Littlefield High School seniors will receive their baccalaureate address at 8 p.m. tonight in the Junior High School auditorium, and will receive their diplomas in graduation exercises tomorrow night at 8 in the same place.

## Buddy Poppy Day Saturday

Buddy Poppy Day in Littlefield will be held Saturday, May 29, and members of the VFW and Women's Auxiliary of Littlefield are contacting the public that day.

Mayor J. E. Chisholm has proposed the day as Buddy Poppy Day.

The annual sale of Buddy Poppies to the Veterans of Foreign Wars of the United States has been officially recognized and endorsed by governmental leaders since 1922.

Buddy Poppies are assembled by disabled veterans, and proceeds from the campaign are used exclusively for the benefit of disabled and needy veterans, and the widows and orphans of deceased veterans.

The basic purpose of the annual sale is reflected in their desire to "Honor the Dead by Helping the Living".

In his proclamation, Mayor Chisholm stated, "I do hereby urge the citizens of this community to recognize the merits of this cause by contributing generously to its support through the purchase of Buddy Poppies Saturday for the distribution of these symbols of appreciation for the sacrifices of our honored dead."

"I urge all patriotic citizens to wear a Buddy Poppy as mute evidence of our gratitude to the men of this country who have risked their lives in defense of the freedoms which we continue to enjoy as American citizens," he concluded.

Happiness is not what you have in your pocket but what you have in your heart. Money won't buy happiness. And in spite of what the wags say, it won't buy a more enduring brand of misery. Those who chase happiness rarely catch up to it. Multimillionaire Jay Gould said before he died: "I suppose I am the most miserable man on earth." Happiness lied not in pleasure. Lord Byron, after a life of pleasure, moaned: "The worm, the canker and grief are mine alone."

Power won't produce happiness. Alexander the Great conquered the known world and then wept and said: "There are no more worlds to conquer." Happiness lies not in believing "God is dead." Voltaire believed that, and wrote: "I wish I had never been born."

Happiness is being born again. Happiness is in Christ. He said: "Your heart shall rejoice, and your joy no taketh from you." As Proverbs 16:20

## Memorial Day-May 30

MEMORIAL DAY is one of the most popular holidays in the United States. Coming, as it does, in the spring of the year, the weather is usually good, the days are warm, the roads clear, and the flowers in bloom. It is a pleasant time for traveling.

An because of the nature of the holiday—originally established on May 30, 1868, in honor of soldiers who died in the War Between the States, and later expanded to include those who died for their country in all wars—Memorial Day has become not only an occasion to honor our patriot dead, but also a day to visit and decorate the graves of deceased loved ones and, for many, a traditional day for an annual family reunion.

BECAUSE of all these things, the Memorial Day weekend is a time when thousands upon thousands of addi-

tional motor vehicles will be on the highways and byways.

Millions of Americans will be attempting to travel, some for great distances, tending to leave early, return late, and drive in a hurry. It is not at all surprising, therefore, to learn from public safety officials that the Memorial Day weekend is marred by one of the highest highway casualty rates in the year.

IF YOU PLAN to drive anywhere this Memorial Day weekend, even a short distance from home, remember to drive with extra caution.

Drive defensively, watching out for the other driver who may be over-exhausted, or be too much in a hurry, or be preoccupied with matters which divert his attention from driving.

Don't become the occupant of a grave to be decorated with flowers next year on Memorial Day.

UIL WINNERS recognized during the first annual All-School Banquet were

Anita Bryant, Jerry Schulz and Connie Black.

TRACK QUEEN CANDIDATES were Lori Westmoreland, Pennie Sexton and Lori Wilkinson, left to right respectively, and Pennie Sexton was

chosen for the honor. They were escorted by Jimmy Durham, Bill Turner and Rick Hopping.

## Activity at jail quiet

Activity at the county and city jails was light this weekend. At the county jail, two were jailed on drunk charges and a delinquent juvenile was picked up and held for Brownfield authorities. City officers jailed three on drunk charges and one on a simple assault charge. City policemen had four thefts reported. Bill Bennett of 220 E. 21st reported the theft of a 23-channel

citizen band radio from his pickup parked in the Crescent Club parking lot. Mrs. Louis Flores reported the theft of a 10-speed bicycle from 401 Bell. Giles Motor Company reported the theft of two mag wheels valued at \$150. Jolly Roger reported someone got \$10.20 of gas and drove off without paying for it.

## CLIPS & TIPS

By JOELLA LOVVERN

**FOOD KEEPS LONGER** and stays fresher in a clean refrigerator.

"Most manufacturers recommend a thorough cleaning every six months. But this may vary with each family, depending on the amount of food stored and number of spills which occur," says Mrs. Linda McCormick, a family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

To clean the refrigerator, turn the control dial to OFF, or unplug and remove food. Take out all shelves, racks and storage drawers. "Wash all removable metal and porcelain parts in soap or mild detergent-water solution; rinse with clear water.

"Wipe interior and door shelves with same solution, or with a solution of borax or baking soda and water; rinse and dry.

"Wipe door gasket with borax or baking soda solution only; strong detergents can cause deterioration. Rinse and dry thoroughly. Periodic cleaning not only makes gasket last longer—it also insures a tighter seal," she said.

She reminded consumers not to forget to sweep or vacuum under the refrigerator and around the coils.

"When frost in freezer compartment is one-quarter inch thick, it is time to defrost—because any heavier accumulation will affect cooling efficiency," she explained.

**ONE OF THE MOST** important maintenance procedures on rotary lawn mowers is keeping the blade sharp, says Lambert Wilkes, professor of agricultural engineering at Texas A&M University.

"It is important from the standpoint of energy conservation," Wilkes points out. "If the blade is sharp enough to slice the grass rather than beat it off, the engine is under less load, and therefore uses less gasoline to perform an equal amount of work."

Wilkes notes that a sharp blade is less hazardous than a dull one since "most accidents occur due to the constant pushing and pulling when using a dull blade.

"Another reason for keeping a blade sharp is simply that a lawn will look better when the grass is sliced rather than beaten," Wilkes explains. Mower blades are made of high carbon tempered steel.

"These blades can be sharpened with grinders so long as care is taken to avoid getting the metal too hot when sharpening," the agricultural engineer explains. "If discoloration of the metal is noted, the temper is lost.

"A sharp blade will probably last a full mowing season if it is used on one lawn only," says Wilkes. "It will need sharpening more often if used for custom lawn mowing."

Lawn mower blades should be sharpened at a 45-degree bevel.

**WHEN YOUNGSTERS** come in super-hungry, give them a minty peanut butter milk shake. Beat together 1/2 cup of mint jelly and 1/2 cup of creamy peanut butter; gradually beat in 1 quart very cold milk, refrigerate until snack time, then serve.

**IT'S FRESH STRAWBERRY** time. Beat 1/2 cup fresh, sliced strawberries with mixer or blender to give 1/4 cup pulp. Fold pulp with 2 tablespoons of

confectioners' sugar into one cup of whipping cream, whipped (that gives 2 cups). Spread over Angel Food, Pound or Hot Milk Sponge Cake for a delightful dessert.

**MAKE IT A TOAST** to spring: mix 1/2 cup vegetable juice with 1/2 teaspoon lemon juice and one (8 ounce) carton of lemon-flavored yogurt in a blender. Add a few drops of hot pepper sauce to sharpen flavor, if desired. This will give 1 1/2 cups.

**A MEAL** should be like a tightrope walker, pretty evenly balanced, or it could fall down nutritionally. Select from the Four Basic Food Groups for each meal so you don't need to worry.

**APRIL SHOWERS** bring May flowers and garden fresh vegetables soon after. There's nothing better than freshly picked vegetables from your garden, cooked right away and quickly to leave them still a bit crisp. Serve with melted butter, salt and pepper. Give it a try on asparagus, then on green beans, zucchini squash and cabbage as they become available.

**CREAM IS NOT ONLY** calories. It contains the same nutrients as milk but in lesser quantities since less is used. Its most important nutrient is milkfat which means vitamin A. And then there's satiety value, that feeling of satisfaction that comes from even just a dab, which will carry you along for a few hours without letting hunger pangs take over.

**SOME DESSERTS** are for grown-ups, some for children. Here's one the youngsters will go for: To make four servings prepare one package of instant vanilla pudding mix and pour into four round dessert dishes. Chill. Just before serving, sprinkle chocolate wafer crumbs around half the edge (to represent hair), then make a mouth of maraschino cherry and use raisins for nose and yes. Kiddies will spoon it right up and get their milk easily since the pudding is made with milk.

**EVEN THOUGH** there were fewer cows producing milk in 1957 than the year before, they produced as much milk because they were fed a higher feed concentrate.

**ICE CREAM** and milk go together like proverbial, identical twins. Try this one: Combine 1/2 cup pure maple syrup and 2 cups of cold milk in a mixer or blender. Serve in chilled glasses and top with scoops of butter pecan ice cream. Makes 2 servings.

**HAVE JUST A DAB** of leftover vegetables? Make them into a soup for lunch by mixing with a thin white sauce and topping with a spoonful of shredded cheese.

## THE ABUNDANT LIFE

### Present time

**SOME THOUGHT** must be given to the future, and to our needs for the future. This, however, of necessity, must be limited. There is just so much preparation we can make for our future days, and we harm ourselves if we try to exceed the normal limits. Our principal concern must be given to the present. In fact, the best possible use of our "present time" will be the most helpful part of our preparation for the future.

**REGARDLESS** of how many days may remain in our future in time, this day is, by all standards, a very important one and we must consider it so. In this consideration, we must seek and maintain the justified balance. We will think and act in accordance with the importance of the present, but we are careful to maintain the justified concern for the future. We cannot afford to ignore either one.

**THE "PRESENT TIME"** gives us the opportunity to do many good things, and these things must be done; because there is no other way to make full use of life and opportunities.

Our best action will be the only appropriate expression of our gratitude for the life time we have. There is never any justification for failing to recognize and admit the value of this time, even when we assume that tomorrow may be a better time.

It may be better; it may be worse; and it may never be at all. Regardless, we must give full and proper attention to the "present time".

"MAKE USE OF TIME eternally; yesterday cannot be today is time, which if you lose, you lose; and which is forever. One today is a tomorrow." -Quarles.

**WE MAY NOT BE** able to do everything that we need to do, but we can form and follow a well-planned priority system. We can do something better than we can do today.

There is some work to be done, and probably some things to be done to help somebody.

From these points of consideration, we must be busy doing the valuable present as well as the future.

**THIS DAY IS FOR** us, there is work of all of us can do that is important and too long neglected, and its doing is an end in itself; it is one of satisfying blessings.

Whatever it is, it is worth the best effort; and must not be haphazardly. It will be most and most pleasing, in fact when we do it as skillfully and energetically as possible.

**WE CAN BE SURE** of the time, and wisdom teaches us in every good way we can.

—shootin'— teaches: "Whoso trusteth in the Lord, happy is he."

Happiness is being a sovereign individual. Learn to sing solo. Anybody can sing when everybody is singing.

The great and good things of history were performed by individuals, not the mass. Happiness is inequality.

You're unhappy because you have physical defects, you're not smart, don't express yourself well? Beethoven was deaf. Edison was a poor student. Churchill lisped as a boy.

When Queen Victoria exclaimed to the great pianist, Paderewski: "Ah, you are a genius!" He replied, "perhaps Your Majesty—but before I was a genius, I was a drudge."

There are few born geniuses. Genius is composed mainly of sweat, determination and courage. If you want success, do sweat it.

"Be sure you're right, then go ahead; be sure you're wrong before you quit." Don't brood over failures; if you must cry over spilled milk, condense it. And don't blame your "bad luck." Luck is a circumstance as rare as an honest politician. Your "luck" is what you make it. Those who complain about the way the ball bounces are invariably the ones who fumbled it.

Happiness is security—and the only real security you'll ever have will come from inside you. You are not the same as others. You are different. Different from any person alive, or who ever lived. You are you. The only you. What are you going to do about you? That is up to you. Happiness is a round hole.

Happiness is not to ride now, pay later, as the ads say. In the olden days men used to ride chargers, now they marry them. Happiness is riding a charger, not marrying one.

To know others, know yourself. To like others, like yourself. To be honest with others, be honest with yourself. People who continually complain that people don't understand them probably don't understand themselves.

Nobody can cheat you as badly as you cheat yourself. More important than your good qualities are the use you make of them. Happiness is service above self.

When a young minister asked his Bishop, "What shall I preach about?" the Bishop answered: "Preach about God and preach about 20 minutes."

Happiness is knowing how to spend your time. At your age it's hard for you to appreciate the tyranny of time—there's so little time for each of us. Seneca observed centuries ago: "We are always complaining that our days are few, and then acting as though there would be no end to them."

Jesus had only 33 years on earth. Nathan Hale had 22. Joan of Arc had only 19. It's not how much time you have; it's what you do with it.

Happiness is doing nothing you have to hide. Happiness is a clear conscience. Sin is not old-fashioned; sin is real.

What is morality? It's what the Bible says it is. Not what some leftwing, overeducated professor or a

# The Leader-News asks... What do you think about prolonging life with artificial breathing machines?

**PAH RODGERS**  
A national wire story... New Jersey doctors... that 22-year-old... Ann Quinlan had been... of intensive care and... respirator after being in a... for 13 months.  
New Jersey Supreme... ruled unanimously... that the young victim... be removed from the... with the agreement... doctors and a hospital... committee because her... was hopeless and she... never return to nor-  
mal do Littlefield and area... think about keeping... alive through artificial... machines, etc.?  
**WANDA COTTER**  
Against keeping people... artificially prolonging... said Wanda Cotter... especially against keep-... the very elderly alive... artificial means. Some... say that's murder, but... machines to keep... breathing, that's not the... thing.  
It's a sad situation when... is in a coma for... We had friends who... teen-aged daughter who... woke from a coma. They... her on machines for six... You can hope for... But they faced a series...  
It was all over, the... mother admitted it... have been easier on... and the best thing if... hadn't prolonged her... for all those months."  
**CAROL BLACK**  
"I don't like the idea of... keeping people alive on... take all the machines

machines just to keep them... alive," Carol Black said. "I... don't know what the alterna-... tive would be. I wouldn't want... the responsibility of saying... 'unplug the thing.' Who's to... say they couldn't possibly... recover."  
"I don't have the answer... As for myself, I wouldn't want... to lie there and not know... anybody or suffer. That's a... hard question."  
**DIXIE JAQUESS**  
Dixie Jaquess is another... who said they didn't want to... say much on the subject.  
"I don't think they should... prolong life when it's an... absolute certainty they... wouldn't have a mind if they... came around," she said, "but... I don't know how you would... know for certain. I'm espe-... cially concerned about keeping... an elderly person alive on... machines just to say they are... alive."  
**NEIL WEST**  
"I'm more or less in the... business of keeping people... alive," said Neil West. "but in... some cases, it's a question of... whether you're prolonging life... or prolonging death. Where do... you start prolonging life and... when do you start prolonging... death?"  
"If it was myself in a... hopeless situation, I wouldn't... want to be kept alive. I'd want... to go. If it was one of my kids, I... don't know."  
"Someone has to say 'shut it... off' and there's no way some... people could live with them-... selves if they made that deci-... sion."  
**FLOYCE PIERCE**  
"It wouldn't be easy to say... take all the machines

away," Floyce Pierce said.  
"Who wants to play God? I... don't object to shutting off... artificial means of prolonging... life in sad situations, but the... decision has got to be made by... the immediate family and it... wouldn't be easy."  
**GLORIA JACKSON**  
"You want to know how I... feel about keeping hopeless... cases alive on respirators. I... have a euthanasia will and it's... filled out. My will says that... death is as much a reality as... birth, growth, maturity and... old age - it is the one certainty... of life."  
"If the time comes when I... can no longer take part in... decisions for my own future, and... if the situation should... arise in which there is no... reasonable expectation of my... recovery from physical or men-... tal disability, I request that I... be allowed to die and not be... kept alive by artificial means... or 'heroic measures'.  
"I do not fear death itself as... much as the indignities of... deterioration, dependence and... hopeless pain. I, therefore, ask... that medication be mercifully... administered to me to alleviate... suffering even though this may... hasten the moment of death."  
"This request is made after... careful consideration. I hope... you who care for me will feel... morally bound to follow its... mandate. It is with the inten-... tion of relieving you of heavy... responsibility and of placing it... upon myself in accordance... with my strong convictions... that I make this statement."

**TOM HILBUN**  
"I've got mixed emotions... about prolonging life arti-... ficially," Tom Hilbun said. "I... had a friend who was severely... injured in an automobile acci-... dent. He was kept alive on... machines over 90 days while he... was unconscious. He regained... consciousness, but he was... never able to do the things he... could before. He had impaired... speech, and had to learn to... walk again."  
"But a fellow might be... treading where he shouldn't... when he calls the shots. I think... you have to ask what is the... definition of 'alive' and 'dead'.  
If I were in a situation where I... couldn't recover, or if I did and... couldn't take care of myself, then... I'd just as soon the plug... be pulled on me."  
"If it was my child, then I... don't know how I'd feel. And if... it was someone where I'm not... concerned, I wouldn't attempt... an answer."

Behind 11-5 after two innings, the Firemen could close the gap to only 12-7 before their final period heroics. The win settled them firmly in second place with a 4-1 record, while WOW evened their season mark at 3-3.

Leslie Yarbrough was the winning pitcher and slugged a home run and a single. Curtis Williams had a red-hot bat, knocking out a double and three singles. Clark Pylant hit three singles, and Frank Vega singled and tripled.

Scott Yarbrough had two singles and a double for the Woodmen. Scott Lewis added a double and single. Birkelbach 19, Lions 4

Birkelbach and the Lions continued their season streaks Friday night, but they are headed in opposite directions. It was Birkelbach's fifth win, 19-4, and the Lions fifth loss.

Ronnie Smith fired a three-hitter to baffle the Lions. Mike Williams slammed a homer

and single, and Rocky Bowman blasted another round-tripper. Jim Burks and Ronnie Smith had doubles.

# Veterans choke Newsmen

Leader-News' stay at the top of the Littlefield minor league pile came to a quick halt Saturday when VFW exploded for 16 runs and creamed the Newsmen 16-2.

Leader-News had gained the lead last Thursday when they dropped Security State 12-11, making it the first minor league game of the season that had not ended in a tie.

Carlisle-Oldham, with a 13-12 win over Security State Friday, joined VFW at 1-0-2 and a share of the lead.

Leader-News 11, Security State 10

A single run in the bottom of the fourth broke a 10-10 deadlock and gave Leader-News a 11-10 win over Security State.

Gary Vaughn, Cliff Davis, Feraunte Lewis and Chris Clark each cracked a single for the winners, and Eric Dumoss was the winning pitcher.

Benny Davis and Juan Hernandez both knocked a double for the Bankers. Oscar Torres popped two singles.

Carlisle-Oldham 13, Security State 12

Ahead 13-4 after an inning and a half, Carlisle-Oldham still had to withstand a SS rally to hang on to the win, 13-12.

The Bankers came back for three runs in the bottom of the fourth to get within a single run, but they fell just short of the lead.

Freddie Hernandez was the winner on the mound, and teammate Gary Sawyer hit a double.

Losing pitcher Oscar Torres sliced two singles for winless Security State. Eric Dumoss doubled and Charles Jackson added a single.

VFW 16, Leader-News 2

Scoring at least three runs in every inning, the Veterans had little trouble in throttling Leader-News 16-2 Saturday.

Randy Stuart hammered out a triple and a double to pace VFW. Pitcher Vernon Williams aided his own cause by batting a double and two singles.

Billy Savala notched two singles for the Newsmen. Cliff Davis, Gary Vaughn, Orville Haynes, Feraunte Lewis and Dale Haynes all had singles.

**Pioneers blow out Fireballs**

The Pioneers doused the previously unbeaten Fireballs 6-1 Monday night in a game that lasted only two innings because of stormy weather.

The Pioneer win put them at 4-1 on the season, tied with the Fireballs for second-place in the Pee Wee league. The Lions, with a 20-6 win over the Chiefs, remained at the top with a 4-0 mark.

The Lions had little trouble Friday night with the Chiefs, winning 20-6 to remain undefeated.

Paul Mendez was the winner on the mound, and joined teammates Dale Bradley, Mike Pierce, Kerry Jones and Leo McCarty as the leading hitters.

Brad Heffington, Rodney Williams and Raymon Mooney were the top Chief batters. Pioneers 17, Roadrunners 13

In a high-scoring game Friday, the Pioneers came out on top over the Roadrunners 17-13.

## Our future as made history.

Farmers tend to be pretty tough customers. They want to get everything they can out of every nickel they spend. And that's good. Because the tougher they get the more likely they are to use Gifford-Hill's irrigation equipment.

There are two very good reasons for that.

One, we can give them the best engineered irrigation equipment in the country. Our history has proven that.

And two, we can give the best service to take care of that equipment. Our history has proven that, too.

The fact is, you can only draw one conclusion. Whether you need a surface system, an underground PVC system, or an aluminum surface system, you just can't outdo us. And we don't think you'll ever be able to.

All you have to do is take a look at our past. That should give you a very good idea about what to expect in the future.

**MAKE IMAGINATION YOUR HOBBY**

Over fifty years ago I made imagination my hobby. So far, I have never regretted that decision. The history of civilization is essentially the history of man's creative ability. Whether this talent can be enlarged in anyone's life by training is questionable. But what is not questionable is that every individual can train his or her imagination to be more productive.

My most enjoyable experience in life is to take Bible stories and relive them through my imagination. A professor in seminary introduced me to Abraham and we became fast friends at once. My roommate led me to Jesus and Jesus and I have been brothers ever since.

Now I know them both intimately along with hundreds of other real persons in Biblical history. I hope you know them too. My imagination has dramatically extended my knowledge of God and dynamically affected every detail of my ministry. Yes, long years ago I made imagination my hobby—and my hobby has made me rich—rich in the capacity to experience genuine excitement and pleasure in reading God's Word; rich in the art of reading the Bible with the mind's eye, that great, great gift of God.
