

Glue-Sniffing Incident Kills 15-Year-Old Boy

Resuscitation Efforts Fail

By NILAH RODGERS
Leader-News Staff Writer

A 15-year-old boy looking for a cheap kick bought himself a 50-cent can of tire patch glue Wednesday evening, went out behind the mote plant at Keeton Felt Company, and put a plastic bag over his head for a sniffing session.

The boy, Onorio Galindo (Larry) Ortiz, was pronounced dead on arrival at Littlefield Hospital about 11:15 that night.

Roy Garcia of 1312 Dillon, a Keeton employee and friend of the dead boy, said he knew Ortiz had bought glue and that he had gone out behind the gin to sniff it.

Another plant employee, Freddy Garcia, was moving trash from the plant to the dirt pile when he heard someone behind the dirt pile yelling "crazy things." Garcia said he went to see what was going on and Ortiz was there sniffing something out of a bag. Garcia said Ortiz looked sick and he went to get him some water. When Garcia came back he said Ortiz stood up and yelled, "I'm all alone," then fell on his face.

LAMB COUNTY Sheriff's Deputy Jerry Collins shows the dirty plastic bag and can of tire patch glue officers found on the Keeton Felt Company grounds while investigating the death of a 15 year-old this week. Larry Ortiz was pronounced dead on arrival at the Littlefield Hospital Wednesday night. Dr. J.R. Fain said the death was due to toxicity of the liver and lung damage resulting from sniffing glue.

Lewis Garcia, a brother of Freddy, tried mouth to mouth resuscitation, and when the victim didn't respond, the group took him to the office.

The local police department logged a call at 10:41 reporting a bad accident at the plant and requesting an ambulance.

Cruz Hernandez, one of three investigating policemen, attempted resuscitation efforts also.

Dr. J. R. Fain pronounced the boy dead on arrival. The physician said there was no evidence of foul play and that the boy's friends said he was sniffing glue. An autopsy order was left up to either the boy's father or the justice of peace, Dr. Fain said, adding that Ortiz's mother was dead and a sister who came to the hospital couldn't give permission. Neither asked for an inquest.

A can of glue and a dirty plastic sack with one end open and the other end ragged from chewing was found on the second search of the grounds at the manufacturing plant.

Dr. Fain said sniffing glue damages the liver and lungs and that glue sniffing over a period of time can cause slow damage or that the acute toxicity to the liver can cause death in a matter of minutes after a person has sniffed glue for the first time.

The youth, his father, some of his four sisters, two brothers and other relatives had lived in Littlefield about two weeks, coming here from Weslaco for seasonal gin work.

The boy and his dad were both working at the Hart Camp Co-Op Gin, but the boy had been dismissed from his job about the middle of the afternoon Wednesday.

Roy Garcia said Larry was not upset over getting fired, but that he was just getting high for kicks.

Orphanage In Italy Gets Support Here

Jackie Heffington of Littlefield is concerned about a certain girls' orphanage in Italy and is seeking help from Littlefield residents in sending them clothes or other necessary items for Christmas.

His interest in the orphanage began while he was stationed overseas with the 69th Ordnance Company three years, and the company saw the need of support of the orphanage in Bassano del Grappa, Italy.

There are 47 girls in the self supported home, ranging from 3 years old to 13.

Heffington and his wife returned to the states and Littlefield after he was discharged from the service, and their concern is still with the girls there. Their last visit to the orphanage was in January, shortly before their return.

Heffington says the Italian government supports orphanages for boys in that country, but do not support girls.

Anyone who wishes to contribute clothing or other items are asked to take them to Heffington Gulf at Ninth and Hall Avenue, or call Heffington and he will see that they are picked up. He stated that some may want to help pay the postage in getting them to Italy.

Turkey Deadline Is Set Monday

Monday is the last day for registering for free Thanksgiving turkeys at 20 Littlefield stores.

Each store will conduct its drawing at the close of business Monday afternoon, and winners will be notified by those businesses.

No purchases are necessary, and any adult may register.

Holidays Set By Council

City councilmen granted a two-day holiday at Christmas and one at New Year's for city employees, and considered specifications for bids for two new police patrol cars and two pickups for the street and water departments, during their regular session here Thursday night.

Councilmen decided to close city hall Christmas Eve and Christmas Day so that employees could have a long holiday. They decided to keep city hall open Dec. 31, to benefit last-minute business for the year, but the hall will be closed New Year's Day.

Bids for the new vehicles will be opened at the Dec. 17 meeting, and councilmen discussed at length the specifications they thought should be included.

Jack Peel appeared before the council to discuss the lease of city farm property, and councilmen agreed to re-lease the property to him on a two-year contract.

Neighbors Harvest Farmer's Crop

Friends and neighbors of E. E. Hale at Witharral brought their tractors, trailers and farm hands to Hale's two labors of skip-row cotton Monday and before the sun set Tuesday they had harvested 166 bales.

Hale was hospitalized at Big Springs three weeks before he was transferred to the Veterans Hospital in Dallas for removal of this larynx a little over three weeks ago.

Those helping with the harvest were Curtis and Don Stafford, Howard Venable, Adolph Dukatnik, Bob Morrow, David Mitchell, Albert Pence, Wash C. Elliott, Vernon Petty, Jimmy Myatt, Ray Anderson, Mr. and Mrs. Lester Hood, Ray Benton, Mr. and Mrs. Joe Clevenger, Sam Clevenger, Boyd Valentine, Dick Watson, Fred Cardenas, Crockett Thetford, Thurman Dobson, Gene Winn and several others who threw cotton back and hauled the loaded trailers to the Witharral Gin.

Watershed Project Nearing Decision

The fate of the Running Water Draw Watershed will be decided soon.

The flood control measure covers 7,000 acres of land in the northeast corner of Lamb County. County sponsors of the project are the Soil and Water Conservation District (SWCD) and the Lamb County commissioners' court.

Frank Struve, vice chairman of the SWCD board of directors, represents the Olton zone which covers all the watershed activity in the lower Running Water Draw in this county.

Approved in May, the action constitutes authorization to provide federal assistance in the installation of the works of improvement as funds appropriated for this purpose are made available.

Joe Blevins, district conservationist, said needed requirements of land treatment in the water shed is in good shape.

According to Struve, land rights for the

four structures in the Lamb County are being secured now.

Congressman Bob Price presented testimony on the project before the House Subcommittee on Flood Control, giving support to the measure. Price said of all the problems facing the residents of the watershed, none is in greater need of solving.

Floods occur here every three to five years, inundating more than half the flood plain. Recurring floodwater with its attendant sediment and resultant erosion has significantly affected land use in the watershed proper.

If fully implemented, the Watershed will check soil erosion and excessive water runoff on rural land will be halted. Destructive floods will be stopped, drainage conditions of the land in agricultural areas will be improved, and more efficient irrigation systems will be instituted.

In addition, more water will be supplied for the growing municipal needs of the area; fish and wildlife resources will be enhanced; new recreation opportunities will be created.

Price said benefits accruing to the watershed project have been compared to the cost ratio is 2.6 to 1.0. "The need for this project is great," Price concluded, "the costs are reasonable and the benefits are substantial."

Diphtheria Clinic Slated At Sudan

A diphtheria clinic will begin at 9 a. m. Tuesday at Sudan, and all citizens of that area may receive their shots then.

Sponsored by the Sudan PTO, the clinic will be held in the nurse's office of the grade school building.

Anyone who has not had the DP shot in the past year is urged to do so at this time, and no age limit has been set. Donations will be accepted, although the shots are free.

DPT shots will be given to the pre-school children and DP shots will be given to school age and older.

Surprise Noted On Farm Bill

Members in the Littlefield area weren't surprised when the Senate passed the farm bill Thursday that sets farm subsidies paid to producers.

The House started arguing the bill 18 months ago, and the \$55,000 limit on more to growers' liking than the limit some lawmakers favored.

Aten at the ASCS office here said he knew, the new ceiling wouldn't be two farmers in the county, there were some who were getting payments now and were participating in counties.

He said he expected to learn about the farm bill within the next three months.

This year, acreages won't be reduced, there will be no penalties for over-planting, and all the produce will be sold for price support.

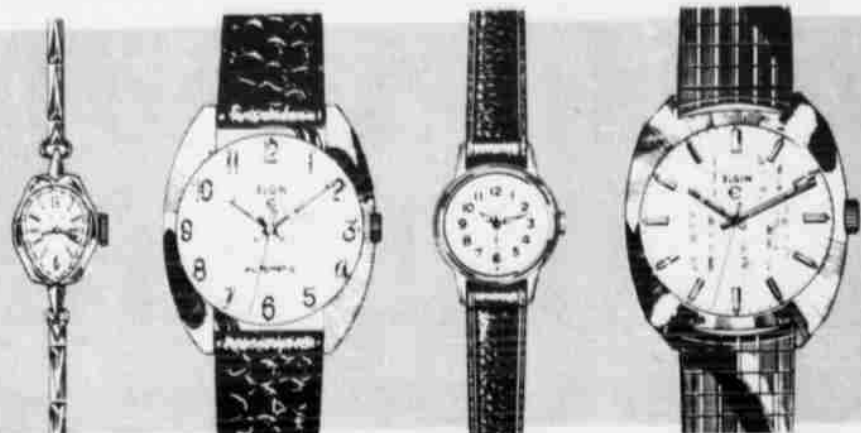

Aten said he didn't expect more cotton to be grown in Lamb County next year. He added that he wouldn't be surprised if the cotton acreage is down a little this year, and farmers planted 100,000 acres to cotton. This pattern is expected to hold for the 1971 crop.

LHS BAND DIRECTOR John McGee's victory smile droops a little under the weight of the big cigar he promised the Wildcat Band he'd smoke if they won Division I in the UIL marching competition in Lubbock Wednesday. To McGee's left are band members Johnny Prentice and Pam McNeese, (behind the Div. I trophy), and Duff Wattenbarger is on his right.

HAPPY THANKSGIVING!

THANKSGIVING DAY is rapidly approaching, with everyone patiently awaiting the arrival of guests and all are quite busy planning their menu for the big day.

I ran across a recipe for "Sweet potato Puffs" and thought that it might be helpful to you in some way, since sweet potatoes are one of the traditional vegetables for a Thanksgiving dinner.

This recipe can be prepared from either fresh, canned, or dehydrated sweet potatoes.

SWEET POTATO PUFFS
2 cups mashed sweet potatoes
3/4 cup hot milk
3 tablespoons butter or margarine
1/4 teaspoon salt
1/4 teaspoon allspice
1 tablespoon grated orange rind
2 eggs

To the sweet potatoes add the milk, fat, salt, allspice, and orange rind. Mix well. Separate the eggs. Beat the egg yolks and add to the sweet potato mixture. Beat egg whites until stiff, and fold the potato mixture into the whites. Place in a baking dish and bake at 350 degrees for 45 minutes. They can be topped with marshmallows.

HERE IS A delightful sounding recipe for "Glazed Sweet Potatoes and Apples"

GLAZED SWEET POTATOES AND APPLES
6 medium sweet potatoes
2 (or more) cooking apples, peeled and sliced thin
1/4 cup butter
1/2 cup (packed) brown sugar
1 tablespoon water

Cook sweet potatoes with the jackets on in water and cover until tender. Cool, peel and slice lengthwise in 1/2-inch slices. Layer 1/2 of the sweet potatoes in a shallow 1 1/2-quart casserole. Cover with apples; top with second layer of potatoes. Melt butter in a small saucepan; and sugar and water. Bring to a boil; pour over potatoes. Bake in a preheated oven of 350 degrees for about 45 minutes or until apples are tender, basting occasionally. Yield: 8-10 servings.

WHY NOT pick up a coconut at the grocery store and stir up a "Fresh Coconut Cake" to add to the feast.

FRESH COCONUT CAKE
2 cups sugar
1 cup butter
4 egg yolks, well beaten
2 1/2 cups all-purpose flour
5 teaspoons baking powder
1/4 teaspoon salt
2 teaspoons vanilla
1/2 cup coconut milk
1/2 cup plus 2 tablespoons canned milk
1 teaspoon lemon rind, grated
3 tablespoons finely grated coconut

4 beaten egg whites
Cream sugar and butter; add egg yolks, sifted dry ingredients, flavorings, milks, grated lemon rind and coconut. Fold in stiffly beaten egg whites; turn into three 10-inch layer cake pans. Bake at 350 degrees for 25 minutes. Cover layers with desired frosting and additional grated coconut.

BY THE WAY, if any of you housewives have a special holiday recipe that you would like to share with others, or any kind of recipe for that matter—just send it in care of me to the Lamb County Leader-News office, P.O. Box 72, Littlefield, Texas 79339.

PHLOX

The phlox is a common garden flower that first came from right here in North America. The Drummond phlox still grows wild in abundance in the state of Texas.

It received its name from the Greek word meaning flame. It ranges in showy colors, but the blossoms are never flame colored. Annuals are grown from seed, but perennials always from stem and root cuttings. The flowers will grow in clusters sometimes two or three feet high.

Our flowers are the freshest, our special attention given to their arrangement makes them even lovelier. Whenever you need flowers, remember we are just as close as your telephone. Call 385-4461.

Why Do Stores Do It?

Why do stores start Christmas before Thanksgiving? That's a question that's often asked and it deserves a sincere answer.

Your newspaper appreciates the spirit that prompts many of the objections to early Christmas shopping promotions. However, when the reasons for the urge to "Shop Early" are examined, the most critical agree it's MORE than a problem for stores alone.

So we're happy to take this opportunity to present some of the problems that confront all stores at holiday time.

Every successful store directs its best effort toward perfecting a helpful service to ALL its customers. And since many customers ask stores to make it easier for them to complete their gift shopping before the crowded-post-Thanksgiving period, Christmas merchandise and displays are brought forward early to accommodate them.

And scarcely a major store in the nation could cope with the store traffic that would be generated if any part of early Christmas shopping was postponed until after Thanksgiving. Even under present circumstances most stores are strained to capacity during the peak of the season, to maintain the kind service all shoppers have learned to expect.

When you recall the extremely crowded conditions of stores the final two or three weeks before Christmas the problems become evident.

If no early Christmas shopping were done this condition would be multiplied

many fold. (Actually there would not be enough room behind store counters for enough sales people to serve shoppers during this period between Thanksgiving and Christmas.)

Those in the store business know that an extremely large percentage of the Christmas gifts that are selected are items that are in plentiful supply the entire year.

If you were to ask the hundreds of retail employes - (and as a group they represent one of the largest employe groups in Littlefield) they would tell you that much of the stress and strain of their Christmas would be relieved if the shopping public would anticipate Christmas shopping throughout the year. (Then you'd seldom hear your friends in retailing remark, "I'm simply worn down to my knees by Christmas Eve.")

Granted that the problem is not a onesided one it should be recognized that stores are faced with the problems of convenient service to customers, of maintaining helpful employe relations, of providing a place where those of the public who can not, or do not, plan ahead may select the traditional gifts for their loved ones and friends.

We are sure that if all of our storekeepers could chat with you, personally and informally, that you would be convinced of their sincerity, and that in the true spirit of Christmas they would not be criticized for their efforts to perform a helpful service to their shopping public.

THE ABUNDANT LIFE

Unwanted Harvest

By BOB WEAR

WE REAP THE HARVEST according to the seed we sow. This is true in one's personal life, and in our national life.

WE ARE INCREASINGLY concerned about many things. Observers have reviewed some of the big moments of recent national history, and, since hindsight is so clear, have pointed out the errors that were made.

Today, we are having to live with the results of these mistakes.

A LOOK AT the harvest makes us realize that the sowing was wrong. If we are wise, we will learn from these mistakes.

If we are otherwise, we will just go on sowing the wrong seed, and being stuck with an unwanted harvest.

WE REJOICE in the good we see in our national status, but are shocked beyond belief by the bad we see.

There is the deterioration of the home; increase in crime; declining moral behavior; loss of personal initiative; increasing circulation of cheap, vulgar, filthy publications; vulgar and indecent entertainment; etc. Our unwanted harvest.

THE POINTS of departure and some of the causes are well identified. Of course, we cannot go back, but it is possible to begin making improvements.

We know what we need, and the kind of harvest we want; but we will never have the harvest we want unless we sow the seed that produces that harvest.

THE SOWING TIME of our past has produced the harvest we are reaping today.

If we don't like the harvest, we can change the sowing. At least, we can try to change it. Thus, we fashion our own life situations.

THE PHILOSOPHER

Debts

(Editor's note: The Sandhills Philosopher on his Johnson grass farm reviews the world's financial situation this week, more or less.)

Dear editor: To get my mind off some bills needing to be paid last night I turned to a newspaper I'd been saving and found an article that made me feel better immediately. According to it, 93 nations are in debt to

Pretending otherwise is not going to help us, because the law of sowing and reaping is an inexorable law. It works constantly, and without conscious thought on our part.

THE TASK BEFORE US will never become easier. Whatever we do, we must begin where we are and with what we have.

This means that we must deal realistically with the unwanted harvest. We must see it for what it is, and fully admit how it came about. All of us know.

WE CANNOT correct overnight what years of unwise and careless sowing has produced, but we can begin at once.

Intelligence, honesty, vigor, courage, morality and dedication to the task are some of the corrective life elements we must re-new and nurture.

THE KIND OF HARVEST we desire must be clearly defined. Perhaps we can call it a well-defined, unified national purpose.

Most of us know what we need and want, and we also know that we cannot keep sowing bad seed and expect a good harvest.

We cannot go on disregarding time-tested and time-honored guidelines of personal and social behavior without moving farther and father into the morass of human misery.

EVEN NOW, right sowing will eventually bring the right harvest. We still have the opportunity to choose between being a helpless, hopeless people; and being strong to move in the direction of a great and stable future.

IF WE ARE WISE as a self-determining society must be to survive, we will put the law of sowing and reaping to work for our personal and national betterment.

Let us do this for the heritage being passed on to our posterity. Why not?

the United States, have been for years, and very few are even keeping up with the interest.

In fact, the last time the government figured up the interest was in 1965, when somebody did it apparently just to be doing, you know, busy work, and it amounted to \$20,691,309,517.10. Nobody is quite sure what the total of interest and principal is and nobody really wants to know, since most of it will never be paid.

Anyway, it runs into the billions of dollars and the reason it's not being repaid is that all 93 nations are head over heels in debt to themselves, aren't taking in enough tax money to meet their own budgets.

In fact, there's not a country on earth that's not going further and further in debt, including the United States, and I got to wondering.

What happens when the whole world goes broke? Who forecloses and what does he do with it when he gets it? Auction it off?

I can see the ads now: "To be sold at public auction: 210 re-possessed nations a few demonstrator models, all on an as-is, where-is basis. All terms cash. Seller makes no warranties as to the condition or working order of any of these items."

You can see this would be a holy mess and something ought to be done to head it off. We can't allow the whole world to lose its credit rating.

I'm going to give it some serious thought, just as soon as I get out from under my own debts and get some free time to think. Don't wait on me.

Yours faithfully,
J. A.

Thanksgiving

By PEARL BRANDON

IT WILL SOON be Thanksgiving Day, and here in America we pause to take time out from busy lives to say a special "Thank You" for the blessings of life.

We say thank you God for our homes, our families, for enough to eat, for clothes to wear, for health and for friends.

HONNY GRATS

By CORNBALL BLEVINS

AFTER THE FIRST angry resentment has subsided, and after the outburst of scathing remarks has been exchanged, comes a time of sobering thought.

Of course, we were outraged at the street fighting and the vandalism, and the all over rioting of the last year, or so. I'm sure any God fearing person, with any semblance of patriotism was shocked and awed by the realization that any such thing could happen in these "Christian United States".

NOW, WE KNOW that it CAN happen, and did!— (And, probably will happen some more!)

No we do not, and cannot excuse it.—Such behavior belongs to the dark ages, and to the uncivilized peoples.

YET, WE WONDER just what the underlying and contributing causes behind these social malfunctions actually are.—So much unrest and discontent must have a reason deeper than first meets the eye.

"A SEARCH FOR TRUTH" is a term commonly used by many of our malcontents.—"A reason for being" is another.—And, again, "TO EXPOSE THE HYPOCRISY OF THE OLDER GENERATION".

At any rate, many of our youngsters in their quest for "Truth", and, the "Search for self" have turned to extreme and dangerous courses to find their solutions.

I'M ALMOST CERTAIN that the answers to their questions will not be found in a bottle of alcohol, a stick of pot, or a shot of heroin.—We know that these

"Remedies" can, only DESTROY mind!

Yet, the search for truth!—Where be found?—And,—what is truth? It is NOT the hypocrisy of the old. Could it be, that WE'VE raised a generation of disrespectful rebels, lap of luxury, and, by our own hidden the truth from them??

HAVE WE BEEN so protective youngsters that they are unaware with the realities of life?—Or, do we on our hands a bunch of unpsychological products that have learned the value of obedience, the meaning of the word, "NO"?

Let's we become smug in our conceits, I'm afraid we must admit guilt in these matters.—We have to teach our kids that life is more than that respect for authority, (What parents, law, or God's) is important that just living carries responsibility.

WE HAVE FAILED to impress them a reverence for God, our country, simply for the reason that ourselves, have made a farce, play and game of them!—Therein lies hypocrisy!!!

THE TRUTH?—It's near at hand.—It's called: THE BIBLE!—There has never been a substitute for it for making a home, family, building a citizen, or a happy and worthwhile life!—(Do YOU know?)

WE MAY BE REALIZING the it's prophecies that admonish nations that "Forget God" are bound to ruin!

WORSHIP IN CHURCH

and get a spiritual lift for the whole week

reasons

To Be

Thankful

Read the 150th Psalm for a clue.

It begins and ends with a call for all men to praise God. Let everything that hath breath praise the Lord. Perhaps we would do well to follow David in this matter of being Thankful. Our Pilgrim Fathers did. They put God right in the center of every Thanksgiving day. It was the Lord's Day . . . not just another day void of work. Then just what is there about Thanksgiving, about God, that makes me glad? What is it that lifts my face to Heaven when I am sad and when I am glad? Too many times we find the weak, the hungry, the sick and the sad way out in front with their Thanksgiving to God for His fairness, His kindness and His goodwill. Certainly the Great God goes beyond justice to establish love as the central virtue. He gave up His Son to prove it to us beyond a doubt. He calls on us to be very Thankful for health, if we have it — for wealth, if we own it — and for that friend who can turn us on when our way is dark. He invites all of us to live like women and men who know very well about God, . . . to be grateful for the few days He gave us which have been full of the trouble He promised. Don't ever let us say a final farewell to dear ones, but let us be Thankful for His promise that we may find them again. Thank you, Lord, for these reasons and many more. Amen.

IN LAMB COUNTY

Living Standards On The Rise

Judging from the number of big-ticket household accessories that Lamb County families have been acquiring during the last few days, living standards are on the rise locally.

Their purchases of dishwashers, air conditioners, stereophonic equipment, cars and other high-priced equipment have been climbing steadily since 1960.

It is directly attributable to the income gains chalked up in the period by most local families.

The extent to which ownership of automobiles and household appliances has increased is based upon a special sample survey made by the Department of Commerce and data from other sources. Their figures show that there is a direct

relationship between a family's earning capacity and the amount of expensive durables that it amasses over the years.

In Lamb County, on the strength of these findings, no less than 45.8 percent of the local families are the owners of two or more cars at the present time. This compares with 33.7 percent in 1960.

In the United States as a whole, 29.3 percent have more than one car and, in the Southern States, 28.7 percent.

There has been a marked increase, also, in the number of families with television sets. This has been due, to a large extent, to the growth of color TV.

Approximately 95.0 percent of the households in the local area now have

television sets, as compared with 87.8 percent in 1960.

Similarly, more homes are equipped with washing machines than was the case then. Ownership in Lamb County's regional area is placed at 68.0 percent.

This relates only to outright ownership. Actually, the proportion of families that have washing machines available to them is greater than that because many rental units are equipped with them.

The survey, which presents data on a national and regional basis, also shows an increase in the proportion of families with clothes dryers, hi-fi sets and freezer units. Home ownership has also been on the rise.

MEMBERS OF THE Wildcat Band give a special yell and signify their Div. I rating in the UIL competition. This is the second straight year for the Wildcat Band to win the superior rating. It is a sweepstakes if the band can capture a Div. I in concert and sight reading this spring.
