

30,000 ANNUAL PAYROLL

30,000-Head Feedlot Opening Announced

Littlefield Feeders, Inc. and Lamb County Chamber of Commerce and Agriculture announced the opening of a 30,000 head capacity cattle feedlot. Groundbreaking ceremonies

are set for the first week in December. The feed yard has been in the planning stage for almost two years and preliminary work has been underway for the past nine months.

Troy Armes, president of Littlefield Feeders, Inc., said a water and air permit is in hand, and the loan from the Houston Bank of Cooperatives is complete. Officers and directors are to

meet with contractors submitting bids next week, and building of the 30,000 head capacity lot is to begin in the very near future.

Armes is president, Paul D. Bennett is

vice president, Joe Montgomery is secretary. Directors are J. L. Marcum, Mike Carter, John D. Smith, Dale Walthall and Ed Fowler.

The first cattle will probably go into the lots in about nine months. "By that time we feel the grain and cattle market will be stabilized and we will be going into the venture at an excellent time," Armes said.

Mondell Mills is manager of the feed yard and Wayne Plowman is assistant general manager of the yard that will cover 100 acres of the 354-acre tract. The additional acreage leaves room for expansion. The feedlot will be five miles north and one west of Littlefield.

Mills estimates that the feedlot will employ 24 to 28 persons initially with an annual payroll of around \$200,000. Using the latest equipment and innovations, the yard will take cattle weighing 550 to 700 pounds and top them out at 1,050 to

1,100. The finished cattle will be shipped in truck load lots to points all over the nation.

Armes said the cooperative venture has 62 stockholders, with the biggest majority from Lamb County.

The yard will feed approximately 120 million pounds of grain on an annual basis and most of this grain will be grown in this area.

The custom feed yard will have some pens with joint owners and some with individual ownership. Mills said final plans are not complete, but feeding clubs and joint ventures will be encouraged.

The Littlefield Chamber of Commerce and Agriculture is spearheading the ground breaking ceremonies. Among other dignitaries will be Merl Rodgers, president of the Houston Bank of Cooperatives. Details will be announced at a later date.

A brother and sister team from the Earth-Springlake 4-H Club were honored as Gold Star Boy and Girl for 1973 during the Annual Lamb County 4-H Achievement Awards Banquet in the Littlefield Junior High School Cafeteria Saturday night.

They are Kent and Shelia Lewis, son and daughter of Mr. and Mrs. Thurman Lewis of Earth.

Theme for the event was "4-H Gets It All Together", and several other awards of recognition were presented along with year pins.

Serving as master of ceremonies was Jim Fields of the Sudan 4-H Club, and the mistress of ceremonies was Jennifer Templeton of the Earth-Springlake 4-H Club.

Glenn Branscum of the Earth-Springlake 4-H Club presented the welcome address following the recitation of the motto and pledge, led by Shannon Thomas of the Olton 4-H Club, and the invocation by Rodney Logsdon of the Littlefield 4-H.

Joe Foley of the Littlefield 4-H introduced the guests prior to the introduction of the guest speaker by Aubrey Pitts of the Pleasant Valley 4-H Club.

Special speaker for the night was Mrs. Catherine Crawford, District 2 Extension Agent. She is a native of Wheeler and graduated from Springlake-Earth High School. She is a former HD agent of Howard County, and challenged the 4-Hers "To be a winner."

"4-H has been designed to help you

develop for all areas of life," she stated. "It presents an opportunity to belong. In belonging, take pride in the activities your clubs sponsor. Belonging involves work, but we also hope it involves some fun."

"There are ways we might go in the near future. We can look around in our communities and do more for it. We can find more places to compete and help our fellow man," she continued.

"Some don't want to compete in the top places—they are content to accomplish the things they do in their own clubs. All club members are in the process of becoming something better," she emphasized.

She closed by stating, "4-H helps to see yourself—a doer, one who seeks to learn, one who sees a job to be done and sets out to do it. 4-H is belonging, learning, doing and being recognized for doing it."

Mrs. Lynn Bowerman introduced the Gold Star Girl.

"In presenting the Gold Star Award this year, we recognize a girl who has been a 4-H member for 8 years. She has carried and completed projects in foods and nutrition, clothing, leadership, lambs, beef, pigs, horse and public speaking.

"She has served her club as president and secretary and as a county council delegate. She has also served as second vice president of county council and district council delegate. Also, as a service, she has been a junior leader in foods and clothing.

"Some of the activities she has participated in include rally day, 4-H fair, state round-up, district elimination contest, stock shows, county and district food shows, awards banquet and dress revue.

"Special awards she has received include: swine, dairy foods, sheep, leadership and dress revue. She has won first at the county show, fourth at El Paso, reserve champion at the local show, 10th at Houston and reserve duroc at Houston.

"She also participates in many activities at Springlake-Earth School.

"These include FHA, student council, band, twirler and sweetheart, and homecoming queen.

"She is Shelia Lewis, daughter of Mr. and Mrs. Thurman Lewis of Earth.

Sheriff E. D. McNeese and deputies Homer McLarty and Wayne Cooper arrested Ramon Romero at his father's home in Sudan following a call from Medical Arts Hospital early Saturday that the stabbing victim had been pronounced dead on arrival.

The three officers arrested the dead man's brother and two material witnesses about 3:20 a.m. Saturday and brought Antonio Romero to the hospital for treatment of several knife cuts. Antonio Romero is the father of the dead man and the man charged with his death.

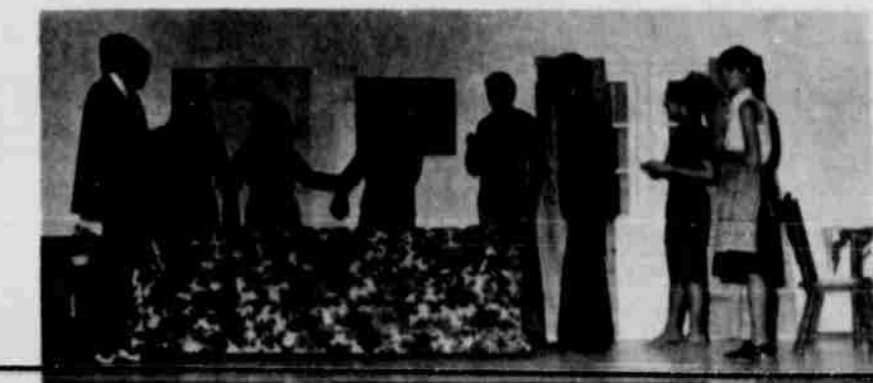

The victim died of a stab wound in the

Truck Driver Dead, Four Injured In Three Wrecks

One person is dead and four persons injured as the result of three separate vehicle wrecks in a 10-hour period Monday evening through early Tuesday morning.

D. Beasley, 34, was pronounced dead at the scene one mile and a half west of Sudan early Monday morning.

The crash victim apparently fell out of the wheel of the truck he was driving. The '72 vehicle was a mobile home moving truck owned by Wickes Inc. of Snyder, but the driver was staying at a house at the time of the wreck.

According to Highway Patrolman Ponder the driver was eastbound on U.S. 84 west of Sudan about 11 p.m. The truck driver apparently fell to sleep at the wheel. He drove into the median and traveled 257 feet after leaving the roadway.

The truck grazed a tree and went into a drainage depression and up the embankment where it traveled 94 feet before overturning on top when the nose of the truck struck ground. The truck rolled another 40 feet and overturned onto its wheels, traveled another 63 feet and overturned onto the top and back to rest after another 20 feet.

The cab was torn off the chassis and rolled 45 feet into the middle of the westbound traffic lane. The driver was ejected from the truck and the motor vehicle to rest on the victim's feet. The driver was pronounced dead at the scene by Stanley Doss, justice of peace.

At 1:20 a.m. Tuesday Thomas S. McGeehee of Clovis apparently went to sleep at the wheel of his station wagon while traveling west about four and one-half miles west of Littlefield on U.S. 84.

McGeehee drove off the roadway into the median, hit a culvert and traveled 36 feet before overturning one complete time. The vehicle traveled another 45 feet and came to rest on its wheels, according to Patrolman Ponder.

Both Mr. and Mrs. McGeehee were taken to the Littlefield Hospital by Hammons Ambulance.

The man's wife who was riding in the front passenger seat received four broken ribs. McGeehee was treated for cuts and abrasions. The station wagon was considered a total loss.

About 5:55 p.m. Monday, a small foreign car driven by 16-year-old Dean Arthur Langwiser of Los Alamitos, Calif., rolled once after he negotiated a slight curve one and one-half miles east of Sudan on U.S. 84.

The youth and his mother were traveling in the west bound lane. The car went off the road on the left side. Highway Patrolman Santiago Robles said the driver apparently over-reacted and jerked the car to the right. The vehicle went into the bar ditch and rolled once, stopping short of the railroad tracks.

Both the driver and his mother, Patti Jayne Langwiser, were taken to the Amherst hospital by Hammons Ambulance for treatment of leg injuries.

City To Reduce Energy Consumption

In order to comply with President Nixon's call for conservation of energy, the city of Littlefield will not conduct the annual Christmas lighting contest this year.

According to Bill Payne, executive vice president of the Chamber of Commerce and Agriculture, "We encourage persons to go ahead and decorate, but if they do use their lights, we ask them to turn them off early."

The downtown lights will go on and off with the street lights, but the larger "season's greetings" signs at the entrances to the city will be discontinued this year. "This will cut off approximately 2,000 bulbs burning throughout the night," Paynes stressed.

School To Get Tennis Courts

Tennis courts for the Littlefield school system may be a reality after Monday night's school board meeting.

They're not to be quality courts however, as donated backstops will be placed on the parking lot north of the Junior High building with improvements on the playing surface not anticipated for a "couple of years."

Junior High Principal Tommy Brawley reported to the board on the tennis courts and said, "while they won't be the best, they'll be 10,000 times better than what we have now....and that is nothing!"

The backstops are now behind the First Baptist Church, and with the donation by the church, the only stipulation is that the school take them down. The board gave their unanimous approval to the offer.

Mrs. Beatrice Walker was hired at a salary of \$300 per month to be cafeteria supervisor following the resignation of Mrs. Sandra Richards, Oct. 27. It was also noted that in the period between Oct. 22 to Nov. 9, the cafeteria served 3,551 paid meals and 8,571 free meals.

THE ABUNDANT LIFE Put It Off

IT IS SELF-EVIDENT that we cannot do everything that we may want to do, and that some of the things we decide to do cannot be done when we want to do them. Some things must be "put off" until another time.

It is just as obvious that we cannot always go just where we want to go, or when we would like to go. Therefore we must have some kind of priority arrangement, and what we do about this determines our quality of life.

THE DECISION IS MADE for us in some instances, and this is not necessarily undesirable. There will be obligations about which we have no choice, such as a job or some other binding responsibility.

These cannot be put off, but must have a fixed place in our priority arrangement.

IN OTHER FACETS OF LIFE, we must be deciding what to do now and what to "put off" until some other time. We determine the priority arrangement, and this is an aspect of living that we cannot afford to take lightly.

It must have the very best application of our most careful thinking and planning, because success in this part of living is not attained accidentally.

SOME THINGS WE DO are more important than other things, and there are times when conflicts occur. Some things must be "put off", and this requires a wise decision.

It must be our aim to "put first things first". Of course, we are not perfect and

HOMINY GRITS

WAL, I DON'T think this fuel shortage will work out as bad as I'd first thought. Really, I wasn't goin' much of any place anyhow. Not at 50 miles per hour, anyway.

So what to do, I may dream up some place to go. The heater in my car works better than the one in the house. Then, too, at 50 miles per, it'll take longer to get there I'll be spending more time in the car, with that heater.

I'M TRYING to get the feel of the idea of that 65 degree settin' on that thermostat. (Don't think it's calibrated right, anyway)—I just MAY make it!

Of course I'll have to light a couple of bathroom heaters, leave the burners going on the cook stove, plus puttin' bigger bulbs in the light fixtures. Oh yes, I've already put the electric blanket to work on the bed.

SOMEHOW OR OTHER, we've just got to tough this thing out!

I'M STILL WORKIN' on this hiway speed-limit thing. I'm tryin' to figure out whether an engine will burn more gas in less time, or less gas in more time.

F'instance, back in the forties, it took us around nine hours to make the trip to Ft. Worth. Average time now, is about five and one-half hours. A little difference of three and one-half hours.

THE OBVIOUS conclusion being: my

Turn Row COMMENTS

CAN ANY OF YOU readers remember when we in this area were able to go this late in the year without a killing freeze?

Some farmers are still defoliating their cotton and others are stripping their green and dumping the green bolls on the turning rows. Many farmers have stated that after the green bolls are dumped they pop open in about two days. All in all the weather and the prices have been rather good to most of us that are involved in agriculture.

The people in the U.S.D.A. Cotton Classing office is beginning to realize that we are having a rather good harvest, as the four offices in our area received approximately 20,000 samples Friday. This is the largest number of samples received any day this season, and this volume is expected to increase daily if favorable weather continues.

During the peak of the harvest this volume usually reaches 50,000 to 60,000 samples per day. Classers from other areas are being transferred to the local classing offices to take care of this increased volume.

The U.S.D.A. classing offices at Lubbock, Brownfield, Lamesa and Levelland classed 92,000 samples last week and had approximately 96,000 on

hand Friday afternoon. The classed so far this season now stands at 188,000. This is far ahead of the volume at this date last year when only 125,000 samples of the 1972 crop had been classed.

In general, the quality of the cotton harvested continued to be excellent. It is considerably higher than last year. Grades 31 and 41 continued to be predominant grades at Lubbock making up 72 percent of all classed. Grades 31 made up 32 percent, Grade 40 percent and grade 32, 12 percent.

Staples were predominantly 30 to 32. Forty-five percent had staple length 30 and shorter and the remaining percent staples 31 and longer. Average staple length was 31.2/32nds of an inch. Micronaire readings are an indication of fiber fineness or maturity. A high percent of all cotton tested at Lubbock had micronaire readings in premium range of 3.5 to 4.9.

The U.S.D.A. Marketing Service reported increased trading on the Lubbock market. Prices were \$20 per bale higher and averaged 34 cents per pound over the loan.

Mail-Early Dates

The Post Office has received notification that mail-early dates have been changed.

Christmas cards and other first class letter mail within the United States should be mailed by Dec. 8.

Airmail letters and parcels to Alaska and Hawaii should be placed in the mail by Dec. 14.

Airmail letters and parcels within all other states should be posted by Dec. 15.

International mail should be mailed at least two weeks earlier than deadlines originally suggested.

GIVING NAMES TO THINGS

Some stories will never die. One is that of the Garden of Eden. Here in this virgin beauty, Adam experienced something that seems to have made a "voice print" on all the human family. He experienced unlimited space; and he went about giving names to things.

Some primal memory, some vestigial reminder causes man—all men—to be eternally restless, and he never stops giving names to things... everything—his food, his children, even the winds that blow become Chinooks, or Northers, or Moriah. These ancient memories can be made productive: YOU can make the lives of others your garden; YOU can see men as members of your family and treat them as brothers; YOU can let the service you render give names to things like "generous love," "heartfelt compassion," and "Godly awe and reverence."

Sears, Roebuck Plays Role

In State Economy

The role played by Sears, Roebuck and Co. in the economy of Texas was told today by Allen Brady, manager of the company's catalog sales store here in Littlefield.

Brady said that Sears, the nation's largest retailer: *Buys merchandise from 416 suppliers in Texas. In 1972 alone the last full year for which figures are available—purchases from these suppliers totaled \$11,994,000.

*Employs more than 360,000 nationally, including 26,241 in Texas.

*Operates a total of 284 sales and service facilities in Texas including a large Catalog Merchandise Distribution Center in Dallas.

*Has 490,000 shareholders, including more than 24,632 in Texas.

"Nationally, as we begin our 88th year of operations, Sears has more than 20,000 individual suppliers," said Brady. "These suppliers are located in every state."

"Sears long-standing policy has been to buy goods from communities in which our sales units are located," he continued. "This directly benefits both the company and the local communities."

"While the number employed by Sears suppliers has not been compiled, it is obvious that hundreds of thousands are employed producing the merchandise we sell," he said. "This means continued employment and maintained purchasing

Planning Could Save Taxation

"This may be the year when many Texas farmers, ranchers and other agribusinessmen want to start on a tax sheltered retirement plan," says Bobby Brunson, County Extension Agent.

"Farmers and other self-employed individuals can take advantage of a 1962 Congressional law which extended the advantage of the same tax sheltered pensions and profit-sharing plans long enjoyed by corporate employees. They do this by enrolling in a self-employed retirement plan, commonly called a Keogh plan, that is available through many major banks, insurance companies and mutual funds."

Under the law, a self-employed person can set aside a certain portion of his income in a retirement fund. Earnings on the accumulated money are not taxable until the individual retires. Then the money may be taxed as a capital gain or ordinary income, depending on the method of withdrawal.

"The plan is completely voluntary and any self-employed person is eligible. Under the law, up to 10 per cent of earned income of \$2,500, whichever is less, can be invested each year in an approved retirement plan," notes Brunson.

For example, a farmer with a gross income of \$50,000 and \$20,000 expenses could defer about \$900 in taxes by putting \$2,500 into an approved retirement plan.

There are several retirement options a self-employed farmer can select depending on his situation. The con-

tribution to a retirement plan may be based on a fixed number of dollars per year or may be expressed as a certain percentage of net or gross farm income which would avoid a fixed dollar commitment each year.

"Before starting into a retirement plan, a person needs to file a proposal

with the Internal Revenue Service. The proposal names the individual to be covered under the plan, the investment schedule to be used and the proportion of earned income to be contributed to the fund," Brunson adds.

District Champs Ready For Bi-District Tilt

Littlefield's Wildcats have a deserved break this week, and they'll be using that time

working on the fundamentals. "We'll spend Wednesday, Thursday and Friday working out in pads," said Wildcat Head Coach Jerry Blakely, "and just try to improve our football team in the basic skills—blocking, tackling and other general areas. Monday we'll switch the emphasis to prepare for Floydada."

good number of those carries were quarterback sneaks. "The particular defense they were in made it difficult for us to run outside," Blakely explained, "but by the same token it was pretty vulnerable to the quarterback sneak. Fortunately, Bryson is a very good runner, and he was able to keep the offense moving by the use of the sneak."

"The first half went just about like we had hoped. We were able to control the ball (the Cats ran 34 plays to Olton's 19), and because of Olton's very explosive offense, we felt like we had to keep the ball as much as we could. In the second half, it was a complete turnaround, and they ran 31 plays to our 20. The fact that they could do that is a compliment to their coaches and their football team."

but Pat Henderson was limited to eight yards on seven carries. Ricky Richards (center) was probably our outstanding lineman, and we also had good games from our two guards, David Blevins and Skip Smith. Those three were largely responsible for blocking on our quarterback sneaks.

all played well in the secondary, and we also had good linebacker coverage and good pressure from the defensive

line. Our pass coverage containment of these comeback sweep were spots defensively."

Choir Parents Conduct Meet

The Littlefield Choir Parents met Tuesday night at the High School, and Bob Roden, vice president of the group, was in charge. Jan Sisson and Pam Parrot entertained with some selections they will use in the TMEA contest at Lubbock this coming Saturday. This will be try-outs for the All-Region Choir. Plans were made for the choir's annual bake sale which will be held in the Roden Drug building on Dec. 1, from 9 a.m. until 12 noon. Christmas concert will be Dec. 6 at 7:30 p.m. in the High School auditorium. The entire choir membership will participate in this presentation. It was learned that the Junior Honor Choir and the High School Choir will be combined in the upcoming semester.

Area Teams In Finale

Amherst, Sudan and Littlefield pulled out wins to lead area football teams in the next to last week of competition in the regular season. Littlefield is the only area squad that will advance to the state playoffs. The Cats will represent District 3-AA against Floydada Nov. 23. Amherst's win emphasized once more the turn-a-bout the Bulldogs have made in just one season: from 0-10 last year to 6-3 this season. But all the Bulldogs' losses were in loop play, and they lost all hope of a district championship when they fell to Matador. They host Whiteface tomorrow night, and the Antelopes are coming off a 20-14 decision over Wilson. Sudan's Hornets are also 6-3, and they take on the Kress Kangaroos next. It will be a home game for Sudan, and Kress is trying to recuperate from a 26-0 whitewash they received from Vega last week. Olton dipped one game under 500 with their loss to Littlefield, and are currently 4-5. A win tomorrow over the Dimmitt Bobcats would be a perfect ending to see-saw year, but Dimmitt is 6-3 and will be favored. Whittarral dropped their seventh game, and have only two wins to show for their season's work. The Panthers will have a chance to pick up their third win when they go to Wellman, a team coming off a 60-8 loss to Smyer. Springlake-Earth will face a toughie tomorrow when they go to Vega. Vega has a perfect 9-0 record, and they have already earned a spot in the state playoffs. The Wolverines are 2-7. Anton, now 2-7 also, meets Shallowater tomorrow, with an identical 2-7 mark. O'Donnell topped Shallowater last week 22-12.

LJHS Band To Play At Amherst

The Littlefield Junior High School Band will play at Amherst Friday night, and will serve as a portion of the cheering section for the Amherst Bulldogs. Gametime is 7:30 in Bulldog Stadium, when the Bulldogs face Whiteface. Mike Threadgill is director of the LJHS Band.

Posse Playday Slated Sunday

The Lamb County Sheriff's Posse will conduct its monthly open playday Sunday, Nov. 18, at the Sheriff's Posse Arena. Registration for all events will begin at 1 p.m. and the action will get underway at 1:30. The Arena is located near the Lamb County Show Barns, and spectators are invited to watch the sport free of charge.
