BUDDY GREEN of Littlefield has devised a way to make cattle feed out of the waste products left from ginning cotton. Several area feed lots are now feeding cotton burr pellets that are manufactured on the portable pellet mill. Green contracts burs from area gins and runs his equipment on a 24-hour per day basis as long as the burr supply lasts.

NOW YEAR-ROUND OPERATION

Burr Pellet Industry Grows

By NILAH RODGERS
Leader-News Staff Writer

The cotton harvesting season is over for area farmers, but for Buddy Green, who takes over where ginning stops off, there is still enough cotton "end" products to keep him and his crew working 24 hours a day.

Green has a portable pellet mill that makes roughage cattle feed from cotton burs that used to go up in smoke.

The machine that was custom built three years ago for just a fraction under \$100,000 can turn out pellets at the rate of five tons of burs per hour.

Green and three others formed the Southwest Pellet Corp. to have the machine built to specification by the W. H. O. Manufacturing Company of Lamar, Colo., after the operators had spent several years pelleting alfalfa and other materials.

Green and his partners liked the idea of making cattle feed out of burs that are generally considered a costly nuisance by ginners, but they found machines they were using weren't suited to making pellets of cotton burs.

After its construction, Green's portable pellet mill was the only one of its kind in existence for some time, but two more have built since then.

Until June of this year, the corporation based its operations in Green's Cordell, Okla. hometown and Green commuted during the pelleting season. The first fall, Green, the pellet mill and his crew were in

the Littlefield area about four months, then the next season lasted six months, and last year they went on a year-round basis.

This summer Green, his wife Sue, their son Mark, a freshman at Texas Tech, and daughter Molly Nan, a junior at Littlefield High School, moved to Littlefield. They are now at home at 2502 S. Farwell and are commuting to Oklahoma to see after farming and ranching interests there.

The pelletized burs are six to 12 per cent protein without any added nutrients.

Burs from six to eight area gins are contracted for the operation, and Green and three employees can keep the machinery going.

Front end loaders replenish the supply of cotton burs to a rotating hopper on an average of once every 10 minutes. Approximately 10 tons of pellets can be produced over a four-month period.

Pellets are stored at the Boothe Elevator at Anton to ensure a continuing supply to area feed lots, thus wringing the last bit of waste from cotton harvesting into a useful and profitable product.

COLOR CONTEST RESULTS COMING

So many entries were received in the Christmas Coloring Contest this year that judging wasn't complete in time for results to be announced in this issue of the Leader-News.

BEAUTIFUL FLOWERS
Have you ever wondered why you've never seen a green blossom. Botanists have reached the conclusion that a green blossom would hardly be seen by the insects or birds that are so vital in the life process of plants by aiding pollination.

Hence, God in His creation of flowers and their process of life, thought of everything to assist their beauty and existence.

We try to make flowers more beautiful... our arrangements are given special attention and care, our corsages are carefully prepared... in other words we do everything possible to make the flowers you order, just what you want.

Ward-Starkes Vows Read In First Baptist Church

Wedding vows were read Thursday evening, Dec. 31, in the chapel of the First Baptist Church of Littlefield for Miss Peggy Ellen Ward and Wilbert Troy Starkes, before baskets of blue tinted mums, flanked by candelabras.

Officiating for the double ring ceremony was Rev. Gerald Henderson of College Avenue Baptist Church in Lubbock.

Parents of the couple are Mr. and Mrs. Amos R. Ward of Littlefield and Mr. and Mrs. J. W. Starkes of Lubbock.

The bride, given in marriage by her father, wore a floor length gown of white peau de soie featuring Chantilly lace motifs forming the high Victorian neckline. Chantilly lace motifs encircled the cuffed Bishop sleeves and formed garlands down the Empire bodice and redingote skirt, which flowed into a full sweeping chapel length train. Her elbow length veil of imported illusion was attached to a headpiece fashioned with lace petals and satin flowerets.

She carried a bridal bouquet consisting of an orchid nestled in white mums.

Attending the bride as matron of honor was Mrs. Clayton Patton of Littlefield, sister of the bride. Bridesmaids were Mrs. Dennis Cawthon of Littlefield, sister of the bride and Mrs. Lew Jones Jr. of Lubbock, cousin of the bride. They were fashioned in formal length gowns of royal blue crepe featuring an Empire waist and trimmed with daisy motifs of white and powder blue. Royal blue bows, with daisy motifs on streamers adorned their hair. They carried tapered bouquets of blue tinted mums and Frenched carnations.

Angela Patton of Littlefield, niece of the bride, was flower girl. She carried a basket of blue tinted petals. Candles were lighted by Amy Patton, niece of the bride, and Jamie Aaron, both of Littlefield.

Flower girl and candlelighters wore dresses designed to match those of the bridesmaids.

HIGHEST AND LOWEST
The highest chimney in the world- 1,250 feet- is being constructed only a few miles from the deepest continuous mine shaft in the Western Hemisphere-7,137 feet. Both are at the Sudbury District of Ontario operations in International Nickel.

Serving the groom as best man was Carl White of Vernon, brother-in-law of the groom. Groomsman were Clayton Patton of Littlefield, brother-in-law of the bride, and Lew Jones of Lubbock. The guests were seated by Paul Enger Jr. of Lubbock and Marvin Self of Slaton.

For her daughter's wedding, Mrs. Ward was attired in a powder blue double knit dress featuring a low waist and pleated skirt. Her shoes were of matching blue, complemented with white kid gloves. She wore a cymbidium orchid corsage.

The groom's mother was fashioned in a turquoise double knit coat dress, with black accessories. She wore a cymbidium orchid corsage.

Musical selections of "I Love You Truly", "Whither Thou Goest" and the "Wedding Prayer" were presented by Larry Shields of Lubbock, soloist, and Ellen Webb Massengill of Littlefield, organist.

Mrs. Carl White of Vernon, sister of the groom, registered the guests.

A reception followed in the parlor of the church. The serving table was laid with white net over a satin table cloth. A traditional three tiered wedding cake and punch centered the table, flanked by candelabras surrounded by the attendants' bouquets.

Presiding at the serving table were Mrs. Gary Conway of Lubbock and Miss Cynthia Cawthon of Littlefield.

For their wedding trip to Ruidoso, N. M., the bride wore a long sleeved apricot double knit dress with a contrasting sleeveless coat, complemented with bronze shoes. She wore the orchid lifted from her bridal bouquet.

The couple will reside in Lubbock.

The bride is a 1967 graduate of Littlefield High School. She graduated from Draughon's Business College of Lubbock and is employed at TG&Y warehouse as a comptometer operator.

Starkes attended Lubbock Schools and is department head at TG&Y warehouse.

Members of the house party reception were Miss Sue Howell, Mrs. Wiley Cawthon and Mrs. Clint Penn.

Out-of-town guests came from Amarillo, Bangs, Brownwood, Coleman, Anton and Lubbock.

HONNY GRYS

By CORNBALL BLEVINS

WERE A RURAL community. Win, lose, or draw, we're just as country as you can get.

Whether we like it, or not, we rely, on the soil for our sustenance—Of course—there WERE dreams, but—?

WONDER WHAT ever became of the ELECTRIC CAR?—Like I said, there were dreams!

Not only are we rural, we are small rural—If you've been here a few years, you can walk down the street and call nearly everyone you meet by name.

REALLY, that's what I like about our small town. You're no stranger for very long, unless you stay hid out.—I like to live in a place where I'm acquainted. I love to know and be known.

It's been said (if it hasn't, then, I said it) that only the evil like to be lost in a crowd.—(May I be so fortunate, as to NEVER have to live in a metropolis)—It scares me to think of being a stranger in the city!

BUT, BACK to this small rural bit.—How do we cope with inflation, when our products remain in the lower brackets? The prices of the things we buy are on the constant increase, while our product prices remain the same.

To be specific: How do we buy Detroit cars (and parts) with South Plains Crops and cattle?—Also, how do we buy the farm

equipment, fuel and etc.? How do we pay the increased labor costs?

IT'S BEEN SAID, that one of our drawbacks, is the lack of legalized liquor.—We're told that prosperity goes hand-in-hand with alcohol.—Well, what of "pot" and heroin? (Maybe we could go whole hog and become independently rich.)

I remember reading a question that The Almighty asked Moses in the long ago.—"Moses, what do you have in your hand?"

THAT JUST MIGHT be the answer to our present dilemma. The development of the things we have in hand. Or, should we wait for outsiders to move in and pick us up?

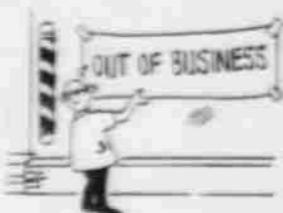

We know we can grow anything from peanuts to Brahma bulls in this country.—All we need is to be able to process and market our products.

TO HAVE PROSPERITY, you gotta have products, processing, and markets.

Course, I'd hate to see us have TOO much prosperity.—Money draws people like syrup draws flies. Too many people would destroy our small-community way of life.

UNTIL that happens, I'm gonna keep enjoying myself by just walkin' down the street and sayin'; "Hi, Bill!" "Hi, Fred!" "Hi, Joe!" "Hi, Jack!" and so-forth!

I still like a place where we know each other!

THE ABUNDANT LIFE

Pay The Price

By BOB WEAR

THERE IS A PRICE which must be paid for everything. One of the most common problems in our time is a widespread unwillingness to pay the price for what we want and need.

WE WANT TO like ourselves, and we must like ourselves. This is not a self-conceited attitude, but is a very wholesome feeling.

The price we pay is that we must be the kind of person we can like. A good feeling about self is essential to a satisfactory life, but a good self-concept is no accident.

We must pay the price of learning and doing the things which fashion and maintain a good self-image.

"SELF-APPROBATION, when found in truth and a good conscience, is a source of some of the purest joys known to man."—Pope.

WE WANT A CLEAR conscience. In fact, there is no greater personal need. We can have this good conscience if we pay the price of not violating it.

We must obey the conscience, and this demands a wise and well-disciplined conduct of life. The price is not too much "He will easily be content and at peace, whose conscience is pure."—Kempis.

WE WANT PEOPLE to like us, but there is a price to be paid for this, too.

We must be the kind of person that people can like. We want to be respected. If we do, we must make our behavior the kind of behavior that makes us worthy of respect.

We may desire a good business reputation, good credit rating, etc.

If we do, we must pay the price by doing the things which make a good business reputation; such as meeting our

obligations and managing our financial affairs wisely.

A WELL-ORDERED LIFE is the desire of most people, perhaps of all people; but it doesn't just happen. We can have a well-ordered life when we pay the price.

We must find, then accept and maintain the right value system; with first things in first place. Persons who refuse to pay this price must forever be plagued with disorder and inefficiency in their personal life experience.

MOST OF US want the blessings and the benefits of a free and orderly society, but we cannot have these unless all of us pay the price of fully accepting the responsibilities and meeting the obligations which come with them.

We must pay the price.

WE WANT LAW and order. The price is first; our constant respect for law and order; second, full support for and cooperation with law enforcement personnel; third, there must be certain and speedy punishment to all who refuse to obey the laws.

WE WANT FINANCIAL soundness. The price is hard work by everybody, and respect for sound economic policies for ourselves and our government.

We must, individually and collectively, begin to live within our income. If we do not, bankruptcy is inevitable.

WE WANT TO BE strong in courage, in security and in spirit. The price is morality and decency in private and in public life.

WE CAN HAVE all of these good things when we are willing to pay the price.

A WOMAN'S VIEW

Mustard Seed

By PEARL BRANDON

JESUS TALKED about mustard seeds. Once He said if we had faith the size of a mustard seed, (which meant just a tiny grain of faith) we could move mountains. Faith must be made of powerful stuff. Many times after he healed someone, Jesus would say, "Your faith hath made you whole."

IT SEEMS to me it means if we have faith enough to begin something worthwhile it will continue to grow. One man has said, "God's power is the life principle of the tiny seed."

Maybe we are the mustard seed which Jesus spoke of, with a tiny bit of life principle in us, when, if we cultivate it, it grows strong enough to move mountains.

A TINY LIFE with a spark of faith grows slowly and silently until it reaches great heights.

The life of Jesus was short. He was rejected and crucified, yet His principles have grown to such magnitude that peo-

ples and nations are able to rest under the leaves of a mustard plant.

RUNES IN HIS "Dictionary of the Bible" says, "God is One, and the One living heart of man, and the love to God, love to man is one and the same. The only the beginning of true faith, of it, the rest is silence."

He also said, "Faith is belief in the visible. It would be a dull world, if only the visible was reality."

THE BIBLE SAYS, "Now faith substance of things hoped for, the of things not seen."

Without faith this world would be and stale.

FAITH GIVES US courage to go on and upward in this life, strength to face the life beyond. "Thy faith hath made thee whole."

DEAR EDITOR

What Our Readers Think

Keep City Clean

Dear Editor: In a recent Wednesday morning meeting of women at Emmanuel Lutheran Church to study the Bible, the matter of God's creation was discussed.

Having created the world, God placed man in it to "subdue it, and have dominion over it." He prepared a special garden for him in "Eden to dress and to keep it."

These are significant words - "to dress and to keep it". It was made the duty of man to work the land, to make use of its productivity, to enjoy its fruits, to protect and preserve its beauty, and to increase its usefulness. We are thankful from our hearts, that we are privileged to live in this divinely blessed land.

But we are saddened by the fact, that the beauty of our land is being spoiled by those citizens who scatter their trash all over the countryside. People go cruising along in their cars, throwing out cups, bottles, candy wrappers, and many kids of refuse, both on our city streets and on our highways.

We appeal to all of our citizens in "Littlefield" to stop throwing stuff on our

streets and highways, to clean up their own immediate neighborhoods, to teach their children to make use of the litter barrels in the city, and to help Littlefield to that place of honor which earned a few years ago as the "Litter-Free America City."

We would also like to appeal to our Council to inaugurate some kind of wide publicity to alert all citizens to proper pride in their city and to help.

We commend the organization of "We, The Women", which is a trying to do what we suggest; but too big a matter for a small group of to handle effectively.

We like to live here, but it hurts us so much refuse marring the attraction of our city. We appeal to all of us together in cleaning it up and in keeping clean.

Maudia Clayton Has High Score On Nurse Test

Maudia Gayle Clayton, junior nursing student at Northwest Texas Hospital School of Nursing in Amarillo, has made the highest score possible in the state in the course, "Nursing of Children."

For the fourth time in five years, graduates from the school have made high grades in the course.

Mrs. Clark Earthman, Registered Nurse, has been the instructor in this course since 1969.

The 72 graduates from Northwest who took the State Board Examination for Licensure 1969-70 ranked among the top schools in the state according to reports received recently by Mrs. Marilyn Dyer, director of the school.

Of the 41 Texas schools including seven baccalaureate programs, 14 associate degree programs and 26 hospital diploma schools, Northwest graduates made the highest score in the state in "Nursing of Children" and "Psychiatric Nursing." They ranked second in the state in "Obstetrical Nursing" and tenth in "Medical and Surgical Nursing."

Mrs. Dyer stated that these outstanding achievements of Northwest graduates have been consistent over the last ten year period. Northwest is the largest hospital school in the state with a current enrollment of 302 students.

For the past two years, the school has implemented an intensive program sponsored by federal loan funds and scholarships to recruit students from disadvantaged and depressed areas. A number of students are currently enrolled in the school under this program.

Northwest is also one of the first schools in the nation to develop a program to grant credit to licensed vocational nurses toward completion of the RN program.

Mrs. Dyer stated that the school had received more than 30 requests for information on the LVN program from schools in all parts of the United States who plan to develop a similar program.

To date, Northwest has received 300 inquiries from LVN's interested in the program.

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is how that young and old alike are showered with benedictions that family and influence for a better citizenship and a stronger religious character. Strive today to become that the church alone can furnish leadership to handle the affairs of life in these perilous times. Then we with our children should go to the church of our choice on Sunday. You in the Church and the Church in you form a combination for good. Be a regular CHURCH GOER and a daily BIBLE READER.

"What shall I render unto the Lord for all His benefits?" (Psalms 116:12). Every man of earnest and serious mind must ask himself this question as he meditates on the goodness and the Grace of God toward him. We want to do what is right in our every association with God and man. The Government takes as its proper share at least twenty per cent of every man's income. **WHAT IF GOD SHOULD REACH DOWN INTO YOUR LIFE AND MINE AND TAKE WHAT REALLY BELONGS TO HIM?** How much would be left for us? Have you raised corn? Or did you and God work together in making the corn crop? And just which of you put more time and energy into the process? Have you "struck" oil? Who spent centuries creating the oil and holding it in the underground lake until you came along? Is the oil really all yours? What is God's share? **YOU AND GOD ARE PARTNERS IN THE OIL BUSINESS: WHAT IS HIS PORTION?**

Jesus Christ is our revelation of the generosity of God who has been the eternal Giver, enriching us with every sort of good thing. From the day of the first creation God has been at work with and for man. Each of us represents in his body and in his soul the everlasting toil of God, who truly wants to make us His children and who desires us to join Him in making an ever better world for His sons and daughters to live in. **JESUS IS OUR PATTERN OF WHAT A MAN CAN GIVE TO HELP IN THE PURPOSE OF GOD. HOW MUCH DID JESUS GIVE BACK TO GOD?**

Jewish and Christian people have agreed that we ought to give at least a tenth of our income to God and His Church for the carrying on of His redemptive program. A tenth will not necessarily discharge all our debt, but it will show a sense of deep gratitude. Everything is His, even the cattle of a thousand hills and the abundant harvest from the fields. He gives us everything which makes life abundant. Our ideal is to join in the prayer, "Take my life and let it be consecrated, Lord to Thee." Let's be good partners with God. Let us be His co-workers. **MAY WE GLADLY GIVE BACK TO HIM AT LEAST A TENTH OF WHAT HE SO FREELY GIVES US.**

There Is A Star In Littlefield

These 6 Steps Can Make Your Brakes As Good Or Better Than The Brakes On A New Car.

1 WE DISMOUNT YOUR BRAKE SHOES

When your brake shoes look like the photo above, you're driving your car on a life line. Linings can become glazed by excessive heat, reducing friction potential to dangerous levels. Or, if linings are of the glued-on (bonded) type, repeated stops at high speeds may cause the linings to become detached from the shoe. Star Brake Service begins with a thorough inspection to reveal the cause of brake failure.

2 WE THOROUGHLY RECONDITION YOUR BRAKE SHOES

When you overhaul your brakes, we like to start with a good foundation. We use the brake shoes that are already on your car because we know that these have been "mated" to work properly with the rest of the brake mechanism. We do not substitute an entirely different set of brake shoes. In reconditioning your shoes, we completely remove the old lining and clean the table of the shoe. When we are satisfied that the shoes are as good as new, we're ready to reline them.

3 WE RIVET ON PREMIUM LININGS

Two things to remember about our Star Brake Service: (1) We use only premium-grade Star linings, secured to the shoe by the only positive method known—precision power-riveting. No adhesives or bonding agents are used because we know that even the best of these can be affected by extreme heat. (2) Ventilating grooves in the lining and hollow-center rivets allow free air circulation through and around the shoe to ventilate friction surfaces. Result: reduced brake heat-up and faster cooling—safer, smoother braking.

4 WE TURN WORN DRUMS TO RESTORE 100% BRAKING SURFACE

To put refined brake shoes in a glazed, scored or out-of-round drum is like putting a new tube in a worn-out tire casing: sooner or later, you're bound to have trouble. Reconditioning drums is a must for a complete brake job. With our precision Star drum lathe, we restore drums to "like new" condition, with a fresh, perfectly round friction surface machined to precision tolerances.

5 WE GRIND SHOES TO ENSURE PRECISION SHOE-TO-DRUM CONTACT

Turning drums is not enough. For full braking power, shoe linings must be arc-ground to the precise contour of the drum. This gives you complete, 100% contact with the drum with equalized stopping power on all four wheels. You get safer brakes and smooth stops, eliminate pulling, squealing and steering. With our Star shoe grinder we are the new shoe to full contact with the reconditioned drum. No "wear-in" and "take-up" adjustment needed because we compensate for initial wear.

6 WE CHECK ALL HYDRAULIC AND MECHANICAL LINKAGES

What goes on between your brake pedal and your brakes? We make it our business to find out. As part of our complete Brake Service, we thoroughly check all hydraulic and mechanical linkages. If any part is too badly worn to give reliable service, we'll tell you so. That's why, when we deliver a complete brake job, you'll know that your brakes are as good or better than the brakes on a brand new car. And that's a mighty good feeling.
