

SEEKS INJUNCTION FOR INCREASE

General Telephone Files On Olton, Springlake

General Telephone has filed a petition against the city of Olton and the city of Springlake seeking a temporary injunction to allow the telephone company to increase their rates pending a formal hearing.

The suit was filed in District Pat Boone Jr.'s 154th District court Friday morning and names of all the members of the city councils in the two towns.

Served notice by Lamb County sheriff's officers Friday were Olton Mayor Parley Myers and council members E. Y. Givens, Joe Hall, Vernon Nixon, Bill Norfleet, and Raymond Powers. And at Springlake, Harlon Watson, mayor, and councilmen Jimmy Fuellmeyer, W. B. Hucks, David Metcalf, G. H. Miller, and Phil Neinast were served.

General Telephone Manager Rad Richardson said the petition would not be a big surprise to any of the Olton and Springlake officials.

"The last time we met with the two city councils, they refused to grant us a last financial rate of return. We told them then that the only other relief would be to petition the court for a temporary injunction to allow us to increase our rates."

Richardson said the petition was the same thing done in Littlefield recently, except in reverse, with the phone company beating the city councils in taking action.

He added that filing the petition was the normal way to go about seeking a rate increase in utility cases when a settlement couldn't be reached between the company and city councils.

General Telephone claims that the two towns have the duty to determine and fix exchange telephone rates which are just and reasonable and which will yield a fair return upon the value of the company's property used in the extended area service.

The company says the two councils have failed and refused to permit them to charge rates sufficient to permit a fair return on the fair value of such property.

Further, General Telephone said earnings devoted to the Olton-Springlake telephone service had become unreasonably low, considering the net operating income for the year ending June 30, 1973, was \$19,123. GT says plant facilities for this service totals more than \$700,200, with an additional \$14,000-plus materials and supplies.

GT says their income available from returns for the past year was only 2.68 per cent. Their rate proposals would give them a 5.17 per cent rate return.

Present rates for a one party line business phone in Olton is \$14.25. The company asked for this to be increased to \$21.95. Residence rates for a one-party line are \$7.25 at present and the initial proposal sought \$9; for a two-party line they asked for a rate increase of \$5.50 to \$7.75. These figures were reduced to \$19, \$8.50 and \$7.50 during negotiations.

Springlake rates for a one party business phone is \$14.50. The proposed increase called for \$22.65. For a one party residence, present rate is \$7.50 and \$9.35 was sought. For a two party line, the company asked for a rate increase from \$6.75 to \$7.95.

During negotiations, lower proposals were submitted to Springlake also.

In asking for the temporary injunction, the company said it will put up an appropriate bond and security to provide payment to any GT customers of any excess rates actually collected until rates are determined.

Finally, the company asks that the temporary injunction be made a permanent injunction and award GT its costs of suit and such other and future relief as may be just and reasonable.

resignation from Ted Borum, Earth justice of peace, and consideration of corrected invoice from the Sherman Agency.

Australian Teenager Visits Littlefield

An 18-year-old South Australian coed visiting New York as a Rotary Exchange Student spent the week in Littlefield prior to the July 4 holiday.

Australia arrived in Littlefield with the Larry Sharp family from Utica, N. Y. for a visit with Sharp's parents, Mr. and Mrs. L. L. Sharp, 601 E. 6th.

Miss Zadow termed Littlefield very much like her hometown with its 7,000 population—especially the geography and climate.

Her father is a sheep farmer with 1,500 acres. She said the yearly rainfall average is only 12 inches, but the soil is much richer and the climate much more temperate.

There are 300 students in her hometown high school, compared to 125,000 persons who reside in Utica, N. Y.

How does attending an Australian school compare to U. S. schools? Well, requirements are stiffer in Australia. Completion of high school there is about the equivalent of two years of junior college here.

The majority of Australian students leave school at ages 15 to 16. But for those who go on to college, higher education is free, she said.

Sharp is a 1958 Littlefield High School graduate and is in the Air Force. The trip here to see his parents was a leave before the Sharp family leaves for a tour of duty in Germany.

Shotgun Discharge Blasts Amherst Man

Gerald Jeffery, 46, remained in the Methodist Hospital in Lubbock in critical condition following an accidental gunshot wound at his father's house in Amherst July 4.

Jeffery suffered a severe chest wound from a 20 gauge shotgun about 5 p.m. Thursday.

He was taken to South Plains Hospital in Amherst by Payne Funeral Home, then transferred to Lubbock.

According to Lamb County Sheriff E. D. McNeese, the man was critically wounded in the left side of his chest when a shotgun discharged.

Sheriff's officers said all over the ceiling led them to believe he was

cleaning his gun, and that the shooting was an accident.

Jeffery and his little daughter live

with his father, L. H. Jeffery at 910 Jefferson in Amherst.

Pickup Stolen, One Car Turnover During Holiday

This July 4 was a quiet one in Littlefield and Lamb County. There were no arrests made by city, county nor highway patrol units.

Even fire cracker violators were held to a minimum with only one official filing charges inside city limits.

Highway patrolmen reported no accidents to mar the holiday.

City of Littlefield police checked two automobile accidents Thursday and Friday.

Ricky Sibert, 19, of 620 W. 6th, overturned the car he was driving early Thursday morning.

According to the police report, Sibert was traveling east on W. 10th about 12:30 a.m. at a rate of high speed when he hit the shoulder of the road and lost control. The vehicle skidded approximately 300 feet and then overturned.

Thursday afternoon about 3:30, vehicles driven by Floy D. Young of Rt. 2 and Jerry Dewayne Cox of Rt. 1 were in a minor collision at 1700 Hall.

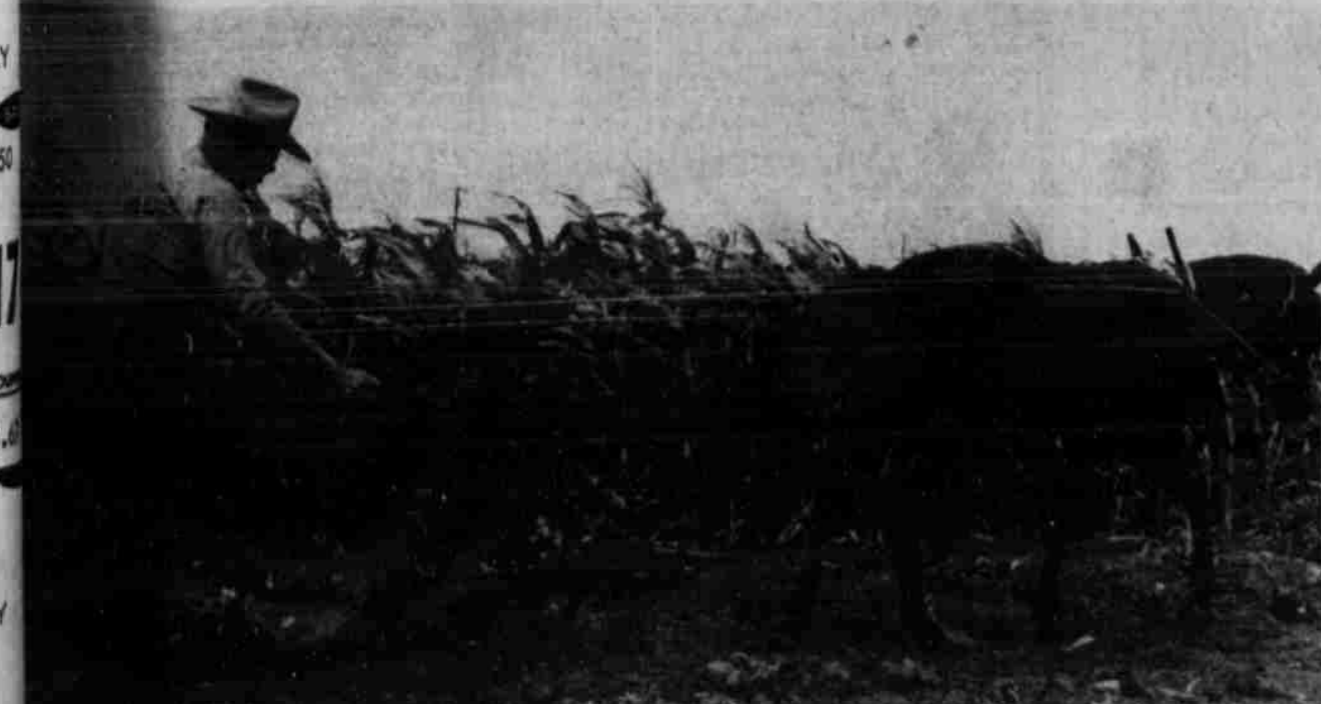

All area officers were notified early Friday morning that a 1972 Dodge pickup had been stolen from the Alvin Mills residence.

The brown and white vehicle is the property of Irrigation Incorporated in Littlefield.

Robert McDonald of 1328 W. 4th said children had taken a considerable amount of fruit from his trees. The fruit was not ripe and had been sprayed with poison to kill fruit borers.

BLOOMING COTTON by July 1 is enough to bring on a big smile from Stillwell Russell. This plant is wilted after spending the biggest part of the day in a hot pickup, but the blooms and squares are still impressive. Russell said he had been farming 27 years and this is the first time he has ever had cotton blooming by July 1. Traditionally, farmers look for a good harvest if they find blooms by July 4. M. "DUB" BERRY Jr. has found a "new" way to get weeds out of his garden. Missy, a 2-year-old coal black pony, pulls a walking cultivator which keeps the boy's garden clean. Besides being a rare sight in the mechanized world, Missy and Berry prove a few horses can be trained without the aid of an ex-

perienced team horse. Berry has broke and trained many work horses since he came to Lamb County from Borden County in 1924. He says that most horses must be worked alongside another horse to learn properly. Later Berry plans to team Missy with a young paint colt. (Staff Photo)

Moon Walk Day

FOR CENTURIES the moon hung tantalizingly just beyond man's grasp, challenging his imagination and ingenuity.

Then, on July 20, 1969, two U.S. astronauts did the impossible—they landed the lunar module, "Eagle," upon the surface of the moon, and a new age dawned.

Since that time, July 20 has come to be known as Moon Walk Day. The memorable moon exploration by Neil Armstrong and Edwin Aldrin Jr. lasted 21 hours, 36 minutes and 16 seconds, while the moon walk, initiated by Armstrong, took 2 hours, 15 minutes.

Pilot Michael Collins orbited the moon in the command module, "Columbia."

BEYOND the historical significance of the moon venture lies an even greater potential for technological advances surpassing even the wildest imaginings of Jules Verne.

In the midst of unlocking the mysteries of the universe, man has found it possible to apply the knowledge and skills of the U. S. space program to solving problems here on earth.

Our opportunities to further the condition of mankind right here are as limitless as the heavens that surround us.

TIME TO UNWIND —

AVOID — FEATURES

A Woman's View

By PEARL BRANDON

OUR LIVES ARE made up of "ups and downs." Sometimes I think we are more apt to remember the down times rather than the up ones. We let our troubles occupy our minds so much they drown out the happiness we should be enjoying.

In psalms 100 we have this, "Shout with joy before the Lord, O Earth! Obey Him gladly, come before Him singing with joy. Try to realize what this means—the Lord is God! He made us—we are His people, the sheep of His pasture."

WHEN OUR HEARTS are filled with gratitude we have peace and joy. There is no room for malice or ill feelings toward our fellowman—and no room for envy or jealousy.

If we can realize that the Lord is God and that we are a part of his family we have nothing to fear. He cares for us, even as a good man cares for his earthly family. It gives us great satisfaction to care for those we love to give them the things they need and want. It is the same with our Father God.

TO UNDERSTAND THE REALITY of God we have to practice drawing near unto Him—of being aware of His presence. We have to contact Him by turning our thoughts to Him constantly and feeling His presence.

He is always there if we will only reach out to Him—and there are so many things to be grateful for—this wonderful country we live in.

IN SPITE OF ALL the government problems we are faced with, we still have our freedom. We have all the necessities of life, such as food, shelter,

clothing, medical care, transportation and yes, we have luxuries, too, everything that makes life good.

Of course we have the trials and tribulations of everyday living, but even these are made easier to bear by the love of our friends and the goodness of the people around us—and the help of our God.

We can even be grateful for the hardships in life, for they teach us to enjoy the privileges more. They also make us stronger and more benevolent toward others.

WE ALSO LEARN MORE about our Lord when we have to lean on Him. This Psalm I quoted above also says, "For the Lord is always good. He is always loving and kind, and His faithfulness goes on and on to each succeeding generation."

Isn't this a wonderful thing to know! His love goes on and on, and will continue to guide our loved ones long after we are gone.

HE IS MY GOD NOW, but He will be theirs then—for this I am very grateful.

We can face the "ups and down" in our lives with the Lord by our sides—or walking on before breaking the path for us.

ONCE WHEN THE WEATHER was very bad and a deep show covered the ground I had to make home visits in the Mexican part of town, one of the men walked ahead of me saying, "I'll make a road for you." I walked behind in his tracks. That is the way it is with the Lord. He makes a road for us. The Scripture used today is from the Living Bible.

Judiciary Article Gets Tentative Yes

The Judiciary Article, as tentatively approved by the Constitutional Convention, contains some of the most far-reaching changes adopted by the delegates. This article was the center of much controversy and contains some hard-won compromises.

The three provisions which caused the most controversy were those relative to the merging of the Supreme Court and the Court of Criminal Appeals into a single court of last resort, to the establishment of circuit courts, and to placing a ban on the right of the state as prosecutor to appeal decisions in criminal cases.

The Article, as approved, merges the state's two highest appellate courts into a single Supreme Court. The proposed 9-member court may sit in sections of not less than five jurists. This provision may allow the Court to divide itself up into criminal and civil groups.

The legislature is authorized to provide for a circuit court system and may abolish the present county court system. Some delegates had favored a constitutional circuit system without necessary legislative action.

The state may appeal a trial court ruling in a criminal case if the trial court ruled a law unconstitutional. The state may also appeal from an appellate court ruling in a criminal case unless the Supreme Court refuses to hear it. The state now has no right to appeal in

criminal cases.

The Judiciary Article is designed to end specialization of the court system and to facilitate a unified flow in the presently over-burdened system.

In addition to merging the Supreme Court and the Court of Criminal Appeals, the new article provides a new intermediary level of appeals courts with general jurisdiction. Existing courts of civil appeals will become courts of appeals with authority to hear both criminal and civil matters.

Present restrictions on district courts are eliminated. District courts and circuit courts, as they are established, will comprise the trial level of the new system. Each district and each circuit could have as many judges as necessitated by their case load.

This three-tier court system will be aided by a new statewide administrative operation supervised by the Supreme Court. The court administration mechanism will allow the transfer of cases and other action which will equalize the case loads of different courts and facilitate the judicial process.

Justice-of-the-peace courts and municipal courts will remain as local entities outside the unified judicial system.

Proposals to provide for the appointment rather than election of judges were not adopted.

THE ABUNDANT LIFE

WISE SPEECH

THE GIFT OF SPEECH is a great one, and may be the most powerful, in some of the important areas of life. There is, however, a grave difficulty facing us: it is this, speech can be used for good or evil. We make the decision.

It can be used for building up, or tearing down; for encouraging or discouraging; for making peace or causing strife; for winning friends or for alienating people; for glorifying God or blaspheming God.

WE MUST BE CONCERNED about many things, but the wise use of the power of speech is entitled to a preferred place in our concern. We must learn to control our speech; we can bridle the tongue. That is, we can learn to make our speech useful; so that our manner of talking is useful to us and to our fellow man. We do so by taking the best possible information into our mind for the purposes of forming good attitudes; good judgments; and accurate understandings.

CARELESSNESS IS perhaps the biggest hindrance in making our speech constructive and helpful. We must be alert at all times; both from the standpoint of mind care and tongue use. This is probably the most rewarding diligence we can apply to or selves. We must never give way to easy carelessness in our speech.

A CONSTANT GOVERNANCE of speech, according to duty and reason, is a high instance and a special argument of a thoroughly sincere and solid goodness." —Barrow.

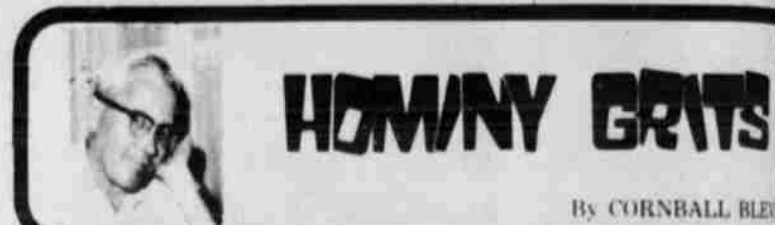

FREEDOM OF SPEECH is a constitutional guarantee, in our country. Unfortunately, people often use it for unwise talking by announcing "I say what I please." In a sense, this is true; we can say what we want to say; however, a mature, right-thinking person will be very careful about what he says. There are many public considerations to be applied to which and restraints; but there are also persons who take great pride in what they call, "speaking their mind."

"NOTHING IS MORE SILLY" than to let pleasure some people take in "speaking their minds." A man of this type will say a rude thing, for the mere pleasure of saying it, when an opposite person full as innocent, might have profited his friend, or made his foe. The Steele.

DISCRETION MUST BE exercised in our influence over our speech. This is a wise discernment and good judgment together with cautious reserve. Intuition will be a source of great information to us, and profitable in every way.

SPEECH MUST BE KIND, and it is firm. Therefore we must not let irritation, or anger, or impatience dominate our mind. To the degree of dominance exists, we become mean and wise speech does not improve such an agitated mind.

WE MUST CHOOSE OUR words with great care, and wisdom; for our speech can make us or break us.

THE 35 MPH speed limit has not only helped in conserving energy but also seems to have done wonders in the saving of lives on our highways.

Although many do not like the slower speed limits, we can admit that it has made our highways a little safer as noted by the lower number of hiway deaths over the July 4 holiday weekend.

RAINS DID COME THIS week in certain areas. Some of the dry land farmers in the Pep community received over two inches of rain Wednesday evening.

THE STREAKING FAD is not over as noted by a couple of our citizens as one commented that they were passed north of Littlefield, Thursday, and this particular vehicle did have a "streaker" sort of hanging out of the window.

Another person has commented that they saw a "streaker" on water skies a few days back.

IF IT DOESN'T RAIN within a few days, farmers who have been irrigating their crops will soon be break-even-point.

Coffer-Briggs Ceremony Said In Amherst Church

Miss Manda Sue Coffer, daughter of Mr. and Mrs. Gerald K. Coffer of Amherst, and B. W. Briggs Jr., son of Mr. and Mrs. Pat Briggs of Littlefield, repeated double wedding vows Monday, July 1, at 7 p.m. in the Amherst Church of Christ.

Officiating for the reading of the vows was Phil Harguess, minister of the Church of Christ of O'Donnell.

The couple stood before a white stand decorated with English ivy and stephanotis which held the Holy Bible. Above was a white basket filled with ivy and stephanotis which featured white doves and satin ribbons of green, pink, yellow and blue. A garland of English ivy extended from the hanging stand in a swag effect to either side of the church. The ceremony was flanked by white floral arrangements in gold vases at each end of the altar.

The bride was presented in marriage by her father and wore a formal gown of peau de chamois, accented with Venetian lace. The bisque bodice of lace featured a raised neckline. The Venetian lace sleeves were in a lantern fashion with a deep cuff. The a-line skirt was gathered at the back forming a chapel train. The entire ensemble was encircled with Venetian lace edging and seed pearls. A detachable chapel length train of lace was attached at the waist with a Dior bow.

The veil of silk illusion in three different lengths was trimmed in lace and seed pearls. This was held by a bandeau of lace and seed pearls.

She carried a white Bible topped with a bouquet of feathered carnations in pastel colors centered with a white orchid.

For something old, the bride wore her maternal grandfather's wedding ring, something borrowed was a pearl necklace belonging to Mrs. Doris Stone. Something new was her traditional arter. Something new was her wedding dress. She wore earrings minted with their birth dates in her shoe.

She presented a long stemmed red rose to her mother, the groom's mother, and grandmother, Mrs. R. O. McCown.

Mrs. Glenn Eagle, sister of the bride, served as matron of honor. The bridesmaids were Cathy Patterson, Verena Wagner and Mrs. Rita Johnson. They wore identical floor-length dresses of pastel colors in floral leno over satin. They carried colonial bouquets of feathered carnations in pastel colors.

Guy Douglas Hufstetler Jr.

of Amherst was best man. Serving as groomsmen were Jack Walker of Lubbock, Mike Strawn and Howard Tooley of Amherst.

Serving as ushers were Mike Coffer of Dallas, brother of the bride, Glenn Eagle, brother-in-law of the bride of Littlefield, Randy Bales of Amherst and Billy Templeton of Amherst.

Traditional wedding music "Whither Thou Goest", "The Twelfth of Never" and "The Wedding March" were provided by Alvis Jones and singers of Littlefield.

Mrs. Larry Kennedy, sister of the groom, of Portland, Ore., registered the guests in the bride's book.

The bride's mother wore a street-length two-piece dress of blue shantung with a pink feathered carnation corsage.

Mrs. Briggs, mother of the groom, chose a pastel green street-length dress of polyester crepe. She wore a corsage of yellow feathered carnations.

Following the ceremony, a reception was held in the fellowship hall. The bride's table was laid with a white lace cloth over blue. The centerpiece was an arrangement of Ester Reed daisies and fern in a cut glass

compote. The three-tiered white wedding cake with traditional bride and groom, was served by Miss Cindy Crosby and Miss Sandra Mills.

The bride chose a blue three-piece knit dress for the wedding trip with an orchid corsage lifted from her bridal bouquet.

The bride is a graduate of Amherst High School. The groom attended Lubbock Christian College and is a graduate of the Sunset School of Preaching in Lubbock.

The couple will be at home at the Amherst Church of Christ parsonage.

Out-of-town relatives attending the wedding include: Mr. and Mrs. Alvin Squire of Odessa, Miss Muna McCown of Lamesa, Mr. and Mrs. Billy Briggs and family of Adrian, Mrs. Gwen Kennedy of Portland, Ore., Mr. and Mrs. Cecil Hamm, Laura and Melissa of Amarillo, Mr. and Mrs. Loyce Warren of Windermere, Fla., Mr. and Mrs. W. P. Holland, Jr., Debbie, Pam and Craig of Earth, Mr. and Mrs. Claude Coffer of Farwell, Mr. and Mrs. Percy Hart of Hart, Mr. and Mrs. Glenn Eagle and Chip of Littlefield, and Mr. and Mrs. J. E. Bartlet and grandchildren of Lamesa.

The Conversation Piece

Have you ever walked through a beautifully decorated home and had the feeling that there was something missing, but you couldn't put your finger on what it was?

This certain something, very often referred to as a "conversation piece" can be the difference between a humdrum room and a room with sparkle, flair and verve, when it is well selected and properly placed.

A conversation piece may be anything that adds charm, contrast, beauty and daring to a room.

For your conversation piece, you might want to add an outstanding cabinet or table, or perhaps a strikingly colorful and beautiful screen, or a lamp, or some other item.

The main thing to keep in mind is that it's worth looking for the right "conversation piece" because it can wake up your room and give you a wonderful new feeling of excitement and beauty.

For ideas, please accept our invitation to come in and browse here. You are under no obligation to buy anything, but we'd enjoy chatting with you; and you might enjoy looking over all the furnishing ideas we have.
