes the MICHELIN X Steel-Cord RADIAL an all-weather, year-round tire. It gives as much snowgrip on packed snow as a snow tire... plus more grip on ice.

40,000 Miles

It's true that any radial tire produces increased mileage but only the radial with a steel-cord belt will double it. Under the same driving conditions (same car, same driver), the MICHELIN X Steel-Cord RADIAL lasts at least twice as long... frequently much longer... than conventional tires. And we'll back it up with a 40,000-mile tread wear guarantee to prove it!

safety + performance

Ordinary Tire X Radial Tire

Test after test has conclusively proven that MICHELIN X Steel Cord RADIAL tires are built for today's high-speed turnpike driving. (Found safe at 115 mph.) You'll corner with great safety because MICHELIN's radial plies absorb strong side forces much the same way as a pillow absorbs a punch. Steering will become easier and your car won't wander on straightaways. Steel cords prevent the braking action from distorting the tread so stopping distance is decreased.

What's more, steel-cords offer superior protection against punctures for a higher degree of safety.

construction

MICHELIN'S extra-flexible body is made of rayon plies that run in only one direction along the wheel radius from bead to bead. This radial design (1), invented by MICHELIN tire engineers in 1948, virtually eliminates heat-producing friction and fatigue inside the tire, which greatly reduces chances of blowouts.

And, thanks to MICHELIN's exclusive steel-to-rubber bonding method, developed in 1938, a super-strong steel cord safety belt (2) encircles the casing beneath the tread. Steel cords provide the tread with exceptional longitudinal flexibility together with lateral stabilization. Carcass flexing is not permitted to affect the tread which consequently grips harder, tracks surer, and rolls easier with minimum scuffing and distortion. That's why MICHELIN Steel-Cord RADIALS will outlast, outperform your present conventional tires... and other radials built exclusively with textile cords.
