Eat, Play, Dance July 4 To Build Tennis Courts

Hold it! Don't make any plans to leave town on the Fourth of July. There's going to be action a plenty right here in Littlefield- and all for a good cause,

Several local organizations are combining efforts to raise money for the Littlefield Memorial Tennis Courts.

The big July 4 fund raising events will have a carnival atmosphere. Kiddie activities get underway about 1 p.m. Bennie Zahn is in charge of a minicarmval and Johnny Reber is chairman of other children's activities.

The new County Community Building on South Hall Avenue or U. S. 385 or Levelland Highway will be officially booked for the first time.

The new Community Building will be the site for all of the activities. Members of "We, the Women" will be in charge of

While the kiddies are playing and others walk for cakes, 500 pounds of boned beef will be slowly cooking in a nearby pit. Volunteers from the Early Risers and Noon Lions, Rotary Club and other tennis court supporters will serve the barbecued beef meal from 4:30 until

Tickets for the barbecue are \$3 for

organizations are selling tickets in advance and tickets will be on sale at the

Then at 8 p.m. all area square dancers are invited to "square 'em up" for three hours of dancing to Cliff Smith's calling. Admission to the dance will be a donation at the door. Spectators are

Shortstop Strikes Blow For 'Girls Lib'

By ANDY ROGERS

Please don't anybody say, "You've come a long way, baby!'

Charla Pace is 11-years old, and has probably never heard of Gloria Steinem or the Equal Rights Amendment. Charla likes to play baseball, not carry pickets. She's the first girl to play in the Littlefield Little League.

Charla has started two games at shortstop for Carlisle-Oldham in the minor league. In her first game, C-O assistant coach Robert Moore said she made only one fielding error, and did everything else "just fine." In her second game, against Leader-News Monday, Charla cracked a single to get one of her team's two hits.

Appraising her baseball ability, Moore says, "While a lot of our guys get excited and lose their head out on the field, Charla thinks all the time and few mental errors. Of course, she's 11, and most of the boys are nine or 10. so that makes some differences. She's probably the best thrower on the team for accuracy, but a little slow with the bat. Overall, she's just real consistent."

Carlisle-Oldham has suffered through a lackluster 4-7 season, including losses in their last five games. A big part of their problem is losing players. Two were drafted into the major league, and two more left the team following an argument with Coach Arthur McLelland. That left the team with only nine players, one at each position and no

So one afternoon after practice,

McLelland called all the boys around for a team meeting. Charla's brother Brian is catcher for the team, so she had come

to some of the practices just to help out. "I saw her standing off to the side," recalls Moore, "and to be quite honest I just assumed she was a boy. I knew she could hit and field pretty well, so I asked her how old she was."

Charla replied, "Eleven," and Moore asked her why she didn't play on a team. "I don't know", she said, and McLelland told her if she wanted to play they'd get her on the team. Charla got permission from her mom, and the Littlefield Little League sex barrier was broken.

Of course, a girl on a Little League team is far from a novelty. In other parts of the country, particularly New England, girls have been socking homers and striking out with the boys for several years. But it is new here.

McLelland went to the local Leagu president and found it was legal. Unfortunately, Charla and Brian left for a family reunion Wednesday and Carlisle-Oldham had to play their game against VFW Thursday shorthanded. But they have games this Tuesday and Friday, and Charla will have two more chances to strike a blow for "Girls Lib," and her

How do the boys feel about the weaker sex violating the sacred shrines of the ballpark? Well, it was probably put best by C-O third baseman Orvil Haynes. When asked if he would mind other girls on his team, he didn't hesitate a second in replying, "Not if they were as good as

CHARLA PACE gets a little batting instruction from Coach Arthur McLelland prior to Carlisle-Oldham's game against Leader-News last week. Charla plays shortstop on C-O, and is the only girl playing Little League baseball in Littlefield this year. McLelland says he would like Charla on his team again next year, providing she isn't drafted into the major leagues.

Park Endangering Little

Mothers of small children are very concerned over the danger of broken beer bottles around the play ground equipment in Crescent Park.

One mother said she didn't know what would have happened to her little boy if she hadn't preceeded him down the slide and hadn't been wearing shoes. In addition to large chunks of broken glass at the bottom of the slide, she said she picked up sharp, broken chunks of glass around the merry-go-round and swings.

Mothers are appealing to citizens not to break glass in the park. Crescent Park is regularly visited by small children. Little hands, feet and eyes could be seriously injured by thoughtless glass breakage.

Throwing trash and littering public property can carry a penalty of up to \$200. But more important, what is the value of a little child's eye or limb?

C-CA Leadership Seminar Set In Willie Room

The Chamber of Commerce and Agriculture-sponsored leadership seminar will be conducted in the Willie Room of the Lamb County Electric Cooperative Tuesday, June 24th.

The seminar will be from 7 to 10 p.m. with a voluntary basics clinic from 2 to 4 p.m. for those attending the night seminar.

Roy Faubian of Hereford will conduct the seminar.

Faubion said the community leadership workshop is not a how to sell, nor is it a live more successfully school. It is created to help individuals understand the methods of being in any type of club, church, civic, or governmental agency at any level.

"If a person wants to be effective in improving life in his or her community, this is the first step," he said.

Price for the seminar is \$10. Fun, Adventure Maps Available

Travel information may be obtained on towns and attractions located throughout West Texas through the Tourist and Travel Development See MAPS, Page 4

Additional information and tickets for the seminar may be obtained by contacting Bill Adams at the Littlefield Chamber of Commerce. Businesses, churches, club and non-profit organizations will benefit from this.

PO Box Rentals Increasing Beginning Here On July

Post office box rentals go up drastically here as elsewhere on July 1, say U.S. Postal Service officials.

In addition, rental collection will be made on a semi-annual basis in June and December.

Customers here were notified June 11th that the new rates go into effect as of July 1, and as always, post office box rent must be paid in advance.

New rates for the letter size has increased from \$5.80 to \$11; for the next larger size from \$7.20 to \$13; for the bigger box from \$10.80 to \$15, and the drawers from \$16 to \$25.

The like is attributed to "inflation in the postal service just like everywhere else." The increases are because the postal service consider the boxes to be premium service for the conveniences of customers in towns which do not have home delivery.

In addition to mail being put up in boxes on Sundays and holidays, local boxes are worked "as needed" in addition to the incoming mail delivery at 8:30 a.m.

and looked over developments that have occurred in other towns.

Arthur Summers Delinting Plant on the Spade Highway reported the theft of about \$500 worth of gas and equipment during two incidents Sunday and

Wednesday. On Sunday 75 to 100 gallons of gasoline were reported stolen. Wednesday night two log chains, a number of wrenches

and four sets of flairs were taken. A vandalism report from the Gulf Service Station on 385 showed two broken display windows shot out by a .22 calibre gun. The damage was estimated at \$100.

Officers Jail 4, Record Offenses F. L. Newton reported criminal mischief after neon lights at his business on E. 10th were broken with beer bottles.

> Damage was estimated at \$100. Jesus Morales of 924 W. 6th reported a briefcase and college books valued at \$100 were taken from his car.

Ken Howard at the Texaco station in Amherst reported two broken door windows. Two dollars in change, an unknown number of cigarettes and a box of frozen fudge bars were taken.

the bride's.

The flower girl was Michele given in marriage by her father. Gage, sister of the groom. She wore a floor-length dress of

Randy Miller of Amherst low neckline, with fitted lace served as the best man. Groomsman was Steve Gage of Littlefield, brother of the groom.

Ushers were Pat Smiley, brother-in-law of the bride, of San Antonio, and Tim Gage, brother of the groom of

Providing the nupital music was Ray Dunn, and Kyle Howell, accompanied at the piano by Rita McKinney of Littlefield. "We've Only Just Begun", the "Lord's Prayer" and "Twelfth of Never" were

The bride wore the traditional blue garter-borrowed from her sister, Becky Dunn.

Pennies of the date of birth of both were placed in her shoe by her father. For "something old" she carried a pure linen handkerchief of her late greatgrandmother Broaddus, given to her by her Aunt, Lois Pruit of Amarillo. "Something new" was her wedding dress.

Following the ceremony, a reception was held in the parlor of the church, with bride and groom and their wedding party greeting friends and relatives.

The four-tiered wedding cake was decorated with yellow and pink roses, topped with a bride and groom, and bells surrounded by yellow lace.

The cake was made by Donna Black of Spade, friend of the family. The bride's bouquet served as a centerpiece for the serving table, which was laid in white lace over yellow, a long skirted cloth. The cake, punch, nuts and mints were served to the guests by sisters of the bride, Mrs. Ray Dunn of Lubbock and

Mrs. Pat Smiley of San Antonio. The groom's table was laid with a pure linen cloth from England. Centering it was a German chocolate heart-shaped cake. A picture of the bride in her wedding dress was placed on the table, as a gift to the groom from the bride's parents. Serving at this table was Mrs. Tom

SoRelle of Littlefield. Mrs. Broaddus, mother of the bride, wore a floor-length dress of pink and yellow flowered eyelet with pink accessories.

The groom's mother wore a floor-length yellow dress with yellow accessories. Both wore matching rose corsages.

Miss Cindy Drake, friend of the bride, registered the guests. The bride is a 1975 graduate of Littlefield High School, and the groom is a '74 graduate of Amherst High School.

The bride and groom plan to live in Lubbock where the groom is presently employed at Pioneer Natural Gas.

Serving as the house party were friends of the family. Mmes. Robert Richards, Bruce Reagan, Miss Charlene Smiley, Mrs. Olan J. Horn of Amarillo, Pat Smiley, Ray Dunn, Mrs. Tom SoRelle, Dallas McCurry, Amos Ward, Rita McKinney and Cindy Drake.

Jan Sisson Wins UIL Solo

Major Bills Outlined

The workload of the 64th session was greater than any in Texas history. There were 3,540 House and Senate bills and resolutions introduced. This took more time in committee hearings and more floor debate than ever before. The last week in May nearly 100 hours were spent in floor debate. That week three nights lasted until after two a.m. and one night until after three a.m.

Of the 3,540 measures introduced, only 766 were finally approved and sent to the Governor for his signature.

Besides the unusually heavy workload, this session set several records which will be noted in the annals of Texas history. It was the first time in over 30 years the House sat as a committee of the whole to debate an issue, the first time a black person and a Republican had served as committee chairman, the first time in modern history that the Lieutenant Governor or the Speaker did not live in the Capitol, the first time in a great number of years the House conducted impeachment hearings, the first time all House members participated in the appropriations process, and the first time that can be remembered where harmony between the Governor, Lt. Governor and Speaker prevailed throughout the session.

Four persons were jailed by county authorities the last part of the week. Two aliens were turned over to border patrol authorities; a Littlefield man was fined \$150 plus court cost and given 10 days in jail probated six months on a guilty plea to a DWI charge. A 16-yearold was charged with theft of merchandise from Pat's Record Center.

the option to relinquish control over electric, water and sewer rates. Gas rates for rural areas will be controlled by the Railroad Commission and cities could give their control of gas rates to them in two years.

2. Mobile home regulation- tight regulation of manufacturing, sales and installation.

3. Uniform standards for health and accident insurance policies written in clear and simple language.

1. Creation of Health Maintenance Organizations- members of an organization will be provided with a full range of medical services, including check-ups and hospitalization, at a fixed fee similar to insurance premiums.

2. Creation of a Texas Health Facilities Commission to regulate hospital and health care facilities construction and enlarge the State Board of Health.

Malpractice insurance regulation blue ribbon committee will make an indepth study of all aspects of the malpractice crisis for the Legislature to study in 1977. It will require all liability insurance companies to contribute to a joint underwriting association and will require state insurance board approval of rates on both high-risk and conventional malpractice insurance.

4. Practice of medicine in rural areas- 20 percent of students admitted each year into state-supported medical schools are obligated to practice medicine in rural areas of the state for at least four years. ELECTIONS

1. Permanent voter registration system- designed to eliminate the

names of those no longer eligible to vote. 2. Presidential Primary- in 1976 election 75 percent of delegates to Democratic Convention will be elected by primary while 25 percent will be

selected by state party conventions. 3. Elections days will be held on only four days a year.

4. Campaign disclosure lawsrevisions which make requirements of public officials easier to comply with and understand

5. Voting materials- provisions for bilingual registration and voting materials in counties where 5 percent of the population is Mexican-American.

1. Continuation of Governor's Energy Advisory Council and Advisory Committee- funded to study and recommend action on energy-related matters

affecting the state. 2. Sale of natural gas- prohibited to sell natural gas on state-owned lands out of state except by permission from the Railroad Commission.

3. Geothermal energy— authorization to the Railroad Commission to conduct geothermal exploration on state-owned

4. Conservation in buildings-provide for development of improved design, lighting, insulation and architectural standards to promote efficient energy use in state buildings, including buildings of state-supported institutions of higher learning. ENVIRONMENT

1. Strip mining- Railroad Commission given authority to regulate methods of strip mining and reclamation for coal, lignite and uranium.

2. Oil spill- creation of a \$5 million revolving fund for cleaning up oil spills in coastal waters.

3. Land subsidence—authorization for Gulf Coast Waste Disposal Authority to begin land subsidence control planning in Harris and Galveston counties. AGRICULTURE

1. Open space land assessmentconducted on basis of its productive capability rather than market value affected by speculative land prices. Passage is subject to approval of the revised constitution this November.

2. Prohibition of state agency and institution use of foreign beef.

3. Prohibition of state agency and institution use of foreign dairy products. 4. Tax exemption— certain agricultural machinery and equipment exempted from the sales tax.

5. Registration of cotton buyers- no person may purchase cotton from a producer without first being registered with the Commissioner of Agriculture.

6. Regulation of pesticides- requires registration of pesticides, licensing of dealers, certification of persons applying pesticides and restricting use of certain herbicides under certain con ditions. WATER

1. Water development— a con stitutional amendment to be approved by voters this fall that would increase the State Water Development Board bonding authority from \$400 million to \$800 million. It would prohibit the use of funds for importation of water from the Mississippi River for irrigation.

2. Protection of Edwards Acquiferpublic hearings required annually to receive evidence of pollution in the

STATE EMPLOYEES

1. Pay boost to state employees.

2. Increase in retirement benefits for retired teachers and state employees. 3. Legislative pay raise from \$400 to \$600 a month and increasing living allowances per diem while in session

from \$12 to \$30 a day. 4. Allowing other pay raises for state employees in 1976 and 1977.

1. Rape- revision in rape laws which will now make it easier to prosecute rapists by restricting questions about the victim's sex life and allowing prosecution for implied as well as expressed threats toward the victim.

2. Increase membership of Texas Youth Council.

3. Parole commissioners - add six and authorize to speed the screening process for prison inmates eligible for parole.

4. Child care- create licensing division in the Department of Public Welfare for the purpose of regulating child care institutions.

Discrimination— repeal previous laws which call for the separation of black and white prisoners. 6. Senior citizens- creation of a

council for the needs of the elderly. 7. Smoking-prohibition of smoking in

certain public places. 8. Community development actprovides for decent housing and suitable living environments in cities.

MISCELLANEOUS 1. General Appropriations- \$12.1 billion bill to finance state government

operations the next two years. 2. Reapportionment- change legislative districts into single-member

3. Taxes- decrease in state taxes by \$2.2 million 4. Vending machines- regulation of

vending machine industry. 5. Penal code- adjustments in penal code which will limit honorariums for legislators to \$250 during the interim and prohibit a legislator from excepting them during the session and holding fundraisers 30 days prior to a regular

6. Mass transportation- place the Mass Transportation Authority within the Highway Department and allow 60 percent of the transit fund to be given to the state's six largest cities. \$31 million was appropriated for mass transit planning.

7. Superport- procedures for state licensing of an offshore superport for unloading of oil on Texas coastlines.

paid legal services.

9. Speed limit- extension of 55 mph speed limit.

8. Legal services- providing for pre-

THE ABUNDANT LIFE

Seek The Facts

IT IS IMPORTANT that we "seek the facts". Whether we are thinking about

our essentially personal life, or about

the broader areas of justified concern;

This is not always easy, but, in the

long run, it is easier to get the facts than

it is to stumble along with incorrect

WE DON'T ALWAYS KNOW what to

believe about some things which con-

cern us, and we may not be able to make

an accurate determination about some

Nevertheless, we must never become

discouraged to the extent that we give

up. Yes, there will be some frustrations;

but we must never permit these to cause

indifference or any other lessening of

our determination to "seek the facts".

WE MUST BE WILLING to accept the

facts, and handle them to the very best

of our ability. This may be difficult

sometimes, but it is something very

esstential to our well-being. It is ex-

tremely important that we be just as

wise as possible in handling the facts we

"Facts that are not frankly faced have

WE MAY NOT BE ABLE to do

anything about the facts, in some in

stances, except to include them in our

accumulated knowledge. We may not

even like what we have learned, and

Of course, at some later time, we may

be able to take the indicated action.

may have to act as if we do not know.

marked with a pink ribbon which formed a bow in the back. They wore gardenias in their hair and carried a lighted pink taper mounted in greenery accented with a gardenia and

Kenneth Wiseman of Sudan served his son as best man. Groomsmen were Bill Chapman of Muleshoe and Mark Fugate of Plainview. Ushers were Jerry Price and Kevin May, both of Sudan, Tim Farrell of Arlington and Cris Beck, brother of the

bride from Friona. Candlelighters were Tim Ferrell of Arlington and Chris Beck, Friona.

The bride's mother wore a floor-length pastel pink dress with long sleeves and an empire waistline accented with em broidered lace. She wore a corsage of pink roses.

Following the ceremony, a reception was held in the home of Mr. and Mrs. Howard Fleming. The table was covered with a white lace cloth with scalloped edges accented at corners with nosegays of pink roses. A bouquet of pink and white spring flowers centered the table setting. Silver can delabras, crystal and silver appointments and a tiered cake decorated with cascading pink roses completed the table setting. Those in the houseparty were Terri Miller, Susan Martin and Jeanie Thompson. Cake and punch were served to guests.

Bruce Fleming, son of Mr. and Howard Fleming, distributed rice bags.

Following a wedding trip to Santa Fe, N.M., the couple will reside in College Station. For her wedding trip, the bride chose a white eyelet pantsuit.

The bride is a graduate of Friona High School and Texas Tech University in Lubbock. The groom is a senior students at Texas A&M University studying entomology.

The rehearsal dinner, held at the Parmer House Restaurant, was hosted by the groom's parents, Mr. and Mrs. Kenneth Wiseman of Sudan.

The tables were covered with white cloths. The head table was centered with a bouquet of pink and white spring flowers. Several wood replicas of the bride and groom, carved by the uncle of the groom, the late Mr. Lenton Smith of Littlefield, were placed on the other tables. special guests other than the wedding party were Mr. and Mrs. Howard Fleming of Friona, Mr. and Mrs. Frank Bartley of Levelland and Mrs. Rosa Ivy of Romayor, grandmother of the bride.

Aduddells To Be Honored

BULA- Mr. and Mrs. John Aduddell will be honored with a 50th wedding anniversary, in their home at 125 E. 25th in Littlefield, from 2 p.m. until 5

p.m. on Sunday, July 6th. Hostesses for the occasion will be their children and grandchildren, Mr. and Mrs. Jack Aduddell, Mr. and Mrs. Kirby Carrell, Mr. and Mrs. Ronny Barnes and Mr. and Mrs. Dewitt

The former Ann Reid and John Aduddell were married July 8th, 1925 in Clarendon.

They resided in Donley County until 1941, when they moved to the Bula community. He was engaged in farming until 1955, then moved to the Lazbuddie community and was in the grocery business. In 1970 they retired and moved to Littlefield.

All friends and relatives of the couple are invited to attend.

Metschke, who is 20 years of age, is a sergeant in the West German Army. He saved a few days leave from last year to combine with his annual time off making this American holiday

WERNER METSCHKE was a guest of honor Thursday at a Mexican dinner in the home of Mr. and Mrs. R. V. Allcorn and family. Guests included Mr. and and where they picked up Mrs. Archie Sorley and Cynthia, host family of the visitor, Vic Allcorn and Mrs. C. S. Silcott.

> RICKY LEE is back in Central Plains General Hospital in Plainview for more treatments.

> OUT-OF-TOWN guests at the First United Methodist Church Sunday were Heli Jarvinen of Finland, Clara Jeffcoat of Lockney and Cory Bonden of Portales, N.M. The three year olds were the only group at First Baptist Church Bible School to be 100 percent in attendance last week. Members of this class are: Anthony Cole, Barry Eby, Coby Livesay, Londi Smith, Kamber Carson, Justin Chaney, Cammy Hancock, Tiffanee Chaney and Flint Griffin. Mrs. Betty Eby, Mrs. Sue Peters and Gary Cross were their teachers.

> THE HAT was passed Sunday at Main Street Church of Christ for all who wanted to contribute to the purchasing of Bus no. 2. The second bus is due to arrive in Olton June 22nd.

Ellen Williams Shower Honoree

SUDAN- Ellen Williams, bride-elect of Johnnie Bates, was honored with a lingerie shower Thursday night, June 12 at the home of Mrs. Nan Mc-Mahan, 5426 6th Street, Lub bock.

Cake and punch were served to approximately 20 guests from a table covered with a white linen cloth, and centered with a white frosted cake topped with a miniature bride and groom. The cake was flanked by yellow tapers in silver candlesticks.

Special guests were the prospective groom's mother, Mrs. Leona Bates of Levelland; the bride-elect's mother, Mrs. R. C. Williams of Sudan; prospective groom's sister, Linda Bates of Lubbock; bride elect's grandmother, Mrs. Jennie Petty of Littlefield and Mrs. R. E. Williams of Sudan; bride elect's sister-in-law, Mrs. Lynn Williams of Littlefield.

Also attending from Sudan were Mrs. Gordon E. Noble; and from Levelland, Eve and Trina Williams. Hostesses were: Mary Ann Garcia, Teresa Carlson and Nan McMahan. They presented individual gifts to the honoree.

DONOVAN HOWARD of Santa Ana, Calif., is the 7-Littlefield who will be decedent, and a copy of such delivering the Sunday petition to be served is here sermon at the Church of God referred to for a more particular in Christ (Holiness) Church showing of the nature of such here today at noon. The public is invited.

> Many cancers are curable if detected early. Take advantage of this fact. How? By taking some time once a year and getting a checkup Then you'll know how healthy you are. Then you'll know how to keep that way. How about starting right now? Today.

State Park Adds Reptile Exhibit

Desert State Park opened in favorite with children. Two Carlsbad, N.M., displaying its female black bears make their plants and animals, to the public, more than 160,000 per sons have visited the unique months old.

Most recent additions to the park are a reptile exhibit building and a walk-through

There are more than 5,000 varieties of cacti and succulent plants in the park, along with most of the mammals, birds and reptiles found in both arid and mountainous regions of the Southwest.

The bird exhibit contains 13 cages with walk-through areas allowing visitors to walk among the birds. Desert landscaping softens the already gentle lines of Spanish architecture used in construction.

The reptile exhibit has 11 dioramas, filled with creatures that give most people goosebumps. Rattlesnakes are the prominent, with diamondback, prairie, Guadalupe and rock rattlers being the most common. There are also iguanas, coachwhip snakes, Gila monsters, garter snakes and salamanders on

At the eastern end of the park, at the edge of a bluff overlooking Carlsbad and the Pecos River Valley, the hooved animals are housed. They include American bison, or buffalo, kudu, elk, and javalina, a wild pig native to this part of the nation.

The park provides an excellent frame for two worldrenowned collections of cacti. The famed Charlie Mieg collection, valued at over \$150,000, belongs to the park as does the smaller John Blea collection from Roswell, N.M. The Mieg cacti came here from Phoenix, Ariz

Among the 5,000 varieties are a couple of boogum trees from ployees and would be much the Baja Peninsula in Mexico. The odd-looking plants seem to to reach while providing much be one of Mother Nature's goofs because they look more like a The new office telephone long tap root growing up from number is (area code) 806-795the ground than they do a tree.

Fragile organ pipe cactus, The Lubbock field office services about 7,100 taxpayer joshua trees, centurey plants take passer and out accounts in the following and giant saguaro stand like the free throw shooter in Counties: Bailey, Cochran, sentries along the park's many deliars. meand 10 year old division. Yoakum, Gaines, Dawson, trails, Tiny sand dollars, Terry, Hockley, Lamb, Hale, bishop's caps, living rocks and Lubbock, Lynn, Borden, Garza, other small plants hug the earth, Crosby, Floyd, Motley, Dickens, in contrast to their tall, upright

> Spraying fountains and cascades of water flowing into pools create a refreshing surprise to visitors at the desert

> Just below the administration building, schools of fish and turtles swim in a shallow fish

The nocturnal exhibit, a maze which tunnels under the park's surface, features special lighted exhibits of the sleeping quarters of small Southwestern animals.

Some of those included in the exhibit are a kit fox, raccoons, ring-tailed cats, badgers, porcupines and squirrels. Outsides the exhibit the animals can enter an exercise and fresh air pit straight from their dens. Visitors can see them from either location.

The otter pond is a favorite attraction at the park. The sleek acquatic clowns perform their antics to the delight of youngsters. The otters can be seen from three different levels: a window looking into their sleeping quarters, a window below water level and a window above the water line.

Another popular sight is the prairie dog town. The shrill whistle of the burrowing animals attracts visitors to their domain, where the little animals play hide-and-seek, popping up and down in their burrows.

Several varieties of animals were given to the park by the New Mexico Game and Fish Department, and others came in as gifts from private collections.

The park is owned by the State of New Mexico but is managed for the state by the City of Carlsbad, under special con-

It is located on a high hill just northwest of Carlsbad on U.S. Highway 285. The park is open seven days a week. With the new lighting system, the visitors can view all exhibits in the late evening hours.

The park property was donated to the state by Neil Wills and Bob Light of Carlsbad, who gave the state 360 acres. An additional 760 acres were deeded to the park by Eddy County as a buffer zone and for a picnic area.

ROTARY'S FERNANDO SANCHEZ takes off for first base after nailing a hit to leftfield. Rotary lost the major league game to Lions, 7-6. (Staff Photo)

Allcorn Signs Track Letter

A former Amarillo High sprint star and an Olton High champion pole vaulter are the newest recruits for the 1976 South Plains College track team.

Clint Ramsey, SPC track coach, has signed sprinter Everrett Gardner and vaulter Bryan Allcorn to letters-ofintent. Gardner, who will be a transfer from McNeese State of Lake Charles, La., is a 1974 graduate of Amarillo High. He has career bests of 9.7 in the 100yard dash, 22.0 in the 220 and 49.5 in the 440. He also has a 21foot, seven-inch mark in the long jump to his credit. In addition to the sprints, he will compete on both the 440 and mile relay

teams for the Texans. Allcorn is the District 3AA pole vault champion this year. He also finished in second place in the regional pole vault competition. He has a career best vault of 13 feet, six inches. Besides the pole vault, Allcorn also will compete in the decathlon for SPC.

Minor League Slugfest

got into it Tuesday night, and when the dust cleared the Veterans had won the minor league slugfest 20-16.

VFW had nine scores in the first two innings, but the Electric 14-3. Bankers came up with 10 to take the lead. The score leveled out after three periods to 15-15, but the Veterans drove home five more in the fourth and played good defense against their opponents to win it.

Joshua Rangel, Eric DeMoss and Walker Brooks led the winners with two singles each. Winning pitcher Billy Guthrie joined teammates Steven Tisdale, Steven Raney and Phil Terry by cracking singles.

Eric Fleming and Cliff Davis slapped two singles each for the Bankers. Randy Schaeffer slugged a double, and Chris Ayala and Jimmy Ratliff notched singles.

ELECTRIC 3

Rotary won their fourth game 12 of the season Tuesday by erupting for 10 first inning runs and going on to sizzle Lamb Co.

Ramon Perea limited the Electricians to just six hits in picking up the win. Robert Flores spearheaded the of fensive attack by slashing a triple and a double. Pat Torres Orville Haynes smashed belted a double and single, David Guajardo doubled, and singled Rosendo Aguirre and Fausto Aguirre added singles.

Gerald Twitty popped two Sexton came up with a double, and Randy McCarty, Kerry Rainbolt and Agnacio Davilla drilled singles.

ORVIL HAYNES of Carlisle-Oldham takes the throw from the catcher, but its too late. Raymond Sierra of Leader-News is already in to third with a stolen base. The action occurred Monday in a minor league outing which Leader-News won 17-11. (Staff Photo)

The Littlefield youth baseball program is one of the best anywhere, and the following poem by an unknown author best describes the philosophy of the recreational program which plays a big role in developing the participants into fine sportsmen and mature individuals.

JUST A LITTLE BOY

He stood at the plate with his heart pounding fast; The bases are loaded; the die has been cast.

Mom and Dad cannot help him; he stands all alone. A hit at this moment, would send the team home.

The ball nears the plate; he swings and he misses; There's groan from the crowd, with some boos and hisses. A thoughtless voice cries, "Strike out the bum." Tears fill his eyes; the game's no longer fun.

So open your heart and give him a break. For it's moments like this a man you can make.

Keep this in mind when you hear someone forget. He's just a little boy and not a man yet.

Mr. Farmer, join the one million farmers who are using Na-Churs Liquid Fertilizer for higher yields & greater profits

The Product

NA-CHURS Liquid Fertilizer is a product of modern research that is available in various formulations to meet the varying requirements of different crops in different soil conditions. NA CHURS is formulated by precise proportioning of exactly the right amounts of raw materials into a chemical reactor to produce a plant food with a pH of 6.8 to 7.0. NA-CHURS is homogenized to blend the nitrogen, phosphorus, potash and chelated trace elements into a neutral solution that is immediately available to plants and does not have to wait on moisture before the nutrients can be utilized. As much as 95% of the plant food is absorbed by the plants quickly and efficiently. NA-CHURS is a neutral, chlorine-free, complete solution that will not clog, rust, or corrode your equipment. NA-CHURS can be applied in the row at planting time or by spraying the crop at critical times during the growing season to meet the specific requirements of various crops. Application is simple and easy. Inexpensive kits are available for attachment to plant and cultivating equipment or foliar applications may be made with aerial sprayers or other conventional spraying equipment.

The Company

NA-CHURS Plant Food Company is the largest company of its kind devoted entirely to the manufacturing and marketing of liquid fertilizer in the United States and Canada. NA-CHURS has an organization of five plants and 250 distributing points and a field serving organization of more than 2,200 persons serving more than a million farmers throughout North

Research

From atomic research has come proof of the fast, efficient and almost total absorption of NA-CHURS Liquid Fertilizer brough foliar feeding. This was accomplished through the use of radioactive isotopes made available to NA-CHURS by the U.S. Atomic Energy Commission, Not only can plants absorb nutrients through the roots, but also through the foliage, the fruit, the twigs, the trunk, and even the flowers. Foliar feeding is the best controlled, most efficient, most economical method of applying fertilizer yet devised. As much as 95% of the plant food is absorbed by the Plant quickly and efficiently. Research data from Michigan State College shows that in sandy loam soil the foliar application was utilized 20 times as efficiently as in the soil application. In addition millions of gallons of NA-CHURS have been sold to progressive, profit-minded farmers across the United States, Canada, Central and South America. These farmers have proved to themselves through many housands of check strips that NA-CHURS will bring greater yields, better quality and early maturity to all their crops

Free Complete Soil Testing

Albert Martin

Muleshoe, Texas

272-4052

The basis of any fertilizer program is good soil test. One of the most comprehensive soil tests reports you have ever seen is furnished, without charge, by NA-CHURS. This is made in the NA-CHURS Laboratories with an atomic absorption spectrophotometer- a highly sophisticated and analytical devicewhich detects and measures amounts of metallic elements in

the soil samples from your farm. You will receive a report which includes an analysis of ph, calcium, magnesium, phosphorus, potassium, nitrate nitrogen, aluminum, magnesium, iron, sulphur, copper, zinc, boron, and water holding capacity, and specific recommendations from the NA-CHURS agronomists of nutrient formulas to balance out your soil. The NA-CHURS soil test report is designed to give you a fertilizer program for your fields that will bring you the best return per dollar invested. There is no way to grow perfect crops from imperfect soils.

Application

Row feeding at planting- NA-CHURS in-the-row and with the seed gets plants off to a vigorous start. Normally, a sprouting seed must rely on the plant food stored within the seed for the first several days after germination, or until the root system is formed well enough to take food from the soil. By using NA-CHURS in the row at planting time, you can give a balanced feeding of nitrogen, phosphorus and potash to the seed at once. The result is faster emergence, bigger root systems, and better utilization of fertilizer.

Foliar Feeding

With NA-CHURS as a foliar spray, applied at critical periods of growth, a small amount of fertilizer products significant gains in yields and in quality. Applied as a fine mist, NA-CHURS is absorbed immediately without having to travel from the ground up the stem or stalk to all parts of the plant. NA-CHURS foliar feeding is the best-controlled, most efficient and economical method of applying fertilizer. A foliar spray of NA-CHURS, even in small amounts per acre, not only feeds the plant quickly, but triggers a whole cycle of growth which makes the plant utilize more food and moisture from the soil. The plant and stems both absorb the fertilizer directly and are able to use a higher percentage of nitrogen, phosphate and potash compared with any other fertilizer. Absorption of NA-CHURS is fast and complete. As much as 95 percent of the liquid fertilizer applied to the plant is absorbed. The result is greater size, bigger yields, better quality and earlier maturity.

Na-Churs On The South Plains

NA-CHURS Liquid Fertilizer has been used by progressive farmers on the South Plains for about ten years. These farmers report increased yields and profits on all types of crops. In 1974 James R. Davis produced an average of 929 pounds of lint per acre on 830 acres of cotton in Gaines County by following the NA-CHURS fertilizer program. A Terry County farmer produced over 1,300 pounds of lint per acre with NA-CHURS. Almost 8,000 pounds of grain sorghum was reported by a NA-CHURS user in Hale County.

Contact Your Na-Churs Representative

You can obtain the benefits of the NA-CHURS fertilizer program by contacting your NA-CHURS representative. In addition to the free soil tests, you receive a 500 gallon on-farm storage tank and free delivery of fertilizer.

Kenneth Hanks 965-2471 Muleshoe, Texas

Pioneers Take Pee Wee Title Named Ats

Only one more night of games remain in the Littlefield Pee Wee league, and the Pioneers have the loop crown sewed up.

The Pioneers' only blemish of the year was a 12-12 tie to the Lions last week, and their record stands at a healthy 7-0-1. They met the Roadrunners Friday in the last regular game of the season, and they play the same team again Monday in a make-up game.

ROADRUNNERS 14. FIREBALLS 12

In a battle between the league cellar-dwellers, the Roadrun-

Seven Injured

The Texas Highway Patrol investigated 13 accidents on rural highways in Lamb County during the month of May, 1975, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in none killed and seven persons in jured.

The rural traffic accident summary for this county during the first five months of 1975 shows a total of 45 accidents resulting in one person killed and 25 persons injured.

NA-CHURS PLANT FOOD COMPANY

Is proud to announce that Albert Martin is a serving Bailey and Lamb Counties as Distric Manager.

Also, Kenneth Hanks is serving as a sales representative.

Hockley County Agent Jewel Robinson Retires

WHITHARRAL- Mrs. Jewel Patterson Robinson, Hockley County Extension Agent-Home Economics for 26 years, leaves that post Sept. 1, marking the end of a 33-year career with the Texas Agricultural Extension

Announcement of her retirement came from County Judge Gano Tubb and District Extension Agent Catherine Crawford.

Mrs. Robinson went to Hockley County in 1949 to take the post of what was then called home demonstration agent. Since then her leadership and educational work have extended over a wide range of home economics and 4-H areas. touching the lives of thousands of South Plains and Hockley County residents.

Jewel Eselene Patterson was born in Falls County, near Lott, Feb. 21, 1912, the daughter of Mr. and Mrs. C. W. Patterson.

She graduated from high school in Falls County, finishing third highest in her class of 1930. She attended Mary Hardin

receiving the B.S. degree in 1935. During her college career teacher in New Salem (Falls County) from 1933 to 1935.

Graduating from college in the post of home demonstration agent in McCulloch County the following January, and served there three years before transferring to Decatur as home demonstration agent for Wise County

Married in 1941, she left Extension Service, and in the following six years her three children were born. The two sons and one daughter- all now residing in the area, are James William, 32, of Levelland, Judy Jean Prothro, 31, also of Levelland, and Jerry Pat, 30, of Lubbock.

Mrs. Robinson returned to Extension Service work in 1948, this time as home demonstration agent for Dickens County. After 15 months she came to Hockley County to take agents these days, though, have the position she's held until now.

She continued her education while an Extension agent here, receiving the M.S. degree from Texas Tech University in 1963. A member of the Epsilon

Distinguished Service award the fruits of her labor. presented by the National Association of Extension Home Economists. She holds numerous honors of distinction, including being named in Who's Who of American Women, Who's Who in South and Southwest, and Who's Who of Texas.

Her leadership extends beyond her professional contributions. Memberships Mrs. Robinson holds include the South Plains Museum board, the Senior Citizens board, and the Day Care Center board, all in revealed. Levelland. She is a previous member of the Community Action board here.

Mrs. Robinson is a member of

years is Bill Taylor, county economic impact of more than Extension agent-agriculture. \$1 billion annually. Other Extension staff members here are Mrs. Linda S. Pittman, county Extension agent-home economics, Gary A. Stanford, assistant county Extension agent, and J. Edward Phillips, farm demonstration agent. Mrs. Helen Goodwin is Extension Service staff secretary.

"When I came to Levelland," Mrs. Robinson recalls, "the county was nearing the end of the oil boom. Agriculture was new jobs will be posted in changing into mechanization windows of local Texas Emthen, and the town had a ployment Commission offices. population of eight or nine thousand. Extension Service specific skills required by work was entirely with rural employers can be trained people, since at that time we through the Texas Start-Up were not allowed to work with Training program conducted by citizens in towns of 2,500 or more the Industrial Commission,

home demonstration clubs are program is already showing a concerned, was in rural areas return of four dollars for every where we had 15 such clubs. As one invested, and is provided at populations moved into towns no cost to the employer.

across the state, the Extension Service changed its policy and we were able to educate homemakers in urban areas as well."

Mrs. Robinson lists as one of her early accomplishments the increase in number of 4-H'ers in the county

"4-H club members here numbered 128 in 1949," she remembers. "We went to work with 4-H clubs in the schools and by 1950 we had nearly 500."

She recalls the days of housing shortages in the city with the oil boom and all. The town's population profile changed, she says, as people associated with the oil industry moved out. agriculture became more dominant, and later when surrounding counties went together to create South Plains Junior College.

Looking back over her 26 years here, the home economics eduator considers working with people as outstanding in her

"People here," she says, "have been so kind and Baylor College at Belton, responsive in every way. Commissioners court members with whom I have worked so she taught school as a primary closely over the years, organizations, businesses, schools and churches all have been so eager to help in August, Mrs. Robinson accepted achieving a better way of life for everyone

"The Extension Service depends on cooperation from all these people in carrying out education programs for youth and adults. I don't believe we have a better group of people anywhere than right here."

Mrs. Robinson feels that home economics education, as are all areas, are more complex today than when she began.

"Everything is more diver sified, so much more technical and efficient," she adds. "People are not willing to stop with just knowing the facts about how and when to do things, but why. I've been able to grow with Extension Service and have tried to keep up with these increasing demands. New to jump right in with much more grasp of the total area of work than they used to.'

As for the future, Mrs. Robinson plans to retire from Extension Service but not from Sigma Phi fraternity, the work. "She'll maintain part-Levelland resident received the time work in the city, and enjoy

TEXAS FIRST Jobs Available

More than 6,000 jobs have been identified through the TEXAS FIRST program in its first month of operation-50 per cent more than was projected for the entire year, Jim Harwell, executive director of the Texas Industrial Commission, has

"At this rate, we could expect to identify more than 15,000 new jobs and find the right workers the Rose Garden Club and the to fill them within the year in Austin Street Church of Christ. Texas," he told a Capitol news Her co-worker of more than 20 conference. "This will mean an

> "We believed all along, and it's now proven, that there were jobs out there, but no concerted effort was in effect to match the people with the jobs. We believed we could develop a system that would bring them together- and we have with over-whelming success."

Starting Monday, lists of these Prospective employes lacking Texas Education Agency and "So most of my work, as far as local learning institutions. This
