

**THE KING OF HOBOS** was in Littlefield this week on one of his two annual cross-country trips. With his 70-pound pack on his back, he is to Littlefield Police Lieutenant James Cox. "The King" says he has only six or eight remaining respectable hobos.

## Hobo King 'Respectable'

... spent the weekend in Littlefield. While "King of the Hobos" Richard Wilson was in town he passed out advice about eating too much meat brings out the best in you and makes you sexy," and he talked on any subject anyone wanted to talk about.

"King of the Hobos" title was passed on to Wilson by fellow hobos at the annual hobo convention five years ago and has been re-elected every year since. He is only about six or eight respectable hobos who attend the convention. Wilson said, "By respectable, the hobos means hobos who do not smoke, drink alcohol, or steal."

Wilson has never smoked and he frowns on drinking, drugs and crime. He has lived in hobo camps at times, but tries to lead a straight hippy life and get young people to be responsible citizens.

Wilson is 77 years of age, he said he would go to the state penitentiary to live if he had to. He is mostly self-taught, and he has read the U.S. Constitution, sleeping in abandoned shacks or wherever he can find a place to sleep. Wilson said he hit the road after his family was broken up when he was a teenager. He was on the road 10 years before he found that reading was his life. He lists the Bible and books by Ben Franklin, Thomas Jefferson, and Socrates as good books. He says that people should pattern their lives after wisdom found in these books.

### Deadline Nearing for License Tags

Deadline for automobile registration is April 1—only three weeks away—and several Lamb County residents still have not purchased their tags. Mail-in deadline was closed March 1. In-person registration may be accomplished quickly in the assessor-collector's office at the courthouse, or at any of the substations in the other counties of Lamb County, by bringing the computerized forms that were sent to vehicle owners at the first of the year, along with the correct registration fee.

The king likes publicity and his attire of a pair of striped overalls, with their rips and tears hand stitched with white string and blue thread, and a blue sweat shirt topped with an old army fatigue jacket gets attention. And if this isn't enough, his hat, covered with feathers, slogan pins and everything else he can find to attach to it, draws reporters. His press clippings from all over the U. S. are carefully folded in a piece of paper sack and he displays them like they are medals from battles.

He has appeared on television and the principal of a school in Abilene once asked him to come in and talk to a student assembly when he passed a school. After his talk, a teacher wrote him to say that he had made a remarkable presentation and was a capable speaker to keep the interest of the children.

Because his self-education shows, fellow hobos often look down their noses at the king of the hobo's book learning. But

## Shoot-Out Wounds Two Negro Men

A shoot-out at a cafe in northeast Littlefield Sunday night resulted in two persons taken to hospital with injuries and two others jailed.

James Lee, about 45 years old, was taken to the Littlefield Hospital after he was shot in the left hand and his skull was creased by a bullet. Joe Huey, 20, was shot in his left foot and was admitted to the Medical Arts Hospital. Charges against the gunshot victims were pending Tuesday.

Two other Negroes, Robert Conley and Willie Conley, were charged with aggravated assault in the same incident, and bond was set at \$1,000 each.

Five were jailed by county and state officers on various charges over the weekend.

Saturday night highway patrolmen

charged John Alf Jones, 61, of Lubbock, with driving while intoxicated. Jones was driving a semi-truck-trailer east of Amherst. He was released Monday after paying a fine of \$100 plus court cost. A sentence of 30 days in jail was probated.

Three youths from the Levelland area were arrested Saturday night for excessive speeding and other traffic violations. The driver was fined \$100 and two passengers were fined \$50 each for aiding and abetting.

Littlefield Sheriff's Deputies Jerry Collins and Gary Lightfoot were traveling west inside the Littlefield City Limits when a vehicle passed them on the right side at a high rate of speed.

Collins said they pursued the vehicle then radioed Levelland for help. The Chase continued to the city limits of Levelland with speeds up to 120 miles per hour.

Levelland officers said the car reached speeds of over 100 miles an hour down busy College Ave, until the trio rounded the curve in front of South Plains College.

When the auto was stopped, Jackie Dewayne Smith was arrested by the Littlefield deputies and charged with speeding over 115 miles an hour, running a stop sign and disregarding a construction sign.

Joe Perez of Littlefield was arrested on felony check law charges Sunday and held overnight for Lubbock and Levelland authorities.

A 1966 Pontiac owned by Mike Carver of 315 E. 9th in Littlefield was left parked on E. Delano Friday night after car trouble developed.

The car was towed away sometime after it was parked and was gone when the owner returned for it Saturday morning. County authorities found the car one mile north and one and one-half miles east of Littlefield about 7 p.m. Saturday. The car had been stripped. Missing were the four tires and wheels and all the wires had been pulled off. The back seat had been taken loose and the trunk lid had been pried and damaged.

### COACH LEWIS' PROGRESS OK

Coach Deverelle Lewis was reported in good spirits and making progressive recovery after heart surgery Monday afternoon at the Methodist Hospital in Lubbock.

A vein was taken from one of the coach's legs and used to by-pass a heart blockage.

Lewis was still in the intensive care unit at press time Wednesday, but was to be transferred to the cardiac floor this week.

**TOP WILDCATS**--Dennis Hartley, left, a junior halfback, was named the Most Valuable Player of the 1970 Littlefield Wildcats, and Max Huber, a 145-pound senior guard, received the "Fighting Heart Award" at the annual Quarterback Club banquet.

## Carlen Challenges Wildcat Footballers

Texas Tech football Coach Jim Carlen, who has been challenged even by other coaches for his now famous rules, issued a challenge to the Littlefield Wildcats here Monday night.

"Don't be satisfied to be a loser," Carlen told a capacity crowd attending the Quarterback Club's annual banquet. "Show me a good loser, and I'll show you a loser."

Carlen stood firm in his convictions, declaring, "Winning is what life's all about." He said the biggest difference in a winner and a loser is attitude.

Carlen told the audience, which included all the Wildcats, their coaches, parents and fans, that he made Littlefield one of his 350 annual speaking stops because the team had a losing record in 1970.

At the outset, he said he might offend some people by speaking his thoughts, but that he would not be offended if anyone did not care to stay and listen.

Speaking to young people in the group, he said, "You and I both know there are some of you who drink, or smoke, or try

drugs. Don't say it doesn't happen in Littlefield, because it happens everywhere.

"You think you're cheating your parents, your teachers and your coaches, but you aren't. You're cheating yourselves," Carlen declared.

Carlen said the "solution" for problems of young people is faith in God.

"If you don't have a faith," he said, "get on your knees and get one... Get 'one-on-one' with God."

Carlen's talk climaxed a night in which the Wildcats were honored by the home town folks and their coaches.

Lyndon Gathright, acting for Head Coach Deverelle Lewis who was in a Lubbock hospital following heart surgery earlier Monday, said he was proud of the Wildcats because "you kept trying, and kept improving, in spite of injuries and other trying circumstances."

Coach Lewis was lost to the team in the second week of the season after he suffered a heart attack.

Top honors of the night went to Dennis Hartley, a junior halfback whose teammates elected him the most valuable player for 1970.

Max Huber, a senior guard-linebacker who weighs only 145 pounds, received the "Fighting Heart Award."

Named outstanding backs of the year were Ralph Funk, a junior halfback, offense; and Hartley, defense.

Outstanding linemen were Wayne Streety, senior center, and Kenny Pratt, junior guard, offense; and Calvin Kilby, senior tackle, defense.

Rachel Harlen was presented a bouquet and crowned football queen. Her at-

## Lamb County Families Host Mid-West Farmers

The T. C. Favor and the Waymon Lewis families will serve as host families for Lamb County this week when a group of mid-west farmers from North Dakota will be in this area to participate in a Texas Farmers Union membership expansion program.

The program will involve 12 counties on the South Plains and will be conducted from March 8 to March 12.

Other counties who will host the visitors are Lubbock, Castro, Farmer, Hale, Bailey, Hockley, Dawson, Mitchell, Floyd, Martin and Terry.

A similar program which brought representatives from Farmers Union organizations in several mid-west states to Texas was carried out in 1970, and, according to Texas Farmers Union office in Waco, this year's program is a continuation of what will be an annual activity.

Forty North Dakota farmers Union members will arrive aboard the Farmers Union Convair at Municipal Airport in Lubbock, 3:45 p.m., Monday, March 8.

Following the reception and briefing, representatives from the counties involved in the membership-building program will take the North Dakotans to their home counties for the three-day canvass. Drives are being planned for Tuesday, Wednesday, and Thursday, and the group will re-assemble in Lubbock on Friday, March 12, for return to North Dakota.

The Student Activity Office of South Plains College has revealed that two area students are among 30 at the college who have been selected for inclusion in "Who's Who In American Junior Colleges."

They are Kathline Carson of Olton and Kathy Decker of Pep.

In order to be chosen, students must be full-time students, of sophomore rank, maintain certain academic standards, and be active in the activities of the college and the community.

Each recipient will have their name and biography published in the "Who's Who In American Junior Colleges" annual volume. In addition, each will receive a gold-plated certificate and will be eligible for hundreds of scholarships and job opportunities that are not available to other students.

Each of these students will be formally recognized at the college's annual Awards Day program scheduled for late April.

The names of the recipients were submitted after recommendations were made by the Student Senate, a faculty committee, and the Student Activity Office.

The number of South Plains College students chosen was limited according to the college's official enrollment.

The plan calls for up to one nominee for every 60 students enrolled.

Not all students submitted by the various colleges in the United States are accepted, and in this case, additional allotments are made to colleges

# Install gas air conditioning now?

You should be so foxy

Installing GAS air conditioning now means you'll beat the rush that always comes with the first hot or dusty spring day. While everyone else is waiting for the overworked installers you'll be cool, calm, and collected.

GAS air conditioning cools your whole house quietly and efficiently. You'll save on repairs, too, because there is no compressor to break down or wear out. And, GAS air conditioning cools your whole house for what you might have been paying to cool just two or three rooms before.

So, be foxy. Call Pioneer and tell them you'd like to find out more about installing GAS air conditioning in the winter. A representative will tell you what it will take to include it in your present forced air heating system. You may be able to use the same ductwork for heating and cooling. It costs nothing to get a complete survey of your home or business.

# DEAR EDITOR

## What Our Readers Think

### Student Opinion

Dear Editor,  
 What an unnecessary ruling was made by the School Board.  
 People in Littlefield always said, "Oh it doesn't really matter how long a person's hair is, as long as it is cleaned and combed." I doubt that there has been a single case where a student at any Littlefield school has appeared in class with dirty, unkempt hair. If anything at all, it is kept up with more, since the kids with relatively longer hair than standard seem to be self-conscious of their hair and tend to keep up with it.  
 No one in Littlefield schools is considered a hippie. No one is considered to have long hair. No one is going way out and causing any major trouble. There has been no trouble. Everything was quiet and orderly. There was no need to pass that ruling.

and for teachers who would be turned into policemen seeking out the long-hairs, when there are no long hairs to be found.

Re: Hairstyles

Dear Bill:  
 It seems to me that the school officials would do well to worry more about what goes on between the ears than what covers the ears.

It is simply amazing how some folks spend more time tending to other folk's personal business than they do tending to their own personal business. This includes worrying a lot about such trivial matters as to how other folks ought to wear their hair. One can appreciate poor old Lemuel Gulliver who was disgusted at the deadly war between the big-endians and the little-endians, all of which started before any of the participants could remember over the emotionally packed question of whether it is proper for other folks to break their breakfast eggs at the little ends or at the big ends.

Hopefully someday mankind will progress to the extent that non-conformity will not be synonymous with evil, and that we will accept the idea that if the heart is pure who gives a damn about the rest.

Yours very truly,  
 s/Jerome W. Kirby

### NOISE REACTION

The human body has a general reaction to noise, a reaction that can contribute to feelings of fatigue, irritability or tension.

## Girl Scout Week

DURING THE WEEK of March 7-13, the nation is observing Girl Scout Week. The purpose of the Girl Scouts is to inspire girls with the highest ideals of character, conduct, patriotism and service so that they can become happy and resourceful citizens.

Membership is open to all girls from 7 through 17 years of age—girls who accept the Girl Scout Promise and Laws. The total membership in the Girl Scouts is nearly 4 million.

This includes 3.25 million girls and 670,000 adults.

SINCE 1912, there have been about 31 million members—24 million girls and 7 million adults.

The first Girl Scout Troop was founded on March 12, 1912, in Savannah, Ga. by Juliette Gordon Low.

IN A WAY, the Girl Scouts are a counterpart of the Boy Scouts. Together, they make up a vast reservoir of future responsible citizenry.

Whenever we are tempted to become discouraged about the future of the United States, we should recall these powerful forces for good that pervade the lives of so many youngsters.

GIRL SCOUT WEEK is a good time to reaffirm support of an enduring organization that helps to guarantee a strong and lasting nation.

### THE ABUNDANT LIFE

## Indestructibles

By BOB WEAR

OPPORTUNITIES must be used or lost. This is another indestructible. We may slight the opportunity, or we may not be prepared to use it. Regardless, it is lost.

Now and then there will be other opportunities, but not the same one that was lost. It doesn't matter how much pretending people do, or how they try to destroy this fact; it remains indestructible.

TIME IS LIFE. The way we use time is the way we use life. This is an obvious indestructible, but many of us do not accept it as such. We do not equate the two. We talk about killing time, and wasting time, etc. If we fully accepted the fact that time is life, we would surely have better attitudes toward time, and make better use of it.

WE ARE BECOMING what we are going to be. We cannot eventually be a trustworthy, industrious, capable, honorable and respected person if we are presently being untrustworthy, lazy, incapable, dishonorable and unworthy of respect as we move along toward what we are going to be.

This is another indestructible. Our habit patterns, good or bad, remain with us always.

TO HAVE FRIENDS, we must show ourselves to be a friend. This conclusion is indestructible.

It has been a proven fact of human relationships from the very beginning of human interactions. It will certainly stand as one of the important indestructibles.

THERE ARE MANY indestructibles, and in these we must find our strength and courage for fullness of living.

WANTON DESTRUCTIVENESS seems to be the sole life-purpose of some persons. They don't know how to handle their hostilities, frustrations and envious feelings. Their life pattern becomes a kind of destructive syndrome. Of course, they do not help anybody or anything, not even themselves; however, they continue their destructiveness.

Even though they are fully dedicated to their faulty way of life, there are some things they cannot destroy.

THERE ARE indestructibles which defy the combined destructive efforts of mankind. It may be possible to destroy the person who speaks truth, but it rises again.

There may be times when it seems hidden from view, but it is always there to be found by those who seek it. Truth, though buffeted about, remains indestructible.

RE REAP AS WE SOW is a law of life, a law that works relentlessly under all circumstances. Many people try to destroy it by pretending that it doesn't work.

Others try to ignore it, and some go so far as to deny it. Regardless of what may be done to destroy it, there it is working in all of its ways for everybody to see that we do reap as we sow.

WE ARE WHAT WE THINK. This is a time-tested fact of life. It lends itself to easy and obvious demonstration. This is another one of the indestructibles.

The quality of thinking we do depends largely upon what we put into the mind. People who foolishly assume that they can keep their lives straight without keeping their thinking straight are trying to destroy one of the most obvious indestructibles.

### A WOMAN'S VIEW

## Guilt

By PEARL BRANDON

I SUPPOSE all of us at times feel a certain amount of guilt. Guilt from neglect, or omission; or guilt from having said or done something to hurt someone.

I FEEL GUILTY about being so inadequate at times. There seems to be so much to do. I can't possibly do all the things that need to be done and when I take time off or waste a day I feel guilty.

I HEARD a man talking on the radio the other morning about the remission of sins. He said God not only forgave sins but he removed them completely from His memory as if they had never been. He forgave the sin and remembered it no more.

WE HEAR so much about the evil things that happened in the past that we cannot change—and of course we can't, but this man said God blotted them out as if they had never happened. He completely erased them. If God can erase the stain of sin in our lives should we not forget the guilt? The feeling of guilt over something that happened long ago keeps some people from ever being entirely happy all their lives.

THIS SHOULD not be. None of us are perfect. All of us have hidden guilt that we should blot out. "All these old nagging, guilty feelings I'll erase and go on from here with a clean slate."

IF GOD can erase our sins and remember them no more He will surely help us to forget also. Sometimes I even feel guilty over being happy when there is so much hardship and suffering in the world. Should I be happy when others are sad? Should I have peace of mind when others are torn apart with suffering and confusion?

I BELIEVE we should accept the blessings of life gladly and be grateful, but we should not neglect our fallen brothers either.

What God has allowed me I should share with those around me, even my happiness.

TRUE SECURITY doesn't always mean plenty of money or material things. True security means being filled with the grace of God and faith in His ability to supply our needs from day to day.

## It Started In 1912 . . .

Scouting had its origin in England. . .  
Lord Baden-Powell, founder of the Boy Scouts,  
saw that the boys of the world were in  
need of an organization that would  
teach them the values of citizenship, self-  
reliance, and good character. . .  
The first Girl Scout meeting was held in  
London in 1912. . .  
The Girl Scout movement has since  
spread to every continent of the world.  
Today, Girl Scouts are active in every

**Now there's a new, small Pontiac with a small-car price for small-car lovers.**

Wouldn't you know it would be fun to drive, stingy on gas, quick to service and built to last.

Of course you would. We wouldn't build a small car unless we figured it would give you more of what you want a small car for.

Take that low price. Ventura II is a small car, so it has a low small-car price. But it's what you get for that small price that makes Ventura II worth a close look.

**Ventura II is fun to drive.** It should be, it's from the Wide-Track people. Which means you get a smooth, comfortable Wide-Track ride.

The handling's quick. There's a nifty 111-inch wheelbase for easy parking. And both the 250-cu.-in. six and available 307-cu.-in. V-8 respond beautifully in city traffic or on the expressway.

**Ventura II is stingy with your gas money.** Both the standard six-cylinder engine and the V-8 you can order run beautifully on regular gas or the new low-lead and no-lead fuels. The carburetor on the six is an economical one-barrel and the transmission for both six and V-8 is a practical 3-speed manual.

**Ventura II is quick to service.** If you're a do-it-yourselfer, you'll like fiddling around with the new Ventura II.

New twist-lock lamp sockets let you make changes in seconds.

The engine is uncomplicated and there is plenty of engine-compartment space, especially with the six.

If you ever need to have somebody else work on your car—well, you'll like Ventura II, too. Both the standard six and available V-8 are tough, time-tested designs. Same goes for

transmissions. The standard 3-speed manual and the available 2-speed automatic, Turbo Hydra-matic or floor-mounted 3-speed are all rugged, dependable units.

**Ventura II is built to last.** There's nothing lightweight about this car. It's welded—not bolted—at hundreds of strategic points to help keep it tight and quiet.

The body is heavy-gauge steel. And it has double paneling in the deck lid, hood and doors. You could probably sum it up best with three little words: Body by Fisher.

So, come on. If you're a small-car lover, stop by your Pontiac dealer's today. Tell him you want to see the new Ventura II. It's the small car that gives you more of what you want a small car for.

Don't forget to buckle up for safety.

**Ventura II—It's Pure Pontiac!**

## God's Psychiatry

A DEVOTIONAL BY WAYLAND HUTTO

"Jesus loves you." In church camps, conventions, and personal conversations, Christian youth are telling others just that. These youth are excited in a way that they don't understand—but they don't question the changes that have come about in their lives since they found out that Jesus

loves THEM.

Even though some want to forget Him, His truth and wisdom can not be denied by even the most educated of men. His love has never been equalled, for no other has ever given his life for everyone—including his enemies.

Christ's ultimate dedication to God and His will can not be doubted. Jesus knew His purpose, and every day He lived toward that end.

Whether or not one believes that Jesus is the Son of God, and possesses life, is up to him. But students and young adults claim to respect those that are sincere and completely given to a cause in which that one believes.

If this is true, then who is the hypocrite?

Is it the Christian who tries to learn about God and his personal relationship with Him, or is it those who claim to respect true dedication, yet curse and deny the most dedicated One of all?

The group of people who desire such a change in our world should remember that WE are not to try to right the world, but to see it rightly. WE are not to try to change people, but to sense the feeling in their souls.

Jesus can right the world, and Jesus can change people. "Jesus loves you."

## BANVEL GETS TO THE ROOT OF YOUR WEED PROBLEM

BANVEL TRANSLOCATES/SPRAYED 7th OF MONTH

4 DAYS LATER

More and more grain sorghum producers find certain deep-rooted weed populations building up. Neither other weed killers nor cultivation give effective control of extra-tough and resistant pigweed (carelessweed), sunflower, cocklebur, morning glory, lambsquarter, purslane, other costly broadleaves.

Banvel, the post-emergent herbicide, does control them. For one simple reason. Banvel translocates. Absorbed by foliage and roots, Banvel moves with plant fluids from leaf tip to roots, and back again. Destroys as it goes.

Cost of Banvel? As little as \$1.90 per acre broadcast. Spray 10 to 25 days after emergence of sorghum, when weeds are young, growing most actively. Sorghum, when used as directed, is completely tolerant to Banvel. Ask dealer or custom sprayer for full information on Banvel. Every container of Banvel carries the Velsicol guarantee of sorghum tolerance to Banvel.

**ST. PATRICK'S DAY** is rapidly approaching—the time for those, with even a trace of Irish blood to celebrate the day in honor of the patron saint of Ireland, St. Patrick.

St. Patrick was born about 387 in what is now Great Britain. In 432 he came to Ireland to teach Christianity, and died on March 17 in about 461.

Many legends have come about through the years concerning St. Patrick. One of them is that he planted a tiny plant in Ireland because its three small leaves represented the Holy Trinity. All loyal Irish still wear a shamrock in their lapels on St. Patrick's Day.

St. Patrick's Day has been observed nationwide since 1845. To make it a "great day for the Irish" it is celebrated in homes, churches, schools and places of entertainment. Merchants even display and sell special wearing apparel, flowers, shamrocks and greeting cards.

You'll have the luck of the Irish (whether you are Irish or not) when you join in the celebration and treat your family or guests with a special St. Patrick's Day menu.

Stir in remaining mixture on edge of pan. Roll loosely, fasten with picks.  
Melt 1/4 cup butter in shallow baking pan. Pour sauce over steaks in pan, and bake at 350 degrees for 10 minutes. Turn once. Yield: 8 servings.

**SHAMROCK VEGETABLE CASSEROLE**  
1 10-ounce package baby lima beans  
1 10-ounce package green beans  
1 10-ounce package green peas  
1 8-ounce package cheese  
2 Tbsp. mayonnaise  
1/2 cup (about) green pepper, sliced  
Parmesan cheese  
Paprika  
Cook frozen separately according to package directions thoroughly.  
Soften cream cheese with mayonnaise to make a thin sauce.

Place vegetables in an 8-inch casserole. Layer pepper slices between. Pour sauce over. Sprinkle heavily with cheese and lightly with paprika. Bake for 20 minutes at 375 degrees.

**SHAMROCK BEEF AND POTATOES O'BLARNEY**  
1 cake dry yeast  
1/4 cup lukewarm water  
1/2 cup mashed potatoes  
1/4 cup shortening  
1 1/2 tsp. salt  
1/4 cup sugar  
1 cup milk  
1 egg  
4 to 4 1/2 cups flour  
Add yeast to water. Combine potatoes, shortening, salt, sugar and yeast mixture and stir in 2 cups of remaining flour.

Knead on bread board 5 minutes. Let rise till double in size in a warm place. Punch down, shape into rolls.  
Let rise until double again.  
Bake at 375 degrees for 25 minutes.

# NEW GT LEE RADIAL BELTED 2 PLUS 4 PASSENGER TIRE

— 2 Radial Body Plies of Miracle Polyester Cord  
— 4 Belt Plies of Stable Rayon Cord

FOR THE AMERICAN CAR

For super premium\* high performance

\*Super Premium is Lee's designation. No industry wide standard exists for Premium Tires.

### CONSTRUCTION

Two radial plies of polyester cord run straight across the centerline from bead to bead. Polyester is unmatched for resilience, strength and durability and provides a soft ride, long wear and is resistant to bruising, free of flatspotting. Between the polyester plies and the tread are four rayon belts which form a near-rigid support for the tire tread, holding it tightly, where it belongs, against the road, and effectively preventing motion and scrubbing that shortens the tread life of ordinary tires.

With every turn of the wheel the sidewalls of a conventional tire flex and the tread is squeezed together. The Radial 2 plus 4 construction prevents this "tread squirm" by stabilizing the tread and reducing tread motion and thus extending tread life.

Lee's reverse molded process produces a tire that comes out flat and straight against the road when the tire is inflated. It gives the wide tread both structural strength and resiliency and helps put every square inch of tread contact area to work.
