

Area School Bells Will Be Ringing Soon

Registration for the 1972-73 school term is underway at some of the area schools, and school bells ring in the fall term for Littlefield and nine area schools within the next two weeks.

The Bula, Spade, Pep and Whitharral schools all open their doors next Monday, Aug. 21, for the first full day of the new school term.

Sudan, Otton and Springlake-Earth schools begin the 1972-73 term Wednesday, Aug. 23rd.

Littlefield, Amherst and Anton schools begin the fall school term on Monday, Aug. 28th.

Littlefield teachers begin the fall in-service session next week with a faculty meeting Wednesday.

Lamb County teachers meet in Littlefield for a county-wide faculty workshop Aug. 21-23.

Littlefield High School students will register Aug. 24th and 25th under the following schedule:

Seniors register from 9-12 Thursday, Aug. 24; LHS juniors register from 1-4 p.m. Thursday, and sophomores meet in the high school auditorium at 8:30 on Friday, Aug. 25th, for orientation and registration is from 9-12 following the group meeting.

Ninth graders register from 10-12 noon Thursday, Aug. 24. Thursday afternoon from 1-3, eighth graders enroll.

At 10 a.m. Friday, seventh graders and all students new to Littlefield Junior High will meet for orientation. Then

between 11 and noon, seventh graders will enroll, get their books and home room assignments.

At the Littlefield primary, all students not previously registered should go by the principal's office during the week of Aug. 21.

Friday, Aug. 25th, all first grade students and their parents are invited to come to the primary building to meet teachers and get located, rather than waiting until the first day of school.

Students at Elementary I, Elementary II and Littlefield Junior High who are new to the Littlefield school system are asked to pre-register in the respective principals' office on Thursday and Friday, Aug. 24th and 25th.

All Littlefield classes get underway Monday, Aug. 28th.

Bula High School students register Friday, Aug. 18th. Busses will run and lunch will be served on the first day of school, Aug. 21.

Whitharral High students register from 1-4 p.m., Aug. 18, in the school cafeteria. Classes begin at 8:45, Monday, Aug. 21. The Whitharral system will have a pre-kindergarten class this year for children who are four-years old by Sept. 1.

Classes at Pep begin at 8:30 Monday, Aug. 21, with an assembly in the school auditorium.

Spade schools open Monday, Aug. 21, with an assembly. The public is invited to attend. Busses will run and lunch will be served. Lunch tickets are 40 cents for kindergarten through the fourth grade, and 45 cents for grades four through 12.

Sudan school students begin registration Monday, Aug. 21, with grades one through seven registering from 9-12 in their respective rooms, and juniors and seniors registering in the school library from 9-12. Grades 8, 9, and 10 register from 1-4 p.m. in the library and room 103. School begins Wednesday, Aug. 23.

Enrollment begins the 21st for Otton students, when seniors meet at 10 a.m. for enrollment and to have their senior pictures made. Juniors register Aug. 22 from 9-10 a.m.; sophomores register from 10-11, and freshmen register from 1-2 p.m. All elementary and junior high students register Aug. 22 from 9 a.m. until 4 p.m. The first full day of the new school year is Wednesday, Aug. 23.

Springlake-Earth students are registering this week, and school begins Aug. 23.

Amherst students register the 22nd in the high school, and school starts Monday, Aug. 28th.

Anton High School students enroll Aug. 23rd and 24th, with school starting Aug. 28th. All Anton sophomores, juniors and seniors register at 1 p.m., Aug. 23rd. Seventh, eighth and ninth graders register at 1 p.m., Aug. 24th.

Elementary students who have not previously attended Anton schools enroll Wednesday, Aug. 23rd at 1 p.m. Kindergarten and first grade students who did not enroll on the pre-school day should enroll at 2 p.m. Aug. 23rd.

Clean-Up Begins

The week, which is designated for Monday through Friday, will be an all-out effort of citizens to clean up Littlefield's city proper.

Several Littlefield residents are beginning their official clean-up week today, and will be mowing lawns, hoeing weeds, raking up debris to help beautify their residences and back alleys.

Young and old citizens alike have volunteered their equipment and muscle power toward the project.

The city is seeking tractors with shredders, and will pay for their hire for a few hours.

Grass clippings, weeds, trash and other debris should be placed in large plastic bags, boxes or other easily-handled containers which may be removed from the alleys by volunteers during the week.

A limited number of plastic bags will be available at the Chamber of Commerce office.

Friday will be termed "show off day", when volunteer pickups and trucks, along with city trucks, will wind up collections of the trash. They will begin collections Wednesday.

Persons wishing to volunteer time or equipment to the campaign are asked to contact the Chamber of Commerce and Agriculture office anytime between 8 a.m. and 5 p.m.

The project is being co-ordinated through the Chamber of Commerce office, and all communications should be directed to that office.

Citizens who wish to take their own trash to the dump grounds, located east of Littlefield on Highway 54 (Spade Highway) and west of the city lake, are invited to dump trash in the open pits provided. The grounds, which are usually locked at 5 p.m., will remain open later to receive trash.

RANDY COOK weighs in in preparation for the 1972 Wildcat football season. Head Coach Jerry Blakely is on the right. Two seniors, Mike Hopper and Weldon Culp, watch the weighing in process which is part of the physical examinations given by Dr. D. J. Stafford each year. Both the varsity and junior varsity begin practice Monday. The first day with pads will be Friday. The varsity practices at 8:30 a.m. and 2:30 p.m. each day and the JV team practices at 10:15 a.m. and 4:30 p.m. each day. The varsity will change to a morning-night practice schedule on Aug. 18. All interested Wildcat fans are invited to come out and watch the Cats prepare for the 1972 football season.

Commissioners To Discuss Quail Season

Lamb County commissioners will set the county's quail season, consider the proposed budget for 1973, and accept or reject a resolution on a rate increase over Natural Gas Company during their regular business session.

If the court disapproves the game commission's ruling, the quail hunting season in Lamb County will revert back to the general law of 45 days and automatically be set from Dec. 1 through Jan. 15.

During August, county department heads submit their budgets to the commissioners' court for the coming year's budget which is adopted in January.

Some elected officials are expected to request salary raises either for themselves or their employees.

The court will consider a resolution concerning the recent increases in the price of agricultural and irrigation gas supplied by the Pioneer Natural Gas Company which holds a monopoly in Lamb County and the surrounding irrigated area.

Deaf Smith, Parmer, Bailey, and Floyd Counties have already passed the resolution. The increase affects the entire rural South Plains and Panhandle area.

In effect the resolution states that natural gas used as irrigation fuel is one of the major costs of farming in Lamb County. Even though farmers in the area served by Pioneer spent an average of \$1,000 per well building their own gas lines to tie on to Pioneer, Pioneer has raised the price of irrigation gas a number of times in the last 17 years. Since Pioneer is not regulated by any agency with regard to the price of irrigation gas, the company is free to raise the price of gas at any time and the farmers have no recourse and simply must pay the increased price or be cut off from natural gas.

The resolution states that any unregulated monopoly is opposed to the public interest and the monopoly held by Pioneer with the attendant price increases is having a devastating effect upon the agricultural economy of the area at a time when agriculture in general, and particularly in this local area, is already so depressed that many farmers have lost their farms and have been forced to earn a livelihood in some other way.

Courts that have passed the resolution certify they keenly feel responsibility to the irrigation farmers and feel strongly that no monopoly should be completely free of regulation and that Pioneer Natural Gas Company should not be free to raise the price of irrigation gas any time they see fit and the farmers in the area should have some recourse and some forum in which to complain of the exorbitant and excessive prices charged by Pioneer for irrigation gas.

Farmers want some recourse and some forum in which to complain of the

Plans Taking Shape For Festivities Days

Nearly two full weeks remain before Littlefield Festivities Days get underway Friday, Aug. 25, but the wheels are turning, people are working, beards are growing, and many plans for the Fourth annual two-day event are complete.

To begin the activities, registration for the Fifth Annual Sidewalk Art Festival gets underway at 1 p.m. Friday in the 500 block of Phelps Avenue. The show will begin at 4 p.m. and continue through 8 p.m.

The festival is sponsored annually by "We, The Women", in cooperation with the Littlefield Chamber of Commerce and Agriculture, Hart-Thaxton Hardware, Littlefield Glass Works, The Gallery, Perry Brothers, and the Art Associations of Littlefield.

Friday night, the P-TA will stage their "Mr. Festivities Days" show at 8 p.m. in the Junior High School Auditorium. Neil West, last year's contest winner, will crown the new winner. The show will feature men's imitations of women, along with other entertainment.

Winding up Friday's activities will be the teen street dance and a country Western dance on Phelps Avenue, beginning at 9 p.m. and continuing until 12 midnight.

Saturday's events will begin with the all-day Flea Market on the Santa Fe Plaza, starting at 7 a.m. Several spaces are still available through the C-C office at \$3 each, and the event is being sponsored by "We, The Women".

Youth contests, including bicycle and tricycle races, various track events, etc., will get underway at 9 a.m. in Crescent Park and will continue until about noon.

Beginning at 10 a.m., the Lamb County 4-H Club will show projects in their 4-H Fair in the courthouse, and will stage

New Principal Likes Administrative Duties

Littlefield's new high school principal, Jack York, said he never thought he would find anything he liked any better than coaching football.

"But I have," York said. "Football was my first love until I got into administration."

York overflows with enthusiasm. "I'm real impressed with the attitude of the community concerning the schools," York said.

York is impressed with numerous Littlefield aspects, including Littlefield's head football coach and the prediction that the Wildcats will win district this year. Athletic Director Jerry Blakely made his first impression on York three years ago when York was coaching at Canyon.

Blakely was coaching the Otton Mustangs at the time.

"Otton showed up with 17 or 18 kids," York said, "and Canyon had 80 suited up on the field. They held us 0-0. That was the first time I'd heard of Jerry Blakely."

The new high school principal said he has been to some of the coaches' skull meetings, and that he likes the

organization and enthusiasm evident. He hasn't met all of the Wildcats yet, but he likes what he has seen so far.

York comes to Littlefield from Canyon where he was assistant principal two years. Prior to going into the administrative field, he coached nine years. He was assistant coach at Canyon for a year, head coach at Lefors four years, ahead coach at Groom two years, was freshman coach at West Texas State University for a year, and served as assistant coach at Shamrock two years. York graduated from Shamrock High in 1954, attended WTSU four years on a football scholarship, receiving his bachelor's in 1959 and completed his master's degree in 1962.

The Littlefield High School staff is complete and the schedules for the fall term are ready. York said he is enthusiastic and hoping for a good year.

Principal York and his wife, Georgette, have moved to 1100 Mockingbird Lane. They have a 7-year-old son, Brent, and a 4-year-old daughter, Lyndy. York's hobbies include fishing, hunting, water skiing and all water sports. Mrs. York is a piano teacher, and enjoys playing the piano and organ, sews and plays bridge.

Miss Nowlin Bride Of John Canfield

Wedding vows were read for Miss Elizabeth Jane Nowlin and John Walter Canfield Saturday evening, Aug. 12, in

First Baptist Church of Littlefield. Rev. A. J. Kennemer, pastor, officiated for the reading of the double ring ceremony.

English ivy decorated the baptistry and the choir rail featured apricot gladioli, asters and baby's breath, flanked by cathedral spiraled candelabras entwined with English ivy. Side rails were decorated with arrangements of apricot, gladioli, asters and baby's breath.

Parents of the couple are Dr. and Mrs. William Carl Nowlin of Littlefield and Mrs. Elizabeth Canfield and the late John William of Miami, Fla.

The bride, given in marriage by her father, wore a formal-length gown of ivory silk organza fashioned with narrow bands of scalloped Venise lace at the high Victorian neckline and on the long sheer bishop sleeves. The same lace edged the panel of re-embroidered Alencon lace on the front of the Empire bodice and down the front of her A-line skirt. Her detachable chapel-length train featured rows of the Venise lace from the back waist to the edge of her train. A matching Juliet caplet of lace held a full-length veil of imported illusion with side panels studded with pearls. She carried a cascade bouquet of white pearlized stephanotis, baby's breath, English ivy with a detachable Cattleya orchid corsage.

For "something old", the bride had an heirloom pin from Hungary given to her by the groom's mother; "something new" was her bridal gown and veil; "something borrowed" were two pearl hat pins borrowed from her grandmother, Mrs. E. G. Brunson; and "something blue" was the traditional blue garter given to her by the groom's mother. In her shoes she wore two pennies minted the years she and the groom were born.

Miss Jo Ann Nowlin of Ft.

MRS. JOHN WALTER CRANFIELD

Miss Linda French attended the bride as maid of honor. Bridesmaids were Mrs. Judy Heister of Miami, Fla., sister of the groom and Mrs. Bettye Nowlin of Austin, sister-in-law of the bride. They each wore floor-length, Empire styled gowns of apricot ice lined with matching satin and accented with floor-length ribbon sashes of apricot and orange. The attendants carried nosegay bouquets of apricot asters, baby's breath and apricot daisy mums, and wore headpieces to match.

Worth and Todd Stafford of Littlefield lighted the candles. Dr. Douglas Heister of Miami, Fla., brother-in-law of the groom, served as best man. Groomsmen and ushers were William Carl Nowlin Jr. of Austin, brother of the bride; David Bawcom of Austin and Jack Caffey of Arlington.

Dr. W. C. Nowlin sang the "Lord's Prayer" and Dr. D. J. Stafford sang the "Wedding Prayer".

For her daughter's wedding, Mrs. Nowlin wore a street-length apricot silk dress with pleated sheer sleeves. The groom's mother wore a street-length dress in frosty blue, embossed polyester with long sheer sleeves. They both wore a white cymbidium orchid encircled with apricot asters.

The guests were registered by Miss Marsha French of Littlefield and Miss Cathy Hine of Ruidoso, N. M. A reception followed in the parlor of the church. Assisting in serving were Mrs. R. H. Nowlin, aunt of the bride; Mrs. Jack Caffey, cousin of the bride and Misses Betty Boone, Rosanne Funk and Pam Stafford and Mrs. Troy Tidwell. Other members of the houseparty were Mmes. D. J. Stafford, Dan French, A. C. Bridwell, Charlene Reast, Albert Perkins, Troy Moss and C. M. Johnson.

For a wedding trip to Colorado, the bride wore an orange and white striped dress with beige suede accessories.

The bride will attend the University of Texas where she will be junior in the School of Nursing. The groom will be attending the University of Texas as a sophomore in the School of Business. He is presently employed by Southwestern Bell Telephone Company in Austin.

Following their wedding trip, the couple will live at 2203 A Lanier Drive, Austin, Tex.

HOMNY GRAYS

By CORNBALL BLEVINS

GLAD TO SEE they're outlawing some kinds of guns. Next thing you know, they may make crime illegal.

JUST WONDER IF McGovern's secretly hoping that Nixon will fail to end the war before election?

IT'S BECOMING ILLEGAL to leave the keys in our car. Wonder when it'll be against the law to keep money on your person, to tempt robbers?

HEARD A FELLOW wondering, in an absent-minded sort of way, just what will become of "THE CHURCH"?

For years, men have gone about "improving" the church—streamlining it and trying to amend it to fit modern man. They have liberalized its teachings, manufactured their own creeds and tenets, and tried to make it appeal to the masses.

FOR THIS REASON, the church has been split into many factions and sects. It has men, boards and groups for its governing heads.

This has become a source of disgust for many peoples, as well as large groups of our youngsters. Some have long since turned their backs on all things religious, adopting the policy of "Doing their own thing."

OTHERS HAVE "FOUNDED" new, and strange religions (or teachings) proclaiming: "Christ, yes! — The Church? — NO!"

We find this hard to reconcile to Bible teaching, seeing that ACCORDING to Bible teaching, Christ and the Church are inseparable.

WE FIND HIM saying, "... I will build my church." We find the saved being added to the church, that He is Head of the church, and that He gave Himself for it.

In all these years we find that the Scriptures have not changed. They still say the same things.

Perhaps we need to come up with a new Bible, or else try to find out just what the church is. Seems the old fashioned Bible, and modern philosophy don't agree!

WE NEED TO coin a new word. The word would describe such as have trouble stayin' with one political party. —How's about "DEMOCANS"?

Or, we could turn it around and call them "REPUCRATS"!

ANYWAY, AS OF NOW, it would seem that party loyalty isn't so fanatical. Seemingly, and without reservation, some of the people in high places aren't ashamed to state their convictions regarding the upcoming election.

Could it be true that "A rose would NOT smell as sweet, if called by another name"? Or, is it that conviction, and party loyalty are no longer equal?

KNOW WHAT? — I got my Thursday's paper this week on Wednesday afternoon. Can't figure whether the publisher already had access to all the news, or whether it was "Leap-Week".

HADN'T REALIZED that the Quarterback Club's membership had dwindled so much 'til we started paintin' the stadium bleachers, this week!

CLIFTON PETTY was driving the car in the foreground when he made a left turn from the right lane into the path of the car in the background. The accident occurred about 6:40 p.m. Tuesday. Petty remains in the Methodist Hospital in Lubbock with a broken leg and other injuries. Four persons from Dallas were in the other auto. Three of them were checked at the Littlefield Hospital for injuries.

Clifton Petty Injured In Wreck

Clifton Jim Petty, a 55-year-old Littlefield farmer, is in the Methodist Hospital with a broken leg and head injuries following a two-car accident east of Littlefield on U.S. 84 Wednesday evening.

Petty was driving a 1970 Ford east and attempted to make a left turn from the right lane and pulled into the path of an eastbound car driven by a Dallas woman, according to Jimmy Esquivel, investigating police officer.

The left front of the 1972 Chrysler hit

the left door panel and fender of the Petty vehicle, pinning Petty in his car for a time.

Petty was taken to the Littlefield Hospital by ambulance, then transferred to the Lubbock hospital.

The Dallas woman, Tillie Berryhill, 44, her 18-year-old son, Aubrey and 14-year-old daughter, Joyce, were all treated at the Littlefield Hospital and released. A 5-year-old niece asleep in the back floorboard of the Berryhill car was not injured.

THE ABUNDANT LIFE

Take It Easy

LIFE IS BEST, when we "take it easy". We do not mean living a life of ease, with a lazy, unconcerned and self-indulgent manner of conduct, but refer to life that is productive, useful, meaningful, rewarding, joyful and victorious.

This is life moving along the recommended course of moderation.

EXTREMES AND EXCESSES will be diligently avoided. This will make living a more desirable experience. It will not take anything worthwhile from one's life.

Rejecting extremes and excesses will not lessen the vigor and vitality of living, but will add to these qualities through increased effectiveness.

WE DO NOT INDULGE in any excess of passions or appetites, or of dress, or in eating, or in anything else. We "take it easy" by governing the appetites and desires, and controlling the temper.

No extravagant plans are made, and expectations of earthly good for self and family are not excessive.

MANY PERSONS, with all they need, and more than they use for good, are not contented and happy; because of their insatiable desire for more.

MODERATION IN ALL THINGS is the basis for an effective life. This is how we are able to "take it easy". When this is our choice, and it is the wise choice, we will be concerned with that which is fitting and suitable.

Our concern will be manifested in the disposition of propriety, gentleness, and forbearance; together with enduring personal integrity and strength. Moderation is not innate, but is the product of acquired, wholesome restraint.

CONTENTMENT WITH LIFE may be due will often be an part of the successful life. It always insisting upon our strict we are applying a standard to which we cannot meet. God will tell us when to take it easy.

There are many times, and when giving a bit here and there, only sensible action. Such action necessarily any kind of promise, but the greatest wisdom from which comes peace and harmony needed for that place.

SO MANY THINGS go wrong human scene just because someone unwilling to be moderate, and "take it easy", but insists upon an issue.

This is done often, when neither right indicates such behavior. Wisdom and kindness calling for "moderation" but falls on deaf ears. Unnecessary problems are created, and the usually goes from bad to worse.

"EVERYTHING THAT EXCEEDS bounds of moderation, has no foundation." Seneca

"Take it easy" is the expression of the spirit which is opposite of contention and aggrandizement. It is also a thesis of severity and harshness.

MODERATION CONTRIBUTES comfort of life, and to peaceful interaction.

It increases our usefulness, supports and protects everything worthwhile.

OBITUARIES

ALBERT C. BELL

Funeral for Albert C. Bell, 87, of Muleshoe, a former Springlake resident who died Wednesday night, Aug. 9, in Lubbock's Methodist Hospital where he had been a patient three days, were conducted Friday afternoon in Singleton-Ellis Chapel of the Chimes in Muleshoe.

Rev. C. P. Jordan, Baptist minister from Southland, officiated.

Burial was in the Springlake Cemetery.

Bell was born in Gainesville and had lived in Muleshoe 11 years, after he moved there from Springlake. He was a retired farmer, and was a charter member of the First Baptist Church in Earth.

He was married to Eva Fern Henderson in 1909 in Carter, Okla.

Surviving are his wife; three daughters, Mrs. May Phillips of Segall, Mrs. Willie Lee Phillips and Mrs. Blanche Collier, both of Scurry; 11 grandchildren and 20 great-grandchildren.

MRS. TUNNIE WEIGE

Funeral services for Mrs. Tunnie Weige, 78, of Littlefield, who died early Thursday morning, Aug. 10, in Littlefield Hospital, were conducted Saturday morning in the Earnhart Funeral Home Chapel in Whitewright near Sherman.

Burial was in the Oakhill Cemetery. Mrs. Weige was a native of North Carolina and was reared in Grayson County. She had lived in Littlefield 20 years.

Surviving are a son, James L. Lindsey of College Station, a daughter, Mrs. T. G. Shaw Jr. of Littlefield; two sisters, Mrs. Lillian Allison of Las Cruces, N. M., and Mrs. Howard Stokes of Leonard; six grandchildren and four great-grandchildren.

Persons Are Needed For 'TEXAS' Trip

Only 16 persons have indicated an interest in traveling to Palo Duro Canyon for another presentation of "TEXAS" on Aug. 17.

The second chartered bus trip is now being planned through the Chamber of Commerce office, and reservations must be in that office by 5 p.m. Monday, Aug. 14.

Make reservations by calling 385-4451. At least 39 persons are needed to charter a bus.

MARY PEARL STAPLETON

Funeral services for Mrs. Mary Pearl Stapleton, 89, of Amherst, who died about 12:30 p.m. Wednesday, Aug. 9, in the South Plains Hospital at Amherst, were conducted Friday afternoon at the Amherst Church of Christ with the minister, Tim Conatser, officiating.

Burial was in the Amherst Cemetery with Payne Funeral Home of Amherst in charge of arrangements.

Mrs. Stapleton was a native of Silverton, Ore., and had lived at Amherst 47 years. She was a resident of Amherst Manor Convalescent Home at the time of her death.

Surviving are her husband, W. J. Stapleton of Amherst Manor; three sons, Dean Stapleton of Plains, Mont., Ralph Stapleton of LaMirada, Calif., and Lenzie Stapleton of Lubbock; and five daughters, Mrs. Grace Flippin and Mrs. Nelma Alpress, both of Lubbock, Mrs. Hazel Pugh of Amherst, Mrs. Betty Templar of Dimmitt and Mrs. Thelma Miller of Griffin, Ind.; 31 grandchildren; and 11 great-grandchildren.

Parade Entries Being Sought

All persons or organizations wishing to enter the Festivities Days Parade, slated for Saturday, Aug. 26, are invited to contact the Chamber of Commerce and Agriculture office in the city hall, or call 385-4451.

Entries in several categories are being accepted.

Expected for the parade are antique cars, riding clubs, bands, floats, military marching units, and Girls' Town will enter clowns. "Miss Ford County" will be in town for the event, and will be riding in a new Ford Convertible. Most of the implement companies in town will display some of their equipment, and other automobile dealers will donate cars for visiting dignitaries including Barefoot Sanders and "Miss Lamb County."

MONTHLY ADDITIONS Since 1934, more than 11,000 men have been initiated into college fraternities every month.

Our Thermostats

SOME SAY "everyone talks about the weather but no one does anything about it." However, the truth is that all of us, assuming normalcy, are constantly doing something about it.

Each of us is equipped with our own private thermostat.

When changing weather conditions cause the atmospheric temperature to vary from the 98.6 degrees F. at which the body temperature of a healthy human being has been standardized, the thermostat triggers the mechanism which helps the body maintain its normal temperature.

ONE OF THE MOST remarkable facts of human physiology is that the temperature of warm-blooded animals remains unchanged at 98.6 degrees, even though the temperature of the surrounding environment may vary from below zero to over 100 degrees.

Provided the air is perfectly dry, a man can exist and maintain normal body temperature in an atmosphere that will actually grill a beefsteak. There are experimental cases on record where human subjects, by drinking great quantities of water to sustain perspiration and stripping to the waist to facilitate evaporation, have withstood temperatures up to 260 degrees for extended periods without suffering ill effects.

THE SENSATION of heat or cold is not due to a change in body temperature but to a change in temperature of the skin surface. And skin temperature is affected when our private thermostat goes into action.

This built-in regulator is a tiny maze of nerve cells located in the mid-brain, part of the brain area known as the "hypothalamus." If the day is hot, it reroutes blood from internal organs to skin capillaries to cause perspiration. Body temperature is reduced when the perspiration evaporates.

IF THE DAY IS cold, the thermostat concentrates the blood and, instead of flowing through skin capillaries, blood flows deep within the body. Sweating is minimal. Result: you feel cold and have to put on a sweater or an extra blanket to stay comfortable.

Did you know you perspire even at room temperature? You do, but since it evaporates instantly you are really unaware of it. When you are at rest indoors fully clothed, visible sweating begins when the air temperature reaches a level between 80 and 90 degrees.

THE OLD SAW—"it isn't the heat, it's the humidity"—is perfectly true. The same man who withstood 260 degrees in a dry atmosphere would be in serious trouble if he tried to endure a 120-degree temperature in a damp, humid atmosphere.

Body temperature rises rapidly in such a situation because the rate of evaporation is influenced by the extent to which the atmosphere is already saturated with moisture. You feel sticky when the humidity is high because sweat which is not evaporated simply drips from the skin and in no way increases heat loss.

SUPPOSE YOU, a male, and your lady are caught outside in the first norther of the season. You have a coat but she does not. You would probably be gallant and give her your coat. However, she is physically equipped to withstand the cold better than you. You both have built-in insulators—a layer of fatty

tissue beneath the skin—but hers is thicker than yours.

Other conditions besides the weather can affect body temperature. In the presence of disease or infection, the pulse quickens as the heart hastens more blood—laden with antibodies—to the body areas involved. The speed-up in circulation raises body temperature and a "fever" is produced. There are also body conditions such as malnutrition, anemia, and senility which produce a drop in body temperature.

IN ANY 24-hour period it is normal for temperature to vary. Usually it will rise a degree or so about 4 p.m. and drop in the same manner about 4 a.m.

Heat is also produced when the steak and potatoes you had for dinner are burned and converted into energy for various body uses. The process is called metabolism.

COMMENTS ABOUT the weather have unquestionably opened more conversations than has any other theme of discussion.

And all the time you're talking about it, that ingenious little thermostat in the middle of your head is hard at work compensating for changes in atmospheric temperature.

City Arrests 10 Drunks

City police officers have arrested 10 persons within a week's time—all charged with drunk in public.

Newspaper Wins First Place Plaque

The Lamb County Leader-News won first place in editorial writing in the West Texas division at the Texas Press Association Convention in Brownwood Friday and Saturday.

The winning editorials were titled "The Danger of Executive Sessions," and "School Needs Now in Open," and were written by Bill Turner, former editor and publisher of the Leader-News. The editorials resulted from a closed session of the Littlefield school board to consider personnel.

Wade Warren, publisher of the Leader-News since May 1, was present to accept the first place plaque. The Leader-News competed against other West Texas semi-weekly papers in towns of 5-8,000 population.

exorbitant and excessive prices charged by Pioneer for irrigation gas. Farmers want the same protection as users of natural gas within the confines of cities and municipalities.

If the court passes on the resolution, they will state that the court feels strongly that the farmers are being discriminated against in that they are deprived of this protection.

The court's complaint will be lodged with the Federal Power Commission and a request made to that body to investigate the possible jurisdiction of the Federal Power Commission over Pioneer Natural Gas Company and the sales of the company's irrigation gas in an effort to stop the increasing spiral of natural gas prices so that the company will be limited to a fair return on the investment in the sale of irrigation gas.

Some had additional charges.

Saturday, Aug. 5, one was charged with drunk in public, was tried and released.

Sunday, Aug. 6, three were charged with the same charge, all were tried and released.

Two were jailed Wednesday charged with drunk in public disturbance. They were tried and released.

Four were still in jail at Saturday, following their arrest on different charges. They were charged with drunk in public disturbance, and another was on the same charge plus carrying illegal weapon.

Boy Scout Jamboree Applications Open

The first application for the 1973 Boy Scout Jamboree has been received by the South Plains Council Lubbock Chairman. The first application was turned in by Bruce Carter, Troop 461, Lubbock.

Serving on the Jamboree Committee will be Bobby J. Moody of Lubbock, coordinator for the Western Trip and Tom Hilburn of Littlefield, chairman for the Eastern contingent.

"This year's Jamboree will be unique, inasmuch as it will be held simultaneously the first of August in 1973 in two locations," according to Hilburn.

Jamboree East will be held at the 16,000 acre Moraine State Park just north of Pittsburg, Penna.

Jamboree West will be held at the Farragut State Park site of 13th World Jamboree in 1962 and the 7th National Jamboree in 1969. The two Jamborees are being held to accommodate more boys with 35,000 Scouts expected to be camped at each site.

The 20-County South Plains Council has been given an allotment of 182 boys and leaders. "An equal number of Troops and boys are expected to attend each of the Jamborees," Hilburn continued. The Council contingents will travel by bus with each trip covering about the same total mileage.

The boys going on the Eastern Trip will have side trips to Washington, D.C., Philadelphia, Niagra Falls and Canada.

The Western Trip will include excursions to the Air Force Academy, Yellowstone National Park, Canada, Salt Lake City and the Grand Canyon.

The fee for registered Scouts of First Class rank will be \$350 which will include transportation, Jamboree fee, equipment, meals and all admissions.

Schools Require Birth Certificates, Records Of Shots

Regardless of the school system the child is entering, every kindergartener and every child entering the first grade must have a birth certificate and a record of all immunizations.

The only exception to this would be the first grader who has already attended kindergarten and whose school already has a record of all shots and immunizations.

In addition, any student who hasn't had their immunizations recorded by the school they are attending (regardless of the grade) must present an immunization record to the school.

Parents entering students in kindergarten and the first grade should bring birth certificates and immunization records with them when they come to register the students. Certificates and records will be returned to the parents after they are recorded by the school.

Anyone with questions concerning immunization records should see the principal of the schools they are entering upon registration.

Under the state's compulsory immunization law, all children must be immunized against diphtheria, measles, tetanus and polio before they will be allowed to enroll in school.

The measles immunization is not required if there is a history of the illness. Smallpox vaccination is no longer required by the State Board of Health.

Pep Schools Set School Calendar

PEP-Pep School announces the 1972-73 school year, with in service training for teachers beginning on Aug. 14. Dear Abby

Mom wants to ease little girls' curiosity

By Abigail Van Buren
 (© 1972 by Chicago Tribune-N.Y. News Synd., Inc.)

DEAR ABBY: My neighbor has three very nice daughters, ages 9, 10 and 11. No sons. This lady stops and with me when I am out in the yard and she seems to be patient and conscientious mother.

I have a four-year-old son and a 13-year-old daughter who play with the neighbor's children. Recently, when two were at this neighbor's house, she said to my daughter, "I wish I had a son. Would you ask your mother if she would let you bring your little brother here so my daughter and I could give him a bath. Then my girls could see what a little boy looks like. That would help to satisfy their curiosity."

I really can't see any reason to refuse this request, Abby, but I'd like your opinion about it.

DEAR MOM: If the girls just happened to be in the yard when you were bathing your son, their natural curiosity could be satisfied, and I see nothing wrong with it. You wouldn't set up a bath at your neighbor's so the girls could "help," and thereby satisfy their curiosity.

DEAR ABBY: I could have written that letter from a teen-aged girl who was head over heels in love with an "older man" who was separated from his wife.

I know exactly how that girl felt. At 16 I was in love with a man who was divorced and the father of two children. I was inexperienced, and thrilled beyond words that an older man (of 26!) would even look at me. My heart and my head to him, not realizing that he was a free babysitter and a bed partner he felt the need. And I didn't cost him a dime.

My love affair with him was my first. At the time, it put me in social limbo. Boys my own age were like infants. I missed the school proms, and the fun of being 16. It made a liar out of me, a sneak, and it cost me my last carefree days of youth.

What did I get instead? The constant fear of pregnancy. I was lucky, it never happened. I was from my parents who really loved me, and two devoted strictly to him. I also got the very real loss of my first love, for would you believe that right in the middle of our big love affair he married somebody else.

That was seven years ago. And it was the best that ever happened to me. Sometimes I still ache a little for the thought of him, but not because of losing him, but what I lost of myself.

DEAR GLOWWORM: Thanks for sharing your life. Perhaps another teen-ager who is in love with a [married or separated] man will learn from your experience. But probably not. Would YOU have listened were you 16? Pity!

DEAR ABBY: How should one handle relatives who travel thru several states to visit you without giving any notice.

A couple of years ago, my husband's brother and his wife came unannounced to visit us for several days. Both work and I was inconvenienced. I asked them to please let us know when they were coming next time so we could make plans and be more prepared.

Well, they showed up again this year without giving us any notice, which made me angry. They said, "We don't want to be anywhere on a specific date because we don't want to be a slave to a schedule on our vacation."

On this last visit of theirs I was sick and did not like cooking, entertaining or visiting. I was totally unprepared for this unexpected company.

When they left I told them if they could not give me a few days notice, not to come again. My husband thought I was rude. These people read "DEAR ABBY," so I printed this.

DEAR ANGRY: Here's your letter. I hope it helps.

DEAR ABBY: Norm and I bought a little home in the suburbs, and last spring we planted a vegetable garden. I thought with the prices of everything going so high, it would save us money.

When our tomato plants got about half a foot tall, Norm started singing to them! He'd take a six-pack of beer and a chair outside and plunk himself down right in the middle of the tomato plants and start to sing. The more he drank the louder he sang. (It's a wonder the neighbors didn't call the police).

Norm claims it's a scientific fact that plants produce more music than plants that don't. Is there any truth to this?

DEAR WIFE: My agriculture experts say just a word of caution. Better buy your tomatoes. No matter how expensive they get, it's cheaper than drying out Norm's tomatoes.

DEAR ABBY: Now that the women are becoming more aggressive even to the point of asking strange questions with them, new problems have developed.

I have taken my wife to a club where couples dance and have had strange women approach me with, "Can I dance?"

Not knowing what else to do, I get up and dance with my wife. My wife gives me "what for" for leaving her to dance while I dance with a woman I've never seen before. What else can I do? I hate to hurt a strange woman's feelings.

DANCING WITH TEARS IN MY EYES

DEAR DANCING: You can screw up the club. I say, "Thank you, but I'd rather not leave my lady alone. And don't worry about hurting a strange woman's feelings. Women who ask men to dance have pretty tough feelings."

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69790, L. A., CALIF. 90069 and use a stamped, addressed envelope.

Write to write letters? Send \$1 to Abby, Box 69790, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."

CONTROL SOUNDS

One of the prices we are paying for the technological advances of recent years is the steadily increasing noise levels found in urban areas. It is now time for technology to be channeled into an effort to control these sound levels.

MRS. ALMA ALTMAN attended the Sunnysdale Reunion last Sunday afternoon. There were 40 registered. Jan Sisson gave several selections on the piano and singing too.

Bottle Gardening Brightens Indoors

All that is needed to create a beautiful indoor garden are a waterproof container, tap water and some cut branches from a favorite plant, according to Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, who gives some pointers in preparing and maintaining bottle gardens.

First, choose a waterproof container. Just about any will do, including beverage bottles, vases, antique canning jars, old fish bowls, aquariums or whatever might look attractive. The container must be clean, so wash well with a kitchen detergent and hot water. After rinsing and draining, fill it with ordinary tap water.

When selecting branches, choose them from plants such as myrtle, geraniums, oleander, wax begonia, coleus, hibiscus or any plant with a fairly sturdy stem, suggests the Texas A&M University specialist. Using good sharp shears, make the cut on the stem clean without bruising or crushing it.

Next, remove the lower leaves so none are below the water line when placed in the container. Arrange the branches to create a natural appearance. However, the leaves will usually turn to light, thus creating a pleasing composition.

Turn the arrangement at

least weekly for development, Janne says. About once a month, the bottles and water should be changed thoroughly with hot water detergent to kill any bacteria that may be accumulated. Scrub the stems with a soft brush rid of any algae growth. make a fresh cut on the stem to improve water uptake.

Frequently, roots develop from these stems. New plants can be started by placing these roots in pots out the special arrangement.

As the branches remove and replace the fresh ones. By doing attractive arrangements be maintained. Always the container when new branches.

Indoor living can be proved by the added color of house plants. They are also beneficial cleaning up the air and breathe. Bottle gardening solution for many who like to have house plants are hesitant because of of good soil. Also, the worry about leaks overflowing containers this method compares many potted plants. busy body, bottle gardening takes little time.

Maybe you should try bottle gardening at home, adds Janne.

Appaloosa Horse Show Set For Panhandle Fair

An appaloosa horse show will be the first of three horse shows slated in conjunction with the 55th annual Panhandle South Plains Fair in Lubbock Sept. 25-30.

The Appaloosa event, offering premiums totaling \$877.50, will be held Sept. 28, and open horse show will be held the following day and a Quarter Horse card is slated for the final day of the weeklong exposition.

ARMY PRIVATE Darrell L. Hill, 19, son of Rev. and Mrs. H.W. Hill, Anton is assigned to Ft. Ord, Calif. where he is training under the modern volunteer army program. The program combines basic and advanced individual training into an average 16-week program, depending on the AIT the soldier receives

after completing basic. Decentralized instruction at the unit level and a reduction of formations and inspections give the soldier more time to train and increased off-duty time. Fewer restrictions on off-duty travel and improved living facilities are other benefits of the program. Pvt. Hill began his training

with Company C, 4th Battalion, 1st brigade on July 3 and is scheduled to complete the first phase on Aug. 30. Pvt. Hill is a 1971 graduate of Anton High School. THE 1972 Bulldog annual was presented Tuesday Aug. 8 at an annual signing party held in the Homemaking Department. Approximately

80 students attended the affair. Mrs. Beth Martin was present as a sponsor. The new red, white and blue annual was dedicated to Mrs. Erlene Webb, who holds the position of Tax-Assessor-Collector. MRS. JESSIE GOEN returned home Monday from Abilene where she visited her mother, Mrs. J.R. Minton, a former Anton resident, who resides at the Central Nursing Home there. Mrs. Goen made the trip with her sister and brother-in-law, Mr. and Mrs. Edward Myatt of Lubbock. They also visited their aunts, Mr. and Mrs. John Dumas and Miss Ruby Griffin.

CHARLIE DOZIER returned home from the Cook Memorial Hospital a few days ago. At first he was unable to have visitors, but is reported feeling better now and would appreciate his friends dropping by. VISITORS over the weekend in the home of Mr. and Mrs. Ted Zant and children were her mother and sister, Mrs. Pudge Gage and Laurie of San Saba. MR. AND MRS. Foy Mills accompanied a group of young people to Levelland to attend a youth meeting at the Cactus Drive Church of Christ, Monday night, Aug. 7. Those attending from Anton were: Marilyn and Judy Pearson, Mike Bryant, Debbie Gilliam, Anita Wright, Sherrill Molder, Robby and Peggy Kiser, Bret and Foy Mills Jr. and Terri Howard.

BILLY TOM GRANT, president of the Littlefield Quarterback Club, and two of coaches' wives, Brenda Boomer and Mary Hench, had all the bleacher painting themselves Thursday afternoon. (Note the spots of paint on Mrs. Boomer's feet.) QB Club is painting the Wildcat Stadium in the school colors of maroon and white in addition to putting in numerous hours in the evening painting on the stadium. Grant spent several days welding a paint brush and roller. More painters are needed to complete the project.

Mr. and Mrs. Hal Cardwell of Lubbock and Mrs. Jenni Cardwell were Saturday visitors in the home of their son and grandson, the Glen Cardwells.

Meet The Minister

The Thomas Lange Family

Rev. Thomas Lynn Lange, pastor of St. Martin Lutheran Church of Littlefield, will begin his third year as pastor of that church Sept. 27. This is his first pastorate.

Rev. Lange and his wife, Sharon, came here from Portland, Ore. where Rev. Lange was serving in an internship. Rev. Lange is a native of San Diego, Calif. and Sharon is a native of Grand Marais, Minn.

Besides his duties in Littlefield with the church, he is also pastor of St. Paul Lutheran Church at Levelland. His week's time is divided among the two congregations. He preaches for both congregations every Sunday morning.

He is a graduate of Mount Miguel High School in Spring Valley, Calif.; studied two years at San Diego State College; earned his BA degree in 1966 from Saint Olaf College, a Lutheran College in Northfield, Minn.; and earned his Master of Divinity degree in 1970 from Luther Theological Seminary in St. Paul, Minn.

He then went into his internship at Portland, Ore., and back to the Seminary prior to coming to Littlefield.

Rev. Lange took clinical training in pastoral clinical psychology in a Navy hospital for three months in 1968. He enjoys music as one of his hobbies, and was a music major in college.

He met Sharon while both were attending Saint Olaf College, and they have two children, Raymond, their 8 1/2-month-old adopted son; and Linda, their 6-week-old daughter.

Rev. Lange commented, "Eight months ago I didn't have any children, and now I have two."

Mrs. Lange majored in math and taught junior high school and high school math four years before they came to Littlefield. She says her hobbies are sewing, reading, snow skiing when the opportunity arises, and cooking. She enjoys entertaining when the occasion arises.

She likes to travel, and both have traveled abroad in Europe. She once bicycled across that continent.

Besides music, Rev. Lange likes handball, snow skiing, golf, upholstering, and likes to tinker with cars while painting and upholstering them.

He is a member of the Lions Club, and is involved in the Ministerial Alliances of both Littlefield and Levelland. He is in charge of the CROP (Christian Rural Overseas Program) in both cities.

In the American Lutheran Synod, Rev. Lange is in charge of the camping program for the Panhandle Conference of the American Lutheran Church. He also serves as youth advisor for the Panhandle Conference.

Damaging Sorghum Midge Infestations Are Likely

Dr. Robert McIntyre, area Extension entomologist with the Texas A&M Extension Center cautions that economically damaging infestations of the midge may occur in late blooming

sorghum during the last two weeks of August and September. The Extension specialist has been monitoring the population buildup of the sorghum midge since early

June with funds provided through a grant from the Grain Sorghum Producers Board.

Dr. McIntyre says several factors suggest that damaging infestations will occur in late planted sorghum. First, inclement weather prohibited uniform plantings.

Second, cool temperatures delayed crop growth while high rainfall and humidity were favorable for midge development.

Third, early monitoring of Johnson grass, the primary alternate host of the midge, showed much higher midge infestation than in previous years.

Fourth, midge emergence from grain sorghum heads collected over the 10 county survey area has not been unusually high but more general in its distribution.

Fifth, actual field observations of adult midges early in August point to the fact that the first and second generations of the midge population developing on grain sorghum will be

emerging by mid-August. The sorghum midge can not build up on Johnson grass in sufficient numbers to cause economic losses in grain sorghum. It can only build to damaging levels on its primary host, grain sorghum.

The specialist relates that the majority of the sorghum on the South Plains is beyond the bloom stage and is not susceptible to midge attack.

The keys to effectively preventing grain sorghum losses due to the midge are: (1) understanding the habits of the midge and (2) realizing how and when sorghum is damaged.

The midge overwinters in the florets or "seed husks" of its host plant as a larva or maggot. Pupation and adult emergence occurs in the spring about the time Johnson grass begins to bloom. The adult midge, an orange colored, fragile looking gnawer or fly is about 1/12 of an inch long. The adults mate, and females begin laying eggs during her 24 to 48 hour life. Eight to 10 eggs may be placed

LAMB COUNTY

FARM NEWS

in each floret or grain. However, a single larva is capable of destroying only one developing seed. An average of 16 days is required for the midge to develop from egg to adult.

During June and early July, a midge population maintains itself on its alternate host, Johnson grass. When early sorghum begins to bloom, the midge migrates from alternate hosts to grain sorghum.

Early grain sorghum infestations are not sufficiently damaging to warrant control. These early populations contribute directly to late heavy populations which cause economic damage. The most damaging populations commonly occur with the emergence of the third generation in grain sorghum.

Since the third generation in grain sorghum should be emerging during mid-August, producers should begin monitoring their fields to determine if midges are present. Female egg laying is limited to that portion of the head bearing fresh yellow blooms. Field survey should be conducted early in the morning when winds are low and the midges are most likely to be active. At four different locations in the field, one

should place a widemouth jar quickly over 25 individual flowering heads at each location. If midges are present, they will rise to the top of the jar and can be easily counted. Control measures should be applied only when infestation levels exceed an average of 2 adults per head.

The timing of the application of insecticides for midge control is very critical since midges attack only the bloom stage, and the adult female is so short lived. When a producer finds 2 midges per head and 30 to 50 per cent of the heads are blooming, control procedures should be initiated. A second application should be made within five days if adult midges are still present in sufficient numbers to warrant control.

Where adverse weather follows application or short residual materials are used, reduce application intervals to 3 days. In fields where yields are high, a third application may be justified. Insecticides recommended for midge control can be found in Texas A&M Extension bulletin MP-339, "Texas Guide for Controlling Insects and Mites on

Sorghum". These bulletins are available at your local county agent's office.

Whitharral Wrecks Checked

MISS LINDA WADE, daughter of Mr. and Mrs. J.E. Wade, spent Sunday and Monday of last week in the home of a former classmate, Miss Cynthia Dukatnik of Lubbock. Both Linda and Cynthia are 1971 graduates of Whitharral High School. Linda has been attending South Plains College, this summer and working in Levelland. She will attend Texas Tech again this fall. Cynthia, daughter of Mr. and Mrs. Adolph Dukatnik of Lubbock, has been employed in Lubbock as a beauty operator, since her graduation from high school.

City police investigated two city wrecks Thursday.

That morning, a truck pulled onto the roadway from a stop sign on Business 84, and to avoid hitting the truck, Norman Edward Wutrich of Littlefield drove a 1971 Gremlin off the road and hit a highline pole. He reported that the truck did not stop.

Two vehicles were involved in a collision on LFD Drive Thursday afternoon.

A 1970 Ford, driven by Linda Jennings Jones of Littlefield was backing from the curb and collided with a 1961 Chevrolet, driven by Mary Logan Yearly of Littlefield.

Whitharral Sets 1972 Schedule

Classes for Whitharral students begin August 21 at 8:45 a.m. and dismiss at 4 p.m. Registration for high school students will be from 1-4 p.m. August 18, in the school cafeteria.

Teachers that are new to the system this year are Myra Atinip, William Schumacher, and Janet Schumacher.

Whitharral school will have a pre-kindergarten class this year for children that are from four to five years old. A child must be four years old by Sept. 1.

Prices for lunches will be the same as they were last year.

Holidays are as following:
Labor Day (Inservice for Teachers) August 21-September 4
Thanksgiving -November 23-24
Christmas -December 23-Jan. 1
Easter -Week before Easter Sunday

Annual Field Day Tours To Display Projects

Research projects underway at High Research Foundation on display during the Field Day tours starting at 1:30 p.m. Sept. 14. Change from past tour features which features station scientists and various research projects at four stops, this year will be only two. Dr. Tom Longnecker, station director, said the tours would take less time.

At each stop, two scientists will discuss various research topics. Jim Schrib, assistant agronomist, will conclude discussions with a review of developments in a pinto bean study established at the Foundation this year. Dr. Longnecker said a tour of the research plots and stops should take approximately 45 to 50 minutes. "Of course, those wishing to get a closer look at research activities are

welcome to return to the fields to stay as long as they wish", he said.

Also new this year, three \$25 savings bonds will be awarded in a drawing at the conclusion of each tour. Anyone making the tour will be eligible to win, Dr. Longnecker said.

Tour guides will be area extension service agents and Soil Conservation Service personnel under the supervision of Hale County Agent, Ollie Linder.

MRS. J. C. WITHROW and girls, Jodie, Jackie, Carla and her mother, Mrs. Lola Lentz of Littlefield, attended a baby shower at the home of Mrs. Elmer McGill in Olton Saturday morning for Mrs. Joe Price.

TO VISIT in the home of Mrs. Rowena Richardson this week were her nephews, Mr. and Mrs. Roy Tugman and Coy Tugman all from Visalia, Calif.

Parkview Church Sets Youth-Led Revival

Parkview Baptist Church is to be engaged in revival meeting during the week of Aug. 14-20.

"The emphasis is placed on the revival being youth led, but the entire church will be involved for this summer effort for revival," states the pastor, Rev. R.N. Tucker.

"Plans are now in process for some of the evening meetings to be held in the open air if conditions permit. The nursery facilities will be open and available for all the services. All evening services will start at 7:30 p.m., and the Monday through Friday morning services will be held at 10 a.m.," Rev. Tucker continued.

Rev. Eddie Freeman, pastor of the First Baptist Church of Sudan, will be the evangelist for the youth-led revival meeting.

"Bro. Freeman is a recent graduate from Wayland Baptist College at Plainview. While a student in Wayland, he served as the pastor of the Date Street Baptist Church. "He has done a great work in the Lord with emphasis given to the youth of today and their needs for the highest plane of life and living. Bro. Freeman is a West Texan, having grown up in the area of Odessa, where he was associated with a musical group prior to the time of God's calling him into the Gospel ministry."

"Bro. Freeman will be participating in a number of youth Fellowships to be held after some of the nightly services during the days of revival."

"Persons who know Bro.

Freeman will speak highly of his ability as an evangelist. He is a man of the Bible. He loves people for Christ. His desire is to make the Word of God live in the hearts of people. He will bless your hearts as you hear him preach Christ," Rev. Tucker emphasized.

The music for the revival meeting will be under direction of Donny Wright of Andrews.

"Donny is a young man who is engaged in gospel music professionally. He is an active member of "The Soul Searchers" Gospel Quartet of Andrews. Donny and his group have been engaged in singing schedules over the West Texas-Eastern New Mexico area. They have just recently finished some all night singings at such places as Clovis, New Mexico, Amarillo, Andrews, Brownfield and Lubbock.

Wright is a 1972 graduate of Andrews High School.

Gerald Mounce, music-youth director at Parkview Baptist Church, states that Parkview's youth groups are

working toward a joint presentation of gospel music with some other churches in this area.

"Our own youth will be involved in this revival meeting as they serve in various capacities. The church has been privileged to have a number of excellent instrumentalists available for service. These will be at the instruments for this revival meeting, Mounce emphasized.

Pastor R.N. Tucker and the church membership invites the public to be present for any and all of these services. The nursery facilities will be open for the use of families who need them.

Satellite Board Names Chairman

With seven Satellite School Advisory Board members present last Tuesday afternoon, the Board heard that the Memorial Fund has grown to \$100.

Among items of old business was the decision to paint the rooms in which the children meet.

The teachers and children were commended for the very neat appearance of the grounds, and the board voted to buy a power mower for the use of the school.

In order that the Board may keep abreast of information

concerning the mentally retarded and their instruction, Mrs. Sue Ward, supervisor of the State School in Lubbock, is to be invited to the next meeting on September 12th.

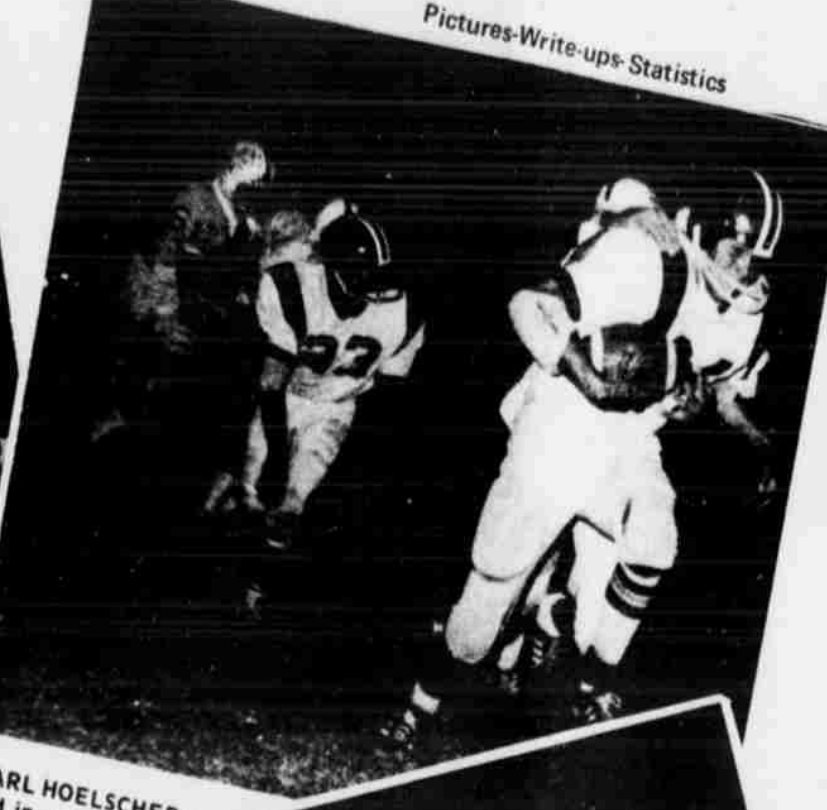

Since Rev. Louis M. Wetzel, chairman, will soon move away from our city, Father Joe James was elected to that office. Miss Anna Lee Neale was re-elected as secretary-treasurer. Also present were Paul I. Jones, Aubrey Neinst, Mrs. Joyce Oliver, Mrs. Lana Wallace, Mrs. Hazel White, and Mrs. Bess Coen.

INSURANCE DECREASED

Driving Safely Pays

The old adage "Safety Pays" was proven in Texas recently when the State Board of Insurance decided that Texans were due an estimated \$67 to \$75 million dollar decrease in their insurance costs.

Texas motorists are to be commended for earning the overall 11 per cent decrease, since they appear to have made safety headway against these statistical odds:

-8.8 billion more miles were driven last year in Texas

-350,000 more licensed drivers on Texas highways

-371,919 more motor vehicles on Texas highways

Despite these facts working against Texas drivers, the frequency of insurance claims for both bodily injury liability and property damage liability decreased in 1971.

The Department of Public Safety is a leading factor in the state's improving safety picture. In 1971 the DPS made the highest number of arrests in its history, including 35,000 arrests for driving while intoxicated.

"The Department of Public Safety should be especially commended for their increased and expert surveillance of state roadways," said Lloyd Palmer, General Manager, Texas Safety Association. "They have proven that preventive law enforcement is possible and it yields dividends."

"Texas" thrust and momentum in improved traffic safety is at an all-time high, so much so that it is becoming nationally and

internationally recognized. Even our Latin American neighbors have requested Texas' assistance in developing their own traffic safety programs.

"Governor Preston Smith's 'Drive Friendly' program has been an effective force in developing public support for local and individual traffic safety efforts. The Texas Traffic Safety Administration is carrying safety programs to state agencies and local governments. The state is also providing financial support for these programs," Palmer said and added.

"Texas motorists do not have the traffic safety/insurance game won, however. While accident rates are down, hospital costs are climbing four and one-half times faster than the Consumer Price Index. Automobile repairman wage rates are increasing one and one-half times faster than the

"If Texas motorists are going to hold on to this decrease, they are going to have to step up their personal safety activities," Palmer added. "If they don't, inflation will eat up their multimillion dollar savings. They should enroll in DDC driving courses and see that every member of their family takes this course. They should demand vigorous traffic law enforcement in their communities and counties."

"Now that it has been demonstrated that safety pays the average driver in Texas, let's all work together and keep it paying," concluded Palmer.

Hastey-Shannon Vows Exchanged

Pamela Gail Hastey and Donald Lewis Shannon exchanged double ring wedding vows beneath an archway in Parkview Baptist Church Friday night, July 28.

Rev. R.N. Tucker, pastor of the church, officiated for reading of the vows.

Parents of the couple are Mr. and Mrs. Doyle P. Hastey of Littlefield and Mrs. Valeria Shannon of Pep.

Presented in marriage by her father, Pam wore a Juliet style gown of white linen, accented in pearl beaded Venise lace flowerlets. The moulded bodice was sprinkled in the beaded dimensional lace flowers, featuring a high wedding band neckline edged in Valenciennes lace ruching.

Long candlestick sleeves, sprinkled with the beaded lace, were cuffed in rows of the lace ruffling at the wrists with button and loop closure. The high rise waistline was defined with a row of the lace and was complemented by a trim A-line skirt shirred to back fullness forming a chapel train. Back closure was centered with a row of self fabric buttons and loop closure. A matching pearl and lace Juliet capulet held her bouffant veiling which fell in twin tiers and trimmed in lace and pearl flowers.

Her something old was her great-great-great-grandmother's wedding band, her wedding gown was "something new", and she

borrowed earrings from her new mother-in-law and a Bible from her cousin, Linda Hogue. She wore two blue garters and wore pennies in her shoes dated with birth years of both the bride and groom.

She carried an orchid nestled in white carnations and baby's breath atop a Bible in white lace.

Carolyn Gray was maid of honor, and bridesmaids were Paula Hastey, sister of the bride, and Debra Pryor of Littlefield. They wore purple crepe gowns with white lace bodices, white gloves and white lace hats. They carried baskets of carnations and baby's breath.

Brenda Brown of Casper, Wyo., cousin of the bride, served as flower girl. She carried a white basket decorated with purple ribbons tied in love knots.

Vince Smith of Littlefield, cousin of the groom, was ring bearer.

Larry Vick of Pep, a cousin of the bride, was best man, and groomsmen were Charles Shannon and Dave Shannon, brothers of the groom.

Serving as ushers were Ken Albus and Toney Schlottman, both of Pep.

For her daughter's wedding, Mrs. Hastey wore a light orchid two-piece suit of double knit voile.

Mrs. Shannon wore a purple dress with a white rose corsage.

Mrs. Jean Parkman, the bride's cousin, accompanied Gerald Mounce as he sang "One Hand, One Heart", "Twelfth of Never" and "Lord's Prayer".

A reception to honor the newly-weds was given in the fellowship hall of the church. Sandra Smith and Karen Green served the traditional wedding cake and punch from Silver appointments. The serving table was centered with an orchid flower arrangement and a candleabra with purple tapers beside the four-tiered wedding cake.

For their wedding trip, the bride wore an orchid dress with white accessories.

The new Mrs. Shannon is a graduate of Littlefield High School where she was a member of the Wildcat Band, Kat Klub, Business Club, and was a reporter for the Katalyst and SKAT staffs.

The groom attends South Plains College.

Out-of-town guests were registered from California, Wyoming, Florida, Virginia, and Brenham, Lubbock, Levelland, Amherst, Hereford, Pep, Austin, and Plainview.

Calf Crop Highest Since 1924 ... Sheep and Lambs on Feed Down 18 Per Cent ... Crops Making Good Progress ... Wind Erosion Down From Last Year ... Screwworms Continue Out of Control ... Vaccinate Horses Now for VEE ...

The Texas calf crop this year is expected to be the highest since 1924, the Texas Crop and Livestock Service reports. A calf crop of 5,444,000 head is expected this year; this compares with 5,286,000 head last year.

Nationwide, the 1972 calf crop is expected to total 48,445,000. This is three percent more than 46,974,000 head produced in 1971. The 5,444,000 calves expected in Texas this year is more than twice the number expected in second ranking Missouri, Oklahoma is the third leading state in calf production.

SHEEP and lambs on feed in Texas as of July 1 is down 18 percent from a year ago. Sheep and lambs on feed totaled 150,000. Marketings of fed sheep during March through June at 226,000 head were 1,000 below the same period last year.

Sheep and lambs on feed are those intended for slaughter being fed a ration of grain or other concentrates or on succulent pastures and expected within the next three months to produce a carcass that will grade good or better.

SCREWWORMS continue to infest Texas livestock as well as wildlife and domesticated animals such as dogs. Little or no relief is expected from the screwworm infestations until cold weather sets in this fall and winter.

Livestock owners are urged to continue to check their livestock regularly and to treat wounds on livestock for screwworm control.

LESS pollution from wind erosion has been noted this year compared to last year. Wind erosion in the Great Plains moved downward from damage totals a year ago.

Texas, with 1,145,150 acres, or about one-half of the total nationwide, reported the most wind erosion damage this season. Nationwide, land in condition to blow is reported at 3,269,060 acres this year compared to 6,693,695 acres for 1971.

Crops are continuing to make generally good progress throughout the state. Cotton is reported to be making excellent progress on the High Plains and Low Plains due to recent rains. The crop is doing nicely in the Blacklands and East Texas except for insect problems. Harvest in the Lower Rio Grande Valley has been delayed by rains.

Corn is making good growth in most areas of the state. Grain sorghum harvest is more than 20 percent complete. Yields have ranged from good to excellent in Blacklands and parts of south and south central Texas.

Soybeans and peanuts are making good to excellent progress. Rice harvest is making fair progress but rain has delayed harvest operations. Harvest for the state is nearing the 20 percent completion mark.

As for commercial fruit, peach harvest continues in most areas with Elberta varieties now in production. This year's pecan crop shows good potential with most trees having moderate to heavy nut set.

VACCINATE now for control of Venezuelan equine encephalomyelitis (VEE) authorities recommend.

VEE is now about 600 miles from the Texas border. Several hundred head of horses have died from VEE in Mexico. VEE appears to be moving northward in a pattern similar to last year when the disease invaded Texas.

LIVESTOCK moving from Texas, Oklahoma, Puerto Rico and parts of Arizona, California and New Mexico must be inspected and certified free of screwworms before being moved interstate.

The regulations will be in effect through Nov. 30 of this year, and from April 15 through Nov. 30 in future years until the present screwworm infestation is overcome.

State and federal veterinarians, state and federal livestock inspectors and accredited veterinarians are authorized to make the necessary inspections, supervise pesticide applications and issue shipping certificates.

TURN ROW COMMENTS

EMIL MACHA

Dr. Allen F. Wiese, Texas A&M weed researcher, has been doing some research in dealing with the multimillion-dollar weed problem that faces the high plains farmers.

It seems that the blueweed has infested over 225,000 acres of Texas land and costs the farmers about \$6 million annually.

The blueweed is a native deep-rooted perennial sunflower and has a tremendous root system which presents special and difficult control problems.

The weed is known to reduce wheat yields up to 71 and 64 per cent in irrigated and dryland fields. Similar reductions in grain sorghum is also noted. One test shown about a 93 per cent cutback.
