NUMBER 60

Birkelbach Heads Trustees, Band Assistant Approved

SCHOOL BOARD CIRCLE From left, F. L. Newton, newcomers Wayne Streety and Bob Roden, Werner Birkelbach, Administrators Sid Hopping and Paul I. Jones, Pat Downs, Jack Barton and ...

A re-organized Littlefield school board Monday night approved the employment of an assistant band director in a 6-1 vote. The move capped a meeting in which trustees also accepted resignations from three teachers, employed three new faculty members, adopted the school calendar and athletic budget for 1969-70 and named a tax equalization board.

In the board re-organization, Werner Birkelbach was named president to succeed Dr. Carl Nowlin and Pat Downs was chosen vice-president. Sid Hopping, school business manager, was named secretary.

Birkelbach recently was re-elected to the board along with Wayne Streety and Bob Roden. The two replaced Dr. Nowlin, who did not seek re-election, and Calvin Price.

IN THE DISCUSSION of naming an assistant band director, it was pointed out that Phil Anthony, present director, now has four bands totaling 362 students.

There are 116 in the Wildcat Band, 101 in the junior high band, 60 in the intermediate band and 85 in the beginners group.

Duties of the new assistant will be to work with the beginner and junior high bands, with Anthony overseeing the entire program.

The vote was 6-1, with Jack Barton casting his ballot against.

Employment of the new assistant is scheduled to take place in time for the 1969-70 school year.

Resignations were accepted from Mrs. Berniece Hall, fifth grade; Mrs. Doniece Jones, secondary math; and Mrs. Jonell Trees, high school typing.

Employed were Mr. and Mrs. Harry Ford of Olton and Joann Williams. Ford will teach high school math and Mrs. Ford and Mrs. Williams are employed for the elementary grades.

IN ADOPTING the new school calendar, the board also moved this year's dismissal date to May 27, when 175 days will have been completed.

The school calendar for 1969-70 includes the following dates:

- August 25-Mon.—General Faculty Meeting.
- August 26-27—Registration and Workshop.
- August 28-Thurs.—Classes Begin.
- September 1—Labor Day Holiday.
- September 2-Tues.—Classes Resume.
- October 10—First Reporting Period.
- November 12—Second Reporting Period.

TICKET SALES are now underway for the first annual Littlefield Band Booster Club Barbeque, to be held May 3 at Laguna Park. Tickets, \$1.75 for adults and \$1.00 for students, will be good for either of two servings: 11 a. m. to 2 p. m. or 5 p. m. to 7 p. m. Littlefield school bands will play concerts during the meals. Ticket chairman is Mrs. A. E. Foley. Phil Berry is Booster president and Wayne Butler is general barbeque chairman.

BAWCOM ONION CONTRACT

\$2.80 Guaranteed

Campbell Soup Co. announced Saturday that an agreement had been made with D. W. (Deb) Bawcom to supply 500,000 pounds of onions to this firm this year.

The onions will be grown on 25 acres and sold on a guaranteed price of \$2.80 per hundred.

This removes the traditional vegetable industry gamble on market price at harvest time.

Thousands of acres in Lamb County could be used for vegetable production. For the past several years vegetables produced in Lamb County have varied a great deal. In 1968 Lamb County had 6,000 acres of cucumbers, potatoes, onions and a few minor vegetables on small plots.

Marketing has always been the large factor to consider in this area.

The contract between Bawcom and Campbell's is a "test program," but if it works out well, it could lead expanded agreements with this company and production contracts with others.

A Campbell spokesman said the company's reluctance to talk about vegetable growing in the Littlefield area in the past was due to "a lack of history" in vegetable production here.

In addition to the 8,000 acres of vegetables grown in Lamb last year, another 30,000 acres of soybeans were grown.

This soybean acreage is the highest in recent history, primarily due to the late date of hail on cotton causing many acres of soybeans to be planted which otherwise would not have been. Average soybean yields were 25 bushels per acre, with a total gross value of \$2,562,000.

Another 3,000 acres of castor beans and other seed crops were planted in 1968.

Castor beans averaged 2,000 to 2,100 pounds per acre and sold for five to six cents per pound. Total gross value on the castor crop was \$378,000.

Lamb County irrigated acreage is 350,000 and there are 150,000 dryland See CONTRACT Page 4

INDUSTRIAL MEETING

Mineral Survey Pushed

Working up" on ideas already in here topped the discussion at world's "industry brainstorm" night in the district courtroom. About 200 persons were on hand for meeting, at which Mayor J. E. ...

in connection with the number of livestock in feedlots.

Minister Bob Weir set the stage for the evening, as he spoke to inspire community participation in the quest for industry.

C-C President Clayton said the Chamber "stands ready" to help in any way possible through its members, but he stated that Chamber funds are not sufficient for that organization to help in monetary ways.

Mayor Chisholm called for "unity" and introduced Shearer, who spoke on his training in industrial development at a recent school he attended at Texas A&M.

THE MAIN QUESTION asked throughout the night was "Where do we go from here?" and the main answer was to follow up on ideas for industrial potential as pointed out by Spencer in his study.

Shearer, in his report, said: "Industrial development means more than just building a factory or locating a warehouse. It means development of a community. A successful development program results not only in more jobs, with more payrolls, but it results, also, in improving the economic, social, religious, and civic life of a large group of people residing in the region," he said.

"Every citizen of a community—man, woman, and child, has a direct stake in industrial development. The housewife, the church, PTA, garden club members, and the civic leaders should all be interested in industrial development. For industrial development translated into community terms can mean better job opportunities, better schools, better streets, better police protection, and better services for all types of people that live in that town.

"Finally, industrial development helps the morale of the local citizens. A town which has for many years not attracted a new enterprise may find itself wondering just what is wrong. A whole community may develop an inferiority complex. Businessmen in the community may be reluctant to expand their own activities and to invest in new ventures.

"I do believe that the entire community structure of Littlefield has See INDUSTRY Page 13

Twelve Students Vie For Spelling Champion

Lamb County is one of the 23 counties in the area who will be competing for the 17th year in the Black Avalanche-Journal Spelling Bee. This year's county-wide bee will be held in the District Courtroom of Lamb County Courthouse at 1:30 p. m. on April 19, with County School Superintendent C. R. Stevens serving as judge.

In June to spell in the National Spelling Bee, and participate in sightseeing trips and visits with dignitaries.

Each county champion, including finalists, will receive a plaque from the Lubbock Avalanche-Journal. The plaques will become permanent possession of the winners.

All school champions will receive ball point pens and blue ribbons at the county bee Saturday.

Burglars Take Safe From Sudan Grocery

A safe containing about \$6,000 in cash and checks was taken by thieves from Lumpkin Grocery in Sudan late Saturday night or early Sunday morning.

The gray Gary safe contained approximately \$3,300 in cash, about \$500 of Gold Bond Stamps, \$1,500 in charge tickets, a check for \$105 made out to an employee, and a safety deposit key.

Entry was made by prying the front door.

Lamb County Sheriff E. D. McNeese and investigating officers V. L. Smith and Jerry Collins reported no new clues in the theft Wednesday.

In other police action, three Mexican Nationals were picked up near Littlefield Tuesday night. They are being held for the Border Patrol.

QUAIL SEASON HEARING SET

AUSTIN—A public hearing on the quail season in Lamb County will be held Monday, April 21, at 7:30 p. m. in the capitol building.

Two measures, House bills 21 and 558, are under consideration. The first leaves regulation of the season under the authority of the Parks and Wildlife Commission.

The second would give the Commissioners' Court authority to set the quail season in Lamb County.

State Rep. Bill Clayton said that anyone wishing to testify on either side of the issue may do so at the Monday hearing. Jack McLaughlin will be chairman of the meeting.

The hearing will be held before the Parks and Wildlife Commission in the old Supreme Court Room on the third floor of the capitol building.

LITTLEFIELD IN 1921:

More Horses Than Cars

By NILAH RODGERS
Leader-News Staff Writer

When Mrs. Molly (Mary Jane) Davis, her husband and family, came to Littlefield in 1921, there were hitching rails on the sod main street, more horses than cars, and very few people. "Most families had a car," Mrs. Davis said in her soft voice, "but only one," she added with a snicker.

"The post office was on Main in a little chug hole—when Roy Wade's uncle was postmaster. There were two brick buildings—Street and Street Mercantile, and another one, maybe it was the drygoods store. I remember buying dry goods from Mr. Brazil. And there were two hotels, the Littlefield Hotel and Smith's, and one school building."

Molly and Eddie M. Davis and their children moved to Littlefield from Coleman County and rented the Parker home where Katie Green lives now. The Davises attended Union Sunday School and community services in the Presbyterian Church on XIT Drive west of the present Security State Bank, until the Baptists organized their Sunday School upstairs in the red brick school house in '22.

The Davis family was present for the organizational meeting along with a few others, totaling about 18 persons.

MRS. MOLLY DAVIS is a charter member of the First Baptist Sunday School organized 47 years ago. Now 91 years young, she still attends Sunday School "almost all the time."

Spry, perfectly groomed, and gloved, she seldom misses a Sunday.

"Papa" Davis died during the 1923 flu epidemic, leaving Mrs. Davis and seven children.

Davis was farming east of town and had bought a school bus. Mrs. Davis and her two sons took over the farming. "I drove the tractor to plant part of the crop," Mrs. Davis said, "carrying my youngest daughter, Tommie Paul, on the tractor with me."

WHEN HER BOYS were busy in the field, her 14-year-old daughter Mae would drive the school bus. Busses were privately owned, and "Anyone could drive a bus then," Mrs. Davis said.

The next year Mrs. Davis moved back to town and has lived "right here in this house 28 years."

In Littlefield's early years the whole town would get together for ice cream suppers, Mrs. Davis said. "And we had Sunday school and church barbeque chicken picnics out at Phelps White Ranch. There were still buffalo on the ranch then."

Mrs. Davis laughed, recalling an early-day incident. "One Sunday afternoon we went to the ranch and there were several buffalo laying around in the shade. 'Tom Matthews' mother and I got out and stood by the buffalo while someone made our picture."

"When we got to the ranch house I asked Mr. White if the buffalo were dangerous. He said you never could tell what they would do, that there wasn't any dependency in them. We'd never have

Library Week

Your public library; how does it really stack up?

Texans support their public libraries to the tune of \$1.24 per capita per year; in California the figure is \$3.89; in Massachusetts it's \$4.61.

You might be interested to know that the Lamb County Library budget amounted to 24 cents per capita.

National Library Week in Texas (April 20-26) has set its purpose this year to call attention to the value of libraries in a free society, to note the essential need for books, magazines and other readily

available information in a world where the sum total of all human knowledge now doubles every seven years.

A public library cannot begin to meet the demands of this technological revolution unless it gets adequate support from the community it serves.

Citizens, children, student researchers are losing out when a public library is NOT up to standard. Your concern with society's lasting values is vividly reflected in the nature and condition of your own public library. How does it stack up?

"Gregory Peck is NOT old. He is in the prime of life and never has he looked as distinguished."

"Call it that if you wanna. Who's that old bag?"

"That happens to be Ingrid Bergman and a great beauty as well as a great actress."

"You kiddin?! Her? Where she been?"

"Well, she was a little indiscreet in her younger days and the United States didn't take kindly to it, so she lived abroad for years."

"Like she pulled a Liz Taylor and then couldn't take the heat?"

"Sort of, uh, I guess. Who's the blonde?"

"Jane Fonda. Whatzname's daughter?"

"It is too. She makes all those nudies in Europe."

"I got every single word. You deaf? If Sinatra'd croaked it, nobody'd gotten the tune! Oh, look at Vanessa Redgrave!"

"Who?"

"In the granny glasses."

"Is she blind, too?"

"They're the latest, the VERY. Oh, Aretha Franklin's singing soul style!"

"She's not singing, she's squealing. Sounds like the last night of a two week prayer meeting for rain."

"You're just mad because Sinatra didn't sing that, too. I hope Joanne Woodward doesn't get Best Actress."

"Why not? She's good."

"She's got Paul Newman and that's enough."

"Well, she didn't. It's a tie between Katherine Hepburn and Barbra Streisand. Who's Barbra Streisand?"

"Who's Katherine Hepburn?"

"She just happens to be one of the best actresses in Hollywood. This is her third Oscar."

"They musta been twenty years apart. Oh, look at Streisand!"

"Heavens, she forgot to put on her clothes!"

"Those are see-throughs and she's got on a bikini underneath."

"Well, her see-throughs hung on the step and she nearly fell and I wish she had. My soul, she's cross eyed!"

"She is not! She got an Oscar as much as that skinny, ugly, old hag!"

"Well, Hepburn got her THREE the hard way—she's always kept her clothes on."

"Oh, mother!"

"Henry Fonda wouldn't let his daughter do that!"

"Who asks him? Her husband's the director. Dig that fat Sinatra!"

"He is NOT fat. He's mature. You should have seen him when he was so skinny the microphone hid him."

"Why? Lost his voice, too. Can't hold his notes."

"Listen here, young lady, Frank Sinatra can still sing circles around any of those howling, yowling marons you kids swoon over now!"

"Swoon? Whazzat? Who's the dame with all the wrinkles in her neck?"

"That is Rosalind Russell and she's generous!"

"The one that played Natalie Wood's mother in 'Gypsy'?"

"Well, yes, I guess she did."

"Shhhhhh. Jose Feliciano's gonna sing."

"Isn't he the one that murdered The Star Spangled Banner last summer and got the whole nation upset?"

"He did NOT murder it. The only upset ones were pre-Civil war."

"What's he got on dark glasses for?"

"He's blind, stupid, from South America."

"Sounds like a pretty song. Too bad Sinatra didn't sing it so people could understand the words."

THE ABUNDANT LIFE

Fear Feelings

By BOB WEAR

FEAR IS A GROWING FEELING, and none of us are immune.

We admit that there are enough threats, uncertainties and perplexities to cause fear, but must hasten to suggest that we cannot afford much of this fear because it is unwholesome.

It is not the kind of fear that will help us to victorious action, but the kind that tyrannizes and devitalizes us.

GENERALLY SPEAKING, there are two kinds of fear—unwholesome and wholesome. Perhaps we can say that unwholesome fear is unjustified fear, and wholesome fear is justified fear; however, a justified fear becomes unwholesome if we react to it in the wrong way.

Someone has described unwholesome fear as the fear which teams up with feelings of guilt and hostility. Such fear comes from ignorance, prejudice, anxiety and such like.

UNWHOLESOME FEAR is the vicious product of doubt and despair. The only effective antidote for such fear is Christian faith.

The only source of strength and insight necessary to wise reaction to wholesome fear is also Christian faith.

WE MUST ELIMINATE unwholesome fear from our lives because it will make us completely inadequate for living. We must recognize wholesome fear for what it is and then act accordingly.

This is not the fear of cowardice, but is the fear that will make us cautious when caution is necessary. It will help preserve our lives and our character. It will call for safeguards against real dangers which threaten us and our children.

"FEAR IS IMPLANTED in us as a preservative from evil; but its duty, like that of other passions, is not to overbear reason, but to assist it. —It should not be permitted to tyrannize in the imagination, to raise phantoms of horror, or to beset life with supernumerary distresses." —Johnson.

THERE ARE MANY WAYS in which wholesome fear is helpful to us, and it is never harmful unless we make it so. The principle of such fear is well expressed in the following: "We must learn caution without losing confidence."

Unfortunately, there seems to be some inclination to pretend that there is nothing to fear.

Such pretending is dangerous to our well-being. The present-day methods of escape, so much in use by so many people, only compound the damaging effects of fear feelings.

These methods of escapism prevent our preparation to face real dangers.

WE MUST, WITH WISDOM, seek to identify our fears; and, with courage, admit our fears.

If they are unjustified, and many of them will be, we can dismiss them; if justified, and some of them are, we can let them serve useful purposes in our lives.

OUR JUSTIFIED FEARS can be the rallying forces necessary to fortify ourselves, and bring us to our senses. We must let them sober us and strengthen us for the challenge of living that cries out to us day and night.

"There is a virtuous fear which is the effect of faith." "This is the fear of prudential caution, whereby, from a due estimate of existing or approaching evil, we establish our security." —South.

It is the fear of wisdom, not the fear of cowardice. This will be the attitude of the sensible, courageous person.

WHOLESOME FEAR, to which we react wisely, is essential to a strong life and to the preservation of all that we hold dear.

What Our Readers Think

Interesting Eaves-Dropper

Dear Mrs. Rodgers,

I am so embarrassed that this is so delayed, but I do want to tell you that I appreciate the article you wrote about me for the paper. I realized I have not had such a really exciting, different life—in fact, quite ordinary—but I thought you did wonderfully well with it.

I always enjoy reading your articles about various people in our town. Some I have known personally and it is a pleasure to read the account of their lives. Being a "licensed eaves-dropper" must be interesting work!

PAUL HARVEY

Kept Slaves

PATRICK HENRY said, "Give me liberty or give me death." Patrick Henry kept slaves.

From here, looking back, that sounds inconsistent, hypocritical. George Washington kept slaves.

From here, looking back, the Father of His Country sounds un-American.

LET'S CONSIDER the rest of the story. And then let's try to anticipate what tomorrow's historians, looking back at us, might deduce.

George Washington's forebears came from Britain, settled in Virginia in 1658. His father died when George was 11, leaving the family very poor.

When George was 16, he, industrious and talented, was employed by Lord Fairfax to help survey the area lying between the Potomac and the Rappahannock Rivers and stretching across the Allegheny Mountains.

LATER GEORGE inherited his half-brother's estate at Mt. Vernon. When he married the beautiful young widow, Martha, her estate added to his at Mt. Vernon—made George Washington one of the wealthiest men in America.

He lived as a country gentleman, growing grain and tobacco and owning many slaves who were the source of much wealth and who were well cared for by their Christian owners.

GEORGE AND MARTHA must have talked often about the condition of many slaves in the country and deplored the power over human beings which ownership gave because they decided that on their deaths all their slaves should be liberated.

Sensitive, in an insensitive world, they feared that their slaves might

fall into inconsiderate or even hands and so should be freed.

WHY DIDN'T MARTHA George Washington liberate slaves right then and there?

Because Martha and George imperfect products of their age. It would take another hundred years to bring people to awareness of the evil of inhuman servitude.

THE SALVATION ARMY Alfred Gilliard recently recited quite a list of notable who behaved in the fashion, in the eyes of those came after them, without any apparent sense of guilt.

Indeed, the Old Testament filled with stories of great God who kept many concubines or who conducted their private lives in a manner which would scarcely be the test today.

BUT THEN Mr. Gilliard went to suggest that what we should do, instead of condemning others with our enlightened hindsight....

That what we should do is to search out our own moral spots. It may well be that tomorrow's historians may say why you and I were apparently unaware of our own transgressions.

HOW ABOUT AIR and pollution, cigarette smoking, drinking while driving, gambling, exploitation of youth's interests in drugs and sex. These are offenses against our free society. How much do we care about happens to them?

Will not someday's historians looking back, consider us inconsistent, hypocritical?

George Washington kept slaves. Don't we?

had our pictures made with them if we'd asked first."

MRS. DAVIS REMEMBERS a snow on the Fourth of July on a visit to the ranch in 1923. "We built a big bonfire and still nearly froze to death," she said. Sometimes all of the Davises would go to the ranch in the school bus for a family picnic.

At other times, the Davis children went swimming in the round metal tank on the demonstration farm near town, and ate fruit from the demonstration orchard.

The First Baptist Church building was a frame building bought from the Mennonites and moved in from west of town to the site of the present Baptist Church. "That building burned a year or two later," Mrs. Davis said. "Then they built the red brick."

The church was first organized in 1914, and Mrs. Davis remembers charter members Mrs. W. G. Street, J. T. Hatchett, C. Warhurst and Miss Hazel Warhurst. All of the charter members of the church are now deceased, and Mrs. Davis is the only Sunday school charter member in Littlefield.

SHE RECALLS SCHOOL teacher Josh Cogdill was the first mayor of Littlefield, and L. R. Crockett and J. M. Stokes were commissioners.

Mrs. Davis joined Order of Eastern Star in 1924. "I'm not a very good member any more," she said, "I can't go much now. We met on the third floor of the First National Bank for so many years and I was so glad to get it on the ground, and now I don't go very often."

Mrs. Davis' children are Mrs. Winnie Hogan, Littlefield; Mrs. Minnie Matthews, Burnett; Mae Porter, Farwell; Bobbie Faye Mitchell, Whitharral; Tommie Paul McCuen, Farwell; Troy Davis, San Angelo; and Roy Davis of Littlefield.

ATHLETIC BUDGET for 1969-70 includes recommended expenditures of \$21,148. In comparison with approved disbursements for 1968-69, the new budget is down about \$700.

Receipts for 1969-70 are expected to be \$14,000 from football, \$1,000 from basketball, \$5,788 subsidy from the maintenance fund, and \$360 from insurance fees. The anticipated total is \$21,148.

Named to the tax equalization board, subject to their acceptance, were I. D. Onstead, James Cook, Don Joyner and Floyd Coffman. The board is scheduled to meet July 14.

Also included in the meeting was a canvass of the April 5 school election, which showed Birkelbach, Roden and Streety the winners over Paul Yarbrough, David Hampton, Calvin Price and John Clayton III.

The outgoing president, Dr. Nowlin, was presented an engraved lighter in gratitude for his nine years' service on the board.

acres. There are 157,280 additional idle or in rangeland.

With a plentiful supply of promised, this gives a fair indication of the prospects Lamb County has becoming part of the bread basket of the world.

This is a list of vegetables produced in Lamb County last year and the production forecast for the 1969 crop:

VEGETABLE	1968
Dry beans	1,200
Cantaloupes	100
Cucumbers	700
Onions	200
Black-eyed peas	2,500
Irish potatoes	400
Sweet corn	400
Tomatoes	100
Watermelons	150

Cancer Drive

Cancer Crusade volunteers collected \$915.03 Tuesday night in their Littlefield house to house drive, according to Rhea Bradley, house to house chairman.

The drive was not completed. Donations were still coming in at 10 p.m. Wednesday.

Mrs. Eloise Cox, chairman of Littlefield business drive, stated that she is still striving to meet the quota that about three-quarters of the drive have been turned in since the drive began April 8.

The overall county goal has been set at 8,000, according to Mrs. Edna Mangum, Lamb County Chairman.

Other chairmen are Mrs. Gail Demel of P. P.; Mrs. John Entice Amherst; Melvin Rape of Olton; Mrs. Brown of Sudan; Mrs. Thurman of Springlake-Earth; and Mrs. Jerry Padgett of Spade.

City Police Investigate Four Wrecks

City patrolmen have been kept busy investigating wrecks this week.

Saturday night, a 1960 Ford Sedan, driven by Billy Lester Orr, began to pass a 1964 Ford sedan, driven by Minnie Lee Willard, when she started to make a left turn and clipped the rear of the Orr vehicle, according to the investigating officer's report.

Sunday afternoon a 1962 GMC pickup, driven by August Samuel Clark of Littlefield, was traveling south on Duggan Street when a 1965 Ford Mustang, driven by Pamela Del Stafford of Littlefield, was traveling on 14th Street and cut a corner too short on a left hand turn and collided into the front of the Clark pickup. The pickup received approximately \$100 damages and the Mustang received about \$150 in damages, according to the report.

The front end of a 1969 Chevrolet city patrol car received \$250 in damages Monday afternoon when it struck a 1963 Oldsmobile Sedan, driven by Betty Davis Hutchins. Both were traveling east on West Delano. The Hutchins vehicle was going to make a left turn into the Tasty Cream drive at the intersection of West First, when the patrol car, driven by James Weldon Tiller, was enroute to a call with red lights and siren going. Oncoming traffic going west kept the Hutchins vehicle from getting out of the way and the patrol car did not have room to get by. The Hutchins vehicle was damaged on the left back side up to the left front door. Hazel Greer Clement of Littlefield was injured in a wreck Tuesday morning, when her 1967 Oldsmobile, traveling north on Harral Street, struck a 1967 Chrysler, driven by Albert Perkins Jr. of Littlefield. Perkins was traveling west on Fourth Street and went through the stop sign into the path of the Oldsmobile. Mrs. Clement was taken to Medical Arts Hospital, where she was admitted for observation. She suffered a bruised knee in the mishap.

Texas Flowers Folder Released

"Flowers of Texas"—a spectacle of bloom and blossom—introduces some 60 species of Texas' most beautiful flowers, shrubs and trees in all seasons.

Requests by mail should be directed to the Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78703.

The Texas Highway Department, which released the new color folder, expects it to be one of the most popular items among the family of recreational and travel literature produced by the Department.

The new folder was designed for two purposes—to erase any notion held by out-of-State residents that Texas is an arid, barren wasteland—and to enhance the pleasure of both Texans and visitors by identifying some of the State's most common and colorful plants.

Free copies of the new "Flowers of Texas" folder may be obtained at all Highway Department offices and Tourist Bureaus. They are available upon request, and in limited quantities to garden clubs and similar organizations.

Minister's Son Killed In Mishap

David Godsey, 15-year-old son of a former Olton minister, was killed Monday when the family camper-bus turned over near their Marfa home.

Rev. Elan Glen Godsey, driver of the bus, suffered lacerations and bruises and another son, 17-year-old Lee Godsey, suffered a broken shoulder and a broken arm in the mishap. They had driven into the country to cut trees.

The Godsey family went to Marfa about two years ago from Plainview.

Rev. Godsey has been serving as a Southern Baptist missionary, and was pastor of the Mexican Baptist Mission in Olton before he went to Plainview as pastor of the Mexican Baptist Mission.

Funeral services for David were conducted Wednesday afternoon in the First Baptist Church at Marfa.

A KitchenAid dishwasher won't nickel and dime you to death.

After you eat the corn, will your disposer eat the cob?

If it's a KitchenAid disposer you sell, it sure will. And even if a little cob or husk gets stuck in its throat, your customers don't have to worry. The Superba model will get rid of the jam automatically. And with other KitchenAid models, all they do is flip the wall switch on and off. No need to mess around with tools or broomsticks. And fewer nuisance calls for you.

So remember this corny story when you sell disposers. It'll help you close a KitchenAid disposer sale fast. Like more details? See your distributor. Or write KitchenAid Disposers, Dept. 9GV-3, The Hobart Manufacturing Company, Troy, Ohio 45373.

KitchenAid
 Dishwashers and Disposers
 Products of The Hobart Manufacturing Company.

Proof? Many of our customers, after using KitchenAid for years, tell us they have yet to call a serviceman. More proof? Many of the dishwashers we made as far back as 1949 are still going strong, doing a good job.

We go out of our way to do something about dishwasher bugaboos so they won't bug you.

Take the problem of flooding. We have a special dual fill valve in all our built-ins that makes the odds against flooding about a million-to-one.

Or take the motor. Most dishwasher manufacturers use a standard motor. Not us. We design our own, to our own rigid specifications, just for KitchenAid.

Or take the timer. We design this, too. Test every one in our factory. Run it through all the cycles.

In fact, we inspect every part of every dishwasher before it leaves the factory. Even hook it up for a test run to make certain that it'll wash and dry thoroughly from the first time you use it.

So if you're looking for a dishwasher that won't nickel and dime you to death, get a KitchenAid.

Three Students Begin Teaching

Three Lamb County students are among approximately 716 North Texas State University students serving as student teachers in Dallas-Fort Worth-Denton area schools during the spring semester.

Some are teaching in area schools all day for eight weeks and others are training half a day for 16 weeks. A third

group will spend all day of the last eight weeks of this semester.

An estimated 1,200 NTSU students are expected to participate in the teacher-training program during the 1968-69 school year, according to Dr. C. M. Clarke, director of teacher education.

Included in the three teaching groups this spring are 471 students preparing for secondary teaching positions and 245 for elementary. In the secondary group are 49 seniors who will receive an all-level certificate for both secondary and elementary teaching in music, art, physical education, speech, speech therapy or library service.

Littlefield student teachers and their schools are: Mary Janet Blackwell, daughter of Mr. and Mrs. Bill Blackwell, Fort Worth Public Schools; and Linda Carol Hutto, daughter of Mr. and Mrs. D. O. Hutto, Littlefield, Robert E. Lee Elementary School, Denton.

From Spade, Kathleen Bailey, daughter of Joe W. Bailey, is teaching at Richardson High School.

Men Needed To Train For DPS

Specialized training in an elite field and a rewarding career are opportunities being offered by the Texas Department of Public Safety.

A call has been issued for applicants to fill a 120-man class beginning May 6 in Austin.

Because of the short time remaining to test applicants, immediate inquiry is urged for area young men interested in becoming a member of the Texas DPS.

Applicants must be between 20 and 35 years old, at least 68 inches tall, weigh not less than two pounds or more than 3 1/2 pounds per inch of height, and be in sound physical condition.

They must have a high school education or the equivalent and their record must be able to stand a rigid examination pertaining to character and citizenship.

Those selected will take their training at the Texas DPS Law Enforcement Academy in Austin. This training period will last for an approximate period of four months.

Upon graduation, the patrolman will be assigned to one of the four field services—Highway Patrol, License and Weight, Motor Vehicle Inspection and Drivers License.

For complete information concerning the position of patrolman, training and benefits, young men are encouraged to contact the nearest DPS patrolman or DPS office.

Hurry—for the time is short before the start of the May 6 training school.

City Patrolmen Report Activity

Littlefield police answered 156 calls last month. Fourteen arrests were made, 17 automobile accidents investigated, five breaking and entering burglaries and thefts were investigated, and 10,095 miles patrolled. Thirty-one tickets were issued for traffic violations.

LITTLEFIELD C of C

Bidding For Tourist Trade

Littlefield Chamber of Commerce is one of 24 in the Panhandle-Plains area participating in a group program designed to bring additional tourist dollars to the communities working together in the program, according to John Clayton, Chamber of Commerce president.

The promotion is the largest area tourist information program ever set up through the cooperative efforts of individual chambers of commerce. It has increased five times in participation since its inaugural last year by five communities.

The Area Development Department of Southwestern Public Service Company designed the program and presented it for approval to each of the participating communities.

The program is built around a "Land of Coronado" theme and will use outdoor advertising, window cards and table cards to acquaint tourists with the attractions of the area.

Fifty-three outdoor advertising boards, located along the major highways of the area, are the principal tourist information sources in the plan. The boards will contain a welcome to Texas, suggest a stop at the next participating community for further tourist information, highlight area attractions, and pinpoint things to see and do in the communities supporting the promotion.

The window cards for display in motels, service stations and eating places will have complete information on all area tourist attractions including those in

the Littlefield area. The same information will also be found on the table cards for restaurants and cafes.

"If nine tourist cars a day stop in our community overnight, the economic gain is the same as adding a \$100,000 a year industrial payroll. And, the tourist dollar is a 'new' dollar, one that otherwise wouldn't find its way into the community. It is estimated that between 20,000 and 25,000 tourist cars pass through the Panhandle-Plains region daily, so the prospects are there," Clayton said.

Although the basic promotion features the use of outdoor advertising, Clayton said that he was hopeful that those businesses which are direct beneficiaries of the new tourist dollars would use other advertising media to supplement the program.

"It seems to me if we had a special tourist section in area newspapers frequently during the vacation season and radio announcements on accommodations available in the community were broadcast, we'd have a well-rounded program going," Clayton said.

The outdoor signs will be on display from May until September, the major tourist months.

"People in this part of the country are noted for their courtesy and friendliness."

"If we get tourists to stay in our community, can tell them about our area attractions and give them some

southwestern hospitality, they'll be friends, and we'll enjoy repeat business. The new dollar, like the tourist dollar, on the average, seven times more leaves the community, so there's more for all in this type of program," Clayton concluded.

Cancer Control Interest Here

Because April has been designated "Cancer Control Month," special focuses on the progress being made in Lamb County in coping with the disease.

Figures released by the government reveal the number of cancer cases in Littlefield area, as compared to the number recorded in other communities.

The data, compiled by the U.S. Health Services, sheds light on the picture on lung cancer as well as other forms.

It shows, among residents of Lamb County, an overall cancer mortality is somewhat lower than in most areas of the country.

The latest annual figures list 128 deaths locally, excluding those of non-residents.

It amounted to a rate of 128 deaths per 100,000 population, national rate, by way of comparison, is 154 per 100,000. In the State of Texas was 128.

Peace Corps Placement Slated Saturday

County area residents interested in putting their skills to use in developing nations are invited to the Peace Corps Placement Test at 1:30 p.m. Saturday, April 19, at Lubbock High School, 206 of the new Post Office Building, 1315 Ave. G.

The Peace Corps uses the test to determine if an applicant can best be placed overseas.

Test measures general knowledge and the ability to understand a foreign language, not education or achievement. The test requires no preparation and is competitive; an applicant must pass or fail.

Persons interested in serving with the Peace Corps must fill out an Application, if they

have not already done so, and present it to the tester before the test.

Application forms are available from post offices or from the Peace Corps in Washington, D. C. 20525.

VITAMIN C

Pineapple juice now has as much Vitamin C as orange juice. The Food and Drug Administration has granted permission to add the vitamin to Hawaiian pineapple juice. A spokesman for a major pineapple juice canner indicated that this move should allow pineapple juice to compete more favorably as a breakfast juice and in school lunch juice programs.

New Approach Being Made In Determining Welfare

A new approach in determining needs of families with dependent children will be taken by the Texas Department of Public Welfare May 1.

Welfare Commissioner Burton C. Hackney said the new method is a fairer way to spread limited state assistance funds.

The new concept has two chief aims: a more equitable

distribution of funds to provide aid where it is most needed, and a revision in the method of budgeting a family's need.

Caught in a money squeeze, the Welfare Department last September reduced its maximum grant in the program for Aid to Families with Dependent Children (AFDC) from \$135 to \$123 a month for a

family with four or more children.

This tended to hurt most those who could least afford to lose part of their grants.

The new system will eliminate maximum grants in the AFDC program.

Hackney said the department will hold meetings throughout the state this month in an attempt to give community

representatives and every AFDC client an opportunity to hear an explanation of the changes.

The new program will mean higher grants for many families, lower grants for many others, and denial of grants to some.

In developing the program, discussions were held in several cities with interested groups, which

included representatives of the Office of Economic Opportunity, local service agencies, housing authorities, community councils, and legal aid attorneys and recipients of AFDC grants.

The department has 36,125 AFDC families on its rolls, representing 126,540 children.

Budgeting under the new method will make it easier to determine a family's needs, requiring fewer items of information from the applicant. This will relieve caseworkers of much detail, allowing them to spend more time helping families through social services in the areas of education, training and family life.

Studies by the department show that the family which must depend solely upon AFDC grants—those with no income at all—will fare better under the new system. Many families with income would not fare as well; however, they would have as much money to live on as the family without income.

On the other hand, the new system includes provisions to encourage AFDC recipients to work, through certain exemptions on earned income and credit for work-related expenses.

The reduction last fall in AFDC grants resulted from increases in the number of families on the rolls and the failure of Texas voters in November to approve a constitutional amendment raising the state's total welfare ceiling from \$60 million to \$75 million annually.

The constitutional ceiling on assistance payments limits all four programs—for the elderly, the blind, and the disabled as well as for dependent children.

An increase in the ceiling—or its removal—would enable the department to receive more federal matching funds for its assistance programs.

Safety Program Endorsed By TSA

Governor Preston Smith's traffic safety program featuring use of chemical tests to determine degree of driver intoxication and licensing of police officers has been endorsed by the Texas Safety Association.

In an action taken by the Association's Board of Directors, support was given to a proposal requiring persons arrested for drunken driving to take a breath test.

"A simple test of a person's breath can quickly determine whether or not a person is too intoxicated to safely drive," Robert F. Miller, Dallas, Texas Safety Association's Vice President for Traffic Safety, said.

"Chemical analyses of a person's breath can tell how much alcohol is in his blood and the National Highway Safety Standards say that persons with .10 percent alcohol in their blood are too intoxicated to drive."

A healthy 200-pound man would have to drink six ounces of 100-proof whiskey in an hour to reach this degree of intoxication," Miller added.

Pointing to the fact that 68 percent of Texans killed in one-car accidents were drunk when they died, the Texas Safety Association official urged the adoption of a breath test law as "the only scientific method of successfully combating the problem of a drunken driver."

"A breath test law can remove the guesswork. Some illnesses make a person appear to be intoxicated and without the use of a scientific breath test such an unfortunate person could be falsely accused of drunken driving."

A breath test law can also help determine the difference between a person who has just one or two drinks and one who is intoxicated," Miller concluded.

The certification of all Texas police officers and the establishment of minimum moral, educational, and training requirements was also urged by the TSA official as a method of increasing the efficiency and fairness of traffic law enforcement throughout the state.

Noting that violation of a traffic law is the average Texan's only contact with law enforcement agencies, Miller said that skillful and reasonable handling of traffic violations is necessary if respect for law and order is to be restored to universal acceptance.

"Firm and fair enforcement of the traffic laws is an indispensable part of the state's traffic safety program and such enforcement can only exist when it is administered by well-qualified and well-trained police officers," Miller said.

The Safety Association announced that the problem with the drinking driver will be among the subjects discussed at the 30th Annual

Texas Safety Conference scheduled March 30 through April 2 in Houston.

Byers Roll Your Oats

Cattle get 25 per cent more digestibility out of rolled oats than ground milo. And Byers Grain and Feed will store your grain sorghum for you, steam it at 210 degrees and roll it in their new mill, flake it, (similar to corn flakes), mix it with concentrate, and then deliver this complete feed mix right to your barn.

This newest of services at Byers is one of many Clinton Byers offers his customers. The charge for flaking your milo is 35 cents per hundred. Or Clinton has milo for customers who do not have their own grain.

Byers also does custom mixing and grinding, delivering anywhere in the trade area.

Clinton is operating the business started by his dad, Roy Byers, in the early thirties. The business has been in the present location for as long as Clinton can remember. Byers' main line has been Purina chows since the younger Byers can recall, too. Here you can buy anything Purina manufactures for chickens, hogs, cattle, dogs, game birds or rabbits.

IF YOU HAVE a problem with your fruit trees or need fly bait or insect spray for pesky flies and bugs, Byers has that too.

Clinton can help you with your planting, whether it is a few seeds, two or three pepper or tomato plants to put in your flower beds, a truck garden, or two or three thousand acres of feed land.

Planting seed includes Amak R12, Golden Acres, Red Carpet, Texas Hybrids, PAG, Funks, Excel and Horizon.

A good selection of pepper and tomato plants is at Byers now, along with a large variety of garden seeds in both bulk and packaged. Get your garden and lawn fertilizers and sprays here, too.

Clinton Byers has long been an active supporter of FFA and 4-H Clubs. He mixes rations for the youths' show animals. He contributes trophies for the fat stock shows and sales and goes out and buys the stock at the auctions.

Clinton's wife, Jane, is bookkeeper at Byers Grain and Feed. They have two children, Bradley, four years old, and Kimberly, a two-year-old. The Byers enjoy boating and fishing on weekends.

Ratliff Is 'Star Man'

Gene Ratliff was looking for a business when he moved back to Littlefield from Arizona, and Jack Christian was thinking about going back into coaching and teaching.

The two got together, and Ratliff was named Texaco consignee. The warehouse is located at 305 W. Delano.

Ratliff was born and reared in Littlefield, graduating from Littlefield High in 1948. His parents are Mr. and Mrs. G. O. Ratliff.

While attending LHS, Ratliff was president of the Future Farmers of America his junior and senior years and on the livestock judging team three years.

Living in town doesn't permit Ratliff to raise livestock, so his interest has turned to beagle dogs. Presently he has four beagles, two grown dogs and two puppies.

Ratliff shares an antique collecting hobby with his wife, Bobbie. They spend many weekends looking for antiques, mostly at old trading stores in the area. "I mostly do the lifting, and Bobbie does the refinishing work," Ratliff laughed.

RATLIFF OFFERS COMPLETE farm service, with deliveries on diesel fuel, gasoline, motor oil and lubricants.

He is especially proud of the Texaco line of motor oils—diesel motor oil and oils for natural gas and butane irrigation wells.

As Texaco consignee, Ratliff has five Texaco service stations in Littlefield and one at Amherst. All six of the businesses offer a full line of Texaco tires, batteries and accessories. At these six locations you can be sure "you can trust your car to the man who wears the star!"

Ratliff operates the Texaco dealership at 102 W. Delano.

Dave Dailey is the man to see at 521 Hall Ave.

George Parker has the Parker number one Texaco dealership at 532 Phelps Ave., and the second business on Highway 385 just south of Marshall Howard Blvd., at 2402 Hall Ave.

Boots Askew wears the star at 401 E. 9th St.

W. S. Reynolds is the Texaco dealer at the Amherst station.

The Ratliffs have five children. Wright Ratliff, an LHS sophomore; Marshall Allen, an LHS junior; Craig Ratliff, seventh grade; Douglas Allen, in the eighth grade; and Bradley Allen, a third grader. School activities occupy much of the Ratliffs' leisure time.

Wildcats Sixth In District; Vaulting Title Is Retained

Littlefield Wildcat track team placed sixth in the District 3-AAA track championships Saturday at Dunbar.

Holt continues Littlefield's lead over the district pole vaulters by winning first place. This is the fourth year a Wildcat has dominated the blue ribbon.

The only Wildcat qualified to compete in the Region One meet at Saturday at Odessa. Qualifiers must place first or second in the district meet.

By virtue of a rare but consistent nose out defending state champion Dunbar by a scant half point in the pole vaulting title trophy.

The rerunning of the mile, with the second running's

points turning the tide for the champions, and they won 108 1/2 to 108 over Dunbar.

Besides Holt's points, other 'Cat placers included Freddie Thompson tied for third in the pole vault; Adolfo Aguirre, sixth in the mile; and the mile

A Funny Thing Happened In The Race...

Robert Rendon, Wildcat miler, wasn't real satisfied with his 4:55.5 performance Saturday at the District 3-AAA championships in Snyder.

Nor was he real satisfied with the way he felt. During the race, he later told Coach Jimmy Bartlett, he felt something suddenly start hurting in his right leg. But he continued, and finished.

He went immediately to Coach Bartlett, who said Rendon had a small knot on the side below the knee and looked like possibly it could be a ruptured blood vessel. Nothing real uncommon among athletes. He was told to see the doctor.

He did. The doctor found Rendon's leg had been broken...not a common thing at all for milers during competition.

relay team, composed of Randy Walker, Steve Owens, Kenneth Twitty and Travis Danford, placed fourth.

Holt's winning height, taken during drizzling weather, was 11-6. Though it was well lower than past years' performances by loop champs, it still placed the junior's name along side Robert Hodge and Fred Koontz, past Wildcat champions.

Several Wildcats qualified for the finals, but failed to finish in the top placings.

Performances and placings in heats during the preliminaries were:

- High hurdles—Sitton, 5, 20.5; Hickman, 5, 17.2.
- 100-yard dash—Twitty, 7, 10.4; Hickman, 3, 11.2.
- 440-yard dash—Danford, 6, 55.1; Nace, 4, 59.4; Johnson, 7, 61.2.
- Intermediate Hurdles—Sitton, 2, 44.9.
- Mile—Aguirre, 4, 56.0; Rendon, 4, 55.5.
- Mile Relay—Walker (54.9); Owens (54.5); Twitty (52.4); Danford (52.3); 3:34.1.

Blanchard Bills Are On Insurance

Sen. H. J. Blanchard of Lubbock has introduced four Senate bills that would improve protection of the insurance buying public, make the insurance system more effective, and give the State Board of Insurance needed tools to better regulate the insurance industry in Texas.

One bill would regulate and provide reasonable control of advertising of insurance and solicitations by insurers and sellers of insurance. The bill was designed to offset the complaints heard in public hearings by the Senate interim insurance committee.

Blanchard is chairman of the committee and recently released a report that recommended the legislation he has introduced.

Sen. Blanchard has introduced a Senate bill that would require applicants for an agent's license to sell life, health and accident insurance to pass a written examination given by the State Board of Insurance Commissioners.

The Board would be given powers to cancel a license or refuse an application of any person not of good character or who willfully violates provisions under this Act.

Purpose of the bill is to strengthen present statutes which do not provide for written examinations and do not give the Board sufficient powers to regulate the conduct of agents selling hospital, health and accident insurance.

He has introduced a Senate bill that would

amend the Texas Penal Code and make it unlawful for a person whose insurance agent's license has been cancelled by the Commissioner of Insurance to act as an insurance agent.

The bill would also make it unlawful for a licensed insurance agent to assist an individual whose license has been cancelled in acting as an insurance agent.

Conviction of persons acting as an insurance agent after cancellation of the license results in the imprisonment for a term of not less than one year. A licensed insurance agent who aids anyone whose insurance agent's license has been cancelled may be imprisoned for a term of not less than six months.

Girls Third District

The Littlefield girls track team successfully defend its District title Tuesday, it did place a strong showing and qualified four individuals for the final meet.

Center captured first in two relay and second in the third to garner 140 winning points in Division 100-yard dash, 107-102, and by Seminole 62, Slaton 38, and

Ashley, despite painful shin splints won first in the 60-yard dash, 7.3, and 100-yard dash, 11.6, as well as second in the 220-yard dash in

Durham won the discus event with a toss of 98' 1 1/2", and LaTonya Fields grabbed her blue ribbon in the pole jump with a distance of 32'

Four firsts taken by the Littlefield girls were new district records.

Alena Francis gained a 1-2 sweep of the 100-yard dash by coming in a strong second to Doris.

The regional meet, where the first and second placers qualify for the state meet, was held Tuesday at Panhandle. State meet is 9-10 at Abilene.

The locals will also compete May 3 in track in the Cotton Belle Relays. It is expected this will be one of the larger girls meets in the state for the year, to be held by Gov. Preston Smith.

INDUSTRY

Continued from Page 1
The lukewarm toward industrial development and it is hoped that these efforts will result in the revival of business necessary for an effective economy," he said.

LITTLEFIELD SPENT \$5,200 in the services of F. J. Spencer of Houston, Texas, who compiled information about the industrial potential in the area of Littlefield.

The study was presented officially to the community of Littlefield March 31. This is March, 1969, and to my knowledge, very little has been done to implement the recommendations of Mr. Spencer. The Spencer study was an "independent analysis of local industrial potential," he said.

However, failure to follow through on the recommendations of the report left the community in the same position that it was before Mr. Spencer's study. If we are to 'market Littlefield,' we must first determine what we have to offer. The importance of Mr. Spencer's study to the industrial development program of Littlefield cannot be emphasized. Again, we are faced with the investment of time and the investment of a dollar if we expect to successfully play the game. The stakes are high, the competition is keen, and those communities unwilling to pay the price in time and money might as well get out of the game."

Little Leaguers Try Out Today, Work Party Follows

Tryouts for nine and 12 year old Little Leaguers who did not play in the major leagues here last year will be held this afternoon, followed by a work session on the field by parents.

The nine-year-olds will perform from 5 to 6 p.m., followed during the next hour by the 12-year-olds.

Boys who played in the major leagues in Littlefield last season do not try out, as they are already assigned to their teams. League president Bob Bromlow has called a work session by parents immediately following the tryouts.

Bromlow says tools, such as hoes, rakes, a pick and some shovels, are needed to work on the baselines, pitchers mound and other areas, such as in the dugouts.

Comments of coaches and fans following Tuesday's tryouts for 10 and 11 year olds was that the talent available to the Major League this season is exceptionally good, and the calibre of Minor League ball this summer will be above the normal.

Player auction will be held Friday night, and full team rosters will be published in Sunday morning's edition of the Leader-News.

Wright New S-E Mentor

Former Crosbyton head football coach Deane Wright has accepted a similar position at Springlake-Earth High School, it was announced this week.

Wright, who has been associated with a sporting goods firm in Lubbock the past year, spent eight successful years in the coaching profession before taking a year's leave.

He tutored the Crosbyton Chiefs to a conference football title, their first in history, in 1968.

Wright will assume his duties at the helm of the Wolverines August 1, replacing John Varnell.

Varnell, whose contract was not renewed by the school board, has not indicated yet what his future plans are. He has been at Springlake-Earth two years, the first as assistant under Danny Smith.

All three assistant coaches, Mike Purcell, Dallas Clynoch and Terrell Bell reportedly have received new contracts and will remain. Wright was given a one-year contract.

Junior High 6th In District Meet

Littlefield placed sixth in the District 3-AAA Junior High Track Meet Saturday at Snyder.

Contributing highly to the team's 46 total points were the first places earned by Jessie Davila and Danny Estrada.

Davila ran his best time of the year in winning the 1320-yard run. He was clocked in a respectable 3:35.3.

Estrada hurled the discus 148' 2 1/2" for his blue ribbon.

Ralph Funk placed second in the 330-yard dash in 39.1, fourth in the 220-yard dash in 24.5, and was a member of the 1320-yard relay team along with Michael Holmes, Jerry McCary and Porfirio Cristan that placed fifth in a time of 2:42.9.

McCary was third in the high jump with a 5-4 leap and Hartley cleared 17' 5 3/4" to earn fourth place in the long jump.

Brownfield won the junior high meet with 95 points, followed by Sweetwater, 74.5, Levelland, 71, Colorado City, 62, Snyder Lamar, 51.3, Littlefield, 46, Lake View, 36, Snyder Travis, 28, Lamesa, 28, and Slaton, 0.

Pee Wee Growth Shown

The Pee Wee Baseball program is growing by leaps and bounds, if Tuesday night's turnout of parents is any indication.

Enough interest indicated at least four teams, up two from last year's initial season, will be formed. Coaches will be Lonny Birkelbach, Gene Beck, Clinton Harris, and Lloyd Jacquess, and David Goes and Randy Whitson.

Deadline for signing players six to eight years of age is May 1. Interested parents can register their sons by calling Alice Sell at 385-3802.

Boys must be six years old before August 1, in order to compete.

SC Delegates Attend Amarillo Conference

LHS Student Council delegates attended the 33rd Annual Conference of the Texas Association of Student Councils in Amarillo March 27, 28 and 29. Theme of the conference was "Hear Us."

Allen Williams, Mark Jordan, Dianne Perkins, and Nina Manley represented LHS at the conference. The delegates registered Thursday afternoon at the civic center.

Thursday evening they attended the opening general session with Edward Guleke of Amarillo High presiding.

Charles Hargrave of Caprock High gave the invocation, followed by the ROTC's presentation of colors. Benny Valasquez of Palo Duro High led the assembly in the pledge to the flag.

A madrigal group, under the direction of George Biffle, provided the entertainment.

Mayor Ernest Stroud, Mrs. Robert Ashworth, Superintendent of Amarillo schools, and Mrs. Ross H. Lown, principal of Amarillo High, welcomed the delegation.

Henry Ackels, of Jesuit High delivered the response.

Johanne Roberts delivered a eulogy to the late Jack Nashburn, executive secretary to TASC.

Edward Guleke presented the TASC officers and new executive secretary. Harold Masey presented the executive committee.

The main address, "Hear Us," was delivered by Marilyn Rueping, president of TASC who afterwards dismissed the group to attend a mixer.

The second general session got underway at 9 a.m. Friday with Marilyn Rueping presiding. Chris Sutton of Tascosa High delivered the invocation and Joe Pratt, Amarillo High, led the Pledge of Allegiance. The Dukes of Sandieland, under the direction of Ronnie Wells, provided the entertainment. Earl Reum delivered the principal address.

The benediction was given by Richard Bruse of Amarillo High.

The afternoon session consisted of various clinics on student council problems and several discussion groups conducted by students.

The political rally was held Friday evening, followed by a barbecue.

Balloting for officers of 1969-70 was the main business of the third general session held Saturday with Marilyn Rueping presiding. Jerry Vaclav, Amarillo High, gave the invocation.

The Bel Canto Chorale, under the direction of George Biffle, presented "Testament of Freedom" by Howard Hanson. After the reading of the minutes by Kathy Gibson, Delbert Downing delivered the main address.

Dr. Harry Vanderpoole, pastor of Polk Street Methodist Church led the benediction, which closed the conference.

A Cappella Choir To Be In Clinic

The Littlefield High School A Cappella Choir will be doing something very different this year.

This year, Mr. Carter, choir director for the A Cappella Choir, announced that the choir would not be going to contest with the other choirs in our district as we have done in the past. But, instead he has employed Professor Kenny, the Dean of Choral Music at Texas Tech, to rate the choir in a clinic.

By doing this the choir will learn exactly what it does wrong and will give its best effort when rated.

Another advantage to this new idea is that soloists will be rated here and will not have to go out of town. A specific date for the clinic has not been set.

As an added enjoyment the choir will get to hear the Tech choir rehearse and later they will have a party.

NHS Bake Sale Brings In \$150

The Joe E. Hutchinson Chapter of the National Honor Society brought its annual bake sale to a close Saturday.

Members, under the supervision of NHS president, Rosendo Soria, and Mrs. Kenneth Lynn, sponsor, sold orders for pies and cakes ranging in price from \$1.50 to \$4.50.

Chairmen of the bake sale were Nancy Hall, Janie Hyatt, Milynda Morris, Carla Chambers, and Allen Williams. Elaine Tiller, treasurer, reported that approximately \$150 was earned through the sale.

The money will form a scholarship to be awarded to a NHS senior at the Honor Festival April 29.

Tests Close Six Weeks

Once again a series of tests marks the end of another thrilling six weeks at LHS.

Suspense creeps into the minds of seniors as they patiently await the outcome of their grade averages.

A senior will be exempt from all tests if he has a C average in all his courses.

For juniors and sophomores, the end of these six weeks tests will bring the thought of only six more weeks of school.

Only 31 more school days left.

ATHLETICS IN ACTION

By ROY BOLTON

Saturday, April 12, the Wildcat track team competed in the district track meet at Snyder. The Wildcats placed sixth in the meet with 23 points.

Sweetwater won the meet with 108 1/2 points, followed very closely by defending state champion Dunbar with 108 points.

Estacado took third place with 85 points, Snyder, fourth with 58, and Colorado City, fifth with 45 points.

Following Littlefield in sixth place were Brownfield and Levelland, who tied for seventh place with 19 points each: Slaton took ninth with 18; Lamesa, tenth with 8 points; and Lake View, eleventh, with 1 1/2 points.

Charlie Holt brought home the only first place for Littlefield, winning the pole vault with a height of 11' 6". He will represent Littlefield at the regional meet in Odessa April 18-19.

This is the third straight year a member of the Wildcat track team has won the district pole vault championship. It was won by Fred Koontz in 1967, and by Robert Hodge in 1968. Holt will be back as a senior next year.

Other Wildcats placing in the finals were Robert Rendon, fifth, mile run; and Adolfo Aguirre, sixth, mile run.

The mile relay team, consisting of Randy Walker, Steve Owens, Travis Danford, and Kenneth Twitty, placed fourth with a time of 3:34.1.

The LHS golf team, consisting of Dennis Chambers, Gordon Sorley, Danny Butler, and Mike Talbert, did not compete in the final round of golf Saturday, due to the rain.

However, the tournament was held, with Snyder winning the championship with a 934 total.

Snyder also won the district tennis championship with a total of 60 points. The LHS tennis team, consisting of Carolyn Lumsden, Evah Tucker, Elaine Graves, Randy Brestrup, Mark Jordan, and Steve Webb, played in the tournament. In the girls' doubles, Evan and Elaine lost to Snyder 6-0 and 6-1.

In the boys' doubles, Mark and Randy lost to Levelland 6-3 and 7-5.

In the girls' singles, Carolyn lost to Slaton 6-0 and 6-0. In the boys' singles, Steve won his first match with Sweetwater 6-2 and 6-2. In his second match, with Dunbar, he first set 6-4, but won the second two by scores of 7-6 and 7-5. Steve also played the second day of the tournament. He played against Keaton Grubbs of Colorado City, and got beat 6-3 and 8-6.

THE BEAT GOES ON**

By DANNY GOWEN

There's been a lot of talk lately about the uneasy spirit of our youth today with all the riots and student revolts.

Just the other day on the news and also on the "Today Show" I heard Professor Wald, of Harvard University, talk on the subject.

He said that the young people today are uneasy because they feel as though they have no hope that they will have a future, with the threat of an atomic war and the population explosion.

Professor Wald said that an atomic war or "atomic exchange", as he called it, would kill approximately 120 million people, but with the development of the ABM system (anti-ballistic missile), which is now in progress, only 100 million people would be killed.

Professor Wald talked on the subject of an atomic exchange with no reservations, and seemed to make his students even more uneasy.

I always talk about something that affects the nation as a whole and not local feelings.

I must be a very different individual, because I feel as though I DO have a future and as for the fear of an atomic exchange or the population explosion, I seldom ever even think of such things.

I have lived in Littlefield now for 11 years and I think the town has decreased in population instead of increased.

And as for the fear of an atomic exchange the only thing I could possibly worry about is whether our neighbor's cellar was full or not.

I think that it is because of Professor Wald and others like him who give their views on a subject, who cause most of the student riots and unrest.

STUDENT VOICINGS

QUESTION: Do you think morals are declining in the United States?

Becky Broadus (Soph.)—"Yes, people go around doing things they wouldn't have dreamed of doing when they were smaller. The hippies demonstrate and wear awful clothes. The rich people can get away with things that other people can't. Morals are declining."

Leroy Smith (Sr.)—"Yes, because of the influence of so many so-called underground products."

Tonya Bingham (Jr.)—"Yes, they are declining because of the standards in dress and movies which are being shown. There is much more freedom for the people now than a few years ago, and people don't live up to the moral standards the past generations have set."

Donna Veach (Sr.)—"Definitely. Just look around at what's going on in the U. S. With all the new happenings and fads in the U. S. there is no room for morals. Frankly, it doesn't look as if people care either!"

Mike Tucker (Sr.)—"I think morals in the United States are declining. Too many young people try to get away with anything they can. Nearly everyone I have talked to, does not want to fight for their country. It is absolutely necessary for one to love his country and to fight to preserve its freedom. If things continue as they have in the past, I believe our country would become a communist nation. I believe everyone should work together and not against each other. God put us here to enjoy life."

Bennie Burrows (Sr.)—"Yes. Because people are getting to where they do not care what they do and what people think of them."

Your Voice Is Showing Presented To Club

Jerry Kehoe, guest speaker at a recent business club meeting, spoke about the importance of telephone courtesy in the progress of businesses. The biggest drawback to daily life and conversation, says Mr. Kehoe, is that people do not speak comfortably among other people.

A film, provided by Mr. Kehoe, called "Your Voice Is Showing", was viewed by the business club members.

The film stressed: People should learn to speak their minds, not what they think they should say. For instance, a businessman will at times try to sound efficient on the telephone, not knowing that the result is most disturbing to the person at the other end of the line.

One should try to be as gently and courteous as possible when using the telephone.

By being rude on the phone, one could lose the chance of a perfect job—for one never knows who is at the other end.

Being forgetful is a great waste of time to the person calling and to whom the person is calling. If the person is not there and one wishes to leave a message one should not forget to leave his telephone number or even forget to inform the person to whom he is calling of his name.

One's mood or tone of voice used while talking on the phone could very possibly ruin the greatest opportunity that one has ever had to do something.

People are judged by they say and how they say it.

One should always be courteous to those who should always be friendly. One should promptly answer oneself upon answering the telephone, and pronounce the words.

Accuracy is also important in the use of the telephone. Remember the phone is into them as you want them to do you.

The members saw the film and afterwards held a discussion and answer period.

This meeting was held Thursday, April 10, at the typing room.

Refreshments were served by the members and it was an enjoyable time.

Theme Papers Account For Worry And Tears

By JUANITA SAMANIEGO

Isn't it wonderful that every year about this time juniors and seniors write research papers? Call them whatever you want—either research papers, term papers, or biographical booklets—they are all the same.

They are approximately the same length. But of course, the paper is supposed to be as long as it covers the subject. There is no given length. One is not forced to make it exactly three, or six, or ten pages long. But of course one must cover his subject to the fullest and to the best of his ability.

And, there is always a measurable amount of research involved from which come the note and bibliography cards. One must take down the publishing company, date or editor of any reference which is used.

If one is intending to use a paragraph or maybe the whole book verbatim, one MUST indicate that he or she has used the same material (copied). This is absolutely a rule which MUST be observed. Wouldn't it be just terrible if we did not have note cards? Why, the theme paper would not be acceptable!

These papers also must have an attractive cover. For, if the paper does not appear to be in an attractive cover, the instructor might not go further than that in grading the most coveted possession of any student who has indulged in developing a presentable paper.

One must take into consideration that one's instructor is very exhausted after helping each one of his or her students with his paper. Therefore, beware of teachers who are very tired and will not grade one's paper to the fullest extent!

A student works most diligently to produce a not only presentable or acceptable paper, but a distinguishable and most acclaimed paper ever submitted into the hands of an earnest-looking teacher.

Then after one has completed his most prized possession, one protects it with his life. For, we are always on the guard for the annual vandalizing raid of the lockers. By the way, boys, you better get on the ball, you're behind schedule. Hop to it!

During this time which is spent working on the research papers, one sees students with baggy eyes, mopy hair, and a very tired walk.

These are results of a routine of no sleep, no meals, and no rest because one has been doing nothing else but working endlessly on theme papers.

Most of the students wait until the last two days to begin.

And some smart people finish one week before they are due. Maybe they just don't want to be a part of the fun of being in such a rush.

I regret often that I have spoken; never that I have been silent.

GUESS WHO this junior is. She has dark brown hair and brown eyes and she probably can be found in the auditorium first period.

ANITA RENDON is shown here as she displays the products of the art club, which made animals from papier-mache.

Scout Summer Camp Few Weeks Away

Ten or twelve Explorers or Senior Scouts will fly to Ely, Minn., for a Wilderness Canoe trip from Aug. 2 to 13. The canoe voyage will be conducted, primarily in Canadian waters after the crew leaves the Minnesota base.

In addition, five weeks of regular camp will be conducted at Camp Tres Ritos with a four-week season to be held at Camp Post. A new opportunity for Troops and Posts this year will be the Mountain Man Camp, using Camp Tres Ritos as a base, but hiking and camping for a week in the Carson National Forest.

Howard Schmidt, Camping Committee Chairman for the Scout Council, says that printed information has been sent to all Scoutmasters and Explorer advisors, but that additional information can be obtained by interested boys and parents from the Scout Service Center, 30 Briercroft Office Park in Lubbock.

With the opening of summer camps now only a few weeks away, Boy Scouts and Explorers of the South Plains Boy Scout Council are reminded by the camping committee that they have several special outdoor opportunities open to them this year.

At Camp Tres Ritos in New

Mexico a forestry Camp will be conducted from June 1 to 7 with the aid of the U. S. Forestry Service. Up to forty applicants will be accepted for this camp.

At Camp Post near Post, an Aquatics Camp will be held from June 22 to 27. The first 32 boys to sign up will be accepted.

Thirty Explorers, or Scouts who will be 14 years old by Sept. 1, will make up two groups to attend Philmont Scout Ranch at Cimarron, N. M., from July 20 to Aug. 1. The groups will travel together by bus, but will hike and camp on different trails while at Philmont.

Jim Cooper Is Injured In Incident

A 28-year-old former Littlefield police dispatcher and patrolman, Jim Anthony Cooper, now a Lubbock sheriff's deputy, was shot in the lower abdomen Saturday night in Lubbock while attempting to serve a gambling warrant.

He was taken to Methodist Hospital in Lubbock where the .38 caliber bullet was removed. Tuesday morning a hospital spokesman said his condition was "satisfactory".

Jasper Ray Pruitt, 63, of Lubbock, was charged late Saturday with assault with intent to murder, and Lubbock Justice of the Peace Wayne LeCroy set bond at \$10,000.

Cooper began work as a police dispatcher in the Littlefield office in 1961 and served in that capacity about two years. He became a city patrolman in 1963 and worked here about a year before going to Plainview.

His wife is the former Pat Baisden, daughter of Mr. and Mrs. O. L. Baisden of Littlefield.

12 Accidents Investigated

The Texas Highway Patrol investigated 12 accidents on rural highways in Lamb County during the month of March, according to Sergeant Thurman Keffer, Highway Patrol Supervisor of this area.

These crashes resulted in four persons injured, and an estimated property damage of \$6,410.

The rural traffic accident summary for this county during the first three months of 1969 shows a total of 32 accidents resulting in no persons killed, 10 persons injured, and an estimated property damage of \$18,895.00.

The final entry in the 1968 Texas traffic records has been entered and closed. An all-time record of 3,481 persons killed, 216,972 persons injured, and an estimated property loss of \$ 8 3 6 , 8 0 2 , 0 0 0 . 0 0 was sustained.

Since the death count of 2,254 in 1960, Texas has gained steadily each year.

The Sergeant stated, "If the number of deaths continue to increase as they have since 1960 by 1975 they will have increased 100 per cent."

Youth Day Set At Pep

The Levelland Deanery of Catholic Women is sponsoring a youth day, for young people of junior high school age and up, at Pep Saturday, April 20, from 2 to 6 p.m.

Theme for the day will be "Discovery in Music," concerning great rock and folk rock, "an exciting new way of talking about life and faith for the young at heart—illuminating and penetrating ideas from contemporary song."

A mass will close the program and supper will be served.

MAVERICK—newest breed from the Ford Division corral—goes on exhibit today at Mitchell-Ford, Inc. Seating a family of four and offering economy of purchase and operation, it is aimed at boosting Ford sales in the booming small car market and serving the needs of buyers who formerly went to imports.

New Ford Maverick Shows Here Today

Mitchell Ford will introduce the long heralded 1970 Maverick, new small car from Ford Division, today.

This \$1,995 car is a two-door sedan with modified fastback design with a hint of an air spoiler or "ducktail" at the rear. Designed to carry a family of four with adequate luggage, it is powered by a six-cylinder engine in either of two sizes, 170 or 200 cubic inch displacement. In normal city-suburban driving, Maverick can be expected to deliver 22 1/2 miles per gallon of gasoline.

John Naughton, Ford Motor Company vice president and Ford Division general manager, calls Maverick "the greatest automotive value ever offered in terms of price, upkeep and features included at no extra cost."

Planned to be economical in purchase price, operating cost and maintenance, Maverick offers a longer, lower, wider body than the principal import, yet turns in a tighter radius for easy handling and parking.

Transmission choice includes the fully synchronized three-speed manual, the three-speed automatic with an

optional shift feature, and, for the first time, a new semi-automatic transmission. Cheaper automatic and clutching permits a change of gear with a single movement of the lever.

"Maverick will live up to name in being a completely independent kind of car," H. A. Mitchell, Littlefield dealer.

"It's bigger and lighter than the imports, but more compact. Even some color names carry over the individualistic changes. Thanks Vermillion, Holly Freudman Gilt, Antioch Mint and Original Classics."
