Named to fill the manager's position was Mrs. Sherry Campbell, former secretary of the C-C. The new secretary will be Mrs. LeMoyne Grissom.

In closing his resignation speech, Adams stated: "I look forward to joining the Chamber soon, and look forward in the future to my opportunity to serve on committees and the board. I am 100 percent sold on the purposes of the Chamber-BCD, and will continue to be.

"I will attempt to answer any questions, and I will then consider this a 'closed book' after this morning, and don't plan to bring the subject up

Adams is planning to open a printing business in Littlefield in the near future.

Following discussions of reasons and events that led to the calling for resignation, some of the board members felt that better methods of correcting situations such as this should be utilized by the organization in the future.

"LEWIS AND CLARK"

The expedition of Merriwether Lewis and William Clark set out from St. Louis on May 14, 1804 to explore the Northwestern areas of land the United States had acquired from France in the Louisiana Purchase. They sailed up the Missouri River, crossed the Rocky Mountains on horseback and then sailed down the Columbia River to reach the Pacific Ocean on November 7, 1805. The expedition began its return trip in the spring of 1806. Reaching the mountains, they divided into two parties, each taking a different course so that they could explore more territory. The two groups rejoined at the Missouri River and sailed back toward St. Louis, arriving there on September 23, 1806. From the collection of American National Insurance Company, Galveston, Texas.

A STATE OF THE PARTY OF THE PAR

THINK POSITIVE, let's all go out and buy a new raincost. Nuff said on the weather. Don't want to take the fame and glory ole Cornball's been trying to achieve with his weather prophetizing. I think the word is misspelled, come to think of it, I don't know if there is such a word.

IT'S LIKE BURYING THE old and resurrecting the new. Maybe not quite that drastic, but a change is being made here in Littlefield. Now that the community has had a shot in the arm with industry, the Littlefield of old no longer exists. There is no longer the quiet dusty streets and vacant side walks. No, things have changed and guess we all are going to have to change with it.

It seems that the streets have more traffic and the stores and shops, both new and old, are enjoying a healthy economy. Store merchants are beginning to think more positive and are supplying a wide selection, and the consumer is happily taking advantage of this new availability at home.

Other change that can't go unnoticed, is the people.

In yesteryear, almost all talked with a southern or western accent, but now as you listen to the shoppers you can detect various accents from all over the United States and abroad. Yes, there is a new Littlefield, lots of new people, lots of new dollars and an opportunity for a lot of new friends.

One concern I have about the new Littlefield is that various hardships are being created by this increase in economy. A lot of young couples and lower income people are being hurt financially because of the housing situation. Rent, as well as real estate, have

That is good, but it is a because there are a lot of people, as well as lower families who are non skilled in want to make this town their If we don't watch, we w them to go elsewhere.

For example, a young man wife and perhaps a young child is having a bit of difficulty here, because he may be wer hours a week at \$3 an hour 7 gross him \$150 per week deducts, and I'm sure that it home pay will run approximate a week. Out of this he must mai payment, buy groceries, doctor family and pay medical b insurance.

Also he must pay house ne utilities.

principle apply to all those state agencies who spend millions to get their messages across to the taxpayers.

We saved all our incoming mail from tax-supported agencies in Texas for one week. All contained publicity releases on behalf of tax-supported agencies.

You might find it of interest that during the week we received in the mail news releases - all mailed at state expense-from the following:

State Dept. of Public Welfare (3), Texas Dept. of Agriculture (2), Texas A&M University (9), Texas Tech University (6), Parks & Wildlife (4), Permian Basin Law Enforcement Agency (2), Texas Tourist Development Agency (3), South Plains College (2), Texas Water Quality Board (4), State Dept. of Highways (2), Texas Education Agency (3), Lt. Governor's Office (1), Comptroller of Public Accounts (2), Attorney General (2), Speaker Bill Clayton (3), Texas Dept. of Health Resources (1), West Texas State (3), Sul Ross University (3), Texas Highway Dept. (2) and your own organization (2).

For your information, that is 59 pieces of mail in one week to one newspaper. We're sure the same releases went to 111 daily newspapers, 524 weeklies, 280 AM radio stations, 194 FM stations, and 69 TV stations for a total of 1,178 pieces of mail per week. The total per week to media amounts to 59,502 pieces mailed at taxpayers' expense in one week in a year's time, that amounts to 3,614,104 pieces of mail bearing messages from state agencies in Texas.

Postage alone on that volume of mail totals \$46,938,352.

Add to postage the cost of maintaining public relations staff members to write the above publicity blurbs, the cost of printing, paper and envelopes and you can readily see we're not talking about peanuts as far as the cost

The only difference is the facthe utility people must pay to space in the newspaper while all above, including your agency. their message printed free.

If the utilities in Texas do not legitimate message to the tar neither do the agencies and i tions of the state government.

If savings to the taxpayer is the of your commission, then it app greater savings can be mad starting in Austin rather tha utilities.

If we're going to stop utilitie getting their message across. the same principle dictate that stop the state agencies from their message across?

Personally, if your commissions on limiting utility advertising personally will solicit media at tions of the state to ask their me to refuse to print any state a messages. And we will work our associations to introduce i tion that would ban all tax-sup public relation offices, publicity and news releases.

"HE IS RISEN!"

The little city of Emmaus lies only a short distance from Jerusalem. Its place in history rests on one event that occurred there immediately

after the Resurrection of Christ.

Two disciples of the Master were

greatest event of all time! Heaven

had to do something to stop them!

Suddenly, walking with them was a third person who engaged them in most earnest conversation, "Why are you so sad and downcast?" the

stranger asked. Why? The answer is so obvious to us today though

it was not to those lonely disciples.

Men are always sad and lonely and lost when their backs are turned

to the risen Christ. A dark and twisting road lies ahead of the man or woman who turns away from the bright eternal light that shown upon the angels in the empty tomb. They

announced "He is risen," and the
