Whitharral representatives were Ralph Allaire and T. E. Howard.

Littlefield representatives included Councilmen Paul McCormick, Chester Harvey, Dr. James Shotwell and Paul Carmickle; Mayor J.E. Chisholm; City Manager Pat Bradley; and City Attorney

To begin the session, Mayor Chisholm

explained why all of the representatives had joined together in the fight against the rate increase as proposed by General Telephone, and stated, "Just to put it on the line...as a result of contacts made by citizens... without exception, everyone who has contacted any of us have thought these rate increases were

completely out of line."

He continued, "No one has complained about personnel serivice...it is equipment and line service. And these people have felt that General Telephone needs to tell THIS group what they intend to do in regard to upgrading the service before we even discuss a rate

In reviewing the last meeting for Gen Tel representatives, Mayor Chisholm explained, "We've experienced numerous telephone calls and numerous-in fact we can't walk down the streets without being stopped and asked what we're going to do about this rate increase.

Several of the city representatives related some of the problems they had heard of in their areas, and asked the Gen Tel spokesmen what could be done.

Rad Richardson, the district manager from Littlefield, began the discussion in explaining what the company is presently undertaking.

"Plans right now are in the mill, and of course I hear quite a bit of conversation about updating equipment and this kind of thing. I think what most of you have reference to and this is my guess you're talking about DDD (Direct Distance Dialing), touch calling, and many other things. As it stands right now, this is dependent upon shipment of materials and the availability of such equipment. Right now, our plans are to change out the Whitharral and Spade offices completely toward the end of 1974 to prepare for DDD, touch calling, etc. by the end of 1975. Now you may say, 'well that's two or three years away!.' Delivery of equipment takes anywhere from 18 to 36 months," he continued in emphasizing the time element involved.

"There's also been some discussion concerning the movement of operators from Littlefield. This is not so! We plan to expand the toll office here and remain here with the crews," Richardson explained

He advised that crews are now working at Spade and have been there about eight days replacing wires, lightning protectors and making general repairs. They will go to Whitharral next.

He further informed the city representatives that "sometime next month, the company will try to jack up the service end of the operation by going to what we call a service center operation here in Littlefield. We will have maintenance radios installed in these vehicles so that we can have faster contact with these guys in the field and keep them moving better. There will be a central location for the dispatch... all of this to streamline the operation.

Gerald Hamilton, the division manager out of Brownfield, reminded the city representatives that the company has had crews in Amherst about a month doing rehabilitation work that was scheduled for last year.

He stated that several projects are scheduled in the district for 1973, and that the company is working on several things in Littlefield at present.

Hamilton stated that most rural trouble during rainy and windy days is a result of lightning and wind blowing the cables together. He said some of those problems are being solved with the installation of new lightning protectors and arrestors.

"Just last year we received an approved gas type protector that-unless you get a direct hit right on the line-the gas protector will take the normal size lightning, will bring it off the ground and re-set itself so that you don't have a blown fuse and you don't have to wait until a man can come out and take care

A company spokesman also stated that quite often problems are involved in See TELEPHONE, Page 4

Tax Receipts Up, City Coffer Benefits

Littlefield's city sales tax revenue for the first 1972 quarter ending March 31 was up \$2,608.98 over the same quarter last year.

City sales tax collected in Littlefield for the first reporting period this year totaled \$24,494.39. The same quarter for 1971 totaled \$21,885.41, compared to \$18,813.04 in 1970, and \$18,398.12 in 1969.

Total municipal sales tax revenue to Littlefield for 1968 was \$57,315.52, with only three quarters received, beginning with the second. Returns for the second quarter were \$16,899.35, the third quarter added \$18,576.82 to the city coffers, and the fourth quarter added \$21,839.35.

Local Cyclists Present Good Image

By NILAH RODGERS

Anyone who connects all motorcyclists with hippies and Hell's Angels might take a second look at a few Littlefield residents like Warren and Koma Sue Donworth, Charles and Shirley Young, Lynn Todd and Ricky Sibert.

Warren Donworth is writing his dissertation on music history and will have his doctorate in musicology from the University of Texas soon. Koma has a master's degree in music and is the choir director for Littlefield schools.

Charles Young was an electrical lineman until he was injured in an accident two years ago. Following his graduation from college next May, he will go into the radio and television field. Shirley stays busy keeping house and cooking for their active 8 and 10-year-old

Lynn Todd is the suave 34-year-old bachelor who manages the laundry and car wash on West 10th.

Ricky Sbert is a 17-year-old senior at Littlefield High School

common

The Donworths live at 238 E. 23rd while he completes his requirements for his doctor's degree. They use their cycle as a second car.

They rode all over Europe on a cycle while they were studying in Germany. The Donworths rode their present cycle to Dallas last week, and they plan a trip to New Mexico in the near future.

They like to hit the road at the crack of dawn. At 60 miles per hour, they are well on their way by noon when the sun is hot enough to bake them.

Donworth carries a complete tool kit, a chain to tie his cycle down in the event of a breakdown, and the saddle bags and carrier are equipped so they just slip off and can be carried into a motel room like luggage when they stop.

When cycling they seldom camp out. Donworth said he doesn't like the idea of pitching a tent on the ground. They have an old bread truck they paid the grand sum of \$150 for that they use for camping

THE YOUNGS enjoy camping out almost as much as cycling. The Youngs and 14 other persons cycled to Brownwood once on a camping trip. Young says that's the way to really have fun.

They carry their camping equipment like back packing. A two-man nylon tent weighs less than two pounds, and a canteen of water is always hanging alongside. They like public campgrounds.

Young bought his first cycle four years ago to ride to work. After riding

Pleasing Others

SOME PEOPLE ARE HARD to please, and some are totally implacable; but most people can be pleased. That is, if we are willing to try; to do our best, we can please others.

This does not mean that we grovel before them, because this approach is not really the way to get along with our fellowmen. Flattery is not recom-mended either, because it is soon seen for what it is; and few people appreciate

IT IS WORTH THE EFFORT to please as many people as we can. It is good for us, because it means that we must be performing at our best level of personal thought and action.

We will be gracious in our speech. We will be giving them the benefit of the doubt, and putting the best construction on what they say and do Our expectations of them will be reasonable, and we will be charitable toward their

WE MUST UNDERSTAND OTHERS if we wish to please them, and this is the mature view. We may not understand everything about any one person, but we can understand most people well enough to relate ourselves to them in ways that please them.

This is not too much effort for us. In fact, the personal rewards to us will more than justify the efforts.
"If you wish to please people, you

must begin by understanding them."

IT IS NOT NECESSARY to compromise any of our wisely conceived principles of life behavior. In fact, we must not do so. We will not make any real progress in pleasing others by

compromising in matters of right and

Most people do not expect this, and are disappointed if it occurs. Those who expect it are never going to be pleased, whatever we may do.

WE CAN GO TOO FAR in our efforts to please others, but there is no reason to do so. We must be wise enough to know when we reach the limit of justified effort, and we will be.

This is essential in maintaining our self-respect, and in handling ourselves so others will respect us, too. If we go too far in our efforts to please others, we will eventually be disillusioned and discouraged.

WE MUST HAVE the desire to please, and we will if we have a mature view of self in relationship to others. Some people desire to please because of self love, and this is a certain way to create one of the most undesirable life situations.

These people are usually fickle and insincere. A wholesome desire to please will be generally rewarded in every phase of human association.

DON'T TRY TOO HARD to please. This is a necessary guideline for all who wish to succeed in pleasing others. When we try too hard, we are being unfair to ourselves and to those we wish to please

We destroy the possibility of pleasing by arousing such feelings as suspicion, or contempt, or disgust.

WE CAN PLEASE most people by putting forth reasonable efforts to do so, and, in the process, add significant dimensions of maturity to our own life

LYNN TODD has been riding motorcycles since he was 14 years old. He switched from a bicycle to a motor cycle after spending two weeks peddling 200 miles

Todd planned to tour Europe on a bicycle. He said he peddled uphill through England, Scotland, Ireland and France. After making the transition to a motor scooter, he spent the rest of the year in Europe, going across Italy, Greece and North Africa before heading

Todd has traveled all over Texas, spent a year in California on his cycle and more recently took off for a month to ride his motorcycle to Alaska and back

He always travels with food, water and a tent. Unlike the Youngs, Todd never uses public camping grounds. He always turns off main highways and takes a dirt road out to the middle of nowhere where no one has seen him go when he stops for the night.

RICKY SIBERT still has another year of high school ahead of him, and because of his age and his job hasn't been able to take any trips on his big cycle. But he is

equipping his BMW and hoping to ride it to the mountains before summer ends.

Sibert became interested in motor cycles after watching the tv series, Then Came Bronson.

His first cycle was a trail bike, followed by four more motorcycles after that. His BMW is his sixth. "But I figure I've got the best now," he said, "so I plan to keep this one.'

Sibert has a car too, but he prefers the touring cycle to his auto.

The economy of traveling on motor cycles appeals to all the cycle enthusiasts. Anytime they've got the time, about \$8 is enough for a 1,000-mile getaway-from-it-all ride.

FOOTING THE BILL

"If the government continues spending at the present rate, it's the great American middle class that will have to pay for it, as usual. There just isn't any other segment of our society that has enough money to make a dent in the deficit. The politicians know this, but they are hoping the public won't find out until it's too late." - Arch Booth, executive vice president, Chamber of Commerce of the United States

Two More Girls Enter Beauty Pageant

Two more beauties have entered the "Miss Lamb County" contest that is being sponsored by Beta Sigma Phi Sorority and co-sponsored by Littlefield Chamber of Commerce.

Miss Tina Russell, sponsored by Cox Furniture Co. of Littlefield, is the 14th entrant in the pageant.

She is the brown-haired, green-eyed daughter of Mr. and Mrs. Charles Russell of Littlefield. She lists her hobbies and talents as swimming, water skiing, sewing, modeling, decoupaging, dancing and "talking."

Tina is a senior at Littlefield High School. During her freshman year she received an English I sweater award and a Biology sweater award during her sophomore year. She was a member of the All-Region Band her freshman and sophomore years; a member of GAA, Kat Klub, FTA, GSA, Quill and Scroll, on the journalism staff, and annual staff. Miss Russell won first in district newswriting, she had a poem published in the Regional and National Anthologies of High School Poetry. Tina was also on the girls' basketball and track team.

The 15th contestant is Denese Mc-Curry, daughter of Mr. and Mrs. Dallas McCurry of Littlefield.

Her sponsor is Findley's Jewelry. A senior at Littlefield High School, she likes to cook, sew and water ski. Among her talents are playing the piano, organ and guitar. She plays the bass clarinet in the Wildcat Band and sings for special occasions at the First Baptist Church, where she attends

She has received honors in public speaking in DECA, elected secretary of her senior class, received division I ratings in UIL contests, and will serve as a squad leader for the Wildcat Band this year. She has also received awards

He then asked the question, "Should we have a rate increase until we get service?

John D. Allen of the head office in San Angelo, the assistant revenue requirements director of the company, stated he had been before more than 40,00 city councils in Texas to explain portions of the company's policies. He began, "This is a big problem, you can't learn about our business in one evening around a table-just as we couldn't learn about yours in that length of time."

He related to the city representatives that the price board in Washington has stated that the subscriber must be educated that he must pay higher prices. "Our bankers, stockholders, etc. say our company must improve its earnings." He stressed, "We don't like rate cases. I can't find ANY man in the company who likes rate cases.

He went on to explain that everyone else's business has received increases for their product or service, and that his company "simply must have an increase in order to keep operating.'

"If you keep up with the stock reports, you'll see that Gen Tel's stock is declining... and, gentlemen, that's why we need your help."

Allen reported that the company is now earning a little above two percent. Of its present income, he stated that two percent goes into state taxes, two percent to city taxes, and 48 percent into federal taxes, and 50 percent to the company.

He stated that General Telephone is the second largest telephone company in America and the world, and that the company has granted a \$4 billion increase in wages to its employes. "We are continually developing new techniques for improving serivce, and this takes money...We had to curtail the underground project because we just didn't have the money. * WIEDENIE DEN BERNE DAY

A Day To Be Proud Of . . .

How could anyone predict what that document being posted would mean to mankind? Since then, the Declaration of Independence has changed history for the better. For the message of that document was

destined to enter the hearts and minds of freedom-loving men everywhere. Let us all, as Americans, pause today and be thankful for that declaration that allows us to live in a free nation. A happy Fourth of July!

FLAG ETIQUETTE

Here are some rules and regulations on the proper display of the American flag.

The Stars and Stripes should be given peak position, above others when on same halyard.

X * * * *

Men, women in uniform should give right hand salute; civilians should put hand over heart.

When flag is flown from window sill, the Union should go to the peak unless the flag is at half staff.

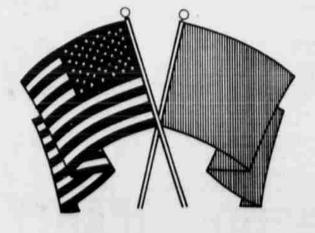

Fly Your Flag
Proudly. . .
And
Correctly

Indoors or out, when displayed horizontally or vertically against a wall, the stars should be uppermost and to the flag's own right, that is, to the observers' left.

Displayed with another flag from crossed staffs, it should be on the right side and its staff should cross in front of the other staff.

Daughter in law needs peace on earth

By Abigail Van Buren ic 1972 by Chicago Tribone-H. Y. News Synd., Inc.)

DEAR ABBY: Why is it that the last one in the family to be married is the one who has to take the widowed mother in? I have had my mother in law for 20 years, and not one of the others will offer to take her even for a few

I am a nervous wreck. I can never have a private conversation with my husband unless we go into our bedroom, and whisper so she can't hear us. I can't even go shopping unless Mamma goes along for

the ride. We haven't had a vacation in 20 years without My husband tells me that I will get my reward in heaven, but I can't wait that long.

DEAR TIRED: Tell your husband you have earned a little "heaven on earth," and to figure out a way to give

DEAR ABBY: When a couple gets a divorce, who gets the bride's wedding rings? [My set costs \$900]. My husband is financially secure enough, but claims he

cannot afford alimony. He takes home a minimum of \$160 a week, but it's usually more because of overtime. I make \$40 a week take home. I also have multiple sclerosis and have a heavy medical expense. I can't get a

better paying job because of my physical handicap. Be-

sides, I had enough trouble getting this one. There is also the question of wedding gifts. We received linens, silver, kitchen appliances, good china, etc. Almost everyone on my side of the family gave us money for a wedding gift [now long spent, of course]. His side gave us mostly gifts. Who should get them? I imagine a lawyer could settle this, but I would like your sincere opinion.

DEAR HURTING: My sincere opinion is that you should get everything you're legally entitled to, that's why I suggest you ask your lawyer for a legal opinion.

FINANCIALLY HURTING

DEAR ABBY: You recently printed a letter from a fellow who was turned down when he asked a girl for a goodnight kiss on the first date. He said he was glad that turndown didn't prevent him from asking that girl for another date

I have been dating a girl for six months, and I am proud to say that so far all she's given me is a goodnight kiss at the door.

She's a very special young lady who shuns X-rated movies, Go-Go bars, and parking. I admire her greatly for her high moral standards. She has a good head on her shoulders, thinks for herself and conducts herself like a lady at all times. Some day she'll make some lucky man [hopefully me] a fine wife.

I have a great deal of respect for her, and I think I love her. And I thank her parents [and mine] for raising us as they did.

No need to use fake initials. If that girl sees this letter

and knows I wrote it, it will prepare her for what I hope to

I am 19 and have a whole lifetime ahead of me to experience and enjoy the deeper emotions, and I intend to wait until I have earned that privilege

tell her soon. L. G. R.: TRENTON, MICHIGAN DEAR L. G. R.: What a refreshing letter.

DEAR ABBY: My husband and I invited two couples to our home for dinner one night last week. One couple had been married for five years, and the other couple was engaged.

Before dinner, both couples were in each other's arms, off and on, kissing passionately. Now, Abby, I have no objections to couples showing affection to each other, but they really acted like they were all alone. I am not an old prude myself. I'm 25, have been mar-

ried for four years, and I love my husband every bit as much as either of those girls love their guys, but I think there's a time and place for everything.
Once, I jokingly said, "Okay, kids, knock it off." My

husband gave me a dirty look, and after they left he lec-Was I wrong, Abby? Please tell me. That one couple WONDERING [the engaged pair] made me blush.

DEAR WONDERING: I'm in your corner.

DEAR ABBY: I am a married woman, age 49, but physically I am like a girl of 20. My doctor tells me that I have absolutely nothing to worry about insofar as getting pregnant is concerned. He says the oldest woman he has known to get pregnant was 47, and that was very unusual.

family is grown and the last thing I want at this time of my life is another baby. What do you or your readers know about this? The

DEAR WORRIED: Altho the chances of becoming prefnant at age 47 are greatly reduced, it is by no means impossible. My doctor tells me that he has heard of a woman bearing a child at age 52, so keep your guard sp.

Student Council Plans Attendance At Student Council Workshop

Littlefield High School students are among student leaders from 22 Texas high schools which have preregistered to participate in a one-week Texas Association of Student Councils Workshop at West Texas State University starting Sunday, July 9.

One of eight such workshops being conducted this summer throughout the state, the meeting here is expected to draw about 150 students, said Earl Mills of Amarillo,

workshop director. Mills, who also heads the business department Amarillo High School, said the purpose of the workshop is to 'teach student leaders the importance and value of student councils in the schools and to instruct students in working effectively with other people." He added that high school

student governing bodies have become more important in recent years in serving as intermediaries between students and administration.

Workshop participants will be appointed to mock student councils representing imaginary schools, he said. Various problems, such as student apathy and discontent, will be presented to the students to solve within the context of the council system, he added.

Classes, to be taught by a 14member staff of teachers and assistants, will encompass such topics as duties and responsibilities, projects, group dynamics, communications and public relations, parliamentary procedure, administration and organization.

Other workshop events include songfests, athletic events, a banquet and "achievement night" and a trip to Palo Duro Canyon to see Texas, a musical production of Panhandle history.

Teachers directing class activities include Pauline Christian of Plainview, Mitzi Trammel of Sudan, Ann Swetston of Floydada, Delvin Howard of Stratford, Charles Keese of Littlefield and Charles Leonard of Amarillo Tascosa. In addition, Steve Clayton of Amarillo, an entering freshman Southern Methodist University, will also serve as a

class director. Jerry Arrington of Phillips High School will be assistant

director of the workshop. Harold Massey, state secretary of the association, is expected to attend part of the workshop activities, Mills said.

Meet The Minister

Dr. W.A. Terry

Dr. W. A. Terry will begin serving the Irvin Street First Baptist Church in Littlefield the sixth year this October, and has been in the ministry half a century.

He felt led to the ministry while he was only eight years old, but accepted the task when he was 21 and has been preaching since 1922.

"Out of the 50 years of my ministry, these are the most loyal of all the people I've pastored," Dr. Terry comments about the Littlefield congregation.

When Dr. Terry graduated from Emmanuel Training High School in Indianapolis, Ind., he entered Cleveland Bible Institute in Cleveland, Ohio.

After he received his certificate, he entered Butler University in Indianapolis and received his Bachelor of Sacred Literature Degree. He then entered Bishop College at Marshall, and Union Baptist Theological Seminary at Houston where he received his Doctor of Divinity Degree.

Dr. Terry came to Littlefield from the New Testament Baptist Church at Gary, Ind. Other churches he has pastored include Bethany Baptist Church in Elyria, Ohio, where he was ordained; Reich Chapel Baptist Church in Centralia, Ill.; Blackwell Temple Baptist Church in Mt. Vernon, Ill.; Pleasant Grove Baptist Church at Denton; New Life Baptist Church in San Angelo; Mt. Moriah Baptist Church in Abilene for 10 years; and then to Gary, Ind. before he came to Littlefield.

Dr. Terry enjoys fishing and likes to read philosophical compositions. He says he likes to travel, and has traveled throughout the United States with the Evangelistic Board of the National Baptist Convention Incorporated.

He is serving as resource man and state instructor for the Sunday School and Baptist Training Union Congress, is a trustee of the West Texas Baptist District Association, has served as vice president of West Texas Baptist Sunday School and Baptist Training Union Congress; has been state missionary for the Baptist Missionary and Education Convention of Texas; and has served as guest speaker for meetings at North Texas State Teacher's College at Denton three times.

Supervisor To Visit Jehovah's Witnesses

The Littlefield congregation of Jehovah's Witnesses will be host this week to I. J. Machalk, circuit supervisor for the group in parts of two states, including Northwestern Texas, according to Lloyd Lowery, local Witness spokesman

Machalk will take the lead in all of the activity of the local congregation this week," Lowery pointed out.

Special efforts are being made to contact residents of

every home in Littlefield. Jehovah's Witnesses are interested not only in inviting persons of interest to the Kingdom Hall, but we would like to see all study the Bible and understand its contents. Machalk's visit will be beneficial to us as Jehovah's Witnesses as he instructs us in ways of improving our doorstep and home study methods of teaching the Bible." Lowery concluded

The evangelistic services will be at 7:30 each of the three nights, and special "Teen-A-Rama Hours" will be conducted at 10:30 a.m. Saturday and 6:30 p.m. Sunday.

"Everyone is invited to attend these services," states the pastor, Rev. Ben R. Day.

STEPHANIE CARTER of Amherst is one of nine area FFA winners who will be competing for Texas FFA Sweetheart at the 44th State FFA Convention in Dallas July 12-14. Miss Carter is 17 and the daughter of Mr. and Mrs. Don Carter. In high school Miss Carter has been FFA Sweetheart, Homecoming Queen, Class Officer, Class Favorite and captain of the basketball team. She also shows lambs and calves in major stock shows.

Tony Smith Is Burned

Tony Smith, the 14-year-old son of Mr. and Mrs. Cliff Smith of Littlefield, is recovering in the Methodist Hospital from second and third degree burns on his face, chest and arms following an accident at his home about 6 p.m. Sunday.

Tony was roasting marshmallows at his home Sunday. He thought the fire had gone out and he threw gas in a can on the coals. The fire flamed, he jumped back and some of the gas in the can splashed over his clothing and he was engulfed in flames

Returned Gift Needs Address

Someone in the Littlefield area sent someone in the Houston area a baby gift, but the donor will never be thanked because the gift was never delivered.

The stick on mailing label came off, and Houston returned the package to the Littlefield Post Office this week.

If the person who mailed the gift will come to the post office window and furnish the address, the package will be put back in the mail.

Precautions Recommended Against Hog Cholera

With the confirmed cases of hog cholera in Dawson and counties. swine producers are urged to use all

transmitted and if producers on boots, shoes, clothing, notice any sign of sickness among hogs, they should suspect hog cholera first," says Gene Cope, veterinarian and Dr. Gilbert Hollis, area swine specialist Texas Agricultural Extension Service.

The animals should be checked immediately by a local veterinarian or state or federal animal health official. Farrowing problems, abortions. still-born pigs and weak or 'shaker" pigs may be due to cholera

If a swine owner has the disease confirmed in his herd, federal and state law require that the entire herd be destroyed and buried under governmental supervision, the specialist report. Indemnities can be collected on any hog that dies or is destroyed after the herd has been inspected.

To protect pigs from cholera. the specialists list the following precautions:

1. Buy pigs from reputable sources - bargain pigs may not be bargains after all

2. Isolate newly purchased pigs for 30 days.

3. Don't mix pigs with those of your neighbor

4. Keep visitors out of the hog lots. Cholera can be spread by precautions to curb the disease. either direct contact from This costly disease is easily animal to animal; or indirectly vehicles or contaminated feed,

growers, seated 13 new research, marketing and members and elected a like product number of alternates at their processing, handling and recent annual meeting in services.

Re-elected to a new threeyear term of the Board of Directors from Littlefield was J. D. Smith.

The 46-member board represents over 300,000 growers in 19 cotton-producing states. The directors determine policies and programs carried out with growers' dollar-perbale contributions.

The new directors and alternates, chosen earlier by producer organizations in their states, will be assigned to one of three research committees covering Cotton Incorporated

COMMENTS **EMIL MACHA** IF YOU FELT a little more runner a couple of steps shorte

rested when you woke up Saturday morning than you normally do in the mornings you can thank Mother Nature. You have just lived through the longest day of your life. Timekeepers all over the

world had to re-adjust time by adding another second to the last minute of Friday, June 30, 1972, thus stretching a minute to 61 seconds. If you have an atomic clock

and made the adjustment you will now be four seconds fast, but don't worry because if the earth continues its pace you will be on the exact time in four The reason for the adjustment

of time is that the earth is slowing down, some attributes it to a random sort of sloshing around of material in the earth's core. We may not be able to stop

Father time but it sure seems

that he is slowing down. A SUBURB of Littlefield has been putting a lot of emphasis on its municipal airport and the goings on that takes place as the planes come and go. I heard by the way of the grapevine a "can

you top this" story It seemed that this proud grandmother was taking her young grandson to the airport to catch a plane home. The grandson had been visiting for a couple of weeks.

As the story goes, Grannie got everything ready for her grandson's departure and the two of them got in the car and drove to the airport They went together to get a ticket at the ticket office. Grannie noticed that people were glancing their way occasionally, but was not disturbed by it. She walked her grandson to the plane and as she was bidding him his final farewell Grannie looked down and noticed that she had forgotten to put on her skirt. This sure is a busy world, isn't

Medicare Does Not Pay For Nursing Home

a hospital to a nursing home. would Medicare pay for the nursing home care?

This question comes up daily according to John G. Hutton, district manager at Lubbock. and many people are disappointed when they learn that Medicare does not pay for routine nursing home care.

The confusion arises, Hutton said, because many people believe nursing homes and Extended Care Facilities are the same. Actually, they are very different facilities and have separate roles in the treatment of patients.

\$18,199 as continued funding of the regional law enforcement teletype network also was approved.

A previous award enabled law enforcement agencies in the South Plains region to update transmission equipment from manual to automatic. The new grant will assist 17 subscribers to the system to continue service pending refinement. Cash match of \$11,735 and in-kind contribution of \$4,482 will be provided.

The two South Plains applications were among 43 for action grants totaling \$1,718,464 considered by the CJC Executive Committee June 9.

Summer Session of classes at South Plains College will begin at 9 a.m. Monday, July 10, in the Administration Building, announced college Registrar Dr. Charles Sylvester.

Plains College during the second session will include American History, algebra, mathmatical analysis, freshman and sophomore English, speech, art, history, accounting, mid-management, data processing, chemistry, zoology, economics, business machines, business and professional speech, photography, college math, American Government. bowling, sociology, drama, swimming and trigonometry.

new law, however, extends the period for filing claims for these years to April 26, 1973.

In the case of government employees, both civilian and military, who are missing in action, the expiration date for filing claims for tax years 1961-68 has been extended to two years after missing status is terminated if that date is later than April 26, 1973.

In general, the period for filing a claim for refund for all tax years after 1968 expires three years after the date the original return for that year

Taxpayers should use Form 1040X or Form 843 to file their claims for refund. These forms are available at the nearest IRS Office. IRS personel will also be avilable to assist anyone needing help in filing his claim for refund, Weaver said.

The IRS will give special attention to processing these claims. Weaver concluded.

Seventh Season For 'TEXAS' Now Underway

The seventh season of the "Texas" production opened with full houses for the first three performances.

As part of the opening night ceremonies, the visiting editors were presented with miniature bedrolls about three inches wide made by the committee of Miss Ruth Cross who was chairman of the gala opening festivities. Many newspapers sent photostats of their early editions for display, while other materials were furnished by the Panhandle Plains Historical Museum in Canyon

A number of deaf people attended the Friday production and the production was interpreted in sign language for their information. Charles Bell and Cherry Burk of Amarillo faced the crowd lighted by a small bulb, and she showed the women's parts with her hands while he revealed the men's.

There will be a special performance on July 2, Sunday evening. Otherwise the cast will not appear on Sundays, but will play all other evenings through Aug. 26.

For tickets and information, write Box 268, Canyon, Tx. or call 806-655-2182
